## PRIMARY BILL IS PASSED BY IDAHO'S HOUSE

Progressives and Democrats Join in Solid Support of the Measure by Ada County Republicans

BOISE, Idaho, Feb. 6.—(Special to The News.)—With progressives and democrats in the house voting for the primary bill introduced by Ada county republicans, the bill passed the house late Tuesday afternoon by a vote of 48 to 19.

Explanation by progressive members of their vote for the republican measure was epitomized by Representative Williams of Minidoka county, that "it is the best we can get."

With Representative Congdon of Ada county, speaking for the measure, and Representatives Katerndahl and Mounson against it, the only votes were found in the republican column.

How They Voted. Following is the vote: Ayes—Abercrombie, Allen, Barbee, Bonner, Bradwell, Bloomer, Bottiforen, Boyle, Brainerd, Braudt, Brucem, Call, Campbell, Clark, Congdon, Coulter, Darrow, Galbraith, George, Gills, Hogan, Hull, Jarnagin, Keaton, Kingsford, Kirby, Knox, Lloyd, Marvel, McBurney, McClung, McComb, Parker, Pock, Priddy, Raymond, Smith, Soaner, Stridgen, Talbot, Taylor, Whitehead, Williams (Minidoka), Williams (Oacada), Wilson, Kiker.

Nays—Anderson (Bonneville), Anderson (Bingham), Anderson (Latah), Barnard, Egehart, Eitzen, Fox, Gata, Hagan, Huffaker, Johnson, Katerndahl, Lane, Monson, Reynolds, Sanborn, Spence, Swift, Thomas.

VOTES DOWN PROPOSAL FOR ALBION NORMAL REMOVAL. BOISE, Idaho, Feb. 6, (AP)—The house of representatives of the 17th state legislature today passed a house bill number 40, introduced by a faction of the republican party by a vote of 48 to 19. Progressives and democrats stood with the so-called "insurgent" group in passing the measure.

Defeat of the Albion Normal removal bill was one of the outstanding features of today's session of the legislature when the measure sponsored by Senator Jones of Banneek county, (Continued on Page Five)

## WELCOME WAITS RETURNING MEN

Savannah Rehearses Plans for Enthusiastic Reception for Troops from Rhineland

ABOARD THE ARMY TRAINS. PORT ST. MICHIEL, Feb. 6, (AP)—Members of the army of occupation returning from the watch on the Rhine aboard the transport St. Michiel are pacing the docks in the rain impatiently, awaiting their first glimpse in five years of the United States. Preparations have been made for the reception planned upon arrival of the ship at Savannah at 11 o'clock tomorrow.

## Klan Takes Part in Services at Burial of Missoula Citizen

White Robed and Hooded Delegation Appears Without Warning at Cemeteries

MISSOULA, Mont., Feb. 6 (AP)—Appearing mysteriously and without any warning, six members of the Missoula chapter of the Ku Klux Klan clad in white robes and hoods, today took part in the funeral ceremonies at the grave of Fred Maclean, age 23, who died here Sunday. The klansman carried out ceremonies and three of them stood on each side of the casket. The leader made a sign of the fiery cross and the klansmen extended their arms, the stems of the carnations meeting to form a cross.

## GIVE BATTLE TO DRY LAW AGENTS

Alleged Bootleggers Hold Off Prohibition Officials in Fight in Maryland Hills

WASHINGTON, Feb. 6 (AP)—A battle between 15 prohibition enforcement agents and a score of alleged bootleggers took place today in a driving snow storm in Prince George's county, near Walnut, Md., and did not end for three hours, when the bootleggers are said to have run out of ammunition and escaped in the woods. One man, who refused to give his name to the agents, was brought to hospital here and was said to be in a serious condition with a bullet in his head. He is between 20 and 25 years of age.

The prohibition agents, it was said, were in search of stills and other illegal apparatus for manufacturing in toxicants and were armed with riot guns and 45 caliber revolvers. Their opponents also were said to be well armed and the battle took place in open fields, the maneuvering covering a mile of territory. The officers carried away a few manufacturing tools before long, it was declared, by reinforcements the alleged bootleggers had summoned, armed with sawed-off shotguns. More than 100 shots were exchanged, it was said.

Big Stills Objective. The raid, which was directed against two of the largest known stills in Maryland was conducted by Washington officers under the direction of Lieutenant O. T. Davis, and was said to be the sequel to the wholesale raids made in the capital last week when a considerable amount of liquor was seized and numerous arrests made.

## The Day in Washington

(By The Associated Press) A congressional delegation left for Savannah to welcome American troops returning from the Rhine. Continuing consideration of the army bill, the senate centered debate on the \$56,000,000 rivers and harbors item. Investigation of conditions at the veterans' bureau was urged in the house by Representative Larsen, democrat, Georgia. Enactment of legislation for conservation of forests was urged by President Harding in a letter to Representative Clarke, republican, New York. Feasibility of constructing another waterway across the Isthmus of Panama, using Panama canal profits to defray part of the cost was discussed at a cabinet meeting. President Harding put the finishing touches on a message to congress urging, it was said, modification of the debt funding law to permit approval of the settlement negotiated with Great Britain. The national committee for defense of the federal water power act sent to every member of the

## FRENCH DESIGN PLANS TO MEET RAILWAY TIEUP

Hope That German Transportation Workers Will Return to Their Posts Abandoned; Cuno's Influence Is Seen

DUESSELDORF, Feb. 6, (AP)—General Weygand and M. LeTroquer, the French minister of public works, arrived here today for their third visit since the occupation. They found the railroad strike so effective that they had to motor from Aix la Chapelle. They were accompanied by Manager Boue of the Nord railroad. A conference General Degoutte's headquarters dealt particularly with the situation created by the complete railroad strike. Efforts will be directed to improve the services for the transport of food to the armies and civil populations and also to operate a 20 per cent of normal passenger schedule. It is understood that every railroad station in France will send a certain percentage of its trained men from all departments.

Cuno's Influence Seen. The efforts of the "committee for the defense of the Ruhr," formed under Chancellor Cuno's direction, are beginning to be seriously felt. This committee at one time was presided over by Burgomaster Schmidt, who, however, recently was expelled from Dueseldorf. The French have abandoned hope of the German railroad men resuming their posts; they are now trying to live on the same standard as when working.

Essen is completely isolated from telephonic and railroad communication and business men and bankers are moaning to Dueseldorf and Gelsenkirchen to transact their affairs with customers. The house of Krupp had had to establish a messenger service to Gelsenkirchen to handle the firm's business. The French aver that Hugo Stinnes' visit to Essen is partly responsible for the renewed resistance of the German leaders.

Pedestrians Fill Road. The road from Dueseldorf to Essen and Gelsenkirchen is filled with foot-wary pedestrians laden with packages, who look scowlingly at passing motors as they plod along between the villages and towns in the absence of trains. The correspondent met 50 automobiles, loaded with prosperous-looking Germans bound for Gelsenkirchen and Dueseldorf, on the short trip between the cities.

The rails on the main lines are rusty from lack of traffic and continued rains. The stations and railroad yards are assuming the appearance of abandoned buildings of once prosperous mining towns. The French announce officially that the Dueseldorf customs receipts, since they took charge of the collections a week ago, have reached a little more than 200,000,000 marks. The French officially admit that the Ruhr coal production has dwindled to 25 per cent of normal since the occupation. In normal times the Ruhr industries used 40 per cent of the output of the coal mines.

## Hopes for Speedy Peace in Near East Fail When Ismet Quits Parley to Consult Chiefs

### ISMET DECLARES HE IS LAST TO DEPART FROM PARLEY SCENE

Claims Recognition for Sacrifices Made by Turkey at Lausanne; Sues Continuing Conference

LAUSANNE, Feb. 7 (AP)—Ismet Pasha issued the following statement at 1:30 o'clock this morning: "We came to Lausanne November 15 to make peace with the world. We made maximum sacrifices during the entire conference, and the world's public opinion will recognize this. Recently we made our propositions in response to allied proposals, and we have not received any reply in writing. "I observe that all other delegates have departed for their capitals. I have received no communication that the conference has been ruptured; on the contrary, the secretary general says it has only been suspended. Therefore, I do not deem that the conference has been broken down. "Like the other delegates, and after the other delegates, I will leave this morning to consult with my government at Ankara."

In reply to a question, Ismet Pasha told the Associated Press correspondent that he was ready to return to Lausanne, or go elsewhere, perhaps in three weeks, if the allies wanted to resume the negotiations. To avoid crossing Greek territory, especially the Karaghatch railroad station, which was in dispute at the conference, Ismet is proceeding by way of Bucharest, Constantinople, then by steamer to Constantinople.

## TURKS DECLARE NEXT MOVE IS UP TO ALLIES

Ottoman State Stands on Previous Announcement of Readiness to Sign Part of Treaty Provisions, Leaving Financial and Economic Clauses Among Others for Later Negotiation; Promises Continuation of Armistice

LAUSANNE, Feb. 7, (1:30 a. m.), (AP)—Ismet Pasha will leave here for Ankara at 6 o'clock this morning.

LAUSANNE, Feb. 7 (AP)—All mediation has definitely failed; Turkey will not sign the allied treaty at the present time, even with the latest concessions proposed, and within a few hours Ismet Pasha will leave for Ankara to consult with his government.

So far as its object was to conclude a speedy peace, the Near East conference has failed. Count Masigli, secretary-general, in behalf of the powers, urged Ismet Pasha to remain and continue the negotiations. At the same time, he asked for a clear statement of the points Turkey insisted upon in the treaty.

Ismet replied that the next move was up to the allies, for Turkey stood by her note of February 4, namely, that she would sign now about 80 per cent of the clauses of the treaty, but desired that the others, including the financial and economic clauses, should be postponed for later negotiation.

Ismet added that he needed to consult with his own government, but was ready to resume the negotiations when the allies suggested. As the conference had not officially broken down, the armistice would continue, and he promised to do everything humanly possible to prevent an outbreak of hostilities.

THYSSEN MERCHANT FLEET PLIES RHINE UNMOLESTED. DUESSELDORF, Feb. 6 (AP)—August Thyssen's own fleet of tugs, barges and lighters, flying the Dutch flag of their subsidiary company in Holland, continued to float down the Rhine carrying manufactured articles to Rotterdam for export to foreign countries, especially South Africa.

The Thyssen plants now are working on large contracts for rails destined for Argentina which will keep them busy for several months. They also have extensive orders from England for building materials, steel and iron. They have large stocks of raw material and pig iron and can work full time for six months before their present supply is exhausted.

## BRITAIN HOLDS OUT FOR UNRESERVED ACCEPTANCE

London Officials See Distinct Improvement in Situation as Between Turkey and Allied Powers

LONDON, Feb. 6, (AP)—As between Turkey and the allies the situation is distinctly improved, but it is still doubtful if the treaty will be signed before Ismet Pasha leaves Lausanne for Ankara. The adjourned cabinet council met today without Lord Curzon, who was indisposed, and discussed the subject of the Near East settlement only briefly. The developments include the receipt by the foreign office of a note from Premier Poincare intimating the willingness of the Turks to sign the treaty, but according to information in official circles, with certain reservations or conditions, the nature of which is not definitely disclosed, but which are supposed to concern capitulations and economic questions. In fact, similar reservations to those which on Sunday prevented signature of the treaty.

It is understood that M. Poincare suggested that the signing of the treaty should take place at Paris before Ismet Pasha left for home. The British government's position is that if the Turks are ready to sign unconditionally it is ready to send a representative to Paris to meet Ismet for affixing the signatures, and it is understood that a reply in this sense has been forwarded to the French premier.

## CHICAGO WAREHOUSE BURN

Maximum Regular and One Special Fire-Call Bounded for Fire in Fish-eries Company Plant

CHICAGO, Feb. 7 (AP)—A 4-11 fire alarm, the maximum regular call and one special call, were sounded early today for fire in the Dock Fish-eries company cold storage warehouses at Clark street and the Chicago river. The other warehouses in that vicinity were threatened, firemen said.

## JUSTICE MOVES RAPIDLY

REGINA, Sask., Feb. 6 (AP)—Within five days of the robbery of the express train by a Canadian railway train near here, Douglas Lamont Purdie, alleged to have confessed to the holdup, tonight was on his way to the Prince Albert penitentiary. He pleaded guilty today and was sentenced to eight years in jail.

## WOULD EXTEND YELLOWSTONE

CHERRYBEND, Wyo., Feb. 6 (AP)—State Senator John Dillon, a Greenbacker, today introduced a joint memorial in the Wyoming legislature, asking congress to extend the Yellowstone national park to include the Jackson mountains, nearby lakes and the Teton-Helo country.

## FRANCE ADOPTS BRITISH VIEWS

Poincare Decides Against Exclusion of Economic Clauses From Near East Treaty

PARIS, Feb. 6 (AP)—Premier Poincare, after consultation with M. Bonnard and the other French delegates to the Lausanne conference, decided to associate himself with the British cabinet's decision declining to exclude the economic clauses from the treaty. M. Poincare telegraphed Ismet Pasha tonight requesting that he immediately state the final conditions he is prepared to sign.

PARIS, Feb. 6 (AP)—There is strong hope in Paris that the peace treaty with the Turks will be signed within a few days or weeks; Ismet Pasha, head of the Turkish delegation at Lausanne, is reported to be in a receptive mood. Nevertheless time is important as Ismet has his baggage packed.

Premier Poincare's message to London, announcing that Ismet Pasha now was disposed to sign, has not been answered, and the officials of the foreign office remained there late tonight awaiting word from the British government. If that word is favorable an urgent request will be forwarded to Ismet that he stay in Lausanne a little longer, or come to Paris and sign the treaty.

Pin Hoping on Ismet. Ismet, according to the French, is ready to attach his signature to a treaty embodying all subjects settled in the conference or compromised in the last hurried hours of Sunday, when, as one Frenchman put it, Ismet was as disturbed by hitting for the white flag as Cuno's dithering treaty that he did not realize exactly what was happening.

Another French comment was: "The (Continued on Page Five)

## ITALY APPROVES ARMAMENT PACT

Deputies Act After Mussolini Speaks in Favor of Washington Conference Treaties

ROME, Feb. 6, (AP)—The Italian chamber of deputies today gave its approval to the Washington conference treaties which will be formally ratified by secret ballot tomorrow. Approval was given after Premier Mussolini had spoken in favor of the conventions.

There was a small attendance of the deputies for the reopening of parliament and throughout the sessions the proceedings were uneventful.

Premier Mussolini, amid profound applause from the deputies, declared he did not wish to waste time in the discussion whether the late war was the last war, or only the last war but one. Journalists from all quarters of the globe, he added, had proclaimed that the Washington conference would result in perpetual peace, but the actual results had been quite different. "I don't believe in perpetual peace," exclaimed Mussolini. "I don't think even Kant (the famous German philosopher) believed in it." The premier's words were greeted with hilarity by the deputies.

"There are moments in the history of peoples," Mussolini continued, "when contracts are broken by force of arms. Nevertheless, conventions like the Washington pacts provide breathing spaces. At any rate, I declare that Italy very gladly will join in these conventions, being thus able to approve the accusations that she is a fire-eating nation. The fact that the fascist government asks the chamber to ratify the conventions indicates the fact it intends to take in foreign politics."

The premier's speech was loudly applauded. No other deputies indicating a desire to be heard, the chamber then adjourned, the conventions, which will be definitely adopted on secret ballot tomorrow. The chamber then gave its approval to the treaty of commerce with China.

## NEW YORK PIER ABLAZE

Flames Spread Rapidly from Central Freight Station Over Dock; Fire Boats Tow Lighters Out of Danger

NEW YORK, Feb. 7 (AP)—The New York Central freight station on Pier 24, in lower New York, caught fire early today and within a few minutes half of the pier was blazing. Two fire boats towed away from danger the lighters loaded with valuable merchandise.

# TURKS CONDUCT WARFARE WITH RIGID ECONOMY

Angora Government Fights the Greeks and Holds Off Allied Powers for Four Years Without Printing New Money

PARIS, Feb. 6 (AP)—Turkey is the least bankrupt of any nation that has taken an active part in the world war, according to information reaching here, not excepting England or France. The chief reason is that apparently she conducted her wars since 1914 with the strictest economy. The present Angora or Nationalist government, which has been fighting the Greeks and holding off the Allied Powers since 1919, has resisted the temptation to print any new money. The total pre-war and war debt of Turkey, including the charges that may be sent against her by the Allies or in any treaty of peace to pay damages to foreign nationals, is estimated to run barely above \$1,000,000,000. This sum is regarded as remarkably low when it is compared with that, by way of comparison, France owes the United States a war debt of \$3,400,000,000, and Germany owes the Allies approximately \$34,000,000,000.

From a European point of view the interest in Turkey is partly political, especially in war times, and largely financial in peace times. American interest has been directed toward Turkey in the past few years, being brought up by nothing else, being bought up by American firms.

**Bankrupted by Sultans.**  
An analysis of Turkey's finances shows the sultan's bankruptcy in 1974 after foolish Sultans and their corrupt ministers had contracted unproductive foreign loans. In 1881 Abdul Hamid, in order to satisfy these loans, turned over the salt and the monopoly to an institution known as the Public Debt, to be directed by foreigners until their debts should be paid.

In one way or another Turkey owed abroad in 1914, 165,000,000 Turkish pounds. This unit had a pre-war value of \$4.46. Also she had a funded debt of 152,000,000 Turkish pounds. Of the foreign debt, roughly the equivalent of \$800,000,000, France held 60 per cent, Germany 21 per cent, and Great Britain, Holland and Belgium, about 19 per cent.

Turkey's war debt expenses have been described as "the most amazing thing in the history of world war finance." She ran her own war on a shoestring. When the army needed anything, it seems to have been either requisitioned from the civil population or else the army simply went without it. And this army often numbered 1,000,000 men. In 1915 there was an internal loan of 18,000,000 Turkish pounds, (about \$70,000,000 at the exchange at that time.) Then there was a paper money issue of 164,581,400 Turkish pounds, secured by German government treasury bonds, payable 15 years after the war. Certain supplies in limited quantities were bought from Germany.

These figures have a distinct bearing on the future for those Americans, or others, who wish to live or do business in Turkey.  
According to one American financial expert who has studied all through Turkey, as rarely do the majority of foreign visitors, "If Turkey secures a stable political government and if she frees herself from foreign control, there is no reason why she cannot intensify her agriculture and prosper."

**Americans Watch Situation.**  
Strange as it may seem to the casual observer of the course of post-war nations, this expert asserted that Turkey needs but little foreign money or loans. Here is a problem rather of a sound domestic policy; encouraging the creation of domestic capital through better banks; the opportunity for private mortgages and progressive agriculture.  
Many Americans in Europe are watching keenly the trend of politics leading to peace with Turkey. If new Turkey gets the peace she demands, and if Angora men of the steady sort, such as Mustafa Kemal, Pascha and General Ismet, remain, keep control, it is believed that Americans will do better in Turkey than any other nationality. These Turks take the point of view that those who are not for them are against them, and they have been made to feel, during the four

## RUPPRECHT IN REVOLT AGAINST FRENCH

Crown Prince Rupprecht

**EX-CROWN PRINCE RUPPRECHT** of Bavaria, one of the leading German generals in the World War, has been hailed as King of Bavaria by the Bavarian reactionaries in their protest against the French invasion of the Ruhr. The whole movement is looked upon as part of a royalist effort to overthrow the German Republic and reseat Kaiser Wilhelm.

years that Admiral Mark L. Bristol has been U. S. High Commissioner in Constantinople, that they were not friendly when dealing with Americans.

## MEDICINE MAN DISAPPEARS

Supposition of Powers of Herbs and World Practices Fades from Minds of Indians of Southwest

EL PASO, Tex., Feb. 6 (AP)—Herbs and world practices of the medicine man are a thing of the past, and the medicine is seldom seen any more, says Dr. C. K. Brock of Espanola, N. M., who is attached to Pueblo Indian headquarters in Northern Mexico.

"There are few medicine men among the tribes in Northern Mexico, he said, that they seldom perform except at dances which are given more for amusement of the white man than for anything else.  
"Just recently we sent two Indians to Santa Fe to be operated upon, and the operations were successful, the Indians returning to their tribes cured. This increased the faith of the Indians in hospitals, doctors and medicine. However, before this most of them had given up superstition of the Medicine Man's marvelous power, and were willing to have a doctor when sick."

The doctor said trachoma and tuberculosis are the most troublesome diseases among the Indians.

**Ink 3,500 Years Old.**  
A sample of dried black ink from an inkstand of the time of Amenhotep III, 3,500 years ago, has been analyzed. The ink contained no iron, its pigment being entirely of carbon.

**Her Funny Papa.**  
Seeing her father shaving one morning, a little Brooklyn girl said: "Daddy, why do you wash your face with a little broom and wipe it dry with a knife?"—Boston Transcript.

## WOMAN TEACHES THROG OF HOMELESS WANDERERS

Hobo College "Bridgets" Prospects Students Under Direction of Cabinet Chosen by Themselves

CHICAGO, Feb. 6 (AP)—A throng of homeless men taught to write sentences by a lone woman is the unusual spectacle presented every Monday evening at the Hobo College here. The college is directed by a cabinet of nomads elected by the men themselves. The teacher is Mrs. Francis Donovan, a resident of Hyde Park and author of "The Woman Who Waits," a study of waitresses' life and conditions. Mrs. Donovan seems to enjoy her task, and to command the interest of her pupils.

Two of the most interested pupils are "Scotty," a man of middle life, and his son, a ruddy, spectacled youth in his teens. "Scotty" has a bald head, keen eyes and shoes spattered with mortar—for he is a stonemason's helper, as well as an street speaker. His speech is weighted with imposing Latin derivatives and seasoned with an occasional homely Scottish phrase, replete of the leecher. "I have my own lesson," he told a visitor. "I take such words as fruits and cereals, write synonyms and metaphors for them, and then compose cutty (short) sentences, calculated to make people think."

One of the few nomads who has remained in attendance since the college opened last autumn is a young bearded dreamer. "I am one of your students," he said, "and I like the philosophy of the doughnut: the bigger the doughnut, the bigger the hole."  
A stage has been equipped with odds and ends gathered by the pupils and plays were produced at the college until the director felt the pangs of starvation and went to work.

## CHINA TO PROTECT TREES

Undertakes Preservation of Forests Planted by Germans During Their Occupation of Kiaochow

TSINGTAO, Feb. 6 (AP)—Restoration of Kiaochow leased territory to China by Japan has given the Chinese department of agriculture a new task in the preservation of millions of trees planted by the Germans during the occupation. Even in the recent period of transition, when Japanese vigilance became relaxed the Chinese population of the territory began cutting trees. Up to that time the Japanese had protected trees and shrubs with the utmost rigidity—so much so that anyone tearing a root from the ground without authorization was subject to severe penalty.

The department of agriculture is alive to the danger threatening groves and forests in the restored area and is taking steps toward conservation, but fear is felt even by representatives of that ministry that the measures possible in the present financial state of the government will be inadequate to stem the damaging of the territory.

**3,000 JAPANESE WANT BRIDES**  
SEOUL, Korea, Feb. 6 (AP)—Three thousand Japanese men resident in Seoul are calling for brides from the home country because of the lack of a sufficient number of Japanese women in Korea. The newly established matrimonial bureau of the Korean government general received the answer of the first applicant in response to its advertisement. It is that of a young Osaka woman, graduate of the girls' high school.

# TAKE SALTS IF RHEUMATISM IS BOTHERING YOU

Tells Rheumatism Sufferers to Take Salts to Get Rid of Toxic Acid

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions; it is one of the most painful. Those subject to rheumatism should not do anything for awhile, dress as warmly as possible, avoid any sudden exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and causing stiffness, soreness and pain, called rheumatism.

At the first tinge of rheumatism get from any pharmacy about four ounces of Jal Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jal Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.—adv.

## FIGURES WOMEN'S WAGES

TOKIO, Feb. 6 (AP)—Tokio women workers earn an average of Yen \$1.15 a month, as teachers, typists, nurses, office clerks, sales ladies and telephone operators. This, roughly, is equivalent to \$20.50 in American money. Ninety-nine per cent of the women workers, excepting teachers, are unmarried.

# WARNS AGAINST WILD CAT STOCK AND BOND DEALS

### Increasing Efforts of Financial Sharppers when Victory Notes are Redeemed Brings Statement from Treasury

KANSAS CITY, Mo., Feb. 6 (AP)—Persistent and increasing effort on the part of unscrupulous brokers and financial sharpers to secure control or possession of maturing Victory Notes and War Saving Certificates in exchange for questionable or worthless bonds and stocks has impelled the United States Treasury Department to repeat the warning issued by Secretary Mellon at the first of the year to holders of such government securities. John A. Prescott, president of the Investment Bankers Association of America said here today.

"In addition the Department has strongly endorsed the action of the Investment Bankers Association of America which recently adopted a resolution prohibiting its members from conducting campaigns for the trading out of Liberty Bonds, Victory Notes and War Saving Certificates into other securities," added Mr. Prescott who received today the government's endorsement and approval of the Association's action.

**Lends Fertile Field.**  
The president asserts that the present redemption of Victory Notes and War Savings Certificates, amounting in the first case to a total of 4700,000,000 and in the other to the sum of \$825,000,000, lends a fertile field to the activities of such unscrupulous stock promoters.

"These maturing Government securities are held by a large number of people who invested in them during the war from patriotic motives but who never before had made any investments and who therefore have little or no experience in such matters," says President Prescott. "It is this class of men and women who are being imposed upon by the promoters of fraudulent securities."

"To protect people who apply to them for advice in this matter, many bankers are strongly recommending the reinvestment of such funds in other Government securities or other sound investments of proven worth."

"The resolution adopted by the Investment Bankers Association of America declares all members of the association here requested to refrain from any campaigns conducted either by public appeal, circular advertisements, or the concerted action of the part of the members which have for their purpose the inducing of owners of United States Government securities to exchange same for other forms of investments and that all members of the association are urged to use all possible influence in causing others to refrain from using similar campaigns."

**Bankers Suggest Rules.**  
"The following simple rules have been suggested by investment bankers of wide experience as an aid to investors:

- "Rule 1—Never permit a salesman to rush you into buying by the argument that the securities will be sold over night.
- "Rule 2—Take the literature and the salesman's statements to your investment banker for analysis and investigation.
- "Rule 3—Confine your investment transactions to investment houses and bankers of established reputation and responsibility.
- "Rule 4—Do not deal with total strangers.
- "Rule 5—if your commercial or investment banker's recommendation is to let the securities alone, do so.

"The Treasury Department states that there are still more than \$200,000,000 of U. S. Victory Notes and Bonds which were called for payment on December 16th but have not been presented for payment.

"The Treasury Department further announces that it will retire the uncalled Victory Notes at any time, at 100 and accrued interest, if presented for payment."

## RED PEPPER FOR COLDS IN CHEST

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red pepper, and when heat penetrates right down into cold, congested, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the aching spots are warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a tin of Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known.—adv.

## HEAD OF GREEK CHURCH IN CONSTANTINOPLE

HERE IS His Holiness, Melchior, Patriarch of all the Greeks, whose office corresponds to that of the Pope in the Roman Catholic Church. The photograph was made on the steps of the Patriarchate, at Phanar, Stamboul, the Turkish quarter of Constantinople. The Patriarchate has been the residence of the spiritual head of the Greek Orthodox Church for 600 years, but the Turks are threatening to expel him. The Patriarch is closely guarded because of Turkish threats of assassination.

## ARBOR DAY OBSERVANCE DATES BACK 1500 YEARS

Arizona's Celebration of Annual Event Recalls Tree Planting Festivals Originated in Switzerland

COLLEGE STATION, Texas, Feb. 6 (AP)—Observance of Arbor Day which is being celebrated in Arizona today by planting trees, dates back about 1500 years, according to the generally accepted history of the day, as set forth in a bulletin by the Texas state forester, suggesting appropriate exercises for the day.

The bulletin says that 1500 years ago in a little town in Switzerland a decision was reached to plant an oak grove on the common and a special day was set aside for the work. Every one in the village took part, the women carrying water, the men digging and transplanting trees. In the evening there was a festival for the grown folk and a whetstone was given to each child. For years the anniversary of the day was observed in that village by feasting and games and the children paraded carrying oak branches.

The state of Nebraska is said to have been a leader in the Arbor Day observance in America. In 1872, J. Sterling Morton suggested to the governor that a day be set aside for systematic planting of trees. Since then more than 300,000,000 trees are said to have been planted by Nebraska school children.

In 1889 the Texas legislature designated February 22, Arbor Day.

## JAPAN COPPER TRADE BETTER

TOKIO, Feb. 6 (AP)—The copper market which had long been suffering from depression shows signs of improvement. The recovery is apparently due to the raising of the tariff on the import of copper which went into force earlier in the year. Formerly duty on copper was 1.20 yen per 100 kin and was raised to 7 yen per 100 kin.

# CALL FOR HELP PUTS CRIMP IN CHARITY DOLES

### Bread Lines Disappear in the Country as Employment Situation Reaches Point Where Few Lack Jobs

CHICAGO, Feb. 6 (AP)—Bread lines in the mid-west have been nearly eliminated and unemployment greatly reduced this winter according to reports from state labor departments, industrial commissions, employers associations, and employment bureaus.

The causes were given as improved industrial conditions, mild winter and considerable out of doors work for common labor. An exception was reported at Cincinnati in a floating negro population, out of work whose presence is attributed partly to migration to northern jobs during the rail strikes last summer and partly to layoffs from work on two government dams near the city.

The northwest generally reports a demand for lumberjacks, with considerable call also for building workers and common laborers.

At Columbus the State City employment bureau estimated 2000 men out of work, compared with about 15,000 a year ago. The Employers' Association of Detroit, representing 70 firms, reported in mid January 1923, 607 men and women employed, and estimated the employed at 300,000 to 350,000. It is said more are employed now in Detroit than ever before in the city's history.

## Labor Board's Report

The Associated Employers of Indianapolis reported employment so nearly normal that no effort has been made to check the total out of work. Welfare organizations in Louisville reported no authoritative figures but said the unemployed were not numerous. At St. Louis the State Labor Bureau estimated about 5000 out of work compared with 45,000 last winter. Some former brewery workers were reported among the unemployed.

In Illinois the state Department of Labor estimated 14.5 per cent more employed, amounting to 110,000 men, than a year ago. The State Labor Commissioner of Iowa estimated the unemployed at less than 20,000 compared with 40,000 last year.

The U. S. Employment bureau at Milwaukee estimated the number out of work as small, while the State Industrial Commission office at Madison reported employment conditions fairly satisfactory, due to heavy logging and to building. At Great Bay employment managers speaking for the Fox river valley asked an unprecedented call for lumberjacks. They reported building operations absorbing labor and demand for woodmen and for mine workers. Expecting a heavy demand for iron ore when lake shipping opens, winter stripping was in progress at three mines, Duluth steel

mills, closed last winter, now employ about 3,500.

In Sioux Falls, South Dakota, the Secretary of the Chamber of Commerce, noted the mild winter as one cause for employment. The unemployed were called negligible.

There is an improvement of from 40 to 60 per cent in the unemployment situation in Minnesota now in comparison with the same period last year, according to the state employment bureau. None of the larger cities have bread lines this winter, whereas in the larger cities where there has been a marked shrinkage in the situation wanted and an increase in the help wanted columns.

In all Kansas only 5,000 are unemployed compared with 10,000 a year ago, according to Richard H. Jones, director of the United States employment service at Kansas City. Only a normal number of unemployed are reported in Kansas, Missouri, Iowa, Nebraska, North Dakota, South Dakota and Minnesota, according to reports to Director Jones.

Most reports mentioned bread lines only to say they no longer existed. The Volunteers of America at Oklahoma City reported a daily bread line of about 50. A 25 per cent improvement compared with a year ago was estimated for Oklahoma City. Attention was called throughout much of this territory to increased help wanted advertisements. One Indianapolis publication noted a 75 per cent increase in female help wanted ads.

## Want Ads Tell Story

This improvement is borne out in the want ad columns of newspapers in the larger cities where there has been a marked shrinkage in the situation wanted and an increase in the help wanted columns.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

## NUMBER "FOUR" IN JAPAN IS CONSIDERED UNLUCKY

TOKIO, Feb. 6 (AP)—The number four in Japan it being pronounced "shi", which also means death, is regarded as most unlucky. Therefore Japanese hospitals avoid numbering a room four. People who are not superstitious, however, prefer this very room because the room being less frequently used, is cleaner.

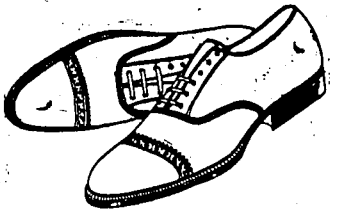

## ROAD TO GLACIER PLANNED

BOULDER, Colo., Feb. 6 (AP)—Construction of a road from Boulder to the Arapahoe glacier, in Boulder county, will be undertaken next summer, according to county officials. An appropriation of \$12,500 will be expended on the project.

It's toasted. This one extra process gives a delightful quality that can not be duplicated.

Shoe Men Set New Record on Alleys

Break League High Mark for High Game While Taking Rondahl-Wright to Cleaning

After losing the first game by a wide margin, in tournament play Tuesday evening, the Shoe Market bowlers came back strong in the last two and gave the Rondahl-Wright quiet a walling.

In the third game the Shoe Market brigade broke the league record for high games when they toppled over 863 pins, the previous record of 850 pins being held jointly by the I. D. players being held by the Wright's store five.

The real thrill of the evening was furnished by Jake Yochem of the Shoe Market team. Jake picked up the 7 and 0 split in the third inning of the second game, and in the seventh frame of the last game he picked up the 5, 7 and 10 split.

The first game went to the Mechanics by a score of 835 to 674. Percy Thompson had high in this game with 182.

In the second game the Salmonites woke up and toppled over 804 pins with the Auto men tying up at 719. Walter Buchanan had high in this game with 180.

The third game was the real one for the Shoe Market with 863, the auto gang stopping at 771. Hulihan made the rest sit up and take notice with 191 in this game.

There wasn't much to choose between the total pins of the two teams, the Shoe Market knocking over 2341 and Auto men demolished 2325.

Jimmie Hulihan had high average for the three games with 173.

The reason the Shoe Market won:

Rondahl-Wright	1	2	3	Totals
Self	170	146	171	487
Asbury	180	114	108	402
McRill	156	144	122	422
McCracken	147	154	170	471
Thompson	182	161	140	483
Totals	835	719	771	2325

Shoe Market	1	2	3	Totals
Lewis	125	133	174	432
Buchanan	113	180	145	438
Hulihan	149	178	191	518
Yochem	156	147	160	463
Salmon	131	166	173	470
Totals	674	804	863	2341

SHOE POLISH AND GREASE

The Shoe Market bowled the poorest and best games of the evening. Their 863 game was a dandy.

Jake Yochem's work in picking up those two splits was the prettiest of the season.

If he hadn't picked up two of them the first one would have been called luck.

Walter Buchanan used Cubit's bowling shoes in the second game and rolled 180. It must be in the shoes.

Jimmie Hulihan was seeing them mighty well last night. He was the only bowler to pass 500. Watch out for Hulihan.

Self fell down a bit in the second. Perhaps he didn't want to be "Self" ish.

Percy Thompson bowled about normal, although he had a nice game started in the second, but slipped back a bit after a foul had been called. Percy tried to see if he could beat the ball down the alley.

McRill didn't do as well as usual, sliding to 123 in the final game.

McCracken looked pretty nice, and throws a dandy ball. Watch Mac in another two weeks.

"Dug" Salmon came through with 470 knocked over for the evening.

The old war horse had his hook ball working in nice style.

Hugh Lewis although under the weather got away with 174 in the last game.

A large crowd attended the games, seats being at a premium.

Tonight the I. D. Store team will battle with the Idaho theatre boys for first place, although the theatre lads feel confident that when the smoke clears away they will be at the top.

There will be a double-header played Friday evening, the "L's" and "B's" finally getting together for their tilt. The "initial" game will start at 7 sharp, with the butchers playing their three games immediately after.

The "L's" have a classy outfit, and on paper have a slight edge, although the "B's" are not the poorest bowlers in town.

Livville, Charley Larsen, Lewis, C. O. Larson and Bob Logan are the five master bowlers who will defend the honor of "L's."

The "B's" have Hugh Boone, A. C. Boone, Buchanan, Bailey and Charley Brueggeman for their side.

This game should bring out some classy bowling, as every member of the two teams is a top notcher.

Several members of the Idaho Power company were seen swatting the maples Monday evening, and there is a possibility that there will be an Electrical team in the near future.

A fat man's team is also under way with the clever Mark Murtaugh in charge. Mark says that there is plenty of material if they will only come out and practice.

Maybe some of them wouldn't stoop to bowl.

Our daily bowling thought: If the Mauritania came into New York harbor three hours late, would she be docked?

RUPERT'S BASKET BALL TEAM WILL PLAY HERE

Snappy Hoopsters Scheduled for Match with Blue and White Squad on the Twin Falls Floor

The Rupert basketball team will invade the local gym next Thursday evening for the return game with the blue and white hoopsters.

Coch Evans has been putting his men through some hard practice this week, and is figuring on making it two tonight from the Eastenders.

Rupert has a snappy team, and although it has not tangled this season with Burley, it is said that both teams are about equal as far as team work and speed is concerned. Twin Falls lost two games to the Burley outfit, but it is the opinion of a good many fans that should the two teams meet in the finals, the Twin Falls team would be victorious.

The girls' basketball team of the local high will play the Hollister girls in the opener Thursday evening, the girls' game starting at 7:30 sharp.

STAFF OLIMPIES TITLE TO SKATING CHAMPIONSHIP

ST. PAUL, Minn., Feb. 6 (AP)—Art Staff of Chicago, tonight won the national indoor professional skating championship, winding up a two-day meet with a total of 200 points and winning four first places.

Staff clinched the title by winning the quarter-mile event in 37.15 seconds, a new record here. Arrangements are under way to match him with Oscar Mathisen of Norway, world's champion.

DUNDEE LOSES TO JULIAN.

BOSTON, Feb. 6 (AP)—Tony Julian of Brockton tonight was awarded a decision over Johnny Dundee of New York, junior lightweight champion, after ten rounds of fighting.

SILVA AND BUFF DRAW

FRESNO, Cal., Feb. 6 (AP)—Teddy Silva of Los Angeles, and Johnny Buff, former bantamweight champion, fought a four round draw here tonight. Silva sent Buff to the canvas twice in the first round. The decision of the judges was jeered by the large crowd.

STEECHER DOWN MARTINSON

BLOOMINGTON, Ill., Feb. 6 (AP)—Joe Steecher, Nebraska wrestler, downed Paul Martinson, of Chicago, in two straight falls here tonight, and Paul Prehn, wrestling coach of the University of Illinois, threw "Cy" Martin, middleweight champion of Canada, in two straight falls.

YOKEL TROWS BUTLER.

PORTLAND, Ore., Feb. 6 (AP)—Using the well-known pin with trilling effect, Mike Yokel, Salt Lake light heavyweight grappler, threw Oscar Butler, local wrestler, here tonight. There was one fall and that came at the end of one hour and 25 minutes of wrestling.

DEMPEY GOES TO FATHER.

MIDDELDI, N. J., Feb. 6 (AP)—Jack Dempsey, world's champion heavyweight boxer, left here tonight for Salt Lake City, Utah, to be at the bedside of his father, Hiram Dempsey, who is critically ill.

LANDLADY DISCREDITS STORY OF COUE'S CURE

Alleged Paralytic Suffering as Subject for Experiment of Auto-Suggestion, Walked Before Treatment

CHICAGO, Feb. 6 (AP)—Otto R. Kropp of Milwaukee, Wis., said he had been a paralytic, walked across the stage at Orchestra hall today upon the suggestion of Emil Coue, the French exponent of auto-suggestion.

Kropp was one of 25 volunteer patients who sought to engage the visitor's attention.

Kropp said he had been unable to walk for a year.

SUFFERERS FROM RHEUMATISM

MILWAUKEE, Wis., Feb. 6 (AP)—Otto R. Kropp, Milwaukee, well known in sporting circles here, is reported to have been afflicted with rheumatism for some time, but was able to walk without assistance or even a cane during the last three days, according to his landlady, Mrs. Fred W. Robinson.

"Mr. Kropp has been suffering from rheumatism but for the last three weeks has been able to go about without assistance, or with a cane, and for the last three days did not even use a cane when walking," Mrs. Robinson said this afternoon.

EXONERATES THOSE CONNECTED WITH FIGHTER'S FATAL HURTS

NEW YORK, Feb. 6 (AP)—Absolution from criminal responsibility was given late today by District Attorney Dodd of Brooklyn to all those connected with the death of Antonio Ferralino, New York pugilist, known as "Andy Thomas," who died this morning from a hemorrhage of the brain suffered during his bout with Johnny Clinton in Brooklyn last night.

District Attorney Dodd said the death was an unfortunate accident and that there were no grounds for making arrests. He ordered the investigation closed. Medical Examiner Vaughan, who performed an autopsy, previously had declared that the hemorrhage was induced by blows received during the fight.

Chemistry's Magic Wand.

In 1835 the incandescent light was a luxury. Aluminum was almost as hard as silver until chemists discovered how to extract it from clay. Silicon, essential in making fine steel, once sold for \$100 an ounce.

In Praise of Agriculture.

Agriculture is the mother of all sciences; for it turns earth, and even manure, into gold, conferring upon its cultivator the additional reward of health.—Chaffield.

SOLONS DEBATE ARMY MEASURE

River and Harbor Provisions of Military Appropriation Bill Draw Fire

WASHINGTON, Feb. 6 (AP)—Consideration of the rivers and harbors provisions of the annual army appropriation bill occupied the senate six hours today and was still under discussion when recess was taken.

Acceptance by the senate committee of an increase of more than 100 per cent in the item over the budget bureau's estimate was acknowledged by several senators as embodying a death blow to the whole budget theory, and was defended by others as an effort to provide sufficient funds for army engineers to carry out carefully considered projects already approved by congress.

The senate defeated, 46 to 15, an amendment offered by Senator McCumber, republican, North Dakota, which would have set aside \$250,000 from the lump appropriation of \$58,589,910 for improvement work on the Missouri river between Sioux City, Iowa, and Fort Benton, Montana. Mr. McCumber declared special construction was necessary in that stretch to prevent further erosion of the banks with consequent destruction of government and private property and the blocking of approaches to river terminals.

Senator Lenroot, republican, Wisconsin, newly appointed assistant floor leader, declared the amendment meant a reversion of the established policy of lump sum appropriation and added that if adopted the senate might as well go a step further and repeal the budget law. He was joined by Senator Washworth, republican, New York, also assistant leader, and chairman of the sub-committee which reported the bill. Mr. Wadsworth opposed the attempt to make specific appropriations for individual projects.

The New York senator in opposing the attachment of this bill to the army bill, declared that as a result of the substantial cut which had been made in purely military items, "The United States army has ceased to exist."

Canada's Wealth of Peat.

Peat bogs in Canada are said to hold the equivalent of 5,400,000 tons of coal.

McKOLIN GIVES UP STUDIES DETAIN MORSE BROTHERS

Former Mayor of Mer Rouge, Under Charge Against Men on Way to Stand Trial in War Fraud Case

BALTIMORE, Md., Feb. 6 (AP)—Rather than bring undue publicity upon the Johns Hopkins medical school, Dr. B. M. McKolin, former mayor of Mer Rouge, Ind., today decided against re-entering the institution for the purpose of continuing his post graduate course. Dr. McKolin was released by the Louisiana authorities in \$5000 bail pending the completion of the investigation into the Morehouse parish murders and kidnappings of last August. Dr. J. Whitridge Williams, dean of the school, stated that Dr. McKolin was a student at the school last fall, he had every right to return if he wanted to. Dr. Williams, however, told Dr. McKolin that the school has been criticized for having him there and if "could release us from our obligation we would be pleased."

New York Authorities Prefer Another Charge Against Men on Way to Stand Trial in War Fraud Case

NEW YORK, Feb. 6 (AP)—Benjamin and Harry F. Morse, arrested as they were passing through New York in a sleeper this morning and arraigned on a federal indictment charging them with conspiring with Charles W. Morse, their father, and 21 other defendants, to use the mails to defraud steamship stock purchases, into today obtained writs of habeas corpus.

Federal Judge Winslow made the writs returnable next Tuesday and they were released under \$15,000 bail each. The brothers, seized as they were journeying from New England to Washington to face trial there for alleged war frauds, contended their detention here was illegal.

# PAVE WAY FOR DEBT FUNDING

### Republican Leaders Proceed With Plans While Awaiting Presidential Action

WASHINGTON, Feb. 6 (AP)—Although President Harding deferred today the sending of the British debt settlement agreement to congress, republican leaders went ahead with the plan for promoting the legislation necessary to give the agreement effect. The program calls for house action not later than early next week, with senate passage before the end of the month.

President Harding is expected to transmit the agreement to congress tomorrow with accompanying message in writing, but whether he will suggest the specific form of the congressional enabling act still was undecided tonight. Some republican leaders in congress were of the opinion that the executive might leave this for their decision.

#### Favors Amendment

Mr. Harding was represented today as favoring an amendment of the existing law rather than a formal resolution merely approving the British settlement, and some of the administration leaders at the capital were in agreement with him. One argument advanced in favor of the law amendment process was that it would be more difficult to attach to such legislation a resolution which would be the case if a resolution for approval were brought out. Republican leaders in the house were understood to contemplate consideration of the legislation by the house under a special rule which would limit both the time of debate and the number of amendments that might be offered to the legislation, as it would be reported from the ways and means committee. This tentative program would contemplate house action in a single day.

#### Ship Bill Figures

After the bill reached the senate, it would be referred to the finance committee and there was a suggestion that it might be held back there for a few days while another effort was made to bring the administration shipping bill to a final vote. This measure is the unfinished business in the senate and Chairman Jones of the committee, planned to call it up immediately after the passage of the army appropriation bill. Should it prove impossible to obtain early action on the shipping bill, it was the expectation that it would be laid aside for consideration of the debt legislation.

### ADMINISTRATION FAVORS NEW PANAMA WATERWAY

#### Use of Canal Profits for Construction of Second Cut Across Isthmus is Proposed at Cabinet Meeting

WASHINGTON, Feb. 6 (AP)—President Harding's administration favors application of the profits accruing from operation of the Panama canal to the construction of a new inter-oceanic railway, it was said today by a White House spokesman. The question was up for formal cabinet discussion this afternoon, and although no definite project has been outlined, the cabinet talk was described as "extremely interesting."

Impetus was given to the discussion by Secretary Weeks' explanation to his cabinet colleagues of the striking increase in traffic on the canal since last month, when the records showed a 50 per cent greater movement than a year ago. Canal tolls collections have mounted, the cabinet was told, until there is a steadily increasing monthly balance above cost of operation. Presumably it was this fact which brought about the administration's decision that canal profits go toward construction of a new canal from the Atlantic to the Pacific.

The outstanding feature as to the increasing canal traffic, it was stated, was the growth of business from coast to coast. Administration officials have seen concrete evidence recently of probable further growth of this inter-coastal business. Within the last few days Secretary Weeks has been approached by interests seeking to buy two army transports for conversion into refrigerated ships to carry specific coast fruit to eastern markets. He was told that it had not been possible to obtain a sufficient number of suitable vessels for this work from the shipping board.

Such comment as was available in cabinet circles favored the Nicaraguan canal route, if a new canal project was to be put forward. The method of increasing the traffic capacity from ocean to ocean, it was pointed out at the war department, would be to double the lock facilities of the Panama canal, but it was added that both from a military point of view as to defensibility, and because it would shorten the trip from coast to coast by some five days, the Nicaraguan route appeared most desirable.

Superstitious Engineers. Many locomotive engineers regard it as unlucky to enter the cab with the left foot first.

### INDEPENDENTS DEMAND OIL PIPE LINE SERVICE

#### Refiners Call on Senate Investigators to Make Compromise Common Carriers in Fact as Well as Name

WASHINGTON, Feb. 6 (AP)—Demand that pipe line companies be made common carriers in fact as well as in name, was presented to the senate oil investigating committee today by half a dozen independent oil refiners.

The witnesses represented refiners in Kansas, Oklahoma, Texas and Pennsylvania and all made the complaint that although pipe line companies were made common carriers by act of congress in 1906, the larger pipe line concerns at no time have furnished the service to independent producers of oil which is generally expected of free and open transportation companies.

"Although the pipe lines have been classed as common carriers for years," Benjamin F. Brundage of the Brundage Oil Corporation of Oil City, Pa., one of the witnesses, said, "it should be noticed the pipe line companies have studiously avoided business from the small independents, rather than sought it."

Recommendations were made by the witnesses that interstate commerce commission authority be modified to reduce from 100,000 barrels the minimum tender of crude oil which a shipper is required to make; that every relay point on a pipe line be made a possible delivery point, and that a complete divorcement of pipe lines from producing companies be brought about. The committee took various recommendations under consideration and indicated it would deal at some length with that phase of the oil industry in its report to be presented to the senate prior to adjournment of congress. The committee tomorrow will hear Herbert G. Wiley, president of the Mexican Petroleum Company, Ltd., one of the Doherty corporations, and is expected to go into the subject of Mexican production and its effect on oil prices in the United States.

### ALIEN PROPERTY RETURN FAVORED

#### House Committee Puts Finishing Touches on Bill for Surrender of War Seizures

WASHINGTON, Feb. 6 (AP)—The administration measure proposing return of many millions of dollars' worth of enemy alien property seized during the war was formally approved today by the house interstate commerce committee after it had been amended in many important particulars.

Aside from the original proposal for return of as much as \$10,000,000 of each trust fund held by the alien property custodian, the measure carries the following provisions:

Return to the original owners, other than enemy aliens, of their stocks in corporations, companies, partnerships or associations in such cases where a majority of the stock was owned at the time of seizure by other than enemy aliens.

Restoration to the original owners of all patents seized and not now in litigation and not sold to or licensed by the war or navy departments.

Retention of Berge's Interests. Prohibition against the return of any part of the property of Grover Cleveland Berge, a escaped draft evader, or other persons fugitives from justice of the United States or any individual state.

Under the \$10,000 return provision, Colonel Thomas Miller, the custodian, estimates that approximately 28,000 trusts of less than that amount in total value would be completely liquidated and that \$10,000 each would be paid out of 2,200 trusts aggregating more than the \$10,000 limitation.

This provision would permit the custodian to turn back outright, about \$14,000,000 of the approximately \$350,000,000 of property now held by him. This would leave about \$300,000,000 to guarantee payments of American claims against Germany in addition to the \$200,000,000 worth of the once German owned ships which the American government now holds.

### GIVE BATTLE

(Continued from Page One)

300 gallon triple condenser and a 200 gallon "doubler." At the still they also found 25 tubs containing 25 cases of corn whiskey as well as 75 cases of the whiskey ready for shipment and 200 cases of empty gallon jugs.

In Wholesale Quantities. One hundred yards away an eight-room house contained more than 25 cases filled with corn whiskey, estimated at 1,000 gallons, ready for shipment. A half mile away was the other plant where were found two 300-gallon stills, 250 gallons of whiskey ready for shipment, and 18 tubs containing 25 gallons of corn whiskey. More than 25 cases of such liquor also was found nearby as well as 51 mash boxes containing 31,400 gallons of mash. All of this was destroyed.

### FRANCE ADOPTS

(Continued from Page One)

conference door is not closed; it is ajar."

Lord Curzon's statement in London that he thought the treaty would be signed in a few days has served to strengthen French confidence, but late tonight neither London nor Paris had announced any move to hold Inmet at Lausanne. It is believed, however, that even if Inmet leaves, the treaty can be concluded either through diplomatic channels or by resumption of the conference.

The question as to who was responsible for the breaking up of the conference is still a subject of debate, each of the powers proving apparently to its own satisfaction that some one else was guilty. Lord Curzon generally credited with shrewdly settling the differences with Turkey so that the points in which the French are particularly interested would be the last obstacles and the apparent cause of the break. The French, for their part, realized this quickly and had Inmet accept special court arrangements for foreigners and agreed to discuss the economic and financial clauses separately at a later date.

#### Interpret Maneuver

Inmet, it is remarked, stood firm on the clauses affecting France, in the belief that the French would give way rather than take the responsibility for blocking peace. Inmet in this way expected to gain a few additional concessions worth gambling for, but not vital enough to discourage the allies.

#### PRIMARY BILL IS PASSED

(Continued from Page One)

was voted down 27 to 16 and indefinitely postponed.

Appropriation bills, totalling approximately \$119,000, were introduced in the house today, featured by a \$40,000 measure for vocational education.

Appropriation of \$3,000 was asked to pay the expenses of refunding the entire state indebtedness. The bill comes from the appropriations committee of the house.

A senate measure, appropriating \$1,200 for the relief of Mrs. Eva Staunberger, widow of a former governor of Idaho, was passed unanimously in that body, where a bill declaring the highway district between Greer and Kanihah a neutral zone, also was successful.

Making the fourth state wide primary bill to be introduced, Representative Swift, democrat, introduced a measure in the house today along similar lines to the democratic measure in the senate.

Boone Tree Named. The "Daniel Boone judgment tree," an elm, at Femme Osage, 55 miles west of St. Louis, has been nominated for a place in the Hall of Fame for trees. The tree stands upon a farm titled by Boone in 1820.

222 S. THE ST. PORTLAND, OREGON

### UNIONS TAKE UP FIGHT FOR CONVICTED STRIKERS

#### Federation of Labor and Brotherhoods Furnish Appeal Bonds for Men who Abandoned Trains in Desert

LOS ANGELES, Feb. 6 (AP)—Eight Santa Fe strikers of Redwood, Cal., who recently were convicted in the federal district court here of conspiracy to obstruct interstate commerce during the shoptown's strike last August, and who were fined \$1250 each, will file an appeal in the United States circuit court of appeals this week, it was announced today by Hugh L. Dickson, one of their attorneys.

According to Mr. Dickson, the surety bonds which must be filed in connection with the appeal, will be furnished by the American Federation of Labor and the Big Four brotherhoods. The brotherhoods, he said, were unwilling to accept without further content the precedent of men being fined who leave their employment because conditions do not suit them.

The union's plan to fight the decision on the ground that the men committed no overt acts, but were merely simply for leaving their posts and interrupting the transportation of mail and causing the marooning of passenger trains in the desert. In this, it is claimed, they violated no law, and the point which the unions seek to determine is the extent to which the government will go in prosecuting men for quitting their work on a railroad engaged in interstate commerce.

### ARRANGE FOR CONGRESS ON PRICE STABILIZATION

#### Executives of Organization for Ten Wheat Growing States Formulate Plans for First Meeting

ST. PAUL, Minn., Feb. 6 (AP)—The executive committee of the Northwest Agricultural Price Stabilization conference, meeting here today, with Governor J. A. O. Prew, formulated plans for holding the first annual meeting of the congress here on February 27 and 28, and invitations will be sent to farmers, bankers and business men of North Dakota, South Dakota, Iowa, Illinois, Kansas, Nebraska, Wisconsin, Michigan, Montana and Minnesota.

will be asked to send delegates to the congress. The executive committee hopes that through the meeting of representatives of the various organizations some system to stabilize the farm products market will be formulated and the result of the conference will be submitted to the national conference at Washington for action.

Members of the committee predicted that the meeting would be the foundation of an organization which would more closely harmonize the agricultural and business interests of the northwest.

It was decided to invite Secretary of Agriculture Wallace and Secretary of the Treasury Mellon and the governors of the respective states. Governor Prew is president of the congress.

### KLAN WIZARD DENOUNCES SELF-ALLEGED KLOKARD

#### Denies Double Cross in Activities of Organizer in New York of American Protestant Movement

NEW YORK, Feb. 6 (AP)—W. H. Evans of Atlanta, national imperial wizard of the Ku Klux Klan, today authorized his New York representative to denounce the local activities of the Rev. Dr. Oscar Haywood, self-alleged national klorard of the Klan, who arrived from the south Saturday to found "the American Protestant Movement for the Advancement of American Protestant Churches."

The imperial wizard's spokesman characterized Dr. Haywood's latest activity as "an apparent effort to use the Klan as a cloak for the establishment of a rival organization."

In the same statement it was made plain that Dr. Haywood in challenging the Rev. Thomas Dixon, author of "The Clansman," to a public debate, was acting without the authority of the Klan's high officers and contrary to their wishes. Of the former pastor's claims to the title of "national klorard," it was declared there was no such office.

Dr. Haywood also was characterized as merely "a lecturer whose services are employed by the Klan when desired."

### PRISONERS SET FIRE TO LOOMS AT SAN QUENTIN

#### Flames Started by Six Convicts Damage Mill and Machinery and Cause Near Riot Among Inmates

SAN QUENTIN, Cal., Feb. 6 (AP)—Excitement was created among nearly 800 prisoners in the jute mill of this state penitentiary late today when six convicts set fire to a score of the looms which weave jute into bags.

All available guards were unarmanded by Superintendent Ernest Zuber and assisted by prisoners quenched the flames with chemicals from fire extinguishers. Some damage was done to the mill and machinery and much jute was destroyed.

The half dozen men who applied matches to the highly inflammable jute twine were bent on destroying the machines so they would not have to work, it was explained by Warden James A. Johnston, and there was no attempt to effect a general prison break.

#### DESTROYERS ENTER MANEUVERS

SAN DIEGO, Feb. 6 (AP)—Thirty-seven destroyers, members of squadrons eleven and twelve, steamed south today for Magdalena Bay to take part in the tactical maneuvers which will end at the Panama canal. With them went the Melville, temporary flagship of Rear Admiral Burrage.

Advice to the Lovers. Don't marry without looking around a bit, girl. Look at what happened to Eve for taking the first man she met—Itchmont Times-Dispatch

#### HIGH SCHOOL NOTES.

The Blue Triangle committee will hold a meeting tonight immediately after school and then the cabinet of the club will hold its meeting. All members are requested to be present as it is an important meeting.

The meeting of the "Girls of the Green and White" has been postponed until next Thursday on account of the basketball game with Rupert tomorrow night. The next club meeting will be held at the home of Dorothy Evans on Addison avenue.

There was a meeting of the Debate club in the library Tuesday evening, at 7:30. All persons who wish to try out for the declamatory contest are requested to hand in their names and the subject before Friday.

There will be a picture show this afternoon. The film is six reels long and is a story of Caesar and it has many beautiful scenes of Rome. The admission will be one cent for the students in the afternoon.

#### BEEK MISSING IN WICHITA FIRE.

WICHITA, Kansas, Feb. 6 (AP)—Fire Chief A. S. Brownell announced late today 11 persons were still missing as a result of the fire which early yesterday destroyed the Getto apartment building here. Brownell added there was little possibility of any of the missing being alive. Three unidentified bodies have been recovered by firemen. Seven persons severely burned in the fire were still in the hospitals today.

#### WOOL GRADES FAVORED

WASHINGTON, Feb. 6 (AP)—Tentative wool grades prepared by department of agriculture exports were approved by all speakers appearing at a final public hearing on them today, and W. A. Wood, president of the National Wool Manufacturers' association, pledged its cooperation in bringing about their general use. Correlation of the grades with the English count system also was advocated.

THE MARKETS

CHICAGO GRAIN MARKET
CHICAGO, Feb. 6.—Likelihood of peace between Great Britain and Turkey carried prices downward in the grain markets today. Wheat closed heavy, 1 1/2c net lower, with May 1 1/8 3/8 to 1 1/8 1/2 and July 1 1/8 1/4 to 1 1/8 3/8.

PORTLAND LIVESTOCK
PORTLAND, Oregon, Feb. 6.—Cattle—Market steady. calves 25c higher; other choice steers \$7.50 to 8.00; medium to good \$6.75 to 7.50; fair to medium \$6.00 to 6.75; common to fair \$5.50 to 6.00; choice heifers \$7.50 to 8.00; choice cows \$6.50 to 7.50; medium to good \$5.50 to 6.25; fair to medium \$4.50 to 5.25; bulls \$3.00 to 4.00; weaners \$1.50 to 3.00; calves \$1.50 to 2.50; choice calves \$2.50 to 3.50; choice calves \$3.50 to 4.50; choice calves \$4.50 to 5.50; choice calves \$5.50 to 6.50; choice calves \$6.50 to 7.50; heavy \$5 to 6.50.

OMAHA LIVESTOCK
OMAHA, Neb., Feb. 6 (U. S. Department of Agriculture) 69—Receipts 23,000; mostly 5 to 15c lower; bulk packers \$7.25 to \$7.50; bulk 180 to 210 lb, butchers \$8 to \$10; top \$8.15.

CHICAGO LIVESTOCK
CHICAGO, Feb. 6 (U. S. Department of Agriculture) 69—Cattle—Receipts 10,000; mostly 5 to 15c lower; kind of value to sell and above \$9.50 reflecting most downward; killing quality good; top steers \$10.50; bulk beef steers \$8.50 to 9.75; few loads 1000 lb. and better \$9.50 to 10.00; bulk yearlings under \$9.50; better grade beef cows and heifers largely 1 1/2c lower; other grades, canners and cutters steady; bulls slow; veal calves 25 to 50c higher; medium to good high vealers showing most advance; stockers and feeders steady to strong; bulk desirable veal calves to packers \$10.50 to 11.50; hot to shippers upward \$12 to 15.50; mostologna hogs rounded and above; mostologna hogs \$14.50 to \$15.50; bulk hogs \$14 to \$15; most stockers and feeders \$6.50 to 7.50.

NEW YORK STOCK MARKET
Day's total shares 1,340,000 shares. Twenty industrials averaged 101.01; net gain .58; high 102.11, 101.01; low, 95.80.

NEW YORK, Feb. 6.—Stock prices were pushed up to new high levels for the year in today's stock market, the most active of the year since the publication of the 1922 report of the Federal Reserve Board, which was stimulated by more extensive public participation and feverish activity of speculative pools. The market again appeared to ignore the recent election situation, which has exerted a restraining effect on business for the last two months, and took its cue from the more aggressive buying movement and "business conditions."

PORTLAND LIVESTOCK (continued)
Pork—Market steady; receipts 522. Primo light \$9.25 to 9.50; smooth heavy 200 to 300 lbs. \$8 to 9.00; rough, old, 200 lbs. and up, \$7.50 to 8.00; rough, old, 200 lbs. and up, fat pig \$6.50 to 7.50; feeders \$6.75 to 9.25; stags 4 to 6.00. Sheep—Market nominally steady; no receipts. East of mountain lambs \$11.25 to 13.50; western they \$11.25 to \$13.50; others unchanged.

Undergoes Operation—Mrs. George Bennett, residing on Fourth avenue east, submitted to a major operation at the county hospital Monday. The operation was successful, and the patient is doing well.

Mrs. Fowler Asks Divorce—That her husband, Floyd W. Fowler, was cruel and failed to support her and consorted with other women is the statement of Mrs. Virginia Fowler in her divorce complaint filed in district court Tuesday.

Adult Leaves Hospital—John R. Ault, county juvenile officer, left the county general hospital Monday, after being confined for an extended period following a major operation. He is still in a weakened condition and is permitted to be on his feet only a short time each day.

Society

Eugene Perrine celebrated his twelfth birthday Saturday evening by entertaining five of his friends at dinner. The birthday cake ornamented with 12 pink candles was baked by the young host. After dinner the party spent the evening at the theatre. The guests were Tom Peavey, Billie Babcock, Leavitt Crane, Rollin Baird and John Perrine.

Mr. and Mrs. E. J. Ostrander were hosts at a charmingly appointed dinner Monday evening at their home on Maple avenue. Covers were laid for Mr. and Mrs. Arthur J. Peavey, Mr. and Mrs. C. E. Booth, Mr. and Mrs. George B. Enley, Mr. and Mrs. E. A. Larned and Mr. and Mrs. Roy A. Reed. Later in the evening the party motored to Danceand where they attended the Shriners' charity ball.

Mr. and Mrs. Ralph Brown of Buhl, were dinner guests at the home of Mrs. Browne's sister, Mrs. Hortense Perrine, on Monday evening.

The Henry V. Walling circle No. 16, Ladies of the G. A. R., met at the home of Mrs. Minnie Christie, on Pocatello avenue, north Monday evening. After the business session a game of bridge was enjoyed and was followed by the serving of refreshments by the ladies, who was assisted by Mrs. B. W. Mangel and Miss Anna May Mangel. The next meeting will be at the home of Mrs. H. K. Groom.

The meeting of the Twentieth Century club Tuesday afternoon in the Baptist bungalow proved to be one of the most entertaining of the season. During the business session, presided over by the president, Mrs. Schroeder, announcements were made that the club was sponsoring the revival to be given by Mrs. Herman Schurger Friday evening in the high school auditorium. The fine program was in charge of Mrs. G. E. Duke and consisted of the sing-

Milk Test Above Legal Standards

Good Quality of Product Served by Local Dairymen, Scientific Analysis Shows

The January milk report, made public Tuesday by Dr. W. C. McPherson, city meat and dairy inspector, following official tests taken "from milk served by the 24 principal dairies serving the city shows averages well above the legal standards.

A notable improvement in bacteria count is shown over the report for the month of December. Milk from the McClain dairy tested highest in butterfat and the Kayler and Swan ranches were second and third, respectively. In point of solid content, the McClain dairy was first; S. H. Kayler, second, and J. H. Swan and A. J. Young tied for third. Milk from the Kayler ranch was first in bacteria count; Johnson was second and Tencknick, third. Legal standards are: butterfat, 3.2 per cent; solid content, 12 per cent; bacteria count, 100,000.

Table with columns: Buttermilk Solids, Bacteria, Pct. Fat, Pct. Count. Lists various dairies and their respective percentages.

In regard to the milk tests made each month Dr. McPherson said: "A chemical analysis is made monthly of milk from the larger dairies serving the city of Twin Falls. Any resident purchasing milk from other than the above source may, upon application, have examination made free of charge. "Since a chemical analysis is necessary to determine the exact contents and quality of milk we urge every resident to take advantage of the opportunity any time they have occasion to question the quality of milk."

ing of the club song, led by Mrs. I. H. Masters. Talks were given by Clinton W. Evans, Mrs. C. H. Kreugel, Mrs. I. E. Jolyon, and Mrs. F. T. Kellogg sang a group of songs. The day was an open one for mothers, being listed in the year book as regular business mothers' day" and there were many visitors.

Members of Chapter D, P. E. O., met Tuesday evening at the home of Mrs. Carl Hahn on Tenth avenue north. Following the regular business session Miss Irene Warner was initiated.

Community singing and the reading of two papers were features of the program. Mrs. De Witt Young presented a paper on the history of China and Mrs. Ethel Gray read a paper on education in China.

COLD WAVE STRIKES MEXICO. MEXICO CITY, Feb. 6. (AP)—An unprecedented cold wave accompanied by a snow storm has enveloped the states of Nuevo Leon and Tamaulipas, paralyzing business in Monterrey, Tampico and other cities. There have been several deaths from exposure.

Twentieth Century Club Sponsors Recital

Next Friday evening at the high school auditorium the people of Twin Falls will be given the opportunity to hear Mrs. Herman Schurger in recital. Her program includes dramatic recitations, piano readings and a musical reading with Professor Haunt at the piano. Professor Haunt will further assist with a piano solo and there will be three numbers by a male quartet—D. A. Ensmann, James Hall, L. L. Patrick and Dr. B. H. Rouse. Mrs. Schurger is a reader and impersonator of unusual attainments. She is a graduate of the Soper school of oratory in Chicago and a winner of the diamond medal given by that school. She is one of the founders of the Gaiety Conservatory of Music and Dramatic Art in Chicago. Mrs. Schurger has been called upon to aid the Twentieth Century club in numerous readings and musical work many times and has always delighted her audiences.
