

# CALL FOR COGNITIVE REPAIR WORKS ON RAIL MERGERS

## Commerce Commission Brings Hearing to Close Temporarily After Holden's Presentation of Four-Unit Plan

WASHINGTON, March 2 (AP)—Hearings which the interstate commerce commission has been conducting on rail road consolidation plans were temporarily concluded today after H. C. Holden, president of Burlington, and Quincy, had completed presentation of his plan for merging all rail carriers in the west into four transportation units.

Ralph Budd, president of the Great Northern, and Charles Donnelly, president of the Northern Pacific, who also testified, argued for completion by the commission of a scheme which would completely unify their roads and subsidize with the Burlington system now owned in common by the Great Northern and the Northern Pacific.

No insurmountable problems.

Mr. Holden insisted during cross examination that the management that the great transportation units he advised the commission to create, would involve no insurmountable problems. He declared more efficient and economical transportation service would result. Explaining his suggestion that two of the great mergers should share equally in the ownership of the Denver and Rio Grande Western and the Denver and Salt Lake, he said the first named railroad would require large investment of capital and the burden should be met by giving it strong owners.

One of the first protests to be recorded against the consolidation was put before the commission from the Arizona chapter of the American Mining congress. In the course of the hearing, Mr. Holden declared that the contemplated fusion of the Southern Pacific and the Chicago, Rock Island and Pacific in that state would tend to hold freight rates to a higher level, because of reduced competition.

## MANITOBA CONSIDERING SCHEME TO SUPPLY SEED

Provincial Government May Establish Warehouse for Collection and Distribution of Pure Seed at Cost

WINNEPEG, Man., Mar. 2 (AP)—Establishment of a central elevator or warehouse for the collection and distribution of pure seed is being considered by the provincial government, according to announcements here.

Under the proposed plan, it is said that operation of the elevator would be on a non-profit making basis. The cost of the seed to the farmer will be its actual cost to the province.

The proposed plan will necessitate the organization of a staff of inspectors. During the summer the inspectors will examine the seed and select seed grain being raised under the best conditions. The seed will then be gathered at the central warehouse where it will be purchased in the fall for early spring seedling.

The move is being pushed by the Manitoba Seed Growers Association.

## HITS AT FALSE INFORMANT

Minnesota Legislature Declares Persons Giving Newspapers False Statements Guilty of Misdemeanor

ST. PAUL, Minn., Mar. 2 (AP)—Any person who willfully furnishes a Minnesota newspaper with a false statement is guilty of a misdemeanor, under the terms of a law enacted by the present legislature.

It is aimed at practical jokers and malicious persons who send in false notices of weddings, engagements or other "events," and any person who gives such misinformation to a newspaper "willfully, knowingly and maliciously," comes under its provisions.

## This Plant a Weather Prophet.

The abrus or earthquake plant is a curious plant which grows wild in Cuba and India. Claims are made for it that it is a real prophet. The first man who made a study of the claims of the plant as a weather prophet was Baron Nowack, an Austrian, whose success in predicting a thunder storm so caught the imagination of the king of England that he is said to have invited Nowack to London to broadcast the plant—with what result history seems to have left unrecorded. It is said that when an earthquake is about to be born the abrus changes color, in company with the appearance of a spot on the sun. At any rate, the natives of Cuba and India frequently consult this oracle.

## Indian Ponies of Arab Descent.

The original Indian ponies were descendants from horses escaped from the earliest Spanish explorers and conquistadores, and these horses were descended in Spain from old Moorish stock which had its origin in Arabia. The animals were comparatively small, but possessed the Arab's unweariness and great carrying ability. It was that stock that became the Indian pony of the lands west of the Mississippi, the wild horse of the Far West, the smaller cayuse of the Oregon and Washington country. Naturally it degenerated in appearance through lack of special selection in the west, but it retained its stamina and small feet to a remarkable degree.

## Woman "Dirt Farmer" in Penn Legislature

Mrs. Martha Thomas of Chester county, Pennsylvania, is a real "dirt farmer" and will be able to take her practical ideas into the state legislature.

who she has just been appointed a member of the house committee of agriculture. She is an authority on cattle breeding and many of her entries in

cattle shows have won blue ribbons. Mrs. Thomas is shown here with her prize-winning herd.

## CHAIRMAN OF LEGION'S COMMITTEES ARE NAMED

National Commander Oswley of World War Veterans Organization Announces Department Heads

INDIANAPOLIS, Ind., Mar. 2 (AP)—Alvin Oswley, national commander of the American Legion, today announced the appointment of all national committees for the Legion to serve during the coming year.

The chairman of these various committees are: Finance, Wilber E. McFalls, Lawrence, Kansas; legislative, Wayne Davis, San Antonio, Texas; rehabilitation, Joe Sparks, Columbia, S. D.; rehabilitation advisory board, Robert E. Hooley, Washington, D. C.; military affairs, William P. Brown, Montgomery, Ala.; naval affairs, Edward Spafford, New York City; memorials, Francis A. Robinson, Des Moines, Ia.; inter-related religious societies, H. Nelson Jackson, Burlington, Vt.; unemployment, M. K. Gordon, Madisonville, Ky.; distinguished guests, Bowman Eldon, Indianapolis, Ind.; secretaries, Reed Landis, Chicago; home for destitute and orphaned children, George A. Withers, Clay Center, Kans.; Veterans' Bureau rating schedule, Thomas V. Bird, Asheville, N. C.; life membership, Ernest O'Neal, Louisville; graves registration, Eben E. Putnam, Welleley Farm, Mass.; mutual aid and benefit division, Alex. M. Bremer, Washington, D. C.; schools, Dr. F. O. Norton, Des Moines; Galbreath memorial, Gilbert Bettman, Cincinnati; Porte Rico chapter, Justus J. Fowell, Stamford, Conn.; farm and home aid, T. Semmes Walmsley, New Orleans.

## Refugees Overrun Ex-Kaiser's Castle on Island of Corfu

### Near East Relief Official Says Former Emperor and Bride Have Surprise in Store

NEW YORK, March 1 (AP)—Reports from Berlin that former Emperor Wilhelm and his wife, the Princess Hereditary, were contemplating a move from Doorn to Wilhelm's former summer palace, Castle Schillon, on the island of Corfu, Greece, today led Charles V. Vickrey, general secretary of the Near East relief to observe that they have a surprise in store for them.

For Castle Achillion, Mr. Vickrey said, now houses 1,000 Armenian orphans brought from Asia Minor by the relief organization and quartered in the palace with the permission of the Greek government.

"The palace was requisitioned by the Greek government during the war," Mr. Vickrey said, "and has been turned over to the Near East relief along with many other buildings to help shelter the hundreds of thousands of homeless refugees. I do not think the Greek authorities have any intention of returning it to the former kaiser or his family."

## GIRLS TAKE UP JU JITSU

### Young Women of Spokane Enroll for Self Defense Course in Japanese Art of Way of Defense

SPokane, Wash., Mar. 2 (AP)—Forty girls and young women have joined a class in ju jitsu that has been formed at the Young Women's Christian Association here by Dr. R. Hamilton, who also teaches the Japanese art of self defense at the Y. M. C. A.

The class will meet twice a week for instruction. Another class composed of 40 city employes, most of whom are policemen, is also meeting twice a week for instruction in ju jitsu.

## Measuring Corn in Crib

To figure the number of bushels of ear corn in a crib multiply the length of the crib by the width by the height by four-ninths if corn is of good quality after several months in crib or by four-tenths if corn is new or of inferior quality. If the corn carries the shuck, multiply length by width by height and divide by three. If the width or length of the crib is different at the top and bottom of the pile of corn, use the average.

## Biblical Book Titles

The Bible has provided numerous titles for novels. Instances are: "A Fountain Sealed," by Sir Walter Scott; "Whosoever Shall Offend," by Marlon Crawford; "Many Inventions," by Rudyard Kipling, and many others.

# SCIENCE COURSE PROVES COSTLY

## Kansas Educator Gives Results of Business Cost-Finding Applied to University

CLEVELAND, O., Mar. 2 (AP)—Business cost-accounting methods, applied to costs of a state university were described by Frederick J. Kelley, dean of administration of the University of Kansas, in a paper read here this afternoon before the Department of Superintendence of the National Educational Association. Dean Kelley used for his paper specific figures obtained in a detailed study of the year 1921-1922 at the University of Kansas.

"One significant result of our investigation is the relatively high cost of laboratory courses," said Dean Kelley, "so high in fact as to challenge the science courses to defend the laboratory method. Another significant result is the relatively small cost of the larger classes, and still another result is the value of detailed cost figures in determining a budget for the next year."

The student credit hour, rather than the student clock hour, was adopted by Dean Kelley as his unit of measurement for the reason that American universities as a rule grant diplomas for the completion of four years of 30 credit-hours each.

It was determined that the cost per student credit-hour in the various major schools of the University was: Law \$5.97; art and sciences, \$7.41; education, \$11.70; engineering, \$14.01; pharmacy, \$14.23; medicine, \$19.41; University average, \$8.74.

Salaries directly chargeable to cost of instruction were shown to be 57 per cent of the total university cost; overhead, 34 per cent; general maintenance, 4 per cent, and special maintenance, 3 per cent.

Student credit hour costs in non-laboratory courses were found to range from \$4.02 for economics to \$7.98 for French and \$12.46 for ancient languages. In the laboratory courses the student credit-hour costs ranged from \$7.47 for geology to \$17.76. Averages for laboratory courses was \$10.72 and for the non-laboratory departments, \$5.90. Costs for heat, light and janitor service were found to range from 23 cents per student credit hour in history to \$2.77 for chemistry, averaging 54 cents in the non-laboratory courses and \$1.89 in the laboratory ones. "In other words," said Dean Kelley, "science departments require more than three times as much space per student credit hour as do the non-science departments. The most in-

teresting aspect of this cost accounting study concerns its use in preparing the following year's budget."

SEED WHEAT  
For Sale—250 bushels of Dicklow seed wheat. This wheat in competition with thirty different exhibits of this variety won first prize at the Idaho State Seed Show recently held at Burley. Thoroughly re-cleaned and sacked with certification tags attached. While it lasts only \$3.00 per hundred pounds.

HOUSE FAVORS BROADER TERMS FOR VETERANS

Sweet Bill Modifying War Risk Insurance Act in Interests of Disabled Service Men Is Sent to Senate

WASHINGTON, March 2 (AP)—The Sweet bill modifying the war risk insurance act in the interest of disabled veterans was passed today by the house. It now goes to the senate. The bill would extend the time for obtaining a certificate of disability from the director of the veterans' bureau to March 1, 1923, in compensation cases, and would provide that such certificate should issue whenever there was an official record of injury during service or at the time of separation from the service, or where satisfactory evidence was furnished the bureau to establish the injury. Veterans suffering from a neuro-psychiatric or tubercular disease developed within three years after separation from the service would be considered as having acquired such disease while in the service. The present law limits the period to two years. Veterans guilty of treason, mutiny, spying or any offense involving moral turpitude or willful and persistent misconduct would not be deprived of insurance and compensation benefits unless they had been found guilty by a court martial. Where veterans of any war died after discharge or resignation from the service and did not leave sufficient assets to meet the expenses of his burial and the transportation of his body the government would provide a sum not exceeding \$100. Should death occur while the veteran was receiving government medical or hospital treatment or vocational training the veterans' bureau would pay in addition to his burial expenses the actual cost of transporting the body to the place of burial.

STUDENTS SELECT DRAMA

University of Idaho Players to Present Lord Dunsany's Play, "If," for Midland Empire Teachers MOSCOW, Idaho, Mar. 2 (AP)—University of Idaho dramatic students have selected "If," a play by Lord Dunsany, Irish author, for presentation at the Idaho Empire Teachers' convention in Spokane, April 4 to 6. In presenting a play this year, it is said that the convention's program committee has varied for the first time from its previous custom of presenting a lecturer as the main feature of the entertainment program. Pearl Stalker of Boise, Idaho, and Abo Goff of Walla Walla, Wash., have been selected to carry the leading roles in the play. Other parts will be announced later.

A Narrow Escape.

An overhead trolley wire charged with electricity at a high voltage was responsible for an unusual accident to a motoring party on a busy street. A motor cyclist was driving his wife and child in a side-car through a large city when the wire broke and became entangled with the side-car, showering sparks on all sides as it struck the metal of the machine. A terrible death resulted the moment it had got off to attempt to remove the live wire, but he sat still; while people called out: "Sit still! Live wire!" and the rubber tires of the machine acting as insulators, prevented the current from passing through the steel work of the cycle. The dangerous wire was removed by engineers with rubber gloves, and the party proceeded unharmed.

Oscar's Deeps Always Cold. The ocean dredged in the ocean floor in the tropics is so cold that it cannot be handled without discomfort.

Secret Service Men After 1,000 Counterfeiters

KIMBERLY

KIMBERLY—Mr. and Mrs. Glen Whitney were hosts at a dinner party Sunday evening. The guests were Mr. and Mrs. Fred Jones, Mr. and Mrs. J. F. Steelsmith, Mr. and Mrs. George Bremer, Mr. and Mrs. W. M. Downing, Miss Alma Steelsmith and Dean Mickle-wiss. Mrs. J. L. Shepard, who has been quite ill at her home, is much improved. Mr. and Mrs. W. A. L. Stowe entertained for her son, Harold, Monday evening at cards and dancing. There were 16 guests. Delicious refreshments were served at a late hour. Mrs. Thurston Pence was delightfully entertained at 7 o'clock dinner and bridge Monday evening. The guests were Mr. and Mrs. Ernest White, Mr. and Mrs. R. E. Bohler, Mr. and Mrs. W. P. Seal of Twin Falls, Mr. and Mrs. A. J. Wilson, Mr. and Mrs. R. G. Wilson, Mr. and Mrs. Glen Whitney, Mr. and Mrs. Thurston Pence and Miss Flo Hones. High scores were won by Mrs. Glen Whitney and Mr. B. G. Wilson. Mrs. A. J. Wilson was hostess at a daily luncheon Thursday for the Kimberly Bridge club. Covers were laid for seven members and two guests. Mrs. J. Frank Henry won the prize for High score; Miss Flo Henry, guest prize, and Mrs. Gerl Ridgeway, consolation. Mrs. Thurston Pence has returned to the ranch near Jarbidge after spending the winter in Kimberly. Mr. Pence, who is manager of the Kimberly Alfalfa mill, expects to join her in a few weeks. Mrs. R. H. Denton entertained the officers of the Pioneer club at luncheon Thursday. Mr. Leo Doty entertained the literary department of the Pioneer club Thursday afternoon. The Mothers' Birthday club met with Mrs. J. J. Steelsmith Wednesday. A delicious dinner was served at 1 o'clock after which the members enjoyed a social afternoon. Mr. and Mrs. Kenneth Annett of Plover were guests in Kimberly Thursday of Mr. and Mrs. L. H. Walden.

Peat-Cutting in Ireland.

The peat-cutting industry is carried on very profitably in Ireland. Work usually begins at the bogs at the end of April. The skilled cutter, who has two men with low sledges who throw rows in attendance, uses a kind of spade, called a slane, the soles being cut up and removed to dry land. A few days later, when the sods have become a little less soggy, they are spread carefully all over the ground and left to dry. The next sign is to pile the turf into a slightly-mounded heap, which allows the wind to pass between the different pieces. Usually it is two or three months before the peats are ready for use as fuel. Peat is used in Ireland to such an extent that few people in the country districts ever burn coal.

No Escape for the Rogue.

There is no den in the wide world to hide a rogue. Commit a crime, and the earth is made of glass.—Emerson.

Thought for the Day.

The wise man adjusts himself to the world; the foolish man tries to adjust the world to himself.

Kayler Dairy Is at Head of List

Jersey Herd Takes Leading Position in Monthly Tests of City Dairy Inspector The herd of Jersey dairy cattle owned by S. H. Kayler again won leading honors in the monthly milk test of samples taken from principal dairies here by W. C. McPherson, city meat and dairy inspector, and analyzed by E. R. Dowley, city chemist. Samples from the Kayler herd tested 2.0 per cent butterfat, and 15.1 per cent in solid content, the highest reached in each case among the 17 dairies tested. The lowest bacteria count was shown in samples from the Foltz dairy, with a test of 14,000. Second lowest bacteria count was 15,000, recorded by the tests of the Kayler and Thorpe dairies, each having the same count. The February tests are as follows:

Table with columns: Name, Butterfat, Solids, Bacteria Count. Rows include Kayler (5.0, 15.1, 15,000), Tenckinek (4.1, 12.9, 21,000), Rippe (4.1, 12.9, 25,000), Shaw (3.4, 11.5, 19,000), Hall (4.2, 13.42, 19,000), Arrington (3.6, 11.95, 82,000), Ayett (4.7, 14.2, 28,000), Thorp (4.6, 13.7, 15,000), Sherman (4.6, 14, 26,000), Bluo Bilbon (4.7, 14.5, 24,000), Young (5, 14.4, 18,000), Bluo Lakes (4.3, 13.8, 47,000), Gott (4.4, 13.7, 21,000), Fulford (4.4, 13.92, 65,000), Foltz (4.3, 13.6, 14,000), Mason (4.8, 14.15, 18,500), Austin (4.8, 14.15, 50,000)

VAGRANTS IN SWEDEN MAY BE MADE TO WORK

Enforced Labor or Jail Is Recommendation of Government on Legislation for Care of Poor STOCKHOLM, March 2 (AP)—Habitual hoboes in Sweden will hereafter labor for two or three years, if the recommendation submitted by the government committee on legislation for the care of the poor are adopted. This committee, which has been at work several months, has made a thorough-going social and statistical study of tramps, organized vagrants, gypsies and other anti-social types in the country, and now suggests penal laws designed to make good citizens of persons in the class named. According to the proposed laws a person liable to arrest as a vagrant must first be warned by the local authorities. At the same time the officers must take such constructive steps as trying to find work and lodging for the vagrant. This may be done through local employment bureaus, poor houses and municipal institutions of similar type. If the person reverts to vagrancy and again makes himself liable to arrest, he may be sentenced to enforced labor for two, and in extreme cases for three years. For good behavior the culprit may be released under probation and will be helped to establish himself in a gainful occupation. The committee further recommends that women of low repute be treated as vagrants, though it is held that every effort should be made to redeem them to orderly life through the work of social institutions especially organized for this purpose.

Predicts Earth's Cold Future.

Professors and weather prophets are fond of predicting great future changes in climatic conditions on our earth. As a rule they wisely refrain from precise particulars as to when these changes will take place. Maj. R. A. Marriott has been more definite. Working on the late General Drayson's theory of a big change in the inclination of the earth's axis, Major Marriott tells us that for the next four centuries the winters will grow progressively warmer, until about A. D. 2326 the difference between summer and winter will be least. Subsequently, however, the earth will get colder and colder every year, and instead of the frequent temperatures which some predict, another glacial epoch is promised by Major Marriott, the maximum severity of which will be felt by the human race—if any are left on the earth—in A. D. 19829.

Things Inseparable. Whenever a separation is made between light and justice, neither is in my opinion safe.—Burke.

WANTS POPULARITY OF "NO" DANCE MAINTAINED SEES MOST PROFIT FROM CRUDE YED TO DAIRY GOW

TOKIO, Mar. 2 (AP)—Prince Tokugawa is heading an association of prominent noblemen and business men to maintain the popularity of the famous No dance of Japan. Plans are under way to extend the interest in the art to other countries by sending groups of dancers abroad. This would mean that the choir of singers, flute players and drum beaters as well as the very elaborate costumes of the dancers, masks and braides, should be transported. Another difficulty will be to present to the foreign public translations of the No literature and explanations of an art that requires from the Japanese themselves special culture to be appreciated.

Federal Farm Loans. Interest 3 1/2 per cent, 31 years to pay with the privilege of paying at any interest-paying date. Farmers wanting these loans should place applications 30 days prior to their next money. See me on Saturday afternoons at the Fidelity Title & Abstract in Perrine building or phone 37731. J. W. McDowell, Sec.—adv.

Aye, Aye. An oculist ought to be a happy man. I've not all his days eye-deal ones—Boston Transcript.

MOSCOW, Idaho, Mar. 2 (AP)—Farmers could receive greater returns from their potato crops, under conditions such as are prevailing this season, by feeding them to dairy cows than they could by attempting to market them, Prof. F. W. Atkinson of the University of Idaho believes. In a recent address before the Moscow Chamber of Commerce, Professor Atkinson told of one farmer in this vicinity who has a herd of 10 dairy cows and who receives a monthly cream check averaging \$150.

LACK OF FUNDS CALLED BARRIER TO EDUCATION

Columbia University Professor Tells Educators Situation Can Be Met Adequately Only by Radical Changes

CLEVELAND, March 2.—The difficulty from which education is suffering, that of revenue, can be adequately met only by revolutionary changes in our financial and our governmental organization, Professor Robert A. Haig, of Columbia university, told the department of superintendents of the National Education association here today.

"It is hopeless to continue to depend upon the general property tax as the sole source of state and local revenue if we are to finance the program of public education," he said. "Our facts appear to show that a change of far-reaching importance has been taking place in the character of our economic life. Our figures show that in 1920 the total public revenues of this country, national, state and local, were in excess of eight billion dollars, which means that approximately 12 per cent of our total income was spent in connection with public enterprises. We now do nearly a sixth of our work collectively under government control.

"I should like to commend to your earnest consideration and possible support the program of the National Tax association. This plea calls for the abandonment of the attempt to tax intangible personal property under the general property tax. It suggests supplementing the tax on tangible property with statewide levies on personal and business incomes along the general lines worked out in the tax systems of New York, Massachusetts and Wisconsin. There is general agreement among those who have given thought to the problem that this program offers the next logical step in tax reform in most of our states.

"Surely after a century of free public education we should be able to count upon a body of citizens intelligent enough to grapple with it, and wise enough to work out a second solution."

State Constitutions.

State constitutions reveal the continuity in the development of American political institutions. They have been called by Bryce "the oldest things in the political history of America, for they are the continuations and representations of the colonial charters." And again, "the first state constitutions were little more than the pre-existing colonial constitutions adapted to the changed circumstances."

ACCUSES MINER LEADER IN HERRIN RIOT CASE

State's Attorney Charges Member of Union's State Board Sponsored Plot That Resulted in Murder of 22 Men

MARION, Ill., March 2.—Hugh Willis, state board member of the Illinois Mine Workers, was accused of having been the leader of a conspiracy which resulted in the slaying of 22 union workers, by C. W. Middlekauff, assistant attorney general of Illinois, in his opening statement to the jury in the Herring riot case today.

With Otis Clark, Oscar Howard, James Brown, Bert Grace, Philip Fennema, Willis is charged with murder of Antonio Mankovich, of Erie, Penn., who was pictured as a soldier returned from the war to become an armed guard at the mine of the Southern Illinois Coal company.

The opening statement for the defense was made by Angus W. Kerr, chief counsel of the Illinois Mine Workers, who declared that the prayer of the meek and lowly throughout the country is that this jury shall decide that the day has gone by when great corporations, in their greed for profits, can use gunmen in an effort to set up an industrial autocracy.

IDAHO CONGRESSMAN IS NAVAL RESERVE SPONSOR

Representative French Offers Bill to Repeal Existing Law and Provide for Reorganization

WASHINGTON, March 2.—A bill repealing all existing laws relating to the naval reserve force and providing for a reserve of 2000 officers and 10,000 enlisted men was introduced today by Representative French, republican, of Idaho, who is expected to become chairman of the sub-committee on naval appropriations in the next congress. Mr. French said there was an expectation of getting consideration for the bill at the first session, but he had introduced it now so that its provisions might be studied.

The measure would provide for establishment of naval reserve centers at points which may be reached by naval vessels of at least moderate size, and on inland waters without access to the sea, which are sailed by steam propelled vessels. Enrollments at these centers would be limited to persons domiciled within a radius of 25 miles. The pay features of the bill are patterned after the national guard law.

DUNN'S REVIEW.

NEW YORK, March 2.—Dunn's tomorrow will say: Expanding demand and rising prices have become familiar in different branches of enterprise. Two months of the new year have brought a decided extension of the business recovery and results in the first quarter in many cases better than had been expected. Reports of production in certain basic industries show that operations are steadily approaching closer to capacity with steel plants more generally engaged at a 90 per cent rate and reports are heard more frequently of overtime payments of mills and factories. Such a situation obviously would not exist if distributors were not covering their requirements freely or if actual consumption of goods were not of a sizeable volume. Weekly bank clearings, \$1,761,323,000.

First "Pawbroker." The Emperor Augustus Caesar instituted a fund for lending to needy persons on pledge, \$1 B. C.

"He's Image of His Daddy!" Says Bill Hart

William S. Hart, Jr. "He's the very image of his dad!" exclaimed William S. Hart, Jr., as he first gazed upon his son. True enough, but William S. Hart, Jr., failed to bring about a reconciliation between his father and mother, the latter the beautiful Winifred Westover Hart, who had left her husband's pretentious home in Los Angeles before the birth of the baby.

HOUSE BILL STRIKES AT LAND COMMISSIONERS' JOB

BOISE, IDAHO, March 2.—With the appropriations committee of the house as its author, a bill which would combine the administration of the state land department and the department of public investments, make the commissioner of the latter department ex-officio land commissioner, and thus dissolving the position of land commissioner, was introduced today.

Other appropriation measures introduced today in the senate would allow \$110,825 for the secretary of state and bureau of land enforcement; \$51,000 for the auditor, budget department and bureau of public accounts; and \$14,500 for the state penitentiary. The penitentiary appropriation bill shows a saving of \$20,000 over two years ago and is made at the request of Warden Cobley, whose administration has made the cut possible.

Capital punishment would be meted out to those found guilty of setting fires in mines or underground workings, in the senate bill introduced Tuesday and passed today under suspension of the rules in that body. The bill is the outgrowth of the hot fire that recent fires in the Morning and Hercules mines in north Idaho were incendiary.

CONFINE POWERS OF BIG DISTRICT

Points Relating to Rights of Newly Formed Organization Cleared by New Bill

BOISE, March 2.—(Special to The News.)—Among the bills enacted by the present session of the legislature is one of interest to the residents of the proposed American Falls reservoir district, as well as others in territory that may be formed into reservoir or irrigation districts, according to Guy Plummer, head of the Idaho Reclamation association, which favored the measure.

The bill definitely confines the powers of irrigation districts to the objects set up in the petition. In the case of the American Falls or super district, the petition related that the purpose was to finance the district, there being no intention of operating any canal system or participating in the administration of any. The objection was raised, however, that the big district might after all, take over canal systems under its organization and that point was raised in the injunction proceedings against the district and was used against the formation of the district, notwithstanding abundant legal opinion to the contrary.

Fullfill Promise.

Mr. Plummer, during the district campaign, stated he would make an effort to have this point definitely cleared up in the legislature. He says the measure has passed both houses and will become a law in due time.

Mr. Plummer says he expects to be in Twin Falls on March 6 to attend the meeting of the district directors and to urge the calling of the bond election as soon as possible. He reports that considerable progress has been made in the negotiations between the government and the directors on the contract.

County road and keep an eye open for other things out of his jurisdiction.

"Cooperate with the El Paso Automobile club in directing tourists."

"At night must keep light burning—never come upon a speeder with lights out or run a blind one with light to make an arrest."

Telephone boys are to be installed along the route leading out of El Paso. Officers will call in frequently to find out if they can be of service to the sheriff's office or police department. Phones will be used especially in trying to break up the auto theft traffic.

In connection with the new code of regulating speed officers, the commissioners have ordered new badges for them and had the first made overhauled. They must wear badges and uniforms all the time.

At present the county has two speed cops working on the route leading out of El Paso. Others are to be added to the force. They are separate from deputies from the sheriff's office, constable office and police force, who should make arrests when traffic regulations are grossly violated.

Computation of Centuries.

A century is a period of one hundred years. This is the most common signification of the word, and as we begin our computation of time from the incarnation of Christ, the word generally is applied to some term of one hundred years subsequent to that event, as the first century A. D.

PLANS MADE TO REOPEN RUPERT NATIONAL BANK

Expect Institution Which Closed Doors Two Weeks Ago Will Be in Operation Again in Short Time

RUPERT, Idaho, March 2.—(Special to The News.)—Plans for reopening the Rupert National bank, which closed its doors about a week ago, were announced here early this week by a depositors' committee, which has been working toward reopening the bank since the time it closed. It is expected the bank will be open for business within a short time, through a plan offered by Crawford Moore of Boise.

The report about a plan to reopen the bank was given in the Minidoka County News in its following: "The date of the opening depends upon the time it will take to get in touch with all depositors. According to Charles C. Otis, national bank examiner in charge, he will have permission for the bank to reopen within five days after all depositors have agreed to the terms."

CRISSINGER NOMINATION CONFIRMED BY SENATE

President's Appointment of Marion Man to Be Head of Federal Reserve Board Is Given Approval

WASHINGTON, March 2.—The senate tonight confirmed the nomination of R. B. Crissinger, of Marion, Ohio, to be governor of the federal reserve board. He has been serving as comptroller of the currency.

The senate also confirmed the following: Representative Mondell, of Wyoming, republican house leader, to be a director of the war finance corporation.

Brigadier General Frank T. Hines to be director of the veterans' bureau.

Representative Tower, republican, Iowa, to be governor of Porto Rico, succeeding E. Mont Kelly.

McKenzie Moss, of Kentucky, to be assistant secretary of the treasury.

Dwight Davis, of Missouri, to be assistant secretary of war.

Joe D. Nagle to be commissioner of immigration at San Francisco.

ATTENTION FARMERS! On account of bad roads and extent of territory, our fieldmen may be unable to call on you during the contracting season. To accommodate those of you who wish to contract we have opened an office in the Arthur L. Swim office on Shoshone Street, where one of our men will be in attendance. We will be pleased to talk Sugar Beets with you, and invite you to make this office your headquarters when in town. The Amalgamated Sugar Company

STOPPING RUSSIAN RELIEF

The Soviet government of Russia has announced its intention of exporting 10,000,000 bushels of grain, hence the American relief administration will cease sending foodstuffs to aid the 'starving'.

No more paradoxical situation could be imagined than that of American ships steaming into Odessa with foodstuffs for starving Russia meeting Russian ships steaming out, laden with cargoes of grain to be sold abroad.

Most pocket-rifling wives have a real right to what they take. Generally it is hubby's refusal to turn over to them a proper share of his change that prompts them to get it as best they can.

'OLD SKEESICKS' ALL RIGHT

May Be Somewhat Odd in Character, But Not Infrequently Has Heart of Pure Gold.

'Old Skeesicks' is what the boys call him, perhaps because he wears clothes that are not of the best and talks sometimes about the duty of being careful about spending money unnecessarily.

I saw 'Old Skeesicks' one night recently coming out of a home where things are not going very well just now. Further back, mother worried to get things her little folks need to make them comfortable and bills crowding hard, now that the winner of the daily bread is laid up. A bit curious to know more about 'Old Skeesicks' I visited him after supper and found them all cheery, no clouds in sight; and they told me with a glad light in their eyes that the good old farmer man had left a bushel, more or less, of good things to eat and he had told them if they needed it he would let them have money to tide over the hard spell.

Since then I have thought of some other things 'Old Skeesicks' has done and I somehow I wish no one would speak disrespectfully of our old neighbor again. Trips to town after a coat for Tony, sitting up all night with Perry when he was sick enough to die, playing all day in the raw November wind for an old farmer because he had rheumatism so he could scarcely put one foot before the other and always so good and kind and pleasant to meet.

'Old Skeesicks?' Boys, let's never call him that, and let's be a bit more careful how we say things about other folks anyway. We cannot always tell what is back of the old clothes and the tattered coat. Under the tattered waistcoat may beat the truest, kindest heart ever given a man. If 'Old Skeesicks' is a mite over careful about the use of money, it is only that he may do good with it. He was brought up in the school of economy. His heart is all right.—Edgar L. Vincent in Farm Life.

Work of Leaf-Cutting Bee. The leaf-cutting bee drills in a sand bank holes ten inches deep and half an inch in diameter and divides it into about a dozen compartments or cells. Each cell is composed of pieces of leaf cut into proper shapes and carefully fitted together. Rose leaves and sweet pea leaves are among the favorites of the bees. The cutting is done with thin jaws, while the bee holds the leaf in position and enable the insect to turn itself about with the precision of a pair of compasses.

So, given the choice, of course she buys the goods she knows in preference to those she does not know. And she is going to have that choice for a good many years. She is boss.

Her favor is the sunlight of success; her indifference, the outer darkness.

Turkish Proverbs. 'To kill two birds with one stone.' In Turkish is 'Cleaning the candle stick to butter the fire.' 'If the thief is strong enough he will arrest the householder' is the Turkish way of implying that a culprit may be clever enough to incriminate his victim. 'Whom the gods wish to destroy they first deprive of reason' has its parallel in the Turkish proverb, 'The end of an overexcited dog is the mange.'

Why Those High Freight Rates?

You can save the excess railroad freight rates in many ways. One is to buy home manufactured products. We cure hams, bacon, dried beef, all kinds of sausages and any other product placed on the market by other packers. We guarantee our meats to be second to none, not excepting the Swift's Premium Product, and at the same time we are selling our meats at retail far below the wholesale prices of other packers.

When you buy our cured meats you are helping yourself by saving all those excessive freight rates, jobbers' and retail profits, besides helping to build up in your community a packing industry that buys your stock and pays you wages.

Our patrons can prove the merits of our meats 'and you can also' by giving them a test in your home. See our ad. elsewhere for our today's specials.

Women Know What They Want—and Get It

A woman buys many different food products, dozens of fabrics and articles of apparel, shoes, things for the home, toilet preparations—quite probably in a year she makes a thousand purchases. Personally to judge the quality of each, she would need to be a chemist, an engineer, a metallurgist and a good many other things.

Manufacturers who want to work for her must realize this: They must put in their application at once; convince her of their intention and ability to give her merchandise of known value; and then live up to the standard.

So, given the choice, of course she buys the goods she knows in preference to those she does not know. And she is going to have that choice for a good many years. She is boss.

For she is a just but ruthless boss. She neither forgets nor forgives. She rewards loyal service with loyalty, but her condemnation of broken faith is final.

Her favor is the sunlight of success; her indifference, the outer darkness.

QUESTION RIGHT TO PRINT AUDIT

Case Taken Under Adversement After Arguments on Order Against the City

At the conclusion of arguments in the hearing in district court Friday on the order to show cause in connection with the suit of Alan P. Senior to restrain the city from payment of \$300.50 to the Observer for publication of the city audit, the matter was taken under adversement by the court.

Authority Not Given. It was contended that the city had no express authority to either prepare the audit or to publish the same, and that if there was any such authority it would be an implied authority.

Defendants Publication. Mr. Mills argued that the defendants' demand should be granted as a matter of course, and that the audit was of little value unless published and distributed.

HOOVER ASKS APPROVAL OF RIPARIAN AGREEMENT

Secretary of Commerce Asks Congress to Give Endorsement to Colorado River Compact

WASHINGTON, March 2 (AP)—Congressional approval of the agreement between seven western states for the use of water from the Colorado river was recommended by Secretary Hoover of the commerce department, and chairman of the Colorado river commission, in a report transmitted to congress today.

Mr. Hoover stated that it would result in the reclamation of 4,000,000 acres of arid land, develop 6,000,000 horse-power electric horsepower, prevent the recurrence of disastrous floods and add "vast wealth" and benefit to the nation, the seven states directly affected and citizens adjacent.

WARRANT OATH

All warrants of Independent School District No. 8, issued up to February 1, 1923, will be paid upon presentation to the treasurer of the district. Interest on these warrants ceases March 12, 1923. A. M. HOOVER, Treasurer Ind. School Dist. No. 8, adv. Murtough, Idaho.

Love of Argument

"Why is betting on almost exclusively masculine habit" an exchange inquires, and a cynical correspondent answers: "Man chooses betting as a means of stopping an argument; woman never want an argument stopped."—Boston Transcript.
