## GRAND JURY ON TRAIL OF MASKED MEN

### Court Counsels Louisiana Jurors to Seek Guilty Individuals Regardless of Affiliation; Arraigns Usurpers of Law

BAISTROP, La., March 5 (AP)—The Morehouse parish grand jury was drawn today and charged by District Attorney Judge Fred M. Odum. State Attorney General A. V. Coope expects to appear tomorrow and submit evidence obtained at the open hearing here in January into kidnappings, floggings and other activities of masked bandits, which the state charges were composed of members of the Ku Klux Klan, from 20 to 50 indictments ranging from assault and battery to murder, the last in connection with the kidnapping and slaying of Watt Daniel and T. E. Richard of Mer Rouge last August 24.

From the panel of 20 summoned for jury duty, Judge Odum selected J. C. Evans of Orlidge, a farmer, as foreman. Estimates of the number of Klansmen on the jury run as high as six, but this feature will not seem to be regarded as of importance since the attorney general has stated that he would be willing to place the evidence before a jury composed entirely of Klansmen if they would only discharge their duty as sworn officials of the court.

B. U. Hood, one of the jurymen, was called as a witness at the open hearing, but when he took the stand and was questioned concerning his knowledge of the kidnapping of Daniel and Richard it developed he was at work in a distant part of the parish the day it occurred and knew nothing of it until the next day.

### Early Report Expected

Nothing concerning its inquiry is expected from the jury until it makes its final report to the court. Criminal cases of a routine character, which it will investigate are usually few in number and it is believed it will need to report within a week or ten days.

The state will present a brief of the transcript of the testimony taken at the open hearing and it was hinted today that it might call one or two witnesses who testified then in order to clear up the jury several features of the case.

### Klansman Approves Charge

Captain J. K. Skelwith, exalted cyclops of the Morehouse parish Ku Klux Klan, who figured prominently in the testimony of witnesses at the open hearing and who was among the spectators in court today, declared "it is a very good charge."

Judge Odum supplemented the prepared charge with a few extemporaneous remarks and concluded: "There is only one law and that is the written law. If you should find that anybody has violated the law, punish him."

### Klan Not on Trial

"The violation of the law to which I have called your special attention has been laid at the door of the Ku Klux Klan. Whether that organization is responsible for these outrages or not, is a matter which does not concern you in the slightest. You are not here to unmask Klansmen or to disrupt the Ku Klux Klan as an organization. You are to present and indict criminals without regard to their affiliations."

"Before the law all men, whether they be members of the Ku Klux Klan, the Knights of Columbus, the B'Nai B'Rith, or the Methodist church, stand precisely upon the same plane; they are all equal. You are to deal with men, not with organizations, societies or fraternities."

"If, in your deliberations, you become convinced that a certain citizen has violated the law, it would never occur to you that you should then inquire whether he was of the Christian or Hebrew faith or whether he was a Mason or a Woodman of the West, and if such a course should be suggested to you you would feel insulted. Why, then, should you be concerned over the question of whether these crimes were committed through

## Filibuster Kills Anti-Klan Bill in Washington House

### Measure to Prohibit Masking Except by Permission Dies Without Vote

OLYMPIA, Wash., March 5 (AP)—The anti-Ku Klux Klan bill, which would have prohibited masking except by permission in authorized buildings, parades or initiation ceremonies, was killed by filibustering in the house of the Washington legislature today without a vote. Other important measures to meet a like fate were introduced today, to place a tax of six-fifths of a cent on each cigarette, and to establish a boxing commission and provide for ten-round bouts.

## RIOT SURVIVOR DETAILS STORY

### Identifies Three Out of Six Men on Trial for Murder as Participants in Massacre

MARION, Ill., March 5 (AP)—Still bearing the scars of his wounds, William Cairns, one of the survivors of the Marion riots, today identified three of the six men charged with murder in connection with the outbreak and pointed out three of the defendants as either having taken part in the tragedy or having been at the scene with guns in their hands.

While lying beneath an overturned barbed wire fence with 17 bullets in his back and a bullet in his side, the witness testified that he had seen Phillip Fontanetta, the youngest of the defendants, walk up to John Enoch maker, superintendent of the Marion riots, from the trunk of a car, who was lying nearby badly wounded, but still breathing.

"Here's that" — ex-machine gunner," Cairns quoted Fontanetta as saying, and continued: "Then he placed a gun beside Shoemaker's head and blew the side of his face off."

### Hears Willis' Name

Just before the shooting began, the witness said, an automobile drove up to the crowd that was escorting some of the prisoners taken from the mine and he heard one shout: "Here comes Willis."

Hugh Willis, state board member of the Illinois Mine Workers, is one of the men on trial charged with the slaying of Antonio Mulkovich, one of the 22 non-union workers killed during the riot.

Cairns said that he could not identify anyone in the automobile. He testified that the workers and armed guards in the mine of the Southern Illinois Coal company had been attacked early in the forenoon of June 15, and that shots being fired from outside the pit.

Cairns declared the defendants raised a white flag about 5 o'clock that afternoon, but that the firing continued during the night. He said the fire was returned from the pit but that the next morning all was quiet. He said that the mine and were having a feed during the night, laid down their arms and surrendered.

### Points Out Defendant

"I heard one of the armed men who searched us as we were to go to jail, indicated a train and sent out of the county," the witness said. "But we were marched up the road and I saw C. K. McDowell led away by two men, one of whom was Otis Clark."

"A little further on I heard a man say, 'the car is being hanged,' and a negro who carried a gun and wore a battered army helmet replied: "Well, we're going to fix 'em." The witness then pointed out one of the defendants, James Brown, as the man who had made the statement, Clark, who was acquitted in his first trial on a charge of having slain Howard Hoffmann, another victim of the riots, also a defendant in the present case. Cairns asserted that the prisoners were then lined up before a barbed wire fence and the shooting began. He said he tried to crawl through the fence, but pulled it over and lay face down.

## The Day in Washington

(By The Associated Press)

President and Mrs. Harding, with a party of friends, left for a month in Florida.

A recess appointment as controller of the currency was declined by James G. McNary, southwestern banker.

The civil service commission was directed by President Harding to give preference to war veterans in examinations.

Elmer E. Landes, of Ohio, re-

## ANTI-ALIEN LEASE BILL GAINS POINT

### Senate Approves Gillis Measure After Making It Inoperative Against Residents of State for Year

BOISE, March 5 (AP)—An anti-alien land lease bill, amended cutting the clause which would make the law inoperative against those who have lived within the state for one year, is one step closer the statute tonight after its passage through the senate late today by a vote of 36 to 6. Representative Gillis of Twin Falls and Senator Solon B. Clark of Boise have guided the destinies of the important measure through the two houses, where a powerful influence has been used to encompass its defeat.

As the 17th session of the Idaho legislature rounds into the last week of its deliberations, appropriation bills aggregating more than three-quarters of a million dollars were introduced in the senate today and the house passed appropriation bills aggregating approximately \$400,000, when it approved of the judicial department, national guard, public utilities and attorney general budgets.

### Rotans Present Commission

There will be no change in the personnel of the membership of the public utilities commission following the defeat of the Preston measure, which would have provided for an armer and engineer on the commission.

A senate bill reducing the salaries of commissioners under the cabinet form to \$3000 per year passed the house 43 to 20 today. Exceptions are made in the bill of the commissioner of reclamation, public works and finance.

### HOUSE IN KILLING MOOD USES AXE ON THREE BILLS

BOISE, March 5 (Special to The News)—The house of representatives was in a killing mood at the afternoon session when it indefinitely postponed a senate bill making it a felony to be armed while in possession of liquor, the Salvation Army rescue house \$2800 appropriation, and a bill which would outlaw mortgages in ten years.

House bills passed by representatives included correcting county boundaries between Blaine and Blaine, and a bill requiring commission merchants to make records for the consignor of a commission transaction.

After waiting for a number of years claimants for predatory animal bounties with claims amounting to \$3399 may get their money, for the house passed a senate bill which now goes to the governor.

It also approved an upper house bill coming from the mining inspector which will allow more liberal rules for prospecting and filling on mineral, gas and oil lands owned by the state. By a close vote a bill passed that the state establishing standards of weights and measures and the senate bill making it optional for irrigation taxes to be collected by county officers was also successful.

### Warehouse Bill Favored.

After amending the terminal warehouse bill, the senate today indicated by a test vote that the measure would pass when it recommended in a committee of the whole by a safe vote that the bill do pass.

Similar action in a test vote but without amending the bill, indicated that the two-cent gas tax was slated for passage in the senate.

Senate bills passed by the upper house included appropriation for the department of public works, payment of a salary to the assistant adjutant of the G. A. R., making the commissioner of finance controller of state depositories, placing warehouse men under the department of agriculture, and a joint resolution providing that stockholders of banks and trust companies should be liable for more than their amount of stock.

### Ice Cream Bill Falls.

## Spain's King Reported Haunted by Nation-wide Discontent, But Unwilling to Surrender Throne

LONDON, March 5 (AP)—According to mail advices from Madrid to the Times, the repudiation by King Alfonso of the idea of abdicating was provoked by an article in the Aecion, representing Alfonso as dispirited because of the intrigues of professional politicians and anxious to leave the throne. The Aecion called on all good Spaniards to rally and bring and urge him to become a dictator. The correspondent of the Times says the idea of a royal Mussolini is doubtless a mad idea which Alfonso would be the last to consider, except as desperate resort; but he adds there is no doubt the Aecion's article is symptomatic of the general discontent in Spain, which is being fanned from several sides while the elements of possible disturbance are multiplying.

A dispatch from Madrid last Saturday quoted King Alfonso in a speech at the inauguration of the new library of the arts as giving a definite denial to rumors of the possibility of his abdicating. "A most lamentable fantasy," was the characterization previously given the abdication rumor by the Marquis of Albucaera, premier of Spain.

## Miss Robertson is Made Defendant in Action for Slander

### Retiring Congresswoman is Accused of Injuring Former Secretary's Reputation

WASHINGTON, March 5 (AP)—Miss Alice Robertson of Oklahoma, whose term as a member of the house expired yesterday, was sued today in the district of Columbia supreme court for \$10,000 damages for alleged slander. The suit was brought by Benjamin E. Cook, her former secretary, who charged that Miss Robertson, in a conversation, said he had sold her automobile without authority and had pocketed the proceeds.

## Would-Be Censors of Chicago's Films Trip Up in Tests

### Entire Class of 430 Candidates Fails to Make Passing Grade for Municipal Berth

CHICAGO, March 5 (AP)—Unable to make a passing grade of 70, all of the 430 candidates for the position of movie censor of Chicago failed in the examination, the civil service commission announced today.

### Among the questions asked were:

What is the meaning of the word immoral as applied to motion pictures? Would it be harmful to any class of people to exhibit a scene showing a burglar opening a money safe by first cutting the wires of explosives and effecting all evidence of finger prints? Would you sanction the showing of a writhing snake prominently shown in a motion picture scene? What sort of motion picture would you recommend for a child to be allowed for a particular class of law-abiding citizens? Should a picture be shown that depicts a person administering a hypodermic injection, which results in death? Give your reasons.

A new examination will be held.

## LAWMAKERS TO WITNESS JOINT FLEET MANEUVERS

### Representative French of Idaho, One of Party to See Battleships in Military Warfare Off Panama Base

WASHINGTON, March 5 (AP)—Secretary Denby, Admiral Counts, chief of naval operations, and a party of naval representatives, including Senator Washington, tonight for Panama base, where they are to witness joint maneuvers of the Atlantic and Pacific fleets, and battle practice with the radio controlled battleship Iowa as the objective.

The party is making the voyage on the naval transport Hercules, which, on the way to Colon, which will be reached March 13, will make a brief stop at Port Au Prince, Haiti. On the return trip will be made at Kingston, Jamaica; Santiago, Cuba; Guantanamo bay, for inspection of the naval station there; Port Au Prince, Santo Domingo and Samana bay, and St. Thomas, Virgin Islands. The transport is due back in Washington April 14.

Those who made arrangements to make the trip included Senators Kendrick, Wyo.; Phipps, Colorado; King, Utah; Odell, Nevada; Senator-elect Howell, Nebraska; and the following members of the house during the last congress: French, Idaho; McLoughlin, Nebraska; Buchanan and Garrett, Texas; Johnson, Washington; Linschert, California; and Johnson, South Dakota.

## INDIANA MEMORIAL BILL

INDIANAPOLIS, Ind., March 5 (AP)—The Memorial Day observance bill, passed by the Indiana general assembly, was vetoed by Governor McCray tonight. The measure as passed would have prohibited the running of the annual international 600-mile automobile race at the Indiana motor speedway on May 30.

## OPENS PATH FOR ADVANCE OF SOLDIERS

### Commanders Reach Agreement on Transportation of French Troops Through British Zone to Occupied Territory

AMERICAN COAL TO BE CONSIGNED TO GERMANY  
NOBFOLEK, Va., March 5 (AP)—Shipment of American coal to Germany, in return for a quantity of the French return of the Ruhr mines, will begin from Hampton Roads in cargo lots this week. Two vessels, after loading cars of coal at the Newport News terminals will leave for German ports.

LONDON, March 5 (AP)—A dispatch to The Times from Cologne says General Sir Arthur Godley, commander of the British forces at Cologne, and General Depoutie, the French commander in the occupied regions, have arrived at a satisfactory agreement on the question of the transportation of French troops through the British zone.

The dispatch adds that the details of the agreement are confidential.

## FEDERAL JURY CONVICTS FIVE BOISE RESIDENTS

### Sheriff James Agnew and Well Known Physician Among Persons Found Guilty of Liquor Law Violations

BOISE, Idaho, March 3.—The federal court trial of several persons, among whom were well known local residents, ended in the conviction of the Ada county sheriff and four others, charged with connection with an alleged booze ring.

Those convicted were Sheriff James D. Agnew, Dr. H. Goodfriend, well known Boise physician; Carl Sorenson and Ed Ward, rooming house proprietors, and Ed Kemp, alleged moonshiner.

Three of the counts on which they were convicted charged conspiracy to violate the prohibition law, and three charged violation of the internal revenue act. Chief of Police Henry Griffiths was acquitted. Sentence on the convicted persons will be imposed April 9.

## CONVICT REVEALS CACHE

### Disclosure of \$5,000 Buried in North Idaho Accounts for Almost All of Loot Taken in Registered Mail Theft

KEELOCK, Idaho, March 5 (AP)—E. J. Hicks, sentenced last summer to a term at McNeil island penitentiary for the theft of a pouch of registered mail here a year ago, today dug up in two separate places near here \$5000 in money. This accounts, it was said, for practically all of the \$12,000 in the stolen pouch.

The money recovered today included \$7000 in bills dug up in one place and \$500 in cash in another place. Valuable papers and liberty bonds also were recovered. Hicks was brought here by two guards from the federal penitentiary on McNeil island. He was said to have told prison officials that he had determined to "come clean" and lead an honest life.

## STOCK TRAIN IS HELD UP

### Bandits in Los Angeles Suburb Shoot Nevada Outfitter and Take Suitcase Containing Money from Caboose

LOS ANGELES, March 5 (AP)—A Southern Pacific freight and stock train, No. 255, was held up near Glendale, a suburb about 15 to 20 miles from Los Angeles, last night, a stockman shot and a suitcase, believed to contain some money, taken from the caboose, according to reports reaching Los Angeles.

The cattleman, John J. Hooley of Reno, Nev., was shot in the left leg, and the conductor, Carl Jackson was beaten over the head with the butt of a pistol.

## Alleged Victim Testifies from Sick-bed in Court Room Against Oregon Night-Riding Suspects

MEDFORD, Ore., March 5 (AP)—An unusual court room spectacle was presented in circuit court at Jacksonville late today when Joseph F. Hale, alleged victim of the kidnapping and hanging night riding episode by the "masking band" of hooded men on the night of March 17 last, and who was named for the state in the trials of Dr. Jonett P. Bray, Medford minister; J. P. Hiltson, automobile dealer and former chief of police of Medford; Howard A. Hill, local orchardist, and 16 other defendants indicted as "John

# ACHIEVEMENTS OF CONGRESS IS GIVEN PRAISE

Industrial Prosperity is Taken by Republican Committee as Evidence of Worth While Constructive Legislation

WASHINGTON, March 5 (AP)—More worth while constructive legislation was enacted at the sixty-seventh congress than by any congress in peace times, it was declared in a statement issued by the republican national committee. The effect "of this splendid record," it was added, "is visible on every hand."

"The tremendous and in many instances unprecedented, increase in industrial activity, the number of wage earners, in pay rolls, in bank deposits, in savings accounts, in all wholesale and retail business which has taken place during the past two years," the statement said, "has not been denied. Conditions have grown steadily and robustly since the beginning of the month since March, 1921, during all of which the sixty-seventh congress was practically in continuous session. This improvement would not, indeed, could not have taken place had that congress been enacting laws hostile to or harmful of the industrial, agricultural, commercial and financial interests."

**Stresses Fiscal Legislation.**

Declaring that the outstanding work of the congress which adjourned yesterday was its fiscal legislation, the committee statement pointed to the enactment of the budget law which it said was "easily the most constructive piece of legislation of this generation," and had resulted in a drastic cut in public expenditures and in decreasing the number of federal employees by nearly 100,000.

"The congress," it was stated, "also clipped one billion dollars a year from the country's tax burden."

The committee said that a series of laws "of particular benefit to the farming interests, but none of which can be classified as sectional or class legislation," was passed.

**No Destructive Laws.**

"In fact the greatest praise that could be offered to the sixty-seventh congress," it was added, "is a statement of the fact that it enacted no class or sectional or destructive laws."

Reviewing the more important laws enacted during the last two years, the committee declared they had "materially assisted in the return of normal prosperous conditions to all legitimate enterprises and had given agricultural, industrial and mercantile enterprises a solid foundation upon which they can build with confidence."

## CITY PROVIDES HEARSE

Mexican Town Prepares to Meet Needs of Indigent Residents Who May Be Ill or Injured. Also for Burial

MEXICO, Chi, Mex., March 5 (AP)—Juncos ordered an ambulance which it will put into service for the public. It has also ordered a hearse to loan poor families, according to Mayor Antonio Corona. There are few hearses in Mexico. Most funerals are conducted on street cars where there is ear service in the republic, and in smaller towns they are conducted by friends on foot, he said.

The jail has installed its own kitchen, the mayor announced, and the city has established a drug store at the municipal hospital which gives free drugs to the poor, he said.

The city also is planting 3000 trees over the town. They were ordered from the federal secretary of agriculture.

## TAKEN IN \$500,000. JEWELRY THEFT

Matthew D. Biddupe

MATTHEW D. BIDDUPE, alias John F. Derby, alias E. A. Marshall, was arrested in Albany, New York, and taken to New York City, where he confessed he was one of three men who seized Mrs. Irene Schoenkopf, wife of a multi-millionaire Buffalo man, in a New York apartment and robbed her of \$500,000 worth of jewelry while she was attending a New Year's Eve party in the studio of Frank Carman, her paid companion and dancing partner. Biddupe asserted he had in turn been robbed of all the loot by his two confederates, who have not been apprehended.

## FRUITS AND VEGETABLES TAX TRAFFIC FACILITIES

Agriculture Department Figures Show 1,892 Carloads Handled Every Day Throughout the Year

WASHINGTON, March 5 (AP)—Vegetables and fruit made heavy demands on the transportation facilities of the country last year, a total of 690,800 cars having been required for carload shipments of fourteen fruits and vegetables, the Department of Agriculture announced.

An average of 1,892 carloads was handled every day throughout the year, indicating the extent to which those fourteen farm products is moved from one part of the country to another. Last year's carload movement exceeded that of 1921 by 92,426 carloads, while the average for the six-year period, 1917-1922, was 324,457 carloads.

The carload shipments of 1922 were:

Cars	690,800
White potatoes	240,410
Apples	93,248
Grapes	56,829
Watermelons	46,650
Cabbage	38,401
Peaches	37,729
Cantaloupes	31,001
Onions	26,416
Tomatoes	26,183
Lettuce	21,687
Sweet potatoes	20,417
Pears	19,700
Strawberries	18,973
Celery	13,446

## BOXING ARENA TO OCCUPY SITE OF OLDEST CHURCH

SACRAMENTO, Calif., Mar. 5 (AP)—The site of the oldest church building in Sacramento has been sold, and on it will be erected a boxing arena and possibly a "nickel dance" hall, it has been announced here. The present structure, the Congregational church, has been purchased by Edward L. Krupp, sports promoter of this city, and will be razed soon, he said. The building was erected in 1851, taking the place of a frame church which was built in 1849. It was marked as a pioneer landmark on Gold Discovery day, January 24, 1823.

## Beautiful Baby, England's Queen Says of Grandson

Popular Curiosity is Gratified by Accounts of Behavior of Royal Relatives

LONDON, March 5 (AP)—The harmless bromide that kings and queens are human, just like anybody else, was worked overtime in the days that followed the advent of Princess Mary's new-born son. People wondered whether King George and Queen Mary had acted as ordinary expectant grand-parents, and whether Lord Lascelles behaved with the usual pro-natal nervousness and then, upon hearing "it's a boy," had burst forth with pride. People learned that it was so and they were happy.

From the few chosen mortals privileged to be in Chesterfield House, the town residence of Princess Mary, on the birthday of her son, there has emanated slowly but surely details of how the royal infant had conducted themselves.

Lord Lascelles stuck around the house all day, pacing from room to room. In the afternoon their majesties paid a visit, and then motored back to Buckingham Palace. After dinner they came again.

Lord Lascelles inquired how everything was going, and Dr. Simon told him "everything is quite normal." For the next hour and fifteen minutes the king betrayed considerable apprehension. Then came the news that the baby was born, and that it was a boy.

"I am a grand-father," the King remarked.

"But I am a father," said Lord Lascelles, and congratulations were exchanged.

Then the queen declared, "I do not care if I am a grandmother or not, but it is a beautiful baby."

And the next day baby talk was the language of the kingdom. The papers were chock full of articles on baby shirts, baby hats, baby habits and baby pictures. For weeks they carried yards and yards of advertisements of baby carriages, baby food, infant medicines, maternity gowns, baby shoes, and socks and dresses.

## GARCIAS PROVE NUMEROUS

Much Used Spanish Name Bakes Dry Law Officers Until Woman Prisoner Provides Straight Tip

EL PASO, Texas, March 5 (AP)—Jose Garcia among Spanish names is about as common as John Jones or Bill Smith in English. For a long time prohibition agents have been trying to find Jose Garcia. They have found a lot of Jose Garcias, but none were bootleggers. Yet scores of men for months and months on being arrested said they got their liquor from "Jose Garcia."

Finally the secret got out. A woman was arrested—she was Juanita.

"Did you get the stuff from Jose Garcia, also?"

"No, that's a name to throw you off. There is no bootlegger by that name. I got mine from Mr. [name] and she gave the name and address."

## MANY ENTER FOR DERBY

One Hundred and Forty-five Thoroughbreds from All Sections of Country to Show Places on Louisville Track

LOUISVILLE, Ky., March 5 (AP)—One hundred and forty-five thoroughbreds are entered for the 1923 Kentucky Derby. This is a record number for the derby as a late closing event.

The entries are from every section of the country and include practically every winner of a big two-year old stake yet year, according to announcement tonight of M. Winn, general manager of the Kentucky Jockey club, which will stage the 49th running of America's old race at Churchill Downs May 19. Indications point to a large attendance.

"With twenty-one starters the derby this year will be worth \$64,000, to which will be added a gold souvenir for the winner valued at \$7,500, Mr. Winn's announcement said.

## CO-OPERATIVE MOVEMENT GAINS GROUND IN TEXAS

Cotton Growers, Participating on Pool Draw 60 Per Cent of Value of Crop Before Sharing Averages

DALLAS, Tex., March 5 (AP)—More than 75,000 cotton growers in Texas, Oklahoma, Arizona and Arkansas now market their product through co-operative organizations, according to reports from these organizations just made public.

In Texas the Farm Bureau Cotton Growers association, numbers 20,000 members; the Oklahoma Cotton Growers have a membership of 36,000; in Arizona there are 12,000 and in Arkansas more than 7,000.

L. F. McKay, educational director of the American Cotton Growers Exchange states that the cotton belonging to these members are placed in warehouses and the grower is advanced money to the amount of 50 per cent of the value of his crop at the first of the year. After this the cotton is pooled and sold in an orderly manner, preserving an average price for the year.

However, the co-operative movement appears to have made great headway in other agricultural lines in Texas,

the Melon Growers exchange numbering 43 local organizations while the Sweet Potato Growers number 798 members in eighteen counties. The Wool and Mohair farmers have organized what is known as the Southwestern Farm Bureau Wool and Mohair association with 640 sheep and goat raisers. This association handled 1,300,000 pounds of wool last season according to its secretary's report.

All of these associations claim as their object the orderly selling of their product in order to keep the market steady.

The Texas Wheat Growers association, organized early in 1922 had a membership of more than 1,000 members in 25 counties in Texas and in January was reported to be growing at the rate of 50 per cent a week.

Other co-operative associations with smaller memberships now operating in this state are the Texas Hay association, with 600 members; the Texas-New Mexico Alfalfa Growers association, the Texas Farm Bureau Onion Growers association and the Texas Cattle Raisers and Producers association.

# COW WILL LEAD IN MARCH BACK TO PROSPERITY

### Future of Idaho Wrapped Up in Livestock Industry, Declares Boise Man on Tour of Investigation Here

"When we separate the farming business from gambling and lift the farmer from the uncertain realm of speculation into that of sound investment, the first step has been taken toward state prosperity and progress," says E. L. Reynolds of the Idaho Power company, who is spending a few days here in the compilation of livestock and agricultural data in the interests of his company.

"It is my firm conviction that the cow is to lead us to this happy condition. By intimate contact through Idaho with men who know from successful dairying experience what they are talking about, it is clear to me that we have been placed by nature in a most enviable position for the successful promotion of a great dairying business.

"We have not made so great progress in this direction as some of our more eastern states, but that is due to our newness. Much of the time up to the present has been consumed in breaking in new lands. It has been a plowman period and but recently have the farmers been 'getting their feet on the ground,' as it were. They are comparatively small and wealth not as great as we should like and altogether a probationary condition has been experienced.

"But back of it all stands the rock-ribbed fact that the state's superior soil, water and climate—and our growing appreciation of the superior productive capacity of this land—is leading to ever increasing optimism for the future of farming in general, and most especially of dairying.

"There is much talk today from many quarters of the necessity for more farms in Idaho being devoted chiefly to this business, and many of the finite moves in that direction are being witnessed.

#### Biggest Thing in Sight

"It is the one big thing before Idaho at present. In a way it may be blessing, that until now we have moved slowly, for we may profit by the good and bad experience of other states. That is to say—we may forge ahead rapidly and do within the next two or three years what other states have done in ten or fifteen. For instance, we should be able to place our cows almost immediately upon a proper and lasting cooperative basis. Personally, I believe that the greatest part of past failures in so-called cooperatives has been due to an ignorance of, or disregard for, the essential factor of true cooperation, which is the fact that the other fellow's success is just as essential to our own. When each member of an association is as much interested in 'Tom Jones' prosperity across the road as in his own—the greatest law known to mankind is placed in operation and will succeed.

"The world is fast waking up to the fact that selfish interest and greed have gotten us nowhere, and cooperation of a genuine sort is at hand.

"This essential factor being understood, then we may concentrate on the machinery of our associations and so systematize the work that maximum results may be obtained.

#### Urges Concerted Action

"In this connection I should like to see a concerted move made by all dairying interests of the state, so that a functioning of highest efficiency may be obtained.

"One of the first things that might be advisable is that of bringing to our state men like Sapiro of California, who is reported as having been so successful in all his cooperative organization work. If not Sapiro, then some one else. The point is to use the experience of others and eliminate the lost motion and waste time of experimentation.

"A point especially that I want to make is the fact that Idaho has demonstrated beyond the shadow of a

### WILL SAIL WORLD'S LARGEST DIRIGIBLE

JACOB KLINE, U. S. N., has been chosen by the chief of the naval air service to be executive officer of the ZP-1, the world's largest dirigible, now nearing completion in the government's hangar, at Lakehurst, New Jersey.

doubt that she can produce cows of the very highest productivity—and that cow here give higher yields than in the middle west.

"From one of the national cattle clubs, with headquarters in the east, has come word to the following general effect:

"Eastern and middle west breeders acknowledge that the same cow will, in this part of the country (Idaho and vicinity), produce 20 to 25 per cent more than in the middle west or east.

"Our certainty of hay and grain crops, our climate in which cattle thrive luxuriously, all combine to make Idaho a 'cow's paradise.' We have established in the state a number of remarkable herds. Some of our registered stock has been sold out of our borders and animals of world championship kind have been lost to us, and have gone to build up reputations in the middle west, and in some of our adjoining states. I have talked to some of these breeders here and they feel that far there is some to keep, as far as possible, all our enormous producers here. They hope and believe that local demand in herd building will facilitate this result.

#### Predicts Great Future

"Idaho is to become a great center of dairies, creameries, condenseries, dried milk factories and cheese factories. The pig and the chicken will be right behind the cow and with all these industries firmly established we shall be indeed a proud people, prosperous and contented.

"Cows and cooperation—both as nearly pure-breeds as possible, and Idaho will take her place in the forefront of modern progress and many of those who are now foolishly wandering to other places will look back at their old homes with longing eyes."

### TROOPS AT FORT BLISS DISLIKE BLUE UNIFORM

Mexican Border Climate Causes Fading of Material to Display Dues to Advantage

EL PASO, Texas, March 5 (AP)—Soldiers and officers at Fort Bliss regret that "blues" are to return as uniforms for men in the army with the next twelve months. In this climate on account of the strong sun, blue uniforms fade and the dust and sand storms make it hard to keep them clean, it is said. Officers at the fort say "blues" which used to sell for \$14 will bring \$10 now and they were cheap material for soldiers. A uniform for an officer which used to sell for \$100 would cost \$250 now, it is said, counting the necessary braids and other trimmings. Troop bulletins issued at the fort openly speak against the return of the "army blues" and declare the "blues" return would bring "blues" to many a soldier.

Kidnappers in the southwest, hot, dry, sunny, sandy country, and municipal officers have adapted its use in this section.

### COATS ROPE WITH COPPER

Government Scientists Use Mineral to Protect Hempen Cables Against Marine Pests

NEW YORK, March 5 (AP)—Uelc Sam has discovered a new use for copper. On the authority of the Copper and Brass Research association, it is announced that the United States bureau of fisheries has found that rope may be protected from marine pests by treating it with a solution of copper.

And, strangely, the experiments conducted by the government have shown that copper treated rope is lighter than that treated by tar. Marine pests, it is said, "literally eat the tar" out of tar impregnated rope and then devour the rope itself, making rope renewal a costly item to the 200,000 American fishermen who use annually about 200,000,000 pounds of rope.

Federal Farm Loans, interest 3-1/2 per cent, 34 years, pay with the privilege of paying at any interest-paying date. Farmers wanting these loans should place applications 90 days prior to their need at money. See me on Saturday afternoons at the Friday 7:15 Abstract in Perrine building or phone 57731. J. W. McDowell, Sec.—adv.

### Found a Cure for Indigestion

"I use Chamberlain's Stomach and Liver Tablets for indigestion and find they suit my case better than any other remedy I have ever tried and I have used many different medicines. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now," writes George W. Emory, Rock Mills, Ala. These tablets contain no pepper but strengthen the stomach and enable it to digest the food naturally.—adv.

### BANK PRESIDENT HELD IN \$209,000 THEFT

FRANK L. TAYLOR, \$50-a-week president of the First National bank of Warren, Miss., is under arrest in Chicago, charged with embezzling \$209,000 of the bank's funds.

He declares he was the dupes of Joseph B. Marcano, former Chicago barber, who came from Italy in the storage only a few years ago and got to be a second Ponzi.

### TURKS DELAY DECISION

National Assembly Breaks Precedents by Holding Session on Sunday; Another Week's Discussion Likely

CONSTANTINOPLE, March 5 (AP)—Although the national assembly violated precedents by holding a session on the Moslem Sunday it is believed that a decision with reference to a settlement will not be reached for another week.

Angora authorities assert that "there is much probability of peace as there is of war."

### BOWLING PRIZES GIVEN

Business Houses Contribute Awards for Pin Busters with High Score at End of Season

Six season tickets, donated by the Idaho Theatre, \$25.00 in cash donated by the Twin Falls bowling alley, and \$17 in trade donated by the Roadway Wright Auto company constitute the prizes for the winning team of the Twin Falls bowling league, it was announced by the management, Monday evening.

Second prize will consist of \$25.00 in trade donated by the I. D. Store, and \$20.00 in trade donated by the Shoe Market.

Third prize is \$25.00 in trade donated by the Troy Laundry.

The team finishing lowest in the percentage column will receive \$5.00 in trade, donated by the Alford & Mott Grocery company.

Brumwich-Halke Co. will donate a mineralite bowling ball to the player making the highest average during the tournament.

Salladay Hardware Co. will donate \$5.00 in merchandise to the high school player on the Idaho theater team making the highest score in a single game during the tournament.

The Shoe Market will give \$5.00 in cash to the first team making a total of 1,000 pins or better in a regular tournament series.

The league season will close on April 12.

### HIGH SCHOOL NOTES

An important meeting of the committees and the cabinet of the Blue Triangle club will be held Wednesday evening immediately after school.

The Senior girls finally agreed upon costume for class day.

There was a meeting of the social committee of the Blue Triangle club Monday evening immediately after school. Plans for the party, to be held March 14, were discussed. Several new ideas were given and the party promises to be a real success. Half of the Blue Triangle girls will come dressed as boys and the remainder as girls. The chairman for the different committees were appointed.

A meeting of the Big "T" society was held Monday afternoon.

A free lecture on Christian Science at High School Auditorium next Monday evening, March 12, at 8:15.—adv.

# Enjoy This Now

Combat that film on teeth

Watch the new beauty come

Go ask for this free test. The results will delight you. They will show you a way which millions have found to whiter, cleaner, safer teeth. All in your home should know it. Show them at once what it does.

Why teeth grow dingy  
You feel on your teeth a viscous film. It clings to teeth, cures crevices and stays. No ordinary tooth paste effectively combats it. That film is the teeth's great enemy. It absorbs stains, then forms a dingy coat. Tartar is based on film.

Film also holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. That's why 49 in 50 suffer from tooth troubles. Germs breed by millions in film. They with tartar, are the chief cause of pyorrhea, now so alarmingly common.

Now you can combat it  
Dental science has in late years found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then a new-type tooth paste was created, based on modern research. These two film combatants were embodied in it for daily application. That tooth paste is called Pepsodent. Careful people the world over now use it, largely by dental advice.

A new dental era  
Pepsodent also multiplies the alkalinity of the saliva. That is there to neutralize, mouth acids, the cause of tooth decay.

TODAY'S SPORTING NEWS

CLEANERS TAKE THREE STRAIGHT

Troy Laundry Makes Clean Sweep in Match with Rogerson Cafe Bowling Team

Only one game topped the 800 mark in the regular scheduled games at the Twin Falls bowling alleys last night when the Troy Laundry bowlers took three straight games from the Rogerson Cafe pin smasher.

The first game of the evening ended with the Troy men scoring 791 to 784 for the Eat machine. A blow in the last frame by Charley Larsen spelled defeat for Bill Towan's clan.

Bill Bailey rolled 203 in this game for high.

The Troy Laundry gang took an easy affair in the second game, coming out on top with a total of 764. The best the Rogerson clan could do in this game was 746.

After two weak games, the Troy Laundry braced up a bit in the final game of the evening and rolled 837, while the Rogerson lads stopped at 784.

Table with bowling scores for Troy Laundry and Rogerson Cafe. Columns include player names and scores for three games.

SOUPS AND SHIRTS

With Bob Logan on the sick list the Rogerson Cafe team was forced to use a dummy, who is allowed 166 pins in each game.

Hugh Boone took the part of the dummy last night and did very well.

The Laundry got away pretty lucky, winning a game with a total of 764. More horse shoes.

Bill Bailey did some clever bowling, getting 203 in the opener, with two splits, and 166 in the last game with five splits chalked against him.

With Riley Miller out of town, Boyd was fifth man for the Laundry team, and did well considering the new pins, and not having bowled in any league games before.

The averages of the three leaders including last night's games are Towan 174, Bailey 173 1/2, Larsen 172.

Phil King had an awful time trying to get started, hitting 107 in the opener and 120 in the second game. His last effort resulting in 184 saved him from ruin.

Jack Tritt, whose feeble efforts last

LOST Dairyman's Record Book. Return to News office. Reward.

work started the populace, came back to life last night with a total of 489.

Bill Towan had a slight mishap, sliding three points in his average, but the new pins didn't know that Bill was at the top of the heap, so didn't "fall" for his pleadings.

Roy Cubit was another of the top notchers who had an off night. Roy's high game was 169.

Cubit started them off right, but they strayed.

The fellow that said that Bill Bailey was showing signs of old age was "spoofing."

Harry Vogel was not in "prima" condition. Harry is in favor of having the front bench moved back about ten feet, and then there isn't a doubt but that he will bowl every time his turn comes.

Kennedy missed several easy splits, the result being that his bowling was a little under par.

Charley Larsen felt so bad at missing that 10 pin in the first game, couldn't get to 165 in either of the last two games.

Tonight the Rendahl-Wright men will topple the maples with the I. D. Store outfit, and a real game is assured. There is a possibility that a few alley records will be smashed this evening.

Our daily bowling thought: A stitch in time saves a blush.

VILLA WILL MEET WILDE

New York Matchmaker Picks Filippino Instead of Genaro for Bout with the World's Champion Flyweight

NEW YORK, March 5 (AP)—Jimmy Wilde of England, world's flyweight champion, and Pancho Villa, former American flyweight title holder, have been scheduled for a 15-round bout at the Polo grounds on June 16.

Villa, the Philippine boxer, lost his title to Frankie Genaro at Madison Square Garden last week.

O'Rourke said he had signed Villa in preference to Genaro because the newspaper had given Villa the decision against the referee's award to Genaro.

Wilde will receive 37.1-2 per cent of the gate receipts and Villa 12.1-2 per cent, O'Rourke said. No guarantees have been made to the boxers.

AMERICAN'S ELIMINATED

MONTE CARLO, March 5 (AP)—Mrs. Molla Bjurstedt Mallory and Wallis Myers were eliminated in the quarter finale of the mixed doubles tennis tournament here at the Casino today.

They were defeated by Mrs. Lambert Chambers and Gordon Lowe of England, 6-2, 6-4.

Mrs. Mallory is suffering from a weak ankle but maintained her intention of playing in the tournament opening at Mentone tomorrow.

MC AULIFFE FORFEITS BOUT

NEW YORK, March 5 (AP)—The 15-round bout between Tom Gibbons, St. Paul light heavyweight, and Jack McAufliffe II, of Detroit, scheduled at Madison Square Garden for March 19, was cancelled today after word from McAufliffe that he was ill and would be unable to fulfill his engagement.

Harry Greb, it is announced, is being sought as a substitute opponent for Gibbons on the same date.

IDAHO VANDALS DEFEAT BEARS

Take First of Series to Determine Pacific Coast Championship by 28 to 20 Score

MOSCOW, Idaho, March 5 (AP)—The University of Idaho, by a score of 28 to 20, defeated the University of California tonight in the first game of the series here to determine the Pacific coast conference basketball championship.

The Idaho Vandals were ahead practically the entire game, holding a lead of from two to the eight points at the close. Fast passing and short shots were the methods used by the Idaho men, and the Bears were forced to long shots on several attempts.

Talt, California forward, was high point man of the game with 26 points. Fox, Idaho captain, was second with 14 points.

Idaho Takes Lead

After 12 minutes of play the score stood four all; then Idaho took the lead, holding it to the end. Neither team scored from the field in the first 11 minutes, until Talt gave his team a one-point lead with the first field basket. Idaho jumped into the lead at 14 minutes on Keane's free throw, and maintained a two to six point lead to the end of the half, which ended Idaho 15, California 9.

California staged a brilliant comeback in the second half, narrowing the Vandal lead to two points in the first six minutes. At the 15 minute mark the Idaho men again had increased their lead to six points. The Californians started a final desperate rally, making the score 24 to 20, but two foul conversions and a final basket by Telford, Idaho guard, a second before the timer's gun spoke, took the final score to Idaho 28, California 20.

The play was rough and slow in the first half, but speeded up in the second period. Keane, Idaho, and Kytte, California, were jerked on personal fouls.

Idaho Coach MacMillan's passing, sure-shot game, proved superior to Coach Wright's game of standing guard in tonight's contest.

Talt and Fox Stars

Talt and Fox, California and Idaho forwards, were stars of the game. Thompson, Idaho center, kept O'Neill, California center, from a single field basket, while the Idaho center caged three of them. Lehane, California captain, and Houvines, substitute center, were sent in the second half in a vain effort to save the game for California.

The teams met here again tomorrow night. A second win by Idaho will give the Vandals the coast basketball title for the second successive season.

If California wins, a third and deciding game will be played, probably at Spokane.

Lineup and summary: Idaho Position California Fox (c) F. Talt Edwards F. Douthitt Thompson C. O'Neill Telford G. Kytte Keane G. Kineald

Substitutes: Idaho—Nelson for Edwards; Edwards for Nelson; Garlin for Keane. California—Belasco for

Kyte; Lehane for Kineald; Houvines for Douthitt. Scoring: Idaho—Field goals, Fox 2; Thompson 3, Telford 1, Keane 2, Garlin 1. Free throws, Fox 10 out of 18, California; Field goals—Talt 3; Douthitt 1; Belasco 1. Free throws: Talt 10 out of 14. Referee: George M. Bohler, Oregon.

SPORTSMANSHIP

Now that the smoke has cleared away and the basketball tournament is a thing of the past let it be said in all fairness that from the standpoint of sportsmanship the event was a marked disappointment.

There is no use going into details. The games which constituted the series have left behind them a trail of dissatisfaction and discontent as between the schools of at least two towns, Filer and Twin Falls, which is as regrettable as it is unnecessary.

Who is responsible for the feeling which exists for Filer on the part of the Twin Falls High School students? What sort of doctrine is it that would paste a thin veneer of "sportsmanship" over a program of studied insult as between schools? What effort, if any, is being made to overcome this vicious and growing tendency?

There was little of true sportsmanship to be found in any part of the treatment accorded the Filer Basketball team by Twin Falls during their part in the tournament here. Filer, in common with every other school represented, was the guest of the Twin Falls High School and as such was entitled to every reasonable courtesy.

After making due allowance for the heat and enthusiasm of the game. Did he get it? No. Over and over again, The News has sought to teach the idea that true sportsmanship lies mostly in losing well; in extending the hand of friendship to an opponent and in treating that opponent at all times with sportsmanlike courtesy, win or lose.

Inter-school games of all kinds conducted along these lines are a splendid thing and should be encouraged, but the other kind are a bad thing for the community, for the men who take part and for the whole proposition of High School and all other kinds of sports.

The News stands for sportsmanship in sports. Possibly The News is in error as to the correct definition of sportsmanship, but the point is debatable. Filer had a right to expect better treatment than she received at the hands of Twin Falls.

WALKER OUTLASSES GILL

PHILADELPHIA, March 5 (AP)—Mickey Walker, holder of the welterweight title, completely outclassed Johnny Gill of York, Pa., in an eight-round no-decision bout tonight. In the third round the champion knocked Gill down twice and throughout the remainder of the fight he continued to batter him around the ring. Walker weighed 147 1/2 pounds and Gill 152.

If your property is desirable and is advertised in the classified—you'll find your buyer.

Jerome Proposes Six-Team League

Three North Side Clubs Would Go Into Organization With Equal Number Here

Jerome's baseball management advises that Jerome will have a baseball team this year, and is anxious that a league be formed by the towns of southern Idaho.

This is the first real effort that has been made whereby Twin Falls will be able to see baseball this coming summer.

The plan as laid down by the North Side management contemplates the formation of a six-team league, three teams from the north side and three from the south side of the river.

Manager Bills of the Jerome team says that the Shoshone and Gooding fans are willing to support a team, and suggests that Twin Falls, Buhl and Kimberly or Hansen be the third team on this side.

This means, well, not the next thing is to find out what ten fans of those different towns want. The fans support the teams and must decide what shall be done.

A letter from the chamber of commerce of Kimberly says that Kimberly is willing to enter the league, and wants to know how Twin Falls feels on the subject. With Cal Griswold, Hansen's former baseball fan, now permanently located at Buhl, there isn't a doubt but Cal will be able to interest the fans of the West End town into organizing a team.

According to Manager Bills' way of thinking, the schedule would call for Sunday and holiday games only. He wants a meeting to be held at Jerome at once to fix up a schedule and attend to all details.

With the idea of a league established, the next thing is to find a place in Twin Falls for the playing of the games. Lincoln field is not available for Sunday ball, but there is the old ball park by the railroad tracks that could be fixed up. It has been suggested that the location is against the fixing of the old park, and that a place in the Perrins "lot" be used for this purpose. This would make an ideal location and accessible from every part of town.

What do the fans of Twin Falls want? The ball has started rolling, and it is now up to the fans to at least say what they want. And they must decide at once, as it won't be very long before the season will be ready to open, and the best way to do is to have everything out and dried when the opening time arrives.

The sports column is willing to act as agent for the different fans of the town, and will accept communications relating to baseball and the finding out of what Twin Falls' baseball people want.

Don't wait. Get busy at once and let us know what you are figuring on for the coming summer. If you want to travel from 15 to 30 miles every time you have the inclination to see a baseball game, say so. If you want Sunday baseball in Twin Falls, say so. If you want twilight baseball in Twin Falls,

GIBBONS STOPS TRACEY

St. Paul Heavyweight Put's Australian to Sleep in Second Period of Scheduled Ten Round Bout

EAST CHICAGO, Ind., March 5 (AP)—Tommy Gibbons, St. Paul heavyweight, knocked out Jim Tracey of Australia in the second round of a scheduled ten round bout here tonight. Gibbons floored Tracey for the county of nine, and as he rose, put him away with a right cross to the jaw.

Tracey never had a chance with the St. Paul boy. The first round opened briskly with Gibbons pumping lefts and rights to the body, while the boy from the Antipodes swung wildly, then dropped his guard to protect his pitcher.

Gibbons shifted the attack to the head, and sent in a stream of blows. The round ended with Tracey going to his corner groggy, and the end in sight.

Gibbons went out in the second to put Tracey away, and the round was hardly under way before he had the Australian on the floor taking the count of nine. As Tracey regained his feet, Gibbons bored in with a tattoo to the body, belted with his left and then put across the right cross to the jaw and Tracey went to sleep.

IDAHO WRESTLERS LOSE

Vandal Mat Men are Defeated, 24 to 22, by University of Washington Huskies in Meet at Moscow

MOSCOW, Idaho, March 5 (AP)—University of Washington wrestlers defeated the University of Idaho team, 24 to 22, in a mat here today. The Vandalis appeared easy until the last bout, when Leavitt of Washington won a close decision over Kinnison of Idaho in an extra period.

In the other bouts Connor of Washington won on decision from Leighty of Idaho in a featherweight contest; Phillips of Idaho threw Berry of Washington twice in the lightweight class; Griffith of Washington gained a decision over Molyneux of Idaho; and Vesper of Idaho defeated Davis of Washington on decision.

# SEES ATTEMPT TO DISCREDIT STANDARD OIL

## New Jersey Company Director Head Charges Senate Sub-Committee with Unfairness and Prejudice

NEW YORK, March 5. (AP)—A. C. Bedford, chairman of board of directors of the Standard Oil company of New Jersey, issued a statement tonight charging that the senate sub-committee's report on the American oil industry, made public yesterday, was intended to discredit his company.

He characterized the investigation as unfair to and prejudicial against his company, and the sub-committee's conclusions as "grossly unjust and misleading, such as no competent tribunal nor fair-minded individual would draw from the evidence."

Monopolization of the oil industry in the United States is an impossibility, he declared. His sub-committee's conclusions are "grossly unjust and misleading, such as no competent tribunal nor fair-minded individual would draw from the evidence."

Books Best Markets. "Of 85,000 barrels of gasoline now being produced every day in the mid-continent territory, 50,000 barrels are being thrown into markets that offer the best returns. Today the movement may be in one state, tomorrow into another. The combined production of the Standard Oil company of New Jersey is 32,000 barrels daily. It is a fact too patent to elaborate that the refiners on the Atlantic seaboard or elsewhere cannot hold up an arbitrary price for gasoline or other petroleum products when any jobber can draw upon this surplus in the mid-continent area at prices lower than those asked by the eastern refiner."

Mr. Bedford scoffed at the suggestion that the price of gasoline might rise to \$1 a gallon. Substitutes, he said, could be produced at prices low enough and in quantities large enough to preclude such a possibility.

# SILENCE RULES CONGRESS HALL

## Outstanding Figures Retire from Service in Nation's Legislative Branch

WASHINGTON, March 5. (AP)—A negro janitor, with mop and bucket, was the solitary occupant of the house galleries today as pagoboy organized a mock legislative body to pass numerous bills and resolutions which fall due in the closing days of the 67th congress.

After that ceremony, the doors of the house and senate chambers were closed to remain so until December, unless President Harding should call congress into extraordinary session.

Among those departing, so far as their services in congress are concerned, were Frank W. Mondell of Wyoming, who led the republican majority in the house; Joseph W. Fordney of Michigan, chairman of the house ways and means committee, and Philip P. Campbell of Kansas, chairman of the house rules committee.

Mr. Mondell will remain in Washington to take up his duties as director of the war finance corporation, Mr. Campbell probably will return to the practice of law with an office here, while Mr. Fordney will go back to his farm near Saginaw, Mich.

Retirement of these three leaders, along with a hundred or more others, appreciation has begun to furnish food for speculation as to the organization of the republican majority on the next house.

There has been little talk of a fight for leadership minority. Representative Garner of Texas, ranking member of the ways and means committee, has announced that he would oppose the present leader, Representative Garrett of Tennessee.

On the republican side, however, two candidates already are in the field for the leadership—Representatives Longworth of Ohio, and Graham of Illinois.

## Victim of Injustice Is Freed

Mr. & Mrs. LeRoy McKinnney

Married only two months, LeRoy McKinnney, of Cincinnati, Ohio, was torn from his bride's arms and sentenced to life imprisonment in Winton, Ohio, for the murder of a policeman in a hold-up. His wife, who knew he was with her at a motion picture theatre at the time the crime

was committed, never gave up hope and worked night and day for his release. Now, after serving five months in prison, he has returned to his bride, the actual slayer, conscience-stricken, having confessed the crime and received a life sentence.

## RIOT SURVIVOR

(Continued From Page One.)  
ward on the ground while the crowd chased the fleeing prisoners.

Pictures Brutal Murder. "While I was lying there," he said, "I saw a wounded man leaning against a tree with his blood streaming face on his arm. A couple of men with guns came up and said to him: 'You big can't we kill you?' and fired into his body."

Cairns testified that he recognized the speaker as Peter Hiller, one of the five defendants acquitted at the first trial. Hiller is not a defendant in the present trial.

On cross examination Cairns testified that he came from Chicago to act as a guard at the mine on June 15; that he was given a high powered rifle and a heavy pistol and that there had been no trouble until the afternoon of June 21. He asserted he had never done strike guard duty before and that it was the first time he ever had a rifle in his hands.

"What did you expect to do with the rifle and pistol?" he was asked by George Stone, counsel for the defense. "I did not expect to do anything with them."

"Then, what did you have them for?" "Because the superintendent gave them to me."

## GRAND JURY

(Continued From Page One.)  
the clan as an organization or by klanmen as individuals?

Law Comes First "I make these suggestions, gentlemen, in the hope that I may impress upon you the fact that it is your sworn duty to help enforce the laws of the state regardless of sentiments and regardless of the affiliation or creed of the individual who violates them."

The judge arraigned those groups of men who take the law into their own hands.

"As concerns us," he said, "if we have reached that stage or condition of society where men may organize into bands or groups and condemn and punish citizens when and as they see fit, without regard to the laws of the land and established rules of judicial procedure, then, gentlemen, the day of our doom is upon us. We have seen the end of civilized, organized society. The laws of civilized government must be enforced, otherwise civilization could not survive."

## JAPANESE TO WRESTLE HERE

TOKIO, March 5. (AP)—Onishiki, formerly the champion wrestler of Japan, who retired because he failed to arbitrate the recent wrestlers' strike, is studying English in anticipation of a trip to America, it is said, displaying his art, which he considers the best form of physical exercise.

# HUMAN 'SPIDER' FALLS TO DEATH

## Broadway Crowd Sees Incorporator of "Safety Last Society" Plunge to Doom

NEW YORK, March 5. (AP)—With a Broadway crowd standing agape and movie machines clicking out their yards of celluloid ribbon, Harry F. Young, self-styled "spider," plunged ten stories to his death today while attempting to scale the side of the Hotel Manhattan.

Women fainted and disorder ensued. The police estimated the crowd at 20,000.

Among those who crowded Greeley square, watching the performer at his stunt, was his wife, who swooned. She was revived and removed to a hospital. On Young's back hung a sign reading "Safety last"—for Young was an incorporator of the "safety last society" formed last week by human flies, parachute jumpers and folk of adventurous liking whose occupation caused them to be listed by insurance companies as "high risks."

The "spider" began his ascent at the north end of the hotel. He climbed up surfaces that angled from the street absolutely sheer, but which here and there had small indentations in which the performer was able to cling with finger or toe.

The fourth floor was gained without incident. At that point Young climbed over a balcony and walked the center of the building as if to afford the crowd a better view.

Hear Mutttered Fears Persons in windows past which Young climbed said later that they heard him muttering to himself: "I can't make it! I can't make it!" but he kept on.

When he reached the tenth floor his foot slipped. Down he plunged. Falling close to the wall, he crashed onto the balcony. His body deflected out into the street.

Young, who was 25 years old and lived in this city, had engaged in stunts for several years. His card proclaimed his "America's unique and original steepolejerk," and announced that work was guaranteed "on flagpoles, church steeples, water tanks and impossible places to reach." He had performed many times for the Grand Canyon many times had scaled Broadway buildings. He leaves a widow and a son eight years old.

## MISHKINE STOPS GARCIA

SALT LAKE, March 5. (AP)—Abie Mishkind of Salt Lake tonight knocked out Benny Garcia of Denver in the fifth round of their scheduled six-round contest. Emil Paluso of this city easily defeated Nate Miller, another Denver lad, in another six-round bout. Paluso and Miller are flyweights.

## ANTI-ALIEN LEASE BILL

(Continued From Page One.)

penalment for adulteration of ice cream was defeated. House bills passed by the senate and sent to the governor include additional police powers to the fish and game bureau, appropriation for game licenses lost or destroyed, a misdemeanor penalty for destruction of brands on timber and a bill requiring reasonable service from children in county institutions.

## MENDO OUTPOINTS LYNCH

PHILADELPHIA, March 5. (AP)—Jimmy Mendo, Philadelphia, outpointed Joe Lynch, lightweight champion, in an eight-round bout tonight. The local boxer, in the opinion of the majority of the newspaper men present, had the advantage in nearly every round, hitting the champion hard and often. Lynch's blows apparently lacked power and he missed frequently.

## IOWA MEETS FIRST DEFEAT

HOVINGTON, Iowa, March 5. (AP)—Looming in the west was a conference basketball race, met its first defeat of the season here tonight at the hands of Indiana, 23 to 21. Until tonight's contest, the final game of Iowa's western conference schedule, the latter team had to its credit 11 straight victories and no defeats.

## OREGON GIRLS WIN SHOOT

EGGENE, Ore., March 5. (AP)—Scoring 2522 out of a possible 3000, the girls' rifle team of the University of Oregon won the telegraphic rifle match with the girls of the University of Utah last Saturday. It was announced at the University of Oregon tonight. The Utah team scored 2492.

## DEATH ON HEBELS OF WEDDING

CHICAGO, March 5. (AP)—Twenty minutes after he had married a girl of 24, Herman A. Swanson, aged 62, a retired capitalist, died of heart failure today.

## INDIANA PASSES BONDS

INDIANAPOLIS, Ind., March 5. (AP)—A soldiers' bonus bill passed by the Indiana senate today, 47 to 19. As it had been passed by the house, it goes to the governor.

Painting, kilnsmoking and paper hanging and sign painting. All work guaranteed. Phone 410—altv.

## ANNOUNCEMENTS

The literature and drama department of the Twentieth Century club will meet Wednesday afternoon at 2:30 o'clock at the home of Mrs. H. C. Reynolds, 351 Fifth avenue east.

## Primrose Rebekah lodge will meet

this (Tuesday) evening in I. O. O. F. hall. The state president, Mattie L.

Poy, and the district deputy, Myrtle Price, will visit the lodge and dinner will be served for members at 6 o'clock.

The R. N. A. lodge will hold a special meeting in I. O. O. F. hall on Wednesday, March 7, at 2:30 p. m. All members are urged to be present.

Chapter D, P. E. O. Starwood, will meet this (Tuesday) evening with Mrs. J. S. Stewart and Miss Georgia Stewart, 1266 Eleventh avenue east.

The Twentieth Century club will meet this (Tuesday) afternoon in the Baptist bungalow. The following program will be given: Community singing, led by Mrs. I. H. Masters; a talk by John Harvey, "Newspaper Rectitude"; vocal solo, Mrs. N. J. Keofor; talk by I. H. Masters, "The Press as a Community Builder"; flute solo by Miss Ruth Tolliver; and a talk by Marshall Browne, "Getting Out The Paper." The club is very desirous of a large attendance as important business is to be transacted and the program contains several rare treats. Each thoroughly alive member is asked to bring on some member.

Sagacity of Wild Creatures. Wild animals know where to find protection, says the Department of Agriculture. In places where there are game sanctuaries, wild creatures listen to them at the beginning of every open hunting season.

## SERVICE

Twenty-four Hours Every Day

Our lunch room is for the convenience of those who desire to dine or lunch properly, yet with the least possible delay.

You will find a capable chef in charge at all times. Eat in the morning or late in the evening.

A GOOD PLACE TO TRADE

The Store That Sells Wooltex

# It's not March 31— yet spring is here

In the woods, the first crocus or anemone announces the arrival of spring, but in the town it's the gay new styles that tell us spring has arrived.

Wooltex suits have blossomed forth in our ready-to-wear department, beautifully tailored and smartly styled, as always, and priced unusually low. Ask to see our special group at \$55.00.

### Wooltex Box and Blouse Suits

For dress wear, you'll choose this style especially if it is the youthful you are seeking. Two and three-piece models in fine Poiret Twill, exquisitely trimmed.

**\$42.50 to \$75.00**

### Wooltex Tailor-made Suits

Wooltex tailored suits have a reputation throughout the country for beauty of tailoring and line. This year's suits live up to their name in every detail. In long coated models—simply trimmed.

**\$55.00 to \$75.00**

## Wooltex

Knockabout Coats in colorful tweeds

For sports wear, for country use, for travel or business, we cannot recommend these Knockabouts too highly.

# \$18.00 to \$38.00

EASTERN REPRESENTATIVES. George H. David Co., Inc., 171 Madison Ave., New York; A. H. Keator, 1111 Harvard Building, Chicago.

THE CITY ELECTION

Twin Falls has plenty of first class material from which to choose in the matter of a Mayor and two Commissioners of the City. As a matter of fact the difficulty lies in an overplus rather than a scarcity of nominees.

Whether or not all those nominated will file acceptances of nomination remains to be seen but certainly there need be no complaint as to the character of the field presented.

Before the end of the week the question as to who of those nominated are actually in the race will be settled. Then it will be possible to look over the line-up and prepare for the campaign.

CONGRESS

The sixty-seventh congress is history. It was a busy session and a busy congress. Much valuable legislation was enacted, and many worthless proposals rejected.

Eyes of Youth

I was on my way downtown with my little boy. All seats were taken when a party of women got on. Edward said, "Oh, mother, now all the ladies have to stand."

REPUBLICAN, on a scale which is exceeding all records of this or any other country.

The mere creation of confidence in place of distrust has completely changed the aspect of American industry. This confidence is based upon something substantial in the form of reduced taxes, increased insurance against foolish legislation, protection against cheap foreign competition, and a knowledge that the United States will not be plunged into foreign complications or wars.

Some of the senators who participated in the filibuster left the senate with the sixty-seventh congress. One or two of them boasted that they felt no responsibility, being "lame ducks" without fear of defeat or hope of reelection.

HAZELTON

HAZELTON—L. D. Ward of this place while shooting at a park rat in his home Saturday last accidentally shot his wife who was in bed in the next room. Mr. Ward was hurried to the hospital at Twin Falls where the wound, which was in the breast, was found not serious.

Miss Ella York of Hazelton and Ralph Wenzel of Marquette were united in marriage February 21 in Burley at the home of the groom's sister Mrs. James Bowers.

Carry Heavy Life Insurance

Heavy life insurance policies are held by J. C. Penney of New York, who carries \$3,000,000 on his life. W. H. Bodman, Wannamaker, Philadelphia, carries \$4,500,000, and Pierre du Pont carries \$4,000,000. John Wannamaker, who died recently, had insurance of \$3,000,000.

What is the present rage for fur continues it won't be many years until the present tendency to go in for strawberry raising, chicken farming, etc., will be superseded by a rush to start skunk, possum and coon ranches.

Passing of a Real Sport

On Their Way. "We may as well give up trying to get into society," said Newrich in discouragement. "The barrier is insurmountable."

SIX YEARS TO MAKE GOWN

Gorgeous Wedding Dresses Apparently by Matter of Necessity in the Dutch East Indies. On the island of Madura, in the Dutch East Indies, the girls marry when they are very young. Twelve years is the average when a girl takes on the responsibilities of making a gown.

PENS USED BY THE ANCIENTS

Theory Put Forward That Babylonian Writers Employed Stippling Tools of Glass. Babylonian authors of hieroglyphics certainly didn't use gold pen points. Did they use stippling tools of glass? It is interesting to read a question put by a writer in The Glass Container (New York), says the Literary Digest.

Little Interest in the Phone

When the telephone was struggling for recognition 40 years ago it was the idea of Alexander Bell to popularize the instrument by showing it at public gatherings and incidentally, in this manner, to gather some coin to help defray the greatest expense which he was put to in the development of the instrument.

Egypt's Dense Population

Egypt has an area of about 350,000 square miles. The bulk of the country consists of inhospitable sand and desert. Practically the only settled portion consists of a very narrow band of cultivated territory on the west side of the Nile. The Nile valley and delta, the only settled portion of Egypt, have an area of 12,235 square miles, almost exactly one-fourth the size of New York state.

Memorial to War Poet

In a speech at London, Ontario, Mr. Graham, minister of militia, stated that Canada was negotiating for the purchase of Vimy Ridge, which she desired to maintain as a park to perpetuate the memory of Canadian soldiers. It is understood that the Imperial graves committee has approved the plan for the memorial to Col. John McCrae, author of "In Flanders Fields."

WITH IRON HAND

Mexican Military Official Has Wiped Out Banditry. He Methods Hardly Constitutional, and in a High Degree Arbitrary, but They Worked.

A Mexican peon came out of a store with a bar of dirty little metal on his shoulder. He dumped it on a rough mat in the bottom of a wagon and wandered up the street. At intervals he reappeared with other bars, as we sat in the sun and talked of San Francisco and Washington and Paris.

BLACK SEA LIGHT RESTORED

Tower on Serpents' Island, Razed by Germans, Was Built by the Russians in 1840. The new lantern installed on the lighthouse on Serpents' Island, in the Black sea, which is in the course of reconstruction, started functioning regularly from December 1, according to the Bucharest correspondent of the London Times.

Converted to the Metric System

Washington Underlip, the well-known prospector and promoter, was talking in New York about the Russians. "Bolshevism will never penetrate into the mass of the people," he said. "You can't teach an old dog new tricks and the Russian race is old, very old—as old, in fact, as the Chinese."

Excellent Remedy for Constipation

It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They are easy to take and mild and gentle in effect. Give them a trial when you have need.—Adv.

Getting His Bearings

"When you get to a hotel, you will say good word for our hotel, won't you?" "Certainly," replied the guest who had been wandering around in a fog for a week. "Best place I ever stopped—decidedly. By the way," continued the guest, with a mysterious air, "would you mind giving me a little information?"

OLD GREYNA GREEN PASSING

Smithy, Famous the World Over, May Be Removed in the Interests of Motor Traffic. The famous Gretna Green smithy, where runaway couples from England used to get married, is threatened with demolition because it blocks the motor traffic.

WERE REAL "MEN"

Thrillers for Boys a Generation Ago Better Than Tales They Read Now, Says Writer. I have been re-reading a few of those old "dime" novels, writes "Gladys" in the Philadelphia Inquirer. You remember the sort I mean—"Headless Horseman," "Three-Fingered Jack," "The Boy Detective."

THE FRANKLIN MONTH

March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia.

THE MARKETS

CHICAGO GRAIN MARKET

OHIOCA, March 5 (AP)—Estimates by a leading authority that the amount of domestic wheat at present held in farms is smaller than it has been generally supposed to be a good deal to bring about higher prices in the wheat market. Closing quotations were firm at 75 to 25 cent advance, with May \$1.18 3/4 to 1.18 7/8 and July \$1.14 1/2 to 1.14 5/8. Corn gained 3/4 to 1 1/8 to 1 1/4 c, oats 1-4 c and provisions 1/2 to 3/8 c.

According to the latest figures farm reserves of wheat amount to only 153,000,000 bushels, whereas most guesses had put the total at 100,000,000 to 150,000,000 bushels. The expert responsible for the new estimate said there had been increased domestic consumption of 33,000,000 bushels as compared with last year. His report indicated that the serious shortage of wheat had taken place, and that the 1923 crop is at a relatively low condition. Prior to the issuance of the report but few had been aware of the extent of any heavy selling, and this advantage was increased decidedly after the crop estimate was out.

NEW YORK STOCK MARKET

Day's total sales 1,234,000 shares. Twenty industrial averages 104.77; net gain, .26; high 102.97; low, 96.60. Twenty railroad averages 100.71; net loss, .32; high 102.9, low, 81.53.

PORTLAND LIVESTOCK
