

# REDS ON TRIAL STRESS VIEWS ON REVOLUTION

### Counsel for W. Z. Foster, Charged with Violating Mich- igan Syndicalism Law, Spend Day Questioning Jurors

ST. JOSEPH, Mich., March 13 (AP)—Selection of a jury to try William Z. Foster, charged with violating Michigan's law against criminal syndicalism was virtually completed when court adjourned today. Frank P. Walsh, attorney for Foster, finally tendered a completed panel to the state just before adjournment and President Charles W. Gero expects to complete his questioning of the jury tomorrow morning. Two women and two men are on the panel. Gero expected to complete his questioning of the jury tomorrow morning. Two women and two men are on the panel. Gero expected to complete his questioning of the jury tomorrow morning.

### Two Receive Letters

The state brought out that two prospective jurors had received letters mailed by the American Civil Liberties Union of New York to residents of Berrien county, when they went home last night. Both jurors said they had not read the matter after learning what it was.

Both Foster and Mr. Walsh, his chief attorney, are members of the national executive committee of the union and Foster is an official of the Labor Defense Council of Chicago, which, the state claims, paid for the printing and distribution of 15,000 of the letters in this county.

The letter was accompanied by two pamphlets, one giving the reasons stated by Governor Len Small of Illinois, and another by Henry D. Ward, chairman of the American Civil Liberties Union is also editor of the Methodist Bulletin.

Mr. Walsh, summoned to the court and jury that he had no connection with or knowledge of the mailing of the letter on stationary bearing his name and did not appear in court.

### Book Views on Revolution

Most of today was spent by the defense in examining the prospective jurors as to their state of mind toward advocates of revolution as a means of accomplishing public reforms. In an attempt by Humphrey Gray, local associate of Mr. Walsh, to read to the jury excerpts from the writings of Thomas Jefferson on the fundamental rights of revolution, the judge for reform was stopped by the court. Judge White also interposed objections when Mr. Walsh asked one juror if he would be prejudiced against those who have recently advocated the right of revolution.

### CALIFORNIA ATHLETES WILL RACE THROUGH ROCK CLIFF

BERKELEY, Cal., Mar. 13 (AP)—University of California athletes here, members of two teams, are racing to tunnel through a rock cliff.

The competition started with the idea of proving the supremacy of the university geologists over the miners, and the result was a challenge to an eighteen-foot dash through solid rock. The scene of the contest is at the Lawson adit, back of the Heavens Mining Building, W. G. Gallagher is captain of the geologists and Everett Wilson leads the miners.

### BUYS \$2,000 FEET OF TIMBER

IDAHO FALLS, Mar. 13 (AP)—A company representing Montana capital has completed a deal involving 62,000 feet of standing timber in the Island Park country, according to an announcement by W. H. Smead of Missoula.

Erection of a large sawmill at Big Springs in the immediate future, is planned.

### First Picture of Mrs. Harding Since Illness

This photograph shows President and Mrs. Harding, accompanied by George Christian, secretary to the president, leaving the White House for the special train that took them south for their first vacation in a year. This is the first picture of Mrs. Harding since her recent critical illness.

### METHODISTS APPEAL FOR EVANGELISTIC CAMPAIGN

#### Board of Bishops Calls for Concentration of All Forces of Church in the Move for Spiritual Good

CHICAGO, Mar. 13 (AP)—"The call to repentance has never been repeated," says the Board of Bishops of the Methodist Episcopal Church in an appeal for an intensive evangelistic effort on the part of all members of the church, issued today by the Committee on Conservation and Advance through its corresponding secretary, Dr. R. J. Wade, Chicago.

"The unevangelized multitudes are as dead to the gospel and a personal interest in the atonement of Jesus Christ as the salient heathen for whose salvation we give and pray," says the appeal.

"Shall not bishops, superintendents, pastors, college presidents, league leaders, Sunday school teachers, laymen and all our loyal members dedicate themselves to some definite form of soul-winning endeavor?"

"Shall we not give ourselves with out reserve to an intensive evangelistic mission; that our news shall enter the fire. It will mean that the members of our women's missionary societies shall turn their extraordinary organization, talent and boundless enthusiasm into the channels of personal evangelism. It will mean, that for a season, all the forces of the local church shall be focused upon this one thing, and be fired by this one dominating purpose and passion."

"Shall we not go in for prayerful, systematic, passionate, unyielding movement to arouse the church and the community to a sense of their spiritual need? Shall we not pray without ceasing and labor with actual desperation for the mightiest revival of religion which has ever come to our church?"

"That revival should start in thirty thousand Methodist Episcopal services. And it must not cease until its vitalizing power has been carried everywhere."

### NOTED CHIEFTAIN PASSES HAPPY HUNTING GROUNDS

#### Death Summons Carry the Kettle, One of Oldest and Most Renowned Indians on American Continent

REGINA, Sask., March 13 (AP)—Death of the Kettle, head chief of the Assiniboine tribe, at the age of 107 years, marks the passing into the happy hunting grounds of one of the oldest and most renowned Indian chieftains on the American continent.

Following the time-honored custom of the tribe, the chief was buried on the reserve at high noon, February 19. The service was conducted according to Christian rites by Rev. M. Brongh, all of the Presbyterian Indian Mission, the aged Indian having embraced the Christian faith more than forty years ago.

Chief Carry The Kettle was famous in his youth as a runner, many wonderful feats of endurance being placed to his credit.

He was born along the Assiniboine river in Saskatchewan in 1816, holds a prominent place in all the official history of the early west. He was the oldest pre-frontier chief still ruling his people north or south of the border in the Northwest country. He was leading the Assiniboines to war while Sitting Bull and Poundmaker were still in their infancy.

He was one of the few survivors of the historic smallpox epidemic of 1838, which all but wiped out the powerful Assiniboine tribe, having reduced them from 1,200 to 400 lodges.

Will "The Detestable Dance," which "The Last Waltz" lead to a revival of the waltz in England? Miss Milford, the sedate author of "Our Village," would have been horrified at the very idea. Writing in 1814, she described the waltz as a "detestable dance," adding, "in addition to the obvious reasons which all women ought to have for disliking it, I cannot perceive its much vaunted grace."

### JACKSON LAKE STORAGE

### HUNTER ENDS CAREER OF DREADED CATTLE KILLER

#### Huge Mountain Lion is Brought to Bay After Chase of Six Days and Nights over Radius of 50 Miles

SAN JOSE, Cal., Mar. 13 (AP)—"Big Jim," the cattle killer, for years the dread of cattle men in the Mount Hamilton region, and one of the largest mountain lions ever bagged in the state, is dead. After a reign of twelve years as king of the cattle whippers of the Coyote Creek range, "Big Jim" has been killed by Jay Bruce, state mountain lion hunter.

The huge mountain lion was hunted for six days and nights over a radius of more than fifty miles before he was bagged by Bruce. He was treed by three of the state lion hunter's dogs, and after being shot in the lung and knocked from the tree, he was finally stopped within five feet of the hunter by a bullet through the brain.

"Big Jim" weighed 160 pounds and was credited with killing twenty head of cattle on his recent rampage. While trailing the "king of the killers," Bruce himself killed two male lions bringing his total of lions killed to 158 since he has been hunting them. Of these, Bruce has killed 137 during the four years he has been on the payroll of the state fish and game commission.

Since the commission began paying bounties on the hides of mountain lions sixteen years ago, bounties have been collected on 4,003 animals. The state pays \$30 for the female skin, while that of the male brings \$20.

#### Stevenson's Warning

A day or two after his death this writing was found on the desk of Robert Louis Stevenson: "Now do take warning by me. I am set up by a beneficent Providence at the corner of the road, to warn you to flee from the hebetude that is to follow. So remember to keep well; and remember rather anything than not to keep well; and again I say rather anything than not to keep well."

### SOVIETS REGARD TERROR AS NECESSARY FACTOR

#### New Commissars at Vladivostok Bring Stricter Ideas to Bear to Demonstrate Strength of Government

VLADIVOSTOK, Mar. 13 (AP)—There has been a great change among the political representatives of the government. Practically all the old commissars have been removed and a new lot, with stricter ideas, have been sent here from Moscow. One of the late arrivals said the government deemed this measure necessary in order to bring a little of the terror into the district and to impress the people with the strength of the government. This they think necessary as the working classes of the district have not had to undergo all the hardships which their fellow countrymen in Russia have lived through and are therefore inclined to be more independent.

The Blue Triangle club will give a party tonight in the high school auditorium at 7:45. The party is to be in cabaret style. A "regular" four course dinner will be served and there will be a program throughout the evening. The girls will play cards also.

Work on the "Coyote" is almost completed as it goes to press Thursday.

### ACID IN STOMACH SOURS THE FOOD

#### Says Excess of Hydrochloric Acid is Cause of Indigestion

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folk believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and stunts food fermentation; then our meals turn like garbage in a can, forming acid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we cravate sour food, belch gas or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and fasted gut from any pharmacy four ounces of Iod Salts and take a tablespoonful in a glass of water before breakfast, while it is effervescing, and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mucus, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Iod Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of stomach sufferers with excellent results.—adv.

# SEES VISIONS OF MONOPOLY OF ALCOHOL SUPPLY

### LaFollette Says Use of New Fuel Would Bring No Comfort for Motorists Unless the Standard Oil were Kept Out

WASHINGTON, March 13 (AP)—The suggestion that alcohol eventually might be utilized as a substitute for gasoline was characterized in a statement today by Senator LaFollette, chairman of the senate oil investigation committee, as bringing no comfort to motorists unless there is assurance that the "Standard Oil will not monopolize the patents and processes for the manufacture of alcohol for motor purposes."

In reply to statements of President Teague of the Standard Oil company of New Jersey, President Kingsbury of the California company, and others, Mr. LaFollette said the report of the investigating committee, covering months of arduous labor and returned by a unanimous vote, required neither "explanation nor defense."

"It is all-important," said LaFollette, "that neither interviews on the possibilities of 'dollar gasoline' nor any future conference should be permitted to divert the public attention from the present dominant fact, established by the sworn testimony in this investigation—that:

**Sees Complete Control.**  
"The Standard Oil companies completely control the oil industry of the United States. The vast majority of the territory of the United States among member companies of the Standard Oil group as spoliated and acting in perfect accord they fix the retail price which the producer of crude oil receives at the well, (2) the price at which the refiner receives his gasoline and kerosene, and (3) the retail price which is paid by the consumer."

"Through the control of pipe lines connecting the great producing territory of the west with the consuming territory of the middle east and the east, the Standard companies monopolize the transportation of oil, nullify the law declaring pipe lines common carriers, render the possibility of effective competition by independent producers and refiners utterly futile, and constantly menace their very existence, cripple and destroy any of the more troublesome of them at will."

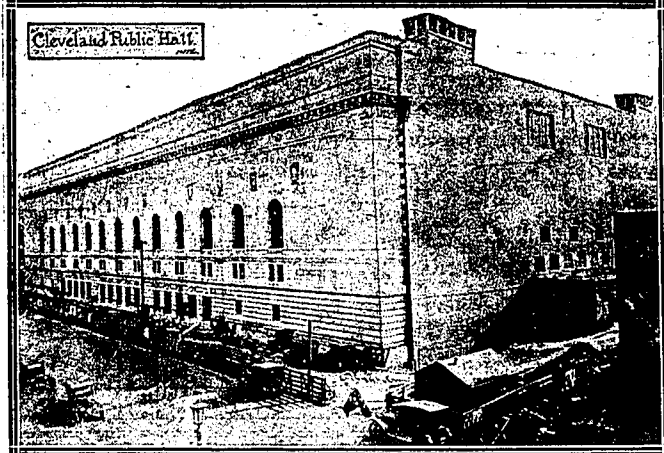

**Interprets Reply.**  
"The reference of the committee to the possibility of dollar gasoline seems to be the principal point of the Standard Oil attack and the Standard officials hasten to assure the public that there is no danger of dollar gasoline, but the reason they give for this assurance, (and herein lies the significance of their statement) is that before gasoline reaches a dollar a gallon some substitute for it will be found."

The Standard does not deny the will to make the price of gasoline a dollar a gallon or the power to do it, under the conditions described in the report, but it merely says that before gasoline reaches a dollar a gallon, a substitute will be found for it."

And alcohol is the substitute suggested. If this is to be regarded merely as another evidence of that grim humor for which the Standard Oil is noted, it is understandable. But until there is some suggestion as to the nature of the alcohol which is to be made in quantities of hundreds of millions and billions of gallons to take the place of motor gasoline and a reasonable certainty that Standard will not monopolize the patents and processes of the manufacture of alcohol for motor purposes, the suggestion to the motorist that he can use alcohol instead of gasoline as a motor fuel will not bring much comfort."

The report of the committee does not state nor intimate that gas prices will ever be permitted to reach a dollar a

### LEAGUE TEAMS TO GET ACTION

#### Pre-Season Baseball Season Opening Brings Opportunity to Gauge Relative Merits

NEW YORK, Mar. 13 (AP)—Affording followers of the national pastime their first real opportunity to gauge the relative merits of this year's prominent contenders, major league clubs are scheduled tomorrow to begin a series of inter-league and intra-league exhibition contests in the south.

Two National League rivals, St. Louis and Philadelphia, are slated to play at Leeburg, Fla., in the only game on tomorrow's calendar.

Exactly one hundred games have been scheduled among big league outfits for the month remaining before the season's opening, and it is likely that others will be booked as opportunity arises. This number, a score more in excess of the 1922 total, is close to a record for pre-season games.

trials as preliminaries to their attempts each to capture three pennants in succession. The Giants and White Sox will train in the vicinity of each other in Texas, and then travel north together for a series of 19 games in Texas, Mississippi, Louisiana, Tennessee and Virginia, winding up with two games at the Polo Grounds on April 14 and 15. The only break in this series will occur when the Giants play the Memphis, Tenn., club on April 8 and 9.

The Yankees are slated for sixteen games with their traditional pre-season rivals, the Brooklyn Dodgers, beginning at New Orleans March 31 and going north through Louisiana, Mississippi, Texas, Oklahoma and Missouri, concluding with three games at Ebbets Field, Brooklyn.

### FAST GAMES SCHEDULED FOR OREGON AG PLAYERS

(CORVALLIS, Ore., Mar. 13 (AP)—Games with fast amateur teams of the Willamette Valley before the opening of the conference schedule are to support the early training of the Oregon agricultural College baseball team, according to an announcement by Ralph Coleman, Portland Pacific Coast League pitcher, who is coaching the Aggies' nine.

Coleman's pitching material includes Alfred Woodward, who came near signing with the Detroit Tigers but decided to remain at O. A. C. Frank Mendenhall, veteran hurler from last year's team, and Charles Sewell, Harvard pitcher, are also on the list. Mike Duffy, last year's catcher is the only receiver listed.

Infielders from last year are Felix Fors, Dick Gardner, Glenn Pogy and Gilbert Tasso. Three veteran outfielders are Tom Bippy, Chester Noonan and Frank Kramion.

The schedule for the season follows: April 25-26, Idaho here; April 30, Washington State at Pullman; May 1, Washington State at Pullman; May 3-4, Idaho at Moscow; May 5, Whitman at Walla Walla; May 11-12, Oregon at Corvallis; May 16-17, Washington State at Corvallis; May 18-19, Oregon at Eugene.

(Additional Sports News on Page 4.)

gallon and the report points out specifically the way to prevent any such catastrophe, but the way to prevent it is not so wait until gasoline will cost more than alcohol. What the official records and the testimony established, and the report of the committee clearly states in this connection is that from January, 1920, to the end of 1922, with production out, running consumption, and with many existing wells not being permitted to produce to capacity because there was a surplus of crude oil—both gasoline and crude oil reached new high price levels obviously as the result of price manipulation by Standard Oil companies.

**Quotes Committee's Report.**  
"Exactly what the committee said and all it said, regarding dollar gasoline in its report was this:

"If a few great oil companies are permitted to manipulate prices for the next few years as they have been doing since January, 1920, the people of this country must be prepared before long to pay at least a dollar a gallon for gasoline."

"The committee in its report gave the specific remedies, few and simple as they are, which, if applied, it is believed will prevent future manipulation of gasoline prices and insure the public against a dollar a gallon or any other extortionate price for gasoline."

**NORWAY TO HOLD FAIR.**  
(CHRISTIANA, March 13 (AP)—There will be held in this city early in September the fourth of a series of Norwegian industrial fairs, all of which have been helpful to trade and commerce.

The three former exhibitions were held in 1909, 1921 and 1922. They were all successful and aroused great interest both in Norway and abroad. The number of entries last year was large. Virtually every branch of Norwegian industry and handicraft was represented, and exhibits were sent in from every manufacturing center throughout the country.

The fair gives foreign buyers a chance to acquaint themselves with Norwegian products and manufacturers of every description, and of getting into closer contact with firms in every line of trade.

**Always Some Cause for Gladness.**  
It avails us nothing unduly to be morn our errors or losses. For happiness what may to the man of simple faith, still, when the last minute comes of the sorrowful hour, when the week or the year is ended, still will he find some cause for gladness as he turns his eyes within.—Maeterlinck.

## DENIES PART IN BLAME FOR BLASTED ROMANCE

Wealthy Soft Drink Maker Asks Dismissal of Widow's Breach of Promise Suit for \$200,000

ATLANTA, Ga., Mar. 13 (AP)—Ann G. Candler, wealthy soft drink manufacturer, filed in federal court an answer to the \$200,000 breach of promise suit against him by Mrs. Ouisima De Bouchel of New Orleans, praying that the suit be dismissed and denying that Mrs. De Bouchel had suffered any damages.

Candler answered Mrs. De Bouchel's complaint in detail. He said he had proposed marriage and had declined to break the engagement after Mrs. De Bouchel had learned that members of his family objected. He admitted that a member of his family went to New Orleans to investigate "suggestions" made in letters sent from that city.

Plans for the marriage were made by the bride and the father of Mrs. De Bouchel had been sent to Atlanta and installed in the Candler home before the engagement was broken.

Candler admitted that he had written Mrs. De Bouchel a letter, as stated in her petition but that she had not quoted his exact terms. Mrs. De Bouchel charged she received a letter from Mrs. Candler after the engagement after he said it had been reported to him "from sources he" was bound to believe, "that two men had visited her during the Confederate reunion in Atlanta, for improper purposes."

**Chickens Got the Water.**  
I asked my little son, not quite four, to carry a pan of water down to the chickens. He soon returned with the empty pan. I said, "Why, Paul, I wanted you to give that water to the chickens." He answered, "I did. I threw it through the gate."—Exchange.

CAFE BOWLERS WIN ALL THREE

Towan's Crew Overwhelms the Idaho Department Store Team in Two Rounds

Bill Towan and his bunch of griddle artists from the Rogerson Cafe took three straight games from the I. D. Store bowlers last night at the Twin Falls bowling alleys, winning two in easy fashion, and winning the middle game with but four pins to spare.

In the first game of the evening Bill Towan rolled 214, which gave his team a comfortable lead, the score ending 772 to 742.

The second game was too close for comfort, the Rogerson Cafe men rolling 814 to 810 for the counter jumpers. "Dinty" Moore took high honors in this game with 100.

The last game of the evening also went to the ham and eggs division, the totals being 792 to 717. Carlos Linville was high with 293 in the last game.

Towan took high average honors with 72 for the evening. The total pins stood 2318 for the Rogerson and 2263 for the I. D. boys.

Three in a row:

|              |     |     |     |      |
|--------------|-----|-----|-----|------|
| I. D. Store— | 1   | 2   | 3   | Tot. |
| Ford         | 117 | 149 | 100 | 366  |
| Squire       | 17  | 144 | 155 | 416  |
| Moore        | 157 | 100 | 154 | 411  |
| Boone        | 148 | 161 | 105 | 414  |
| Linville     | 143 | 166 | 293 | 512  |

BEATING THE DUST

The first time since the tournament

opened that the cafe men have taken three in a row.

The I. D. Store men took on Squires of the sugar factory team and he did nice work. Squires will bowl in place of E. Larsen who has dropped out.

Bill Towan went wild in the opener but got back to earth in the last two.

"Dinty" Boone had a great time in the last stanza getting to 100, but finally managed to "crawl" to 105. Three splits in a row in this game took the pop out of the southpaw.

Ford was another bowler who failed to fatten his average. "Henry" got to an even 100 in the last game and 117 in the first. The biancheries got Ford's goat in the early part of the contest and when they left they left the goat.

"Dinty" Moore showed a little of his old time form, pulling up at 501 for the evening.

Bob Logan took pity on the fast sliding I. D. boys in the first game and refused to pass 134. One of the big features of the present tournament is that it has so many kindhearted bowlers who refuse to take advantage of their opponents.

Virgil Swensen after a two weeks' lay off didn't fare well, getting but 292 for the three games.

"Hooks" Linville pulled his average up a notch by topping 512 during the three games.

Kennedy is coming right along, and as was predicted will be close to the top when the season ends. His total last night hit 512.

Charley Larsen was off color, stopping at 441. Charley missed a good many easy spares in the initial game, came back in the second and then fell again in the third.

Tonight the Shoo Market team will meet the Alford and Mott quintet, and it may be well to say that the Alford and Mott are overdue, so watch out.

Our daily bowling thought: Treat

a dog with kindness, pet him a little, feed him well and he will never leave you. P. 8.—This system often works on husbands.

COBBLETS UPSET ALL DOPE

Badger Shoe Repair Team of Milwaukee Rolls into Second Place with 2721 at American Congress Contest

MILWAUKEE, Wis., March 13. (AP)—Upsetting the dope and shooting a total of 2721 pins, the Badger Shoe Repair team of Milwaukee rolled into second place in the American Bowling Congress tournament here today. They displaced the Sale-A-Ways team, which was holding the place with 2670. The Plankinton Globe No. 1 continues to hold the lead, with 2700.

KING GUSTAVE ELIMINATED

NICE, March 13. (AP)—King Gustave of Sweden, was eliminated in the first round of the men's doubles of the Nice lawn tennis tournament today after he and his partner, A. G. Hunter of England, gave their opponents, M. Deshayes and Colonel Dukerly a real battle-royal.

The king played fine tennis during the first set, which he and Hunter won, 8-6, but the heat and his 61 years told.

SIGLIN QUITS BEES

SACRAMENTO, Cal., March 13. (AP)—Paddy Siglin, second baseman for the Salt Lake club of the Pacific Coast league will wear a Sacramento uniform this year, according to an agreement reached here today between Duffy Lewis, Salt Lake manager, and Lewis Morison, one of the owners of the senators. Siglin will be traded for Les Sheehan, utility man, and Walter Peace, infielder, and \$1,000 in cash, it was announced.

BANKERS CHALK UP WIN AGAINST SUGAR MAKERS

Bank and Trust Bowlers Take Rubber Series from Factory Crew with Margin of Twenty-four Pins

Demonstrating that counting money is only a side issue the Bank and Trust bowlers took the rubber series from the Sugar Factory crew yesterday afternoon, the final score reading 1442 to 1418.

In the opening game Bill S'jley started hostilities with 139, but the rest of the beet diggers gave her more gas, the result being that the Bankers came out on the wrong end of a 742 to 672 score.

Figuring that the championship of Rock creek was a cinch, the beet slathers sat back in the second game and watched such celebrities as Wilton Peck, Guy Ryan and Patrice roll off strikes after strike, and when the final reckoning came they had lost the total part of the contest by 23 pins, and thus the championship of Rock creek, so vital to all bowlers, went to the

The Screen

"THE SEVENTH DAY."

"The Seventh Day" is good enough entertainment for the seventh day and all the other six. While it might be stretching a point to say that it is the best entertainment the screen has ever had, there is little question but that Richard Barthelmess, who won his sensational spurs in "Coltalis David" has followed up with a picture of unusual interest at the Orpheum theater. The story, an original by Porter Emerson Brown.

SUPREME THRILLS SHOWN.

The two greatest thrills known to man have been cleverly combined to make "The Kentucky Derby," the film now at the Rialto theater, a good evening's entertainment. They are the terror of a sudden ship wreck and the excitement of a closely contested horse race.

"The Kentucky Derby" was adapted from the famous stage melodrama, "The Suldrum." In order to give it correct atmosphere, Universal sent an entire production company to Kentucky, where racing and stock farm scenes, including the celebrated Kentucky derby, were by Herrick, were filmed at Lexington and Louisville.

MARY PICKFORD

"Tess of the Storm Country"

From the novel by Grace Miller White  
By arrangement with Joseph Zukow  
Direction by John J. Robertson  
Photography by Charles Rortner

A Superb Screen Gem in an Entirely New Setting

"The World's Sweetheart" in her own brand new version of a world classic the whole world loves—the re-creation of a masterpiece.

A picture that fascinates by its simplicity, captivates by its beauty.

The beautiful Mary Pickford as a girl again—in rags and tatters and rubber boots—but always smiling her impish child smile, always tossing her golden curls as the lovable Tess who brings glad tears and joyous smiles to all who see.
