VOL. 5, NO. 355 TWIN FALLS, IDAHO, WEDNESDAY MORNING, APRIL 4, 1923. PRICE FIVE CENTS

PRELATES EXECUTED BY SOVIET

Russians Use Firing Squad to Stop Opposition of Vicar General of Catholic Church to Red Regime

MOSCOW, April 3 (AP)—Convicted and sentenced to death on a charge of opposing the Russian soviet government, Monsignor Constantine Butchkevitch, vicar general of the Roman Catholic church in Russia, has not been spared a firing squad, it was learned today.

It is believed to have been executed last Saturday. An appeal for clemency in his behalf was denied last Thursday. At that time the authorities commuted the death sentence imposed on Archbishop Zolotarev, convicted on the same charge as the vicar general.

General Butchkevitch was found guilty and executed as a violator of article 62 of the criminal code, which provides the death penalty or imprisonment for "participation in any organization which is acting with the purpose of exciting the population to mass agitation, non-payment of taxes, fulfillment of its duties, or by any other means clearly detrimental to the dictatorship of the working class and the proletarian revolution, although an armed rising or an armed invasion is not the chief aim of that organization."

Announcement Is Isonic. Only two papers, the official Izvestia, and Pravda, carried the Isonic announcement of the execution, that printed in the Pravda reading: "On March 31 was brought into effect the death sentence on the Priest Butchkevitch, condemned in the case of the Catholic counter-revolutionist."

KLAN'S FOUNDER REGAINS REINS

W. J. Simmons Ousts H. W. Evans, Imperial Wizard, and Seizes Imperial Palace

ATLANTA, Ga., April 3 (AP)—Klu Klux Klansmen from all sections of the country were reported on route here tonight as William J. Simmons, founder of the order, exerted the temporary control over the organization given him by the Fulton superior court today in appointing Dr. Fred B. Johnson of San Antonio, Texas, as chief of staff and appointing him in actual charge of the imperial palace.

The Atlanta Constitution will publish tomorrow that within the last 48 hours it has been reliably informed that approximately 6,000 Klansmen have gathered here to lend their influence and support to Simmons in his move against Dr. H. W. Evans, imperial wizard, and other imperial officers of the Knights of the Ku Klux Klan.

Break Over Women's Order. The break between Simmons, who holds the rank of imperial emperor in the Klan, and the imperial wizard, occurred last week when Simmons announced he would found and sponsor an organization for women whose policies had purposes would be along the same line as those of the Klan. The imperial wizard issued a proclamation forbidding Klansmen to espouse such an organization.

The coup d'etat of Simmons, the Constitution will publish, seemed complete today as Chief of Staff Johnson, his appointee, took charge of the imperial palace. Dr. Johnson commissioned several members of the order who are known to be friendly with Simmons to fill the various offices temporarily and carry on the routine affairs at headquarters.

Survivors of Two Shipwrecks Making Way Toward Home

Fire and Storm Destroy Two Boats on Which Party of Nine Sailed South Seas

HONOLULU, April 3 (AP)—R. N. Clark, former master of the schooner Defiance, his wife, and seven members of his crew, arrived here today aboard the steamer Schoona, after having been the victims of two shipwrecks in the South Seas and being marooned for 48 days on Faisi, Solomons islands. Clark and his party are enroute to San Francisco.

SEEK CAUSE OF SUGAR ADVANCE

Government Investigation of Conspiracy Charges Proceeds Secretly

WASHINGTON, April 3 (AP)—Acting Attorney General Seymour held a conference here today with Federal District Attorney Hayward of New York and it was believed the sugar conspiracy charges were under discussion, although no official information was available.

Representatives of the department of justice for a fortnight have been actively investigating the charges pressed by the People's Legislative Service through Basil M. Mundy that there has been a conspiracy to increase sugar prices to the consumer. This investigation has been carried on in part, it was said at the department, through the office of District Attorney Hayward, the national sugar trade being considered largely in New York.

Definite action in the sugar industry by midsummer was predicted positively today by a high government official, but secrecy is being maintained regarding the progress of the federal investigation.

DEMOCRATS IN CHICAGO TAKE CITY OFFICES

Dever is Elected Mayor Over Lueder with 103,748 Margin; Republican to Succeed Mann in Congress

CHICAGO, April 3, (AP)—Judge Wm. E. Dever, incumbent of the democratic ticket, was elected mayor of Chicago over Arthur C. Lueder, republican, by a plurality of 103,748, according to complete unofficial returns tonight. The vote was: Dever 387,901; Lueder 284,153; Wm. A. Cunneen, socialist, 40,841. A democratic city clerk and city treasurer also were elected.

While the democrats swept the city ticket from one end to the other, the republicans were not without consolation for complete unofficial returns on the election in the second congressional district to fill the vacancy caused by the death of Representative James R. Mann, showed Morton D. Hull, republican, elected over Barratt O'Hara, democrat, by nearly 14,000 plurality.

The vote was Hull, republican, 56,320; O'Hara, democrat, 42,395; Seymour Steadman, socialist, 5,965. It was estimated that slightly less than 700,000 of Chicago's 905,000 voters had gone to the polls.

Sets Record for Count. While the election was quiet, it set a record in one respect. Less than 30 minutes after the polls closed the trend was to be seen with the first return and an hour after the polls closed it was definitely known that Judge Dever had won.

While Judge Dever had rolled up an immense plurality it will not reach the record made by Mayor Wm. Hale Thompson in 1915 when he won by 137,477 votes. In 1919, however, Thompson's plurality was cut to 21,622 votes. The withdrawal of Mayor Thompson from the race prior to the February primary expelled the campaign of which was expected to be one of its main issues, the merits of the Thompson administration. Mayor Thompson withdrew from the race for a third term after anti-Thompson republican factions had formed a coalition and selected Lueder as a standard bearer. Mayor Thompson and his organization took no active part in the campaign and the man to whom the support of

Governor Acts to Head Off Trouble in Northern Idaho

Names Wallace Man Special Deputy of Law Enforcement Department

BOISE, Idaho, April 3 (AP)—Governor C. C. Moore today appointed J. D. Foster of Wallace as special deputy of the state department of law enforcement in response to telegrams and petitions from citizens of the northern part of the state stating that I. W. W. agitators were making industrial disturbances imminent. Mr. Foster will have charge of the northern Idaho territory.

RAILWAY HEADS SEE HEAVY LOAD

Directors of 20 Roads Plan Measures for Meeting Anticipated Traffic Increase

NEW YORK, April 3, (AP)—Confronted with the prospect of a record breaking year which will vastly increase the traffic load on all railroads, executives of American lines began today a series of conferences aimed at meeting the emergency.

The problem, as the rail men see it, is one of increasing the capacity of existing lines and equipment to meet the anticipated burden, with the minimum of investment in new or surplus tracks and rolling stock. Twenty directors of the American Railway association, with R. H. Ashlton as president and Daniel Willard as chairman, opened the conferences. Representing every road in the country, they voted to recommend that their members embark on "a program of extensive co-operation" similar to the emergency measures adopted in 1920 which enabled them to carry the staggering load of the post-war boom.

Tomorrow the executive committee of the association will meet and will discuss a plan of action which is composed of class one roads only and concerns itself with matters of policy rather than physical problems of operation, will continue.

Hodgin Wins Mayoralty; No Commissioners Elected

SHAD L. HODGIN, attorney, who was Tuesday elected mayor of Twin Falls for the coming two years.

NEW ELECTION MUST BE HELD TO FILL POSTS

Successful Candidate Polls 44 More Votes Than Opponent; Running Mates Pile Up Pluralities but Lack Majorities

CANVASS OF THE VOTE. World Ward. For Mayor: Shad L. Hodgin 1,205; W. M. Lambing 493. For Commissioner: Wm. T. Leslie 501; J. S. Koel 463; C. H. Stinson 318; J. E. Roberts 241; S. G. McAuley 243.

Shad L. Hodgin, attorney, was on Tuesday elected mayor of Twin Falls for the coming two years' term. Polling a total of 1,205 votes, Mr. Hodgin defeated W. M. Lambing, his opponent, by a margin of 44 votes.

With five candidates in the race for the two places on the municipal commission, to be filled at this election, none was successful in polling a majority of all the votes cast, which is required for election under the commission form of government that was adopted for Twin Falls last spring. A second election will be held within 30 days in a further effort to elect the new commissioners.

Harding Takes His Place with Baseball Fans

President Spends Day Attending Exhibition Game and on Golf Course

AUGUSTA, Ga., April 3 (AP)—President Harding today slipped out of the White House to see an exhibition game between the Detroit Americans and the Toronto club of the International league.

The chief executive was accompanied by Mrs. Harding, who seemed to enjoy the game as much as her husband, who is quite a baseball fan and used to own stock in a club at Marion, Ohio. They were the guests of Keneaw M. Laidis, commissioner of baseball. Arriving at the park, the president took a seat on a lower row in the grand stand, asked for a score card, listed the lineup and got set for the game. Before the game started, Ty Cobb, an Augusta product, and manager of the Detroit club, and Dan Howley, manager of the Toronto club, came into the stand and shook hands with the president and Mrs. Harding.

The game resulted in a 9-0-2 victory for Detroit. The president got in his daily round of golf during the morning over the Augusta Country club course and at luncheon had former Senator Hillecock of Nebraska, and Dr. Nicholas Murray Butler, president of Columbia university, as his guests.

Tomorrow Mr. Harding plans to transfer his golf game to Aiken, S. C., about 20 miles from here.

BOISE RE-ELECTS SHERMAN

Mayor and Two Councilmen are Re-elected in Office by Large Majorities in Primary City Election

BOISE, April 3 (AP)—Mayor Eugene B. Sherman and two councilmen, Edward Smith and Prosper Aveline, were re-elected by large majorities in the primary city election held here today. Other candidates were Jero W. Robinson and Charles Arbenkole for mayor, and Charles Christman and H. P. Ashby for places on the city council.

Sherman's majority over his two opponents was 518 over the next nearest. The city council members were re-elected for two years. Councilmen Smith and Aveline have both served for four years.

Robinson, who ran second in the mayoral race, is a former mayor of Boise, having been recalled from office in 1916.

RAIDERS UNCOVER DRUGS

Denver Man, who Claims to Have Been ex-Kaiser's Physician, and 24 Other Men and Women are Arrested

DENVER, April 3, (AP)—Federal narcotic agents and Denver police today arrested Dr. Zdenko von Dwozrak and 24 men and women in a sensational raid on the physician's offices in a downtown office building. Dwozrak, who is leader of the Denver philanthropic orchestra and claims to have been personal physician to ex-Kaiser William of Germany twenty years ago, was released under \$2,500 bond and the others were freed on bail in smaller amounts.

PROSPERITY IN INDUSTRY SHOWN

Reports of Corporations Give Evidence of Expanding Business Fields

NEW YORK, April 3 (AP)—Striking evidence of prosperous business conditions was furnished today in earnings reports of 100 corporations made public by a number of industrial corporations.

Three automobile companies reported production and sales for the first quarter far in excess of the corresponding period last year, a major company increased its dividend and the Baldwin Locomotive Works reported its plants were running at 92 per cent of capacity.

The Bethlehem Steel corporation increased its board of directors from 12 to 15 with the election of Percy A. Rockefeller and William E. Corey, representing the Midvale Steel company, recently acquired by the Bethlehem company and H. E. Lewis, vice president of the Bethlehem Steel. President Grace confirmed reports that the Bethlehem company had purchased between 14,000 and 15,000 shares of the minority stock owned by Cambria Steel company at \$18 a share.

All directors were re-elected at the annual meeting of stockholders of the Standard Oil company. The company's report for the first quarter disclosed production and sale of 37,500 cars with earnings in excess of \$3,000,000 after taxes and amount being equivalent to between 37 and 48 a share on the 750,000 shares outstanding.

The Willys-Overland company reported production during the first quarter of 44,478 cars or 3 1/2 times as many as were turned out during the corresponding period last year. At the present rate of production it was stated, the output by May 15 will exceed the total for the entire year of 1922. March shipments amounted to 20,277 cars.

The Hupp Motor company reported the sale in March of 92,247 cars, a 32 per cent more than were sold during March last year. Sales for the first quarter were 83 per cent greater than for the corresponding period a year ago.

Officials of the Baldwin Locomotive Works announced the company now has orders for 30 miles of engines and expects orders for the next year to reach 50 miles. The corporation expects to increase production to 100 per cent capacity by July 1. The shortage of locomotives in the country is estimated at 12,500.

Unofficial reports estimate the earnings of the U. S. Steel corporation for the first quarter of 1923 at \$28,000,000, which would be an increase of more than \$10,000,000 over the corresponding period in 1922.

The American Can company reported its earnings for the first quarter were maintained in the office, and the others substantially larger than for this period seized in the raid were taken into custody as they entered. Drugs are said to have been found on several. All were charged with violation of the Harrison anti-narcotic act.

SHUCKS! IF WE JUST HAD ENOUGH LA FOLLETTES, BROOKHARTS AND FRAZIERS WE COULD RUN THE RAILROADS WITHOUT ANY OPERATING COSTS AT ALL

IDAHO WEATHER. Wednesday: Unsettled.

# NEW LINEUP OF RAILWAYS SEEN BY CALIFORNIA

### State Commission Proposes a New Trans-Continental Line with Santa Fe System as Principal Factor

SAN FRANCISCO, April 3 (AP)—A new trans-continental line, a part of the system of which it is planned the Atchison, Topeka and Santa Fe system, shall be the main section, was proposed by the California railroad commission here in today's hearing of the interstate commerce commission on projects for railroad consolidation.

The new line would be built up of the Western Pacific, Denver and Rio Grande and Burlington. The commission also suggested that any proposed consolidation should give the Santa Fe system, the Northwestern Pacific, a California line now controlled jointly by the Santa Fe and Southern Pacific. The scheme would give the Santa Fe consolidated system two trans-continental lines and a direct link extending virtually from end to end of California.

#### Opposes Ripley Plan.

The commission's plan was presented in a prepared statement by Richard Sachs, formerly its chief engineer and its special representative in this hearing. The commission opposed the grouping of the Western Pacific with the Northern Pacific and Burlington as proposed in the plan of President Ripley now before the commission, on the ground that while this would give northern and central California a new trunk line, it would not provide necessary feeders. It indicated the Santa Fe had lines which would serve as feeders.

Mr. Sachs's appearance followed a long discussion of the proposed Northwestern Pacific, shippers and its officials saying the dual control should be continued.

#### Gives Reasons.

Alignment of the Western Pacific with the Santa Fe would make the combined line "an equal competitor, as nearly as may be, with the Southern Pacific-Central Pacific in the shortest possible time," Sachs's statement held.

The statement said single ownership of the Northwestern Pacific would be desirable and that needed extensive "would be more promptly undertaken with the Northwestern Pacific in the Santa Fe system than with that road in the Southern Pacific system or remaining under joint ownership."

# PLANES AT END OF LONG FLIGHT

### Army Flyers Complete 6,000 Mile Trip from Texas to Porto Rico and Washington

WASHINGTON, April 3 (AP)—The six army aeroplanes which left San Antonio, Texas, a month ago on a 6,000 mile flight to Porto Rico and thence to Washington, landed at Bolling field today, bringing to a successful conclusion one of the most remarkable pioneer flights ever attempted by the army.

Air service officials said the flight, negotiated by land planes over wide stretches of water and air straggle, splendidly illustrated the role aircraft could take in the scheme of national defense.

Captain Thomas G. Lanphier, in command of the squadron, declared Porto Rico formed the logical base of action for an air force against enemy fleets approaching the Panama canal from the Atlantic side, adding that it had been proved possible to concentrate an air force at Porto Rico within 24 hours and attack an enemy fleet or bombard land bases within a radius of 500 miles.

## ACTRESS NAMED IN THE TELLEGEN SUIT

Miss Lorna Ambler.

MISS LORNA AMBLER has been officially named as one of the co-respondents in the sensational divorce suit brought by Geraldine Farrar against Lou Tellegen.

## FOSTER'S FATE GIVEN TO JURY

### Day is Given Over to Attorney's Arguments in Case of Accused Radical Leader

ST. JOSEPH, Mich., April 3 (AP)—William Z. Foster's fate will be in the hands of the jury by 10 o'clock tomorrow morning.

Final arguments in his trial for criminal syndicalism were completed tonight, and tomorrow morning at 9 o'clock Judge Charles White will deliver his instructions to the jury.

If convicted Foster faces a prison sentence of ten years or a \$5,000 fine, or both, at the discretion of the judge. The entire day today was devoted to the summing up by O. L. Smith, assistant attorney general of Michigan, and Charles Gorse, prosecuting attorney of Berrien county, for the state, and Frank P. Walsh of New York and Washington, and Humphrey Gray of Benton Harbor, Foster's lawyers.

Mr. Smith pointed out that he had made no effort to prove the defense outlined in Mr. Walsh's opening statement that Francis Morrow, a government agent, who attended the communist convention last August as a delegate, had kept the deciding vote to keep the communist party an illegal, underground organization.

He also denied the defense claim that the communist party had been driven underground by persecution and cited a decision of the United States circuit court of appeals in 1920, in a deportation case that the party was an illegal organization.

The defense attorneys told the jury in their closing plea that Foster had committed no overt act and that he had only exercised his rights of free speech and free assembly when he went to the communist convention to discuss industrial matters with the delegates.

## DR. F. A. COOK SURRENDERS

### Arctic Explorer and Oil Promoter Gives Himself Up to Answer to the Charge of Fraudulent Use of Mails

PORT WORTH, Texas, April 3 (AP)—With the voluntary surrender of Dr. Frederick A. Cook, arctic explorer and oil promoter before federal authorities at 1 o'clock Tuesday afternoon, a total of 20 Port Worth oil men have been arrested and arraigned before United States Commissioner George Parker on charges of fraudulent use of the mails.

Dr. Cook was released on a \$25,000 bond. He is sole trustee and president of the Petroleum Producers' association.

## DRY AGENT SEIZE LIQUOR.

NEW YORK, April 3 (AP)—Federal prohibition enforcement agents late today seized whiskey and alcohol valued at \$125,000 in a warehouse of the Cumberland Chemical company, of which Thomas C. Craven, recently indicted for conspiracy to violate the Volstead act, is president.

## AMSTERDAM

AMSTERDAM.—John Farmer, W. R. Skinner, Fred Lehman and Ed Garrison were visitors at the county seat on Saturday.

Dale Kunkel motored to the county seat on Saturday to see his wife, who is a patient at the county hospital.

The Misses Lila Skinner and Jesta Kunkel spent Saturday evening in Twin Falls.

Carmen Carson, a former resident of this vicinity, but now residing near Twin Falls, is spending a few days in Amsterdam while transacting business.

Arthur Trueman motored to the county seat on Saturday to bring Mrs. Trueman home for a few days visit with her family, who reside north of Amsterdam. Mrs. Trueman has spent five weeks in Twin Falls while under the care of a physician.

Paul Reed was a Hollister visitor on Saturday.

The baby daughter of Mr. and Mrs. Arthur Aceff, who has been seriously ill for some time, is reported a little better.

Charles Trueman and daughter Audrey spent Monday at the county seat. The baby son of Mrs. Claud Earl is reported on the sick list. Mrs. Earl

and three small sons are visiting at the Tolman home.

The Amsterdam school children, accompanied by their teacher, Mr. Burget, spent Friday at Deep Creek, where they enjoyed a picnic.

Mr. and Mrs. Gilbert Hull, of Hollister, spent Thursday at the L. V. Dean home.

Kunkel Bros. took their cattle and horses to the Basin on Monday, where they will graze them during the summer months.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

## ADMITS RUSSIANS TO GAMES

PARIS, April 3, (AP)—Athletes representing Russia as a country will be allowed to compete in the 1924 Olympic games to be held in Paris. This decision has been reached by a majority of the international committee and will be ratified at Rome by the Olympic congress which begins its sessions next Saturday.

#### Auto Has 4,000 Parts.

# FRENCH PLANES CAUSE CONCERN AMONG ENGLISH

## Air Equipment of France and England is Compared by British Expert to Disadvantage of Latter

LONDON, April 3 (AP)—Britain's weakness in air defense again occupies public attention, and the government is being urged to give serious and immediate attention to the strengthening of that arm of England's fighting forces. In an article in the Daily Telegraph Major G. Turner, a well known air expert, compares Britain's air equipment with that of France and declares that the British "are heretofore weak in this respect, considering their geographical situation and their responsibilities."

Major Turner proceeds to give some interesting figures respecting France's growing airplane resources and says France easily is mistress of the air of the world. "That country," he says, "according to authoritative information available in Paris, will have a total of 250 air squadrons by the end of the present year. This means 2500 airplanes in the front line, with transport, medical and other auxiliary services. The French government is actuated by the consideration that the strategic situation facing them is more open to attack by land and sea than any other western power and it feels, therefore, that as her military power diminishes she must increase that her air power be increased."

### Manufacturers Busy

France's war reserve in the air service, Major Turner continues, is about 4500 airplanes of various types, with the necessary means of supply and maintenance. "In the eleven months ended November 30, 1922," he writes, "French airplane manufacturers turned out 2300 machines, including a few required for export."

"The total number of British active air squadrons is 32, of which the greater number are abroad. This makes a deplorable showing as against France's machine strength."

The British expert then says that aerial warfare, as conducted in 1914-1918 was child's play compared with what it will be hereafter. "The British fleet, no matter how preponderant on the sea, cannot save our homes from the power that strikes us directly from the sky. We must ask ourselves whether we can be defended against this new power, as formerly we kept our shores inviolable. The people endure the strain of bombardment from the air, and the constant fear of it? Here may be our most vulnerable point; and at it an enemy need only bring a few small cost to himself to weaken our resolve and paralyze our mind and arm."

"There is no imminent danger of war but no man can be sure of peace even five years ahead. Before 1914 we were content with our small army, knowing that, at the worst, we should have time to create new armies. That assurance has gone forever. We shall not have time, for within a few hours of the rupture of peace our homes, workshops, transport and munition factories would be attacked. True, at the moment, there is only one power that could strike at us through the air—the air force of France, happily our ally. But who can say what changes in the distribution of air power and in friendships may not occur within the next few years?"

### Hugo Subsidy Asked

A million pounds being in subsidies for commercial air service will be paid to an air transport company if parliament accepts the recommendations of the air ministry. The government has already given large subsidies to various companies operating air passenger lines to the continent under plans that have proved unsuccessful, as they allowed competition among the companies at the expense of the government.

The new plan provides that the government will undertake to furnish to million pounds, to be allotted over a space of ten years, to any firm with a capital of a million pounds and which is capable of developing commercial aviation. The government will allow the company complete control of its own development, requiring only that it divide over ten per cent be equally divided between the government and the shareholders. When the million pounds have been repaid, the government will drop all connection with the company. Several companies are understood to be preparing to bid for the subsidy monopoly if the plan is passed by parliament.

Air liners, able to carry from eight to a hundred passengers across the Atlantic in less than 24 hours, will, it is claimed, become practical with the use of ten 1000-horsepower aeroplane engines being built for the air ministry. These engines will be the most powerful in the world, and will burn crude oil instead of petrol.

### THEOCRATS WIN IN ZION.

ZION, Ill., April 3 (AP)—(The) Theocratic candidates running on the Theocratic ticket, supported by Overseer Voliva, won today's election here, according to returns announced tonight. Opposing candidates on the republican ticket polled 946 votes, while the theocrats totaled 1046.

### How Do You Pronounce It?

Your Greek calls it en-diver, (accent on the first syllable), with the sound of "v" as in "light." Probably you do, then, from force of habit. Don't do it, though, say en-diver (accent on the first syllable), giving the sound of "v" as in "blu."

## American Actress to Wed British Peer

Miss Jessica Brown, former "Polities" girl of New York, is soon to marry the Earl of Northesk, a Scottish peer, who is only 21 and an officer in the famous Coldstream Guards.

## State Launches Investigation of House of David

### Compels Leaders of Benton Harbor Cult to Prove Right to Continue

LANSING, Mich., April 3 (AP)—State action that may result in putting the Israelite House of David out of existence was begun in the Ingham county (Lansing) circuit court today at the instance of Governor Alex J. Groesbeck and State Attorney General A. B. Dougherty.

The action, in the form of quo warranto proceedings, will compel leaders of the Benton Harbor cult to appear in court and prove to the satisfaction of the judge that the religious organization should continue to function.

The proceedings began today were the direct result of testimony adduced at the recent suit in the federal court at Grand Rapids of John Hansell and his wife against Benjamin Parnell, head of the House of David. The suit, begun to collect \$80,000 the Hansells claim was due them for property turned over to the cult and for labor performed by them and members of their family, took a sensational turn when witnesses for the plaintiffs declared on the witness stand that acts of immorality had been practiced by Parnell. The verdict in the Hansell case has not been handed down.

The testimony refuted by Parnell's followers, although the colony leader himself failed to appear, brought a flood of demands to state officials for an investigation of the Benton Harbor colony.

### Wooden Conduits Lasted Long.

Relics of ancient waterpipes, consisting of the hollow trunks of two very fine elm trees, were recently dug up in London. These wooden conduits, although they had been laid down more than 2000 years ago, were still in a wonderful state of preservation.

### Keeps His Spirit Down.

Jud Tunkins says he's an optimist, but a lot of things are happening that prevent him from being bighearted on the subject.—Washington Star.

## MEXICAN RUINS PROVE ANCIENT CIVILIZATION

### American Scientist Discovers Evidence of Empire Established in Yucatan in Middle of Fifth Century

MERIDA, Yucatan, Mexico, April 3 (AP)—Examination of the Maya ruins of Chichenitza, just completed by the American scientist, Dr. Sylvanus G. Morley, has brought to light evidences of a civilization dating back to the middle of the fifth century A. D. Dr. Morley says he was the most advanced of any in the western hemisphere prior to the discovery of America, by Columbus.

The research was inaugurated a decade ago by the Carnegie institute but was interrupted by the war. The project again was taken up last month. Center of the ruins covers an area two miles long and one mile wide. Extending in all directions for three to five miles are the remains of stone buildings. These include pyramids, platforms, terraces, plazas and paved roads, all now buried in a thick tropical foliage.

The ruins of Chichenitza are those of the largest city of the new Maya empire, which probably was founded about the middle of the fifth century after Christ by colonists from the old empire cities of northern Guatemala, Dr. Morley said. During this first period it was occupied for about two centuries and abandoned for unknown reasons. In the middle of the seventh century the inhabitants moved toward the coast where they stayed three centuries, returning to Chichenitza and reestablishing themselves there about 961 A. D.

## GARDNER RETIRES FROM INTERNATIONAL BOARD

### Former Senator from Maine Resigns Commission Membership after Nearly Ten Years' Service Record

WASHINGTON, April 3 (AP)—Announcement of the resignation from the international joint commission of former Senator Obadiah Gardner of Maine, its chairman, was made today after its semi-annual session.

The announcement was made by Mr. Gardner. His resignation is effective April 15, and it is understood that the vacancy on the American section of the commission which has jurisdiction over the American-Canadian boundary waters, will be filled by the appointment of former Senator Charles E. Townsend of Michigan.

There have been frequent reports that Mr. Gardner would retire, but until late today no confirmation that the resignation had been submitted and had been accepted by President Harding was obtainable.

Mr. Gardner has served nearly ten years on the commission. He was appointed by President Wilson, but after several years' service his resignation was requested. President Harding later had a vacancy on the commission to fill and called upon Mr. Gardner for further service.

No important decisions were made at today's meeting of the commission and it was said that most pending matters would go over until the fall meeting at Ottawa.

Questions relating to the St. Mary's Mill river project in Montana and adjacent Canadian territory were studied in detail today but without final action. E. P. Drake, representing the Canadian reclamation service and Director Davis of the American service, appeared to discuss the effort of plans for developing irrigation from the boundary rivers. Both reclamation experts were said to be of the opinion that the projects would not cause material harm to the scenic beauties of Glacier national park or to the Canadian park at Watrous.

## GAS MASK IS PERFECTED TO RESIST ALL VAPORS

### Chief of United States Army Chemical Warfare Service Announces Success Attending Research Investigations

NEW HAVEN, Conn., April 3 (AP)—Perfection of a mask that will give protection against all poison gases including carbon monoxide, was announced by Brigadier General Amos Fries, chief of the chemical warfare service of the United States army at the dinner given to the council of the American Chemical society by the New Haven chamber of commerce tonight. The new mask, or what General Fries described as an "all-purpose canister" has particular value for fire fighters and men engaged in fumigating ships or buildings.

General Fries spoke more particularly of adaptation to peace uses of wartime inventions by the chemical warfare service. He said that 200 of these new masks have been given to the United States public health service for its ship fumigating forces.

In research work now being carried on General Fries said, army chemists are striving to obtain a new material which will replace coconut shells for the manufacture of gas masks. "In the case of war," he said, "it might be necessary to use ten or twenty tons of activated carbon per day and this would require 200 or 400 tons of shells per day. So far, the charcoal made from coconut shells is the most efficient material for gas masks inasmuch as it is exceedingly porous and can be obtained in grains.

## The Screen

### "THE DANGEROUS AGE"

Patrons of the Orpheum theater will have the privilege of seeing another production directed by John M. Stahl, who made "One Clear Call" and "The Child That Gave Me" two of the most popular motion pictures in recent history. It is "The Dangerous Age," and is declared to be the finest photoplay created by Mr. Stahl to date.

### "ADAM'S RIB"

Another of Cecil B. DeMille's famous flash-back scenes such as made "Man-Clay" so stupendous will be found in "Adam's Rib," another of that famous director's Paramount productions. Here he dramatizes the life of the cave man of the stone age period with that of today. Go to the Idaho theatre tonight or tomorrow when the production will be in view.

### Next Man Up.

Reggie was hard hit. "Will you marry me?" he asked. "This is so sudden," assented Peggie, "and do you love me enough to wait a few days?" "Of course, I do," declared Reggie, "but why wait?" "Well, because," replied Peggie, "I am married at present."

### In the Majority.

The pessimist looks regretfully back; the optimist looks joyfully forward; the ordinary mortal just groans and sulks through today.—Boston Transcript.

LAUNDRY FIVE RETAINS LEAD

Shoe Market Team Fails to Stop Fast Going Leaguers in Doubleheader Contest

Assisted by George Sandholtz, the Troy laundry bowlers managed to snag the odd game from the Shoe Market quintet in the second series of the evening at the Twin Falls bowling alleys last night, and retain their lead.

This game drew a large crowd of fans, with every one pulling for the foot artists to take at least two, in order to tie up the league, but such was not to be.

In the first game the Troy bunch took a hard fought game battle, 789 to 749. Roy Cubit rolled 170 in this game and won the fleece lined handkerchief.

The second proved to be the best game of the entire evening, and went to the shoe men by the score of 871 to 860. Both teams gave a clever exhibition, and only after the last man finished could the Shoe Market claim victory. Dug Salmon, who never won a prize in his life, won the diamond ring donated by Woolworth's with 209 in this game.

Too much nerve tension in the second game caused the Shoe Market bowlers to lose the odd game, although 16 splits were recorded against them in the night cap. The scorer announced that the Troy Laundry had won this game, 814 to 791. Bill Bailey won the clay pipe with 187.

A feature of the evening's entertainment was the howling of Jake Yochem, who went through the 30 frames without an error.

**THE BEGINNING OF THE END**

Shoe Market	1	2	3	Totals
Hullhan	135	157	184	476
Buchanan	167	159	129	455
Atip	140	154	178	472
Salmon	152	209	133	494
Yochem	255	192	107	554
Totals	749	871	701	2321

Troy Laundry	1	2	3	Totals
Bailey	164	186	187	537
Boyd	169	143	154	466
Tritt	130	162	148	440
King	150	182	171	503
Cubit	178	187	154	519
Totals	789	860	814	2463

SOAP AND SHOES POLISH

Well the Troy Laundry won the odd game which gives them a new lease on first place.

The topnotchers stand as follows:

	Won	Lost	Pct.
Troy Laundry	24	12	.667
Rendahl-Wright	21	15	.583
Shoe Market	20	10	.650

Bill Bailey raised his average and now is but one point behind Bill To-wan, the league leader.

Jimmie Hullhan had a bad start, but had a nice game in the last ses-sion.

Tritt rolled along at his regular gait, totalling 440 for the evening.

Buchanan failed to prove that he is the bowler that his friends think he is. Twice in succession is asking too much.

Boyd took another skid in the averages, getting 464.

Atip, rolling for Hanak, had a nice game in the third, but his first two were not so good.

Phil King jolted his average up a bit by clipping off 608 for the evening. Phil had his eye with him, and used it.

Dug Salmon, still figuring on a trip to Milwaukee to compete for a real title, showed the natives that he is

the guy to send, by knocking over 209 in the second game.

Roy Cubit had some hard luck last night, hitting the head pin full in the nose, and not getting a strike on it.

Jake Yochem had some mean splits which kept his score down. Not an error was chalked against this lad during the three games.

One game is left over this week, and arrangements are being made to have the Idaho theatre team and the Rogerson Cafe bunch roll off their contest on Friday evening at 8. This will clean up the postponed game, and keep the slate clean. What do you say, kids?

Next week is the final one of the bowling tournament, and it is to be hoped that the week starts with every game being played on schedule.

Don't forget the Rotary-Kiwanis duel meet at the alleys this evening.

**FILER HIGH SCHOOL TO MEET NAMPA BALL TEAM**

Filer and Nampa will cross bats this afternoon at Filer in the first game of the Filer season. Incidentally this is Filer's first attempt at having a base-ball team at the high school, and fans from this section await with interest the coming game.

Jake Shaffer will start in the box for Filer. Jake is a chucker of no mean ability, and is said to be in tip-top condition. Charley Lapp, the money football and basketball star, will be seen behind the bat, ready to receive Shaffer's slants.

At first base the speedy Love will be seen in action. Ralph need be but half as fast at baseball as he was in basketball to be able to hold down the infield sack.

"Whitney" Martin, known to all fans as one of Filer's greatest finds, will be stationed at second base, and needless to say that "Whitney" will give a good account of himself.

At the hot corner Les Aman will try and gobble up the fast ones. Judson Timm, another all-around athlete, will hold down short, and let it be said that Timm is the fastest man in this section wearing a baseball suit this season. Watch Timm go.

Adkins will be out in left field, and is said to be death on fly balls. Hall is another who is trying hard for a berth in the outfield. Hall is fast on his feet and covers lots of ground.

Charley Diehl, football star de luxe, thinks that right field was made pur-pose for him, and is working hard to convince Coach Pearson of this fact.

Herb Deak is trying for an outfield position, and is making life miserable for the rest of the out garden men.

Nampa comes to this section unknown, but one thing is certain, and that is that when a team is ready to travel as early in the season as April 4 they must be in A1 condition before the coach will allow it.

The game this afternoon will start at 3:30.

**WHEN WRIGHT BEATS WRIGHT**

Wright's Store 1 2 3 Totals

Finke	145	159	164	468
Hill	146	113	103	422

LOOKING 'EM OVER

Although the Wright's store men

WRIGHT'S TEAM WINS ODD GAME

Opening Series of Doubleheader Goes to Store Men After Three Hard Fought Games

Captain Emery Benoit's Wright's store quintet of bowlers gave the Rendahl-Wright bowlers a good whipping last night in the opening series of a doubleheader.

The first game went to the Wright's store crew by a 790 to 780 score, neither team breaking any records. Percy Thompson won the stick of candy with 180.

Feeling so elated over their victory the Benoit gang decided to take life easy in the second game, their total being 716, while the store men played right along and grabbed off 773 pins. Aubury, the man who made the split famous was high in this game with 180.

The rubber game went to the store men 803 to 770. This was the only game of the three that either team went over the 800 mark. Grafton Self, thinking of how it would seem to pick up a point or two in his average smiled the wood into the alley to the tune of 201 in this contest.

The odd game the Mechanics led in total pins by 12.

"Pop" Kleffner had a grin on his face during the three games as he tot-aled 482 for the evening which is nearly 300 more than he usually totals.

Lee McCracken sang the ballad, "Down Went McGinty," and down went Mac.

Charley Hill played another poor joke on his average when he rolled 113 in the second game.

Aubury picked up a little, although he bumped into several mean splits in the last game.

Art Boone, tired of being kidded about his slow ball delivery, shifted into high gear and scored 171 pins into falling during the first game.

Art Finke felt a little due to the fact that he didn't kneck down as many pins as he usually does.

Bob Whitzel was completely at sea, getting but 416 for the evening. Bob just couldn't locate the head pin and no one would tell him where it was.

Emery Benoit did a little better, although he is no better as far as his average is concerned, and as he doesn't gamble he is no better.

Percy Thompson led the field with a total of 541. This is as good as they do in the big leagues.

Self showed improvement, getting 509, and it didn't hurt a bit.

RISBERG ASKS DAMAGES

MILWAUKEE, April 3, (AP)—Damages for alleged conspiracy and injury to his reputation aggregating \$400,000 and an additional \$5,570, claimed due to back salary and bonuses are demanded in two amended and new complaints filed in circuit court by Oscar (Happy) Felsch and Charles P. (Sweed) Risberg against the Chicago American league baseball club. The actions arise out of the White Sox baseball scandal of 1920, in connection with the world's baseball series with Cincinnati.

READ THE DAILY NEWS.

KEEN INTEREST REIGNS IN CLUBMEN'S TOURNEY

Entire Memberships of Rotary and Kiwanis Organizations to Have Chance at Pins in Competition

All is in readiness for the opening shot tonight, when the Rotarians and Kiwanians will meet in the first annual bowling contest at the Twin Falls bowling alleys.

Considerable talk has been spread concerning the prowess of the two clubs and after watching members of the two factions in their daily work-outs one is inclined to think that the field will cut in a tie.

Both clubs boast of several high class bowlers, and during the elimina-tion process many other diamonds in the rough may be uncovered.

Wendell Allen, Kiwanian, has been chosen captain of the fat man's team, and states that every member of the Ki club weighing over 200 is request-ing to be there promptly at 8, as it takes a fat man longer to roll a game than it does the average human.

Several Rotarians have been quar-reling as to who will captain the hen-pecked husbands' team, and all mem-bers are requested to bring their cre-dentials for this team before asking to be chosen captain.

In the fiveback team, both clubs claim several celebrities. Chik Wright is said to have left the state of Iowa in order to find bowlers who could compete with him at this game. When one considers the different states that separate Twin and Idaho, it isn't hard to figure out how clever this Kiwanian is at this game.

In the older organization, all one has to do is think "Pop" Fisher, Ar-thur Penney, Charley Neely, Bill El-dridge and C. B. Channel and it is easy to see why the Rotarians feel confident of victory.

John Graham and Frank Stephan can't figure out why the Rotarians even suspected that they had a chance, but they forgot to remember that Sam Kaylor is also a Rotarian, and Sam is one of the best judges of cows in this section. Of course, this won't hold Sam back in his bowling and some of the rail birds have Sam pick-et to roll as high as 75.

It is to be hoped that the audience will refrain from laughing at members who may in their endeavor to break records, fall and break their necks. Remember, the fun starts at 8 sharp.

## ROCKY MOUNTAIN TITLE HOLDERS BEAT NORFOLK

Windsor, Colorado, Team Wins Its First Game in Opening Rounds of Interscholastic Cup Tourney

CHICAGO, April 3 (AP)—The annual national invitation interscholastic basketball tournament under the auspices of the University of Chicago got under way here today with 24 high schools, most of them state champions, facing each other in the first round of ten games.

The winners emerging from the first day's play were almost representative of the country as are the 40 teachers from 21 states that are competing. Some of these winners will face further tests of their ability tomorrow when they will be pitted against some of the teams that have not yet shown their calibre.

Today's games are decisive in the opening rounds, but the actual knockout matches tonight were featured by some close contests, one an extra period game.

Walla Walla, Wash., took the first game this afternoon, 36 to 29, from Gloversville, N. Y., with very little trouble and this game was followed by the decisive one between the New Milos City, Mont., high, 32 to 22.

Charleston, S. C., entirely outclassed the Dallas, Texas, team in a game which ended 43 to 22. The first upset of the day came with the defeat of Hume Pogg of Nashville, Tenn., runner-up in the 1922 tournament, by the Trier high of Chicago, 33 to 23.

The Mesa, Ariz., team drew Lanier high of Macon, Ga., for an opponent and the two aggregations put up one of the best games of the day, Mesa winning, 38 to 28.

Loraine, Ohio, touted as a team likely to make a name for the national championship, took its first game from Aurora, Minn., 23 to 24.

Immediately following this contest came another thriller, when Windsor, Colo., Rocky mountain champions, a team that is also making a try for the first position in the contest, beat the Norfolk, Va., team in an extra period, 29 to 24. The teams were tied, 25-24, at the end of the game and two baskets in the extra period won the game for them.

Tomorrow's schedule of games, the first starting at 9 a. m. and the others following at hour intervals until the last game at 10 p. m., includes:

Northampton, Mass., versus Springfield, Utah.  
Bellevue, Ohio, vs. Laramie, Wyo.  
Kanساس City, Kas., vs. Fargo, N. D.  
Weston, Idaho, vs. University of N. C.  
Lorraine, D. C., vs. Windsor, Colo.

## SETS NEW BOWLING MARK

Philadelphia Takes Lead at Milwaukee Tournament with Grand Total of 2010 in All-Events

MILWAUKEE, April 3, (AP)—Another world's record score was established today in the American Bowling Congress tournament when W. K. Knox of Philadelphia took the lead in the all-events with a grand total of 2010, topping the former mark held by C. Daw of Milwaukee, by five pins. Shooting with the Quakers team of Philadelphia last night, Knox scored 618 pins; in the doubles today paired with C. French he added 1392 to his couplet with his partner's total of 616 put them in fourth place in that event.

In the singles Knox turned in games of 192, 244 and 279 for a total of 715 and third place in the individual event.

## TWILIGHT LEAGUE IN AIR

Baseball fans are asked to be present at the baseball meeting which will be held this evening at 8 o'clock at the Gem State Vulcanizing company, 122 Second avenue west, for the purpose of organizing a twilight league, or any other league that the fans want.

This meeting is called to find out what Twin Falls wants this season in the line of recreation during the summer months.

## PILES

MEMBER FEDERAL RESERVE BANK

MEMBER FEDERAL RESERVE BANK

MEMBER FEDERAL RESERVE BANK

## PRELATE IS EXECUTED

(Continued From Page One.)

and whose reprieve, which had been requested, was disregarded by the central executive committee, has been carried out."

## LONDON DECLINES EXPLANATION

LONDON, April 3 (AP)—According to information received in London, the British agent at Moscow returned to the soviet government the latter's note justifying the sentences imposed upon the priests and alluding to British exiles in Ireland and India. The agent at the same time handed to the soviet authorities a private letter to the effect that he was unable to receive the note in its present form because it impugned the sincerity of an appeal emanating from his majesty's government, and quoted as facts in support of its charges "irrelevant utterances of an anonymous 'liberal' revolutionary."

## POPE DISPLAYS SORROW

ROME, April 3 (AP)—Word of the execution by soviet authorities of Monsignor Butkevitch it is learned, reached Pope Pius yesterday and upon hearing the news the pontiff knelt in prayer for the soul of the dead prelate.

The pope was deeply grieved when he learned that the sentence had been carried out, especially as the efforts made to save the vicar general had raised hopes that it might be possible to obtain a commutation of the sentence as in the case of Archbishop Zepiak.

## SOVIET ISSUES DENIAL

LONDON, April 3 (AP)—A dispatch to the Times from Riga, dated Tuesday, says: "The soviet government denies that Vicar General Butkevitch has been shot. It says the execution has been suspended."

The Times prints the foregoing beneath the announcement from Moscow that the prelate was executed Saturday.

Originally the Times alludes to the dispatch from the Riga correspondent and expresses the hope that the fate of Vicar General Butkevitch will not long remain a question of such grave doubt as that of Archbishop Benjamin of Petrograd, regarding whom it says, "The first intimation has been received since he was condemned to death in 1922 for interfering with the seizure of church treasures."

## DEMOCRATS IN CHICAGO

(Continued From Page One.)

The organization would go had been problematical.

Thompson Support Shifts  
Today at republican headquarters, leaders charged that Mayor Thompson's organization had swung almost solidly to the support of Judge Dever.

Judge Dever was born in Massachusetts in 1862 and came to Chicago in 1887 being later admitted to the bar. He served several terms as alderman and in 1910 was elected a judge of the superior court of Cook county, being re-elected in 1916 and again last June. He had also served as presiding justice in the main appellate court for the northern district of Illinois.

The campaign, like the election, was quiet and aroused little of the interest that has been manifested in former elections.

While there were a few reports of disorder, including fights, sluggings and kidnappings of election watchers and each side preferred charges of illegal voting in certain precincts the election was unusually free from the usual acts of lawlessness that have characterized elections in other years.

Candidates for mayor, polled substantial pluralities, Leslie running high with a

## NEW ELECTION

(Continued From Page One.)

total of 1032 and Keel receiving 978. They will be opposed in the second election by C. H. Stinson and J. E. Roberts who were grouped with Mr. Lambing on a ticket. S. G. McAuley, running independently for reelection, polled the lowest vote cast for a candidate for commissioner, and will be eliminated from the second election.

## Total Vote Over 2100

A total of approximately 2100 ballots were cast as compared with a total of 2558 polled in the election of mayor and councilmen held last June.

Much of the voting was done in the forenoon. Weather conditions were not entirely favorable, with an overcast sky and raw wind continuing throughout the day. Voters accustomed themselves to the necessity of visiting the polls in their own conveyances or by walking, enjoined by the commissionmen, and the stream of voters was well distributed between the hours of the opening and closing of the polls.

## Waits on Second Election

Mr. Hodgkin, as mayor-elect, will not take office until after two commissioners have been elected to succeed those whose terms expire this year, according to opinion expressed Tuesday evening by S. D. Davis, city attorney. The second election will be held within 30 days and if it results in the election of the new commissioners, the new city officials may qualify and take office as soon as the official canvass of the vote is completed.

"There is nothing in the law, I believe, to prevent the withdrawal of any of the candidates before the second election," Mr. Davis said.

The result of the election Tuesday was received without any general manifestation, although large groups collected at the polling places after the closing hour and there was a general display of interest in the count. The counting had been in progress throughout the day and was completed within a few moments after the closing of the polls.

Regrets Colleagues' Failure  
"I am profoundly sensible of the honor and the responsibility that has been conferred upon me," Mr. Hodgkin said Tuesday evening when the result of the election was announced to him. "I am especially gratified by the result in view of the kind of campaign that has been made. Of course I regret deeply the failure of my colleagues, Mr. Leslie and Mr. Keel to win election at this time, and

## I shall do all that I can to make for their success in the second election."

Speaking for the Lambing campaign committee, C. W. Witham extended congratulations to Mr. Hodgkin on his success. "We wish to congratulate Mr. Hodgkin and to assure him that we are back of him for a bigger and better Twin Falls," he said.

Mr. Witham stated that he had not talked with Mr. Roberts or Mr. Stinson since the announcement of the election result, and did not know what their plans were. "As I understand it," he said, "they cannot withdraw regardless of whether they so desire or not, and their names will have to appear on the ballots at the second election."

## Forgoes to Front Here

Shad L. Hodgkin, Twin Falls' mayor-elect, has been a resident of Twin Falls since 1917 when he came here from Boise, his home from boyhood, to have charge of the practice of the law. A. Walters in the practice of his profession. About a year ago he entered practice here on his own account and later became the senior member of the firm of Hodgkin, Stophan and North. He has been identified actively in politics with the republican party serving for four years as chairman of the county central committee, and being elected last year by the county convention as state committeeman for the party.

Explanation of Law  
Provisions of the commission form law which require the second election for the choice of two new commissioners this year were called in question last June when only three out of the four commissioners to be chosen received a majority of the votes cast in the first election. In the second election, held June 27, S. G. McAuley was opposed by Dr. W. H. Dwight, who had received a greater number of votes in the first election than had his opponent.

The opinion of the attorney general's office was sought and obtained to settle questions raised at that time. The gist of this opinion was that "no councilman was elected who did not

## RAILWAY HEADS

(Continued From Page One.)

receive a number of votes greater than half of the total number of ballots cast at the election."

## First Policy Favored

The prevailing belief is that the first policy will be followed until the existing emergency subsides.

The program of the American railway association directors will be submitted to the whole membership for a vote Thursday morning.

All efforts of the proposed co-operative program would be exerted toward raising the national ton-mile-per-car average, at the same time lowering the ton-mile cost. In 1920 the combined roads nearly reached a "40-30" ton-mile-per-car average and the hauling cost was reduced to 7-10 of a cent per ton per mile. Whether the "40-30" goal would be set in this crisis, or right even higher average, was not disclosed.

## DALLAS ELECTS DEMOCRATS

DALLAS, Texas, April 3 (AP)—Early returns from the city election indicated that all candidates on the democratic ticket had been elected and that all charter amendments and bond propositions had carried. The Citizens' association, presenting a rival ticket, has asserted that the democratic ticket was in reality the Ku Klux Klan ticket.

## KLAN LOSES TWO OFFICERS

EAST ST. LOUIS, Ill., April 3 (AP)—The election of one and the defeat of the other two of the three candidates for commissioner in today's municipal election who are said to have been endorsed by the Ku Klux Klan, was indicated tonight by unofficial returns tabulated from 42 out of the 61 precincts in the city.

**Modern Woodmen Attention**  
Big Meeting at Hollister—Thursday Evening, April 5  
R. E. MOREHOUSE, Council

**Wright's**  
A GOOD PLACE TO BE  

**Thursday a Sale Of Silk Envelope Chemise**  
Thursday we will have for your selection and approval just four dozen silk envelope chemise. They are exceptional values that one would ordinarily expect to pay \$3.50 for.  
The colors are pink, orchid, peach, white. Sizes are 36 to 42. Just forty-eight of them and the value is so out of the ordinary that we expect them to be gone by noon.  
We suggest that it would pay to buy these now and reserve them for gifts. Nothing would be appreciated more by girls who love nice under-garments. Just one price \$1.95

**Your Private Safe Makes a Burglar Laugh**  
Keeping money in the house is foolish from every angle. The private safe is little or no protection. A husky burglar may steal the safe itself and crack it open later at his leisure. To hide money in nooks and corners is to risk loss by fire as well as theft. Why continue to take these risks, when this bank offers you perfect safety for your funds? Money hoarded in secret hiding places is not only unsafe but it is unproductive. When your funds are deposited in a savings account they are immediately put to work earning more money for you. This bank pays 4 per cent interest on savings accounts, subject to usual regulations.

**The Twin Falls National Bank**  
Capital and Surplus \$167,000

The News is a member of the Audit Bureau of Circulations, from whom full information as to circulation may be obtained upon application.

Eastern Representatives: George H. David Co., Inc., 171 Madison Ave., New York, N. Y.; Kestor, 1415 Hartford Building, Chicago.

The Election: A regrettable feature of the Commission form of city government is the fact that a majority and not a plurality of all votes cast is required to elect.

The election of Mr. Hodgins as Mayor of Twin Falls should be interpreted as a distinct step in the direction of a better order of things municipally.

Such an objection is a valid one by all means let it now be tried out. Until such time as this is done it had and has no place as a campaign issue.

The returns show that more ballots were cast for Messrs. Keel and Lewis than for any two other candidates.

Twin Falls is to be heartily congratulated upon her choice even if that choice be final in the case of only one of the three candidates under the Hodgins banner.

Why Not?: Here are the views of two men up on subjects which touch each other and the world at large at a vital point.

An isolated ecclesiasticism which would think only of the preservation of the church's fabric will not meet the present emergencies in our city or country.

I urge the clergy and laity of this diocese to go out of their way to establish contacts with representatives of the other religious forces of this city and other cities in the diocese.

These are days when thoughtful people are trembling for the future of our civilization. The problems of the hour gather around such matters as international relationships, national responsibilities, industrial adjustments between capital and labor, municipal government, civic and social morality.

At bottom, these are all moral and religious questions. They involve brotherhood, fellowship, peace, purity, righteousness.

Surely these come within the province of the Church. Surely those people are right who say that the way out of our present perplexities is through the resurgence of religious faith and practice.

I am hoping that I will find no Jews or Gentiles, Catholics or Protestants, Germans, Englishmen, Frenchmen or Americans, rich or poor, when I shall have crossed the bar to the other side.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

done with this hatred and strife and intolerance which keeps us out of our heritage of fellowship here on earth. The peace and order and regularity with which the silent stars take their places in the heavens are evidence enough to convince me that the final resting place will not be one of chaos and strife.

The subject requires no particular intellectual grasp of theology. A child could catch the point. Yet the lessons contained seem to make but slight appeal.

It is the doctrine generally defined as the brotherhood of man really the least important of all the themes upon which the average man looks to the church for guidance?

Back to Nature: Serge Essenne, temperamental Russian husband of the temperamental dancer, Isadora Duncan, is going to Africa.

I cannot bear European civilization, he says. "It is false. I want a civilization that is real. In Africa I will find men and women acting their natural selves. They do not do a thing there because some one else does it. They do whatever they want to."

Poor Serge! He is likely to be just as much disappointed in the Dark Continent as he has been in Europe and America. He may get along all right in Africa if he follows the good old rule that he has broken in the other continents, and does as the natives do.

Uncle Jerry reached for the soap. "It's all the same to me," he grumbled. "Bonnie Gerilline's the one that's got the kick."

"Nonsense! I'll risk Bonnie Gerilline. Crink knows as much about boards and nails as I do, and if he and Lettie can't study up some kind of a scheme for me," he retorted.

Uncle Jerry wiped his hands gratefully. "Great Scott, if you've got the courage to take in kids that you might leave running loose in the world, you'd oughter have the privilege of managing 'em any way you darn please. All is, I wasn't going to lend out any hints if 'twas contrary to law."

"You're daft as a hatter," Mrs. Penfield smiling. "I am dead not on this one point, 'cause I've been bored half to death by so many folks that couldn't bring an original thought if it'd bring 'em a million dollars. I tell you what, Uncle Jerry, there's more folks that ought to be whose minds you'd ought to be working on."

"Course you don't always know where the material came from—and sometimes you can trace it easy. I knew a woman once who never said anything 'cept what her minister'd handed out. She was a sort of clarity case, but I'll bet she was the only one in the congregation. Monday and Tuesday she was real interesting; Wednesday she was just so-so; Thursday she was on the decline; and by Friday she'd run down entirely. Friday and Saturday she was a pretty good body."

"Blessed if I didn't always call on that woman long the first of the week sometime."

"You're mighty encouraging to a fellow that had a bit-orence of Caroline. I'd always wished somebody'd worked out a few things for me by the way." He added, as he smoothed his hair before the small mirror that hung by the cupboard, "I ordered a sack of sweet potatoes this morning. They'll come sometime today. I got 'em terrible cheap, 'cause they're wholes—too big for fancy trade. But I thought maybe you could use 'em."

"Oh, just 'em?" cried Mrs. Penfield. "I'd 'a' soon have cried potatoes as any other kind, and they're what we need most. You be sure to come round to supper tonight, Uncle Jerry. We'll have sweet potatoes with salt on 'em, and a cauliflower that Crink brought yesterday. It'll be a grand spread."

"Yes," acknowledged Jerry Winston gravely. "I'll stake my life you'll make them youngsters believe it's Thanksgiving, but—"

"Twenty to one it is always Thanksgiving," she interrupted placidly. "We're awful lucky to be well nourished all the time."

Jerry Winston said nothing. He stooped up his hat and whirled it absently round and round the habitual twinkle had died out of his eyes, leaving them gloomy. During several moments of silence he watched Mrs. Penfield sprinkling clothes and rolling them into tight compass with a final slap from her palm to encourage capillary action.

Finally he roused and opened the kitchen door. "I wish I had a settled income," he muttered. He jammed on his hat and went out.

"Poor man, I wish he had!" thought Mrs. Penfield. "It's hard on him to get loose and not get tied to something again. Land, I got to be careful not to feel hurt 'cause he can't talk."

The Custard Cup

Florence Byington Livingston

Not a Friend to Uncle Jerry. "What's the idea, Caroline?" inquired Uncle Jerry, coming into the kitchen.

"Twinn'n' hurr'n' a mite," declared Mrs. Penfield serenely, as she poured cold water over the starch and crushed out the lumps against the bottom of the big pan.

"Uncle Jerry, I'm to teach them children to think. How are they ever going to get along when they grow up if they haven't learned to work out their own problems?"

Uncle Jerry turned toward the sink to wash his hands. "They'll be smarter when they grow up." "Not if they get any more mental porridge along the way," retorted Mrs. Penfield mildly.

"Uncle Jerry reached for the soap. "It's all the same to me," he grumbled. "Bonnie Gerilline's the one that's got the kick."

"Nonsense! I'll risk Bonnie Gerilline. Crink knows as much about boards and nails as I do, and if he and Lettie can't study up some kind of a scheme for me," he retorted.

"You're daft as a hatter," Mrs. Penfield smiling. "I am dead not on this one point, 'cause I've been bored half to death by so many folks that couldn't bring an original thought if it'd bring 'em a million dollars. I tell you what, Uncle Jerry, there's more folks that ought to be whose minds you'd ought to be working on."

"Course you don't always know where the material came from—and sometimes you can trace it easy. I knew a woman once who never said anything 'cept what her minister'd handed out. She was a sort of clarity case, but I'll bet she was the only one in the congregation. Monday and Tuesday she was real interesting; Wednesday she was just so-so; Thursday she was on the decline; and by Friday she'd run down entirely. Friday and Saturday she was a pretty good body."

"Blessed if I didn't always call on that woman long the first of the week sometime."

"You're mighty encouraging to a fellow that had a bit-orence of Caroline. I'd always wished somebody'd worked out a few things for me by the way." He added, as he smoothed his hair before the small mirror that hung by the cupboard, "I ordered a sack of sweet potatoes this morning. They'll come sometime today. I got 'em terrible cheap, 'cause they're wholes—too big for fancy trade. But I thought maybe you could use 'em."

"Oh, just 'em?" cried Mrs. Penfield. "I'd 'a' soon have cried potatoes as any other kind, and they're what we need most. You be sure to come round to supper tonight, Uncle Jerry. We'll have sweet potatoes with salt on 'em, and a cauliflower that Crink brought yesterday. It'll be a grand spread."

"Yes," acknowledged Jerry Winston gravely. "I'll stake my life you'll make them youngsters believe it's Thanksgiving, but—"

"Twenty to one it is always Thanksgiving," she interrupted placidly. "We're awful lucky to be well nourished all the time."

Jerry Winston said nothing. He stooped up his hat and whirled it absently round and round the habitual twinkle had died out of his eyes, leaving them gloomy. During several moments of silence he watched Mrs. Penfield sprinkling clothes and rolling them into tight compass with a final slap from her palm to encourage capillary action.

Finally he roused and opened the kitchen door. "I wish I had a settled income," he muttered. He jammed on his hat and went out.

"Poor man, I wish he had!" thought Mrs. Penfield. "It's hard on him to get loose and not get tied to something again. Land, I got to be careful not to feel hurt 'cause he can't talk."

It over with his own neck; but trying to force a fellow's conscience is 'bout like trying to coax open with a knife. I ain't going to care 'em. Ain't it expect—and I'm an awful good expecter. Besides, I got a heap of wonderful things to think about."

It was true that several high points had recently been reached by the Penfields. For one thing, Crink had been promoted in the grocery business, his pig paid now in a small amount of cold cash for his two-four service in the late afternoon. He was also still on the inside ring in regard to bargains in vegetables, groceries and animal bones, and continued to bring in supplies that he turned to a sharp advantage to the family.

Crink had visions of being able to support the household before many years, and already he was swinging in and out of The Custard Cup with an engaging air of haste and distinction.

Whether it was because of greater effort or because of fever alluring temptations, no one knew; neither was anyone so unfeeling as to inquire. The glory of the achievement threw the lower songs of the ladder into the gutter, and the Penfields had been arrayed in the pink sweater and the white hat of Turkish beaver and had gone to church. And again no one sought diligently for the motive—lest it might be found. Many motives might be found in creditable actions will undergo the integration if they are exposed to the light, and no risk was run by any Penfield.

It is not to be supposed that Lettie, having won her victory, was inclined to underrate its value. For weeks the pink-and-white outfit had been the element of her honor and the bitterest element in the eyes of her friends. She was here by honest record, she carried off the situation with great nonchalance. Her black eyes glowed with deep fire; her face was irradiated; but her manner was set in the last notch of jauntness.

"I'll be darned," he cried, upon her return from church. "These boys beat the world for class. I didn't see anybody dressed niftier, and I got the sweetest feelings inside me. Seems like there ain't nothing I couldn't do if I had the clock for 'em."

"You couldn't dodge all the time, Lettie; but if you want to try it for a spell, there ain't no objection. Now that you can wear your good clothes, you'd better go to Sunday school with Crink and Thad regular. It'll be a terrible good for you."

Of these more cheerful phases of two immediate problems—food supply and Lettie's training—Mrs. Penfield was thinking as she finished her marketing and marching and changed her dress. It was the first of December. She had been collecting the rents and had to make the deposit before the bank should close. Her list was complete except for the Bosleys. While she was debating whether she would call for their rent or let it go, she thought of it, as they surely would in a day or two, Gussie Lottsey came in.

"Here's the rent," she said briefly. "I came near forgetting it again." "She was wearing a black satin gown, expensively simple. Around her neck was a long chain of wrought gold.

neck was a long chain of wrought gold, set with diamonds. Mrs. Penfield threw her a second puzzled glance, finding it difficult to realize that this ultra young woman belonged in the exceedingly humble Custard Cup. Gussie, catching the glance, preened herself saucily. "Do you like it?" "Yes, it's very smart."

"Glad you think so. It's a simple little dress. I picked it up in San Francisco the other day."

"Well, if I found 'em lying around I'd keep on picking," snarled Mrs. Penfield generally.

"It'd do for common, but what I'm looking for is this chain. Ain't it the sweetest thing you ever glimmered? A Chink friend of Frank's sent it to me."

"I don't wonder you're pleased. The 'bines are awful generous making 'fits if they like folks, ain't they?" "A slight flush came superficially over Mrs. Bosley's cheeks. "Yes—yes, 'at they?"

"There was a knocking at the back door. Mrs. Penfield excused herself. "It was the delivery man," she explained when she returned. "Uncle Jerry ordered a sack of sweet potatoes for me this morning. Didn't ask for nothing! He is the most thoughtful!"

A hard look came into Gussie Bosley's eyes. "Lucky you're so well satisfied," she snapped.

Mrs. Penfield looked at her in astonishment. It had not once occurred to her that Frank Bosley's wife might not be in sympathy with his friendship for Uncle Jerry. Evidently she and Gussie were in agreement about its undesirability, but Gussie's attitude suggested a personal criticism, which was most unwelcome.

"I conclude you don't like him," she said vaguely.

Gussie shrugged. "I don't think anything about him unless I have to, but I shouldn't have said it if you hadn't dragged him into the talk. 'Tain't your fault, anyhow." She turned to go. "Oh, Mrs. Penfield, do you s'pose the landlord would put an extra lock on the back door?" "I don't s'pose he would. Ain't any back door got anything but the regular lock and bolt. He couldn't put on an extra one 'thout getting asked for eleven more, likely."

LAUGH AT DESERT

Fearless Men in Motorcars Add Region to Civilization.

French Expedition Crossed the Sahara in Safety, Where White Men Never Had Been Seen.

The conquest of the Sahara desert by means of fast tractors and motorcars is the most accomplished feat of modern times, regarded in Paris government, commercial and military circles as possibly the most useful exploration expedition of the Twentieth century.

News has just been received in Paris that the fleet of small tractors and motorcars, which left Algeria in October, is having a triumphant entry of the Niger River. This means that they have cut across the Sahara through sections never before seen by white men, a distance of about twenty-two hundred miles—almost as easily as a New York tourist travels to Denver, camping nights by the wayside.

A slight flush came superficially over Mrs. Bosley's cheeks. "Yes—yes, 'at they?"

"There was a knocking at the back door. Mrs. Penfield excused herself. "It was the delivery man," she explained when she returned. "Uncle Jerry ordered a sack of sweet potatoes for me this morning. Didn't ask for nothing! He is the most thoughtful!"

A hard look came into Gussie Bosley's eyes. "Lucky you're so well satisfied," she snapped.

Evidently she and Gussie were in agreement about its undesirability, but Gussie's attitude suggested a personal criticism, which was most unwelcome.

"I conclude you don't like him," she said vaguely.

Gussie shrugged. "I don't think anything about him unless I have to, but I shouldn't have said it if you hadn't dragged him into the talk. 'Tain't your fault, anyhow." She turned to go. "Oh, Mrs. Penfield, do you s'pose the landlord would put an extra lock on the back door?" "I don't s'pose he would. Ain't any back door got anything but the regular lock and bolt. He couldn't put on an extra one 'thout getting asked for eleven more, likely."

"My heavens, this is a cheap hole. I'll be darned," he cried, upon her return from church. "These boys beat the world for class. I didn't see anybody dressed niftier, and I got the sweetest feelings inside me. Seems like there ain't nothing I couldn't do if I had the clock for 'em."

"You couldn't dodge all the time, Lettie; but if you want to try it for a spell, there ain't no objection. Now that you can wear your good clothes, you'd better go to Sunday school with Crink and Thad regular. It'll be a terrible good for you."

WAX IS PRODUCT OF INSECTS

Important Export of Chinese Province Deposited in Trees and Gathered in Its Season.

White wax, one of the most important exports of the province of Szechwan, in China, is chiefly found in the districts of Kiating, Chiewei and Ipin.

It is along the Yangtze river in the vicinity of these districts. It is a substance known as wax insects. Once a year—in March—they are collected from the regions on the border of Yunnan by the wax-worm raisers, and are placed on polished plates, either ash or paper, which are fastened to the Kiating and neighboring districts.

Speed is essential in the removal of these insects, or they would hatch out before they get to the wax districts, and they would thus be wasted. Therefore, the coolies generally travel in night, so as to reach the destination in time for the hatching.

When the moulting period is over, the worms begin to deposit the wax on the leaves of the trees. This process continues up to the end of August, when the wax is collected. After dissolving in boiling water, it is usually moulded into cakes of various sizes and shapes.

HOUSEWIFE'S GUIDE

Price Paid Products: Sweet cream, lb. 41c; Churning cream, lb. 39c; Fresh ranch eggs, 17c; Butter, 13c; Hens, light, lb. 12c; Leghorns springs, 7c; Ducks, 12 to 18c; Turkeys, 12 to 18c.

FINAL CHAPTER IS WRITTEN IN CARAVAN STORY

Ed Dunn, Last Member of the Brooklyn Contingent to Leave Roseworth Tract, Re-Enters Building Work in New York

With the return Saturday to New York of Mr. and Mrs. Ed Dunn, the last of the Brooklyn caravaners to remain on the Roseworth tract, the final chapter of the story that attracted widespread attention in 1921, has been written, so far as actual residence on the tract is concerned.

Mr. Dunn will return to his profession as a contractor on reaching New York, according to other members of the caravan who still reside in Twin Falls. Dr. W. C. McPherson, Paul Hanft and Ered Ragnell are the only remaining members of the caravan who still reside here.

The contrast of events surrounding the arrival of the caravan in September, 1921, in its journey which follows in The News of that date: "Eventful by welcoming coteries representing both Twin Falls and Huhl, the Scott modern caravan reached Twin Falls at 12:30 this afternoon. There were 24 cars of the regular caravan in the first overland special in the city, the caravan passing later, their journey having been interrupted by minor troubles between Burley and Twin Falls.

"There are approximately 98 people in the whole list of caravaners, who have come by automobile from Brooklyn, N. Y., roughing it by the way, and the last of the Roseworth project opened by the Idaho Farm Development company.

"William D. Scott, one of the promoters in the excursion, led the caravan through the long journey and was at the head of the parade as the motor pulled into Twin Falls. The caravan was less than 100 persons, and a special autohousar of the west, and depended to guide the fortunes of the caravaners.

"The party remained in Twin Falls about 20 minutes and then started on the very last leg of its journey which has brought them from the world's greatest commercial center to home-steads on Idaho lands.

"I speak for the entire company, when I say we feel we have reached home at last and we are most happy to be here," said Mr. Scott. "The caravan has been a most interesting thing, but never tiresome; we have come to Idaho to live and we are here to stay."

"From 11 o'clock on residents of Twin Falls crowded the main avenue to get a first glimpse of the settlers, although being advised by the city that the full meaning of the modern pioneering project might impress itself upon the youngsters. Business men and the women of the city thronged the line of arrival, the street remaining congested until the last car had departed.

Congressman Adolph S. Wagoner, Mayor P. W. Roberts and many others warmly greeted the caravaners, adding a word of praise and congratulation over the successful conclusion of the enterprise."

The chronicle of the day immediately following told of the numerous events given in honor of the new arrivals until, on September 29, the settlers are reported as having made known a desire for a bridge to be built across Salmon river canyon on the road from Huhl to Roseworth.

A Short Time Later. A short time later rumors were "flying thick and fast throughout the Twin Falls country" in regard to dissatisfaction among the settlers. The Brooklyn Eagle wired Governor D. W. Davis concerning the matter and the governor replied as being astonished and stating that he believed there was "no better land in Idaho" than that of the Roseworth tract. There were reports that some of the settlers were in favor of mobbing Scott. The extent of the dissatisfaction was reported a few days later by George A. Taber, member of the caravan, to be confined to only two persons.

The various events that followed were given much discussion at that time and since, and they lead up to a general return of the home-seekers to the homes they left, or to establish their homes in Twin Falls or vicinity and finally to the beginning of litigation.

Plans Favored for Joint Civic Event

Committees from Chamber of Commerce and Women's Club to Set Date for Meeting

Proposals submitted Tuesday to the Twentieth Century club by the chamber of commerce to hold a joint meeting in the near future met a ready and favorable response.

A committee composed of Mrs. E. M. Wolf, James Walker and Mrs. E. W. Mr. Roberts was appointed by the women's club to meet with the chamber of commerce civic committee, headed by D. D. Alford, on Thursday to arrange a date for holding the meeting of the two organizations.

The meeting of representatives of various organizations was held shortly afterward and proved to be very successful. It is planned to invite each of the Twin Falls civic organizations to meet with the chamber of commerce on dates yet to be set, the meetings to include only members of the chamber of commerce and one other organization on each occasion.

Will Aid Service Men Seeking Compensation S. Veterans' Bureau Representative to Hear Two Days to Interview Former Soldiers

R. A. Swift, special contact representative of the United States veterans' bureau, arrived in Twin Falls Tuesday to interview disabled World War veterans of this community relative to government compensation, vocational training, hospitalization and war risk insurance. He will remain until Thursday.

Mr. Swift registered at the Rogerson hotel and will make his headquarters there at the expense of the local chapter of the Red Cross.

He stated that all former service people who can prove that they are disabled 10 per cent or more because of war service are entitled to federal compensation and that those who are unable to obtain it are entitled to pensions because of war injuries should apply for vocational training.

Although the bureau is only about a year old it has made considerable progress toward the benefit of ex-service men, Mr. Swift said.

At the district office in Seattle we have a list of 1,000 claims for government compensation from veterans alleging war disabilities," he said. "Approximately 5000 disabled veterans of the three states receive either straight compensation or government allowances of \$80 a month or more. More than half of them are on that list being paid directly in the hands of disabled veterans of Washington, Oregon and Idaho through the veterans' bureau."

Mr. Swift announced that this district of the veterans' bureau has recently established an employment service for the benefit of disabled veterans of Washington, Oregon and Idaho who have completed vocational training courses at the expense of the government and been declared rehabilitated.

The hospital situation in relation to proper care and facilities for disabled veterans is improving rapidly, according to the government representative. There are approximately 900 service men in hospitals of the Pacific northwest district at the present time. With the dedication recently of the new government hospital at Walla Walla, Wash., all service people suffering from tuberculosis will be taken care of. Official announcement that the government is to build a \$1,500,000 hospital at Camp Lewis, Wash., meant that veterans suffering from mental and nervous diseases will be properly housed and treated. It is expected that construction work on this hospital will begin this fall.

COUNCIL ADJOURNS. The city commission met Tuesday evening and adjourned until 7:30 o'clock Wednesday evening on account of the regular quarters at the city hall being in use. No business was transacted.

SUPREME COURT DECIDES IN WATER RIGHT MATTER

State Tribunal Holds Canal Company Cannot Deliver Water to Lands Within System Unless Available

That the Twin Falls Canal company cannot be compelled to deliver water not available was the decision of the state supreme court in the case of the state and George W. Rice against the canal company which was appealed from a writ of mandate granted by the local district court.

After the writ was given the plaintiff by the district court ordering the company to deliver water on land owned by Mr. Rice the company appealed the case and the decision of the district court was reversed.

The supreme court held that where a contract between the state and a Carey net company provides that in no case will water rights or shares be dedicated to any of the lands in the system, or sold, beyond the carrying capacity of the canal, or in excess of the appropriation of water, neither the construction company nor the operating company can be required to sell additional rights after the carrying capacity of the system has been sold to prior users.

DAIRYING ASSOCIATION PROGRESSES FAVORABLY Will Hold Another Meeting Here This Week; Plans of Organization Being Outlined to Farmer Groups

Arrangements are being made to hold another meeting of the Twin Falls County Dairyman's association here this week.

The association members met at Clover Tuesday night and outlined their plans before a group of farmers that of that district. A leading part was taken by Gustav Kaur of local fame. The articles of incorporation and by-laws have been completed and are ready for filing, according to R. E. Brossard, county farm agent. Due to the fact that a number of workers in the field securing contracts have not been heard from the exact amount of cream signed for monthly delivery has not been ascertained, but it is believed to be well over half of the 30,000 pounds a month which is to be obtained before the association begins to function actively.

BIG DAMAGE SUIT OVER CATTLE APPROACHES END Testimony by Defendants and Plaintiffs in Case Involving \$28,000 Claim Is Finished; Give Arguments

Testimony for both the state and the defense in the civil suit in district court of Glenn C. Gould, and Elijah Frost against Fred J. Hill, and Pauline Cattle Loan company and the Pioneer Cattle Loan company, was finished late Tuesday and arguments will be presented Wednesday.

The defendants are suing for approximately \$28,000 for expenses of feeding cattle delivered to them under contract with the plaintiff. Several mortgages on the stock are involved and the defense also alleges some of the stock was sold to them while under mortgage and without their knowledge of that fact.

MEETING IS POSTPONED Real Estate Men Unable to Attend Gathering to Consider Plans for Advertising; Convene Friday Night

Twin Falls real estate men, meeting Tuesday night in the chamber of commerce room, to consider plans for an advertising campaign for the community, decided to postpone the meeting until Friday night.

Several who were expected to attend were out of the city and the election registered the attention of others.

Deaths Mrs. Sarah A. Appleman. Mrs. Sarah A. Appleman, age 79, died Monday night at her farm home nine miles south of Twin Falls. She is survived by her husband and two daughters and one son. The funeral will be held Wednesday at 11 a. m. from the home, the Rev. W. W. Burke officiating.

Personal

Make Short Trip—J. D. Quory and Clark Stanley of Rupert were visiting here Tuesday.

Called by Illness—Mrs. Don Crow will leave Wednesday morning for Salmon City, where she has been called by the illness of her mother.

Home—From School—Miss Mildred Anshury, who has been attending school at New York city, arrived Tuesday. Miss Anshury is the daughter of Mr. and Mrs. W. B. Anshury.

Repair Park Settees—A crew under the supervision of C. L. Stevens, city park superintendent, is repairing and painting the bandstand and seats at the city park in preparation for the coming season.

Has Novel Device—A novel advertising stand is on display in the windows of the Davis Optical company. Dr. Harry Davis has arranged a device in which a newspaper passes continuously under reading glasses, showing their magnifying power.

Chief Has Assistant—Chief of Police J. B. Cross was receiving congratulatory notes for the first votes cast in the city election Tuesday. The occasion, however, was the birth of a son to Mr. and Mrs. Cross early Tuesday morning.

Society

The Twentieth Century club held a most interesting meeting Tuesday afternoon at the Baptist house.

The present, Mrs. C. J. Schroeder, presided, and the business session was a much alive one. Nowell Witt, speaking for the chamber of commerce, asked the cooperation of the club in the giving of community lunches. This was voted upon favorably. Donald McLean, president of the Boy Scout council, spoke of the Boy Scout movement and made an appeal for financial aid for the boys for their summer outing. Wilton Peck and Nowell Witt, both officers in the Boy Scouts, made a few remarks and the club voted \$50. They also voted \$50 to the scholarship fund of this club district, this money to be used to assist students at the Albion Normal and the Idaho Tech. The meeting was then turned over to Mrs. Marshall Browne, who was in charge of the program for the day, and a clever and amusing presentation of an old-time district school was given. Mrs. Herman Schaefer was the teacher and, H. C. being the closing day of school, the pupils spoke pieces and sang songs, and all were dressed in costumes that were exceedingly funny. An old-fashioned spelling bee was a feature of the day, the captains choosing spellers from the visitors to the school. Election of officers for the coming year will be held at the next regular meeting and the names of those nominated were posted at the Tuesday meeting as follows: President, Mrs. W. Orr Chapman; first vice president, Mrs. A. S. Martyn; second vice president, Mrs. W. T. Leslie; recording secretary, Mrs. E. M. Wolf; corresponding secretary, Mrs. P. C. Hansen; treasurer, Mrs. L. Friedman and Mrs. Earl Alworth; auditor, Mrs. Leo Bracken and Mrs. C. H. Kruegel; board of directors (veto for three), Mrs. W. F. Pike, Mrs. M. C. Mitchell, Mrs. C. J. Schroeder, Mrs. E. M. Wolf, Mrs. J. W. Chapman, Mrs. H. C. Gettler. The nominating committee with Mrs. T. E. Hunter as chairman was unable to fill the two tickets, so they will be left blank and names may be written in.

High Temperature Declines Slightly Temperature dropped slightly on Tuesday, according to the weather observer's report. Fifty-four degrees was recorded as the maximum for the day, the lowest minimum of the past eight days. Low temperature was 31 degrees and the average was 41 degrees.

RUSSIAN PEASANTS REBEL Soviet Forces Are Engaged in Fierce Battles in Southern Territory, Reports to Borne Declare

BERNE, April 2 (AP)—A serious peasant rebellion against the soviet government has broken out in south Russia, according to advices received by the Ukrainian representatives here. Regular pitched battles are proceeding between the peasants and soviet forces in the region of Odessa and Harkina. The soviet leaders have sent urgent appeals for the dispatch of infantry and artillery.

The Henry V. Walling circle No. 16. Ladies of the G. A. R. met at the home of Mrs. Morgan Heap Monday evening. Preceding the business meeting Miss Jennie Hiep played several selections on the piano. The president, Mrs. D. H. Peck, presided at the meeting after which the hostess served delicious refreshments.

Questionnaire Shows Spooning Rather Common

Inquiry Shows Only 389 Out of 1000 Women Never Spooned Before Marriage

NEW YORK, April 2 (AP)—The prevalence of spooning is shown in replies received by the bureau of social hygiene founded by John D. Koekofler, Jr., to a frank questionnaire circulated in what is termed the first exhaustive scientific investigation that has been made of the sex life of the normal, educated woman.

The report prepared by Dr. Katherine Bevan Davis, general secretary of the bureau, on replies received from 1000 married women in various parts of the country, shows that 375 admitted having spooned prior to marriage with other than fiancés; 398 spooned with fiancés only, and 389 never spooned prior to marriage. The question was left unanswered by 28.

Eleven of the 375 failed to specify the extent of their spoonings; 21 wrote "not far"; 50 "kissing only"; 104 "hugging and kissing"; 45 "hugging, fiancés only"; and 114 admitted more unrestricted spooning. Of the 1000 married women, 872 proclaimed themselves happy. Of the happy group 41 per cent did not spoon, 37 per cent did, and 22 per cent spooned only with their fiancés. Of the middle group 38 per cent admitted the custom, included in the 1000 married women with which Dr. Davis' report deals, 691 were college graduates, 17 college undergraduates, 41 high and normal school graduates and 12 private school graduates.

Of the 691 college graduates, 74 per cent admitted practicing birth control. Health and economic grounds were the reasons chiefly given.

ANNOUNCEMENTS Mrs. James Bethwell and Mrs. W. Orr Chapman will entertain at an "Easter Tea" for members and friends of the Episcopal Guild at the Parish hall on Thursday afternoon.

The Baptist Missionary meeting will be held April 5 at the home of Mr. and Mrs. William Shotwell, northwest of the city. Cars will be at the bus stop at 2 o'clock for all who wish to attend. The hostesses will be Mrs. Shotwell, Mrs. S. Watkins, Mrs. Clyde Poe and Mrs. Blyley.

The American Legion auxiliary will hold its regular monthly meeting Tuesday evening at 8 o'clock in the Business Women's club rooms. The War Mothers will be guests of honor at this meeting.

MASONS TO MEET. A regular stated communication of Twin Falls lodge No. 15, A. F. & A. M., will be held Wednesday evening, beginning at 7:30 o'clock.
