President, in Address at Atlanta, Warns Against Danger to Nation in Rise of Envy and Jealousy

AUGUSTA, Ga., April 6 (AP)—Declaring he did not believe there was "a vestige of the sectionalism of the Civil war left in the United States," President Harding in an address delivered at a dinner given in his honor tonight by the city of Augusta, decried any developments of classes and organizations of blocs in the republic.

"There is a menace to the nation," said the president, "in the development of classes and in the organization of blocs. There is danger in envy and jealousy. Let us be on guard against development of envy and jealousy."

The president touched on a variety of topics and it was apparent that in talking to his Augusta audience he was striving to reach the ear of the south, the first in a series of addresses by the chief executive during the vacation trip.

Domestic affairs constituted the present chief concern of the nation, Mr. Harding said, after his reference to classes and blocs.

"We need not worry about our international affairs," he said, "because we have America do what we predict that 'it will be the verdict of Europe when she has righted herself, as she surely will, that the republic of the United States is the most just nation in the world.'"

The president also voiced an appeal that the people of the south, as well as those of the north, "think more of what you can do for your government rather than what your government can do for you."

He referred to the efforts toward restoration of normalcy and declared that while much had been done toward reaching that goal, he still hoped earnestly that "we may go forward a proudly accomplishing American people."

No Room for Sectionalism. After declaring that he did not believe a vestige of the Civil war sectionalism remained in the United States during his administration he never had received more generous offers of cooperation than those tendered by the south.

There ought not to be any sectionalism in the United States," the president continued. "There ought not to be any classes in the United States."

Other members of the presidential party were guests at the dinner. About 200 persons attended.

Several brief addresses were made in response to these addresses were made by various members of the president.

JURY ACQUITS
IN HERRIN CASE

All Six Defendants are Found Not Guilty After Nearly Seven Hours' Deliberations

MARION, Ill., April 6 (AP)—All six of the defendants in the second Herrin slaying trial were found not guilty after the jury had deliberated six hours and 55 minutes.

Word that a verdict had been reached was received by Judge D. T. Hartwell shortly after 11 o'clock when the square about the Williamson county court house was dark and it appeared that the trial would be adjourned.

Defendants Seem Dazed. The proceedings occupied less than eight minutes in all and were received in tense silence by the little audience and without any display of demonstration of any kind.

District Attorney Orders Arrest of Operators of Kuzbas Autonomous Industrial Scheme after Family Relates Experiences in Siberia Brought to End by "Free Love" Ideas

NEW YORK, April 6 (AP)—Accused by Mr. and Mrs. Thomas B. Doyle of Baton Rouge, La., of having obtained from them \$1100 by falsely representing the prospects for American colonists in soviet Russia, P. Pascal Cosgrove and Frank Reese, operating the autonomous industrial colony, Kuzbas, in New York, were locked up in police headquarters tonight, charged with grand larceny.

The district attorney ordered the arrests after the Doyles, who returned from Russia with their two small sons last Wednesday, had related their experiences in Siberia, where they had been sent with 125 other American colonists. The case will be taken to the grand jury.

Arriving in Petrograd last year, the Doyles told Assistant District Attorney Wheeler, the party was met by "Big Bill" Hingwood, fugitive I. W. W. leader, and a review of 10,000 troops was held in their honor. Bands were added to the impressive scene of the greeting. When they reached the supposed cooperative industrial colony in Siberia, they declared they found conditions unutilized. The "free love" ideas of the Russians, they said, finally made them determined to quit Russia.

Mr. Wheeler said the Kuzbas have 40 or 50 other offices scattered over the United States.

Former Porto Rico Governor Challenges Editors to Debate

E. Mont Roley Declares He Has Been Victim of Malicious Persecution

GALVESTON, Texas, April 6 (AP)—E. Mont Roley, former governor of Porto Rico, announced his intention of challenging every editor in the United States who had criticized his administration, by public debate as soon as his health improved.

Roley declared he had been the victim of malicious persecution because he had tried to Americanize Porto Rico.

Roley asserted his persecution began when he attempted to "clean up" the situation in Porto Rico. He charged that hundreds of thousands of dollars was spent in propaganda against him in the United States by Porto Rican ministers.

Speakers Shoot Police Chief

RATON, N. M., April 6 (AP)—While attempting to arrest alleged speakers tonight, Great Davis, chief of police here, was shot and almost instantly killed. Two automobiles said to have been bearing California license plates were seen to have been exceeding the speed limit when Davis jumped on the running board of one of the machines. A single shot was fired and Davis crumpled and fell to the ground. The second car ran over him.

TESTS BRITISH
RELATIONSHIP
WITH FRANCE

Official Circles in London Propose to See Weakening on Part of France on Ruhr Occupation Question

LONDON, April 6 (AP)—The week's visit to England of Louis Loucheur, former French minister of reconstruction, during which he has had conferences with Andrew Bonar Law, the prime minister, former Premier David Lloyd George, Stanley Baldwin, chancellor of the exchequer, and the Earl of Derby, secretary for war, regarding the broad question of Anglo-French relations, is declared to be considered by British officialdom as showing a definite weakening on the part of France on the whole question of the Ruhr occupation.

Finds No Opposition. The last words of the French deputy to the newspaper correspondents today, prior to his departure for home, were that his visit had been a private one. Naturally, he said, he had discussed the relations between Great Britain and France and he was pleased with the result.

"Great Britain," Mr. Loucheur continued, "is not with France in the Ruhr; but she is not against her, everywhere I found the greatest friendship for France and the French people."

Denial was made by M. Loucheur that he had proposed any new reparations plan to the British officials. Also he emphatically asserted that foreign mediation in the Franco-German controversy would not be any more acceptable to Paris now than when the French government made formal pronouncement of its policy some time ago.

Sees "Kite Flying". Downing street admits the private nature of M. Loucheur's visit. Nevertheless it is declared to be interpreted there as "kite flying" not unlike that recently indulged in by Germany in an effort to end the Ruhr stalemate.

Although it is not intimated that the French deputy came to England as the envoy of President Millerand or Premier Painleve, some officials express the belief that he made the trip and sought for and received interviews with the highest political personalities after his project had been given at least tacit approval by either M. Millerand or M. Painleve.

DAHO WEATHER. Saturday: Fair north; showers south.

Union Pacific's Executive
Holds Out Hopes to Project
for Railway Outlet to South

President Gray Points Out Impossibility of Construction by Short Line Under Existing Conditions, but Expresses Interest and Assures Welcome to Promoters

President Gray of Union Pacific Lends Encouragement to Project of Railroad from Rogerson to Wells, Nevada

I gather that it is the desire of the people of Twin Falls that the Oregon Short Line build a railroad between Rogerson and Wells, Nevada, however, I do not see how this is to be done under existing conditions. But if at any time a committee should care to discuss the matter we will be pleased to go into it. We are railroad builders; we do not say, we build. We are now engaged in railroad construction in other states and so far as we know we have no other projects engaged in construction on anything approaching a large scale. Now, I don't know exactly what else to say to you but if I were a suitor for the hand of a young lady and she were to say as much to me as I have said to you tonight, I would go see her anyway.—CARL R. GRAY.

With Arthur L. Swain, president of the Chamber of Commerce, acting as chairman, a party of a dozen or more officials of the Union Pacific and the Oregon Short Line, including President Carl R. Gray of the former line, were guests of the Chamber at a banquet held at the Rogerson Friday evening at which between 60 and 60 Twin Falls men were guests.

General lines were made by a number of the visitors as well as by R. E. Shepherd of Jerome, who discussed the American Falls irrigation district plan from the standpoint of the effect of the project upon Southern Idaho, and M. J. Sweeney who evoked great applause and considerable merriment when he read from a copy of "The Twin Falls News" of ten years ago an article carrying more or less definite assurance of the building of the Rogerson road "as soon as weather becomes settled."

Vital to Idaho. President Gray of the Union Pacific was the final speaker of the program. He pointed out that the railroad business was unlike any other ordinary enterprise for the reason that in good times or bad, fair weather or foul, transportation must be continued and the lines operated at any cost. "Interest in the transportation problem is natural in Southern Idaho," said Mr. Gray, "if only for the reason that when all is said and done Idaho is about as far from her market as any section of the United States. Yet development in the entire Northwest will be more rapid in the future than it has been in the past. Another five years will see the end of the timber supply in the Gulf states. Long before that the lumber interests of the country must be elsewhere for material and there is only one place to look, namely, to the great forested areas of Idaho, Oregon, Washington and California. The American Falls project is one of the great avenues of advance for Southern Idaho. I am familiar to some extent with the aims and plans of the project but I confess that I did not fully visualize the possibilities until tonight. This work should be taken up. The government, as I understand it, stands ready to do its part, yet the government does not force itself upon the people and the interests of this kind and with the people themselves rests the final decision as to the matter. The news of probable favorable action in the matter of the bond issue for this work is about the best news from a railroad standpoint which has come to us."

Calls Heavy Investments. Mr. Gray offered a number of figures as to capital expenditures by the Union Pacific, explaining the company's interest in the Pacific Fruit canning plant and the financial plan of a general way. He concluded this portion of his address with a reference to the trend of general development since the close of the war and stated that in his opinion the country as a whole was emerging from the period of depression and entering upon a more solid era from a business standpoint. "The after-war period of trouble rested upon no class more heavily than upon the agricultural interests," said Mr. Gray, "yet reduced freight

GERMANS BLING
TO RHINELAND

Berlin Takes Prompt Exception to Proposal for Forming Autonomous State

BERLIN, April 6 (AP)—Official quarters in Berlin thus far seem wrothly disinclined to react to the reparations plan Loucheur is alleged to have submitted in London.

Aside from rejecting its reported financial features as wholly outside the range of serious discussion, the opinion of the British cabinet, as revealed informally, takes prompt and primary exception to the proposed "demilitarization" of the Rhineland, or the suggestion of a so-called autonomous frontier state, which project is viewed in German official quarters as a thinly disguised attempt permanently to detach the territory on the left bank of the Rhine from Prussia.

"Viewed from any angle, and stripped of all its ambiguous verbiage, this proposed association, which is to be achieved by previously breaking up German sovereignty throughout the Rhineland and bringing the Rhineland under the untrammelled control of France," said a foreign office official this evening.

Calls Germany Helpless. The official added that the cry for securities assumed a ludicrous aspect in face of France's present military equipment in all branches of the service and that Germany is unable to purchase 100,000 men with restricted equipment, which precluded any suggestion of a war footing. "In view of such preponderance of armed power, the official declared, the popular opinion in Germany was that it was Germany and not France which was entitled to securities.

"An attempt to wrest an inch of the Rhineland from Germany," the official continued, "or a suggestion that

(Continued on Page Five)

Germans Charge American
Plot to Seize Railroads

BERLIN, April 6 (AP)—Charges that American interests have been trying to get control of the German railroads and that there is imminent danger of a Franco-Belgian combination for a world money market, were made in an address today by Dr. Neuhausen, a well known mining engineer, before the Associated German Engineers.

"Before the war," Dr. Neuhausen said, "Germany led in heavy industry, surpassing the English and Americans. The result was the war. Had Germany won and the ore basin of Longwy and Briey been made available to her, then the American heavy industry would have been done for.

"Now it appears a near possibility that France may assume Germany's position. For this she needs coke and the industry of the Ruhr district. America cannot and will not permit last and best."

LEAGUE ISSUE TO BE FORCED INTO ELECTION

Former Supreme Court Justice Claims Former Service Men and Non-Partisan Association Demand Covenant

NEW YORK, April 6 (AP)—Declaring the only serious bar to America's entrance into the league of nations is "a small group of able, but malicious men—some of them very old—who are characteristically profane of the lives of the former Justice John H. Clarke of the United States supreme court, tonight served notice that the league issue would be forced into the 1924 election, and that no candidate for the presidency or the senate would be permitted to conceal his position for a single week.

Speaking on the sixth anniversary of America's declaration of war on Germany, at the first of a ten-day series of mass meetings throughout the country arranged by the League of Nations Non-Partisan association, of which he is president, Justice Clarke said: "It is reported that Senator King of Utah, speaking for the democratic party management, says the league of nations is not to be an issue in the presidential campaign next year. We shall see.

Counts on Organization.

"Tell it not in Gath, publish it not in the streets of Ashdod," or Washington, but the suspicion grows that the churches and women's clubs and the great newspapers will have something to say about it, and that the farmers and labor unions will have something to say about it, and I promise the senator that our four million young soldiers and the League of Nations Non-Partisan association will have a great deal to say about it.

"Our association is already organized in every state in the Union and long before this time next year we shall have an organization in every congressional district in the country. It may as well be accepted in advance that no candidate for the presidency or for the senate will be allowed to conceal his moral position on this great issue, and I promise the senator that our four million young soldiers and the League of Nations Non-Partisan association will have a great deal to say about it.

Transcends Partisanship.

"If it should finally occur that in the last election we republicans and millions of others who favor the league of nations, put our money on the wrong horse in 1920, it does not follow that we will make the same mistake in 1924. The league of nations transcends all partisanship."

MEXICAN PLOTTERS HELD

Authorities Detain Eight of 43 Alleged Conspirators Taken in Raid on Fascist Meeting

MEXICO CITY, April 6 (AP)—Eight of 43 alleged conspirators against the government who were arrested late last night at Santa Julia a suburb of Mexico City, are being held for further examination. Among those still in custody is Antonio Garcia, described by the police as an Italian priest.

Those arrested declared at a preliminary hearing this morning that the meeting at which they were arrested was held for the purpose of making Santa Julia an independent suburb.

According to the police it was a fascist meeting, the raiding party claiming to have obtained fascist proclamations, with the Mexican patron saint as an emblem.

DRESSING THE PART IS SECRET OF CHARM FOR MILKMAID OR DEBUTANT

GOING A MILKING, SIR, SHE SAID

CHICAGO.—The well-dressed woman, whether she sits in a box at the opera or milks a cow on a farm, is, according to an artist who is teaching dress designing in a Chicago technical high school, the one who dresses the part.

"This is something the French woman understands perfectly," this teacher told one of her classes. "It is something the woman on America's Main Street is learning. The costume that is designed at Danville or Cannes would be absurd on the shaded streets of a little mid-west town on a rainy morning.

"It is not a matter of degree but of kind. The woman going briskly about her marketing with basket on her arm may be just as artistic and lovely as the one who is idling on a big hotel veranda. If you don't believe it, go to the theatre and see some play in which the Innocent title crowds the sophisticated city vamp clear out of the spotlight.

"Then go home and make yourself a night-line frock of flowered or dainty light figured percale. Get a rough straw hat with a brim that

FITTED IN THE KNITTING

droops a little over the eyes and trim it with daisies or cornflowers according to the color of your frock; Draw on a pair of Bureau's cotton or mercerized hose, that are seamless and fitted in the knitting after the fashion of those your grandmother used to knit on needles, and a lightweight pair of oxfords with medium low heels. Shoes and stockings may be of tan or black.

"Then take your market basket and trundle down town, and if you get a glimpse of yourself reflected in some shop window you will see how perfectly you are a part of the picture. You are dressed for the part and, therefore, well dressed."

INJURIES PROVE FATAL TO RABBI

Operation Fails to Save Life of Churchman Attacked by Unidentified Stranger

SAN FRANCISCO, April 6 (AP)—Rabbi Alfred J. Lafce of the Bush street temple, who was beaten into unconsciousness by an unidentified man in a hotel room last Tuesday night, died today.

The rabbi, who was but 22 years old, had been unconscious since the attack. Late last night an operation was performed in an effort to save his life.

Rabbi Lafce's mysterious assailant was a strongly built man of 175 or 180 pounds and wore the uniform of a seaman in the United States navy. Rabbi Lafce and the stranger came to the hotel together about 8 p. m. Tuesday night. Rabbi Lafce registered under the name of "H. Hickman." The rabbi later telephoned to the clerk asking to be called at six a. m. About 4 a. m. the stranger reappeared in the lobby, rolled a cigarette and departed.

The six o'clock call failed to get a response from the rabbi, and the clerk, investigating, found him leaning against a washbowl, senseless from a battered skull and an attempt to strangle him. Marks on his neck indicated that a rope or twisted sheet had been used.

BLIMP MAKES TRIAL TRIP

United States' Largest Dirigible Flies Continuously for Seven Hours Preparing for 500 Mile Flight

AKRON, Ohio, April 6 (AP)—The United States government's largest and newest non-rigid dirigible, made a seven-hour continuous flight over Akron and Cleveland today preparatory to attempting a non-stop flight to Scott field, near St. Louis, a distance of over 500 miles, next week.

The non-stop flight was to have been attempted tomorrow, but because of the strain on both the blimp and the crew occasioned by today's long test, was postponed until next week.

PREDICTS HUGE CUSTOMS FEES

Utah Senator Estimates National Income from Tariff Will Exceed \$550,000,000

WASHINGTON, April 6 (AP)—Prediction that customs receipts for the fiscal year ending next June 30 would exceed \$550,000,000 and possibly approach \$600,000,000 was made Thursday by Senator member of the senate finance committee, and one of the leaders in drafting the present tariff law. The senator said his estimate was based on calculations furnished by the treasury, and if borne out would exceed the previous high record of \$387,000,000 in receipts in one year under the Payne-Aldrich law.

Some treasury officials, however, disagree with the estimate made by the Utah senator, because, they said, it was set too early to determine whether the unusually high customs receipts for February and March were an indication of a definite trend upward in imports. Should the sugar imports be offset by the percentage of re-exports of that commodity after refining the rebate of duties paid on them will materially affect the monthly receipts.

Senator Simon's study of the import records gave assurance, he declared that the tariff law was working equitably. This is proved, he explained by the fact that the importations of goods almost every commodity known to commerce, and trade.

FAVORS LAW'S MODIFICATION

SANTIAGO, Chile, April 6 (AP)—The Chilean proposal for the calling of a congress looking to the modification of American international law was adopted by the judicial committee of the Pan-American conference today. The Pan-American Union will fix the date and place after the seven committees appointed to study the various phases of the law have finished their work.

SOVIET FLOUTS FOREIGN NOTES

Russian Dictatorship Takes Arrogant Position in Churchmen's Cases

MOSCOW, April 6 (AP)—The soviet government's attitude that the matter of the execution of Vice General Butchkevitch and the imprisonment of Archbishop Zepplin was an internal problem and is now a closed incident, despite foreign protests, was reflected today in the attitude of some of the foreign missions in Moscow. Rumors current yesterday that the Polish legation might withdraw brought forth a denial today from the legation. The chief of the British mission, however, returned to the soviet government

the latter's note justifying the sentences imposed upon the prelates and including to the British executives in London and India.

To this the soviet government replied that the contents of the note were probably already published and it trusted by informed and would not interfere in the future.

It appeared tonight that the soviet administration has once again confronted the world with a fait-accompli, the foreign effect of which undoubtedly will cause some nervousness but no fear in Moscow.

RADIO REPLACE STATION ORIER

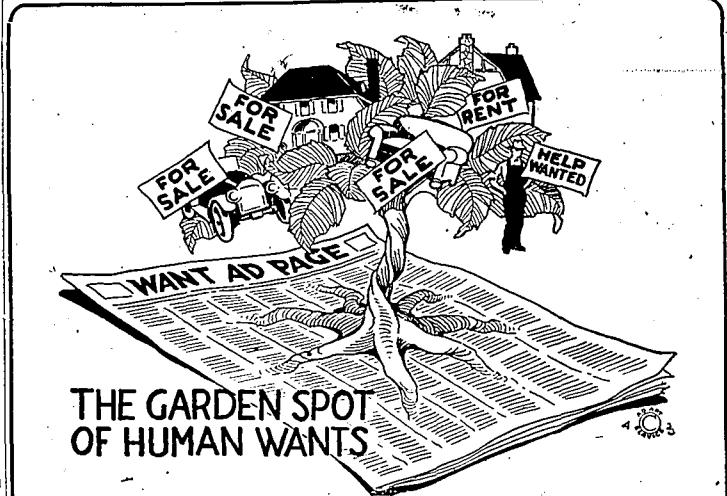

SAINT LAURE, April 6 (AP)—A radio system for announcing train arrivals and departures is being experimentally with at the local Denver & Rio Grande Western railway passenger depot. Should the scheme prove successful, according to railroad officials, it will mean the passing of the gold-buttoned, canvas-covered individual who struts the station-floor and roars about trains in accents loud and dissonant. "Next

train for Squidunklavontrakfourat-clevenose," or something to that general effect.

To know how good a cigarette really can be made you must try a—

THE GARDEN SPOT OF HUMAN WANTS

In Twin Falls

The human mind is still an interesting mystery. We know little about the motor which generates the power that runs our dreams and desires.

The billions of wants that creep into our minds is the excuse for that incessant whirl of the world's machinery.

It's just a part of nature to want what we do not have or swap what we have for something more desirable.

Each want is a tiny seed—to bear fruit like other seeds, must be planted in the field of supply.

Can you conceive of a greater garden spot of supply than the pages of a newspaper which carry a "want" directly to the brain center of thousands of people each day?

Can there be any better, virgin, "bottom blackland" soil in which to plant "want" seeds, in the shape of a few lines under proper classification, than a newspaper?

It doesn't matter whether the want is to buy, sell, rent or exchange a thing; or to find employment or help—RESULTS WILL SPRING UP OVER NIGHT.

Our want ad columns are the richest, most productive garden spot for want supplies in Twin Falls. Just phone your ad in. Call 32.
