GERMAN ACTION SEEN AS CAUSE OF OCCUPATION

French Embassy Secretary Compares Position of France to that of Bankrupt Creditor with Debtor on Spree

PHILADELPHIA, April 17 (AP)—The occupation of the Ruhr resulted from a situation where France found herself in the position of a creditor going into bankruptcy while a recalcitrant debtor was lavishly spending money for his own purposes...

France Can't Forget. Declaring that after losing 1,400,000 men in the war and seeing part of her territory devastated, France could not work for peace.

Germany, Mr. Henry said, "was deliberately engaged in a financial policy the purpose of which was to make the world believe also could not pay."

Mr. Henry cited figures to show the flow of funds of the German shipping industry and the improvement of others, "thanks to enormous subsidies of the German government."

Counts Spanish Shares. Out of the total of German payments made until the end of 1922, M. Henry said, France received 2,631,787,400 gold marks...

DEATH CLOSES LIFE WORK OF AGED PRELATE

D. S. Tuttle, Pioneer Missionary of West and Senior Active Anglican Bishop in the World, Dies at Age of 86

ST. LOUIS, April 17 (AP)—The funeral of the Right Rev. Daniel S. Tuttle, presiding bishop of the Episcopal church in the United States, who died this afternoon, will be at 2 p. m. Friday. The body will lie in state at Christ's church cathedral in the forenoon...

Daniel Sylvester Tuttle, presiding bishop of the Protestant Episcopal Church in America, was the senior active Anglican Bishop in the world. Born in Windham, N. Y., Jan. 26, 1837, he was the son of a blacksmith.

Four years later the young divine was elected the first missionary bishop of Utah, Montana and Idaho. On July 29 years old at the time, he had to wait one year before being consecrated, as an ecclesiastical law makes 30 years the minimum age for a bishop.

For nearly 20 years the bishop carried the work in the west and was considered one of the great figures in the pioneer life of that section. Over six feet tall, broad shouldered and with a resounding voice, he was the pioneer of sturdy Christianity.

United States Calls Upon Turks to Make Amends for Profanation of Hero Dead

State Department Officials Press Demands Upon Angora Government Following Receipt of Investigators' Report that Soldiers Mutilated Body of American Soldier

WASHINGTON, April 17 (AP)—State department agents designated to investigate charges that Turkish soldiers had mutilated the body and destroyed the coffin of George Dibbey, an American soldier, to whom a congressional medal of honor was awarded after he met his death in the world war, have confirmed them. In a preliminary report the agents said "these revolting acts of profanation were apparently actuated by cupidity rather than by malice or any international act of disrespect."

Dibbey was of Greek extraction and lived in Somerville, Mass., at the time he enlisted in the 26th division. He went to France with that organization and was killed in action near Belleau Wood. At the request of his parents, whose home was in Alachua, a small town near Smyrna, the body was sent there for interment.

Parents Ask for Body. Full details of the investigation, the cables today said, will be reported by the U. S. consul at Ankara.

GOMPERS HURLS GAUNTLET DOWN TO BOLSHIEVISM

Veteran Labor Leader Defies Soviet to Destroy American Federation or Unseat Him to Strike at America

NEW YORK, April 17 (AP)—Samuel Gompers, addressing the annual convention of the National Civic Federation today defied the soviet government of Russia to destroy the American Federation of Labor and its president, by any means, he declared, at its avowed plan to overthrow the government of the United States.

"I don't know whether there will be any cause and effect in this matter," he said. "But I think it will help our government and our people to understand that regardless of the differences of nationality and nativity, the American labor would stand 100 per cent behind the republic."

He preceded the declaration by asserting that the pledge made to the government at the labor conference in Washington, during the war, had been broken.

"In the official and in the authoritative declarations of representatives and spokesmen of the soviet government of Russia," Mr. Gompers said, "they have declared emphatically over and over again that the democratic countries of all the world, and especially the United States, must be overthrown. And as a condition precedent to the accomplishment of that result, it is necessary to undermine and destroy the American Federation of Labor, and particularly its president, your humble servant."

"Now our friends, those antagonists of the American republic must contribute to us the motive, and the principal motive that we are holding out to our job, that the first and only condition that I have is to hold my position as president of the American Federation of Labor."

Earlier in the session the convention passed by a close vote a resolution urging President Harding to continue with that of any other man in the world. The keynote of my life has been, and is and will be so long as life remains in me, to serve my country in my time and in the best possible condition of life and work for all."

Coolidge Takes His Theme from McKinley's Aim

Vice-President Tells Spanish War Veterans Nation Holds to Broad Ideals

CAMBRIDGE, Mass., April 17 (AP)—It is in harmony with the principles enunciated by McKinley that America is today using her influence in the world, Vice President Calvin Coolidge said in an address before the convention of Spanish War veterans tonight.

"America has not neglected to follow his precepts. When liberty has been assailed she has continued to defend it. With his vision, she has looked beyond her own shores. She has been steadfast in his last message to his countrymen of the impelling duty of the establishment of peace through justice, and of the preservation through unity among all the peoples of the earth. The nations will ever have need of a McKinley, who shall establish them as he established his own."

Marks New Spirit. "Although there never was greater heroism displayed and the forces by land and sea never were led with greater precision and success, looked at as a whole the work of the Spanish war was not so much a feat of arms as the beginning of a new world spirit."

DECIDE AGAINST PADDOCK

Athletic Union Governors Withhold Approval to Southern California Sprinter to Compete Abroad

NEW YORK, April 17 (AP)—The board of governors of the National Amateur Athletic Union tonight refused to grant an appeal by Charles W. Paddock, University of Southern California sprint star and world's record holder, for sanction to take part in an international college track meet at Paris in May.

The board's decision was based on its feeling that an exception in Paddock's case could not be made to the recent A. A. U. ruling barring all American athletes, except the Yale-Harvard track team, from participating in international meets abroad this year.

Paddock, after presenting his case to the board of governors, announced that he would acquiesce in the decision, and not take part in the Paris meet, but would go abroad any way for business reasons, which he planned originally to combine with his athletic venture.

The sprinter, who has been in training for some time, was plainly disappointed by failure to obtain sanction to compete abroad.

DEFER ACTION ON OIL PERMIT

City Commissioners Again Take Up Storage Take, Project; Session Uneventful

Discussion of the advisability of granting a permit for the erection of oil storage tanks again constituted the principal business item at the weekly meeting of the city commission Tuesday night.

The subject under consideration was the application of the Independent Gas and Oil company to erect storage tanks on lots at Third avenue south and Fourth street, in the same block where a permit was granted Olaf Nelson of Twin Falls to erect the tanks.

A request was submitted on behalf of the Home Lumber company asking that the commissioners defer their decision until a thorough investigation can be made in regard to fire insurance rates as affecting Nibley-Channel lumber yards, a short distance from the site and which have been sold to the Home company.

Oppose Permit. "I will only be present for two more meetings and I do not feel inclined to unload something unfavorable on the new administration," said Commissioner S. G. McArthur. "I am in favor of holding this over for further investigation."

Mayor J. T. Tucker said he was opposed to granting the permit for the reason that the site is not the center of the business section, and that he believed it to be one of the choice warehouse sites. The matter was consequently postponed for consideration at the next meeting.

Notice was received from the state public utilities commission stating that the hearing on the location of the Idaho Power company's properties has been postponed in view of the fact that representatives of the Southern Idaho Light and Power Users' association could not attend on April 30, the date set for the hearing. The final date of the hearing was not announced.

A theater license was granted the Ritz theater and music and dairy licenses were allowed. Commissioner F. L. Cogswell was appointed to negotiate for leasing the tourist park for the coming season and to report at the next meeting. Routine bills were allowed, with Commissioner S. S. All voting negatively on the street warrants.

# ATTACKS TREND TO PATERNALISM IN GOVERNMENT

### Grain Dealers Association Hears Editor Blame Borah and Colleagues for Radical Threat to Civilization

ST. LOUIS, Mo., April 17 (AP)—Government paternalism, and radicalism were scored here today after a hearing by E. C. Omaha, managing editor of the Price Current Grain Reporter, speaking at the convention of the Western Grain Dealers' association.

"Paternalism leads to autocracy," Mr. Omaha declared. "We are steeped in German paternalism and congress is doing all it can to promote it. Brookhart, LaFollette, Borah and others are leading their dupes and developing a program for next winter. In this criticism I am not thinking of lawfully formed, self-helping farm organizations. But the department of agriculture, the war finance board and the credit banks are nothing more than gilded socialism dug up out of the middle ages."

"Radicalism and what is now called progressive law attempts, have ruined past civilizations," Mr. Omaha asserted, declaring that the Roman empire was ruined at the close of the Augustan age by a barbaric people who filled it. "These same people today have poured themselves into this country and have been as little changed by the melting pot as they were mingling with Roman culture."

### FLYERS SMASH RECORDS

(Continued From Page One.)  
His De Havilland 4-B biplane after a 10-hour and 53-minute flight in which he maintained an average speed of 114 miles an hour and beat the former French record of 1500 and 4000 kilometers by an average of 40 miles an hour.

His time for 1500 kilometers was eight hours and nine minutes. Shortly after Harris landed, Lieutenant Rutledge, Irvine, naval air service, landed his naval torpedo plane after establishing a world record for altitude by carrying a load of 225 pounds to an altitude of 11,300 feet. This flight was made in two hours and a half.

MacReady and Kelly served off their course when they passed the pylon at Wilbur Wright field at 9:40 p. m., after completing the eighty-first lap and five and a half minutes in the field several minutes to get their bearings, made a perfect landing at 9:43 o'clock.

### GLORIA SWANSON WILL NOT CONTEST DIVORCE ACTION

LOS ANGELES, April 17 (AP)—Default was entered today in the suit for divorce brought in superior court against Gloria Swanson, motion picture actress, by her second husband, Herbert Sornborn, who charged desertion.

This indicated, it was stated, that Miss Swanson probably would not contest the action, and that the case would be set for trial in a few days.

Miss Swanson's first husband, Wallace Bery, motion picture actor, divorced her because of desertion. She and Sornborn have one child, Gloria Swanson Sornborn, two and a half years old.

### NEW YORK GOVERNOR FOR MINIMUM WAGE LAW

OLYMPIA, Wash., April 17 (AP)—Governor Albert Smith of New York telegraphed to Governor Hart today that he would be glad to call for a conference of state executives to strengthen public sentiment for a constitutional amendment under which minimum wage laws could be enacted.

### Russia May Execute Patriarch

His Holiness Tikhon, Patriarch of All Russia, head of the Greek Catholic church. The trial of the Patriarch had been set for April 10, but was postponed to April 17, when the European Powers notified the Soviet they would break off all negotiations with Russia if the Patriarch were condemned to death. The wave of indignation that swept the world over the death of Monsignor Budkevich does not seem to have stopped the Bolshevik desire for the blood of prelates. The charges against Tikhon are similar to those against the Roman Catholic clergy.

Soviet Russia, which shocked the sensibilities of the whole civilized world by executing Monsignor Budkevich, Vice-General of the Roman Catholic church in Russia, is likely to add another to its monstrous crimes by executing His Holiness Tikhon, Patriarch of All Russia, head of the Greek Catholic church. The trial of the Patriarch had been set for April 10, but was postponed to April 17, when the European Powers notified the Soviet they would break off all negotiations with Russia if the Patriarch were condemned to death. The wave of indignation that swept the world over the death of Monsignor Budkevich does not seem to have stopped the Bolshevik desire for the blood of prelates. The charges against Tikhon are similar to those against the Roman Catholic clergy.

### GERMAN PARTY LEADERS DEBATE CUNO STATEMENT

BERLIN, Apr. 17 (AP)—Just how far Baron von Rosenberg, the foreign minister, succeeded in carrying the reparations discussion forward with his detailed review in the Reichstag Monday of Germany's past efforts to achieve a definite adjustment of the question is a subject on which the opinions of the party leaders differed at the conclusion of the day's debate.

Altogether the foreign minister is considered to have made out a good case for the Cuno government, his speech being voted one of the most effective official utterances since the advent of the Ruhr crisis. With the exception of the communists, partisan opinion concurred in the belief that Baron von Rosenberg had the better of the argument with Premier Poincare, while his defense of the German efforts to obtain a hearing at Paris and elsewhere was received as evidence that the Cuno government had made sincere efforts to create an atmosphere which would prove conducive to negotiations, if not to actual negotiations.

In laying stress on Germany's approval of the suggestion that the ill-starred topic of reparations be definitely referred to a jury of authoritative experts, Baron von Rosenberg placed the Cuno administration on record as favoring the plan put forward by Secretary of State Hughes in his New Haven speech, which subsequently was given the support of resolution by the International Chamber of Commerce during its recent sessions in Rome.

### SHIP SURVIVES ATTACK OF MOUNTAIN OF WATER

Liner's Commander Relates Combat with Tumultuous Sea Off Coast of Mexico; Seeks Explanation

TACOMA, Wash., April 17 (AP)—A mountain of water that rose from the sea was described here today by Captain George Mitchell of Nawaco liner Brush.

Captain Mitchell said that on the morning of March 20, while the Brush was 50 miles off the coast of Mexico, sailors saw a long, unbroken line on the sea. This line approached the Brush rapidly, until it was seen that it was a wall of water fully 70 feet in height. The ship was made ready for the onslaught, and Captain Mitchell said when the water hit the vessel it seemed as though a great hand grasped the ship and elevated it into the air. There was not a breath of wind at the time. For six hours the log of the Brush shows the vessel wallowed in swells equal to those off Cape Horn. The ship was driven miles off her course.

Captain Mitchell has sent the facts to the government officials for an explanation of the phenomenon and to discover if an earthquake might have been responsible.

# MAGIC NAMES

THE influence of advertising is apparent in every turn of my daily life. I find I cannot disregard it. It is always with me, guiding me in my pleasures and in my duties, telling me what I should eat, wear, and use and what I should buy for my family.

I find that there is on the tip of my tongue a multitude of names the mention of which will bring from some shelf nearly everything that I can use in my daily life and in the daily life of my family.

In every instance that name means a very definite promise and assurance of something substantial and which will make me feel completely satisfied about having exchanged my money for it.

Let me say a few things which these names—these old friends of the newspaper and magazine pages—mean to me.

THEY MEAN GOOD TASTE. For certainly I desire to do the thing that I believe discriminating people have judged best.

THEY MEAN CONVENIENCE. It is not necessary to describe the thing I want. Even the most intimate articles may be purchased without embarrassment since the advertisers have given us handy names.

THEY MEAN ASSURANCE IN SHOPPING. There is no indecision. Even before I enter the shop I know what I want to buy.

AND CERTAINLY THEY MEAN SATISFACTION. For the advertiser whose product is not good cannot continue to advertise. The fact that I have seen a name repeated over and over again assures me that it stands for a product of quality. An speaking that name to the clerk I know I am asking for the best.

I am a more judicious shopper because I buy advertised goods. I patronize the shop that sells them.
