

TWIN FALLS DAILY NEWS

MINE BLAST KILLS TWO; 8 MISSING

Explosion in Trinidad District Coal Diggings Entombs 10 Workmen; All Believed to Have Perished

TRINIDAD, May 5 (AP)—Two bodies had been recovered and eight checked missing in the explosion that wrecked the north slope of the Southwestern Fuel company at Southwestern diggings. A regular tonight which increased the number of men entombed by the explosion to 10.

Reports from the mine said the belief is strengthened by conditions encountered in the tunnel that all of the men in the mine have perished.

Several of the rescuers were overcome by gas.

Most of the men were not in the mine at the time was due to the fact that it is Saturday and the regular day shift at the property was lying off.

Rescuers Told Unsuccessfully.

Rescue workers toiled unceasingly tonight to reach the men in the ill-fated mine. Three men who had been working in the upper seam of the mine when the blast occurred walked out unhurt.

Helmet men, assembled from nearby mines, were augmented by the crew of the United States 70 acres of mines rescue car, which left here immediately upon receiving the report of the explosion. The Southwestern mine is near Aguilar, about 30 miles northwest of this city.

The explosion was caused by a set-off of gas, according to mine officials.

Between 45 and 70 acres are normally employed in the mine on regular working days.

The superintendent, Morgan Williams, went into the mine to explore the wrecked slope within a few minutes after the explosion.

APPEALS TO FARMERS TO SAFEGUARD PRIMARY LAW

WASHINGTON, May 5 (AP)—An appeal to farmers to prevent abolition of the direct primary, and a warning against the investment of money in the permitted to drag the country into war, were coupled tonight in a statement issued by Charles S. Barrer, president of the National Farmers' Union.

American capitalists, he declared, should be given to understand that when they acquire oil and other concessions abroad they do so at their own risk, and not with any understanding that their property will be protected by American military forces.

We must stick by our primaries," said the statement. "We must nominate progressive, forward-looking statesmen in whatever party you vote.

Our leaders in congress should help the people in their desire to eliminate secret diplomacy and back stairway intrigues. If we do not keep the primaries, another sort of men will fill the halls with plots and special privilege in whatever guise or form. Another war must be averted."

Communists Give Russian Church Cold Shoulder

Innovations Brought In by Revolutionary Priest Fail to Win Soviet Blessing

MOSCOW, May 5 (AP)—Clad in a glittering robe and mitre of white, red and gold, the revolutionary priest, Yelensky, installed by the All-Russian church concave today as archbishop of Moscow.

Three bearded metropolitans in purple and gold, and five bishops wearing striking robes participated in the ceremony, which followed the ritual used by the church for centuries, including the use of holy water, the display of the cross and all symbols of the old orthodoxy.

The new archbishop is the man who conducted the prosecution which brought about the excommunicating of Patriarch Tikhon and who some months ago was stoned by women in front of his Petrograd church for his efforts to overthrow the old religion and accept the communistic revolution as a step toward a new Christianity.

Yelensky, with his eyes closed and his hands folded, made a dramatic speech to the concave in which he declared that "the church must break with its old traditions and unite with the new social reconstruction."

He told the assembly that, when young, he had studied anti-religious philosophy and had tried hard to become an atheist, but that his faith was too strong.

The Pravda, communist organ, in an editorial, says today: "It is self-understood that our party shall not give its blessing to such a religion as is trying to bless our party, just as it does not give the communistic label to that group of bourgeois which chooses the old frame of mind and supports us."

This is interpreted as meaning that while the new church may label the communist practitioners, Christians, the communist party refuses to consider any religion as communistic.

Passengers Caught in Subway Tie-Up Come Up for Air

Women Shed High Heels and Tight Skirts to Hasten Climb Out of Traffic Tunnel

NEW YORK, May 5 (AP)—About 2000 passengers trapped in a tunnel under the East river tonight when an interborough subway train stalled and held up three other trains had to walk along narrow runways to exits in Long Island City.

Burning out of electrical apparatus on trains that tried to force the stalled train out of the tunnel filled the tube with smoke, adding to the nervousness of the large throng. Several women fainted. One of the emergency exits used by many of the passengers necessitated a climb of 80 feet up a narrow, unlit shaft. Many of the women shed their high-heeled shoes to make the ascent more quickly and with less effort. Tight skirts removed these garments the better to hurry out of the smoke-filled atmosphere.

TURKEY DENIES HOSTILE MOVES

Answer to French Protest Says Troops in Syria are Being Demobilized

LAUSANNE, May 5 (AP)—Turkey is demobilizing, not mobilizing, troops in Syria, and therefore, there is no justification of French fears that Turkey is threatening the Syrian frontier. This, it was said tonight in Turkish circles, probably would constitute the substance of the reply to the French note of protest.

Turkey asserts that she is demobilizing as a preliminary step to the probable signature of peace at Lausanne, and has no intention of moving the French army in Syria as a means of forcing France to make further concessions to Turkey at the Lausanne conference.

FORSEES ERA OF PEACE

CONSTANTINOPLE, May 5 (AP)—Adnan Boy, nationalist governor of Constantinople, assured the acting French high commissioner here today that the Turkish government had no hostile intention toward France. Turkey, he said, is conscious that the conclusion of peace in the near future would assure the country an era of tranquility and prosperity, was engaged in disbanding her troops with the view of the disbanding of her army on a peace footing.

The governor added that the Angora agreement still remained unfulfilled by France, which was not supporting Turkey in the Lausanne conference.

BISHOP OFFERS AMERICAN CASH TO MUSCOVITES

Blake Tells Russian Church Conclave Methodist of United States Have \$50,000 for Schools of Pastors

MOSCOW, May 5 (AP)—Bishop Edgar Blake has presented an offer of considerable financial aid from the American Methodists for the "organization of schools of enlightenment for Russian pastors." It developed at today's session of the all-Russian church conclave. Bishop Blake, who is leaving Russia tonight, told the conclave that he regretted his departure, but that he would carry to the bishops in America the feelings and good wishes expressed by the conclave.

The Metropolitan Peter in reply, expressed thanks for the offer by organizing schools for the Russian pastors, who, he said, "have lost their source of enlightenment since the close of the Russian church schools."

In making this announcement of financial assistance Bishop Blake said the Methodist fund totaled \$50,000 to cover a period of three years. It was to be expended by the Russian theological schools, probably with correspondence courses, to educate candidates for the priesthood.

"We will make an effort to detach what kind of theology they should teach," he said. "I am satisfied that the conclave is bona fide."

With Lewis O. Harriman, editor of Zion's Herald, Bishop Blake will leave for Finland by way of Petrograd.

PUT OFF VEXING PROBLEM

Near East Peace Conference, Deadlocked on Question of Protection of Foreigners, Turn to Other Issues

LAUSANNE, May 5 (AP)—The Turks and the allies, although unshaken in their opposing views regarding special protection for foreign residents of Turkey, have postponed further formal consideration of the question that is threatening the success of the conference, until the last possible moment. The allies have organized a sort of individual campaign to break the Ottoman resistance to the European demand that Turkey's foreign advisers must be consulted or notified before arrests, seizures or searches affecting foreigners.

Allied representatives said tonight they consider the conference situation less critical than yesterday.

There is great interest in allied circles as to whether the American representatives will make a move calculated to strengthen the allied position by urging the Turkish delegation to grant large power to the legal advisers, and thus satisfy the American residents in Turkey.

Union Pacific System Will Build Railway Line to Wells

COMPLETION OF GRADE WITHIN YEAR PLANNED

Construction from Rogerson to Nevada Town to be Undertaken at Once; Announcement Authorized by Vice-President and General Manager Signals Success of Negotiations

With options secured and turned over to the Short Line covering the ground for round house, buildings and general terminal facilities necessary to the establishment of a division point in Twin Falls and an option on the certificate of necessity already issued for a Rogerson-Wells line in the hands of the railroad committee of the Twin Falls Chamber of Commerce, construction of the road by the Union Pacific System has been definitely decided upon and an official statement to this effect will be issued within the next few days.

ROUNDUP BAGS 112 DEPORTEES

Ten Insane Persons and 20 Criminals Among Delegation Scheduled to Leave

NEW YORK, May 5 (AP)—Caught in a nation-wide roundup of undesirable aliens, 112 deportees arrived today from the west and were taken to Ellis Island. Among those scheduled for deportation were 14 women and 10 children. There were also 10 insane persons and 20 criminals.

Most of the undesirable were from Portland, Ore., Seattle and Spokane.

As the special train moved eastward others seized in the roundup were taken on from Kansas City, St. Louis, Minneapolis, Chicago, Cleveland and Pittsburgh.

There were but few revolutionists or extremists in the party, officials said. Most of the women and children were forced to accept deportation or separation from their husbands or fathers. The aliens will sail early next week.

SHORT LINE OFFICIAL DIES

SALT LAKE, May 5 (AP)—David R. Gray, assistant general freight agent of the Oregon Short Line railroad, died here today. Gray was prominent in railway circles throughout the country and he was considered an authority on rail freight problems.

The movement of which the present situation is the result had its inception in a series of informal meetings begun about six months ago of which John S. Cline was the originator. Those who attended the first meeting were E. W. Dumke, Arthur J. Peavey, E. A. Walters, M. J. Sweeley, Roy A. Read, J. S. Keel and later J. M. Maxwell, J. A. Keefe, A. L. Swin and R. C. Beach were called into the negotiations.

Later, Mr. Platt was invited to Twin Falls for an informal discussion of the project and on two occasions lengthy conferences were held with the Short Line manager. The entire effort was carried on upon a confidential basis by mutual agreement and by request of Mr. Platt.

Assurance is Given

Upon the arrival of President Gray of the Union Pacific in Twin Falls a meeting was held at the car at which time positive assurance was given by President Gray that the line would be built by the Union Pacific.

It was with this assurance and arrangements made for the selection of the necessary ground for terminals here and at Wells, Nevada.

The fact that a certificate of necessity for the building of the road had already been issued to the Idaho Central line was regarded as constituting an obstacle in the way of construction by any other road until its expiration December 31, 1923.

It was with this idea of putting forward a year the plans of the Union Pacific that the chamber of commerce railroad committee undertook the purchase of the assets of the Idaho Central.

Attorneys Satisfied

According to Judge Walters, Oregon Short Line attorneys are satisfied with the terms of the option and the ability of President Stewart of the road to deliver the assets of the company upon payment of the required \$250,000. What steps will be taken towards the carrying out of the purchase will be decided upon as the chamber of commerce may elect or as the people of Twin Falls may decide, an official announcement of the Union Pacific program is issued.

It is impossible to offer a comprehensive survey of the actual amount of work accomplished by various Twin Falls men who from time to time, individually and as representatives of different organizations, lent their untiring aid to the movement.

E. E. Gray of contact has made a number of trips to the coast in connection with the project. John W. Graham has been an active figure in the situation for years. Asher B. Wilson

GRAPE GROWERS APPEAL TO LAW FROM TROUBLES

Grand Jury Hears of Willful Destruction of Property Believed Result of Refusal to Sign Contract

PRESNO, Cal., May 5 (AP)—Mutilation of raisin grape vines and the willful destruction of ranch property by unknown parties were described to the Fresno county grand jury today by growers of the community, who alleged that the marauders were taking vengeance upon them because of their refusal to sign San Joaquin raisin growers' crop contracts.

Woman Admits Shooting.

The testimony was presented by witnesses summoned in the investigation of the shooting near Monmouth last Friday night of Walter Oshelton, crop contract campaign worker. Mrs. N. Torosian admitted the shooting. Both Mrs. Torosian and her husband are in the county jail.

Mrs. John J. Williams, who has ranch property near Clovis, testified that grape vines were uprooted, fruit trees destroyed and ranch houses damaged by unidentified persons who visited the ranch last night.

Tells of Threat.

John Nashford, a neighbor, Mrs. Williams declared, had been threatened with a gun in the hands of growers who were bitter against him because he refused to join the raisin association.

Nashford is past 60 years of age and is said to have been in Los Angeles with his wife and daughter to escape the ill will of growers who are said to have menaced his life and property.

District Attorney George R. Lovejoy declared that all offenders if apprehended would be prosecuted.

CYCLONE HITS GUATEMALA

SAN SALVADOR, Republic of Salvador, May 5 (AP)—Advices from Guatemala say that the port of San Jose experienced a violent cyclone yesterday. It destroyed the official cable office and various other buildings. The city is still without telegraphic communication.

PREUS HOLDS OWN COUNSEL

ST. PAUL, May 5 (AP)—Governor J. A. O. Preus today refused to discuss publicly reports that his close personal friends had said he would resign next week to accept appointment to the United States senate in succession to the late Senator Knute Nelson.

THEFT OF \$42,000 REVEALED

CLEVELAND, May 5 (AP)—The theft of nearly \$42,000 from a branch of the Cleveland Trust company by an employee was revealed today when company officials recovered the money from his hiding place, buried beneath a private garage.

Celebrators at Ogdan Are Hurt By Fiery Blast

Fourteen Persons Receive Injuries in Explosion of Bonfire for Boys' Week

OGDEN, May 5 (AP)—Several persons, including City Commissioner Oscar H. Hudson, were hurt at 8:45 o'clock tonight by an explosion of a bonfire used to start a bonfire during the concluding festivities of a boy's week observance at the city hall. Windows in the police station were shattered by the concussion.

Fifteen men, women and children were known to be injured, two of whom were taken to the hospital. Physicians said none appeared to be dangerously hurt.

Gasoline or kerosene had been poured upon a pile of wood for a bonfire. The wood had stood in the sun all day and a great quantity of gas was generated after the liquid had been applied. When a city fireman touched a match to the pile there was a terrific explosion which shot fire into the air. In the city hall, scattered blazing orders in all directions and knocking down those standing near.

FIRES SWEEPING WISCONSIN

LA CROSSE, Wis., May 5 (AP)—Dozens of bluff, forest and field fires, started during an exceedingly long dry spell, unprecedented at this time of year, are sweeping over thousands of acres of land in western Wisconsin. The most serious fires are those in the timberland near Millston.

IDAHO WEATHER.

Washington, May 5 (AP)—Weather outlook for western Montana containing Monrovia Northern Rocky Mountain and plateau regions: Generally fair; temperature near or slightly below normal.

THE ONLY PERSON WE KNOW OF WHO COULD END IT IN ONE ROUND

GERMANS PLAN TO CARRY CASE TO HIGH COURT

Krupp Works Directors, if Convicted by Court Martial, Will Appeal to French Tribunal, Counsel Announces

WERDEN, May 5, (AP)—The German directors of the Krupp works plan to carry the case to the highest court of appeal in France if they are convicted by the present court martial, it was announced today by their Swiss attorney, M. Morand, chief counsel for the defense. The appeal, he said, would be based on international law and would raise the question of the legality of the French commander's order, which the Germans are charged with violating.

The appeal also would contend that the French have no right in the Ruhr and will plead, as in the present trial, that the directors are not criminally responsible for the acts of the Krupp workmen. The defendants apparently are hopeful that they will have a better chance on appeal, should the court martial find them guilty, than did the Thyssen group, whose conviction at Mayence was quickly confirmed by the high court of Cassation.

Shows Workmen's Attitude

The court martial's progress on the second day of the trial indicated that the case would continue until Wednesday, without holding of a Sunday session. The prosecution tried to bring out the menacing attitude of the workmen prior to the firing by the French soldiers. Witnesses testified that one group had revolvers, and another sticks and hammer handles. Some of the workmen testified that many in the crowds were excited because they believed the French would requisition the trucks used for the purpose of bringing them from their homes a considerable distance away.

The prosecution was pleased at the admission of a Krupp official that the workmen had asked him for authority to blow the sirens, which, however, was already sounding. The president of the court pointed out that officials must have had control of the sirens, or the workmen would not have asked permission.

American Falls Contract—In Words of One Syllable

Digest of Proposed Agreement Between Big District and Government is Prepared by Committee

The voluminous proposed contract between the United States government and the American Falls reservoir district, which must be voted on May 12, has been put into understandable form for the layman by the directors of the district and given out for publication.

A copy has been turned over to the general committee on information for the south side tract and the committee announces it will mail a copy to every property owner on the tract whose address can be procured. The present mailing list, it is stated, includes about 2000 names of farmers.

The abstract of the proposed contract, as furnished by the district directors, divested of legal phraseology, is as follows:

To the Electors of the American Falls reservoir district:

For your information concerning the contract to be authorized at the coming election on May 12, your directors make the following statement:

First, for the building of a reservoir with a minimum capacity of 90,000 acre feet. The contract provides for the purchase of 280,000 acre feet, with an option to increase the amount up to 300,000 acre feet, of which the south side will take 100,000 acre feet; the balance going to the remainder of the district.

The contract provides that each project will receive the amount of stored water assessed to the lands of that project and each land owner of each project will receive the amount of stored water assessed to his land. The district is to pay such part of the cost of the reservoir as the total amount of water contracted for by the district is of the total cost of the reservoir.

The south side project and other projects that have heretofore had contracts with the government for building American Falls reservoir will receive credit for payments heretofore made, which, in the case of the south side, is \$10,000, and out of the proceeds from the sale of the bonds a cash payment will be made to the government of an amount fixed by the secretary of the interior.

Reservoir Control. The remainder required for the reservoir will be invested in United States government bonds, which will be deposited with the government and which are to be sold from time to time as funds are required for the work. The

reservoir will be built and operated by the United States government, and in this respect the provisions of the contract are similar to those now governing the operation of Jackson Lake. The district will be liable for its pro rata share of the annual operation, maintenance and expense of the reservoir. Those provisions of the contract relating to exchange of Jackson Lake storage for American Falls storage pertain only to that portion of the district lying above American Falls and do not relate to either the south side or the north side reserved rights in Jackson Lake.

Debate Provision.

The contract provides that in case of future enlargement of the American Falls reservoir the parties participating in such enlargement shall not secure storage at any lower price or on any more favorable terms than the district; and if the enlargement should cost less per acre foot, then a sufficient rebate will be given the district to reduce its cost to the average cost of the enlarged reservoir.

The government, for its Minidoka extension project, in addition to paying for its pro rata share of the storage in the reservoir, will pay an additional charge for the reasonable value of the privilege of developing power at the American Falls, for which power privilege credit will be given the district and other parties contributing to the construction of the reservoir.

The foregoing are the general provisions of the contract.

Jackson Lake Rights.

In view of the fact that the contract as originally discussed contained certain other provisions, it is well to state that the present contract does not involve in any way the present storage rights in Jackson Lake, now belonging to the project within the district.

It does not involve the assuming of any obligations for the benefit of any other canal company or district participating in the construction of the reservoir, and under the recent act of the legislature, the district was authorized to contract with the several canal companies within the district for the delivery and distribution of the water to each land owner, and is prohibited from over taking over or acquiring or operating the canals.

No Payment for Five Years.

The interest on the bonds will be funded for five years so that no person will have anything to pay during this period. For the next five years interest only will be payable and which on

the south side will not exceed 30c per acre per annum. For the next ten years a portion of the bonds will mature each year beginning with 5 per cent the first year and increasing 1 per cent annually thereafter, unless refunded in the manner provided by law, so that ten years will elapse before any serious payments will be called for in any event, and it is to be expected that during this time the agricultural condition of southern Idaho will have been so largely improved that the retirement of the bonds will not prove burdensome; but that if the electors of the district desire to do so, they can extend the time for beginning payment of bonds for an additional 20 years by issuing refunding bonds.

Reminiscences Shed No Light on Bugler for Light Brigade

Posthumous Publication of Survivor's Story Leaves the Mystery Still Veiled

LONDON, May 5, (AP)—One of the history's little mysteries, "who blew the trumpet signal for the charge of the Light Brigade at Balaklava?" appears to have been brought no nearer a solution by the publication of some of the reminiscences of W. H. Pennington, a survivor of the charge who died here last Tuesday at the age of 90.

The Irish newspapers on February 27 announced the death at Drogheda of Thomas Finlay, "who blew the charge on the trumpet for the Light Brigade at Balaklava." Only last week the Dublin press printed a notice of the passing of an old resident, John McNeill, an instrument maker, who claimed that he had made the trumpet on which Major Joy sounded the charge for the Light Brigade at Balaklava. Pennington often thrilled audiences at Balaklava day celebrations by sounding the "charge" call on a trumpet.

He did not contend that he had done so on that memorable day in the Crimea; on the contrary, says the Daily Chronicle, he asserted that when the "six hundred" went into the Valley of Death, they moved at a verbal

command, without the sound of a bugle.

"In the spite of accepted theories," Pennington used to say, "I maintain that no trumpet note was heard on that day."

After leaving the army Pennington attained distinction as an actor. He played at the Old Haymarket as far back as 1868 and was the favorite tragedian of Gladstone. Pennington retired many years ago and has been living in obscurity forgotten by the theatre world, until notice of his death was published.

Youthful Chivalry.

A second grade teacher asked her pupils what a coward was. One little boy raised his hand and said: "A coward is a boy who fights girls."

Gold Leaf.
The process of making gold leaf has been known since the Eighteenth century B. C. It is found in connection with the most ancient known mummies, having been used for covering teeth, tongue, skin, and so on. Sometimes it is found on the coffins. Gold leaf was also used on the tombs and monuments of ancient Egypt. In the Eleventh century it seems to have attained as high a degree of perfection as today.

Where Rover Scored.

On her return from a visit to grand-father's Bernice said: "They were all glad to see me, but Rover's tail was gladder of all."

The "Big Three" Automatic Vacuum Washer

We guarantee this machine to be the equal of any \$150 washer made and to wash your clothes—even to the most delicate silks and laces without wear or tear.

Absolutely Free Trial—One Washing With This Wonderful Machine

THE THREE REASONS

QUICKEST—Because the quick action of the agitator drives the hot soap suds through the soiled clothes so forcibly that the dirt responds at once—three to five minutes will remove the dirt from any clothing that soap and water will clean.

EASIEST—It runs easier than any other machine because it works on the vacuum principle and requires only power to handle the water—NOT THE CLOTHING. This means no wear whatever to the clothing, as no rubbing is necessary. Easy on the clothes. Easiest to operate.

CLEANEST—Because it takes the dirt all out instead of rubbing a part of it into the cloth, as the rubbing process machine, or the old washboard does.

GOVERNMENT TO CARRY DRY LAW BURDEN ALONE

Federal Prohibition Officials Prepare to Dry Up New York State Unaided if Governor Signs Repeal

NEW YORK, May 5 (AP)—Federal prohibition enforcement officials in New York, facing the necessity of drying up the state unaided if Governor Smith affixes the expected gubernatorial signature to the bill repealing Mulian-Ong state enforcement act, today began drafting plans for spreading their attenuated lines over the territory which has been largely covered for them by state and municipal forces.

Palmer Canfield, enforcement director for New York state, said he had about 300 men at his command to cover the entire state, including the Canadian border, now largely patrolled by federal runners by state police. He expected assistance from Washington for a great increase in his force, but he declared he expected the police to go on aiding in prohibition enforcement as far as they were able.

"While the repeal of the Mulian-Ong law is a serious blow to enforcement, because it will make it appear that New York is seceding from the United States, and because the less arduous, when they see a violation of the law, to make arrests and turn their prisoners over to the federal authorities," he declared.

At police headquarters, however, it was said that tentative plans already were being made to return to patrol duty nearly 100 men who have spent most of their time hunting violators of the state enforcement law.

Drys Predict Dire Events.

Just what effect the repeal would have on criminal and civil cases now pending although violation of the law had not been made clear tonight. Acting District Attorney Peora said his understanding was that the repeal was not retroactive, and that if this were found to be the case the district attorney's office would push through the completion all cases of violation up to the time when the repeal became effective by the governor's signature.

Meanwhile, professional drys were issuing statements sharply criticizing the repeal and predicting dire doings by bootleggers and persons crazed by moonshine whiskey.

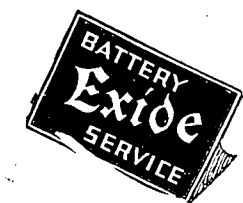

Orrville S. Poland, general counsel and legislative representative of the Anti-Saloon League, declared the legislature's action would leave New York city a prey to bootleggers, with less control of the same and consumption of liquor than it ever had known before in its history.

Why Chinese Noses Are Flat.

Among the many millions of China there is a practice which seems to have a curious result. The mother carries her infant in a kind of bag or mantle on her back, and not as in other countries where the dorsal carriage is affected, with face turned outward, but, as probably we ought to expect in China, where everything seems to go and come by rule of contraries, with the face turned inward.

"Don't worry," said Uncle Eben, "if you gits imposed on foh bet'n' kind-hearted. De chances are dat you fohs a heap an' contended in yoh own conscience dat de man dat did de meanness."—Washington Evening Star.

Brooklyn	8	11	2
Boston	4	9	2

Batteries—Grimes and Taylor; McNamee, Cooney and O'Neil.

Englishman's Afternoon Tea.

Writes an Englishwoman—"The Frenchman dines with his wife and his boy in living. The American thrills by doing something differently. The German expands under the influence of opera with him sandwiches. The English love of formalism makes tea a regular institution, and then proceeds about it, except its everyday existence. Now does this apply to any particular class? The cottage tea, with its big buff and its thick black liquor, is just as much of an institution as is the cathedral tea, with a delicate blend from China and thin bread and butter. There is the same warm and generous feeling about it and the pungent smell of its burning and the glow of its flames against the blue mist of the darkening afternoon."

If your property is desirable and is advertised in the classified—you'll find your buyer.

DETROIT LOSES TO WHITE SOX

Second Straight Defeat Puts Tigers Out of First Place; Yanks Win and Go to Top

CHICAGO, May 5 (AP)—Chicago made it two straight from Detroit today, 5 to 7, in a wild game. After Chicago had gotten up a big lead the pitchers blew up and the Tigers staged two rallies and came within one of tying the count. Cobb and his men fought fiercely for every point.

Score:	R.	H.	E.
Detroit	7	8	0
Chicago	5	12	2

Batteries—W. Collins, Johnson, Cole and Woodall; Leverette, T. Hunkel and Schalk.

RED SOX WIN LONG GAME.

WASHINGTON, May 5 (AP)—Four consecutive singles after two were out in the twelfth inning gave Boston three runs and broke up a pitchers' battle between Zachary and Ehmke, the Red Sox winning, 4 to 1.

Score:	R.	H.	E.
Boston	4	10	1
Washington	1	5	1

Batteries—Ehmke and Peirich; Zachary, Brillhart and Garrity.

INDIANS WALLUP BROWNS.

CLEVELAND, May 5 (AP)—Cleveland made 12 hits off Kolp and Pruet, which with five losses on balls and two errors by Kolp, gave the Indians a 10-to-2 victory over St. Louis in the second game of the series here today. Kenneth Williams made his seventh home run in the sixth inning.

Score:	R.	H.	E.
St. Louis	2	7	2
Cleveland	10	12	0

Batteries—Kolp, Pruet and Soyver; Hillings; Edwards and Myatt.

YANKS BEAT ATHLETICS.

NEW YORK, May 5 (AP)—The New York Americans evaded the series with Philadelphia today winning the second game, 7 to 2. The Yankees hit Heimlich hard in the first inning and continued to bunch hits during the rest of the game. Bush pitched well and was aided by splendid support.

Score:	R.	H.	E.
Philadelphia	2	8	1
New York	7	10	1

Batteries—Heimlich, Kinney and Perkins; Bush and Schang.

Mental Activity Varies.

In general people's mental activity varies from season to season in the same way as physical activity, but there is an interesting difference in one respect. In the latitude of New York, for example, people do the best brain work about the end of November or beginning of December, that is, a month or six weeks after their physical strength is greatest. In the spring, on the contrary, the best mental work is done in March, a month or two before the physical strength reaches the maximum. This means that people's minds are most stimulated in weather somewhat cooler than that which most stimulates their bodies.—From "Principles of Human Geography."

QUITS GIVING FREE RIDES

Mexico Pays \$2,500,000 in 12 Months to Carrying Workers Home From Border, Then Abandons Policy

EL PASO, Texas, May 5 (AP)—During the last 12 months it has cost the Mexican government \$2,500,000 to transport laborers back to their homes, who, flocked to the border to cross to the United States to get work and who were denied entry, according to information received at the local Mexican consulate. For this reason, the government will not pay any more laborers' fares. As many as 20,000 laborers all without funds and all denied entry because of immigration laws, chiefly the literacy test, have been in Juarez at one time. The government transported all of them back to the interior free.

FITZMAURICE'S FEAT.

The man who brought 'Ezra' to Hollywood! That is the title George Fitzmaurice has been awarded because of his feat in the production of Pola Negri's first American Paramount picture, 'Bella Donna,' which will be on view at the Idaho theater next Monday for four days.

As every reader of Robert Hichens'

novel knows much of the action of the story taken place in Egypt. In fact, it happens all over Egypt—in a Nile boat, beside the pyramids, in a villa at Luxor, Shepherd's hotel, the camp of an Egyptian millionaire, the streets and cafes of Cairo and the wastes of the desert.

"Currier Duane," who arrests death in a quagmire. At the Orpheum theater Monday and Tuesday.

It's the Unconscious One. "Choose your words well; it will come easier when you have to eat them," says an exchange. But, brother, well chosen words aren't the kind one has to eat.—Boston Evening Transcript.

Rising in the World. Placing studios on the roof of New York warehouses may be taken as evidence that industry is elevating art.—Boston Transcript.

Mudge Bellamy, endeared to the public by her splendid work in Thomas H. Ince's "Bill to the Woman," plays her such a part. Massive sets, unconvincingly staged pageants, red-difficult and picturesque costumes have been combined with the lavish hand of a producer who spares no expense to obtain desired effects. The royal baptism scene in Whitehall chapel of Westminster Abbey is said to be one of the most beautiful spectacles ever shown.

THE PERRINE CAFE

—But You Can't Ride on the Paint!

Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine.

But try to sell one and you will find out its real worth in a flash.

Same with automobiles. Weaknesses of construction in a closed car can be hidden, for a time, with paint and varnish and fancy fittings. But all is not quality that glitters.

You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation because it lacked real intrinsic value at the outset. Use will never improve a mediocre product.

The second hand floor is the melting pot for automobile values. Cars are stripped of artificial values and only inherent worth counts.

Motor car owners tell us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the lowest.

No wonder the Studebaker Light-Six Sedan is the fastest selling quality Sedan in the world!

The name Studebaker stands for quality, durability, comfort and integrity.

Four wide-opening doors. Eight-plush upholstery. Glare-proof day clock. Quick-action cow ventilator. Attractive coach lamps. Heater. Mohair velvet trans-mission lock.

Baseball Captains Pick Their Players

Personnel of Twilight League Teams is Worked Out at the Managers' Meeting

The managing committee of the Twin Falls twilight league, assisted by the managers of the different teams, at a meeting Saturday noon, picked the players for the four teams that will represent the Twilight League during the coming season.

Ray Brown, taking "Bill" Bailey's place as captain of the Legion team, started the ball rolling by drawing Ed Mussell of the high school team as catcher. Garrity, the chucker who held Caldwell to three scattered hits Saturday was picked for the pitcher for the ex-service lads. Ray Brown will give the notices a treat by playing first base. Jake Yonson will be stationed at second, with McMillan at short. Stanley Cron, high school third baseman, will guard the hot corner for Mr. Brown. Gene Ostrander, who will soon be back from Moscow where he is holding down one of the outer gardens will be seen in one of the fields for the Legion boys. Ernie Goswin and King will be the two who will start off the two base hits. Riles and Foreman will be the utility men.

Captain Harry Benoit of the Elks team has named for a catcher, Ray Hedin of the high school team for a twirler, Exeter at first, Bill Bailey at second, Jerry Jarman at short, Bruce Watson at third, and Gene Thomast, Whitney and Josten in the outfield. Morley and McCreckin will be the two utility men.

Electricians' Squad

The electricians have Jimmie Hulihan for a captain, which means that the juice absorbers will be in the fray at all times. Sammie drew Atkinson for a backstopper, and Laval Jarman of the high school team for a pitcher. "Slim" Hammond, Coach Evans' best bat at first base, will start out for the wile ones at the initial sack. Bob Whitzell, daddy of all local second basemen and manager of the Sunday team, will decorate second base for the Humbern. Bill Benfro eating up the hot ones that come around third base. Bill Helm, who admits his class as a ball player, John New, the best hitting outfielder of the high school team, and Ed Sigurdson will grace the outfield for the electricians. Charley Larson and "Sprout" Leichter will act as utility men.

The Bankers' team in charge of "Hoody" Linnville, who will do the catching, have "Lefly" Oliver as the chucker, with Honnell at first, Walter Miller as the high school pitcher, who will hold down that position for Linnville. "Sly" Kleffner, the fastest and snidest short stop in these parts, will be stationed at short, as soon as he can get out at the field, where he is holding down an infield position on the varsity team at the present time. Miller will be at third base, with Jarvis Walling and Jamison will be seen in the outfield. Dingle and Fix will be the utility men for the Bankers.

Few Changes Likely

Although there is a possible chance that some of the players will be switched to other teams to strengthen weak spots, it is doubtful whether there will be many changes as the teams on paper look like the fans are going to be treated to some high class games during the summer. There are many other players who have signed to play Twilight baseball who were not on the above list and tryouts will be given these players today at the old ball grounds.

The fence is rapidly reaching its way around the park, and another week will see the stands and fence finished. It was announced by G. K. Luat, chairman of the committee.

Barnstormers Take Game from Caldwell

Twin Falls Ball Team Divides Honors with Opponents in Two-Game Series

CALDWELL, May 5.—(Special to The News)—Showing a reversal of form, and playing the game of baseball as it should be played, the Twin Falls high school barnstormers finished their trip with a 3 to 0 victory over the Caldwell team here this morning.

"Moose" Garrity on the rubber for the Twin Falls team, allowed only three hits in but one inning was in danger, and that through the result of a trace of wildness when he passed two men in the third filling the bases with two men out.

Twin Falls scored two runs in the fourth inning when Jerry Jarman and Ed Mussell were granted bases through errors and "Slim" Hammond chased both Caldwell batters with a clean swing to the right field.

The last run of the game came in the sixth after Jerry Jarman was safe at first on an error, went to second on a sacrifice by Mussell, and scored on two battery errors.

Earwood, pitching for the home team, gave a wonderful exhibition, but errors spoiled his chances. The Twin Falls team will leave for home Sunday morning after having won two games, lost one and tied one during the four day trip. The defeat of the Camps team eliminates them from contending for the state title, and with Caldwell and Twin Falls breaking even on the two game series, a return series of three games will be played at Twin Falls starting May 16.

The figures:

Table with 2 columns: Team, Wins, Losses, Ties. Twin Falls: 3 4 1. Caldwell: 0 3 1.

DEMPEY GIBBONS BOUT IS DEFINITELY CLOSED

Fighters' Managers Reach Agreement on Articles for Match at Shelby after Three Days' Negotiations

CHICAGO, May 5.—The Jack Dempsey-Tom Gibbons championship heavyweight fight to be held in Shelby, Mont., on July 4, was closed today. After three days of negotiating, the managers signed late today that Jack Kearns, manager of the heavyweight champion, received \$100,000 in cash as the first installment of the \$300,000 guaranteed Dempsey.

NAVY WINS REGATTA

PRINCETON, N. J., May 5.—The United States naval academy's powerful victory today over Princeton and Harvard in the triangular regatta over a course of one and three-quarters miles on Lake Carnegie. Navy's time was 10:13.

Island Houses Many Holy Men. On the sacred island of Fu-tu, China, live more than 1,000 monks.

Twin Falls Athletes Qualify for Finals

Come Through Caldwell Eliminations with Two Firsts and Two Second Awards

CALDWELL, May 5.—(Special to The News)—Sending four athletes to Caldwell for the eliminations in the track meet held here today, and qualifying all four men for the state meet at Moscow is the record turned in by the Twin Falls high school boys who took two firsts and two seconds.

David Alvord, star sprinter of the southern Idaho school, took an easy first in the 200 yard low hurdles, his running time being 27.3. He failed, however, to qualify in the running broad jump, due to the fact that this event followed the hurdles, and he had not fully recovered from his efforts in the stick jumping event.

Laried Jenkins, star weight man of the same school, took first in the shot put with a put well over 30 feet. Jenkins took third in both the javelin and discus throwing.

Bier, the long distance man of the Twin Falls team, won the right to go to Moscow by coming in second in the quarter mile which was won by Stone of Rupert. The time for this event was 50.4.

Frank Powers, high hurdler, took second in the event, Mitchell of Parma winning first over the 120 yard course. Quinter who was looked upon as the likely winner of this event came in third.

Bald's one representative to the meet, Ringert, took first in the high jump, clearing the bar at 5 feet 7 inches.

Blunkhorn, Wendell's pole vaulter, took second in this event with Charles of Caldwell, first with a vault of 10 feet 2 inches.

SEVEN OUT OF FIFTEEN OF 1922 RECORDS LOWERED

BOISE, May 5.—Boise high school took first place by a one point margin in the annual southern Idaho interscholastic track and field meet at Caldwell today. Boise's total an- nexed 32 points. Rupert was second with 31 and Twin Falls third with 19. Cleaver of Caldwell shattered the state's mile run in 4:15 1/2, the old record was 4:17 2/3. Long of Rupert, tied the state record for 50 yard dash in 5:02. Fast times and good distance records were made in all events, seven of the fifteen records of last year's southern Idaho meet being bested.

Rupert's stellar 50 yard man, Long, was high point man with a total pointage of 18 3/4.

The summary of points follows: Boise 32; Rupert 31; Twin Falls 19; Jerome 16; Caldwell 12; Parma 8; Dahl 5; Parette and Wendell 5 each; Camps 2; Birchfield, Filer and Pocatello one each; Burley, Hagerman and Shoshone nothing. Blackfoot, Downey and Idaho Falls high schools were not represented.

Had the Wrong Ellen.

It was out in the country, where about ten farmers are on one party telephone line. By means of varied rings one can telephone to any one of the others without calling central. One day I called up my friend, Ellen, and asked her to go to the dance with me. I imagine our mutual surprise, when, on arriving at the house, she had not heard of the dance. In my haste when calling I had confused the rings and had been talking to another Ellen on the same line.—Exchange.

Billiard Tournament Leaders Well Matched

Breaks of Game Soon Likely to Determine Outcome of Opening Round Between Bailey and Mattison

Bill Bailey and Frank Mattison will play the opening game of the double elimination three cushion billiard tournament which starts Monday evening at Macaulay's billiard parlor.

The second game of the evening will be between "Noisy" Goldwater and "Sad Sam" Kayler.

In the opening contest, it looks as though the breaks will have considerable to do with the outcome as both players can't see a possible chance to lose. True, both contestants have been known to lose a game now and then, but it is so seldom that one wonders whether they do it in order that their opponents will come back for more.

Bailey has been succeeding faithfully the last week and reports that he is in prime condition for the trying ordeal that is ahead of him on Monday evening's game.

Very little is known of Goldwater's playing although it has been said that he is shooting better now than he has in the last decade. Kayler is considered by many to be the dark horse of the tournament, as he, like his opponent, has but very little to say concerning his chances outside of the fact that he can't see how he can lose.

The first game of the evening will start at 7:30, the second following immediately after. There will be plenty of seats for all fans interested in the game that is played on the green cloth with the pawnbrokers' emblem.

COMPETITIVE SHOOTING ALLURING TO TRAP MEN

Twin Falls Shooters, Preparing for State Tourney, Will Crack Blue Rocks Against Boise Team

Trapshooters will wander out to the Twin Falls Gun club grounds this morning in an effort to win another trophy in the telegraphic shoot with Boise. At present the score stands three won for Boise, two for Twin Falls, and one tie.

In order that Twin Falls wins the shoot with the capital city gun artists, it must win the next two shoots.

and as some one once said, in numbers there is strength, it is hoped that every member of the club turns out today to help take the big town men into camp.

With the two traps sunk into the ground, and the new club house ready for occupancy the grounds take on the looks of a meeting place that any gun club in the country might well be proud of.

Notices have been sent out for the state shoot which will be held here May 27, 28 and 29, and present indications point to one of the biggest shooting festivals ever pulled off in the state. Twenty-five members of the local club have already signified their willingness to enter (and with Boise sending down 15 men, and Welles, Fayette, Parma and in fact, all the towns in the west end of the state sending down from 12 to 15 men there will be close to 70 men shooting with the possibility that the number may reach the 100 mark before the opening date.

Boise is sending down in their three squads, no less than five shooters who have held the state title, which means that the Twin Falls contingent will have to step right along to keep in the money. Those of the shooters who do not care to enter into the money prizes will be allowed to shoot at targets just the same, during the three day shoot.

The shooting today will start at 10 o'clock and both traps will be in service, which means that there will be no waiting.

Bald Eagle's Favorite Nesting Site. The bald eagle, emblem of the republic, chooses a tall pine tree, near water, for his favorite nesting place.

DEFENDS FARM CROPS REPORT

Secretary Wallace Brands Charges of Attempt to Interfere with Economic Law

WASHINGTON, May 5 (AP)—Intimations that the department of agriculture is in any manner attempting to interfere with the normal functioning of the law of supply and demand are without justification, Secretary Wallace said today in a letter to J. S. Wannamaker, president of the American Cotton association. He charged Mr. Wannamaker with having circulated "gross mis-statements" and unwarranted intimations in connection with the recent report of the department on farmers' intentions to plant.

Mr. Wallace's letter was in reply to a telegram sent by Mr. Wannamaker to president Harding, and declared that "if you had made inquiry of me before sending out your circular letter of April 11 addressed to a member of a state board of agriculture, copies of which, I understand, you have sent to secretaries of agriculture, of commerce, governors and others, you would have been in a position to avoid certain gross mis-statements."

"In your telegram to the president," the letter said, "you say that there is a nation-wide discontent and antagonism being voiced by American farmers, etc., etc., to what appears to be government policy in attempting to deplete market values of staple farm crops. The government has no such policy, and so far as I know, you are the only man who has suggested that it did have."

Explaining that the special report on intentions to plant was prepared in the same secret manner as all other government crop reports, the secretary said that after it was made public copies were given to the special committee on agricultural outlook and that statements that this committee had anything whatsoever to do with the report prior to its release, or had any part in making it, are "utterly without foundation."

The Telephone Talks.
Monologue in the Northwestern Bell and a telephone. While I am not broke, I am in the hands of a receiver. I have a mouthpiece, but, unlike a woman, I never use it. Fellows use me to make dates with girls and girls use me to break said dates. Husbands call up their wives over me and wives call down their husbands. I never get to call anywhere, but sometimes the company comes and takes me out. I am the Bell of the town, and, while I do not get jewelry, I often get rings.—Boston Evening Transcript.

A Concealed Statue.
There is in the Crystal palace, near London, an equestrian statue 30 feet high. In 1859 it was decided to be too heavy to move, and the present grand orchestra was built up around it. Of the millions that frequent the palace, few have any suspicion of the statue's existence.—Scientific American.

No Fairy Tales For These Kiddies

MacFadden Children, etc.

Left to right, we have Hyraeus, Beulah, Branda and Beverly MacFadden, children of Mr. and Mrs. Bernard MacFadden, the former being the "father of physical culture" and multi-millionaire publisher. Mr. MacFadden has challenged Supreme Court Justice John Ford, of New York City, who inspired the so-called "clean books" bill in the New York legislature, to a duel. He has eliminated fairy stories in the education of his four beautiful children and lets them read anything which reflects life.

Grandmother Dies From Shock Caused by News of Death

EUGENE, Ore., May 5 (AP)—Mrs. Martha Ellen Churchill, grandmother of 12-year-old Shelby Courtney of Cottage Grove, who was killed yesterday when the wheel of an automobile passed over his body, died at her home at Cottage Grove today from the shocks of the news of the boy's death.

Amber in United States.
The world's greatest source of amber is the shores of the Baltic sea. Amber is the fossilized resin of several species of pine trees. In small quantities it has been found in various parts of the globe, including the United States, but up to within a comparatively recent period no American deposit of amber extensive enough to be of commercial value has been discovered. Not so long ago, however, amber was found at Cape Sable, on the Magdaly river, in Maryland, and this arouses the hope that it may yet be discovered in paying quantities in this country. The deposit at Cape Sable has been known since 1821, but only lately has a careful investigation of it been made. The fossil tree trunks in which bits of amber are embedded are not, like those of the Baltic region, but are believed by the discoverer to be specimens of the sequoia.—Washington Star.

Made New Use of Bronze Vault.
The bronze vault of the portico of the Pantheon in Rome was removed by Urban VIII in 1626 to be used in casting the balustrade, or sacred canopy of Saint Peter's church.

INSTRUCTIONS GIVEN TO MEXICAN COMMISSIONERS

Secretary Hughes Delivers Final Word to Agents in Negotiations to Speed Up Restoration of Friendship

WASHINGTON, May 5, (AP)—Negotiations between representatives of the Washington and Oregon governments to speed up restoration of friendly relations will be formally opened in Mexico City on May 14, it was learned today after the two American commissioners had received final instructions from Secretary Hughes.

Charles B. Warren and John Barton Payne, selected to represent the United States, will be accompanied upon their departure tomorrow night for the Mexican capital by Matthew Haney, chief of the Mexican affairs bureau of the state department. They are to arrive in Mexico City May 11. Mr. Haana, however, probably will return to Washington within a week as after the conference begins and will be at the service of Secretary Hughes, acting in an advisory capacity on Mexican affairs during the discussions in Mexico City.

Prior to his call at the state department today, Mr. Warren conferred with President Harding. He planned to see the president again tomorrow. Today's conference with Secretary Hughes concluded a series of meetings between him and the two commissioners at which all existing differences between the United States and Mexico were thoroughly discussed and full information for instructions relating to the question of recognition prepared for use in the negotiations.

First Bible Published in America.
The first English Bible to be published in America was at Philadelphia in 1782 by Robert Aitken.

"MOTHERS' DAY"

A Proclamation by the Governor.
No fonder of deeper recollections can be cherished than those of that mother who directed and protected us in infancy, who was a constant solace and refuge in youth, and whose gentle ministrations and loving tenderness are the greatest blessings of our manhood and womanhood.

We can do little toward removing the debt of gratitude we owe our mothers and can never fully repay them for their faithful efforts and loving care. Realizing the inadequacy of any material recognition, the only act which seems at all appropriate is to set apart a day when we may recall the memories of our childhood and our youth, whose joys and sorrows, trials and tribulations, revolved about our greatest influence—Mother!

Now, therefore, in conformity with an act of the legislature providing for the second Sunday of May as "Mothers' Day," I, C. C. Moore, Governor of the State of Idaho, do hereby designate and set apart

SUNDAY, MAY 13, 1923, AS MOTHERS' DAY

in the State of Idaho. Upon that day I recommend and request that the people of this state, the churches and the various fraternal organizations interest themselves in an appropriate observance of the occasion, by paying a tribute of memory to the patient, devoted mothers departing from our midst, and bestowing honor and reverence upon those still with us.

In Testimony Whereof, I have hereunto set my hand and caused to be affixed the Great Seal of the State of Idaho, this 1st day of May A. D. 1923.
(Signed) C. C. MOORE, (Seal) Governor of Idaho. Attest: (Signed) F. A. Jeter, Secretary of State.

TIRES WITH 500 NAIL HOLES LEAK NO AIR

Mr. K. E. Millburn of Chicago has invented a new puncture-proof inner tube, which, in actual test, was punctured 500 times without the loss of any air. Increases your mileage from 10,000 to 12,000 miles without removing this wonderful tube from the wheel, and the beauty of it all is that this new puncture-proof tube costs no more than the ordinary tube, and makes riding a real pleasure. You can write Mr. K. E. Millburn at 350 West 47th st., Chicago, as he wants them introduced everywhere. Wonderful opportunity for agents. If interested write him today.—adv.

TWIN FALLS
313-315 Main West—Phone 707

Would You Clean A Soiled Handkerchief with a Whisk Broom?

HARDLY! And yet in hundreds of homes in Twin Falls are carpets and rugs that have never been cleaned. They have been swept and vacuumed, yes, but never **WASHED!** Never really cleaned.

Danger Lurks in Dirty Carpets

The broom and vacuum cleaner leave in the fibres of the rug a vast residue of dirt, mud, dust, grease, street-trackings and germs. They leave stains and spots untouched and do not brighten colors. And the fine particles of dust, if not removed, do harm to the fibres and fabric of your expensive floor-coverings.

Let the IMPERIAL remove these dangers by making your rugs clean and sanitary with its HAMILTON-BEACH carpet washer. You'll be delighted with the renewed appearance of your rugs, and the price for this service is reasonable.

Just phone 4-9-1 and our representative will call and give you estimates.

THE MARACAOBO OIL

Four American oil companies and five British have opened negotiations with the Venezuelan government, asking permission to dredge a channel for seagoing tankers from the Gulf of Maracaibo to the Caribbean to Lake Maracaibo.

The oil fields of the Maracaibo basin hold the reason. Prospectors and engineers believe that the petroleum deposits of western Venezuela will stand comparison even with those of Mexico, and the companies are willing to gamble millions on the chances of profit from cheaper transportation.

The sand bars between Lake Maracaibo and the Gulf, due to mountain streams which reach sea level just at the Strait between, close the channels to vessels with a draft of more than 12 feet, and the big tank steamers in which the world's oil moves require nearly twice as much.

FEWER HORSES

Periodically some one comes forward to announce that the horse is coming back, or to urge the advantage of bringing it back to its former prominence.

No one wishes Dobbin any bad luck, but this gradual reduction in numbers is nothing alarming. The horse has served man faithfully and well for many years, and no doubt will continue to do so for many years to come.

There remain today certain specialized jobs for which the horse is ably fitted. There are also horseback riding and the sport of kings to uphold the horse's right to existence.

Sam Searlett, agitator for the Industrial Workers of the World and just out of Leavenworth prison, bought himself a first-class passage on the Cameronia when deported overseas.

Big Demand for "Tin Fall." Five thousand tons of tin are consumed in this country annually for "tin foil," which is now employed extensively for wrapping cigarettes, cigars and many other articles of merchandise.

Babson Warns Investor to Investigate First

Statistician Says \$500,000-000 Lost Every Year on Bad Securities; Eight Out of Ten New Firms Fail

WELLESLEY HILLS, Mass., May 5.—(Special to The News)—"Eighty out of every hundred new concerns are doomed to failure," Babson says, according to a statement issued today by Roger W. Babson who has just returned from a tour of inspection.

"Everywhere I go," says Mr. Babson, "I am asked to look over their lists of investments and it is usually depressing business. I do not know why men who are keen in business, who are hard to earn and save, will turn their savings over to a comparative stranger or invest them in a stock or bond that they know little or nothing about—nor why men of means will invest in a comparative stranger or invest them in a stock or bond that they know little or nothing about."

Get-rich-quick, take a chance.—Columnists of the type who argue the typical fly-by-night stock promoter appeals to the cupidity of the average man who does not stop to reason as he would if he were doing anything but investing his money.

Don't play favorites. Diversify your list of holdings as broadly as possible. Spread your securities over many lines of industry and as many different sections of the country as possible.

and now he was grim. Madeline all but lost power to resist his strange, deadly, cold, deadly. No doubt he knew he was doomed. Yet something halted her—held her even as she took a backward step.

"Stewart, look at me," she asked. He shuddered. He was abject, crushed. He dared not show his swollen, blackened face. His fierce, cramped posture revealed more than his features might have shown; it betrayed the torturing shame of a man of pride and passion, a man who had been confronted in his degradation by the woman he had dared to enshrine in his heart.

"Listen to them," went on Madeline, another voice was unsteady. "Listen to me, Stewart. You can shake off this desperate mood and be a man."

"No. It's too late, I tell you." "Stewart, the best thing in life is faith in human nature. I have faith in you. I believe you are worth it."

"I believe that, I might try," he said. "Listen," she began, softly, hurriedly. "My word is not lightly given. Let it prove my faith in you. Look at me now and say you will come."

He heaved up his big frame as if trying to cast off a giant's burden, and then slowly he turned toward her. His face was a blotched and terrible thing. The physical brutalizing marks were there, and at that instant all that remained human to Madeline was

the haunting, ungod, Turn-of-the-eye of a beautiful light. "Will come," he whispered, huskily. "Give me a few days to straighten up, then I'll come."

BENEFIT OF GOOD POSTURE

Does Away With Useless Expenditure of Energy and Favors Best Working of Bodily Organs.

Good posture is that posture of the body which best helps man to do his work day in and day out with no useless expenditure of energy, but with the best advantage to the action of the heart and lungs and all the rest of the organs of the body.

Good posture must first favor the good working of the bodily organs, and it must do this at the least expense in effort, which, it must be remembered, costs a certain amount of organic fuel to maintain.

Rose Chosen as State Flower. New York school children chose the rose for their state flower; Georgia the Cherokee rose; Iowa the wild rose, and North Dakota the wild prairie rose, the last three states by legislative action.

"When the subject is Speed—"

ACTIONS speak louder than words—especially the action I get out of Conoco Gasoline.

"Out in the open country the other day—humming along a fine stretch of road—a fellow just ahead seemed to be in the way. We were coming to a long, up-grade but the road was clear and I couldn't resist the temptation to lean a bit on the accelerator."

"Talk about action! Right by him like a breeze—no effort, no trouble—just let trusty Conoco show him the way. He'll probably get wise some day—and figure out the gasoline question from the standpoint of performance."

"He'll learn what real satisfaction is when he gets a tank-full of Conoco—lively, high-powered, long-mileage gasoline—always uniform and dependable, wherever and whenever you see the CONOCO sign."
