Intermediate Rate Association at Salt-Lake Meeting-Takes Up Investigation of Long and Short Haul

SALT LAKE, May 21 (AP)—The Intermediate Rate Association meeting here today, endorsed the resolution sponsored by United States Senator F. R. Gooding, and passed by the United States senate, calling on the interstate commerce commission for an accounting of its stewardship of the law relating to freedom of the long and short haul rates on freight shipments.

The association decided to take an active part in assisting the interstate commerce commission making a thorough investigation, under the resolution, which asks the commission to inform the senate of the number of applications for exceptions of the law already have been made and how many more will have to be made.

The law in question also is known as the fourth section rule. In connection with its efforts to aid the commission in its probe, the association, it was said, will urge that hearing be held in Chicago, Portland, San Francisco, Washington and various other cities, at which representatives of commercial organizations and jobbers' association, which have urged exceptions of the law, will be requested to testify. It was said the testimony will be established the motives for the exceptions, if any.

Among Conferees. Among those attending the sessions today were: W. S. McCarthy, Salt Lake; P. R. Gooding, United States senator of Idaho; Sherman Coffin of Boise; Mervyn C. Collier of Baker; C. E. S. McFarren of Idaho Falls; C. H. Barr of Salt Lake; L. Wilson of Boise; W. W. Driekoff of Salt Lake; George B. Craft of Boise; Leonard Way of Boise; A. J. Hildwell of Odele; Will H. Gibson of Boise; J. J. Shaffer of Reno; W. H. Simms of Reno; Amos Betts of Pocatello; W. E. Menahan Baker; C. O. Borzani of Spokane; O. P. Gardington of Milwaukie; Riley Atkeson of Baker; C. T. Tansland of Salt Lake; Thomas E. McKay of Salt Lake, and Warren Stouner of Salt Lake.

Storm Causes Heavy Property Loss to Oklahoma Town; Wire Communication Down; No Loss of Life

SHAWNEE, Okla., May 21 (AP)—According to unconfirmed reports reaching here, Tescuche, the county seat of Pottawatomie county, was badly damaged at a cyclone which struck the town last night. The Tescuche high school was totally demolished, the report said, and many business houses were razed by the winds. Wire communication with the town was cut off. No loss of life was reported.

Berger Condoles Germany on Her Ill Fortunes in War

Socialist Leader Tells Hamburg Audience All Belligerents are Equally Guilty

HAMBURG, May 21 (AP)—Hugo outdoor demonstrations today, addressed by more than 40 German and foreign socialist leaders, marked the beginning of the international socialist congress. Among the speakers were Victor Berger, former member of the United States congress, who said he conveyed the greetings of "more than a million socialists and opponents of war." Mr. Berger branded the treaty of Versailles as an act of violence, and declared the United States had no occasion to enter the war.

"America, by virtue of her superior currency," he said, "could, if she possessed the heart and understanding of the United States, have done by the war, Germany is not solely blameable for the war, the guilt for which should be equally assessed upon all belligerents. Germany, like the United States, was hurled into the war and was also deceived by Wilson."

FASCIsts COME IN FOR WRATH OF SOCIALISTS

New York Convention Adopts Resolutions Condemning the Move that Made Mussolini Prime Minister of Italy

NEW YORK, May 21 (AP)—The national convention of the socialist party adopted resolutions today condemning the Italian fascists, approving the plan for the formation of a new international program being worked out by the American Federation of Labor and the Trades Union Educational League and expressing a hope that the international conference now in session at Hamburg would result in the formation of a great international organization comprising socialists.

The resolution was in the nature of a compromise reached after the convention had rebelled on Saturday at forwarding an instruction to Moscow, based on cooperating with the American, the United States delegates, regarding their attitude toward militant delegates to the Hamburg conference.

WAR CLOUD LOWERS AT LAUSANNE

Greece Announces Readiness to Resume Hostilities with Turkey Rather Than Give In on Reparations Issue

LAUSANNE, May 21 (AP)—Greece is prepared to accept the offer of British and Turkish negotiators to settle the question of the indemnity she claims is due from Greece, M. Alexander, Greek foreign minister, declared to the foreign correspondents here today. Unless Turkey changes her attitude in the reparations demands, the Greek delegates to the near east conference will be withdrawn this week, he added.

The Turks have given no indication of an intention to recede from their reparations demands and M. Alexander's declaration that Greece was ready to accept the offer of British negotiators brought increased pessimism in conference circles.

The Greek foreign minister asserted that he had not come to Lausanne in a conciliatory mood and added that the Greek army had been reorganized since the overthrow of Constantine and was now well equipped and able to take care of itself.

BRITAIN WAITS NAMING OF NEW PRIME MINISTER

LONDON, May 21 (AP)—The king will arrive in London this afternoon morning, according to The Times' information. His prompt return suggests, The Times thinks, that the king already has decided when to invite to sing the national anthem at the ceremony of formal invitation immediately. In an editorial, apparently based on special information, The Times virtually rules out the duke of Devonshire, and contends that the choice necessarily lies between Lord Curzon and Stanley Baldwin, either of whom it believes would be willing to serve under the other.

Ontario, Oregon, Man and Wife Revolve Severe Injuries as Result of Collision on Crossing

BOISE, May 21 (AP)—Mrs. Elfa Ennis, male and her husband, P. H. Ennis, rancher and former stage driver of Ontario, Oregon, is in a critical condition at the Holy Rosary hospital here as a result of injuries received in a collision with a freight train at Washoe station, midway between Payette and Boise, this afternoon.

BANDIT STILL AT LARGE

Police and Citizens Seeking Leo Rogers, Blayer of Officer; Spend Day in Fruitless Searches

NORTH BAY, Ont., May 21 (AP)—Provincial police and citizens participated in a series of will of the wish hunt for Leo Rogers, desperado, who killed a constable in a motor car last week after first holding the police at bay with a cardboard pistol. Promising clues developed thick and fast, but they were all run down, only to find that Rogers was not there. The most promising lead came in the afternoon when he was reported to have been seen in a motor car on the outskirts of town. An hour's search failed to reveal him.

CONVICTS MAKE ESCAPE

MONTREAL, May 21 (AP)—Frantically paddling a canoe across the turbulent waters of the river Des Prairies, while bullets splattered around, William McDonald and John Clark, convicts, escaped from El. Vincent De Paul penitentiary last night in a motor launch, but the long start enabled them to escape on the Montreal north shore.

Fate of Bandits' Captives Is Delivered into Hands of Foreign Diplomats in China

United States and Other Affected Powers Coincide in View that Problem Must Be Decided on Ground

WASHINGTON, May 21 (AP)—Possibilities reports were received today from Americans in China as to the probability of successful negotiations between the Chinese government and bandit leaders for the release of American and other foreign captives held in brigades. As a result concern was felt in government circles, but the state department was not swayed from the conviction that the bandits intend to deal with the situation was through the Peking diplomatic council.

Considers Captives' Welfare

It was made plain that the Washington government is relying on its representatives on the ground and the most hopeful course to pursue. The position is taken here that any other course might be fraught with extreme danger to the captives.

PRESBYTERIANS PUT MORE WORK ON COMMITTEE

Reorganization Scheme Eliminates 12 Out of 16 Existing Agencies of Denomination; Negroes Win Point

INDIANAPOLIS, May 21 (AP)—Reorganization of the boards and agencies of the Presbyterians of the United States of America was completed today with the elimination of 12 of the 16 existing bodies.

Hereafter the work of the church will be conducted in four main divisions: the board of foreign missions, board of national missions, board of Christian education, and the board of ministerial relief.

As a result of the elimination of 12 committees next year's assembly will be shortened from eight days to seven; standing committees will be reduced from 18 to 22; and the number of the committees will be raised from 40 to 72. Negro members of the church won a victory, in principle, when the assembly voted on Monday to declare that racial groups should be given representation on the four boards as soon as possible and as far as it may be deemed expedient.

The declaration, permissive rather than mandatory, will permit addition of Japanese, Indians, or any other racial groups, as well as negroes, if the church so desires.

Bryan to Take Floor

The organization of the general council created by last year's assembly at Des Moines, Iowa, was deferred today pending a report from the bills and resolutions committee, which is expected to offer an amendment to the present council plan, making the moderator chairman of the council.

The assembly voted today to hold an election Thursday to fill a vacancy on the board of trustees of the general assembly.

Report of the department of church cooperation and union, providing for the carrying on of a movement toward union of the seven principal Presbyterian churches, was accepted. Other action taken today included creation of a committee to conduct the campaign for a \$15,000,000 addition to the endowment fund of the board of ministerial relief and support.

President of the National Board of Directors and Distributors of America, is slated for the chairmanship of the division which will conduct the campaign expected to be the center of interest of tomorrow's sessions.

Liberalism in for Attack

In the morning the committee on bills and resolutions is expected to present its report on the overture attacking the doctrine preached by Rev. Harry Emerson Fosdick in the pulpit of the First Presbyterian church of New York. Mr. Fosdick, as a leader of the fundamentalists, who insist on a literal interpretation of the Bible, and particularly the doctrine of the virgin birth of Christ, is looked to lead the demand for a clear-cut denunciation of liberalism and rationalism in the pulpit.

The committee on temperance and general welfare is also scheduled to report. Mr. Bryan has been ready for presentation from the floor. A resolution asking that every minister, church officer, church member and the presidents, faculties and students of the 57 Presbyterian schools, colleges and seminaries, sign a pledge of total abstinence from the use of intoxicating liquor for leverage purposes. It offered the resolution at a session on Monday.

Gold Marks From Germany TO BE CREDITED TO BELGIUM

NEW YORK, May 21 (AP)—The shipment of 60,000,000 gold marks to the United States by Germany, reported recently in cable dispatches from Berlin, will be deposited in this country for the account of the Bank of Belgium, it was reported in financial circles today.

According to these reports, the gold marks, valued at about \$15,000,000, will be forwarded in two shipments, the first reaching America on the *Robiane*, May 25, and the balance on the steamer *Montevideo*, on May 28.

Bankers suggested as a reason for this action that the Bank of Belgium desired to use the gold, and directed its shipment here to avoid the provision against the gold imports of Belgium.

DAY QUILTS POST ON CLAIMS BODY

Harding Names Commissioner Parker to Fill Vacancy on German War Claims Agency.

WASHINGTON, May 21 (AP)—Partial reorganization of the war-claims commission, constituted to adjudicate war claims totaling \$1,175,000,000 of the United States government and American citizens against Germany, was carried today by the resignation of Senator Justice Day of the supreme court, as umpire of the commission.

Judge Edwin B. Parker of Texas, American member of the commission, was appointed immediately by President Harding to succeed Mr. Day as umpire, leaving the post of American commissioner temporarily vacant.

The resignation of Day, who told the president he wished to be relieved of his duties because he believed a younger and stronger man should serve as umpire, came as the commission was beginning to consider the 12th claim filed. The commissioners representing the United States and Germany, respectively, Judge Parker and Dr. Will John Kesselbach, already had begun hearings on the Lusitania claims. These had been presented last week by Robert Morris, American agent, and Maximal Morgan, counsel for the commission in charge of the Lusitania claims. Their re-argument after the appointment of the new American commissioner probably will be necessary, as the duties of Judge Parker as umpire will require him to function only in settling disputes between the American and German commissioners.

Comes as Surprise

Mr. Day's retirement from the commission was a surprise, his selection as umpire had met with widespread approval because of his past experience in mixed claims commission work and his reputation in long public service as former secretary of state and the supreme court bench. Germany asked the United States to appoint the commission's umpire and expressly approved the selection of Justice Day. It was announced at the state department today, in connection with the appointment of Judge Parker as umpire that the government was glad to approve his selection.

Little delay in disposal of the American claims, officials said, will result from the commission's present change. President Harding is expected to appoint a new American commissioner promptly and in the meantime the American agent, Mr. Morris, and were seen today to serve from one to fourteen years in San Quentin prison after their conviction on charges of criminal syndicalism. One of their counsel, T. P. Allen, was sent to 24 hours in jail for contempt of court.

Investigators Despair of Solving Mount Case

Disappearance of Northwestern University Freshman Following Class Fight Likely to be Unexplained

CHICAGO, May 21 (AP)—Disappearance a year and a half ago of Leighton Mount, Northwestern university freshman, after a class fight, seemed destined today to be relegated to the class of unsolved mysteries unless the authorities obtain more information than they have at present.

The investigation was classed as a secondary importance even by the state attorney's office, where a week ago all day was turned and 90 per cent of the state's attorney's staff were helping with investigation, only two assistants were working on the case today. They admitted they had nothing new to offer regarding Mount's disappearance or the skeleton found three weeks ago under an Evanston pier and believed by the authorities to be Mount's.

The grand jury that started an investigation was still in session today, but devoted no time to the case and apparently there was a further evidence in the possession of the state's attorney to be brought before it.

Charles N. ("Doc") Palmer, star athlete at Northwestern, who was held in custody for a day last week when he formed a man, friend, charged he knew about Mount's disappearance, was exonerated of all suspicion.

His attorney demanded an apology from assistant state's attorney for taking him into custody, but it was refused, the state's counsel declaring Palmer had been placed under suspicion and that the state's attorney's office had no apologies to make to anyone in connection with the case.

SWEDISH FIRM PAYS HIGH FOR RUSSIAN CONCESSION

Agrees to Construct and Operate Plant 40 Years Under Supervision and then Turn It Over to Soviet.

STOCKHOLM, May 21 (AP)—The first important industrial concession by the soviet republic has just been granted to a Swedish ball bearing company. As a precedent and test case this agreement is arousing widespread interest in other European countries looking toward the Russian market.

The concession is for a term of 40 years and enables the Swedish company to carry on its activity partly under control of the Russian government. The Swedish factor in Russia, which had been nationalized by the soviet, is temporarily returned to the original owners, now the concessionaire, who, however, must pay 200,000 rubles for the property and the stocks. This company agrees to spend its own funds in improving the factory so that the capacity by 1925 will be 50,000 ball bearings a year. The concessionaire further agrees to pay the soviet a certain annual royalty on its gross income.

The Swedish company agrees to guarantee all previous claims against the soviet, to obey the existing Russian law, and to accept Russian government supervision of the manufacturing activity. It is provided that any disputes which may arise shall be settled by an arbitration committee.

At the end of 40 years all the company's factories in Russia are to be turned over in full working capacity to the soviet without remuneration.

COAL STORAGE PROBLEM PUT UP TO ENGINEERS

Society Calls in Public Officials, Educators and Technical Experts in Effort to Avert Famine.

NEW YORK, May 19 (AP)—Appointment of a committee of public officials, educators and technical experts to undertake a solution of the storage angle of the coal problem was announced today by the Federated American Engineering societies. W. L. Abbott of Chicago is head of the committee.

While the United States coal commission, the department of commerce and the bureau of mines are investigating other phases of the coal industry, with a view to eliminating recurrent winter famines, the engineering societies group will be principally concerned with the possibilities of storage, the cost and prospects of financing new storage equipment at vital points throughout the country, the effect of storage on the heat value of coal, methods of eliminating the danger of spontaneous combustion, and the possibilities of using stored coal as collateral.

CHRISTENSEN PREDICTS BIG FARMER-LABOR VOTE

Salt Lake's Presidential Candidate, on Tour in Australia Says Third Party Will Out Figure in 1924.

SYDNEY, N. S. W., May 21 (AP)—The farmer-labor party, which came into being during the American presidential campaign of 1920, is expected to take an active part in the 1924 elections, according to Parley P. Christensen, the party presidential nominee in 1920, who is here on a world tour.

He said that voters in the United States since 1920 "showed how the wind is blowing and, when 1924 comes along, you watch our smoke."

Judge Christensen left the United States in May, 1921, and since then has traveled extensively in England, France, Germany, Ireland, Italy, Russia, China, Japan, Egypt, the Balkans, Japan, China, Siberia and the Philippines. He intends to tour Australia, Tasmania, New Zealand, South America, Central America and Mexico before returning to the United States.

He said that his visit to Russia had left him convinced that that country should be allowed to take her place in the world again.

BONAR LAW'S CONDITION SHROUDED IN SECRECY

Ill Health of British Premier Causes Friends Grave Concern; Returns to London Exhausted.

LONDON, May 19 (AP)—Great secrecy is being maintained regarding Prime Minister Bonar Law's condition, which is causing his friends grave concern. The premier, who recently left for an unannounced voyage of one month for his health, looked tired and worn out when he reached London this afternoon from Paris, and was compelled to rest because of his exhausted condition when he reached the private house where he is staying. Sir Thomas Harder, the noted specialist, was called upon the minister's arrival and remained with him a long time.

It was remarked that the premier was so fatigued when he alighted from his train that he failed to respond to the cheers of the crowd that had gathered to receive him.

At Sir Thomas Harder's residence it was said that no information in regard to the premier's health will be given for the present. But it is learned that absolute rest and freedom from political strain have been ordered and that during the next few days Mr. Bonar Law will be unable to meet his cabinet members.

Twin Falls Wins From Kimberly; Hansen From Eden and Shoshone From Jerome in Initial Games of Season

Table with columns: Team, Won, Lost, Pct. Rows include Twin Falls, Hansen, Shoshone, Kimberly, Eden, Jerome.

Bob Whitzel and his Twin Falls baseball team won their first game of the Southern Idaho Baseball League season Sunday afternoon at Kimberly...

The game was close throughout, with both teams putting on a ball worthy of mid-season form. Five errors were chalked against the Kimberly team...

Ed Mussel, erstwhile catcher on the high school team, opened the season for the Twin Falls team, featured the contest, knocking out three hits in four trips to the plate...

Lefty Oliver, the dean of local chucklers, took the mound for the Whitzel clan, and for six innings held the hard hitting Kimberly team to less than one run...

Nig Lemp, Kimberly's best bat, did fairly good work, allowing 10 hits, and driving 12 runs to the field...

Twin Falls scored the first run of the game in the second inning with the aid of a hit. With one man out, Mussel was granted a life when Bauer smothered his roller, and then threw wild to first, Mussel going to second...

One more was added in the sixth when Mussel sent a clean single to center, his second of the day. He stole second and went to third on a passed ball. Hullman was granted free transportation to the second base...

Fix took the mound in the seventh, and they agreed to have a clean hit to right. Fix threw wild in an effort to get Riley off first, and the Kimberly second baseman moved up to second. James popped to Webster...

Twin Falls added two more in their half of the seventh. After Jarman had whiffed, Fix beat out an infield hit to third base. Whitzel walked, Mussel sent a clean single to right...

Kimberly, desperate to the last inch, sent another around in the eighth, this being the only earned made by them. With two men out, Minton sent a long double to left center, and scored on Riley's hit to right.

The ninth brought the Kimberly to (Continued on Page Four)

Twin Falls Wins Shoot with Boise

Telegraphic Series Ends With Victory for Magic City Clay Bird Breakers

Twin Falls trapshooters won the telegraphic shoot from the Boise clay bird artists when they took the rifle or shoot of the tourney Sunday morning, 115 to 136.

This ends the weekly shoots with the Boise club, and once more Twin Falls has demonstrated that the "Magic City" must be reckoned with in all branches of sport.

Three shooters turned in perfect scores Sunday, Bailey, Ed Patrick and Ernie White. Lester Wright turned in a score of 24, while Leonard Smith and McFarland registered 23 each.

Boise failed to turn in a perfect score, although Keefe made 24 of the birds drop. Stroeter and Woodruff finished the circle at the tune of 23 each. Graham, Seefeld and Brown broke 22, giving the capital city a total of 136.

The smallest crowd of the season was in attendance Sunday, weather being too pleasant to keep anyone at one place for another.

Lester Wright led the field with 116 out of 125, while Ed Patrick turned in a score of 90 out of 100.

The opening of the state tournament will take place next Sunday at 9:30 in the morning, and will end Tuesday afternoon. Shooters from every section will be in attendance, and great things have been promised by the officers of the Twin Falls club.

Boise expects to send three squads to the state tournament, and Shannon of Salt Lake is also expected to enter in the different events.

Three traps will be in operation during the state meet, and everyone is invited to attend.

The results of Sunday's shooting:

Whooping Cough. This is a very dangerous disease, particularly to children under five years of age, but when no paragonic, codine or other opiate is given, is easily cured by giving the standard Cough Remedy.

Most people believe that it must run its course, not knowing that the time is very much shortened, and that there is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, with pronounced success. It is safe and pleasant to take.

OFFICIALS ARE INVITED TO GETTYSBURG OBSERVANCE

Grand Army Post on Battlefield Arranges Celebration of Sixtieth Anniversary of Last Conflict of War

GETTYSBURG, Pa., May 19 (AP)—Vice President Coolidge, Secretary of State Charles E. Hughes, Secretary of War Weeks and United States Senator George Wharton Pepper of Pennsylvania, have been invited by members of the Grand Army Post, Grand Army of the Republic, of Gettysburg, to join them in celebrating the sixtieth anniversary of the battle of Gettysburg here on July 3, the last day of the conflict between the armies of the north and south.

There are less than a score of Civil War veterans carrying on the work of the post and they confess the task of sponsoring an elaborate observance of this anniversary "is larger than they care to undertake." They express the belief, however, that this will be the last important occasion on which veterans of this section will be able to present, and declare their intention not to permit it to go unnoticed. Patriotic and commercial organizations are expected to be present, and the veterans in arranging the celebration.

EPWORTH LEAGUE PLAY GIVEN FINAL SHOWING

Audience at Bull Approves Presentation of "Dacon Dubs"; Was Shown Throughout County

The Epworth league of Twin Falls made its final presentation of "Dacon Dubs," a three-act comedy drama, to a good sized and appreciative audience at Bull on Friday evening.

The play was first presented to a Huller audience on April 12. The Kimberly Epworth league acted in a presentation at Kimberly for the joint benefit of the two leagues on April 17. Two days later the play was given at the Lavington theater in Twin Falls, and Friday night's presentation at Bull, closing of this very successful and enjoyable series of entertainments.

As a result of their efforts in this regard the various leagues have added considerable amount of cash to their treasuries. The Twin Falls league, following the Twin Falls showing, was enabled to pay off a pledge of \$100 to the closing of this very successful and enjoyable series of entertainments.

THOUSANDS VISIT PARK

SALT LAKE, May 21 (AP)—Last year more than 100,000 persons visited Yellowstone national park, according to H. M. Albright, park superintendent, a recent visitor here. This year Superintendent Albright expects the number to be increased by 25,000. Half of the tourists to the park come by automobile and about half by train, he said.

What Co-operation Has Done

Little more than half a century ago, Gustavus F. Swift borrowed \$20 from his father and started in the packing business.

Hard work on his part and on the part of the associates whom he presently gathered about him caused the business to grow.

When first incorporated, Swift & Company had six shareholders. The nation was growing and needed meat, and the young company grew also. As more money was needed the business was enlarged by enlisting the co-operation of more shareholders.

The first little plant at Barnstable, Mass., has given way to 23 modern packing plants strategically located. More than 400 branch houses and 600 car routes distribute the meat carried in more than 6,000 refrigerator cars.

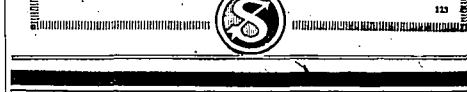

Today Swift & Company's service in meat to retailers here and abroad represents the effort of nearly 100,000 people co-operating with their savings or daily toil.

More than 45,000 men and women have co-operated with us by investing their money in shares of Swift & Company.

Nearly 50,000 men and women who work in these offices, plants and branch houses—16,000 of whom also are shareholders—are giving us their co-operation in building the business. They take a just pride in the promptness and precision of its service and in the uniformity and high quality of its products. Swift's Premium Hams and Bacon, "Silverleaf" Brand Pure Lard, Premium Frankfurts and other Swift products are symbols of their hearty co-operation and of their belief in the Company.

SNOW SLIDE KILLS FOUR. (Workmen Clearing Colorado Seismic Railway Line are Caught Under Avalanche at 'Top of the World')

DENVER, May 21. (AP)—A gigantic avalanche sweeping down the mountainside at terrific rate of speed struck the workmen at tunnel number 32 on the Denver and Salt Lake road between Corona and Dixie Lake, Colorado today killing four members of a working party and marring two others. The dead: Thomas J. Thom, Pete Stankoff, Alfred Anderson, John P. Stewart, John Thompson, foreman of the party, and William P. Pierce were injured. The men were working on top of the shed clearing it of snow. The slide started high on the mountainside and cascaded the men before they could escape. Relief parties were sent from Tabor and Denver. All the bodies had been recovered. The avalanche occurred in a spot where the slide occurred is well known to tourists. It is midway between Corona, known as "top of the world" because of its altitude of 11,500 feet, and Dixie Lake, whose altitude is 10,680 feet. The spot is almost a land of perpetual snow. This is a season of the year when workmen are kept busy removing the snow from sheds so that travel over the top of the divide can be on.

BECOMES REINDER QUEEN. ANCHORAGE, Alaska, May 21. (AP)—When Miss Ruth Best accepted a position as teacher of a school on the Upper Kuskokwim river, 300 miles west of the Alaska railroad, she found the job a lawsome one. To break the tedium she bought a pair of reindeer to draw her about the country. By the time she had mastered the animals she knew quite a bit about reindeer. Then she began making a collection, selecting only special types of fine animals. Today she is known as the "Reindeer Queen" and her big herd is thriving in the vicinity of Mount McKinley. What began as a fad has become a big industry, and what became a big industry has in turn become a valuable outlet for the mountaineer's business. Last month the reindeer were made to play a part in a film made by the Alaska Moving Picture corporation, a local organization. Miss Best consented to break into the movies in her natural role as sovereign of the herd.

POKES HAVE CAT MOTHER. GREAT FALLS, Mont., May 21. (AP)—Three tiny, silver-black foxes opened their eyes recently at a fox farm near here, and found that for nine days they had been nursed not by their own mother, but by two other cats. The real mother of the three tiny animals whose pellets are expected to be removed from one here and one here, was not only able and willing to provide them with all the nourishment they needed, but she insisted on using it in a den she had dug outside the shelter provided for her. To escape any risk of losing his three baby foxes the caretaker at the farm has raised them on two mother cats who were raising families on the communitarian plan in a barrel. Kittens were black; so were the foxes, except for a touch of silver at the tips of their tails, and mother cats accepted them. What is more, the three tiny-old foxes, even with their eyes open, accepted the mother cats.

TO ENCOURAGE BETTER HOMES FOR AMERICANS

Two Sides of Ten-Dollar Bill Text for Labor Secretary's Endorsement of Nation-wide Campaign.

WASHINGTON, D. C., May 21.—There are two sides to a ten dollar bill. One side is the front that goes to earn it; the other is the back and intelligence which go to the spending of it. One side is the man's contribution, the other side is the woman's. The whole question of wages is affected by the homemaker's ability to get value for her money.

In such manner Secretary of Labor Davis sets forth the significance of the Better Homes in America campaign to be conducted during the week of June 4 to 10. Secretary Davis is a member of the National Council for Better Homes in America. Other members are Vice President Coolidge, Secretaries Hoover and Wallace and T. G. Winter, president of the General Federation of Women's Clubs.

Woman's Campaign.

"The campaign is a woman's campaign," says Secretary Davis. "They are taking stock of themselves to see how they fill their side of the bill; they are taking an inventory of home values to determine an outline."

"The best American wage earners know that the pay check at the end of the week belongs to the family. They know also that a forty-five dollar a week wage does not do as much in some families as a thirty-five dollar a week wage does in others."

"The demonstration houses prepared for Better Homes week in June are concrete educational means of emphasizing the importance of homemaking and the increasing necessity of thorough study of its technique. In the homes in this nation, it is on the basis of the better patriotism."

"There is nothing better we can do than make a thorough workmanlike study of the things that make for a better home, with its architects, interior decorators, students, musicians, educators and spiritual advisors joining in a definition of home."

"The Better Homes campaign began last year in comparatively small way. The result of the first effort is shown in the preparations this year of many communities to have demonstration homes during the campaign week in June, according to those interested in the movement. Many of these have been started by chambers of commerce, others by groups of women or women's clubs."

Supplement Demonstrations

Besides fitting out the demonstration homes for public view, the movement includes arrangement of lectures, musical, movie and radio programs, essay and poster contests in schools, and other means to draw attention to the home. Many thousands of dollars in prizes will be given locally and nationally in connection with the campaign. An interesting side issue is the preparation of an ideal list of books and musical selections for the home."

In Washington the national headquarters of the General Federation of Women's Clubs announced the construction of a replica of the Long Island home of John Howard Payne that inspired him to write "Home Sweet Home." This house will follow every line of the original, but it will be built of the best standard modern materials. It is within a short distance of the White House. Ultimately it will be moved to a permanent location where it will be maintained as a better homes demonstration."

PROJECT WILL BE FILMED

Irrigation League to Use Motion Pictures in Campaign to Popularize the Columbia Basin Undertaking

SPOKANE, May 21 (AP)—Two thousand feet of film will be "shot" in the Columbia basin project and scenic features incidental to the project, following the decision of the irrigation league recently to use this method to bring the project before the people of the United States.

A cameraman is on his way from Washington with a member of the reclamation bureau staff to take the pictures. The league is paying all expenses and will receive a copy of the film and a special rate on additional copies that may be desired.

The federal bureau will add the film to its circulating library which is being continually drawn upon by clubs and societies in all parts of the country.

It is also hoped to interest some of the news weeklies in showing portions of the film in their budgets at picture houses. The scenes will show federal officers and league directors on the project.

prime minister. It is understood he would retain the foreign secretaryship, so that practically no change in the constitution of the cabinet would be needed. If Mr. Baldwin is appointed he could hardly claim the chancellorship of the exchequer, for the demands upon the time and energies of the chancellor would preclude his holding of a double office. Thus the appointment of Mr. Baldwin probably would necessitate a general ministerial shuffle.

DIRECTORS SET DATE TO RELEASE STORAGE WATER

Preliminary Allowment for Salmon District Fixed at One Acre Foot; Will Be Followed by Runoff Flow

The board of directors of the Salmon river canal company at a special meeting in the chamber of commerce room Monday night made the preliminary water allotment for the district of one acre foot per acre, water to be released.

The amount is the usual minimum allotment and will be followed later by other allotments as the runoff occurs. Runoff water coming in daily and the main flow generally occurs in May and June, according to G. M. Hall, chairman of the board.

"Storage water is rising at the rate of three-tenths to four-tenths a day, which means an increase of about 500 acre feet and we look for the water to continue on account of heavy drifts of snow melting in the mountains," said Mr. Hall. "The recent rains have kept the crops in the Salmon district growing nicely."

The next regular meeting of the board will be held at Hollister on June 5.

DISCUSS EXECUTIVE AT SCOUT COUNCIL MEETING

Employment of District Official is Topic of Sunday Conference; Pre-paring for Summer Outing Plans

Maintenance of a Boy Scout executive for the Twin Falls, Bull, Burley and Rupert districts was discussed at the meeting of the Scout council Sunday afternoon. The Rotary club of the four districts will assist in raising the finances for the support of the executive, the cost being estimated at \$2400 a year.

In preparation for the summer outing, Dr. W. E. Passer, Boy Scout commissioner, will deliver a series of lectures to the Scouts at the probate court rooms beginning Monday night. The Scout cabin will be opened about June 15 this year, the trip of E. V. Brown being the first scheduled to make the trip.

Maxon Exeter's troop is arranging plans for meeting expenses of a trip through Yellowstone park this summer. The trip will cover about 8000 miles. The members of the Twentieth Century club were given a vote of thanks for the work they did in connection with the recent Boy Scout week.

BANKING PLAN STRIKES SNAG

Opposition Develops to Extension of Reserve Bank Activities to Foreign Countries

WASHINGTON, May 21 (AP)—The federal reserve board's advisory committee at its regular quarterly meeting Tuesday, distracted subjects of credit and general economic conditions for a discussion whether federal reserve banking activities should be extended to foreign lands. Indications were that the session was devoid of conclusions and that the discussion would continue tomorrow.

Applications of the Boston and Atlanta reserve banks for permission to place agencies in Havana, Cuba, pending for some time before the reserve board, have opened up the broader question as to whether the precedent that would be established by favorable action on either application would be proper. It was made clear that the council members were not concerned with a mere controversy and that their discussion dealt entirely with the subject in the abstract sense.

The state department already has given its approval to the project of establishing an agency in Cuba, indicating its belief that such an extension might aid in bringing closer relations between the two countries. It is second, however, that some of the council members feared that a precedent would be established in granting an application for a Cuban agency that could not be applied to branch banking in other foreign countries if application is made by federal reserve banks for the privilege.

Most of the council members, as bankers themselves, were reported as opposing the policy because they believed it would constitute extension of government competition to private banks and would curtail the reserve bank's business, the end of which could not now be foreseen.

IDAHO STUDENTS TO GIVE TO GYMNASIUM MEMORIAL

University Student Body Lobbies Assessment of \$10 for each Member to Honor Veterans of Two Wars

UNIVERSITY OF IDAHO, Moscow, May 21 (AP)—The students of Idaho state at a special meeting of the student association gave their whole-hearted approval to the proposal of the university alumni to build a new gymnasium as a memorial to the university students who served in the Spanish-American and world wars. They voted to pay \$10 each as a start toward a building fund which will be gathered by the alumni and friends of the institution for the new gymnasium.

The plans of the alumni were presented by Dr. J. H. Eubank of Moscow, president of the alumni association, who said that the alumni had long considered the need for a new gymnasium but that only in the last two years had the need been crystallized to such a degree that immediate action was necessary. He said that the committee appointed at a preliminary meeting of local alumni, called to consider in a general way the gymnasium proposition, would in all probability make a favorable report at the annual alumni gathering during commencement week in June. If the alumni approve and decide to enter it on the work of collecting additional funds will be continued without delay.

Each alumnus of the institution will, according to plans proposed by Dr. Eubank, be requested to make a gift of \$10 toward the gymnasium fund. Talbot L. Jennings of Nampa, who will be student body president next year, told of the need of some memorial to the university students serving in America's wars. E. L. Mathews, head of the athletic department, said that he would probably make a favorable report at the annual alumni gathering during commencement week in June. If the alumni approve and decide to enter it on the work of collecting additional funds will be continued without delay.

SHERIFF DIES OF WOUNDS

Murder Charges are Lodged Against Auto Theft Suspects Who Shot Pursuing Official

ALBANY, Ore., (AP)—Will J. Dunlap, Lincoln county sheriff, died here today of a bullet wound received yesterday in a running fight through the city's streets with two men sought as automobile thieves.

A charge of murder in the first degree was filed immediately after the sheriff's death against George Parkers, one of the two.

Threats of lynching caused the authorities to remove Parker and his companion, Art Breckley, from the hospital where they had been confined for treatment, to the county jail. Dunlap formerly was a football star at Oregon Agricultural college.

THE DANGER PASSES

A month ago the rush of the business revival led many keen observers to fear that another period of inflation had begun and that the industrial and commercial activity in which the whole nation was rejoicing would be of short duration.

The building situation holds the key. When business began to come back there was a rush to build, for the nation's housing shortage had become acute since the war and most cities reported a lack of office and factory space as well as homes and apartments.

People were making more money than in many months. Manufacturers were busy and unemployment had ceased to be a problem. But the public, wiser it may be than builders, material dealers or building trade workers, sensed the danger.

Now treasury department officials state that the likelihood of an increased, red-hot rate is remote indeed, and that business and financial conditions have seldom been more sound.

When, as a nation, we learn to think Mr. Burgess strikes properly, the waves in our business charts will rise, and break, less sharply.

But we must not expect too much of human nature. It is not a matter of if, but when, we will see a return to the normal state.

In an article in the New York World, Clarence Sheridan paints a fascinating picture of a village she saw outside of Evesham, built for workmen. It was a village of beautiful cottages with beautiful yards and gardens.

"Then it's the idea of a little shooting at those Grangers?" "No." "You're stuck to think of a little Granger blood staining the halls of your home?"

"Well, then, why keep me from doing what I know is best?" "Stewart, I—I—" she faltered, in growing agitation, "I'm frightened—confused. All this is too much for me. I'm not a coward. If you have to fight you'll see I'm not a coward."

burning out stumps effectively... A good method of clearing land of stumps is to burn them out with the aid

of saltpeter. Saltpeter, if so applied as to penetrate into the heart of a stump properly, will in a year's time reach down to the very center of the stump.

When the stumps are thoroughly dry, drill a 1/2-in. hole, about 8 or 4 in. deep, in the center of the stump, as indicated. Into this hole put 3 tablespoonsful of saltpeter; then close the hole with decayed wood and dirt.

During the following summer, dig out the stump. The hole will burn slowly but surely, and will keep on burning under the ground until every piece of rot is consumed.

The action of the saltpeter makes a slow-burning match of the fibers of the stump, and carries the fire wherever it has penetrated. This method eliminates the possibility of roots being left in the ground to catch on plowshares.

"Oh, isn't it just perfectly lovely!" she exclaimed. "But I wish it wouldn't storm. We'll all get wet."

Once more Stewart faced the ascent, keeping to the slow pace of the ridge as it rose upward in a series of long, sloping spurs of rock.

Stewart waited for Madeline under the lee of a shelving cliff, where the cowboys had halted the pack-train. Madeline was sensitive to the flashes of lightning that played in the sky.

A blue-white, knotted rope of lightning burned down out of the clouds, and instantly a thunder-clap crashed, sending to the stuns the foundations of the storm.

As black night began to envelop her surroundings, she marked that the fire was a glow of light from the forest.

Suddenly a pinpoint of light pierced the cloudy darkness. It grew larger. Black tree-trunks crossed her line of vision. The light was a fire. She heard a cowboy song and the wild chorus of a pack of coyotes.

WATERWORKS IS MADE TOPIC OF COMMISSIONERS

Methods Seeking More Efficiency of Operation and Greater Revenue, Talked; Zoning Plan is Discussed

Twin Falls city commissioners, at their regular meeting Monday night, devoted most of their attention to the city water works department, discussing the subject from the standpoint of bringing about greater efficiency and increasing the operation and revenue of the department.

The discussion was informal and was indulged in as a means of preparing for action at the next meeting. The installation of water meters to be used by all water users in the city was advanced by Commissioner of Finance, J. S. Kael as the most satisfactory system by which to collect water rents. This venture will cost probably \$15,000, according to Mr. Kael, who favored the issuance of short term notes or bonds, if necessary, to pay for the installation.

Delinquencies Run High.

J. S. All, commissioner of streets and water works, produced lists of water users delinquent in their payments, the total reaching well over \$2000. The city may be forced to enforce the rule of shutting off water as soon as water charges become due in order to reduce the loss from delinquencies. Mr. All stated that he believed a number of water users in the city are all on the city's books.

The matter of dividing the city into zones, limiting the locations available to business concerns of all kinds was brought to the attention of the commissioners by Mr. Kael for their consideration. Mr. Kael pointed out that Twin Falls is a growing city where the establishment of a zoning plan is imperative. Among other things the lack of such a plan makes possible the establishment of businesses of a different nature profitably anywhere in the city providing only that buildings are erected to meet the city ordinances on safety and various specifications. Mr. Kael stated that he has already taken the matter up with the government to receive the best plan of zoning.

Playgrounds Considered.

The establishment of city playgrounds was also discussed informally, no action being taken on account of lack of funds for the purpose.

The matter of issuing bonds for funding outstanding warrants or for other purposes was disposed of by a resolution authorizing City Clerk, J. E. Moore to inform lending houses that it is not the purpose of the commission to issue funding bonds at this time.

Mrs. E. Browne appeared before the council in connection with her application for a license to operate the Cambridge rooms. Mrs. Browne named several references and was granted a license. In referring to her experience here after leaving her former residence at Mountain Home, Mrs. Browne stated that shortly after the former commission had refused her a license to operate the Leman rooms that she had been assured by J. E. Roberts, former commissioner of police, that she would be given a license should she want to change the Twin Falls rooms which he had listed for sale. She stated that Mr. Roberts' proposition to her was that she might win \$500 on the purchase price and that he would handle the insurance on the property for her.

The employment of a traffic officer to assist in regular police work was regarded as necessary, and on motion the matter was left to the decision of Chief of Police Herriman and Commissioner of Police W. T. Lisle.

Petition Out of District.

A petition was received from residents on Lois and Alexander streets in South Park addition, requesting that city streets be paved with concrete and sprinkling district. Action was postponed on the application for a permit to erect sheds in front of the Waring building on Fourth street.

In response to a letter from Mayor Sherman of Boise, the commission voted to participate in the rate valuation hearing on the Idaho Power company's property before the public utility commission, the amount of the city's financial contribution to be governed according to its population as compared to that of other cities interested.

W. H. Dwight, commissioner of parks was authorized to lend the city park to the Twin Falls Rod and Gun club for the use of the club during the state tournament.

The city voted to pay the expense of fighting the tourist park this summer. The park is being maintained by the roads bureau of the chamber of commerce. An application was received from E. E. Dunning to succeed F. W. Mackay as motor reader and timekeeper in the water works department.

The commission members discussed the changing of the no-80sg night to Tuesday, the change being referred to City Attorney A. J. Myers. The commission will meet Tuesday night for the consideration of special business.

CHAMBER BUREAU SEEKS PRIZE SLOGAN FOR CITY

Want Catchy Phrase Best Describing Twin Falls County; Will Be Used to Advertise Community

The sum of \$5 awaits the person who originates an advertising slogan that best describes Twin Falls.

The contest was opened Monday, is being conducted by the advertising bureau of the chamber of commerce and is open not only to Twin Falls folks but to those of any other community who appreciate the worth of this district and can tell it in a few words.

"Twin Falls has always been known as the 'Magic City' of the west," said Clarence N. Beatty, chairman of the advertising bureau. "We want an original phrase to add to this title which will give recognition to three factors: the railroad south, the American Falls reservoir project and the Contact copper mining district."

"The most striking phrase of the fewest words covering these three things will win the prize. The privilege of using the phrase in any manner whatever by the chamber of commerce is to be granted with the submitted with each and every entry in the contest."

"The chamber of commerce will soon have another order of several thousand of our descriptive letter heads which are sent out by the secretary to industry in every part of the county and the appearance of a slogan on these will be of special benefit."

Slogans may be submitted to the secretary of the chamber of commerce.
