French Premier Tells Senate Commission Berlin Evades First Requirement; Ruhr Operations Satisfactory

PARIS, June 8 (AP)—Premier Poincare absolutely rejected the German reparations proposals tonight in his first official expression since the receipt of the note from Berlin, where he appeared before the senate commission on foreign affairs and finally refused to answer a long questionnaire on the operations in the Ruhr.

ITALY FAVORS INDEMNITY CUT

Mussolini Says Germany Can and Ought to Pay, but Not Huge Sums Talked in 1918

ROME, June 8 (AP)—Germany "can and ought to pay a precise sum as reparations which should be universally acknowledged," and which should be quite a different sum than the several hundred billion gold marks spoken of following the signing of the armistice," according to Premier Mussolini in an address to the senate today.

The premier added that Italy held to her previous belief that reparations and inter-allied debts were indefinitely connected. The greatest necessity of today, he said, was general political action of a nature which would serve to bring back to normal as rapidly as possible the situation on the European continent. He outlined Italy's stand on European problems as follows:

Against Territorial Change

"Germany can and ought to pay a precise sum as reparations which should be universally acknowledged and which should be quite a different sum than the several hundred billions of marks spoken of following the signing of the armistice, and a sum which Italy will not tolerate modifications or overtures of the territorial order, being able to carry out her scheme of a military, economic and political hegemony."

"Italy is disposed to carry out her share of the sacrifices which economic reconstruction of Europe."

"The Italian government maintains today more than ever before, as regards the last German note, that the problems of reparations and inter-allied debts are intimately connected, and in a fashion interdependent."

Ruhr Situation Complicated

"There is no doubt," he continued, "that the occupation of the Ruhr has made the reparations crisis extremely delicate. It is necessary to avoid the serious points of the Italian, British and German attitudes in order to have a tableau of the situation, so that it may be clear where the different projects coincide and where they diverge. This is necessary in order to lay the ground for a possible agreement. If this were done it would make clear why Italy, at Paris, was not able to accept the project of Andrew Bonar Law."

Fewer Trucks in Italy

Railway transportation in Italy was so bad after the armistice that the use of motortrucks increased rapidly. A large number were sold from Italian war stocks to private firms, and the manufacture of new vehicles practically stopped.

The railway situation has recently so improved that the use of motortrucks is being discontinued, as the result of the high cost of gasoline and the fact that railway transportation is cheaper. It is estimated by a large tire manufacturer that the number of passenger cars in use at the present time totals about 40,000, while the number of trucks is less than 35,000.

Papers of Historic Importance

Parnell papers that must have been lying in the room occupied by Irish nationalists for over thirty years have just been discovered. When the room occupied by the Irish nationalists in the house of commons for so many years was handed over recently to the national liberals, a quantity of Mr. Parnell's own papers were discovered which had been lying there since the days when their owner led the Irish nationalists. The papers have been taken charge of by the clerk of the works. Mr. Parnell died 31 years ago.

Alleged Monarchist Plot Found

Duke of Orleans

Trouble in Paris has followed the discovery of an alleged monarchist plot to overthrow the French republic. Following outrages perpetrated in the French capital by a secret organization known as "Soldiers of the King," M. Monray, minister of the interior, announced in the chamber of deputies that proofs were in hand of the activities of a royalist organization, spread throughout France, directed against the life of the republic. The royalists, it was stated, have planned to place Louis Philippe Robert, Duke of Orleans and pretender to the French crown, upon the throne, yielded in 1871 by Napoleon III, with the title of Philip VIII. The Duke is a member of the Bourbon family and is in exile in Belgium.

MANY WILL SEE IDAHO PAGEANT

Indications Point to Record-Breaking Attendance at University Presentation

UNIVERSITY OF IDAHO, Moscow, June 8.—Reports from all towns within the state to indicate that a record breaking attendance will be present for the performance of the Idaho history pageant, "The Light on the Mountains," Saturday night, June 9.

Lewisville people estimate that attendance from Lewisville will total at least 500. A delegation from the Moscow Chamber of Commerce, together with a group of university students, met with the Lewisville Chamber of Commerce at its weekly luncheon to advertise the production, and a study was made of the route on the return trip.

Patchak has taken a block of 100 reserved seats, an order by telephone. The sale of reserved seats progressed rapidly and plans are under way for provision for additional seating capacity. It is announced that reserved seats may be obtained on and order to the Hodgins drug store in Moscow. Judge William E. Lee, associate justice of the state supreme court, who is a university alumnus and is in Moscow from Boise, reports that people throughout the southern part of the state are enthusiastic over the pageant and that a large number will attend many of their driving.

The granting of a fare and a half rate for the round trip by all rail roads is believed to have contributed materially to the prospect for a large attendance.

DEPUTIES ACQUITTED OF WOMAN AGITATOR'S DEATH

Jury Finds Former Mine Guards Not Guilty of Murder of Fanatic Bolins in 1919 Steel Strike

PITTSBURGH, June 8 (AP)—Deputies Sheriff's Edward Mannison and D. J. Riley, charged with the murder of Fanatic Bolins, organizer for the United Mine Workers of America, were found not guilty by a jury late today. Mrs. Bolins was shot and killed at Ducktown during the 1919 steel strike. The verdict of acquittal was reached after 50 minutes of deliberation.

Witnesses for the defense testified that the woman union leader was at the head of a charging mob of men armed with clubs and stones when she was killed. Mannison and Riley were guards of the Allegheny Steel company's coal mines where Mrs. Bolins was killed, at the time.

Potato Appropriately Honored

The lovely potato has at last been given just recognition. Poets may sing the praises of pomegranates and tropical fruits, but the potato now has a monument erected in its honor. The granite tablet, erected by farmers on a piece of land in the Hartz mountains, bears the inscription, "Here was made the first experiment in growing potatoes in 1747." The experiment was tried just 175 years ago. At that time few people consented to eat the food which this year, especially, will do more than anything else to stave off hunger in Germany. The cultivation of potatoes had started in Bohemia more than a century before the experiment was tried in Prussia.

POSTPONEMENT OF DRY CONFAB SEEMS LIKELY

Proposed Conference of Governors to Discuss Prohibition Enforcement Is Declared "Up in Air"

WASHINGTON, June 8 (AP)—Postponement until next fall of the proposed conference of governors to discuss prohibition enforcement appeared probable today when it was said at the White House that the conference was "somewhat up in the air." A definite announcement is expected from the White House next week.

Although President Harding had hoped to have the governors meet here before he leaves on his trip to Alaska, the present sessions of some state legislatures, officials said today, might force a postponement of the conference, at least until after the president's return to Washington.

Another factor is the brief time remaining before the president's departure for the west. With adequate notice to the governors regarded as requisite, it was said by the officials, whether a substantial number could be assembled here prior to the president's trip.

Count on Cline

Some of the president's advisers are shown to favor a postponement of the conference until fall, these officials believing prohibition enforcement is working out satisfactorily and that increased cooperation by officials might be obtained by correspondence as well as at a personal conference.

President Harding told callers today that there was no immediate conference with officials in sight on the New York prohibition situation. It was understood that the present conditions would be permitted to continue for the time being until more definite plans can be worked out.

The president also declined today to discuss the ban on ship liquor or the possibility of his making recommendations to congress for legislation on this point.

Rhodian Antiquities.
The restoration of the hospital of the knights in Rhodes has been completed by the Italian authorities with their usual thoroughness and good taste. The medieval hospital of the Knights of St. John is an important link between classical, Byzantine and Turkish periods. The chief ward of the hospital is 100 feet long and 45 feet wide. In the time of the knights this ward contained 100 beds for pilgrims and patients. In 1823 the Turks took Rhodes, and the hospital was diverted to other uses. The island of Rhodes is in the Aegean and was famous for having one of the "Seven Wonders of the World"—namely, the "Colossus of Rhodes," which was overthrown by an earthquake. The island was the last outpost of the Crusaders. The occupation by the Knights of St. John of Jerusalem dates from the years 1308-1310. The principal aim of this order was the protection of pilgrims and care of the sick. Italy is to retain Rhodes for 15 years, when a plebiscite of the population, which is mainly Greek, will be taken. The Italians are such colonizers, however, that there is little doubt that the inhabitants will elect to stay under Italian rule.—Scientific American.

The Bright Proceeding.
Mrs. Grandways was calling upon Mrs. Cassidy, whose husband was well-to-do and whose daughter had therefore been sent to college.
"By the way," said Mrs. Grandways, when the two had been gossiping for a while, "where is Clara? I haven't seen her for an age."
"Clara is at college," she replied, with grandeur. And then added: "And I am so worried about her. I haven't had a letter from her for nearly two weeks."
"That is where you made the mistake," was the prompt rejoinder of Mrs. Grandways. "Instead of letting her go to college you should have sent her to one of those correspondence schools."

BANKS WIN FROM EX-SOLDIER MEN

Legion Teams Loses Opening Tilt 5 to 3 In Well Played Game. Brown Does Well

Ray Brown and his Legion team tasted defeat, 5 to 3, administered by the Bankers team Friday in the second twilight game of the season. For five innings it looked as though the ex-servicemen were going to win their opening game via the shut-out route, as both Garrity and Lyons were hitting on all six, and the money jockeys failed to catch and toss the ringle during the early innings. Garrity, on the mound for the Legion team, pitched the first three frames and allowed not one hit, that being a twopenny error to right center by Dingle in the third. "Slim" Lyons followed and on the fourth and passing the fourth and fifth in fifty fashion. In the sixth—but that's a different story. The old ringer, Phil Fix, who looks better this season than ever before, is supposed to do the changing for Ray Bankers and although he has not yet done so during the game pitched a nice frame of ball. Mr. Brown's workweek now started after Fix with a vengeance in the opening frame. Jake Youben started his activities with a nice single to center field and on the fourth and eighth Youben going to third. Atkinson went out, Day to fourth, Youben scoring on the play. Mustell went out, Day to second and Patton scored.

NEAR EAST CONFERENCE APPEALS TO AMERICAN

J. C. Grow Again Is Asked To Use Good Offices To Prevent Rupture Over Ottoman Debt Problem

LAUSANNE, June 8 (AP)—Joseph C. Grow, the chief American observer at the Near East peace conference, again has been asked to use his good offices in an endeavor to prevent a rupture of the conference, as he did in the Tarco Greek crisis. The Turks and the allies seem to be without hope of settling the Ottoman debt problem among themselves, but feel that Mr. Grow, because of the American disinterestedness, can do much to bring the two parties together. Talk regarding the Chester concession has been renewed, but the most reliable information obtainable is that the main interest of the United States in this matter is the establishment of broad underlying principles, like the open door and recognition of the concessions granted only when their validity is unqualified. This doctrine may affect the French railroad contract which the Turks assert is invalid because the Ankara government has not verified it. Concession questions, however, seem nearer settlement, for it is said the Turks contemplate offering the French a substitute for the Anatolian railroad grant.

VICTIM NAMES ASSAILANTS

Los Angeles Youth Who Was Beaten With Wire Rope by Masked Band, Swears to Complaints Against Four

LOS ANGELES, June 8 (AP)—Frank Smeock, victim of a band of masked men who flogged him with a piece of wire cable last Tuesday night, today swore to a complaint charging four men arrested yesterday with assault to commit murder, and give the police the name of a fifth man he believed was one of his assailants. The four already under arrest are T. W. Jolley, father of Astron Jolley, 11-year-old girl whom Smeock and several other young men are accused of having attacked; Arthur W. and S. L. Jolley, her brothers, and H. E. Devall, a friend of the Jolley family. The name of the fifth man accused was not made public. Since the arrest yesterday the Jolleys and Devall have been held without bail, but plans were made late today to arraign them tomorrow and release them under bond of \$500 each, already provided.

DAWSON, June 8 (AP)—Dr. Sudgeon, noted Yukon pioneer and lecturer, was drowned last Wednesday when he fell from a barge in tow of the steamer Clamneton in a few minutes after leaving Mayor for Dawson. Dr. Sudgeon's body sank quickly in the cold waters of the Stewart river and was not recovered. Dr. Sudgeon went to Mayo six weeks ago. He was a familiar figure on the Yukon river for many years. During the last few years he has toured America and Europe lecturing about the Yukon country. He was a native of Scotland. A brother resides in Vancouver, B. C.

CONVICTS ESCAPE IN CAR

Wealthy New Yorkers, Sentenced for Violation of Dry Law, Make Unique Exit From County Jail

NEWARK, N. J., June 8 (AP)—Crouched in the rear seat of a big touring car, enclosed with side curtains, the celluloid panels of which had been soiled so that no one could see in, William Merzall and Roger Montague made their exit from the Essex county jail here today when released after serving four months for bootlegging. The fourth brother, Montagu, made a similar exit when he was released from the same jail two months ago. The four Montagues were wealthy New Yorkers who were found guilty of bootlegging and sentenced to prison. The charge on which the brothers were jailed arose from their supplying liquor for a dinner of the Bacquet and tennis club in New York.

BEHIND THE SCREEN.

Not a bit bad.

The first twilight game of the season where both teams had their men ready for action on time. "Hats" Miller of the Bankers scored a pointed injury in the game which started when the ball was thrown at third, hitting Taylor and on the mound. Dingle took his time and crunched out a double and a triple in four trips to the plate. Clayton made a nice one handed catch of Taylor's fly ball in the fourth. The Legion boys made two double plays during the game, one being unassisted by Patton. Walling was unassisted by virtue of Taylor's error, when Kamille sent a drive to Patton who took it deep and forced a second triple. Walling could get back. Garrity did good work at the start, but couldn't find the plate when he returned. Lyons fanned two in his first inning on the mound. A pretty good crowd and everybody had a good time. The postponement of the first week's games has held the crowds back a little, but a few more games like that of Friday the fans will realize that Twin Falls is going to have some good baseball this summer. Society notes: Ray Brown fanned in the seventh, swinging at three pitched balls. He didn't mix a grounder, however, as he didn't have any to stop.

DRY LAW FOR FOREIGN SHIPS

The United States Treasury Department, acting through the Internal Revenue Commissioner, has forbidden all foreign vessels to bring liquor for beverage purposes within the three-mile limit.

The order will naturally make more trouble with foreign governments, which resent such action as an unwarranted interference with their rights.

The new regulation appears to be an interpretation of the Volstead enforcement act rather than of the basic prohibition amendment.

But Natives of Out-of-the-Way Places Have Their Own Idea of What is Beautiful.

One can never tell what the natives demand will be for women's photographs, says Mr. Krupp, according to the Seattle Times.

ALL WANT GIRLS

Just Now They Seem to Be in Particular Favor.

Adoption Reports Show That the "Sugar and Spice" Idea of Nursery Days Still Prevails.

Hardly any argument is needed to support the statement that girls are greatly superior to boys.

Indeed, there are signs that girls were better liked last year than ever before. The writer of these lines, who is on the shady side of life—well, forty, with the light behind him, and who has been giving earnest study to girls all his life, is convinced that this season's crop of girls beats all previous crops in form, coloring, style, action, loveliness and general benevolence.

Moreover, he is prepared to make an affidavit before a notary that since he first wrote the earnest study to girls—say thirty-nine years ago—they've been every day in every way getting better and better and better.

And the fact is generally recognized. A little observation will convince the impartial observer that girls are being followed more and more by their fathers and mothers.

It was this fact that really suggested the present article, but the writer stumbled away from his text, led astray by the fascinations of his theme.

Boys were in greater demand before the war, according to the guardians, and then girls obtained first choice, but their recent leap into popularity has been unprecedented.

EVEN PERSIA SEES THE LIGHT

Frightful Conditions of Child Labor in That Country Have Been Greatly Ameliorated.

Child labor weavers of Persia are to have a happier life hereafter. According to the London Daily News, by an agreement between the carpet trading companies and the Union of Master Weavers in Kerman, no boy may now work in a factory before eight years of age or a girl before ten.

In addition, not only must the sheds be properly heated, but the little workers are to be given seats with backs on which to sit as they work, singing the song which tells of the pattern they are making; they are often too young to remember it by any other method.

Bishop Linton of the Church Missionary Society, in his sketches on Persia, tells how in low, unheated sheds the children from four or five upward have hitherto sat knitting threads all day and every day.

More horrible still is the custom of marriage at eight or nine years. Motherhood for these little cripples means certain death.

HAD HER FAILINGS

Florence Nightingale Depicted as Extremely Human.

Not by Any Means the Saint She Has Been Pictured, Though World Owes Her Much.

No saint in the calendar had a legend more firmly fixed and authenticated than Florence Nightingale. The public not only knew what she did, but was convinced that it knew what kind of a person she was.

She was the lady with the lamp, the gentle ministering angel, who went about through the hospitals in Crimea. She was the one who brought the feminine touch to war.

The English people (to his biography) does not change the outline of her story. That is a matter of historic record. She did all and more than he shows been taught to believe.

When marriage was suggested, she writes: "The thoughts and feelings I have now I can remember since I was six years old. I never saw a trade, a necessary occupation, something to fill and employ all my faculties I have always felt essential to me.

The war ended, and Florence Nightingale had 50 years of invalidism. But she was the same energetic, pugnaucious woman.

This is a triumph of biographical reconstruction. We see Florence Nightingale as great and good, though with very different virtues.
