FOOD RUNS SHORT IN RUHR AREA

Germans See Impending Famine In Consequence of Occupation; Berlin Seeks to Gain Ear of France

LONDON, June 21. (AP)—Developments of great importance are impending in Franco-German relations, says an article printed in the Daily Telegraph today. The writer asserts that the German government has not yet reached a final stage to determine a method which without prejudicing the position of Great Britain, would lead to direct conversations between Paris and Berlin.

ESSEN, June 20. (AP)—Reserves of food supplies held by the various industrial cooperative organizations in the Ruhr valley are rapidly being exhausted, according to sources. This is due to the collapse of the railroad transportation of foodstuffs from unoccupied territory because of the presence of allied troops in the railroad centers, causing strikes involving the complete abandonment of work by the German trainmen.

On Half Rations The German authorities, who for several days have been transporting food for lorries and automobile trucks to the points of departure, are seriously aggravated by a shortage of gasoline. The Germans claim they are receiving less than half the normal food supplies necessary to feed the workmen and the remaining civilian population of the Ruhr. Essen, Dortmund, Bochum, and Gelsenkirchen cities of from 200,000 to 300,000 population, have been receiving their food supplies for the past few days entirely by automobile. This city has been almost without milk for two days, while Dortmund reports failure to receive milk for five days.

LONDON LACKS CONFIRMATION

LONDON, June 21. (AP)—Premier Baldwin stated in the house of commons today that he had not received confirmation from France to the recent British ultimatum reparations and the occupation of the Ruhr. The government had efforts to find another way to deal with the Ruhr were being interfered with through the placing of the Ruhr railroads under Franco-Belgian control.

BOISE MOTORMAN KILLED

Carman Receives Fatal Hints When His Trolley Crashes Into Car Ahead on Curve

BOISE, June 21. (AP)—Cully G. Hurt, 33, motorman, was fatally injured, and George Curry, conductor, sustained a broken arm and wrenched back about 12 inches from a motor car which was being driven on a special, in which they were returning from Caldwell to Boise, overtook and crashed into the front of another car which was on a curve near Conway station, in the Star vicinity, and about 17 miles west of Boise. There were no passengers aboard and the driver of the motor car, Conductor W. H. Smith, was uninjured. An inquest has been called for Friday morning by Coroner William McHenry.

POLAND CAUGHT IN PANIC'S GRIP

Minister of Finance Resigns Because of Collapse of Nation's Currency Unit

BERLIN, June 21. (AP)—The Polish minister of finance and trade has resigned because of the collapse of the Polish mark, according to an agency dispatch from Warsaw. The minister said that all the banks in Poland had been ordered to surrender their foreign currency holdings to the government before tomorrow and that meanwhile all the exchange markets in the country are closed.

SUSPEND EXCHANGE QUOTATIONS

DANZIG, Poland, June 21. (AP)—The exchange in Warsaw, Danzig and Poznan have temporarily suspended issuing quotations in money exchange, it is stated in messages received here, in consequence of severe measures inaugurated by the Polish governmental authorities. Yesterday's exchange rate reached 180,000 marks to the dollar.

STORIES OF UNREST HEARD

BUFTIEN, Silesia, June 21. (AP)—Considerable unrest prevailed in Poland at the time private telephone communication was cut yesterday. It is reported that in German quarters here, disorders were then said to be under way at Lodz and conditions in Warsaw were reported to be such that the bureau was closed on account of panic.

Intrepid Peasant Uses Lava Stream As Field Kitchen

CATANIA, Italy, June 21. (AP)—Although the eruption of Mount Etna has filled all hearts with terror, there have been a few rare exceptions. Wandering among the fields close to where a lava flow had ended, the correspondent of the Associated Press observed a man dressed in picturesque Sicilian costume, kneeling before an eruption of lava. He was a peasant, employed on lands nearby, who had devised a new and economical way to cook his meals. He dug a hole in the outer crust of the lava until he reached the almost boiling lava and had then lowered the pan filled with water which was heated to a point where it could cook food.

WHEAT COUNCIL TAKES UP WORK

Organization Aims at Putting Industry on Prosperous Basis; Plans Detailed Studies

CHICAGO, June 21. (AP)—Permanent headquarters of the Wheat Council of the United States, organization of which was completed yesterday at the National Wheat conference, will be opened here on June 28, it was announced today by Representative Sydney Anderson, of Minnesota, a director of the council. Application for a charter would be made in the Illinois secretary of state immediately. The council is now in the final formation of an advisory committee before July 1.

The advisory committee, according to the organization, will include representatives of every phase of the wheat industry from producer to consumer, including railroad, millers, elevator men, converters, and farmers. Scientific study of the whole department of growing, transporting and marketing will be made. Representative Anderson said, "with a view of stabilizing the industry and putting it on a permanent basis. Wheat men from all parts of the country joined in the conference and the wheat council of the United States is fully equipped to do the necessary work to insure wheat production in this country."

Threat of Theft of Patron Saint Occasions Clash

Rumor That Neighbors Plan Removal of Miracle Working Statue, Arouses Townspeople

CATANIA, Italy, June 21. (AP)—It is a deep rooted conviction among the inhabitants of Linguaglossa, threatened by the eruption of Mount Etna, that St. Egidio was responsible for turning aside the lava flow which threatened the town. They declare that St. Egidio never failed them or their ancestors and that he had on other occasions stopped the lava from threatening the diversion of the stream was due to a small spur rising near Linguaglossa on the side of the crater. Naturally the lava flows on the other side instead of climbing it. The inhabitants of Linguaglossa during the early days of the eruption reported the statue on the church and placed it on this spur. As the lava was diverted at the very foot of the saint, the inhabitants are convinced that the statue is the cause of their safety. The statue of St. Egidio was also indirectly responsible for a miniature battle which took place today. After learning that Linguaglossa was safe, they asserted, the residents returned in large numbers to their homes so that now the town is fairly populated. The rumor spread that some of the people of Castiglione were proceeding to Linguaglossa to remove the statue of St. Egidio, so that the saint might work the same miracle with respect to Castiglione, especially the children, women and children of Linguaglossa arming themselves with all kinds of weapons, rushed to the spur where a few carabinieri pistols were watching the flow of lava; they accused the peasants of planning an impious theft and attacked them with fanatical violence, even beating the children. Luckily fascist arrived in time to save the lives of the peasants, although firearms were used on both sides.

CATTLE BREEDERS TALK PROGRAM FOR EXCURSION

North and South Side Shorthorn Association Directors Agree on Plans For Annual Event in July

The annual excursion of the North and South Side Shorthorn Breeders' association will be held during the latter part of July, according to decision of members of the board of directors at a meeting in the office of H. E. Brossard Thursday night. A tentative program for the annual excursion, in which the members of the association will visit various farms in this district, and arrangements for the picnic, were made. Several breeders from outside points are expected to join in the excursion and picnic this year.

WEATHER RANGE FROM EXTREME HEAT TO COLD

Killing Freeze In New Mexico and Low Temperature In Wisconsin Recorded with Heat Wave South and East

CHICAGO, June 21. (AP)—The heat wave which struck Chicago Monday and has since spread southward and eastward to the Atlantic coast, continued here today adding more than 20 prostrations to its list of 17 deaths and numerous prostrations in three days.

Opposed to this was the report from Superior, Wis., that that section had been forced to shelve straw hats and summer clothing and return temporarily to woollens and overcoats with a temperature in that more than 40 degrees below normal.

From Mobile, Ala., and other southern points reports indicated that the heat wave spreading over the central section had not yet reached there. Mobile reported a temperature reading of 83 degrees with a gulf breeze making this temperature more moderate. Boston, New York, Philadelphia and Washington sweltered today in temperatures which forced to the maximum point of the year but promises of some relief was offered for tonight and tomorrow by the weather bureau's "somewhat cooler" forecast.

Western New Mexico is reported in the grip of a cold wave which has killed virtually all crops of beans, corn and potatoes. At McCaffrey, Tex. was frozen last night so thick it had to be broken back. The frost fell in the lowlands, as well as in the mountains, is said to be the most severe ever recorded there in June.

About Salt Lake City and the northern section of the Rockies unusually cool weather has prevailed for several days and the weather bureau there declared little change is in sight.

While relief for the high temperatures is forecast in the east, in the Chicago territory the heat wave is expected to continue for the remainder of the week, local thunderstorms predicted to provide only temporary relief.

IDAHO WEATHER. Friday, Fair, except probably thunder showers in southeast portion.

President Renews Plea for Adherence by America to Permanent World Court

Carries Appeal to Patriotism, Humanity and Christianity for Triumph of Justice Over Force

ST. LOUIS, June 21.—President Harding headed before the country tonight a renewed plea for American adherence to the permanent court of international justice, and the only one still existing, "agency of peace" to which we can safely subscribe without involving the basic principles of our national unity.

Making the first prepared address of his western trip, the president said that to bring about the end he desired he would gladly wipe out national differences and propose a reconstruction of the machinery of the international tribunal "to dispose conclusively of all other rival expressions of dissent from the existing authority, whatsoever, either open or covert, by the league of nations or any other organization."

Strikes at Basis of Fears. "This could be done in two ways," he asserted, "first, by empowering the court itself to fill any vacancy arising in the death of a member or retirement for whatever cause, without intervention from any other body; or, second, by continuing the existing authority of the permanent court of arbitration to nominate and by transferring the power to elect from the council and assembly of the league to the remaining members of the court of justice."

Then anticipating the "voice of the doubter," who might inquire whether the court itself to fill any vacancy arising in the structure of the tribunal, Mr. Harding answered that "to submit terms which we consider essential to the preservation of our nationality is not an act of discourtesy; it is the only fair, square and honorable thing a great, self-respecting nation can do."

The crux of the conditions suggested by the president described as "making of the world court precisely what its name implies."

"Can it be possible that despite their protestations to the contrary, this is not what some of our slower states at heart desire?" he asked. "Must there be a test of sincerity abroad as well as at home? Then the better, the better for them and the better for us. There is nothing to be accomplished in ambiguity. We want to know. And the only way to find out is to inquire."

The president devoted virtually all his address to the world court issue but he also reviewed briefly what had been done by his administration to get the country "back on the right track" in its domestic affairs. Although declaring he did not intend to make a partisan report, he said he took pride in pointing out that unemployment had been "banished," financial stability

IRRIGATED IDAHO TO DECLARE HOLIDAY ON PRESIDENT'S ARRIVAL

Fifty Thousand Citizens Including 20,000 School Children to Greet Harding at Idaho Falls

IDAHO FALLS, June 21. (AP)—Towns in eastern and central Idaho will declare a holiday on June 28 when President Harding comes to Idaho Falls for his main address to the farmers of the intermountain country and for his longest stop in Idaho. Committees from towns within a radius of 100 miles met here yesterday afternoon to complete details of the president's visit. They brought word that 50,000 people would be here to see and hear the president. School children will come on mass picnics and they are expected to greet the president and present him with native flowers. A clear space of twenty acres will surround the spot where the president speaks, giving ample accommodation for the crowds. The president's stop here is looked upon as an official visit to the irrigated sections of the west, for it is here that he will be shown the actual results of reclamation.

restored, taxes lightened, and great economies effected in government.

Takes Washington as Guide

Washington's foreign address was taken by the chief executive as his point of departure when he turned to foreign relations. American adhesion to the court, he said, should be with the principles enunciated by Washington, who recognized the value of international arbitration. "The abstract principles of a world court found in the Hague tribunal," he continued. "The concrete application of that principle has been made by the league. Sound the cry and a noble precedent have been gained successfully. The court itself is not only firmly established but has clearly demonstrated its utility and efficiency."

True Judicial Tribunal

"It is a true judicial tribunal. Its composition is of the highest order. None better, none freer, from selfish partisan, national or racial prejudices, influences could be obtained. That"

HARDING MAKES ROTARY SLOGAN TEXT OF TALK

President Praises Will to Serve In Address Before Convention; Spends Busy Day In St. Louis

ST. LOUIS, June 21. (AP)—Completing the first leg of his transcontinental trip here today, President Harding entered on a round of activities that completely filled the eight-hour visit allotted to him in St. Louis. The chief executive, who had an amiable convention of the International Rotary to session here, laid the cornerstone of a new city club building and made a short address there. He then spent the afternoon with the crowds that thronged his hotel, delivered the first prepared address of his trip with the world court as his subject, and attended a number of minor affairs.

The presidential party left the train in Forest park and Mr. and Mrs. Harding were placed at the head of an automobile procession that took them over a seven mile route to downtown St. Louis. The parade from the park over lined three or four deep and bands stationed at mile intervals hailed the president's arrival in advance of the procession.

Sees Force For Progress

"Speaking to the Rotarians, the president declared that if he could found Rotary in every community throughout the world he would do so and then would guarantee tranquility and a forward march for the Universe. "Statesmen have their problems, and governments have their problems," the president continued, "but if you could plant the spirit of Rotary throughout the world and turn it to the service of humanity, there would not be much wrong with the human progression. I can understand how you have grown, how you have become a great power, how you have become a world power. I follow Rotarians, no matter where you come, service is the greatest thing in the world."

"And the thing that the world needs today more than anything else is a government that only service will make the restoration that came of the tumultuous world war. If we can all get down to service, if we can all get down to good, government in the nation was the best thing in the world."

Importance of good city government to good government in the nation was (Continued on Page Four.)

IDAHO CONVICTS STILL AT LARGE

Search for Five Escaped Prisoners Proves Unavailing; Additional Guards Employed

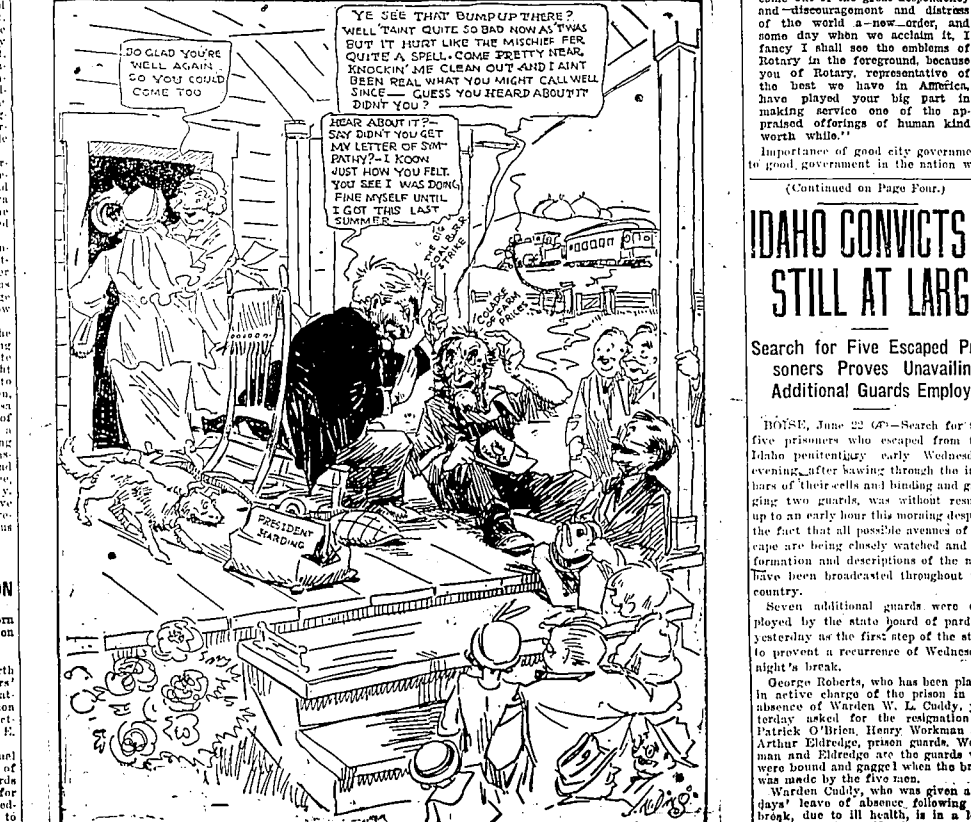

BOISE, June 22. (AP)—Search for the five prisoners who escaped from the Idaho penitentiary early Wednesday evening after sawing through the iron bars of their cells and binding and gagging two guards, was without results up to an early hour this morning despite the fact that all possible avenues of escape are being closely watched and information and descriptions of the men have been broadcasted throughout the country.

Seven additional guards were employed by the state board of prisons yesterday as the first step of the state to prevent a recurrence of Wednesday night's break.

George Roberts, who has been placed in active charge of the prison in the absence of Warden W. L. Cully, yesterday asked for the conviction of Patrick O'Brien, Henry Workman and Arthur Eldredge, prison guards, Workman and Eldredge and the guards who were bound and gagged when the break was made by the five men.

Warden Cully, who was given a 30-days' leave of absence following the break, due to ill health, is in a local hospital. He is expected to relapse over Wednesday night's episode.

ROTARY TURNS ATTENTION TO BOYS OF LAND

Youth Is Nation's Greatest Asset, Delegates at St. Louis Are Told by Boys Work Committee Head

ST. LOUIS, June 21 (AP)—Conserving the nation's greatest natural resource—the boy—is the end that he will grow up with the idea that the profits most who serve best, is the idea underlying the boys work of Rotary International as outlined by Chairman Everett Hill of the international boys' working committee, during sessions of the Rotary international convention here today.

Rotarian Frank D. Shutz of Dayton, Ohio, and Eddie Gues' the newspaperman of Detroit, also spoke. The supreme challenge of each generation is the new generation, Mr. Shutz told the convention. The supreme challenge of today is the organization of the boys of the world. "Boys are history and civilization at the same time," Mr. Shutz continued. "A fraction of the time spent upon the influencing of adults—newspaper editors, school teachers, parents, and business men will establish boys' ideals, their loyalties and their ideals. Every consideration of business efficiency demands that Rotary train boys in the new ideals."

Service Above Self.
"Rotary can teach the boys of the world that service must be above self. If the game of living is to be played in a man's way, the service above self, public responsibility will be placed before business success and satisfaction. Wealth will be regarded as an opportunity for service."
"The boys can be taught that human personality is the most sacred creation of the universe. Not property, but persons must be first in the eyes of the law."

"Truth must be honored above opinion. Let every man have his opinion where the facts cannot be obtained. Let every man be tolerant of every man's opinion. Let every man label his opinion as an opinion and not as a truth. Men can understand one another in terms of truth. They fight each other over opinions."

"The boys can be taught how to build a world of peace. Nobody but boys can ever do this."
"How can we do these things? By example! Every Rotarian must believe and practice these things himself, by cooperation with the organization now existing for boys; by arranging international conventions of boys and by a Rotary school for leadership."

FINDS USE OF INSULIN HELPS IN TUBERCULOSIS

Discovery of Cure For Diabetes Paves Way for Speeding Recovery of White Plague's Victims

SANTA BARBARA, Cal., June 21 (AP)—The discovery of insulin for the cure of diabetes by Dr. F. C. Banting of Toronto, Canada, may be considered a great aid in the anti-tuberculosis campaign, said Dr. W. D. Smith of the Porter Metabolic Clinic, Santa Bar.

Automobile Owners Attention

THE AUTO WRECKING CO. at 146 Second Ave., South, phone 89, does all kinds of motor car repairing.

SPECIALIZING ON CADILLAC AND BUICKS

All work done and supervised by ART HANAK "Nuff Sed"

harn, Cal., today at the nineteenth annual meeting of the National Tuberculosis association now in session in this city. "A good many cases of tuberculosis are also diabetic. Heretofore the treatment of diabetes meant a severe diet, often causing undernourishment, although the treatment of tuberculosis calls for the best nourishment possible. Cases affected with both diseases have in the past been nearly hopeless."

The use of insulin, Dr. Smith pointed out, now frees such patients from all diabetic symptoms, and if tuberculosis is present, this may be treated with the best general diet that may be possible. One patient under the care of Dr. Smith gained 25 pounds, and now weighs 155 pounds more than he ever has weighed. "Every one of his tuberculosis diabetic cases, laboratory findings have shown progressive improvement. 'It now appears,' said Dr. Smith, 'that such patients have the same chance of recovery as have similar patients without diabetes.'

TAFT SETS LAW ABOVE PERSONAL PREFERENCES

NEW HAVEN, June 21 (AP)—Pleading for a return to "Anglo-Saxon respect for law," Chief Justice William H. Taft told his fellow alumni at the Yale convocation here today Wednesday that it was the special duty of those charged with leadership and influence to set aside their personal likes and dislikes and to support the law. He referred particularly to prohibition which, he said, had become important because it served as a test of the principle of observance of all laws. Mr. Taft declared that prohibition has been legally adopted by a large majority and that those who are not so inclined should be content with the slightest indication that the eighteenth amendment would be repealed. "I was opposed to prohibition," Mr. Taft said. "I felt it was summary legislation, hard to enforce, and that it would outrage the dignity of the central government, already too overburdened. I felt that with prohibition an unsettled issue, other issues would not so easily be dealt with. Because of the extremes on one side or the other, but the vote was against me and those who felt as I did. Now that the law is there, I claim to play the game."

Come, let us give you hope in revealing to you the God of love, mercy, justice, and wisdom, who will shortly bring about the blessings promised to all the families of the earth. Glad tidings of great joy are coming.

NAVY COMPLETES PROGRAM WITH EYE TO FAR EAST

Eight Cruisers, Four River Gunboats and Three Cruiser Submarines To Be Afloat of Congress

WASHINGTON, June 21 (AP)—Eight cruisers, four river gunboats and three cruiser submarines will comprise the building program which the navy department will present to the budget bureau and to congress at the coming session. Since the four-power naval treaty limits cruiser tonnage to 10,000 tons, the general board has been instructed to consider plans which will give the navy

the most efficient vessels of the cruiser type, within this limitation, Secretary Denby said. It was expected, however, the eight new ships would follow close by the design of the Detroit class now in process of delivery. The four gunboats will be for the Chinese river patrol. Recent inspection of the old vessels now engaged in that patrol, Secretary Denby said, indicated that they must be replaced as quickly as possible. "In view of the situation in China and the vast amount of trade at stake," the secretary said, "the department feels it is most imperative that new modern gunboats be immediately authorized by congress."

If your property is desirable and is advertised in the classified—you'll find your buyer.

BERGER

BERGER—F. I. Roper left Tuesday morning for Tulsa, Okla., where he will visit friends and relatives. Those from Berger who attended the children's day services at Pleasant View Sunday school were Mr. and Mrs. G. C. Victoria, Thelma, Tommy and Alberta Shaw, Mrs. F. L. Roper and family, Lillian and Frances McGregor, Mrs. M. Z. Stanbury and daughter and Mr. and Mrs. J. M. Pierce. Miss Emma McGregor is visiting with Lorena Smith of Jiler. The Rev. Mr. McClutchee and family of the Presbyterian Sunday school at Knappa, were guests at the J. M. Pierce and A. C. Victor homes last week. Mr. and Mrs. J. D. Winchell motored to Twin Falls Thursday evening to see

their daughter, Grace, who left Friday for California.

DEVELOPMENTS COME EAST ON WALL STREET

Attorney General Starts Campaign to Close All Bucket Shops; Reorganization For Exchange Proposed

NEW YORK, June 21 (AP)—The house cleaning in Wall street, inaugurated after the failure of E. M. Puller & Co. for \$5,000,000, and disclosure that the house was one of scores of bucket shops where brokers had their brains against their customer's money, brought four important developments today.

1—Inauguration by Attorney General Sherman of a campaign to close all bucket shops by injunction, under the recently adopted Martin act.

2—Announcement that W. S. Skillworth, who has been sharply under fire because of his alleged relations with now bankrupt members of Consolidated Stock exchange, had decided to resign the exchange presidency next Thursday and that Lawrence Fweeney, vice president, slated to succeed him, would immediately start a thorough reorganization of the exchange.

3—Disciplinary action by the New York curb market against two members alleged to have committed acts injurious to the exchange. One was expelled and one was suspended for a year.

4—Reports that powerful banking interests in the street had inaugurated a series of conferences to seek some means of stabilizing conditions in the financial zone. In this connection, the statement that night of President Cromwell of the New York stock exchange that a movement was on foot to organize a pool to save losses subjected to runs, was recalled.

The attorney general's drive, announced last night, was begun in earnest today when he obtained from Supreme Court Justice Wasservogel temporary injunctions restraining the interlocking brokerage firms of W. W. Weiss and company and J. H. Dube & Co., from bucketing or otherwise engaging in fraudulent stock transactions.

While only two injunctions were sought today, the attorney general's office indicated that similar actions would be forthcoming from time to time as the widespread investigations being conducted by the department bears fruit.

SEES MARKET CONTROL AS GROWERS ONLY HOPE

John G. Jewett Condemns View Expressed at Wheat Conference That Increased Consumption Will Help

CHICAGO, June 20 (AP)—The problem of the American wheat grower is entirely independent of the volume of consumption here or abroad, John G. Jewett, general manager of the American Wheat Growers' Association, Inc., said Wednesday before the National

Wheat conference, in condemning the suggestion of previous speakers that the gathering might help the farmer by inaugurating a program to increase domestic wheat demand.

The aim of those who sought to help the farmer was to enable him to control the marketing machinery for this commodity, and any conference which did not mark that as the central problem for its consideration, was not truly representative of the farmer interest, he declared. It makes no difference to the farmer whether the per capita consumption of wheat is five bushels or ten, he said; the fact yet remained that the American crop was marketed in a period of 70 days every year, which was the chief difficulty to the farmer's position.

Senator-elect Royal S. Copeland of New York, addressed the conference on the "Place of Wheat in the National Diet," suggesting that by every one eating an extra slice of bread at every meal for a year, the present wheat surplus of 170,000,000 bushels could be consumed without difficulty.

Today's Sporting News

Gibbons Mixes It in Slashing Rounds

Challenger Unlimbers Sharp Hooks and Body Punches in Day's Workout

SHELBY, Mont., June 21 (AP)—Screamed by another driving downpour and chilled by a steady drizzle that whistled about in flow stacks and flapping coats, Shelby was quiet and her flooded streets almost deserted again today. It was the sixth consecutive day on which it has rained intensely here.

Tommy Gibbons, who will seek to separate Jack Dempsey from his world heavyweight title on July 4, drew more than 300 townspeople and visitors to the "Green Light," the gambling wooden dance hall, which is his indoor gymnasium in independent care here to witness a strenuous afternoon workout.

Meanwhile, Dan Frazer, now executive in charge of the business management of the fight, was in conference with local lumbermen and contractors, who surveyed the new arena in which the big bout will be held, presented final figures on the cost of the structure and arranged details of the final payment for work and materials. The arena cost between \$26,000 and \$27,000 to construct.

Preliminaries for Title Bout Listed

GREAT FALLS, Mont., June 21 (AP)—Three round-bout Tommy Gibbons heavy-weight championship contest on Shelby, Mont., July 4, Mike Collins, challenger, for the championship contest, announced here tonight.

The boxing carnival will get under way promptly at 12.30 o'clock noon with the first preliminary, and Gibbons and Dempsey are scheduled to get into the ring promptly at 2 p. m., mountain standard time. Matchmaker Collins expects that he will have a heavier schedule probably a half hour provided all the preliminaries go the limit, before Dempsey.

The Home of the Soul. In often times, it was believed that the seat of the soul was the stomach. Most likely for the reason that a man is never so completely used up as when his stomach is out of order. For the cure of ordinary stomach troubles, there is nothing like Chamberlain's Tablets, they strengthen the stomach and enable it to perform its functions naturally. Give them a trial. They only cost a quarter.—adv.

and the St. Paul challenger crawl through the ropes. Jimmy Delaney, the St. Paul light heavyweight, working in Gibbons' camp, will meet Dan Frazer, one of Dempsey's sparring partners, in one of the ten-rounds, which will be the preliminary probably will be between Lackey Mearns of Portland, Ore., and Danly Dillon, a Missoula, Idaho, fighter.

Two Bands Engaged. Two bands have been engaged, Col. Lincoln, to entertain the crowd from the time the arena is opened. The Scottish Highlanders of Calgary, Alta., 50 in number, will be stationed on one side of the arena, while the U. S. State band of 100 pieces will be located in another section. Collins conferred today with representatives of several of the feature concerns in regard to taking movies of the championship contest, but reached no decision. The pictures will be rushed into Chicago for development, no concern within a thousand miles of Shelby has facilities for doing the work.

Storm Stops Workout. Dempsey's training camp, due to the violent rain storm of yesterday, was a quiet one today and the champion was forced to suspend all activities. The fighting system at the camp was out of commission and the indoor gymnasium was so badly rain soaked that working there was out of the question. The champion remained in his quarters, watching the rain and listening to the tunes of a phonograph. His only exercise was a brief session at shadow boxing to keep his muscles loosened. His only contribution to the day's rest was his declared Dempsey was ready to go into the ring and that a day of illness would do Dempsey no harm in fact, he believed it would help his condition.

PRESIDENT RENEWS

(Continued From Page One.) In the best of my recollection and belief, it is a fair answer, after admitted and admitted. I do not believe the court should be asked to interfere with the independence, its complete and continuing freedom be safeguarded absolutely.

Disclaim Coercion. In presenting his suggestions, the president declared he neither advanced nor retreated from the position announced in presenting the court proposal to the senate, but merely indicated "ways and means for realization of our common aspiration," which he defined as a desire to substitute "peace for warfare in the settlement of controversies between nations."

"I shall endeavor upon no crusade. Hereafter, from time to time as tonight, setting strictly within, but to the full limits of my power, I shall not attempt to make further extension of my unshared views and mature proposals.

love for your fellowmen of whatever race or creed throughout the world. I shall speak, as I speak now, with all the earnestness and power of the sincerity that is in me and in perfect faith that God will keep clear and receptive your understanding.

"I could not do otherwise. My soul yearns for peace. My heart is anguished by the sufferings of war. My spirit is eager to serve. My passion is for justice over force. My hope is in the great court. My mind is made up. My resolution is fixed."

The president voiced the "enhanced regard" of this country for Great Britain, "because of her sturdy assumption of her financial obligation to the United States." He recognized the German democracy's "open manifestation of faith in our conclusions of fairness and of our 'disinterestedness.'"

HARDING MAKES

(Continued From Page One.) emphasized by the president in a brief address given after he had laid the cornerstone of the new home of the City club.

Strikes Popular Chord. Applause that echoed and reechoed in the downtown streets, greeted a declaration by the president that he liked "people who inquire how much can I contribute to my city rather than how much can I get out of my city," with that he coupled the assurance that "whenever man contributes to his city he contributes to his ownself."

Crowd Stands and Cheers. The big Coliseum where the president tonight spoke the scene of several national political conventions—had some empty spaces in the galleries when the president, accompanied by Mrs. Harding, arrived at 8:15 o'clock. As he stepped on the platform the audience arose and cheered.

Reference to savings through the budget system drew applause. Cheering and shouts greeted the president's first reference to the war debt and there was additional applause when he pronounced against a "league court."

Grips Heavers Interest. The president's suggestion for reconstruction of the creative machinery of the court was listened to attentively by the audience, sweltering in the hot hall.

VARNEY The Live Candy Man

SOCIETY

Mrs. L. F. Morgan and Mrs. W. R. Probie entertained at a bridge Thursday evening at the home of the former on Eighth avenue east. Beautiful pink and white ponies were used to decorate the rooms. Mrs. Morgan and Mrs. Probie will give a second party this afternoon.

Mrs. J. G. Robertson was hostess to the Bridge Ladies' Aid on Thursday afternoon. The usual business was transacted with the president, Mrs. S. Watkins, presiding. Plans were discussed for future work after which the hours were spent with needlework and conversation.

Mrs. George Wallace entertained the S. S. Bridge club Wednesday afternoon at her home on Sixth avenue east. At the conclusion of the games a two-course luncheon was served.

The wedding of Miss Doris Kimball to Benjamin Klusner of Holister, took place on the evening of June 12 at the home of the bride's uncle and aunt, Mr. and Mrs. J. S. McCullough, at Salt Lake, according to word received here. The bride was an attractive girl in a white georgette trimmed in lace, with a veil caught with orange blossoms. She carried a bouquet of Cecil Deane roses and lilies.

RECOMMENDS CHAMBERLAIN'S TABLETS

"Chamberlain's Tablets have been used by my husband and myself all night for the past five years. When my husband goes away from home, I always takes a bottle along with him. Whenever I have a heavy feeling after eating, or feel dull and placed out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Take these tablets when troubled with constipation, no indigestion and they will do you good.—adv.

J. T. EVANS OPTOMETRIST

Located at Boise, Idaho, in 1904. I moved my office to Twin Falls in 1912, and ten years after returned to Boise. But during the time my railroad was assured to Weils, Nevada. The outlook for a greater Twin Falls is better than it ever has been before. I want to be here for who you are coming and expect to locate my office here. I did the optical work in Twin Falls before anyone else located here and expect to be here with the rest of you.

I have done work for hundreds of people in this vicinity and I will give a FREE EXAMINATION for any of my old eyes.

I will arrive Friday, June 24. I will stop at the Perrine Hotel for a few days and hope soon to find a suitable location for an office. The people of Twin Falls have known me for 14 years, so don't let anyone tell you I won't give you the very best service—and it will be at reasonable prices, too. I fit glasses correctly and attend each case one year. Don't neglect your eyes.

LONGER LIFE.

Various estimates have been made of the additional length of human life brought about by the progress of medical science in recent decades. Dean Eycleshymer of Illinois University Medical College declares that the average gain since eighteen hundred seventy-five has been sixteen years.

If life is a good thing—and the vast majority of people believe that it is—here is a more valuable achievement, contributing more to human progress than any other benefit brought about by modern civilization. For with longer life, with its larger period of maturity and productivity, man can win the other benefits.

More interesting still, Dean Eycleshymer declares that a comparison of the organic changes in men and animals indicates that "we should all become centenarians." That fate seems destined to be realized if as much progress is made toward healthful, sane living for another century as has been made in the last half-century.

This remarkable progress, the Dean suggests, has come about without much regard to the present vogue for gland transplanting. There is much to be done, he says, in ascertaining the functions of the various little known glands of the body, and valuable discoveries may be made along that line for prolonging life. But he thinks that particular quest for the fountain of youth is being carried too far and arousing false hopes, and "the day is not far distant when the gland jug will be placed in the same category as the corn whisky jug."

It is all-around knowledge, good personal habits and wholesome community conditions that will overcome disease and postpone death until men and women have had their fair share of living.

AMERICAN VOICES.

Emma Calve says Americans make fine pupils and that American, particularly in the Middle West, has many excellent voices. She has gone back to Paris with eight American girl students in tow, and she says one of them will be heard from in less than five years.

But she has a fault to find with American students now; the less. They want to go too fast, she says. Ambition is all right, but it must have perseverance added to it in order to bring success.

Mme. Calve is unquestionably right. Nor is it only in the study of music that Americans want to go too fast. Most Americans seem to be children still at the fairy tale age, expecting great things to be done by a wave of a wand or by a magic phrase. They want to accomplish everything through organizations and slogans. And then they show the child's surprise with, with everything organized and all the slogans printed brightly, the reforms are not accomplished.

The great singer thinks five years of concentrated European study, added to years of foundation work laid at home, is a very short time in which to produce a singer of promise.

THE SUBURBAN MOVEMENT.

The latest census disclosed the surprising fact that Manhattan borough had lost forty thousand in population in the same ten years that Greater New York had gained eight hundred and fifty-three thousand. It was a cheering

Illustration of the tendency found in most of our American cities today.

Without waiting for the establishment of "garden cities," town dwellers are seeking the suburbs. Improved transportation facilities—not the least of these being the automobile—scatter a city's suburbs over an increasingly wide area. More than half the population of the United States may now live in cities, but it has not become metropolitanized into satisfaction with crowded city conditions. It is already spreading out into attractive residential suburbs and even into more distant small towns and may eventually return to remote rural communities.

Chicago has found that its foreign population is leading in this trek to the more spacious and clean outlying districts. Families whose workers are occupied in steel mills, in stock yards and factories are not living huddled in the city, but as rapidly as possible are settling in the suburbs. Living here farmers in the Old Country, they still crave a piece of land, however small, to call their own.

It has often been predicted that American cities were destined to become hideous, unwholesome, top-heavy things as full of misery as they were of wealth. Is it possible that the problem of the big cities is going to solve itself through this already marked suburban movement?

Bride Changes Sides.

At a church wedding in Holland the bride always enters the edifice on the right arm of the groom and goes out on the left side of her husband.

PLENTY OF FUN FOR YOUTHS AT MILITARY CAMP

Training at Fort Douglas, Near Salt Lake, Is Really Summer Outing at Expense of the Government

Young men of Twin Falls contemplating entering the citizens' military training camp at Fort Douglas, near Salt Lake, this year find that besides learning how to be of greater service to their country in time of need they will enjoy ample recreational and entertainment opportunities during the training course.

An official announcement received by Adjutant A. Doran Johnson, of Twin Falls post, American Legion, concerning the camp at Fort Douglas, where the Idaho boys will go for the summer camp which extends from July 20 to August 24, states that there will be organized basketball, hand ball, volleyball, tennis and at the completion of camp a swimming meet, which will undoubtedly be held in the natatorium of the University of Utah at Salt Lake.

The official announcement is, in part, as follows:

"The branches of service included in the training at Fort Douglas camp will be infantry, cavalry, artillery, engineers and signal corps. Applicants may state their choice of branch.

It is especially desirable that parents understand that there is no intention of turning the young men loose at night. The course contemplates sufficient work during the day that there will be no desire upon the part of candidates to leave the post for the city bright lights during the evening. The post aprate officer or recreation officer will see to it that a preponderance of entertainment will be provided on the post. Vaudeville, moving pictures, wrestling, and boxing matches, lectures by the surgeons, etc., will be provided every evening of the camp. Candidates will be allowed to go to the city on Saturdays and Sundays, but must be back in camp by 11 o'clock. The natural scenic and civic attractions of Salt Lake, and the advantages at camp will enable Idaho men to make successful comparisons of and about the city as they may desire.

"All expenses are paid by the government, including transportation to and from camp. No other expense, other than pocket money, will be undertaken by a candidate. But very little opportunity will be given to spend money during the camp. Not more than ten dollars will be sufficient for the period of camp for spending money.

"Plenty to Eat.

The food will be of the finest, and well cooked. In addition to the best of army cooks, and there will be a preponderance of it. An unusual ration allowance has been set aside. The government has gone to the expense of maintaining these camps, it is a highly patriotic one on the part of the young men of the nation to accept of setting the highest standards of service to home and country, will be retained at the camps for example to the candidates and for instructing them in the duties of soldier and citizen. The thirty-eight infantry, "The Rock of the Marne," will be at Fort Douglas to put on actual war demonstration, using ball ammunition.

"Visitors' day, a day set aside for parents and the public to visit and see the actual work of the camp, will be August 10 at which time representatives from the officials of the states whose candidates are attending camp will be invited, and permitting parents to look with pride upon the work of the son who attends.

Application may be made to the chief of staff, 10th Div., DuPont Block, Salt Lake, or to Major D. W. Standen, Jr., Doretole, Idaho, or through any post of the American Legion within the state, or through A. Doran Johnson, the county representative, at the First National bank."

Why Suffer From Rheumatism? Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the nerves or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that obtains means a great deal to any one afflicted with rheumatism.—adv.

Vegetable Crops Making Progress

Recent Weather Fails To Do Serious Damage and Wheat Reported Growing Nicely

The recent weather, although too cool for the rapid advance of most crops in southwestern Idaho, has been exceptionally favorable for head lettuce, which is being marketed in excellent condition. The weather is heading out rapidly, according to the department of agriculture's summary of weather and crop conditions in Idaho for the week ending June 19.

"Dry farm crops and the ranges were greatly benefited," the report says. "By the rains that occurred over the entire range. The soil is now favorable for farm work. Spraying was delayed by rain and wind and cloudy weather. In potatoes, the weather is being marketed in excellent condition. Much hay is down in swath, and windrow of stock, but little has been stacked. A period of hot sunny weather is expected for the first of July. The report says that in the Bull district beans have been planted, haying has begun, potatoes and corn are coming up and wheat is looking fine. Stuntling was inadequate in the vicinity of Hollister and the first crop of alfalfa was light, although wheat looks to be in excellent condition.

The report also states that haying around Twin Falls, the report says, apples are dropping badly, but lettuce is doing very well and shipping has been good. Some of the fruit and being damaged somewhat by the weevil pest.

Prospect in the Burley district last Thursday did not damage and crops are in good condition, with good demand reported for irrigation water.

There appears to be a heavy crop of head lettuce throughout the state this year. In the northern part of Idaho head lettuce has developed wonderfully, according to the weekly report, and the growers are sending out the largest and best crop yet raised in the Lewis-ton valley. The harvest of head lettuce is drawing to a close in the northern section.

TAKE RECEIPTS FOR MAIL

Persons Receiving Special Delivery Articles Must Acknowledge Delivery. Order Goes In Effect July 1.

Announcement is made by postoffice officials that beginning on July 1, receipts will be taken for special delivery mail.

Upon the delivery of an ordinary special delivery article the messenger will procure a receipt from the party addressed or someone authorized to receive it, and the name of such delivery will be noted thereon.

When, because of the fact that the addressee is temporarily out and no person is to receive the mail, special delivery cannot be effected and a receipt taken special delivery ordinary mail may be placed in the postal mail receptacle on the reasonable assumption that the article will be returned and that such a course would be preferable to returning the mail to the postoffice.

SETTLERS DEMAND EQUAL DISTRIBUTION OF WATER

Trial of the suit of R. G. Gavin and others to compel a prorata distribution by the Salmon River (see page 2) company of waters in storage in the Salmon reservoir began in district court Thursday afternoon.

The plaintiff claims that equal distribution of water must be made, regardless of claims of certain settlers on the tract that they are entitled to the such water for a year as was promised by them last year.

John W. Graham is representing the plaintiffs and the firm of Rothwell & Co., of Salmon, is representing the company, represents the defendants. The case is being tried before Judge T. Bailey Lee of Burley.

TAX SALE SCHEDULED

The tax sales of property located in various parts of the county will take place Friday at 2 p. m. at the court house.

Included in the list of property to be sold for taxes are 30 acres, mostly vacant lots, located inside the city limits of Twin Falls.

Chamberlain's Colic and Diarrhoea Remedy.

Every family should keep this preparation at hand during the hot of the summer months. It is almost sure to be needed, and will save many a dollar's worth many times its cost. Buy it now.—adv.

Rain on Five Days Shown on Records

The heavy rain, together with occasional showers totaled nearly half an inch in precipitation on Thursday, the fifth consecutive day on which rainfall has been recorded at the weather observation station near the city.

The recording showed .47 of an inch, while on Tuesday the measurement was .50 of an inch of rain.

Maximum temperature has remained at 69 degrees during the last three days. Low temperature on Thursday took an advance of six degrees, the recording being 50 degrees.

SUPERINTENDS PACKING OF MARKET VEGETABLES

George A. Bush Takes Charge of Work Here For Idaho Producers' Union; First Lettuce Is Expected Soon

George A. Bush, who will personally superintend all packing of vegetables here for the Idaho Producers' union this year, has arrived in the city and has taken charge of the work, which will be conducted in quarters near the old dehydrating plant. Packing for the local producers who sold their products through the union last year was done by contract.

The first lettuce to be marketed through the union is expected in a few days. It will be from the farms of Hugg brothers at Bull, and J. B. Schank at Elgin. Other vegetables to be marketed later will include cauliflower, celery and onions.

Plans of the recently organized berry growers association for marketing strawberries and raspberries through the union have been given up; it is said, through difficulties at the last hour over marketing contracts.

Personal

On Business—James M. Gibbs of Bull was in Twin Falls Thursday on business.

Jarblug Man Here—N. G. Baker of Jarblug was here on business matters Thursday.

Visits Relatives—Her Lewis of Long Beach, arrived Thursday for a visit with Dr Harry Davis, his brother-in-law.

On Shopping Trip—Mr. and Mrs. J. W. Bouten and son were in the city Thursday from Hollister on a shopping trip.

Visit Friends Here—Miss Marion Caverly and brother, Raymond, of Inport, are spending a few days here visiting friends.

Returns to Twin Falls—Mrs. J. M. Markham returned Thursday after a visit of several months with relatives in California.

Bains Aid Crops—Farmers on the Salmon find much pleased with the recent rains and they report crop conditions on the tract to be very favorable.

New Lodge Formed—J. W. Dalwick of Boise, state deputy of the Modern Woodmen, arrived here Thursday. He will install a lodge at Cattleford shortly.

Spent Vacation Here—Harry Hunt, son of Mr. and Mrs. C. D. Hunt, returned Thursday from Chicago, where he has been attending school. He will remain here for the summer vacation.

Spent Summer Here—Miss Marjory Crow returned yesterday from Sacramento, Cal., where she has spent the past two years traveling, and will remain here for the summer at the home of her parents, Mr. and Mrs. P. H. Crow. Miss Crow was accompanied by Miss Mary Traganza of Sacramento, who will be her guest. The trip was made overland and Miss Crow reports that aside from muddy roads, they experienced no misadventure and were on the road but four days.

A Tom Thumb wedding will be given under the auspices of the Women's council, Christian church, Friday evening at the Lavinger. Adults, 35c; children, 20c.—adv.

Auto Topics

Just a Cotter Pin

When making adjustments, if you remove a cotter-pin, replace it with a new one and spread it well. Loose or broken pins on transmission or motor assemblies may cause trouble that will send your car crashing into another car or up on a crowded sidewalk.

No matter how careful you are such crashes are likely to occur. Insurance will make good your loss, both for damage to your car and to the person or property of others if involved in a mixup.

Get automobile insurance here covering fire, theft, collision, liability and property damage.

Final Day Arrives in Lodge Meeting

Grand Lodge Sessions of Pythians Near Close; "Dokkie" Day Features

The second day of the thirty-first annual convention of the grand lodge of the Knights of Pythian and the grand temple of the Pythian Sisters of Idaho was filled with things of interest Thursday for the 125 delegates and other visitors who are attending the convention at Bull.

The day was designated as "Dokkie" day. At 6:30 p. m. the grand parade was held in which Knights of Pythian, Pythian Sisters, members of the D. O. K. K. and visitors took part. At 7:30 p. m. the Pythian Sisters put on their work at Old Fellows hall, and the "Dokkie" held forth in the new Bull school gymnasium. At 10:30 o'clock the D. O. K. K. dance was given in the chamber of commerce rooms. Grand lodge sessions of the two orders were held at 9 a. m. and 1:30 p. m. Friday will be devoted to the final grand lodge sessions and election of officers. The place of holding the convention next year will be selected at that time.

Wednesday's program included the opening of the grand lodge and the holding of joint memorial services at 2 p. m., followed by a banquet in the evening and an informal party at Masonic hall, given by the Pythian Sisters for all visiting ladies.

Among the Knights of Pythian members from Twin Falls attending the sessions were G. H. Elwood, Frank Baker, W. A. Mianick, Paul Kraft and P. J. Grossman. Delegates are present from various other parts of the state.

ANNOUNCEMENTS

The Girls' King's Herald of the Methodist church will give a hospital shower at the home of Mrs. M. L. Haviland Friday from 3 to 4 o'clock, at 504 Fourth avenue east.

The Brotherhood of American Yeomen will meet in the Business Women's club rooms Friday evening at 8 o'clock.

The Shamrock club has postponed its regular meeting until July 12, on account of the strawberry festival to be given by the Twentieth Century club on June 27.

FUNERALS

Mrs. R. J. Pribble.

The funeral of Mrs. R. J. Pribble will be held Saturday afternoon at 2 o'clock from 464 Fourth avenue east.

Mrs. F. G. Patterson, who baked the cakes for the Idaho, and Alvord & Mott's Swansdown cake demonstration, will bake cakes at her home. Phone 409W.—adv.

YOU Are Invited to attend the BIG 4th of July Celebration

HEY PA!

Something doing all day and night at

Twin Falls FREE! FREE!

SINCLAIRS CLOTHING SALE Begins This Morning

A SALE THAT BRINGS PRICES BELOW REPLACEMENT VALUES

American business isn't sick; it's only a bit anaemic. Give it a chance to get some real exercise and it will build up in fine shape.

This JUNE CLOTHING SALE helps the circulation of goods; of money.

You get big value for your money; we dispose of our stock. Then we order more goods. The money you have spent with us goes to pay our bills. The manufacturer uses it to pay his help and the producers of raw materials.

So, you see, you save money by buying now and help everybody all along the line as well. We're glad to sacrifice profit to help things along.

Sale Prices—\$16.65, \$17.45, \$19.45, \$23.75, \$27.45, \$32.45 and \$37.45.

The Boys' Store June Suit Sale Starts This Morning

HEY PA!
