

# BORAH ASKS FOR RECOGNITION OF RUSSIA BY U. S.

### Idaho Senator, in Address at Women's Club Convention, Pleads for Settlement of Foreign Problems

PORTLAND, Ore., July 11 (AP)—The league of nations and the world court are impotent in the presence of the Ruhr and the Russian problems and the United States should ask for an economic conference to deal with the reparations situation and take affirmative steps looking ultimately to recognition of the Russian government, it was declared by United States Senator William E. Borah of Idaho, in an address here tonight. The senator was speaking to the convention of the National Federation of Business and Professional Women.

The senator said there could be no peace, no disarmament, no opening of the markets of Europe to the products of American farms without adjustment of the reparations problem and the Russian problem.

**World Court Impotent.**  
"Until there are no adjusted," he declared, "we may look for economic disorder and the continued deepening of human suffering. I agree with Senator Underwood who has lately returned from a study of the question on the ground, that we are drifting down stream and can already hear the roar of the rapids. In the presence of these problems, the league and the world court are impotent. They are, in fact, war problems. They spring from the war and are breeding of war. We owe it to the cause of the world's economic health and to humanity to help in the adjustment of the questions."

**Urges Conference.**  
"We can help without departing in the slightest from our traditional foreign policy or breaking away from our long-established precedents. It is one thing to me we should ask for an economic conference to deal with the one, and should start the settlement of the other by affirmative steps looking ultimately to recognition."  
"If there are not the proper steps, then let those who oppose such steps specify what we should do. It is possible that we should be content to watch these conditions grow worse until they swell into the deluge of war, or if not war, the economic stagnation and demoralization worse than war—the slow, grinding attrition which subtly undermines civilization. The question that the common people are asking is this—is the statesmanship of the world bankrupt?"

## LIGHTNING TAKES TOLL OF NATIONAL GUARDSMEN

### Three Members of Maryland Regiment Killed by Crash; Soldiers and Officers are Thrown Into Panic

BALTIMORE, Md., July 11 (AP)—Three members of the fifth regiment, Maryland national guard, in camp at Saunders range, Anne Arundel county, were killed tonight when a bolt of lightning struck in a group of men. Fourteen soldiers were reported injured. The men were leaning about the camp at the time watching a severe thunder storm that swept over that section of the coast.

Some of the injured were given first aid treatment at the encampment while others were rushed to Baltimore hospitals where doctors said they were badly shocked but their condition was not serious.

According to one of the injured, the ball of fire descended at 7:45 o'clock and caused a panic among the soldiers and officers.

Dr. Thomas H. Drayman, of Glenburn, Anne Arundel county, also was summoned and assisted the guard authorities.

## HITCH THREATENS TROUBLE

### Allied Arrangements with Turks as to Agreement on Withdrawal of Troops Must be Revised

LAUSANNE, July 11 (AP)—A hitch in the agreement between the Turks and the allies has arisen over the question of withdrawing the British troops stationed at Constantinople. The clause in the draft treaty concerning evacuation of the allied forces refers only to troops, the Turks apparently having neglected the insertion of a reference to the warships.

Ismet Pasha is demanding that the vessels shall be withdrawn at the same time as the troops, not only after ratification of the treaty by the Turkish national assembly at Angora.

This demand has been submitted to the British government by Sir Horace Rumbold, who now is awaiting the decision from London. It is believed peace can be signed before the end of next week.

## MEDICS ARRANGE PROGRAM

### Delegates from Abroad to Participate with American Surgeons in Clinics at Annual Convention

CHICAGO, July 11 (AP)—Hospital standardization, scientific research, application of recently developed formulas in the control of disease, surgical and medical clinics and a series of special lectures on the advancement of science, are among the features of the program of the American College of Surgeons, which will hold its annual meeting here October 22-28.

The surgical and clinical program will be carried out in 40 Chicago hospitals, medical schools and laboratories, according to the announcement by A. D. Ballou, general manager of the congress. Membership in the college extends to every state in the union, Alaska, the Philippines, every province in Canada, Central and South America, England and the continent, China and other countries. Mr. Ballou said, all of which countries are expected to be represented by delegates.

## CONTINUE PROBE IN FATAL BLAST

### Death Toll Reaches 12 in Explosion at Altton; Injured Fight for Life

ALTTON, Ill., July 11 (AP)—With the number of dead in Saturday's explosion at the Western Cartridge company's plant at East Altton increased today to 12, physicians at St. Joseph's hospital, in this city, were making every effort to save the lives of the 11 seriously hurt who were brought here from the scene of the disaster. It is reported to be in a critical condition.

Deputy Coroner Strecker announced today that the inquest into the deaths of the 12 victims would be deferred several days owing to the serious condition of several women, who it is feared may die. In the meantime the investigation begun by officials of the company in an effort to determine the cause of the explosion was continued without any satisfactory results.

**Flame Was Seen.**  
It has been established by eye-witnesses that a flame shot from a machine used for making army rifle bullets. The flame followed a sharp report, employees say, as though a bullet had been discharged. The actual cause probably will not be known until St. Joseph's vice president of the company.

The process of reworking the powder from cartridges always has been reported by the company. The other hand, employees engaged in that work asserted that cartridges frequently exploded while they were being run through the machine.

**Women Lost Lives.**  
Of the dead, seven are women and girls and five were men. All were employed at the operation of the machine used for salvaging cartridges. The deaths of three 12 victims was caused by powder burns and fragments from the machines which struck the workers with bullet like force.

**Funerals will be held tomorrow for five of the slain and bodies of the others will be sent to distant homes of relatives.**

The four others are being held pending receipt of word from relatives.

## ACCUSED PASTOR RESIGNS

### Directors Defer Action with Respect to Alleged Improperly Following Wedding Ceremony

BOSTON, July 11.—Reverend Geo. E. Paine, who engaged in a scuffle with Lieutenant Wesley McLaren Hague, U. S. N., on Monday when the latter administered what he termed a thrashing because the clergyman had kissed his wife, tendered his resignation as executive secretary of the Greater Boston Federation of Churches at a special meeting today of the board of directors of the federation.

The 16 directors present voted to defer action on the resignation until after the next meeting, when all the board's 22 members shall be present.

## "Baby Farm Caravan" Mystery Tragedy

Mrs. Anna Siewers and her wards were above is shown Mrs. Anna Siewers, of Brooklyn, New York, with fifteen of the seventeen babies she took to Schenectady, New York, in one automobile to establish a "baby farm." She had been boarding the children in her home in Brooklyn, but her neighbors objected, and she bundled them all into a taxi and took the long journey northward, in an effort to buy a farm where she could care for the infants. During the long automobile trip up the State two of the children became seriously ill, while a third died. Mrs. Siewers was lodged in the county almshouse with her wards, and their parents were notified to come after them.

## SCIENTIST SEES PROBABILITY OF WIRELESS FEATS

### Noted Briton Believes Electric Waves Will be Used to Revolutionize Civilization's Greatest Utilities

LONDON, June 21, (AP)—Under the heading, "Coming of the Wireless Age," a British scientist contributes a striking article to a London newspaper, in which he predicts that wireless will be used in the near future for directing ships at sea, train and trolley services, traffic control on the road, fleets of battleships and aircraft. "It will be possible," he says, "to direct the path of everything moving on the surface of the earth, not even excepting human beings, by means of wireless."

The initial step in harnessing this potent and little-known force was the establishment some weeks ago of a wireless lighthouse on Inchkeith Island, in the Firth of Forth. By means of this "lighthouse," ships can be directed through the dangerous channels of the Firth by wireless, so that there is no possibility of their running ashore or being wrecked even on the darkest night or in the densest fog.

Steps are being taken, in conjunction with the British Board of Trade and the meteorological office, to intensify training wireless direction of ships at sea. At the present moment there is lying in the Port of London.

## ORGANIZATION OF WHEAT COUNCIL IS COMPLETED

### Minnesota Congressmen is Elected President of Executive Body; Officials to Announce Policy

CHICAGO, July 11 (AP)—Completion of the executive organization of the wheat council of the United States, organized under the direction of the National Wheat Conference here June 20, was made at a meeting of directors here today.

Sydney Anderson, congressman from Minnesota, was elected president. An announcement outlining the policy and program of the council for the betterment and permanent improvement of the wheat growing industry probably will be made tomorrow officials said.

THE GUMPS - WITHIN THE LAW

Former Official Is Grand Jury Witness

W. M. Potter of Texas Testifies as to Financial Affairs of Anti-Saloon League

NEW YORK, July 11, (AP)—Wm. M. Potter of McAllen, Texas, former assistant treasury of the State Anti-Saloon League appeared as a voluntary but "swilling" witness before the grand jury today and was reported to have added his corroboration to the story on which Assistant District Attorney Pecora is seeking the indictment of William H. Anderson, League superintendent, for extortion, forgery and grand larceny. Potter was reported to have gone exhaustively into the financial affairs of the League, confirming the testimony of O. Bertall Phillips, former solicitor for the League, that Anderson had collected a "fifty-fifty split" on Phillips' commissions and ordered the books of the League falsified to cover up the transactions. Referring to the books, it was understood he pointed out the places where he had charged up to Phillips' expense account a payment of \$2,500 made to Anderson. It is on this alleged transaction that the charges of extortion and forgery are based. The grand larceny charge is based on collection by Anderson of \$24,700 for "publicity," the nature of which he has refused to explain. The only other witness heard by the

BUSINESS BLOCK BURNED

Shouts of Baggage Man on Passing Train Bounce Residents of California Town to Fight \$150,000 Fire

FRESNO, Cal., July 11 (AP)—Shouts of a baggage man on a passing train served as an alarm to citizens of Selma, near here, that a large business block in the center of Selma was on fire. Before the local fire department, alerted by 12 pieces of apparatus from Fresno, could control the flames, damage estimated at \$150,000 had been done. (Continued From Page One)

**GIVES COST**

more than \$23,000,000 and the railroads more than \$65,000,000, a total of more than \$88,000,000. "This vast discrepancy between the estimate of those who obliterated the passage of the act and the actual cost and the fact that the tentative findings of the commission in 1920 have justified the contention of the railroads that they were worth their entire capitalization, shows how little these opponents of railroads understand the subject and quite naturally suggests that it might be well to consider whether they and their followers are more competent to advise the public now than they were then."

COUNTY JAIL INMATES BEAT FELLOW PRISONER

Alleged Desecration of the Flag Leads to Severe Treatment of Alien at Hands of Men in Institution

FRESNO, Cal., July 11 (AP)—Inmates of the county jail today took the law into their own hands and administered a severe beating to Steve Montanos, an alien, who was being held for alleged desecration of the flag. Jail attendants were forced to remove Montanos into a private cell when the angered crowd at the jail learned of the prisoner's offense and beat him unmercifully. Later he appeared in police court with blackened eyes and swollen cheeks. In court, the man admitted being an alien, said he hated this country and its laws and ways of living, and asserted he had spat on the American flag as it passed by during a Boy Scout parade yesterday. Technically, Montanos was charged with vagrancy, and given a 180-day jail sentence. George W. Moore, immigration officer, who was at the hearing in police court, said he would ask for a warrant for the deportation of the prisoner. During the entire court proceedings police kept a watch over the prisoners in fear of an outbreak from citizens who crowded the court room.

PUBLISHER'S WIFE SUES

NEW YORK, July 11, (AP)—Courtland H. Young, wealthy head of the Young Publishing company, publishers of a group of magazines, was sued for separation today by his 21-year-old wife of three years.

Answering her allegation that his fondness for intoxicants had caused most of their troubles, which were admittedly numerous, Young laid the blame on his mother-in-law, Mrs. S. A. Campbell, who, he declared, had converted his wife to "the gospel of freedom of women and their right to go out with men other than their husbands."

**SKAGWAY GETS**

(Continued From Page One.)

found Skagway a picturesque little town with a population of 500, nestled among the glacier-crowned mountain peaks, quiet with only a few reminders of the time when it was known as one of the "hottest" and gayest places of the frontier. Here it was that those who had come under the "spell of the Yukon" offered for the tollhouse club over the summit of White Pass and thence to White Horse Rapids, Five Finger and Rink rapids and other perils met by these seeking the yellow metal. The rain which marked yesterday's visit to Juneau had ceased and the sun often broke through the clouds revealing the beauties of the glaciers reaching down from the mountains along Lynn canal. BOOST CLUB IS BOUGHT

Syndicate of Ohio Men Are New Owners of American League Club; Price Reported to be \$1,000,000

BOSTON, July 11 (AP)—The Boston American League baseball club was sold to a syndicate of Columbus, Ohio, men by Harry H. Frazee, owner of the club since 1918. The sale price was not disclosed, but was said unofficially to be "over \$1,000,000." President Johnston said tonight that he considered the sale of the Boston club to the Ohio syndicate a "splendid thing." "The club will now be in the hands of a group of upstanding men of character, who have the highest ideals for the conduct of professional baseball," said Mr. Johnson.

THE MARKETS

WHEAT HITS LOW RECORD

Prices Drop Below Dollar a Bushel and Deliveries Forecast for July in Nine Years

CHICAGO, July 11 (AP)—Dollar marks were virtually discarded today in quoting the price of wheat. Both the July delivery and September fell below \$1 a bushel, and all deliveries touched a new low record price for the present season, as well as the lowest record in any July since 1914.

Unlike yesterday, the wheat market today showed no trace of hurried dealings, the new declines having been generally expected as a consequence of increased calls for margins made necessary by the sudden fall of prices yesterday to \$1 a bushel.

Provisions were firmer in line with hogs. Subplus calves drop. Chicago, July 11 (AP)—Reports of excellent wheat weather, bumper crops and immunity of northwest crops from black rust sent wheat prices tumbling today to a low of 42 1/2 cents for September wheat, the lowest level since 1914.

READ THE DAILY NEWS. NOTICE TO CONTRACTORS. Retail proposals will be received by the Board of Commissioners of the Twin Falls Highway District until 1:30 p. m. on July 21, 1923, for grading and graveling two miles of road on Addison avenue, near Hansen bridge.

NEW YORK, July 11 (AP)—The raw sugar market declined in price as 10,000 bags of Cuban at 41c and cost freight, equal to 46.33 for centrifugal. At this level a better inquiry developed, but offerings were light with sellers inclined to hold off and no further transactions were reported.

PRICES CONTINUE LOWER. Trading on New York Market is Again Dull with Foreign Political Situation Held Partly Responsible. Day's total sales 395,000 shares. Twenty industrials averaged 87.80; net loss, .04. High, 1923, 105.39; low, 87.50.

NEW YORK, July 11 (AP)—With public interest still in low ebb, professional traders exerted intermittent selling pressure against today's stock market and prices were generally lower. Trading was again relatively dull, large traders showing a disposition to await further developments in the foreign political situation before extending their commitments.
