PRICE FIVE CENTS

REVENGE GIVEN AS CAUSE FOR VILLA'S DEATH

President Obregon Suspects ex-Bandit Leader's Enemies Retaliated for Injury; Commander Reports -

MEXICO CITY, July 21 (AP)—President Obregon intimates that the assassination of Francisco Villa's associate was due to a personal feud in a statement given to the newspaper correspondents this afternoon.

The assassin is disgraced that the dagger and tranche were employed, the president declared. "Villa had numerous enemies; it is possible that one of them avenged himself treacherously. I have not received any advice that would allow me to express an opinion as to causes of the assassination. It is certain, however that Villa has been given guarantees of security by the government, should have had an opportunity to enjoy them."

A supplemental report to President Obregon from J. Polk Lewis, commander of the garrison at Parral, relative to the killing of Villa, says:

Assassins Wounded in House.

The assassins estimated at between seven and nine, waited for three days in a vacant house at the corner of the Benito Juarez and Saltillo Barristerio street from which they opened fire. "The dead were Villa, Trillo, Daniel Tamayo, Villa's assistant, Rosario Rosales, Villa's chauffeur, and an unidentified civilian, who unfortunately was present. Two others of Villa's escort were wounded.

Want Troops Withdrawn.

A telegram to the president from the superintendent of Villa's hacienda at Cananea suggested that he order the troops which are proceeding to Canutillo to be withdrawn as the Villistas at that place are fully capable of guarding the property. The superintendent declared that he had 1800 men fully armed upon the hacienda, or within call.

KLAN'S PARADE FLOUTS RULING

Hundreds of White-Robed Figures March in Kansas City in Spite of State Order

TOPPEKA, Kansas, July 21 (AP)—Hundreds of white robed knights of the Ku Klux Klan in full regalia, including masks and carrying large crosses and other symbols of the organization, began a parade on Kansas avenue, the main street through this city on North Topeka, promptly at 9 o'clock tonight.

The klansmen wore masks, despite an order issued by Attorney General C. E. Griffin last week ordering Sheriff Robert Miller and Mayor Earl Akers prevent them from so doing.

The city's police force was busy keeping great crowds from entering the street and no attempt was made to stop the parade.

There were a few dozen floats, one carrying a miniature school house and a large placard: "One people, one flag, one language," and "We want protestant teachers in our schools." On a long banner carried by a score of more marchers was the sign: "Three million of us in the United States; 100,000 in Kansas; 6,000 in Shawnee county."

DATE SET FOR HEARING MOTION IN MURDER CASE

Arguments of Defense on Action Seeking Quasi-Murder Charge Against Brownings to Be Made Monday

SALT LAKE, July 21 (AP)—Arguments on the defense motion to quash the charge of first degree murder against Marriener A. and John W. Browning, Jr., in connection with the slaying of the latter, carried by Benjamin F. Ballantyne, were set to be heard in the district court next Monday by Judge G. A. Iverson.

The case was continued today by stipulation of counsel for both sides, because of the absence from the city of District Attorney E. A. Rogers.

SIX ARE KILLED IN RIOTING IN GERMANY

DRESDEN, Germany, July 21 (AP)—Six persons have been killed and fifteen injured in rioting which broke out here yesterday and kept up until this morning because of the rising cost of living. Large crowds of rioters gathered in the important districts of the city and made raids on the shops and hotels, carrying off all kinds of loot.

Sailors Unable to Resist Charms of South Sea Maidens

HONOLULU, July 21 (AP)—The charms of two young and beautiful native maidens of Fata, island of Nuaufu, in the South seas, proved stronger than the call back to civilization for two members of the recently wrecked schooner Alert, according to the story related by Captain Daniel McDonald, master of the Alert, who arrived here today aboard the Niagara, with six members of the crew. They are on their way to the United States.

A sudden squall threw the Alert upon a coral reef off Fata on June 10, Captain McDonald said. The captain and the crew waited at the place for a month for a passing ship to pick them up. Meanwhile Harry Terry and A. O. McDonald, members of the crew fell in love with two native girls and when a rescue ship finally arrived they refused to accompany their shipmates back to civilization.

The mariners married the girls, Captain McDonald said, and added: "I can't blame Terry and Olson, for their sides are good fellows and exceptionally good housewives."

The skipper said no suffering followed the shipwreck. The natives, he said, are very kind and friendly, especially the younger ones, are "very beautiful."

ORDER MAUGHAN'S RETURN

Army Pilot Given Instructions to Report at McCook Field at Dayton; Will Return to Visit in Utah

ROCK SPRINGS, Wyo., July 21 (AP)—Orders to return by rail to McCook field near Dayton, Ohio, and to express his disabled airplane in which he was forced to land here last Thursday while attempting to fly across the continent between dawn and dusk, to the same place, were received here tonight by Lieutenant Russell L. Maughan. Asserting that the work of repairing it for shipping would be completed by Tuesday, Lieutenant Maughan said he expected to leave here that day on a Wednesday. The message received from McCook field said: "Ship plane by express to McCook field and return by rail."

The flier said he expects to return west within a few months, if leave of absence is granted by his superiors, to visit relatives in Utah.

WIFE OF TOM MOORE FILES DIVORCE SUIT

LOS ANGELES, July 21 (AP)—Suit for divorce against Tom Moore, motion picture actor, brother of Owen Moore and Matt Moore, also screen stars, was filed in superior court here today by Bess E. Adoree, screen actress, who charged cruelty.

PROGRESS MADE ON HOGE PLANT AT SODA POINT

Work on Electric Power Project Advancing Rapidly, Officials Claim; Will Be One of the Biggest in the West

SALT LAKE, July 21 (AP)—Construction work on what is said to be one of the largest hydro-electric power projects in the west is well under way at Soda Point, Idaho, officials of the Utah Power and Light company, builder of the plant, announced here tonight.

Five hundred men are actively at work on the project six miles from Soda Springs, building coffer dams and expanding material from river banks preparatory to pouring the first mass of concrete which will form the dam and power house. The plant, which will have an installed generating capacity of about 25,000 horsepower, is being built at a cost of approximately \$3,000,000.

Utilization of water of the Bear river for generating the electric power to supply the demands of industries and homes in this section will mark the completion of the project, it was announced.

SHOPMEN GET WAGE RAISE

Men Who Remained at Work During 1922 Strike and Strikebreakers Given Increase to Total \$320,000.

ST. LOUIS, Mo., July 21 (AP)—The Missouri Pacific railroad today announced increases in pay to its shop employes, numbering about 9,000 men, to take effect from last Monday, July 10. The increase is two cents an hour for the skilled craftsmen and one cent an hour for apprentices and helpers.

The increase, according to an estimate given out by President Baldwin, will amount to \$320,000 a year.

The shop employes of the railroad now have an organization of the kind known as a company union, which is not affiliated with the American Federation of Labor. Negotiations for the increase were conducted by the management with this union.

Commission Grants Permit For New Road Construction

PERIOD OF WAITING IS NOW ENDED

GOVERNMENT WATCHES I. W. W. SITUATION

PORT ARTHUR, Texas, July 21 (AP)—The federal government today took a hand in the I. W. W. situation. Special Agent A. C. Sullivan arrived this morning and spent the entire day investigating conditions and causes leading up to the alleged mistreatment of James Hollan, I. W. W. organizer.

As far as I can learn from interviewing peace officers," said Sullivan, "the press reports have been very accurate." He is continuing his investigation. Sidney Torrey, district organizer here, said today that John McCollister, of New Orleans, who is saying that the trek toward this city so far has been interrupted, does not appear with authority.

The trial of the four members of the I. W. W. was again postponed in the city court this morning. It is probable the cases will be called Monday.

KIDNAPED SON IS FOUND

Fred School, Taken from Family when Two Years Old, Discovered Brothers After Absence of 37 Years

CHEYENNE, Wyo., July 21 (AP)—Kidnaped from his home in Laramie, Wyo., 37 years ago, when he was two years of age and his baby ways had worn the heart of a childless woman, Fred School, of Ogden, Utah, finally has located his family in this city and has learned the truth regarding his parentage. It was made known here tonight. He is a brother of three Cheyenne residents.

His mother, Mrs. Henry School, who never had dreamed of finding her lost child, died here about two years ago.

WANT SPECIAL SESSION

WASHINGTON, July 21 (AP)—A special session of congress to deal with the coal situation was advocated today by Representative Treadway, republican, Massachusetts, who declared legislation should be enacted creating a federal agency to regulate coal prices and distribution.

SOLID UNITY OF REPUBLICANS IS SENATOR'S PLEA

Fess Tells G. O. P. Meeting that Party Must Stand on Firm Ground or Risk Hazardous Political Experiment

CINCINNATI, July 21 (AP)—Commenting on the outcome of the election in Minnesota, United States Senator Fess said, in a statement made prior to the meeting of senators here, that republicans must stand firm on sound economic doctrines, otherwise both the party and the country are in for an experiment, the end of which no man can see.

"The Minnesota election resulted in it did because the farmer," Senator Fess said. In a statement made prior to the meeting of senators here, he said that "the republican administration is not going to be led astray because some demagogic orator offers a panacea for all the farmer's ills."

"The farmers' suffering and the low price of wheat has been brought about by no longer standing firm. The administration will do all that can be done to help, but it has no intention to fix things and thereby throw business conditions into confusion."

Sound Principles.

"The administration," he said, "is proceeding on sound principles and it has a definite policy. The low price of wheat is a natural consequence of war and post-war conditions. During the war everyone, including the farmer, was urged to produce to the limit. This was done and after the war the farmer kept it up with the consequence that millions of bushels of surplus wheat have been produced.

"When the farmer learns that there is no longer a market for his wheat, it will cease producing so much and the price will return to normal."

THREE FREED OF ASSAULT CHARGE

Acquitted of Flogging Women; Klan Investigator Is Given Fine and Jail Sentence

LUMBERTON, N. C., July 21 (AP)—A verdict of not guilty on three counts of an indictment on which they were tried was returned here this afternoon after 50 minutes consideration by the jury in the trial of Jule Brogden, Mike Lawson and T. W. Gray, charged with flogging, indicted and tried for kidnapping, assault and assault on women as a result of the kidnapping and flogging near Proctorville, N. C., on April 10 of this year, of Mrs. Mary Watson and Mrs. Hattie Purvis.

Following the verdict of not guilty on the three minor charges, Solicitor T. W. Gray immediately nolle prosequit the indictment charging first degree burglary, conviction on which would have carried with it the death penalty. The three defendants were released.

While the jury was out in the flogging case, Judge Sinclair heard the evidence against H. A. Tallaforo, who was charged with tampering with state's witnesses on which he was found guilty and sentenced to a fine of \$250 and 30 days in jail for each count, to run consecutively. Pending a probable appeal Judge Sinclair fixed bond at \$2,000. It was developed in the evidence that Tallaforo is a special investigator of the United States department of the Ku Klux Klan.

CLOSE-HUGE TIMBER DEAL

Consideration Amounts to More than \$2,000,000 in Sale of 72,000 Acres of Pine in Crook County, Oregon

PORTLAND, Ore., July 21 (AP)—Sale of 1,100,000 feet of pine timber on 72,000 acres of the Ochoco region, Crook county, for more than \$2,000,000 was negotiated here today between the Rogers Timber company of Eugene and R. A. Booth of Minneapolis. The latter announced formation of a company to be known as the Ochoco Timber company with \$2,500,000 capital. A large sawmill is projected at Prineville, which is within 18 miles of the Rogers tract.

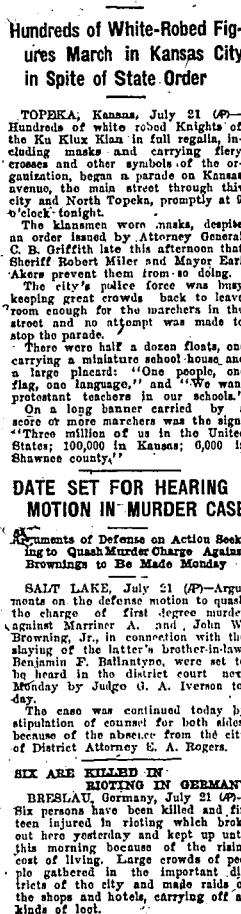

BILLINGS SWELTERS AS MEBOURY REACHES 102

Billings, Mont., July 21 (AP)—Billings experienced the hottest weather of the year when the official government thermometer mounted to 102 in afternoon. For the last three days the mercury has been three degrees above the hundred mark. No prostrations were reported.

WEALTHY PUBLISHER REPORTED DROWNED

ATLANTIC CITY, July 21 (AP)—Murat Rothchild, a wealthy Baltimore publisher, is believed to have been drowned while bathing here yesterday.

FRENCH PAPERS AIR VIEWS ON BRITAIN NOTE

Shroud of Secrecy Surrounding Reply to German Proposals Brings Pertinent Remarks from Editors

PARIS, July 21 (AP)—The shroud of official secrecy thrown about the British note regarding the reparations documents which were received from London this morning, does not prevent the press from discussing the subject. The French papers, however, confine most of their attention to discussing the British comments and dispatches. The speculations which are evoked are firstly that the British cabinet expresses its approval of the appointment of a committee of experts to reassess the German debt, such committee to be nominated by the reparations commission and to act as advisors to that commission, the latter clause being added in order to comply with the terms of the Versailles treaty.

Oppose Reassessment.

Such procedure is generally accepted as possible on juridical grounds, but the Temps argues that the text of the treaty does not justify it. The appointment of this committee is considered as futile and dangerous. The opinion is almost unanimously expressed that it would be certain to base its estimate on the inventory of the French chèque, rather than on the productivity of German industry. Secondly, that the note avoids censuring German passive resistance, but comments on the remarkable effects of the Ruhr struggle on the general economic condition. This point gives opportunity for a repetition of the statement that French public opinion will not be satisfied without formal and effective renunciation of passive resistance before France can renew negotiations with Germany.

Must Retain Debit.

Thirdly, that the note does not refer to the question of inter-allied debts. The papers assert that the French view cannot be changed and that reparations and inter-allied debts are inseparable. The negotiations now under way are generally regarded as certain to be long and laborious but it is believed they will result in an agreement as a rupture among the allies is considered unthinkable.

TWO BURN TO DEATH IN PLANE WHILE IN FLIGHT

Believe Proprietor of Detroit Photo Company and Pilot Lost Lives from Flames 1000 Feet in Air

DETROIT, Mich., July 21 (AP)—Howard N. Neal, proprietor of the Detroit Air Photo company, and a man believed to be Eugene Hancock, an airplane pilot, were burned to death late today when an airplane in which they were riding burst into flames 1000 feet in the air and crashed in the western part of Sandwich township, Ontario, about 12 miles southwest of Windsor.

The bodies were badly burned and death is believed to have come almost instantly. Identification of the bodies was made by the wife of Howard Neal, who flew to the scene of the crash in an airplane piloted by Eddie Stinson, a commercial aviator. Investigation of the crash was begun immediately by the coroner. The plane was so badly damaged that the cause of the accident could not be determined, following a hasty examination of the wreckage.

FIRE LEAVES BUSINESS HOUSES MASS OF RUINS

Blaze at Salamanca, N. Y., Spread by Gasoline and Dynamite Explosions, Does Damage Estimated at \$500,000

SALAMANCA, N. Y., July 21 (AP)—Fire, spread by gasoline and dynamite explosions, this afternoon swept through the business district of Salamanca, left the city hall in ruins and its way into three other business buildings, and jumped the main business street and spread into the residence section. It was believed to have started in a frame warehouse. At least five buildings were reported in the city hospital with burns and cuts from falling timber and glass. Many were overcome by smoke and heat. No deaths have been reported. At six o'clock tonight the fire was under control. The loss was estimated at \$500,000 to \$600,000.

Minister Marries After Courtship of Sixteen Years

CHICAGO, July 21 (AP)—The Rev. F. W. Knappe, 55, pastor of the Saint John's Lutheran church of Strawberry Point, Iowa, and Miss Mary Kalush, who came all the way from Germany, were married here today after a correspondence courtship lasting 16 years.

CAUSE ASCRIBED FOR WHEAT DROP

Senator Ladd Claims Retailatory Manipulation by Speculators Was Responsible

WASHINGTON, July 21 (AP)—The fall in wheat prices during recent months was attributed to manipulation by grain speculators in retailing the wheat, Senator Ladd, republican, North Dakota, on the eve of his departure for Europe, and made public today at his office here. "The wheat market," the senator asserted, "the wheat market started to slide, and since that time there has been a steady decrease."

Law with "Teeth in It"

"For thirty years," he continued, "the speakers successfully fought legislation that would curb the activities. Now finally this new law with a few teeth in it is proving to be a new and they inaugurated a period of lawlessness that has ruined the wheat farmer and the farm bloc in congress by which discipline they hope to eventually convince the wheat grower that he was all wrong in demanding laws which curtailed that power and that he must come back and ask congress to repeal this annoying measure, take the teeth from the law and again trust to the generous mercies of the wheat sharks."

Short Selling

"Their system has worked very cleverly during the last three months in driving down the prices of wheat by means of heavy short selling. The propaganda has been clever and the consistent crop estimates, weather reports, foreign supply and demand, domestic needs, possibilities of tremendous crops, all have been cleverly used to force the natural buyer out of the market in the belief that he would eventually buy at a lower price."

ONE OF BRITAIN'S OUTPOSTS

Island of Mauritius Just Small Part of Great Empire's "Far-Flung Battle Line"

Have you ever heard of "The Island of the Dodo"? Sounds like the same kind of the more or less mythical island of "Far-Flung Battle Line." However, there is such a place, because L. C. Barbeau is health commissioner of this island, and recently was a delegate to the national conference of social workers, held at Washington.

The Island of the Dodo, better known as the island of Mauritius, is a small principality under the British government off the southeastern coast of Africa, east of Madagascar. Its population consists chiefly of Hindoos, British, Dutch and a mixture of all three.

"The island," said Mr. Barbeau, "is often spoken of as the 'star' of the Indian ocean, but I prefer the name of 'Sugar Island,' by which it is also known in our part of the world. It enjoys a delightful climate and exhibits a quaint combination of tropical and temperate zone scenery. Its soil is completely free from heat of prey or venomous reptiles. The death rate, however, from disease is high."

This island is in the southern colonies of the tropics. It was once the home of the extinct Dodo. Originally colonized by the French, it was conquered by the English during Napoleonic wars, and has remained British.

Because of its excellent harbors and its situation on the sea route between India and South Africa it was at one time of much commercial importance, but this has been much reduced by the opening of the Suez canal. Dr. Barbeau's problem for public health work is that of a whole country with a population of nearly half a million inhabitants on an island only fourteen or fifteen miles in length. Dr. Barbeau is a graduate in medicine of the University of Edinburgh. He is director of the government laboratory in Mauritius.

JULY CLEARANCE SALE

OUR GREATEST OF ALL

Seasonal Disposal Sales

Swing Into Its Second Week with New Super-Values---Every Dept. Participating.

Make a careful inventory of the needs of your family, your home and yourself, and then come here and secure them at a remarkably large saving. The wisdom of buying in this sale is obvious and is substantiated by the prices in this advertisement.

BOOTH MERCANTILE COMPANY

PREDICT UNITY OF PARTIES TO MEET RADICALS

Brookhart Claims Progressives Are Gaining in Strength and Says Recognition by Conservatives Is Welcome News

CHICAGO, July 21 (AP)—The progressive element in congress welcomes the statement attributed to Senator Moses of New Hampshire in Washington yesterday calling for cooperation of the conservative and liberal republicans to meet the "menace of radicalism" and will win when the point comes to issue at the beginning of the next congress, Senator Smith W. Brookhart of Iowa, said today.

"The Lincoln republicans and the Jefferson democrats will be prepared for a united front with the republicans and the bourbon democrats when the next congress convenes," Mr. Brookhart, who passed through Chicago on his way to his home in Washington, Iowa, said.

Wall Organized.

Commenting on the statement of Senator Moses, who is chairman of the republican senatorial campaign committee, Mr. Brookhart said that the "progressives" were "practically well organized now," and that they welcome the public statement which recognized them to the extent of calling for a combination of conservatives of both parties in order to meet their needs.

The farmers now realize the situation, realize that they never have received a fair price for their products, and that a large number of them are faced with bankruptcy, Mr. Brookhart asserted.

"The interests of the farmer and the laborer are mutual," he said. "The laborer is the principal consumer of the farmer, and the farmer is the principal consumer of the laborer. The middle profiteers are common enemies of both."

Another point on which the farmers and laborers are united, Senator Brookhart said, is in the matter of "the water out of the railroads."

"The interstate commerce commission placed a valuation of \$19,000,000 on the roads, but the value of the stocks and bonds at all times has been less than \$12,000,000,000," he said.

STAGE IS SET FOR FAST TILT

Game This Afternoon Between Idaho Falls and Twin Falls Promises Much

Idaho Falls' baseball team will arrive on the noon train for a game with the locals.

This in itself assures the fans of a game that promises to be one of the best of the season. The invaders come here with a lineup that has the pick of eastern Idaho, and the magic city boys will have their hands full when they bump against Manager Gourley's outfit.

The local management will put forth its strongest lineup, although the batting order will be changed a trifle. Captain Bob Whitel, who has shown such marked improvement of late in his batting, will be used as a clean up hitter. Bruce Watson will start hostilities with the wilew, followed by Gene Ostrander. Jim Scelley will be the next in line, then Whitel and comes Harry Bile. Harry will do the catching this afternoon, with Don Livville throwing the back henders.

Don has been working hard all week getting his batting arm in shape, and he says that he is in fine fettle for today's battle.

Following Bile at the bat will be Sib Kliefner, then Jack Bailey, the team's new outfielder. Jimmie Hullah follows Jack and then the peerless Don.

With this batting in order in effect, it is readily seen that the tall end of the list is as powerful with the war club as the loaders, and was be unto the opposing pitcher when the artillery breaks loose.

Manager Gourley of the opposing team has very little dope, as stated concerning his team, although he offered that he came down here to win, and would feel hurt if he lost the game.

The proceeds of the game today will be used in paying off the indebtedness on the ball field, and a large crowd of loyal fans have signified their willingness to do their bit.

The game will start at 3 o'clock sharp.

PIRATES TAKE DOUBLEHEADER

Braves Lose Two to Contenders; Reds and Dodgers Split; Giants Win

BOSTON, July 21 (AP)—Pittsburgh won both games of a double header with Boston today, 14 to 4 and 6 to 4. Traynor opened the second inning of the first game with a homer and later in the same inning singled, Pittsburgh won by nine runs before the third man was out. Captain Southworth of the Braves made a homer in each game. Cooper won his second game of the series although his teammates were out in the second game.

First game: R. H. E.
Pittsburgh 14 18 2
Boston 4 12 0
Batteries—Morrison and Schmidt; Gooch; McNamara, Oeschger and Smith.

Second game: R. H. E.
Pittsburgh 6 12 0
Boston 4 13 3
Batteries—Cooper and Schmidt; Miller, Boston and O'Neill.

REDS BREAK EVEN.

BROOKLYN, July 21 (AP)—Brooklyn and Cincinnati split even in a double header today, the Reds thereby winning three of the series of five games. The visitors won the first game, 10 to 6, getting 18 hits off Grimes. League was effective until he retired in the seventh from exhaustion. Brooklyn won the second game, 4 to 2, through the effective pitching of George Smith. Couch was knocked out of the box in the third inning.

First game: R. H. E.
Cincinnati 10 10 0
Brooklyn 6 12 3
Batteries—Lague, Keck, Donohue and Hargrave; Grimes, Decatur and DeBerry.

Second game: R. H. E.
Cincinnati 4 12 0
Brooklyn 2 7 1
Batteries—Couch, Keck, Harris and Wingo; Smith and DeBerry.

GIANTS BEAT CARDS.

NEW YORK, July 21 (AP)—The New York Nationals raised their 1922 world's championship flag and 1922 National league pennant here today and celebrated the occasion with a 14 to 7 victory over the St. Louis club. The Giants drove out 19 hits, Gehr starting with two doubles and three singles in five times up. The game was preceded by a parade to centerfield in which the two clubs, Commissioner of Baseball Landis and John Heydler, president of the National league participated.

Score: R. H. E.
St. Louis 7 13 0
New York 14 19 1
Batteries—Barfoot, Stuart and Ainsmith; Nehf, Barnes and Snyder.

DIVID DOUBLE HEADER.

PHILADELPHIA, July 21 (AP)—Chicago and the Phillies split a double-header here today with the home team on the long end of a 17 to 4 score in the opener and the Cubs winning the

TIGER MISPLAYS HELP YANKS WIN

Leaders Take 3 to 2 Game, while Washington Beats Cleveland; White Sox Win

DETROIT, July 21 (AP)—New York coupled hits behind Detroit misplays and defeated Detroit today, 3 to 2. Shawkey was effective, but his wildness gave Detroit one run and he was replaced in the eighth by Sam Jones who stopped the Tiger rally.

Score: R. H. E.
New York 3 4 1
Detroit 2 4 1
Batteries—Shawkey, Jones and Schang; Daus, Cole and Baesler.

WILLIAMS HITS ANOTHER.

ST. LOUIS, July 21 (AP)—With two out in the sixth inning, St. Louis pounded Harris for eight runs, including a home run by Williams with two men on base and defeating Philadelphia 10 to 3 today. Score: R. H. E.
Philadelphia 3 7 3
St. Louis 10 11 0
Batteries: Walberg and Perkins; Danforth and Severeid.

SENATORS WALLOW INDIANS

CLEVELAND, O., July 21 (AP)—Washington came from behind and scored five runs in the eighth inning, defeating Cleveland 7 to 5 here today. The Nationals drove Morton off the mound in that inning, while Cleveland chased Zahnizer in its half of the same round. Speaker hit his third home run in three days, in the fourth inning.

Score: R. H. E.
Washington 7 11 0
Cleveland 5 13 2
Batteries: Zahnizer, Russell and Ruel; Morton, Shaut, Stephenson and O'Neill.

TWO FOR THE WHITE SOX

CHICAGO, July 21 (AP)—Chicago won both games of a double-header from Boston today, 8 to 1, and 2 to 1, the second game going 10 innings.

First game: R. H. E.
Boston 1 9 3
Chicago 8 9 0
Batteries: Murray, Fullerton and Walters; Cevengros and Schalk.

Second game: R. H. E.
Boston 1 3 2
Chicago 2 4 0
Batteries: Ferguson and Picinich; Robertson and Schalk.

second, 16 to 9. Both games were featured by hard hitting.

First game: R. H. E.
Chicago 17 12 1
Philadelphia 7 12 1
Batteries—Osborne, Fussell and O'Farrell; Wirtz; Ring and Wilson.

Second game: R. H. E.
Chicago 16 17 1
Philadelphia 9 12 3
Batteries—Albrigo, Keen and O'Farrell; Headbitts and Healine.

"If it isn't just right bring it back"

ESTABLISHMENT OF REUNION OF ALLIES SOUGHT

Report of Investigator Shows Germany Still Willing to Exploit Dissension of Other Nations

NEW YORK, July 21 (AP)—Dissension among the allies is the root of many current international difficulties because Germany, "still blind and unchanged in character, has been possible to exploit this dissension," Professor Henri Liechtenberg of the Sorbonne, who was commissioned by the Carnegie endowment for international peace to investigate the world crisis, says in a report.

In an introduction to the report, Estournelles de Constant says: "It is essential for the future civilization itself that the allies of France should not abandon her and that for their own sakes, the reunion of the allies must be established as soon as possible."

President Nicholas Murray Butler Columbia university, in the forward, declared that despite the difficulties arising from varying national viewpoints, he has no doubt that a substantial agreement will be arrived at between the French and German governments.

VETERANS' CLUB GETS NEW CHIEF

Last of Three Surviving Members to Get Honor of Drinking Bottle of Aged Wine

STILLWATER, Minn., July 21 (AP)—Peter Hall, 85, of Stillwater, Minn., president of the Last Man Club, which held its annual reunion here today, was elected president of the organization to succeed Adam Marty, organizer and president of the club, who died last winter.

Only three members of the surviving four of the famous club, which originated 39 years ago, when 34 members of company B, Minnesota volunteers, met on the anniversary of the battle of Bull Run. A bottle of wine obtained at the first meeting, it was agreed, is to be drunk by the last member.

Mr. Hall accepted the presidency with a short expression of gratitude.

Anniversary Banquet. "Our constitution provides," he said, "that when all but one of our members are dead, the last man shall attend the annual banquet on the anniversary of the battle of Bull Run, as usual, and with this bottle of wine, which has been kept intact since 1860, drink of a toast to his dead comrades. With this rite he will close the books of 'The Last Man Club.'"

"But it has occurred to me, as perhaps it has to you, that the last banquet would be a very sad occasion. Each banquet for many years has been saddened by the news of deaths, and I want to make a suggestion which we can consider for another year, and decide upon at our next meeting. That is that we change our constitution so that the last two men shall drink the toast and break up the club."

Suggestive Mode. The question of the disposition of the bottle came up and several schemes were suggested. One of these was that the bottle be sealed in a glass case and presented to the Minnesota State Historical society, but this one that secured to meet with the greatest approval was that after the last toast had been drunk, the bottle, with the remaining wine be sealed and presented to the Stillwater post of the American Legion, which is to form a similar last man club, and that it be passed on and on, until, if ever, the nations of the world combine to make all war impossible.

LA FOLLETTE TO RAIL. MADISON, Wis., July 21 (AP)—Senator Robert M. La Follette will leave Madison tomorrow afternoon for Washington and on August 1 will sail for Europe. The senator expects to be back in the United States early in November.

Swords and Fish. Indians still spear fish on some Canadian rivers with the old-fashioned trident. But in Haiti the natives use machetes, as the huge sword-like trident is called. The waters abound along the Haitian coast in mullet, mackerel, kingfish, cardines, red snappers, white fish, and many other varieties of excellent food fish, the common method of fishing by the natives is that practiced at night by the means of a torch and sharp machete. The light dazes the fish and the expert native kills it with his instrument.

"Bee Bread." Bee bread is the pollen, a fine yellow dust, collected by the bees from flowers. This is carried on the hind legs of the bee, the middle joint of which is made broad and furnished with a fan of strong hairs, so as to form a basket, admirably adapted for the purpose to which it is applied. This bee bread mixed with honey forms the food of young bees, for which use alone it is collected.

One Belief Not Sufficient. The inhabitants of some of the remote parts of China have the idea that the greater the number of religious beliefs they profess the more certain are their chances in the next world.

Negro Lad Saved By Suggestion of Practical Newsie

NEW ORLEANS, July 21 (AP)—In the Jim Crow era of a train speeding to New Orleans last night a negro father hovered over his small son. Usually at intervals he removed clothes from the boy's bag, soaked them in ice water and replaced them—obeying orders of the doctor of his home town.

Then came the time when it seemed the angel of death had claimed his victim. With his cry for "cigs, cigars and cigarettes and chewing gum" the "news hutch" stroled into the car where death had apparently visited.

"Why don't cher try hot cloths?" he suggested.

Passengers aided in getting hot water. Soon the hot cloths were applied. The boy's pulse flut ferred. He gasped. His eyes blinked. Suddenly he had been brought back from the dead. Aunty and negroes and white passengers looked on.

The hospital authorities declared if the boy lives he will owe his life to a practical newsie.

ORDER RECONSECRATION

Invasion of Motion Pictures and Screening of Muted Edifice Brings Order from Head of Catholics

BUDAPEST, July 21 (AP)—The papal nuncio, upon instructions from the pope, has ordered the famous coronation church of Saint Mathias closed until it has been reconsecrated because it has been desecrated through use as a site for a motion picture.

The famous edifice was utilized in screening a film drama depicting the Turkish fifteenth century century described in the historical novel of Geza Gardonyi to show the coronation of one of the Hungarian kings. The film company got permission from the civil and ecclesiastical authorities to stage the coronation ceremony on the identical spot on which all the kings from Arpads to the late Emperor Carl were crowned.

Permission also was given to one of the actors to wear the coronation robes of the archbishop, but as it was found that in the lens of this camera a wafer blessed by the pope had been sewed, the authorities would only allow it to be worn by a bishop, and Bishop Vlaszics participated in the play.

This assumption of the role of an actor by the bishop enraged the population which stormed the building at night while the play being filmed. One woman flung herself high on the altar saying that she would protect the church from pollution with her body. "The papal nuncio investigated and closed the church."

BAPTIST MEET GETS STARTED

Church Members from Thirty-Six Nations Answer Roll-Call at Stockholm Congress

STOCKHOLM, Sweden, July 21 (AP)—Thirty-six nations answered the roll call at the opening, this afternoon of the third congress of the Baptist World Alliance, and after a welcome from the Baptists of Sweden by Dr. J. Byström, president of the Swedish Alliance, and Premier Trygger, greetings were read from President Harding and the former British prime minister, David Lloyd George.

President Harding's message, presented through the Rev. W. S. Abernathy of Washington, his pastor, was as follows: "I should be glad if you will find an opportunity to convey to the Baptist World Alliance the greetings of a fellow Baptist and express for me the hope that we shall have throughout the world a continued growth in that religious devotion which makes a fine brotherhood of men in a conscientious worship of God. I believe with all my heart that nothing is more needed in the world today than the practical application of the spirit of Christ."

Mr. Lloyd George's message, conveyed through Dr. J. H. Shakespeare of London, secretary of the alliance, said: "Please convey warm greetings to my fellow Baptists gathered in Stockholm for the third world congress. I trust their deliberations may promote the cause of peace among nations, so that they may see in time the rocks upon which civilization is being driven. May a new faith and determination enable them to face the problems of the future."

SHOOTING STENOGRAPHER COST DENVER YOUTH \$100

DENVER, July 21 (AP)—It cost Donald Hackman, Denver youth, \$100 in 15 days in jail to shoot Thomas McCabe, police stenographer, after mistaking him for a prowler, and McCabe thought Hackman was a hold-up. McCabe started to run and was shot down.

"You were too ready with your revolver," said Judge Johnson. "Consider yourself lucky that you didn't get yourself punished."

"Dog Watch." The term "dog watch" is a corruption of "dodge" watch, the "dodge" being an arrangement to prevent men from being on duty every day at the same hour.

COMMISSION GRANTS

(Continued From Page One.)

struction being a tunnel of about a quarter of a mile in length through the high land or divide a few miles this side of the Nevada terminal.

According to the terms of the application for the certificate it is proposed to begin work by September 1 and complete the line by December 31 of this year. That this is physically possible is open to question but there is no question whatever as to the intention of the company to begin construction as soon as the engineering problems of the line are solved and to carry the work through to completion by the earliest possible date.

Open New Era. The successful consummation of the negotiations in connection with the road is here regarded as opening up a new era of progress and prosperity in Twin Falls in which all southern Idaho will share. The benefits to this section of an all year around outlet for the products of southern Idaho farms are almost beyond computation while activity at the mining town of Connet, Nevada, about midway between Twin Falls and Wells, which the new line renders possible, is expected to be such as to enhance values of every kind and make of this city a trading point and commercial center second to none in the state.

For years past interest in the project of this line has been keenly felt by the granting of complete permission for expansion held in abeyance for years are confidently expected to again be drawn from the pigeonhole and shown in the light of the cheerful optimism which goes hand in hand with development.

Local men who have kept closely in touch with the project step by step for years past and who were chiefly responsible for the move which has resulted in the Short Line's determination to build are unreserved in their expression of complete confidence in an enlarged business outlook locally and a period of development and expansion generally in which all will share.

WE HAVE IT!

There should be less pessimism in the Twin Falls country now, as a result of the granting of the necessary permission for the construction of the Wells-Rogerson line.

There is no occasion for organized celebration over the news of the removal of the last obstacle in the way of the carrying out of the plans for the new line, there is occasion, however, for a return of something of the old attitude of cheerful optimism with respect to the future which at one time made of the Twin Falls country a place where it was good to live.

Step by step, with every move and every development a thoroughly logical one, the program of railroad extension as contained in the announcement of intention to build, has been carried out exactly, without a hair's breadth of deviation from the straight line of business prudence.

Doubters there have been and will ever be, but the facts as set forth in the record give the lie to any and every suspicion of bad faith or intent to deceive. From the very first the negotiations have been attended by a degree of frankness on the part of the railroad men which could well have been accepted as the best of all evidence of a sincerity one hundred per cent fine. Comes now the granting of the Certificate by the Interstate Commerce Commission. If celebrations were in order, now would be the time for celebrating.

There is no case on record where railroad extension injured a countryside, no example of ill effect following the building of a line of steel. There are numerous examples of a development undreamed of by the most optimistic coming in the wake of such activity, many within the knowledge and experience of men who in the days to come, will share in the advantages now within the grasp of this City and, to a lesser extent perhaps, of all Southern Idaho.

This is a time for a restoration of the quiet confidence which goes with a sane outlook and applied common sense.

The Twin Falls country is in for an era of development which may prove the biggest single incident in her history; so, too, is Northern Nevada, a piece of solid good fortune which will be shared in by every town and camp in either fortunate section.

A WHITE MAJORITY

South Carolina's whites are in the majority this year for the first time in more than a century. The negro exodus to the industrial centers of the North, stimulated by business

properly and the demand for unskilled labor, has swung the balance and the state again takes rank among those where white citizens of native American stock are predominant numerically as in business and politics.

Since the days of reconstruction the whites of South Carolina, embittered by their political and economic woes in that period, have felt constrained to greater efforts to maintain their supremacy than in helping to develop the latent possibilities of the blacks who dwelt among them. Now, with a clear majority of their own stock among the voters, they have opportunity to undertake the work too long left undone and to attempt it in a new spirit.

In northern centers of population, Americanization work among the newcomers from overseas progresses steadily, if slowly, and there can be no question of its value not only to the immigrants but also to the Americanization workers themselves and to their communities. The problem of the South is, in the last analysis, somewhat similar, and persistent of

fort toward its solution cannot fail to be productive of gratifying results, however slowly these results may come.

Circumstances beyond the South's control have hampered the work far too long. The shift in population should make endeavor to this end increasingly productive, and the whole nation will profit with the South as it develops.

Fifteen Years Ago in Twin Falls

From The News Files July 24, 1908.

The Twin Falls Salmon River Land and Water contracts have all been completed and sent to the state land board for record. The entries should all receive their contracts within two weeks time provided no unlooked for delays come up.

Mr. and Mrs. Stuart H. Taylor are receiving congratulations on the birth of a little daughter Wednesday, the 22nd.

Twin Falls lost one of its most respected citizens in the death of A. D.

Drandall, which occurred very suddenly Friday.

The excavation for the new Methodist church on Shoshone avenue is well under way and in a short time the foundation will be laid. Only the chapel will be built at present, the main auditorium being built later on. The chapel will have a seating capacity of 450.

Howard M. Skeels of Proctor, Vt., has accepted a position with the Methodist pharmacy. Mr. Skeels was accompanied to Twin Falls by Perley B. Negus and Frank F. Morganson, both of Proctor, and John Copeland of Rutland.

A double wedding occurred at the home of Mr. and Mrs. H. A. Cryder, southwest of town, last Sunday afternoon, when Harold Cryder and Miss Anna Stiles, and Hilda Roda Cryder and Arthur C. Smith were married by the Rev. J. H. Sehenek of Twin Falls. The ceremony was witnessed by only the members of the families.

Jake Fritz, known to nearly every one that ever visited the Twin Falls tract, left the city Tuesday morning for British Columbia.

The sale of town lots which took place at Buhl on July 21 attracted a large crowd of people, and over \$20,000 worth of lots were sold in less than three hours. The sale was conducted by R. M. McCollum of the Twin Falls Investment company.

Farmers desiring federal loans this fall should have their applications written soon.

INTEGRITY SERVICE

Announcement

THE STUDEBAKER CORPORATION OF AMERICA is pleased to announce to its customers, friends, and the public generally, its complete line of new

1924 Model Studebaker Cars

Avoiding the superlatives frequently used in automobile advertisements, the Corporation desires to faithfully state the facts concerning these cars and the reasons why the public should buy them.

THE CARS

In design, quality of materials, standard of workmanship, durability, refinements, performance, freedom from repairs, and price, the Studebaker 1924 Model Cars are distinctly the greatest intrinsic values the Corporation has ever offered.

Every improvement the safety and practicability of which have been verified by engineering tests is embodied in these new cars.

The Big-Six

THE BIG-SIX LINE comprises four models, mounted on the standard 126-inch chassis with 60 H.P. 3 3/4 x 5 inch motor:

7-passenger Touring Car - \$1750 5-passenger Coupe - \$2550
 5-passenger Speedster - \$1835 7-passenger Sedan - \$2750
all prices f. o. b. factory

Refinements and a few minor mechanical changes have been made in the Big-Six, which has established an enviable record for five years. Our large production accounts for its low price. It is a car of the highest grade, comparable to the best.

The Special-Six

THE SPECIAL-SIX LINE comprises four models mounted on the standard 119-inch chassis with 50 H.P. 3 3/4 x 5 inch motor:

2-passenger Roadster - \$1325 5-passenger Coupe - \$1975
 5-passenger Touring Car - \$1350 5-passenger Sedan - \$2050
all prices f. o. b. factory

Radiator, hood, cowl, and body changes have been made in the Special-Six with minor mechanical changes and refinements in the chassis. The Special-Six has for five successive years added luster to the name STUDEBAKER. It is one of the most satisfactory and finest cars on the market. It is as good in every respect as the Big-Six, except that it is smaller, and costs less to produce, and therefore sells for less.

The Light-Six

THE LIGHT-SIX LINE comprises four models, mounted on the standard 112-inch chassis with 40 H.P. 3 3/4 x 4 1/2 inch motor:

3-passenger Roadster - \$975 2-pass. Coupe-Roadster - \$1225
 5-passenger Touring Car - \$995 5-passenger Sedan - \$1550
all prices f. o. b. factory

No body or mechanical changes except refinements have been made in the Light-Six. Over 130,000 Light-Sixes have been produced in the new, modern \$30,000,000 Studebaker plant at South Bend, Indiana, under most economical and

almost ideal manufacturing conditions. In our judgment, it stands out as the greatest value and the closest approach to mechanical perfection in moderate priced cars yet produced.

THE REASONS WHY

With \$90,000,000 of actual net assets and \$45,000,000 invested in plants, Studebaker has ample physical facilities to manufacture most economically.

Studebaker's organization of manufacturing executives, engineers, metallurgists, chemists, inspectors, and skilled mechanics is second to none in the industry. The design of Studebaker cars and the workmanship upon them conform to the highest principles of engineering standards and mechanical practice known to the industry.

Best of Materials Used

Studebaker cars contain the finest known grades of iron, steel, aluminum, tires, electrical equipment, glass, bearings, etc. No better materials for automobile manufacture exist. Sheet aluminum has but one-third the tensile strength of sheet steel, and consequently, Studebaker uses sheet steel for its bodies.

By the manufacture of drop forgings, castings, stampings and the machining, assembling and finishing of motors, axles, frames, transmissions, bodies, tops, etc., and the consequent elimination of middlemen's profits, coupled with lower overhead factory costs per car arising from quantity production and low commercial expenses, Studebaker's costs are kept at an economically low point possible of attainment only by manufacturers with vast physical and financial resources.

Bodies Unexcelled

The bodies of Studebaker cars are not excelled in quality of materials and craftsmanship by any cars on the market. The Coupe and Sedan closed bodies are magnificent examples of the coach builder's art.

Merit Wins

The sales of Studebaker cars for the past six years have shown each and every year a progressive increase. 81,880 cars were sold in the first six months of 1923 as against 60,053 for the same period last year. Only products of merit can make such growth.

REVELATIONS OF MR. CONOCO—the most contented motorist in six states!

“Comparatively speaking—”

YOU can go about as far, and as quickly, with "anonymous" gasoline as you can in a boat with cheese-cloth sails. "This car of mine, however, doesn't have to struggle along on that kind of diet. No sir!—not when it's so everlastingly easy to stop at the CONOCO sign—and to know that I'm getting a fill that has the proper 'kick' in every drop.

THE CONTINENTAL OIL COMPANY

Marketing a complete line of high-grade petroleum products in Colorado, Wyoming, New Mexico, Utah, Idaho and Montana. Use Conoco Copper Books. They are convenient and save you time and trouble making change. Good at all Continental Service Stations and accepted by dealers generally.

OIL SEEKERS FLOUT VIEWS OF GEOLOGIST

Unfavorable Report on Prospects in Southern Idaho Brings Pungent Retort from Drill Operator

Unfavorable report made by state and federal geologists on prospects for securing commercial supplies of petroleum or natural gas in southern Idaho, issued by the Idaho bureau of mines and geology, will not affect the activities and plans of drillers and their financial backers in the Goose creek region in the vicinity of Oakley.

When advised of the publication of this report Saturday, P. M. Carpenter, who almost four years ago put down the first bore for oil in the Goose Creek region and who is now engaged with other financiers in securing a lease on a promising well within a short distance of the first, declared:

"Publication of the geologists' opinion as set forth in the report makes me all the more confident that we are going to be successful in our search here for oil in commercial quantities."

"The reports once turned down the whole state of Texas, and advised that persons engaged in the search for oil there were wasting their money."

Point to Cripple Creek

In this connection it was pointed out also by men here who have observed activities in the Goose Creek region with considerable interest that geologists and geological experts had once declared that search for precious metals in the Cripple Creek, Colorado, district was a hopeless undertaking.

The controversy thus inaugurated between the geologists on the one hand and the oil seekers on the other is of interest here principally by reason of the hope built up of the possibility that development of oil resources that may be discovered will contribute to the wealth and upbuilding of this region.

Both Goose Creek enterprises are being conducted without the aid of Idaho investors' money.

Drilling operations well in the Goose Creek region for what is known as the West Pearl interests was begun in 1920 by Mr. Carpenter. The log of this well was made public by Mr. M. although Mr. Carpenter has stated that other oil sand was discovered at a depth of some 1300 feet, and that water encountered at a lower depth is believed to have shut off a possible flow of oil.

Backing Judgment

The fact that Mr. Carpenter later returned to drill a second well within a short distance of the first, is regarded as strong evidence that in his judgment there is oil in paying quantities to be found there. Mr. Carpenter has made no further drilling and search for oil but his work here has had experience in oil fields throughout the United States.

It is known that preparations have been made for the drilling of a well on the first well with a view to the possibility of encountering oil at a lower level. Some weeks ago there was noted at the well 47,000 worth of new casings to be used in this work.

BUILDS SERMON ABOUT TROUBLESOME WORD "IF"

Colonel George H. Davis, Salvation Army crusader, opens Ten-Day Revival Meetings Here

Lieutenant Colonel George H. Davis, Salvation Army crusader, from San Francisco, arrived in the city Saturday afternoon and began his ten-day revival meetings in the Lavering theater Saturday night.

"If" was the text chosen by the crusader, and he sought those things which are above, was the text from the scripture chosen by the colonel for his opening sermon. Hereafter the word "if" changed many things and he carried his argument to a conclusion, stated that "if some men were better husbands their wives would be better women. If some women were better wives, their husbands would be better men. The same applies to parents and their children," he continued.

"Peace and purity are the two things every man and every woman should strive after. They are the essence of Christianity," he concluded.

Captain H. H. H. announced that the local Salvation Army post, announced that services would be held in the Lavering theater tomorrow at 11 a. m., 2:30 p. m., 6:15 and 8:30 p. m. Services will also be held every evening next week.

ESTABLISHES INNOCENCE

Joseph Bennett Comes From Nevada To Prove He Was Wanted For Issuing Fictitious Checks

Joseph Bennett, in probable court here Saturday, established his innocence and guilt in connection with the alleged issuance of a fictitious check drawn in favor of an individual bearing his name and which was cashed at the Diamond Hardware company here, Bennett, who is employed by William Hoops in highway construction work in Nevada, returned to Twin Falls to prove his innocence following his arrest at Elko in connection with the case. F. D. Hunt, at whose instance the complaint in the case was issued, in court proceedings was not the guilty person. Bennett left Saturday evening, returning to his employment.

Chamber of Commerce Cares Crossing Principal Intersections

How many cars in the course of a day will cross the intersection of Main avenue and Shoshone street in Twin Falls?

Or, more strictly, perhaps, how many times in a day will the intersection be crossed by automobilists?

The question is one that is likely to appeal to the interest as well as the curiosity of most Twin Falls citizens, because it comprehends something more than a guessing contest. Upon the answer may depend, for instance, a fair idea as to the number of motor cars in Twin Falls and surrounding territory. Or, if a count were kept with that idea in view, it might shed a revealing light on the extent of tourist traffic in the city. The latter might have one phase of special interest to automobile men and service station operators, and another to the average citizen.

In any event it would be a pretty good criterion to the importance of Twin Falls from the standpoint of those who travel in motor cars for whatever purpose.

It was considered especially in view, the Twin Falls Chamber of Commerce set out Saturday to answer the question. It employed checkers who stood at the corners in the morning until 8 o'clock in the evening at the intersection counting the cars that passed. The results were compiled Saturday night and are as follows:

Deductions to be made from the fact have been left so far to the individual to whom it has been made known.

Calls on Tourists to Keep Park Clean

Twin Falls Commissioner Endorses Campaign Launched by Motorists' League

Park Commissioner W. H. Dwight today received a letter from Secretary Carl H. McHugh of the Motorists' League for Countrywide Preservation, with suggestions for the cooperation of local automobile owners in a campaign to "clean up as they go."

Commissioner Dwight is in hearty accord with the league, which President Harding is honorary head and three members of the cabinet are members of the national committee.

The object of the league, Commissioner Dwight thinks, is to instill in the motoring public a sense of stewardship and responsibility. Investigations conducted at many points have proved the prevalence of an untidy practice of littering the countryside with rubbish. The rapid growth in the number of motor cars and the people who take their vacations in cars has resulted in a real menace to the natural beauty of the countryside; while the damage done by fires started from the carelessness of motorists has cost the country millions of dollars yearly.

As is the case here some control can be exercised by the local authorities, the park commission, but after all it is realized the only effective way to stop the practice of leaving litter and dirt about is by appealing to the motoring public.

Secretary McHugh invited Commissioner Dwight to enlist local motorists in the campaign, but after all it is realized the only effective way to stop the practice of leaving litter and dirt about is by appealing to the motoring public.

BURGLARS ENTERED BANK OF HANSEN

Yeggmen Display Skill in Entry to Defunct Institution; Taking Nothing for Pains

The Bank of Hansen at Hansen, Friday night was entered by burglars who pried off the lock of the outer door, forced open the door of the vault, dived into the safe and broke open 15 safety deposit boxes and left, according to accounts made Saturday by the sheriff, without anything of value as a reward for their efforts. The burglary is believed to have been the work of experts. Telegraph and telephone lines entering Hansen were severed. The burglars completed their undertaking without attracting attention and departed without leaving a finger print or other trace that might lead to their identification. The burglary was not discovered until Saturday morning, and the sheriff's office received word of the occurrence when a Hansen resident telephoned from Kimberly.

It was stated which the burglars performed their work leads the officers to believe that the burglary was the work of experienced safecrackers, but in respect to their identity they neglected to inform themselves of the fact that the Bank of Hansen was closed last December. The fact of the closing of the bank, which has since been in control of its affairs.

Sheriff Finch, who made a thorough investigation Saturday of the robbery, stated that tools especially adapted for the work must have been used by the yeggmen. An explosive that produced a hole in the concrete above the blowing open the door of the safe, a hole having been drilled near the lock for this purpose. A soft substance resembling soap was used in connection with the operation.

Safety deposit boxes were forced open, heavy steel tongues holding the boxes, being broken in this operation.

It is believed that there was nothing of value in any of the safety deposit boxes that were opened. One man who had been identified by the sheriff as possessing himself after the robbery of a number of deeds and insurance policies which he had left in safe keeping there.

LIGHTNING BOLTS HITS DWELLING HOUSE HERE

Residence of William Thompson, Third Avenue East, Target for Bolt During Brief Storm

Lightning during a brief thunderstorm here Saturday afternoon put electric lighting and cooking facilities momentarily out of commission throughout considerable sections of the city, and struck the residence at 141 Third avenue east of William Thompson, colored porter for the Baugh building and other Twin Falls business blocks.

The bolt, striking the roof near the chimney, set a fire which quickly entered the living-room, where it tore papers to fragments and performed other freak tricks without causing a fire. Residents of the house were away from home at the time.

WILL HEAR WAGE CASE

CHICAGO, July 21 (AP)—Arguments on the requests for increases in the wages of electrical workers on 68 railroads of the country, and on the adjustment of inequalities in the working rules, will be heard by the United States railroad labor board Monday when representatives of the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Station and Express employees appear before the board.

JOE O'BREAM

J. C. WHEELON, General Manager.

Society

Several parties have been given the past week complimenting Miss Vivian Stone, who leaves today for her home at Milwaukee, Wis. The first was in Twin Falls at the house guest of Miss Aylene Booth. Among them was a delightful swimming party at the McNew home on Sixth avenue east where a picnic luncheon was served after the guests remained for a breakfast in the morning. Those present were the Misses Vivian Stone, Aylene Booth, Neva Clear, Imogene Craven, Mary Bailey and May Franklin.

On Friday evening Mrs. C. E. Booth gave a plunge party at Arctean in the basement of the city park. The party was given in honor of Mrs. C. E. Booth and was followed by a picnic supper. On Saturday evening Mrs. Boy A. Reed was hostess at a dinner party with Miss Stone as the honor guest. The guests included Mrs. C. E. Booth and the Misses Aylene Booth, Neva Clear, Anna McNew and Imogene Craven.

Communitarian house guests, Miss Eugenia Craven of Boise, and Miss Mary Thompson of Caldwell, Miss Mary Alvord entertained with a tea on Saturday afternoon at her home on Sixth street. A rose colored evening was carried on in the decorations for the charmingly appointed table. Sweet peas in a crystal bowl formed the centerpiece, and rose candies were the guests added to the general effect. Mrs. Arthur J. Peavey and Miss Ramona Hughes poured. Mary Blanche White and Betty Lou Peavey received the guests at the door, and Miss Dorothy Irwin and Miss Polly Thomas assisted in serving. Miss Clara Kirk rendered several piano solos during the afternoon. About thirty-five guests were in attendance.

ANNOUNCEMENTS

On account of the Chautauqua week Mother will hold their annual picnic at the country home of Mrs. Thomas Irwin on Friday, July 27, instead of Wednesday, as previously planned. Each one will be bringing their own dishes and silverware, and meet in the park at 10 o'clock, where cars will be waiting to convey all those who have no way of getting there.

There will be no luncheon for the Business and Professional Women this week.

Mrs. Harry Mylar was the guest of honor at a charming bridge party Friday afternoon, given by Mrs. J. B. Williams at her home in the Reed apartments. The rooms were artistically decorated with sweet peas. Mrs. J. Paul Johnson was the successful contestant for high score, and Mrs. Mylar was given a miscellaneous show. A two-course luncheon was served after the games. The guests were members of Mrs. Mylar's bridge club, and a few of her intimate friends, and included Mesdames L. H. Taylor, E. E. Madden, A. Alexander, J. E. Kalmann, D. L. Lavin, Ernest White, Alvin Harbaur, Ray Brown, W. J. Helm, C. V. Hinkle, J. Paul Johnson, and Mrs. Bert Brodie of Fort Boise, Okla.

PERSONAL

Back from Business Trip—W. J. French of the Victory garage has returned from a business trip to Butte, Montana.

Kept Home by Illness—A. Guiberti, one of the pioneer residents of Twin Falls, is confined to his home by illness from which he has been suffering for some weeks.

On Outing Trip—Mr. and Mrs. E. Raines and family, accompanied by A. Y. Bailey, will start the next two weeks on an outing at Easley hot springs on Wood river.

Licensed to Wed—A marriage license was issued Saturday at the office of the county recorder here to Cecil J. Dollman, 22, and Jennie H. Prince, 18, both of Buhl.

Entertain at Picnic—The Past Noble Grand club of the Rebekah lodge entertained at a picnic supper at the home of Mr. and Mrs. W. B. Hong on Kimberly road on Thursday evening.

Leave for Visit—A. Dayzley, department manager for the W. Wright and Sons' store here, with his family has left to spend the next ten days visiting relatives and friends in Salt Lake and Ogden.

Here For Visit—Mr. and Mrs. R. R. Flack and children of Fruitland, Idaho, arrived today to visit at the home of Mr. and Mrs. J. A. Johnson, on Fifth avenue north. Mr. Flack is a prominent orchardist of Fruitland.

From Postoffice—M. G. Mitchell, superintendent of Twin Falls schools, who is at present on the faculty of the summer school being held at Pocatello, came in Saturday and will spend Sunday here.

I have installed a

WAINWRIGHT SCORE FILLING MACHINE

This machine melts and deposits in cylinder scores or water jacket cracks a metal filling which amalgamates with the original structure and becomes a part of it. It is not a welding machine for joining broken or cracked parts in which there is a breaking or torsion strain, such as frames, for instance.

This machine operates electrically, depositing special non-oxidizing metal into either the scores or cracks.

There are no connection joints after the operation is complete—it is a perfect union of metal to metal.

Cracked water jackets of every description can be repaired without being removed from the car.

Gas engines, steam engines, hot water tanks in stoves and furnaces, also steam radiators—in fact anything made of cast iron can be repaired by this machine.

Out-of-town work will have our prompt attention. Phone or write for prices. We will gladly give you any information desired.

MUSIC LOVERS GET Full Day's Treat

Talented Singer and Orchestral Quartet Delight Chautauqua Audiences

MONDAY'S PROGRAM

2:30 p. m.—Cartoon-lecture, Beatrice Stuart Welt.

9 p. m.—Address, "The Remains of the Day," by "The Remains of the Day" Quartet, Tom Skyleski, recently returned from Europe.

Saturday's Chautauqua program was likely to appeal especially to music lovers; but, if the attendance guide and evening is a dependable guide, it is evident that there are at least as many music lovers in and around Twin Falls as can be accommodated comfortably in the big, brown canvas top at the corner of Second street and Broadway, that has been erected for Chautauqua.

In a varied repertoire, ranging from popular to classic numbers, James Hanson, American lyric tenor, singing the old but never forgotten song, burst of applause following each number at the Chautauqua, which was the singer's gift to the audience.

Assisting artists were the Charles Mitchell Mixer orchestral quartet, well known eastern chamber music group, that has been organized to meet the growing demand for better things in music. The quartet presented the full afternoon performance rendering standard classical works as well as popular numbers.

No Chautauqua numbers will be presented Sunday, but the Chautauqua as a club association will have been at the disposal of the Ministerial Association for union services, heretofore held during the summer season in the city park.

The association will have been accepted, and the speaker, it is announced, will be J. C. Dillon, interstate secretary of the Oregon-Idaho district of the M. C. A. and Secretary of the Twin of the organization for Idaho.

FUNERALS

Henry R. Carr.

Unless word of the wish of the son in California to attend is received, it was announced Saturday evening, funeral services for Henry R. Carr, Twin Falls pioneer, who died early Saturday morning, will be held at 2:30 o'clock Monday afternoon at the J. E. Dewitt church south of town, and will be conducted under the auspices of the local cemetery, Woodmen of the World.
