PRICE FIVE CENTS

SENATOR FROM SOUTH ENTERS IN 1924 RACE

Senator Underwood Announces Candidacy as Democratic Nominee for Election to the Presidency

MONTGOMERY, Ala., July 31 (AP)—Oscar W. Underwood, senator from Alabama, minority leader in the upper house of the national congress and appointee of President Harding as representative of the United States in the disarmament conference at Washington, cast his hat in the ring as democratic candidate for president here today.

While declaring the question of becoming a candidate was one that I cannot decide for myself, Senator Underwood told his audience, which packed the old state house here and overflowed into the streets—that he had received many honors from the people of the state, but "to have my state for the second time suggest my name as the presidential candidate of my party is the crowning honor."

Senator Underwood came to Montgomery as the guest of the legislature to respond to the resolution adopted recently by that body endorsing him as a candidate for democratic nomination to the presidency.

At the conclusion of his address to the legislature this afternoon that body resolved itself into a mass meeting at which additional resolutions were adopted lauding Senator Underwood's records in both branches of congress and offering him to the democrats of the country as Alabama's choice for the presidency.

Replies to Baker
In addition to enumeration of his ideas of the coming presidential campaign in his address today Senator Underwood took occasion to reply to Foster Baker, general superintendent of the Anti-Saloon league, who in a recent statement branded the senator as a "wet."

Mr. Underwood recounted his reasons for his votes in congress in opposition to the eighteenth amendment and the Volstead act and asserted that despite these votes and since the 18th amendment and the Volstead act have become the law of the country, he stood for rigid enforcement.

"You know," the senator declared, "and I have no desire to apologize for or retract the position I have taken in the past, when the issue of adopting the 18th amendment to the federal constitution was before the American people, I opposed it because I thought temperance could be obtained better along another line. But the states of the Union have delegated to the federal government the right to prohibit the manufacture and sale of alcoholic beverages. That decision by the people of this country closed the issue so far as I am concerned."

Great Views
Before launching into the subject of his candidacy as a southern nominee, the senator reiterated previous statements regarding foreign policies and gave his views on taxation with a comparison of the tariff under democratic and republican administration. He declared Europe furnished the only market for America's surplus agricultural products.

DISCREDIT REPORTS ON REPUBLICAN MOVEMENT

American Advisor in Belief Work Urges Recognition of New Greek Ruler

WASHINGTON, July 31 (AP)—Press dispatches from Europe to the effect that the republican movement in Greece was spreading were discredited in a statement made public here today by Frederick P. Salomon, American advisor to the Greek government in connection with refugee relief work in Greece. He has just returned to the United States from Greece, coming via Lausanne, where he conferred with former Premier Venizelos of Greece.

Mr. Salomon said the reports were significant in that they apparently came from centers that are interested in keeping up an agitation unfavorable to Greece.

"I am authorized by Mr. Venizelos," his statement said, "to say that while he is, of course, a democrat at heart, he believes that the best form of democracy is that which enjoys under the present form of government. Therefore, he is unqualifiedly supporting the dynasty."

Mr. Salomon said that "while the United States has not as yet recognized the present king of Greece, it is hoped that now that the Lausanne conference is over, it will do so without delay."

Utah's Cigarette Law Brings Big Revenue

SALT LAKE, July 31 (AP)—A total of 599 permits for the sale of cigarettes were taken out during the first two months of Utah's new cigarette law, according to figures made public here. The revenue received for the sale of stamps for cigarettes aggregated \$25,000. The report was for the entire state. The new cigarette law went into effect May 8.

SCORES KILLED IN TRAIN CRASH

Express Smashes into Standing Cars at German Capital; Estimate 100 Dead

BERLIN, July 31 (AP)—A great disturbance occurred at the Krolacas station, at the junction of the Hanover and Cassel line today, caused by a collision between the Hamburg-Munch express and a train standing at the station. Up to 4 o'clock 44 bodies had been recovered from the wreckage and the estimated number of killed was 100, while 84 injured were removed to the hospital at Goettingen.

Identification of the killed is extremely difficult and in some cases impossible, owing to their mangled condition. The crash was terrific and most of the cars were scattered and piled on top of one another. Those who were instantly killed suffered the happiest deaths, for many others were crushed in the wreckage and endured agonies before the end came. Many of those rescued also suffered prolonged tortures before they were extricated.

WILL FLOAT SWISS LOAN

NEW YORK, July 31 (AP)—J. P. Morgan and company announced this afternoon that a \$20,000,000 Swiss loan would be floated in this country. A public offering of three year notes will be made.

Chief Executive on Road to Recovery; Address Shows Achievements Abroad

INVESTIGATE CRASH OF HARDING'S SHIP

SEATTLE Wash., July 31 (AP)—The United States navy transport Henderson, which carried President Harding and his party to Alaska, was the "sunk" steamer which early last Saturday rammed the five-masted barkentine Monterey in a dense fog in the straits of Juan de Fuca, it was learned at Puget Sound navy yard at Bremerton, near here, today.

ROADS REFUSE TO GRANT REDUCED RATE ON WHEAT

Request of Omaha Campaign Organization Is Declined by Executives of 17 Lines in Grain Belt

OMAHA, July 31 (AP)—Executives of 17 railroads operating in the grain growing states, in conference at Chicago last Monday, unananimously declined grant a 25 per cent emergency reduction in all-rail export rates as proposed by Omaha's buy wheat and flour commission, it was announced here today. The announcement was made by the local chamber of commerce after receipt of a letter to that effect from the Chicago conference.

Harding Reported by Physicians to Be "Doing Well"; Crisis Is Passed and Gain Is Maintained

PRESIDENTIAL HEADQUARTERS, SAN FRANCISCO, July 31 (AP)—President Harding is "doing well," said his personal physician, Brigadier General Charles E. Sawyer, in an informal statement, issued at 9:10 P. M., and had just had the best night's rest since his illness began.

President Harding was sleeping peacefully shortly after 11 o'clock tonight, and a bulletin issued at 11:30 by Brigadier General Charles E. Sawyer, his physician, said that the chief executive was "resting comfortably."

General Sawyer's statement was given newspaper men who met him in the corridor as he started out for a walk, his first moment of recreation since Sunday, when the president was brought to San Francisco, now admittedly a very ill man.

"I am taking my first vacation," said the general, as he and Mrs. Sawyer, both smiling, started for the elevator. The general's demeanor was a marked contrast to the serious expression he wore when he met newspaper men 12 hours before, prior to the day's first consultation of physicians.

Secretary Christian Reads Prepared Address; Disfavors Recognition of Russia; Cites Peace with Nations

Restates Position on World Tribunal

Prefers Court as It Exists; Retains Advancement in Foreign Relations

PRESIDENTIAL HEADQUARTERS, SAN FRANCISCO, July 31 (AP)—Secretary George B. Christian made public tonight the address President Harding was to have delivered in San Francisco this evening at the banquet in honor of the accomplishments of the administration in the international field.

In the address were presented the views of the administration on pending relationships affecting the United States in the permanent court of international justice as the next major step to be taken.

"With becoming dignity we have maintained our rights; we have yielded willingly to the rights of others, and we dwell in cherished and unthreatened peace," he declared after enumerating the achievements of the last two and a half years, including the conclusion of peace with Germany, Austria and Hungary, the arms conference and the British debt settlement.

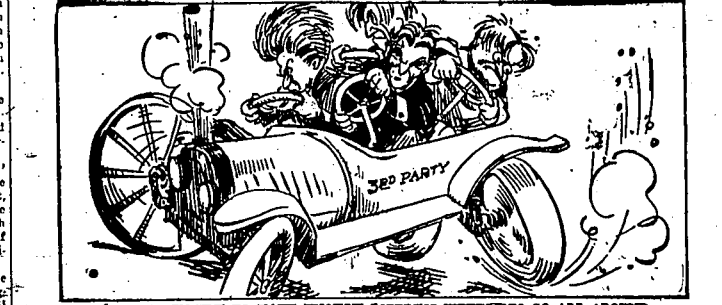

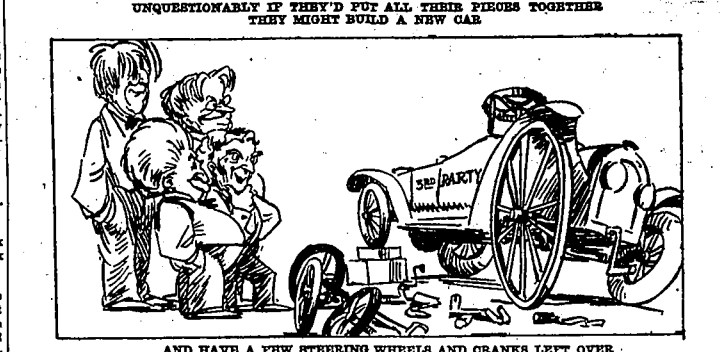

BANKS CLAIMED TO BE EQUAL TO CREDIT DEMAND

Financial Institutions Throughout the Country Can Meet Seasonal Requirements; Reserve Board Says

WASHINGTON, July 31 (AP)—The present strength and liquidity of banks and the added facilities for agricultural financing assure supply of credit to meet this year's seasonal requirements, in the opinion of the Federal reserve board.

The board's views, made public tonight in a monthly business statement, emphasized, however, that "credit cannot make market where none exists." It added that the agricultural outlook "is conditioned by the world supply of leading farm products and the buying power of consumers, both domestic and foreign, for the coming year."

THE PROSPECTS FOR A WINDY EARLY

"I am not playing politics. I am not a candidate for anything. I can't imagine myself today accepting any nomination. Of course, I can't say, and no intelligent man can say, what I will do tomorrow."

EXPLORER IS INDICTED

LOS ANGELES, July 31 (AP)—Nearly 30 individuals, including Dr. Frederick A. Cook, who once proclaimed himself the discoverer of the North Pole, and two correspondents, were indicted by the federal grand jury here today on charges of misuse of the mails in connection with the alleged oil swindles in Texas, chiefly at Fort Worth and vicinity.

ENGLAND ADOPTS DRY LAW

LONDON, July 31 (AP)—Royal assent was given today to Lady Astor's liquor bill, thus formally placing it upon the statute books. The bill, which prohibits the sale of intoxicating liquor to any person under 15 years old, was passed by the house of lords last Tuesday.

BIG CHAIN OF STORES BECOMES INCORPORATED

NEW YORK, July 31 (AP)—Formation of a \$25,000,000 corporation to be known as the Kroger Department Stores, Inc., was announced today by S. S. Kroger, its directing head.

"Yes, I am Not a Candidate," Says Henry; But He Can't Say What He'll Do Tomorrow

NEW YORK, July 31 (AP)—Herbert Henry in an interview appearing in Collier's this week declared that he is not a candidate for the presidency today, but that he can't say what he will do tomorrow.

"There might be a war or some crisis of the sort in which legalism and constitutionalism and all that would figure, and the nation wanted some person who could do things, and do them quick. What I would do then, I can't say. But there isn't any question now. I have not a political mind, and I don't see any sense in my attempting political leadership."

CHANGE BRINGS JOY TO FOLKS IN OHIO TOWN

Marion Residents Elated at News of Change in President's Condition; Father Awaits News Anxiously

MARION, Ohio, July 31 (AP)—Home folks of President Harding today were both sorrowful and joyful. There were many because of their fellow townsmen's illness, but were made joyful by news bulletins which came in during the day announcing the president's apparent turn for the better.

Of those who await news from the bedside of the nation's chief executive none scanned the bulletins with more anxious eye than the aged father, Dr. George F. Harding. He was particularly interested in the official bulletins issued by the attending physicians in as those he could read his son's physical condition better than anyone could tell him.

Dr. Harding was at his office in the Marion Star building early, waiting for the first day's news from the distinguished son. He remained up late last night and acknowledged that after he had retired he did not sleep well and by night he was doing in his chair and finally decided to go home to take a nap.

"That looks hopeful," he would comment on the physicians' statements were read to him.

Dr. Harding said he does not contemplate going to his son's bedside as the crisis probably would be over before he could arrive there and he would have had been advised by Doctor Carl Sawyer, son of the president's personal physician, that the trip would be too strenuous for him.

Bulletins announcing the president's condition were posted in the windows of downtown business houses and thousands stopped in their haste and haste to read them.

The president's father also was kept advised as to his son's fight to regain his health through private sources. Early in the afternoon Dr. C. E. Sawyer telephoned his son, Dr. Carl Sawyer, that the president's condition was improving and that he looked more hopeful. This news greatly cheered Dr. Harding.

Use of Poison Gas Is Unique Method Used by Montana Farmers to Kill Grasshoppers

HAVRE, Mont., July 31 (AP)—Poison gas, such as was used on the battlefields of France in the late world war, may be released over the grain fields of northern Montana to kill the grasshoppers which have taken a toll of many thousands of dollars worth of grain yearly for the last several years, it was stated here.

The most common method of combatting the insect pest in the past has been to leave exposed grain or sawdust mixed with poison. One chicken grower has been reported to have perfected a machine, which, when driven over a field, collected the grasshoppers in sacks after which the insects were drowned and left to dry. The grasshoppers were served as chicken food during the winter.

The possibility of using poison gas to eradicate the pest is being investigated by local officials, who hope that it may also kill gophers.

U. S. DOCTOR TO OPERATE ON SPANISH PRINCE

DR. GUYER H. MUNOIR, of Brooklyn, N. Y., has been summoned by King Alfonso of Spain to perform an operation on Don Jaime, second son of the Spanish monarchs. The little prince suffers from congenital deafness, with consequent dumbness.

HARDING'S ILLNESS IS REFLECTED IN MARKETS

President's Turn for the Worse Given as Cause of 20 Leading Stocks Touching New Low Records

NEW YORK, July 31 (AP)—The overnight turn for the worse in President Harding's condition was generally recognized as one of the principal factors in bringing about the sharp reaction in today's stock market, which resulted in the average of 20 leading industrial stocks slinking to new low ground for the year.

Several active stocks, including United States Steel common, Balfanz, Atchison, St. Paul common and preferred, and Missouri Pacific common and preferred, also sold at their lowest prices of the year, the net losses ranging from 1 to 4 points.

President Harding, personally, is very popular in the financial district and news of his illness was read with widespread interest and sympathy. While Wall street was not inclined to become alarmed over his condition, the serious nature of his illness naturally caused considerable concern and created a feeling of uneasiness which was not overlooked by professional speculators for the decline.

One banker pointed out that if the president should be incapacitated for any length of time and was forced to delegate some of his duties to others it probably would result in "increased radical activities because of the absence of centralized authority. It was apparently the fear of the consequences of such a situation that prompted extensive liquidation of stock by frightened investors during the day.

ALCOHOL CLAIMS VICTIMS

Then the former monarch proceeded to give a history of these plays down to modern times. The marshal whispered delightedly to the student: "The Kaiser knows everything."

In the evening the student-actors played "The Dance of Death" and the lyrical "Paradise Play." Princess Hermine, William's wife, was greatly taken by the plays and as she came on the stage to thank the players she remarked: "You must come again. Here one perishes intellectually. It is seldom that anything of value is offered to us."

CAMERA 30 FEET LONG TO PHOTOGRAPH ECLIPSE

TUCSON, Arizona, July 31 (AP)—Immense telescope camera 30 and 60 feet long, gigantic reflector and a number of smaller instruments will be moved into Mexico for the purpose of photographing the sun during its total eclipse next September, according to plans announced here by Dr. A. E. Douglas of the University of Arizona.

Little Milk Used in Italy. Italy uses but four gallons of milk per capita per annum, which is the lowest average of any country.

WILHELM KEEPS IMPERIAL AIRS

Kaiser Languishes in Exile but Clings to Haughty Bearing of Other Days

DOORN, July 31 (AP)—William Hohenzollern, once German emperor, today in Doorn maintains his imperial airs as of old, according to the recitals of those who from time to time come in contact with him.

The latest story is contributed by a traveling company of student-actors. Augmenting their slender incomes by acting medieval mystery plays in various German and Dutch cities, the actors were requested to give a performance at the former emperor's residence. Before doing so they were received by William, and they have since given their impressions of the reception.

First they were instructed how to behave. "Speak to His Majesty just as the words come," said the marshal. "Before doing so they were received by William, and they have since given their impressions of the reception.

NEW PLAN IS USED IN PACKING FRESH FRUIT

Paper Mache Adapted to Shipping of Perishable Produce; Will Protect Against Spoiling

FRESNO, Cal., July 31 (AP)—Paper mache is now being used instead of ice to ship fresh figs to outside markets, according to P. H. Scott of Lone Star, Cal., discoverer of the new shipping method. Figs are now being shipped to Pacific coast cities and to the east without the use of ice or refrigeration, Mr. Scott says.

The paper mache containers, placed in ordinary wooden boxes, are in layer form, and indented in shape of figs. When a layer is filled, a center of paper mache is placed on top, forming a perfect fit and placing each fig in an individual compartment.

Mr. Scott declares the iceless shipments are a success. He says he is now shipping 210 boxes of fresh figs each day without refrigeration, and he adds, they are reaching the markets of the south, north and east in perfect condition.

This method of shipment, fruit growers here state, will open unlimited markets for fresh figs. By eliminating the cost of using ice or refrigeration, growers state, fig men will be able to place their product in the eastern market at a profit.

MURTAUGH

MURTAUGH—Miss Ina Fuller, who is attending the state normal at Albion, spent the week end at the home of her parents.

Mrs. Eva Bialy and son, Richard, Miss Lucie Taylor, Flora Adams, Mike Randall and Charles Johnson, who spent a week's outing in the hills, returned home Sunday.

Mr. and Mrs. C. S. Jones of Lenox, Iowa, arrived Saturday to visit at the home of their daughter Mrs. Mrs. William Lindsay and Mrs. Johnson.

Mr. and Mrs. Leroy Hamilton and daughter of Salt Lake, are visiting Mr. Hamilton's sisters, Mrs. John General and Mrs. A. J. Fuller.

Miss Laura Clark of Piler is a guest of Miss Geraldine Trent this week.

T. S. General, who had his back hurt during a wrestling match on July 24, was taken to Twin Falls again Monday for medical attention.

Mrs. A. J. Fuller entertained at a family dinner Sunday for Mr. and Mrs. Leroy Hamilton of Salt Lake.

The Marquette baseball team postponed to Hurley Sunday afternoon to play the Bugle team. The score was 20 to 11 in favor of Hurley.

Word has been received here of the death of T. D. Nash's father at Denver Saturday.

T. D. Nash, H. T. Henderson and A. S. Hall, who have spent some time in California, returned home Monday.

STRICKEN AT CEREMONIES

Minister Preiding at Event Commemorating Bismarck's Death Afflicted as Wreath Is Put in Place.

FRIEDRICHSHAGEN, Germany, July 31 (AP)—Services commemorating the twenty-fifth anniversary of the death of Bismarck suddenly were terminated today when the Rev. Mr. Buss of Hamburg, who officiated, was stricken as he was about to place a wreath on the sarcophagus of the iron chancellor. The hierarchy was the destination of numerous worshippers. Prince Bismarck who deposited hundreds of floral tributes, including one from Chancellor Cuno.

Back to Shakspeare.

Both were wireless enthusiasts, and after the manner of those who had and those who grow vegetable marrows, they told each other that each possessed the finest apparatus in the world.

"Do you know," said the first, "I distinctly hear the scene shifters talking the other night?"

"Why, listening in to the performance of 'The Merchant of Venice' the other night, I not only heard the applause, but could distinctly hear the cries of 'Anthon!'"

FINDING OF PISTOL MAY REVEAL PIONEER STORY

Old Brass Flintlock Is Uncertain on Owlitz River; Is Believed to Have Been Made 200 Years Ago

LONGVIEW, Wash., July 31 (AP)—A brass flintlock pistol, said to be more than 200 years old, was thrown up by a dredge in the Owlitz river at this point recently, and discovered by A. N. Thorndike. The pistol was in a perfect state of preservation with the exception of the handle, which was rotted off. The weapon was unadorned and unadorned and bore upon one side a London, England trade mark. On the other side was a crest, consisting of a crown set above a crossed sword and gun.

The weapon was sent to a Portland gunsmith, who estimated that it had been made more than 200 years ago. It is now on its way to London, where, it is hoped, some clue may be found as to its age, former owner, and something of the history surrounding it.

BRADFUTE GIVES ADDED REASONS FOR GRAIN PLAN

Farm Bureau President Claims Proposal to Withdraw Wheat Is Emergency Measure and Should Be Supported

CHICAGO, July 31 (AP)—The proposal of the American Farm Bureau Federation to withhold 500,000,000 bushels of wheat from the market until more favorable prices have returned, is an emergency measure seeking immediate relief for present conditions, O. E. Bradfute, president of that organization, said today.

"A flood of unfavorable statistics has taken public support from the market and financial conditions are such that the heavy customary purchases of foreign account during the harvest season," he said. "Farmers must meet this situation by feeding the market gradually and not in abrupt stages, so that all the machinery created by the last congress would be geared with all possible speed to aid in this endeavor. It is our suggestion that a warehouse association be organized in each county and act in its corporate capacity as the official warehouseman under the Federal law, leasing such storage houses as may be available at the country shipping points and such farm granaries as may be adequately constructed for designation as licensed warehouses."

BERGER

BERGER—Mr. and Mrs. L. C. Callen of Jerome visited at the G. L. McGregor home Sunday.

John Best and family of Twin Falls visited at the Everett Griggs home Saturday and Sunday.

The Royal Neighbors' club met with Mrs. Robert Griggs Wednesday. The afternoon was spent in playing games, readings and music. After the business meeting high refreshments were served. The next meeting will be with Mrs. A. A. Parrott.

Mrs. Dick Lincoln and family were visitors at the Clever home Sunday.

Miss Jewel Hayes of Missouri is visiting at the Thelton home.

Fred Holloway visited his home in Filer Sunday evening.

Those who attended the chaotauqua regularly were Mr. and Mrs. A. C. Vickers and family, Mr. and Mrs. J. M. Pierce and son, Howard, Lester McGregor and Edwin Dyce.

W. A. Ganterman of Castleford was a Berger visitor Sunday.

John Ayers was a Twin Falls visitor Saturday.

Mr. and Mrs. F. L. Roper and family motored to Twin Falls Sunday evening.

Miss Georgiana Banker left Sunday morning for Texas.

MARKET BUREAU PLANNED

SALT LAKE CITY, July 31 (AP)—This is to have a market reporting bureau. Daily market news on live stock, fruits and vegetables, assembled by the Bureau of Agricultural Economics of the United States Department of Agriculture, is to be sent out by J. B. Duncan, who arrived here recently to open the new bureau. The service probably will begin late in August.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

LEGAL ADVERTISEMENTS

NOTICE OF SHERIFF'S SALE

Notice of Sheriff's Sale of Real Estate Under Decree of Foreclosure and Order of Sale.

Twin Falls Bank & Trust Company, a corporation, vs. Kenneth B. Lionberger, a bachelor; Earl B. Lionberger, a bachelor; H. E. Barne, M. B. Osgood and the First National Bank of Filer, a corporation, Defendants.

Under and by virtue of an Order of Sale and Decree of Foreclosure issued out of the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, dated the 9th day of July, 1923, wherein the plaintiff above mentioned obtained a decree against the defendants herein on the 9th day of July, 1923, which said decree was on the said 9th day of July, 1923, recorded in Judgment Book nine, on page 80 of said District Court, I am commanded to sell that certain piece of land situated in the County of Twin Falls, State of Idaho, and bounded and described as follows, to-wit:

The Northern quarter of the Southwest quarter (NE 1/4 SW 1/4) of Section Thirty-three (33), Township Nine (9) South, Range Fourteen (14) East of the Boise Meridian, together with the encumbrances, hereditaments and appurtenances thereto belonging or in anywise appertaining, and together with the water rights thereto belonging.

Public notice hereby given, that on the 2nd day of August, 1923, at the hour of 2 o'clock p. m. (Mountain time) of said day, at the East front door of the court house of the County of Twin Falls, State of Idaho, I will, in obedience to said Order of Sale and Decree of Foreclosure, sell the above described property, to satisfy the said 41st decree with interest thereon, together with all costs that have accrued or may accrue, to the highest bidder for cash, lawful money of the United States.

Dated this 31st day of July, 1923.
M. E. FLYNN, Sheriff.
by E. F. PRATER, Deputy.

PHILS FINALLY WIN FROM REDS

Double Victory Over Contenders Forces Cincinnati Back to Third Place; Giants Win

CINCINNATI, July 31 (AP)—The Reds were forced back to third place and their pennant aspirations suffered a severe jolt when the Phillies defeated them in both games of a double-header, 2 to 1 and 5 to 1. It was the first time this year that the Phillies have defeated the Reds, who had won 11 straight games from them up to today.

First game: R. H. E.
Philadelphia 2 8 0
Cincinnati 1 5 2
Batteries—Ring and Wilson; Risoy and Wingo.

Second game: R. H. E.
Philadelphia 5 9 0
Cincinnati 1 0 1
Batteries—Mitchell, Betts and Hamilton; Couch, Keck, McQuaid and Hargrave.

GRIFFMEN FAIL TO STOP TIGERS

Cobbmen Fall on Zachary and Sedgwick for Six Runs in Final Frame; Indians Win

WASHINGTON, July 31 (AP)—Detroit trounced Washington, 12 to 5, today, scoring six runs in the ninth inning on two hits off Zachary and five off Sedgwick, who relieved him. Washington got five hits. Garity's triple off Holloway scoring three men who had received passes in the second inning. The second game of a scheduled double-header was called in the second inning on account of rain.

Score: R. H. E.
Detroit 12 19 1
Washington 5 5 0
Batteries—Holloway, Johnson, Cole and Woodall; Zachary, Sedgwick and Ruel.

INDIANS WALLOW EMBKE

BOSTON, July 31 (AP)—Cleveland won from Boston today by batting Embke hard in the eighth and ninth innings and scoring the winning run in the eleventh on a pass to Lutze, a sacrifice by Koko and a single to left center by Myatt.

Score: R. H. E.
Cleveland 6 13 3
Boston 4 7 2
Batteries—Edwards, Shaute, Morton and O'Neill, Myatt; Embke and Pieluch.

New York-Chicago, postponed; rain.
Philadelphia-St. Louis, postponed; rain.

GIANTS TAKE ODD GAME.

PITTSBURGH, July 31 (AP)—New York made it two out of three in the series with Pittsburgh by winning today's game, 5 to 4. The Giants drove Hamilton from the box in the first inning when two runs were scored on four singles. They added three more runs in the third inning by bunting hits off Morrison.

Score: R. H. E.
New York 5 12 1
Pittsburgh 4 9 0
Batteries—McMillan, Ryan and Snyder; Hamilton, Morrison, Meadows and Gooch.

BRABES AGAIN BEAT OUBS.

CHICAGO, July 31 (AP)—Boston went on a batting rampage, cracking out 16 hits for a total of 25 bases and made it two straight from Chicago today, 6 to 3. The visitors won the game in the first inning by pounding Victor Kean all over the lot. Dumovich pitched good ball from the second inning. Jess Barnes pitched a steady game and was backed up by four double plays which broke up Chicago's rallies.

Score: R. H. E.
Boston 6 16 3
Chicago 3 9 0
Batteries—Barnes and E. Smith.

NEW PLAYERS TO TRY FOR PLACE ON LOCAL TEAM

Three Men Manifest Desire to Work Out and Help Twin Falls in Clash with Emmett

For the first time this season Twin Falls ball players will be asked to extend themselves when they meet the fast Emmett team here Sunday afternoon, in what promises to be a battle royal from start to finish.

Several new faces were seen last evening at practice, among whom were Dr. Campbell, a tooth extractor, who makes the tough ones look easy when it comes to grabbing the high ones in the outfield. Heuck, another new comer, worked with the infield and looked sweet, taking care of the hot ones like an old timer.

Another arrival is a fellow named Pete Pupporri, who says that he is a pitcher, and although he didn't cut loose last evening, he has all the earmarks of a chucker.

The rest of the team was out putting forth their best efforts at whipping into line for Sunday's game.

Emmett, fresh from winning the Western Idaho league championship last Sunday, will arrive in town Sunday morning in the pick of condition, as all they do in Emmett is play ball.

A fan who witnessed the game between Emmett and Boise last Sunday states that Emmett was the best team he has seen in the state, and he admits that he has seen Twin Falls in action, so the boys will have to spike up a bit to keep the invaders away from first money.

A good many fans were out last evening watching the team at practice.

MRS. CARUSO'S FOSTER SISTER MARRIED

MRS. ANNA MARIE BOLOEH BEN JAMIN, foster daughter of the late Park Benjamin and foster sister of Mrs. Enrico Caruso, has been married in London, to Arthur L. Fullman, New York lawyer, who represented her foster father in all his business dealings. Miss Boloeh was taken into the Benjamin home when she was 13 years old, and when Mr. Benjamin died he left his millions to her, discharging his own claim.

MAY ABOLISH FIREWORKS

Movement Started in Spokane to Do Away with Fireworks Methods of Celebrating the Nation's Birth

SPOKANE, July 31 (AP)—A movement to do away with fireworks in Spokane has been initiated by the chamber of commerce and is now being considered by the city commission. The commissioners expect to vote on prohibiting the sale or use of fireworks within a few weeks, it is said.

C. E. Fredericks, chairman of the fire and accident committee of the chamber of commerce, introduced the measure, declaring that Spokane should follow the lead of Portland and Seattle in prohibiting the sale or use of fireworks in celebration of the Fourth of July.

The committee failed to put across a similar proposal last year, but it is felt that action can be had this year as a result of the death of a little girl from burns caused by fireworks. Two of the city commissioners are quoted in definite approval of the movement.

Cannot Gauge Velocity

The wind velocity within a tornado, so far as known, has never been accurately measured, and it is quite certain that no wind gauge could withstand the force of the wind as the velocity doubles reaches 200 or 300 miles an hour.

Hair Thickness Varies

The thickness of the hair varies from the 250th to the 600th part of an inch.

Railroad Earnings Are Not Guaranteed

A common impression exists that railroad earnings are in some way guaranteed by the Government. This is not a fact.

The railroads were paid for the Federal Control period a fixed rental and were given an option for continuation of this basis for six months thereafter. This arrangement expired August 31, 1920, since which time nothing even resembling a guarantee has been in effect.

Under the Constitution a railroad has always been entitled to earn a fair return upon its property devoted to the public use, the percentage which constituted such fair return being a question for determination by the courts.

The transportation act says:

"In the exercise of its power to prescribe just and reasonable rates, the Commission shall . . . adjust such rates so that carriers . . . will, under honest, efficient and economical management . . . earn an aggregate annual net railway operating income equal, as nearly as may be, to a fair return upon the aggregate value . . . of the common carrier property, giving due consideration . . . to the transportation needs of the country and to the public interest in enlarging such facilities in order to provide the people of the United States with adequate transportation."

For the two years ending March 1, 1922, such fair return was fixed at 6 per cent. Since then it has been reduced by the Commission to 5.75 per cent.

In no year however have the railroads secured the fair return contemplated by the Act, as the following will show.

Year	Percentage Actually Earned
1920	0.33
1921	3.3
1922	4.14

It is entirely clear, therefore, that the law in no sense guarantees the earnings of the railroads. If it did, the Government would owe the railroads more than a billion dollars for deficits in 1920, 1921 and 1922.

Since January 1, 1923, the earnings of the railroads as a whole have been better than for the same period in any of the three preceding years, but the rate of return is still lower than the Interstate Commerce Commission has prescribed as reasonable.

The Transportation Act has not been the cause of increases in railroad rates. One of the authors of the Act has said:

"Rates have advanced simply because the cost of maintenance and operation has more than doubled since previous days while railroad rates, taken as a whole, are now about 54 per cent higher than they were before the Government took over the railroads at the beginning of the year 1918."

The price of transportation can only be reduced as the cost of transportation is reduced and the railroad's cost of living has increased in like proportion to that of the individual. Every effort, however, is being made to reduce it.

Constructive suggestions are always welcome.

O. B. GRAY, President.
Omaha, Nebraska
August 1, 1923.

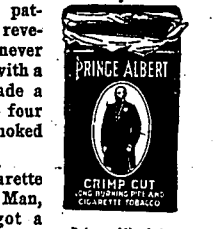

Me-o-my, how you'll take to a pipe—and P. A.!

Before you're a day older you want to let the idea slip under your hat that this is the open season to start something with a joyous jimmy pipe—and some Prince Albert!

Because, a pipe packed with Prince Albert satisfies a man as he was never satisfied before—and keeps him satisfied! And, you can prove it! Why—P. A.'s flavor and fragrance and coolness and its freedom from bite and parch (cut out by our exclusive patented process) are a revelation to the man who never could get acquainted with a pipe! P. A. has made a pipe a thing of joy to four men where one was smoked before!

PRINCE ALBERT

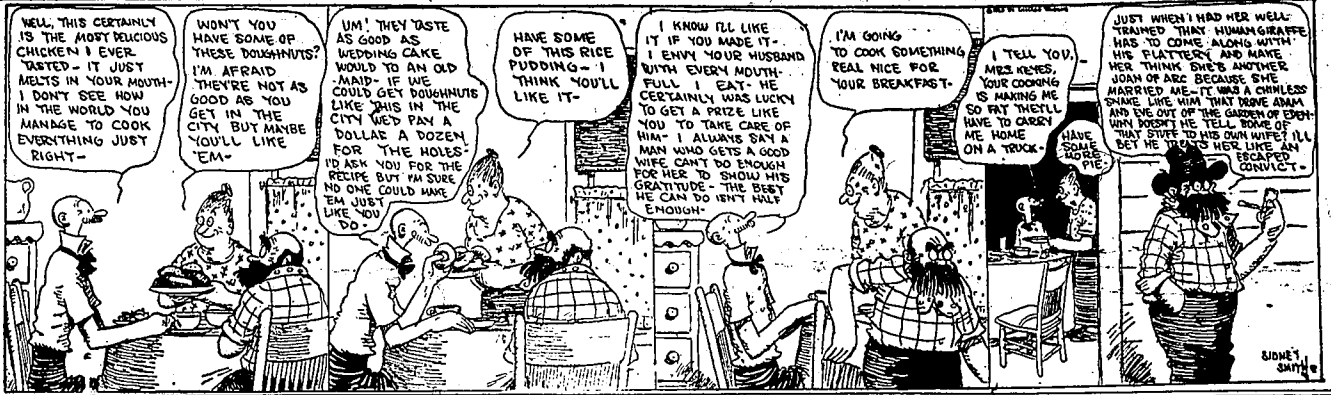

the national joy smoke.

Prince Albert is sold in tippy red bags, tidy red tins, hand-made every day and half pound tin and in the second crystal glass in a tin of 50 with a sponge rubber case.

THE GUMPS—THE OLD STAR BOARDER

BRITISH STRIKE SNAG OVER AIR FORCE CONTROL

Cabinet Engages In Quarrel with Admiralty Concerning Aerial Development; Adjourned Meeting Is Called

LONDON, July 31 (AP)—The cabinet at its meeting today was largely engaged with a quarrel between the admiralty and the air ministry concerning control of the air force; hence, although Lord Curzon, secretary for foreign affairs, communicated the documents and statements presented yesterday by the French, Belgian and Italian ambassadors, discussions of these was adjourned for another council tomorrow.

It is understood that Lord Curzon also imparted to his colleagues information submitted to him yesterday by Mr. St. Hamer, the German ambassador, on internal economic and political conditions in Germany, which, in the view of the government, has a most important bearing on any decision to be taken and especially on the question of how long a period it will be safe to prolong the present negotiations.

In official quarters tonight there was no dimming of the gloomy forebodings as the prospects of arriving at an agreement with France. All indications point to M. Poincaré's maintaining the strong opposition which he has displayed from the moment he assumed office toward an allied conference to settle the reparations problem, this opposing being based on the consciousness that France might in such a conference find herself in the minority.

It is stated that the French reply is a long document requiring much discussion and that the general impression is that when parliament gives Thursday Premier Baldwin will only be able to announce that negotiations are continuing with the allies.

WAR DEVICE IS NOW IN USE TO RESCUE MINERS

Geophone, Invented by French to Detect Underground Noises, Is Well Adapted for Use in Mine Accidents.

NEW YORK, July 31 (AP)—An instrument called the geophone, invented by the French to detect underground noises during the World War, is now being used to rescue entombed miners, locate mine fire areas and reduce accidents through blasting, the Engineering Foundation announces.

The geophone has been improved by the U. S. army engineers and Bureau of Standards until its sensitiveness is so great that in recent tests sledge ponding was heard 3,000 feet through rock, 2,000 feet through coal, 500 feet through mine "cover" and 300 feet through clay.

CALIFORNIANS OBJECT TO NEW SPEED LAW

SANTA BARBARA, Cal., July 31 (AP)—Prohibition of "speed traps" by motorcycle officers, by the bill passed by the last California legislature, is unconstitutional and will not be observed in his court, according to Justice of the Peace C. E. George of this city.

The measure will go into effect September 1.

SPORTS

NEGRO BOXER DEMANDS BATTLE WITH DEMPSEY

Harry Wills Insists on Title Contest Before Champion Meets South American Challenger

NEW YORK, July 31 (AP)—Harry Wills, negro aspirant for the heavy weight boxing title, and his manager, Paddy Mullins, appeared today before the state athletic commission to demand that Jack Dempsey be compelled to defend his title against Wills before meeting Luis Angel Firpo. The commission reserved decision.

Mullins was understood to have told the commission that Wills, under an agreement signed with Dempsey's representatives some months ago in the commission's office, was entitled to a chance at the title this year and that the commission should see that he got it.

CHAMP WINS TAME BOUT

Gene Tunney Takes Decision Over Dan O'Dowd at New York; Challenger Lands But Few Solid Punches

NEW YORK, July 31 (AP)—Gene Tunney, American light heavyweight champion, was given the judge's decision over Dan O'Dowd of Boston after a 12-round bout tonight in the Queensbury stadium. The champion staggered O'Dowd with body blows in the fifth round. O'Dowd landed less than half a dozen solid punches in all the rounds.

The crowd booed both fighters until they left the ring. Tunney's blows were ineffective in most of the rounds and his fighting was wild. Tunney weighed 174 pounds and O'Dowd weighed 175 pounds.

LYNCH AND VILLA SIGNED

Bantam and Flyweight Title Holders Will Meet in Eight-Round No-Decision Affair at Philadelphia

NEW YORK, July 31 (AP)—Joe Lynch, bantamweight champion, and Pancho Villa, flyweight title holder, were signed today to meet in an eight round no decision fight in Philadelphia on August 27, promoter Hoff offered Lynch \$10,000 to sign with Villa and also a \$10,000 guarantee.

VILLA BEATS WILLIAMS

PHILADELPHIA, July 31 (AP)—Pancho Villa, flyweight champion of the world, went out of his class tonight and in the opinion of newspaper men at the ring side scored a decisive victory over Kid Williams, former bantamweight titleholder. Villa's weight was announced as 110 pounds and that of Williams at 118.

WANT LEASE DATE CHANGE

Chicagans Tire of Abiding by Changing of Contracts May 1 and Want Expirations Throughout Year

CHICAGO, July 31 (AP)—The elimination of May 1 apartment and office lease expirations and the scattering of the expiration dates throughout the entire year, may become a fact not only in this city but in many large municipalities, if the campaign started here bears fruit.

The movement is being championed by a large number of real estate men throughout the country, prominent among whom are Russell Tyson of Chicago, and J. W. Bamford of Pittsburgh. Mr. Tyson points out that business is thrown into a turmoil on May 1; that telephone companies are unable to cope with the situation of making so many removals and changes and the moving concerns charge higher prices on May 1 than on any other day in the year. Mr. Bamford asserts that no other business in the country throws its product on the market in a single day.

IOWA SENATOR ASKS EXTRA SESSION

Sen. S. M. Brookhart

UNITED STATES SENATOR SMITH W. BROOKHART, of Iowa, who has just returned to his desk in Washington after an extensive tour of investigation, is demanding that President Harding call an extra session of congress to pass legislation urged by the farmer and labor bloc in congress.

STREET LIGHTS ARE CHEAPER THAN LIFE

Six hundred persons are killed each year in the United States because of inadequate street lighting, says a report of the American Society for Municipal Improvement. Property damage resulting from the same cause is put at \$54,000,000 a year, whereas the entire country's bill for street lighting is but \$50,000,000 a year.

Urging the needs for higher standards of lighting as a preventive both of accidents and of crime, the society quotes municipal statistics showing that modern street-lighting has reduced crime on certain streets as much as 41 per cent, as compared with other streets in the same cities.

PACKERS REDUCE LOSSES OF MEAT

Millions of Cattle Handled but Average Damage from Bruising Grows Less

CHICAGO, July 31 (AP)—Of the 12,435,386 head of cattle killed in 1922 in 68 of the principal markets of this country, 1,498,240 were bruised, but the loss of meat from this cause averaged a half pound a head as compared with a pound a head loss for beef animals killed in 1921, says a report made public by the Illinois Humane society.

"The reduction shown is 50 per cent, and is attributed to the campaign now on for the better handling of cattle in transit and in the yards," says the report.

"As to losses in transit," the report continues, "returns from eleven western markets from which the principal fatalities were obtained show there was a slight decrease in losses in 1922 as compared with 1921. This is gratifying for the reason that the railroads, on account of strikes and other causes, had a difficult proposition to keep their service at anything like standard in 1921."

Average Loss Slight

"In the bruised meat campaign the figures as to hogs for 1922 do not show up as well. In 1921 the loss of meat on account of bruises averaged

one-tenth of a pound each hog. This figure was based on returns from 53 markets. However, in 1922 we extended the campaign to cover 68 markets and the estimated loss per hog was figured at a quarter pound; it is believed that the increased loss occurred in the 15 new markets where the campaign to reduce losses had not been in full swing."

The report concludes: "Conditions are again normal and such statistics as have so far been tabulated show a marked improvement for 1923 over 1922."

HAWAII OPPOSES RULING

HONOLULU, T. H., July 31 (AP)—The territory of Hawaii will not concede that the law adopted by the last legislature to regulate alien language schools is rendered invalid by the recent decision of the United States supreme court, declaring unconstitutional the alien language schools of 20 states, according to territorial Attorney General John Mathewman.

The territory will continue to defend its statute in the pending legislation brought by several Japanese language schools on the contention that the law is unconstitutional. The Hawaiian statute provides that no alien language school may be conducted without a license; that all teachers must be licensed after examination; that textbooks used in the schools must be compiled on the basis that the pupil's usual medium of expression is English; and provides also for the elimination of the first two grades of the schools.

The petition of the Japanese schools to have this law declared invalid is before the territorial supreme court.

NEW PLANES DEVELOPED

LONDON, July 31 (AP)—Last year's dream of aerial fliers has come true. An experimental glider fitted with twin engines of five horse power and two tiny propellers has, in its first test flight, hit up a speed of 65 miles an hour and attained a height of 230 feet. The flight was made from the airfield at Lympe, within two hours after the little plane had been unpacked from a motor lorry.

It seemed easy to assemble the many parts and it is all difficult from a financial standpoint; to keep it in the air, the gasoline consumption being much less than for a small automobile.

The propellers, each a yard in length, are at the back of the front plane, where a chain connects them with the engine. The pilot sits in front. The span of the front wings measures 33 feet and the length from tail to tail is 32 feet. There is hardly any undercarriage, the landing wheels being attached to the body itself.

The new glider will be entered in the various Eppendorf gliding contests this summer. There are sure to produce even greater sensations than those of a year ago, since in the interim the use of small powered engines in air-planes has made distinct progress.

PHILIPPINES PROSPEROUS

MANILA, July 31 (AP)—A balance of trade amounting to \$5,839,000 in favor of the Philippine islands was shown during the month of April, according to figures just issued by the bureau of customs. The total value of the exports during April was \$11,000,000, while the imports were valued at \$5,700,000.

AID TO WHEAT GROWERS AIM OF NEW PLANS

Committee of United States Chamber of Commerce to Conduct Inquiry; European Conditions Are Blamed

NEW YORK, July 31 (AP)—Improvement in wheat markets, termed the greatest need of the American farmer, is the chief aim of an inquiry which a new wheat committee, sponsored and financed by the chamber of commerce of the United States, will launch shortly, Julius H. Barnes, president of the chamber, announced today.

Reviewing the wheat situation, Mr. Barnes said conditions in Europe were partly responsible for the present low price. He was optimistic as to the future, but deplored irresponsible discussions, declaring that "only harm done by general statements about dollar wheat being below cost of production."

Asserting that unfortunate conditions prevailed in only 25 per cent of the wheat country, the middle west, he said prominence given by the press to the situation tended to upset the labor market.

The new wheat committee, he said, will start work immediately. He had to have a report from it within three months.

CHIEF EXECUTIVE

(Continued From Page One.)

for six hours and there had been no expectation of any consequence in that time, he went on.

The president, on awakening from his sleep, which lasted for about one hour, asked for nourishment and was given a glass of milk. The president's diet at present consists of two eggs, no dairy, fruit juices to relieve thirst whenever desired, a glass of milk every two hours and for breakfast toast and sometimes an egg.

The egg noggs, the doctor explained, were "non-opathic"—eggs shaken up with milk.

General Sawyer said the president continued cheerful and listened with interest to the reading "of everything in the papers," even accounts of his illness. "They read everything to him," he said. "It does not seem to hurt him."

"The president is resigned now to the abandonment of the California program," the general went on, "though, as I have said before, no disappointment that could have come to him could have been greater."

"His resignation and determination to make the best of the difficulty besetting him, the general indicated, were powerful factors aiding toward his patient's recovery.

There will be no further conference of physicians attending the president until tomorrow morning at 9 o'clock. It was announced and a formal statement of the executive's condition will be issued until 9:30 o'clock tomorrow.

SENATOR FROM SOUTH

(Continued From Page One.)

turn products, that since the war the only means with which Europe could pay for American products was in trade, but that the republican party had erected a tariff barrier to European goods, which will create a depression in this country as well as in the rest of the world.

In announcing his willingness to become a candidate for the democratic presidential nomination, Senator Underwood declared "I am willing to do my part, but it must be as the candidate of my own state that I enter the campaign." He pointed out that it had been 80 years since the country had a democratic president from the south.

Sees Political Battle.

"A great political battle lies ahead of us," the senator said, "one that involves the fundamental principles of government and the peace, happiness and prosperity of the American people. Our party should be eager to announce principles in the platform that ring true to the cardinal doctrine of democracy as established by Jefferson, maintained by Jackson and reaffirmed by Cleveland and Wilson.

"When our party has declared its platform, the selection of a candidate who can wisely and willingly represent its principles will follow. In the interest of our future success this selection should be made without rancor and with deliberation.

W. C. T. U. TO CELEBRATE FIFTY YEARS OF ENDEAVOR

COLUMBUS, July 31 (AP)—All the surviving members of the crusaders of 1874 in the field of temperance, or their nearest relatives, will be present at the fiftieth annual convention of the National Women's Temperance Union here September 4 to 14. An arrangement is already on foot to make the event one of historic interest.

What is useless to you may be valuable to others—advertise it in the classified columns.

RESTATES POSITION

(Continued From Page One.)

achievements with the declaration that "when the present national administration came into responsibility world affairs were complicated and very difficult tasks." The president said four main tasks were undertaken, as follows:

"First, the re-establishment of peace with the central powers and the orderly settlement of those important after-problems of the war which directly involved the United States.

"Second, the protection and promotion, under the best assurance of national interest, of the just rights of the United States and the legitimate interests of American citizens:

"Third, the creation of an international situation, so far as the United States might contribute thereto, which would give the best assurance of peace for the future, and,

"Fourth, the pursuit of the traditional American policy of friendly cooperation with our sister republics of the western hemisphere."

The negotiations resulted "in treaties which established peace with these countries on an equitable basis, and at the same time preserved for the United States the rights embodied in the Paris treaties which we had acquired through participation in the common victory."

Next, the executive listed the German-American treaty providing for a mixed claims commission to determine American claims against Germany in connection with organization of which, he said, "the extraordinary tribute, unparalleled in international relations, was paid to the United States of justice by the satisfaction of Germany that the American States should appoint an American umpire."

"The outstanding historical, monumental achievement is the Washington conference on the limitation of armament," declared Mr. Harding, before passing to major accomplishments. "Only a few days ago the government of France gave the ratification which makes unanimous the approval of the nations concerned, and confirms the dawn of a new era in international cooperation for world peace.

"The limitation of armament conference was significantly triumphant in two accomplishments: It relieved and limited the burdens and found a way to remove the cause of misunderstandings which lead to war. The conference proved one of the greatest achievements in the history of international relations."

Enumerates Treaties.

The president enumerated the various treaties and agreements which grew out of the conference, and then added:

"Probably the most important results of this historically important conference are those which are unwritten and impermanent. I refer to the revelations of sentiment and purpose, to the manifestations of good will and the evident thirst for better understanding. If you would measure the work of the conference, contrast the present opinion as to peace in the east with the view which was widely entertained and frequently expressed before the conference was held. The mist, which had the forebodings of war clouds have been dispelled."

Mr. Harding also pointed to the good offices performed by the American representatives at Lausanne, asserting that although "cynical critics sneered at our 'unofficial' representatives," the firmness of the belief that "American influence at Lausanne played an influential part in making for peace, when all the world stood in apprehension of an armed conflagration."

Turning to Latin-America, the chief executive reviewed a long list of victories in statecraft and of evidence of good will toward the United States. Among these he included the agreement by Costa Rica and Panama at the behest of the United States to accept an arbitral award in their boundary dispute; economic recovery in Cuba, establishment of provisional government in the Dominican republic; restoration of peace and order in Haiti; settlement of the old Tacna-Arica dispute by Chile and Peru through the friendly offices of the United States; the recent Central American conference and the recent fifth international conference of American states at Santiago, Chile.

Friendly to Mexico.

"Our feeling toward the Mexican people is one of entire and very cordial friendliness, and we have deeply regretted the necessity for the continued suspension of diplomatic relations," said the president in his reference to Mexico.

"We have no hatred toward Mexico, no selfish ends to serve at her expense. We have no prompting other than those of neighborly friendliness. We have no desire to interfere in the internal con-

Growers to Request Special Session to Act on Wheat Price

SPOKANE, July 31 (AP)—A mass meeting of wheat growers to consider plans to urge President Harding to convene congress in special session, will be held in Spokane Monday, August 6, J. C. Adams, president of the Farmers' Union of Washington and north Idaho, announced here today. Special legislation "to stabilize the price of wheat and rescue the wheat farmer from his deplorable condition," will be advocated by the session, Mr. Adams announced.

terms of Mexico. We respect in the Mexican people the same rights of self-determination which we exact for ourselves. It is not for us to suggest what laws she shall have relating to the future for we willingly acclaim Mexico as the judge of her own domestic policy. We do, however, maintain one clear principle which lies at the foundation of all international intercourse.

"I am happy to say that we do now have our commissioners in conference at Mexico City, and it is earnestly hoped that there may be definite and favorable results from their exchange of views with the Mexican commissioners."

Rape Soviets.

Replying to the argument that Russia should be recognized by the United States as a means of alleviating distress there, the president said:

"The establishment of a basis of permanent improvement in Russia lies solely within the power of those who govern the destinies of that country and political recognition to correcting fundamental error tends only to perpetuate the ills from which the Russian people are suffering."

"The property of American citizens in Russia, honestly acquired under the laws then existing, has been taken without the color of compensation, without the process of law, by the mere exercise of countless decrees," he added. "Such a policy challenges the very ground work of righteous intercourse among people and reads the basis of good faith everywhere in the world."

Edited by Mrs. E. B. Williams. Telephone 396.

The wedding of Miss Irene Shepherd and Raymond Patton Barry was so celebrated at the home of the bride's parents, Mr. and Mrs. R. E. Shepherd, in Jerome at 9:30 a. m. Tuesday, July 31. The home was beautifully decorated for the occasion. The bride, partly, standing under an arch of flowers with a background of roses, daisies and sunflowers. Mrs. Earl Tiffany, sister of the bride, was the matron of honor and Paul Thomas of this city, was best man. The Episcopal ring service was read by the Rev. Mr. Roberts of the Presbyterian church. A wedding breakfast was served immediately after the ceremony, following which the couple left in their own car for a tour of Glacier national park. They will be at home after September 1 at the Reed apartments in Twin Falls. There were 16 guests present at the wedding, those from out of town being Mr. and Mrs. Andrus of Salt Lake, the latter being a friend of the bride at Smith's college, where both were graduated; Mr. and Mrs. Earl Tiffany of Billings, Mont.; Mrs. Louis Hayward of Los Angeles; Mrs. Tiffany and Mrs. Hayward, sisters of Mrs. Barry, and Mrs. and Mrs. E. A. Walters and Paul Thomas of Twin Falls.

The Ladies' Aid of the Baptist church will meet Thursday, August 2, at 2:30 p. m., at the country home of Mr. and Mrs. J. C. Beatty. Those who wish to go are asked to be at the church at 2 o'clock, where cars will be provided. Those who are going and have room to take others are requested to do so. The men of the congregation are invited to supper in the evening. Those who attend are asked to bring sandwiches for their family and one covered dish and knives and forks and spoons.

The Ladies' Aid of the Community club will meet at the church Wednesday afternoon with Mrs. Dallas Jostess.

The Woman's Missionary society of the First Christian church will hold their annual picnic Thursday at the

home of Mrs. W. W. Parish, four and one-half miles northwest of town. In the afternoon the regular program will be given; topic, "American Missions." Each lady is asked to bring sandwiches and a covered dish, also plate, cup and knife, fork and spoon. Cars will be at the park at 11 a. m. for all who wish to attend.

The Presbyterian ladies' aid will hold a picnic at the home of Mrs. David Clark, near Kimberly road on Thursday. Cars are requested to be at the church at 10 a. m. Ladies are asked to bring sandwiches, a covered dish and their own dishes. Ice cream and tea will be furnished. Mrs. A. E. Sifer has charge of the lunch. Mrs. J. W. Young will be glad to hear from all who can furnish cars. All the ladies of the congregation are invited and the children will be welcome.

ATTACKS MARITAL BONDS

Mrs. Ella O. Nunnally Asks for Divorce, Custody of Children and Division of Community Property

Alleging failure on the part of her husband to provide common necessities for herself and children during a period of four years, Mrs. Ella O. Nunnally, through her attorney, E. V. Larson, Tuesday instituted suit in district court here for divorce from Fred Nunnally. She asks in addition to the decree of divorce, the custody of their two minor children and division of community property consisting of lots in Twin Falls and Hollister, and of farm land. The marriage, according to the petition, took place in June, 1903, in Banton, New Mexico.

STUDENTS WANT PROHIBITION

BELGRADE, July 31 (AP)—The movement for prohibition is strong among the students of Serbia, especially in the higher schools, and a number of demonstrations in favor of abstention from alcoholic liquors are planned for this summer. It is estimated that 80 per cent of Serbian students are total abstainers. The government views the movement favorably.

VISITS IN COAST CITIES

Mrs. Robert Rogerson Returns from Extended Stay in Portland, Tacoma and Other Sound Points of Interest

Mrs. Robert Rogerson has returned to Twin Falls after an absence of nearly two months spent in Portland, Tacoma and other northwest cities. Mrs. Rogerson attended the National Business Women's convention at Portland, later returning to the Rose City to be present during the visit of President Harding.

Mrs. Rogerson, since her return has been advised of the marriage of Miss Grace Donnell, who will be remembered here as a visitor at the Rogerson home and as a resident for a time of Twin Falls, to Edward H. Newbair, collector of internal revenue at Seattle. The marriage, which was solemnized July 2, took place at Vancouver, B. C.

FOREIGN PORTS GOULD TO STRANDED SAILORS

HAVRE, France, July 31 (AP)—Unlucky American seamen or in large numbers, who carelessly or ignorantly sign faulty articles of employment on foreign vessels, are finding themselves stranded here without any hope of getting back home. In many cases jobless and penniless sailors have been arrested as vagabonds and thrown into French jails and, according to their stories, the same danger threatens them in a number of other foreign ports.

Monte Cristo Up-to-Date

After a search that led through untold hardships, the Count of Monte Cristo found the secret tavern. Gold, gems and untold wealth were his.

But think of this! Every day, simply by spending a few minutes running through the advertising columns of this paper, you can find a wealth of things that Monte Cristo could never know. Things that make your life rich in comforts! Countless conveniences that iron out the mechanics of existence! Economies that bring within your easy reach things that once were priceless!

We sometimes overlook the important role that advertising plays in making our lives pleasant and altogether livable. Advertising is as much a part of today's life as electricity, antiseptic surgery or automobiles. It keeps us up-to-date on many things we need in order to live profitable, happy and useful lives. It presents for our approval articles of all kinds and for all purposes. The requirements of each member of the family are met by advertised offers of good merchandise of proved value.

The advertisements save time, money and effort for those who read them and follow their guidance. They are practical guarantees of satisfaction.

Don't put down this paper without reading the advertisements

Upon the following morning, as indicated in the telephone message, Fortier put in a call for Althe Lavergne at her hotel.

Had there been an open rupture between Althe and her uncle, it was hard to say. At all events, Macarty had shown Althe that he was aware of everything which had been going on.

"No, there was no rupture," he decided. "Macarty expected that I would be landed in the hospital today, but when I refused to go, the cautious and careful man he is, he took occasion to have a talk with Althe.

"Yes, that's about it! His unexpected attitude probably alarmed her horribly. Now it's a question what will happen today. Macarty will know that he has failed to bribe me, and that his thug failed to do me up.

"I don't," I gressed. "Because I'm afraid that it will be dangerous for you. It is not right!" Fortier broke into a laugh of relief.

"Very well, Mr. Fortier. Is there anything else you want to know?" "Has your uncle any reason for wanting to meet me?"

three years, quite a spell back. He's under suspicion of several crimes. He's got a brother, Michael—both Cajons. The brother was wanted for a shooting down to Terrebonne. Got any information on them?"

"Not a bit," said Fortier. "The name merely came up in a case on which I was working. I'm much obliged to you."

"I'm very, very happy to meet you, Mr. Fortier," he said. "My niece speaks very highly of you. It gives me great pleasure to believe that she has placed her interests in capable hands."

"I don't," I gressed. "Because I'm afraid that it will be dangerous for you. It is not right!" Fortier broke into a laugh of relief.

"Very well, Mr. Fortier. Is there anything else you want to know?" "Has your uncle any reason for wanting to meet me?"

Althe Lavergne heard the conversation with a very tight frown in her cheeks, but her gray eyes flashed. Fortier hastened to give her a hint.

"You will pardon these remarks, Miss Lavergne? I know your attachment to Philbrick, and I would not cause you any unhappiness. I think your uncle will bear me out, however, in the statement that sentiment is a very bad thing in business."

"Exactly, my boy, exactly!" affirmed Macarty at once. "You have the right idea, sir. Handle things like a gentleman, but with a firm rein."

"I intend to do so at once," said Fortier, nodding assent. "Your advice seems admirable, sir, and I thank you warmly for offering it. It seems to me that there may be some method of removing the management from Philbrick without fronting the industry."

"Really? That sort of thing is bad, sir! Very bad! It cannot be endured for a moment. Is Philbrick under arrest, then?"

THE MARKETS

WHEAT PRICES RISE TO SLIGHTLY HIGHER MARK

Absence of Heavy Selling and Speculation Motive in Day's Trading on the Chicago Market

CHICAGO, July 31 (AP)—Wheat averaged higher in price today, largely as a result of absence of any heavy selling either of a hedging character or in the nature of speculation. With no special incentive to market wheat quickly, it was expected that receipts hereafter would be rather light. The close was unsettled, ranging from 3-8 cent decline to 1-2 cent advance, with September 05 5-8 to 06 3-4, and December \$1.00 to 1.00 1-8. Corn finished at 3-8 cent to a gain of 2 cents, oats varying from 1-8 to 1-4 lower to 1-4 cent up, and provisions unchanged to 10c down. Commission house buying of wheat was of liberal volume at times, but demand appeared to wane on the resulting advances in price. Unfavorable weather in the northwest, together with bullish crop reports from both sides of the Canadian line, was responsible for much of the buying, and in addition there was a good deal of month-end evening up of accounts on the part of previous sellers. Furthermore, northwestern sellers were said to be taking more or less hard winter wheat from the southwest.

In the final dealings, profit taking on the part of early buyers of wheat led to something of a downturn in the day's top figures. Besides, some attention was being given to ascending the wheat rates on the Great Lakes are so high that considerable accumulation of wheat here may result. For the first time in many years at this season the lake and rail rate is higher than all-rail. Corn at last reached a goal which had long been predicted by bulls—90 cents a bushel for July delivery, the highest point on the crop. Available stocks of corn are about 20,000,000 bushels less than last year and oats stocks 34,000,000 bushels less. Provisions were dull, but were steadied by firmness of hog values.

STOCKS SHOW WEAKENING

Overnight Reverses in Condition of President Harding Blamed for Declines of Several Points. Total stock sales \$18,650 shares. Twenty industrials averaged 89.91; net loss 1.20. High, 1923, 105.38; low, 86.01. Twenty railroads averaged 77.14; net loss, .99. High, 1023, 90.00; low, 70.85. NEW YORK, July 31 (AP)—Fresh weakness developed in today's stock market as a result of the overnight turn for the worse in President Harding's condition. Speculators for the decline again offered largely blocks of stocks which were increased by the offerings of frightened investors. Losses of 1 to 4 points took place in most of the speculative favorites, the average of industrial stocks again establishing a new low record for the year. Selling pressure was most effective against the oil, sugar, steel, equipment and automotive stocks, although a large number of calls and other industrial registered substantial recessions on the day. Liquidation of the oil shares, which has been in progress for some time because of the unfavorable conditions in the United States, although a large proportion in a few issues today on reports that recently formed pools were breaking up after an unsuccessful campaign to boost prices. Coal broke more than 3 points to 30, a new low, and then rallied to 31. Further reductions in the prices of raw and refined sugar brought fresh selling into the sugar shares, Menati breaking 1 1/2 points on a new transaction, and American Beet, Cuba-American, Cuba Cane common and Punta Alegre yielding 1 to 2 points. United States Steel common tumbled 5 1/2, another new low for the year. The quarterly report issued after the market closed showed total earnings of \$17,828,181 as against \$34,700,003 in the previous quarter. Baldwin lost 4 1/2 points to 11 1/4, also a new low, while Studebaker, Chandler, Stromberg Carburator, Mather Truck, Davison Chemical and a number of other active issues were off 2 points or more. In the railroad groups, new lows were established by St. Paul common and preferred, Atchison, Missouri Pacific; common and preferred and Texas and Pacific, while Great Northern preferred and Northern Pacific duplicated their previous minimum prices. Call money held at 4 1/2 per cent all day, the high rate also influencing selling to some extent. Time money and commercial paper markets were quiet with no change in rates. Foreign exchanges displayed a heavy tone. Demand sterling was off nearly one cent at \$4.50 1/4, and French francs were 5 points lower at 5 1/4 cents. German marks were again below \$1 a lion.

GOVERNMENT BONDS

NEW YORK, July 31 (AP)—Liberty bonds closed: 3 1/2 1-2 \$100.3 3 1/2 4-8 98.4 First 4 1-4 98.2 Second 4 1-4 98.6 Third 4 1-4 98.7 Fourth 4 1-4 98.2 U. S. Government 4 1-4 98.20

SUGAR

NEW YORK, July 31 (AP)—There was a further decline of 1-10 cent in the price of raw sugar with Cuba now quoted at 4 5/8 cent net and freight, \$4 1/2 cent for centrifugal. Business, however, was light with sales of

CLASSIFIED ADVERTISEMENTS

ONE CENT PER WORD PER INSERTION — AND WORTH IT!

Advertisements under this head are always alive and active, and constitute the best means so far devised of bringing the need of advertisers to the attention of residents of South Idaho

only 1500 bags of Cinos reported to an operator. The raw sugar futures market was weak under heavy selling prompted by the weakness in the spot markets, the continued poor consuming demand for refined sugar reports of increased offerings from Java. The decline carried prices into new low ground for the movement with September declining to \$4.37, and December to \$4.01. Final prices were at about the lowest and from 11 to 32 points below the previous close. Closing: September, \$4.37; December, \$4.02; March, \$3.92; May, \$3.38. The market for refined sugar was easier, owing to the decline in raw sugar with prices unchanged at 10 points lower and all refiners now listing at \$8.25 for fine granulated. The demand was light. The market showed further weakness late in the day when 12,000 bags of Cuba were sold to refiners at 4 1/2 cents cost and freight equal to \$8.23 for centrifugal.

IRISH ARMIES INVADING BRITAIN

Irish Armies Invaded Britain. Centuries ago, Irish armies invaded Britain and won victories there. Dr. Douglas Hyde, in his "Literary-History of Ireland," says: "In 378 AD, Manianus Marcellinus mentions the Irish under the name of Scots, saying that the Scots and Attacotti committed dreadful depredations in Britain; and Claudian, a few years later, speaks of the Irish invasion of Britain. The Irish expeditions against Gaul and Britain became more frequent toward the end of the Fourth century, and at last the unfortunate Britons, driven to despair, sought Irish aid. The army of the Irish and Picts, three times sent into the arms of the Saxons, Niall of the Nine Hostages ascended the throne in 378. He first assisted the Dal Riada clans to gain supremacy the Scots and Picts. He mercenary plundered Britain; and Gaul. The Picts and Irish Gaels at one time penetrated as far as London and Kent." O'Clery's "Book of Invasions" contains a poem descriptive of treasures brought home by Crinmhan, who plundered Britain in the first year of Christ.

**BORAH OFFERS
DETAILED PLAN
TO AVERT WAR**

**Recognition of Russia Figures
in Idaho Senator's Program
for Permanent Peace; Sees
New Conflict Brewing**

With vehement denunciation for the theory that force is the mainstay of civilization, and painting a vivid world picture of world-wide desolation and suffering following the world war which he attributed to that theory, Senator William E. Borah, speaking Tuesday evening before an audience of almost 800 persons in the Methodist church here under auspices of the Federated Rural clubs, made an eloquent and forceful appeal for establishment of an international court model after the supreme court of the United States, as an essential to permanent world peace.

President Paves Way
The senator referred twice in the course of his address, that occupied almost two hours of the evening. He spoke at the beginning of the address, he quoted the president's declaration that if we are to have peace we must have the "will for peace." Again, explaining that the president's elaboration at St. Louis on his proposal for American affiliation with the world court, he said that justice developed the fact that disavowment of the court from the legions of nations was contemplated and so met all of the objections that had been raised by Senator Borah, the senator said:

"I sincerely believe that the president in his St. Louis speech marked and paved the way for the establishment of a world court for permanent peace throughout the world."

Defends Soviet Russia
Senator Borah's declaration for recognition of the soviet government of Russia, which he developed at considerable length, was greeted with scattering applause that gathered volume as he continued with his argument. Recognition of the soviet government, which he declared, has existed for six years without a crack. "The soviet government," he asserted, is essential for the peace of Europe and the world, and resumption of international trade relations which can continue only in time of peace.

The senator quoted from several American visitors to Russia in defense of the soviet regime. Senator Borah was introduced by Mrs. John E. White, president of the federated clubs, as "one who may help us to crystallize our thought and effort toward the abolishment of war—the old-fashioned, old-fashioned men." Invocation in which prayer was made for the restoration of the president to health and "divine guidance to those who would take from the people their liberties," previously had been offered by the Rev. C. W. Rank of the church of the Brethren, in the audience. Under leadership of Mrs. I. H. Masters, two verses of "America."

Problems of taxation and markets for farm produce, Senator Borah said, in his opening remarks, are intimately connected with the finding of world peace. President Harding's statement that 85 cents out of every federal tax dollar goes to pay for war or anticipated wars, the senator said, was accurate and conservative. In European nations the proportion runs to 90 and 95 cents. There can be no material relief from taxation, he said, without reduction of the cost of war.

Touche Farmers' Problems
The farm markets problem, Senator Borah said, is not peculiar to Idaho, but is a national wide problem. He criticized proposals for restricting production and storage of produce as solutions, on the grounds that "thousands and millions are starving for the things that we can raise," and because "finally we have got to have a market for stored up products." After he outlined the principles of protective tariff, the senator declared that little help could be derived from this source, because world conditions were not such that the principle could operate effectively. "We can't deal with a problem of this magnitude by ordinary means," he said.

Restoration of the foreign market through economic adjustment of Europe, including the recognition of soviet Russia as a member of the family of nations, Senator Borah argued offers the only solution of the farm markets problem as well as that of establishment of enduring peace. Senator Borah referred in this connection to resolutions offered by himself in the senate calling for international conferences on disarmament and economic readjustment. The Washington armament limitation conference he declared had accomplished a great deal of good. It had made possible a saving to the United States of \$300,000 and brought about an atmosphere as between nations that was wholly different from that of the period of competitive naval construction that had immediate

CARAVANERS PRESS CLAIM

Walter McPherson and Herbert B. Both Spk Damages from Roseworth Project Promoters
Involving claims for damages in the aggregate of \$13,088.93, second amended complaints in the suits of Walter McPherson and Herbert B. Both, members of the Brooklyn caravan in 1921, against E. T. Meredith, P. O. Meredith and the Idaho Farm Development company, were filed Tuesday in district court here by attorney, H. C. Mills. Misrepresentation on the part of the defendants in connection with the sale to the complainants of land on the Roseworth project which they crossed the country to claim is alleged as the basis for the action for damages. Similar allegations were made by these caravaners who instituted suit last week bringing the total of claims against the Merediths and the corporations up to more than \$25,000.

They proceeded it. There remained, he said, the need of reduction of land armament, and this, he said, could not be accomplished while the Russian situation was permitted to continue as a menace to world peace.

Would Drive Bargain
Senator Borah expressed regret that action had not been taken on his proposal for an international economic conference. He referred to his prediction made at the time of the defeat of France, resolution in the senate that "France would evade the Ruhr, and that prices for farm products would decline in consequence. "If such a conference had been held and France as it was feared, had raised the question of debt cancellation," Senator Borah declared, "I would have said, if I had had authority, 'We will cancel the debt if you reach an understanding with Germany and restore peace to Europe.'"
"Especially," the senator said following the applause, "in view of the fact that we shall never get a dollar of it any way!"

War Threat Appears
The threat of a new world conflict appeared at intervals in the senator's address.

"The situation in Europe, in my judgment," he said, "is infinitely worse than in 1913. Only one thing is holding Europe's political leaders back from a renewal of the conflict. They are afraid that the masses are not in sympathy with their programs. If such a war comes, it is inevitable that we should be drawn into it. The situation should make us hold to call the nations of the world in conference to devise ways and means of preventing war for all time."

"If war comes in Europe, as it now threatens to come, the senator said again, "it will come because the masses are not consulted while the leaders continue their intrigues as they have done for hundreds of years."
Turning to the Russian situation, the senator asked his audience to consider "it not as a political problem but as part of a program for world peace. "There can be no secure peace, no general disarmament and no adequate markets for farm produce so long as Russia remains an outlaw among the nations," the senator declared. Recognition, he said, does not mean approval or disapproval of a form of government, but only of the fact that a government exists. Admitting, for the sake of argument, the senator said, that there has been cruelty and bloodshed in Russia—and this, he declared, "always has been and always will be inseparable from revolutions"—the speaker counseled a course of friendship and amity "to do what we can to ameliorate the situation."

World's Greatest Need
"We may write leagues of nations till the human brain tires; we may build international courts until human strength fails, but until there is brought into relations between men and nations something of the spirit of the Master of men who walked the earth 2000 years ago, leagues and courts will disappear like mist before the storm."

"What the world needs more than any international creeds," the senator continued, "is the enlightenment of the spirit of humanity, tolerance and justice."
Turning toward the proposed establishment of a world court as a factor for peace, the senator said that his plan embodied three factors: First, the codification of international law; second, the declaration that war for the sake of territory or power among nations is a crime; and third, establishment of a world tribunal modeled after the supreme court of the United States.

Abolishment of piracy, slavery and dueling, he said, had been accomplished by declarations of these practices and institutions as being criminal. Citing the fact that the supreme court is without power to enforce its decrees with respect to sovereign states, Senator Borah showed that out of 83 such decrees only one had failed of fulfillment. "If we were at peace, he said, would rely similarly for efficacy of its decrees upon common regard for a fair and impartial opinion rendered by an honest tribunal separate and apart from politics and political institutions, and upon the approval of enlightened public opinion.

**Via Twin Falls Is
Shortest Route to
California Points**

**New Map of This Section
Shows Enormous Territory
of Which This City Is Logical
Distributing Point**

The advantages of Twin Falls from a shipping standpoint of the Short Line connecting link between Rogerson and Wells, are shown to advantage in a map just completed by J. W. Porterfield at the instance of George D. Aiken.

The map embraces all the territory included in Washington, Oregon, Montana, Idaho, Wyoming, California, Nevada, Utah and adjoining states to the east and south, but is designed chiefly to show in detail that portion of the territory which, upon completion of the new line will be closer by rail to San Francisco via Twin Falls than via either Ogden or Portland, Oregon.

Embraces Large Area
This territory extends from Baker City, Oregon, on the northwest to Dillon, Montana, on the northeast and includes all the towns from St. Anthony to Pocatello on the west to Burns, Oregon, on the east. Within this territory are included all the towns on the 729 mile Via Twin Falls route, the shortest route between any of the points named and San Francisco.

**SECRET SERVICE
STRIKES AGAIN**

**Second Suspected Violator of
'White Slave Law' Is Arrested
in Twin Falls**

The federal grand jury for violators of the white slave traffic law censured a second suspect in Twin Falls within 12 hours after the arrest of the first, when Roy Motley, alias Robert Burns, 25, was taken in custody Monday at a hotel here by Chief of Police P. C. Herriman and Patrolman William Taylor, on a warrant issued by United States marshal H. E. Powers, at the request of agents of the federal department of justice. With Motley at the time of his arrest was Edna Roberts, 24, alias Mrs. Robert Burns, alias Edna Belknap, alias Marjorie Burns, alias Emma Hopfenstein, and another woman who gave the name of Virginia Lyman. Edna Roberts, her four-year-old daughter, and Motley, had registered as Mr. and Mrs. Robert Burns of Salt Lake. Under questioning, the authorities said, they admitted that they had come here from Ontario, Oregon, with stops at Boise and Shoshone.

Motley and Laurence Bennett, 40, who was arrested here Monday on a similar charge, were arraigned Tuesday before Commissioner Powers. They waived examinations and were held under \$1000 bond in each case to the action of the federal grand jury to be convened September 1. Neither had furnished bond Tuesday evening and both were being held in the county jail. The women were subpoenaed as witnesses.

FUNERALS
Bryan Koch.
Funeral services for Bryan Koch, who was drowned Sunday while bathing in the Payette river, near Ontario, Oregon, will be held at 10 o'clock Wednesday morning in the J. E. DeWitt chapel, and will be conducted by the Rev. A. G. Pearson of the Presbyterian church.

ANNOUNCEMENTS
A lawn supper will be served from 5:30 to 8 o'clock Thursday evening at the Benoit apartment by the Catholic Young Ladies' Sodality.

Treat your motor right by using a 100 per cent pure Pennsylvanian oil. Only 90¢ a gallon. Write for literature. LIND AUTOMOBILE COMPANY, adv.

**CONSTRUCTS TAX
LAW AMENDMENT**

**County Attorney Holds Amend-
ments Not Effective as to
1920 Delinquencies**

Amendment to Idaho tax laws made by the 1923 session of the state legislature is not retroactive and does not affect proceedings relative to delinquencies incurred in 1920 and prior thereto, according to an opinion given Tuesday by Prosecuting Attorney J. W. Taylor. The question was presented by the county treasurer and tax collector, who is now preparing notices to landowners of the impending expiration of the statutory period for redemption of property upon which taxes became delinquent in 1920.

Amendment to the law does reduce the penalty from six to two per cent and extends the period of redemption from three to four years. "I cannot see where the question of retroactivity has any bearing on this section of the statute," the prosecuting attorney says in his opinion. "Webster's New International dictionary defines a retroactive law as 'one operating to make criminal, punishable, or in any way expressly to affect acts done prior to the passing of the law.' Certainly this law does not affect acts done prior to the passing of the law. The date when taxes became due remains the same; the time when the delinquency entry must be made is the same. All acts which were to have been done by the tax collector under the old law had been done before this law was enacted.

"With respect to the 1920 taxes, there were no uncompleted acts of the tax collector to which this act could apply. Any act which the tax collector had to perform with respect to these 1920 taxes were in the future; the taxes were not yet so far delinquent that the period of redemption had expired, and the tax collector had no duties to perform in connection with such taxes until the period had expired.

"The law provides that the county treasurer must, not more than five nor less than three months before the expiration of the statutory period for redemption, notify the owners, or the persons in whose names the property is held, that the period of redemption will expire on the first Monday of January next following. However, they were not notified until the next act, namely, the giving of this notice, with reference to these 1920 taxes, was to be performed at the time the law went into effect, so that the law must by necessary implication have had reference to future acts, and did not relate back to any past acts."

Personal

On Family Trip—Marion Hammond and family will leave Wednesday morning on a vacation trip to the vicinity of Pilsbo in the Wood river country.

Visits Friends Here—E. P. Nafziger, formerly a member of the Twin Falls high school faculty, who taught last year in Seattle schools, is spending a few days visiting friends here.

To Join Family—Dr. F. McAttee left Sunday to join Mrs. McAttee and children in Dillon, Mont., where she is visiting her mother. During his absence, his office will be in charge of Dr. Campbell.

Returns to Twin Falls—J. Howard Hoise, former treasurer of Twin Falls county and now first vice president of the Union National bank and Union Trust company of Fremont, Neb., after an absence of eight years, is visiting old friends here.

Commissioner to Leave—H. E. Powers, United States commissioner here, expects to leave Thursday evening for Los Angeles, where he will visit his daughter, Mrs. Charlotte Wells, and enter a sanitarium for treatment of an infection of long standing.

WORDS OF THANKS
We are everlastingly sincere thanks and appreciation to our friends and neighbors for the many kindnesses and sympathy shown us during the loss of our dear husband and father. Also the beautiful floral offerings.
MRS. E. E. PIERCE.

**Delay Decision On
Warehouse Project**

County Commissioners at Pocatello Conference Hear Plan Explained

Representatives of the boards of commissioners of 13 of the 24 counties that would be included in a terminal elevator and warehouse district under provisions of a law passed by the late legislature, met at a conference extended in Pocatello Monday by the Pocatello Chamber of Commerce, heard detailed explanation of the plan outlined in the law, but indicated unwillingness at that time to give the plan their endorsement, according to reports brought back Tuesday by E. Carlson of Twin Falls, who headed the committee as the member representing the Twin Falls county board.

Under provisions of the law, commissioners of each county, if it is to be included in the proposed district, must on or before September 1, adopt resolutions that effect the creation of five per cent of the voters of the district may petition for an election on issuance of bonds for erection of an elevator or elevators. "It was brought out at the conference," Mr. Carlson said, "that the state public utilities commission would govern the affairs of the district and fix the rates to be charged for storage in the elevator. These charges would be expected to yield a surplus to be turned into the bond redemption fund. If no such surplus was derived, or if it were insufficient, the deficit would be made up by tax levy against counties within the district on the basis of their assessed valuation. "These and other features of the plan were presented at length by former Attorney General J. H. Peterson and R. E. Shepherd of Jerome, who sponsored the law before the legislature. "It was my idea, and it seemed to be the opinion of most of the others at the conference, that the question was one that we ought not to pass upon too hastily. I expressed myself as desiring to report what I had learned to the whole board before the matter ripen a little more in my mind."

CONTEMPT ACTION HALTED

Supreme Court Issues Writ of Prohibition in Contempt Case of R. Glavin vs. Salmon River Canal Company

According to a message received from J. E. Bothwell, of Bothwell and Chapman, who is now in Boise before the supreme court in the case of R. Glavin against the Salmon River Canal company, an alternative writ of prohibition, returnable before the supreme court in Boise August 8, has been issued. The writ has the effect of prohibiting the district court from hearing the contempt action now before the court, or from appointing a watermaster or taking any other action except the fixing of the amount of the stay bond. Judge Baum was called into the case because of the absence of Judge Lee and because of the further fact that Judge Babcock, himself an owner of Salmon land, was disqualified from sitting in the case. Bothwell and Chapman appear for the defendant company with John W. Graham as counsel for Glavin. The contempt proceedings and appointment of a watermaster were to be heard before Judge Baum at 2 p. m. Wednesday.
