TWIN FALLS, IDAHO, TUESDAY MORNING, AUGUST 14, 1923

PRICES FIVE CENTS

HEAVY DAMAGE INFLICTED BY STORM IN UTAH

One Person Dead and Property Loss Estimated at \$150,000; Cloudburst Throws Rivers on Rampage

FARMINGTON, Utah, Aug. 13 (AP)—Swept on a rampage by a cloudburst late today, rivers and streams near this city tonight flooded Farmington, causing one death, thousands of dollars in property damage and mauling about 500 persons at the pleasure resort of Lagoon, near here.

Stricken dead by heart failure as he fought his way with his 2-year-old daughter, in his arms from a swollen stream near Lagoon, Arnold Christenson, 38, was the only known fatality. Christenson's last looks of the bank of the stream was a view of a wall of water, carrying down stream his wife and their three small children who were in the tent. Christenson, a policeman, and his brother, A. C. Christenson, rescued Mrs. Christenson and two of the children.

Another of his two-year-old daughters, was carried on the crest of the flood for more than a quarter of a mile when Christenson, swimming after her, reached her and fell dead from exhaustion. The child, who was "in a serious condition," was rescued by the policeman's brother. Measures were taken tonight to provide for the crowd marooned at Lagoon, and for their safe removal from the resort early tomorrow.

Roads radiating from Salt Lake in this section were flooded while tracks on the electric line to Lagoon were washed out.

Many concessions at Lagoon were washed away when the flood waters surged to a depth of two feet in parts of the resort.

Sweeping down from the mountains nearby the stream was a head-on flood of the Farmington power house, causing it to be thrown out of commission. As a result the city tonight is in darkness.

The damage was estimated at approximately \$150,000.

Heavy rains were reported tonight in northern Utah.

Gasoline Is Given Six Cent Reduction

Standard Oils Price, Effective at Once, in Eleven Middle Western States

CHICAGO, Aug. 13 (AP)—The Standard Oil company of Indiana announced tonight that it will reduce the price of gasoline 6 cents a gallon throughout its entire territory, effective tomorrow morning. At the same time L. V. Nicholas, head of the National Petroleum Marketers' association, announced he had notified the independent cuts to reduce prices five cents a gallon.

The new prices were characterized by the Standard Oil company of Indiana in its announcement as "far below the cost of production and distribution." The Standard Oil company said in its statement that it had no wish to injure competitors but was inspired in making the reduction to meet the competition started by Governor W. H. McMaster of South Dakota, and now extending to other state executives.

The territories affected includes Illinois, Iowa, Indiana, Michigan, Wisconsin, Minnesota, North Dakota, South Dakota, Kansas, Missouri and part of Oklahoma. The cut is already effective in South Dakota.

"I notified independents to reduce the price five cents," Mr. Nicholas said. "A cut of more than five cents is un-

UNION PACIFIC READY TO BUILD EXTENSIONS

Officials Announce Completed Plans for Rogerson Project and Extending Main Line to Boise

OMAHA, Aug. 13 (AP)—Officials of the Union Pacific railway system today announced that plans for extension of the company's main line from Orchard to Boise, Idaho, had been completed. For ten years the people of Boise, it was stated, have been requesting that the main line touch Boise instead of cutting across Idaho some 20 miles south, leaving the city accessible only by a branch line.

Another extension is to be laid from the end of the Rogerson branch in south Idaho to a point 100 miles directly south, where the extension will meet the Southern Pacific in Nevada.

Springs from Sick Bed to Drag Flood Victims to Safety

FARMINGTON, Utah, Aug. 13 (AP)—Laying his bed to which he was confined with influenza, Dr. R. O. Robinson of Farmington leaped through a window tonight when he heard the cries of a woman being swept downstream in the flood which hit this little city tonight, and rescued an 80-year-old woman who had sought refuge by clinging to a raft.

Urged on by the pleas of Mrs. Pebley of Farmington. She was in a critical condition tonight. The girl was expected to recover.

Urged on by the pleas of Mrs. Pebley, Dr. Robinson entered the water a third time in an effort to drag the calf from the stream. He succeeded.

FEDERAL PROBE GAINS HEADWAY

New Developments Enter into Investigation of New York Bucketshop Cases

NEW YORK, Aug. 13 (AP)—New developments in the series of federal prosecutions growing out of the \$8,000,000 failure of E. M. Fuller and company, bucketshop brokers, caused United States Attorney Hoyward to hold up for today the presentation before a grand jury of evidence against E. M. Fuller and W. F. McGee. Postponement of the proceedings until tomorrow as ordered by Mr. Hoyward was informed by newspaper men of the identity of "G. Shadney" and "H. V. McFain," as they were listed at Ludlow street jail, when they visited Fuller and McGee, in jail for contempt of court.

Information of alleged connections of "Shadney" and "McFain" with E. M. Fuller & Co. and with other bankrupt brokerage houses was given by the federal prosecutor and counsel for Fuller's creditors as "most important."

It also was reported at the federal building today that another installment of the bankrupt's records had been received by authorities, sent

BLACK PICTURE OF GERMANY IS SEEN BY SMOOT

Utah Senator, Returning from Investigation, Reports Europe on Brink of Ruin and Facing War Outbreak

NEW YORK, Aug. 13 (AP)—A picture of Germany on the brink of ruin, and of Europe face to face with another devastating war, was brought home today by Senator Reed Smoot of Utah, who went abroad at the request of the late President Harding to study conditions in Germany as they affect the reparations problem.

Equally doleful was the impression brought back by Representative J. B. Aswell, of Louisiana, who also has been on a tour of Europe. Both agreed that conditions abroad boded ill for America, particularly for the farmer, for whose surplus crops, they said, Europe was not in a position to pay.

Senator Smoot said he believed it still was possible for Europe to set its house in order without a period of chaos, but he declared, unless the nations acted soon, war would surely come.

While the chief differences between France, Germany and Great Britain appeared on the surface to be over reparations, he said, he suspected that beneath this lay the problem of coal. In view of what he had seen, he said, he earnestly hoped that America could remain free of European entanglements. He did not believe, however, that entry into the world court under the reservations suggested by the late President Harding would constitute an entanglement. On the contrary, he thought, America could do much to help Europe in its readjustment without herself becoming unduly involved.

Representative Aswell thought that conditions in Europe had reached such a pass that there was nothing the United States could do save exercise her "moral force."

JAP ADMIRAL TO TOUR WORLD. TOKYO, Aug. 13 (AP)—Vice Admiral Kenji Ido starts shortly on a tour of the world. He will visit Europe and return home by way of the United States.

IDAHO WEATHER. Tuesday: Unsettled and thunder storms.

Northwestern Growers Favor Plan For Federal Wheat Buying Agency; National Bodies to Study Problem

Farmers from Four States Favor Formation of \$500,000,000 Corporation; Idaho Senators Express Views; Grain Declines Subject of Discussion by Wheat Council and United States Chamber of Commerce

CHICAGO, Aug. 13 (AP)—A more optimistic light was shed on the wheat situation in this country at a conference here today of a joint committee on wheat research of the wheat council of the United States and the Chamber of Commerce of the United States, committee members declared after the meeting.

Resolutions adopted declared that estimates of huge over production are not borne out by a study of the situation, and attributed the depressed market to the exaggerated reports of surplus wheat production.

Adopt Research Program.

A definite research program on which statistical experts of the two bodies will start to work at once was adopted. The committee will meet September 24 to consider reports on this program. While the joint committee was meeting, another conference to try to relieve the wheat situation was taking place here. Railroad executives held a conference with a committee from the Omaha Chamber of Commerce to reconsider the program of the Omaha business men for a reduction in freight rates on wheat recently rejected by the carriers. At the close of the meeting the only statement that was made was to the effect that the railroad representatives would consider the matter further or might communicate with the Omaha organization at the close of their deliberations.

Much Accomplished.

Congressman Sydney Anderson of Minnesota, temporary chairman of the wheat council-commercial meeting, declared that much had been accomplished by the wheat council and others cooperating for betterment of the wheat situation.

Program Outlined.

The program adopted by the joint

CALL OPERATORS AND MINERS IN TALK ON WAGES

First Move in Governmental Intervention in Anthracite Situation Is Summons to Hearing Before Commission

WASHINGTON, Aug. 13—Representatives of union miners and operators in the anthracite field were summoned today by the federal coal commission to meet in New York City Wednesday to renew negotiations designed to avert a suspension of anthracite production on September 1.

The summons, which constituted the first step of governmental intervention in the existing deadlock over a new wage contract, was issued with the approval of President Coolidge after he had discussed the situation with Chairman Hammond of the coal commission and Dr. George Otto Smith, a member of the commission.

At the same time the commission is set to act solely as agents of mediation and conciliation, for the time being. Its object will be to work out some compromise, which will result in the continued operation of the mines, regardless of the time required to settle controversy.

Contract Expires September 1

Anthracite mining is being conducted under terms of a wage contract between the operators and miners which expires September 1. Negotiations were begun in July at Atlantic City between the union and the operators looking to the making of a new contract. These broke down completely 10 days ago, when John L. Lewis, president of the United Mine Workers, served notice upon B. D. Warren, chairman of the general policy committee of anthracite operators, that the union would demand in the new contract installation of the "check-off"—a system of collection of union dues by which the employees withheld dues from wages checks, and turn them over to the union.

Negotiations Fail

The operators refused the ultimatum and the negotiating groups separated, the understanding being that miners belonging to the union would cease work September 1, without the issuance of a formal strike order by their

Tulsa Placed Under Control of Troops

Flogging Is Followed by Proclamation; Citizens Ordered Off Streets at Night

OKLAHOMA CITY, Okla., Aug. 13 (AP)—Governor J. C. Walton late today issued a proclamation placing the city of Tulsa under martial law.

The city goes under the rule of military law this afternoon. Several units from Oklahoma City and Okmulgee were immediately ordered to proceed to Tulsa.

Issuance of the proclamation followed flogging of Nathan Hartman of Tulsa last Friday night.

All civilians must be off the streets by 10 o'clock at night and no general assembly until 6 a. m. without specific permit from the military authorities, it was announced.

The order will not affect the courts or other departments of the civil government, with the exception of the police and the sheriff's office, Counselor Blake said.

Governor Walton, who is resting at Sulphur, telephoned Blake instructions to issue the martial law proclamation. Other counties may be placed under martial law if reports of similar mob outrages continue to come in, it was stated. A recent whipping at Kingfisher is being rigidly investigated. It was stated, however, that they appeared to be no immediate necessity of sending troops there.

WHY IT SEEMS DIFFICULT FOR THEM TO WORK TOGETHER MUCH LONGER

Many to Benefit From Investments Made in Mexico, Utah Man Asserts

SALT LAKE CITY, Aug. 13 (AP)—Many persons in Utah and Idaho will benefit from investments made in Mexico, which have not lapsed from inattention or been destroyed by confiscation, under the proposed new agreement between the United States and Mexico, according to a statement today by Noble Warren of Salt Lake City, authority on the Mexican situation.

"Resumption of diplomatic relations with Mexico, founded upon mutual interest and proper consideration of vested rights, ought to be of extensive and lasting benefit to the people of both countries," said Mr. Warren.

EUROPE TO ASK U. S. DEMANDS ON WAR DEBTS

Book Published by France Showing Communications Between Diplomats Indicates Position of America

PARIS, Aug. 13 (AP)—A "yellow book" of diplomatic documents issued tonight by the French government brings out clearly that the United States ultimately will be asked by the allies how much of the inter-allied debt she expects to be paid.

The book contains 37 telegrams and letters, most of them between Poincaré and French ambassadors. They are dated from May 2 to August 3, and deal with the Ruhr situation, reparations, debts and the British question.

Premier Poincaré puts his position plainly in a June 12 message to the French ambassador in London. He instructs the ambassador among other things to tell Lord Curzon, the British foreign secretary, "that it is the problem of interallied debts which prevents us from telling Germany now the exact sum she owes us."

Book Answered From U. S.—The message adds: "The solution of this problem is in the hands of England, first of all, and the United States afterward. The latter can be approached in a common accord by the allies when they have agreed upon a formula and it has become evident everything depends only upon the attitude of the government at Washington."

The yellow book was issued as a reply to the British action in announcing that the world would be called upon to judge the present situation with regard to Germany. The documents which hitherto had not been published, consist mostly of instructions to the ambassadors on how to present the French viewpoint on the situation.

Germany Can Pay.—They set out in great detail, and often in the exact language, declarations already made by the premier publicly and emphasizing M. Poincaré's absolute conviction that Germany can pay, must pay, and will pay, because France will follow a policy of making it easier to pay than to stand the pressure in the Ruhr.

MURTAUGH

MURTAUGH—The Ladies' Aid society of the Episcopal church met at the home of Mrs. Lloyd Jata Thursday afternoon. After a short business session, a social time was enjoyed. Delicious refreshments were served to the following ladies: Mesdames V. E. Bell, G. I. Curman, F. J. Foley, F. W. Wacziarg, Emily Switzer, G. C. King, R. Randall, Oliver Johnson, Miss Ruth Brown and Helen Hoover.

Elizabeth and Margaret Hoover, Katherine Fahy and Dick Blair, who have been visiting at the W. C. Dickey home in Twin Falls, returned home Friday evening.

Superintendent J. E. Eaker of Gooding held quarterly conference of the Methodist Episcopal church board at the church Wednesday evening.

A son was born to Mr. and Mrs. Gray Smurr at Twin Falls Thursday, August 9.

Mr. and Mrs. Charles Gilliland and daughter, Katherine, of Pierce, Idaho, are visiting at the home of Mr. Gilliland's sister, Mrs. A. J. Campbell.

Mrs. Elmina Hendricks of Richmond, Utah, who has been in the city for two weeks at the home of her daughter, Mrs. S. H. Walton, returned to her home Friday.

L. H. Merrill, who has been attending the Idaho Technical Institute at Pocatello during the summer session, returned home Friday.

The Misses Ola Fuller, Ellen Dahlquist, Ora and Emma Silvers, who have been attending the state normal at Albion, returned to their homes Friday.

Murtaugh and Churchhill ball teams played at Arden on Saturday afternoon, Murtaugh being defeated by a score of 14 to 4.

Charles Johnson was operated on for appendicitis at the Twin Falls hospital Friday morning. He is reported to be getting along nicely.

Mr. and Mrs. F. W. Scholtz and Mr. and Mrs. M. W. Whitlatch were motored to Boise Sunday. Mr. and Mrs. Whitlatch will remain in Boise, where they will be employed on a dairy farm.

Mrs. Kenneth Hin and daughter of Boise, are visiting at the home of Mrs. Hines' sister, Mrs. Carroll True.

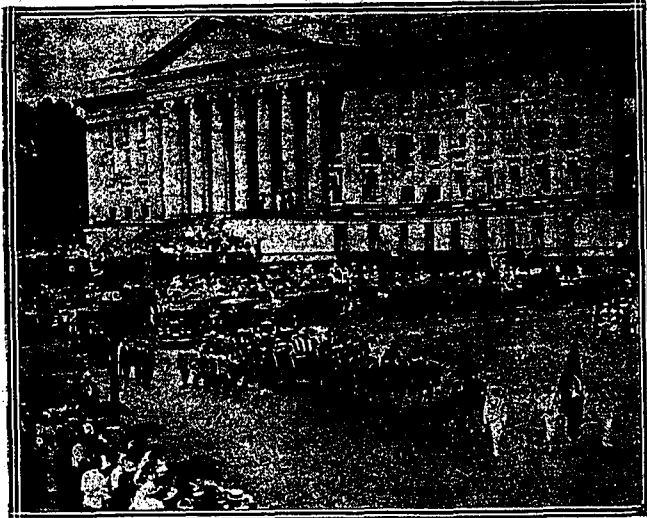

Mr. and Mrs. C. E. True and Mr. and Mrs. Cecil Boyd of Twin Falls, left Friday morning for a week's outing in the hills.

Miss Helen Marshall left the latter part of the week for Rupert.

School opens in Murtaugh Monday, September 10, with the following teachers: Miss Mary Van Doren of Gooding, first and second grades; Miss Alice Norris, Pocatello, third and fourth grades; Miss Ellen Dahlquist of Iowa, fifth and sixth grades; Larne H. Merrill, seventh and eighth grades; Mrs. T. E. Ward and Superintendent V. E. Bell, high school.

Thousands Saluted This

Preceded by the President's flag, the body of Warren G. Harding being borne through the capital on an artillery caisson, protected by army, navy and marine corps.

CENTENNIAL OBSERVANCE OF RAILROADS PLANNED

Hundred Years of Development in Lines of America Is Basis for Proposed Chicago Celebration

CHICAGO, Aug. 13 (AP)—Plans to celebrate the centennial of the American railroad here with an exhibition showing its evolution and effect on the nation's growth have been begun by the American Railway association. Committees have been appointed to gather data as to an appropriate date for the celebration, and to determine the extent of the miniature world's fair, which is being considered in this connection.

Three railway organizations have adopted resolutions urging the appropriate observance of a hundred years of railroad development—American Railway Engineering association, American Railway Development association and the mechanical division of the American Railway association.

As no city has a convention hall large enough to hold all the exhibits, according to V. E. Hawthorne, secretary of division 5, American Railway association, he proposes the erection of a temporary structure to accommodate 25 or more railroad bodies which would hold conventions here under the plans. Another suggestion is to hold a central exposition in Chicago with a number of smaller celebrations held simultaneously in other cities, making Chicago the center of a great railroad centennial wheel.

American railroads will participate in 1925 in the English celebration of the opening of the first railway in the world, conducted by the International Railway congress, but it is the desire of the American Railway association also to commemorate the American centennial, which comes in 1928.

The trackage of the American roads, according to the interstate commerce commission, is 376,092 miles, not including switches and terminal lines. According to these same figures there are now in operation approximately 70,000 locomotives, 2,500,000 freight cars and 65,000 passenger cars.

Why use a poor oil when you can buy the best? A 100 per cent pure Pennsylvania oil at 25¢ per quart, any weight. LIND AUTOMOBILE COMPANY.

STUTZ FIRM IS DENIED PERMIT TO LIST STOCK

Insufficient Distribution of Shares Is Given as Reason of Action by Exchange Board at New York

NEW YORK, Aug. 13 (AP)—The application of the Stutz Motor company to re-list its stock upon the New York stock exchange has been denied, it was learned late today. While no official statement could be obtained from stock exchange officials, it was understood the reason given was "insufficient distribution of the stock."

Stutz stock was stricken from the lists in 1920 when Allen A. Ryan "cornered" the market. Control of the company now is in the hands of Charles M. Schwab, chairman of the board of the Bethlehem corporation, who became the leading factor in its affairs after the failure of Mr. Ryan, which occurred after the Stutz "corner."

It was understood the company's application to again list the stock was formally rejected last week at the meeting of the board of governors of the stock exchange.

Following its usual practice of making no announcement on such matters, however, nothing was known of the action until today, when it was learned that officials of the Stutz company had received a communication from the stock exchange suggesting that the application be suspended until the corporation's stock is distributed more widely.

It was stated that the application to list the 280,000 shares outstanding would be renewed at the end of six months when officers of the company

expected the stock would be better distributed. Stock exchange officials, in confirming its failure to admit the stock to the lists at this time, made it clear that the action should not be construed as a reflection upon the company's management or the earning position. The rules of the exchange require, however, that stocks listed thereon have a wide public distribution.

Causes of Appendicitis.—When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation which is commonly known as appendicitis. Take Chamberlain's Tablets when needed, and keep your bowels regular and you have little to fear from appendicitis.—adv.

MINING MEN MAY ASK HEAVIER IMMIGRATION

MILWAUKEE, Aug. 13 (AP)—Fewer restrictions on immigration to meet an alleged need of additional laborers in the American mining industry will be discussed by the American Mining congress to meet here September 24-29. Nearly 8000 owners, operators and mining engineers are expected to be in attendance.

Although mining men appreciate the unwisdom of breaking down the immigration barriers entirely, they feel there should be no abridgement of opportunity in the United States for effective labor and for selecting the right type of immigrant according to officials of the organization.

A national movement for industrial cooperation between employer and employee in mining enterprises also is to be launched here. Ways and means of assisting employes in maintaining proper standards of living also will be discussed.

The United States bureau of mines and the geological survey will participate in the exposition, and the mining states of Colorado, California and Utah will exhibit displays of their mine resources and equipment.

Additional emphasis will be placed on the use of labor saving machinery and equipment in mining enterprises. The American Mining congress, officials say, has been advocating modernization of the mining industry and the standardization of basic methods for the last three years.

NOTICE OF CALL FOR REGISTERED WARRANTS

The following registered warrants of the City of Twin Falls, Idaho, are called for payment this date and will be paid on presentation at my office. General fund, Nos. 13860-16751. inclusive.

Water works fund 3352-3470, inclusive. Interest on these warrants ceases August 24th, 1923.

The Screen

NEW DALTON PICTURE GOOD.

Dorothy Dalton scored an emphatic hit in her Paramount star picture, "The Law of the Lawless," at the Idaho theater Monday. Charles de Roche, a famous French screen star, makes his debut in an American picture in this offering, while Theodore Kaskoff and Tully Marshall, well known Paramount players, are featured. The scenes are laid among the Tartar and gypsy tribes of Bannania and are most dramatic. The photoplay is one of the best seen here this season and is quite entertaining.

Hunger, the Best Sauce. Sauce is used to create an appetite or relish for the food. The right way is to look to your digestion. When you have good digestion you are certain to relish your food. EMMETT BEATS LOCAL PLAYERS IN FINAL GAME

Poor Base Running Proves Undoing of Twin Falls Team In 8 to 6 Tilt; Large Crowd Sees Contest

Emmett made a clean sweep of the three-game series with Twin Falls, winning the Sunday game, 8 to 6, in a game featured by the uphill fight put up by the losing team.

The defeat was the second straight for Twin Falls, both contests belonged to the locals with a little head work.

Sunday's game was lost through poor base running, two players being nipped on the paths striding up.

Fix started the evening for the Twin Falls boys and pitched a wonderful game up to the seventh inning, when with two outs and two strikes on the batter, and a runner on third, the Emmett club fell on his offerings for six straight hits, netting as many runs.

Cooper, who relieved him, threw but one ball to Bench, that ending grounding to Scilley for the third out.

Showing a fighting spirit that kept them in the race during the two games, the Twin Falls lads battered Bench for four markers in the eighth, and then added another in the ninth with two men sitting on an action and third, when Papworth fanned for the final out.

Bench opposed Fix and was nipped for 11 hits, besides walking five men. Another inning to play would have spelled defeat for the fast weakening Forsland hurler.

Twin Falls started the game with a run in the initial frame. After Jarman had grounded out, Kleffner walked and moved to second when Bench passed French. Cooper sent a scorcher to left scoring Kleffner.

Emmett evaded the scene in his half without a hit. Silvers hit a hot one to French, who fumbled long enough to let the fleet-footed Silvers tie up at second. Cobley walked, Otkins grounded out to Cooper, Silvers landing on third. Ashenfelter hit to Scilley, Silvers scoring with Ashenfelter walking being thrown out at first.

The home team took the lead in the fourth. Aston singled to right, but was forced at second by Brown, Kleffner to Scilley. Fix made a balk, and Brown went to second. Soran singled to right, scoring Brown.

The seventh was the big inning for Emmett. Soran opened the inning with a triple to right center. Offerman lined to Scilley, and Bench sent one to Scilley, who held Soran at third while throwing Bench out at first. Silvers walked. Fix struck on Cobley, the platter that suited Otkins, and he doubled to right. Then Otkins, Ashenfelter, Aston and Brown singled in a row. Soran up for the second time, walked. Cooper then took the mound, Fix going to first base. Bench grounded out, Scilley to Fix, ending the agency.

With the score 8 to 1 against them the Twin Falls boys started the eighth with a grim determination to do or die. Kleffner took one of Bench's slants in the ribs. French singled to left, and Kleffner was caught at third. Ashenfelter to Silvers, French going to second on the play. French stole third. Cooper singled to center, scoring French. Cooper went to second on a wild pitch. Scilley fanned, but Papworth delivered with a clean swat to right, scoring Cooper. Bile singled to right, sending Papworth to third. Llaville singled to infield, scoring Papworth. Fix sent a long double to center and Llaville was nipped at the plate.

In the ninth the Twin Falls players started at Bench again. Hulhan, batting for Jarman, walked. Kleffner Ashenfelter, who fumbled, Cooper fouled out to Offerman. Scilley sent an timely single to right, scoring Hulhan, French going to third, and Scilley to second on the throw-in. Papworth took three healthy swats at the ozone, and the game was over.

A feature of the game was the work of Cooper, who led the onslaught with three hits out of five trips to the plate, beside fielding in big league fashion.

The box score: Twin Falls: AB R H PO A E; Jarman, 1E; Hulhan, 1B; Kleffner, 2B; French, 3B; Cooper, 4B; Scilley, 5B; Papworth, 7F; Bile, 2F; Llaville, 1C; Fix, p, 1B. Totals: 36 6 11 24 16 2. *Hulhan batted for Jarman in the ninth; walked. Emmett: AB R H PO A E; Silvers, 1B; Cobley, 2B; Otkins, 3B; Ashenfelter, 4B; Aston, 7F; Brown, 1F; Soran, 1C; Offerman, 1C; Bench, p.

BASEBALL

Summary: Earned runs—Twin Falls 5, Emmett 6. Stolen bases—French. Two-base hits—Otkins, Fix. Three-base hits—Cooper, Soran. Struck out—by Fix 2, by Bench 11. Base on balls—off Bench 2, off Fix 3. Double plays—Stivers to Cobley, Cooper to Kleffner to Cooper. Left on bases—Twin Falls 10, Emmett 4. Passed balls—Offerman 2. Hit by pitcher—by Fix, Otkins; by Bench, Kleffner. Balk—Fix. Wild pitch—Bench. Time of game—2 hours. Umpires—Miles and Schonwald.

NOTES OF THE GAME

Twin Falls lost both games, but only after a struggle. The two games showed that Twin Falls is as fast as any team in the state.

Saturday's game was a gift by the umpires, both arbiters showing the brotherly love spirit in every close play.

When Cooper made his home run in Saturday's game, it seemed to suit the Emmett team, but Umpire Miles, as he went to first base to see where Cooper's spikes had landed, and while holding the post mortem examination, Cobley discovered that the umpire wanted him to get the ball from Bench, which he did, and then Miles had the pleasure of calling Cooper out.

In the last half of the same inning Ashenfelter scored a hit to left that went for three bases. While running to third, "Captain Jack" overstepped, and French sprang at him like a tiger, nipping the Emmett captain, while in midair. Umpire Miles didn't think so, as Emmett hadn't scored a run up to that time. A moment later Ashenfelter scored with Emmett's first run of the game.

This fellow Cooper declared that he was a big leaguer before the game, and proved his assertion. He is by far the best ball player seen in Idaho for years.

In the fifth inning of Sunday's game, with one man out and Silvers on first, Cooper played off first base for Cobley, a port side batter. Cobley hit a hot one at Cooper who threw to Kleffner, nipping Silvers, the ball getting back to first base in time to get Cobley. "It was the fastest piece of fielding during the day, and received a big hand from the large crowd.

Emmett fans are rabid, and see only the Emmett side, but Cooper got a big hand every time he came off the field.

When he relieved Fix in the seventh, he forced Bench to ground out on the first ball pitched. In the ninth, the three men who faced him popped out.

Llaville caught a nice game Sunday, taking care of everything that came his way. Scilley accepted 16 chances with but one error in two games. The colored ball players of Postello, said to be the fastest game in this section, will entertain the local fans Sunday at Athletic park. Piano tuning; Phone Logan's, 108.

Charley Weinert Takes K. O. Punch in Second Round of No-Decision Match with Luis Angel Firpo

PHILADELPHIA, Aug. 13 (AP)—Luis Angel Firpo, South American heavyweight, knocked out Charley Weinert, of Newark, N. J., in the second round of an eight-round no-decision match tonight in National league ball park.

Round One—Weinert brought blood to Firpo's nose with straight lefts and the South American gave a very clinching as they fell into the ropes. Firpo launched two heavy right swings to the body and followed with right to the head and one to the body without damage. They were both slightly winded when the bell rang.

BRITISH WOMEN LOSE TO U. S. TENNIS EXPERTS

American Players Score Decisive Defeat of Ranking English Stars in International Contest

FOREST HILLS, N. Y., Aug. 13 (AP)—American women players scored one of the most decisive victories in the history of international tennis today when they won the remaining four matches in their contest with ranking women players of England for the trophy donated by Mrs. Hazel Hotchkiss Wightman of Boston.

Their performance today made the score: America 7, England 0.

America's victory was all the more sensational in that many leading experts had predicted that the British players would win easily.

WHY HORSESHOES IS GOOD LUCK

The good luck generally supposed to be attached to a horseshoe comes from the fact that it has three ingredients that were considered fortunate by the ancients—iron, the shape of a crescent and something pertaining to a horse.

Difference in Characters. The man who is always proclaiming that he is right is intolerable. The man who admits that he is wrong is charming.—Elbert Hubbard.

NON-PARTISANS URGE PROGRESSIVE UNITY

MINOT, N. D., Aug. 13 (AP)—Formation of a new organization among the Non-Partisan League, which all leagues, labor, and so-called progressives may merge, was a plan evolved for consideration of precinct caucuses and county conventions at the Non-Partisan league meeting here last night.

COOLIDGE TURNS HIS EFFORTS TO STATE PROBLEMS

Conference on Coal Situation Receives Attention; First Cabinet Meeting to Be on Tuesday

WASHINGTON, Aug. 13 (AP)—President Coolidge, occupying the White House offices today for the first time, devoted himself throughout the day to conferences with cabinet members and other officials and to an accumulation of correspondence and documents.

Outstanding in the day's activities were conferences on the anthracite situation with George Otis Smith, a secretary of the coal commission. The latter was in conference with the president, both before and after announcement was made that the operators and the miners' representatives had been summoned to renew wage contract negotiations.

Although Mr. Coolidge foretook the temporary executive offices established at the New Willard hotel, he and Mrs. Coolidge retained their suite and will continue to live there until Mrs. Harding vacates the White House. Arriving at his office before 9 o'clock, the new president immediately began to receive friends and officials, including cabinet members and the heads of various government agencies. Callers during the day included Secretary Weeks, Director Lord of the budget, Assistant Secretary Finney of the interior department; Comptroller General McCall; former Senator Pomorene of Ohio and Surgeon General Cumming of the public health service. Routine matters, as a rule, were under discussion.

The cabinet, with the exception of Secretary Mellon, who is in Europe and possibly Secretary Denby, who has been spending a vacation in Michigan, will meet the new president for the first time tomorrow. Secretary Davis, who arrived in New York from Europe today, is expected to be on hand for tomorrow's cabinet meeting.

George B. Christian, Jr., secretary to the late President Harding, was at his desk today, and it was said would continue there for some time. Edward T. Clark, secretary to Mr. Coolidge, was also at the office to assist the new executive.

CALL OPERATORS

(Continued From Page One)

officers. The situation, prior to the issuance today of the coal commission's request for another conference, is identical with that which preceded the prolonged suspension of operations in the anthracite region in 1922.

Sought Speedy Settlement

When the negotiations began in July, the parties to the controversy were furnished with the full report of the coal commission on the anthracite industry, showing compilations of wages, coal costs and profits. The report recommended the adoption by the negotiators of a method of speeding up local necessary for conciliation and arbitration and suggested a reduction of working time for men employed in mines on other than the eight-hour basis. It did not specifically touch on the "check-off" or the further demand for "recognition," which the union leaders have advised. Under the law, the commission's sole duty has been to investigate and report on the facts as to production of both anthracite and bituminous coal. There has been another branch of inquiry into coal conditions during recent months, through the federal distributors' office. Conclusions developed by it, along with those of the coal commission, have been placed before President Coolidge.

DENY CONNECTION WITH ASSAULTS ON BERGGDOLL

Two Arrested Following Attack on Draft Evader Given Hearing; Sperm Blames American Lieutenant

EBERHACE, Aug. 13 (AP)—Lieutenant Hoover Griffith, his chauffeur, Victor Nelson, and Prince Gargarin, accused of complicity in the attack here last Saturday on Grover Cleveland Bergdoll, the American draft evader, were given a preliminary examination today by the prosecuting attorney.

They denied having knowingly participated in a criminal plot, but Roger Sperber, the fourth man held, is said by the authorities to have declared Lieutenant Griffith was the instigator of a plot to kidnap Bergdoll and take him to the United States.

The prosecutor expressed the belief that the attack was the result of a murder plot.

Prince Gargarin, a Russian, claims to have been wealthy. He admitted, the authorities say, that he had engaged in espionage work.

PLANES IN WEST SET EFFICIENCY RECORD

SALT LAKE, Aug. 13 (AP)—Airplanes of the western division of the United States Air Mail Service, despite unfavorable flying conditions, traversed 39,732 miles during the month of June, according to the report of Clara Nelson, superintendent of the division, made public here. The western division led the service in starting flights on time, with 97 per cent, the report reveals. In general efficiency the division placed first, the rating being 97 per cent. In speed it tied with the eastern division for first place, as well as in maintaining flight without forced landing. Twelve new planes have been requested for this division.

CATHEDRAL WILL COST MILLIONS

National Edifice of Episcopal Church to Be Finished within Five Years

WASHINGTON, Aug. 13.—Preparations are being made to begin the completion of the National Cathedral of the Protestant Episcopal Church. Although four million dollars have already been contributed only the apse of the great edifice on Mount St. Alban has been completed. It stands today higher than the Washington monument and overlooks the whole city. Recently, however, the Washington chapter of the church decided to push the work on the whole cathedral so that it may be completed within five years.

The national cathedral, although started during the administration of President McKinley, is the fulfillment of President Washington's dream of a "church for national purposes," which was provided for in the original plans of L'Enfant for the national capital. From the time that President McKinley attended the first open air services at the cathedral, the president, scores of cabinet officers and foreign diplomats and thousands of members of the senate and house have been present on historic occasions at the cathedral from the ceremonies following the conclusion of the Spanish American war to religious services in connection with the conference on the limitation of armaments.

When the last stone has been placed and the cathedral opened it will be one of the largest and finest church buildings in the world. Surrounding the foundation and apart which are now complete, are the national cathedral school for girls and a similar school for boys, a bishop's house, a library which is to be the most complete religious library in America and an amphitheater which today accommodates 25,000 persons.

NORTHWESTERN GROWERS

committee was outlined as follows: "First, to develop the facts concerning the disappearance of marketed wheat; in other words, to find out what becomes of it, how much is consumed by human beings, how much used for seed.

"Second, analyze the steps taken by the department of agriculture during the war to stimulate acreage, and mapping of the acreages developed, with a view to reversing the process back to a normal acreage.

"Third, develop accurate figures on the cost of profitable wheat production.

"Fourth, develop accurate figures on the sections in which readjustment of wheat acreage is possible, with a view to the concentration of efforts on these sections."

BRITISH TRAINS INSTALL RADIO

LONDON, Aug. 13 (AP)—Pullman cars equipped with radio receiving sets will be running shortly on the various railway services in England. Experiments carried out by radio engineers on express trains, using both inside and outside aerials, have been very successful. It has been possible to pick up concerts from broadcasting stations while traveling at 60 miles an hour. Passengers do not interfere, nor do tunnels make any difference to the clearness of the music and messages.

through the mails anonymously from Chicago.

The bankrupt partners have been in jail since May 4 for failure to produce these records. The first installment to be surreptitiously surrendered was turned over to Federal Judge Goddard several weeks ago.

The United States attorney's staff spent the day in preparing more evidence based on the new disclosures. They predicted that the grand jury would finish hearing witnesses and hand down indictments tomorrow night, intimating that several persons would be indicted who heretofore have not been legally involved in the case.

TWENTY-SIX WOUNDED IN FASCISTI CLASH

BLOGNA, Italy, Aug. 13 (AP)—Twenty-six persons were wounded today in encounters between fascists and communists at Molina following the explosion of bombs which were thrown against the fascist headquarters and the home of a local communist leader. Police reserves are reported to have the situation in hand.

DEATH TOLL TAKEN IN GERMAN RIOTS

BERLIN, Aug. 13 (AP)—Unconfirmed rumors from various points of middle Germany tonight indicate that there has been fatal rioting, owing to shortage of food and money. Twenty persons are reported to have been killed in Hanover and 15 in Zeitz. Rioting also is reported in Silesia.

WAR PAYMENTS IN PROPAGANDA

Germany's Gold Reparations Basis for Motion Picture Films in Berlin

BERLIN, Aug. 13 (AP)—Germany's gold reparations payments to date, in 100-mark paper notes, would encircle the earth 25 times, according to motion picture propaganda which is being used in the Berlin cinema houses. A 100-mark note is 10 centimeters long, or about 4.3 inches.

To make the point as realistic as possible, there is finished on the screen a picture of a common pedestal globe, such as is used in the geography classes of American schools, spinning rapidly about as a long string of these notes wrap round and round it.

It is the last scene in a serial picture of three parts which depicts the numerous illustrations the vastness of Germany's suffering as a result of the Versailles treaty. The audience sits almost breathless as reel after reel shows how much territory, shipping, livestock, coal, money and material have had to be given up by the father land.

Fuel is added to the fire of indignation by including a reel to illustrate what an overwhelming proportion of the taxes must be devoted to reparations payment. It reminds the tax-paying spectator that this promise to continue until 1927. A general grain invariably greets this comforting bit of information.

There can be little doubt as to the nature of feelings toward the Versailles treaty and the extent with which the audiences leave a showing of this kind.

One apparent effort is made at the end of the serial to guard it against charges of being pro-peace and conservative to sentiment against the treaty. As the spinning globe, with its miles upon miles of hundred mark notes fades out, a "sub-title asks what is to come out of "all this chaos." The answer, in huge inspiring letters, reads the film: "It is: 'Unity and justice and liberty.'"

TEXAS TOWN UNABLE TO COMBAT FIRE

EDGEWOOD, Texas, Aug. 13 (AP)—Fire of unknown origin late tonight destroyed a large portion of the business section of this little town. Eight buildings were wiped out by the fire. The town, with hardly any fire protection, was helpless as the fire spread to adjoining structures.

CHICAGO LIBRARY HAS 300,000 BOOKS FOR BLIND RELATIVES
CHICAGO, Aug. 13 (AP)—In an effort to reach every sightless person in this part of the country the collection of books for the blind in the public library here has become one of the largest in the United States, according to Nathan R. Levin, assistant librarian of the Chicago public library. The number of available volumes in raised printing is comparatively small, it is said, but the Chicago library, with 3500 books, claims to have virtually everything ever published for the benefit of sightless people.
