PRICE FIVE CENTS.

## FIGHT AGAINST ALCOHOL TURNS TO NEW ANGLE

### Delegates to Anti-Liquor Congress at Copenhagen Hear Arguments for Home-Brew; Volstead Is Present

COPENHAGEN, Aug. 21 (AP)—Judging by the debates in the international congress against alcohol, in session here, the gathering is not exclusively prohibitionist, but composed of all factions desirous of fighting excessive drinking. While the strict prohibitionists are well represented and are prominent in the presentation of their views, there are other degrees of opinion regarding alcoholic restrictions represented in the body.

The Danish newspapers declare Andrew J. Volstead, author of the United States prohibition enforcement act, was a delegate, and was prominent in the different type than had been looked for, as they were expecting to see some one with aggressive qualities of "Pussy-foot" Johnson, and found themselves face to face, instead, with a man of modest bearing, and whose voice in addressing the convention was barely audible except to the front rows.

### FAVORS MODERATION.

COPENHAGEN, Aug. 21 (AP)—Professor Warming of Copenhagen, summing up his impression of a four months visit to the United States, told the delegates to the International Congress Against Alcohol today that the prohibition of all alcoholic drinks was unnecessary.

"Home brewed beer and wine should be allowed," he said, adding that he would be unwilling to vote for prohibition in Denmark, unless 70 per cent of the population demanded it. He expressed the hope that the Volstead act in America would not "happen" to the European fight against alcohol to any great extent.

The Rev. Dr. Widdie, Wayne B. Wheeler and William Kennett of the American delegation, protested against these deductions upon the part of Professor Warming and argued that his impressions of America were those of a tourist.

Andrew J. Volstead in a speech gave a survey of the results of the American prohibition laws in which he declared there had been decrease in crime and intemperance in the lot of the people through increased savings deposits, better home and more efficient labor. He said that if America spent proportionately on liquor what certain other countries did, it would mean an annual expenditure of between \$4,000,000,000 and \$5,000,000,000.

## Idaho Firemen to Meet at Pocatello

### State Association to Convene September 20; Buhl and Burley Men Are Officers

POCATELLO, Aug. 21 (AP)—The Idaho Firemen's association, organized in 1917, will hold its annual convention in Pocatello, September 20, 21 and 22, and the local department has begun arrangements for the entertainment of the visitors.

Secretary C. W. Craig of Pocatello has sent out official call for the convention and a 100 per cent attendance is expected. In addition to the regular business meet, during which topics of interest will be discussed by members, an elaborate entertainment feature is planned.

The officers of the state association are as follows: President, W. A. Foster of Boise; first vice president, Julius Marker of Idaho Falls; second vice president, J. C. Hutchinson of Buhl; secretary, C. W. Craig of Pocatello; treasurer, J. Greenblatt of Burley; trustees, S. Card of Preston, M. L. Fisher of Burley and J. C. Boyd of Walla Walla; legislative committee, A. B. Canfield of Pocatello, J. C. Boyd of Wallace, E. Card of Preston, R. W. Burroughs of Jerome and Lyle Stillson of Gooding.

### CLAIM RABBIS SOLD WINE

SAN FRANCISCO, Aug. 21 (AP)—Four purported rabbis were arrested here today on charges of violating the federal prohibition laws. They are alleged to have sold wine to dry agents. Those arrested are Gershon Katsman, B. Robinson and Charles Stenscher of San Francisco, and Joseph Lubin of Daly City, a suburb.

IDAHO WEATHER  
Wednesday: Local thunder showers.

## Golden Rail to Mark Spot Where Harding Dedicated New Line

SALT LAKE, Aug. 21 (AP)—A golden rail will be set into a section of the tracks of the Union Pacific railroad, near Cedar City, Utah, as a memorial in honor of the late President Harding, who presided at the official opening of the railroad to that point on June 27, last, it was announced here today.

In dedication ceremonies, which will take place on September 12, next, the golden section of the rail will be laid to the ties at the spot where the late president descended from the first train to arrive at Cedar City over the road. Cedar City is about 280 miles south of here.

## DANGER FEARED FROM TORRENTS

### Heavy Rains North of Pueblo Fill River Banks; Is Highest Stage This Year

PUEBLO, Colo., Aug. 21 (AP)—Heavy rains in the region north of Pueblo, around Wigwam and Rittles, Colo., have sent the Fountain river up to where serious damage is feared, according to reports received here tonight. Lakes have formed in the valleys north of Pueblo, from the water coming down from the hills and all the tributaries to the Fountain river are running high, the report said.

Guards are watching the railroad bridges. At 8 o'clock tonight the Fountain river is still rising. Crews of high way department men are keeping close watch on the Eighth street bridge, a temporary structure. It was feared the bridge would go out. The river at 8 o'clock was at its highest stage this year.

The river was undermining the levees in the north part of Pueblo and while officials assert this is dangerous, it is not expected that the river will reach the business district.

### COOLIDGE REAPPOINTED WOMAN ASSISTANT

WASHINGTON, Aug. 21 (AP)—Mrs. John Jacob Rogers of Massachusetts, has been reappointed the president's personal representative among veterans' hospitals in the country.

## MANILA'S CHIEF IS EX-CONVICT, QUEZON CLAIMS

### Filipino Asserts City's Mayor Served Term in 1900; General Wood Explains to War Department

WASHINGTON, Aug. 21 (AP)—A cablegram from Manuel Quezon, charging that Governor-General Wood of the Philippines had appointed Eugenio Rodriguez, "an ex-convict," as mayor of Manila, was received late today at the war department. At the same time a message from General Wood reached the department in which he declared he had no previous knowledge of "anything unfavorable" in Rodriguez' record. He said he was making a thorough investigation of the charges. General Wood's cablegram follows:

"Half an hour ago, information reached me that Eugenio Rodriguez, who was recently appointed by me as the mayor of Manila, was convicted in 1900 by a military court martial and sentenced to one year's imprisonment in Bilibid. He was 16 years old at that time and served his sentence. He was released in June, 1901, and served as an interpreter for the United States army from 1901 to 1903 and was continued in other capacities in the United States government service until 1907.

### Was Province Governor

"In 1900 he was appointed by Governor-General Smith the mayor of his town, Montalban, Rizal, and was elected president the following year. In 1910 he was first elected governor of the province of Rizal, completing his term in 1912. In 1922 he was elected governor of Rizal and served in that capacity until appointed mayor of Manila.

"He has been a very efficient governor. It is interesting that at the time of his first election as governor an administration investigation was held by the governor-general with reference to the charge on which he had been convicted. The result was such that he assumed the office of governor and served the full term and was again elected in 1922.

## MAIL PLANES SPEED ON IN EPOCH MAKING FEAT

### Intrepid Aviators Cover Initial Laps Safely in Race Against Time

### World Watches as Daring Stunt Is Given Trial; Westbound Plane Begins Night Journey at Chicago; Pilot Yager Leaves Cheyenne for the East at 8:35 p. m.

CHICAGO, Aug. 21 (AP)—Guided by powerful beacon lights, two government mail planes rushed toward each other through the night over the states of the middle west tonight. Somewhere in Nebraska they were scheduled to pass.

One of them carried mail that left the Golden Gate this morning, the other sped westward with mail that left New York a few hours later, and the flight marked the inauguration of trials in the proposed 30-hour transcontinental air mail service.

If all goes well, the eastbound plane will wing its way to earth at New York tomorrow afternoon, while the westbound ship will drop with its burden of mail at San Francisco.

The westbound plane entered the area of night travel between Chicago and Cheyenne when it hopped off here at 6:56 p. m., central standard time, piloted by Den Smith. Its companion, winging its way eastward, flew up to meet the night plane from Cheyenne.

The day travel of the two planes, or in reality several planes, for planes and drivers are frequently changed, was little more eventful than the day mail flying that has long been in progress. The night flying between Chicago and Cheyenne, however, marked an innovation in the plan for continuous air mail service between San Francisco and New York.

### Lights Mark Route

The planes tonight are following what at their height seems a lighted pathway over the 285 miles of night flying of the 2600 miles journey across the continent.

Their path is marked by a series of remarkable lights ranging in intensity from 100 to 300,000 candle power, and visible from three to 150 miles. Small beacon lights are only three miles apart and at a distance of 25 miles are great search lights, while the landing fields along the pathway of the speeding planes are also brilliantly lighted and the ships themselves are equipped with emergency searchlights for use in case of forced landings.

### Emergency Fields

At 25 points along the 285-mile way are emergency fields ranging from 15 to 30 miles apart from each of these points an 18-inch incandescent electric beacon, mounted on a 50-foot tower, cast a 5,000,000 candle power beam completely around the horizon every ten seconds. In between these fields at three-mile distances acetylene gas beacons of 5,000 candle power flashed green beams from each of these points, following for the most part a straight airline from the Great Lakes to the Rocky mountains, the first planes of the proposed unique experiment flew at dusk and from it they were scheduled to emerge at dawn.

Due to favorable winds, the San Francisco mail, which left the Golden Gate at 6:59 a. m. western time, today, will reach Curtis field, New York, 28 hours later. The New York mail with unfavorable winds as a handicap will land on the Pacific coast 30 hours after the start.

The machinery functioning for this history-making demonstration has been a year in the making. Its simplicity to the organization followed in many operations market a modest railway division is about 250 miles, the air mail is 500. A railway division superintendent is concerned with the conditions of his tracks and right of way; the flier with the weather at different altitudes along his route. Block signals and switch lamps for the railway are paralleled in the air mail beacons and flood lights. A railroad's motive power and roll (Continued on Page Four)

### U. S. GUNBOAT SINKS; ALL LIVES ARE SAVED

WASHINGTON, Aug. 21 (AP)—The U. S. S. Gopher, a gunboat on a cruise with the Onondaga, today sank today in the Gulf of Saint Lawrence during a gale, according to a message received by the navy department, which said there was no loss of life. The ship went down in 20 fathoms of water, said the message, which was sent from Quebec and was signed "Signal Service."

### COLUMBUS, Ohio, Aug. 21 (AP)—Ohio-natal reservist officers here declared tonight the U. S. S. Gopher was not on a cruise when she sank. She was being towed from Montreal to the Boston navy yards, and controlled by regular navy officers, they said, and no Ohio naval reservists were aboard. The boat was being towed into the yards because she was no longer suitable for salt water cruising since she had not sufficient fresh water tanks.

## COOLIDGE MEN LAYING PLANS FOR ELECTION

### Barrett Claims 150,000 Voters Supporting Movement for 1924 Battle; Borah Gives His Opinion

GRAFTON, Vermont, Aug. 21 (AP)—Approximately 150,000 former residents of Vermont, now involving 47 other states, are actively supporting a national movement to organize and manage Coolidge for-prosident clubs, John Barrett, former director of the Pan-American Union, announced today on his return home from Washington and New York.

In a formal statement, Mr. Barrett, who conferred with President Coolidge regarding the movement, while in Washington, asserted he had been invited in New York yesterday to direct the movement, but he feared other duties would prevent him from taking the chairmanship of a provisional campaign that had already been formed.

Mr. Barrett's statement followed one issued recently by Senator Moses of New Hampshire, in which Moses asserted Mr. Coolidge would be a candidate for the republican nomination in 1924 and that he should receive the solid support of New England.

### Give Statement

In his statement Mr. Barrett said: "Last winter a group of active Vermonters began testing the attitude of representative and influential Vermont outlanders, as loyal natives and former residents living outside the state was declared, toward organizing the 1924 election in Massachusetts to California, in a powerful national Vermont association, which would cooperate with the inlanders or permanent residents, in advancing the state's general welfare and prosperity just as follows: Vermont associations and their respective institutions.

### Perfect Plan in Fall

"The program carried with it the very popular then Vice President Calvin Coolidge, a native Vermont, the chosen honorary president, and Ambassador Harvey, another active, honorary vice president. Our appeal met with most gratifying response and we intend to perfect the organization this coming autumn or winter.

"The original movement in itself, of course, has and will have, if consummated, no political character whatsoever. But suddenly and unexpectedly, (Continued on Page Five)

## Meredith Prepares to Sue Brookhart

### "Thirty Cent Suit" of Former Secretary to Be Filed Latter Part of the Week

DES MOINES, Iowa, Aug. 21 (AP)—Former Secretary of Agriculture E. T. Meredith's suit for libel and damages for 30 cents against Senator Smith W. Brookhart of Iowa, will be filed soon after Mr. Meredith's return at the end of this week from Bemidji, Minn., where he is vacationing, it was announced tonight.

Attorneys for Mr. Meredith already have been instructed to file the suit and now are engaged in preparing the petition. Just where the suit will be filed has not been definitely determined.

Friends of Mr. Meredith, it is reported, have urged him to bring suit for a few hundred dollars, but the former libel officer argued that he is not after Senator Brookhart's money.

In his statement of yesterday, Mr. Meredith said "his real compensation will be in getting Mr. Brookhart on record under oath."

Mr. Meredith is to sue the Iowa senator because of the letters alleged charges in a speech last week that Mr. Meredith while secretary of agriculture, "sat in the Wall street game and helped to produce the greatest panic in farm products in the history of agriculture."

They have been engaged in a public controversy for several years over the financial condition of the American farmer. Mr. Meredith in his statements, declared the farmers would receive \$500,000,000 more for their grain this year than they did last year, and the senator in his speeches, argued that the farmers are near bankruptcy because of economic conditions.

Senator Brookhart is expected to reply at length to Mr. Meredith's threat-suit in his Jewell, Iowa, speech Thursday. He is engaged at his home in Washington, Iowa, today in preparing this speech. The senator has said that he is not worried about the suit.

STRANGE! NO ONE SEEMS TO BE URGING A SPECIAL SESSION OF CONGRESS TO MAINTAIN THE PRICE OF GASOLINE ABOVE COST

# OMAHA SUFFERS BY ACCIDENT IN WATER SYSTEM

### Industrial Houses Forced to Close when Mud Bank Falls and Pollutes Entire City's Water Supply

OMAHA, Aug. 21 (AP)—Laundries, bakeries, barber shops, some restaurants, and several other local industries were forced to close down here today when the entire city water supply became muddy as a result of a cave-in of a Missouri river bank just above the intake at the Florence pumping station. The condition of the water was not noticed until early this morning when busy housewives swamped the city water plant officials with thousands of telephone calls urging immediate action.

Despite efforts of every available employe at the city plant, water board officials declared tonight that the condition may not be qualified for a week and possibly longer. This announcement caused hundreds of conferences among business men who are contemplating closing their business unless relief is afforded.

Officials of Council Bluffs, on the eastern bank of the Missouri river, have assured Omaha officials of their cooperation in supplying water by employing scores of tank wagons and trucks. Although this action will guarantee the safety of the health of Omaha, it still will be necessary to close down hundreds of industries so as to save as much water as possible.

**Packers May Close.**  
Unless the situation is relieved by tomorrow morning, the heads of South Omaha packing plants declared they will be compelled to close down. Hog killing at practically all the plants was suspended this morning. Should there be a general closing of the packing industry, it is estimated that approximately 6000 employes will be laid off.

Hospitals seemed to be the most seriously pressed. Nurses complained that medical aid was almost impossible without water. The downtown streets presented a spectacle of hundreds of citizens scurrying here and there with bottles, cans and every kind of receptacle available, in search of water. Express wagons, trucks and hand piled carts also were brought into play.

At 7 o'clock tonight the water became muddier than ever, instead of clearer.

#### Caused by Repair Work.

Primarily the condition was brought about by water works improvement gangs, through, necessarily having to lower the water level in filter basin number 2 of the system in order to make pipe connections to a new pumping outfit being installed.

This low level interfered with proper settling processes, which contaminated the water to some extent, but not enough to prevent its ordinary use. To add to the already impure supply, heavy rains within the past few days caused a shifting of the Missouri bottom, which threw a heavy volume of this always muddy stream against already succeeding well banks in close proximity to the reservoir intakes. These banks in turn caved in, and the whole intake of water became one murky, brackish flow of fluid of such mud content as to be impossible for any use and which spurts from faucets in color resembling chocolate.

#### PLAN WAR ON COAL PRICE

Nebraska Governor Believes Charges Are Out of Proportion to Costs Paid by Dealers

LINCOLN, Neb., Aug. 21 (AP)—In announcing that he had almost completed arrangements for supplying coal to cities and towns through public committees, to be sold below prevailing prices, Governor Charles W. Bryan today stated that he thinks coal prices in Nebraska are out of reason. He said that he is taking steps, therefore, to furnish coal to any city or town, under an agreement that the fuel would be sold to household consumers, including farmers.

#### The Little Corporal Mastered.

Napoleon was master of Paris and the continent, but he was not quite master of the students of Paris, who were like other students all over the town. In 1810 at the Odeon when Lemercler's "Christopher Colomb" was being played, the Quartier Latin students raised riots during the first two performances to show their disapproval of the fact that the utilities of time and place were disregarded. Whereupon the emperor, with whom Lemercler was a favorite, announced that he would attend the third performance and severely punish anyone raising a disturbance. He carried out his intention, and all went smoothly until the third act, whereupon the scene was changed to the deck of Columbus' ship. When the curtain rose about three-quarters of the audience donned nightcaps, shut their eyes, and fell (apparently) asleep. This comical sight set Napoleon laughing, so his wrath was dissipated.

## U. S. Navy Seaplane Breaks Speed Records

Lieut. A. W. Gorton and Seaplane N-2

In this U. S. navy seaplane N-2 Lieutenant A. W. Gorton, a member of the naval teams that will compete against British navy flyers for the Snyder cup, off the Isle of Wight, England, made a new speed record over the Delaware river course by flying at an average of 177.5 miles an hour.

## DEATH TOLL IN FIRE REDUCED

### List of Fatalities Is Fixed at Two; Remove Bodies from Ruins of Building

NEW YORK, Aug. 21 (AP)—The yellow brick walls of a Brooklyn dance hall, half a century old, falling in the night, killed two firemen and injured 47 more in a fire which broke out shortly after midnight and burned well into the morning. Half a hundred men were caught under the rain of masonry and for several hours it was believed 10 had perished. Only eight of the missing turned up in hospitals, and the final death count, unless some of the injured should succumb, stood at two.

The fire, starting from a cause not yet officially determined, brought in the basement of the New Plaza hall, a Brooklyn landmark, that had been the scene of many political battles. By 2 o'clock the flames were under control and the crowd began to depart. Then, without the slightest warning, beams cracked and an entire wall of the building, extending an entire block, crumbled. It fell to the street several firemen sent to the roof to hack holes through which lines might be run, and showered other firemen on the sidewalk with bricks.

Raymond Farrell and James Sullivan, members of the same engine company, were killed.

The fire marshal and district attorney today joined in an investigation of the cause, while employes of the building department tore down that part of the wall which had not fallen, to prevent it from crashing down on the street.

#### CITY MAY START BAKERY

Plans to Be Submitted to Omaha Council; Seek Reduction in Prices of Bakery Goods

OMAHA, Aug. 21 (AP)—A plan will be submitted to the Omaha city council for the establishment of a municipal bakery unless prompt action is taken by local bakers toward a reduction in the retail price of bread, John Hopkins, city commissioner, informed the World-Herald today. Commissioner Hopkins declared his action was precipitated by the "exorbitant price of bread in Omaha."

Very Important.  
Madsen (reading newspaper)—"For a kiss stolen by the defendant the jury awarded the plaintiff the sum of \$500. Mercy! And I've been giving them away.—Boston Transcript.

## Boys Save Lives by Giving Warning of Landslide on Track

CLOUD CROFT, N. M., Aug. 21 (AP)—Frank Webster, son of Mrs. Emma Webster, El Paso county prohibition officer, and Buford Orndorff, son of Sheriff Seth B. Orndorff of El Paso, 14-year-old cadets, probably saved the lives of passengers on a train coming to Cloud Croft yesterday.

The two boys were out for a hike and reached Twill's Elbow, a dangerous curve, when they noticed a landslide which covered the track with dirt and boulders. Young Orndorff ran back and notified the station agent, then returned and joined Frank on the bridge, where the two waved their hats and handkerchiefs as the train approached. The train was stopped almost against the landslide. Below was a precipice.

Reciprocity.  
The man who has a bee in his bonnet has no right to object if his wife has a bird in hers.

The Minds of Men.  
And it is just about as hard for 12 men on a jury to agree as for 12 men to agree.—Dallas News.

## COUNTERFEIT SCHEME IS BROKEN UP BY ARRESTS

Two Men Held on Charges Against Government; Discover Worthless \$20 Bills in Pittsburgh Suburb

PITTSBURGH, Pa., Aug. 21 (AP)—Two men arrested and 52 counterfeit \$20 bills on the federal reserve bank of Atlanta, Ga., and the federal reserve bank of Cleveland were seized in a raid Monday by federal agents on a building in Duquesne, a suburb. John Rosenberg, engraver and photographer, and Nick Zrasty, alias Nick Zornich, were the two arrested.

In addition to the spurious bills, chemicals, several cameras, photographers' paper and other materials used in counterfeiting were found by the agents.

Today's raid followed a three months' investigation.

Her Supply of Grandmothers.  
Alice boasted of having three grandmothers. Jane said: "How can you have three when just two is all they are?" Alice replied: "Cause one of my grandmothers is twins."

Never Quite Forgotten.  
I feel assured there is no such thing as ultimate forgetting; traces once impressed upon the memory are indestructible.—De Quincey.

## FRANCE MAKES REPLY TO NOTE

### Poincare's Answer to England's Reparations Policy Placed in Hands of Ministers

LONDON, Aug. 21 (AP)—Premier Poincare's reply to the British reparations note was delivered at the foreign office late tonight and copies were distributed to Prime Minister Baldwin and the other ministers who are on their vacations.

A copy was sent direct to Foreign Secretary Marquise Curzon at Baginolle, France, where he is vacationing.

Nothing was issued here indicating the nature of the reply, but this has to a great extent become public property through the forecasts published in Paris, and the fact that Premier Baldwin has made no sign of changing his holiday plans seems to prove that little hope is entertained that the French rejoinder will lead to anything but a continuance of the already protracted negotiations.

#### FRENCH SEIZE STOCKS OF GERMAN COAL

DUESSELDORF, Aug. 21 (AP)—General de Goutte, the French commander, has issued a new order sequestrating all stocks of coal and coke and by-products for the benefit of the occupying power. Heavy penalties are to be inflicted for violation of the order.

Thought for the Day.  
If some people paid their bills as promptly as they want work done, much more work would be done at less cost.

## BRITISH AMBASSADOR TO U. S. MAY QUIT OFFICE

Impaired Eyesight of Geddes Leads to Reports of Search for New Minister for England

LONDON, Aug. 21 (AP)—Reports that Sir Auckland Geddes, British ambassador to the United States, will not return to Washington, have been reviewed because of the precarious condition of his eyes. While the government will not concede the likelihood of his retirement, the impression prevails in well-informed political circles that the government authorities are casting about for a suitable successor.

The Atmosphere.  
In 530 B. C. Anaximenes referred to the air as a deity, the primary cause of everything. Galileo, in 1664, discovered that its pressure was 15 pounds to the square inch. Torricelli invented the barometer in 1643.

# Auction Off Your Money

Think of your money as something for sale to the highest bidder. That's what it actually is.

And bidders are legion. Look through the advertisements and you will find them—every one. They shout, beckon or nod to you through the medium of type and picture. Each seeks to outdo the others in the attractiveness of his offer. Each vies with the others for the privilege of your attention.

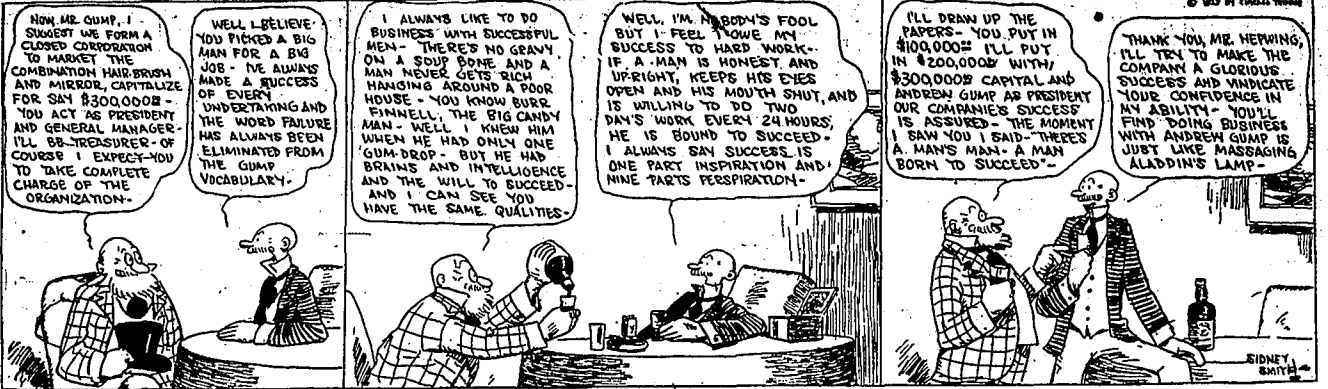

Competition is keen, if you only realized it. Each advertisement in this paper is an offer made directly to you. Each is worthy of your interest in some degree.

Read the advertisements. Know what this manufacturer or that merchant offers in return for your cash. Hear all the bids. Compare values. Check up on the offerings. Then you can be sure you are getting the most for your money.

*Know what your money is worth*  
*Advertisements tell you*

THE GUMPS—BIG BUSINESS

NOW MR. GUMP, I SUGGEST WE FORM A CLOSED CORPORATION TO MARKET THE COMBINATION HAIR-BRUSH AND MIRROR. YOU ACT AS PRESIDENT AND GENERAL MANAGER. I'LL BE TREASURER. OF COURSE I EXPECT YOU TO TAKE COMPLETE CHARGE OF THE ORGANIZATION.

WELL, BELIEVE YOU'VE GOT A BIG MAN FOR A BIG JOB. HE ALWAYS MADE A SUCCESS OF EVERY UNDERTAKING AND THE WORLD FUTURE HAS ALWAYS BEEN ELIMINATED FROM HIS VOCABULARY.

I ALWAYS LIKE TO DO BUSINESS WITH SUCCESSFUL MEN—THERE'S NO GRAY ON A SOUP BONE AND A MAN NEVER GETS RICH HANDLING A POOR HOUSE—YOU KNOW THAT, FINNELL, THE BIG CANDY MAN—WELL, I KNEW HIM WHEN HE HAD ONLY ONE GUM-DROP, BUT HE HAD THIS AS AN INTELLIGENCE AND HE WILL SUCCEED—AND I CAN SEE HE HAS THE SAME QUALITIES.

WELL, I'M NERVOUS FOOL BUT I FEEL I'VE GOT MY SUCCESS TO HARD WORK—IF A MAN IS HONEST AND UPRIGHT, KEEPS HIS EYES OPEN AND HIS MOUTH SHUT, AND IS WILLING TO DO TWO DAYS' WORK EVERY 24 HOURS, HE IS BOUND TO SUCCEED—I ALWAYS SAY SUCCESS IS ONE PART INSPIRATION AND NINE PARTS PERSPIRATION.

I'LL DRAW UP THE PAPERS—YOU PUT IN \$100,000—I'LL PUT IN \$200,000 WITH \$300,000 CAPITAL AND ANDREW GUMP AS PRESIDENT OUR COMPANY'S SUCCESS IS ASSURED—THE MOMENT I SAW YOU I SAID—THERE'S A MAN'S ABOUT A MAN BORN TO SUCCEED.

THANK YOU, MR. HEWING, I'VE GOT TO MAKE THE COMPANY A GLORIOUS SUCCESS AND VINDICATE YOUR CONFIDENCE IN MY ABILITY—YOU'LL FIND DOING BUSINESS WITH ANDREW GUMP IS JUST LIKE MASSAGING ALADDIN'S LAMP.

Today's Sporting News

LAVALLE CLAIMS FIRPO WILL WIN

South American Patron Takes Charge of Battles in Match with Dempsey

NEW YORK, Aug. 21 (AP)—Horatio Lavelle, millionaire Argentine sportsman, and patron of Luis Angel Firpo, arrived today from Buenos Aires to take charge of the South American pugilist for his match with Jack Dempsey at the Polo grounds September 14.

"I have never seen Dempsey fight but I have studied motion pictures of him in action and have every confidence in the ability of my friend," said Lavelle.

Lavelle, himself an amateur boxer of prominence in South America, and son of a wealthy and aristocratic Argentine family, declared he had made no definite plans for Firpo's training.

"Deforest is an excellent trainer," said Lavelle, "but he has certain drawbacks to Firpo, notwithstanding the presence of interpreters, is irritated and bewildered by the speaking of a foreign language."

THE HORSE MOUNT OF PERSHING IS KILLED. NEW HAVEN, Conn., Aug. 21 (AP)—George Washington, by gilding, with a war record and the mount of General Pershing, when he roved the fourth division of American troops in Paris, was killed by the humane society yesterday because of entangled condition.

RE-ELECT M'CHESENEY. MINNEAPOLIS, Aug. 21 (AP)—Nathan W. MacChesney of Chicago, was re-elected president of the National Conference of Commissioners on Uniform State Laws at the organization's thirty-third annual meeting here today.

SHOE FITTING MATCH SEPT. 1. SACRAMENTO, Cal., Aug. 21 (AP)—Clyde L. Seavey, president of the state railroad commission, is the first entrant in the horsehoe pitching tournament, which will be held here September 1-9, during the state fair.

COMPOSE TENNIS TEAM TO DEFEND DAVIS CUP

R. Norris Williams is Captain; National Champion is Among List of Experts Selected

NEW YORK, Aug. 21 (AP)—The American team that will defend the Davis cup, international tennis team trophy, will be composed of R. Norris Williams, II, of Philadelphia, captain; William T. Tilden, II, of Philadelphia, national champion; William M. Johnston of San Francisco, world's champion, and Vincent Richards of Yonkers, N. Y.

The committee's choice of Richards, number three ranking star, occasional surprise because of the fact that the youngster had abandoned his national doubles title partnership with Tilden.

In the 1922 Davis cup contest, the United States sustained its only defeat when Richards and Tilden were beaten in the doubles by Gerald Patterson and Pat O'Hara Wood.

The committee did not indicate, however, whether its selection meant a preference for the Tilden-Richards combination in the doubles.

Johnston and Tilden, who probably will bear the brunt of the singles play, will represent this country for the fourth successive year. They have never been beaten in the singles.

ENGLISH WOMEN TENNIS PLAYERS KEEP UP LEAD

Mrs. Geraldine Beauchamp and Mrs. E. C. Clayton Defeat U. S. Stars in International Match

NEWPORT, R. I., Aug. 21 (AP)—Mrs. Geraldine Beauchamp and Mrs. E. C. Clayton, British women's tennis team, defeated Miss Lillian Scherman and Miss Cora Baker, representing the United States, 6-1, 3-6, 6-3, in the last of six international matches played on the tennis courts yesterday and today.

The victory of the British women gave England four victories in the matches played against two for the United States, and also avenged the defeat suffered by the British pair at the hands of the Americans in the national tournament.

Earlier in the day the draw brought Mrs. Mabel Blandford Malloy and Miss Eleanor Goss, Americans, together. Mrs. Malloy winning, 11-9, 6-2.

In the other match between two English women, Mrs. R. C. Clayton defeated Mrs. B. C. Covell, 6-1, 6-2.

SLUMP RECORDED IN MARRIAGE LICENSES

RENO, Nev., Aug. 21 (AP)—Despite the inducement of a free cook book to all couples obtaining marriage licenses in Washoe county the bottom has dropped out of the local market. Apparently the slump is not the fault of the cook book, for the country clerk explains, "everybody wants one."

GERMANY GETS RUSSIAN GRAIN. HAMBURG, Aug. 21 (AP)—Russia has exported 600,000 tons of grain so far this year according to statistics compiled here, whereof Germany has taken over two-thirds.

Ended That Love Affair. I was thirteen and he was fifteen. He took me to a social one night and we played games and had a good time till it came time for refreshments. Then he bought himself ice cream and cake and set down near his mother to eat it. He left me standing without refreshment. Believe me, that ended my love affair with him.—Exchange.

MAIL PLANES

(Continued from Page One)

he reached Cleveland from New York on the first leg of the east-to-west flight. He was indisposed when he left New York, but it was necessary to help him from the plane at Cleveland.

Start From Coast. Pilot Orr M. Winslow started the journey from the Golden Gate at 6:50 Pacific coast time, with 64 pounds of mail, while Pilot Johnson left New York at 11:01 eastern standard time with 84 pounds of mail.

Pilot Johnson landed at Cleveland at 4:14 and Pilot Art Smith left the Ohio city at 4:18 p. m., eighteen minutes behind schedule. He reached Chicago at 6:50, only five minutes behind schedule, but his successor, Dean Smith left Chicago six minutes later, four minutes ahead of the scheduled time for departure.

Pilot Winslow, hurrying east was relieved at Reno, Nev., by Pilot Blanchfield, who left there at 7:59 a. m., 26 minutes ahead of schedule. Pilot Scott took the eastbound stop from Elko, Nev., to Salt Lake, 600 miles from San Francisco, arriving there at 1:18 p. m., mountain time, and also minutes later Pilot Robert Ellis hopped off for Rock Springs, Wyo., which was reached and Pilot Collins hurried away two minutes later for Cheyenne, but was forced to turn back to Laramie because he was almost out of gasoline. He was nearly exhausted and suffering from cold when he came down.

ARRIVES AT OMAHA. CHICAGO, Aug. 21 (AP)—The west-bound air mail plane winging its way across the continent, and piloted by Art Smith, arrived here at 6:50 central standard time, and departed at 6:56 o'clock with Dean Smith as pilot, on its night trip to Cheyenne. The plane was five minutes behind schedule in arriving, but had made up about 15 minutes between Cleveland and Chicago. It left Chicago four minutes ahead of schedule.

Pilot Art Smith said he flew through rain and low-hanging clouds until he reached Bryan, Okla., after which he encountered clear air and strong cross winds which enabled him to make up some of the lost time. He flew the 333 miles from Cleveland to Chicago in three hours and 33 minutes.

Thirteen pouches of mail were taken on here in addition to the mail brought here from the east, the transfer being made in six minutes.

Pilot Smith made a beautiful landing at the Fort Crook field, circling the field once and landing just as the big searchlight was shut off, and the smaller lights were turned on. He was greeted by Second Assistant Postmaster Paul Henderson and several aerial officers.

As soon as the plane was motionless, postoffice workers had the cock pit open and were busily engaged in throwing out the pouches, 45 of them. Three of the bags were for Omaha and the other 42 were transferred to the Knight plane.

ENCOUNTERS FOG.

LARAMIE, Wyo., Aug. 21 (AP)—Air Mail Pilot H. A. Collison, who left Rock Springs at 3:02 p. m., mountain time, was forced to return to Laramie at 5:50 p. m. this afternoon after meeting over this city eastbound at 5:03 p. m.

He was nearly exhausted and suffering from cold. He reported that he had passed through a severe storm and that he was almost out of gasoline.

Air Mail Pilot Collison returned to Laramie a second time at 8:06 p. m., mountain time, after running into low clouds and fog east of here that made it impossible to reach Cheyenne, the next scheduled stop of the eastward flight of the transcontinental mail plane.

Collison said that after encountering heavy clouds and fog he discovered he was short of gasoline. Helpers at the aviation field were rushed after a new supply of fuel.

"I'll make Cheyenne, if it's the last thing I ever do," Collison said after landing.

LEAVES CHEYENNE.

CHEYENNE, Wyo., Aug. 21 (AP)—Frank Yager, Cheyenne air mail pilot, hopped off here at 8:35, mountain time, tonight for Omaha, on the air mail service's eastward flight from coast to coast. He is expected to land in Omaha, 460 miles distant, about four hours later.

WESTWARD BOUND.

OMAHA, Aug. 21 (AP)—With his plane already tuned up, Pilot Jack Knight, veteran flyer, took the air at 11:03 p. m. for the flight to Cheyenne, which will be the last lap of the night flight.

BEACONS GUIDE

(Continued from Page One)

ing stock corresponds to the cargo planes. And in both instances dispatching is similar, except that the radio is employed exclusively by the air mail.

As the four aircraft that were scheduled to traverse the path from Cheyenne to Chicago progressed at their ordinary speed of 300 miles an hour, the air mail superintendents knew their positions practically every moment, for the radio service is supplemented with telephones at the emergency fields. These planes, while in flight, were in darkness, except for navigating lights on the leading edge of the lower wings, red on the starboard and green on the port. Each of the four aircraft also was equipped with a concentrated white light on the tail, so wired that it could be flashed for telegraphic signals. The pilots have learned the Morse code and this was to be used by them on approaching the field in case of necessity.

Twelve Planes Used. Altogether on the transcontinental demonstration 12 aircraft were called into service. In the night route four were utilized, yet in this section, so carefully have the department plans been made, 10 more planes completely equipped and tugged up for instant service were held available. Should there be a forced landing, therefore, only slight delay in the actual transmission of the mails would result.

The laying and installation of the lighting system has been under the management of J. V. Magee, an illuminating engineer.

The ten pilots chosen to fly the planes during the five-day period are: P. R. Ryger, Jack Knight, J. E. Moore, E. M. Allison, E. F. White, H. T. Lewis, R. G. Page, L. H. Garrison, W. L. Hopson and D. C. Smith.

All of these pilots have flown their courses at night.

ACCOUNTS FOR DELAY

OMAHA, Aug. 21 (AP)—At 10 o'clock tonight Colonel Paul Henderson, second assistant postmaster general, who is directing the experimental flights, made the following announcement regarding the delay to the eastbound mail plane piloted by Aviator Collison, who has, on account of dense fog, returned four times to Laramie Wyo.

"Collison, carrying the eastbound mail from San Francisco, was forced down at 5 p. m. at Laramie, 40 miles west of Cheyenne, due to a heavy fog. He made four attempts to get through to Cheyenne; but the fog was so dense that at 9:10 he had not yet succeeded in penetrating."

At 9:15 p. m. Colonel Henderson stated, Superintendent Egge of the local station called Cheyenne by long distance telephone and ordered Pilot Yager to take off at once with the local Cheyenne mail for Omaha. Yager

ROBBERS' LOOT WAS SMALL

KANSAS CITY, Mo., Aug. 21 (AP)—L. A. Johnson, postoffice inspector, in charge of the Kansas City district, said today that the total loss in the holdup at Okem, Okla., early this morning would not exceed \$500. The bandits did not reach the registered mail pouches, he said.

CONDUCTOR KILLED.

DIXON, Ill., Aug. 21 (AP)—James Hayes, 46, of Belvidere, Chicago, and Northwestern freight conductor, was killed, and Walter C. Dyer of Sterling, fireman, was seriously crushed in a rear-end collision of two freight trains here today.

# SHOTGUN SQUAD ON SEARCH FOR HOLD-UP GANGS

### Officers Scour Los Angeles District for Men Who Robbed Bank of \$4,000 in Cash and Valuable Securities

LOS ANGELES, Aug. 21 (AP)—Shotgun squads from the sheriff's office tonight were scouring southern California for some trace of the five bandits who held up the Belvedere State bank at Belvedere Gardens, near here, shortly before noon today and escaped in an automobile with \$4,250 in cash and \$60,000 in negotiable securities.

One of the bandits was believed to have been seriously wounded when a witness of the robbery opened fire with a shotgun on four of the gang as they left the bank and ran to the automobile where the other member of the quintet sat ready to whisk them away with their loot. He was seen to fall and had to be lifted into the car by his companions.

# SIX MEN ARE BURIED IN MINE BY FALL OF ROCK

### Large Crew Brings Out One Body After Hours of Searching; Others May Have Perished

SILVER CITY, N. M., Aug. 21—In a cave-in today at the property of the Co-operative Mining company, 15 miles northeast of here, six men were trapped. The men were working in a drift at the bottom of a 130-foot shaft when the accident occurred.

# NEW UNITED STATES SURVEY FOR DAM SITES

MOAB, Utah, Aug. 21 (AP)—Armed with a rifle outfit and motion picture equipment, ten engineers of the United States geological survey have departed on a trip to map the entire length of the Colorado river, which, it is said, will take them over hitherto unexplored sections of the lower fastnesses of the canyon and require more than four months to complete. The work will have a bearing on the dams proposed in the canyon of the Colorado. Flood prevention and conservation of Colorado river waters now believed to be wasted. Four experienced river boatmen have been engaged to pilot the expedition. Similar work has been going on at both ends of the canyon for a number of years, but the parts is expected to map and survey gorges, streams and canyons hitherto uncharted.

# AMERICAN FINANCIERS TO LEAVE COLOMBIA

BOGOTA, Colombia, Aug. 21 (AP)—Having completed the reorganization of Colombia's financial system, the American financial mission is about to return to the United States. A farewell banquet was tendered them by President Nol Ospina, attended by the cabinet members, supreme court justices, the presidents of the senate and chamber and state and municipal officials.

Big "House-Cleaning" Job. One of the biggest cleaning jobs ever undertaken was the dusting and renovating of the British Museum library. Two hundred and fifty men were kept busy for 14 months. The great reading-room took 250,000 leaves of beaten gold.

# SUICIDE SEEN IN DEATH OF FARMER NEAR DRIGGS

### Christian Knapp, 40, Found Dead; Body Discovered by Milk Wagon Driver; Shot Was Heard

DRIGGS, Idaho, Aug. 21 (AP)—Christian Knapp, 40 years old, was found dead at his ranch three miles south of here yesterday, authorities announced late today. He committed suicide by shooting, it was announced.

A milk driver had been told by Knapp last Saturday that "if you do not find a note at the ranch gate, then drive in." The milk driver forgot the request until yesterday and when he drove in he found the body near the gate, blackened from the effects of the sun.

# FEAR JAP SUB CREW PERISHED

### Efforts of Divers to Locate Japanese Underwater Ship Prove Futile

TOKIO, Aug. 21 (AP)—Divers were unable to locate the Japanese submarine number 70, which sank yesterday off Awaji island, with 84 members of the crew and workers from the Kawasaki dock yards, at Kobe.

Those who were saved owe their lives to the fact that they were hurled through the openings of the submarine by the intruding water.

# LASSEN PEAK ERUPTING

REDDING, Cal., Aug. 21 (AP)—Lassen peak, near here, was in eruption when darkness fell tonight but the magnitude of the eruption cannot be definitely determined until daylight tomorrow. About 7 o'clock steam was observed coming from the crater and it continued until dark.

# GERMAN WORKMEN MAY JOIN FRENCH

DUESSELDORF, Aug. 21 (AP)—The belief was expressed in French circles here today that the constant fruitless bickering between the German workmen in the Ruhr and their employers over the question of wages may result in the desertion of large numbers of the workmen to the French side in the Ruhr struggle. The French cite the fact that 27 German railroad men took employment with the French railway regime yesterday.

# GERMANS SEEK HAZEL COAL

ESSEN, Saxony, Aug. 21 (AP)—Coal mines in the Hazel mountains, neglected for 25 years, are again being operated as a result of the French occupation of the Ruhr. The Hazel coal field is 20 miles long, and it is estimated that one mine alone is capable of yielding 15,000,000 tons of coal.

# GOVERNMENT'S DUTY TO EDUCATE INDIANS

WASHINGTON, Aug. 21 (AP)—Education of the American Indian is considered by the government as its paramount duty to the charges of the Indian bureau. Commissioner Burke declared in opening a conference of Indian school supervisors.

Stray Bits of Wisdom. Reason teaches us to be silent; the heart teaches us to speak.—Richter.

# SHAKEUP LOOMS IN REICHSBANK

### President of German Institution May Be Asked to Resign; Ebert Issues Summons

LONDON, August 21, (AP)—Reuter's Berlin correspondent in a dispatch tonight credits socialists parliamentary quarters with the statement that Rudolf Havenstein will resign shortly as head of the German reichsbank. Havenstein is said to have been summoned to meet President Ebert and Chancellor Stresemann.

For several weeks there has been insistent demands by the United socialists for the retirement of Herr Havenstein as president of the reichsbank, and one of the managing directors of the institution, on the ground that they had failed to devise financial reform measures which they, the socialists, believe would have prevented the mark's collapse.

Forwards, the socialists offer, on August 17, declared it was intolerable that the reichsbank administration methods could be pursued and persons allowed to remain in office "in the face of the distrust of almost the entire reichstag and wide circles of the German people." It added that unless Havenstein and Otto von Glueck, vice president of the reichsbank, tendered their resignation within three days, the social democratic party would demand the immediate convening of the reichstag to deal with the matter.

# POOR SUFFER

BERLIN, Aug. 21, (AP)—Retail prices in greater Berlin have reached levels all out of proportion to the revised wage scales agreed upon last week, causing added suffering among the poorer classes.

# MANILA'S CHIEF

(Continued from Page One) He had any knowledge of anything unfavorable in the governor's previous record. Will look into the matter thoroughly. The reason for the reopening of the case at this time is perfectly apparent.

# REALTORS MEET OCTOBER 10-13

SACRAMENTO, Cal., Aug. 21 (AP)—More than 500 California real estate men are expected here for the annual state convention of the California Real Estate association, October 10-13, according to the committee members in charge of the meeting.

# RAIL CASUALTIES IN ENGLAND

LONDON, Aug. 21 (AP)—Only five passengers of the 1,161,470,000 carried on English railways during 1922 were killed in accidents. This is one passenger in every 237,000,000.

# COOLIDGE MEN

(Continued from Page One)

the elevation of Mr. Coolidge to the presidency has inspired native Vermonters everywhere to suggest that a similar national movement among them to form or join Coolidge clubs be inaugurated.

# CLAIMS INITIAL SUCCESS

"We have already heard from their own initiative to this effect from prominent and influential men, most of them leaders in agricultural, industrial and educational activities residing in such states as California, Oregon, Washington, Idaho, both Dakotas, Minnesota, Iowa, Nebraska, Kansas, Illinois and Florida. Westerners as far seem even more interested than easterners, especially in the agricultural sections, where Coolidge is looked upon as a product of the farm."

"Mr. Harding's death left a tremendous task to President Coolidge," the speaker said to a Statesman representative.

"If he discloses the ability which friends believe him to possess to take care of the pressing problems, there will be every disposition to nominate him and my guess would be that under such circumstances he would be nominated."

"My impression is that the people would look with disfavour upon any attempt to embarrass President Coolidge for personal political advantage."

# Others May Enter

"However, should the president not deal with problems as they should be handled, I expect to see a number of candidates enter the field."

In answer to a question as to his own individual action, Senator Borah declared:

"I can answer it in a single sentence. There are certain great problems and propositions in which I am interested, and I am going to urge and push those problems to the best of my ability. "I haven't any particular choice as to individuals, but I have a very decided choice as to political problems and policies, and as to what I think ought to be done, and I am going to be guided by my views as to these policies and problems rather than as to individuals. "I will say, however, that I have great personal respect for Mr. Coolidge and for his ability and courage, and courage right now is the most essential element in American statesmanship. "The times require just as much boldness in leadership and just as much courage as would be required in time of war. The world is being dragged into chaos and back to another possible world conflict through the narrowness and intolerance of certain policies, particularly in international affairs, and the man who is big enough and brave enough to lift us out of the psychology of war and put us on the high road to construction will gain my support and all the energy that is left in me."

# BORAH NOT CONVINCED

BOISE, Idaho, Aug. 21 (AP)—The impression President Coolidge makes upon the country in the next nine months will be the determining factor in selecting the nominee for standard bearer of the republican party in 1924. Senator William E. Borah said tonight on his return from the northern part of the state, where he has been since the death of President Harding.

But Not So Easy to Take. An ounce of honest criticism is worth more than a pound of flattery.

# BIG DEFICIT OF FUNDS CHARGED

### Liquidation Officer in Case of St. Louis Bank Faces Shortage of \$167,000

ST. LOUIS, Mo., Aug. 21 (AP)—Donald W. Ross, former deputy state finance commissioner, is charged with an alleged deficit of \$167,762.97 in his accounts, as liquidation officer of the defunct Night and Day bank, in a report made to State Commissioner of Finance Millspaugh here late today by Hawkins and Sells, certified public accountants, who investigated Ross' accounts.

Total assets of the bank were \$2,647,704.14 when Ross took over the affairs of the institution, according to the report, which stated that only \$2,479,941.17 could be accounted for by Ross, the difference being the deficit.

Discussing items of "assets unaccounted for," the report declared that this "deficiency may be partially explained in collections deposited to the credit of the personal account of Ross."

Japanese Proverb. Buy land that slopes toward the "enter, and marry a girl whose mother is good."

# PARTY OF PROMINENT MEN ON OUTING TRIP

### Ford, Edison and Firestone to Spend a Few Days Camping Near Iron Mountain Plant

IRON MOUNTAIN, Mich., Aug. 21 (AP)—The Ford camping party was here today and will remain in Iron Mountain a few days camping in a grove near the Ford plant. They arrived Saturday.

The members of the party are: Mr. and Mrs. Henry Ford; Mr. and Mrs. Thomas A. Edison; Mr. and Mrs. Harvey P. Firestone and son, Harvey, and Miss Bogue, a friend of the Firestones. Upon their arrival they were joined by Mr. and Mrs. E. G. Kingsford of this city, Mr. Kingsford being at the head of Ford operations in the upper peninsula.

# SEALED FAR FROM HOME

HELGOLAND, Aug. 21 (AP)—Atlantic searcees has invaded the North sea, and crowded out nearly all other forms of marine vegetation.

# MAN AND WOMAN DROWNED IN LAKE

SEATTLE, Aug. 21 (AP)—Fred Johnson, a contractor, and Mrs. Gertrude McKenzie, his housekeeper, were drowned in Green lake in this city today when he attempted to teach her to swim. One of Johnson's children, aged 13, witnessed the tragedy.

THE "DIET FARMER" SPEAKS

The Chicago Daily News writes to remark that when the much-discussed "diet farmer" really speaks for himself, he is "apt to repudiate his volatile political champions and their quick remedies for various ills."

In Illinois, at any rate, the aforesaid diet farmer, speaking collectively through the state agricultural association, has rejected several panaceas professed by political radicals in his behalf, including government price fixing, government purchase of wheat, organized withholding of wheat from the market and storing wheat on farms and issuing warehouse receipts against it.

Instead of artificial remedies, they go on record as favoring natural, evolutionary processes like co-operative marketing, crop diversification, reduction of wheat acreage where that is necessary, greater economy in production and better use of present credit facilities.

INCOME SURTAX REDUCTION

Secretary of the Treasury Mellon wants the maximum surtax on incomes reduced to 25 per cent, making the total federal tax on the biggest personal incomes 33 per cent.

Nevertheless the Secretary is probably right in his contention that lowering the surtax will bring more money into the federal treasury. It had that effect when the maximum surtax was reduced to 50 per cent.

Besides discouraging this method of tax-dodging, such reduction might have a wholesome effect on American business. Hundreds of millions now poured into public bonds, encouraging state and municipal extravagance, would be available again for productive private enterprise.

GASOLINE COMPETITION

The present national flurry over the price of motor fuel attracts attention, more pointedly than usual, to the fierce competition in the oil refining industry.

It is found that the so-called "independent" refiners invariably adjust their prices to harmonize with those of Standard Oil Company prices for the same grade of gasoline and coal oil.

It is urged on behalf of the "independents" that, being weaker than the big "trust," they are forced to adopt this docile policy, because if they undersell the Standard they will be subjected to ruinous price-cutting to endure a temporary loss for the sake of future gain.

LOGAN IS DELEGATE ON REPARATIONS BOARD

James A. Logan

ABOVE is shown James A. Logan, of Philadelphia, who has succeeded Rowland W. Boyden, of Boston, resigned, as the American unofficial delegate to the Allied Reparations Commission, sitting in Paris.

look to an outsider, too, as if some of the "independents" are strong enough to stand on their own feet. In any case, the most emphatic leader of the present situation is the need of real competition in this big, vital industry.

FARMERS ARE THINKING AND DETERMINED TO HELP THEMSELVES

While many proposals are being made to aid the farmer, he is studying the situation from all angles and has concluded that one sure means of help will come through his own analysis and action.

The market reports showed that on June 20, 1922, cash wheat in Chicago brought \$1.15 and on the same date this year it sold for \$1.05.

There then is corn. What would the decline in wheat freight rates be on that product? Well, not also, grant the freight rate a determining cause in that increase in value!

The other day corn sold for 86 cents a bushel in Chicago, a gain of 5 cents since June 30, while the freight rate was 20 days effect. What if the freight rate a determining cause in that increase in value!

It is urged on behalf of the "independents" that, being weaker than the big "trust," they are forced to adopt this docile policy, because if they undersell the Standard they will be subjected to ruinous price-cutting to endure a temporary loss for the sake of future gain.

against either. If man-made laws control the situation, wheat and corn should go up and down together. Instead of that we have the spectacle of one becoming worthless and the other priceless.

It seems apparent, however, that freight rates are not the controlling element in the prosperity or the poverty of the farmer.

The railroads may be guilty of all the mean things said about them, but the real nigger in the woodpile is something entirely different.

"No danger," Pettit laughed thinly. There was a diabolical edge to this laugh of his—the sound of it made Solomon shiver slightly.

John Solomon, Incognito

By H. Bedford Jones

With a slight sneer, Pettit Jean drew a "what-ya-wanna" pocket-money taken from the Macarty's. He counted out a hundred dollars, and tossed the bills at Solomon.

"Now, get up and get busy," he snapped. "Throw some breakfast together. I'm going to snatch a bit of sleep. The night to be of the bayou in the couple of hours—by sunrise, call me then."

"Yes, sir," returned Solomon humbly, stuning the money into his pocket. "Here's the key to Miss Lavigne's cabin." Pettit Jean threw a key at him.

"Better take the wheel yourself, Alce," said one of the men, glancing at the shore. "She's making toward the shore, the fat-current swinging her, probably."

Alce turned over the wheel, advanced the loop, a spoke, and began to fill his pipe. The man who had just spoken leaped suddenly to his feet with an oath.

CHAPTER XVII

In the obscurity that preceded the dawn, the Watersprite moved away from her anchorage. Her engines purred to life. Pettit Jean, standing in her tiny bridge-house, ordered full speed ahead.

Pettit Jean summoned the four men who were on deck. One, who knew the watersprite well, stepped forward with the wheel. With the others following him, he sought the mate's cabin and unlocked the door.

"Why, sir," returned Solomon, wheesily, "I thought as 'ow I 'eard shoo, yes, sir!"

"Dead!" he muttered. "The Macarty's dead!"

"No danger," Pettit laughed thinly. There was a diabolical edge to this laugh of his—the sound of it made Solomon shiver slightly.

"The crew, left in charge of the yachts, slipped together and tumbled in low lurch. The door of Pettit Jean was upon them.

"Encouraging delinquency a Miss—"

"Children to Attend School."

School Trustees to Report Delinquency to Report

for the right-hand bank of the bayou! Alce threw off the loop and wrenched the wheel. Into his eyelids Cajun features came the bewilderment of the "She don't anchor!" he complained.

"The engineer went leaping below. From the group of men broke a storm of oaths and curses as they realized that the watersprite was moving.

"How did this happen?" he said, with an appearance of calmness.

"How did this happen?" he said, with an appearance of calmness.

"What is useless to you may be valuable to other individuals in the classified columns."

THE MARKETS

CROP DAMAGE FORECAST UPHELDS WHEAT PRICES

CHICAGO, Aug. 21 (AP)—Wheat finished near the top today. A forecast of frosts in parts of the Canadian wheat belt and the pronounced strength in September corn were the chief factors in upholding values. The finish was unchanged to 5-6c up, with December \$1.04 1/2 to 1.04 1/2 to 5c, and May \$1.30 7/8. Corn advanced 1/2 to 3/8 to 3-3/4; oats gained 1/8 to 5-8 to 3-4c; and provisions were 1-2 to 17-1/2c higher.

Volume of trade in wheat was light and the price range narrow, closing figures being around the best of the day. At the outset there was some scattered buying by commission houses, but indifferent cable news served to check demand and the market quickly eased off, with some selling of September and buying of December. Seaboard houses bought moderately.

Covering by previous sellers was largely responsible for the sharp upturn in September corn, this delivery touching 86 1/2 cents, a gain of 3 3/4 cents over the previous finish. Other deliveries readily responded in sympathy and the finish was near the best levels of the day. Strength in the cash market which advanced about one cent, with practically all contract grades selling above 90 cents, also helped to lift futures.

Oats were firm throughout the day, reflecting the strength in corn. Provisions were quiet and firm, packers supporting lard in a small way.

CASH QUOTATIONS

CHICAGO, Aug. 21 (AP)—Wheat—No. 2 red \$1.02 to 1.03 1/4; No. 2 hard \$1.02 to 1.03 1/2. Corn—No. 2 mixed 89 3/4 to 90 1-2; No. 2 yellow 90 3/4 to 93c. Oats—No. 2 white 39 to 42c; No. 3 white 38 1/4 to 39 3/4.

Butter—No. 1, 64-1-2 to 67-1-2c. Butter—No. 2, 64-1-2 to 65c. Creamery—No. 1, 45-1/2 to 46c. Pork—Nominal. Lard—\$11.12. Hops—\$12.00 to 0.00.

POTATOES AND PRODUCE

steady; aged stock steady to strong; feeding lambs strong to 10c higher; bulk western fat lambs \$13.50 to 13.90; top \$14.20; bulk natives \$13.75 to 13.25; few sales upward to \$15.00; culls generally \$9.50 to 10.00; three loads good yearlings \$11.25; five doubles Montana weathers goodly number of yearlings included \$10 to 10.25; odd lots fat \$4.50 to 7.50; feeding lambs largely \$13.45 to 13.85.

PRICE ADVANCE PREVAILS

Total stock sales 569,200 shares. Twenty industrials averaged 92.18; net gain, 47. High, 1923, 105.38; low, 86.91. Twenty railroads averaged 79.31; net loss, 22. High, 1923, 90.63; low, 76.78.

NEW YORK, Aug. 21 (AP)—The upward movement of prices was resumed in today's stock market despite the intermittent selling of the oil shares and occasional short attacks against other parts of the list. Pool operations were again in evidence, apparently in the hope of attracting an outside interest, which has not been very extensive in recent months.

Buying was most effective in the independent steels and American Can. Gulf States Steel, which is rather closely held, was pushed up 1/2 points; Crucible 1-1/2; Republic 1-3/4 and Bethlehem 1-1/2. American Can ranged from 95 3/8 to 99 1/4, closing at 99 3/4 for a net gain of 1/2 point. Baldwin, Studelaker and United States Steel common, which were heavy in the early dealings, all closed at slight fractional gains.

Selling of the oil shares was based on unconfirmed reports of new financing by the Pan-American company and speculative fears for the safety of the dividends of some of the smaller companies. The Pan-American issues each lost about 1-1/2 points, on the day, as did Producers and Refiners. Most of the other losses in this group were of a fractional character.

There were no new developments to affect the course of trading. Wall street was intensely interested, however, in the French reply to Great Britain's note which was delivered today and probably will be made public tomorrow. The first of the July railroads earnings reports made their appearance today. Kansas City Southern reported an increase in both revenues and net earnings thus far this year, indicating an annual return of 4-1/2 per cent or better on common stock. Union Pacific reported a slight increase in gross last month over the month before, but the net operating income was only \$1,364, 035, as against \$2,229,325 in June, due to higher operating expenses, mostly for maintenance of way and equipment.

Call money held firm at 5 per cent. Withdrawal of funds from this center by interior banks in order to finance crop movements resulted in a slightly higher asking rate for time money, which was offered at 5 1/2 per cent. The 1-4 bid business was dull. Most of the prime commercial paper moved at 5 1/4 per cent.

Allied exchange rates were slightly firmer. Demand sterling which touched a new low yesterday, snapped back to \$4.55, and French francs rallied 6 1/2 points to 53 1/2. Spanish pesetas, which have been adversely affected by the unfavorable developments in Morocco, touched a new low at 13.27 and then rallied to 13.31.

GOVERNMENT BONDS

NEW YORK, Aug. 21 (AP)—Liberty bonds closed: 3-1/2s \$100.2 Second 4s \$93.10 First 4-1/2s \$98.12 Third 4-1/2s \$98.28 Fourth 4-1/2s \$98.37 U. S. Government 4-1/2s \$92.90

SUGAR

NEW YORK, Aug. 21 (AP)—Local raw sugar market was steadier and prices were 1-3/4 cent higher to the basis of 4-1/2 cents for Cuban, cut and freight, equal to \$5.81 for centrifugal. There were sales of 10,000 bags of Cubas to a refiner and 2700 bags to an operator, both for prompt shipment.

The raw sugar futures market was steadier in response to the advance in the spot market, but there was only moderate trade. Closing: September, \$3.95; December, \$3.93; March, \$3.50; May, \$3.57.

The market for refined sugar was unchanged at \$7.50 to \$7.60 for fine granulated. There was moderate inquiry at the inside figure. Refined futures nominal.

# TOWN PROPERTY GIVEN SHARE IN PROJECT'S COST

## Tentative Apportionment Made by American Falls Reservoir District Directors Puts Charge at \$2 to \$6 per Lot

Proportionate share of city property in the cost of building the American Falls reservoir and purchase of storage water made available by it runs from \$2 to \$6 per lot, according to a tentative plan worked out Tuesday by directors of the American Falls reservoir district at a meeting convened here for the purpose of determining and apportioning the benefits and cost of the project over lots, tracts and subdivisions within the district.

Definite decision as to the apportionment is expected to be reached by the directors before they adjourn Wednesday. Objections to the apportionment, as finally agreed upon by the directors, may be filed in the office of the district at any time prior to September 7. The directors will assemble here for another meeting August 24.

**On Basis of Funding**

In computing the proportionate share of town property in the cost of the project, the directors Tuesday made their estimates on the basis of funding the first five years' interest charges. Payment will not be made all in one year but will be distributed over a period of years, and collection, in accordance with a plan approved in all seven counties with territory in the district, will be made to the tax collector.

The total of the share paid by town property will, of course, reduce the total share apportioned to farm lands, which, in the case of lands under the Twin Falls canal system for which one-half acre foot of American Falls storage water has been contracted, has been estimated at approximately \$3 an acre.

## Towns Classified

In arriving at their tentative plan for apportionment of the cost as to town property, the directors, after some discussion, agreed that towns should be classified for the purpose. Twin Falls was placed in the first class. Buhl, Jerome, Kimberly and Ellettsville were placed in the second class, and the classification was continued to include all of the towns and villages within the district.

A further division was made in the case of Twin Falls city property, business lots against which the heaviest assessment would be made being placed in one classification; warehouse and other similar property in another, and residence lots bearing the lowest rate of assessment, were placed in a third classification.

Necessity for making the apportionment as to town property large enough so that the aggregate acreage within a town would pay its full share in the cost of the project was given consideration by the directors.

## Tentative Apportionment

Under the tentative apportionment Twin Falls business lots would pay \$6 and residence lots \$2. In second class towns, business lots would pay \$4 and residence lots \$2 each.

The directors did not have a definite plan for the apportionment as to town property when they assembled here Tuesday. After the question had been discussed at some length Secretary W. F. Alworth suggested that each director prepare lists assigning the several towns into classifications, and later that each director indicate in similar fashion his own views as to the proportionate share to be borne by lots in each of the classifications.

There was practically no variation in the lists prepared in accordance with this suggestion.

## Few Attend Session

Tuesday's session of the board of directors was attended by only a few persons outside of officers and directors of the district. One or two persons appeared during the day with questions as to the purpose of the session, and in one case a wateruser appeared to ask that his land be excluded from the apportionment for the reason that he was amply supplied with waste water in addition to the amount called for under his water right.

The meeting was presided over by E. E. Sheppard, former president of the board, and the following directors attended: H. K. Wiley, Springfield; W. H. Spence, Kimberly; J. H. Barker, Buhl; A. F. McClellan, Wendell; F. E. Bayro, Dilas, and W. F. Alworth, Twin Falls.

## DUTCH TROOPS SENT TO GUARD FRONTIER

LONDON, Aug. 21 (AP)—A dispatch to the Daily Mail from Manchester says that in view of possible "incidents" along the German-Dutch frontier, Dutch troops have been sent thither and the frontier guards increased. The dispatch adds that herds of Germans are buying all available foodstuffs in Dutch frontier towns.

# Hail Storm Sweeps Salmon River Tract

## Damage to Alfalfa Seed and Other Crops Is Reported as Result of Severe Storm

The Salmon River project in the vicinity of Hollister was swept by a severe hail storm that caused damage to crops Tuesday afternoon, according to word received here Tuesday evening. The extent of the storm was not known at that time.

It was reported that a field of 120 acres of alfalfa seed on the farm of J. E. DeWitt of Twin Falls, two miles west of Hollister, had been severely damaged by hail.

For some time after the passing of the storm, roads and fields in that vicinity were covered with hail.

# Personal

**Boise Broker Visits—**Bolly Atkinson, of Boise, prominent Idaho broker, was here Tuesday on a business trip.

**Guest of Relative—**Mrs. H. A. Linke of Salt Lake, is a guest of her sister, Miss Jessie Franer, and aunt, Mrs. Elizabeth Kilbuck.

**Guests from Pocatello—**Mrs. Darwin Furush and daughter, of Pocatello, are guests at the home of W. H. Furush.

**Here For Visit—**George W. Loomis of Dallas, Texas, is the house guest this week of Mr. and Mrs. A. Alexander.

**Guest of Son—**Mr. and Mrs. William Denoyer of St. Cloud, Florida, arrived Tuesday to be the guest of their son, M. W. Denoyer, until September 1.

**Returns for Visit—**George S. McGraw of Burbank, California, a former resident of Twin Falls, returned Tuesday for a brief visit with friends.

**Here for Visit—**Harry G. Ball, former resident of Twin Falls and now engaged in business in Helena, Montana, is here for a few days' visit.

**Back from Outing—**Don Bonwell and John Holler returned Tuesday from a few days' fishing and outing trip to the Wood River country.

**Ends Visit Here—**Mrs. Charles Dinger left Tuesday evening for her home at Culver City, Cal., after spending several weeks visiting relatives and friends in Twin Falls and Piler.

**Guests of Friends—**Mr. and Mrs. L. M. Herbert and children of Mrs. A. Taylor, Misses of an automobile tour of Pacific coast states, are guests for a few days at the home of Stuart H. Taylor.

**To Visit Sister—**Miss Ada Avant left Tuesday morning for Los Angeles, where she will visit her sister, Mrs. Clayton Johnson, for a week or ten days, before going to Douglas, Arizona, where she will teach the coming year.

**Visit Brother Here—**Mr. and Mrs. Burton Smith and son, John Butler, of Litchfield, California, and Mrs. Anna Furush, of Pocatello, have been visiting at the home of their brother, Eugene F. Skianer, 419 Fifth avenue east.

**Lodge Organizer Here—**T. E. Billas of Boise, state organizer for the Moose lodge, was here Tuesday conferring with local members relative to rehabilitation of the lodge here. He announced his intention to return about October 1, to conduct a membership campaign.

**Soll Expert Visits—**Dr. W. E. Taylor of Moline, Illinois, director of the soil culture department of Deere and company, on a tour of the northwest in a professional capacity, spent Tuesday here as the guest of B. C. Letcher. It was Dr. Taylor's first visit in 15 years and he expressed gratification over the development of the country in the interval.

**Concluding Visit—**Mr. and Mrs. H. C. Scranton and family of Paradise Valley, Nevada, who have been visiting old friends in and near Twin Falls for the past two weeks, expect to leave Wednesday for their home. Since leaving here three years ago, Mr. Scranton has been teaching in Paradise Valley, and also attending the University of Nevada, where he has just received his degree of bachelor of laws.

**WIFE CHARGES DESSERTION**

Alleging desertion dating from December 16, 1921, Mrs. Mabel Lawton instituted suit in district court here Tuesday for divorce from Jackson Howard Lawton, to whom she was married April 1, 1919, in Lewiston, Idaho. She asks also for the custody of their minor son. The action was brought by E. L. Ashton, an attorney for Mrs. Lawton.

**BUILDING POTATO WAREHOUSE**

Contract for the construction of a building for storage of potatoes, with a capacity of 20,000 bags, has been let by B. F. Hoover to P. B. Thompson. The building is to be situated in the Buttes addition to Twin Falls. Estimated cost will be \$20,000. It is to be completed to accommodate this season's crop.

# HENS COME IN FOR ATTENTION

## County's First Poultry Excursion Brings Growing Farm Industry into Limelight

Flocks of some of the most successful poultrymen in the county were inspected by persons traveling here Tuesday on a poultry excursion held by the county's first poultry excursion held Tuesday under auspices of the farm bureau and state university extension division.

Evidence that the county is in line with the development of the poultry industry in the state was noted by Fred Moore, poultry specialist of the state university extension division, who took part in the excursion and was the principal speaker at an afternoon meeting held by the excursionists on the county fair grounds at Piler. Mr. Moore declares that the poultry industry brings \$25,000,000 annually into the state and is capable of infinite expansion.

## Poultry Pays Best

On three of the six farms visited the excursionists were told that poultry paid more than 15 cents per dozen than any other activity on the farm.

A flock of 250 Leghorn hens on the farm of Herbert Lambing of Kimberly, since November 10, last, has averaged 60 per cent egg production, and pays better than anything on the place, Mr. Lambing said. He has increased his flock by addition this year of 800 baby chicks.

Six hundred Leghorn hens on the farm of A. E. Pettigrove, Hansen, is housed in one of the approved, electric lighted quarters. An average of 80 per cent egg production for 235 hens was reported. Within the past two years, Mrs. Pettigrove told the visitors, she has paid for herself and the equipment for their housing, and have returned a substantial profit.

Eighty laying hens on the farm of B. Diehl, Piler, have made a record of better than 60 per cent egg production. The flock includes 300 pullets, almost a third of which have begun laying. Mr. Diehl is milking eight cows and has a number of Dutch Jersey sows. This winter he expects to milk 20 cows and will keep hogs in sufficient numbers only to consume the surplus milk after the hens have been fed. The hens pay best, Mr. Diehl said.

Two hundred and forty hens in a laying pen on the Kilpatrick farm, here, have averaged a production of 213 eggs a day until recently. During March and April Mr. Kilpatrick sold \$150 worth of eggs each month. He has established a breeding pen with 150 hens, and increased his flock last spring by the addition of 600 baby chicks.

## Underproduction as Handicap

Underproduction, not overproduction, is the difficulty that Idaho poultrymen have to overcome, Mr. Moore told the excursionists in the course of his talk at the meeting following the trip to the farms visited. New York city consumes in one week as many eggs as are produced in Idaho in a year, Mr. Moore said, and the demand is looking for sources of supply where sufficient eggs are produced to justify establishment of trade relations.

Mr. Moore spoke about two hours, dealing exhaustively with various phases of the poultry industry and at the conclusion of his talk he was kept busy for another hour answering questions.

## Points Out Opportunity

Other speakers included J. E. Nowley, field representative of the Idaho fair, who pointed out the fact that Idaho is dependent almost entirely upon neighboring states for its supply of baby chicks, of which 2,000,000 were imported last year at an average cost of 20 cents each. He stressed importance of development here of this phase of the industry.

Guy H. Shearer of Piler, discussed the importance of the poultry industry from the standpoint of the banker, and B. Diehl spoke on poultry breeding and egg production in the light of his own experience.

# SUGAR MAKERS PREPARE TO GRIND HEAVY CROPS

## Factories at Both Paul and Twin Falls Ready to Begin Commission for Grinding Campaign

Amalgamated Sugar company factories at both Paul and Twin Falls are being put in commission to grind beet crops growing in the fields adjacent to either plant, according to the statement of James Selley, district manager of the company. Because of weather insurance devoted to the crop last season, the Paul factory was not operated last year, beets from that region being shipped to the factories at Burley and Twin Falls.

Heavy tonnage of beets is indicated this season, in the opinion of the sugar company officials.

"Last year," Mr. Selley said, "the record crop was 20 1/2 tons per acre, and it was an exceptional crop compared with others produced that season. We expect this year that this record will be surpassed, and, not only that, but the average yield for the district will be raised materially."

# LOWER WHEAT RATE TO CALIFORNIA EFFECTIVE

## Carrier Knocks Nine Cents a Hundred Pounds on Shipments from Twin Falls to Southwest

Effective Wednesday, the freight rate on wheat from Twin Falls to California markets will be reduced nine and one-half cents a hundredweight, and the rate on flour will come down nine cents, according to instructions received at the Oregon Short Line freight office here. The new rate on wheat is 52 cents, and on flour 67 cents a hundredweight.

Reduction of one cent a hundredweight in the rate on wheat from Twin Falls to St. Louis, making the rate 58 1/2 cents, will be made effective August 30.

No reduction has been made in the rate on wheat to Chicago, which stands at 65 1/2 cents.

Allebaugh, Boise; George Schallert, Seattle.

# FACE GAMBLING CHARGES

Juan Cortes and Juan Castellanos, Mexicans, in police court Wednesday morning will answer to charges of gambling, following their arrest Tuesday evening by Patrolman Dal Kennison, who interrupted them in a pool and card room at the corner of Main avenue and Third street south, in the midst of a game played with dice. The officer seized two silver half dollars, which, he reported, were taken from the floor on which the game was being played.

# AUTO BUSINESS IN TWIN FALLS RECORDS GAINS

## Almost Twice as Many Carloads of Motor Vehicles Delivered Here in Past Six Months as in 1922

Almost twice as many automobiles have been delivered by freight to Twin Falls dealers during the first six and one-half months of this year as were delivered here during the entire year of 1922, according to records of the Oregon Short Line freight offices here. The figures show receipts of 64 carloads of automobiles this year, as against a total of 37 carloads last year.

Increased shipment of automobiles is only one of the factors that is making for an increase in the volume of freight business here that has reached a point where additional help in the offices will be asked for in the immediate future.

During the past week there have been loaded here 23 carloads of potatoes, bringing the total for the month up to 29, and the movement of the crop shows no sign of diminishing, freight employes say.

## Freight Movement Record

Records of incoming and outgoing freight movement during the months of June and July, made public Tuesday morning, are as follows:

Carloads From	June	July
Beans	1	5
Brick	1	5
Canned Goods	1	1
Cement	4	37
Coal	55	87
Corn	1	1
Eggs	1	1
Lumber	6	8
Merchandise	134	128
Flour	18	23
Oil	18	25
Fruit	3	2
Apples	1	2
Potatoes	29	2
Hay	2	2
Gravel	29	75
Sugar	1	1
Ties	11	11
Wheat	1	18
Wool	1	1
Miscellaneous	49	34

# of the Screen

**"THE SUNSHINE TRAIL"**

Douglas MacLean is the star of "The Sunshine Trail," a Thomas H. Ince romantically composed drama which comes to the New Orpheum theater on Thursday. "The Sunshine Trail" is the story of a doughboy who came home from the war to find that he was officially "dead." Thrown into jail as an impostor, he has a series of amusing adventures, some of them of a most dramatic nature. MacLean is his role of "Sonny" McTavish tries to scatter sunshine and to do good to everyone but most of the good he does is returned with evil and it's only in the last few scenes of the picture that "Sonny" really hits "The Sunshine Trail."

Automobile owners, attention. Use Soperoy Piston Rings to stop oil leaks. Kreggel Machine Co. 210-220 Second ave. south. Phone 1202—adv.

# Mercury's Course on Little Higher Level

Slight increase in the range of temperature and a trace of precipitation were shown on the record Tuesday at the government weather observer's station here. High temperature for the day was shown at 84 degrees, an advance of two points, and low was 73, an advance of three degrees over the minimum of the preceding day.

# Society

Complimenting Mrs. John A. Noble of Newport, Wash., who is her house guest, Mrs. C. S. McMartin entertained at luncheon Tuesday for 20 guests. A color scheme of yellow was carried out in all of the decorative details for the tables. During the afternoon Miss Le Nolle Breckenridge sang a group of songs and Miss Louise McMartin played two piano numbers.

Congressman and Mrs. Addison T. Smith entertained at dinner Monday evening for Mrs. and Mrs. Charles Pettine, who are here from Chicago for a visit with relatives and friends.

Honoring Miss Marguerite Pickett, whose marriage to William Second will be solemnized the latter part of the week by Mr. and Mrs. Gertrude Owens and Miss Mary Owens gave a miscellaneous shower on Tuesday evening. Cards and fortune telling were the diversion, and refreshments were served at a late hour. About eighteen guests were present.

## ANNOUNCEMENTS

The Presbyterian Missionary society will meet in the church parlors Thursday afternoon at 2:30. The program will be in charge of Mrs. J. D. Barnhart and roll call is to be "Love."

Mrs. Oliver Stewart will entertain the Salmon Social club Thursday, August 23, instead of Mrs. E. A. Griffin.

## ANOTHER CAB MISHAP

Theft from Halley of a Ford car owned by Mrs. J. D. Barnhart was reported Tuesday to the sheriff's office here. The car was one of the 1923 models and bore Idaho license No. 89902.

**SALLADAY HARDWARE CO.**  
"Twin Falls" LEADING Hardware Store"

"Why all this hullabaloo about the marvelous products of the country?" said J. M. Markel, secretary of the Fair. "It is because it is warranted," said the secretary. Hundreds of tourists, scores of produce buyers, many contracting seed companies and numerous transient visitors have marveled at the quantity and quality of our productions.

Many people have asked their eastern relatives and friends to visit them during the week of the TWIN FALLS COUNTY FAIR so that they may see purebred stock, the products of the fields, the fruits from the orchards and vineyards, the flowers from the gardens and lawns, the handiwork of the women and the youthful natives that come to the MATERNITY and BABY CONFERENCE.

Get a premium list and an entry blank of the secretary,

J. M. MARKEL, Piler, Idaho.
