Klan Parade Breaks Up in Pitched Battle Between Hooded Hosts and Pittsburgh Suburb

PITTSBURGH, Aug. 25 (AP)—One man was killed and probably fatally wounded, and an unknown number of others were injured at midnight tonight when the members of the Pittsburgh Klan clashed at the Glendale bridge over Chariton creek. Quiet had not been restored two hours later, but all semblance of order was restored by the arrival of the police and Pittsburgh city detectives were patrolling the streets. A motorcycle squad had been stationed at the edge of the town to prevent any further attempt by the klansmen to enter the town and officers expressed belief that they soon would have the situation in hand.

The man killed, who was wearing a white robe and hood, was identified, and at the morgue it was stated that there was nothing on the body to identify him. It was, however, covered with tattoo marks, and a note identifying him as Steve Zareback, who, his friends say, was discharged a few months ago from the regular army after six years' service. He was a member of the Pittsburgh parade and was shot through the abdomen.

Hurled Into Creek. William Williams, another ex-soldier and member of the opposing force, was picked up and hurled into Chariton creek. The hooded klansman directed the parade, and he was placing him upon the operating table to probe for the bullet in his head. Three other klansmen wearing robes, were taken to the treatment of minor injuries. They left with the robes hidden under their coats, the physician said.

Burgess John Conley stated early this morning that no permit had been issued for the parade. It was estimated that 10,000 klansmen had gathered upon the hills above Carnegie and marched in the parade. Ten klansmen are being held in the Carnegie jail, having been arrested yesterday afternoon when they appeared in the street of Carnegie with the parade. Dr. E. B. Jones as he was placed in the hospital, and began directing automobiles carrying klansmen to the scene of the meeting.

Permit Stories Confict. David Cabot, who claims to be the exalted cyclops of the First Liberty klansmen, one of those arrested, said he, together with all other klansmen, was assigned to direct traffic for the meeting and to obtain necessary permits to that end from B. H. Gardner, district attorney of Allegheny county.

And two others of those arrested wore army uniforms, being veterans of the world war, they said, while the other seven wore civilian clothes. Cabot, in his cell this morning, said that Sam Rich, who was the acting grand dragon of Pennsylvania, had arranged for the meeting and had assigned him as traffic director.

The offices of physicians in Carnegie were crowded early this morning with persons obtaining treatment for cuts and bruises. The list of those wounded in the shooting was increased one more

LUCKY STRIKE
"IT'S TASTED"

We've heard women say they regret the fading of summer, the season of flowers and delicately tinted fabrics.

We thought so, too, until two or three years ago, when the silks began steadily increasing in beauty of texture and shade. This fall surely marks the climax; autumn fabrics could be no lovelier! The shades are more somber, to be true. But the silks hold lights in their rich folds more fascinating than mere color. We are ready to speed the passing summer!

New All Silk Roshanara Crepes

The long simple lines of autumn gowns, with here a drapery or there a godet, demand fabrics rich and beautiful. Perhaps this accounts for the increased popularity of Roshanara crepe; it needs no ornament. Don't the new shades of thrush and fallow appeal to your imagination? Then there are seal, darkest of the browns; zinc, an almost universally becoming shade; and navy and black.

New Bohemian All Silk All-Over Lace

Every woman loves lace. We all make the most of it while it is "in" and it is most decidedly in at present. Lace dresses can be worn by every figure and every age; fascinating for the young girl, and graceful for her mother. Black is perhaps the most used shade. In addition, we have seal, white, and gold. The college girl should not plan an evening dress without first seeing the exquisite pattern in gold.

Just Arrived 15 New Shades in Plain and Novelty Corduroy

Brocades are no longer confined to velvets and rich silks; they figure in the newest corduroys for bathrobes and breakfast coats. If a bathrobe has always meant a drab, ungainly garment to you, you must see these beautiful materials. There are plain patterns as well as the brocaded, and you may choose from fifteen different colors.

New Early Fall All Silk Canton Crepes

Other crepes come and go, and still canton retains its popularity. It is as much used this season as ever, and is perhaps more versatile than some of the other crepes. We have canton in twelve different shades.

There is a soft, lovely material in novelty weaves, that comes in peach, pink, orchid and blue.

New Underwear Silks Are Now Brought Out As Regularly As the Dress Silks

There are novelty weaves, as well, in silk vesting. We carry the favorite lingerie colors: white, pink, peach and orchid.

Everfast wash satins for underwear combine the beautiful and practical in underthings.

In another pattern in wash satins you may choose from seventeen different shades. This supple material is ideal for bloomers. Under a close-fitting frock the material falls gracefully and causes no unsightly "bunches."

THE STUDEBAKER LIGHT-SIX FIVE-PASSENGER TOURING CAR \$995

130,000 Owners Know the Value of this Studebaker

Every unit in the new 1924 Studebaker Light-Six Touring Car has proved its dependability in public use.

There are refinements and improvements of course, but the underlying principles of design and construction which have made enthusiasts of 130,000 purchasers of this model in three years' time, are not radically changed.

In our opinion, the 1924 Light-Six stands out as the greatest value and closest approach to mechanical perfection in moderate priced cars yet produced.

It is practically free from vibration. Studebaker accomplishes this largely by specifying the crankshaft and connecting rods on all surfaces. This requires 61 precision operations. It is an exclusive Studebaker practice on cars at this price—and is found only on a few other cars—and they're priced above \$2500.

Absence of vibration prolongs car life.

Now all steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in base. Quick-action cowl ventilator. Door curtains, bound on three sides by steel rods, open with doors. Removable upholstery in tonneau. Door pocket flaps with weights hold them in shape. Upholstered in genuine leather. DEMPSEY PUNCH IS STILL GOOD

Champion Scores All But Knockout in Training Bouts with Sparring Partners

BARATOSA SPRINGS, Aug. 25 (AP)—The power of Jack Dempsey's punches was revealed today when the heavy-weight champion came dangerously near knocking out Jack Burke and George Godfrey, the two heavyweights, in one of the roughest workouts in which the title-holder has engaged since establishing camp on the shores of Baratosa last week ago. Falling into a clinch probably saved them from hitting the floor.

A marked improvement was noted in Dempsey's work, despite a slight headache, in his sparring today. In one of the roughest workouts in which the title-holder has engaged since establishing camp on the shores of Baratosa last week ago. Falling into a clinch probably saved them from hitting the floor.

Burke Goes to Ropea When they squared off for the second round, Dempsey drove Burke over a punching bag from his moorings after the boxing program.

Godfrey, the first man to face Dempsey, had a story reason for two rounds in which he failed to connect. The giant negro was in retreat continually and within a second blood was spurting from his mouth from vicious hooks and right angles.

The score was 2-6, 6-2, 6-1, 6-2.

SUNDAY GAME CALLED OFF

Absence of Part of Local Talent Results in Cancellation of Scheduled Struggle

Yes, we have no ball game, with apologies to who ever wrote the banana song. Because of the absence from town of two infielders, Scilley and Kieffer, Manager Brown decided to cancel the game scheduled with the combined Kinnelby and Hansen teams for Sunday afternoon. It was impossible to get substitutes on short notice and rather than play with a crippled team it was decided to cancel the game.

Although the local aggregation took the Giants scores for five innings last Sunday, it was only through marvellous fielding and ardent support that the pan was not crossed. The Pacatello team will have their peerless jazz orchestra with them for sure for the coming series and from all reports the orchestra is worth the admission alone.

CHANGED ATTITUDE OF STEEL MEN APPARENT

WEDDING BELLS TO RING Babson Weekly Business Review Comments Upon Possibility of Twelve-Hour Day

WELLESLEY HILLS, Mass., Aug. 25.—(Special to The News.)—Roger W. Babson, when today asked as to what has been the leading development in the labor situation during the last few weeks, immediately replied, "The steel corporations' change of attitude toward the eight-hour day. Mr. Babson's complete statement is as follows:—

"Ever since the manufacture of steel became an industry, organized labor has been working in a certain portion of the plant have had a 12-hour day. The reason for this is obvious. The furnaces for a steel plant must be kept in constant operation at a white heat. They cannot be shut down like the furnaces in a shoe factory or woolen mill. Working hours were longer when the first steel plant was built than they are today. Consequently as there are 24 hours in a day, the shifts were set at 12 hours each.

Temperature Turns to Lower Records

Chart Below Normal

"The Babcock chart of business conditions stands today at 91 per cent below normal. This is due to many causes, such as the foreign situation, the conditions of the farmers in the west, and the extraordinary expense of recent storms. Another factor which is causing trouble in certain sections is the over production of petroleum. This is becoming a very serious problem and prices of crude petroleum and gasoline are subject to severe pressure. Just what the ultimate outcome will be is unknown, but I still feel my prophecy of a year ago that gasoline will be sold at the price of kerosene in many sections of the country, will yet come true." STORMS PLAY HAVOC WITH HIGHWAYS OF THIS STATE

Roads in Vicinity of Mackay Badly Damaged Through Floods Resulting From Recent Cloudbursts

Recent storms and cloudbursts in central Idaho have played havoc with the roads, according to State Director of Highways H. W. Gregory, who has recently returned from an inspection trip over the damaged parts. In Custer county on the Sawtooth park highway, three miles north of Mackay, 400 feet of highway was washed away by a recent cloudburst. The highway is passable, but very rough. Probably the worst damage was on the Idaho-Hwy. 1 highway between Arco and Howe. Fourteen miles east of Arco four cloudbursts took away the highway and although traffic can be maintained, it is very rough and hard to travel. The desert road between Arco and Idaho Falls is in bad condition also, the floods having great mudholes that force the traveler to detour, making the trip slow and tedious.

DEMURRER IS RECORDED

Demurrer in the case of the Twin Falls Bank and Trust company, H. K. Hemmingsway and J. S. Russell versus Oscar Iverson and others, was filed in district court Saturday. The motion was filed by Attorneys W. L. Guthrie and Homer C. Mills on behalf of the defendants.

SEES MORE PROFIT IN INTENSIFIED FARMING

Salt Lake Manufacturer Suggests Reduction of Acreage and Closes Development; Makes Survey Trip

Radical reduction in acreage and intensification of effort toward the more intensive methods is the suggestion offered to farmers by G. C. Dunford of Salt Lake, manager of the Inland Fertilizer company. Mr. Dunford made his statement on contracts with farmers in farming districts throughout the northwest and as far south as Denver.

"I believe the average farmer would find that he would gain considerably in profits if he would cut his acreage to one-half or even one-fourth of the present acreage and then devote his attention to farming it as just as intensively as he possibly can," said Mr. Dunford.
