

# AGE OF THIRTY IS VITAL POINT TO HEALTHY MEN

### Compilation of Figures Brings Out Interesting Conclusions with Respect to Life Expectancy

NEW YORK, Aug. 27 (AP)—Thirty is the magical age in the health development of the ordinary person's life. At 30 he is supposed nearly to reach the average called for in the standard height, weight and age tables, but after 30 the longest span of life prevails among those whose weights are unusually below the average, according to figures compiled by the Metropolitan Life Insurance company of this city, and given out by the American Child Health association.

The association asks everyone to keep track of his or her weight, and to remedy any excess by diet and right living.

In a statement accompanying the figures Dr. Louis T. Dublin, of the insurance company, who compiled them, says:

"After 30, people who weigh less than the average have a better chance for long life, the records of the insurance companies show. It is a decided advantage to be slight and a serious handicap to gain materially in weight, provided, of course, that the light weight is not the result of a starved or emaciated body, which may be the result of organic disease.

"But the weight tables posted on public scales," he continues, "should not be taken too literally. Fat persons may weigh a number of pounds above the average called for by the tables. An excess of ten pounds is associated with the most favorable conditions among people between 20 and 25 years old.

### Eating Important.

"The public should realize these facts and accommodate their habits of diet and exercise to them. In America we eat too much and too well. The oriental cook and the European peasant do an enormous amount of physical work on a meagre diet. No one advocates a return to primitive conditions or a return to a life of living, but it would be well for us to keep in mind the exact requirements of the adult body. We should recognize that when we have grown up we no longer need the food of a child, and that for the replacement of burned up tissues we need only about 2500 calories a day. Let me illustrate with a menu for an entire day for an average adult which will contain the required 2500 calories. For breakfast he may have a small average serving of cooked fruit or an apple or an orange, a serving of cereal, a slice of bread or one small roll with butter, a cup of coffee with sugar and cream. This will contain about 600 calories. The luncheon may consist of a small, bread and butter, a choice of coffee, tea or fruit with sugar and cream, and a dessert. This will account for 650 calories. The important meal of the day, or dinner, may consist of a soup, two green vegetables, bread and butter, and meat. If average portions are served, a total of about 1200 calories will be included. This would make the total for the day approximately 2500 calories.

"If more people checked their diet to the reasonable limits of their body requirements, there would be a great improvement in the general health of the nation."

### Male Water Sheep

A San Francisco hardware firm received a request from the Orient for quotations on "male water sheep." No one in the office could understand what article was meant and the letter was posted on the bulletin board for all to see, with the three words underscored. Finally some outsider scribbled the suggestion, "Maybe he means hydraulic rams," and this interpretation turned out to be correct.

## CROOK'S CODE HARD TO READ

### Incident in Life of Famous Crook Sheds Strange Light on Disposition of Criminal

WALLA WALLA, Wash., Aug. 27 (AP)—The story of a strange honor code is being told here, following the recapture of Mike Donnelly, several years ago a red shirt man at the state penitentiary. Donnelly was taken recently by an Injaho posse which secured the hills for weeks following his alleged fatal shooting of W. A. Crisp, posthall proprietor, of Hoop, Idaho.

Donnelly was sent up for life in 1911, according to Detective Chester Edwards who tells the story, and some years after that with two shilling escapes to his credit, the negro prisoner was wearing a red shirt to signify that he was a bad prisoner. Warden Henry Drum summoned him to the office.

"Mike," he said, "I've decided to make a trusty of you. I'm going to put you outside the gate. You'll have every chance in the world to escape from here if you wish to betray my confidence."

Donnelly hesitated not a second, according to Detective Edwards.

"Warden, don't tempt me," he answered, according to Detective Edwards. "I'm going to escape from this prison the first chance I get, but I don't want to go that way."

Donnelly went back to his work in the jute mill and a narrow coil with chances of escape aim, when he might have had a soft trusty's job and the way to freedom open, all because he wouldn't break his word," the detective commented.

"Crooks are strange creatures. Donnelly would kill a man in cold blood, but wouldn't break his word to the warden."

## FILER

FILER—Filer schools will open September 4. The buildings and grounds are being put into readiness for the reception of pupils and teachers.

# MINERS GATHER TO COMPETE IN RESCUE EFFORT

Nearly 500 Underground Workers Meet in Salt Lake Under Auspices of Federal Bureau of Mines

SALT LAKE CITY, Aug. 27 (AP)—Nearly 500 miners, trained in first aid and mine rescue work, representing mining companies in all parts of the continent, gathered here today to compete in the International Aid and Mine Rescue meet, being held here by the United States bureau of mines.

For the first time in the history of the meet, a petroleum team has been entered in the contests. The problems in first aid were worked by contesting teams in relays, 54 teams being divided into three groups. Upon the ability of the contestants to treat imagined injuries to fellow workers, marks were given by judges. The winners will be announced Wednesday night.

In a specially constructed building tomorrow conditions approximating those prevailing during a mine disaster will be created. The atmosphere will be contaminated with formaldehyde and mine rescue teams will be required to work out in their safety breathing apparatus the problems common in mine disasters.

Coloring Ivory.

Brann's Techno-Chemical Receipt Book gives several recipes for coloring ivory yellow. It may be placed in a concentrated solution of potassium chromate, then in a hot solution of sugar of lead. Another method is to place it in a solution of yellow orpiment saturated with ammonia. Another treatment is to mordant the ivory in a solution of stannous sulphide or of alum, then place it in a hot decoction of weld.

# CUPID HAS HARD TIME IN EUROPE

## Operation of New Marriage Law Works Serious Hardship Among Foreign Residents

MOSCOW, Aug. 27 (AP)—When the American congress passed the law annulling the previous rule that a foreigner automatically became an American citizen by marriage to an American, it put American difficulties in the path of Dan Caid in the document cursed countries of eastern Europe most frequented by the certain fine type of young American men at an age when they are very susceptible to pretty foreign girls and nations.

The American relief administration, the Near East relief, the Y. M. C. A. and other organizations which since the war have conducted relief operations in Poland, Austria, Greece, Russia and the Balkans and the Baltic states, sent hundreds of young Americans, mostly former army officers into cities noted for their charming girls.

Before the law becomes effective last September, marriages of Americans to these girls was relatively easy, although even then it involved dipping into records for documents, more document and still more documents. Once this was accomplished, however, all the young Americans had to do was to go to the nearest American consulate, have his wife's photograph pasted on his passport, and, if he was ready, could take her home an automatic American citizen, and show her proudly to his folks.

But today things are different. A few weeks ago one young member of the Near East relief mission in Armenia got a brief vacation and came through to Moscow on his way to Warsaw to marry there a lovely Polish girl who had waited for him two years. They had met when he was with the American Red Cross and she a nurse on the Polish battlefields against the Russians.

"I'll be back in ten days; save a room for us at the hotel," the Ameri-

can said blithely and confidently as he left Moscow.

Six weeks later he returned with his bride, having miraculously untraveled miles of red tape and overcomes, with the assistance of every official, Polish and American alike in Warsaw and Moscow, obstacles that left both bride and groom too tired to enjoy a honey moon.

EMMETT LOSES FINAL CONTEST

Jerome Team Divides Honors in Two-Game Series; Third Struggle Unlikely

EMMETT, Aug. 27.—By defeating Jerome by a score of 7 to 0 in the eighth inning here Sunday afternoon, Emmett is a general favorite among local sportsmen to win the 1923 state baseball title. Sunday's exhibition, the first of a two game series, provided all the thrills that satisfy fans, and Alexander's three batters, in the eighth, with Aston on second, finished a fitting climax for the season, 14 strikes counting the winning score.

Jerome took the lead in the second inning and from there on it was a battle between the hurlers, with a heavy margin in the score book favoring sides alternately. Alexander, whose bat wielded in the eighth won the game, called for Newhill in the ninth and down the mound for the remainder of the game. Today the second game will be played here and in case of Jerome winning a third game will be played in Jerome at a later date.

BOISE, Aug. 27.—Jerome defeated Emmett, 6 to 1, in the second of a two-game series at Emmett this afternoon, leaving the state championship split between the two. Airright pitching by Keller for Jerome, and some costly errors by Emmett were high spots in an otherwise featureless game.

Champ Finishes Races and Plans Similar Activities for Immediate Future

SARATOGA SPRINGS, N. Y., Aug. 27.—The door was locked at Jack Dempsey's training camp on the shores of Saratoga lake today. The world's heavyweight champion, starting a three days' layoff, passed the afternoon trying to pick winners at the race track, accompanied by Jack Kearns, his manager, and a party of friends.

ACTOR STILL UNCONSCIOUS. LOS ANGELES, Aug. 27.—James Hittlewood, picture actor, who was severely injured in a fall from a horse while riding at Beverly Hills, near here, last Saturday, was still unconscious tonight and his physicians announced that it was "impossible to state at this time" whether he would recover from the brain fracture of the skull and brain concussion suffered in the accident.

SPORT LOVERS WELCOME RETURN OF COACH EVANS

"I'm Glad to Be Back Home," Says High School's Grid Expert; Practice Starts in Few Weeks

"Yeh, Clint Evans is back." That's the hope your heart today. Every lover of the pigskin sport is honestly glad to see him and his already sounds like he had a bad cold from answering the questions that are fired at him from everyone he meets. "I'm glad to be back home. I've spent a delightful summer in southern California, most of the time around Pomona and Hollywood. I have had several conferences with Andy Smith, the California coach, and also with Henderson, U. B. C. coach, and have spent the summer getting ready for this season. I never felt better in my life, and I am ready to go."

FIRPO POTS ON BIG DAY'S WORK

Heavyweight Challenger Performs upon Three Sparring Partners with Deft Touch

ATLANTIC CITY, N. J., Aug. 27.—Using the same 16-ounce mitts that failed to soften the punches he landed on Joe Downey in Indianapolis several weeks ago, Luis Angel Firpo, challenger for the heavyweight boxing title, played pugilistic music on three sparring mates today in his daily workout. His dull notes he sounded on stomach, arms and body; he struck a higher pitch with half open gloves on jaw and head, and rendered perfect crescendo on chin. Luis was accompanied by rights and the critics said his technique was first-rate. He played two unopposed numbers and one funeral march.

On the Brooklyn side, Firpo used his left all through, never missing the jawstraps one. Koebel, under instructions from Horatio Lavalle, the trainer, worked quickly and well, and took his beating like a real punch catcher. McCann was easy to strike but hard to hurt, and though he was shaking near the end of the piece, he was going strong.

GETS NEWSPAPER DECISION

PHILADELPHIA, Aug. 27.—Eddie "Kid" Wagner of Philadelphia decisively outpointed Johnny Dundee, world featherweight champion, in an eight-round bout here tonight, in the opinion of a majority of newspaper men at the ringside. Dundee throughout the fight was wishy-washy, and the fight was within easy reach of Wagner's right. Hook after hook landed on the champion's face, practically closing his left eye in the third round. In only one round of the eight did Dundee show up at all well. Five of the others were awarded to Wagner, while two were counted as drawn.

OIL INDUSTRY FACING CRISIS

Gasoline Consumer of Future Vitrally Affected by Present Status of Industry

TITUSVILLE, Fla., Aug. 27.—The present crisis in the petroleum industry presents an economic problem which as vitally affects the gasoline consumer of the future as the gasoline user of today. A. C. Bedford, chairman of the board of the Standard Oil company of New Jersey, declared tonight in an address at services held in the memory of Edward Laurentino Drake, "the founder of the petroleum industry."

Supply and Demand. "In a highly competitive business such as the oil industry, ultimate solution of the problem will rest with the law of supply and demand. "We are now in the midst of a crisis in the industry and I have no desire to minimize the extremely serious aspects of the situation, but I must confess that if the petroleum industry ever ceased to be abnormal, I think I should find it very dull indeed."

AGE-OLD PREJUDICE IS UPSET BY STATISTICS

CHICAGO, Aug. 27.—Some urban communities in spite of the crowds, are healthier places for babies than many rural districts, according to the Infant Welfare Society of Chicago. A study of the mortality charts for cities and for the country shows that babies born in crowded cities have a better start in life than children in the country, the society reports. "This is not because of the crowds, but it is a condition made possible through the education of the mothers even before the babies are born."

TRANSFER BIG ACREAGE

Demand for Public Land During Past Two Years Reaches an Enormous Figure

WASHINGTON, Aug. 27.—Public lands totaling 23,022,970 acres have been transferred to non-landowners during the past two years. A department of interior summary shows that the number of patents issued for this area was 110,330. Were all of these tracts gathered into one district it would have an area as great as Massachusetts, New Hampshire, Maryland and Connecticut combined.

CO-OPERATION IS STRONGLY URGED

Member Joint Stock Land Banks Urged to Assist Each Other in Work of Institution

CHICAGO, Aug. 27.—Co-operation between individual banks in land appraisal work and bond distribution was urged upon member banks today at the convention of the American association of joint stock land banks by Governor A. H. Cooper of the farm loan board.

# JOHNSON SAYS FARM BLOC IS FARMERS' HOPE

## Minnesota Senator Would Relieve Agricultural Distress by Strengthening Congressional Effort

LITTLE FALLS, Minn., Aug. 27 (AP)—"The only remedy for the farmer and the agricultural people in the present period of agricultural depression is to increase the powers of the farm bloc in congress," said Magnus Johnson in an address at the Morrison county fair here today.

"My first and strongest efforts when I reach Washington will be to remedy agricultural conditions," said Johnson.

"President Coolidge, in my opinion, should immediately call a special session of congress to settle the coal, agricultural and gasoline price questions."

### Protects Tax Payers

Senator-elect Johnson, in speaking of the soldier bonus said that he was in favor of such a bill providing that money came from excess profits made during the war and not from taxation. He said, however, he was not sure that this could be done.

He referred to a recent interview with a reporter of the Kansas City Star and said that statements contained in that paper that he was against books and opposed to history were false and untrue. He said he was a great lover of books and that when he was a young man he had access to a large library in the "old country" and that he permanently increased his eyeight by sitting up at night and reading by poor light.

# IRISH ELECTION PASSES QUIETLY

## Day's Voting Orderly Almost to Point of Dullness; Little Interest Shown

DUBLIN, Aug. 27 (AP)—The electorate of the Irish free state went to the polls today in 29 constituencies for the election of 150 members of the new Dail parliament and up to the hour of elections maintained the unique character of the previous campaign and were quiet and orderly almost to dullness.

This, particularly the case in Dublin, while reports from the provinces tell a similar tale, with trifling exceptions in a few cases, where enthusiasm outran discretion and caused slight disturbances.

The universal verdict is that this has been the quietest election in Irish history. There was "no excitement, no laughter at the booths in Dublin nor in any of the waiting lines of voters. Judging from appearances, the public is taking only small interest in the affair, and the polling has not been heavy.

Civil guards and others responsible for keeping order were at their posts, but were not required in this model election, and according to reports there was only the very smallest amount of intimidation, persuasion, or attempts at persuasion, this being due to the heavy penalties provided for such acts.

### Interest Not Keen.

According to some reports tonight, there has been a poll throughout the state of about 60 per cent of the total. The only places where any briskeness or excitement was shown were Cork, Waterford and Kilkenny, where the balloting is said to have been heavy; reports from all other places indicate a certain amount of apathy.

The discharge of firearms in the early hours of the morning, in Dublin, led many citizens to wonder their plan of standing as "the law and order" party, but there is still no explanation of the firing and military headquarters has made no report.

The returns from the polling booths will be secret for three, possibly four days, but some indications may be forthcoming tomorrow when the first preferences may be known.

# TABERNACLE IS ERECTED IN COURSE OF ONE DAY

## Ministers and Business Men Establish New Record as Builders in Illinois City

FREEMONT, Ill., Aug. 27 (AP)—Despite occasional adverse weather conditions, construction of a new voluntary workers' hall today accomplished their aim of building in a single day a large frame tabernacle, seating 2500, in which convalescent meetings are to be held September 4 to October 15 under the auspices of the Ministerial association.

Preachers and merchants aided building craftsmen with saws and hammers all day in order to complete the construction work before dusk.

### HEAVY SUBSIDY PURCHASE

NEW YORK, Aug. 27 (AP)—Kuhn, Loeb and Co., New York bankers, announced tonight the purchase from the Associated Oil company of San Francisco of 24,000,000 shares of 10 per cent gold notes, due September 1, 1926. The proceeds of the sale of these notes and of \$10,000,000 additional stock which the company has determined also to purchase, will be according to the announcement, used for purchasing oil for storage and acquiring facilities for that purpose.

# Woman Lawyers of Nation Gather But Leave Hubbies Home

## Female Attorneys in Session at Minneapolis Proud of Fact that Domestic Partners Not Needed

MINNEAPOLIS, Aug. 27 (AP)—Prominent women members of the American bar tonight were in Minneapolis for the organization tomorrow of the National Association of Women Lawyers, preliminary to the annual convention of the American Bar association.

Three justices of the United States supreme court here for the American Bar convention, which opens a three-day session Wednesday, temporarily were relegated to the background as the women prepared for their first annual convention in 25 states.

The hope to perfect a permanent organization tomorrow with duly elected officers, to replace those tentatively named by Miss Emilie Bunn, a New York city resident of the association.

Miss Bullowa, who is a practicing attorney in New York, is the only formally chosen officer, and she appointed 100 delegates to the convention. These vice presidents made the arrangements for representation by their states in tomorrow's meeting.

### Chief Justice on Hand.

William Howard Taft, chief justice of the United States, and Chief Justices Sanford and Butler, arrived today, and the chief justice said he would attend the sessions of the bar association.

The judicial section of the bar association will hold a meeting tomorrow, in which Chief Justice Taft and Justices Butler and Sanford will participate.

The convention of women lawyers will open formally at 10 a. m. and Miss Bullowa will preside. She will deliver the first address, which opens a three-day session. The married delegates to the women's convention, one of the prominent members pointed out, with very few exceptions are not married to men in the profession. "I wish you would say," this woman added, "that not one of them brought her husband along. They are here to attend to business."

# EXECUTIVE COMMITTEE GATHERS AT POCATELLO

## Idaho Farm Bureau Federation Officials Map Out Program and Work for Coming Year

POCATELLO, Aug. 27 (AP)—The executive committee of the Idaho Farm Bureau Federation held a called meeting at the Bannock hotel Saturday afternoon and evening.

W. S. Parkhurst represented the central district; W. C. Shubert, Boise section; C. J. Call the upper Snake river valley; President George A. Line the Blackfoot section and C. Benson Bannock county and the tier of counties south.

At this meeting a definite program of work for the year 1924 was adopted and plans were laid for beginning the membership campaign October 1. It is the expectation to procure an enrollment of at least 10,000 farmers, besides co-operation from all lines of business, including the public utilities.

The organization will co-ordinate its efforts with the American Farm Bureau Federation and assist in developing commodity co-operative marketing.

# SHIPPERS ASK REDUCTION

## Livestock Men in Idaho, Washington and Oregon Join to Request for Lower Freight

PORTLAND, Ore., Aug. 27 (AP)—Reduction in rates on livestock from Idaho and eastern Oregon to Portland, Seattle and Tacoma and a reparation payment of approximately \$100,000 is asked in a complaint filed with the interstate commerce commission by the Cattle and Horse Raisers' association of Oregon, the Portland Livestock Exchange and the Northwest Livestock Shippers Traffic league.

Included in the membership of the league are the Cattle and Horse Raisers' association and 1700 livestock shippers in Oregon, Washington and Idaho.

The rates asked for constitute a reduction of from \$5 to \$35 on each cent of double-deck cartage rates on least of sheep and from \$10 to \$40 on a car of hogs. The suit also asks that the double-deck car rate on hogs from eastern Idaho be reduced \$30 to \$20 per car and that double-deck car rates on hogs be established from points in eastern Oregon, where none are in effect. The complaint further asks that the double-deck cartage rates for calves be published from both Idaho and eastern Oregon points.

klansmen." The anti-klan meeting was called by Fitzpatrick.

During the parade nothing was seen of Fitzpatrick. A large American flag was carried at the head of the procession.

Some outbreak of hand-clapping greeted the marchers, but the stern faces of the spectators attested to the intense feeling existing. There were 272 klansmen in the parade.

# Young Adventurer Leaves His Local Friends Perplexed

Anybody heard from Jack Smith?

The more or less dashing young chap who favored Twin Falls with a visit recently left the city a week or so ago and since that time nothing, apparently, has been heard from him.

His leaving was as quiet as his arrival, but it left certain questions still unanswered. One of the most pertinent of these is the question of his real identity. Was he Harold K. Vanderbilt? Evidence points to the fact that, yes he was.

While he was here Jack is said to have taken down the names of several of his new friends whom he mentioned in a letter would receive a few thousands—or was it millions—of dollars as small remembrances from him when he returned to his parental home in New York. Nothing further has been heard from him on this matter. Will Jack make his promise good? Nearly everyone believes he will.

And the proprietor of the hotel in which Jack stayed when he was feted in Twin Falls is probably wondering if Jack will pay him the \$1.50 he owed when Jack checked out on August 11—by request.

Anybody heard from Jack Smith?

# COMMENTS HEARD AMONG TOURISTS

Mr. and Mrs. A. P. Thurstad are making a leisurely trip from Elbow Lake, Minn., to southern California to spend the winter months at their new home on wheels, with an outside sleeping porch which folds up out of sight when not in use.

Mr. and Mrs. D. V. Everett, who have been guests of the park for a short time, they have been looking over this tract, and are greatly surprised at the variety and abundance of our crops. Coming from the corn belt of Illinois, they are much interested in our corn fields. They did not realize that another corn belt had been discovered.

Mr. and Mrs. Robert C. Creswell and family have been touring the country for several weeks and are en route to southern California to spend the winter. Mr. Creswell is a member of the art staff of the Cleveland, Ohio, Plain Dealer and is the illustrator of the illustrations for the Sunday magazine published by that paper.

Mr. and Mrs. D. V. Everett, who have been in attendance at the D. O. E. K. meeting in Portland, are now going to Salt Lake to visit Mr. Everett's mother. As a member of the Seattle Dokey band Mr. Everett was right in the middle of the fun which is always in evidence when the Dokeys get together.

He reports that the finest costumes and the best drilled teams came from the extensive south and eastern states. N. E. Wells and Mr. M. P. Smith of Minneapolis are going to Spokane, Seattle and down to Los Angeles to spend the winter. They said that our camp was the better than some that they had visited in much larger towns.

They also said that the Idaho roads are far superior to those in Wyoming.

A party of tourists are discussing the relative merits of Iowa and Idaho. An Iowa man said that he was much interested in the crops of corn that he had seen on the trip, but added that Iowa farmers did not have to irrigate, as a kind Providence furnished the required moisture, leaving only the planting and harvesting to be done.

Dr. and Mrs. A. G. Holmes and daughter, Miss Crystal, of Miami, Fla., have been visiting in the Twin Falls area. Ramona, who is a teacher in the Bickel school. This is the first vacation that the doctor has had in many years, so he concluded to make it a good one.

They first went direct to California and then to Honolulu, and are now going home via Colorado Springs and other points of interest. In all my travels I have never seen a more beautiful town nor such lovely people than here," they said. Miss Crystal left for Tallahassee Monday morning to resume her studies.

# BABY CLINIC IS ON

POCATELLO, Aug. 27 (AP)—Dr. F. W. Almond, state director of public health, is holding a three days' meet and "baby" clinic at Bancroft. A clinic will be held at Preston following the visit to Bancroft. Dr. Almond recently conducted a successful clinic at Blackfoot. Two hundred and seventy-six were enrolled. Following the completion of the courses in southwestern Idaho, clinics will be opened in the Twin Falls section.

### RAIN BREAKS ALL RECORDS.

DENVER, Aug. 27 (AP)—Denver, which stands on the edge of one of the largest irrigated districts in the west, has been visited by rain for 23 of the 27 days in August. Never in the history of the weather bureau, which was started in 1871, has a month had so many rainy days. Precipitation for the month aggregated 3.7 inches.

### STORM TAKES HEAVY TOLL.

BYRON, Neb., Aug. 27 (AP)—A severe hail storm hit Byron and vicinity late last night, devastating a strip two miles wide and several miles long. Large hail pellets killed scores of chickens. A barn was completely wrecked by the wind and hail. Fifty per cent of the corn crop in that vicinity is reported to be completely destroyed.

THE MARKETS

CHANGES BRING FIRMER TONE TO WHEAT MARKET

Cable News and Reports from Grain Belt Contribute Strength to Day's Trading in Chicago

CHICAGO, Aug. 27 (AP)—Firmness in the wheat news, together with a softening of the grain belt and strength in the northwestern markets gave wheat values here a firm undertone today. Top prices, however, were not maintained, and offerings increased and values went down grade to around Saturday's level.

At the finish wheat was unchanged to 1-1/2c higher, with December \$1.07 1/2 and May \$1.13 5/8 to 3/4 to 1 1/2 3/4; corn a shade to 3-4c lower; oats 1-4 to 7-8 to 1c down, and provisions varied from 5c off to a like advance.

Higher quotations at Liverpool and Winnipeg were an incentive to give wheat values an upward tendency at the start. Recent rains which have been good over the great belt, also helped to encourage the bulls, as a further curtailment of the movement is looked for.

However, as prices advanced, offerings became more plentiful and the market underwent a setback, in some instances going below the previous close. Toward the finish a rally ensued and most of the losses were recovered.

There was no important buying in wheat market under an active, in some instances upward toward the finish and the last trade showed little difference from final prices of Saturday.

Trade in corn was limited and features, being affected more or less by the action of wheat and the weakness in the cash market.

Oats showed strength early, but eased off with other grains later. Provisions were steady, notwithstanding the larger hog movement.

STOCK SALES STRENGTHEN

Higher Quotations Given as Basis of Pick-up; Baldwin Shares Close at Two-Point Gain

Totals stock sales 518,269 shares. From industrial averaged 92.48; not gain, .88. High, 1923, 105.38; low, 76.91. Twenty railroads averaged 70.04; not gain, .39. High, 1223, 90.63; low, 70.78.

NEW YORK, Aug. 27 (AP)—Stock prices displayed a firm tone in today's trading session. Higher raw and refined sugar prices were held responsible for the strength and activity of the sugar stocks, American Sugar rising 3 points, American Beet 2, Cuba Can preferred and Punta Alegre 1 3/4 each. Lead shares profited by the advance in the price of copper. National Lead closing at a gain of 1 3/4 points.

Baldwin, which closed nearly 2 points higher at 122 1/2, registered the largest gain among the general stock. United States Steel, American Can and Studebaker gaining substantial fractions. Chemical made another spirited advance on a renewal of rumors concerning the use of the alien gel process which it controls. The stock touched a new high for the year at 42 1/2, after falling back to 41 1/4, where it was up 1 1/2 on the day. Other outstanding strong spots were Gulf Steel, Bregge, Corn Products, American Woolen, Barwood, Stromberg-Carlson, United States Rubber, United States Alcohol, General Asphalt and Foundation Company, all up 2 to 3 1/2 points. American Smelting and Refining closed above the previous sales in reflection of an increase from 8 to 12 1/2 per cent in the annual dividend rate. The stock advanced 3 points on a small advance, and Woolworth 7 1/2 points.

Changes in the railroad group were not marked. Erie issues yielded on profit-taking, despite the publication of its earnings report which showed gross income of \$11,057,000, as against \$11,025,000 in June and \$7,804,000 in July, 1923.

The combined gross income of the first 17 rail companies to report in July totaled \$174,981,000, as compared with \$175,000,000 in June and \$143,500,000 in July of last year.

Call money opened at 5 per cent, but advanced to 5 1/2 before the close. The time money and commercial paper market were quiet with no change in the rates. Bankers are offering time funds at 5 1/2 to 6 per cent, but brokers bid only 5 1/4 and most of the business is confined to renewals.

Foreign exchanges were slightly reactionary. Demand sterling dropped nearly 3/4 of a cent to \$1.84 5/8 and French franc sold around 5.90 1/2 cents, off 1/2 point. Other rates showed little change.

GOVERNMENT BONDS

NEW YORK, Aug. 27 (AP)—Liberty bonds closed: First \$4 1/4 1/8; Second \$4 1/4 1/8; Third \$4 1/4 1/8; Fourth \$4 1/4 1/8; U. S. Government 4-1/2 1/8.

SUGAR

NEW YORK, Aug. 27 (AP)—Reports of a better inquiry for refined sugar led to renewed buying in raws and an advance of 1-4c in prices, with Cuban sugar quoted at 4 1/4c, cost and freight, \$9.10 to \$9.11 for cut sugar. Demand was more active and sales included six thousand bags of Porto Rico at 6 cents; 15,000 bags of Cuban and 400 bags of Porto Rico at 6.05; 13,000 bags of Cuban at 6.09 and 40,000 bags of Cuban at 6.15, all for the prompt and first half September shipment.

The raw sugar futures market was firmer, reflecting the advance in the spot market. The opening was 3 to 7 points higher and prices continued upward on active covering and renewed buying for both trade and outside stock. Final prices were at about the level of the day and from 14 to 26 points net higher. Closing: September, \$4.32; October, \$4.36; March, \$3.71; May, \$3.81.

The market for refined was firmer in sympathy with the advance in raws and prices were advanced to 25c plus higher, with prices now quoted from \$7.90 to \$8.25 for the granulated. The advance was said to be broadening. Refined futures nominal.

Only One Blonde

Bobby came running home the other day in an excited fashion and breathlessly exclaimed to his mother: "There are four new kittens at Renzath's house, mother—three brunettes, and the cutest little blonde!"

Pretty Girl Worker Is Cause of Sudden Efficiency of Gang

SPOKANE, Aug. 27 (AP)—County Engineer H. J. Doolittle has discovered the way to road construction efficiency in the person of a pretty high school girl, working on a cement mixer on a road job east of the city, he claims.

When Mr. Doolittle approached the crew recently he did not hear a "cuss" word, and to his astonishment found every one of the 28 men there wearing a clean shirt and a wreath of smiles.

"The liddle, the liddle," smiled the foreman as pointed to a pretty blonde in khaki trousers industriously gathering the cement sacks tossed from the mixer and tying them in bundles for return to the cement plant.

"The man is actually buying more paint since the girl began working," H. B. McCormick, county inspector, asserts. "Every one of the men is pleased the girl is with us. They helped her at first when she was behind with her work and they are already worrying about the time when she will leave."
