## PROCEED TOWARD SETTLEMENT OF MINERS' STRIKE

### Workers and Operators Agree on Main Points at Issue; Pinchot Confident of Reaching Agreement

HARRISBURG, Pa., Sept. 7 (AP)—Complete agreement upon the main points at issue between the anthracite operators and miners on the basis of Governor Pinchot's peace proposals, was reached here today. Plans are being made to make the agreement effective in a new wage contract, and to clear up outstanding differences of lesser importance between the two sides were called for 7 o'clock tonight, but adjourned at 11:04 p. m. to meet again at 11 a. m. tomorrow without having made any agreement. Governor Pinchot, in a statement, said excellent progress had been made and "both sides were showing a strong disposition to reach an agreement."

All participants in the negotiations believe that a settlement will be effected and that anti-union forces, now shut down by union orders, will be re-opened "with ten days."

### Peace Predicted.

"There is no point of dispute remaining which is in any way likely to justify a continuation of the strike," Governor Pinchot declared.

Any final settlement of differences would be subject to approval by a convention of union delegates from the three United Mine Workers' districts of the anthracite region. The assembling of such a convention would require at least a week, but President John L. Lewis and other miners' union officials are certain a tri-district meeting would accept any agreement finally agreed to.

### Accept Increase.

Governor Pinchot's announcement that the miners union representatives had agreed to take a 10 per cent wage increase and abandon their demand for "check-off" collection of union dues came at the end of a brief session in which he met again members of the operators' policy committee and the union officials. The operators left the capital without letting the decision be known, but Mr. Lewis and the governor remained in the office together to tell what had taken place.

### Success Announced.

"It is with keenest satisfaction that I am authorized to announce that both miners and operators have now agreed upon the four-points of the basis of settlement tendered them, as those points were interpreted in the supplementary statements issued yesterday," the governor told the assembled newspaper men.

"In making this announcement I desire to call particular attention to the spirit of fairness and forbearance on the part of both miners and operators"

(Continued From Page Four.)

## Urge Coolidge as Standard Bearer for Republicans

### Two Active Harding Men Give Opinions on What May Happen in 1924 Election

WASHINGTON, Sept. 7 (AP)—The first indication of the probable lineup of the Harding republicans of Ohio in next year's campaign was given today when two of the men who were active in the Harding pre-convention campaign in Ohio in 1920 issued statements discussing what may happen in 1924.

Senator Frank B. Willis, who made the opening speech for Mr. Harding at the Chicago convention, declared flatly that he favored keeping President Coolidge in the White House.

Fred Starck, a director of the war finance corporation and an intimate friend and political adviser of Mr. Harding, said that if Mr. Coolidge becomes a candidate next year "it will be by reason of his own acts in the interim." He added that to denounce the president as a candidate now was unfair to him.

The two statements were the first regarding 1924 to be made since Mr. Harding's death by any of those in the group who made the successful fight for his nomination. There are indications, however, that other developments might follow shortly which would determine in large measure whether the Harding organization is to remain intact in the coming pre-convention campaign and whether its strength will be thrown to Mr. Coolidge.

## Life of Woman in Casket Is Saved By Alert Mourner

MONTREAL, Sept. 7 (AP)—A mourner at the funeral of Mme. Elise Laflamme of St. Jean Baptiste de Rouville today probably saved the aged woman from burial alive by calling attention to the fact that rigor mortis had not set in. Doctors were hastily summoned, the funeral cancelled and the undertaker dismissed.

The doctors had Madame Laflamme taken from her casket and put to bed for treatment as a suspected case of cataleptic lethargy, which, they said, might give her the appearance of death for several days.

## BELIEVE GIRL'S SLAYER FOUND

### Los Angeles Police Suspect Extensive Plot to Defraud Women of Money

LOS ANGELES, Sept. 7 (AP)—A man giving his name as A. E. Woods, but who department of justice agents believe is Dr. P. V. Allen, wanted in Seattle on a charge of murder growing out of the death by poison in July, 1916, of Anna Danielson, wealthy Minneapolis girl with whom he had gone through the form of a marriage ceremony shortly before, was arrested by the police here today and turned over to federal authorities.

Woods could not give a satisfactory account of his activities during the past seven years, according to federal officers, but admitted that he had been in Seattle several years ago.

Among his efforts was found a loose leaf notebook containing several names of women's names and addresses, followed by estimates of their wealth or possible wealth in the future, which officers alleged was used by Woods as a list of prospects eligible for snatching of their fortunes by one means or another.

Various states, among them Arizona and Iowa, were represented in the list, though most of the alleged "prospects" were Los Angeles, Pasadena or Ventura, Cal., women. Woods is sought by federal authorities in Minneapolis according to Leon Bone, chief investigator of the department of justice here.

## KLAN OFFICIAL AND GOVERNOR CROSS SWORDS

### Oklahoma Threatened with Martial Rule as Fight Grows Bitter Following Assaults; Will Pardon Those Convicted

OKLAHOMA CITY, Okla., Sept. 7 (AP)—The state of Oklahoma was threatened with martial law today by Governor J. C. Walton, coincident with a challenge thrown to him that he would never be able to "break the power of the Ku Klux Klan in Oklahoma."

Charging that the drive being conducted by the executive in Tulsa county against mob floggers was inspired by Walton's desire to make himself "a national figure," N. W. Jewett, grand dragon of the realm of the klan, declared that the governor "would like to drop the iron that has grown too hot for him to hold if he could."

"Jack Walton cares nothing for the men that have been whipped; his fight is on the klan," Jewett asserted.

### Governor Answers

Voicing his unshaken determination to restore the supremacy of the law in this state, the governor said: "I realize that the conflict with the lawless element and lawless spirit of large groups of Oklahoma's citizens is a desperate one; that my enemies will use every weapon at their command, including the press where they can command it, grand juries and other agencies, to defeat the purpose of this administration."

### Launches Attack

In a bitter attack on the executive, Grand Dragon Jewett charged "Jack Walton entered the kitchen of the klan, but he never got any further, and that is one of the principal causes of the fight on the klan."

Jewett alleged that Walton had been "obligated" in the klan at the capital by Minor Merriweather, formerly a klanist at Muskogee, adding "that is as far as he ever got."

The Oklahoma city organization rejected the governor, Jewett charged.

Answering allegations from the gov.

## AMERICANS ARE NOT FOUND WANTING IN RELIEF DRIVE

### ORDER BEING RESTORED IN JAPAN AS GOVERNMENT TAKES CHARGE Campaign for Fund of \$5,000,000 Gains Rapid Headway, Nearly Half Being Now Subscribed; Alleged Korean Revolt Inter-cepted; Believe Most of Foreigners Safe

WASHINGTON, Sept. 7.—America continued today to pour-out in generous measure funds for the relief of stricken Japan. Reports received at national headquarters of the American Red Cross late today showed \$2,246,000, or nearly half of the minimum fund of \$5,000,000 which is sought.

The personal check of President Coolidge for \$100 was among the receipts of the Washington office.

For nearly an hour today the president discussed with the cabinet measures of relief and it was announced officially that co-ordination of all relief measures in this country under the direction of the American Red Cross would be undertaken.

Actual relief work in Japan will be in the hands of the Japanese Red Cross to which the supplies being shipped from this country will be delivered. American doctors and relief workers are en route for Japan and they will co-operate with the Japanese should their services be required.

### Need Every Assistance.

After the cabinet meeting an administration spokesman emphasized that the American government would put its resources at the disposal of the Japanese, realizing that they are perfectly competent to direct the relief work. This same spokesman said the best information now available is that Japan will need all of the assistance that can be given.

It is estimated that the temporary relief of \$10,000,000 a month will be required for several months, this sum to be contributed by the nations of the world.

The cost of permanent restoration of the stricken areas is not being taken into consideration, it was said, the thing now in mind being the relief of the sufferers through the providing of clothing, food and shelter. All steamers carrying shipments will have aboard timber and other building materials.

## PREDICT PEACE PLAN TO MEET ITALY'S FAVOR

### Note Sent to Greece by Ambassadors Meets Approval of Italian Delegate, Who Sees Possibility of Agreement

PARIS, Sept. 7 (AP)—The council of ambassadors sent a note to the Greek government today embodying proposals for the settlement of the Greco-Italian controversy. The proposals somewhat modify the demands made on Greece by Premier Mussolini. While they have not been officially disclosed, it is understood they contain the following terms:

First, the Greek fleet to pay honor to the Italian naval squadron at Piræus, which shall be accompanied by a British and a French warship; the Greek fleet saluting the inter-allied flags with 21 guns; the inter-allied ships to enter port without saluting.

### Demand Memorial.

Second, a memorial service to be held in the Catholic church, attended by all the members of the Greek government. During the service the ships in the harbor will fly their flags at halfmast.

Third, military honors to be paid when the bodies of the victims are placed on board ship.

Fourth, Greece to deposit the sum of 50,000,000 lire as a guarantee for the payment she may be called upon to make.

Fifth, an international commission, presided over by a Japanese, shall control the Greek investigation.

### Receive Endorsement.

The text, which was sent to the Greek government at Athens, received the endorsement of the allied representatives, but beyond saying "the council has reached an important, perhaps decisive, stage in the settlement of the conflict," no information with an official stamp was available.

Baron Avezzano, the Italian ambassador, made no pretense of hiding his satisfaction as he left the meeting this evening. He told the Italian correspondents that the decision likely would find favor in Rome. Questioned as to what welcome the note would receive at Athens, the ambassador replied that it was not for him to say. But the general impression among the other members of the council was that Greece will obey the instructions which it can do without loss of prestige as would have been the case had the Italian ultimatum been accepted.

It is understood that the council decided to appoint a committee to investigate the murders of the Italian members of the commission which will be headed by a Japanese. The question of indemnity, it is understood, will be held in abeyance until this report be made to the ambassadors council, provided that Greece maintains its offer to deposit 50,000,000 lire as security for paying the amount the council fixes.

## Gooding Selected as Scene of 1924 Church Conference

### Representatives at Baker City Meeting Also Elect Delegates to Sessions at Boston.

BAKER, Ore., Sept. 7 (AP)—Selection of Gooding, Idaho, as the next annual convention city and election of lay and general delegates to the general conference to the Methodist Episcopal church, which will be held in Boston, in the spring of 1924, marked today's work of the fourth Idaho conference of the church here.

W. W. Evans and Hans J. Ross of Boise, Idaho, were elected as lay delegates to attend the general conference, while C. W. Kearney, president of Gooding college, and the Rev. H. H. Hamilton of Postville, were named as general delegates. Alternates as lay delegates are C. T. Botsford of Gooding, and the Rev. I. R. Aldrich, superintendent of the La Grande district, chosen general lay delegates.

Tonight's program was featured by the conference banquet of Gooding, 1923.

### AIR MAIL PILOT KILLED IN OHIO

CLEVELAND, Sept. 7 (AP)—Thompson of Elyria, Ill., was killed when his plane forced landing near Napoleon today, according to word received from the United States air mail.

# TOKIO EXTENDS FUNDS FOR AID TO SURVIVORS

## Government Opens Its Purse Strings to Relieve Suffering; Missionaries Safe

NAGASAKI, Sept. 7 (AP)—The work of relief in the earthquake zone is proceeding vigorously. The Tokio government is prepared to extend funds from its reserves without restriction for the purchase of provisions. The entire stock of army and navy tents has been placed at the disposal of the homeless pending completion of barracks which are under construction. Banks have resumed business and are paying out notes not to exceed 100 yen to a person. The vice governor of the Bank of Japan has returned to Tokio and announces resumption of business. The specie held in the head office, amounting to 1,050,000,000 yen, and the deposits amounting to 2,320,000,000 yen, are intact. A British naval wireless dispatch gives the names of about 30 Englishmen, ten women and a number of children killed in Yokohama and vicinity.

**MISSIONARIES SAFE**  
NEW YORK, Sept. 7 (AP)—All Presbyterian missionaries in Japan are safe, according to a message received today by the church's board of foreign missions from Karuzawa.

**ELKS URGED TO AID**  
WATERTOWN, N. D., Sept. 7 (AP)—Members of the Benevolent and Protective Order of Elks everywhere are urged to contribute to this fund for relief in the Japanese earthquake region in a special message issued here today by James G. McFarland, grand exalted ruler.

**LOST IN CRASH**  
KOBE, Sept. 7 (AP)—A member of the American consul at Yokohama who arrived here today said that A. Gasco, the Italian consul, four Russian women, two girls and a Japanese clerk were crushed to death there when the consulate collapsed.

**FRIEST KILLED**  
NEW YORK, Sept. 7 (AP)—One Catholic priest and four nuns were killed by the earthquake in Yokohama, according to dispatches received today by Right Rev. Monaghan Freil, general director for the Society for the Propagation of the Faith.

**MINISTER ESCAPES**  
OSAKA, Sept. 7 (AP)—The Brazilian minister to Japan, his wife, and the Mexican minister, are safe.

**PLANES CARRY FOOD**  
MOSCOW, Sept. 7 (AP)—Dispatches from Vladivostok to the Pravda say army aeroplanes are carrying tons of rice from Osaka to the Tokio district. They also report that Odawara, the famous resort, suffered great destruction and that there was large loss of life there from tidal waves.

**WIRES TAKEN OVER**  
NEW YORK, Sept. 7 (AP)—The Radio Corporation of America announced today that due to the Japanese government having taken over wires in the vicinity of Tokio and Yokohama for urgent relief work, it could not accept messages for that territory but that messages for other parts of Japan would be received at the sender's risk. The Commercial Cable company stated that it was accepting messages for transportation to Japan at the sender's risk.

**Coal in Consumption.**  
Carbon is the preponderating element of coal, and in order to burn one pound of pure carbon there is required 11.5 pounds of pure air. Imagine a column of air one inch square extending 40 miles into the sky and you will have a good idea of the amount of air required to burn a single pound of coal. A pound of coal would occupy a cell one-one-half inch square and only three feet high.

**The Classic Butcher.**  
"Merely a lapidus linguist said the meat man as he picked up the tongue that had slipped from his hands.—New Haven Evening Register.

## MCGRARY IN COMMAND OF NAVY DIRIGIBLE

Commander F. E. McGrary

COMMANDER F. E. MCGRARY, U. S. Navy, is in command of the Zepplin Rigid No. 1 (ZR-1), world's largest dirigible balloon, just completed for the navy at Lakehurst, New Jersey.

## \$100,000 STATUE BRINGS \$50

Italian Farmer Who Found Marble Torso of a Venus First Sold It for \$5.

The history of some pieces of marble which were found buried in a field at Sinnessa, near Naples, in ancient days of a Greek colony, has formed the subject of a long-drawn-out law case in which the government has at length secured an important verdict. The fragments were apparently of no particular value and the farmer sold them for \$5. They were on their way to the new purchaser when the government director of antiquities, Professor Spinazzola, ordered him to return them to Naples for examination. The professor, having looked at them, exercised his powers of compulsory purchase and bought the fragments for \$50. Under his direction they were cleaned and put together, when they appeared as the torso of a beautiful Venus, undoubtedly by the hand of Praxiteles (the greatest of the Attic sculptors of the Fourth century B. C.) and worth about \$100,000. The farmer sued the government for half the value of the find, and after gaining a verdict in two courts lost his case when the government took it to the court of appeals. The statue is now one of the most precious possessions of the Naples National museum.

**Schubert Family Quartet.**  
Schubert enjoyed the privilege of having a string quartet in his own family, in which he played viola, his brother Ferdinand first violin, Ignaz the second violin, the father the cello. Schubert's father was none too accurate in his playing in the family quartet. When he made a blunder the son would carefully examine the manuscript and say "Dear father, there must be a mistake in the music somewhere."

**Coal Waits in Uncovered Pipes.**  
It is estimated that a ton of coal a year is wasted by each uninsulated hot-water tank in use in American homes. Greater economy is possible if all hot-water and hot-air pipes be insulated, preventing about four-fifths of this loss.

# PEACE PROJECT WOULD RECEIVE GERMAN SUPPORT

## Proposals Coming from Stresemann Favored by Prominent Manufacturer as Means of Ending Ruhr Deadlock

ESSEN, Sept. 7 (AP)—If the government of Chancellor Stresemann decides to make direct overtures to France and Belgium to end the Ruhr deadlock, regardless of what Great Britain does, it will have the support of an overwhelming proportion of the industrial leaders and of the German population generally, provided German sovereignty in the occupied territories is guaranteed.

This opinion was expressed to the correspondent of the Associated Press today by a prominent manufacturer, who requested that "for obvious reasons" his name be not mentioned. The manufacturer declared that there was no use in hiding the fact that everybody felt it was time to begin to do everything possible to bring to an end an impossible economic situation.

**Would Talk Settlement**  
"We are ready," said the manufacturer, "to discuss any sort of settlement which would leave each side with a reasonable amount of honor. Most of the manufacturers and heads of industry see there is no use of further counting on Great Britain. We must realize that if Germany, France and Belgium could throw away pride and come to reason we could reach an accord that would be best for all concerned."

"For our part, we are willing to meet them half way," the manufacturer said the more

level heads on both sides were beginning to realize that the present situation could not last without great loss to both sides and intolerable suffering by the population. He added frankly that it was because the German thought if the endurance test was continued, France undoubtedly could force terms that the German leaders wanted to begin to talk business.

**France Still Powerful**  
"France apparently is all powerful," he said, "and eventually could bring us to our knees; but would she or we gain anything, materially or morally, by going to such an extremity? We still believe that the continued passive resistance would keep France and Belgium forever from putting the Ruhr industries on a paying basis; but we quite realize that France and Belgium could prevent us from restoring our industries to a point where they would pay."

**In Death Grip**  
"In the Ruhr each side has the other by the throat, and neither would be able to breathe until the other lets go."

The manufacturer thought there was a time when Great Britain's formula for a settlement might have been efficacious if it had been tried boldly; but that time now has passed. He believed Great Britain did not dare to try to carry out her program. "There was a time," he declared, "when every time the prime minister of Great Britain frowned every body else shivered. But that time also has passed."

**Debt Should Be Faced**  
Two prerequisites to a settlement of the controversy in the belief of this representative of industry were restoration of occupied territory to complete sovereignty and fixing, once for all time, the definite amount Germany must pay. "The main thing," he said, "is that conciliation is in the air, if France and Belgium want to make a bargain with us to restore European civilization on a real partnership basis."

The News is read by the permanent earning class.

## Church Services

**First Christian Church.**  
William Willis Burks, Pastor.  
A "Go-Away-to-College" service will be observed at 10:45 o'clock, hour just before Bible school. Rally day exercises by the supply pastor, Francis L. Cook of Kuna in the Boise valley. His subject in the evening is "The Guiding Hand of God."  
Rally for the Bible school at 9:45 a. m., every following all day. Every Christian Endeavor society will be in session at its stated hour.

**First Church of Christ Scientist.**  
160 Ninth Avenue East.  
Sunday service 11 a. m.; lesson sermon, "Man."  
Sunday school 10 a. m. for pupils under 20 years of age.  
Testimonial meeting on Wednesday evening at 8 o'clock.

**Ascension Episcopal Church.**  
Services for the fifteenth Sunday after Trinity:  
8 a. m., Holy Communion.  
9:45 a. m., Sunday school.  
11 a. m., Morning prayer and sermon.

**Lutheran Church.**  
564 Third Avenue West.  
John Gilring, Pastor.  
Sunday school, 9:45 a. m.  
Morning worship, 10:30 a. m.; text, Joh. 9:1-7.  
Evening service, 8 p. m.; text, James 4:5-10. Topic, "Submit Yourselves to God."  
The Walther league meets next Wednesday at 8 p. m.

**Twin Falls Mission.**  
230 Third Avenue East.  
J. M. Cloe, Pastor.  
Sunday school, 10 a. m.; classes for all, Mrs. Ida M. Porterfield, superintendent.

Sunday worship and sermon, 11 a. m.; evening praise and testimony, 7:30, sermon, 8 o'clock.  
Midweek meetings on Tuesday and Thursday at 7:30.

**Figures Show Country's Growth.**  
A single New York city bank of today carries deposits equaling more than twenty-one times the total deposits in all the city's banks in 1847. The deposits in New York banks in the year 1847 totaled \$28,000,000. These banks carried \$1,000,000 of specie and had a circulation of about \$7,000,000.

**Masculine Person Bedecked.**  
In the earliest civilization men of wealth and position decorated themselves all they could. Tut-Ankh-Amen's gem-studded sandals of pure gold were by no means unique; on the contrary, they were merely fair samples of the kind of footgear every Egyptian king sported as a matter of course, and the nobles of Egypt, Babylon, Assyria, Media, Persia, Lydia and Etruria indulged themselves with all the adornments their artisans could produce, as far as they could afford them.

**Again the Malady of Youth.**  
Our recent note on James Russell Lowell's confession of "incurable childhood" has led a correspondent to send us the following quotation from the letters of Franklin K. Lane: "Although an 'aged man,' as I was once described in my hearing, I am 'the youngest thing inside that I know, in my curiosity and my truthfulness and my imagination and my desire to help and my belief in goodness and justice.'"—Boston Transcript.

**Modest Prayer.**  
A small Brookline youngster whose new suit arrived on Friday added to his prayer that night, "Please, God, make tomorrow Sunday; don't mind Saturday this week."—Boston Transcript.

ROLL YOUR OWN WITH THE CRACK PIPE ALONG

# What's in a Name?

Times have changed since the Bard of Avon put his famous query, "What's in a name?" In Shakespeare's day the most successful merchant was the biggest skinflint. His name meant nothing. You entered his shop with your eyes open and your fingers crossed. You haggled and you bargained. And if you were especially astute, perhaps you retained your eye teeth.

Modern business ideals and modern advertising have wrought the change. Today, the biggest asset of any successful business is a good name built up through fair dealing, fair policies and a good product.

Advertising creates reputation. Makers of advertised products and the merchants who sell these products frequently value the names at millions of dollars. They cannot afford to jeopardize the worth of these names by selling anything but good merchandise of full measure and fair price.

A merchant or manufacturer does not dare to advertise wares that will not give service. He has his good name to protect.

Bank on this. *Advertised goods must be as advertised.* That's why it pays to deal with advertisers and to buy advertised goods.

*Advertising is your protection. Read it.*

# TODAY'S SPORTING NEWS

## DEMPSEY SEEMS IN FINE SHAPE

### Begins Tapering-Off Process; Displays Everything Needed to Defend Crown

SARATOGA SPRINGS, N. Y., Sept. 7 (AP)—The tapering-off process in Jack Dempsey's training grid started today when the world's heavyweight champion boxed six rounds with light sparring partners to develop speed and show his judgment of distance. The champion appeared to be drawn to razor-edged physical perfection, working with all of the dash and speed of a lightweight. When he finished with his sparring partners Dempsey's breathing was normal. He worked out before several cameras who invaded the camp after watching Luis Angel Firpo in action at Atlantic City. Dempsey's speed, they said, was amazing, compared to the movements of the giant St. Louis American.

**Shows Speed**  
The champion displayed his speed most impressively while engaging Alex Trambilla, a Portland, Ore., middleweight, and Billy DeFoe, a featherweight of St. Paul. DeFoe, lashing out with lightning lefts, carried Dempsey at top speed, but found it difficult to lay a glove on the champion. Trambilla ripped into Dempsey from the start, shooting blows from every angle, but Dempsey stopped most of them with his gloves or forearms. The champion held his punches in check while boxing Trambilla, and when Ray Newman, the Jersey City lightweight, received a severe punning. Newman, weighing 175 pounds, was the heaviest man to face the champion today. Dempsey jolted him a dozen times with short rights to the chin, or a left hook that traveled to his mark with the speed of a shot. Newman, driven into the ropes once with a right and left to the jaw, was groggy for an instant.

**In High Spirits**  
Dempsey was in such high spirits that he injected a little comedy into the workout at the expense of Billy Lyons, of Deaver, Colo., a warm friend of the champion. Lyons refereed the bouts in the absence of Jack Kearns, and Dempsey amused him by playfully slamming Lyons across the face with backhand punches while Lyons was attempting to break up the clinches. The champion favored his left hand in the bag punching, shadow boxing and work with the gloves, indicating to the experts that he expects this weapon to be his most dangerous against Firpo.

**Meets Firpo Experts**  
Before dressing for the workout, Dempsey spent a half hour talking on the front porch of his cottage with the experts who have watched Firpo. The title holder appeared to be anxious to get every scrap of information possible and filled them with all sorts of questions concerning his opponent's style. Told that he probably would have very little trouble with Firpo, Dempsey replied: "That's what they all say. The only time a challenger isn't dangerous is when he's on the floor. I'm going to be ready for Mr. Firpo."

## REDS DIVIDE DOUBLE BILL

### Take Second, Drop First, to St. Louis; Giants Lose Game to Philadelphia

St. Louis, Sept. 7 (AP)—St. Louis divided a double bill, with Cincinnati today, taking the first contest, 5 to 1, and losing the second, 8 to 5. In the second game Hornoy got his sixteenth and seventeenth home runs of the season. The first homer was in the first inning with none on and the second in the eighth with Pitek and Blades on. The visitors' errors allowed the home team to take the lead in the ninth, however, and duplicated their rally of the eighth inning by running up three more tallies. The locals' errors allowed the Reds to take the lead in the eighth. Cincinnati won 5 to 1. St. Louis won 8 to 5. Batteries—Donahue, McQuade and Wagner; Stuart and McCurdy.

## PIRATE PITCHERS WEAK

PITTSBURGH, Sept. 7 (AP)—Chicago knocked Adams and Bagby out of the box in the first inning and defeated Pittsburgh, today, 6 to 4, scoring all of their runs in that inning. Steiner went into the box with none out and two men on bases and stepped further scoring. Keen weakened in the fifth inning and yielded three runs on three hits and two walks. The Pirates added another in the eighth but were unable to overcome the Cubs' early lead. Score: R. H. E. Chicago 6 9 1 Pittsburgh 4 8 2 Batteries—Keen and O'Farrell; Adams, Bagby, Steiner and Gooch.

## BOSTON 11, BROOKLYN 3

BOSTON, Sept. 7 (AP)—Boston battered Vance savagely today, defeating Brooklyn, 11 to 3. In the second inning R. Smith's single scored two runs, the second of which rebounded a protest by Brooklyn, the visitors, claiming that Ford ran out of the line to escape Catcher Taylor who had the ball. R. Smith went to second on the throw home and stole third and home while the players argued with umpire O'Day around the home plate. After that the game became a rout. Score: R. H. E. Brooklyn 3 7 0 Boston 11 17 2 Batteries—Vance, Decatur and Taylor; Barnes and E. Smith.

## GIANTS LOSE ONE

NEW YORK, Sept. 7 (AP)—Philadelphia defeated the New York Giants here today, 10 to 6. After Stengel's home run with Meusel on base tied the score in the sixth, the Phillies knocked Watson out of the box in the seventh, scoring three runs on five hits. Williams hit his thirty-fourth home run while the season with Ring on base in the third inning. Again putting him one ahead of Ruth. Score: R. H. E. Philadelphia 10 19 0 New York 6 12 3 Batteries—Ring and Wilson; Watson, Barnes, Joannard and Gowdy; Snyder.

**Chances of Longevity.**  
Dr. Eugene Lyman Pisk, diagnostician and author, says, "The 'average' person does not stand the best chance of living long. The man or woman who weighs 20 or 30 per cent below the average has the best chance for long life. It is safe to say the average individual reaches the ideal build at thirty. If he can keep near that build for the rest of his life, he increases his chances of longevity."

## EHMKE PITCHES SHUT-OUT GAME

### Athletics Again Victims of No-Hit Game; Detroit and Chicago Are Winners

PHILADELPHIA, Sept. 7 (AP)—Howard Ehmke pitched for the second no-hit, no-run game pitched in this city during the week when he shut out the Athletics today, 4 to 0. The game was similar to the performance of Sam Jones of the Yankees last Tuesday, in that one man walked and one reached first on an error.

In the sixth inning Bryan Harris, who opposed Ehmke on the mound, had a chance to spoil his rival's record but was out on a long drive for not touching first base. Then in the eighth when it seemed that Ehmke would surely reach his goal, Welch hit a liner to left. Monosky reached the ball but fumbled it sufficiently for Welch to reach first. At first it was recorded as a single, but before the inning was concluded the official scorer ruled that Monosky had committed an error. Twenty-eight men faced Ehmke. Harrow drew a pass and was forced at second by Miller. A double play ensued, Miller from the paths and Welch was the only man left on the paths during the contest. Score: R. H. E. Detroit 0 0 1 Philadelphia 4 0 1 Batteries—Ehmke and Pielich; B. Harris and Perkins.

## PITCHING INEFFECTIVE

CLEVELAND, Sept. 7 (AP)—Detroit defeated Cleveland today, 11 to 9, in the first game of the series which may determine possession of second place. The contest was characterized by ineffectual pitching, particularly by Ulin and Daus, who started the game, and by Boone and Francis, relief pitchers. Police were summoned to stop a fight on the Detroit bench after manager Cobb had yanked Francis from the box. Score: R. H. E. Detroit 11 10 1 Cleveland 9 15 1 Batteries—Daus, Francis, Cole, Holmway and Basler; Ulin, Morton, Boone, Smith and O'Neill.

## SHOCKER HIT HARD

CHICAGO, Sept. 7 (AP)—Chicago hit Urban Shocker hard today and easily defeated St. Louis, 7 to 2, in the first game of the series. Mike Cvenogros kept the visitors' hits scattered and was given perfect support, the fielding of Kamm being especially noteworthy. Score: R. H. E. St. Louis 2 7 0 Chicago 7 8 0 Batteries—Shocker, Root and P. Collins; Cvenogros and Reichak.

## STAR BATSMAN IS BOUGHT

Moses Solomon, first baseman for Hutchinson Club, Joins New York Giants; Big Price Reported Paid  
NEW YORK, Sept. 6 (AP)—The New York Giants today announced the purchase of Moses Solomon, first baseman and star batsman of the Hutchinson, Kansas, club of the Southwestern league. Solomon is the home run king of his league, having a record of 43 circuit clouts in 143 games this season. The New York club did not reveal the purchase price, but according to James T. Tierney, secretary, it was nearly as high as that paid for Jack Bentley and Jimmy O'Connell, each of whom cost the world's champion's about \$125,000.

**To Polish Silver.**  
If a quantity of silver is to be cleaned try this method: Mix sweet oil and whiteing to a smooth, creamy paste. Apply with a dannel cloth. Allow it to stand until dry. Polish first with cotton dannel, then with chamola. This method will not cut or injure the silver plating.

## RARE SLAMS OUT

**TWO HOME RUNS**  
YORK, Pa., Sept. 7 (AP)—"Babe" Ruth hit two home runs in an exhibition game between the New York Americans and the York club of the New York-Pennsylvania league, which the former won here today, 10 to 4.

## MOVIES RECORD ANGEL IN RING

### South American Boxes Several Partners for Picture Men; Appears Confident

ATLANTIC CITY, N. J., Sept. 7 (AP)—Wearing his broadest smile, clothed in his finest ring togs and feeling chipper after his day of rest, Luis Angel Firpo welcomed two new sparring partners to his camp today with careering, low-powered punches. Luis Angel was not bothered much about the workout, being most particular to do what the men of the movie camera, for the first time on the job, desired.

John Lester Johnson, a New York negro heavyweight who broke three of Jack Dempsey's ribs some years ago, when Jack, then "just a fighter," made his first bow in New York, was in the first mix-up with Luis. John Lester made the South American step around some. Young Bob Fitzsimmons, browned and in excellent physical condition at 185 pounds, was next before the movie cameras with Firpo. They sparred two rounds. Bob was hard to hit, but was hit. Firpo was not hit enough to bother him. Joe McGinn boxed two rounds and the session ended in a round with Frank Koebel. Altogether it was the fastest sparring period the Argentine had had.

Buddy Jackson, negro heavyweight, arrived in camp ready for work. He was told he might get into the punch-slower Monday. Jeff Clerk, the "Joplin ghost," reported for work, too. Just before the sparring began, Firpo registered great strength for the cameras by tearing the punching bag from its moorings with a left hook and sending it into the crowd.

**Remedy for Curl in Rugs.**  
The curling up of the edges of rugs is caused by the way in which they are woven. A remedy for this is to take two strips of very thin wool, each about three inches long, and sew on the underneath part of the rug at the corners. Let these remain for about a month, when the rugs will have conformed to the floors. Or rubber corner tips may be purchased in a furniture store.

## DECISION RESERVED IN DEMAND FOR INJUNCTION

### Court Takes Position to Stop Heavyweight Battle Under Consideration; Rickard May Lose Cash

NEW YORK, Sept. 7 (AP)—Supreme Court Justice Hugrady late today reserved decision in the action brought by Harry Wills, negro, heavyweight contender, seeking an injunction against the Firpo-Dempsey fight at the Polo grounds, September 14. Wills claims a prior right to box Dempsey for the heavyweight title.

Attorney William Klein, representing Wills, declared the state boxing commission had acted in "arbitrary manner," and had not given Wills a fair opportunity to meet Dempsey. Representatives of the commission stated that no complaint alleging injustice had been lodged before them by Wills.

Counsel for Promoter Tex Rickard declared that he had spent \$20,000 in preparation for the bout between Dempsey and Firpo and that if the fight did not take place he would lose \$50,000.

## Useful Walking Stick.

A curious custom obtains in some portions of Spain in regard to some trousers. A young man who looks with favor upon a beautiful woman, and wishes to gain her hand, calls on the parents for three successive days, at the same hour of the day. At the last call he leaves his walking stick and if he is to win the desired bride the cane is handed to him when he calls again.

## A Dud is Always a Dud.

You can take it from me, romantic writers notwithstanding—matrimony possesses no alchemy to transmute a dud fellow—a rake, a cad, or any other human throw-out, into a husband who will thereafter acquit himself like a more reasonable human being.—From "Through the Glad Eyes of a Woman," by Jane Doe.

For Latest Improved Methods of Cylinder and Crankshaft Grinding See LAWRENCE MACHINE WORKS 121 Third Ave. West Phone 73

**Ice and Water.**  
When two molecules of water combine to make one molecule of ice, half of their free electrons enter into the new molecule to hold it together. Their grip is not strong, which accounts for the ease with which ice melts. The other half of the electrons remain in the external field, and give ice the power to combine directly with a few strong chemicals.

**Burglars Fear Barking Dogs.**  
A dog that will bark at an intruder is of more use than a powerful fighter, for a burglar's nerves when he is "on duty" are necessarily taut and the last thing on earth that Mr. Sykes wishes to encounter is a noise or fight. A dog that barks at burglars are worth their weight in gold if they are placed in a good tactical position overnight.

**To Make Hot Water Better Stay Hot.**  
To fill a hot-water bottle for an invalid, fill it half full and lay the bottle flat, holding the mouth up until water appears in the neck of the bottle. Then screw in the stopper, thus excluding the air. The bottle will be soft and the water will keep hot longer.—Designer.

**Cleaning Sewing Machine.**  
Use sewing machine oil on a soft cloth to clean the wood parts of a sewing machine. It appears as if polishing also keeps the finish from cracking and makes it look like new. Or any good furniture polish will do.

Today's Sporting News

PUBLISHERS ARE DEFENDANTS IN DAMAGE ACTION

Cincinnati National Players Seek \$50,000 Each from Sports Paper for Report of Alleged Offer

CHICAGO, Sept. 7 (AP)—Outfielder Pat Duncan and infielder Sammy Bohne of the Cincinnati Nationals, filed suit in United States district court today for damages of \$50,000 each against Collier's Publishing company, owners of Collier's Eye, a sports weekly. They asserted they had been damaged to that extent by a story in the weekly that they had been approached by gamblers and offered \$15,000 each to throw games to the New York Nationals.

The complaint charged in their petition that the publishing company "wickedly, recklessly and maliciously" published the charges which were characterized as "scandalous, false, malicious and defamatory, libel." The plea averred that the article referred to was intended to destroy the good name, reputation and credit of the players in their profession.

Charge Serious Damage. As a matter of fact, the players charge their standing and reputation with the Cincinnati baseball club and with all other baseball clubs and the public, has been impaired and their opportunity for employment in the future damaged.

The article in question, printed on August 18, is reproduced in the plea. It charged that the complainants, and possibly a third player, had been approached by agents of certain gamblers and offered \$15,000 each to throw certain games to New York, then in the lead in the league. Ben Johnson, president of the American league, the article said, was making an investigation, adding that all trails led to a certain New York real estate office where the agents were alleged to receive their instructions.

Did Not Accept. The article said there was no direct evidence that the two players named had accepted the alleged offers of money and then called attention to the playing of the two men which the article said had not been up to the standard they had maintained earlier in the season.

The story was investigated by league officials, who denied it as did the players themselves. Today's suits are understood to be the answer of the Cincinnati club and the league itself to the charges, although neither the club nor the league are mentioned in the action as parties to the suits.

KLAN OFFICIALS

(Continued from Page One)

error's office that only the klan has been found responsible for the Tulsa county flopping. Jewett said that the klan repudiated the few "weaklings" of its membership, who had become involved in masked violence. "The klan has ever advocated enforcement of the law," he said.

"Shoot to Kill". In line with Governor Walton's advice to citizens to arm and "shoot to kill" when attacked by mobs, state police commissions were issued today to several Comanche county farmers, according to Aldrich Blake, the governor's counselor.

"Persons who have been threatened by mob violence will be given commissions to protect themselves," said Blake.

Garrity on Mound For Local Tossers

Stellar High School Player to Oppose Strong North Side Team in Sunday Game Here

Chronce ("Moosa") Garrity will do the twirling honors for the local ball tossers next Sunday when they meet the combined Shoshone and Jerome teams, according to an announcement by Manager Brown today. Garrity has been pitching in the western part of the state all summer and is in tip-top form. It will like old times to see "Moosa" back on the mound. Otherwise the local team will use the same line-up usual and in all probability this will be the last game for Scelley and Kieffer.

Dope from the North Side has it that the Shoshone team will be practically the same team as won the state honors from Emmet last week. There will be some changes in the line-up, but dopesters seem to think it will be at least as strong a team as crossed bats with Emmett.

The game Sunday will start at 3 p. m.

PROCEED TOWARD

(Continued from page one)

with which my efforts, to reach a settlement have been met.

Mr. Lewis followed him in a brief address:

"In acquiescing to the four basic points of Governor Pinchot's proposal, the representatives of the mine workers have been fully conscious of the public interest. The mine workers prepared to fight to the finish with the anthracite operators and had every reason to believe that the end of such a contest would have brought fulfillment of their major demands.

"We have, however, the natural desire that goes with good citizenship to obviate the public embarrassment and discomfort and inevitable suffering that would accompany a conflict between forces of such magnitude.

"We have informed the governor of our willingness to meet the operators, and negotiate terms of agreement for a new wage contract, which, when ratified by the mine workers will mean a prompt termination of the pending suspension. Governor Pinchot is entitled to the praise of the American people for the diligent and capable manner in which he has leveraged himself to the solution of a tremendous problem. The mine workers feel that all credit for the present happy termination of this unfortunate situation is due to him."

Mr. Lewis added that the union order for suspension of work still stood.

OPPOSE JOINING LEAGUE

Protest Filed with International Body Against Admission of "Falsely Described Irish Free State"

NEW YORK, Sept. 7 (AP)—A protest against admission to the league of nations, of that portion of the Irish nation falsely described as the Irish free state, has been lodged with the league by Mrs. Hanne Shuchter Skoffington, who is a Paris cable to the United Irish World.

Great Britain is attempting to force the admission of the free state to the league to secure one more British vote and another false argument against the American objection from the league, the protest declared.

France the Pioneer. The first governmental employment bureau originated in France. In 1848 one such bureau was established in each of the multiples of Paris. The first agency of the kind in England was opened in 1855, and the first in this country in Ohio five years later.

AMERICANS ARE NOT

(Continued from Page One)

ORDER RESTORED.

OSAKA, Sept. 5.—The situation at Tokio and Yokohama has begun to clear up, the government, through the army and police, taking charge and bringing order out of what seemed endless chaos. Two telegraph lines between Osaka and Tokio have been restored and the traffic between various stricken cities is improving rapidly.

The government has decided to erect immediately 15,000 shacks for the relief of earthquake sufferers whose homes were leveled. The rice supplies are already beginning to come in and the most needy refugees are being given their first ration. Owing to the shortage of gasoline, movement of automobiles and trucks has already stopped. The authorities are commanding gasoline wherever it is found. The emperor and empress, at their villa in Nikko, are being kept in close touch with the situation by means of radio-grams and messengers.

FOREIGN LOSS SMALL

LONDON, Sept. 7 (AP)—With communication between the devastated districts of Tokio and the southern Japanese, north of Kobe and Osaka, has been restored by airplane and road transport along the Takaido route and with the pick of Japan's well-trained army divisions, which have been converging on the ruined capital since Sunday, exerting discipline to restore order among the hundreds of thousands of homeless, news from the Japanese is giving some definite idea of the loss of foreign life. There are approximately 100 dead or reported missing, half of whom are British, but the Japanese government representatives here are still uninformed as to the number of Japanese who perished through the earthquake, fire and looting.

Casualty List Issued.

The foreign office tonight issued its first official list of the British killed and injured, the names being recalled by the British consul at Kobe. The list comprises 30 British subjects, who are reported on good authority to have lost their lives. Most of them were killed in Yokohama, which reports continue to indicate suffered more than Tokio.

The Kobe consul explained that the list of casualties was incomplete. Besides the dead it contains the names of a score of British missing and also the names of four members of the British embassy and consular staff whose whereabouts are unknown.

It seems fairly certain that the loss of life among the American residents in Tokio and Yokohama was small, but no reports have been received concerning the fate of tourists. From 500 to 1000 American globe-trotters are usually to be found in Yokohama hotels any day during the summer months, waiting for homeward boats or to start on tours through Japan. On Saturday afternoon the Yokohama shops remain open to accommodate curio buyers, and the hotels, clubs and wide bund fronting on the harbor would be crowded with visitors, who, not familiar with the narrow streets and not knowing the location of the few parks and open spaces in the city, had little chance to escape injury unless after the quake they sought refuge on ships in the harbor before the fires and explosions started.

The world-wide nature of the unprecedented disaster attracts attention, the United States leading in subscriptions and speed with which ships have been dispatched to Japan. Other nations, from soviet Russia to South Africa, are contributing generously. In Japan rigid orders have been promulgated against profiteering and other excesses likely to follow such a catastrophe.

Minimize Revolt Rumor

The premier has issued a public appeal to the population to exert its characteristic self-control, insisting that peaceful Koreans must be protected.

In Tokio General Fukuda has announced that even the extreme socialists, who had been harried by the police authorities in recent years, deserve protection and assistance as fellow countrymen. It is believed here that the reports of Korean disturbances in Tokio have been exaggerated; the accounts of armed risings are considered fantastic, for the only sort of revolt the Koreans ever started, even in their own country, have been half-hearted, non-cooperation demonstrations in Seoul.

INTERN 15,000 KOREANS

HONOLULU, Sept. 7 (AP)—Approximately 15,000 Koreans in Tokio have been rounded up and transferred to an internment camp at Narashino, 15 miles from Tokio, under an order issued by General Pucka, emergency commander of the Tokio earthquake area, according to radio advices received here today by the Hawaii Stampo, a Japanese language paper. The order, which is an emergency one, contemplates a general concentration of all Koreans who may be found in the zone of devastation. The Shimpo's correspondent said the Koreans were taking advantage of the existing confusion and disorder not only to set fire to fallen houses, but to loot such establishments and shops as may have escaped serious damage from the earthquake and fire.

Big Rebellion Alleged.

The activities of the Koreans the correspondent added, led to the discovery of a gigantic rebellion conspiracy and a plot to assassinate the Prince Regent on his wedding day, the assassination of members of the imperial family and high officials of the government, the wholesale murder of citizens and a program of widespread arson and looting. The bombing of sections of Tokio which escaped wrecking in the earthquake also was contemplated, the advices stated.

Royal Family to Move.

The emperor and the empress have decided not to return to Tokio but to go to Kyoto to reside temporarily. The prince regent also will go to Kyoto.

The citizens and authorities at Tokio are contemplating a rehabilitation program which will transform the razed areas into a modern city along European lines.

The Tokoku railroad, operating between Tokio and Sendai, resumed operations on September 3, and every train is crowded with refugees.

Enameling Long Practiced.

The art of enameling is a very ancient one, some claiming it originated with the Sycythians, who are said to have introduced it into China. Extant evidence exists that the ancient Egyptians, Phoenicians and Assyrians used enamel coating in the decoration of jewelry.

We repair and refinish furniture Phone 465.

COMMENTS HEARD AMONG TOURISTS

Automobile travelers are getting fewer each day, and soon will cease for this season. Most of the cars are driving from better living places from neighboring states, but New York and Pennsylvania are still in evidence. Many tourist park guests are looking for work and are finding it. There is a demand for fruit pickers, but the majority would rather find something that they are used to doing. Few are looking for homes in this section, but would rather work while looking around.

Mr. and Mrs. Harry Vine are on their way from Jamestown, N. Y., to Los Angeles via Seattle and Portland. They came through Yellowstone park.

Mr. and Mrs. C. B. Barber of Trenton, New Jersey, have been three weeks on the road taking in the sights. They report the Idaho roads as good as most, and better than the Wyoming trails.

Mr. and Mrs. A. L. Brown and family and Mrs. Irene Robbins and family from Caswell, Mo., bound for Portland, concluded that it would be more desirable to use one car for baggage and the other for the women and children. They are looking well until Thursday, when the baggage car went luno at a point 60 miles east of this place. Unfortunately the other car was so far in advance that the occupants were unaware of the accident, and came on to the park. Later another party came through and brought the news. Then the trouble began to brew. There were six tired and hungry people with no rations and no cooking outfit, but tourists are very neighborly, and they soon were supplied with dishes, and from the camp peddlers and the near-by grocery enough food was prepared. About 10 o'clock, just as they were enjoying their belated dinner, the baggage train rolled in, and boxes and hampers were soon unloaded and another more varied meal was soon on the board.

Mr. Brown has been in the mercantile business in Caswell for more than 20 years, and he says that he got tired of living in a finished town, and Caswell was finished years ago. He said that he had been fighting joy-killers and calamity howlers till he was sick and tired, and was hunting for a live growing town. He liked the looks of Twin Falls, and thinks that it has a great future, but as he had started for the coast he would go, although he might come back and locate here.

Mr. and Mrs. Willis Smith of Long Beach are going to their former home at Meeks, Colorado, for a visit. Mr. Smith was the first white child born in Meek county, Colorado.

Records in Thinness.

Platinum wire has been drawn so fine that 30,000 pieces side by side would not cover more than an inch, while 150 pieces bound together would form a thread as thick as a filament of raw silk.

RUSSIA ACCEPTS BRITON'S REPLY

Opposition to Raising of British Flag on Wrangell Island to Be Prevented

MOSCOW, Sept. 7 (AP)—In reply to the note sent by Foreign Minister Tschichorin to Great Britain protesting against the raising of the British flag on Wrangell island by an expedition of Vilhjalmur Stefansson, the explorer, Great Britain has informed Russia that the expedition was a private affair, originated by Stefansson, and that it does not touch the question of Russia's sovereignty rights over the island.

However, any attempt by Russia to hamper the work of the expedition, the British note says, would be viewed by Great Britain with the utmost gravity. In reply to Great Britain, Mr. Tschichorin accepts the explanation. He declares, however, that coordination between the countries concerned must exist when the sovereign rights of one state is at issue.

FILER PARM CHANGES HANDS

FILER, Sept. 7.—One of the first land sales of the season was completed here Saturday when Frank Richman sold his 20 acre farm to P. J. Lundin of Twin Falls. The consideration was \$300 per acre. Mr. Lundin will take possession some time during the coming week. Mr. Richman expects to leave soon for California and Texas.

# CITY'S SHARE OF DAM'S COST WINS APPROVAL

### Twin Falls Chamber of Commerce Directors Endorse American Falls District Assessment as to Town

Share in the cost of the construction of the American Falls reservoir project and purchase of storage water assessed against Twin Falls city property by the American Falls reservoir district, was endorsed in a resolution adopted Friday by the directors of the Twin Falls Chamber of Commerce, after the methods by which the assessment had been determined had been explained at length by Judge James R. Bothwell, attorney for the district, at a conference held in the chamber of commerce offices and attended by directors of the reservoir district, Twin Falls city officials and chamber of commerce directors.

The conference with the municipal and chamber of commerce officials was an outstanding feature of the meeting of the district directorate and which the assessment roll, assigning a proportionate share in the cost of the reservoir project to lots, tracts and subdivisions within the district, was adopted by the board. The directors also gave consideration to a plan of procedure outlined by Judge Bothwell looking toward sale of the district's \$2,700,000 bond issue covering its share in the cost of the project.

**Series as Approved.**—The district's 1923 assessment, as approved Friday by the district directorate comprises levies against each acre in the several irrigation projects within the district, as follows: Twin Falls south side, 7 1/2 cents; north side first and second irrigations, .1055 cent; north side third irrigation, .228 cent; Aberdeen-Springfield project, 7 1/2 cents; Martin Canal company, 15 cents; Woodville Canal company, 15 cents.

Assessment against town lots within the district ranges from 3 to 10 cents per lot.

Assessments have been levied in proportion to benefits as determined by the board accruing to each class of property as a result of the building of the reservoir, and with a view to paying the entire indebtedness of the district within the next 20 years, after funding the first five years' interest charges on the bond issue.

Question as to the assessment against Twin Falls town property led to the conference Friday in which directors of the district were invited to consult with the municipal and chamber of commerce officials. Discussion of the methods of determining benefits accruing to the various classes of property and comparative assessments occupied about an hour's time. At the close of the conference the following resolution was adopted by the chamber of commerce directors:

"Whereas as the city of Twin Falls is concerned, this board does the method of assessment to Twin Falls lots, namely of an amount costing from 20 cents to 30 cents per lot per year."

It was pointed out in the course of the discussion that the assessment against each acre of land under the Twin Falls canal system is approximately equal to the assessment against each Twin Falls city lot.

The method of determining benefits accruing to each class of property, upon which irrigation district assessments, under the Idaho law, must be made, was discussed at length by Judge Bothwell, after Arthur W. Selig, president of the chamber of commerce, who had been chosen chairman of the meeting, explained to the district directors that some question had arisen in Twin Falls relative to assessments against Twin Falls town property as compared with assessments against similar property within the district.

At the opening of the meeting Secretary N. S. Wright of the chamber of commerce, read a letter addressed to him by Judge Bothwell, explanatory of the district directors' work in connection with the determination of benefits and distribution of the cost of the project.

**Quotes Court Decision.**—Judge Bothwell in his remarks at the meeting, elaborated on the facts set forth in his letter. He quoted from a late decision of the state supreme court holding that irrigation district assessments must be levied "on the basis of benefits inuring from the improvement."

Benefits accruing to Twin Falls south side farm land, he said, the board considered were somewhat less than those accruing to lands under other irrigation systems within the district, because of the present superiority of the south side water right.

On the other hand, he said, it was considered that Twin Falls city would receive greater benefits because of the fact that it is regarded as the metropolis of the district; it is the district's principal place of business and a considerable proportion of its expenditures will be spent here; it has, on a lot basis, from 1 1/2 to 2 times as much representation as any other

# Need for Help in Japan Is Stressed

### Red Cross Makes Nation-Wide Appeal in Behalf of Sufferers from Oatsalym

Need for funds for Japanese relief is urged in a number of telegrams received by the Twin Falls chapter of the Red Cross from division headquarters, requesting that appeals be made to the public for contributions. Arrangements have been made for sounding this appeal from pulpits in Twin Falls churches Sunday, September 16.

The local chapter has arranged to receive donations at Red Cross headquarters in the reception room of the Twin Falls clinic, or they may be left at The News office.

Checks should be made payable to the American Red Cross—Japanese Relief.

Reports from Red Cross headquarters show that all over the country the sympathetic American heart is responding to the appeal. President Coolidge has designated the Red Cross as the authorized American agency for this relief work, and several national organizations, including the Chamber of Commerce of the United States and the Y. M. C. A., have instructed local organizations to give fullest support to the Red Cross in the undertaking.

The Red Cross, its officials announce, does not wish to claim credit for donations made for this purpose, but all names of donors will be forwarded with the gift. The Red Cross, because of its comprehensive organization, is able most effectively to act as agent for forwarding and distributing money and supplies.

section in declining questions affecting the district; and the advertising value of American Falls project brings benefit principally to Twin Falls.

Because of these considerations, Judge Bothwell and the directors placed Twin Falls in a class by itself among the towns of the district in determination of benefits. In a second class the board placed the towns of Jerome, Kimberly, Filer, Buhl, while the other towns and villages were assigned to a third classification.

**Division of Cost.**—In proportion to the benefits determined upon division of the total cost of the enterprise was made assigning to Twin Falls a portion of the original town lots a total of \$6 each, and to Twin Falls lots outside the original townsite, \$4 each.

The share assigned to lots in the towns listed in the second class is \$1 each, and to lots in third class towns approximately one-third less than the lot in the first class.

The total cost to farm lands under the Twin Falls canal system was determined on this basis at \$8.70 per acre. North side lands will pay approximately \$16 to \$17 an acre.

The district, with the proceeds of its \$2,700,000 bond issue, will purchase approximately 308,000 acre feet of storage water in the American Falls reservoir. Twin Falls south side and Aberdeen-Springfield lands will acquire 1 acre foot per acre. The north side will take from 1.13 to 1.52 feet per acre.

The Martin Canal company lands will receive two-thirds acre foot per acre, and the Woodville project one acre foot per acre.

Total cost to south side farm lands, it was shown, will be approximately \$885,000. Twin Falls city will pay, in round numbers, \$25,400; Buhl, \$5500; Kimberly, \$2800; Filer, \$2400.

**Would Leave Towns Out.**—In support of a contention which, he said, he had urged previously at meetings of the district board, R. E. Sigmond, an Idaho, president of the district organization, declared at the conference Friday that the gross amount to be paid by all the cities and towns in the district would be approximately one and three-fourths per cent of the total district's obligation.

"All of the cities and towns will pay only about \$45,000," Mr. Sigmond said, adding that additional costs for bookkeeping and collection would not leave enough net revenue from this source, "to pay a shogun."

For this reason, Mr. Sigmond said, he had urged that towns and cities be eliminated from consideration of the district board in determination of benefits and levy of assessments. This course, he explained, had been found impossible for the reason that state law required inclusion of town property within the district in making of assessment rolls.

"In other words," Shad L. Hodgkin, Twin Falls mayor, suggested with a smile, "you are making us for being a nuisance."

Judge Bothwell pointed out in this connection that inclusion of town property involved a heavy expense to the district for the reason that abstracts showing the acreage and value of all property within the district would be required to facilitate the sale and improve the value of the district's bonds. Transfers of ownership are more numerous in the case of town property than farm lands, and abstracts are therefore more expensive in the case of urban property, he said.

As much work and expense, he said, is required in this connection, in the case of each lot as in the case of 40 acres of land.

# Heads of the New Russian Union

Above: M. Kalinin & G.I. Petrovsky. Below: A.G. Chervyakov & N. Narimanov.

Michael Kalinin is president of the new Russian Federation of states. He is known as the Poasant President. In spite of his rise he has never lost his close personal connection with the village in which he was born. One-time kitcher boy for a Russian baroness, he is now touring the Far Eastern provinces of Russia, where he receives ovations everywhere. Nariman Narimanov, a Tartar, is president of the Republic of Transcaucasia, one of the republics of the Russian Federation. A. G. Chervyakov, president of the Republic of White Russia, is acting as head of the Federation while Kalinin is on his tour. G. I. Petrovsky, a member of the Duma from 1912 to 1914, is president of the Ukraine Republic, a member of the Federation.

# Plans Shaping Up For Scout Session

### Representatives from Boise and Pocatello to Attend Patrol Leaders' Convention Here

Boy scouts and scout leaders from as far as Boise and Pocatello will attend a two-day conference of boy scout patrol leaders to be held here Saturday and Sunday, according to assurances received Friday by F. Douglas Hawley, district scout executive.

Scout Executive P. E. Kirby with seven scouts will arrive from Pocatello Saturday morning, while Scout Executive E. W. Clark and Mrs. Clark were reported en route from Boise Friday evening. The Pocatello delegation left there at 9 o'clock Friday night.

Between 20 and 30 delegates are expected from other communities within the district council's territory which includes Mindoka, Cassia, and Twin Falls counties.

Convention visitors will be welcomed at 2:30 o'clock Saturday afternoon by Kenneth Krivanek, Twin Falls' junior mayor, at scout headquarters here. At 3 o'clock the first convocation topic, "The Patrol Leader and His Job," will be presented by Senior Patrol Leader Keith Neilson of Rupert. Other topics will follow at half hour intervals throughout the afternoon and until 4:30 o'clock Sunday afternoon, with intermissions for a street lunch and scout refreshments.

All Twin Falls scouts are invited to attend the convention, whether patrol officers at present or not, according to statement Friday evening of Scout Executive Hawley. The only restrictions as to local scouts are that they shall have the consent of their scoutmasters to act as delegates. The registration fee is one dollar, to cover the cost of the banquet, printing, lights, postage and other conference expenses. Most boys are meeting this expense out of troop funds, the scout executive has been advised. Scouts who wish to attend the banquet only will be charged 50 cents and must reserve places by 2:30 o'clock Saturday afternoon at scout headquarters. The banquet will be served at 6:30 o'clock at Tom cafe.

All sessions, excepting banquet and church services, will be held in the scout headquarters, Shoshone street and Second avenue south. Invitation is extended to all scout officials and the public to attend any session of the convention.

**SUGAR CROP EXTENSIVE**—RUPERT, Sept. 7.—The Paul sugar factory is making ready for the big crop run in its history. Over a half million dollars will be paid the farmers for their beets and wages for hauling it is estimated by the sugar refiners. Many fields will go as high as 25 tons to the acre and the average is expected to run around 20 tons to the acre.

**HARVEY IS GUEST**—WASHINGTON, Sept. 6.—George Harvey, United States ambassador to Great Britain, is again a White House guest, having come to Washington for a final series of conferences with President Coolidge before sailing Monday to resume the duties of his post.

# CHILD IS VICTIM OF AUTO WRECK

### Six-Year-Old Daughter of Kansas Motor Travelers Meets Death in Collision Near Paul

PAUL, Idaho, Sept. 7.—Ester Worcester, aged 6 years, daughter of A. D. Worcester, Hill City, Kansas, was almost instantly killed and a man named Washburn, a resident of Pasadena, California, traveling in the Worcester's car from Salt Lake, received severe cuts and bruises about the head and shoulders, in an automobile accident at the intersection of two highways near here at 8:30 o'clock this morning.

The accident resulted from the collision of the Worcester car with another car driven by George Wade, Salt Lake, at the intersection where the Worcester car, coming from the east, was struck as it turned toward a street in Paul, which was coming from the west. The Wade car was not damaged, and Wade and his companion escaped injury.

Four out of the six persons traveling in the Worcester car, including the parents of the dead girl and her two years old sister and C. L. Worcester, an uncle, escaped practically uninjured when their machine was hurled off the highway and turned turtle by the impact with the other machine.

The body of the little girl will be taken by the bereaved relatives back to the family home in Kansas for burial.

Washburn is being cared for at a hospital here.

**DEATHS**—Lydia Marie Munger, Lydia Marie Munger, aged 6 years and 2 days, one of five children of Mrs. Violet Munger of Filer, all of whom were received this week at the isolation ward of the county general hospital, died Friday morning from diphtheria. Funeral services for the little one were held Friday afternoon at Filer.

# STAGE SET FOR COUNTY'S FAIR

### Indications Point to One of the Most Successful Exhibitions in Institution's Annals

FILER, Sept. 7.—According to the announcement by Secretary J. M. Mackel, everything is in readiness for the eighth annual Twin Falls county fair which will open here Tuesday, September 1. The weather promises to be ideal and the grounds have never been in better shape. Many entertainment features have been added, including wild west stunts and circus acts to be staged in front of the grandstand every day. Twenty-five hundred dollars in purses are offered for the various racing events. And premiums totaling \$5000 cash are offered in the various departments for the best exhibits.

A new feature this year will be the health conference the first two days of the fair, conducted by the public welfare department of the state, cooperating with local organizations. Over 300 babies have already registered for the clinic.

The former club building will be used this year as a ladies' rest room where programs will be given both morning and afternoon during the last two days and tea and wafers served to the ladies.

The superintendents of the various departments this year are as follows: Horses—Wesley Young, Filer. Cattle—Beef breeds, C. Bruce Rieger, Kimberly; dairy breeds, William T. Hardin, Buhl. Swine—R. S. Arnes, Filer. Sheep—Sam Thompson, Filer. Poultry—Frank Huston, Twin Falls. Farm products—B. E. Broadard, Twin Falls. Fruits—J. A. Watters, Twin Falls. Women's general—Textile fabrics, Mrs. T. E. Moore, Filer; kitchen and pantry, Mrs. R. E. Broadard, Twin Falls. Floral—Miss Bernice Watter, Filer. Sweets—Grover C. Davis, Filer; E. O. Walter, official starter.

**HARDING LEAVES**—(Continued from Page One)

that my sisters and brother should not survive me, but should leave children, such children shall receive their parents' share."

**Mrs. Harding Present**—With Mrs. Harding when the will was filed were Attorney General Denbury, Hoke W. Donahue, an attorney and also close personal friend of Mr. Harding, and C. W. Schaffner, former cashier of the Marion County bank, of which Mr. Harding was a director and who was nominated as executor in the will.

It is stated that Mrs. Harding expects to return to Washington within the next few days and not remain here until the will is admitted to probate and the appraisers make their report.

# Borah in Favor of Farm Organizations

### Idaho Senator Gives Audience at Buhl His Views on Economic Situation

BUHL, Sept. 7.—(Special to The News.)—Concluding an argument for organization of farmers as a means of improving their economic status, Senator W. E. Borah, addressing an audience of about 1000 persons in the city park here today, launched into a discussion of his own views as to requirements for betterment of the economic situation generally with a declaration for recognition by the United States of the Soviet government of Russia.

Senator Borah spoke here upon invitation of the local grange, and was introduced by Fred Bahart, former representative from this county in the state legislature.

Representatives of the grange in connection with a program following Senator Borah's address outlined various phases of the activities of that organization.

# ORCHARD MEN INTERESTED

### Large Attendance at Fruit Growers at Horticultural Association Meeting Here Indicated

Officers and members here of the Twin Falls Horticultural District association had assurances Friday of a high degree of interest existing among orchard owners of the district relative to a meeting of fruit growers to be held under auspices of the association at 7:30 o'clock Saturday evening in Parish hall here. D. L. Means, director of the state bureau of plant industry, is to attend and take part in this meeting, and consideration will be given to a special hall grade promulgated this year by state authorities to facilitate marketing of storm damaged crops.

# HAY GROWERS TO MEET

GOODING, Sept. 7.—Hay growers of southern Idaho will meet here September 15 to discuss the price for the 1923 crop. The meeting has been called by the Pomona grange of Elmore and Owyhee counties, and all the granges will be represented. Anyone interested in the growing of hay is invited to attend the session.

PEACE IN THE PACIFIC

It may not seem in good taste to say it at this time, when a nation is suffering, and yet it is said in all sympathy and kindness—the great Japanese disaster wipes out any lurking fear of Japanese aggression for a long time to come.

There was really little fear of that kind left in the mind of the American people, before this earthquake that leveled so many Japanese cities. The Washington disarmament treaties, the punctilious observance of her pledges by Japan and the fair treatment adopted in late years toward America and Americans had pretty generally swept away old suspicions. A new era had begun, with a vision of America and Japan, as friends, co-operating to preserve the peace of the Pacific.

Now they are disarmed. A normal American cannot hate even an enemy when he is down, and the Japanese have never occupied the position of enemies. The only thought in the mind of this country now is help for a sorely stricken friend. It is a familiar and congenial role for Uncle Sam, and may be appreciated more in this case than in certain other recent instances of American philanthropy.

But any nation, with its people slain by the hundred thousand, its cities razed by quake and fire and wind and wave, must have swept from its mind any possible thought of armed aggression against any other country. It may take a generation—unfortunately, as most of us will think—for Japan to regain her strength of spirit and material resources. Our war-mongers therefore can stop their costly palaver and leave our government and public to cultivate, with our talented neighbor across the Pacific, the pleasant and profitable pursuits of peace.

MORE CARS THAN FAMILIES

If the rest of the world takes to buying American-made automobiles all will be well. Otherwise, there seem to be signs of motor congestion ahead in America.

According to a reliable bank bulletin, the automobile factories of this country produced in the first seven months of nineteen hundred twenty-three more automobiles than they did in the entire year of nineteen hundred twenty and nearly as many as in the year nineteen hundred twenty-two. The total output for this year is estimated at about four million cars.

If automobiles are to be turned out at the rate of four or five million a year, and if the life of each car is about seven years, there will soon be twenty-eight million to thirty-five million cars here.

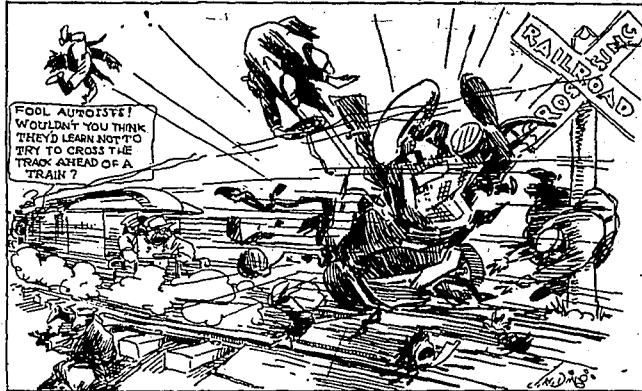

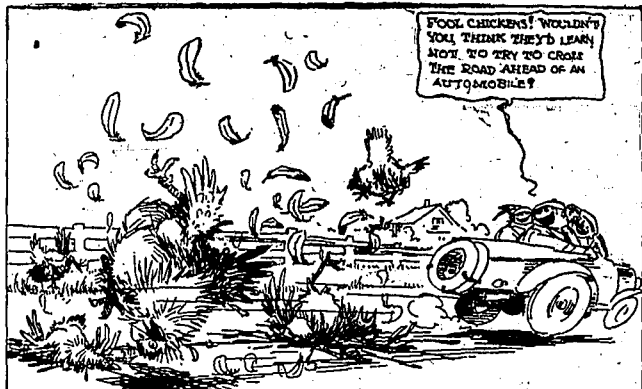

Yet there are only twenty-one million dwellings in the United States and about twenty-five million families. Garages, parking places and thoroughfares, too, are limited in numbers.

WHAT IS GOOD FORTUNE?

A brief story comes from Paris which furnishes material for thought. It concerns a rag-picker with three children, all trained to follow his trade. They received word that the father had fallen heir to a considerable fortune, left to him by a forgotten cousin who had died in Nice.

The rag-picker could not believe the news, so he journeyed to Nice to verify it. An attorney showed him the proofs and convinced him that he really possessed wealth, amounting to several million francs. And the rag-

MAYBE WE'VE BEEN OVERESTIMATING THE CHICKEN'S INTELLIGENCE

Copyright, 1923, by the New York Tribune, Inc.

picker dropped dead of heart failure in the lawyer's office.

So now some one else is heir to the money. And perhaps Francis, the rag-picker, got a big enough thrill from the fact of his good fortune to compensate him for losing the chance to use the money.

FILER

FILER—F. C. Graves, who was recently appointed as a member of the state utilities commission, left Monday evening for Boise to assume the duties of his office. He was accompanied as far as Bliss by Mrs. Graves and son, Raymond, who recently arrived here from Corvallis, Oregon, to take charge of his father's real estate and loan office.

Miss Inez Stevens arrived Saturday from her home in Missouri, and will make her home here with Mr. and Mrs. M. B. Clark. Miss Stevens is the principal for the Victor school and will teach the third grade.

An auto driven by Ralph Conant and Lawrence Lapp, near Curry, on the highway Monday evening, turned over, slightly bruising the occupants and doing considerable damage to the car.

The Filer bakery was re-opened Saturday by N. A. Jackson, after being closed several months following a fire in the rear of the bakery.

Mrs. G. W. Truitt of Murrumbidgee spent the weekend in Filer instructing several music pupils.

James Schidman and Paul Hamline left Friday morning for New Mexico where they will enter a military school.

Mrs. George Donnan and daughter, Jean, returned last week from a visit with relatives in Ogden.

Mr. and Mrs. A. T. Craig and Mr. and Mrs. O. A. Moffatt returned Monday from a short fishing trip.

Mr. and Mrs. Kenneth Annett and children have moved into the Turner residence on Sixth street.

Mr. and Mrs. W. A. Shear took their daughter, Miss Thelma, to Ogden Sunday, where Miss Thelma will enter the Sacred Heart academy. They made the trip by auto.

Mr. and Mrs. E. L. Fosse and children who have been visiting relatives here for several weeks left Tuesday morning for their home at Wynona, Neb. Mrs. T. L. Gattney and son, Tracy, accompanied them as far as Denver, where she will visit relatives before going on to Nebraska for a visit.

HOLLISTER

HOLLISTER—Mrs. A. J. MacDonald left Wednesday for Fremont, Neb., to visit her father and brothers and sisters for about two months.

Mr. and Mrs. E. E. Lawrence and family were dinner guests at the home of Mr. and Mrs. George Grover Wednesday evening.

George Munro was a passenger to Twin Falls on Monday's train.

Mrs. Casper Nyger was called to Hood River, Oregon, Wednesday by the serious illness of her mother, Mrs. Hakari.

Mr. and Mrs. E. E. Lawrence and family were entertaining at dinner at the home of Mr. and Mrs. Joe Gerlar Thursday evening.

Mr. and Mrs. Sam Allen and family

have moved in to the Eli May residence on Wendell avenue.

Mr. and Mrs. Jensen and family of Rogerson have moved into the residence on the corner of Main street and Idaho avenue, formerly occupied by the Coffin family.

We have been informed that Mrs. Mary C. Grover is our new postmistress elect.

Mrs. S. P. Hahn is enjoying a visit from relatives from Jaxford, Kansas.

Odd Way of Drawing Water.

I took notes while we were at Spa, New Guinea, of a rather curious method of drawing water from the communal spring, half a mile from the village, writes Reginald Pound in the Wide World Magazine. Twice a day the women went down in chattering groups to the spring, carrying bamboo pipes 12 feet long. These pipes were made by forcing out the pith at the joints, and held about five gallons of water apiece. When full, the drinking end was plugged with leaves, the pipe being stood in a shady spot near its owner's house and used when needed. Incidentally, thinking from these weird receptacles was a rather hazardous business, care being necessary lest a too copious supply should gush out when the pipe was held to the mouth.

Blueberries an Inch Thick.

A blueberry an inch in diameter is not a dream but a possibility. At the government testing plantation at Whitesbog, N. J., about 25,000 hybrids have been fruited. Berries three-fourths of an inch in diameter have been produced on many of them, and one of them this year reached almost two-thirds of an inch. The Department of Agriculture will continue the experiments until berries an inch in diameter are obtained.

Needed Awakening.

A Yankee tourist was being shown over an old church wherein hundreds of people were buried.

"A great many people sleep between these walls," said the guide, indicating the inscription-covered floor with a sweep of his hand.

"So?" said the American. "Same way over in our country. Why don't you get a more interesting preacher?"

She Would Hold the Ladder.

A very loving couple had just returned from their honeymoon. "Hello, dearest," said George. "I see there is some asparagus ready for cooking. Shall we go and pick it together, love?"

To which Hilda replied, coolly: "George, dearest, it will be heavenly! You shall pick it, and I will hold the ladder."

Meaning Clear.

Richard had been ill, and although better now was still in bed and required constant nursing. "Hilda, dearest," said George, "she happened to be busy and could not come, whereupon the lad began to sob as if his heart would break, waiting over and over again, "Nobody loves me but myself; nobody loves me but myself."

Thought for the Day. Some of the hardest knocks we get are delivered by our supposed friends.

BIRD ENTOMBED BY MARTINS

Sparrow That Had Grabbed Martin's Nest Is Made the Victim of His Revenge.

An English ornithologist, G. Garrett, makes a specialty of observing the manners and methods followed by birds. He recently recalled the story of a sparrow which, finding a newly built martin's nest, took "possession" in the absence of the owner. The martin, seeing the usurper, called for help, and soon a thousand martins came, at "full speed," to attack the sparrow; but the latter was invulnerable. After a quarter of an hour's conflict all the martins disappeared. The sparrow thought he had got "the better, and the spectators judged that the martin had abandoned their undertaking.

Not in the least! They immediately returned to the charge, and, each of them having procured a little of the tempered earth with which they make their nests, they all at once fell upon the sparrow and inclosed him in the nest to perish there, although they could not drive him out.

The Split Initiative.

One thinks of that solemn warning against the enormity of the split initiative which has done so much to aggravate the fatalism of the bad writers who scrupulously avoid it. This superstition seems to have had its origin in a false analogy with Latin, in which the infinitive is never split, for the good reason that it is impossible to split. In the greater freedom of English it is possible and has been done for at least the last five hundred years by the greatest masters of English; only the good writer never uses this form helplessly and involuntarily with a definite object, and that is the only rule to observe. An absolute prohibition in this matter is the mark of those who are too ignorant, or else too unintelligent, to recognize a usage which is the essence of English speech.—Havelock Ellis, in the London Mercury.

DUN'S REPORT.

NEW YORK, Sept. 7 (AP)—Dun's tomorrow will say:

Evidence of expanding business multiply with the advancing season. Gains are not uniform and few signs of increase appear in some quarters, but the main tendency is in the right direction. Preparations to meet the fall requirements are becoming more general and there has been a check to the restriction of outputs in some industries, with more firmness in prices developing. While the anthracite coal strike has caused some unsettlement and the Japanese disaster has affected certain domestic markets, the trend toward enlarging operations has continued and there is expectation of further progress now that the vacation period is practically ended. Curtailment of industrial and mercantile activities during the summer was less noticeable than usual in different lines and current statistics of car loadings, which surpass all previous records show a distribution of goods is maintained in exceptionally heavy volume. Weekly banks clearings were \$5,205,899,000.

What is useless to you may be valuable to others; advertise it in the classified columns.

WOOL MARKET STATIONARY

Increase of Inquiries During the Week Is Noted But Strengthening Not Shown in Quotations

BOSTON, Sept. 7 (AP)—The Commercial Bulletin tomorrow will say: Rather more inquiry is reported in the wool market this week though no large volume of business has been done and prices have not shown any increased strength as a reaction from the London sales.

The strongest tone at London, however, has not hurt this market and undoubtedly has prevented a further slump as some feared might result in case of weakness at London. Prices here, generally speaking, are without material change from a week ago.

Since the opening in London, prices have shown some slight tendency to strength, although Bradford prices on top are from 1 to 2 pence below the parity of London wool values. South American clips are favorable, but a big decrease in low cross breeds is expected in Argentina.

Goods Market Chaotic.

The goods-market is still more or less chaotic, although slow progress is reported in clearing the congestion. Fall Texas hate is beginning to abate and small clips are reported contracted at low prices.

Mohair is quiet and unchanged. The Commercial Bulletin tomorrow will publish the following wool quotations:

Domestic: Ohio and Pennsylvania fleeces, Delaine, unwashed, 53 to 55c; fine unwashed 48 to 49c; half blood coming 55c; 2-8 blood coming 53 to 54c. Michigan and New York fleeces: Delaine unwashed 52 to 53c; fine unwashed 47 to 48c; half blood unwashed 54 to 55c; 3-8 blood unwashed 48c; 1-4 blood unwashed 46c. Wisconsin, Missouri and average New England: Half blood 52 to 53c; 2-9 blood 50 to 51c; 1-4 blood 45 to 46c.

Scoured Basis.

Scoured basis: Texas fine 15-months \$1.20 to 1.25; fine eight months, \$1.10 to 1.15. California, northern, \$1.20 to 1.25; middle county \$1.15; full defective 90c; southern \$1 to 1.05. Oregon eastern No. 1 staple \$1.25 to 1.33; fine and F. M. coming \$1.20 to 1.30; east ern clothing \$1.15; valley No. 1 \$1.15 to 1.18.

Territory, fine, staple, choice \$1.30 to 1.35; half blood coming \$1.15 to 1.20; 3-8 blood coming \$1 to 1.05; 1-4 blood coming 90 to 95c. Puddled: Delaine \$1.25 to 1.30; AA \$1.75 to 1.80; A super \$1 to 1.10. Mohair: Best coming 78 to 83c; best carding 70 to 75c.

WOOL MARKET TO SUFFER

SYDNEY, N. S. W., Sept. 6 (AP)—It is considered likely that the wool market in Australia will suffer in consequence of the earthquake in Japan.

LONDON WOOL AUCTION.

LONDON, Sept. 7 (AP)—The offering at the wool auction today amounted to 11,349 bales. There was a good demand for best markings at firm rates. Cross breeds were irregular. Withdrawals were frequent owing to the high prices asked by holders.

REAL ESTATE TRANSFERS

Furnished by the Twin Falls Title and Abstract Company Thursday, September 6.

A. C. Smith to First National Bank of Twin Falls, \$3440; lot 15, block 3, Twin Falls.

S. E. Williams to L. C. Leavorion, \$15,000; SE SE 11-10-15.

L. C. Leavorion to J. T. Greenwood, \$8000; SE SE 11-10-15.

W. E. Twin to R. Griffith, \$1; lot 17, block 1, Golden Rule addition.

Deed, C. L. Smith to M. Brookman, \$1; S 1-8-18-11-10.

Just the Same.

"The modern family's idea of too many children is one," remarks an exchange. Same as a bachelor's idea of too many wives.—Boston Evening Transcript.

Me-o-my, how you'll take to a pipe—and P. A.!

Before you're a day older you want to let the idea slip under your hat that this is the open season to start something with a joy's Jimmy pipe—and some Prince Albert!

Because, a pipe packed with Prince Albert satisfies a man as he was never satisfied before—and keeps him satisfied! And, you can prove it! Why—P. A.'s flavor and fragrance and coolness and its freedom

from bite and parch (cut out by our exclusive patented process) are a revelation to the man who never could get acquainted with a pipe! P. A. has made a pipe a thing of joy to four men where one was smoked before!

Ever roll up a cigarette with Prince Albert? Man, man—but you've got a party coming your way! Talk about a cigarette smoke; we tell you it's a peach!

Prince Albert is made in regard to being sticky and having some pebbles and half pound the smokers and in the package it is made of a soft sponge material.

PRINCE ALBERT the national joy smoke

THE MARKETS

WHEAT INCLINED TOWARD SLIGHTLY HIGHER PRICE

Advance is scored on Friday's trading with change accredited to Lower Crop Estimates

CHICAGO, Sept. 7 (AP)—Wheat scored a material advance in price today, largely as a result of lower estimates of the 1923 Canadian yield.

With the president of the Canadian Pacific railroad reported as saying 350,000,000 bushels, his estimate of this season's wheat crop in Canada, whereas other authorities had yesterday set the total at 400,000,000 bushels, the wheat market here displayed from the outset a decided upward tendency.

Buying also was stimulated by the fact that the Winnipeg market showed a stronger tone, inasmuch as the chief bearish inspiration of late has been coming from that point, the change of front was quickly noted.

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and are intended to cover only the average of prices. Where certain dealers for short periods offer more than the quoted price no effort is made to include such quotations.

Markets of all kinds are stationary in Twin Falls with the exception of eggs. This popular breakfast food went off a cent a dozen at the cream shipping stations yesterday, although the local stores are keeping the price up to the last high level.

The Twin Falls markets yesterday were as follows:

Table with 2 columns: Commodity and Price. Includes Heavy hogs, Light hogs, Cows, Veal calves, Mutton, and Lambs.

Table with 2 columns: Commodity and Price. Includes Frys, Light hens, and Young ducks.

Table with 2 columns: Commodity and Price. Includes Sweet cream, Butterfat, and Eggs (shipper).

Table with 2 columns: Commodity and Price. Includes Wheat and Hay, Alfalfa, and Sugar.

Table with 2 columns: Commodity and Price. Includes Potatoes, Strawberries, Watermelons, and Cantaloupes.

Table with 2 columns: Commodity and Price. Includes Corn, Beans, Head lettuce, Green peppers, and Tomatoes.

Table with 2 columns: Commodity and Price. Includes Egg plant, New cabbage, Squash, and Musk melons.

Table with 2 columns: Commodity and Price. Includes Creamery butter, Country butter, Eggs, and Cheese.

Table with 2 columns: Commodity and Price. Includes Ham, Bacon, Salmon, and Halibut.

apparently led to a decided disposition to hold wheat back in various sections.

Under such circumstances declines from the day's top figures were only moderate, and shippers appeared less anxious to press wheat for sale.

But better export business helped to lift the provision market.

CASE QUOTATIONS

GIVES LIST OF TEACHERS FOR LOCAL SCHOOLS

Superintendent Names Educators in Connection with Announcements Relative to Opening of Educational Year

In connection with a number of announcements relative to the opening of Twin Falls schools next Monday for the coming school year, Superintendent M. C. Mitchell made public a list of 81 educators who have been employed as principals, supervisors and teachers, together with a list of wagon drivers and other employees of the district. The list follows:

Supervisors and Principals
Matthew C. Mitchell, superintendent and principal of senior high school; Ethel Gray, Bickel school; Francis M. Perkins, Lincoln school; Clara Billings, Washington school; Elizabeth M. Shovel, supervisor of elementary grades; Hazel Ruth Goodwin, music supervisor.

Senior High School
Ethlyn Lindley, Olive Joy, Eva Marie Bohrenfeld, Elizabeth Standfield, Frankie Barnhart, Marion Barnes, Emily Hutzman, Clair Kirkpatrick, Vera O'Leary, Amanda Beyer, Harold W. Morrill, Mary Phelps, John Estes, Viola Hamilton, Jennie Noll, Etta Jean Lucas, Aluta Larson, John Foldhusen, T. J. Bainbridge, Clifton W. Evans.

Junior High School
Wilma Pepper, North Bishop, Grace Wakkefeld, Constance Evans, Edith E. Lipp, Lulu K. Young, Grace M. Dahill, Laura Robinson, Ruth M. Figgis, David McCarter, Helen Houston, Mrs. B. J. Biglie, Enid Frazier, Ruth Lee Ellis, Malcolm W. Anderson, Nettie Ford, Bert J. Biglie, Gertrude Grimes, Marie D. Horner, Agnes V. Fisher, Anna McDonald, Esther Lusted, Winona Merritt, Josephine Stank.

Elementary Grade
Ethel Kautz, Estelle Bridgewater, Nina Gunderson, Ramona Holmes, Alma Ludwig, Emma Smith, Eva Weat, Kathryn Bryson, Elizabeth Bunce, Annie Hills, Flora Totrault, Florence Gustafson, Edna Mahaffey, Mary Pittulou, Ruth Beachamp, Gladys Colner, Marguerite Pomory, Lillian Swanson, Elva Cherrington, Gail Musser, Grace Knapp, Veronica Weidman, Elva Wilkinson, Marie Locky, Helen Norton, Mary Child, Esther M. Roberts, Helen Horner, Pearl Scarlett, Ruth Flynn, Edith Flora, Elsie Murray, Albertine Benoit, Juel Horwick, Mary Wright, Georgia Stewart, Rose Wolfe, Vera Jamison, Fern North, Emma Jones.

Other Employees
Office secretaries: Thelma E. Banks, high school; Nettie Bowen, junior high school.
High school librarian: Mary Wallace.
Janitors: G. O. Taylor, Archie Zacharias, Cesar Doty, J. F. King, P. D. Frazelle, J. A. Wise.

Wagon Drivers
M. S. Hanes, C. O. Silver, M. E. Staley, Mrs. Anna Drury, W. Villers, E. A. Junker, I. B. Titus, G. C. Andrews, Gus Ostalob, Joe Andrews, Mrs. H. L. Kelle, Roy Evans, John Sommers, W. O. Lindsay, J. C. O. Walls, J. H. Johnson, C. L. Bowlsby, H. G. Dietrich, R. B. Randall, J. P. Gabhart, George A. Bradley, J. Fenn, Fred Blackburn, O. F. Miller, Henry Smith, N. W. Arrington, Crozier Transfer.

The following announcements were made by Superintendent M. C. Mitchell relative to the opening of the city schools. Mr. Mitchell expresses the hope that all patrons of the schools will note these carefully inasmuch that the schools may start off as smoothly and efficiently as possible.

Opens Next Monday

"School opens Monday, September 10. It is planned that all the buildings and equipment for operating the schools will be in readiness, and that all employees of the school district will have arrived at their posts previously in ample time to receive all necessary instructions for accomplishing the work of enrollment and registration of pupils. It is very important that all pupils come on the opening day of school. The schools can thus start off with the desired degree of efficiency from the first."

"In the senior high school and junior high school the roll will be taken each morning at 8:50 o'clock, and in the grade buildings at 9:00 o'clock. In all the buildings school will resume in the afternoon at 1:00 o'clock. This corresponds to the time schedule of last year."

Pupils Who Attend Grade Buildings

"All pupils enrolled in grades one and six inclusive will report to and attend at their respective grade school buildings. Pupils in grades seven, eight and nine will report to the junior high school. Pupils in grades ten, eleven and twelve will report to the senior high school."

"After the first week of school, pupils entering school in grades one to six will be enrolled in the office of the supervisor of elementary grades in Room 112 of the junior high school building and from there will be directed to the proper grade building. Such pupils will be entered on Monday and Wednesday mornings of each week between 8:30 and 10:00 o'clock."

Organization Changed Somewhat

"That part of the school system which takes care of the upper six grades has been changed from the 2-4 plan to the 3-5-6 organization. Consequently in place of the intermediate school containing grades seven and eight, we will operate a junior high school containing grades seven, eight and nine. Inasmuch as grade nine is transferred to the junior high school, the senior high school will contain two, three, eleven and twelve. These two organizations are kept separate and distinct, although they exist side by side in the same large high school building. The offices of senior high school principal and superintendent of schools are combined under one official hand."

Age of Beginning Pupils

Beginning pupils in order to be regularly entitled to enter school must be at least six years of age on or before November 30, 1923. Also, it will be deemed inadvisable to enter pupils in the "First B" grade after the first three weeks of the school year, inasmuch as a child entering the school will be seriously handicapped in starting his first year in school."

Tuition Rate Lower

The board of education has fixed the rate of tuition for the coming year, having received the certificate from the state board of education, which certificate grants permission to the district to charge an amount equal to the exact cost of schooling pupils in high school during the preceding year. The tuition rate will be \$8.00 per month in the four upper grades and \$6.00 per month in the eight lower grades. No charges are required in the case of non-resident pupils only."

Economy in Purchases

Every reasonable effort will be made to assist pupils and parents in securing text books and materials at the smallest possible financial outlay. To assist in effecting this saving, all pupils in the elementary grade schools will receive lists of the text books and materials which they actually need in their respective grades. These lists will be handed to the pupils on the opening day of school by the teachers. We urge that parents get no other books or materials until notified by the school officials, unless the cost of additional books entails no appreciable financial burden on the home. In addition to issuing these lists to each pupil, every effort will be made to assist pupils in exchanging books which they no longer need for books which they no longer need for other pupils. This work of exchanging books will be conducted the first two or three days of school in each building. In the case of the changes in text books recommended by the superintendent and adopted by the board, the cost of such change has been closely guarded and arrangements made with the local book dealers so that pupils may trade in their old books on the new book which displaces it."

Divisions Same as Last Year

The division of independent school district Number 1 into the three sub-districts for the purpose of indicating to what grade building pupils shall go is as follows:

Those pupils shall attend the Washington school whose residence is north of the main entrance, east of the road extending north from the north end of Sixth avenue, which extension is commonly known as Harrison avenue, and north of the road extending east from the east end of Sixth avenue, which extension is commonly known as Elizabeth boulevard."

Those pupils shall attend the Bickel school whose residence is south of Sixth avenue east from the road extending east from the east end of Sixth avenue, and east of Shoshone street and the highway extending south from the south end of Shoshone street. Those pupils shall attend the Lincoln school whose residence is west of Shoshone street, south of Sixth avenue north from the north end of Sixth avenue and west of the highway extending southward from the south end of Shoshone street."

Transportation of Pupils

Those wagons which come into the Washington school will not convey pupils living within three-fourths mile of the old townsite, and those wagons which come into the Bickel and Lincoln schools will not convey pupils living within one-half mile of the old townsite, except that the wagons coming in across the Rock Creek bridge near the railroad station will convey all pupils who live outside the new townsite. The transfer truck which brings pupils from South Park to the Bickel and Lincoln schools will start about November 15 and continue until March 15."

Personal

Attorney on Way Home—W. P. Guthrie, who has been in Boise for several days on legal business, will return Saturday.

Moves to Twin Falls—Mr. and Mrs. A. Acuff and family have moved from their former home in Amsterdam to Twin Falls.

Son Is Born—A son was born Friday, September 7, to Mr. and Mrs. Brownie Brownfield at their home, 751 Main avenue east.

Return From Visit—Mr. and Mrs. W. W. Taylor and daughter, Maurine, returned Thursday from a two-month visit with relatives in Missouri.

Looking After Interests—C. F. Schreiner of Maroa, Illinois, arrived Friday and will remain here for a few weeks looking after his farming interests.

Take Marriage License—A marriage license was issued Friday at the office of the county recorder here to Eugene M. White and Daisy Zimmerman, both of Kimberly.

Here for School—Mrs. Harold and sons of Tokopson, have rented the Roy Weaver residence, property on Sixth avenue north, and will make their home here while the boys attend school.

Here For Visit—J. M. Bratten returned Friday from Long Beach, California, to spend some time looking after interests here and at Hollister. Mrs. Bratten and children remained in California.

Back From California—Mrs. T. J. Woods and daughter, Margery, have returned to Twin Falls after spending the summer in Hollywood and will occupy their new home on Seventh avenue north.

Visiting Classmate—Miss Marie Hagerman of Mandan, North Dakota, arrived Friday to be the guest of Miss Iris Guthrie for ten days. Miss Hagerman and Miss Guthrie are classmates at the University of Washington.

Returns From California—Miss Georgia Stewart has returned from California, where she spent the summer at school, and was also the guest of friends in Los Angeles. She will resume her place on the teaching force here.

Visit Old Home—Mr. and Mrs. B. A. Hamilton, who, prior to two the past few years ago, were residents of Twin Falls, are spending a vacation period here as the guests of Mr. and Mrs. Wilbur S. Hill. Mr. and Mrs. Hamilton now live in Hollywood, Cal.

Arrive in Uruguay—L. A. Shields, manager of Armour and Company's plant at Montevideo, Uruguay, and Mrs. Shields, who spent some time here last June at the home of her father, G. M. Simpson, have returned safely to their south American home, according to word received here Friday.

Return After Visit—Edwin A. Wilson, accountant, with Mrs. Wilson and the children, returned Friday after an extended visit with relatives at their old home in Zanesville, Ohio. They made the return trip overland, covering the entire distance in 11 days.

Merchant Returns—R. C. Beach, president of the Idaho Department store, returned Friday from Los Angeles where, with Mrs. Beach, he attended the wedding of his son, Kenneth, who is now spending his honeymoon in California. Mrs. Beach is expected to arrive here Saturday.

To Enter Conservatory—Cedric Seaver, son of Mr. and Mrs. Arthur K. Seaver, left Saturday for Chicago, where he will enter the conservatory of music. Mr. Seaver is a graduate of the Twin Falls high school and a talented violinist. Since his graduation he has played in the local orchestra and for the past two weeks was leading the orchestra at the Orpheum.

ALLEGED WIELDER OF PITCHFORK ARRAIGNED

California Jack Brown Is Haled into Court on Charge of Assault Preferred by Neighbor

G. (California Jack) Brown, Twin Falls livery barn operator, arraigned Thursday before Judge Kennedy Packard, justice of the peace, on a felony charge of attacking Frank Burton with a pitchfork, entered a plea of not guilty and was released on his own recognizance for trial next Tuesday. The alleged attack was made Thursday evening when Burton with his wife and children passed Brown's place of business on their way home. There had been an argument between Brown and Burton about a week before. Burton told the officers, the attack Thursday night being without provocation, Burton said. "One of the fork penetrated Burton's shirt and entered the flesh of his right arm and left shoulder, officers said. Brown was placed under arrest Friday morning by Chief of Police P. O. Herriman."

WHITE ELEPHANTS, Wright's old store Saturday—adv. Crawford benches for canning now ready. \$1 per bushel. Ed Vance, Public Market—adv. Card tables and folding chairs for rent. Phone 805. A. H. VINCENT COMPANY, adv.

SOCIETY

Edited by Mrs. E. R. Williams Telephone 293

Complimenting her sisters Mrs. I. N. Yount and Miss Yount of Portland, Mrs. Ralph Pink entertained with six guests of bridge Friday afternoon at her home on Eleventh avenue east. Honors for high score went to Mrs. H. O. Miller, and the guests of honor were presented with dainty favors. A rose color scheme was carried out in the decorations and delicious two-course luncheon which was served at the conclusion of the game. Mrs. Dorman Johnson and Mrs. Wilcox Peck assisted the hostess in serving.

On Friday afternoon Mrs. David Brown and Mrs. Ray Brown entertained at the Reed apartments honoring Mrs. Tanner and Mrs. Powell of Beaumont, Texas, guests of Mrs. J. B. Williams. Other out-of-town guests were Mrs. Walter Kutz of Eaton, Colorado, and Mrs. Ernest Claudin of Long Beach, Cal. Bridge was the diversion, Mrs. Tanner and Mrs. Powell receiving guest prizes, and Mrs. Kay winning high score. A two-course luncheon followed the games. Four tables of players were present.

The Woman's Missionary society of the Christian church held its September meeting Thursday afternoon in the church parlors. The occasion was not only the regular meeting but a special meeting for all of the societies of the church throughout the United States. A play, "Prayer Answered," presented in dialogue form, pantomime the progress of the society for the last 50 years. Mrs. J. D. Tucker, Mrs. Brown and Mrs. E. O. Raines dressed in the costumes of a half century ago and representing the women who organized the society took leading parts. Mrs. Dana Updegraff had charge of the expression of presentation of the aims on the local field for the next year was also given. All the parts were well taken and the program proved to be not only interesting but most instructive. Thirty-nine members responded to roll call and 19 visitors were present. At the close of this unusually pleasant afternoon refreshments were served.

The Acirema club met Friday afternoon with Mrs. E. B. Johnson on Eighth avenue east. The usual business was transacted and roll call answered with a presentation of plans were made for a picnic Wednesday evening, Sept. 12 at the home of Mrs. W. M. Fisher, at which the husbands and families will be entertained. The remainder of the afternoon was spent socially and refreshments served. Those present were Mesdames E. J. Finch, W. M. Fisher, C. D. Hunt, E. E. Crabtree, J. W. Laubenstein, E. F. McNow, C. E. Potter, C. Ivon Price, R. D. Stover, H. J. Wenger, William Baker and Mrs. S. H. Proctor of Kimberly.

The Presbyterian Ladies' Aid met with Mrs. Frank W. Livanough on Sixth avenue north Thursday afternoon. A business session was held at which it was decided that the bazaar would be held about the middle of November. Sewing and conversation and an informal talk by Mrs. H. W. Cloucheck telling of the day spent by herself and Mrs. W. E. Nixon at McMan, Ore., where the 80th anniversary of the Old Oregon Trail was celebrated and where they were privileged to see President and Mrs. Harding, made the hours pass pleasantly. Refreshments were served at the close of the afternoon.

The first meeting of the fall of the American Legion auxiliary was held Thursday evening at the Business Women's club rooms. Several matters of business were transacted and plans discussed for a box social to be held September 11 jointly with the War Mothers and American Legion. Mrs. Burton E. Morse, president of the auxiliary, gave a very comprehensive and interesting report of the state convention held at Atlanta, which she attended as a delegate from the local unit. At the close of the evening refreshments were served by the hostesses, Mrs. Z. H. North, Mrs. W. H. Dwight and Mrs. C. H. Krongel.

HELD ON LIQUOR CHARGE

Castleton Man Must Answer in District Court for Two Bottles of Moonshine Found by Officers

Verno Taylor, Castleton, was held under \$500 bond to answer in district court to a charge of illegal possession of liquor, following a preliminary hearing conducted Friday afternoon by Judge O. F. Evans in probate court here. Taylor was arrested recently by operatives of the sheriff's office, who testified that they had discovered and seized two quart bottles of moonshine whiskey in his residence near Castleton. Taylor was represented at the hearing Friday by Attorney C. G. A. Drevlin of Buhl, the prosecution being conducted by Prosecuting Attorney J. W. Taylor.

entertained for their husbands and families Thursday evening at the home of Mr. and Mrs. Matt Schmidt, with a lawn picnic. Games were enjoyed and the younger guests furnished a short program of songs and speeches. At midnight the picnic lunch was served. There were 49 adults and 40 children present.
