VOL. 6, NO. 133. TWIN FALLS, IDAHO, SUNDAY MORNING, SEPTEMBER 9, 1923. PRICE FIVE CENTS

SALE OF WHEAT TO JAPS WOULD HELP FARMERS

Jewett Sees Better Prices for Americans Coincident with Providing Needed Aid to Stricken People

MINNEAPOLIS, Minn., Sept. 8 (AP)—Providing wheat and breadstuffs for the starving refugees of the Japanese earthquake would serve a double purpose and would be a benefit both to the United States and the Japanese people.

Exportation of a large amount of wheat and flour would result in better prices to American farmers, Mr. Jewett said, and would introduce to the Pacific country a food that heretofore has been confined there in relatively small quantities.

NATIONS AGREE ON CLAIM PLAN

United States and Mexico Sign Conventions Providing for Damage Adjustment

WASHINGTON, Sept. 8 (AP)—Two conventions providing machinery for the settlement of claims between the United States and Mexico were signed today, one in Mexico City and the other at the state department here by plenipotentiaries of the two countries.

Eclipse of Sun to be Viewed by Record Audience

Impressive Pageant of the Skies Will be Visible to Centers of Population

LOS ANGELES, Sept. 8 (AP)—When the sky unfolds its most impressive pageant—a total eclipse of the sun—along the coast of southern California Monday, the largest audience in the history of modern science will be on hand to view it, according to astronomers gathered in this section to study various phases of the phenomenon.

President Enjoys Second Trip Down Peaceful Potomac

WASHINGTON, Sept. 8 (AP)—President Coolidge made his second trip down the Potomac today on the presidential yacht Mayflower. He was accompanied by Mrs. Coolidge, his sons John and Calvin Jr., and his two secretaries.

REPORT DEATH OF AMBASSADOR

Washington Unable to Account for Rumor of Woods Being Lost in Disaster

OSAKA, via Shanghai, Sept. 8 (AP)—A report is current here that the American ambassador, Cyrus E. Woods, and Mrs. Woods have lost their lives at Tokyo.

WASHINGTON, Sept. 8 (AP)—State department officials are at a loss to explain the reported death of Ambassador Woods in Japan, in the light of several messages received from Japan since the earthquake and signed in Mr. Woods' name.

DESTROYERS RUN AROUND

LOS ANGELES, Sept. 8 (AP)—The United States destroyers Spree and Dealey were hard aground last tonight with the mine sweeper Partridge and the U. S. S. Melville standing by, according to a message received by the United States submarine base at Los Angeles harbor.

RESCUE SHIPS SEARCHING FOR WRECK VICTIMS

Pacific Mail Liner Cuba Goes Aground Off San Miguel Reef; Officer and Crew Members Adrift in Small Boat

LOS ANGELES, Sept. 8 (AP)—All passengers of the Pacific Mail liner, Cuba, which went ashore on a reef off the southeast corner of San Miguel island this morning, have been rescued by the United States destroyer Reno, according to a message from the Reno received by the government radio station here.

The message said that Chief Officer Wise and eight members of the crew of the Cuba were at sea in an open boat and had not yet been found by searching parties.

Officers aboard the Reno predicted the Cuba will be a total loss, the message stated. The engine room and holds 1, 2 and 3, are flooded. The Reno is said to be headed south.

FEW SURVIVORS SAVED

SAN FRANCISCO, Sept. 8 (AP)—The Cuba was wrecked this morning and some survivors already have been picked up, according to a message received at naval radio headquarters here.

The Cuba is believed to have had about 125 passengers on board. Her crew approximates 70, and her average north bound passenger list is 35 first class and 40 steerage.

Messages picked up by the Federal company's station at Los Angeles and forwarded here indicate two U. S. destroyers, the Reno and the Melville, the latter flagship of a destroyer division, are aiding the Cuba's passengers.

Rush Message. The Cuba was in trouble was in a message picked up at 4:08 p. m. This asked the Los Angeles Federal station to advise the Ingleside navy radio station that the Melville had a rush message for him.

MILLIONS LABOR FEVERISHLY IN CLEARING AWAY TREMBLOR RUINS

RING OF BAYONETS GUARDS OFF INTRUDERS AS WORK PROGRESSES

Shortage of Food in Yokohama Is Unspeakable; Refugees Turn Faces Skyward to Drink Falling Rain; Number of Dead Is Still Uncounted; Stamp Out Plot to Loot Stores

LONDON, Sept. 8 (AP)—Within a ring of bayonets extending around the gigantic shambles where a week ago Tokyo and Yokohama were in flames, teeming millions of Japanese are feverishly laboring, piling up the dead, clearing away the ruins and building temporary structures, to house the homeless thousands, who are cramped like great armies in tents in the streets and the plazas where the cities stood.

When every other instrument of labor and order seemed annihilated with the new cabinet only in the process of taking office, the Japanese government still had its army.

The army had its own transport and its own commissariat ready for earthquakes, for in a land of rumbling volcanoes, night, fire and earthquake, weekly and disastrous typhoons every year, horror is never far away.

Immediately after the first great shock a week ago long lines of khaki-clad troops marched toward the stricken district from the barracks which top many of Tokyo's hills and knolls, and provincial divisions were ordered to the district around the capital.

The agreement would make the next contract expire August 31, 1925. Besides approval by the scale committee, it requires ratification by the miners at a convention of the three mine workers' districts in the anthracite field before the present suspension can be terminated.

(Continued on Page Five)

ACCEPTANCE OF PEACE TERMS SAVED LEAGUE

Nations of the World Relieved at New and Favorable Turn Toward Settlement of Greco-Italian Difficulties

ROME, Sept. 8 (AP)—Greece has sent an ultimatum to Albania demanding the delivery within five days of those responsible for the murder of the Italian mission, according to Greek newspapers.

ROME, Sept. 8 (AP)—Italy accepts the terms of the council of ambassadors and agrees to evacuate Corfu and adjacent islands when Greece has satisfied all of Italy's demands for reparations.

LONDON, Sept. 8 (AP)—Greece accepts the stipulations of the council of ambassadors relative to the Greco-Italian controversy, without reservation, according to an Athens dispatch to the Sunday Express.

PARIS, Sept. 8 (AP)—A feeling of relief and optimism is prevailing tonight in official and diplomatic circles which look with satisfaction upon the action of the inter-allied council of ambassadors in the Greco-Italian crisis.

After notifying Greece of the terms of the settlement that has been agreed upon by Italy at yesterday's session, the council met this afternoon to draw up the instructions which would be given to the inquiry commission, to be appointed by the inter-allied council of the assassination of the Italians which brought about the controversy.

All the danger has been taken out of the crisis, officials here are inclined to believe, though it is everywhere recognized that considerable more negotiation will be necessary before the matter is finally settled.

The action of the ambassadors has been received with great satisfaction in French circles, where it is regarded as a triumph for Premier Poincare, who has insisted all along that there was nothing in the Italian practices not directly interested in the conflict tried to settle it.

This method of settling the Janina affair is considered here gives full satisfaction to Italian national honor, is expected to have some effect on the Flume controversy. In diplomatic circles it is regarded that Italy has won the day in keeping its conflict with Greece out of the league of nations, probably will be facilitated to go slowly in its dispute with Jugoslavia.

Avoided Collapse. The general comment here is that the council of ambassadors has saved the council of the league of nations from a most embarrassing situation and has averted the danger of the league running into a pitfall. The French press is almost unanimously of the opinion that interference of parties outside of the league in the Greek dispute is more likely to aggravate than to conciliate, and that even intervention by the league would be dangerous unless the imminence of war was unmistakable.

CRITICIZES STATEMENT. ATHENS, Sept. 8 (AP)—The Italian ambassador to Greece, Signor Montagna, called at the American embassy here today.

(Continued on Page Five)

ONE PLACE WHERE AMERICA CAN PARTICIPATE IN FOREIGN AFFAIRS WITHOUT HESITATION AS TO CONSEQUENCES

MINE MEN SIGN NEW AGREEMENT

Two-Year Contract is Approved by Union Men and Operators in Hard Coal Field

HARRISBURG, Pa., Sept. 8 (AP)—Representatives of anthracite operators and miners today agreed to the terms of a proposed new two-year wage contract. The union scale committee immediately approved the agreement and fixed September 17 as the date for a tri-district convention at Scranton at which it will be submitted for ratification by the miners.

Favorable action by the tri-district convention, upon officials said, would result in a resumption of the mines closed under suspension orders since September 1, on September 19. The new contract will be signed by representatives of the miners and operators in Harrisburg, but the union leaders said it would not be necessary to await formal signing to resume work.

The agreement would make the next contract expire August 31, 1925. Besides approval by the scale committee, it requires ratification by the miners at a convention of the three mine workers' districts in the anthracite field before the present suspension can be terminated.

Union leaders said the tri-district convention probably would be called for September 17 at Scranton. The new contract, if the agreement is ratified by the convention, will be signed in Harrisburg. Governor Pinchot said the principals would return here for that purpose.

The program goes through the men probably will be back at work September 19 or 20. Provisions in the new agreement, drawn up in conferences which continued almost steadily throughout the day, were based generally upon the four points of the settlement plan put forth by Governor Pinchot, who said representatives of the operators and miners together in Harrisburg last week.

MINTER IS FOUND GUILTY

Jury Returns Verdict Carrying Life Imprisonment in Case of Killing of Defendant's Brother-in-Law

NEWARK, Ga., Sept. 8 (AP)—Grady Minter late today was found guilty of murder with recommendation for mercy, by a jury here in connection with the death of his brother-in-law, Millard Troutman, whose body was found floating in a creek near the Corwetta county line. The verdict carries a term of life imprisonment.

Grady Minter confessed that he was a member of a party that kidnaped Troutman and threw his body in the creek.

J. W. Minter, father of Grady, was found guilty of the murder of Troutman yesterday and late today was sentenced by Judge C. S. Roper to be hanged on October 12 between the hours of 10 a. m. and 2 p. m.

Three members of the crew fighting fire in the San Roque canyon lost their lives in the flames, it was feared at detection headquarters tonight. The three men were fighting the fire this morning when they were trapped by cross fire.

DISPATCH SUPPLIES. RIGA, Sept. 8 (AP)—The Moscow government has ordered the Vladivostok authorities to dispatch to Japan the steamer Lena with medical supplies and foodstuffs.

Prevent Seizure of Jap Arsenal by Enemy Group

Direct Report Declares 200 Koreans Frustrated in Plot at Scene of Recent Tremor

MOSCOW, Sept. 8 (AP)—The first direct Tokyo dispatch received at Moscow from the consulate of the Russian official agency, one dated September 5 and the other September 7, declare that 200 Koreans attempted to seize the Japanese arsenal at Hamhung, but without success; they were also frustrated in their attempt to seize the radio station. The official Japanese press bureau announced that the Koreans have been arrested for their own safety. The correspondent adds that by Koreans are meant also the enemies of the present Japanese government, whatever their nationality.

LEGION WINNER IN CLOSE RACE FOR CLEMENCY

Pardon on Manslaughter Conviction Issued to Service Man by Lieutenant-Governor After Exciting Contest

JACKSON, Miss., Sept. 8 (AP)—The American Legion has obtained a pardon for Shary Woborn, former service man, and in accomplishing the feat afforded that part of Mississippi between Pikeson and Jackson and along the Illinois Central railroad from McComb to the Louisiana state line, great excitement.

It was a race between two powerful automobiles, one from Jackson to Canton, 24 miles, the other from Pikeson to Canton 20 miles, and an Illinois Central flier with Governor Russell aboard bound north from New Orleans. The Legionnaires had set out to meet Lieutenant-Governor Homer Cantell at Canton before the train crossed the state line at Osyka, and they won the race with only eight minutes to spare.

Woborn served in the navy during the world war and, according to the veterans' bureau, it later developed he had become mentally defective as a result of exposure at sea. In 1919 he committed manslaughter. In Jasper county and had barely begun to serve a sentence of eight years before the Legion, the veterans' bureau and hundreds of Mississippians started a campaign for a pardon in order that the offer of the veterans' bureau to send him to a hospital for treatment might be accepted.

Legion Sees Chance

Governor Russell steadfastly refused clemency and the minutes of every local post of the Legion in the state, and those of the state organization, contain resolutions condemning him for his failure to act favorably. Governor Russell visited Memphis, Tenn., for a day last spring and during his absence the lieutenant-governor issued a pardon. As a result of the controversy that followed the legal authorities ruled that the lieutenant-governor had power to grant clemency acting as chief executive. The governor countered with the declaration that not until his term expired in January would he again leave the state, but he did so last night and it was this the Legion took advantage of.

Curtis Green, state commander of the Legion, heard a rumor this morn-

ing that the governor was in New Orleans. By the time he had confirmed the report he was advised Mr. Russell had boarded a train for Jackson, and realizing the governor had to travel only 30 miles to reach the state, Green got busy. Legionnaires at Illinois Central stations in south Mississippi were ordered to watch the train, report the governor's presence on board and capture the time of his arrival at Osyka, on the state line.

End of Close Race

Breathing a prayer that a freight train ahead of the flier might ditch a box car somewhere in Louisiana, or tie up traffic temporarily, with a hotbox, Green and his co-workers here telephoned the lieutenant-governor at Pikeson to go to Canton as quickly as possible. Green, Woborn's attorneys, who also are former service men, and Secretary of State Joseph W. Bower, armed with the legal pardon forms started from Jackson in another car. The lieutenant-governor drove from Pikeson to Canton. Meantime the party from Jackson was rushing northward. Both cars dived up at the Madison county court house simultaneously and the lieutenant-governor signed Woborn's pardon at 10:18 a. m. The train bearing the governor crossed the state line at Osyka at 10:25, a fact which the Legionnaires watchman at that point duly reported.

Woborn will be sent to a government hospital in Wyoming, where, specialists declared, he can be cured of his mental trouble.

BROTHERHOODS TO ASK WAGE PREVAILING BEFORE 1921

CHICAGO, Sept. 8 (AP)—Restoration of wages in effect before the cut of July 1, 1921, will be asked by the various brotherhoods of firemen and engineers in this country and Canada, with the fulfillment of the present contracts expiring from now to January 1, 1924. It was voted Friday at a meeting of general chairmen of the International Brotherhood of Firemen and Engine-men.

WAR VETERANS RETURN HOME

Milwaukee Bids Farewell to Last of G. A. R. Men with Rounds of Cheers

MILWAUKEE, Wis., Sept. 8 (AP)—Milwaukee said farewell to the members of the Grand Army of the Republic yesterday. A week ago the vanguard began arriving and the city was gay with martial music, as squad after squad of the boys of '61 marched proudly to their headquarters.

Yesterday the throbs of the drum were still and the high-pitched note of the life was missing, as one by one, and in little groups, the heroes of a departed day found their way to the railroad station, homeward bound.

Their coming and departure was not unlike that of the victorious army of the north more than a half century ago. They were welcomed with cheers, which reached the greatest heights when the thin blue line wavered through the ordeal of the annual review, the heart of the victorious war-

rior again beating under the blue coat.

It was only the spirit of other days which carried the tottering remnant of the once great army through the mile and two-tenths march. For all it was a trial; but for some a test too severe. Battle days must have been recalled distinctly, as from time to time a comrade, a victim of the ravages of time, would drop out to be cared for by those in charge of the emergency stations. Fourteen of the score or more who fell by the wayside were treated at hospitals.

But it had been a week worth while. Many of those they had formerly greeted by boyhood name were missing. For the first time in the history of the encampment the flag of a department has stood furled throughout the week—Arizona not finding enough answering the roll call to send a representative—but the best days of their lives had been lived again.

They were old men as they sought their berths in the sleeping-cars a great many knowing this has been their last encampment, but the spirit of other days never failed, for their last words to a comrade as his train pulled out were "I'll see you in Boston next year."

What is useless to you may be valuable to others—advertise it in the classified column.

ALL COAST HOUSES ARE DESTROYED BY WAVES

SHANG HAI, Sept. 8 (AP)—The Nihon Dempo agency reports that not a single house remains in Kamakura and that all villages along the coast in that locality were destroyed by a tidal wave. The tidal wave came when hundreds of bathers were in swimming. All were reported swept out to sea and drowned.

When getting ready for your school books and school supplies don't forget that you will find everything in this line at Robbins' Book Store.—adv.

HEAVY RAINFALL PUTS DAMPER ON GRAMP'S PLANS

Recovering from Severe Cold, Dempsey Disappointed at Being Forced to Stay Indoors During Storm

SARATOGA SPRINGS, N. Y., Sept. 8 (AP)—Jack Dempsey paced the floor of his training quarters today like a caged tiger. As he paced he kept the champion from going through his daily workout in preparation for his championship fight with Luis Angel Firpo next Friday, and despite Dempsey's pleadings, James J. Brannan, refused to permit any activities in the water-soaked ring adjoining the camp. Dempsey was disappointed even more than 50 picketers who had come from St. Louis to see the champion in action. They had gathered around the cottage on the bank of Saratoga lake and were all prepared to watch a few rounds with the sparring partner.

Dempsey had just recovered from a severe cold which forced him to lay off work for a few days and his manager felt that taking the rains on water-soaked canvas would produce no beneficial effects. Consequently Dempsey settled down to a game of cards and later had a talk with Jimmy DeForest, who is training Firpo for his match with Jess Willard. Dempsey did not say what he learned about the husky Argentinian, but there were those who felt he did not ask about it.

Some disappointment was expressed in camp today when it was learned that the Jamaica Kid and Jimmy Delaney, St. Paul light heavyweight, who had been expected to arrive as sparring mates, would be unable to show up. The Jamaica Kid notified Kearns that he was suffering from sore ribs as the result of a recent bout, while Delaney has an injured hand. Kearns said, however, that they were not badly needed, as Dempsey was in prime condition.

Jack Doyle, a former boxer and now chiropractor at Canton, N. Y., has been asked to the staff. He will direct the massage artists as they rub down the champion after his workouts.

REDS DROP INTO THIRD POSITION

St. Louis Takes Double-Header from Yanks, 5 to 4 in First, 13 to 4 in Second

ST. LOUIS, Sept. 8 (AP)—By losing both ends of today's double-header the St. Louis Nationals the first, 5 to 4 and the second 13 to 4, Cincinnati dropped to third place in the league standing, five and a half games behind the leading New York Yankees.

The first game went 13 innings, the Cardinals coming from behind in the latter part of the game and winning out in the thirteenth on Blades' double and singles by Hornsby and Stock.

In the second game the Cardinals pounded Keck and Harris for 15 hits, seven of them for extra bases, while Sherdel led the Reds and hit three.

LEADERS LOSE TO WASHINGTON

Senators Shut Out New York 4 to 0; St. Louis Takes Two from Chicago

WASHINGTON, Sept. 8 (AP)—Zahner shut out New York today, 4 to 0, by leading the leaders but five hits. Washington bunched hits to score on Tenbrook. Zahner was wild at times but held New York from the plate by strong work on the pitchers, coupled with support.

Score: R. H. E.
New York..... 0 0 0
Washington..... 4 0 0
Batteries—Tenbrook and Hofmann; Zahner and Rud.

SECOND GAME CLOSER

CHICAGO, Sept. 8 (AP)—St. Louis defeated Chicago in both games of a double-header today, 7 to 3 and 1 to 0. In the first game Claude Gillenwater weakened in the fourth inning and was driven off the mound, after the visitors had taken a big lead. The locals were unable to do much with Danforth. The second game was a pitching duel between Kolp and Robertson, the only run of the game resulting from a pass, and in field out and a hit.

First game: R. H. E.

Flyweight Champion Is Given Newspaper Decision Over Bud Taylor at Chicago

CHICAGO, Sept. 8 (AP)—Pasccho Villa, world's flyweight boxing champion, defeated Bud Taylor of Terre Haute, Ind., in a fast ten round bout at Hawthorne racetrack here this afternoon. Being given the newspaper decision over his opponent.

Villa had the better of the fight throughout with the possible exception of the fifth round when Taylor used a left jab and left hook effectively to take the round on points.

Villa entered the ring at 109 3-4 and Taylor at 115 pounds. Both started to fall as the men climbed through the ropes at 5:45 o'clock, making the canvas slippery and effective work by the fighters difficult.

Taylor used his superior height and reach to good advantage in trying to hold Villa off. The first two rounds were slow, each man waiting for the other to lead. The third round was a bit and in the fourth Villa came out of his shell and fought Taylor all over the ring, using a left hook to the stomach for his most effective punches.

Taylor came back strong in the fifth, but the next three rounds were slower, Villa getting in the most effective hits. In the sixth Villa met Taylor in the center of the ring and standing toe to toe outlasted him throughout the frame. The tenth round slowed down but the final bill found both little

HEAVY GRIND IS FIRPO PROGRAM

Angel's Ability Shows Both Weakness and Strength in Workouts of Day

ATLANTIC CITY, Sept. 8 (AP)—Louis Angel Firpo continued his heavy edge grinding today in preparation for his fight with Jack Dempsey in New York, September 14.

The South American, in six rounds of sparring in the afternoon, appeared both good and poor in spots. He went two rounds with John Lester Johnson for a starter and showed to better advantage today than in a second two rounds he boxed with the negro heavyweight yesterday. John Lester was able to poke sharp punches to Firpo's jaw yesterday and to make some of Firpo's punches fan the air, but today it was different.

Punishes John Lester
John Lester took some punishment yesterday and a whole lot today. Firpo straight lefts to his jaw and sent streaked rights thudding into his body and head and blocked most of John Lester's blows.

Young Bob Fitzsimmons stepped two rounds with the South American champion, and while Firpo showed well in punching, he made several awkward "get-aways," crossing his legs and throwing himself off balance.

He outlasted Fitzsimmons, naturally, but was in turn outboxed. A two-round engagement with Joe McCann was merely a game of give and take.

Answering some of the critics who, after watching the workouts, ventured the opinion that Dempsey would dispose of Firpo in less than six rounds, the South American's handlers declared that Firpo in training and Firpo fighting Dempsey will be like Firpo playing fiddlesticks and Firpo throwing bottles.

Can't Match Skill
The Argentinian evidently does not intend to attempt matching Dempsey's boxing skill. His chances to win the title lie in his punching ability, they say, and he isn't going to try any fancy stuff. His battle plan will probably be to carry a shocking attack to the title holder in the beginning of the fight. The right hand will be relied upon to win the title, but the left will be held ready to advance at weak points.

The Argentinian, his trainers say, will be in superb condition for the fight and will be capable of absorbing a great deal of punishment if necessary. His leg development is especially good, his jaw like steel and his body like a great shock absorber.

Benny Leonard, lightweight champion, visited the South American's camp today.

BRINGING STRONG TEAM

Shoshone Aggregation with Jerome Championship Players in Line-up Promotes Interesting Baseball Game

Shoshone is coming with a strong team for Sunday's game, in the word from the north sides Saturday. And there is no doubt about the local team being in tip-top shape, using the lineup as used all the latter part of the season they will be in the best of shape for Sunday's encounter. With Garrity twisting and all-right support, there shouldn't be much doubt as to the outcome.

The game is called for 3 o'clock.

DEFENSE REMAINS QUIET

CINCINNATI, O., Sept. 8 (AP)—Coincident with the filing of the suits of Sammy Bohne and Pat Duncan asking for \$50,000 damages each from Collier's Eye, in Chicago Friday, Barritt O'Hara, counsel for the Chicago sports publication, arrived in Cincinnati and conferred with a number of sporting men and baseball fans. He said he would spend two or three days here.

"I cannot, of course," said Mr. O'Hara, "give out details of my case in advance except to say that Bert Collier welcomes a full investigation of the whole affair. It will also say this: That there was enormous betting in Chicago on the now famous Red-Giant series and that a sudden flood of money was poured in one day before the series opened, on the proposition that the Giants would take a majority of the games. Investigation has shown that plenty of money was wagered in New York and now I am trying to learn the exact state of affairs that prevailed among betting circles in Cincinnati."

Leaves for East—Dr. and Mrs. George H. Caldwell and children left Friday for a six weeks' trip to several eastern cities.

NEW AMERICAN RECORD MADE

Joie Ray Features in Flashy Mile Race at Pre-Olympic; Break Relay Mark

Sept. 8 (AP)—A spectacular mile race by Joie Ray—1 minute 14.5 seconds—two flashing sprint victories by Loren Murcheison and the establishment of a new American record for the 440-yard girls' relay stood out against a background of brilliant performances this afternoon at the Wilson Athletic association's pre-Olympic carnival.

Harry Edwards, negro, English sprint champion, failed to set any record of his own, negotiating the 440-yards in 52.4.5 seconds.

TOKIO WILL REMAIN AS JAPAN'S CAPITAL CITY

"We Must Unite and Rebuild," Says Government's Official Statement Relative to Great Disaster

HONOLULU, Sept. 8 (AP)—Tokio will remain the capital of Japan, despite the disaster that has visited that city, according to a formal joint statement issued today by Premier Yamamoto and Viscount Goto, minister of home affairs, said a report received by the Hawaii Shiping, Tokio-correspondent.

"We must unite and rebuild," said the statement. "A brave nation must always be brave. It must be braver in hardships than in ease. Therefore, it is our earnest desire that the whole nation unite to do everything in its power to rehabilitate and finish it as soon as possible."

SALE OF TICKETS FOR FIGHT HITS \$800,000

Advance Exceeds Any Previous Title Match Promoted by Rickard; Fighters to Get \$800,000

NEW YORK, Sept. 8 (AP)—The advance sale of tickets for the Firpo-Dempsey fight at the Polo grounds next Friday night has amounted to approximately \$800,000, Tex Rickard revealed today. The promoter said it exceeded the advance sale for any previous title match which he has promoted, including the Dempsey-Carpenter fight which established a record "gate of \$1,000,000 two years ago."

In the event of a sell-out for the Firpo-Dempsey match, Rickard said, the total receipts will reach \$1,250,000. The seating capacity of the Polo grounds will be about 80,000. Half of this amount, or more than \$600,000, would go to the fighters under the terms of their contracts, for they are to get 50 per cent of the gross total. Dempsey, whose share is 1-2 per cent, would receive more than \$350,000, and Firpo, with 12 1-2 per cent, would get more than \$150,000. These percentages are fixed as the maximum by the state athletic commission.

REMEMBERS GENEROSITY OF FRANCE TO AMERICA

Former Attorney-General Records Lendency Extended by French when United States Needed Aid

NEW YORK, Sept. 8 (AP)—France's generosity to America and her willingness to press for a speedy repayment of our revolutionary war debt, were recalled Thursday by George W. Wickereham, former United States attorney general, speaking in commemoration of the birth of Lafayette and the battle of the Marne, at Governor's Island. Messages were received from President Coolidge and President Millerand, Premier Poincare, Secretary Hughes, Marshals Foch and Joffre and from many state governors and mayors.

"The bill for money advanced to us by France and Frenchmen in our war of independence never was presented us by a collection agency," said Mr. Wickereham. "Why should we, with our vast wealth, be more rapacious than impoverished France of 150 years ago? We, in the great war of 1917-18 lent out of our abundance. France, in our hour of need gave us out of her slender treasury with unsparring hands."

Such circumstances, he declared, sharply distinguished loans made during great emergencies from ordinary debts arising in trade.

NOTICE FOR PUBLICATION OF TIME APPOINTED FOR PROBATE

In the Probate Court of Twin Falls County, State of Idaho. In the matter of the estate of Emma Bush, Deceased. Pursuant to an order of said Court, made on the 8th day of September, 1923, notice is hereby given that Monday, the 24th day of September, 1923, at ten o'clock a. m. of said day, at the Court Room of said Court, at the Court House in the County of Twin Falls, Idaho, will be appointed as the time and place for proving the Will of said Emma Bush, deceased, and for hearing the application of J. H. Bates for the issuance to him of letters of administration with the will annexed when and where any person interested may appear and contest the same.

Dated September 8th, 1923. O. P. DUVAL, Probate Judge.

The Studebaker Light-Six Five-Passenger Touring Car \$995

Don't Experiment Buy a 1924 Studebaker

The 1924 Studebaker Light-Six Touring car, with its refinements and improvements, offers the closest approach to mechanical perfection in moderate priced cars yet produced.

It continues to set the pace in the amount of value for the money invested. No radical departure from approved design has been attempted. There's nothing experimental about it—everything of recognized merit. Every vital unit has proved its satisfaction in the public use.

No matter how much money you expect to invest in a car, by all means see this Light-Six Touring car, ride in it—and drive it yourself. It is then that you realize the difference.

Comparison with other cars costing more or less—will provide convincing proof of its greater value-for-dollar value, its dependable performance, ample power, extreme comfort, and many other desirable features.

The Light-Six is practically free from vibration because Studebaker machines the crankshaft and connecting rods on all surfaces. No other manufacturer follows this practice on a car at anywhere near the Light-Six price. This is just one of many superlatives.

After seventy-one years, the name Studebaker enjoys confidence and respect more than ever.

New all-steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in base. Side sections of weatherstripping bound on durable steel rods, open with doors. Removable upholstery in tonneau. Door pocket flaps with weatherstripping. Locks secured in genuine leather. Large rectangular window in rear curtain. This new transmission lock.

SCOUTS PLEDGE AID IN RELIEF

Patrol Leaders' Convention Puts Organization at Command of Red Cross

Boy scouts of southern Idaho, through their delegates at a patrol leaders' convention which Saturday opened two days' convention sessions here, have pledged their assistance, and placed themselves at the command of the Red Cross in carrying out their program for the relief of the suffering people of Japan.

Through their delegates at a patrol leaders' convention which Saturday opened two days' convention sessions here, have pledged their assistance, and placed themselves at the command of the Red Cross in carrying out their program for the relief of the suffering people of Japan.

Addresses at the afternoon session were made by E. Douglas Hawley, scout executive of the Snake river district, and E. W. Clark, executive of the Boise scout council.

Sixty scouts and 11 adult scout leaders and guests attended the banquet in Tom's cafe marking the close of the first day of the convention.

Scout training in its relation to the affairs of everyday life was the theme of the several talks on this occasion. Proof in the daily life of scouts that they are putting into practice the scout oath and law is the sole purpose of the scout organization, Mr. Clark declared.

Plea of adaptability on the part of both parents and children, their relations with each other and for manifestation of interest on the part of each in the interests of the other, was voiced by Mrs. Joslyn.

Mrs. Wolfe reviewed the junior administration of the city of Twin Falls, and the training for citizenship furnished by this experience.

Convention sessions will be continued Sunday, with determination in the forenoon for church services. Delegates and convention visitors will attend services at the Presbyterian church, where a special address will be given by the Rev. A. G. Pearson.

ACCEPTANCE
(Continued from page one)

can legation yesterday to protest against declarations attributed to Colonel Stephen E. Low, head of the Near East Relief, regarding the recent bombardment of Corfu by the Italians.

In reply to Signor Montagna's protest, Colonel Low stated that a copy of his report be transmitted to the Italian minister.

In his report, in summing up, Colonel Low says:

"From my personal observation of events and from the facts stated it would appear that the bombardment was entirely unnecessary. One officer with a handful of men could have accomplished the occupation without firing a single shot. Nothing could justify the firing of practically all the guns at a building which they knew was occupied not by anything of a military nature, but by defenseless refugees."

STATE CONTRACT BLOCKED

SALT LAKE, Sept. 8 (AP)—State Supreme Court Chief Justice W. H. Weber of Utah, today declared unconstitutional a contract entered into recently between Governor Charles Mabey and a local manufacturing concern whereby prisoners in the Utah state prison would manufacture shirts and overalls for the company.

MILLIONS

(Continued from Page One)

Around the devastated districts was thrown a line of soldiers which cut off Tokyo and surrounding towns from the rest of Japan. Only those on government business or only workers with sufficient supplies of food to maintain themselves were permitted to pass. Even newspaper correspondents and photographers had the greatest difficulty in gaining entrance.

Through the military lines were escorted thousands of refugees, walking, riding on rickshaws and man-pulled carts, carrying all worldly possessions; they were on their way back to the country districts, to remain there until new houses have been constructed.

Control Relief Work

When the land and sea disturbances settled down and the fires burned themselves up to the barriers of the palace moats and the wide lanes which had been torn by the first fighters, other military forces, working on which all energy is now concentrated. The military is also in control of all incoming relief supplies, which are being distributed to the destitute.

One week after the catastrophe the dead remain uncounted. Each evening in the streets, covered with rice straw lie in the streets, victims who are being removed to cemeteries and work of collecting other bodies starts fresh. Little time for identification, and little use to attempt it in the case of those who met death by the flames. Inquests are held hundreds at a time.

Bickel Approves of Short Line Policy

One of Builders of Twin Falls Irrigation System Sees Main Line in Prospect

Satisfaction with the progress made by the proposed short line toward construction of the Rogerson-Vault railroad, was expressed Saturday by Paul S. A. Bickel, civil engineer, who played a prominent part in the building of the Twin Falls Irrigation system, who is a visitor here from Boise.

"I would much rather see the Short Line take a little more time to find the best possible route for the new road than to see it begin building at once on the first route over which a railroad could be built. It looks to me like the Shing Lee is preparing to build a main line south from Twin Falls," Mr. Bickel said.

Construction of the new railway, Mr. Bickel declared, will place Twin Falls county on a basis of permanent prosperity.

RESCUE SHIPS
(Continued from Page One)

regarding "the survivors of the Cuba." A few minutes later the Ingleswood station advised the Melville that the destroyer Reno was cruising near San Miguel, "picking up survivors."

The message, which was from the commander of the destroyer squadron of the United States fleet, aboard the Melville, was to the commander of the eleven and twelve naval districts, at San Diego and here. It said: "U. S. Reno has picked up survivors of Cuba which went on San Miguel this morning in a motor proceeding to vicinity to pick up other survivors. Will proceed San Diego to land them. Please notify Pacific Mail."

When Once German Ship.
The Cuban's schedule would bring her into this port tomorrow, normally. The vessel has been on the run between this city and Central and South American ports for some time. She is a steel twin screw steamer of 3168 tons. She was built in 1907 by Blohm and Voess of Hamburg, and originally was known as the Colnsee. As one of the German steamers seized when the United States entered the war she was renamed the Melville. It is her home port.

Attendance Record Set at Convention

L. D. S. Stake Conference and Meeting of Five Auxiliary Bodies Brings Many Together

Establishing a new attendance record, two days' sessions of the five auxiliary group conventions in connection with a regular quarterly conference of the Twin Falls stake, Latter Day Saints church, opened here Saturday morning. Because of the large attendance it was announced Saturday evening, all sessions Sunday will be held in the high school building.

The conference and conventions will close Sunday evening with a general session with general authorities of the church, George Albert Smith and Lucy W. Smith, who will delay their departure for the particular purpose of attending this meeting.

George D. Pyper, Sunday school general superintendent; Alice Reynolds of the Relief society board, and Mary Jack of the primary board will leave returning to Salt Lake Sunday evening. Priesthood authorities and stake and ward officers and teachers of all auxiliary organizations were guests Saturday evening at a social given in the Second Ward meeting place under supervision of the Mutual Improvement association stake committee on reception.

BIG GAME HUNTER VISITS

J. W. Skelton, well known big game hunter and guide of Southeast Idaho, is spending a few days here, arranging for addition of a number of horses to his pack string and meeting with local sportsmen and hunters relative to their plans for hunting trips this fall.

Necessity for increasing his string of pack horses, Mr. Skelton says, has resulted from arrangements made with the Salt Lake hotel manager for services of guides and helpers for parties aggregating more than 100 persons coming from Utah this fall to hunt in the central Idaho hills.

JEROME

JEROME—Mrs. Helen Hancock of Appleton transacted business in Twin Falls the first of the week.

Mr. and Mrs. Ralph Atterton have as their house guest Mrs. Atterton's mother, Mrs. Bailey of Fairfield.

E. E. Shepherd and family have returned to Jerome from their summer home above Galena summit.

Mr. and Mrs. W. T. Porter of St. Louis, Mo., have returned to their home after spending a month's vacation with their daughter, Mrs. A. D. Williamson and family.

The first meeting of the Jerome Civic club was held on Tuesday afternoon at the club house. A good program was enjoyed. Arrangements were made for the year's work and after a social hour tea was served.

E. G. Bond and daughter, Mrs. Whitehouse of Boulder, Colo., have returned to their home after renewing old acquaintances in Jerome for the last few days.

Mrs. W. A. Peters and Miss A. B. Barclay have returned to their home after an extended trip overland to Boise.

Mr. and Mrs. Ashby Pixton arrived in Jerome on Saturday from Salt Lake where they were recently married. Mr. Pixton is manager of the Pixton Bros. store in Jerome and his many friends wish him much happiness. Mrs. Pixton was formerly of Burley.

Miss Helen Johnson left on Monday for Seattle, where she will attend school. She was accompanied by her grandmother, Mrs. Johnson, whose home is in Seattle.

Miss Charbel Petric left on Monday for Salt Lake, where she will resume her teaching in the public school. She spent the summer visiting her brother, George Petric and family, of Burley.

S. L. Johnson of Jerome has returned to his home after being a patient in the Twin Falls hospital for the last two weeks.

Mrs. Bertha Springer was hostess to the Busy Bee club of Sugar Leaf valley on Thursday afternoon. After a social afternoon a hostess served delicious refreshments.

WEARS GOWNS WORTH \$50,000 IN NEW PICTURE

Gloria Swanson's ability to wear beautiful clothes gracefully is the culmination of a youthful desire for extremes in the matter of dress.

This Paramount star admitted while being fitted for some of the new creations she wears in "Bluebeard's 8th Wife," a Sam Wadsworth production for Paramount in which she stars and which will be on view at the Idaho theater next Monday for a run of four days.

"From early training I have learned the real value of clothes," she said. "Because I soon learned to recognize clothes that were too gaudy or too flashy to be really fashionable and beautiful; I learned to avoid them. I learned just to what point to go in dressing to be just right."

In "Bluebeard's 8th Wife" Miss Swanson wears some of the leading advance styles culled by Paris for the coming season. They were especially made for this picture and are valued at nearly \$50,000.

"THORNS AND ORANGE BLOSSOMS"

theatre and that it is a sign of excellence in every respect. Those who have long waited for this world-famed story by Bertin A. Gray, novel, to reach the screen will be thoroughly satisfied by the interpretation given it by Louis Gasnier, who directed it.

A word here about the acting ability of Kenneth Harlan, who plays the much tried American. Harlan gives the most satisfactory performance to be credited recently to a leading man. He is a thoroughly convincing type of young southerner and affords an extremely difficult role an interpretation of excellent force. The great following of picture goers who have long prized his work with the Tammany sisters will be more than ever convinced that Harlan deserves a place of high esteem among screen artists.

ANNOUNCEMENTS

The Pan-Hellenic club will meet with Mrs. Morlin Batley, 102 Reed apartments, on Monday evening. Officers will be elected for the coming year.

Twin Falls Kiwanis club will meet Monday at noon instead of in the evening, according to announcement sent to members Saturday.

EARTHQUAKES

The earthquake, perhaps, is man's oldest and most dread enemy. No one can tell how often a city or race or tribe has been overwhelmed by a catastrophe like that which recently visited Japan. History is full of accounts of such calamities; and there must have been thousands of them antedating all history. If we had full knowledge, it would be a dreadful but fascinating study to trace them back to the earliest beginnings of life on this planet.

"This world was once a fluid haze of light,
Till toward the center set the starry
And eddied into suns, which, wheel-
ing, cast
The planets; next the monster, next
the man."

And all the time, ever since that fiery ball we now call Earth cooled down enough to form a crust of rock over the surface, making a basis for soil and vegetable and animal life, that crust has been breaking and cracking and bending and sinking and is rising and turning over in vast convulsions, under the strain of the cooling.

The mountains are mere wrinkles of the crust; the seas lie in hollows made by subsidence here and there. And always the levels have been changing, the bottoms of seas rising and mountains sinking and islands and continents appearing and disappearing and slanting in new directions and grinding their rocky bones together and pouring up, through holes or cracks in the surface, the molten interior.

All these processes are still going on, scientists find, but over more slowly. Eventually there will be no more volcanoes and earthquakes. The crust will then be all solid, hard and dead, like that of the moon now. But then, too, the race may be dead, killed by the same cold that solidifies the earth and stops its tremors. Perhaps mankind would rather have the earthquakes, after all.

PERMITTED GUN-TOTING

Gunmen never seem to have any trouble procuring or carrying guns. A Chicago gunman covers himself with additional glory by carrying a permit along with his pistol, and thereby stirs up a good deal of excitement in Cook county. So far this year there have been 150 persons in that same county killed by gun wounds.

Giving peaceable citizens permits to carry firearms is not the solution to

MEXICAN TRADE TO BE IMPORTANT IN FUTURE

the problem. A criminal gun-toter is going to use his weapon quicker and to worse purpose anyhow. The advantage always lies with the aggressor. Adequate laws against gun-carrying and gun-selling exist in some places. They should be universal and they should be strictly enforced everywhere.

MUSSOLINI
The most critical question in Europe just now seems to be whether Benito Mussolini, premier of Italy, is bigger than the rest of the continent or the rest of the world.

Mussolini's truculent attitude toward Greece is generally condemned outside of his own country. The almost universal view is that the murder of the Italian members of the Albanian frontier commission, on which the Italian government based its warlike action, was not committed by direct order or connivance of the Greek government, and therefore Greece should not be held responsible for it—at least until guilt is proved.

Greece has pleaded for impartial inquiry and settlement by arbitration, promising to make whatever reparation is pronounced just. She is willing for the League of Nations or any other disinterested body to pronounce judgment. Italy refuses arbitration and accuses impartial inquiry. The Italian government makes itself witty, judge, jury and sheriff, and proceeds to impose punishment and collect damages after the well-remembered manner of the Hapsburgs and Hohenzollerns who plunged Europe into the late war.

"Most of the civilized world has no great friendliness for Greece, because of her betrayal of the Allies in the World War and her erratic conduct since. The present Greek government has poor moral and diplomatic standing. But right is right, regardless of such considerations, and aggression like that undertaken by Mussolini threatens the whole structure of fair and lawful dealing which the Allies particularly have labored to build up. Thereby it threatens the peace of Europe and the welfare of all the world.

If Mussolini continues his bull-headed conduct, he may end up as Napoleon did a century ago—and got it as Napoleon did, at great cost to everybody concerned.

FOUR CONVICTS ESCAPE FROM OHIO PENITENTIARY

COLUMBUS, Ohio, Sept. 8 (AP)—Four Ohio penitentiary convicts today, one serving life sentence for second degree murder escaped after overpowering and beating Guard C. F. Arthur. Two of the men, escaped to Warden P. E. Thomas, sealed the wall then the other two slipped through a gate that enters a railroad yard.

Establishment of Friendly Relations Between Nations Is Seen by Babson as Being of Much Significance

WELLESLEY HILLS, Mass., Sept. 8.—Special to The News.—Roger W. Babson today issued the following statement regarding conditions in Mexico: "The most interesting event of the week to business men and investors is the announced attitude of the administration relative to Mexico. For some time, it has been known by those in intimate touch with the state department that relations were becoming more friendly day by day between the United States and our neighbor to the south. Secretary Hughes, who went into the cabinet very much prejudiced against Mexico, has been gradually becoming friendly. In justice to Mr. Hughes, however, it should be said that while the cabinet very much predicted that he has been a large factor in the improvement of relations. Fear was expressed in some quarters for Mexico with the announcement of President Harding's death. The resident Coolidge has quieted these apprehensions with the assurance that he will carry out Mr. Harding's Mexican policy. This account for the recent action of the administration and the hopefulness of all concerned.

Good Faith Apparent

"About a year ago the Mexican government, through the efforts of New York bankers, agreed to a readjustment of its indebtedness. Continually during the past year various corporate readjustments have been going on, which show the good faith of the Obregon administration. The action of the Mexican congress regarding confiscation has been very satisfactory to American investors. The fact that all concerns have been put down and that Villa himself has been finally eliminated has strengthened the situation. There are still many wild-eyed radicals in the Mexican government but these are gradually being weeded out. Mexico is steadily becoming more conservative, having learned the lesson that natural resources are of no avail unless developed by men of integrity, industry and intelligence. The Mexican revolutions of the past two years have been costly; but through them the people have learned that it is men that makes values, and that souls—not theories—make men.

Rich Natural Resources

"Mexico is a wonderful country. It is a large country, about a quarter the size of the United States, and is very rich in natural resources. You hear mostly about the oil of Mexico, but oil is only a small fraction of her wealth. The timber, mineral and agricultural resources far exceed anything that can ever be developed in oil. We talk much about conditions in Europe, but forget these tremendous opportunities at our very door. However, this is only human nature. Most people of Boston have never been to Lincoln Hill monument, and very few New Yorkers have climbed the Statue of Liberty. In the same way investors in England and France are today enthusiastic over the improved conditions in Mexico while

we, her next door neighbors, scarcely give them a thought. The new attitude of our government toward Mexico should help business in this country, especially in the border states. Cities like New Orleans, San Antonio, El Paso, St. Louis and Kansas City should especially benefit. The Pacific coast will always be benefited by a stable Mexico.

Many American Investors

"Many investors in the United States and Canada are interested in Mexican securities. The great public utilities of Mexico are financed from Montreal and Toronto. Canadian investors are also interested in Mexican cotton mills. Investors in the United States are interested in mining projects, railroads and especially in Mexican oil. All of these properties should be benefited by the United States recognition of the Mexican government. Not only does this recognition help American investors directly but also indirectly, as it encourages investors in England and France who are also largely interested in Mexico. In the past three or four years almost every letter that I have received from English friends has asked: 'Why will not your government recognize Mexico?' It certainly should. Of course it will be some time before Mexican trade will make any impression on the Babsonchart, which now stands at 10 per cent below normal, but some day it will, and that impression then will be distinctly favorable."

Yes, Indeed

"I see the helicopter which cost it builder \$225,000 to build has lifted him 20 feet into the air." "But that's too expensive a way to get upstairs to ever become popular."—Houston Chronicle.

Ideal of Recreation

One idea of rest is to do nothing another is change of occupation and environment. Most people find it difficult to do nothing, and in recreation seek complete change, thus exemplifying the philosophy of living.

Real Pleasure in Life

The truest pleasure comes from simple things: The art of living is mainly the art of enjoyment. It is no use being a millionaire and able to own palaces if one has lost all pleasure except that of adding to one's millions.

The Ananias Club

"No," said his wife firmly, "even if the Smiths have bought a new car we are not going to buy one until we have saved up the money for it and have enough in bank to buy gas and keep it in repair."

Sport and Ferocity

When a man wants to murder a tiger he calls it sport; when a tiger wants to murder him he calls it ferocity.—O. B. Shaw.

Fifteen Years Ago in Twin Falls

From News Files September 11, 1908

Alfred H. Schaele of the Twin Falls North Side Land and Water company secured from Hugh Reed of Twin Falls some of the finest peaches, pears and apples ever grown in any country. Mr. Schaele procured the fruit to send east in order to show what the Twin Falls tract will produce. Mr. Reed's trees are four years old and they bore heavily this year.

M. F. Cushman's well drilling oil fit was destroyed by fire on the Hillier towards today. The members of the crew were at dinner when the fire broke out and so fierce was the blaze that only some bedding and fixtures were saved. The well had been driven about 200 feet and efforts were being made to hasten the work.

The Twin Falls school opened for the fall term on Tuesday morning with a total enrollment of 697 pupils divided as follows: Primary, 44; first and second grades, 62; second grade, 70; third grade, 74; fourth grade, 75; fifth grade, 69; sixth grade, 69; seventh grade, 57; eighth grade, 52; high school, 93. The primary and second grades and the high school children occupy the Bickel school. The seventh grade is located in the Christian church and the eighth grade in the Methodist church, these edifices having been placed at the disposal of the school board. The grade teachers staff includes the Misses Kinney, Kelley, Thomas, McConnell, McManis, Vance, Bonright, Albertson, Fisher, McMillan, Sandgrass, Brown, Knapp, Hollow, Griffith, Edenberg and Hotsenpiller. E. L. Weaver is the principal of the high school and teacher of science. Other teachers are Miss Gilman, D. P. Fierco, Miss Crocker, Miss Ross and Miss Jendreau.

Al W. Irvin arrived today from Chicago today and announced his intention to stay in Twin Falls. He has a fine farm on Sucker flat.

The machinery in the Twin Falls Milling and Elevator company's new elevator was set in motion this week. A considerable amount of grain is being stored.

Mrs. C. A. Tush will entertain 10 boys and 10 girls at her home this evening in honor of Stella Perrine.

ANNOUNCEMENT.
Mrs. D. E. Regan, teacher of piano, harmony, harp and stringed instruments, will open her music studio September 20, 1923. For terms and particulars call at Mrs. Regan's studio 520 Main avenue west. Phone 3983.—adv.

The News is read by the permanent earning classes.

You will find everything that you need for school at Bobbins' Book Store. All texts for the Elementary grades, Junior High and High School. Also school supplies of all kinds.—adv.

DO YOU HAVE A BROWN MOUSE? Have you a touch of that funny mouse called genius, which gives you extraordinary ideas and makes you do things better or at least different from the average run of people? If so, you are a Mendelian segregation of genetic factors (not meaning to call names) which scientists say produces the brown mouse and other odd things in the animal creation. Read

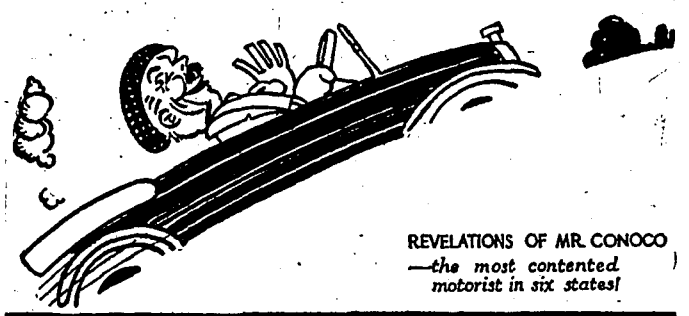

The Brown Mouse

By HERBERT QUICK

Here is one of the most original stories in the world; a novel as entertaining as it is instructive; a regular thought-awakener containing action, romance, humor, real character studies and a love interest. It is not about mice but about people, their problems, ambitions, emotions and affections. The author simply had a happy thought when he took a brown mouse and applied its characteristics to a human.

STOP WASTING FUEL WEIR
Moist Warm Air Furnaces
Save tons of coal because every heat unit is extracted from the fuel that they burn.
The patented Weir fire pot mixes superheated air with the fuel gases, consuming all combustible substance which ordinarily escapes up the chimney as smoke and soot.
WEIR heat is healthful heat. The improved water pan gives off sufficient moisture to the air, relieving it of the harshness and dryness which physicians say cause so many of the winter coughs and colds.
WEIRs are safe and soot-tight. No blackened wall paper and soot-stained ceilings where they are used. Easier to operate. First cost is last cost.
Come in today and let us point out the WEIR Smokey features. Examine it for yourself. You'll like the way it's built.
We will be glad to give you a complete set of the cost of putting one in your home.

MODERATE DECLINE HITS CHICAGO WHEAT MARKET

Surprise Expressed at Predicted Increase in Canada; Corn Flashes Unsteady; Oats Show Drop

CHICAGO, Sept. 8 (AP)—Surprise at assertions that the three principal provinces of Canada would harvest 75,000,000 bushels more wheat this season than a year ago, led to a moderate decline today in Chicago prices for wheat. Closing quotations were unsteady, 3-8 to 7-8c lower with September wheat 1.00 1-4 to 1.00 3-4, and May \$1.11 1-2 to 1.11 5-8. Corn finished at a range varying from 1-2c decline to 1-4c advance; oats 1-3 to 1-4c down and provisions 2c to 2 1/2c up.

At first the majority of wheat traders here were inclined to ignore the new estimate regarding the 1923 production of wheat in Canada, the forecast being upward of 100,000,000 bushels in excess of an estimate yesterday by the president of the Canadian Pacific railroad. Selling here increased, however, when Winnipeg announced a material setback. Commission houses buying developed on the ensuing downturn in prices, but rallied failed to last.

Expectations of a moderate increase of the United States visible supply total Monday had some bearish effect on the wheat market as the day drew to an end. On the other hand, it was pointed out that the amount of wheat from Chicago this week have exceeded the receipts and that in all markets wheat for immediate delivery is selling at a premium over the contract to be made in the future. Bulla continued also that Europe would take a large amount of Canadian wheat, that holding pressure would be less than the present price many feared and that the present price

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and are intended to cover only the average of prices. When certain periods of short periods offer more than the quoted price no effort is made to include such quotations. Quotations are offered merely as a guide to producers and should not be accepted as reflecting extremes of either high or low prices.

RETAIL MARKETS

Paid to Producers. The Twin Falls markets yesterday were as follows:

Table with 2 columns: Livestock and Fowls. Items include Heavy hogs, Light, 175 to 225 pounds, Cows, Steers, Veal calves, Mutton, Lambs, Fry, Heavy hens, Light hens, Young ducks.

Wheat and Hay

Table with 2 columns: Wheat and Hay. Items include Wheat, Alfalfa, Hay, Sugar, Wholesale.

RETAIL PRICES

Table with 2 columns: Vegetables and Fruit. Items include Potatoes, Strawberries, Watermelon, Cantaloupes, Summer squash, Corn, Beans, Head lettuce, Green peppers, Tomatoes, Radishes, Egg plant, New cabbage, Squash, Musk melons.

Meat and Fish

Table with 2 columns: Meat and Fish. Items include Ham, Bacon, Salmon, Halibut.

RAILROAD SHARES GAIN

Absence of Traders Causes Limited Market in Stocks; Specialties Record Slight Losses, Small Turnover

Total stock sales 274,500 shares. Industrials averaged 02.63; net gain, 09. High, 1923, 105.38; low, 80.91. Railroads averaged 80.10; net gain, 17. High, 1923, 90.03; low, 76.78.

NEW YORK, Sept. 8 (AP)—

Owing to the absence of a large number of traders, price changes in today's stock market were narrow, irregular and generally regarded as unimportant. Virtual settlement of the anthracite coal dispute failed to have any appreciable effect on speculative sentiment although a few coal carrying railroads enjoyed a brief period of moderate strength.

Speculators for decline succeeded in unloading a few new spots. James Brothers, who had been carrying more than five points to 48, a new low for the year, but it snapped back nearly a point later. Losses of a point or more also were recorded by International Harvester, General Electric, American Tobacco and a number of other specialties but the turnover in each case was small.

Merchandising issues gave the most consistent exhibition of group strength, with worth rising four points and National Cloak and Suit and Galt and Perry each moved up about 1 1/4. Good buying also was noted in the independent steel, Crucible closing a point higher and Republic 3/4. Other stocks were unsteady. The Spring, Martin Parry company, General Banking and American Linsced preferred up one to two points.

Delaware and Hudson, Price preferred and Wisconsin Central up one to two points, were the strong features of the railroad group.

Further improvement in sterling exchange and a brisk rally in Japanese yen were the features of the quiet trading in foreign exchanges. Demand sterling advanced 5-8 of a cent to 84.53 1-4, and Japanese yen rose 1/4 point to 48.75 cents. French and Italian rates showed slight improvement while German marks were unchanged at 3 1/4 a million.

GOVERNMENT BONDS

NEW YORK, Sept. 8 (AP)—Liberty bonds closed:

Table with 2 columns: Liberty bonds. Items include 3 1/2s, 4 1/4s, 4 1/2s, 4 3/4s, 5 1/4s, 5 1/2s, U. S. Government 4 1/4s.

CASH QUOTATIONS

CHICAGO, Sept. 8 (AP)—Wheat—No. 3 red 1.01 to 1.05 1/2; No. 2 hard \$1.07 to 1.11.

NEW YORK, Sept. 8 (AP)—

The only department of the sugar trade open today was the raw sugar futures. Most of the local refiners sales offices were closed and will continue so for the remainder of the month and there was no fresh business in either raw or refined reported. The market, however, appeared to have a firm undertone and while spot prices were nominally unchanged at 1 1/2c for Cuba, cent and freight, equal to 2 1/2c cents for centrifugal holders were asking 1-5c above this level, prices for refined was unchanged at 87.75 to 89.00.

POTATOES AND PRODUCE

CHICAGO, Sept. 8 (AP)—Potatoes—Steady on whites; dull on Early Ohio; receipts 94 cars; total United States shipments 52; Minnesota sacked Early Ohio partly graded \$1.25 to 1.40; Ohio sacked Early Ohio 1.80 to 1.90; 1.50 cwt.; few fancy \$1.00 cwt.; Wisconsin sacked and bulk rough whites \$2.25 to \$2.35 cwt.; few fancy \$2.25 to \$2.35 cwt.; Idaho sacked Burns \$2.15 to 2.25 cwt.

Chinese Are Everywhere

Whoever one goes and finds a Chinese in Chile, in South America, he labors in the copper mines; in Russia he acts as executioner for the Bolsheviks; in London he is a tea merchant; in Paris, New York, Chicago, San Francisco he has an 'opium joint'; in the Philippine Islands he is a merchant prince, and all over the world he is a laundryman.

To Freshen a Musty Room

Buy a fresh orange peel upon a hot stove or upon a shovel of hot coals if you wish to impart a very pleasant odor to a room.
