PRICE FIVE CENTS

## CORFU DISPUTE BRINGS ACTION UPON COVENANT

### League Appoints Legal Experts to Formulate Questions to Test Authority for Action in Crises

GENEVA, Sept. 22 (AP)—Prompt progress in its self-allotted task of securing judicial interpretations of the covenant of the league of nations was made by the league council tonight when it appointed a committee of legal experts to formulate precise questions which will later be submitted either to the permanent court of international justice at The Hague or some other body of eminent jurists. Tonight's action is the first step growing out of Italy's refusal to recognize and accept the competency of the league of nations in the Greco-Italian dispute. The experts designated include M. Van Jaenemans of Belgium, Senor Botella of Spain, Dr. A. D. De la Pradelle of France, Vittorio Scialoja of Italy, M. Godeaux of Belgium, Sir Cecil Belfrage of Britain, and Dr. J. A. Van Hamel of Holland, director of the league's judicial bureau.

### Discuss Salaries

Among the questions to be considered are the kind of disputes which come within the purview of the covenant, the rights of states to seize territory as a guarantee and the responsibility of states for the crimes committed within their frontiers.

### Demand Co-operation

This expression of what the public opinion demands found its voice particularly today when several delegates representing India, South Africa, and Sweden insisted upon the gravity of world conditions and demanded that the governments obey the new order of things as represented by the league.

### Adopt Gold Basis

The council took another step in the movement to achieve the financial rehabilitation of Europe. It accepted a report of a financial committee whereby a new currency on a gold basis would be created in the free city of Danzig under the control of the league. The new unit is the golden worth, thus making Danzig a gold basis currency area.

### Two Main Problems

Respect the league covenant and settle the reparations problem quickly. These are the two messages of moment which go out to all governments and peoples from the league. They are contained in no formal resolutions and backed by no formal vote, but they fall clearly as the will of the majority of world delegates assembled in Geneva, if plaudits have any meaning.

### Defends League

Referring to Italy's repudiation of the league authority in the Greek affair, the Ambassador of Nanking declared as his conviction that the league is perfectly competent to insist on peaceful settlement of disputes arising between members and he issued the warning that if any member fails to live up to the principles of the covenant the league fails to be its true self and risks ruin.

## Sees Opportunity For Women Voters to Rule the World

### National Chairman Despairs of Urging Leisure Class to Cast Ballots

COLORADO SPRINGS, Colo., Sept. 22 (AP)—Declaring that it was time for women to take over world affairs, Mrs. O. H. P. Belmont of New York, president of the National Women's party, in an address today before the western division of the organization, dealt traditions and established orders a solar plexus blow.

For 20 centuries men have been running the world, Mrs. Belmont declared. "Now it is time for women to take over affairs and as they very nearly hold a balance of political power at this time the day has not yet dawned on distant as old party leaders imagine when there will be set up a woman's government by women, for women, children and humanity in general."

Mrs. Belmont stated that she has never voted and would not vote until she cast her ballot as a member of a woman's party and asserted that she long since has despaired of making what she described as "women of leisure and luxury" awaken to a sense of responsibility and duty in a world where they have earned no place for themselves.

"For nine years I have been an acolyte in the wilderness to women of wealth and leisure to give over their pleasures and frivolities and do something to justify their existence; I have cried in vain. No reform ever appealed to people who have all they want," Mrs. Belmont said.

"Now, don't construe my meaning as..."

## Colder Weather Is Outlook for Week

Federal Forecast for Coming Seven Day Shows Unsettled Conditions Are in Store

WASHINGTON, Sept. 22 (AP)—Weather outlook for the week beginning Monday: Northern Rocky Mountain and plateau region: Unsettled and rains at beginning; fair thereafter. Temperature below normal first half and normal thereafter. Generally fair with normal temperature except that occasional showers are probable along the north coast.

## BANDIT GANGS ACTIVE AGAIN

### Piracy Rampant in Canton Vicinity; Trains, Ships Held Up; Ransoms Paid

CANTON, Sept. 22 (AP)—Great dissatisfaction prevails in Canton, due to the increasing taxation and seizure and sale of temples and private property, all of which in turn are caused by the acute need of funds for military purposes. Piracy is rampant in this vicinity. A Standard Oil vessel which was fired on and held up at Tung-Yuen, Kwang province, was released only after it had paid the ransom demanded by the bandits. Another vessel has been seized on the East river, near Shek-Lung, in Kwang-Tung province.

Sun Yu-Sun, south China military leader, is at the East river front, where his forces are reported to be making progress. In the North river vicinity, conditions remain virtually unchanged. A train was held up near Yieh-Han-Tsai-Lu, a station on the Canton-Hankow railway, and the passengers were taken prisoners, to be held for ransom. The haulies also took goods and money from the train and passengers. In Canton the attempt to take possession of a large temple that had been purchased by private parties after the confiscation was frustrated by merchant volunteers. These volunteers who are occupying the temple as their headquarters, forcibly prevented the purchaser from taking possession.

All restaurants here are closed on account of the imposition of a 20 percent tax on sales.

## IDAHO WEATHER

Sunday: Unsettled; probably showers.

## COMMUNISTS OF GERMANY SEEK RUSSIAN REVOLT

### Brandier and Talmeyer Confident of Gaining Control in Home State and Seek Aid Against Outside Forces

MOSCOW, Sept. 22 (AP)—The German communist leaders, Heinrich Brandier and Herr Talmeyer, have arrived in Moscow and informed the Russians that the time for a revolution in Germany is ripe. They express themselves confident of their ability to obtain control within the German state but need the help of the international proletariat against outside capitalist enemies.

The German communists are so certain of their ground, according to Herr Brandier's speech to the executive committee of the bolshevik trade unions, that many observers here feel that the people of Europe may be said to rest upon the conference in Moscow in which the Germans are now taking part. From this viewpoint the issue revolves around the question whether the Russian communists deem their proletarian state sufficiently strong to overcome the capitalist forces of the world combined against them and proletarian Germany.

"It cannot be doubted that the period is beginning now when the effort of breaking the peace hangs over the soviet socialist federated republics," says the newspaper Pravda.

From the report of Herr Brandier's speech it seems obvious that the German communists deem the iron hat, but the guarded editorial comment of the Pravda gives no hint as yet of what the actual advice or decision of the Russian communists will be.

## ESCAPE HURTS IN WRECK

Members of the family of a man named Hoffman, residing near Ellet, escaped practically unharmed when the Ford car in which they were traveling Saturday afternoon on the highway near Curry overturned in an unsuccessful attempt to pass a horse-drawn vehicle ahead. Mr. and Mrs. Hoffman and their three children were in the car when the accident occurred. Examination of the members of the family to determine the extent of their injuries was made at the scene by a physician of Waterloo, Iowa, traveling by motor to the Pacific coast.

## Bids Are Sought for Battleships

### Twenty-one Vessels of Navy Department Ordered Escaped Under Arms Treaty, Await Buyers

NEW YORK, Sept. 22 (AP)—Advertisement calling for bids for the 21 battleships and cruisers, ordered scrapped in compliance with the armament limitation treaty, appeared today in New York newspapers. At the first sale, October 25, six vessels will be disposed of—two South Dakota and the Indiana at Brooklyn navy yards, the Montauk at Alamo Island, Cal., the North Carolina at Norfolk, Va., and the Connecticut and the United States at Philadelphia.

## PATROL TO SEEK LOST SURVEYORS

### Unknown Plight of Federal Explorers Baffles Solution; May Send Out Planes

KINGMAN, Ariz., Sept. 22 (AP)—A patrol will enter the canyon of the Colorado river tomorrow to search for the government exploration party charting the Colorado river, whose unknown plight has cast a wave of alarm over Arizona tonight. A boat marked as belonging to the United States geological survey was seen floating down the river yesterday many miles from the point where the survey party was thought to be.

Members of the patrol will drive to Peach Springs, a distance of about 100 miles, and there attempt to launch their boat, especially constructed to withstand the perils of navigation in the river. Sheriff Mahoney was requested today by Acting Governor R. E. McGillion to form the patrol.

Informing Washington

The governor simultaneously sent to the war department at Washington a telegram suggesting that an airplane be sent to fly over the canyon country and attempt to locate the party.

Apprehension of the safety of the explorers, was expressed here several days ago when the river rose to flood stage as the result of torrential rains which caused floods in parts of northern Arizona. These fears were augmented by the report brought by Kingman last night by R. L. Dimmick, superintendent of the Katherine mine, which is an isolated spot near the river, that a boat with the letters "U. S. G. S." had floated down the river 200 miles down at a point approximately 20 miles from where the party now is scheduled to be.

## MORE TROOPS TO BE CALLED INTO SERVICE IN OKLAHOMA KLAN WAR

### ASSERTS KLAN HELD CEREMONY IN ROOMS AT THE WHITE HOUSE

### Oklahoma Minister Claims Hooded Order Has 227 in House and 27 in United States Senate

CHARLESTON, W. Va., Sept. 22 (AP)—The Ku Klux Klan held an initiation in the dining room of the White House, according to a statement by the Rev. Fred E. Newton of Oklahoma, representing the Klan imperial council, in an address to a large audience of klansmen and others at Hurricane last night.

"We have 227 in the house of representatives and 27 in the United States senate," the speaker said, "and we held one initiation in the dining room of the White House. You know what that meant."

## Serious Charges Aired in Court

### Governor Walton Ready to Extend Scope of Martial Law; 12 Cases of Personal Violence Bared in Inquiry

TULSA, Okla., Sept. 22 (AP)—A story of a merchant whipped through the lash on Sunday night following his seizure by masked men as he walked home from church with his wife was told in a record of the military charges in Tulsa county made public tonight through the Associated Press.

Assertions that county civil officers ignored the identification of whippers by those who suffered were heard today in military court.

The Anderson case on the Jenks road between Tulsa and Broken Arrow was mentioned as the scene of many floggings.

When the military commission adjourned for dinner tonight, a total of 12 cases of personal violence had been heard since its investigation began here August 14, following Governor J. W. Walton's issuance of martial law throughout the county.

## OKLAHOMA CITY, Okla., Sept. 22 (AP)—

Mobilization of additional units of the Oklahoma national guard will be ordered soon, Governor J. C. Walton declared in announcing that an extension of the scope of absolute martial law to several counties of the state is in prospect.

"We are not getting what we want out of several counties," declared the governor, ostensibly referring to the active military part in investigating acts of mob violence in the state.

"I cannot say now when these other counties will be occupied by the military, unless we get satisfaction soon."

Governor Walton declined to name the counties to which he referred and also would not say how many troops would be called to augment those now in service.

## On Duty During Fair

He had, however, that more troops would be ordered to Oklahoma City for duty during state fair week, which opens today.

Asked definitely how he intended to carry out his announced intention of imprisoning all members of the legislature, who attempt to meet here next Wednesday in their scheduled extraordinary session, Governor Walton declared:

"I will leave that matter to Adjutant General Markham."

"I would hate to throw any of these legislators in jail, but if any arrests are necessary General Markham will take care of it," the governor added.

## Retreats Charge

He refused to divulge his plans for preventing the session, but reiterated his charge that it would be a "meeting of a lawless mob since 93 members (more than a majority of the house) are in their scheduled extraordinary session, Governor Walton declared."

"I cannot allow the Klan members of the legislature to assemble and call themselves the legislature of this state and proceed to act as such. If I permit..."

(Continued on Page Seven.)

## HEAVIER TARIFF ON GRAIN URGED

### Minnesota Representative Has Plan Designed to Assist Western Producers

WASHINGTON, Sept. 22 (AP)—An increase in the tariff duty on wheat as a means of assisting western producers of that commodity was suggested today by Representative Anderson, republican, Minnesota, who discussed the agricultural situation with President Coolidge at the White House. Mr. Anderson declined to talk about his conference with the executive, but said he would lay his proposals before the tariff commission.

The Minnesota representative, who was chairman of the commission of agricultural inquiry, declared the present duty of 30 cents a bushel on wheat is absorbed by the differential in prices between the United States and Canada and that an increase in duty would result in an immediate advance in the price in the Minneapolis market.

## Crop Enormous

The European crop is estimated at 1,227,447,000 bushels, while that of North America is placed at 1,285,331,000 bushels, or about 58,000,000 bushels more than the pre-war average year production for the five years, 1909-1913.

"World wheat supply and demand have been balanced for two years," said an official of the agriculture department. "But just now the wheat appears slight on the supply side. With the present course of prices, it is not strange that wheat producers are discouraged now that they are giving up or to unusual proposals which promise aid. However, men are not looking for the help who realize that the world-wide readjustment of wheat seems inevitable. The farighted men already are carefully gauging next year's production cost and are preparing to make the competition of the world's cheaper lands and labor—some are preparing to grow something other than wheat."

## Disparity of Prices

"The matter that still is the very root of such agricultural disturbances as exist is the disparity which presently exists between prices of things that the farmers have to sell and those they must buy."

## FORMER NEWSBOY ON MARION STAR REINSTATED IN WHITE HOUSE JOB

WASHINGTON, Sept. 22 (AP)—Major Ora L. Baldinger of Marion, Ohio, was reinstated today as military aide to President Coolidge and chief of the White House police, thereby ending one of the most curious chapters in the nation's history.

Major Baldinger used to be a newsboy on the Marion Star, when Mrs. Harding acted as circulation agent for the young and struggling publisher, who later became president of the United States. When Mrs. Harding came to

## Fitting Ceremony to Honor Memory of Fighting Men

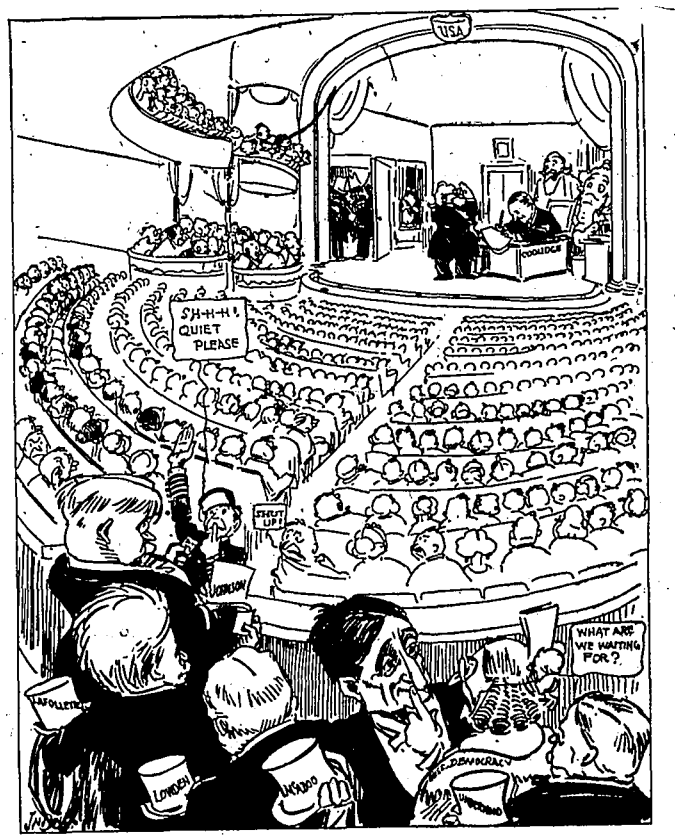

### Roses Waffed from Skies to Mark Navy's Grief for Victims of Honda Crash

SAN DIEGO, Cal., Sept. 22 (AP)—Fragrance of rose petals waffled from the sky, a wreath of flowers laid upon the sea—these will be symbols tomorrow of the navy's grief for 23 enlisted men of destroyer squadron 11 who perished in the crash of the USS Henderson in the rocks off Honda, Cal., September 8.

The six ships of the 32nd division, last in line when the squadron crashed, will play an important part in the ceremonies, which it is estimated 10,000 persons will attend.

Off shore they will swing a two-mile circle, trailing blossoms as they waffle, and a wreath of flowers lie upon the deep, a tribute to the men who died.

## LATE ARRIVALS WILL NOT BE SEATED UNTIL AFTER THE CLOSE OF THE FIRST ACT

# DRY FORCES TO RALLY AROUND VOLSTEAD FLAG

## Prohibition Workers to Gather in Washington Next Month to Lay Plans for Nation-Wide Conquest

WASHINGTON, Sept. 22 (AP)—A call for a rally of the dry forces of the nation in support of the eighteenth amendment has been sent forth by the Federal Council of Churches. "A good citizenship and patriotism conference" was announced to be held in Washington, October 14, 15 and 16. "to spur on those who believe in prohibition but have lost all other interest."

The call was signed by 756 men and women, including business men, college and university heads, clergymen, members of congress, mayors, heads of religious associations and leaders of women's organizations. Heading the list were the names of William Jennings Bryan and Prohibition Commissioner Roy A. Hayden.

Dates chosen for the conference precede by a few days the time tentatively selected by President Coolidge for a meeting of the governors on law enforcement. The call went out, however, before Mr. Coolidge's plans had been announced, and it was said there was no significance to be attached to the time of the gathering.

The commissions of the Federal Council of Churches—those on temperance and on councils (local) of churches—sponsored the call, which, it was announced, was issued "in recognition of the tremendous propaganda which is being carried on to nullify the eighteenth amendment and the Volstead act and to discredit all law."

"Recalling," said a statement issued by leaders in the movement, "that inactivity and apathy has resulted in an apparent growth of liquor sentiment and in non-observance of the prohibition act not only by state officials and bootleggers, but also by men and women who are law abiding in every other way. The leaders state that they have planned the conference with the idea of "recovering the morale of the moral and Christian forces upon the prohibition issue."

"The plan for the conference contemplates it being open to "all citizens without distinction as to race or conditions interested in the preservation of the constitution of the United States and the strict enforcement of all laws, including the eighteenth amendment and the Volstead act." It will be the purpose to make provisions for carrying out whatever plans are decided upon.

# NAVAL OFFICERS ASSIST INQUIRY

## Thirteen Men in Charge in Limelight as Investigation in Wreck Goes On

SAN DIEGO, Sept. 22 (AP)—Dramatic avowal of their purpose to aid the court, the public and the nation in the bottom of circumstances surrounding the destroyer disaster off Honda, Cal., September 8, by testifying before the court of inquiry which has named them defendants in the prosecution of the wreck that cost 23 lives and seven ships, three 13 naval officers suddenly into the limelight at today's session of the court. The announcement caused such a transformation in the situation confronting that body that proceedings were terminated abruptly and adjournment taken until Monday.

By Admiral Peck, presiding member of the court of inquiry, characterized the defendants' offer to tell all they know under oath as "worthy of the best traditions of the navy." Lieutenant Commander Leslie Britton, whose duty it is as judge advocate to present the evidence which may involve these officers in court martial proceedings, declared their attitude worthy of the highest praise.

**Tells of Disturbances**  
The defendants' offer to testify came during a lull in the proceedings just after Charles Hoopes, a surveyor and civil engineer, had finished testifying that he had observed serious disturbances on the magnetic needle during the period from September 8 to 11, and believed this phenomenon might have had some effect on the compass of the Delphy just before she fell her sister ships on the rocks.

While pens at the press table were poised to catch, if possible, the gist of the next technical discussion, Captain T. T. Craven, counsel for Captain Edward Watson, chief of the destroyer squadron, announced that he wished to make a statement.

**Testimony Difficult**  
Reading from penciled notes, he declared in substance, that the fact that all of the most highly qualified witnesses were defendants made it particularly difficult to bring before the court the very testimony which the court was most desirous to hear.

Such a situation not only was obstructing the inquiry, he pointed out, but was endangering the rights of several officers in that it barred them from cross examining their fellow defendants.

"Captain Watson," he continued, "has from the beginning of this investigation, been anxious to take the stand to explain motives which prompted certain decisions on the evening of September 8."

**Issues Obscured.**  
The captain "viewed with anxiety," he said, "the introduction of technical

# REFUGEES FLEE FROM SCENE OF GREAT DISASTER

The picture at the left shows the huge fissures on one of the main highways at Numexa, a short distance from the center of the recent Japanese earthquake. Similar breaks in the earth's surface occurred throughout the zone of the earthquake, the tremors in many places being so violent that panic-stricken victims were unable to remain on their feet, according to survivors. The picture at the right shows a section of a column of refugees leaving the scene of the earthquake, mothers carrying their babies in their arms. Many were driven to the point of insanity while others were forced to suicide by the ghastliness of the earthquake, which is recorded as the greatest disaster in the world's history.

testimony obscuring the very issues he desired to make clear. "He is desirous of taking full and complete responsibility for his actions," Captain Craven concluded, "and wishes in every way to prevent such responsibility being placed where it does not belong."

**Will Give Details.**  
"Therefore, Captain Watson desires to take the stand as a witness," immediately counsel for other defendants, and in some cases, the defendants themselves, were on their feet asking that Captain Watson's request be regarded as theirs also.

Captain Watson probably will go on the stand early Monday, it was announced, with Lieutenant Commander Donald T. Hunter, captain of the Delphy, next, and Lieutenant Langness Budgett, navigation officer of the ship, third.

Lieutenant Budgett already has been on the stand, but his testimony was interrupted when the court declared him a defendant.

**TEXAS OIL FIELD HIT BY DISASTROUS FIRE**  
CORPORAANA, Texas, Sept. 22 (AP)—The fifth oil fire in the Corsicana deep field since its discovery occurred this evening when fire of undetermined origin set ablaze the oil tanks of the R. L. Smith Oil company. At least 10,000 barrels of oil are estimated by officials to have been burned. Workmen near the tanks escaped injury by running. The fire continues to burn.

**New Source of Radium.**  
Parosite, a new radium-bearing mineral found in the Belgian Congo, was described in an address by the Belgian Professor Shoen, who told of success in extracting radium from the mineral at an Antwerp laboratory.

Statement of the Condition of

# NAVY'S NEW DIRIGIBLE MAKES SUCCESSFUL TRIP

## Newest Giant Aircraft of Government to Be Flown to St. Louis Next Month for Air Races

LAKEHURST, N. J., Sept. 22 (AP)—The navy dirigible ZR-1 arrived at her hangar at 6:45 tonight after making a successful flight to Washington and return.

WASHINGTON, Sept. 22 (AP)—Upon the completion of the trip to Washington and return from Lakehurst of the ZR-1, Rear Admiral W. A. Moffett, chief of naval aviation, announced that Secretary Donby had authorized sending the dirigible to St. Louis for the airplane races early next month, "passing over as many intervening cities as practicable, going and returning, provided the trip does not interfere with further trials now in progress."

**HEARING POSTPONED.**  
ST. PAULI, Sept. 22 (AP)—Hearing on the temporary injunction affecting show the craft organizations of the Great Northern company, scheduled to come up today, was postponed by agreement until a special term of federal court which opens next week, it was announced this afternoon.

**To Fill Crack in Linoleum.**  
Finely chopped cork mixed with liquid glue is excellent as a filler for the crack in linoleum. When it has set hard, rub down with emery paper and paint to match with linoleum.

# They Are Here New

# CLAIMS BANK ACCOUNT IS BEST INVESTMENT

Savings Means Success and Offers Chance to Take Advantage of Greater Opportunities, Babson Says

WELLESLEY HILLS, Mass., Sept. 22.—Helping business by saving money instead of spending it may sound strange but that is what Roger W. Babson, the statistician, proposes today, in a statement on the investment value of savings accounts.

"Why is it that people differentiate between many accounts and investments more than I can comprehend," says Mr. Babson. "Apparently men and women feel that money which they have in the bank is not 'invested.' They seem to think of it as tied up in bags in the vault of the bank. The fact is that just as soon as you deposit a dollar in the bank, that dollar is loaned by the bank to some one to build a home, or to buy merchandise, or is used for the purchase of bonds. When these bonds are bought, the money is still used by the company issuing the bonds—perhaps for the development of the water power of the buying of railroad equipment, or some other equally useful purpose. Therefore, money deposited in a bank is invested just as truly as any other money. The main difference is that it is invested by some one with experience and training instead of by one who may know little of financial matters.

**Shows Advantages.**

"Bank accounts have all the advantages of the most attractive investments. Among these may be mentioned the following three: (1) Bank accounts are safe. Statistics would probably show that smaller losses come from bank accounts than from any other field of investment. (2) Bank accounts are very liquid—that is to say, we can quickly get our money at any time. Other forms of investment may be 'permanent' investments. Many of them are so permanent that they cannot be liquidated when desired. (3) Bank accounts offer a good opportunity for speculative profit. This may seem a strange statement, but let us examine it.

**Can Finance Ventures.**

"The real opportunities to make money are through chances that come to take partnerships, to make special purchases or to do other things which, if undertaken, often bring success. One can tell when these opportunities will come, but they do come only once or two or three times in the course of our lives. They almost always require a certain amount of capital. Perhaps the new position offered means working for less than a living wage—for a while. Perhaps it means taking a year or more for travel or study. The man with a bank account can finance the venture, but the man without a bank account cannot. Therefore, I say that a bank account offers an opportunity for speculative profit because it puts one in a position to make a big profit when the opportunity comes.

**Should Change Custom.**

"I especially emphasize the importance of bank accounts at the present time because many people have not increased their bank accounts materially since the low prices of ten years ago. For a great many years prices ran along a certain level and people got into the habit of carrying about so much in their savings account and a certain amount in their checking account. All business men, from the large manufacturers to the humblest retailer, felt that a bank account of a certain size was about what he should carry and he has held the same idea up to the present time. Yet, during the past ten years prices have increased from 50 to 100 per cent or more, according to the commodity considered. Taking into consideration all factors entering into the cost of living, the dollar of ten years ago is worth only about 60 cents today. As prices increase we should increase our bank accounts to correspond. We take out increased insurance today on a building which was built ten years ago even though it was then insured for all it cost. The fact is that the cost of building has gone up and if we had a fire we would have to rebuild at much higher prices. Therefore, we insure not on the basis of the cost of ten years ago but on the basis of replacement as of today. It seems to me that we should follow the same principle regarding our bank accounts.

**Money Wasted**

"One great trouble with business to-

## U. S. NAVAL AIRPLANE FLIES 238 MILES AN HOUR

Lieut. I. H. Sanderson.

PILOTED by Lieutenant I. H. Sanderson, U. S. Marine Corps, the navy Wright airplane, which will be part of the fleet representing the navy in the Pulitzer international air races in St. Louis on October 1, 2 and 3, made an unprecedented record of 238 miles an hour in a test flight at Mineola, Long Island. The previous record of 233.01 miles an hour was made by Sadi Lacoate in Paris on February 26.

day is the amount of money being wasted on things of only temporary value and the small speculative amount which is being 'banked' for things of more permanent value. This is one reason why the Babsonhart has again so radically declined, standing today at 10 per cent below normal compared to 10 per cent above normal in February. Just as things got better around the first of the year, people again got careless, bank deposits fell off and the safety valve began to let off steam. Increased bank balances would help start business up toward normal again."

**LAYTON BEATS DENTON IN BILLIARD MATCH**

KANSAS CITY, Sept. 22 (AP)—Johnny Layton of St. Louis defeated Cliff Denton of Kansas City in the national three-cushion billiard tournament here Friday, 6 to 59 in 70 innings. Denton holds first place with four wins and two losses. Layton's high run was 6 and Denton's eight. Layton's average was .837 and Denton's .853.

**Women Denied Solace of Prayer.**

In some parts of the world the women are not even allowed to pray. Certain Hindu congregations deny their women this privilege, and among the Ainus of Japan women can pray only in very rare cases as the deputies of their husbands.

## RECENT BUYING OF WOOL IMPROVES MARKET TONE

Fair Volume Indicated as Manufacturers Enter Buying Lists, But Prices Fall to Keep Pace

BOSTON, Sept. 22 (AP)—The Commercial Bulletin today says: There is much better tone in the wool market as a result of the recent buying, which has been of fair volume. Manufacturers have come back into the market again, some doubtless to keep informed but others to buy wool and in fair quantities. Medium to low seconds have moved rather generally, and further sales of wool to the knitters are reported with prices slightly stronger for B lambs wools. Generally speaking, however, prices cannot be said to be any higher.

The opening of the Australian season at Sydney has been auspicious, with values par to five per cent above the June rates, and the percent 46¢ chief operator, with Japan fairly keen. America is buying sparingly of the best wools. London keeps fairly steady but with increased withdrawals this week. Opening prices at the cape are dear.

**Woolens in Demand.**

The goods market is slowly clearing up. Better demand for the lower priced woolen goods is in evidence, especially

goods of the type of tweeds and knit goods, while women's wear lines generally are in good positions. Men's wear, worsteds, the backbone of the market, still are slow.

Mohair is in limited demand with prices still quoted steady.

The Commercial Bulletin will publish the following wool quotations tomorrow:

**Domestic:**  
Ohio and Pennsylvania fleeces: Delaine unwashed 53 to 54; fine unwashed 48 to 49; half blood comings 54; 3-8 blood coming 52 to 53c.

**Fleeces Listed.**

**Michigan and New York fleeces:** Delaine unwashed 50 to 51; fine unwashed 46 to 47; 3-8 blood unwashed 52 to 53; 1-4 blood unwashed 46 to 47c.

**Wisconsin, Missouri and average New England:** Half blood 51 to 52; 3-8 blood 46 to 47; 1-4 blood 45 to 46c.

**Secured basis:** Texas, fine 12-months \$1.20 to 1.25; fine eight months \$1.10 to 1.15.

**California:** Northern \$1.20 to 1.25; middle county \$1.15; southern \$1 to 1.05.

**Oregon—Eastern No. 1 staple** \$1.28 to 1.30; fine and fine medium coming \$1.23 to 1.27; eastern clothing \$1.10 to 1.15; valley No. 1 \$1.15 to 1.18c.

READ THE CLASSIFIED ADS.

**SHADE BEATS GANS.**

ST. PAUL, Sept. 22 (AP)—Dave Shade of California, aspirant for the world's welterweight title, battered Dago Joe Gans of St. Paul for 10 rounds here Friday night and won the decision, in the opinion of most of the newspaper men. Gans weighed 143 and Shade 146.

**Not the Usual Way.**

A New York city man recently committed suicide because he was unable to comprehend the mechanism of an automobile. Most peculiar. All the others we ever saw with this falling charged \$1 an hour for their services, and then never hurried on the job of making a bad matter worse.

**Tattoos Owners' Names on Dogs.**

New York has a man engaged in what he says is gainful occupation, who appears in the city directory as a tattooer of dogs. Inquiry reveals the fact that many owners of dogs have their names tattooed on the dog's skin.

GIANTS MOVE UP IN LEAGUE RACE

Pittsburgh's Slim Chances Are Eliminated; Reds Keep Pace but Prospects Poor

NEW YORK, Sept. 22 (AP)—The New York Giants moved a notch nearer the "mathematical certainty" in the 1923 National league pennant race today when they took their third straight game from Pittsburgh, eliminating whatever slim chance remained for the Pirates in the contest and keeping their lead of four and a half games over Cincinnati.

Cincinnati kept pace with the leaders by winning from Brooklyn in an extra inning tussle, but their prospects of overtaking the champions appeared forlorn. The Giants now need to win only three of their remaining seven games to clinch the pennant, even if the Reds capture all of their remaining seven contests. In that event the McGraw men would finish at the top by half a game with the final standing as follows:

	Won.	Lost.	Pct.
Giants	95	58	.621
Reds	96	59	.617

The Pirates are now nine full games behind the Giants, though they win all of their remaining games and the Giants lose all of their seven, the Pittsburgh clan still would be a half a game behind the champions.

MARSTON NEW GOLF CHAMP

Takes Title from Jess Sweetster in Final Match of Record Length at Amateur Tournament

FLORISSVOOR, CHICAGO, Sept. 22 (AP)—Setting a record for long final matches in the national amateur golf championship, Max Marston of Philadelphia, today won the title from Jess Sweetster of New York, defending champion, on the thirty-eighth hole by the aid of steady golf and three strokes which he laid the former champion on the last four holes.

Sweetster did not maintain the fast pace he had held up to today, although he was steady and scored 75 this morning, but he slipped four strokes over par on the third nine and let Marston get a lead of two up at the twenty-sixth hole after he had kept the Philadelphia fan down or square for 24 holes.

 Boston 9 12 2  
 Batteries—Holloway, Francis, Whitehill and Woodall; Bassler; Murray, Quinn and Peinlich.

REDS REMAIN IN RACE FOR LEAD

Take Wild Tenth Inning Victory from Brooklyn; Giants Defeat Pittsburgh

CINCINNATI, Sept. 22 (AP)—The Reds remained in the race for the National pennant by winning in a wild tenth inning finish from Brooklyn today, 6 to 7. The fighting on both sides was ragged, only four of the 25 runs scored being earned. Apparently beaten in the ninth inning, the Reds tied the score on four hits-off Dickerman, a costly error by Olson and a pass. McQuaid pitched the tenth inning for Cincinnati and allowed a run on two hits, a walk and a wild throw by Kimmick. Henry pitched the last half of the inning for Brooklyn and filled the bases on Fowler's single, Sundberg's double and an intentional pass to Burns. Daubert then lined to Olson for an unassisted double play. On an attempted double steal, Burns was caught between first and second but the play was transferred to Fowler who tried to get back to third base, when Taylor's throw hit him and carried so far into left field that both runners scored. Manager Moran used 10 players to win the game.  
 Brooklyn 7 11 5  
 Cincinnati 8 14 3  
 Batteries—Dickerman, Henry and Taylor; Boston, Harris, McQuaid and Harrgrave.

GIANTS TAKE THIRD

PITTSBURGH, Sept. 22 (AP)—The New York Giants made it three straight from Pittsburgh by winning today, 4 to 3. It was their last appearance of a season at Forbes field. Morrison was hit timely in the second, fourth and fifth innings when the Giants made their runs. Bentley held the pirates to one hit until the sixth inning when two runs were scored on two successive hits. A triple by Cuyler, Nashville recruit, followed by Rawlings' single, accounted for the third run in the ninth inning.  
 Score: R. H. E.  
 New York 4 12 0  
 Pittsburgh 3 6 0

One Person Found Who Is Capable of Whipping Dempsey

Champion of the World, Arriving at Home City, Admits He Had Been Home City, Admits He Had Been

SALT LAKE, Sept. 22 (AP)—Jack Dempsey today admitted before a crowd of 5000 people that there was one person in this world who could lick him.  
 "When the world's heavyweight champion stepped off the train he rushed over to her and grabbed her into his arms. His mother said, 'Jack, you are still my boy. I used to lick you, and I can do it yet.'"  
 The champion's eyes filled with tears when he admitted, "Yes, mother, you always can."

CHICAGO WINS

CHICAGO, Sept. 22 (AP)—Charles Mitchell was unable to hold a three-run lead which his mates gave him after overcoming Chicago's early advantage and was driven off the mound in the eighth inning, the locals winning

# WITNESS TELLS GRIPPING TALE OF EARTHQUAKE

### Caught on Train Between Tokio and Yokohama, Canadian Describes Action of Disastrous Tremors.

VICTORIA, B. C., Sept. 22 (AP)—The Canadian Pacific steamship Empress of Asia, second vessel to reach continental American shores with survivors of the Japanese earthquake, docked here today. Among the 401 passengers aboard the vessel were 25 refugees picked up at Kobe, among them a number of Americans, including C. O. Chalkley, Dr. Jurgen Daland, Harold Francis and George Warren Ellis. T. W. Mattland of Toronto, manager in Japan for the Manufacturers' Life Insurance company, who lost his wife and eight-year-old son in the disaster, was one of the passengers on the Asia.

"I was on the train between Tokio and Yokohama," he said, "and was within five miles of the latter place when the thing happened. The train was moving slowly in the first crash, was so severe that everyone thought another train had smashed into us at full speed. But the first crash was followed instantly by a violent jolting and swaying from side to side and up and down.

"The railway right of way at this point was very wide, accommodating six sets of trains. In an instant I saw the tracks and houses fall sideways, crushed flat as if by some irresistible weight. I saw a great temple crash all in a few seconds. Jumping from the train I ran a few yards to the middle of the tracks, but it was impossible to keep one's feet on the ground, and it was feeling like the waves of a sea. Cracks appeared in the earth, and the air was thick with plaster dust from the walls and roofs of fallen houses."

When the first shock occurred he looked at his watch and noted the time as one minute before noon. The second one came at three minutes past the hour. From that time on for several days the shocks continued intermittently at intervals of about half an hour.

Mr. Thornley was in the Imperial hotel, which was not destroyed, and escaped injury. He stayed in the station in one of the city's parks and then was taken aboard an American destroyer in the harbor.

A. C. McPherson was walking in the native section of the city occurred. He dashed for a doorway, which fortunately remained standing, although the remainder of the house crashed down. He was not injured.

Wes. C. W. Purinton, who is an American business man, was rescued at Yokohama and taken to Kobe, but refused to come to America until she learned the fate of her husband and two children. He remained in Kobe until the steamer for the Asahi. C. McNaught, an Englishman, who was associated with Mr. Purinton, said that the three had undoubtedly been killed, but that he would like to see them. Purinton took passage on the steamer were unavailable. She remained in Kobe.

### LAY OUT NEW CITIES

TOKIO, Sept. 22 (AP)—Japan will take advantage of the clearance made by the earthquake and fires to lay out improved and modern cities, according to an interview with the Associated Press here today by Foreign Minister Ijima. He said:

"It is fortunate for us that our foreign relations are in a most favorable position, and we have no serious issues before us. Likewise, we see none in the future that will jeopardize our relations with any country. I wish to me on assuming the post of foreign minister to announce that no change in our tested pledges and policies laid down by my predecessor at any time is as advisable or contemplated. I am happy to say that our country as a whole overwhelmingly supports those policies and it is my purpose to continue them and strive to make them more clear understanding we reached with the great powers both in our relations directly with them individually and in our cooperation with them collectively where our interests are general.

"Although we have been dealt with severely, humanity is giving us an unexampled demonstration of sympathy and aid. The stricken area of the country is receiving aid and supplies from the rest of Japan, while foreign countries seem unlimited in their generosity. The whole nation is deeply touched by the sympathy that comes to us from abroad. This demonstration of kindly human sentiment has impressed us deeply and will have a long enduring effect."

### SEES OPPORTUNITY FOR WOMEN VOTERS

(Continued from Page One)

being that of a woman opposed to men. Mrs. Belmont continued, "I am for men out for men and children first. Men have forgotten us during the past but we are going to remember them and take them right up and overhaul with us. In addition to Mrs. Belmont other distinguished women visitors from other states present were Alice Paul, vice president of the National Woman's party, Alice H. Hamilton of North Carolina, Miss Sue White of Tennessee, Mrs. William Kent of California, and Mrs. Henry Eas, former president of the Missouri Federation of Women's national organizations.

### American Blood May Mingle with That of British Royalty

Prince George & Lady Alexandra Curzon

Despite diplomatically worded denials, the rumor persists in London social circles that Prince George, youngest son of the British royal family, is to marry Lady Alexandra Curzon, youngest daughter of Foreign Secretary Earl Curzon by his first wife, who was Miss Mary Lettor, of Chicago, daughter of the famous wheat plunger. Lady Alexandra is 19. Prince George will be 21 on December 20, and it is said the engagement will be announced then. It is said six months will elapse before the wedding. This would be the first time American blood had married into the British royal family.

### SOCIETY

Edited by Mrs. E. B. Williams Telephone 396

The American War Mothers met Friday afternoon with Mrs. J. C. Moore in South Park. This being the annual meeting, election of officers was the principal part of the business of the day. This resulted in the re-election by acclamation of all of last year's officers, headed by Mrs. David Brown as war mother. There was a general discussion in regard to the national convention which will be held at Kansas City September 29 to October 3. It was decided to defer the report of the district convention which was held at Mountain Home until the next meeting. A social hour with refreshments closed the afternoon.

Mrs. W. F. Pike and Mrs. M. W. Kunkley entertained at bridge Saturday afternoon at their home on Tenth avenue east. Prize for high score was won by Mrs. L. C. Closs, consolation by Mrs. Zena and Mrs. Richard Wilson of Seattle, was presented with a great prize. Autumn flowers artistically arranged decorated the rooms. The program was given at the conclusion of the card games. On Monday afternoon Mrs. Kunkley and Mrs. Pike will entertain with a kenoington.

The guest list for Saturday included Mesdames R. P. Logan, A. A. Walker, T. E. Hunter, R. G. Jost, O. W. Wilham, A. B. Colwell, Zena Smith, Charles Hart, A. J. Penney, R. A. Read, Merlin Batley, C. D. Thomas, C. E. Booth, W. H. Greenhow, A. P. Senior, C. B. Chan-

### MORE TROOPS TO BE CALLED INTO SERVICE

(Continued from Page One)

mitted such action it would simply be giving the power of the state government over to the super-government whose headquarters are at Atlanta, Ga., Governor Walton said.

### Appeals for Support

The governor in a formal statement issued an appeal to the people of Oklahoma to assist him financially to establish newspapers in Oklahoma City and other cities of the state that will "let the people know the truth." He charged that the "invisible government" with money coming from the headquarters in Atlanta had subsidized several Oklahoma newspapers. The executive explained that he would not attempt to establish newspapers in cities where existing dailies maintain "open" news columns.

### Attends Mother's Funeral

"Allen Street, representative in the legislature from Oklahoma county, is a high official of the Ku Klux Klan," the executive asserted.

### Take Marriage Licenses

Marriages were issued Saturday at the office of the county recorder here to Charles H. McLaughlin and Rhoda Mae Belling, both of Burley, and Earl E. Bishop and Christine Gibson, both of Berger.

### Leave for Ogden

Leave for Ogden—C. E. Wright, accompanied by Mrs. Whit and Mr. and Mrs. John A. Barrett, left Saturday by motor for Ogden, where he will attend a meeting of the directors of the firm of W. H. Wright and Sons, and a buyers' conference. They expect to return Thursday.

ARCADED SIDEWALKS
A New York engineer makes a suggestion calculated to interest any community struggling with the modern traffic problem.

It would cost money, to crowd the sidewalks into the buildings and substitute stout pillars for present walls for one or two stories all along the street. But it might cost less than any other improvement sufficient to take care of the enormous traffic increase.

The sidewalks, arched like those familiar in Italian cities, would shelter the pedestrian from sun and rain. If they were double-decked, as the engineer suggests, with the upper level carried across at street intersections, there would never be any confusion of foot and vehicle traffic.

It would cost money, to crowd the sidewalks into the buildings and substitute stout pillars for present walls for one or two stories all along the street. But it might cost less than any other improvement sufficient to take care of the enormous traffic increase.

AUTUMN
"Season of mist and mellow fruit-fulness,
Close bosom friend of the maturing sun;
Conspiring with him how to load and bless
With fruit the vines that round the
doe-berries run..."

To parents, autumn is a practical season. For Mother there are school books to buy, fruit to can, children's clothing to be made ready for the long grind; for Father, digging into business after the comparative ease of summer, seeing to the coal, taking down screen doors and looking after the metal work, preparing the house to resist winter's storms.

Children, however, are akin to poets. "Oh, Mother, I just love the fall! Driving out into the country smelling the peaches and apples and fallen leaves, and starting to school and playing hide and seek in the dusk!" says Twelve Girl.

"I like fall, too, but I like summer better," says Eight Girl. "I like to climb the trees and hide when there are leaves on, to play in the water and pick up nice little shells. Oh, how good it feels, the nice warm sunshine on the beach, and going camping and getting acquainted with farms!"

"Humph!" says Six Boy. "What I like is winter. Can't there ever going to be any snow?"
One thought runs underneath all these expressions. Autumn is the time for taking stock. Other seasons one takes as they come. In Autumn one sums up, compares, thinks about the year as a whole.

A bit of wisdom injected into the stock-taking, and the whole year runs smoother, with more margin of happiness.

Magnifying Glass Needed.
The "Mite" Bible, smallest Bible known, has a magnifying glass in the cover with which to read the printing.

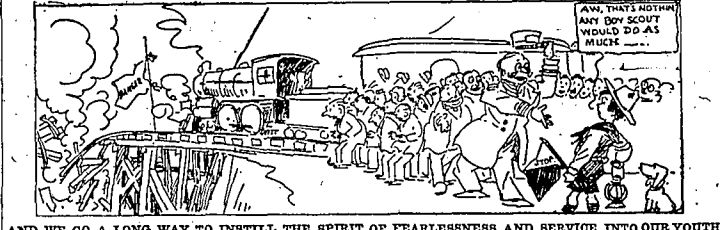

WON'T SOME ONE ENDOW A HERO MEDAL TO ENCOURAGE BRAVERY AMONG STATESMEN?

FROM CAPTAIN JOHN PAUL JONES TO TIM THE STOCK BOY, PERSONAL COURAGE SEEMS TO HAVE BEEN A MORE OR LESS PREVALENT NATIONAL BOAST

EVEN TILLIE THE CASH GIRL DARES TO RUN THE ELEVATOR TILL ALL ARE SAVED FROM THE KENTING MILL FIRE

AND WE GO A LONG WAY TO INSTILL THE SPIRIT OF FEARLESSNESS AND SERVICE INTO OUR YOUTHS

BUT OUR INTERNATIONAL STATESMEN NEVER SEEM TO FEEL THE UBOG

The BROWN MOUSE
By HERBERT QUICK
(Copyright by The Bobb-Merrill Company)

He reached over and possessed himself of her hand. She pulled it from him gently, but he paid no attention to the little muscular protest, and examined the hand critically. On the back of the middle finger he pointed out a scar—a very tiny scar. "Do you remember how you got that?" he asked.

teacher asked us to kneel and thank God, you said, 'Why should we thank God that somebody else is blown away?' She was greatly shocked. "I don't see to this day," Jim asserted, "what answer there was to my question."
In the gathering darkness Jim again took Jennie's hand, but this time she deprived him of it. He was trembling like a leaf. Let it be remembered in his favor that this was the only girl's hand he had ever held.

"Did you like him up?" asked the colonel of Jennie.
The young girl started and blushed. She had forgotten in all about the politics of the situation. "I—I'm afraid I didn't, papa," she confessed.
"Those brown mice of Professor Darbishire's," said the colonel, "were the devil and all to control."
CHAPTER X
Facing Trial.
A distinct sensation ran through the Woodruff school, but the schoolmaster and a group of five boys and three girls engaged in a very unclassical conference in the back of the room were all unconscious of it. The geography classes had recited, and the language work was on. Those too small for these studies were playing a game under the leadership of Jimmie Simms, who had been promoted to the position of weed-seed monitor.

The group in the back of the room went on with its conference, oblivious of the entrance of Superintendent Jennie. Their work was rather absorbing, being no more nor less than the compilation of the figures of a cow census of the district.
"Altogether," said Mary Talcott, "we have in the district one hundred and fifty-three cows."
"I don't make it that," said Raymond Simms. "I don't get but a hundred and thirty-eight."
"The trouble is," said Newton Bronson, "that Mary's counting is in the Bailey herd of Short horns."
"Well, they're cows, ain't they?" interrogated Mary.
"Not for this census," said Raymond.
"Are you not?" asked Mary. "They're the prettiest cows in life neighborhood."
"Scotch Short horns," said Newton, "and run with their calves."
"Leave them out," said Jim, "and tomorrow, I want each one to tell in the language class, in three hundred words or less, why there are enough cows in the district to justify a co-operative creamery, and give the reason. You'll find articles in the farm papers if you look through the card index. Now, how about the census in the adjoining districts?"

(Continued on Next Issue.)

12. Expenses in excess of earnings 1,575.51
Total \$417,066.49

ACTIVE STOCKS ADVANCE

Firm Tons Displayed in Saturday's Half Session; Sugars, Cans and Motor Issues Show Gains
Total sales 281,300 shares.
Twenty industrials averaged 88.53; net gain, 40. High, 1923, 105.38; low, 86.92.
Twenty railroads averaged 81.55; net gain, 50. High, 1923, 90.51; low, 79.53.

NEW YORK, Sept. 22 (AP)—Stock prices displayed a firm tone in today's quiet half holiday session of the market. Absence of recent selling pressure brought about rather general short covering, the gains in the active issues ranging over a wide list but the best exhibitions of group strength were made by the sugars, equipments, cans and motors.
News developments apparently had little effect on securities values. Cable dispatches, particularly those dealing with the reparations situation, appeared cheerful. Reports that fall trade was expanding cautiously but steadily were counteracted by rumors of further curtailment in the steel and motor industries.

Rails Move Up.
Rails moved up with the industrials, the best inquiry being noted for the eastern carriers. Baltimore and Ohio continued its steady advance on reports that August earnings will exceed \$4,500,000 net, as compared with a deficit of about \$630,000 in the same month last year. Early resumption of dividends on the company stock is expected by Wall Street in line with the directors' announcement earlier in the year. Baltimore and Ohio touched 61 7/8, but slipped back later to 61 1/2, where it was up 1/2 on the day. Canadian Pacific, New Haven and Reading each gained nearly a point.

Tobacco Blow.
Tobacco stocks failed to respond to the announcement that cigarette production was running 35 per cent ahead of last year.
The only conspicuous weak spots were Goodrich preferred, which broke 3 points and Commercial Solvents A and B, which yielded 2 and 3 3/4 respectively.

Exchanges Improve.
Foreign exchanges continued to improve. Demand on sterling advanced one point to \$4.55 1/4, and French francs advanced slightly to 6.01 1/2. Market improvement was shown by Spanish premetals, which jumped 31 points to 12.85 cents. Higher prices for silver resulted in improvement in the Far Eastern rates.

Gleanings Heavy.
The weekly clearing house statement showed increases of \$12,500,000 in loans, discounts and investments, and \$4,445,000 in time deposits. The reserve of member banks in the federal reserve bank dropped to \$19,247,000 below the week before while net demand deposits showed a shrinkage of \$13,930,000. Aggregate reserve totaled \$483,770,000 leaving a deficit in reserve of \$6,351,860, a decrease of \$17,544,335 as compared with a week ago.

GOVERNMENT BONDS.
NEW YORK, Sept. 22 (AP)—Liberty bonds closed:
3 1/2s \$ 99.26
First 4 1/4s 98.3
Second 4 1/4s 98.4
Third 4 1/4s 98.6

CAR OWNERS
We Now Charge Batteries
In 8 Hours
We have installed the CONSTANT POTENTIAL METHOD OF BATTERY CHARGING—the most important time, money and battery saving development since the beginning of the battery service. It is endorsed by the makers of Exide Batteries—the oldest and largest battery manufacturers in the world.
Batteries are fully charged in eight hours by this method, which is recognized by the leading engineers as the ONLY scientific method of recharging batteries.
By the Constant Potential Method, batteries are charged individually and not mixed indiscriminately with other batteries. Each battery unflinchingly takes exactly the amount of current which it requires—no more or no less. The possibility of overcharging, excessive gassing, "boiling" or overheating is POSITIVELY eliminated.
The time of local plate action is cut down from a 48 or 72-hour maximum to an eight-hour maximum, thus reducing the amount of shedding of active material from the grid retaining frames. When a battery is fully charged the current is automatically cut down, which prolongs battery life.
Exide Battery & Ignition

**Fifteen Years Ago in Twin Falls**

From News Files September 25, 1908

B. A. Baker of Twin Falls, one of the most experienced and successful farmers on the tract, has been travelling in the middle west for several weeks inspecting noted farming sections, and writes The News from Chicago that he finds nothing to equal the Twin Falls tract as far as agricultural advantages go.

The Three Creek stockmen are buying hay and grain liberally in Twin Falls and vicinity. John MacInnes purchased 100 tons of hay at Buhl last week for \$5 per ton in the stack and has also bought considerable grain. Andrew Rogerson and Jack Bratton are in town for grain and supplies.

An event that is being looked forward to with a great deal of interest is the wedding of Tom Thum, which will take place at the rink next Tuesday evening. The attraction is presented under the auspices of the Ladies' Aid of the Presbyterian church. The

following children take the principal parts in the cast: Bride, Gynoth Young; groom, Jess McKee; maid of honor, Polly Thomas; best man, Edward Babcock; bridesmaids, Albertine Benoit and Irene Warner; ushers, Frederick Hill and Robert Newton; flower girls, Irene Costello and Grace Hill; ring bearer, Audrey Baker; minister, Burton Noble; father of bride, Alfred Burlington; mother of bride, Marjorie Baker.

George F. Sprague is building a residence on Shoshone avenue. The plans were prepared by Burton Morse, the Twin Falls architect. The house will be lighted and heated by electricity and current will be used for cooking.

Leslie Williams, Fern and Florence Costello and Vestal Thomas are going to give a masquerade ball in K. of P. hall on Saturday evening, to which 64 guests have been invited. The girls are making elaborate preparations for the event which promises to be a conspicuous success.

Frank E. Beatty, the "strawberry king," is here from Three Rivers, Mich., looking after his plant farms on Blue Lakes avenue. Mr. Beatty is very much pleased with the outlook and pre-

dicts that the Twin Falls tract will soon produce the finest quality of winter apples.

On Tuesday, September 15, J. McMurray of Twin Falls county, had on the Chicago market 539 head of 71 pound lambs which were sold by Clay Robinson and company for \$5.05 per cwt, the top of the trade on rangers, and 5 cents per cwt. higher than natives made on that day.

**ROCK CREEK**

ROCK CREEK—Miss Alberta Owen is visiting friends here. Miss Nora Donose came home from San Jacinto, where she stayed a couple of weeks. She left for Hollister Sunday night.

The cattlemen around here are busy rounding up their cattle that are coming down from the hills.

Miss Nellie Anderson is now staying in Twin Falls. Charles Abbott of Jarbidge was here to see his children Wednesday. Chris Peterson was transacting business in town Thursday.

The News is read by the permanent earning classes.

**STATE GASOLINE TAX NETS HEAVY RETURNS**

Idaho Measure Returns Over \$160,000 Since Going into Effect Last April; Will Improve Highways

BOISE, Sept. 22 (AP)—Sluco going into effect last April 1, the state gasoline tax of two cents per gallon has netted the state \$161,403.92, according to B. E. Hyatt, state auditor of public accounts.

All money received under the tax will be expended on the improvement and extension of the state highways. The first expenditures under this act of any importance will be for the improvement of the north and south highway. Approximately \$20,000 will be spent, according to W. J. Hall, in improving the old part of this road.

Sun, Moon and Earth. If the sun were a hollow ball, and the earth and moon could be placed in the center in their relative positions, the moon could continue round the earth inside the sun and leave plenty of room to spare.

READ THE DAILY NEWS.

**SUBRENDER TO AUTHORITIES**

CAMBRIDGE, Mass., Sept. 22 (AP)—

Dr. Alva A. Swope, of Brockton, surrendered Wednesday to the Middlesex county authorities to answer to the indictment returned by the grand jury here charging him with having been an accessory before and after the fact of the murder of Mrs. Alice M. Wolf, schoolteacher of East Bridgewater. It will be arraigned in the superior court to-morrow afternoon with Dr. William M. Hobbs of Boston, who was arrested on a charge of performing an illegal operation upon Mrs. Wolf's child, and who was indicted for murder in the first degree.

District Attorney Arthur K. Reading gave no intimation today as to further activities of his office in investigation of the circumstances surrounding the finding of portions of Mrs. Wolf's body in two suit cases in the Merrimack river at Tyngboro.

For the Oilcloth. Oilcloth should be washed with warm water, to which a little starch (made with boiling water) has been added. Soap should on no account be used.

Frankness Without Judiciousness. Some people who pride themselves on being very frank are often cruelly

**RATE SCHEDULE LIFTED ON COAST SHIPPING**

SAN FRANCISCO, Sept. 22 (AP)—The eastbound intercoastal conference meeting here Friday declared open rates on coar and lumber. This is equivalent to permitting each of the shippers in the conference to fix his own rates on these products. The change was made, as regards coar, to meet recent reductions in rail rates, and as regards lumber, to meet anticipated competition in tramp carriers.

ARCADED SIDEWALKS A New York engineer makes a suggestion calculated to ingratiate any community struggling with the modern traffic problem.

It would set in the sidewalks on business streets, adding the present sidewalk space to the space available for vehicles.

The sidewalks, arched like those familiar in Italian cities, would shade the pedestrian from sun and rain.

It would cost money, to crowd the sidewalks into no buildings and substitute stout pillars for present walls for one or two stories all along the street.

It would confer a favor, on the whole country if some courageous city would try the plan.

Autumn "Season of mists and mellow fruitfulness, Close bosom friend of the maturing sun; Conspiring with him how to load and bless With fruit the vines that round the about-echoes run."

To parents, autumn is a practical season. For Mother there are school books to buy, fruit to can, children's clothing to be made ready for the long grind; for Father, digging into business after the comparative ease of summer, seeing to the coal, taking down screen doors and looking after the metal work, preparing the house to resist winter's storms.

Children, however, are akin to poets. "Oh, Mother, I just love the fall! Driving out into the country smelling the peaches and apples and fallen leaves, and starting to school and playing hide and seek in the dusk!" says Twelve Girl.

"I like fall, too, but I like summer better," says Eight Girl. "I like to climb the trees and hide when there are leaves on, to play in the water and pick up nice little shells. Oh, how good it feels, the nice warm sunshine on the beach, and going camping and getting acquainted with farm!"

"Humph!" says Six Boy. "What I like is winter. Isn't there ever going to be any snow?" One thought runs underneath all these expressions. Autumn is the time for taking stock. Other seasons one takes as they come. In Autumn one sums up, compares, thinks about the year as a whole.

A bit of wisdom injected into the stock-taking, and the whole year runs smoother, with more margin of happiness.

Magnifying Glass Needed. The "Mite" Bible, smallest Bible known, has a magnifying glass in the cover with which to read the printing.

teacher asked us to kneel and thank God, you said, "Why should we thank God that somebody else is blown away?" She was greatly shocked.

"Did you like him up?" asked the colonel of Jennie. The young lady started and blushed. She had forgotten all about the politics of the situation.

A distinct sensation ran through the Woodruff school, but the schoolmaster and a group of five boys and three girls engaged in a very unclassical conversation in the back of the room were all unconscious of it.

The game was forfeit. Each child had been encouraged to bring some sort of weed from the winter fields—preferably one the seed of which still clung to the dried receptacles—but anyhow, a weed.

For it was after the first of January, and Jennie was visiting the Woodruff school.

ACTIVE STOCKS ADVANCE

The group in the back of the room went on with its conference, oblivious of the entrance of Superintendent Jennie. Their work was rather absorbing, being no more nor less than the compilation of the figures of a cow census of the district.

"Altogether," said Mary Talcott, "we have in the district one hundred and fifty-five cows."

"Leave them out," said Jim, "and tomorrow, I want each one to tell in the language class, in three hundred words or less, whether there are enough cows in the district to justify a cooperative economy, and give the reasons. You'll find articles in the farm papers if you look through the card files. Now, how about the census in the adjoining districts?"

(Continued in Next Issue.)

Firm Tone Displayed in Saturday's Half Session; Sugar, Cans and Motor Issues Show Gains Total sales 281,500 shares. Twenty industrials averaged 88.53; net gain .46. High, 1923, 105.38; low, 86.02.

NEW YORK, Sept. 22 (AP)—Stock prices displayed a firm tone in today's quiet half holiday session of the market. Subsidence of recent selling pressure brought about rather general short covering, the gains in the active issue ranging over a wide list but the best exhibitions of group strength were made by the sugars, equipments, cans and motors.

Rails Move Up. Rails moved up with the industrials, the best inquiry being noted for the eastern carriers. Baltimore and Ohio continued its steady advance on reports that August earnings will exceed \$4,500,000 net, as compared with a deficit of about \$650,000 in the same month last year.

CAR OWNERS We Now Charge Batteries In 8 Hours Exide Battery & Ignition George O. Wallace Station Twin Falls Idaho

### Fifteen Years Ago in Twin Falls

From News Files September 25, 1908

B. A. Baker of Twin Falls, one of the most experienced and successful farmers on the tract, has been traveling in the middle west for several weeks inspecting noted farming sections, and writes The News from Chicago that he finds nothing to equal the Twin Falls tract as far as agricultural advantages go.

The Three Creek stockmen are buying hay and grain liberally in Twin Falls and vicinity. John MacRae purchased 100 tons of hay at Ruhl last week for \$5 per ton in the stack and has also bought considerable grain. Andrew Rogerson and Jack Bratten are in town for grain and supplies.

An event that is being looked forward to with a great deal of interest is the wedding of Thelma which will take place at the rink next Tuesday evening. The attraction is presented under the auspices of the Ladies' Aid of the Presbyterian church. The

following children take the principal parts in the cast: Bride, Gwyneth Young; groom, Jess McKee; maid of honor, Polly Thomas; best man, Edward Babcock; bridesmaids, Albertine Benoit and Irene Warner; ushers, Frederick Hill and Robert Newton; flower girls, Irene Costello and Grace Hill; ring bearer, Audrey Baker; minister, Burton Noble; father of bride, Alfred Burlington; mother of bride, Marjorie Baker.

George F. Sprague is building a residence on Shoshone avenue. The plans were prepared by Burton Morse, the Twin Falls architect. The house will be lighted and heated by electricity and current will be used for cooking.

Leslie Williams, Fern and Florence Costello and Vesta Thomas are going to give a masquerade ball in K. of P. hall on Saturday evening to which 64 guests have been invited. The girls are making elaborate preparations for the event which promises to be a conspicuous success.

Frank E. Beatty, the "strawberry king," is here from Three Rivers, Mich., looking after his plant farm on Blue Lakes avenue. Mr. Beatty is very much pleased with the outlook and pre-

sents that the Twin Falls tract will soon produce the finest quality of winter apples.

On Tuesday, September 15, J. Murray of Twin Falls county, had on the Chicago market 259 head of 71 pound lambs which were sold by Clay Robinson and company for \$5.65 per cwt., the top of the trade of rangers, and 5 cents per cwt. higher than natives made on that day.

### ROCK CREEK

ROCK CREEK—Miss Alberta Owen is visiting friends here.

Miss Nora Dumrose came home from San Jacinto, where she stayed a couple of weeks. She left for Hollister Sunday night.

The cattlemen around here are busy rounding up their cattle that are being down from the hills.

Miss Nellie Anderson is now staying in Twin Falls.

Charles Abbott of Jarbidge was here to see his children Wednesday.

Chris Peterson was transacting business in town Thursday.

The News is read by the permanent earning classes.

### STATE GASOLINE TAX NETS HEAVY RETURNS

Idaho Measure Returns Over \$180,000 Since Going into Effect Last April; Will Improve Highways

BOISE, Sept. 22 (AP)—Since going into effect last April 1, the state gasoline tax of two cents per gallon has netted the state \$161,403.92, according to R. E. Hyatt, state auditor of public accounts.

All money received under the tax will be expended on the improvement and extension of the state highway. The first expenditure under this act of any importance will be for the improvement of the north and south highway. Approximately \$20,000 will be spent, according to W. J. Hall, in improving the old part of this road.

Sun, Moon and Earth. If the sun were a hollow ball, and the earth and moon could be placed in the center in their relative positions, the moon could continue round the earth inside the sun and leave plenty of room to spare.

### SURRENDER TO AUTHORITIES

CAMBRIDGE, Mass., Sept. 22 (AP)—Dr. Alvin A. Swope, of Brockton, surrendered Wednesday to the Middlesex county authorities to answer to the indictment returned by the grand jury here charging him with having been an accessory before and after the fact of the murder of Mrs. Alice M. Wolf, schenck of East Bridgewater. He will be arraigned in the superior court to-morrow afternoon with Dr. William M. Robb of Boston, who was arrested on a charge of performing an illegal operation upon Mrs. Wolf's child and who was indicted for murder in the first degree.

District Attorney Arthur K. Reading gave no intimation today as to further activities of his office in investigation of the circumstances surrounding the finding of portions of Mrs. Wolf's child's body in two suit cases in the Merrimack river at Tyngboro.

For the Olileth. Olileth should be washed with warm water, to which a little starch (made with boiling water) has been added. Soap should on no account be used.

Frankness Without Judiciousness. Some people who pride themselves a being very frank are often cruelly

### RATE SCHEDULE LIFTED ON COAST SHIPPING

SAN FRANCISCO, Sept. 22 (AP)—The eastbound intercoastal conference meeting here Friday declared open rates on copper and lumber. This is equivalent to permitting each of the shipowners in the conference to fix his own rates on these products.

The change was made, as regards copper, to meet recent reductions in rail rates, and as regards lumber, to meet anticipated competition in tramp carriers.

# EFFECT PLANS FOR ERECTION OF MEMORIAL

Five Members of Idaho Branch, American Legion, Appointed to Assist in Planning armory-Gym. at Moscow.

UNIVERSITY OF IDAHO, Moscow, Sept. 22.—One of the first steps toward the erection of a memorial armory gymnasium on the University of Idaho campus was taken at Boise recently with the appointment of five members of the Idaho branch of the American Legion by Paul Davis, state commander. The committee consists of O. W. Worthwine, chairman; J. Ward Arney of Coeur d'Alene; L. V. Patch of Payette; E. M. Sweeney of Twin Falls, and John Moran of Postville. This committee will work with a committee appointed by A. W. B. Kjosness, president of the University Alumni association, which is composed of Robert D. Leeper of Lewiston, chairman, George Horton and Paul Peterson of Idaho Falls; Homer David, G. P. Mix and Dr. J. H. Eklund of Moscow.

A resolution endorsing the project to erect a building to commemorate the activities of Idaho citizens in the world war was unanimously adopted by the American Legion convention of Coeur d'Alene the first part of August. Complete plans for the building have not been worked out but will be decided upon at a meeting of both committees to be held in the near future.

## Syrian Girl Was Sold into Slavery

Barpenek Karivani, a 14-year-old Syrian girl, orphaned by the World War and brought to America, was sold into slavery to one man after another by her aunt, Mrs. Osoanah Bedrosian. It was disclosed in habeas corpus proceedings brought in Chicago by her uncle, who sought to rescue her.

## MacKNIGHT Hypnotist At the IDAHO

There are very few men on tour in vaudeville who can furnish an evening's entertainment by themselves. MacKnight is one of them. He is a hypnotist of unusual ability, he performs quickly and demonstrates conclusively his weird power. His work is clean and of the kind that will entertain and mystify any audience.

The evening's program will open with pictures. May McAvoy will be seen in an adaptation of the novel, "The Mopals of Marcus Ordeyne," written by William J. Locke. A Mermaid comedy and the Radio News to which has been added a short reel, "Takin' the Magnificent," which will give scenes around Tokio before the recent disaster. This program will be at the Idaho Monday and Tuesday.

Balloons. The little whistling balloons being sold on the streets or given away with purchases of candy give two great thrills to the young folks—once when they expand gradually and once when they burst.

## PRESIDENT NOT LIABLE FOR UNOFFICIAL VIEWS

Numerous Callers at White House Take Liberty of Stating Coolidge's Policy on Vital Issues.

WASHINGTON, Sept. 22 (AP)—President Coolidge cannot be responsible for expressions of his supposed views which may be given publicity by his callers, it was stated officially today at the White House. Nor can he undertake to correct or enlarge on them for if he did he probably could find time for little else.

It was explained that visitors call to lay before the executive their views on subjects in which they are interested and that naturally the president desires to obtain all the information that may be helpful.

Some callers at the executive offices have undertaken to state the position of the president on such questions as the transportation problem, American participation in a world court, an extra session of congress and the Lasker-Farley shipping plan.

With respect to railroad consolidation it was stated that the president had not considered the particulars of that subject. It was added that before forming any mature opinion he would desire to consult with Chairman Cummins of the senate Interstate Commerce committee, one of the authors of the transportation act and with the Interstate Commerce commission.

transportation problem, American participation in a world court, an extra session of congress and the Lasker-Farley shipping plan.

## UNDERWOOD JOINS RANKS OF LEAGUE'S OPPONENTS

Alabama Senator Opposes Recent Failure of International Equity Function Properly in Greco-Italian Case.

CHICAGO, Sept. 22 (AP)—Senator Oscar W. Underwood, Alabama's candidate for the democratic presidential nomination, is no longer a strong advocate of the league of nations, he is credited by the Chicago Tribune as saying in an interview.

To the senator, once an eloquent advocate of the league, who was in Chicago on his way to Washington from a fishing vacation at Eagle river, Wis., was attributed the following statement:

"I am no longer a strong advocate of the league of nations. My original views are well known. However, on my trip abroad I saw the league at work. Developments then and subsequently have changed my attitude. The failure of the league to function in the dispute between Italy and Greece had much to do with the changes."

The senator also said he did not think the league would be an issue in the approaching presidential campaign.

"The present administration's lack of a definite foreign policy and its failure to achieve any notable accomplishments at home will furnish the best democratic campaign material," the senator was quoted on the campaign issue.

## IDAHO FISH AND GAME SHOW NOTED INCREASE

State Game Warden Reports Hunting and Fishing Favorable in Southern Part—Deer Seen Near Kooekia.

SPOKANE, Sept. 22 (AP)—Fish and game are on the increase in all parts of Idaho with the exception of birds in the northern part of the state which suffered through a wet spring, according to R. E. Thomas, Idaho state game warden, who stopped in Spokane on his way to the western fish and game commissioners' convention at Missoula, Mont., last week.

Deer, elk and moose are plentiful in the neighborhood of Kooekia, he reported. Conditions among these big game animals have been improved by the establishment of artificial salt licks in the sections near their chief feeding grounds. A short time ago a complaint that antelope were coming pests in the country around Challais was reported by the game warden's office.

## Produce Growers Adopt Novel Means For Saving Crops

EUGENE, Ore., Sept. 22 (AP)—Faced with the prospect of losing hundreds of tons of tomatoes, watermelons, cantaloupes, pears and prunes to rot on the vines and trees, the small fruit and truck farmers of Dillard, Douglas county, Oregon, acted promptly this season and built a small city flanking the Pacific highway ten miles south of Roseburg which proved their salvation.

About 50 big fruit and vegetable stands were built and the farmers' products, instead of rotting, were sold at a good profit to the hundreds of tourists who pass up and down the paved highway at that place every day.

Overlooking the Fun. It's just possible that the reason why some men have a hard job to better their bread is because there's too much loaf.

## STUDENT GROUPS IN COMPETITION

Various Sororities at State University to Compete for Higher Records.

UNIVERSITY OF IDAHO, Moscow, Sept. 22.—Scholastic competition among the women's groups on the University of Idaho campus promises to be unusually strong during the coming year, with Omega Phi Alpha sorority, winner of the Elizabeth Klidder Lindley cup for two successive years, striving to maintain the highest average for the third successive year, which will give it permanent possession of the trophy. Phi Gamma Delta fraternity, having won the Burton L. French cup for three successive years, becomes owner of it. Congressman French announces that he will offer another cup to be awarded on similar competition.

Kappa Alpha Theta held the Elizabeth Klidder Lindley cup for two successive years before Omega Phi Alpha stepped to the lead. Omega Phi Alpha will soon be installed as the University of Idaho chapter of Pi Beta Phi.

Averages for the women's groups for the second semester of last year are: Omega Phi Alpha, 5.17; Kappa Alpha Theta, 5.07; Gamma Delta Beta, 4.98; Kappa Kappa Gamma, 4.83; Chi Beta Epsilon (not eligible for competition on account of recent organization) 4.84; Delta Gamma, 4.52; Alpha Delta (not eligible for competition on account of insufficient numbers) 4.01.

Averages for men's groups are Kappa Delta (not eligible for competition on account of recent organization) 4.69; Phi Gamma Delta, 4.62; Sigma Alpha Epsilon, 4.34; Phi Alpha Psi, 4.32; Phi Delta Theta, 4.12; Sigma Nu, 4.29; Kappa Sigma, 4.31; Elwetia, 4.24; Beta Theta Pi, 4.20.

Computation is based on a possible average of 5.000, the average for the entire university was 4.574.

Origin of Crests. The Carlians are credited as being the originators of crests. Richard I of England wore a crest on his helmet like a plume of feathers. In the fifteenth century the crest was described as a figure on a coronet.

Unbearable. Don't try to fool the world; it has had a great deal more experience than you've had.—Boston Evening Transcript.

What is useless to you may be valuable to others—advertise it in the classified columns.

## TOMBSTONES FOR CANINES

Spokane Bonets of Resting Place Where Only Dogs Are Buried—One of Two in the United States.

SPOKANE, Sept. 22 (AP)—Dog cemetery of Spokane, said to be one of the two in the United States, has been in existence for a year, and is gaining. The town of "man's most faithful friend" has been laid to rest there with a little white tombstone to mark the grave and to express in a measure the gratitude of affectionate owners who always had made known their trust in deeds, understood alike by all creatures, instead of human words.

The unusual cemetery has a short distance north of the city on an acre laid out and cleared by Mrs. Chris Steltz, owner of nearby kennels. The acre is clear of trees, and white stones mark the entrance way and the boundaries.

"Home Rule" prize winning Air-dale of dog shows from San Francisco to Seattle, and pilot of his owner, Norman McConnell, is the latest to claim the cemetery as his final resting place. "Home Ruler" was to have been shown at the Spokane Interstate fair recently but on account of injury to his ear he was left all alone at the Steltz home. Fire destroyed the home while the people were away and "Home Ruler" didn't have a ghost of a show. He burned to death in his crate.

Companionship. Oh, it is pleasant, as it is rare, to find the same arm linked in yours at forty which at thirteen helped it turn over the Cleora da Amelita, or some tale of antique friendship, which the young heart even then was burning to anticipate.—Charles Lamb.

APPARENT SCARCITY IS CAUSE OF PRICE RAISE

Reports of Shortened Corn Production Boost Prices and Follows with Slight Advance

CHICAGO, Sept. 22 (AP)—Something of a crop scarcity which developed in the corn market today hastened September and May corn to a new high price record for the season and brought about an upturn in the wheat market. Wheat closed firm at 1-4 to 3-4 not advanced, with December \$1.03 to 1.03 1-8, and May \$1.08 5-8. Corn finished 1-3-8 to 2-1/2, up on 3-8 to 1-2-2 gain, and production advanced to five cents lower. Prices unchanged to five cents lower. Although a downward tendency with increased selling on the part of commission houses, corn was actively in demand from the beginning and soon gained sufficient momentum to turn wheat prices up grade. Before the day was half over a general rush to buy corn was in progress, and reports at hand indicated that recent frost and the excessive rains of late had done much more serious damage to corn than had been heretofore generally believed. Corn producing regions in Ohio, Indiana, Illinois and Iowa as well as portions of Minnesota and Wisconsin were said to have been injured to an extent far beyond what was reported. Word of corn moulding in the fields, notably at the various Illinois points, added to bullish sentiment regarding both corn and wheat and closing prices for each cereal were at virtually the day's top level. In the flurry about corn damage, the fact was almost ignored that between four and five million bushels of all grain were expected at Winnipeg for Monday's market. Advance in the price of corn was on December, a new crop delivery, anxiety, however, about scarcity of immediate supplies was evidenced by the action of September. Oats were dull but sympathized with corn and wheat. Steadiness of hog values kept provisions free from any decided change.

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and are intended to cover only the average prices. Where quotations are made for short periods other more than the quoted price no effort is made to include such quotations. Quotations are offered merely as a guide to producers and should not be accepted as reflecting extremes of either high or low prices.

RETAIL MARKETS

The Twin Falls markets yesterday were as follows:

**Livestock.** Heavy hogs 5c to 8c; medium hogs 4c to 7c; Light, 175 to 225 pounds \$3.50 to \$4.00; Veal calves \$4.00 to \$5.00; Mutton \$6.00 to \$7.00; Lamb \$5.00 to \$7.00.

# FREIGHT OFFICE ADDS TO FORCES TO HANDLE WORK

### Arrival of Newcomers to Twin Falls and Shipment of Crops to Market Cause Big Increase in Business

Arrival of many newcomers to Twin Falls and seasonal movement of crops to market has resulted this fall in heavy increase in the volume of freight office here, according to statement of A. E. Sullivan, Short Line agent here, announcing Saturday the addition of three men to the staff of freight office employees and the fact that beginning this week local freight offices will be open from 7 o'clock a. m. until 7 o'clock p. m. for the convenience of patrons, especially shippers of perishable products.

"Household goods have been coming into Twin Falls at the rate of three to five shipments daily. It is estimated that Sullivan men will indicate a substantial increase in the population of Twin Falls and vicinity.

**Business Growing Daily.**  
"Business at the freight office is picking up every day. We have recently added three men to the force, and beginning the first of the week, will keep the office open from 7 o'clock a. m. until 7 o'clock p. m. to handle the crop without delay to shippers.

**Three Weeks' Shipments.**  
Records of the Short Line freight office for the first three weeks of September show a tonnage forwarded from Twin Falls as follows: Merchandise, 57; flour, 46; Potatoes, 31; apples, 3; wool, 1; poultry, 2; sheep, 2; hogs, 2; sugar, 12; wheat, 11; corn, 1; eggs, 3; oil, 1; Carriage, 1; beans, 17; vinegar, 3; hogs, 2; oats, 1. Cardinals received during the same period are shown as follows: Cardinals, 2; blue rock, 1; white, 5; lumber, 7; oil, 17; flour, 1; hogs, 7; miscellaneous 36.

## TREND OF MARKETS

(United States Department of Agriculture market report for week ending Sept. 21—Total carlot shipments of potatoes for the United States, Thursday numbered 1144, as compared with 924 on the same date last year. Idaho shipments are as follows: Caldwell-Nampa, 16; Idaho Falls, 20; Burley-Buhl, 21.

**Friday morning's markets reported by Knesses City—No Idaho quotation. Supplies liberal; demand and movement slow; market weak. On track 85 cars; 1 Idaho arrived.**

**Chicago market Wednesday:** 25 cars on track; market steady. Washington 100 pound sacks yellow, \$3 to \$3.25; California 100 pound sacks white variety, \$3.75 to \$4.25; Australian Browns \$3.60 to \$3.75.

**WARRANT CALL.**  
Book Creek Highway District. Warrant call notice will be all outstanding warrants against the Book Creek Highway District, up to and including No. 75, upon presentation. HENRY HANSEN, Treas. Book Creek, Idaho.

# Salmon Trap Seed Crop Brings \$4800

A field of 40 acres of Grimm alfalfa grown this season on the T. J. Douglas farm near Haggard on River State road, has yielded a crop of approximately 400 bushels of seed. It was learned Saturday when threshing of the crop was completed. Sale of the crop has been contracted at the rate of \$12 a bushel, it was said, bringing the gross return to \$4800, or \$120 per acre.

## FINAL TRIBUTE TO BE PAID IDAHO PIONEER

Funeral Services Arranged for O. P. Moberg, Who Was Prominently Identified with Development of State

Final tributes will be paid at funeral services Sunday afternoon, to the memory of O. P. Moberg, 81 pioneer Idaho mining man and farmer, who was discovered dead in his bed Friday morning at his suburban home near Twin Falls, where he had resided for about nine years.

The services will be held at 1:30 o'clock in the P. J. Grossman chapel here, and will be conducted by the Rev. F. L. Cook, acting pastor of the Christian church. Friends and neighbors will serve as pallbearers. Burial will be in the Twin Falls cemetery.

Death of Mr. Moberg removes a citizen of Idaho who was identified with its early day development in the fields of mining and agriculture. A native of Sweden, Mr. Moberg came to America at the age of 20 years, engaging in business first in Kansas City. In 1872 he went to Boulder, Colorado, where he engaged in mining and supplied ties for a railroad under construction at that time. He then came to Twin Falls, Idaho, where he engaged in the lumber business.

Coming to Idaho in 1877, Mr. Moberg worked for several years at Mount Idaho, becoming a partner in the interest in the holdings of the Pioneer Mining company there. Later, in 1885, he established the family home on a ranch at Cottonwood, Idaho county.

## BEATTY INTERESTS HERE TRANSFERRED BY SALE

Transaction Involving Estimated Consideration of \$50,000 Gives Sheep and Land to Hollister Concern

Sale to J. A. Farmer and Son of Iol Water, prominent Idaho sheep man, of the remainder of the property interests of the C. Beatty and Sons, public knowledge Saturday. Property included in the transaction comprises 3000 ewes, 21 horses, 800 acres of grazing land, 1000 tons of hay together with buildings and farm equipment. The Beatty home place east of Hollister, is to be held by the purchasers under lease.

No definite information was available as to the consideration given for the property, but it was understood to be in excess of \$50,000. The residence of J. C. Beatty near Twin Falls was sold some months ago, possession being given this month. It was announced in connection with that transaction that Mr. and Mrs. Beatty would join their son, Harold Beatty, in California.

Picture framing done neatly. Prices reasonable. A. H. VINCENT COMPANY.

Dr. Evans, the optician from Boise, will be at the Irving hotel next Monday afternoon, Sept. 24 and remain all day, September 25. If fit glasses correctly and attend each case one year. J. T. Evans—adv.

## Get Your Furnace NOW But Make Sure that it's a WEIR

MOIST WARM AIR FURNACE

Weir Furnaces save cost because the patented combustion-acting-potential burner operates ordinarily without the chimney as smoke and soot.

Weir furnaces are gas and dust-tight—framed like a window with a special odors, dirt or blackened wall paper.

Ordinary stove and furnace heat is harsh and dry. Weir heats pure and moist, meaning healthier families.

See us today about installing one in your home. We will be pleased to show you the Weir and explain its many features.

Brizee Metal Works 227 Second Ave. E. Phone 10.

# JUSTICE MILLS SPEED UP WORK

### Rapid Disposition Is Made of Motions and Demurrers Scheduled for Hearing

The number of motions and demurrers in pending suits set for hearing at the present term of district court here was reduced by 10 or more Saturday, without presentation of any attorneys' arguments, other disposition being made of the questions raised. Arguments had been scheduled on a total of about 90 on the calendar when the term opened Friday.

In the case of Earl J. Ahern against the Idaho Central Railroad company, involving Ahern's claim for \$25,000 for engineering and other services rendered, a demurrer was withdrawn by counsel for the company, who were allowed 60 days in which to file an answer to the complaint.

Validity of questions raised by a demurrer in the case of the Marquette irrigation district against the Bank of Murrumbidgee and E. W. Porter, Idaho commissioner of finance, was admitted by counsel for the district, who with file an amended complaint. In this case, claim is asserted by the district to prior right for recovery of its funds deposited in the defunct Marquette bank.

Upon motion and application of the prosecuting attorney's office, Judge Babcock ordered dismissal of charges against Monroe Hyder, accused of assault with intent to commit a felony, a felony offense. The prosecuting attorney declared in an affidavit supporting the motion that one of the witnesses upon whom the state would rely in prosecuting the case would be unable to produce testimony.

## Dates Murder Trials

At the opening of the afternoon session the court received defendants' pleas of not guilty in the cases of Melvin Blackburn, charged with first degree murder of his wife; Romulo Lemos, charged with first degree murder of Andrea Ortega, and of Joe Martinez and Anton Fierro, charged with resisting an officer. In the case of Martinez and Fierro, declaration on questions raised by a demurrer to the information was taken under advisement by the court until Monday.

Trial in the case of Blackburn was set for October 3, the date on which the jury has been ordered to report to the court for service. Trial in the case of Lemos, set for the same day, will begin immediately following the conclusion of the Blackburn trial.

# Urges Recognition of Citizen's Duties

### Woman Speaker for National Committee Calls for More Interest in Politics

Plan for recognition of individual responsibility of citizenship under the American form of government was emphasized by Mrs. Thornton L. Brown of Joplin, Missouri, field director of the democratic national committee, in an address Saturday evening before an audience of about 50 persons in the Baptist bungalow.

Steps were taken at this meeting toward formation here of a study club for women voters. Mrs. James D. Whelan being elected temporary chairman. A meeting will be called next week, it was announced, to complete the organization and outline its program.

In the course of her remarks, Mrs. Brown discussed American political history from the standpoint of the democratic party, referring to the activities of Jefferson in connection with the ratification of the first ten amendments of the constitution and efforts of Jackson toward extension of the franchise, praising the legislative program of the first Wilson administration and defending assumption of railroad administration by the government during the war period.

The speaker was introduced by E. J. Finch, chairman of the democratic county committee. Arrangements have been made to permit Mrs. Brown to visit a number of points of scenic interest and view surrounding farm country during her visit here. She will leave Sunday evening for Pocatello, concluding a tour of the northwestern states which will include stops in Idaho at Boise, Twin Falls and Pocatello.

## CONVENE WITH SHRINERS

Twin Falls Is Represented by Delegation at Tri-State Ceremonial Session Held in Pocatello

POCATELLO, Sept. 22.—(Special to The News.)—Twin Falls delegation at the tri-state ceremonial of the Shrine of Idaho, Wyoming and Utah, here today included C. N. Beatty, Stuart H. Taylor, James McMillan, Burton E. Morse, Blaine Hanks, F. E. Chamberlain, T. J. Lloyd, H. R. Grant.

Ceremonial session at Meridian park, to which the afternoon was devoted, was preceded by a grand street parade, with approximately 1200 Shriners from the three states in line. The parade was one of the most elaborate events of its kind ever held in Idaho.

Visiting Shriners were guests this evening at a ball given in the Idaho Tech hall.

# ROAD DISTRICT LETS CONTRACTS

### William Harkins and W. L. Johnson to Construct Nine Miles of New Highway

Contracts for the construction in the immediate future of approximately nine miles of gravelled highway were awarded by directors of the Twin Falls highway district at a meeting Saturday to William Harkins and W. L. Johnson.

Contracts awarded to Mr. Harkins cover construction of seven miles of road extending east from a point one-half mile west of Berger, and one mile south from the water purification plant south of Twin Falls.

Construction of one mile of highway extending south from Kaul was awarded to Mr. Johnson. Bids for construction of gravel roads in the vicinity of Hollister and Amador were rejected by the directors, as were proposals for graveling of approximately three miles of graded road extending south from the high line canal on the road south from Blue Lakes boulevard in Twin Falls.

Construction of the roads for which contracts were let Saturday, it is understood, will begin as soon as the contractors have finished work on which they are now engaged, providing weather conditions permit.

Mr. Harkins is completing grading and graveling of portions of the Addison avenue road to the Hanson bridge, which is to be gravelled throughout under provisions of a contract lately awarded to Goodnight Brothers of Kimberly. Goodnight Brothers, highway district officials have been advised, are bringing in road-building machinery from the scene of their recent operations in Nevada, and are preparing to begin work under their contract here within the next few days.

Mr. Johnson is completing grading of a part of the new highway under construction north from Ketchum in the Wood river region.
