

LOYD GEORGE GIVEN WELCOME AT U. S. PORT

Famous Statesman Who Guided Great Britain Through the War Is Delighted with Reception on His First Visit

NEW YORK, Oct. 5 (AP)—David Lloyd George, former prime minister of Great Britain, veteran of 17 years of strenuous activity in world politics, came to America today and found in a wholeheartedly enthusiastic welcome conducted by the New York a series of humanly potent thrills.

So delighted was the little Welshman who had guided the British ship of state through the tumultuous years from 1916 to 1922, that his demeanor was more often that of an interested school boy and of a deeply touched human being than that of a blase statesman.

The former premier first saw American soil from the deck of the Mauretania early this morning. His passage from the great ocean liner to the motor launch Macom to the Battery and thence by motor accompanied by a cavalcade of other cars to city hall and through the streets of the metropolis was almost a triumphal procession, marred only by two minor street disturbances precipitated by Irish republican sympathizers.

Expresses Thanks
To Canada and to the United States Mr. Lloyd George declared he brought as Britain's war-time premier a message of heartfelt thanks for their services in the great war.

He came, he said, with no political status and no official credentials, but as a private subject of the crown to express to Canada his personal thanks for the volunteer aid she unstintingly had offered the British empire in her time of need.

To the United States, he explained, he brought thanks for the army that has come like the sword of Excalibur in the Arthurian legend, from out of the waters of the Atlantic when the horizon of the allied powers was blackened with despair.

Spend Time in Study.
Mr. Lloyd George explained, however, that his visit to the United States—his first one—was one of self-instruction, that he wished to say little and to study and learn much.

He will leave tomorrow morning for Montreal where he will begin a tour through the larger cities of Canada, terminating at Winnipeg from where he will re-enter the United States in Minnesota, visiting afterward a number of middle western and eastern cities and ending his tour in New York early in November.

Disorders Occur.
New York's welcome to its distinguished visitor was but slightly marred by two disorders, quickly controlled by specially assigned squads of police. Between the Battery and city hall in lower Broadway, police broke up a parade of middle-aged Irish women carrying placards denouncing Great Britain and characterizing Lloyd George as a "murderer of Irish women and children." A melee ensued in which banners were torn from the hands of the paraders and in which police and rioters exchanged fistuffs. The women were dispersed; one was arrested, but later, when the Lloyd George party was proceeding up town, another group of Irish sympathizers was dispersed.

Throughout the day, besieged again and again by newspaper men who asked his views on current European affairs, Mr. Lloyd George expressed his unwillingness to bring any message to America.

Given Luncheon.
At a reception luncheon tendered him by the United Press, which was attended by owners and representatives of many American and Canadian newspapers, he expressed the opinion that until the unity among nations, which prevailed during the war, is regained, "the condition of the world will be a very troubled one."

The veteran statesman admitted that the situation in Europe was deplorable, but pointed out it would have been infinitely worse had the allies been defeated. He refused to admit that the treaty of Versailles was at the bottom of the economic and political difficulties of the world, adding the "mischievous" lay in the way the treaty was being carried out.

Leaves Politics.
Mr. Lloyd George denied that he had political aspirations, declaring that after 17 years' service he thought it was time to rest and try something else.

Mr. Lloyd George, his wife, Dame Margaret, his daughter, Megan and several secretaries, were greeted on board the Mauretania early this morning by a committee which included representatives of the city, Secretary of Labor Davis, Assistant Secretary of State Butler Wright and a group of representative Americans.

Miss Megan Lloyd George, a devoted companion and ardent admirer of her father, was a charming and youthful miss as she stood beside her father. Small and rosy cheeked, she was dressed in a blue velvet coat with scarlet collar and chic black turban. Unblushingly and with quiet composure she

LEADERS IN OKLAHOMA'S K. K. "WAR"

W. D. McRAE is the leader of the anti-Walton faction in the Oklahoma legislature, and is the man who advised the "rebel legislature" to convene in Oklahoma City in an effort to impeach Governor Walton, the meeting being forbidden by Governor Walton, with orders to the state troops to shoot to kill, if necessary. Adjutant-General Baird E. Markham, commander of the Oklahoma National Guard, is the officer to whom this order is said to have been given.

said she was 21, not in love and not yet sure whether politics or matrimony would claim her future.

League Depends on U. S.
"Of politics Mr. Lloyd George had little to say. He thought, he said, the Ruhr situation showed few signs of improvement; the league of nations, he added, could not be a going concern without the concurrence of the United States; central Europe, he admitted, was still in danger of disastrous development, adding his opinion that adoption of Secretary Hughes' proposal for analysis of the situation by an international committee would help bring about a peaceful settlement.

One of the most pleasurable experiences he looked forward to, he said, was a visit to former President Wilson, with whom he declared he had worked for five months, in amity and cordiality.

"One of the visits to which I look with the greatest pleasure is that to former President Wilson," said Lloyd George. "I worked with Mr. Wilson in great amity and cordiality for five months and it will give me great pleasure to see him again."

SENTENCE IS COMMUTED

Wyoming Board of Pardons Gives 19-Year-Old Youth Life Imprisonment; Murdered Former Employer

CHEYENNE, Wyo., Oct. 5 (AP)—The Wyoming board of pardons today commuted to life imprisonment the death sentence of Clifford Mann, on the ground that he is only 19 years old and has been pronounced mentally defective. Mann was to have been hanged next Friday for the murder of Mrs. George Schweidtfeger, wife of his former employer, near Lander, Wyo., last December.

WOMAN SHOTS HERSELF

Mystery Surrounds Suicide of Former Prominent Member of Louisville Society; Made All Preparations

SANTA BARBARA, Cal., Oct. 5 (AP)—Mrs. Edward C. Caldwell, formerly Miss Stella Peterson, prominent society woman of Louisville, Ky., shot and killed herself at her home here last night. Mrs. Caldwell, according to the police, made all preparations for death with the utmost deliberation. She wrote and signed checks for the balance in a bank in this city and one in Louisville, wrote a farewell note to her husband and then fired two bullets into her mouth. Death was instantaneous. Caldwell returned home in the evening and found his wife dead.

The cause of the suicide is not known. It is said that Mrs. Caldwell had been laboring under a mental strain for some time. Both Caldwell and his wife formerly were prominent in Louisville.

Dark Beaver Fur Most Valuable.
The darkest and handsomest deep ebony-brown beaver fur is found along the south shore of Lake Superior. It is worth several times as much as the paler varieties from the western and southern states.

REVISED DATA SHOWS GERMAN WAR PAYMENTS

Cash, Merchandise, Shipping and Credits Figure in Figures on Total Reparations Paid to June 30

PARIS, Oct. 5 (AP)—The reparations commission today issued a set of revised figures as of June 30, showing Germany to be credited with reparations payments totaling 8,213,670,000 gold marks, of which 1,900,000,000 were in cash, 3,250,000,000 in merchandise and the remainder in shipping, cables and credits for the Saare valley mines and ceded territories.

Great Britain, France, Italy and Belgium advanced Germany 392,000,000 gold marks under the Spa agreement to improve food conditions in the Ruhr which had been a prior claim under reparations along with the army costs.

The army costs were: France 1,321,000,000 gold marks; Great Britain, 963,000,000; Belgium, 240,000,000; and Italy 10,750,000. The American army expenses of more than 1,000,000,000 gold marks were not included in the commission's statement, but are mentioned in a footnote.

Of the total receipts 5,500,000,000 gold marks have finally been distributed, while the shipping, cables and territories are still "kept in the 'suspense account'" pending various settlements.

Belgium received most of the cash distributed, receiving 1,981,000,000 gold marks under her priority, while France received only 144,000,000, but the latter received 1,357,000,000 marks worth of merchandise or double either Great Britain's or Belgium's share.

MAGNUS PLEASD WITH COOLIDGE BUT WANTS DRASTIC LEGISLATION

Senator-Elect from Minnesota Has Plan for Organizing Research Project

CHICAGO, Oct. 5 (AP)—That President Coolidge is a "pleasant fellow," and claims common ancestry with Mrs. Magnus Johnson, but that agriculture needs more drastic relief than the measures recommended by the president, was the opinion expressed by the senator-elect from Minnesota here today.

"The president is a nice, pleasant fellow," he said. "However, while cooperative marketing, diversification of crops and long term loans are important and worth while, right now legislation is needed authorizing the fixing of wheat prices for two years. This is necessary to put the farmer on his feet. Producing farmers are going out of business by thousands. That is what I tried to make clear to President Coolidge.

"Just now we are organizing in Minnesota and North and South Dakota the Producers' Alliance. The alliance will seek the establishment of town and county units in which Mr. Farmer will be represented, and if they want to, Mr. Merchant and Mr. Manufacturer may come in with us. These units will gather facts to ascertain the cost of production in agriculture and then we—we, the farmers—will fix our own prices on the basis of costs."

Cooperative marketing, Mr. Johnson, added, is the means the producers' alliance will use in putting its prices into effect.

RESCUED MAN BURIED IN BLOCK OF ASPHALT

CANTON, Ohio, Oct. 5 (AP)—After chopping with axes for more than two hours today workmen succeeded in rescuing P. P. Hasnan, 36, from a block of asphalt, where he had been embedded all night. Only his head, right arm and shoulder were visible. Hasnan had fallen into the pool of warm asphalt last night. He suffered no serious effects.

STATE FAVORS RAIL PURCHASE

Colorado Executive Approves Sale of Rio Grande Stock to Mid-West Line

DENVER, Colo., Oct. 5 (AP)—Announcement by Attorney-General Fleming that Colorado did not object to acquisition of a half interest in the Denver and Rio Grande Western Railroad company by the Missouri Pacific Railroad company, and withdrawal by the state of Kansas as an intervenor in the interstate commerce commission hearing on the proposed organization of the Denver and Rio Grande Western were the principal features of the second day of the hearing on that subject conducted here by Charles D. Mahaffie, director of the bureau of finance of the commission.

Announcement of the attorney-general's attitude toward the Missouri Pacific's interest came immediately after the proceedings opened today and the news was telegraphed to the Kansas state utilities commission. Shortly after noon C. M. Reed, chairman of the Kansas state utilities com-

mission, wired a withdrawal of the intervention entered yesterday by the state of Kansas. This action, it was announced, made unnecessary the hearing scheduled for October 8 in Kansas City, Mo. The withdrawal was made through Edward J. White, vice president and general counsel of the Missouri Pacific railroad.

A considerable part of today's proceedings was taken up by the testimony and subsequent cross-examination of W. H. Williams, chairman of the executive committee of the Missouri Pacific and Washah railroads and vice president of the Dolaware and Hudson. Mr. Williams outlined the advantages which he said would follow adoption of the proposed organization, but as to the Denver and Rio Grande Western and the Missouri Pacific systems, he testified that the Missouri Pacific already receives more than 36 per cent of the interchange traffic of the D. and R. G. W., more than twice the amount interchanged with any other system.

CAPTURES TWO BANDITS

FORT SMITH, Ark., Oct. 5 (AP)—Three hours after aiding in the capture this afternoon of Ed Lockhart, notorious southwestern bandit, Graver C. Monroe, under sheriff of Delaware county, Okla., early tonight captured Carl Reesor, first cousin of J. J. Spencer, the outlaw, recently shot down by a posse of officers near the Oklahoma-Kansas line.

Live Opportunities for You

"Opportunity knocks but once." So said the sage. But don't you believe it. It isn't so.

Opportunity knocks every day of your life. Every advertisement in this paper is brimful of opportunity for some one. Many of them are written with you in mind. They offer you opportunities to save time, money and effort—opportunities to surround yourself with comforts and conveniences—opportunities to eat better, sleep better, dress better and live better. You would live in ignorance of these opportunities were it not for advertising. Somebody might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for making shoes or clothing—but you would never know it.

Modern advertising is a boon. It keeps information up to date on the many things we need in order to live profitable, happy and useful lives in this age of rapid-fire progress.

Every advertisement in this paper is a real opportunity.

Don't let it knock in vain

Gowdy May Again Be Idol of Fans at World Series

Outstanding Player of Brief Contest in 1914 Is Listed on Giants' Line-up

NEW YORK, Oct. 5 (AP)—After nine long years, two of which were spent in active service in the world war, Hank Gowdy, outstanding player in the briefest world's series in baseball history, bids up as a prospective hero of another title-deciding tournament.

In 1914 Gowdy was a member of the Boston Braves, who captured the world's series by defeating Connie Mack's Athletics in four straight games.

Early this season Hank became the property of the New York Nationals. As a Giant he will gain his second opportunity to figure in the title contests.

Hank was a conspicuous figure in the Braves history of 1914, both during the league season and the world series. He has been a very helpful member of the Giants this year. His 1914 world series batting average was .535, he having registered a home run, a triple and four doubles in 11 times at bat.

TRAIN COACHES AT UNIVERSITY

Idaho School Inaugurates Plan Designed to Better Athletics in This State

UNIVERSITY OF IDAHO, Moscow, Oct. 5.—Beginning this year the University of Idaho department of athletics is inaugurating a plan to better athletics throughout the state by developing from the university athletes, coaches whom it will feel safe in recommending to the high schools of the state. This plan is being started with football this fall, under the direction of R. L. Matthews, director of the athletic department and head football coach.

After an athlete has completed his allotted years for collegiate competition, if he has ambitions to become a coach, he will be added to the regular staff in such a capacity that he will gain much valuable knowledge about the problems of coaching. This will be real laboratory work, and after what he has gained as a player should make him into a coach whom the department can recommend.

At the opening of the football season this fall Coach Matthews placed on his varsity coaching staff A. Brown and James Neal of Boise and Dale Vohn of Emmett, all of whom have been outstanding players on the University of Idaho football teams during the last three years. These men are in positions where they will be able to demonstrate their abilities to "develop" green players into candidates suitable for varsity teams.

Under David McMillan, freshman coach, are Fred Moringau of Coeur d'Alene, and Elva A. Snow of Boise. Both of the men were prominent in baseball.

SEALS CLINCH PENNANT

San Francisco Team of Coast League Takes Honors for Second Time by Winning from Sacramento

SAN FRANCISCO, Oct. 5 (AP)—The San Francisco Seals clinched their second successive Pacific Coast league pennant today when they won their fourth straight game from Sacramento, their closest rival, 9 to 5. The champions have been in the lead virtually all the season.

SALOONS FAIL TO CLOSE

Cafes and Other Liquor Dispensers in Philadelphia Refuse to Obey Orders of Federal Agents

PHILADELPHIA, Oct. 5 (AP)—Department of justice agents and state police, having served notices on the 1,300 or more saloons and cafes in Philadelphia to close their doors and cease business Thursday, found that at most places their warnings had not been heeded.

They also learned that the majority of the proprietors had no intention of closing without a legal battle with the federal government.

The governor declined to state his future plans.

SALES PLAN IS FAVORED BY IDAHO CONGRESSMAN

MOSCOW, Idaho, Oct. 5 (AP)—Co-operative marketing is the only thing which will assure farmers of the results to which they are entitled," declared Congressman Burton L. French of Idaho after he had read of the plan of President Coolidge to send directors of the war finance corporation into the northwest to aid in the organization of government financed co-operative marketing associations.

Congressman French, who has been negotiating himself with the needs of Idaho farmers during the summer, feels that this plan will considerably lessen the economic depression in the agricultural regions.

If your property is desirable and is advertised in the classified—you'll find your buyer.

HUGE CROWD WAITS FOR COLORADO-CHICAGO TILT

CHICAGO, Oct. 5 (AP)—With a crowd of almost 20,000 expected to witness the Colorado Agricultural college-University of Chicago football battle tomorrow-afternoon, squads from both colleges took a workout on Stagg field this afternoon.

Coach Stagg expressed himself as fairly satisfied with the improvement the first team has shown and will probably send it in complete.

The eleven probably will be composed of Dickson and Lammie, ends; Abbott and Hibben, tackles; Pondellik and Rohrer, guards; King, center; Law, quarterback; Captain Pratt and H. Thomas halfbacks, and Zorn fullback.

The Colorado farmers arrived this morning.

WINS MAY DAY STAKE

LEXINGTON, Ky., Oct. 5 (AP)—Leo Oettinger's Guy Richard won the \$10,000 May day stake, the feature of the Grand Circuit races, in straight heats here today. Mr. McElvyn was second and Trux third. The time of the first heat, 2:00 3-4, equals the record for the stake.

Mojo Self-Determination.

Natural Heating System.
Heat from a hot spring in the Pyrenees equivalent to a ton of coal an hour is being used by a French fruit grower to force fruits so that they can be gathered for the market before their regular time.

LAKE SHIPPING ADVANCES

SAILT STE. MARIE, Mich., Oct. 5 (AP)—The movement of freight cargoes through the locks here during September totaled 12,770,049 short tons, according to the monthly report of the United States engineer's office. The figures compare with 12,856,056 short tons in September of last year. The movement of wheat aggregated 25,071,800 bushels compared with 27,520,214 bushels in September, 1922. Iron ore shipments totaled 9,407,737 short tons, compared with 9,653,148 short tons in September last year. The movement of coal upbound was 1,945,344 short tons of bituminous, which compares with 2,363,745 short tons in September a year ago.

Good for Burns.
Burns will occur in the kitchen, so it is well to remember that a raw potato is a good remedy. Scrub or grate the potato and apply it like a poultice to the injured surface; it will be found most soothing.

IDAHO FALLS IS VICTORIOUS IN OPENING GAME

Twin Falls 1922 Football Champions Lose Closely Fought Contest Through Intercepted Forward Passes

By LAWRENCE HODGIN.

IDAHO FALLS, Oct. 5.—(Special to The News)—In a cleanly fought and exciting battle, the opening game of the season here, the Twin Falls football team, 1922 champions of the state, met defeat at the hands of the Idaho Falls team today by a score of 13 to 0.

Both of Idaho Falls' touchdowns were made on intercepted forward passes, the first in the second quarter and the second in the final quarter of the game.

Idaho Falls kicked off and the first quarter was snappy throughout. In the last part of the second quarter with the ball on the visitors' 10 yard line, following a couple of bad kicks, Idaho Falls intercepted a forward pass for their first touchdown. They failed to kick goal.

Following a sea-saw performance in the third and part of the fourth quarter the ball again came into the possession of the home team by another intercepted pass and was again carried over the line, the locale being successful in their second attempt at kicking goal.

Field Kicking. Notwithstanding a muddy field and drizzling rain the game was fast throughout and was reclaimed as one of the best ever played on the Idaho Falls field.

Although the first of the season, the game evidenced considerable training on the part of both organizations and some exceptionally good football playing was seen. The ball was in the center of the field most of the time with both teams attempting to gain ground by occasional flashes of play, including forward passes, end runs and line smashes.

Resort to Punting. Punting was resorted to very frequently throughout the contest, by Idaho Falls, and Twin Falls forced the home team to kick repeatedly during the final session.

Jenkins, Garrity and Timm were among the stars for the visitors and the 1922 state champions, who succeeded in gaining considerable ground on forward passes, which were frequently employed.

Complete Four Passes.

Twin Falls successfully completed four forward passes for 20 yards and the visitors' first downs were numerous.

Idaho Falls succeeded in making first down twice. "The game was fairly fought throughout," said Clinton Evans, Twin Falls coach, after the game. A crowd of about 2500 persons witnessed the game and the large attendance was highly rated over the rather unexpected outcome of the opening contest.

NAMPA RUNS AWAY WITH GAME AGAINST WENDELL

Victory by 31 to 0 Score Gives Winners Credit with 77 Points to Opponents 0 in Two Games Played

NAMPA, Oct. 5.—Nampa high school football team defeated Wendell in a victory over Wendell high in their game here this afternoon. To date Nampa team has scored 77 points to its two opponents' 0.

Coch Harrington's men rolled strictly on straight football, though one of the four touchdowns was scored in the second half by the admirer's end. Neither of the victories so far credited to Nampa count in the league standing.

Interest in Game Shown by Inquiries

News Maintains Practically Continuous Service During Clash at Idaho Falls

Practically continuous service was maintained for hours at The News office Friday on the results by quarters of the gridiron battle at Idaho Falls.

Notwithstanding the fact that a staff representative of The News accompanied the team and that elaborate arrangements were made for duplicate service at quarters and the help by both telephone and Western Union service, the returns were all too slow to suit the hundreds of people who called "three-to" from 2 o'clock in the afternoon on, notwithstanding the fact that the game was not scheduled to commence until 3:30.

Every inquiry was cheerfully answered and the results bulletined on The News windows as rapidly as they were received. The service rendered was as nearly complete as human ingenuity permitted and the satisfaction gained at The News office by reason of the fact was second only to that of the fans themselves.

Interest never wavered even when the trend of the game began to go against the Evans clan, but disappointment was clearly evidenced in the tones of many an anxious voice and the expression on many a face told plainly of the extraordinary interest taken in the result of the first test of strength of the season.

Up to a late hour in the evening calls continued to come in, special telephone arrangements permitting of a prompt reply to all.

Blackfoot Eleven Blanked by Rupert

Speedier Team Wins, 15 to 0, Against Heavier Opponents; Play on Muddy Field

RUPERT, Oct. 5.—(Special to The News)—Superior speed was a determining factor in the victory, 15 to 0, won here today by the Rupert high school football team against the heavier Blackfoot eleven. The visitors were not permitted at any stage of the game to advance the ball beyond Rupert's 30 yard line, and had no chance to score. The game was played on a muddy field.

One of the sensational plays of the game came in the last quarter, when Long of Rupert, intercepted a forward pass and carried it through Blackfoot's line 40 yards for a touchdown. Rupert failed to kick goal on two chances.

Burley Triumphs Over Normal Team

High School Lads Win, 13 to 6, with Straight Football Against Aerial Attack

BURLEY, Oct. 5.—(Special to The News)—Burley high school defeated the Albion normal school football team here today, 13 to 6. Straight football won for Burley, when attempts at aerial attack proved unsuccessful. The normal school used forward passes frequently, and with better success. Kerchick and Canine were the principal ground gainers for the Burley eleven. Burley scored in the first quarter and had again carried the ball to within five feet of the goal when the period ended. Burley scored again in the third and fourth quarters.

WHITE ENGAGED OUT. NEW YORK, Oct. 5.—(Special to The News)—New York knocked out Charles White of Chicago in the fourteenth round of their 15-round match in Madison Square garden tonight.

Back Yankees to Win the Series

NEW YORK, Oct. 5.—(Special to The News)—One of the largest single wagers so far on the world's series was recorded today when a Wall street firm announced it had placed \$4,400 against \$4,000, representing odds of 11 to 10, that the New York Yankees would capture the series from the New York Giants.

ERTLE ALLEGES INTIMIDATION

Referee of Stribbling-McTigue Bout Says He Was Threatened with Hanging

ATLANTA, Ga., Oct. 5.—Mike McTigue, light heavyweight champion, Abe Jacobs, his manager, and Harry Erie, referee, tonight were enroute to New York after spending a few hours here today and relating the thrilling events of yesterday and last night in Columbus, Ga., where the world's light heavyweight title hung in a tenuous balance for some hours after McTigue and Young Stribbling of Macon, fought a 10-round bout.

The party's departure from Columbus was precipitated and the fighter and his companions feared here today. They came through the country early this morning in automobiles, accompanied by four military guards.

Arriving here, Referee Erie said he originally had called the McTigue-Stribbling fight a draw and denied that he had reversed himself by awarding the title to the challenger. Three hours after the fight the referee issued a signed statement calling the fight a draw and leaving the championship with McTigue. Then the part left Columbus.

McTigue and Erie both said they had been intimidated. The champion said a tree had been pointed out to him as one from which he would be hanged if he persisted in his plan that he was not able to fight Stribbling because of an injured thumb. He said a pistol had been flashed during a conference with Columbus men in his hotel room. Erie charged that he had been threatened after the fight because he refused to give Stribbling the decision. The champion said he is willing to give the Macon high school boy longer another chance at his title. Manager Jacobs said he preferred that the next bout be not held in Georgia.

ALLEGED FRAUD-UP COLUMBIAN, GRANT OCT. 5

The McTigue-Stribbling boxing "fiasco" here yesterday, in which the world's light heavyweight championship swung back and forth like a pendulum, had a new angle added tonight when Major Jerome Jones, who had the promotion of the fight for the local post of the American Legion, stated he had in his possession a contract showing that Harry Erie the referee, was in the employ of McTigue.

The contract, alleged to have been signed by McTigue, Erie and the promoter, stipulated that the referee was to receive \$250 and expenses for his services. Major Jones said. McTigue agreed to pay Erie \$125 of the amount and the American Legion post the remaining sum and expenses, he said.

Major Jones added that the contract was signed in New York "after a man who claimed he was associated with the New York boxing commission suggested Erie."

CASTLEFORD DROPS GAME

Hagerman Eleven, with Greater Weight and Experience, Administers Defeat by Score of 62 to 6

CASTLEFORD, Oct. 5.—(Special to The News)—Castleford high school's football team went down to defeat, 62 to 6, here today before the heavier and more experienced eleven of the Hagerman high school. It was Castleford's second year of entering inter-school football for the first time this year. The field was in good condition.

JEROME TAKES BUHL'S MEASURE

North Side Eleven Administers Second Defeat of Season to West End Team

Buhl high school met her second defeat of the season Friday when the Jerome football team invaded the west-enders' territory and scored a 30-10 victory. The game from a football standpoint showed a great deal of room for improvement in both teams, but nevertheless it was hard to boot for thrills. Throughout the game Buhl made the majority of the first downs, proving their superiority in close formations, but the Jerome team proved to be superior in generalship and they took the breaks as they came and the result is evident by the score.

About 200 fans were present and the field was in excellent playing condition, in spite of the recent rains. Buhl won the toss and chose to receive. "Left" Nims, the husky Jerome center, kicked off, the ball going to the 15-yard line. Buhl fumbled to Hardwick, the Jerome quarter, who ran the remaining distance for the first touchdown for Jerome, also the first minute of play.

This seemed to put the required punts in Buhl and they started a march immediately up the field headed for a touchdown, only to lose the ball on the 10-yard line to Jerome on downs. Jerome immediately punted. The Buhl back again fumbled and this time Mullins of Jerome recovered the ball and raced down the field to the 4-yard line and Winkle carried it over in two more plays. Try for point failed and the score stood from then until the end of the quarter 12-0.

Buhl Scores Field Goal The second quarter opened up with the ball in Buhl's possession on the 25-yard line. They soon advanced it to the 20-yard line and Machechok north across the field. Jerome again kicked off and Buhl took it the length of the field for a touchdown, using line plunges exclusively. The try for point was given to Buhl because of an offside by Jerome. And there the score remained until the end of the half, both teams sawing back and forth, neither getting within striking distance. The half ended with the score 12-10 with Buhl in possession of the ball on the 30-yard line.

The third quarter opened with Jerome again kicking to Buhl and then a kicking duel progressed between the two teams, which terminated when Nims, the Jerome fullback, blocked the Buhl captain's kick and raced 65 yards for the North-siders' third goal. Again Jerome failed to kick goal. And then nothing happened until the fourth quarter, of interest, except a couple of beautiful interceptions by Jerome of Buhl's passes.

The fourth quarter was the most interesting of the whole game, both teams apparently had the same orders and immediately opened up with aerial football, featuring passes of three kinds—complete, incomplete and intercepted. In the first of the quarter Jerome reached the 2-yard line from the center of the field by two complete passes and Winkle carried the ball over for the fourth touchdown. And shortly after this Glezentanner of Buhl was expelled from the game for slugging, and the game progressed with both teams passing as often as the ball came in their possession. Towards the end of the quarter Buhl again fumbled a punt in the middle of the field and once again Jerome scored, this time Marvin Smith carrying the ball over. Jerome again kicked off to Buhl and with two minutes to go Buhl demonstrated their fight even when defeated, and started a march for a touchdown which was only terminated by the final whistle on the 4-yard line. And the score stood 30-10.

Had Buhl relied upon straight football the score might have been different.

Machechok Wins Lurels The lure for Buhl was rightly earned by Captain Machechok who played throughout the game with a bad knee, and the Layne twins, who

Shoshone Loses to Filer, Score 33-7

Victor's Experience Brings Triumph Over Heavier Team; Second String Men Used

FILER, Oct. 5.—(Special to The News)—Filer high school's football team won here today a victory, 33 to 7, over the heavier but less experienced Shoshone high school eleven. Lapp, Ennis, Gordon and Diehl were outstanding players for the local team. Second string men were used by Coach Denman of Filer in the second half.

OAKLEY BLANKS -ALBION

Cassia County Schools Clash on Gridiron; Victor's Take Long End of 60 to 0 Score

OAKLEY, Oct. 5.—(Special to The News)—Playing on a field that was somewhat heavy as a result of recent rains, Oakley's high school football eleven defeated the Albion high school team here today, 60 to 0.

Martindale, Critchfield and Elliott were stellar players for the local team. It seems to be about as sleek as anyone to the Buhl backfield.

Jerome has a real kicker in her center, who averages 35 yards easily on his kickoffs. Both teams, however, show weakness in punting and drop-kicking.

Coach Barry had 25 men in uniform and was forced to use them all in Friday's game. Jerome suffered a great many losses through offside penalties.

Coach Hartkopf of Jerome is now to this section of the country and has developed a fast but light team and with it he is starting out to take the scraps of the rest of the schools hereabouts. Yesterday was his first game. And here is the line-up which started the game:

Table listing players for Jerome and Buhl, including names like Emmett, M. Smith, Clayton, Nims, L., Oakes, Blakeman, Mullins, Hardwick, Winkle, Gorman, Referee, Umpire, and scores.

FOOTBALL TEAMS GET IN ACTION

Grid Players in Mid-West Prepare for Opening of Championship Schedules

CHICAGO, Oct. 5.—Every team in the western conference will break into action Saturday in games regarded as the final practice contests to put the elevens on edge for the start of the championship season a week hence. Big Ten entries will face opponents outside the conference.

The most important engagements promise to be the game between Nebraska, always a contender for the Missouri valley title, and Illinois at Urbana, while Chicago will take on the Colorado Aggies, champions of the Rocky Mountain conference for three out of the last five years.

Both Nebraska and Illinois have been driving hard for the contest and experts are unwilling to hazard a guess on the result. Nebraska has a veteran back-field, but Coach Zuppke of Illinois has some stars that are expected to shine. The lines of both teams are about equal in experience. The most important engagements promise to be the game between Nebraska, always a contender for the Missouri valley title, and Illinois at Urbana, while Chicago will take on the Colorado Aggies, champions of the Rocky Mountain conference for three out of the last five years.

LABOR FAVORS POWER SAVING

Convention-Delegates Asked to Support Measures for National Conservation

PORTLAND, Ore., Oct. 5 (AP)—Organized labor showed its interest in state conservation of "white coal" today by the adoption of a resolution bearing especially upon the situation in California, where the resolution declared, the water and power act, plugging state credit back on municipalities in power development, submitted as a constitutional amendment at the general election in 1922, had recently defeated through the efforts of private power corporations.

Paul Scharrerberg of San Francisco, one of the proponents of the resolution, declared it was time to conserve the country's water power. He charged the private interests of California had spent half a million dollars in defeating the water power act. The resolution recommended to "forward looking citizens in all states, the program of state conservation through the complete use and development and control of the waters of the state as submitted to California voters in the water and power act and for the service to the people at cost as opposed to corporation development and control of water resources for private profit."

The resolution declared further against subsidizing of private corporations in water power development.

Conference Planned.

President Gompers informed the convention that a general conference was contemplated in 1924 in England to discuss the question of coordinated development of hydro-electric power in the world, and said that he was taking steps to assure that the delegation to that conference from America shall contain representatives of the government and representative organized labor, as well as delegates from private power corporations.

"We have arranged to block—so far as this country is concerned—the efforts that may be made by private corporation delegates and to see to it that the deliberations and decisions of this congress be not left in the hands of private interests, to decide what shall be done with the great power resources of the earth," he said.

Seek Peace in Industry. The convention went on record as favoring organization for the elimination of industrial evils against enterprise dependent upon legislation. The stand was taken after consideration of the decision of the supreme court of the United States in holding the minimum wage law for women unconstitutional.

That the federation will not abandon interest altogether in legislative action was expressed in the adoption of a section of the report of the executive council which commits the federation to a legislative program. This report pointed out that a permanent committee is making researches on legislative proposals.

BLACKBURN FOUND GUILTY

(Continued from Page One)

leged admissions had been given by members of the sheriff's office. In this connection O. W. Witham of defense counsel, referred to members of the sheriff's force as "stealth hounds of iniquity."

Defense counsel also denied that any motive for commission by Blackburn of the alleged crime had been shown by the evidence. Emphasis was laid on the duty of the jury to acquit, unless convinced beyond reasonable doubt of the guilt of the accused. The closing argument for the defense was made by J. W. Turner, actively conducted the case for the defense throughout the trial.

Cites Evidence. Prosecuting Attorney J. W. Taylor, in closing arguments contended that the motive for Blackburn's alleged crime was to be found in evidence to the effect that he was devoid of affection for his wife; that he had sought other feminine companionship and that he had sought to destroy their unborn child.

In refutation of Blackburn's assertion made Thursday when he took the witness stand in his own behalf, that Mrs. Cora Williams Miller, was the person who prepared and sent the poison to his wife, the state put Mrs. Williams herself on the stand after the defense had rested its case early Friday.

Denies Complicity. Mrs. Williams denied any complicity on her part in the tragic death of Mrs. Blackburn, and corroborative evidence was introduced to support her statement that Blackburn had endeavored to obtain from her an admission that she had procured the poison and delivered it to him. Witnesses who testified in corroboration of this statement were M. E. Finch, sheriff, John W. Gabbart, deputy sheriff, and J. H. Barnes, assistant prosecuting attorney.

In rebuttal the defense attacked the reputation of William Conant and Mrs. Henry Slater.

The News is read by the permanent dining classes.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Pound of Sugar Costs More Than Some Jewels

Sugars that cost from \$75 to \$375 per pound, because of the excessive care required to make them, are used in scientific laboratories. One is useful in detecting typhoid germs, as these organisms multiply rapidly when feeding on it. Sugar, made from corn cobs, brings \$120 per pound, while another, manufactured from scraps left over in making vegetable buttons, sells for \$140.

Sir Walter Raleigh's First Pipe Shown in London

Sir Walter Raleigh's first pipe with which he is believed to have introduced tobacco smoking in England, has recently been found in London. Made by American Indians, and decorated with carved heads of people and animals, it is said that he smoked it on the eve of his execution.

In the three centuries that have elapsed since, the spread of the habit has covered the civilized world. In the United States, a million and a half acres of land are given over to cultivation of many varieties of the plant, producing an annual yield far above a billion pounds, with a value of over \$250,000,000.

MRS. SWEeley IS GIVEN OVATION BY CONVENTION

State Director of General Federation of Women's Clubs Appears at Boise Session After Accident

Mrs. M. J. Sweeley of Twin Falls, state director of the General Federation of Women's Clubs and president of the Western Federation, who was injured in an automobile accident Tuesday evening on the way to the convention, appeared for the first time Thursday afternoon at sessions of the State Federation of Women's Clubs in Boise and was given an ovation.

She outlined briefly the work of the federation during the past year, and told of the annual convention of the federation at Anaconda, Montana, last spring. One of the objects of the federation of all of the women's clubs of the west, Mrs. Sweeley explained, is to promote hospitality. She referred to the fact that the presidents of five eastern presidents passed through Boise during the past summer, and none of the Boise club women knew it.

Many western problems, such as the Indian question, the foreign element in California, exploitation and advertisement of western scenery, she said, were things in which western women, through their federation, could accomplish much.

Mrs. Sweeley returned Friday to her home in Twin Falls. Members of the Twin Falls delegation in attendance at the state federation sessions were Mrs. Kennedy Packard, Mrs. C. B. Scott, Mrs. Ella Ritchey, Mrs. Mary Y. Norton, Mrs. Carrie Harper White, Mrs. W. W. Humphrey, Mrs. Joseph H. Seaver, Mrs. W. Orr Chapman, Mrs. James Fitzgerald.

Soviet Picture Cars Draw Interest of Passants

By sending trains of picture cars into the rural districts, the Russian government is attempting to educate in the principles of communism more than 100,000,000 people who, heretofore, have shown little or no interest in politics. Painted on the sides of the railroad cars by the nation's most skilled artists, are propaganda and educational designs illustrating the communistic doctrine. In trying to "sell" this form of government to the peasants, the Soviets probably have become the world's largest advertisers.

Fifteen Years Added To Span Of Life in Past Fifty

Figures have been compiled showing that the average length of life for inhabitants of the United States has increased almost 15 years in the past 50. In 1870, the average was 41 years, while now it is almost 56. By 1950, the span will have reached the biblical three score and ten, provided the present high standard of civilization and correct living are maintained, a scientist has predicted. In the 19th century the ordinary term of life was between 35 and 40 years, and about 1900, it was still less than 25 years. At the end of the 19th century, it ranged between 45 and 48 years.

RAIL HEARING ADJOURNED

Testimony to Be Given on Reorganization Plan Before Interstate Commission at Later Date

DENVER, Oct. 5 (AP)—Further hearing of testimony on the reorganization plan of the Denver and Rio Grande Western railroad was adjourned today to be continued before the interstate commerce commission at Washington October 22, according to an announcement by Charles D. Mahaffie, director of the bureau of finance of the interstate commerce commission. This was at the conclusion of three days' testimony here by the opponents of the reorganization plan who were cross examined by Attorney General Fleming of Colorado and James A. Mahan, special assistant. Attorney General Fleming today filed with Examiner Mahaffie a formal written protest on behalf of the state of Colorado against the provisions of the reorganization plan.

WHEAT MAKES BIG YIELD

Jerome District Farmer Reports Crop of 60 Bushels per Acre from Field of 100 Acres; Sells for \$4.10

Yield of 60 bushels an acre from a field of 100 acres of wheat, grown this year on the Hill Brothers ranch six miles southeast of Jerome, is reported by H. C. Fittler, tenant operator of the property. Fifteen acres of the field returned a yield of 74 bushels per acre, Mr. Fittler reported. The crop was sold at 69 cents a bushel for \$4.10, or \$4.10 per acre.

What is useless to you may be valuable to someone. Advertise it in the classified columns.

Poultry Feeder and Rat Trap

A combination rat trap and dry-mash feeder is a rather novel addition to the poultry house. The feeder is a long box, 1 ft. high and 1 ft. wide, with a sloped and slatted top, through which the hens put their heads to eat during the day. To prevent this into a rat trap, a 4-in. hole was bored in the end of the trough, a sheet of 4-in. stovetop fastened in the hole, and a bag tied over the other end of the pipe and spread out on the ground. A heavy board cover was hinged to the feed box this was kept open by means of a hook during the day, but the hook was released, and a small prop with a string attached to it used at night. The string led away to a distant window so that the poultryman could pull it without entering the poultry house and disturbing the rats. A yak at the string let the cover drop and trapped the rats inside. Then, by beating

on the cover with a stick, the rats were made to run through the hole, down the pipe, and into the bag, where a few blows killed them. As long as the hens ate from the feeder, the rats never seemed suspicious.

When examining the storage battery of a car to see if any water is needed, do not simply test one cell; examine them all. One of the cells may be cracked, and will require water often than the others. It is a good idea to examine a storage battery once every two weeks. In adding distilled water to the battery, always bring the level of the electrolyte 1/4 in. above the top of the plates.

NUMEROUS GRAIN SAMPLES TESTED

University Agronomist Gives Comparison of Various Varieties Submitted

UNIVERSITY OF IDAHO, Oct. 5.—During the summer months the department of agronomy of the university received many samples of grain from all sections of the state for identification. In response to numerous requests for results, Professor R. K. Bonnett, dean of the department, has prepared a report.

In the majority of cases the name of the variety sent was requested and information as to its adaptability and probable yield. In this regard Professor Bonnett reports that a number of varieties of poultry wheat were received indicating that certain growers had propagated them, because of their appearance and large heads. The poultry wheats are closely related to the durum wheats, but in most instances produce a softer grain of poorer quality. The grain of these varieties can generally be identified because the kernels are thick, lumpy, and are larger than those of club wheat. The poultry varieties include Alaska, Titanic and Chickama.

Compare Values. Many extravagant claims have been made in regard to the hard resistance, hardness and stiffness of straw of the poultry wheat, little attention being given to the possible commercial use of these wheats. The federal grain standards do not recognize these wheats as commercial, because of their inferior milling quality. This results in a heavy discount on other varieties if mixed with these. In some instances local grain buyers have purchased these poultry wheats without discounting them; but someone later has taken a loss in disposing of them.

Tests have been made of numerous varieties throughout the state as an aid to standardization and certain standard varieties have proved their superior value in each locality. By this method of tests it is possible to reduce the mixture of commercial grades to a minimum, thus benefiting in better prices to all producers in a locality.

OFFERS SUGGESTION FOR GETTING POTATO CARS

O. L. DeLong, Twin Falls, at Conference of Growers, Shippers and Exporters, Advances Plan

Carl L. DeLong of Twin Falls, manager of the Boyle Commission company, at a conference of growers, shippers and Short Line and Union Pacific officials in Boise, urged in behalf of potato growers of this region, that, after lettuce, celery, prunes and other soft fruits were eliminated by putting them in extra perishable classification, all other products should be put on a par in a second preferred class.

His plan contemplated promulgation of a ruling that would place potatoes and apples in the same classification and would get for both either lead or refrigerator cars from any surplus in a shortage period, after the extra perishable demand of the day had been satisfied.

UNTIL TWELVE. We serve delicious hot chocolates, and such good chills with tasty salt wafers. Play the piano while you wait. ad—HERBST & RAMBO.

REBEL LABOR UNIONS

Union labor generally should take satisfaction in the outcome of the pressmen's strike in New York. That strike, tying up all the big newspaper plants in the metropolis, was called by officers of the local union, without the O. K. of their international union.

The agreement eventually reached gave the pressmen almost everything they had been contending for and arranged to arbitrate the rest, but made it necessary for the strikers, if they are to benefit by those gains, to come back as members of a new local, acknowledging the jurisdiction of their international union.

This is regarded as a signal victory for the international and its officers. They have emerged with prestige that will help them hereafter in negotiations with publishers throughout the country.

PLAY VS. DIGNITY

Dr. Copeland, who broadcasts medical advice for newspaper readers, tells of looking on with appreciation at a picnic of foreign-born citizens. "There were music and dancing and laughing and singing," he says.

He wants to know why all of us do not behave that way. Europeans, he says, are good players. They have played for ages, and they still play, even when they come over here.

Here is something that can be learned profitably from the foreign-born. It may help to explain why they often forge ahead so rapidly in this country, as compared with the natives, especially natives whose American ancestry runs back far enough to give them a particularly heavy handicap of dignity.

MOTOR COMPETITION

The latest cut in prices by the Ford Motor Company shows once more the high degree of competition existing in the automobile industry. If every other American industry were as fully competitive, there would be little complaint of high prices.

Henry Ford appears to deserve most of the credit for this admirable situation. As a result of highly developed efficiency methods in production and distribution, he sells the lowest priced car on the market, in the largest quantities. That puts him in a strategic position to dominate the entire industry.

without which the lower prices would be impossible.

Of more importance, perhaps, than this particular cut in prices is the statement that Mr. Ford is preparing to enter the gasoline business, handling the motor fuel as an adjunct to his automobile sales system. It is expected to buy up the surplus output of independent refiners and distribute it at Ford service stations.

If Mr. Ford once enters any phase of the oil business, he may go farther, and bring more order and system into a now chaotic industry, with resulting benefits to the public.

SPEECHES OR WORK

There will be a memorial service held in New York next month in honor of President Harding. President Coolidge was asked to participate.

It would have been a very appropriate thing for him to do. Sentiment and tact, no doubt, both suggested his acceptance. To refuse would have seemed a peculiarly ungracious thing.

When the matter was put in that way, the delegation reluctantly admitted that the President had probably better stay on the job.

DUN'S REPORT.

NEW YORK, Oct. 5 (AP)—Dun's to-morrow will say: The different measures of commercial movements still show varying results. Production in certain industries has lately increased, but has decreased in such important lines as pig iron and steel.

Production in certain industries has lately increased, but has decreased in such important lines as pig iron and steel. Some prices are strong and others are weak, and there is much irregularity in demand.

Some prices are strong and others are weak, and there is much irregularity in demand. The situation here and presents many contrasts, yet a large business is being done in many quarters at prices above those of a year ago and there are indications that some buyers who are not active in the markets now may before long find it necessary to replenish stocks of goods.

ANDY GUMP THE HAIRBRUSH KING,

Is Interviewed by Sidney Smith—"The Man of Destiny" Tells Future Plans.

In an exclusive interview today President Gump said: "I realize that launching a gigantic business enterprise like The Combination Hair Brush and Mirror company, Inc. not only requires unlimited financial resources but it must have the good will and confidence of all the people."

"I am convinced there is a crying need in this country for a high class hair brush for high class people and it shall be my life's ambition to take the hair brush out of the bathroom into the parlor."

"It is our intention to manufacture a brush to fit every head—hard and soft, round and flat—YOUTH FURNISH THE HEAD, WE FURNISH THE BRUSH—in every variety from pine to platinum."

"Eventually we shall manufacture our own glass, use wood from our own timber land, and brushes from our own healthy hogs. Investigation has proven you cannot get honest brushes from dishonest hogs. The name 'Gump' on a hair brush will be synonymous with sterling silver."

"I have been warned by my many admirers and well wishers that the Hair Brush Trust intends to fight us tooth and nail. I just wish to go on record as stating that if they decide to start anything we shall be able to protect ourselves and will do so at any cost."

"The Combination Hair Brush and Mirror company, Inc., is not looking for trouble, but if anybody flags our trail we are certainly going to let them know."

"I have been asked what stand I shall take on the labor situation. I intend to cross this bridge when I come to it. I realize the labor situation is unsettled at present, but I firmly believe courage, common sense, and the faculty of seeing the other fellow's viewpoint as well as your own is a great strikebreaker."

"I know the business world is full of traps and pitfalls, and in launching a vast enterprise on the sea of industry there are certain chances that must be taken. I fear them not. A fellow never can win unless he is playing the game. At the present moment I am too busy to waste valuable time worrying."

"It is our intention to inaugurate some innovations in dollar saving devices that will startle some of the old fashioned business men who are still using out cast business methods in an aviation age."

"I intend to make the name 'Andy Gump' mean more in the business world than Dun and Bradstreet. I shall climb the ladder of success so fast some of the blockers shall think I am on an escalator."

"In the near future I shall reveal more definite plans. In the meantime I face the business world with serene confidence, knowing full well that The Combination Hair Brush and Mirror company, Inc., will not only turn out a brush that's just as good, but a brush that's A DARN SIGHT BETTER."

OREGON CROP ESTIMATED

Statisticians Report Total Production in State Will Be About 6700 Cars; Pear Yield at 2007 Carloads.

MARSHFIELD, Ore., Oct. 5 (AP)—Oregon's apple crop for this year is estimated at 6700 cars by F. L. Kent, statistician for the department of agriculture. Estimated yields from producing sections range from 3540 cars in the Hood River and Wasco counties to 250 cars in the Willamette valley.

Rogue and Umpqua valleys are credited with a total of 1250 cars and Umpqua county with 1000 boxes, while the Willamette valley will jointly produce 600 boxes, according to the estimate.

The pear crop is set at 2007 cars and apportioned as follows: Rogue and Umpqua valleys 1750 cars; Hood River and Wasco counties 275 cars; Willamette valley 50 cars, and Union, Baker and Multnomah counties 21 cars.

Reports received from the various districts by the Oregon Growers Co-operative association agree that growing conditions have been exceptionally favorable and that the quality of the fruit will be high and of large size generally.

W. S. C. IN HARD GRIND

PULLMAN, Wash., Oct. 5 (AP)—With the third week of football practice well under way at Washington State college, Coach A. A. Exonoda has announced himself as well pleased with the early season aspect. After two weeks of fundamentals, blocking, tackling and running with the ball, heavy scrimmage began in earnest last week.

Three backfields and two lines are now in play regularly. Consequent developments have brought out the fact that the Cougars will be strong on defense, authorities say. Johnny Glahn, last year's star member of the team, is showing up well in drop kicking. It is reported, averaging 45 to 50 yards.

Not to Be Lightly Bestowed. "A man that really values his opinion," said Uncle Eben, "is liable to take a little care of it; not let it get mused up in perambulous conversation."

Quite important. "Education is absolutely necessary," said Uncle Eben. "You can't even enjoy a motion picture unless you're able to read 'explanatory remarks.'"

AGED MAN SAYS HE WAS ROBBED BY COMPANIONS

Frank Keeffe Reports Loss of Between \$100 and \$150; Unable to Give Police Any Description of Assailants

That he had just been attacked and robbed by three young men was the statement made to the police Friday evening by Frank Keeffe, aged about 60 years, who was employed until recently on the C. A. McMaster farm east of Hollister.

Keeffe was unable to give the police any description of his alleged assailants, although, he said, he had spent most of Friday afternoon in their company. He said that they had taken from him between \$100 and \$150.

The reported assault and robbery occurred at about 3 o'clock Friday evening on Ninth avenue east. Keeffe told the police that he had been pursued by the young men to accompany them for a walk, and that when they had proceeded for a distance along Ninth avenue, they suddenly turned upon him, one of them striking him to the ground with his fist, the other two then joining in the attack and striking and choking him until he almost lost consciousness.

Exhibits Bruises.

He exhibited at the police station several bruises about the head and neck.

Recovering in a measure from the effects of the assault, Keeffe said that he made his way to the nearby residence of R. W. Stokes, 1210 Ninth avenue east, who summoned the police. Keeffe was unable to furnish the police with any description whatever of his alleged assailants.

ANOTHER MURDER TRIAL AWAITS DISTRICT COURT

Bomulo Lemos to Answer to First Degree Murder Charge in Connection with Shooting of Andres Oregos

Trial in the case of Bomulo Lemos, charged with first degree murder of Andres Oregos, by shooting, will be started in district court here next Monday, at which time evidence in the case will have been directed to report for further service. The alleged crime was committed on the night of June 19 in Twin Falls. Both the slain man and the alleged slayer were Mexicans. E. V. Larson will appear in the trial as counsel for the defendant Lemos.

JAPANESE RELIEF FUNDS FORWARDED

Twin Falls Red Cross Chapter Makes Statement as to Donations and Voices Appreciation

The Twin Falls chapter, American Red Cross, has forwarded to the headquarters of the Pacific division, at San Francisco, final draft covering balance of donations received to date for the Japanese relief fund.

The various amounts forwarded total \$601.01.

The donations received are as follows:

Collections taken in churches of Twin Falls	\$470.05
Boxes placed in banks and other places	73.94
Amounts left at Red Cross headquarters and other places	52.50
From Red Cross branches in surrounding towns:	
Hansen	2.76
Kimberly	20.75
Pier	23.54
Roberson	5.94
Amsterdam and Hollister	12.40

With the statement as to the relief fund, business officers of the local chapter expressed thanks to all who made contributions to this fund.

If anyone who has not yet contributed desires to do so, the chapter will gladly forward such donations through the proper channels.

Report received Friday from Pacific headquarters at San Francisco that the national fund for Japanese relief has reached \$9,102,700. Every division except one has now exceeded its original quota, but the Pacific division has carried off the honors, having more than trebled the amount it was originally asked to raise.

In a radio talk broadcasted at San Francisco a few days ago, Munroe Hunt in speaking of the way Pacific division chapters had responded, said: "This is a marvelous revelation, not only of splendid team work, but of the spirit of the Pacific coast communities in responding generously to the call of a neighbor in dire distress."

"The fact that the American Red Cross had a chapter organized in virtually every community throughout the United States made it possible for President Coolidge to turn quickly to such an organization as the medium through which the American people could most readily express their tangible expression of sympathy to a stricken nation. Each chapter as a member of this large American family has every reason to be proud of the results obtained nationally, as well as its individual share in them."

DEPARTS SEABORO

SEATTLE, Wash., Oct. 5 (AP)—An embargo on all perishable freights for Alaska will go into effect tomorrow with the sailing of the steamship Northwestern, according to an order issued today by United States officials in charge of operations of the Alaska railroad. The embargo was made on account of washouts on the Alaskan railroads.

Mrs. W. E. D. Stokes Accuses Twenty

W. E. D. Stokes and Mrs. Helen Norcross Stokes

The prolonged and bitter divorce litigation between W. E. D. Stokes, New York multi-millionaire hotel owner and sportsman, who a few years ago was the victim of the "shooting girl" and his wife, a former Denver (Colo.) belle, reached a climax when Mrs. Stokes asked State's Attorney Crowe, of Chicago, for the indictment of a score of persons. She charges they have furnished her husband with false affidavits that she was the "Helen Norcross" who, 12

Bean Crop Returns \$139 per Acre Gross

Montana White beans grown this year by D. R. Churchill on his farm two miles north of Kimberly, will yield a gross return of \$139 per acre. An average yield of 1-1/2 bushels per acre from a field of 23 acres was reported by Mr. Churchill. At present market prices the crop would sell for a total of \$3208.50.

BAPTISTS CLOSE ANNUAL SESSION

Young People's Rally Brings Three-Day Proceedings to End; New Officers Chosen

Three day sessions of the thirteenth annual session of the Central Idaho Baptist association were concluded here Friday evening with a Baptist Young People's union rally, featured by an address appropriate to the occasion by the Rev. J. H. Gerwin of Gooding. Delegates from towns in which the denomination is represented throughout one-third area of the state's borders, attended and participated in the sessions.

Direction of the work of the association for the coming year was entrusted, at a business session Friday morning, to officers elected at that time, as follows: Moderator, Rev. W. F. Roberts, Gooding; clerk, Mrs. W. T. Turner, Shoshone; treasurer, Mrs. R. J. McMahon, Shoshone.

Call upon the members of the denomination to fulfill financial obligations with respect to furtherance of its program was sounded Friday morning by the Rev. W. A. Shanks of Boise, state superintendent of the Baptist convention. Reference was made particularly to raising Idaho's share of \$30,000 in the \$1,000,000 budget of the Northern Baptist convention.

Announcement was made of the quotas assigned to each church within the association as follows: Buhl, \$900; Filer, \$60; Gooding, \$700; Hansen, \$25; Kauli, \$650; Rupert, \$500; Twin Falls, \$2800; Wendell, \$100; Angermun, \$125; Hailley, \$200; Jerome, \$250; Oakley, \$400; Shoshone, \$200; Pabo, \$25.

The afternoon session was devoted to discussion of missionary activities of the denomination in both home and foreign fields.

HIGH SCHOOL NOTES

President A. H. Upham of the University of Idaho, spoke to the students Friday morning at an assembly of the senior high school, on the state university. Some of the points stressed by President Upham were: The prominent part taken by Twin Falls students in the activities of the university; the increasing enrollment, and the fact that 54 per cent of the students of the state of Idaho who are going to college are receiving their education outside of the state.

Condition examinations were given yesterday afternoon to students conditioned last spring.

A weekly newspaper made its first appearance in the high school during the past week. The paper goes by the name of "Dope." Its publishers are still unknown. It is a single sheet called "Dope" is attracting much comment around the school. The next edition will be out early next week.

Blue Lakes Boulevard club will hold a so-called foot race at Alvord & Mott's Saturday.

Temperature Rises with Clearing Skies

Clearing skies Friday brought an advance in maximum temperature for the day, high mark being recorded by the government weather observer's station here at 63 degrees, an advance of five points. Low mark for the 24 hour period was shown at 47 degrees, a decline of a single point.

WAR VETERAN IS FETED

Captain Sam Harris Entertains Local Vets with Reminiscences; Promises Air Photographs

As a remembrance to local ex-service people for the reception given him during his stay here, Captain Sam Harris, vaudeville performer, who is credited with bringing down a dozen or so enemy airplanes during the late war, expects to mail the local post of the American Legion a number of war airplane photographs taken over the battle lines, he said Friday night.

Captain Harris, or Captain Goldie as he is known on the stage, expressed himself as being very grateful for the reception given him here.

He was the honor guest at a special luncheon meeting of the Legion Friday, at which he kept his audience seriously attentive or roaring with laughter at his accounts of his experiences in the war. Captain Goldie leaves Saturday, having terminated his engagement at the Idaho hotel.

TAG DAY IS SCHEDULED

Effort to Be Made Here to Raise Funds for Protestant Hospital and Deaconess Homes Within State

A local organization of the American White Cross, with the assistance of the Methodist church and Pastor's Aid society of that church, will conduct Saturday, October 13, a "Tag Day" observance in Twin Falls, the proceeds of which will go to construction and maintenance of protestant hospitals and deaconess homes within the state, according to announcement made Friday. The local organization has lately been perfected by the Rev. C. E. Donal, field agent for the society, which is interdenominational in its scope.

SOCIETY

Edited by Mrs. E. B. Williams Telephone 298

The Drama and Literature department of the Twentieth Century club met with Mrs. Turner K. Hackman on Friday afternoon. After a short business session Mrs. M. W. Kunkley took charge and gave a book review on "The Mine with the Iron Door," by Harold Doll Wright, which was most interesting and thoroughly enjoyed by all. The department decided to give the play "Old Lady 31" some time in November. This play is one of the most interesting of the late dramas and should prove a real treat to the people of Twin Falls.

Complimenting Mrs. J. F. Cowan of Blackfoot and Mrs. Richard Wilson of Seattle, who are guests at the home of Mr. and Mrs. Charles Hart, Mrs. F. F. McAttee and Mrs. Charles Hart entertained with a reception and tea at the home of Mrs. Hart on Ninth avenue north Friday afternoon. Beautiful dabbles in varicolored shades decorated the hall, living-room and veranda, a large basket filled with deep red ones being especially noticeable. A color scheme of pink and white with silver was carried out for the dining-room table, the centerpiece being a silver bowl holding white and pink carnations. Silver candlesticks held white candles and silver serviettes were placed at either end of the table. A handsome ebony cloth covered the table. The guests were greeted at the door by Mrs. Morgan Heap. Standing in the receiving line were Mrs. Hart, Mrs. Wilson, Mrs. Cowan and Mrs. McAttee. During the first part of the afternoon Mrs. J. A. Barrett and Mrs. Shad L. Hodgkin presided at the tea and coffee urns and Mrs. E. B. Williams and Mrs. W. H. Greenbow poured during the latter part of the time. Mrs. H. O. Milner, Mrs. F. J. Costello, Mrs. S. P. Newman and Mrs. Charles Neely assisted in serving. A delightful feature of the occasion was the harp selections rendered by Mrs. D. E. Regan. Mrs. J. A. Dygert sang two vocal numbers. She was accompanied by Mrs. Merlin Batley.

Mrs. L. L. Breckenridge and Mrs. J. P. McClure were hostesses at a 1 o'clock luncheon on Friday at the home of the former on Seventh avenue north. The guests, numbering

twenty-eight, were seated at seven small tables in the dining-room, where the decorations were carried out in shades of green, yellow, pink and lavender, each table having for a centerpiece a crystal candlestick tied with a maline bow and holding a candle in one of the four shades. Asters in pastel shades decorated the room. The favors were candy courage bouquets in the same color. Yellow and blue were used in the living-room, and the sun porch was gay with asters and zinnias in various colors. A kensington followed the luncheon and a three-piece orchestra played throughout the afternoon. Mrs. W. M. Bunnee, of Filer, assisted in serving, and other out-of-town guests were Mrs. Lohr, of Milwaukee, and Mrs. D. C. Weeks, of Palisade Park, N. J.

The young women of the Episcopal church held a reception for the teachers who are members of the church on Wednesday evening in the church parlors, which were decorated for the occasion with fall flowers. Later games were played and refreshments served. Eighteen guests were present.

The Mutual Improvement association of the first ward of the L. D. S. church are beginning their winter course Tuesday, October 16, at 7 o'clock in the evening. Any one interested will be made very welcome.
