Stengel Again Slams Nationals to Victory

Giants Win Third by 1 to 0 Tally

Thrilling Pitching Duel Between Nehf and "Sad Sam" Jones Broken by Casey's Home-Run in Seventh

NEW YORK, Oct. 12 (AP)—The total receipts for the first three games of the world's series reached \$641,483 with today's record crowd of 62,430 at Yankee stadium.

Friday's figures: Attendance 62,430. Receipts \$201,072. Advisory committee's share \$30,180.90.

NEW YORK, Oct. 12 (AP)—Cast permanently, it would seem, in heroic mold, Casey Stengel, "Casey the Immortal" smashed the New York Giants to victory with a home-run drive this afternoon for the second time in three days of record-breaking world series strife with the Yankees.

Record Crowd

Police on Trail of Man Suspected of Slaughtering Woman

Mutilated Body of Department Store Executive Found in Apartment; Montreal Minister's Son Under Suspicion

NEW YORK, Oct. 12 (AP)—Police tonight broadcast descriptions of a man believed to be the son of a Montreal minister who occupied a furnished room in West Ninety-seventh street, adjoining that of Miss Estelle Phillips, attractive department store executive, whose mutilated and almost nude body was found today on the floor near her bed.

Believe the brutal was committed by a man who entered the room while Miss Phillips was asleep and strangled her before she could call for help.

NORMAL SCHOOL ELEVEN OSES TO TWIN FALLS

Bruins Pile Up 58 to 0 Score Against Albion; Holding Ball in Opponents' Territory Throughout

With things pretty much their own way and playing a much improved brand of football, the Bruins defeated Albion Normal, 58 to 0, Friday afternoon at Lincoln field. The Bruins' goal was never in danger and the ball was in Albion territory most of the game.

WAR SECRETARY ANSWERS FORD

Weeks, Claims Flivver Maker Lacked Full Facts in Regard to Muscle Shoals Statement

WASHINGTON, Oct. 12 (AP)—Secretary Weeks, in replying today to an attack by Henry Ford concerning the sale of the Gorgas steam plant of the Muscle Shoals project, said the Detroit manufacturer's statement was "filled with reckless assertions."

Secretary Weeks' statement said it was possible that Mr. Ford, "relying as he does upon other persons in the conduct of so many enterprises, did not himself possess all of the full facts" as to the sale of the Gorgas plant.

"I do not propose," he said, "to continue a newspaper discussion of this subject, but if necessary shall place all facts before a proper tribunal."

TALKS WITH COOLIDGE

Although Mr. Weeks would not comment upon Mr. Ford's statement beyond issuing his own formal reply, there was every indication that he felt strongly on the charges that political influences working through him had prevented the Detroit manufacturer from obtaining Muscle Shoals.

Reviews History

"The total expenditure on these projects was about \$100,000,000, of which less than \$5,000,000 was spent upon this isolated and temporary steam plant. The steam plant was erected on the property of the Alabama Power company, which reserved title to the land on agreed conditions with the Wilson administration for which this administration is not responsible, and which gave to them the right to purchase the Gorgas steam plant.

DEALER IS HELD ON MURDER CHARGE FOR POISON BOOZE SALE

PANA, Ill., Oct. 12 (AP)—John Tokoly, proprietor of a soft drink parlor, his two sons, Paul and Stephen, and a neighbor, a chemist, tonight were ordered held without bond on charges of murder for the grand jury by a coroner's jury which investigated the deaths of five men, presumably from poisonous whiskey, here Wednesday and Saturday. The jury returned a verdict that the men died as a result of drinking full oil in beverage sold to them by John Tokoly.

DRY LEADERS FROM ALL PARTS OF UNITED STATES GATHER TO BRING BOOZE QUESTION TO SETTLEMENT

Three-Day Conference Starts at Washington to Frame Enforcement Program

WASHINGTON, Oct. 12 (AP)—Spurred to action by what they described as the "lawless" enforcement of the prohibition law, gathered here tonight for a three-day conference to bring the question to an issue.

Inspired by Harding

Explaining the purpose of the gathering, which has been designated as a citizenship conference, Fred B. Smith of New York, chairman of the executive committee said today that it has been inspired by former President Harding.

Other Meetings Planned

"We are going to awaken the churches and civic organizations to the urgent need of good citizenship, with special reference to the eighteenth amendment," Mr. Smith said.

Legion Post Aids War Vet in Fight on "Dope" Habit

Dan McGrew, Who Had Noted Record in France, Is Assured of Federal Pension

EL PASO, TEXAS, Oct. 12 (AP)—Dan McGrew, not the Dangerous Dan McGrew of Service's well-known poem, but "Sleeveless" Dan McGrew of world war fame, it is claimed, was assisted by the local American Legion post when he appeared before United States District Judge Smith here and pleaded guilty to a drug addiction charge.

Brush Fire Takes Lives

Flames Now Raging in Low Hills Near Santa Paula, Cal., Cause Deaths of Two While Fighting Blaze

SANTA PAULA, Cal., Oct. 12 (AP)—A brush fire raging in the low hills just north of Santa Paula has resulted in the deaths of two men, according to reports reaching here late today.

BUSSIAN BANDITS ROB MOSCOW EXPRESS TRAIN

MOSCOW, Oct. 12 (AP)—Bandits today attacked, and robbed the Warsaw-Moscow express between Borisov and Orsha, British, Italian and Polish agents traveling on the train, and also some Italians who were proceeding to Moscow to join the Italian mission there, were robbed of their money. The diplomatic mail pouches were not touched.

TWO DEAD IN COLLISION

KANSAS CITY, Mo., Oct. 12 (AP)—Two men were killed and five were injured in a head-on collision between two Lawrence-Texas City interurban cars of the Kaw Valley line today.

PEACE NOW PREVAILS IN INTERNATIONAL AFFAIRS

Relations Between United States and South American Republics Were Never More Promising, Hughes Says; Answers Criticism of Sending Commission to Brazil

WASHINGTON, Oct. 12 (AP)—Relations between the United States and the Latin American republics were never more satisfactory and the promise of mutual good will, Secretary Hughes said here tonight, speaking at the Columbus day conference of the Pan-American International Women's committee.

GANG LEADER IS GIVEN SENTENCE

Alleged Klansman Gets Two-Year Prison Term in Connection with Flogging

AMARILLO, Texas, Oct. 12 (AP)—T. W. Stanford, alleged Ku Klux Klansman, was found guilty in the district court on a charge of white capping in connection with the recent flogging here of E. T. McDonald. He was sentenced to two years in the penitentiary.

Verdict of guilty was based on the third count of the indictment against Stanford, just reported by the jury.

Judge Babson had instructed the jury to return a verdict of guilty in their opinion, the wearing of such regalia constituted a threat.

FRANCE, CONFERS WITH GERMANY ON AID PLAN

Authorities Discuss Proposals for Relieving Stress of People in Area Occupied by Troops

BRUSSELS, Oct. 12 (AP)—The French authorities today conferred with German officials and representatives of the employers and employed regarding plans for relieving the stress of the people here.

ASPARIA VICTIM FOUND

LOS ANGELES, Oct. 12 (AP)—G. H. Metz, 24, believed to be victim of Asparia, was discovered from Denver, Colo., Sept. 11, leaving his wife and saying he was going on a "dangerous mission."

ASPARIA VICTIM FOUND

LOS ANGELES, Oct. 12 (AP)—G. H. Metz, 24, believed to be victim of Asparia, was discovered from Denver, Colo., Sept. 11, leaving his wife and saying he was going on a "dangerous mission."

IDAHO WEATHER

Saturday, Fair.

"I say this," he said, "after taking into account the complaining utterances that find place from time to time in the press and the criticism of these mentors and publicists, who supply the tang which gives relish to our intellectual repasts. The millenium itself would turn out to be a tame affair if no fault could be found with it."

Mr. Hughes said he was happy "to find that there are no controversies with any of our sister republics which have not been settled, or are not in process of adjustment."

He called attention to the resumption of diplomatic relations with Mexico, the establishment recently of an "accord with Colombia," and noted:

"We are entering upon a period in our relations with Latin-American states notable for the absence of serious grievances."

Agreements Favorable

The secretary referred also to the aid the American government had been able to give to the "promotion of peace and stability among the countries of Latin America," pointing to the arbitration agreement between Chile and Peru worked out in Washington, and also to the conference of Central American republics and to the plans for withdrawal of American military forces from Santo Domingo.

Mr. Hughes referred to the sending of an American naval commission to Brazil, its entering upon a period in its relations with that country in answer to criticism of that country.

"If such a mission were to be had," he said, "there was no reason why we should not furnish it, not that our influence should be known in the direction of competition in armament, or in the stirring up of strife, but decidedly in that our influence should be most helpful in avoiding waste and preventive outbursts and in having necessary training conducted in accord with the aims of peace."

Expresses Regret

The secretary expressed regret that the recent Pan-American conference at Santiago, Chile, had been unable to

(Continued on Page Five)

Farmers Borrow Less Money Last Twelve Months

Governor of Farm Loan Board Tells Congressional Investigators of Improved Finances in Rural Districts

WASHINGTON, Oct. 12 (AP)—The troubles of the farmer today were laid before the joint congressional committee inquiring into the failure of State banks to join the federal reserve system.

Governor Cooper of the farm loan board, B. C. Powell of Little Rock, Ark., representing the American Cotton association, A. H. Atkinson, representing the National Grange, and Benjamin C. Marsh of the Farmers' National Council, were heard by the committee on various phases of banking as applied to agriculture.

Contrary to the impression that the farmers need additional financial aid, Governor Cooper said, generally through farm bank cooperation, the total of \$400,000,000. This amounting to only one-half of the money it had available to assist agriculture.

Most of the demands for loans have come from the south and far west. Governor Cooper said, generally through farm bank cooperation, the total of \$400,000,000. This amounting to only one-half of the money it had available to assist agriculture.

Charges by Representative Strong, republican, Kansas, that there had been unnecessary delays in the negotiations of farm bank cooperation, called by Governor Cooper, who had been called to the board would be amply able to take care of every legitimate demand made without using more than one-half of the fund it had available.

GOMPERS NAMED AGAIN AS HEAD OF UNION LABOR

Classes Results of Convention as Making for Solidarity in Ranks; Approves Expulsion of Montana Editor

PORTLAND, Ore., Oct. 12 (AP)—Samuel Gompers, re-elected unanimously as president of the American Federation of Labor, just before adjournment of the forty-third annual convention here today, declared in his closing address that the gathering had given notice that a cleavage had been made between those loyal to organized labor and those who, baying from within, had sought to stab the labor movement in the back.

"The results of this convention," he said, "will make for solidarity in the ranks of labor."
The convention came to an exciting close in a sharp contest for the next convention in which El Paso, Texas, won over Detroit, Mich., 14,688 to 12,884. El Paso's claims were urged by George L. Berry of New York, president of the Pressmen's union, who declared that by meeting at El Paso the American Federation of Labor would be of great help to organized labor in Mexico. James Wilson, of Cincinnati, proposed Detroit. Andrew Furuseth of San Francisco and James Connors of Chicago seconded El Paso.

Officers of the federation were retained.
Reviews Work
President Gompers, in reviewing the convention's work, referred to the expulsion of William F. Dunne, delegate from Butte, Mont.

"This is a convention of organized labor," he said, "and any man who is hostile to labor has no right in this convention. I feel that the action taken here has clarified the atmosphere. I think we have been entirely too lenient towards those who have been baying from within."

"Those men who meet at midnight in the forest plotting not only against the government but against the labor movement can go ahead as they please, but they must do so outside the ranks of organized labor."

Gompers declared he had been informed that Dunne had not "been regularly elected as a delegate from the Silver Bow Trades and Labor Council of Butte, Mont., to which he was accredited, but that he had solicited credentials on the condition that he would pay his own expenses to the convention."

Taking up charges that organized labor had lost in number, Gompers declared that if there had been some dropping off in the official number of members it was due to the periods of unemployment, to strikes and lock-outs which had occurred in the 16 months since the last convention. He asserted, however, that the confidence of the workers in the American Federation of Labor was strong in spite of the drives that had been moved against organized labor.

Criticizes Bankers
The American Bankers' association, said Gompers as a parting shot, "at its last convention insisted that there must be a wage reduction, and as a remedy suggested that the flood-gates of immigration should be opened. I submit that if there is a movement to reduce incomes, it is not these bankers start with themselves!"

At the closing session the convention approved a resolution calling for an investigation of charges that the present government of Venezuela is dictatorial and inquisitorial and that American citizens have been among prisoners confined in leathene dungeons. If the charges are found to be true steps toward severance of relations between Venezuela and other American countries should be urged, the resolution further provided.

Harding Memorial Medals Are Being Struck Off

Harding Memorial Medal

Above are the obverse and reverse sides of the Harding memorial medal, now being struck off at the United States mint in Philadelphia. The medals will be placed on public sale soon. This is the first photograph either of a sketch or of the completed medal.

CRAFTINESS OF TRAIN ROBBERS FOILS OFFICERS

Men Who Perpetrated Sensational Hold-up of Coast Passenger Still at Large; Pries Played Part in Relief Work

YREKA, Cal., Oct. 12 (AP)—Bandits who yesterday killed four trainmen in the holdup of Southern Pacific train No. 13 in a tunnel 17 miles south of Ashland, Oregon, still were at liberty to-night, having succeeded for more than 30 hours in dodging California and Oregon posse in the wooded fastnesses of the Sierras.

Al Whitmore, a miner living on the Klamath river north of here, reported to the sheriff's office that three men broke into his cabin last night in search of food. Whitmore did not know at the time that the train robbery had been committed and supposed the trio were ordinary marauders, he said.

It became known today that three strangers recently spent several days in the town of Hills, Cal., and vanished from there on the day the robbery took place. The men were not known in Hills and their presence there has not been explained.

Dogs on Trail
Bloodhounds today failed to pick up the scent of the desperadoes. Other hounds are to be given trials later. Contrary to first belief the bandits did not flee empty-handed, it was said today by W. G. Chandler, special agent of the Northern Pacific company for this division. He said they were not in a position to shed up on the contents of the mail car.

Two suspects were detained here today, but authorities admitted they have no evidence against either.
OAKLAND, Cal., Oct. 12 (AP)—Father William J. O'Conner of Cleveland, Ohio, national chaplain of the American Legion, played a heroic part in relief work after the holdup and explosion which claimed four lives on Southern Pacific train No. 13, near Hills, Cal., yesterday, it developed today when the train reached here.

Father O'Conner was on the second section of the train, which was un-molested. As soon as this section had reached the scene and its occupants were informed of the holdup and explosion, Father O'Conner hastened over an intervening hill to the scene. He said prayers over the dead and took charge of the relief of the injured.

B. Devine, of Portland, Ore., and Harry Hestley of Los Angeles, who were slightly injured by flying glass, said that they were sitting in the smoking car of the train when the explosion came. The passengers remained calm, they said.
J. W. Mitchell of Berkeley, Cal., an express messenger on the train, said that all of the windows and doors of the express car were smashed by the explosion and every occupant of the car with the exception of himself was thrown down. He was told, he said, that the bandits were unmasked.

NO LOOT OBTAINED.
SAN FRANCISCO, Oct. 12 (AP)—No loot was obtained by bandits who robbed Southern Pacific train No. 13 near Ashland, Ore., and killed three trainmen and a mail clerk, according to officials of the railway mail service here. All the mail was burned.

About 20 passengers were reported injured by flying glass from windows broken by the concussion of explosions caused by the bandits in an effort to force their way into the mail car. The charred remains of two mail sacks, with the contents destroyed, were found in tunnel 13 where the robbery occurred after the mail car had been destroyed by flames following the explosion.

Descriptions Obtained.
Description of two men who boarded the tender of the engine at Siskiyou have been obtained from railroad employees who saw them, and identification is expected to be an easy task once they are apprehended, it was said.

Three messengers on the two express cars of the train also are expected to be able to give postal authorities a complete account of the holdup when they arrive here on the train, which is proceeding south with the mail car cut out.

Word of the holdup and the distress of the passengers evoked prompt help from Ashland. Within a few minutes after the affair had been reported here all available officers were rushing to the scene.

Season tickets now on sale for the Lyceum course. They sell at bargain prices—\$2.50 adults and \$1.50 students, which includes the play, "Six Cylinder Love."

PRIMITIVE LIFE PLEASURES BRITON

Lloyd George, Making 1400 Mile Jump, Views Wilderness of Canadian Country

ON BOARD LLOYD GEORGE'S SPECIAL TRAIN, CHAPLEAU, Ont., Oct. 12 (AP)—On a 1400 mile jump from Niagara Falls to Winnipeg, Lloyd George, in his tour of Canada, today went through a region but little removed from the primitive wilderness. Passing on his special train to the north of Lake Superior, he made a few stops at isolated points where the log house is still used and where big game is plentiful. At Hudson Bay company points Indians were conspicuously drawn up in silent lines beside the train. The former premier enjoyed the experience to the full with its fascinating scenery of woods and quiet lakes.

"It is like passing through an endless picture gallery by a first class artist," he said. "Why there should be slums in Europe when there is so much wealth here, I don't know."
Leaving Niagara Falls last night, Lloyd George changed at Toronto from the special train of the Canadian National railway which had served him since he left New York, to the Canadian Pacific railway for the run to Winnipeg, where he is due tomorrow afternoon.

Mr. Lloyd George is occupying the private car Ottawa, which was placed at his disposal in New York for the entire trip by Sir Henry Thornton, president of the Canadian National railway.

Wireless telephone communication is serving to keep the party in touch with the outside world, the latest news bulletins being received regularly. Stations as distant as Washington and Atlanta, Ga., are heard with ease.

ALBION DROPS GAME TO FILER

Victors Chalk Up Third Straight Win of Season by Score of 33 to 6

(By MARSH.)

Filer high school football soundly annexed their third straight victory Friday when they took the Albion high school team into a rout by a score of 33-6. Although the score does not indicate it, the game was hard fought, Albion disposing every yard made by the Farmers.

The Albion team was heavy and fast but they have not had the experience in the game and a large measure of Filer's victory may be accredited to that— inexperience. However, we should not forget the splendid work done by Dehl, Hall, Landreth and especially Lapp of the Filer team.

The game started with Albion taking the south goal and kicking off to Filer. The red and white started down the field only to lose the ball on a fumble and receiver almost immediately and put it across by line backs, all in the first four minutes of play. Score 6-0. Lapp then kicked off to Danner, who had for a moment a good gain and a pass and eight line backs scored Albion's first and only touchdown. Yearsly carrying the ball over again Filer kicked a 25-yard pass was waded throughout the rest of the quarter near the center of the field. The quarter ended with the score 6-6, as both teams at goal were unsuccessful.

At the start of the second quarter Filer lost the ball on downs and on the next play Rooker made a beautiful 25-yard run. But Albion again lost the ball when an attempted pass was intercepted by Love, who carried the ball to the 8-yard line. Lapp carried it over in three more downs. For point was allowed Filer because of an offensive. Filer again kicked off and soon got possession of the ball and took it to the 10-yard line where they were penalized 5 yards, but nevertheless were able to score on a tackle play, Ed Hall carrying the ball over. The next touchdown was accomplished in half order, Lapp again carrying the ball over and making the kick. The half ended with the score 27-6.

Spread Formations Fail.

In the second half it became necessary to shorten the playing periods into 10 minute halves in order that Albion might catch the evening train, and Danner sent in Hall to replace Hicks as right guard. Albion immediately changed to spread formations or more formations which failed to dazzle the Filer veterans and after four tries they were forced to kick. Filer made steady gains, losing the ball on a fumble, but recovering it again, and were able to score before the end of the quarter, making the score 33-6. In the last quarter the heavy center of the Blue and White began to toll on the Filer team and Albion made consistent gains, taking the ball to the 15-yard line where they lost it again to Filer. Then came the spectacular work by Lapp, who raced through a broken field for 45 yards and on the next play again took the ball through a whirling mass to the goal line, where the ball remained until the end of the game. Final score, 33-6.

And the lineups follow:

Albion:	Filer,	Balpus,	E. E.
	Price,	R. E.	Ed Hall
	Mahoney, B.	R. G.	Hicks
	Gray,	C.	Adking

CALIFORNIA GRID TEAM HAS NUMEROUS COACHES

Total of Ten Mentors Listed on Staff of Southern California University; Henderson is in Charge

LOS ANGELES, Oct. 12 (AP)—If the University of Southern California football team is unsuccessful on the gridiron this season, it will not be an account of lack of coaching, for one of the best in the country is in charge. Henderson is in charge.

Elmer C. Henderson, head coach, learned the rudiments of the game while playing for Oberlin college in Ohio, and coached at Broadway high school, Seattle, Wash., before coming to U. S. C.

Bill Hunt, who has been promoted from line to assistant coach, was once all-state tackle in Ohio.

John Thurman, who was an All-American tackle for the University of Pennsylvania last year, recently assigned to coach the forward defense.

Clifton B. Herd, famous tennis player, is advisory coach and is said to be one of the best "scouts" in the country. Opposing coaches declare Herd has an uncanny way of learning the plays and alignments of their teams from just watching the play from a seat in the grandstand. He is said to be able to remember the plays and the position of each player on such plays until he reaches his home where he makes charts and records other information. However, Herd just laughs when told of his "powers."

James Anderson of Sweden, who was in charge of athletics in Russia, during the latter part of the reign of Czar Nicholas, is trainer for the Trojans.

Leo "Babe" Calland, captain of the 1922 Trojans varsity, is freshman coach.

Other players of the Trojans last season who are on the coaching staff: roll of their alma mater are Roy Baker, Howard Kincaid and Harold Gallowsky, backfield coaches, and Lowell Lindley, assistant line coach.

CHICAGO CITY SERIES.

NEHF PUZZLES SLUGGING KING

Ruth Gets One Hit, Strikes Out on Second Trip; Hofman Failed in Pinch

NEW YORK, Oct. 12 (AP)—George Herman Ruth, the bustling Bambino, who won the second game of the current world's series for the New York Yankees, was held in check today by the puzzling pitching of Arthur Nehf, Giant southpaw, in the two opportunities he had to hit.

Ruth went to the plate four times, but was credited with only two times at bat as he walked on the other occasions. He got one hit, a single in the first, that gave him an average of .500 for the day. He struck out on his other trip.

His batting record for the day: First inning—Two down. After taking two balls, Ruth swung twice and missed, but he connected with the fifth ball and drove it to center for a single. He died on first as Meusel flied out.

Fourth inning—Dugan, first man up, doubled to right and Ruth was walked on four wide pitches, but both died when Meusel hit into a double play.

Sixth inning—Two down. R u t h watched a ball float by then swung and missed. Nehf's third pitch was a ball but the fourth ball nicked for a foul.

After watching a third ball sail by, Ruth overtook what umpire Nellie called a strike. Thinking it was a ball, he started to jog down to first and then turned, took off his cap and scratched his head, but said nothing.

Hofmann failed in pinch hitting for Jones. Witt singled but was rapped at second on a fielder's choice. With Dugan on first, Ruth was walked against his will. After three balls had been called, he swung at the fourth, also wide, and fouled it, but the next pitch was beyond his reach. Both he and Dugan died when Meusel flied out.

TEAMS TO CONTEST FOR MISSOURI VALLEY TITLE

Nebraska to Clash with Oklahoma and Iowa State to Meet Missouri, Tigers; Other Games Scheduled.

KANSAS CITY, Mo., Oct. 12 (AP)—Play for the Missouri valley conference football title now held by Nebraska, will get under way tomorrow with three conference games on the schedule.

Nebraska will clash with Oklahoma at Lincoln; Ames will play the Missouri Tigers at Columbia, and Grinnell will be at St. Louis for their clash with Washington university.

Other conference schools will meet outsiders tomorrow, the Kansas Aggies will play Creighton at Manhattan; Kansas will play Oklahoma A. and M. at Lawrence, and Drake will meet Rolla School of Mines at Des Moines.

The three conference games will be the first of the season, all of the Missouri valley schools having engaged teams outside the conference last Saturday and the first test of relative strength will be brought out in tomorrow's games.

The Creighton team, which meets the Kansas Aggies tomorrow was beaten last Saturday at Lawrence and some idea of the relative power of the two Kansas teams may be brought out. In last week's game virtually all of the conference teams showed lack of practice, and field running was ragged.

Idaho Grid Mentors Center Upon Attack

Coaches Spending the Week Strengthening Weaknesses Revealed in College Game

UNIVERSITY OF IDAHO, Moscow, Oct. 12.—University of Idaho football coaches are spending this week strengthening the weaknesses revealed in the Vandal attack as it functioned against the College of Idaho eleven in the first game of the season here last Saturday, in which the university smashed the southern Idaho team 53 to 0.

The College of Idaho game revealed a promising university aggression, but one upon which considerable work will be necessary before it is ready for the opening of the coast conference schedule.

Among the major problems which will face Coach Mathews and his lieutenants during the next two weeks will be the building of an aerial attack, developing a center to back up the one regular on the squad and the general perfection of offensive tactics which will be successful against the heavier teams that will face Idaho on the coast gridirons this fall. Against the college, a team of about the same poundage, the Vandals displayed a dashing charge, particularly evident on defensive play, which will be a powerful factor in their playing throughout the season.

About the middle of the second period Coach Mathews sent in a bunch of reserves to replace the regulars. This second string aggregation was able to make significant headway against the college team.

Idaho's next game is against the University of Montana, Friday, October 12. The Montana team has not been saying much about prospects for this year, which means it is set to spring a surprise in the northwest conference. It is hoped that the Montana game will offer a basis upon which to judge the Vandals' power for it will be the last chance before the game which must find Idaho with a "point" that must be retained throughout the remainder of the season.

BIG TEN TITLE TO BE INVOLVED

All Teams in Western Grid Conference to Enter Combat in Middle-West Saturday

CHICAGO, Oct. 12 (AP)—With the exception of Chicago, every team in the western conference will engage in combat tomorrow with an opponent of sufficient power to make the games real contests and provide a basis for championship comparison.

The Iowa-Purdue and the Northwest-Iowa-Indiana games are the only ones involving "big ten" title, but interest probably will center in Michigan's clash with Vanderbilt at Ann Arbor and the tilt between Colgate and Ohio State at Columbus.

Michigan will attempt to wipe out last season's scoreless tie with Vanderbilt, which is regarded as having fully as strong an aggregation as last year.

The game between Wisconsin and the Michigan Aggies at Madison is expected to furnish a real line on the Badgers, as the Aggies already have been through two tough games. Minnesota is the only eleven in the conference with a game which will not throw much light on its strength. The Gophers will meet the Haskell Indians at Indianapolis, but the freshmen are of unknown quality this season.

Illinois, as a result of its victory over Nebraska a week ago, figures to score a decisive victory over Butler, which provided one of the greatest surprises of last season by trouncing the Illini.

Northwestern is figured to defeat Indiana, while Iowa in the opinion of experts, has the edge over Purdue.

SIGGINS NAMED YELL KING

Twin Falls Lad Is Drafted by Idaho Tech Students to Oppose Oberlin Leading with Football Playing

POCAHELLO, Oct. 12.—(Special to The News).—At this week's assembly of the students of the Idaho Tech, Edwin Siggins of Twin Falls was elected yell king by a large majority. Siggins is playing football, but his yell leading in assembly last week was so well liked by the students that they would have no other. During the football season Siggins will have an assistant to help him at games while he is waiting his call to take a place in the lineup.

EXPECT BIG CROWD.

PENDELTON, Ore., Oct. 12 (AP)—Pendleton hopes to have a 10,000 turnout for the football game to be played in Round-Up park October 19 between the University of Oregon and Whitman college. Local football fans are anxious to have an exceptionally large turnout in order to insure the regular holding of an intercollegiate football contest in eastern Oregon.

GIANTS WIN (Continued from Page One)

tory. The paid attendance broke the former record of 6,351, established in a double-header at the stadium late in the regular season, while the gathering as a whole was but one superior in size in baseball, that of approximately 70,000 that witnessed the dedication of the big structure last spring.

For a day, Stengel had stepped out of the limelight while Babe Ruth rose to the pinnacle of fame with two circuit clouts that swept the Yankees to victory in the second game of the third successive title struggle between these Gotham rivals.

Record Performance Perhaps the setting was not so dramatic as in the first game, but that mattered not to Casey, for the result was just as effective and gave to the victors a record that has no equal in the world's series annals—the feat of winning two games with home runs in a single championship.

Its nearest approach is the work of "Homerun" Baker, who won two games for the old Athletics with circuit clouts, but in separate series, 1913 and 1918.

Setback for Jones It was a heart-breaking setback for Jones, melancholy moundsman of the Yankees, who pitched even more brilliantly than he did his southpaw rival, Nehf, in triumph. And, too, it was doubly disastrous for the Yankee machine, for with defeat they lost, at least temporarily, the services of their star first-baseman, Wally Pipp, who wrenched again his weakened right ankle in sliding to second in the seventh inning and was forced to leave the game.

Pipp Injured Just how serious is Pipp's injury could not be determined tonight, but general belief prevailed that it might cost the Yankee his services for the remainder of the series and thereby jeopardize the chances of the American league champions. His ankle swathed in bandages, Pipp was able to hobble about after the game. He declared he would be ready to go back into the lineup tomorrow, but Miller Huggins, manager of the club, shook his head pessimistically.

Can't Tell until tomorrow whether Pipp will be able to get back into the game or not," declared Huggins. "His ankle is swollen and giving him much pain, of course, but it may be possible to work it around into condition tomorrow. In event he is unable to go, I will switch Ruth to first where he finished today's game, and probably use Harvey Hendrick or Elmer Smith in right. Or I may send in Hinkey Haines, who took the Babe's regular post for the last few innings this afternoon."

Giants Baffled For eight innings Jones, hero of a no-hit performance this season, baffled the Giants with a series of pitches with a marvelous change of pace and superb control, yielding only four scattered hits while Nehf was being fanned for six. Except for Stengel, only one Giant got as far as second base, but that mighty wallop of Casey's wrecked the Yankee twister's masterpiece just when it seemed close to completion.

Coming back in the eighth inning after that crushing blow, Jones displayed his mettle by striking out Baneroff and Groh in succession, but he was withdrawn in favor of a pinch hitter in the Yankee half of that inning when Huggins directed his last desperate hit fullback. Joe Bush, victim of Stengel's home in the first game, held the Giants hitless in the ninth.

NORMAL SCHOOL LOSES TO LOCALS (Continued from Page One)

for a yard and Timm made 4 by the same route. Crom made it first down. Moose took through tackle for 8 yards and Jenks made it first down. Crom tried his luck through the line but made one yard on the next play. Crom shot out of the line like a bullet and went over the line after a 20-yard run for the third touchdown. It was a beautiful play and had everyone guessing. Moose again failed to kick goal and the score stood 18-0.

Boehme was substituted for Christopherson at guard. Moose kicked off and Aman, receiving the ball, ran it back 15 yards. Neilson was thrown for a loss and received a 5-yard penalty for offside. Another try at a pass was incomplete and after gaining 5 yards through the line, Albion kicked Timm for the punt back 5 yards and on the first play Timm got away for a 20-yard gain around end. Moose tore off 5 yards through the line and repeated for 3 more. Crom again tried away on a beautiful fake play, for 20 yards putting the ball on the 10-yard line and Jenks took the necessary 10 for the fourth touchdown. Moose failed to kick goal; score 24-0.

Alvord replaced Timm at fullback. Moose kicked off to the goal line and Aman got away for 20 yards before he was downed. Albion failed to gain on an end run and a line plunge and Jenks made 2 yards through the line. Albion was forced to kick. The Bruin linemen were getting through and burying the kicker and his punt only went 10 yards, Moose receiving it. Alvord tore around end for 10 yards on the first play. Moose tried a pass but it was too high for Crom to complete. Jenks tore through for 15 yards and Moose duplicated for 3 yards. Jenks got away through the line for 10 yards and Crom gained 2 yards more. Moose failed to make a gain and Twin received a 5-yard penalty for offside. Jenks fumbled the ball, and on the next play Albion intercepted a pass and immediately kicked out of danger. Moose tore through tackle for 2 yards as the half ended with the ball in Albion territory.

Third Quarter During the interval between halves the high school band paraded around the field and entertained the crowd with a number of selections. The usual array of kids was out on the field and an effort to get spectators a great deal of amusement. Christopherson went back in at guard in place of Cahane, and Timm went back to his old position at fullback, and Alvord shifted to quarter. Hodgkin replaced Timm at end.

Albion kicked and Moose received the ball on the goal line and ran it back to the 25-yard line. Jenks took through the line for 6 yards and Alvord shot around end for 10 more. Timm went through the line for 5 yards and Moose added 2 more. Jenks plunged through tackle for 10 yards and Alvord made 6 more through the line. Alvord tried his hand at passing but Timm did not get it. Alvord tried to buck the line without success, and Moose was short by inches of making first down. This was the first time that the Bruins were held for downs. At this point Albion started a march down the field that looked bad for 20 minutes. Timm led the drive on two bucks and added 5 more yards to that, but the Bruins rallied, stopped an end run and broke up an attempted pass, and forced Albion to punt. Moose was nailed almost where he caught his ball. Timm got away on the first play for 15 yards around the end and gained a 20-yard line buck. Moose plugged the line for 5 yards, and Jenks made 7 more-making first down. Timm hit the line for 4 yards and Alvord got away on the next play for a 15-yard run to a touchdown. Moose failed to kick goal; score 20-0.

Albion received. Moose kicked to Neilson and Day nailed him in his tracks. Albion plugged the line for 3 yards and tried a pass which was incomplete. After receiving a 5-yard penalty for offside, Albion was forced to kick. Moose received the ball on his own 35-yard line and with perfect timing ran 20 yards for a touchdown. Alvord kicked goal; 27-0. Moose kicked off to the goal line and Aman ran it back 25 yards. Aman got away through the line for a 25-yard gain, but was unable to keep it up and was forced to kick. Twin Falls received the ball. After trying to pass, Albion was penalized 5 yards for offside and was forced to kick again. The kick was short, going out of bounds on the 35-yard line. Timm got away again on the first play for 25 yards and Alvord made a beautiful run through the field for another county. Moose neatly clipped the last man that had a chance to get Albion, making a beautiful block. Alvord kicked goal; 44-0. Crom went in at quarter and Alvord replaced Timm at fullback. Moose kicked off to the 5-yard line. Neilson ran for 20 yards. Crom was plugging the line without success at the end of the quarter.

Idaho Falls Wins From Rupert Team

Victors File Up Score of 40 to 3 in Loosely Played Game on Muddy Field

IDAHO FALLS, Oct. 12 (Special to The News)—In a loosely played football game on a muddy field Idaho Falls Tigers defeated Rupert high school 40 to 3. The first score came in the first few minutes of play when Captain Russell of Idaho Falls ran 80 yards through a broken field for a touchdown. Russell is responsible for five of the six touchdowns made by the Tigers. Rupert's score came when they received a punt on the 15 yard line and Nelson, Rupert half, made a beautiful kick for three points. Idaho Falls outlasted their opponents in every department of the game and had things their own way from the start.

Table with 2 columns: Twin Falls, Albion Normal. Rows for Farrar, Christopherson, Swim, Humphrey, Captain Lelser, Mussel, Crom, Timm, Garrity, Jenkins.

Score by quarters: Albion 0 0 0 0. Twin Falls 12 12 20 14-58. SIDELIGHTS ON THE GAME. Moose looked mighty good in Friday's game, especially in that long run for a touchdown, and he was showing old-time form in blocking and his defensive work saved many a yard for the Bruins.

Timm spends a lot of his time learning how to fly and he is profiting by the training. He made a beautiful dive over the goal line Friday. And every time he is tackled he is generally in the air. Timm is dangerous all the time and with half a chance he gets away around end for long gains.

Jenks certainly did his share. Time after time he was called on to plug the line and he always responded for a gain. Some of the bleachers were worried about his tongue, but Evans says he can't make him keep it in his mouth.

Day was doing effective work at end and stayed in that position the whole game. He was down on the punts, but seemed to be slow getting down on the kickoff. He got a lot of tackles, though.

Swim looked good on defense, too, and was through that line many a time, smearing Albion plays before they got under way.

Christopherson was in there all the time working hard and doing a lot of damage. Chris is a comer.

Alvord and Crom looked better Friday than at any time this season and both got away for some long runs.

Captain Lelser played his usual steady, hard-hitting game and was a hard man to stop. John is invaluable to that line and, man, how he tackles.

Idaho Falls Wins From Rupert Team

Victors File Up Score of 40 to 3 in Loosely Played Game on Muddy Field

BURLEY DEFEATS JEROME

North Side Team Takes Short End of 32 to 7 Score; Benborn Fight Causes Victors to Do Their Best

JEROME, Oct. 12 (Special to The News)—Burley with a more experienced and heavier team defeated Jerome 32 to 7 here today. Jerome put up a stubborn resistance all through the game and made the Burley team extend themselves during the second half. Jerome's only count came when Winkler recovered a fumble and ran to within eight yards of the Burley goal and the Jerome team were unable to buck it over. Eugene Nims, halfback, Tryon, tackle, and Captain Gorman were the stars for the Jerome team, while Cannon and Korshnek for Burley were at their best and gained repeatedly through the Jerome line.

WAR SECRETARY ANSWERS FORD

(Continued from page one)

rightfully be made by any administrative officer without the approval of congress, and I, as the responsible official in this matter, referred Mr. Ford's offer to congress, which has so far not acted upon it.

"In the meantime, the Alabama Power company, under their rights in the old contract, notified the government that the lands must be vacated on or before October 15, this year. They offered to pay \$3,500,000 for this comparatively small item of the whole equipment.

Had Option

"The government had an option to accept this offer, which was the highest made, or to salvage this plant as second-hand machinery and from which they could not have realized more than \$1,000,000, and the other hand, it must be borne in mind that for this single item in the entire equipment the government has secured \$3,500,000 as against the \$5,000,000 offered by Mr. Ford for the entire plant and equipment.

"At the time of the sale, in a desire not to disturb the status quo, the administration stated to Mr. Ford that this amount could be credited on his original offer of \$5,000,000 if it was so wished. Mr. Ford's declared purpose in purchasing the Muscle Shoals is the manufacture of nitrates for fertilization purposes. I have the keenest interest in the development of this form of nitrates in assistance of the American farmer and in the adaptability of the Muscle Shoals. As evidence of the government's desire to promote this end, it is carrying forward today the construction of hydraulic works on the Tennessee river with a view to making the greatest water power available for the purpose.

Did Not Oppose Ford

"I have never opposed Mr. Ford's securing the use of this water power or any other equipment we have, provided he is able to give such assurance of its being devoted to this particular purpose as will satisfy congress and properly protect the public interest. That he could have economically made nitrates by the use of steam power is denied by every expert adviser.

"The fact that he says his offer is still open would seem to indicate that he does not regard the Gorgas steam plant as necessary to him in the carrying out of his plan to purchase and develop Muscle Shoals water power. I do not propose to continue a newspaper discussion of this subject, but if necessary shall place all facts before a proper tribunal."

PEACE PREVAILS IN INTERNATIONAL AFFAIRS

(Continued from Page One)

agree on a program for limitation of armament. He pointed out, however, that the problem of armed force was "chiefly a European problem," and quoted statistics to show that the total of active arms in the world. "We find that in this hemisphere, including the United States and Canada, we have but six per cent of the whole.

"Europe has 57 per cent of the total active armaments and 71 per cent of the total organized forces," he said. He added that if the nations of the old world with their long training in statecraft and "experience of the disastrous consequences of the great war" had been unable to agree to a plan of limiting their armed forces, it was hardly strange that there had been difficulty among the new republics in working out such a plan.

Trade Increases

Secretary Hughes quoted department of commerce statistics to show the increasing trade relations between the United States and Latin America, saying that the play of economic forces always underlies political relations. He also noted the increasing attendance at American schools by those students from Latin America and said that the "cultural contacts" between the countries were becoming more intimate and helpful.

"We are beginning to interpret to our neighbors," he said, "our life in its institutions and standards and we desire a similar interpretation of their life. I wish, indeed, that that important educational instrument, the moving picture was not so frequently used in foreign countries to give false impressions of American life. "It is most discouraging to reflect upon the extent to which the best efforts of educators and the men of public affairs are thwarted by the subtle influence of a pernicious distortion among other peoples with respect to the way in which our people live and the prevalence here of vice and crime."

Must Interpret Ideals

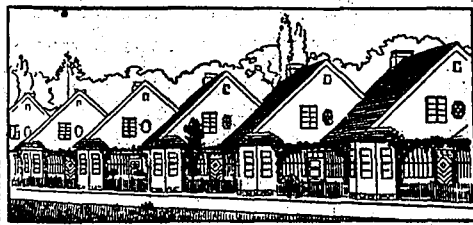

In closing, Mr. Hughes said that the United States could make no better contribution to Latin American stability and culture "than to interpret to our friends the thoughts, the purposes and the ideals of the women of the United States."

The conference was similar to those held in every capital of American republics today to present the contributions of women in certain fields to the progress of their respective countries.

Small Dwellings Set at Angle to the Street to Give More Light and Air and Greater Security and are Supplied from a Central Plant

More Light and Air for Small Homes

Some of the disadvantages of small dwellings built in groups for the sake of economy have been overcome in Germany by placing the houses at an angle to the street to provide more light and air for each dwelling. Such groups are easily supplied with heat, electricity, and water from a single center. Under the German plan...

VEGETABLE GARDENS PLANT CENTRAL PLANT

Million Wasps Are Freed To War on Crop Pests

One million wasps, the size of pin-heads, have been imported by the government and are now distributed in the East to destroy the corn borer. The wasps will save millions of dollars in crops for the farmer, if they serve as well as they have in Europe. Whether they can flourish in this climate has not been determined. The borer, resembling a caterpillar, attacks corn, bean, clover, alfalfa, and many other products. By laying eggs in the female wasp kills the borer.

Registration of trucks and automobiles is being speedily completed in the West. There are now more than 1,000,000 motor vehicles in the United States, an average of one machine for every 2.5 persons. Between July 1, 1922, and July 1, 1923, there was a gain of 2,440,000, almost 25 per cent.

DRAGON FLIES ARRIVE IN FLOCKS IN MONTANA

BOZEMAN, Mont., Oct. 11 (AP)—With a course set straight into the west and with flying hordes following in successive waves, the dragon fly of Montana is making a new chapter in natural history this fall. For the first time in the history of the state there is a migration of dragon flies, a natural phenomenon which, in fact, is not recounted in any of the available books of entomology.

Recently the curious migration was noted by entomologists at Montana State college. The insects were flying in dense waves, the waves being rather sharply defined as they passed. For a few minutes the air at a height of some 50 feet, would be filled with the insects and a few minutes later there would not be one in sight. Again and again came the waves, each insect driving a straight and rather steady course toward some unknown goal. On different days the migration was noted and specimens taken at the college. The speed of the winged "snake feeder" and the height of flight made a gathering of specimens a difficult matter.

So far as can be learned, the migration carries no special economic significance. The dragon fly preys upon small insects, chiefly mosquitoes, which it captures in flight. Both sexes are found in the migration. This flight of the insect in Montana is being carefully noted as it is of interest to observers of insect life where it may be of no importance to others.

Vats Were Built to Last. Workmen excavating a sewer on Pine street, Pomona, Me., unearthed tanks that are at least 100 years old. Pine planks of which the vats are constructed are as sound as the day they were laid, apparently. A small piece of leather was found in one of the vats.

Women Inventors Are Busy on Industrial Problems

To learn just what part women were taking in inventions, government officials recently conducted a survey that shows over 5,000 patents had been granted to them in 10 years, more than the total for 1915 years previous. The first patent granted an American woman was given by the British government to the wife of a Pennsylvania planter, for a device to clean and cure corn. Later-saving machines are said to make up the majority of women's inventions, one making an apparatus for scattering fertilizer, another an article to strip sugar cane, while an adjustable horse collar was made by a Missouri woman. For the kitchen a pie pan was brought out that prevented juices from overflowing the brim, and a wooden mixing bowl was invented that would not split. Almost every line of business was included, but 1,355 patents were for articles of housekeeping.

WESTERN COAST COLLEGE HOPES FOR GRID TITLE

CLAREMONT, Cal., Oct. 11 (AP)—Prospects for Pomona college again winning the Southern California conference football championship this year are beginning to look much brighter than when the first call for practice was issued by Coach Eugene W. Nixon. The team which won the title for the Sagehens last year, has been broken up owing to graduation and for other causes, but Coach Nixon, with those players who remained from last year's varsity squads and a few transfers, is building a machine which he says probably will make the race hot for other contenders.

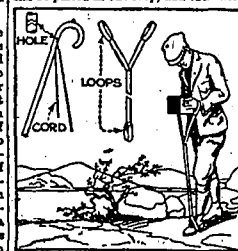

Captain Herb Mooney suffered a broken leg in baseball practice and was not expected to be able to play on the gridiron this fall, but his leg has healed and he has been practicing with the other players. He weighs 165 pounds and probably will be at his old position at center, where he has played for two years.

Alfred Tarr, 233-pounder from the San Diego Teachers' college, is expected to be certain of a position. Henry Hodge, with one season's experience, weighs only 157-pounds, but says he believes he can make varsity tackle. Nelson Griffith has played two years at tackle and hits the scales at 160. Irwin Williams has not had much experience, but is trying out for tackle and weighs 160-pounds. Dick Worden

New Method of Taking Time Exposures with Hand Camera

Trips are more or less of an annoyance to the camera enthusiast, and few use them. However, it is sometimes necessary to make a time exposure to get the desired picture, but the camera cannot be held steadily enough with the hands to avoid doubling the image. It is, however, a simple matter to hold the camera steady if a cane is carried along. Just below the crook of the cane two holes are drilled from opposite sides to meet in the center, both slanting down from the point of junction. Another hole is drilled through the crook to take a tripod screw, on which the camera is mounted. A cord is run through the angular hole, the ends of the cord are stepped on, and pulled taut by pulling back on the cane, which has the end planted on the ground in the position indicated, thereby holding the cane firmly in position. The arrangement thus improvised is steady enough for long-time exposures.

Another method of steadying the camera is to cut a length of tape into three pieces, and to tie or sew these pieces together at the central point as shown, making a form of the letter Y. Loops are made at the ends so that the foot can be placed in one loop, and each wrist

HOLES LOOPS CORD

In another. Then, with the camera clamped between both hands, an upward pull will enable the user to hold the camera steadily enough for a time exposure of four or five minutes.

is after the end berth where he has been stationed for two years. He weighs 140 and is fast. Randle Draper, weighing 151 pounds, also has had two years' training at end. Bud Frazer, end, has had two seasons' experience. He weighs 150 pounds. Ralph Raitt has been an end for three years, weighs 140 pounds and is speedy on his feet. Sack Cowan, 160-pound tackle, played that position part of the time last season.

SOCIETY

Edited by Mrs. E. B. Williams Telephone 396

Mrs. C. O. Meigs gave her little daughter, Margaret, a delightful surprise party Friday afternoon, in honor of her tenth birthday. The house was decorated with autumn leaves, and the symbols and colors of the Halloween season. The hours were from 2 to 4 and the time spent with games, Mrs. Meigs being assisted in entertaining by Miss Mildred Elrod and Miss Norma Cryder. Dainty refreshments were served and the party with a variety cake was ornamented with tea yellow candies. The little girls present were Margaret Meigs, Margaret Betteher, Margaret Anderson, Ruth Cryder, Dolly Diamond, Mildred White, Lucille Roberts, Grace Roberts, Katherine Bacon and Catherine Strowbridge.

Mrs. D. D. Alford entertained the girls of her Sunday school class of the Episcopal church on Friday evening complimentary to Martha Johnson, who is leaving soon to make her home in Seattle. Dancing and a general good time was enjoyed and refreshments were served. Those present were Martha Johnson, Beth Bowen, Margaret Harrison, Lolita, Stephen, Katherine Newman, Katherine Martin, Edna Higgins and Betty Wilson.

Mrs. W. T. Leslie entertained the members of the Fortnightly club and two guests, Mrs. Bertha Leonard and Mrs. J. A. Dyger, at a luncheon Friday at her home on Sixth avenue east. Potlucks in various shades were used to decorate the table and room. The usual games of bridge were played after luncheon, favor for big score being won by Mrs. Edward Cooper.

On Friday afternoon the members of the Blue Lakes Boulevard club entertained with a silver tea at the home of Mrs. William Foelt. A very delightful program was given consisting of two piano numbers, "Poland in G Minor," by Rachmawloff, and the "Dying Poet," by Gottschalk, by Miss Grace Robinson, who is the guest of her sister, Mrs. W. H. McDonald. A comedy entitled "A Pair of Lancers," by Mrs. W. R. Walker, the character being played by Mrs. B. E. Eldred and Mrs. W. H. McDonald. Two vocal solos, "Until," and "Smilin' Through," Mrs. W. H. McDonald. Mrs. D. F. Riggs' junior students in elocution gave several readings. These were "O, Mister Laughter," by Wills Lloyd; "The Ping Goes By," Curtis Eaton; "The Bugle Rings," Allene

King, and "The Owl and the Pussy Cat," Veon Riggs. Miss Robinson closed the program with one of Schuman's compositions. The rooms were beautifully decorated with autumn foliage and garden flowers.

An interesting meeting of the Past Noble Grands' club was held Thursday evening at the home of Miss Myrtle Anderson, with the president, Mrs. C. A. Estes, presiding. Arrangements were completed for sending a Christmas box to the Old Fellows' home at Caldwell. A waffle supper was served at the conclusion of the meeting.

A burlesque hyacinth performance and a stunt illustrating a day at the Y. M. C. A. summer camp at Payette lakes were features of an entertainment program at a meeting of about 50 members of the Blue Triangle club held Wednesday evening in the high school auditorium.

COMMUNITY CLUB ELECTS. KIMBERLY, Oct. 12—(Special to The News)—Mrs. Henry Knutson was

hostess to the Community club Wednesday afternoon. The president, Mrs. C. A. Johnson, presided over the business meeting. Officers for the coming year were elected after which followed a social hour and dainty refreshments were served by the hostess.

SPECIAL TODAY. Chocolate covered caramels 30c lb. adv.—HERBST & RAMBO.

Twin Falls never before had such a Lyceum course as this winter. Six big, worth-while numbers and one of them the popular comedy play, "Six Cylinder Love." Buy season tickets now—adv.

6 1/2% Farm Loan Money. For a time I can furnish farm loan money at a six and one-half per cent rate. Splendid payment and prepayment privileges. Come in and let me explain a farm loan that is as attractive as a Federal loan and without the Federal's delays. I can put through one of these loans in ten days, and you have the full amount of your loan to use instead of 95 per cent of it. C. A. Robinson

A READY-TO-WEAR SHOP. Designed and gradually built up for every woman. In fulfilling that ideal this Fall with the finest and biggest selection of merchandise for every need and every purse it stamps itself as the unique store of this section. How Often Do You See Dress Values Like These? You can't buy the material for this price. There are only nine dresses in this lot. All are made up in long-waisted effect, the top part of Russian striped silk, and the skirt of plain colored silk. Sizes run from 16 to 44. \$5.95 \$9.95 Only a Few More Days Left of the Big Coat Event. Some of the biggest coat days this long-established store ever had were experienced as a result of our big Eastern coat showing. Every woman who visited this department exclaimed at the low prices for coats of this quality. Next week the coats go back. Have you seen them yet? IF IT ISN'T ALL RIGHT BRING IT BACK. The Greater IDAHO Department STORE Ltd. Up to date TWIN FALLS, IDAHO Progressive. AFTER ALL THE BEST PLACE TO TRADE

American White Cross. Do you know that the Protestant church hospitals are wholly inadequate to meet the Protestant needs? Do you know that they turn away 1,000 applicants a day for lack of room? Do you know that only church hospitals supply the therapeutic atmosphere of Christian faith and loving service so essential to recovery? Do you know that there is room in Protestant church hospitals for only 12 1/2 per cent of the nominally Protestant population of America—over 82,000,000? Do you know that there is room in Protestant church hospitals for only 49 per cent of the Protestant church membership of 24,000,000? Do you know that while this is the status of American Protestantism, the Catholic hospitals have room for 130 per cent of the Catholic membership of 17,000,000? Do you know that Jewish hospitals can accommodate 75 per cent of their 3,000,000 population? Do you know that Catholic orphanages can care for all Catholic orphans and 6-2-3 per cent more; while Protestant church orphanages reject 10 where one is admitted; because of lack of room? Do you know that because of these untoward conditions The American White Cross was organized to support Protestant hospitals and homes? Do you know that adult membership costs only \$1.00 per year? The supporting membership costs only \$5.00 per year? That family membership costs only \$10.00? Do you know that Saturday, October 13, is being observed as Tag Day, and Membership Day in Twin Falls, Kimberly, Plover, Buhl, and Castledale? You will help. C. E. DEAL, Field Secretary for Idaho.

THOSE MARTIANS

Dr. A. M. Low, a noted English scientist and inventor, says that if there is any method of communicating with Mars which might prove successful...

Just suppose we were born with eyes having only slightly different lenses from the normal. We should see that the air around us was full of life...

He goes so far as to suggest that Martians may be advanced enough to exist simply in disembodied "thought forms."

It is probably sheer egotism that makes us consider ourselves perfect models for the universe and fancy that sentient creatures in other worlds would necessarily have faculties and organs like ours.

THE INDIAN CONVENTION

The last four days of September witnessed a convention, held in Chicago, which was different from most others and which might well interest the whole nation.

The group which welcomed the Indian delegates to Chicago was widely representative, being made up from the membership of leading civic organizations...

It is not always realized that the American Indian, although a vanishing race, has contributed his share to the country's art and folk lore.

The Lyceum Play—"Six Cylinder Love" ran fifty-four weeks in New York and enjoyed an unusually fine season in Chicago.

Church Services

Ascension Episcopal Church. Services for the twentieth Sunday after Trinity. 8 a. m., Corporate Communion for the confirmation class of 1923.

The BROWN MOUSE. By HERBERT QUICK. (Copyright by The Bobbs-Merrill Company)

(Continued.) "An reckon paw'll come in," said Raymond blushing.

"He will if you say so," said Mr. Bronson. Raymond's hand went up amid a ripple of applause from the pupils...

"Unanimous!" said Mr. Bronson. "It is a vote! Now I'd like to hear a motion to perfect a permanent organization to build a creamery."

"I think so," said Jim, "with those men interested. Well, our study of creameries has given a great deal of language work, a good deal of arithmetic, some geography, and finally, it has broken all records for a single month's production."

"My mother has a delayed luncheon ready for the party," said Jennie to Jim. "Please come with us—please!"

"It certainly does," said Doctor Brathwayt. "I wouldn't have missed it under any consideration; but I'm certainly sorry for that creamery shark and his associates—to be routed by the Fifth Reader grade in farming!"

"What d'ye think of our schools?" asked the colonel. "Well," said Professor Gray, "it's not fair to judge. Colonel, on what must have been rather an extraordinary day in the school's history."

"It was more like a caucus than I've ever seen it, daddy," said Jennie, "and less like a school." "Don't you think," said Doctor Brathwayt, "that it was less like a school because it was more like life?"

"You're perfectly right, Doctor," said the colonel. "Jim's got too big for the district, and so we're going to enlarge the district, and the schoolhouse, and the teaching force, and the means of educational care generally."

"He's a native product," said the colonel. "But a wonder all the same. He's a Brown Mouse, you know." "A—?" Doctor Brathwayt was plainly astonished.

"I don't know about that," said the colonel. "The great opportunity for such a Brown Mouse may be in this very school, right now. He'd have as big an army right here as Socrates ever had."

"I don't know about that," said the colonel. "The great opportunity for such a Brown Mouse may be in this very school, right now. He'd have as big an army right here as Socrates ever had."

Production of Motor Cars in Big Volume Requires Vast Resources and Facilities

Top picture shows Plant 2 of The Studebaker Corporation, South Bend, where the Light-Six models are manufactured complete. The middle view shows Plant 1, also at South Bend, where the open and closed models are assembled.

STUDEBAKER'S production record of 110,540 cars for the first eight months of this year—surpassing the record for the entire year of 1922—has caused wide comment in motor and business circles.

In an effort to keep pace with demand, Studebaker produced, during the month of August, a total of 15,700 cars, which broke all records for a single month's production.

Such an achievement requires enormous physical and financial resources, an idea of which may be gained by the knowledge that Studebaker's total assets total \$90,000,000 including \$45,000,000 in plants.

Notable among these plants are the immense new factories at South Bend, Ind. in which the Light-Six models are manufactured complete.

They reflect the results of six years' exhaustive investigation and study by construction engineers skilled in the mechanical and electrical production men and are recognized as among the most modern and efficient manufacturing plants in the world.

One of the greatest advances the automobile industry has made has been in the direction of building motor cars of lighter weight without the sacrifice of strength.

The Studebaker Light-Six, a striking example of such a car, and every detail in connection with the arrangement of the various factory buildings, the selection and placing of machinery and stock has been inspired by the desire on the part of Studebaker experts to manufacture the Light-Six on the most economical and efficient basis, and

to give the purchaser the benefit of savings effected. One of the striking innovations and efficiency ideas in the new factory is to be found in the building where final assembly is carried on. Here an improvement on the familiar conveyor system used in automobile factories is employed.

Moving along on an "endless chain" behind each frame upon which a car is assembled is a carrier upon which the various units that go into the car are hung. These units, such as transmission, steering assembly, axles, etc., are stocked alongside the express chain and placed on the carriers as they go by.

When the last of these units is hung upon the carrier, the actual assembly of the complete car begins, under careful and expert supervision, an improvement upon the former method of long draws out, piecemeal assembly.

The sub-assembly building, where the various units themselves are assembled, is four stories high, of reinforced concrete construction, and has an interior bay open to the roof, the bay is covered with a glass skylight and is equipped with crane service and landing balconies on all floors for the quick and economical handling of materials.

The great building that houses the stamping department which represents an investment of \$4,000,000, is of steel-frame construction, with its roof and glass sides. Heavy metal-forming presses manufacture the frames, fenders, hoods and other stamped parts of the car, while huge cranes are utilized for the baking of the enameled plates.

Visitors who make the trip through the Light-Six factory always like to linger in this department, watch the interesting processes performed—veritable miracles they seem—and study the remarkable economies in operation, as well as the perfect accuracy and efficiency with which each task is completed.

Among many notable features of manufacture which illustrate the modernity of facilities of the Light-Six plants are the machine shops which represent an investment of \$7,000,000. Light-Six crankshafts and connecting rods are machined to very accurate standards on all surfaces, a practice that is largely responsible for the practical elimination of vibration in the Light-Six—a practice which is followed exclusively by Studebaker on cars at the Light-Six price.

Sixty-one precision operations are required on the crankshaft alone. The South Bend plants contain 4,576,000 square feet of floor space. They employ 12,000 persons. The South Bend forge plant cost \$4,000,000 and the power plants \$2,500,000 and the assembly and stock plants cost \$5,000,000. The new foundries now under construction will cost over \$2,000,000.

When the last of these units is hung upon the carrier, the actual assembly of the complete car begins, under careful and expert supervision, an improvement upon the former method of long draws out, piecemeal assembly.

CHAPTER XXII And So They Lived— And so it turned out quite as if it

(Continued in Next Issue.) Where We Heard It. "It's perfectly awful! Do you know what your son just called me? 'Fittily old nuisance'; you shouldn't let him be with the malds so much. The poor child repeats everything he hears, which is very annoying."—Chicago News.

THE MARKETS

LOCAL POTATO MARKET SLUMPS; WHEAT STEADY

Best Offerings on Spuds Bring Only 60 Cents; Beans Off 20 Cents Over Prices of Seven Days Ago

The local potato market has taken a slump, the best offerings only bringing 60 cents. The market has been steadily during the week, with a drop of 5 to 15 cents.

The local wheat market is where it was a week ago, no change during the week just passed, and the prospects are good for a raise.

The livestock market has held steady, with very little change, while the butterfat and egg prices have mounted, especially the latter, going up 7 cents during the week.

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and intended to cover only the average of prices. Where certain dealers for short periods offer more than the quoted price no effort is made to include such quotations.

Table with columns for Livestock, Poultry, and Eggs, listing various items and their prices.

IRREGULARITIES NOTED

'Spotty' Appearance Still Visible in Trade and Industry, Bradstreet's Says; Retailing Improves

New York, Oct. 12 (AP)—Bradstreet's Saturday publication noted irregularities in trade and industry are still visible, imparting a 'spotty' appearance to the general view.

Trade in primary lines in dry goods and especially in cotton goods is unquestionably quieter than some weeks ago, but nothing of consequence.

The frost of Friday night will soon put a stop to the supply of fresh tomatoes and beans.

Strawberries and red raspberries still find a place on the market and the supply is about equal to the demand.

The fall crop of head lettuce is finding a ready sale, and has put the California product out of the market for a while at least.

These prices are obtained daily at 4 o'clock in the afternoon and intended to cover only the average of prices.

These prices are obtained daily at 4 o'clock in the afternoon and intended to cover only the average of prices.

TRAIN RECORDS TO YELLOWSTONE ARE SURPASSED

Reports of National Park Officials Indicate 138,000 Persons Were Guests During the Past Summer Season

YELLOWSTONE PARK, Wyo., Oct. 10 (AP)—Travel records to Yellowstone national park were broken during the season which closed September 30, according to official travel statistics which have just been issued.

The total travel was 138,332 persons, compared with 98,223 in the season of 1922. Of the total only 975 persons arrived prior to the official opening of June 20.

The extraordinary number of visitors is attributed to the rapid development of independent automobile travel, especially prior to the official opening.

The Gardner Gateway, or northern entrance, proved the most popular for automobile tourists.

The automobile travel totals include 1,005 cars and 3,448 visitors who entered the park more than once during the season.

From Every State Visitors to the park came from every state in the Union, from Alaska and Philippine Islands and the Canal Zone.

Curiously there was no resident of Illinois among the visitors who entered the park by automobile.

GO-GO THAT SETTLES THE ARGUMENT

By GIBBS

LITVIN TELLS OWN STORY OF DEAL IN CARS

Garage Operator, on Trial for Receiving Stolen Automobile, Makes Sweeping Denial of Guilty Knowledge

Testifying in his own defense in district court here Friday, David Litvin, Twin Falls garage operator, on trial on a felony charge of receiving stolen automobiles, admitted that he had received from J. J. Hannah, self-confessed automobile thief, 12 Ford cars during the fall and winter of last year and last spring, but denied that he had any knowledge that they had been stolen until he was confronted with evidence of Hannah's guilt produced by the state at his own preliminary hearing.

He admitted that he had made conflicting statements to officers relative to his business dealings with Hannah, and explained that he had done so because he was afraid that he might be called upon to make restitution of the purchase price to his patrons who might have purchased stolen cars. He made the same statement in testimony to destroy what he said "my bill of sale given to him by Hannah, fragments of which were introduced in evidence by the defense."

The defense rested its case on the testimony only of Litvin and William Riggs, one of his former employes, who testified that the scraps of paper introduced in the evidence were bills of sale given by Hannah to Litvin.

On cross examination of Hannah, which was resumed by F. L. Stephan of defense counsel, at the opening of court proceedings Friday morning, Hannah admitted that he had never told Litvin in so many words that the cars were stolen. On one occasion, however, he said that he became alarmed when two men made a close examination of a car he had just delivered to Litvin and he told Litvin that "we must be cautious" because they were dealing in "hot cars." He explained under questioning by prosecuting attorney J. W. Taylor, that "hot cars" meant stolen cars.

Albert A. White, state agent of the department of justice, was called as a witness by the state to testify that Litvin, when first questioned by officers as to whether he knew Hannah denied that he did, and later admitted that he had bought two or three cars from him. The special agent also testified that Litvin told him that he had bills of sale for the cars he had received from Hannah, and later said that he had destroyed them.

Questioned by his own counsel as to difficulty in securing licenses for the cars delivered to him by Hannah, in regard to which G. W. Shroud, deputy county assessor testified for the state Thursday, Litvin testified that he had been informed by Hannah that Idaho laws provide for issuance of licenses to drivers rather than to cars, and it was because of this condition that the cars delivered by Hannah bore no license plates. Litvin admitted on cross examination that he had not imparted to the assessor's office the information he had said Hannah had given him on the subject.

Under cross examination Litvin testified that he had sold a car he had received from Hannah to Charles H. Shaff of Piler. Mr. Shaff was called as a witness by the state in rebuttal, and testified that Litvin had told him when he purchased the car that it had been purchased by Litvin from a man and his wife who were traveling from Kansas, who sought to dispose of it because of cold weather preventing further traveling.

P. O. Herriman, Twin Falls chief of police, who was called as a witness by the state in rebuttal, to refute Litvin's testimony that the police chief had told him Hannah had been arrested when he inquired as to whether Litvin knew Hannah and received a reply in the negative.

Judge Babcock denied a motion of defense attorneys to set aside the state verdict, and after an instructed verdict of acquittal.

Rock Creek Youth Faces Grave Charge

Arrest of William Van Eaton Follows Return of Coach from Flight to Canada

William Van Eaton, Rock Creek, was arrested Friday on a charge of having committed a statutory offense, preferred at the instance of his uncle, I. M. Van Eaton, of Rock Creek, father of Thelma Van Eaton, 14, who left Twin Falls September 26, in company with Gordon Greenfield in an automobile and was intercepted by federal customs officers at Laurier, Washington, near the Canadian border.

Charges against William Van Eaton were preferred after Greenfield and the girl were brought back to Twin Falls from Washington by Deputy Sheriff C. E. Jones. Greenfield was arrested and is held here on a charge to a grand jury in charge of stealing the automobile in which he and the girl made their flight from here a month ago. The complaint charging Greenfield with the alleged theft of the car was signed by L. M. Van Eaton, father of the girl.

Greenfield's arrest was effected about a week after his return from Twin Falls with the girl. He applied at Laurier for registration of the car preparing to crossing the border into Canada shortly after a message from the sheriff's office here asking that he be arrested was delivered to a customs officer. He declared that he had been persuaded by the girl to take her to Canada to join relatives there.

Greenfield resisted extradition proceedings and delayed his return here for nearly three weeks.

RANCHMAN CALLED TO TIME

Authorities Quote Law to Farmer Whose Loaded Best Wagon Was Left on State Highway

Placing of obstructions in the public highway constitutes a misdemeanor punishable by fine and jail sentence. Word to this effect was communicated by the sheriff's office Friday evening to a rancher east of town who, according to complaint brought to the sheriff's authorities, had left a loaded best wagon on the side of the state highway. The ranchman, whose name was not divulged by the authorities, promised to put lanterns on the wagon Friday night and gave his word that he would not offend again in this respect.

FUNDS ARE RECEIVED TO BUILD FOREST HIGHWAYS

Sum of \$60,000 to be Devoted to Improvement of Many Miles of Arizona's Undeveloped Roads

ALBUQUERQUE, N. M., Oct. 11 (AP)—Approximately \$60,000, New Mexico's and Arizona's share of the total revenue of National Forest District No. 2, was received here recently by the local forest reserve office. The funds just received, according to J. C. Kircher, assistant district forester, will be largely used for roads and trails in the forest area that will link up isolated communities. Each forest district receives one-tenth of the total revenue received to be used for the maintenance and creation of roads in the national forest area, Mr. Kircher explained. States receive 25 per cent of the revenue from national forest districts. Mr. Kircher says, and that the total received this year by New Mexico totals nearly \$40,000.

TO ENFORCE VACCINATION

Case of Family of Ten Children Brings Ruling from Judge Ordering Compulsory Protective Measures

LA JUNTA, Colo., Oct. 10 (AP)—A ruling that compulsory smallpox vaccination can be rigidly enforced and that performance of these requirements involves upon the parent, who handed down recently here by the county court when the father of 10 children was placed under bond to see that the requirements were met. The ruling was brought by the board of education at Rocky Ford against George Jensen and wife when they refused to allow their children to submit to vaccination. The board will now produce no substantial evidence to prove the children had been properly vaccinated. The Rocky Ford board of health placed a smallpox in 1917, requiring the board of health to compel all children to be vaccinated.

Wages Boze Charge, Woman Is Acquitted

COLORADO SPRINGS, Colo., Oct. 11 (AP)—Because she claimed to have been wrongfully paid wages for work she did not do, Mrs. Murray was arrested by the Colorado Springs police department. Mrs. Murray, police say, was caught in the act of drinking a pint of whiskey and was arrested. However, at her trial she declared that she was selling the whiskey to her neighbor, and her husband had appropriated the rent money to purchase the whiskey.

CEREMONY AT OPENING OF \$750,000 STATION

PHOENIX, Ariz., Oct. 10 (AP)—The opening of the new \$750,000 union station here recently was marked by a grand ceremony and celebration. The new station, said to be one of the finest in the southwest, was placed in service with the arrival of a special train from Phoenix and other participating organizations from those places to participate in the formal opening. High officials of the Santa Fe, Arizona Eastern and Southern Pacific railroads were present and expressed hopes for the future growth of Phoenix and the surrounding towns near trade territory.

INDIANS ORANGE PLAINS

RAMAH, N. M., Oct. 10 (AP)—Attributing the recent eclipse to displeasure of the Great Spirit, Navajo Indians assembled here to hold a medicine dance to appease a bogon, abandoned the ceremony on advice of their medicine men and returned to their homes.

Famous English Clock

Westminster abbey clock adheres to the ancient custom of marking the time with a single hand. It has been in the northwestern tower for 150 years—though its works were reconstructed half a century ago.

Noble Achievement

To use the world is nobler than to abuse it. To work is nobler than to be idle. To be kind is nobler than to be cruel. To be honest is nobler than to be dishonest. To be brave is nobler than to be cowardly. To be true is nobler than to be false. To be just is nobler than to be unjust. To be merciful is nobler than to be merciless. To be patient is nobler than to be impatient. To be gentle is nobler than to be harsh. To be kind is nobler than to be cruel. To be honest is nobler than to be dishonest. To be brave is nobler than to be cowardly. To be true is nobler than to be false. To be just is nobler than to be unjust. To be merciful is nobler than to be merciless. To be patient is nobler than to be impatient. To be gentle is nobler than to be harsh.

Linoleum Square Brand... RUGS, MATTERS, REDDING, TRUNKS, BAGGERS, SUIT CASES... A. H. Vincent Company

Personal

Here from North Side—Mr. and Mrs. A. J. Mye were among the visitors in Twin Falls Friday from their home on the north side.

Leaves for Visit—Mrs. William Lytle of Hollister left Thursday evening for Los Angeles, where she will spend two months visiting her sister.

Here for Visit—Mr. and Mrs. F. L. Culbertson of Grand Island, Neb., are visiting at the home of his brother, George D. Culbertson, southeast of town. They made the trip overland.

Power Men Visit—A group of Idaho Power company officials, headed by W. B. Putnam, president of the company, left Friday morning for American Falls after a brief visit here.

To Visit Nicasa Here—Mrs. Robert Fullerton of Webster City, Iowa, will arrive Saturday to visit with her niece, Mrs. Earl Felt and Miss Edith Dyer, for a few days. Mrs. Fullerton is en route to Portland, Ore.

Visiting Friends Here—Joe Putnam, former resident and high school student here, returned Friday to Twin Falls for a brief visit from California, where he is employed as a salesman for a concern dealing in surveyors' instruments.

Confer at Luncheon—Members of the Twin Falls Boy Scout council conferred with W. T. Scully, president, and other members of the Rotary club, at a luncheon meeting Friday at the Regency hotel relative to activities of the scouts here during the coming year.

Take Oakland Agency—W. T. Seal and J. W. Reese of the Auto Wrecking company, 326 Main avenue north, have taken the agency here for the Oakland Six automobile. It was announced Friday. Mr. Reese is now in Salt Lake and will make the return trip overlaid driving a new car of this make.

To Represent Power Users—Captain E. M. Sweeney left Friday by motor for Boise, where he will appear Monday as an attorney for the Southern Idaho Power Association in a hearing before the state public utilities commission on the Idaho Power company's application for approval of an increase in the valuation of its property.

Returns from Visit—Mr. and Mrs. Frank S. Bell returned Wednesday from a visit with relatives at Cashmere, Wash., after going to Seattle, where Mrs. Bell attended the supreme convention of the P. E. O. sisterhood. They were accompanied by Mrs. J. A. Wood and daughter, Mrs. Dean, who visited at Tappah, Wash. The journey was made by automobile and the party was absent over three weeks.

Returns from East—Mrs. Arthur K. Seaver returned Friday from Rickerford, Vermont, where she was called by the serious illness of her brother, who has since completely recovered. On her way home she visited with her son Cedric, who is studying the violin in Chicago. An aunt who she also visited in Chicago suffered a stroke of paralysis soon after Mrs. Seaver's arrival and lived only a short time. Mrs. Seaver has been in the east for several weeks, having left Twin Falls on the first of August.

Escapes Holocaust by Few Hours Margin

Ernest Reed, Member of Liner's Orchestra, Played in Tokio Just Before Earthquake

Less than 24 hours before the earthquake that brought havoc and widespread suffering to Japan, Ernest Reed, son of Mr. and Mrs. T. A. Reed of Twin Falls, had played in Tokio as a member of an orchestra on the steamship President Madison.

The story of his narrow escape from the holocaust was told Friday by Mr. Reed on his return here to visit his parents.

The vessel on which Mr. Reed and other members of the orchestra made a several months cruise through the Orient last summer and fall left Tokio just a few hours before the tremor, and was lifted by giant waves that it produced.

AT THE HOTELS

LODGES RECOGNIZED

SAN FRANCISCO, Oct. 12 (AP)—The California grand lodge, free and accepted Masons, Thursday voted to recognize the grand lodges of Tasmania, Panama, Chile, Ecuador, Peru, Honduras, Brazil and Guatemala.

Temperature Falls Below Freezing Point

Temperature, for the first time this season, dropped below the freezing point during the 24-hour period ending at 6 o'clock Friday evening, according to records of the government weather observer's station here, showing a minimum for that period of 31 degrees. Low mark of the preceding day was touched at the freezing point, 32 degrees. High temperature Friday was recorded at 56 degrees, a decline of two points.

Absence of rain for the second successive day following the six-day wet spell contributed to the satisfaction of southern Idaho residents generally.

W. C. T. U. CONVENTION TO BRING MANY HERE

Twin Falls to Be Host to Delegates and Visitors at Annual Meeting of South Idaho Association

Delegates representing units of the organization throughout southern Idaho are expected to attend three-day sessions of the annual convention of the Western Idaho District women's Christian Temperance union, opening Wednesday afternoon of next week and continuing until the following Friday.

Delegates and convention visitors will be welcomed to Twin Falls at Wednesday evening's session by Mayor Elmer L. Hodgson, G. C. Mitchell, superintendent of schools, and Dr. Emma C. Crossland, representing the Business and Professional Women's club and the Twentieth Century club. Thereafter a reading contest will be held in which eight children will participate, and a silver medal will be awarded.

Thursday evening sessions are to be addressed by the Rev. C. E. Wining of the Methodist church, and the Rev. A. G. Pearson of the Presbyterian church.

Officers for the coming year will be elected Friday.

Day sessions will be held in the Episcopal church, and evening sessions in the Methodist church.

CHOLERA REDUCES HERD

Burley District Swine-Grower Loses Almost One-Third of Animals from Ravages of Dread Malady

Only 21 out of a herd of 30 swine survived ravages of hog cholera, reported Friday on the ranch of W. L. Heistler, three miles south of Burley, by Dr. W. A. Sullivan, inspector in charge of federal bureau of animal industry activities in Idaho, and Dr. Gilmore of Burley, deputy state veterinarian. Three of the swine had died before the arrival of the veterinarians; eight were found, too sick to vaccinate, and the remaining 24 were inoculated. The outbreak was traced to recurrence of an epidemic in that vicinity about a year ago.

There has been no outbreak of hog cholera in Twin Falls county this year, Dr. Sullivan stated Friday evening.
