WALTON IS ORDERED TO QUIT OFFICE

Oklahoma Court of Impeachment Finds Governor Guilty on 11 Charges; Vote 41 to 0; New Trial Is Denied

OKLAHOMA CITY, Okla., Nov. 19 (AP)—Gov. Walton fifth governor of Oklahoma, was removed from office today by unanimous vote of the state senate court of impeachment after his trial on charges of corruption in office, neglect of duty, moral turpitude, and general incompetence.

A formal verdict ordering the removal was returned after the executive had been found guilty on 11 of the 16 charges presented. The vote was 41 to 0.

Six of the original 22 charges constituting the impeachment bill were dismissed by order of the court. The court by a standing vote denied a motion for a new trial which Governor Walton's counsel filed immediately after the verdict was announced.

No Dismissing Vote

The governor's removal, although not formally ordered until after a verdict had been returned on each charge, was made effective shortly before 4 o'clock when the court without a dissenting vote found him guilty of abusing his pardon and parole authority.

Forty-one senators, lacking only one of the total membership of the body, voted for conviction in the elementary charge, the 22nd to be voted upon. Senator Jack Baker, who has voted consistently for the governor's favor throughout the 16 days of the trial, was absent when the final roll was called. The articles of impeachment were filed by the lower house of the state legislature which, less than two months ago, the executive at the height of his power had dispersed by military force.

MID-WEST STATE TO CAST VOTES

County Proposal Conventions to Be Held in South Dakota Early in December

SIOUX FALLS, S. D., Nov. 19 (AP)—Presidential straw polls in the air in South Dakota tonight, ready to be given direction tomorrow by the political machine unleashed in some 500 county proposal conventions scheduled to meet to select delegates to the state proposal conventions at Pierre, December 4.

The republican, democratic and farmer-labor parties will have county conventions tomorrow in each of the fifty-nine counties of the state to select three delegates to meet in concert to the state convention. In the instructions which these county delegates are given will be discerned the sentiment of the state toward presidential aspirants.

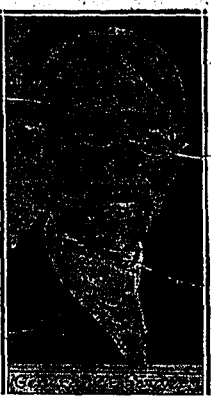

Germans in New Crisis; Too Poor to Pay for Beer

Saloons and Roadhouses Are Empty Since Decline of the Mark Forces Prices Beyond Average Man's Purse

BERLIN, Nov. 19 (AP)—Saloons and roadhouses are the loneliest places in Germany since the decline of the mark has forced the price of beer up to a point which is beyond the conception and purse of the average rural German.

When the price of a stein of beer rose to one billion marks or more and continued its rise, the average German lost his thirst. He could not finance it beyond that point. Beer prices and the price of a row of drinks are lower in the rural districts than in Berlin and other great centers, but they are not low enough to tempt the agricultural population with its small carrying power.

BLAMES SAWYER FOR VET. BUREAU FAILURE

"POLITICS and Sawyer" were blamed by Colonel Charles E. Forbes, former head of the Veterans' Bureau, for the failure of the bureau to carry on its work efficiently under Forbes' direction. Colonel Forbes swore Brigadier-General Charles E. Sawyer, of Maxton, O., President Harding's personal physician, had so interfered with the bureau that its efficiency was impaired.

LEADERS AGREE RHINE LOST TO CENTRAL POWER

Stresemann Regime Now Seeks Means of Retaining Influence Over Frontier Area; Understanding with France Seen

BERLIN, Nov. 19 (AP)—Chancellor Stresemann and the Reichstag committee of relations today devoted six hours to a full and frank discussion of the situation in the Rhineland and the Ruhr and then adjourned without arriving at any definite conclusion.

Party leaders and representatives from the occupied areas, invited as special guests, took part in today's debate, the chancellor having taken the position that the issues must be discussed with local elements and the committee on foreign relations was a competent body in that the impending solution was closely wrapped up in Germany's foreign relations.

The concern in the ranks of all the parties appears to be that the Rhineland and the Ruhr are lost as far as Germany's ability to assert and maintain complete sovereign rights over both the areas are concerned, and that ways and means must be devised to forestall their complete political defeat.

THIRD PARTY TO TALK POLITICS

Closer Unity in Coming Campaign to Be Topic at Conference in Omaha Tuesday

OMAHA, Nov. 19 (AP)—Whether there can be a closer unity of independent progressives in a third party movement at the rapidly approaching 1924 political campaign may be decided here at a conference of progressive elements scheduled to start tomorrow. Amalgamation of various progressive elements is the object of the meeting.

The conference, according to Roy M. Harrop of Omaha, temporary chairman of the progressive party which entered a line of candidates in the last campaign in Nebraska in 1922, is looking toward Henry Ford, Detroit manufacturer, as the standard bearer of a third party, but should he decline to accept nomination for the presidency the progressives will turn to someone else.

Robert E. Plaster of Dearborn, Mich., representing the Ford-for-president club of that place, will be among those attending the conference, Mr. Harrop said today. Others he said will include Robert F. Pettigrew of Sioux Falls, S. D., former Populist United States senator from South Dakota; E. A. Hyde of Alva, Okla., vice president of the Farmers' Union of Oklahoma; G. F. Stevens of Denver, chairman of the Farmer-Labor party of Colorado, and J. H. Hopkins of New York City, chairman of the committee of 48.

ALLIED COUNCIL AVOIDS BREAK ON VITAL ISSUE

Compromise Text of Note to Germany Is Patched Up and Submitted to Governments; Is Ratified by Belgium

PARIS, Nov. 19 (AP)—The allies after having declared in various ways their determination to disagree on the enforcement of the allied military control in Germany, hesitated when the moment came for the break today and in a final effort to avoid rupture, patched up a compromise text of a note to Germany which was submitted to the various governments.

The French cabinet approved the course taken, but Great Britain and Belgium had not been heard from until the council of ambassadors met at six o'clock for its evening session. Hence the crisis goes over until tomorrow.

The gravity of the decision the ambassadors were called upon to take was reflected in the extraordinary precautions taken to surround the deliberations of the council with secrecy. The atmosphere around the foreign office generally was that of impending trouble. Ambassador Herrick, one of the first to arrive and the first to leave, was also the first to announce that there would be no break today and the Anglo-Saxon press representatives naturally had the first news. There were general expressions of relief when the news became known, although in the absence of details there still was considerable apprehension.

The compromise reached, it was announced later, followed along the suggestions discussed before the meeting of the council. This was that the ambassadors send Germany a protest against the lack of facilities for the military control mission but without mentioning what the allies might do in case Germany refused to give the requested assistance.

The ambassadors chose two alternative texts, which they proposed to submit to their governments for approval.

FLAYS SYSTEM USED IN COURT

Detroit Attorney Classes Law Practice as Gambling Game; Raps Excess "Red Tape"

CHICAGO, Nov. 19 (AP)—Practicing law in the Illinois circuit is a gambling game played between two sets of lawyers with a judge as umpire, James Hannibal Clancey, an attorney of Detroit, declared here today before the Plann club of Chicago.

"A man with a good lawyer and a poor case wins," he said, "while the man with a good case and a poor lawyer loses—and this is the only country in the world where that can take place." Mr. Clancey declared that in England every other man tried for murder is found guilty and hanged, while in this country scarcely one defendant in 200 receives the extreme penalty.

Basic Laws Obsolete

Although the United States originally took its basic laws from England, not one of these laws now is in force in England, he said, adding that "England repudiated that system of pleadings, root and branch, in 1875."

"Fully one-third of the business failures of the country are due to the system of pleading used in the courts and every year in the country can be traced directly to loopholes in the law which are the result of the system of pleadings adopted by the courts."

SHEPHERD IS SELECTED TO HEAD RECLAMATION ORGANIZATION IN WEST

JEROME MAN NAMED BY DELEGATES AT ANNUAL CONVENTION SESSIONS

SALT LAKE CITY, Nov. 19 (AP)—E. E. Shepherd, Jerome, Idaho, general manager of the Twin Falls North Side project for the bondholders, is the new head of the Western States Reclamation association, elected today at the annual convention of that body held in this city. Whitney L. Bolck, attorney of Portland, Oregon, is the vice president. Mr. Shepherd will name the secretary and treasurer of the association with the approval of the executive committee, members of which will be elected by the delegates at the thirteen western states of the association. The convention will conclude with the discussion of the report of the resolution committee tomorrow, following which there will be a meeting of the executive committee.

Mr. Shepherd succeeds former governor D. W. Davis of Idaho, now commissioner of reclamation of the United States government.

NEW SENSATION MARKS HEARING AT WASHINGTON

Favoritism in Handling Case Holding Interest of Solons Is Alleged in Forbes Case; Tale of Kidnaping Is Told

WASHINGTON, Nov. 19 (AP)—A disclosure that there is a special service section in the Veterans' Bureau which handles cases in which members of congress are interested and in charge of Representative Johnson, republican, Washington, and that the Bureau was advised by witnesses from an insane asylum in his state, marked the hearings today before the senate veterans' committee.

Other developments included a decision not to hear further witnesses in defense of former Director Charles E. Forbes, because of lack of time and the substantiation by William G. Lipscomb of Washington of the portion of the affidavit of Frank H. Chambers, Jr., of San Diego, Cal., that a "graft" proposal had been made in connection with a proposition to lease Chambers' Virginia farm to the veterans' bureau.

Representative Johnson told the committee that in removing Charles Kaasvaga from his state to a Federal hospital for treatment, the bureau had acted in defiance of a restraining order issued by the state courts. Dr. S. O. Smith, one of the committee investigators, testified concerning Kaasvaga's case on November 5 and Mr. Johnson said he appeared to protest against that testimony and to object to the charges of the bureau, "the manufacturing of evidence" before the committee, apparently to be used in a court action, at Wilkes-Barre, Pa., in the veterans' case.

Croker Wins Suit For Division of Father's Estate

Sum of \$160,000 Involved in Action Brought by Son of Late Tammany Hall Leader; Dublin Case Dismissed

NEW YORK, Nov. 19 (AP)—A verdict in favor of Richard Croker, Jr., was returned late today after 30 minutes deliberation by the jury which heard the action he brought to contest the will of his father, late Tammany leader, which left the estate to the widow, Mrs. Bula Croker.

Mr. Croker made for \$160,000 which he averred his father agreed to divide share for Mrs. Bula Croker's sister, Ethel, and his brother, Howard, conditional on Richard's holding the office of sheriff in the state of New York.

# NAVAL OFFICER AGAIN RELATES SCENE AT WRECK

## Lieutenant Herzinger Tells of Bravery and Enthusiasm of Man in Command of Ship Lost on Rocks at Honda

SAN DIEGO, Nov. 19 (AP)—Testimony indicating that Commander William L. Calhoun, commanding officer of the destroyer Young and fifth defendant to go on trial before a naval general court martial upon charges growing out of the Honda disaster, was familiar with and interested in the navigation of his vessel was introduced by the prosecution today with Lieutenant Eugene Hersinger on the witness stand.

Hersinger, executive and navigating officer on the Young, was asked by the judge advocate if Calhoun was familiar with navigation.

"Yes, he was," said the witness. "He gave such close attention to the navigation that he at one time asked me if this attitude on his part 'cramped my eye.' I told him that it did not, and that I appreciated and enjoyed the interest shown."

The story of the wreck of the Young probably the most dramatic and the most tragic of those told from the witness stand at previous court martial, was heard from the lips of Hersinger. The witness stated that the Young was in the water less than two minutes and that 20 lives were lost. The witness told of the efforts to save by means of lines to the Chancey and of the horror of the first realization that many lives had been lost. The first thought in the mind of the witness was that half of the crew were gone, he told the court.

Hersinger stated that he told Calhoun shortly after the crash that the losses were great and that the officer replied: "My God, I know; but we will not discuss it now."

In closing his direct testimony the witness said: "Orders were obeyed quickly and quietly. There was no confusion of any kind."

Lieutenant Commander Laurence Wild, squadron's communication officer, eleventh squadron, was the first witness called after charges of negligence were read against Calhoun and the accused had entered a plea of not guilty.

# Secret Room Found on Ship Formerly Owned by Germany

## Pictures of ex-Kaiser Scattered About Hidden Barber Shop on Leviathan

SOUTHAMPTON, Eng., Nov. 19 (AP)—Behind a panel in the main hall of the Leviathan, which arrived Saturday, one of the liner's stowaways discovered on her last trip a fully equipped barber shop in which were scattered a number of picture postcards of Kaiser Wilhelm, the crown prince, and other former royal personages of Germany.

One of the Leviathan's officers expressed surprise that the American naval men had never discovered the secret room when they thoroughly searched the liner before using her as a war transport.

# PRODUCES MUCH BUTTER

## Exceptional Records Credited to Idaho Segis Ormsby Girl, of State University Holstein Herd

UNIVERSITY OF IDAHO, Moscow, Nov. 19—An exceptional record for butter production was recently made by Idaho Segis Ormsby Girl of the University of Idaho Holstein herd, according to a statement issued by the advanced registry office of the Holstein-Friesian association of America. This record is another addition to the long list of outstanding records held by the university's Holstein herd.

At the age of five years and four months Idaho Segis Ormsby Girl produced 647 pounds of milk containing 27,834 pounds of butterfat, equivalent to 34.79 pounds of butter. This record was for the seven-day test, while her thirty-day record is 2685.5 pounds of milk containing 115,332 pounds of butterfat, equal to 144.16 pounds of butter.

# SEEK TO SOLVE TRAFFIC ISSUE

## Decentralization of Car Service One of Objectives of Railway Association

POCATELLO, Nov. 19 (AP)—Representatives of the car service division of the American Railway association, officers of the various railroads in the Idaho division and connecting roads, and officers of this district of the association's regional board, with representatives of its different standing committees, will gather here November 20 for a meeting of the central western regional advisory board of the association. The public will be invited to attend.

An attempt is being made to decentralize the problems of car service and aid shippers, it is announced.

The central western division comprises Colorado, Nebraska, Wyoming, Utah and Idaho. Each state has a vice chairman and secretary, and representatives on the regional board. R. E. Shepherd of Jerome is vice chairman; C. J. Callahan, secretary of the public utilities commission, is the general secretary, and Will H. Gibson is representative of the public utilities commission for Idaho.

Mr. Shepherd, who was instrumental with Mr. Gibson in securing the meeting for Pocatello, in a recent statement said:

"There are special problems in Idaho, growing out of the use of refrigerator cars. This state is a large producer of fruits and vegetables, and there is a special committee having to deal with car service for potatoes alone.

**Room for Improvement**  
"While much was accomplished this fall in car service, there is still much room for improvement, and it will be very helpful to those responsible for the movement of refrigerator cars to

meet in conference with the shipper who requires refrigerator service. There are in the United States about 100,000 refrigerator cars. There is something more than 25 per cent of these cars owned by the Pacific Fruit Express company. It is necessary to move a large per cent of the fruit and vegetables of California, Oregon, Washington, Utah, Colorado, Nebraska and Idaho with these cars. Idaho alone this year will have more than 25,000 carloads of fruit, vegetables and potatoes. It will readily be seen how important it is that these cars be handled to the best advantage.

"The meeting at Pocatello will be the first held west of the Rocky mountains. It should be understood that this organization has nothing to do directly with freight rates, except that the proper handling of cars will increase carrying power, by affording more frequent loading, and this in turn will be important in the question of later adjustments."

# GOVERNOR WOOD NOMINATES SANTIAGO FOR MAYOR'S JOB

MANILA, Nov. 19 (AP)—Governor General Leonard Wood has sent to the Philippine senate the nomination of Gerona Santiago as mayor of Manila. Santiago, who is president of the municipal council of Manila, was appointed acting mayor of Manila last Saturday.

At the time of the appointment it was stated that Santiago could serve indefinitely without being confirmed by the senate. The senate, however, adopted a resolution tonight asking the governor general by what authority he appointed Santiago acting mayor.

Vice-President of American Committee Says Competition to Be Keenest Ever; Announces Drive for \$350,000

DETROIT, Nov. 19 (AP)—America's athletic supremacy never has been so seriously challenged as by the "tremendous preparations" all Europe is making for the eighth Olympiad, Major General Henry T. Allen, vice president of the American Olympic committee, told delegates to the National Amateur Athletic union convention at their annual dinner here tonight. His address was featured by announcement of a country-wide popular subscription campaign to raise \$350,000 to defray the expenses of America's representation in the Olympic games in Paris next July.

"Behind all of this sport is the question of national physical culture in which the entire country is interested," General Allen said. "Statistics of the selective draft, in showing such a great percentage of our youth who were incapable of carrying a knapsack and rifle under war conditions were an amazing surprise. The question of sports and participation in national and international contests is therefore a patriotic one. "The games of the eighth Olympiad will be the most hotly contested of any ever held in this historic competition. The prowess of American athletes will be tested as never before. It therefore becomes a matter of American pride to leave nothing undone to encourage the best selection of contestants and provide proper transportation and conditions for them."

It was announced at the dinner that the steamship America will be chartered for the use of the American athletes. The chateau and grounds of Prince Murat have been leased, General Allen said, for use of the athletes from this country.

Defeated Gridders Are Loaned Player by Their Opponents

Banks of Cedar Rapids Eleven Depleted So Waterloo Coach Gives Them Lineman

WATERLOO, Iowa, Nov. 19 (AP)—Football coaches striving to outdo each other in grilliron courtesy were given a new example yesterday. The Cedar Rapids Knights of Columbus team came to Waterloo to meet the suburban Waterloo Athletic club eleven and the home team rolled through the opposing line with such devastating effect that the Cedar Rapids coach found himself without enough replacement troops to supplant the wounded. As a last resort he appealed to the Waterloo coach, who loaned him a lineman from the Waterloo team to bolster his crippled forward wall. Waterloo won 32 to 0.

BATTLING SIKI TO MAKE DEBUT

Conqueror of Carpentier and Kid Norfolk to Mix in Fifteen-Round Match

NEW YORK, Nov. 19 (AP)—Battling Siki, the Senegalese who wrestled the title of world's light heavyweight champion from Georges Carpentier, makes his American ring debut tomorrow night at Madison Square Garden in a 15-round match with Kid Norfolk. Both expect to make 175 pounds by tomorrow afternoon and the victor will lay claim to the negro light heavyweight championship. Siki has undergone strenuous training for the match. Siki's appearance has caused considerable interest, but critics say that he is Norfolk, a hard-hitting negro the Senegalese will be put to a severe test. It will be the battler's first important bout since he lost the light heavyweight title on points to Mike McTigue at Dublin last St. Patrick's day.

NEWS BOWLERS DEFEAT TROJANS

Printers' Team, in First Win of League Season, Takes Former Champions to Cleaning

The News bowlers hit their stride Monday and defeated the Trojan team...

The first game went to the News when every member of the team with the exception of Self started out with a mark above 160...

Score sheet table with columns for Name, Total, and Points. Includes names like Self, Asbury, Pinkie, Whitzell, Thompson.

STRIKES AND SPARES

Well! Well! never can tell, can you? Seem as though the printers were going to get started after all...

Among the recent arrivals on the news is Walter "Slick" Seltzer...

Phil King dropped from his brilliant showing last week and failed to even go 400 in Monday's melee.

Self played a varied style of attack; you never could tell just what was going to happen.

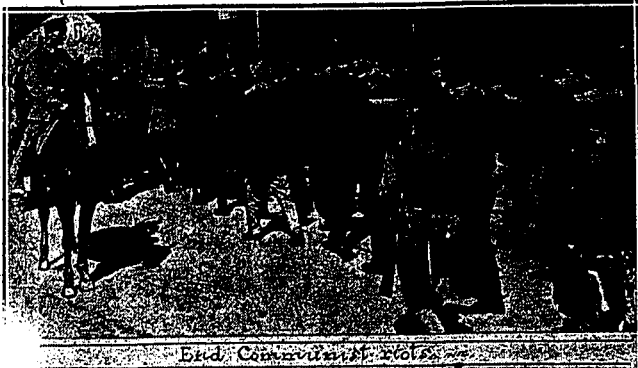

The rest of the printers set up a good steady pace that is high enough to mark them as possible candidates for a place near the head if they are able to keep it up.

While you couldn't exactly say Tritt flattered, yet it must be admitted that he has done better. So has Cubit...

At any rate neither team had a substitute to credit the victory to and that is something. The News would have been embarrassed with one last night. Indeed, the day of the "dummy" as a means of winning is gone.

JUNIOR GRIDIRON TEAM TO INVADE NORTH SIDE

Game with Jerome Eleven Scheduled for Twin Falls Cubs, Strengthened by New Recruits

Coach Anderson will take his young Bruins across the river to invade Jerome Wednesday afternoon, according to present plans.

Since the two teams met before on Lincoln field the Cubs have been made stronger by the addition of Dunn, Owens and Vance, which ought to make a big difference in the score, even though the Northsiders also report big improvements.

"If the Rhineland and the occupied Ruhr sector are to pass out of our control we must devise means which will enable them to remain with Germany," said one of the parliamentary leaders.

Stresemann Offers Suggestion

Chancellor Stresemann advocated "more elbow room" for the occupied zones, permitting the inference that the government was fully reconciled to the plan of allowing the occupied areas to work out their own salvation, even to the extent of permitting the creation of a local parliament or legislative governing body to which the central government would concede a restricted administration autonomy and upon which would fall the responsibility of negotiating with the occupying powers.

The official attitude, however, appears to offer a course which will lead to a tolerable understanding with France.

World's Coal Output

The output of the principal coal mining nations, lignite and coal being combined, was, in metric tons: United States, 417,940,000; Germany, 288,411,725; United Kingdom, 258,801,780; France, 319,617; Poland, 23,830,000; Belgium, 21,234,170; Russia, 10,000,000; Japan, 20,000,000, and Canada, 13,048,782.

became governor of the state. Trapp has been lieutenant governor during four administrations and has been acting governor since October 23, when the senate suspended Governor Walton following the filing of the impeachment charges against him.

The vote on the pardon and parole charge which determined the removal followed with surprising suddenness after the examination of the last witness, E. A. Miziani, president of the Maryland Reformatory, who had barely left the stand when W. E. Darley, chairman of the house board of managers which conducted the prosecution, announced that the evidence was concluded.

Those on which the governor was convicted in the order of voting were: That he exceeded his pardon and parole powers in order to permit his friends to collect large fees. Vote 41 to 0.

That he placed his personal chauffeur on the state health department payroll. Vote 28 to 13.

That he evaded the state payroll by employing many persons to whom he owed political debts. Vote 38 to 3.

That he prevented the assembling of a grand jury by the use of military measures. Vote 39 to 1.

That he suspended the right to the writ of habeas corpus during the period of martial law in Oklahoma. Vote 40 to 1.

That he issued a \$10,000 deficiency warrant for the state health department in violation of law when no deficiency in funds existed. Vote 37 to 4.

That he issued a deficiency certificate for \$4,000 for a state negro orphan's home in order to provide salaries for two negro barbers whom he ordered placed on the payroll of the institution. Vote 40 to 1.

That he attempted to prevent a special state election on October 2. Vote 37 to 3.

That he exceeded the legal limit of election expenses in obtaining nomination to office. Vote 38 to 13.

That he solicited gifts and contributions for expenses of his office after he was elected. Vote 41 to 0 (unanimous).

That he is generally incompetent. Vote 36 to 4.

The charges on which he was acquitted were: That he used his official position to obtain personal property and credit. Vote 23 to 18. (Lacking the necessary two-thirds majority to convict.)

That he received a \$6,000 bribe to approve an appropriation for a state business academy. Vote 20 to 14.

That he refused to permit the execution of the last pending capital punishment. Vote 11 to 30.

That he illegally annexed large numbers of known criminals and irresponsible persons as state police. Vote 21 to 17.

That he illegally named Charles H. Baskin, a member of the state legislature, as a district judge. Vote 12 to 20.

# IDAHO COW SETS HIGHEST RECORD

Idaho Segis Lily, at State University, is Now Greatest Producer in Her Class

UNIVERSITY OF IDAHO, Moscow, Nov. 19.—With a production record of 30,016.2 pounds of milk and 953.21 pounds of butterfat, equivalent to 17.39 pounds of butter, the Idaho Segis Lily, becomes the highest record cow for milk production owned by a state agricultural institution. Official announcement of this achievement has been received from the Holstein-Friesian Association of America, by Professor F. W. Atkesson, head of the university dairy department.

This record also makes Idaho Segis Lily the highest record senior five-year-old of any breed owned by a state institution, and with it she becomes the champion milk cow of Idaho, displacing by our Holstein margin Idaho Violet Poch Ormsby, also a University of Idaho cow, who has held the place of honor for some time with a record of 26,812.5 pounds of milk. She also displaces with this new record Idaho Favorite, another University of Idaho cow, as the highest milk and butterfat production for senior four-year-olds.

By this production Idaho Segis Lily gives the University of Idaho three out of the seven class leaders for all breeds among college owned cows and also the second highest in butterfat production in Idaho for any age or breed.

"The most pleasing thing to me about this record is the fact that Idaho Segis Lily is the result of three generations of breeding on the University of Idaho farm," said Professor Atkesson. "It shows what can be accomplished in a comparatively short period of years, as our Holstein herd was established in 1911. Idaho Segis Lily is the fifth cow during the past year to produce a thousand pounds of butter in a year and all were bred on the farm."

## Presses Continue to Produce Floods of Money for Germany

Two Million Trillion Marks is Figure Estimated for Total Output in Single Week

BERLIN, Nov. 19. (AP)—Germany's money presses contributed two million-trillion marks in round numbers to the nation's epizooty for the week ended October 31, as shown by the Bank of Germany's statement. The amount is expressed by 19 digits—2,000,000,000,000,000,000—the figures thus for the first time reaching the quintillion stage. The reichsbank holdings of discounted treasury bills and private checks and drafts at the end of October were 7,500,000,000,000,000.
