GRAHAM QUITS CONTEST FOR HOUSE LEADER

Believed Sufficient Votes Lacking for Election to Leadership Job; Western Men Billed for Steering Committee Posts

WASHINGTON, Nov. 25 (AP)—Representative Graham of Illinois withdrew today from the race for republican leadership of the house, leaving Representative Longworth of Ohio as the only avowed candidate. Despite this action, republican leaders still face the possibility that the progressive bloc, headed by Representative Nelson of Wisconsin, might seek to prevent organization of the house in the first week of the session. Demands for modification of the rules and changes in committee assignments. As the situation developed today at the other end of the capitol it appeared that the progressive bloc in the senate had the power to hold up organization of that body if they desire. So far the progressive bloc is known, however, their course of action has not yet been determined upon.

Cites Provisions

Representative Graham, in announcing his retirement from the leadership contest, said he did so under "an expressed understanding that the majority of the republican steering committee during the sixty-eight congress will be composed of representatives of agricultural communities and men who have at heart the interest of agriculture generally as well as other interests of the country."

"A legislative program of the house," he said, "is determined by the steering committee of the majority, composed of seven members. If a majority of this committee are members who have at heart the welfare of the agricultural interests of the country and is fairly representative of middle west and western portions of the country, then I believe an organization of the house with Mr. Gillet as speaker and Mr. Longworth as leader will be representative of the varied interests of the whole country."

Votes Lacking

Mr. Graham also asserted that it had become evident to him that he would not have enough votes to be elected leader in the party conference Saturday and that he had decided "in the interest of party unity and good feeling" to withdraw from the convention test.

Republican house leaders predicted that Representatives Darrow, Pennsylvania; Sanders, Indiana, and Anderson, Minnesota, would be returned as members of the steering committee, assignments to which are made by the republican committee on committees. Representative Magee, New York, is expected to replace Representative Dunn, New York, who has retired from congress. The elevation of Mr. Longworth to the leadership would make him ex-officio chairman.

Former Leader of Rum Gang Plans to Build Mansion

'Terry' Druggan Made Enough Money from Unlawful Trade to Spend \$50,000 on New Country Place

CHICAGO, Nov. 25 (AP)—Terrance Druggan, formerly czar of Chicago's notorious "west side valley gang," and more recently owner of several breweries here which he is reputed to have acquired with the profits from beer running in his old haunts, is facing a shutdown as a result of Mayor Dever's dry crusade and is going in for cattle breeding.

Negotiations to secure a large suburban estate said to be valued at \$50,000 are under way, Druggan's attorneys revealed today. Pals of the valley are already at work on construction going over the water system, repairing stock pens and doing odd jobs about the house in preparation for the coming of "Terry" from his town house on Lake Shore Drive, and his mother, from a costly west side dwelling in the area of the "valley."

Druggan's ambition he has told his friends is to become a breeder of Holsteins—and to set his mother up in style. An initial payment on the estate has been made under a contract calling for completion of the deal before December 1, according to Druggan's attorneys.

Rail Head Testifies Roads Must Spend Two Billions to Meet Northwest Growth

MINNEAPOLIS, Nov. 25 (AP)—If the northwestern states are to have railroad facilities warranted by their growth in the next ten years, nearly \$2,000,000,000 will have to be spent by the railroads now traversing that region. Improvements contemplated and delayed year after year by the Chicago and Northwestern railway alone will require the spending of at least \$100,000,000.

This prediction was the outstanding feature in the testimony of W. H. Fin-

ley, president of the Chicago and Northwestern railway, given this afternoon in the grain rates hearing.

"The carriers of the northwest region and the Chicago and Northwestern the same as all others," said President Finley, "are confronted with an ever increasing volume of traffic and the necessity for expanding their property adequately to care for it. There is every reason for believing this growth will be just as rapid in the future as it has been in the past."

CROOKED DEAL COST MILLION

Manager of Brokerage Firm Testifies to Cause of Losses Leading to Bankruptcy

NEW YORK, Nov. 25 (AP)—Speculating under fictitious names with members of the New York cotton exchange cost Scott Norris and company \$1,000,000 in the two weeks before they failed last November 10, Carlisle Roundtree, manager of the firm, today testified before a referee in bankruptcy.

The defunct firm, said Roundtree, was on the short side of the market during the time cotton advanced \$25 a bale. He testified that in order to keep other speculators from learning of the firm's precarious position and to avoid exchange rulings forbidding hedging with odd lot brokers, the bankrupts traded under names of non-existent persons, keeping a private record of such transactions.

MUST PAY TAXES ON HOMES DESTROYED BY FIRE

BRREBLEY, Ga., Nov. 25 (AP)—Six hundred property owners here must pay full taxes on homes destroyed by the fire of September 17 for the remaining six months of the fiscal year, the city council ruled today. The council's action was based on an opinion of the state attorney general that the city had no right either to remit or adjust taxes.

HIGH SCHOOL RADIO GETS MESSAGE FROM THE NORTH

SPOKANE, Nov. 25 (AP)—The North Central high school radio station 7Y1, has been heard by the Bowdoin, ice-bound in the Arctic region, off the coast of Greenland, it was announced here recently. The Bowdoin is the boat used by the McMillin arctic expedition.

The local school's radio station is ranked as one of the most powerful in the state of Washington and efforts are now being made to establish a two-way communication with the McMillin expedition.

Plenty of Dogs Now at the White House; Entry Lists Closed

President Decides He Has Enough Canine Gifts from which to Make a Selection

WASHINGTON, Nov. 25 (AP)—President Coolidge has decided the White House has enough dogs. Marshall Sheppey of Toledo, Ohio, called at the White House today to discuss Ohio politics and the conversation turned to dogs when Mr. Sheppey recalled that he had presented Laddie Boy to President Harding.

Mr. Sheppey said he had planned to give Mr. Coolidge a dog, but that recent newspaper dispatches indicated that the White House "now was long on dogs," three of them, having been sent in.

This caused the president to say, according to Mr. Sheppey: "Well, I guess we can consider the lists closed so far as White House dogs are concerned."

National Officials Planning to Observe Golden Rule Event

President and Cabinet Members to Eat Frugal Meals, Price Difference to Go to Orphans

WASHINGTON, Nov. 25 (AP)—President Coolidge and members of the cabinet, former President Wilson and others prominent in the national life, the Near East Relief announced today, will on Sunday partake of a "golden rule dinner" which consists of beans, grits, stew and other plain foods, that the difference in the price of regular Sunday meals may be given to relief work for orphans in the Near East.

Golden rule dinners Sunday, it was stated, will be observed generally in the country and in 14 other nations.

IDAHO WEATHER

Thursday: Probably rain.

WOULD CHANGE APPROPRIATION COMMITTEES

One Movement is Started to Abolish Finance Body and Another to Enlarge Immigration Committee

WASHINGTON, Nov. 25 (AP)—Two movements got under way today to change the makeup of house committees—one to abolish the appropriation committee, as it is now constituted; the other to enlarge the immigration committee from 15 to 21 members.

Chairman Dempsey of the rivers and harbors committee is sponsor of the move to change the system of making appropriations. He placed petitions in circulation in an effort to have the appropriation power taken away from the one large committee now charged with that function and restored to a large degree to the various committees that formerly were in charge of the annual supply bills.

Under the system proposed by Mr. Dempsey, the chairman and ranking democrats and republicans on 11 committees would be members of a budget committee which would fix the total each committee would have at its disposal in making detailed allotments. The committees which would be represented in this group would be the ways and means, rivers and harbors, agriculture, foreign affairs, military, naval, postoffice, public buildings and grounds, Indian affairs, District of Columbia, and a general appropriations committee which would be reduced in size and power.

Favor Change.

The movement to enlarge the immigration committee was initiated by some of its republican and democratic members and was regarded by some leaders as an effort to obtain greater representation for cities and thickly populated districts. Representative Carey, democrat, New York, is among those favoring the change.

Chairman Johnson of the committee announced he would oppose increase in its size particularly at this time. Pointing out that the present restrictive immigration law expires June 30, requiring congressional action on the subject meantime, he said, five vacancies must be filled. If six additional places are created he added the majority would be new men, unfamiliar with immigration problems.

Intentions were that there would be determined opposition to both of the proposed committee changes.

COOLIDGE TO SPEAK

WASHINGTON, Nov. 25 (AP)—President Coolidge will deliver an address by radio Monday, December 10. He will speak on the plan to establish a memorial to his predecessor in office, Warren G. Harding.

FACTION FIGHT SPLITS SEPARATIST MOVEMENT; MATTHES CABINET OUT

Display of Arms Features Dramatic Meeting of Rhineland Leader with His Aides Who Repudiate His Orders; Dorten Adherents Brand Story of Military Coup as False

DUESSELDORF, Nov. 25 (AP)—The separatist movement split at Coblenz this morning under circumstances not yet clear. Joseph Matthes' story of dissolving the provisional cabinet because of the attitude of the military section is contradicted by the adherents of Dr. Dorten, who declares that in reality Matthes was expelled from the separatist ranks because he refused to carry out majority decisions of the cabinet.

Customs of Puritans to be Observed

President Will Observe Annual Holiday in Strict Accord with His Proclamation; Receives Mammoth Pumpkin Pie

WASHINGTON, Nov. 25 (AP)—President Coolidge will observe Thanksgiving day in strict accord with his Thanksgiving proclamation in which he called upon the American people to "gather in their homes and their usual places of worship" to give expression to their thankfulness.

The chief executive and Mrs. Coolidge will attend Thanksgiving services at the First Congregational church, of which they are members, and then will have dinner with a few personal friends as guests. As in the early days when Mr. Coolidge's puritan ancestors founded the Thanksgiving day custom, turkey will be the chief item on the Thanksgiving dinner menu.

The turkey to be served will be one purchased by the president and Mrs. Coolidge, who decided not to accept any turkeys from friends who as usual almost flooded the White House with turkeys at this time of year. The turkey, however, was not put against place, doubtless because of the president's characteristic New England liking for pie, and an admiring Washington chef tonight sent to the White House a pumpkin pie two and one-half feet in diameter. The chef notified the president he would have sent a larger pie had he been able to find a larger oven in which to bake one.

BREEDING OF BEAVERS IS NEW INDUSTRY

BONNERS FERRY, Idaho, Nov. 25 (AP)—Breeding of beaver on a large scale for commercial purposes is contemplated here by C. H. Heileman, well known naturalist of the northwest, according to an announcement by him recently when he made application for a tract of land in the Mendocino creek district.

Matthes Issues Statement

DUESSELDORF, Nov. 25 (AP)—"The Rhineland republic stands, but the government has fallen."

Joseph Matthes, one of the chiefs of the separatist movement announced today his dissolution of the provisional government which followed quickly upon an internal military coup at Coblenz. Matthes fled when the military dictatorship was set up. The other members of his cabinet were placed under arrest but later some of them were released and the others joined the new dictatorship.

Prussian Spy Involved.

Herr Matthes showed to the correspondents a letter he had addressed to Paul Tirard, president of the later-called Rhineland commission announcing the dissolution of the provisional government and informing him that the main organizer of the military coup was a man named Rosenbaum, who until a few days ago, was Matthes' private secretary. It is further stated in the letter that Rosenbaum is a native of Cologne, speaking French fluently, and was a Prussian spy. Rosenbaum had worked with French firms of high standing and was under no suspicion. Within the past two weeks, two or three members of the defunct cabinet resigned, according to the letter, and the remainder split into two parts, issuing independent cabinet decrees.

Weapons in Sight.

Last night Matthes assembled the remnants of his cabinet for a meeting in the old castle, the provisional seat of the government since Coblenz was made capital of the Rhineland. As Matthes entered for the meeting he

WHETHER YOUR THANKSGIVING TURKEY IS FAT AND TENDER OR THIN AND TOUGH DEPENDS ON HOW YOU'VE FED HIM

LABOR SENATOR PLANS DEFENSE OF WORKINGMEN

Magnus Johnson Denies Policy of Radicalism in Congress But Pledges Himself to Program of Justice

WASHINGTON, Nov. 28 (AP)—Facing an audience of business men, members of congress and advertising representatives, Magnus Johnson, farmer-labor senator from Minnesota, today invited his hearers to "take a close look at to make sure he had no horns."

The address was delivered before the Washington Ad club, and was the first he has made since coming to Washington. He said he was not going "to turn things topsy turvy," but that he was going to "use every influence to bring up to the table with big business the classes it is feeding crumbs in the chimney corners."

Shaking a finger in the face of a prominent banker, the senator said: "Mr. Business Man, the farmers are coming up to the table and sit beside you. We, the farmers, the workers, are going to stand for things that will be best for all, but we are going to sit at the same table with you going to be radical. I am going to feel my way. But big business is sitting pretty today—right at the head of the table, tossing crumbs to those of us who must sit in the chimney corner. I intend to use my voice and every influence in my power to bring up to the table with big business all classes."

Senator Johnson said he was not for the league of nations nor the world court, "but in a few days you will see what I am for in that direction."

JARBIDGE CAMP PICTURED

Cover Page of Well-Known Mining Journal Given Up to View of Territory Around Well-Known Mine

A splendid view of the Jarbridge mining district or the period of it is immediately surrounding the camp, with the Elkberg mill in the center foreground, embellishes the title page of the issue of November 17 of the Engineering and Mining Journal-Press, published in New York.

The picture is a striking one although because of the amount of territory taken in much of the detail is lost. But the fact of the selection of the picture by this well known mining publication may be taken as evidence of new interest in the field in mining circles.

AVIATORS ON LONG TRIP

Marine Corps Flyers to Leave Quantico Field on 10,000 Mile Flight to Land Them at Recent Starting Point

WASHINGTON, Nov. 28 (AP)—Lieutenant F. O. Rogers and H. D. Palmer, marine corps, air service, will leave the marine flying field at Quantico tomorrow to complete the last leg of a flight of 10,853 miles which will land them again in Haiti at the point from which they started September 12.

Since they left the island the two marine aviators and their mechanics have traveled by air to Washington, St. Louis, El Paso, San Francisco, back to Washington and Quantico, and are now to travel southward to Langley field, Paris, Havana, St. C. de Miami, Havana and finally Port-Au-Prince, Haiti.

PROMOTER DENIES DEBT

Michigan Bout Manager Claims Only \$1700 Due Government from Proceeds of Michigan City Battle

BENTON HARBOR, Mich., Nov. 28 (AP)—Floyd Fitzsimmons, Benton Harbor boxing promoter, returned here late today. He denied that he owed the government more than \$5000 in taxes as the result of a bout staged at Michigan City on July 4, 1922. He said the amount now due the government from 1922 bouts was \$1700.

DESIRES LOAN FOR GERMANY

Reichstag Leader Says Nation Is Now Bankrupt and Unable to Meet Payrolls

BERLIN, Nov. 28 (AP)—Germany is immediately confronted with a plain case of a state bankruptcy and will no longer be able to meet her public pay rolls, in the opinion of Dr. George Gothein, Reichstag democratic leader, who today vigorously upbraided the socialists and German nationalists for having needlessly precipitated a parliamentary crisis.

Dr. Gothein declared Germany's only salvation would be in the form of a foreign loan under allied supervision similar to that applied in the case of Austria.

Sixteen and one-half million trillions were floated by the reichsbank in the first week of November, during which period its holdings of discount tickets, treasury bills, private checks and drafts increased by twenty-six and one-half million trillions. The current return was the first reported this month, a circumstance which was the subject of comment on today's dull and listless bourse.

Dr. Schacht, the newly appointed commissioner of currency, hopes to have the entire issue of the Rentenmark ready for distribution by the middle of next month. He declares that the scarcity of the new money is due wholly to the fact that the printers are in arrears in their deliveries and that the initial output was placed at the disposal of the government to enable it to dispense with discounting treasury bills.

Until the Rentenmark is available in large quantities no attempt will be made to establish a parity between it and the paper mark, the legal status of which meanwhile remains unchanged. It is estimated that about 200,000,000 Rentenmarks now are in circulation, chiefly devoted to meeting the federal payroll. Dr. Schacht believes that some friction will be inevitable during the period of transition from the one currency to the other.

MUST BUY TICKETS TO KEEP WARM IN BERLIN

BERLIN, Nov. 28 (AP)—Many homes in Berlin are not heated sufficiently to allow the women to write or do fine sewing and a sitting room has been opened at the headquarters of the relief committee of educated women to provide a warm place for such folk. Admission is by ticket to prevent it from becoming a general gathering place. Funds are being raised to establish other centers of this character in the city.

SENATE PASSES ANTI-KLAN BILL

Action Is Regarded as Victory for Hooded Order; Membership Lists Not to Be Public

OKLAHOMA CITY, Nov. 28 (AP)—Ku Klux Klan sympathizers emerged victorious today when the upper house of the state legislature passed the committee anti-klan bill after defeating the last of the proposals by which its sponsors hoped to invest the act with stringent regulatory powers by which it would prohibit the wearing of masks, minor offenses while disguised and the writing of anonymous secret communications. Supporters of the original bill declared that while it represents some progress in the attempt to meet the present "emergency" in the state, any statute without power to reveal the membership of secret organizations will be wholly inadequate.

The bill is expected to meet with opposition in the lower house, but since the senate must pass upon any change the house might make before the measure is transmitted for executive action, proponents of more vigorous legislation may slight hope for their cause at this quarter.

The vote for final passage of the bill was 27 to 11.

Denouncing it as "a klan measure," not an anti-klan measure, Senator Harry O. Glassner of Enid and other supporters of the original committee bill declared they would start a move at once for a law with "teeth" in it. "The bill is worthless," Senator Glassner said, "because the secret memberships are not reached by it. They and not the membership secrets are the objectionable phases."

DENIES MURDER CHARGE

BOONE, Iowa, Nov. 28 (AP)—Robert Burris, charged with the murder here on September 25 of Mrs. Eric Rose, pleaded not guilty today and his trial was set by Judge G. D. Thompson for December 10.

Mrs. Rose was beaten to death and her home robbed while her invalid husband lay helpless in an adjoining room.

E. V. Larsen has moved his office over the Golden Rule store.—adv.

SPORTS
TEAMS IN SHAPE FOR GRID GAME

Coaches Ready for Final Contest and Confident of Victory; Nampa Men Arrive

The Nampa team arrived in Twin Falls Wednesday afternoon about 5:30. The trip from Nampa was uneventful and the team arrived in good shape.

Now the stage is all set for one of the toughest grid battles of the season. The Bruins took on their last workout Wednesday night with a light signal practice and last minute advice from Coach Evans. There are no injuries and with a long rest behind them they should go strong Thursday afternoon.

Coach Evans' only statement last night was, "My boys will do their best to win and give the fans their money's worth," which is quite a long pre-game statement for the Bruin coach. Several of the Bruins are playing their last game of football for the blue and white, which fact should make them fight like demons. They realize they are up against a hard team to defeat and will be fighting every minute.

Coach Harrington says, "We are expecting a hard game, but are confident that we can win." The Junction city lads are a husky bunch and carry a lot of weight with them. They have just earned the reputation of scrappers from the first whistle to the last and have made an excellent showing this season. Many series of the west end credit them with being the best team of that district and believe that they outplayed Boing in the inter-district game. From their attitude the fans will not be disappointed in today's game.

The game starts promptly at 2:30

ADOPT INDOOR FOOTBALL TO KEEP PLAYERS READY

Hillyard, Washington, High School Coach Adopts Novel Idea to Assure Fit Condition of His Squad

SPOKANE, Nov. 28 (AP)—Indoor football as a means of drilling prospective grid men will be played this winter by nearly all of the boys' students at Hillyard high school, according to Harry George, football coach. By this method Mr. George hopes to teach the fundamentals of the game to a large number of candidates.

Play in the "indoor" gridiron sport which was invented by the Hillyard coach, will be held in the form of an inter-gymnasium class tournament on newly conditioned field, with modified rules governing the style of football. Eight teams, representing all boys taking physical training in the high school, with the exception of the 23 men on the regular squad, are scheduled to take part in the championship fight, in which each team will meet every other eleven.

The game, as devised by Coach George, is a combination of end runs, open formations, passes and kicking, with the play "dead" at the point at which the man carrying the ball is "tagged" by an opposing player. "The boys find the game more thrilling than ordinary gymnasium exercises," Mr. George said. "and incidentally gives the coach some basis to work on."

and the crowd will be on hand early, for the best seats will be taken by 2 o'clock. All preparations are made for a large crowd. It is hoped that the predicted rain falls to appear, although a light rainfall would be beneficial to the field and save Cupie Hahn the trouble of sprinkling.

The News is read by the permanent morning classes

ROTARIANS HEAR LOCAL SPEAKER

Rev. C. E. Winning Talks on Holiday Theme; Note of Thanksgiving Prevails

A brief but interesting address on the topic of Thanksgiving by the Rev. C. E. Winning, pastor of the Methodist church, was the principal feature of the regular weekly luncheon of the Rotary club Wednesday. The luncheon was more in the nature of a dinner than a mere lunch, roast turkey, cider and fruit in quantities adding a note of Thanksgiving to the entire session.

J. E. Madsen of the Idaho theater was elected to membership in the club, Mr. Madsen having previously been a member of the Rotary club at Rexburg, Idaho, his former place of residence.

Dr. Charles R. Scott, as chairman of the Rotary committee on the sale of White Cross stamps, notified the club that a full quota of stamps had been disposed of in Twin Falls and that the work of the committee was over for the year.

That the festival of Thanksgiving should be accepted as symbolizing a willingness to give rather than to receive was the main thought in the address of Mr. Winning. True riches, the speaker pointed out, come about through service to society, to community and to the nation. He declared that never perhaps in the history of the world were there so many opportunities for service open to mankind as at the present time. The address was warmly received by those present. Members of the Zu Zim club will be the guests of the Rotary club at its regular monthly dinner next Wednesday, and will be in charge of the program, following which the two clubs will indulge in a bowling contest.

Ralph Morse, Ben R. Tillery and Dr. Murphy of Buhl, members of the Buhl Rotary club, attended the luncheon. Arthur J. Penney, Jr., of Twin Falls, was also a guest. W. T. Selley, president of the Twin Falls club, served as chairman.

Rubber Obtained from Many Plants. More than 200 species of plants yield latex from which rubber may be obtained.

EXTENSION OF OWNERSHIP OF FORESTS URGED

Removal of Hazards and Handicaps Attending Private Timber Growing Also on Committee Recommendations

WASHINGTON, Nov. 28 (AP)—Extension of public forest ownership in areas where special national responsibility is involved and the removal of the hazards and handicaps attending private timber growing will be the outstanding recommendations of the senate reforestation committee. The report of the committee, based on information obtained in a series of hearings over the country, is now in course of preparation and will be ready for the senate in a few weeks.

Recommendations regarding the extension of public forest ownership probably will include:

• Embodiment of state and municipal forests.

• Completion of purchase contemplated by the Weeks law for the extension of navigable streams.

• Enlargement of federal purchase policy to include desirable areas in states and regions where the principal sources of such lands occur, these purchases to be made within the waterbeds of navigable streams, but with a view to timber production as one of the primary objects.

• Authorization to accept deeds or grants of lands suitable for national forests.

• Incorporation in national forests of unreserved public lands and portions of military reservations valuable chiefly for the production of timber or protection of water sources.

• Proposals Amended

These proposals will be among the proposals for the encouragement of commercial reforestation:

• Extension of federal aid in fire protection, in co-operation with states and private owners of forest land to an ultimate maximum representing about one-fourth of the cost and to be safeguarded by federal supervision.

• Comprehensive federal investigation of forest taxation and co-operation with states in devising tax laws and methods favorable to reforestation.

• Federal co-operation with the states in growing and distributing forest planting material.

• **World Co-operate**

• Federal co-operation with states in educational activities, seeking the encouragement of timber growing by farmers and other owners of suitable lands.

• Liberal federal provision for the study of destructive forest insects and tree diseases and for aiding local agencies in their control.

• Liberal federal provision for research to promote timber growing and economy in the use of timber.

The committee is expected to recommend an appropriation of \$1,000,000 annually to aid in fighting forest insects and diseases, and to urge increase in appropriations for forest fire fighting.

EVOLVE PLAN TO HELP HUNGARY

League Committee Would Waive Reparation Lien, Arrange Loan and Credits

LONDON, Nov. 28 (AP)—The committee of the league of nations which has been meeting here to consider the reconstruction of Hungary has unanimously agreed upon a scheme which will be submitted to the council of the league on December 16 for consideration of certain political aspects.

The leading features of the scheme are understood to be:

First—The reparation lien on Hungary to be waived; second, a reconstruction loan for a short period with Hungary's national assets as security; third, the league to exercise financial supervision; fourth, provision to be made for further credit for reparation payments; and fifth, the little entente countries to share in the control and be exempted of their liabilities as the successors states of Hungary.

During its meeting here the league committee heard the Hungarian finance and commerce ministers and other experts.

Pine Stumps Used for Paper.
Louisiana chemists have developed a method for removing pentane and rosin from pine stumps so the wood can be used in the manufacture of paper.

Watch Your Step.
To the inexperienced, theories look good as facts.

ANTI-BOOZE LAW BEING ENFORCED

Attorney General Daugherty Claims Success in Battle Against Prohibition Violators

WASHINGTON, Nov. 28 (AP)—Enforcement of the prohibition laws, so far as the department of justice has jurisdiction, is "steadily advancing," Attorney General Daugherty declared in a statement today reviewing present enforcement conditions in a number of states.

"There is becoming more and more respect for these laws," the attorney general said, "because of the concerted forces we have been enabled to enlist and apply against those who would attempt to defy them."

Mr. Daugherty emphasized particularly the effect of invoking the tariff act against border smugglers, especially in the vicinity of Detroit, and also the more intensive application of the "Padlock" provisions of the enforcement act. Referring to proceedings under the tariff act, he said: "Officials of Michigan have been co-operating with the federal agencies under the department of justice and the result has been that if we could not get these border bootleggers under one charge we got them on another."

The results in this way have been particularly marked since the recent conference of governors called by President Coolidge.

In the northern district of Illinois alone, Mr. Daugherty said, "170 decrees for permanent injunctions closing properties under the padlock provision for one year were obtained during the first week of November, which was set aside for the trial of such suits. Criminal prosecutions and convictions were had in connection with 39 of the injunction suits."

TRAFFIC HALTS FOR PIGEON

New York Crossing Policeman Sees That Thrifty Bird Gets Drink on Pavement

Traffic was heavy and the policeman signaled, shouted, frowned and grinned according to the changing character of the four-wny curvies. The white signal flashed and waiting drivers prepared to wigwag in their gears and speed north from the curb. The arm of the law warned them back. They craned around their windshields to find out the trouble. The policeman with arm still uplifted was gazing at a shallow pool of rainwater in the hot pavement, says the New York Sun and Globe.

"That bird shall have her chance," he growled at the nearest car. "She's tried to get a sip of water four times and what with all the pedestrians and cars and other interferences she's like to die of thirst."

The pigeon slipped peacefully, raising its head every morning for the drink to slip down more smoothly. Then it waddled haughtily away.

The policeman's arm came into action and a satisfied grin spread over his ruddy cheeks. "Come along now, with your noisy cars," he invited. "What's datnain' yet?"

Vacuum Cleaner "Blows" Organ.

In a church where an ordinary reed organ with pedal-operated bellows was used, it was desired to install an electric blower. As the reeds of such an organ are actuated by suction, the air being exhausted from the wind chest by the bellows, it was found that a common vacuum sweeper could easily be made to do the work. A small hole was cut in the wind chest, and the end of the vacuum cleaner hose inserted, the connection being made airtight. The cleaner itself was set in the basement where it could be heard while running. The result was entirely satisfactory, the cleaner doing the work just as well as an expensive electric blower.—Phil H. Brehmer, Rutland, Vt.

The Meanest Man.

The meanest man in the world has once more been located. This time he turns out to be an eastern business man who stole a newspaper from a little newsboy every morning for four months. He wore rubber-soled shoes and would take a paper from the lad's stock without saying a word. But he was finally trapped, and it gave a policeman much pleasure to bring him off to the bastille. There a judge also found satisfaction in bringing him to the bastille. The man who had been charged had been cheaper had he subscribed for the paper twenty years in advance.

Origin of the Ghetto.

The ghetto was the Jewish quarter of an Italian city. Pope Paul IV, in 1555 established the ghetto of Rome, and it existed until 1835, when it was removed to make way for the new embankment of the Tiber. The Jews were at one time closely confined to that section of the city and were not allowed outside the limits unless distinguished from the Christians by wearing the men a yellow hat and the women a veil of the same color. The ghetto was enclosed by a wall and the gates therein were locked at night.

To Prevent Upsetting.

A wastebasket, fastened to the side of the desk chair, keeps the basket in one place and prevents upsetting.

Wright's A GOOD PLACE TO TRADE

For Friday and Saturday

Look over this list. You will find some values that are very good. Some of them are new arrivals that have been priced for quick disposal. There must be a reason for an ever-increasing business. We believe it to be the fact that we sell quality merchandise for less money than goods of the same quality are usually sold.

SWEATERS
We have put out on a table about 2 dozen all-wool sweaters. Among them are alpaca, tuxedo styles, etc. Brushed wool and plain. Equal gone **\$1.95**

HOSE
Friday and Saturday we shall offer pure silk hose in black and brown, all sizes, for \$1.25. This hose is usually sold for \$1.50. Equal gone **\$1.25**

Dreamland Adventures

PIGGY PIGGINS By DADDY

(Jack and Janet show Piggy Piggins what happens to pigs that grow fat, so he goes hunting to get thin.)

CHAPTER IV. Hunt and Grow Hungry.

PIGGY PIGGINS was hunting snakes in the marsh. Jack and Janet watch him from the safety of a log.

And this is what Jack did!

"And you would be silly to eat when eating makes you fat enough to be cut up into pork chops and hams," said Janet a bit tartly.

"You made me bite my tongue!" said Mr. Bennett, deeply aggravated. "Serve you right!" said Jane peevishly.

(Jack and Janet play a funny game with Piggy Piggins, as will be told in the next chapter.)

well every one of them. There are still about sixty million people going about by the primitive process of walking. And as an observing manufacturer once remarked, "They won't walk."

The Tragedy... "Yes, Jones and his wife have separated, and all on account of a dream."

When in Doubt... If a man doesn't like machinery, he may be in doubt whether he is having a good time running his motor-car.

BRAKE INSPECTION YOUR PROTECTION Let us inspect your brakes Lind Automobile Company

so superior to emotion. "There'll be lots of time for quarrelling tomorrow. Just now we've got to catch these..." "I'm not quarrelling," said Mr. Bennett.

The odd fact that Bream was not among those present suddenly presented itself to the company.

"Where can he be?" said Billie. "Jane Hubbard caught the whole-some, indignant laugh of one who is broad-minded enough to see the humor of the situation when the joke is at her expense."

"What a silly girl I am!" she said. "I do believe that was Bream I shot at upstairs. How foolish of me making a mistake like that!" "You shot my only son!" cried Mr. Mortimer.

"I'm not quarrelling," said Mr. Bennett. "I'm not quarrelling," said Mr. Mortimer.

"I'm not quarrelling," said Mr. Bennett. "I'm not quarrelling," said Mr. Mortimer.

THE MARKETS

SELLING OUT OF STOCKS WEAKENS GRAIN VALUES

Corn Closes Unsettled and Slightly Lower and Wheat Prices Are Also Lower; Heavy Liquidation Sales

CHICAGO, Nov. 28 (AP)—Selling out by holders of December delivery of corn weakened all grain values today after a temporary display of firmness. Corn closed unsettled 1-4 to 1 5/8c net, with May 7 3/4 to 7 7/8c, with wheat at 1-1/2 to 1-1/4c and provisions unchanged to 20c higher.

At first the corn market had an upward tendency with tendency toward buying based on talk which was current that no big after the hauling movement of corn might be seen until January or February if then. It soon appeared, however, that the corn growers were a good deal more divided in opinion than was the case yesterday.

Wheat and oats trading was little more than a reflection of the corn market. Oats' available supply of wheat was reported at 50,000,000 bushels more than last year.

TWIN FALLS MARKETS

These prices are obtained daily at 10 o'clock in the afternoon and are intended to cover only the average of prices. Where certain dealers for short periods offer more than the quoted price an effort is made to include such quotations.
