## TWELVE PERSONS REPORTED DEAD IN RAIL WRECK

Thirty to 40 Injured as Speeding Electric Trains Crash Head-on at Curve; Fire Consumes Smashed Cars

**FORTVILLE, Ind., Feb. 2 (AP)**—The death toll of the wreck of two Indiana Union Traction company trains, which collided head-on near here late today, will probably reach 17, rescue workers said tonight.

**FORTVILLE, Ind., Feb. 2 (AP)**—Twelve persons are believed to have been killed and from 30 to 40 injured when two trains of the Anderson division of the Indiana Union Traction company met in head-on collision on a curve two miles east of here late this afternoon. Fire starting after the wreck consumed two cars and several of those who lost their lives were burned to death.

Nine badly charred bodies have been removed from two cars that were destroyed by fire and several others charred bodies are believed to be in the wreckage. One man injured in the wreck died later in a hospital. Forty injured have been run to hospitals at Anderson and Indianapolis. Seven badly charred bodies were removed from the wrecked cars tonight and members of a wrecking crew said they had seen three more bodies which they had been unable to extricate because of the intense heat. The cars were of wooden construction and all that remained of them was a mass of smoking embers and red hot brake rods and trucks.

**Cars Telescoped.**  
Each train consisted of a motor car and trailer. The motor cars were telescoped and most of the dead and injured were in these cars. Passengers in the trailers escaped with minor injuries. The first body identified was that of Dr. E. Blain Haskin of Indianapolis, inspector in charge of the United States department of agriculture, bureau of animal industry in Indiana. The wreck occurred on a curve while both trains were traveling at a high speed. It was reported that one of the trains had failed to stop at a switch where it was to have passed the other train.

## MANY UNCONSCIOUS.

**INDIANAPOLIS, Feb. 2 (AP)**—Twenty-five persons injured in the wreck of two Indiana Union Traction trains south of Fortville, Ind., were brought here tonight on the Big Four railroad work train.

Several were unconscious. Mr. J. Lashner of Gas City, Ind., one of the injured, said he saw several persons burned to death in the smoking compartment of one of the wrecked cars.

## INDIANS EXPRESS REGRET AT EX-PRESIDENT'S CONDITION

**NEW YORK, Feb. 2 (AP)**—Thirteen Indians from New Mexico, here to seek support for legislation securing their lands against invasion by "white squatters," joined members of the tribe today in a toast to Woodrow Wilson, and an expression of regret for his serious illness.

An echo of the oil scandal under investigation at Washington was heard in an address by John Collier, an official of the American Indian Defense association and spokesman for the visitors from New Mexico.

## English Editors Have Praise for Wilson's Ideals

**LONDON, Feb. 3 (AP)**—Woodrow Wilson's great fight for life and his amazing vitality and fortitude continue to be featured in the English papers, which publish sympathetic appreciations of his life, ideals and achievements.

The Sunday Observer, like other papers, touches upon what it characterizes as some of his political mistakes, but says his ideals remain, declaring: "Time is proving him right in his ideals; even while it enfolds the sequel of their abandonment through the compromise he accepted." Wilson's work did not end at Paris or Washington. There are hands to carry it on; there is a driving propulsion behind it. His own place in history is not in the past but in the future. Others share with him the credit of his ideas, but no man in his position of power ever applied his strength to a more finely conceived purpose. "History will honor him as the man who gave the world a new conception of its changed self and a new conscience in international affairs."

**IDAHO WEATHER.**  
Sunday: Fair.

## DEATH HOVERS CLOSER OVER HOME OF WILSON

**Fight for Rights of Women Opposed by Church Leader**

**Archbishop Hayes Sees Struggle as Cause of Distasteful Characteristics**

**NEW YORK, Feb. 2 (AP)**—The struggle for equal rights with men "is lowering instead of the leveling of women," Archbishop Patrick Hayes of New York today told 1000 women assembled at the annual luncheon of the alumnae auxiliary association of the Catholic women's school of America. "We don't want the dynamic or masculine woman," said the archbishop, "but the womanly woman, who is what is clean, noble and pure. We want the woman who loves purity and motherhood. 'What an awful thing today is this struggle for equal rights!'"

## ITALY TO OFFER HAND TO RUSSIA

**Recognition of Soviets Imminent, Together with Signing of Commercial Treaty**

**ROME, Feb. 2 (AP)**—The Russian government will be recognized by Italy within 48 hours, according to foreign office circles. Recognition will be simultaneous with the signing of a commercial treaty which has been pending for some months. It is possible that the signatures may be affixed tomorrow.

The newspapers this evening published the clauses of the treaty which are most likely to be concluded as follows: First, Italy agrees to grant Russia a Russian tariff in favor of Italian imports; second, Russia agrees to consign to Italy a certain quantity of cereals and foodstuffs, especially adapted for the needs of the Italian army; third, Russia agrees to purchase annually a certain quantity of Italian industrial products; fourth, consignment in the Black Sea of Russian goods for the Italian flag; fifth, a mixed Italy-Russian commission to fix annually sales and purchases between Italy and Russia; sixth, the surrender of property in Italy—the embassy and consulates belonging to the former Russian empire, among which are several big buildings in Rome.

## COMMISSION SETS DATE OF POWER RATE HEARING

**Compiles with Southern Idaho Power Users' Association Announcement of Purpose to Intervene**

**BOISE, Feb. 2**—The public utilities commission Friday set February 11 as the date for a hearing on the rate schedule of the Idaho Power company. In calling the hearing the commission is complying with what it believes is a request for a hearing made Thursday by the Southern Idaho Power Users' association. The association, filed an appearance with the commission Thursday saying that it wished to intervene in the matter of fixing rates. It also asked permission to cross-examine power company witnesses and to introduce evidence on its own behalf.

The schedule filed by the company January 18 in compliance with a commission order 30 days previous will go into effect February 17 unless the commission takes some action ordering it into effect or suspending it. The new schedule revolutionizes the system now employed by the company in computing rates and makes increases in some classes of service. The schedule is supposed to produce annual revenue for the company amounting to about \$5,500,000, the sum which the commission said the company is entitled to on its investment.

A meeting of the executive committee of the Southern Idaho Light and Power Users' association has been called for Monday morning in Boise to consider a method of proceeding to the hearing called by the public utilities commission for February 11 on the fixing of rates for the Idaho Power company. The call for the meeting was issued by C. B. Hittler, attorney for the association, and it will be held in his office. Members of the committee are: E. B. Sherman of Boise, chairman; Mayor A. E. Thompson of Gooding; Ernest Anderson of Parma; Thomas E. Gloggett of Ontario, Ore.; and Shad L. Rodgin of Twin Falls.

## Sought 10 Years for Murder, Is Arrested

**WHEELING, W. Va., Feb. 2 (AP)**—Sought for ten years in connection with the slaying of his wife and four children by a razor in his cabin near Fayetteville, North Carolina, Octavius Smith arrested Beach today on his way to the south today in the custody of a deputy sheriff.

**Life of Former President Slowly But Surely Flowing Outward; Final Summons Expected During Night**

**WASHINGTON, Feb. 3 (AP)**—At 2 a. m. there was nothing to indicate any change in the condition of former President Wilson.

**WASHINGTON, Feb. 2 (AP)**—Former President Wilson was growing even weaker very rapidly tonight and there were grave fears that he could not live through the night.

While he retained consciousness most of the time, his heart action was growing constantly weaker and he was in a state of almost complete prostration.

**WASHINGTON, Feb. 2 (AP)**—Softly, but with increasing swiftness, the falling tide of Woodrow Wilson's life flowed outward tonight toward the great sleep.

Steadily through the day and into the inscrutable hours of darkness it kept its inexorable way, beyond the power of human will or human ingenuity to stay it.

Tonight the war president lay barely conscious, free of pain, and fully resigned in spirit, as if he were preparing to fall into a natural sleep in the presence of the little faithful circle at his bedside.

His stout heart, which had performed its labored duties with a strength that astonished his physicians, began at last to falter and grow faint. There were grave fears that the end was close at hand.

**Hope Waning.**  
Throughout the day hours that he has lain between life and death, the regular and almost normal beating of his heart had given those about him a glimmering of hope that somehow he might come through his supreme battle victorious.

But even that feeble hope flickered and all but went out when an evening consultation of his doctors revealed a troubling pulse—a sign that his heart had begun to feel desperately the gradual weakening of his delicate vitality.

**Death Draws Nearer.**  
As each moment passed, the grim destroyer moved a little nearer, the faint spark of life flickered and fluttered, burning longer after every futile gust which blew to extinguish it. Beigned to the inevitable and quiet.

(Continued on Page 6, Col. 4)

## PICK POMERENE AS COUNSEL IN LEASE TROUBLE

**Former Democratic Senator Selected by Coolidge in Place of Gregory; Get Injunction Suits Ready**

**WASHINGTON, Feb. 2 (AP)**—While the senate oil inquiry was brought to a temporary standstill today by the refusal of former Secretary Fall to testify, President Coolidge selected Atlee Pomerene, former democratic senator from Ohio, in place of Thomas W. Gregory, to serve as general counsel with Silas H. Strawn in prosecuting the oil lease cases.

At the same time the groundwork was being laid in the department of justice for the institution of injunction suits to prevent further extension of oil from California reserve No. 1 by the Pan-American Petroleum and Transport company and from the Esplanade Dome reserve in Wyoming by the Mammoth Oil company. Whether these suits will be brought here or in the states where the reserves are located has not been disclosed.

The senate was in recess today, but the oil middle again got into the house debate as a result of unsuccessful efforts of Representative Flahugh, republican, New York, to get action on his resolution that a request be made of Harry F. Sinclair, through official channels, to return to this country from Europe.

## Wants Tax Inquiry

Demand for an investigation of the personal income tax returns of Mr. Sinclair was made by Representative Jeffers, democrat, Alabama, who told the house he was convinced a thorough check of the records would "uncover irregularities, graft, crookedness and corruption."

Although the senate committee examined no witnesses, a number were on hand today ready to take the stand. Among them was James Sloan, jr., white house attaché in the early days of the Harding administration, who subsequently became identified with the Washington brokerage firm of Underleider and company. Samuel Underleider also has been subpoenaed along with the representatives of other Washington brokerage firms.

None of the former cabinet members in the Wilson administration, who E. L. Doherty has told the committee were retained as counsel for his companies after they retired from office.

(Continued on Page 6, Col. 1)

## FALL MAY BE CITED ON CHARGE OF CONTEMPT

**Persistent Refusal to Give Facts on His Dealings with Big Oil Interests Will Lead Former Secretary Deeper into Mine; Impeachment and Trial are Congress' Alternatives**

## Occasional Snows on Schedule This Week

**WASHINGTON, Feb. 2 (AP)**—Weather outlook for the week: Beginning Monday: Northern, Rocky, mountain and plateau regions: Considerable cloudiness and probably occasional snows east, and snows or rains west of divide. Much colder Monday or Tuesday and continued cold thereafter.

## MERCURY AT HIGHEST MARK

**OMAHA, Feb. 2 (AP)**—Today was the warmest February 2 in the history of the government weather bureau here. The thermometer registered 62 above. The warmest mid-winter in the history of the bureau was in January, 1895, when it was 63 above.

## M'ADOO DEMANDS CHANGE TO TALK

**Democratic Candidate Is on Way to Capital to Relate Services with Oil Firms.**

**LOS ANGELES, Feb. 2 (AP)**—With his trip bearing a two-fold purpose, William G. McAdoo, accompanied by Mrs. McAdoo, tonight was on his way to Washington, D. C. He left here this morning at 11:30 o'clock on the California Limited.

It is the first desire of the war time director general of the railroads to reach the national capital before death has overtaken former President Woodrow Wilson. Mrs. McAdoo's father, the second object of the journey, is to convince the senate oil lease investigating committee that the dragging of McAdoo's name into the investigation as a result of testimony given yesterday by E. L. Doherty was wholly unwarranted.

Doherty yesterday told the investigators that his companies had paid McAdoo and his firm \$250,000 in four years for legal services and that at

(Continued on Page 4, Col. 4)

**WASHINGTON, Feb. 2 (AP)**—Voting to obtain a new grant of authority from the senate Monday, the senate oil committee directed Albert B. Fall to appear again Tuesday after the former secretary declines today to testify further before the committee which seeks more light on the unpaid loans aggregating \$125,000 made to him by E. L. Doherty and Harry F. Sinclair, whose oil companies obtained leases of naval oil reserves from Mr. Fall while he was secretary of the interior.

Should he persist in his refusal to testify at that time senators said the issue of contempt would be clearly drawn. Under the law and precedents he could not be held in contempt and the fact certified to the president of the senate who would submit the matter to the district attorney of the district in which the duty it would be to bring the matter before the grand jury for action.

In addition to the capital over the protest of physicians and counsel, Mr. Fall, in a report filed in the senate, challenged the authority of the committee to continue the investigation, and refused to answer questions on the further ground that the responses might tend to incriminate him in court proceedings authorized by congress in the Walsh annulment resolution.

Want authority for the committee to proceed further with the inquiry was based on the grounds that the original resolutions of the senate provided for the holding of hearings only until the convening of this congress, and that congress, in adopting the Walsh resolution had taken the matter out of the hands of the committee and placed it in the hands of the courts.

**Unable to Imprisonment.**  
Under indictment and conviction, Mr. Fall would be liable to imprisonment in the common jail for not less than one month nor more than 12 months, and a fine of not less than \$100 and more than \$1000.

Still another course would be open, that of impeachment. The house trial by the senate on the basis of his official acts. In the case of W. W. Belknap, secretary of war in the Grant administration, the senate held that impeachment proceedings could be taken even after a cabinet officer had retired from office. Impeachment proceedings were not pressed in the Belknap case, however.

## Answers Summons.

Coming by automobile from the home of J. W. Zevely, personal attorney to Fall, where he has been confined to his bed since his arrival here from New Orleans ten days ago, Mr. Fall reached the committee room promptly at 10 a. m. The hour named in the new subpoena issued for him yesterday after the committee's medical commission had reported he was able to appear for examination.

**Many Spectators.**  
The committee was late in assembling, but not so the spectators. The big hearing room was packed and as the former secretary appeared in the courtroom there was a general craning of necks to get a view of the man who had become the central figure in the most sensational congressional investigation, certainly in recent years.

To outward appearance, at least, Mr. Fall was not the broken man he has been pictured. He walked steadily, without assistance and without the use of a cane. His face was rather pale following his long confinement in bed, but there were few signs of nervousness.

After Mr. Fall had seated himself in

## Excavators Near Goal in Search for Tut's Coffin

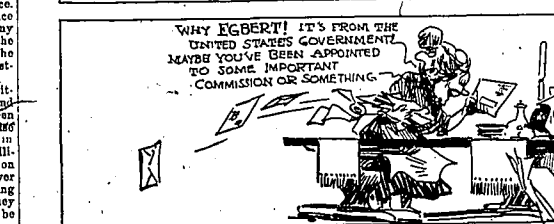

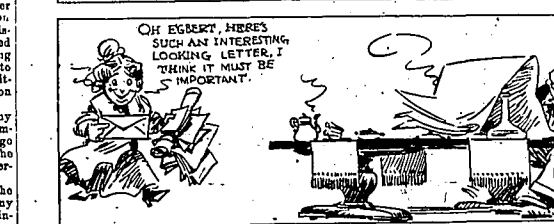

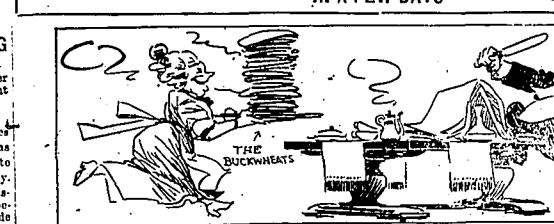

**Opening of Shrine Containing Mummy of Pharaoh Expected Soon; Priceless Ornaments Are Found**

**LUXOR, Egypt, Feb. 2 (AP)**—With steady strides, considering the bewildering difficulty of the work, the excavators in the tomb of Tut-ank-amun are approaching the crowning stage of their labors—the opening of the great pink stone coffin.

Good progress was made this week with the work of dismantling the three outer shrines, so that with the removal of the two side cornices of the third shrine this morning the fourth casket now stands disengaged among the walls of the third shrine, and fully disclosed in its gleaming golden beauty.

As Howard Carter draws nearer to the heart of this bizarre, beautiful nest of shrines, evidence accumulates that the body of the mystery Pharaoh is still within. Tucked away in the corners and the narrow spaces between the different caskets have been found successively such attributes of royalty as the king's sceptres, masses of gilded wood inlaid with falcons, and now, within the last few days, the discovery of two great ornate feather fans with gilded handles more than three and a half feet long, stamped with the two cartouches giving the king's name and the royal seal. The king's name and the royal seal. The king's name and the royal seal. The king's name and the royal seal.

IF YOURS HASN'T COME IT WILL BE ALONG IN A FEW DAYS

# DEMOCRATS TO STAND PAT ON SURTAX RATES

Party Leaders Confident of Ability to Upset Mellon Plan Provisions; Many Swing to G. O. P. Income Scheme

WASHINGTON, Feb. 2 (AP)—Democratic leaders in the house, confident they could muster enough votes to upset the surface schedule carried in the Mellon bill, declared today they would make no concessions on the 14 per cent maximum they favor. It was indicated, however, that they might modify the normal income tax rate proposed in their substitute.

Representative Garner of Texas, ranking democrat on the committee, announced he had asked for the new set of treasury estimates. They would apply, it was indicated to normal tax rates, but not to surtaxes or recouped amounts for an increase in the tax exemption for both unmarried persons and for the aged.

A treasury estimate that the Turner plan would mean a loss of revenue to the government of \$248,000,000 annually, against \$285,000,000 under the Mellon bill, is said to have influenced some democrats to believe that a shift in the normal rate might be advisable to cut down the total. To what extent this might be done, however, was not disclosed.

**Fear Bill Holding Out.**  
Confidence of the democrats that a majority of the house will not line up in favor of the 25 per cent surtax maximum proposed by Mr. Mellon lay chiefly in the announcement of Representative Fear of Wisconsin, a republican, on the ways and means committee that he and other insurgents would not go along with the republican organization on this point.

Democratic leaders predicted that at least 20 republicans would swing to their support when a show down comes on surtaxes—enough votes, they estimated, to insure adoption of their schedule.

**May Compromise.**  
Some republicans, however, expressed the opinion that a compromise on a figure below the democratic maximum might be agreed upon to keep enough republicans in line to insure rejection of the Turner rates.

The ways and means committee was not in session today and probably will not meet until the latter part of next week to dispose of bills and end before reporting the revenue bill not later than February 11. Republican members, however, will confer Monday on some sections, including the tentative amendment providing for a 25 per cent flat reduction on personal taxes paid this year on 1923 income.

**POISON TO BE USED IN EXTERMINATING CROP PESTS**  
SPOKANE, Feb. 2 (AP)—Storage of 80,000 pounds of calcium cyanide, to be used in a concerted attack this season on the Colorado ground squirrel in eastern Washington, has been made here according to an announcement by Virgil Piton county agricultural agent. Between 20,000 and 25,000 pounds of the chemical will be used in Spokane county during the coming season to combat the activities of the pest, Mr. Piton said, and the work will probably begin about March 1.

**WOOL POOL PLANNED**  
ABERDEEN, S. D., Feb. 2 (AP)—Plans for financing the wool pool of South Dakota and Montana by an advance of approximately \$2,000,000 from the federal intermediate credit bank were completed at the conference of cooperative wool men who concluded their meeting here Friday.

## Mothers You Can Prevent Children From Taking Cold

Next Time They Come in Wet and "Sniffing" Rub This Vapor Salve over Throat and Chest.

When children come in from play with feet wet, noses blue and hands like lumps of ice, you feel sure that they are "in for a cold."

But the next time try Vicks. At bedtime rub this vaporizing salve well in over throat and chest and cover with a warm flannel cloth.

The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Juniper Tar, etc.—in the form of vapors, and these vapors go directly to the passages, stimulating the mucous membrane to repel germ attacks.

At the same time Vicks increases the circulation of the blood through the chest region, thus helping to prevent any congestion developing.

If applied in time, Vicks will prevent many colds from getting a start. It does not disturb the child's digestion as constant internal dosing is so apt to do.

**VICKS VAPORUB**  
OVER 17 MILLION JARS USED YEARLY

## Chinese, Sentenced to Die from Lethal Gas, Becomes Insane

Condemned Man Breaks Down as Result of Anticipation of Death of Horror

CARSON CITY, Nev., Jan. 2 (AP)—Gee Jon, Chinese, sentenced to die by lethal gas in the state prison here on February 8, has lost his mind, his attorney, J. M. Farnham, said today, after a visit to Jon in the death cell.

In conversation Jon could give his attorney no intelligible answers, Farnham said, and the strain of anticipation surrounding Nevada's new method of executing by lethal gas has worn the Chinese to a physical breakdown.

Farnham announced that he would petition the state supreme court to habeas corpus or injunction on Monday in an attempt to delay the proceedings until the sanity of the prisoner has been passed upon. Farnham said he believed Jon has been insane for two weeks and that his condition explained the refusal of the prison authorities to permit Jon to receive visitors or his attorney.

The state board of pardons which met here today voted that Thomas Russell, slayer of Annie Johnny, an Indian girl, must die in the lethal gas chamber of the state prison on February 8, also.

## WILL FORM NEW CABINET

Regent Orders Former Minister to Name Successor to Venezoloz Government; Premier Held Not Official

ATHENS, Feb. 2 (AP)—M. Kafanias, former minister of the interior, has been requested by the regent to form a cabinet to succeed the Xantopoulos government.

A comparison today of an X-ray photograph of Venezoloz's recent jaw taken, with one made at Saloniki in 1917, is said to have proved that there has been no deterioration and that there is no cause for anxiety over his condition.

M. Venezoloz was well enough today to take a motor ride and to receive Dr. Strauss, who arrived on the Lefteris.

The battery man of the Idaho Auto and Supply company should examine your old battery before you throw it away. It may pay you to have it rebuilt. Mr. Washburn is an expert on rebuilding, his rebuilt batteries often outlasting many of the new batteries—adv.

# FORD OFFER ON SHOALS PROJECT MEETS SETBACK

Republicans Lend Little Encouragement to Prompt Action on McKenzie Bill; Status is Same as Two Years Ago

WASHINGTON, Feb. 2 (AP)—With the McKenzie bill authorizing acceptance of Henry Ford's offer for Muscle Shoals formally reported to the house today, a move by advocates of the measure to secure prompt consideration apparently met with little encouragement from republican leaders.

Representative Longworth of Ohio, the majority leader, said it had not been determined what place could be given the measure. He said the resolution of Acting Chairman McKenzie of the house military affairs committee, requesting early consideration of the bill, had been taken up by the republican leaders to ascertain when it could come before the house.

Representative Garrett of Tennessee, the democratic leader, declared he was in favor of the McKenzie resolution and would exert his influence to obtain early consideration of the bill.

The tax measure and appropriation bills, Mr. Longworth pointed out, held precedence over other matters, and, with a request also for prompt action on the immigration bill, it was difficult to predict any date for the shoals discussion.

The resolution of Mr. McKenzie provides for ten hours' debate under the minute rule with the time to be equally divided between advocates and opponents.

The bill as formerly reported embodied practically the offer as made by Mr. Ford two years ago.

The report declared that the committee had reached the same conclusion as did the committee of the sixty-seventh congress in that "the Henry Ford offer is the only proposal which meets all of the requirements of the national defense act, and when judged in this light the Ford offer is found to be satisfactory in all respects."

A detailed comparison of the Ford offer with that of the southern power companies was submitted. In brief, the report said, the power companies offer "backs adequate guarantee," while the Ford offer "is backed by Henry Ford and his estate as well as his \$10,000,000 company."

# The Screen

IS YOUR HUSBY SLIPPING? HEED THIS WARNING

"Wives! Be unusual!" Such advice is offered women of the world by no less a personage than William de Mille, who sends this startling message through his latest Paramount production, "Don't Call It Love," which will be shown at the Idaho theater Monday, Tuesday and Wednesday.

"Wives! Be unusual!" To the average spirited American man nothing is more tiring than monotony in varying ways. She should dress differently; that is, instead of having all her house dresses pink or blue, she should vary the variety in color and style. These things would serve to keep her husband's interest centered on her at all times, whereas if she always her clothes and personality and appearance to become monotonous, he would seek elsewhere for the "something different" his life demands.

In the new de Mille photoplay, the effect of monotonous, everyday, love is brought home with unusual force by a triangle affair carried on by Agnes Ayres, Nita Naldi and Jack Holt. The other Koshoff and Rod La Ronge are also featured.

# Means of Irrigation Must Be Rearranged, Fact-Finder Asserts

Chairman Campbell Believes Changes Necessary Before Reclamation Can Succeed

WASHINGTON, Feb. 2 (AP)—A complete rearrangement of the present system governing irrigation in the west will be necessary if government reclamation is to succeed, Chairman Campbell, of Secretary Work's fact-finding committee declared today after hearing reports on the waterware conference held recently at Salt Lake.

## OBREGON SENDS MESSAGE OF SYMPATHY ON LENINE'S DEATH

MOSCOW, Feb. 2 (AP)—The only direct message of sympathy on the death of Lenin received from any national executive reached Moscow today. The message was from President Oregon, Mexico, and addressed to the federal congress of soviet. It read: "We are grieved at the death of Lenin, leader of the international labor movement."

## BEAVERS PESTS IN IDAHO

MOSCOW, Idaho, Feb. 2 (AP)—Beaver trapping on a large scale in Latah county has been instituted by C. A. Tenwick, game warden, following reports

of extensive damages to farming lands in the region and which are laid directly to the activities of these animals.

THE UNIVERSAL CAR

## Forecasting A Tremendous Spring Demand

739,626

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

### Ford Motor Company

Detroit, Michigan

A small deposit down, with easy payments of the balance arranged, or your enrollment under the Ford Weekly Purchase Plan, will put your order on the preferred list for spring delivery.

## THE GUMPS—IT PAYS TO ADVERTISE

## UNIONS TRIUMPH OVER RADICALS

President of Mine Workers Claims Complete Rout of Communistic Agitators

INDIANAPOLIS, Feb. 2 (AP)—Conservative trade unionism has scored a marked triumph over the destructive influence of communism, International President John L. Lewis of the United Mine Workers of America declared today after adjournment of the miners' biennial convention. He spoke of the convention's work as a whole and of the repudiation for the second time of Alexander Howat, deposed Kansas district president.

"The complete rout of the radical influence," Mr. Lewis said, "demonstrates that the overwhelming majority of the membership of the United Mine Workers believe in constructive progress through the instrumentality of orderly procedure."

"The United Mine Workers have been made the target by these gray wolves of a pernicious philosophy. The master mind of radicalism in America have been hovering around the Indianapolis convention and nightly have assembled in their dens to lay their plans for stamping the convention on the following day. Gathered here were Foster, Myerscough, Howat, Dume, Hamilton and others of their ilk, with ample funds at their disposal to carry out their preconceived plans for the destruction of the largest unit of American labor. As they have failed now, they will fail again, and we believe our citizenship to recognize the menace of such sinister influences and to place the heel of disapproval upon its serpent head."

"The scale demands of the United Mine Workers as enunciated by this convention should receive the endorsement of all thoughtful citizens. They report a constructive policy designed to insure peace within the industry for a period of four years and will give ample time for necessary readjustment. If the coal operators of the country will assemble in conference with the mine workers' representatives in a similar state of mind, there is no question but that an agreement can be negotiated in sufficient time to allay any feeling of public apprehension and prevent any suspension of production after April 1."

**Ethical Standards.**

## GERM FACTS

Thirty years ago much was heard of the "germ theory." Today science knows they are facts—not theories. Like such and such a little was known about germs until recently, but our knowledge is expanding rapidly. We know that germs directly cause many diseases and are indirectly responsible for many others. For instance, hardening of the arteries is due largely to injury by germs to the blood vessels, which becomes manifest later in life when the infections which caused it no longer exist.

Bacteria, the medical name for germs, are single-cell plants, so small that one drop of water may contain two billion. Like other organisms, they multiply by one cell dividing into two, two into four, etc. Those of diphtheria multiply enormously in six to eight hours. Like other plants, they take in food, eating off waste and die when conditions become unfavorable. If conditions of food, light, ventilation, moisture and climate

are favorable, one single germ will reproduce so rapidly that in 24 hours there will be 15,000,000 descendants. Like other plants, they always reproduce their own kind—a pus germ always produces a pus germ, etc. Some require a great deal of oxygen, others, like those of lockjaw, grow only in absence of air.

They develop a remarkable resistance enabling them to survive extremes of heat, cold, drying, etc. Some form a dense covering called "spore," and when conditions become favorable become lively trouble-makers. They are present almost everywhere—in the soil, in water, in undigested food, clinging to dust particles, and in disease even in the blood.

Not all bacteria are harmful—some are of distinct advantage. Those who strive to destroy are the disease-producing specialists. There is also a group which produces poisons in food, such as vitamin, as extremely dangerous poisons.

## ROCK CREEK

ROCK CREEK—Mr. and Mrs. Lloyd Brown had the misfortune to have their house burned down last week, the fire catching from an overheated stove. They saved only a few things.

The gravel road is finished and the gravel haulers are starting work on the Pleasant Valley road. The hauling crew gave a dance Wednesday to celebrate completion of the Rock Creek road.

Mrs. Leth has been quite sick the past week, but is improving.

Leo Van Esten has been having some trouble with his tonsils and had to be in the hospital for treatment.

Dan Iverson of Cottonwood, is here looking after his property.

The stage driver, Mr. Lewis, has been quite sick and had to be taken to a hospital, but is home now. Bob Brewer of Hansen is delivering the Rock Creek mail now.

Farris Larsen came home from Twin Falls Wednesday to recuperate from a spell of mumps.

Miss Catherine of Kimberly, is helping her sister, Mrs. R. Vanderpool, this week.

Henry Hansen motored to Twin Falls Wednesday on business.

## No Born Criminals.

There is no such thing as a born criminal, and it is impossible to maintain that criminality as such is inherited to any great extent. Childhood crime is, as a rule, simply an overabundance of constructive energy, blocked or misdirected.

## Gold First Metal Used.

Gold was the first metal used by man, and the arbitrary value assigned to it for its supposed magical qualities initiated a world-wide search for it and made it a potent factor in shaping the history of civilization.

## That Explains It.

She (seated in park): "Oh, Harry, we'd better make love; I'm sure I felt a raindrop." He: "Nonsense, dear! We are under a weeping willow."

## TUNNEL CASCADE DIVIDE

Plans for Development of Eugene-Klamath Falls Line Include Piercing of Mountain Ranges

BOYCE, Ore., Feb. 2 (AP)—The high divide of the Cascade mountains, barrier to commerce and communication between the western and eastern sections of Oregon will be penetrated with a long tunnel near the west end of Odell lake, according to announcement of the Southern Pacific railroad officials. This is part of the work of developing what is known as the Eugene-Klamath Falls line now under construction by this company, forming a new line between Oregon and California.

Engineers are now arranging for the site near the summit of the mountains and they start that preliminary work on the tunnel which will be 1,500 feet long, is expected to be started in the near future.

## "LOST HEIRS"—HEIRS WANTED.

A book filled with names for lost heirs and missing kin from different parts of the world. Chambers Court of England, Ireland and Bank of England unclaimed dividend list included. Write for free bulletin. International Claim Agency, Dept. 36, Pittsburgh, Pa., U. S. A.—adv.

The Idaho Auto and Supply company will have a first class mechanic on duty every Sunday after 3 p. m.—adv.

## Umatilla Farmers to Try Diversification

PENDLETON, Ore., Feb. 2 (AP)—Farmers on the irrigated lands of the Umatilla project around Hermiston are going to try out diversified specialties in an attempt to increase their profits in 1924. About 50 acres have been signed up on which asparagus, strawberries, early potatoes and other produce will be grown.

## FIVE BELIEVED LOST

PADUCAH, Ky., Feb. 2 (AP)—Five men, missing since the wreck of the steamer Thomas C. Powell, eight miles below here in the Ohio river, still were unaccounted for Friday night and generally were believed to have perished in the disaster.

Reports from the scene of the wreck were that the steamer, grounded on an outflowed bar, after it had struck an obstruction in mid-channel last night, had settled until only the top of the pilot-house was showing above water.

## EIGHT LOST IN SHIPWRECK

ST. JOHN, N. B., Feb. 2 (AP)—Eight lives were believed to have been lost, four of them in a valiant attempt to rescue when the Peruvian freight steamer Petrus ran down and sank the Nova Scotian schooner Maid of Scotland in the Bay of Fundy shortly before dawn Friday.

An all-day search failed to find a trace of Captain W. D. Hauglin of Lunenburg, and three of the schooner's crew.

If you could see as far ahead as you can behind—you'd own an Idaho Dept. Store Suit this Spring!

It took Fulton just so long to invent the Steam Boat and Newton just so long to discover Gravity—and by the law of average, it is going to take you just so long (unless you own a suit with our label) to realize that the clothes you get here, whether you pay \$19.50 or \$60.00, are the best clothing buys in America.

Meanwhile—we know this: that if you could see February 1925 now as clearly as you can see February 1923—we would not have to say another word.

## NEW SHOES FOR MEN

Florsheim Oxfords for spring, in patent leather with gray stitching or in light tan.

"If it isn't right bring it back"

## BREAK A CHEST GOLD WITH HEAT OF RED PEPPERS

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into colds, congestions, aching muscles and sore stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Royles' Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Royles"—adv.

## NOTICE!

TO THE PUBLIC: The signs in our windows, stating February 2d as our closing day, "are now down."

The sale did not go as big during January as we expected. So we will continue to keep open shop until all merchandise is disposed of. If you have not already attended this closing out sale, you are not doing yourself justice. Some lines are depleted, others are in good shape, so don't delay. Come in and help yourself to good merchandise at money saving prices.

All fixtures are for sale.

**WOODROW WILSON**  
The thoughts of many persons are directed towards the condition of President Woodrow Wilson and towards the man himself as a result of an announcement of his serious, possibly mortal, illness.

Even among his enemies, and he has many, it is generally recognized that Woodrow Wilson is one of the great men of a decade. There is an question but what he brought to bear upon the problems of the office of President a degree of intellectual development which will forever ensure him a high place among the Presidents of the United States.

The high note of his career was struck with the League of Nations, a plan the right or wrong of which was never settled upon its merits and which history may yet disclose to have been merely ahead of its time and not at all unseasoned fundamentally.

Be that as it may there is no lack of sympathy for him throughout the nation today.

**"MINORITY RULE"**  
Mrs. Maud Wood Park, president of the League of Women Voters, is preparing to get out the vote next fall, and is much exercised by the comparatively small vote cast in recent elections.

In nineteen hundred twenty, she points out, only forty-nine per cent of the voters cast ballots, and in the state elections of nineteen hundred twenty-two only a little more than one-third. Wherefore she concludes that the absence is in a perilous state.

"The absence of fifty-one per cent of the qualified voters from the polls," she says, "is more serious than an epidemic, a greater menace than a refusal to pay taxes, for it strikes directly at the foundation of our government—the principle of rule by the majority of the people."

Now, any good citizen will grant that it is his duty to stay away from the polls—had for them, and bad for public affairs. But it does not follow that the country is thereby going to perdition, or that the principle of majority rule is wrecked.

It does not take a majority of citizens to make a quorum, in any election. Our government, municipal, state and national, is representative. Voting has always been regarded, in law and in fact, as a privilege of every citizen, not as a legal requirement. Those who take the trouble to vote elect public officials and determine public policies. Those who do not take the trouble are represented by their voting neighbors, and as a rule, rather fairly represented. If they had any good reason for wanting things otherwise, they would go and vote to have them otherwise. Thus the actual percentage of citizens voting in any election seldom makes any material difference in the immediate result.

It is in the indirect results and the long run that absence from the polls is destructive of good government. That comes about because people who do not vote do not keep up a living interest in public affairs and an active censorship on public officials.

**PREMIUM ON NATURALIZATION**  
An immigration plan submitted by Senator Reed of Pennsylvania would base the selection of immigrant quotas not on the number of any nationality merely living in the United States in some particular year, but on the number of naturalized citizens here in that year.

This seems, on the face of it, a better principle of selection than the one now in force, which the present plan of the House immigration committee would continue. The kind of immigrants wanted are the kind that will

make good Americans. Generally speaking, the races that eagerly seek citizenship are the most easily Americanized. It is right to give an advantage, in immigrant quotas, to the nationalities who become naturalized, as against those content to live and profit in this country without naturalization. We want more like them, and fewer of the indifferent kind. Congress might well give this matter serious thought.

## Fifteen Years Ago in Twin Falls

From News Files, February 5, 1909

The first poultry show held in Twin Falls county closed on Saturday evening, January 30, at 9:30 o'clock. The exhibit declared they never felt their eyes upon a better lot of birds. The exhibit was not so large as it would have been had the weather been favorable. All who are interested in bird poultry and more of it, should affiliate with this association. The first National Handicap was won by Mrs. C. G. Frantz, Twin Falls. Bank and Trust company was won by Rev. J. A. Aldrich, Rupert, Idaho. Booth trophy cup was for the first time by Carl A. Jaeger.

The First Presbyterian church of Twin Falls was dedicated on Sunday afternoon, January 21, at 2:30 o'clock. The dedication services consisted of responsive exercises by the congregation and brief addresses by local pastors and visiting ministers. The services were conducted by Rev. J. H. Barton. At that time 17 members affiliated.

J. H. Wise is building a nice residence on lot 11, block 4. It is of the bungalow type which is so popular in Twin Falls.

James Summers and Miss Laura Bartholomew, both of Jerome, were married in the Hotel Perrine parlor on Tuesday evening, February 2, by Rev. John Gourley.

If S. Martin and Charlie Burton have purchased the Piler Coal company and now bid fair to become manufacturers of great wealth.

It is reported that several rich strikes of gold-bearing ore have recently been made in the vicinity of Condit, Nevada. Gold find has of ten been found in that locality, which is exceptionally rich in copper, but no leads of any consequence have been discovered. Ore which runs \$100 a ton in gold have been brought in to Twin Falls during the past few days.

**HANSEN**  
HANSEN—Mrs. James Smith has been very ill at a hospital in Twin Falls the past week, suffering from a complication of rheumatism.

Charles Wafumel and family moved to this week to a farm near Piler and Mrs. G. E. Pledger moved into the Pledger house vacated by the Wafumels.

Harold Smith of the People's Store received word this week that his uncle, W. M. Martin, of Montreal, Canada, had died. Mr. Martin will be remembered by a good many Hansen people, as he spent some time in this city.

Miss Mildred McClelland was forced to give up her duties in the high school the past week on account of a relapse following an operation for cancer. She will go to relatives in Missoula as soon as arrangements can be made for some one to accompany her.

Prod Kopp moved his family here from Hazelton Thursday and will be the new proprietor of the Hansen bar.

Charles Calvert has had installed a new five vacuum tube radio set in his home.

Mrs. Sam Osgood entertained the members of the Hansen Bridge club on Tuesday afternoon. Mrs. G. E. Pledger won high scores.

Those making elementary grades in the grade school during January are as follows: First grade, "A": William Wiseman; "B": Malcolm Foster; "C": Bill Hill; Samuel Rogers, Clara Sherman. Second grade, "A": Sherman Bellwood, Irene Schaffer, Cydella Jones, Lena Jackson, Dean Hill, John Bennett, Jessie Johnson, Charlene Threlkeld. "B": Lucile Buxter, Robert Durr; "C": Lucile Hill, Fern McFarland, George Pledger, Clyde Smith. Fourth grade, "B": Gladys Coiner, Fred Howard, Ruby Wiseman. Seventh grade, "A": Alfred Ball; "B": Tom Hill, Clarence LaCourse, Mary Cowan, Henrietta Pledger, Rita Case, Lenora Pennewell, Frances Goodman.

"B": Helen Scherpp, Howard Hill, Emily Walker, Orville McLean.

Reports were received from the county examiners on Monday to the effect that the entire eighth grade passed satisfactorily on history and reading and four out of the class made 100 per cent on the Latin subject.

**Too Many Tills**  
A Yorkshireman who had lived all his life on the flat moors of his home county went to Switzerland for a holiday. When he returned he was asked by the untravelled natives what Switzerland was like. Said the traveler, "Yorkshiremen in disappointed tones, 'I reckoned nowt like it. I cud see nowt for t' bloom'n hills'."

**Look Out for No. 1**  
Mrs. Key was following note for her nearest neighbors. "Dear Mrs. Garrison: Would you please put out a little food for the cat I have been feeding this winter? It will eat almost anything, but do not put yourself out." The boaster.

## Dreamland Adventures

HURT IN THE WOODS  
By DADDY

CHAPTER I.  
Janet Has An Accident.

JANET was having fun with a new toy. This toy was a little wooden ball at the end of a long rubber cord. Janet would throw the wooden ball at a mark in the snow or at a tree and the rubber would bring it flying back to her.

So busy was Janet with her play she did not notice how far she had gone into the Great Woods. Suddenly she looked up to find that she was at least a mile from home. A big alarm, she turned back.

Then she saw an animal starting about a yard away. She said, "Gracious!" she thought. "It looks like a wolf!"

Quick as a cat Janet hid behind a large tree. She thought the animal might go by without seeing her. She stood very quietly for a long time, and then, not hearing anything, she peeked around the tree, and there, right in front of her eyes, she saw the animal—a big, bushy tail. She couldn't see the animal itself, for the animal was curved around the tree.

"Goodness! It is a wolf!" thought Janet. "And it is stretching around the tree to grab me!"

What could she do. If she ran the animal would be upon her at once. Janet stood still, her heart beating so fast she could do to keep the animal from grabbing her—she grabbed the animal by the bushy tail.

The animal gave a jump, jerking Janet almost off her feet. She heard a startled "Woof!"

She knew that voice! It was the voice of Daddy Dog. Janet peeked behind her. She could see the head of the animal stretching around the tree toward her. Sure enough, it was Daddy Dog.

"Hello, Daddy Dog," cried Janet, much relieved. "My you gave me a scare. I thought you were a wolf!"

"Woof! It is a good thing I wasn't," barked Daddy Dog. "If I had been I might have felt when you grabbed my tail."

"I am glad you are not a wolf," said Janet. "When I saw that bushy tail I felt just as Red Riding Hood must have felt when she came upon the wolf in the gloomy woods."

"I never heard Red Riding Hood must have felt when she came upon the wolf in the gloomy woods," barked Daddy Dog. "but I

**Breakfast Food**  
"Matrimonially Speaking"  
By MRS. HUGH MCKAY

My husband doesn't listen to me when I tell him interesting bits of news I have gathered here and there.

He never acquits this, of course, and an inexperienced observer might think that he was the sort of attention. But I know better.

When he is sitting in his head and looking as though he were drinking in my words, the chances are two to one that he's wondering whether or not he ought to throw a little more into the furnace.

I can prove this any time I want to—simply by stopping and asking him a question. He's almost sure to put in "Yes, yes, yes, yes, yes, yes, yes."

Another favorite move of his is to continue reading his paper after I've begun to talk to him.

"Go right on," he says, saying, "I can hear you. I'm listening."

Is it any wonder that some women get the habit of talking to themselves?

(Tomorrow, my wife overdraws her bank account.)

## SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist

Any breaking out of the skin, even flaky, itching eczema, can be quickly overcome by applying a little Menthosulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation breaks at once to soothe irritated skin and heal eruptions such as rash, pimples and ringworm.

It seldom fails to remove the torment and disfigurement, and you do not have to wait for relief from emollients. Improved quickly shows. Sufferers from skin trouble should obtain a small jar of Rowles Menthosulphur from any good drug and use it like cold cream—adv.

**Legendary City.**  
Camelot is a legendary city in Great Britain, famous in the time of King Arthur. Brewer, in his book of the Handbook, says that there are two Camelots—the one referred to in King Lear being in Cornwall, and the one of Arthurian renown in Winchester, where visitors are still shown certain large interments once belonging to King Arthur's palace. In some places, even in Arthurian romance, Camelot seems the city on the Camel, in Cornwall. Thus, when Sir Tristan left Tintagel to go to Ireland, a tempest "drove him back to Camelot."

**Which Fork, Please?**  
When American efficiency is extended to good manners, the hostess will serve a sheet of instructions with each course.—Akron Beacon-Journal.

She was at least a mile from home.

You want to get home safely without meeting any wolves you had better start at once. I'll go along to protect you."

Janet was glad to have Daddy Dog do that. She walked along beside him, and as they tramped through the snow toward home she told him the story of Red Riding Hood. As she reached the part of the story about the old woman who had been grabbed by Red Riding Hood, Daddy Dog growled fiercely.

"If any wolf tried to treat you the way that bad wolf treated Red Riding Hood, I'd fix him," he barked.

At that moment a faint howl sounded through the quiet forest. The hair on the back of Daddy Dog bristled.

"Hurry! Hurry!" growled he. "Hurry faster, for I hear the voice of 'Snarlly Wolf.'"

Janet did hurry. She began to run. Then of a sudden her foot caught in a root hidden by the snow, and she fell sprawling on the ground. When she tried to get up she gave a cry of pain.

"My foot hurts," she moaned. "I can't walk."

And she couldn't. Her foot would not bear her weight, even when she leaned on Daddy Dog.

Daddy Dog grew very anxious. "What shall we do?" he growled. "There is a storm coming. The wind is rising, growing cold, snow is falling fast. And do you hear that howling wolf? He may come this way."

(What they do and how they astonish Snarlly Wolf will be told tomorrow.)

## Held in Trust

By  
GEORGE KIBBE TURNER

Illustrations by Irwin Myers

(Continued.)

There certainly was something strange there, his friend, the young doctor, had intuited even before she was giving better. Even this he could scarcely believe.

But, "Poor Adelaide," he said, after he lay half asleep in bed, "the least I can do is to go and see."

He carried out his intention that very next morning, and was surprised at the outset to see the strange door, at the door in place of the old familiar figure so long stationed there.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

"I'm sorry, sir," said the new door-keeper.

## LEGAL ADVERTISEMENTS

**ALIAS SUMMONS FOR PUBLICATION.**  
In the District Court of the Eleventh Judicial District of the State of Idaho, in and for Twin Falls County.

The Utah Savings & Trust Company, Receiver for the Consolidated Wagon & Machine Company, a corporation, Plaintiff,

vs.  
Glenn C. Gould, Ruth Gould, his wife, and Ray C. Norris, Defendants.

The State of Idaho sends greetings to Glenn C. Gould, Ruth Gould, his wife, and Ray C. Norris, the above named defendants.

You are hereby notified that a complaint has been filed against you in the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls, by the above named plaintiff. This action is brought against you on such mortgages as were filed in the County of Twin Falls, Idaho, on or after January 1st of 1920, and for the further purpose of adjusting the rights of the defendant, Ray C. Norris, in the property covered by the above named chattel mortgages. Said chattel mortgages being filed in the office of the Recorder of Twin Falls County, Idaho, under number 10609 and number 52385, respectively.

And you are hereby directed to appear and answer the said complaint within twenty days of the service of this summons, if served within the Judicial District, and within forty days if served elsewhere; and you are further notified that unless you so appear and answer the said complaint within the time herein specified, the plaintiff will take judgment against you as prayed in said complaint.

Witness my hand and the seal of said District Court this 25th day of January, 1924.

C. C. SIGGINS, Clerk.

(SEAL) C. C. SIGGINS, Deputy.

E. M. Wolfe, C. Wilkins, attorneys for plaintiff, residing at Twin Falls, Idaho.

# DINNER FACTOR IN PLANS FOR FARM INSTITUTE

Three Day Sessions Here to Be Made Occasion of Community Get-Together Affair for Pleasure and Profit

One of the interesting events in connection with the community institute to be held here beginning next Tuesday and continuing for three days will be the community dinner to be served at 6 o'clock Thursday evening, according to announcement made Saturday by Secretary Charles F. Dwight, of the chamber of commerce.

The place for the dinner, for which the chamber of commerce is arranging, has not yet been determined, but an effort will be made to accommodate the largest possible assemblage for that event.

Arrangements for the institute as a whole, in which the chamber of commerce is co-operating with the University of Idaho and its extension division, are going forward with a view to bringing together on this occasion as many as possible of the residents of Twin Falls and the Twin Falls country.

**Entertainment Figures**

The program has been arranged with the purpose of affording entertainment and amusement in addition to valuable information for everyone.

One of the features of the second day is to be provided by Miss A. A. A., a talented artist of the university staff, who is to give several musical selections and readings.

In the course of the institute, one of the foremost authorities on crop production, stock raising, poultry and dairying will discuss various phases of these subjects.

**Discussion Themes**

Interesting and instructive discussions arranged for the institute include a review of conditions in the Twin Falls region by J. C. Wheeler, general manager of the Idaho Potato Canning company; lecture on potato production by E. H. Bennett, field horticulturist of the extension division; discussion of methods for combating the menace of the alfalfa weevil by Claude Wakefield, entomologist; and a lecture by H. C. Dale of the university on "Is Farming a Losing Game?"

Readings of the institute will be held in Parish hall, with the exception of the women's section on Wednesday and Thursday, which will be held in Odd Fellows hall.

## CONTACT CITIZENS MAKE WAY WITH CARS TO ELKO

Road Over Summit Passable But Badly Washed in Places; Get Out of Way; Halt Operations in Copper Camp

Henry Crittenden and Billy Ring of Contact with trucks and cars, successfully passed over the summit between Contact and Wells, Nevada, early last week, according to the Elko Independent, which says:

Activities at Contact are not pronounced at the present time. Crittenden and Ring declared. Cold weather has hindered operations for the time being, and has also resulted in a cessation of mining operations, the Gray Mining company having been compelled to stop because of frozen water pipes.

The two trucks and the two cars in which the Contact party made the trip from Contact to Wells are the first cars to come over the road since snow fell.

Considering the season, the road is in good condition, and it was not necessary to stop any snow on the entire trip. In several places, however, the road was so badly washed that a detour through the sage brush was necessary.

H. V. Platt, assistant general traffic manager for the Oregon Short Line Railroad company, who was a visitor in Twin Falls, said that the company, which the Union Pacific company is ready to start operations towards constructing the Wells-Rogerson railroad as soon as weather conditions will permit.

**BLUE PINE COFFEE IS SERVED TO GROUP AT J. D. STORE**

With R. M. Garhart of John Snowcroft, son and company of Ogden, in charge, Blue Pine coffee which is now being introduced in this territory, was served to Idaho Department store shoppers all day Saturday and during the evening.

Blue Pine carries with it the guarantee of satisfaction of the Snowcroft house and was eagerly perked of by hundreds of store visitors during the Saturday afternoon demonstration.

A similar demonstration will be held at the Wall Brothers grocery here on Saturday, February 16.

## Oregon Short Line Right of Way Man Expected Monday

Work of Acquiring Necessary Land for New Road to Be Taken up by Local Committee at Once

According to word received in Twin Falls by Mr. J. Sweeney Saturday, T. C. Burt, right of way engineer of the Oregon Short Line, will arrive in Twin Falls on Monday with final instructions for the work of securing the necessary right of way for the new road from Rogerson to Wells.

Copy of a blue print map some 20 feet long was also received by Mr. Sweeney showing the entire right of way and the lands traversed during the entire distance. Right of way in Idaho has already been secured with exception of one piece and some school land with respect to which condemnation proceedings will be necessary.

Full details as to the securing of the balance of land required will, it is understood, be taken up by Mr. Burt with the local committee and the acquiring of the necessary land will go forward at once.

## CASES AGAINST MEXICANS FAIL

Two Felony-Charged Prisoners Set Free when State's Witnesses Disappear

Two Mexicans, held under felony charges, were released Saturday from the county jail, following dismissal of the charges by Judge W. A. Baker in district court, on motion of the prosecuting attorney, setting forth that the principal witnesses in each case, who were Mexicans, had disappeared and could not be found by the sheriff's force. Affidavits to this effect were submitted to the court by the prosecuting attorney and sheriff.

The Mexicans who thus gained their liberty after several weeks' confinement in jail, were Antonio Perra, charged with robbery of Jose Argueta, committed to jail in 1921, and Juan Chacab, charged with assault with a deadly weapon upon Manuel Moreno, committed January 2.

Both Moreno, who was the complainant in the case against Cabrera, and Argueta testified for the prosecution in preliminary examinations.

**Weapons Retained.**

The gun alleged to have been used by Perra when he is said to have robbed Argueta of \$60, was retained by the chief of police, and the knife used by Cabrera in the alleged assault upon Moreno, remained in the sheriff's office after the release of the accused Mexicans.

Motion for separate trials of the defendants in the case of John Harms and Harry McMillan, charged with a fatal shooting, was granted by the court after hearing argument by attorneys.

**Arson Trial Next.**

Trial will begin Monday in the case of Fred Brandes, Payette, charged with second degree arson in connection with an attempt to burn the Twin Falls Vindicator and other company plant here December 7, last. Several witnesses have been summoned from Payette to testify for the defendant.

## Movies Denied to Young Wrongdoers by Court's Order

Juvenile Court Judge Imposes Novel Sentence in Case of Nine-Year-Old Bicycle Thieves

Under judgment imposed Saturday by Judge O. P. Duval in juvenile court here, two small boys, each also years of age, must not attend motion picture shows for a period of 30 days. The youngsters confessed to stealing two bicycles recently reported missing, and a .22 calibre revolver was found in the possession of one of the lads.

The boys readily revealed to John R. Ault, probation officer, and Chief of Police P. O. Herlihan the whereabouts of the two missing bicycles, one of which was taken Thursday from the vicinity of the high school and the other from in front of the Rialto theatre.

Urinary evoking concluded a three days engagement at the Lavering theatre, arriving here Saturday to join her husband. Mrs. Richards is identified with motion picture play production.

## Conditions Favorable for Groundhog Shadow

"Sunshine, that appeared spasmodically throughout the day and waged a losing fight against penetrating chill of persistent wind was sufficient to make it certain that the groundhog saw his shadow when he emerged Saturday in the morning."

Wind Saturday made weather appear colder than was indicated by the mercury record. Fair weather was forecast for today and temperature was falling late Saturday night but water standing on the streets was not frozen at midnight.

We charge only four dollars per month for dead storage for cars. Leave your car with us for the winter. Our battery department can also look after your battery. Idaho Automobile and Supply Co.—adv.
