PRICE FIVE CENTS

FALL HEARING
HELD UP UNTIL
SENATE MEETSReceipt of Testimony Deferred
on Account of Wilson Death;
Bank Records to Be Brought
into Inquiry

WASHINGTON, Feb. 4 (AP)—Albert B. Fall, central figure in the naval oil lease investigation, was notified today that his reappearance before the senate investigating committee would be deferred until Friday because of the adjournment of the senate until Thursday out of respect to the memory of former President Wilson.

The one-time secretary of the interior, who has challenged the authority of the committee to proceed with its inquiry, was to be summoned for tomorrow, but efforts to examine him will be postponed until the senate has given the committee an additional grant of authority. This will be asked for Thursday with the expectation of prompt action.

The committee will meet tomorrow and adjourn until Thursday, when Carl P. Biggeman, assistant cashier of the Chase National Bank of New York, is to be called. Mr. Biggeman has been directed to bring to Washington the records of the Chase National bank relating to remittances of funds by that bank to any bank in Washington payable to the order of Harry P. Sinclair, or his personal counsel, J. W. Zevely, between September 1, 1921, and June 1, 1923. Mr. Sinclair obtained the lease to the Teapot Dome reserve on April 7, 1923.

Brokers Called
Samuel Ungerleider and officials of other Washington brokerage firms have been summoned for tomorrow, but whether they will be called at that time was undetermined tonight. The committee will seek from them permission to have accountants examine their books in an effort to determine whether there was dealing by any government officials in the stock of the Mammoth Oil company, organized by the Sinclair interests to take over the books of the Teapot Dome lease.

Such an examination now is being made of the books of W. B. Hibbs and company, a Washington banking and brokerage firm, on the basis of a list of names in possession of the committee. The accountants will probably be able to report at the end of this week or early next week.

Prosecution Prepared
Meanwhile the counsel appointed by President Coolidge to initiate court proceedings in the oil lease case under the authorization of congress in the Walsh amendment resolution is pressing its work forward. Former Senator Pomeroy of Ohio, who accepted appointment last Saturday in place of former Attorney General Gregory, conferred today with members of the senate committee.

Probably the first step to be taken by Mr. Pomeroy and his republican associate, Elias H. Strauss, will be filing of injunction suits to prohibit the further extraction of oil from California.

King Tut's Coffin
Revealed For First
Time in 3200 YearsCarter's Excavators Finally
Come Upon Remains of Pharaoh; Ancient Burial Belies
Are Uncovered

LUXOR, Egypt, Feb. 4 (AP)—For the first time in 3200 years the great stone coffin of Tutankhamen stood forth today in all its majesty, shorn of its protective nest of golden shrines.

The fourth casket proved, in Howard Carter's experienced hands, a less formidable problem than was first surmised, and a few hours' work yesterday sufficed to disengage the sarcophagus. Then it was seen that the enthusiasm evoked by the glimpse obtained four weeks ago of one end of the sarcophagus through the open doors of the enclosing shrines was justified.

A massive in construction as it is, 'chaotically simple in design, and as untouched by the tooth of time as it is, inviolate from the hands of tomb robbers, this grandiose stone chest, gleaming pink beneath the glare of the electric lamps must be acclaimed an unique specimen of the funerary art of the eighteenth dynasty.

The four crowned goddesses of death, who, in traditional postures, stand at the four corners of the coffin with wings outspread to shield the dead monarch from the forces of evil, are

Social Activities
Cancelled During
Period of SorrowNo Function Will Be Held at
White House in 30 Days,
President Announces

WASHINGTON, Feb. 4 (AP)—Cancellation of all social activities at the White House during the 30 days of official mourning for former President Wilson was announced today. The order affects the congressional reception which was to have been held Thursday night, and several other state functions.

President Coolidge will keep his engagement to go to New York on February 12 to speak at the annual dinner of the National Republican club, however, officials, pointing out that this was not a social function.

SEVERE STORM
HITS MID-WESTHigh Winds Break Telegraph
Lines as Worst Gale Since
Winter Sweeps Nine States

CHICAGO, Feb. 4 (AP)—The worst storm of this winter from many angles swept the country from Minnesota to Texas today with its center in Missouri, sleet and wind playing havoc with communications and colder weather having set in in the north. Many cities and towns were isolated by sleet-burdened wires.

The high winds, according to weather bureau reports, did as much damage as sleet, and reached a velocity of 45 miles an hour in Chicago and ranged from 30 to 40 miles an hour over much of the other territory affected which includes Minnesota, Wisconsin, North Dakota, Iowa, Illinois, Nebraska, Kansas, Missouri and southwestern into Texas.

The storm developed in the west last Saturday and has assumed widespread proportions in the middle Mississippi valley, although the situation is clearing up today in western Nebraska. While precipitation was widespread it has not been heavy although about three inches of snow have fallen in the western and northern portions of the affected district with snow and sleet and rain and high shifting winds in other portions. Telegraph wires failed in many places.

MANY TRIBUTES
PAID MEMORY OF
WAR PRESIDENTMessages of Sorrow Are Sent
by National Leaders and Individuals
at Death of Woodrow Wilson

TOKIO, Feb. 4 (AP)—The admiration and esteem with which the late Woodrow Wilson was regarded in Japan is testified to in scores of messages pouring into the American embassy here from leading Japanese citizens and statesmen and diplomats from other nations.

Newspapers and other publications issued today are largely devoted to stories of his death, his obituary and tributes to him.

"The late President Wilson deserves Japanese gratitude in many ways," states the Nichi-Nichi, one of the leading newspapers of Japan.

"His friendship for Japan was eloquently expressed in his efforts to mitigate the rigors of the Californian anti-Japanese movement and obtain recognition of Japan's Manchurian position through the Ishihara-Lansing agreement. His death deprives Japan of one of its most esteemed benefactors and the world of its most powerful peacemaker."

PARIS, Feb. 4 (AP)—President Millerand today called Mrs. Wilson as follows:

"In the name of the French nation and in my own name, I associate myself with all my heart in the grief that has so cruelly come to you."

"My country will never forget the great president who played such an important part in the decision whereby the United States came to take her place beside France and her allies in the war of right against might."

"Humanity will cherish the memory of the generous thinker whose dearest wish was to assure forever the peace of the world."

FRANCE MOURNS

PARIS, Feb. 4 (AP)—André Tardieu,

in the Echo National, writes:

"The people of France will not forget that if Woodrow Wilson might have been mistaken in certain political aspects of the peace, he gave his whole mind, soul and will to the war. He felt fighting on the battlefield of peace for those ideals of collaboration to which the short-sighted egoists

SIMPLE SERVICE PLANNED
FOR LATE WAR PRESIDENT

Wilson Ends Life's Journey

"I am ready." These were the last words uttered by former President Woodrow Wilson last Friday night when he realized his last hour was near. From that time until he passed away at 11:15 o'clock Sunday morning while asleep he fought a constantly losing battle but one marked by the same courage that marked those historic days in the White House. The above picture was taken on Armistice day last year as the wartime president and Mrs. Wilson were starting on a short automobile ride in Washington.

Discovery of 1893 Law Mars
Plans For Tribute to Wilson

PRIEST SHOT; MAY DIE

BRIDGEPORT, Conn., Feb. 4 (AP)—Reverend Father Hubert, of Dahm, pastor of St. Joseph's Catholic church, was shot and probably mortally wounded by an unidentified man shortly after 7 o'clock tonight. The shooting occurred on Main street in the heart of the theater district.

Suspension of Governmental Activities Barred by Old Measure; Cabinet to Be Called for Discussion

WASHINGTON, Feb. 4 (AP)—Steps to suspend all activities of the government on Wednesday, the day of the funeral of Woodrow Wilson, were brought to a halt tonight by discovery of a law passed in 1893, expressly providing that executive departments of the government may not be closed as a mark of respect for a former official. An executive order closing the departments was written out yesterday but signature was withheld until the day of the funeral was learned. President Coolidge was at the point of signing it today when the 1893 law was discovered.

Several suggestions as to a way out of the difficulty were discussed. One was that each department head inform the employees under him that they need not report for work, thereby actually closing the department, but this step, it was felt, would not accomplish the desired purpose of showing respect for the former president.

No decision having been reached, directions for a cabinet meeting tomorrow were sent out, although earlier in the day it had been decided to discontinue the session.

THREE ESCAPED CONVICTS
SHOT BY PRISON GUARDS

JEFFERSON CITY, Mo., Feb. 4 (AP)—All three of the convicts who escaped from the Missouri penitentiary early today were shot and killed after 8 o'clock tonight by prison guards who chased them from a barn about two and one-half miles east of the city, according to reports received at the prison. The men fled from the barn and were riddled with bullets fired by the guards as they ran across an open field the officials said.

Following the inquest it was reported at the prison that the three guards in the tower house on the south wall would be suspended pending an investigation. They are: E. A. Lavelle, J. N. Williams and S. L. Boyce.

MODERNIST APPROVED

NEW YORK, Feb. 4 (AP)—The modernist preaching of Dr. Harry Emerson Fosdick an ordained Baptist minister from the Missouri peninsula of the First Presbyterian church on Fifth avenue, was approved today by the New York presbytery.

IDAHO WEATHER
Tuesday: Rain or snow.

Religious Rites Befitting Closing Years of Woodrow Wilson's Life to Take Place Wednesday

World Mourns at
Passing of Leader
in War and Peace

Body Will Rest in Marble Vault on Hills Overlooking America's Capital City

WASHINGTON, Feb. 4 (AP)—America's war president will be laid to rest here Wednesday with a simplicity of religious service befitting the closing years of his life. No splendor or official honors will mark the entombment.

But while this decision was maturing among those he held closest in his heart, the name of Woodrow Wilson was again ringing around the world today in an outpouring of tributes to a leader who had given life itself in service for mankind.

Time was not so long ago when that name kindled the war-stricken millions of Europe to frantic hopes that the vision that shone before his eyes could be brought in a world reborn to peace. This was when the tramp of armed hosts on parade; the surge of the tens of thousands straining to glimpse his erect figure greeted him in the great capitals of Europe. The world hung upon his words as seldom, if ever before upon the utterance of any man.

Ceremony to Be Brief

And yet, after another day, he will be laid to rest in a space in the marble vault on the hills overlooking the city, naught but the brief ritual of the church to solemnize his entombment. The shouting and clamor ended for him and with it all the pomp and ceremony of greatness of place, when the heavy burden of the presidency was passed from his tired shoulders nearly three years ago.

That was the decision reached today by Mrs. Wilson. The day of her long, brave fight for her stricken husband's comfort and peace could not end, even with his death. Upon her must fall the duty of decision as to the manner and place for entombment, the weighing of the claims of the nation to pay highest honors to the dead against her knowledge of his dislike of the show and stir of heavy ceremonial.

Coolidge Aids Plans

The whole machinery of government stood ready to surround the fallen chief with all the honors men have devised to tender their great dead. President Coolidge placed every agency at his command at the disposal of the bereaved family in arranging for the funeral.

The army, navy and marine corps stood ready to play their part in a great pageant of sorrow such as only men who have been commanders in

Mrs. Wilson Takes
First Rest After
Long Death Watch

Sad-Hearted Woman Who Kept Vigil at Bedside of Stricken Husband Takes Drive Through Capital City

WASHINGTON, Feb. 4 (AP)—A sad-hearted woman stepped from the Wilson home today to ride for an hour or two over streets that must have been filled for her with poignant memories. It was Mrs. Wilson's first release from the sorrowful home surroundings where she stood a tower of strength and tenderest devotion to the end.

Everywhere whom she was recognized, silent sympathy and admiration were poured out for this brave woman. Margaret Wilson, daughter of the dead leader, and Admiral Cary T. Grayson, long her friend and staunchest ally in the futile battle against death, rode with her in the car.

The skies were cloudless and winter lent only a bracing tang of cold to the air.

The grief-stricken woman had need for the tonic nature gave her at the end of her long vigil.

Through all the halcyon that came from the Wilson home at the funeral the president sank hour by hour toward his last sleep, there ran a word of admiration and high courage and utter devotion of the woman who has given so lavishly of her strength during the long years of illness and pain.

DEATH RECALLS YEARS OF HISTORIC EVENTS

Empires Crumbled and Thrones Collapsed During Wilson's Term in Office; Dramatic Incidents Marked His Life

Twenty-eighth president of the United States, and the first democrat since Andrew Jackson to serve two successive terms, Woodrow Wilson, captain of the presidency during eight years of such world upheaval and turmoil, that his proper place in history cannot be assigned to him until his contemporaries are likewise assigned to their niches.

Certainly, he ranks as one of the great war presidents of the American republic, and his administration and influence in world affairs as never before attached to his office.

Empires crumbled, thrones collapsed, the map of the world was made over, and under his administration the country abandoned its policy of isolation and became an active participant in the affairs of the world.

Obscure lawyer, by nature a man of letters, he became an educator and won his first attention from the public as president of Princeton university.

Then, the strange ways of a political system he became governor of New Jersey, and later, because the voters of the republican party were divided between Theodore Roosevelt and William H. Taft, he became president of the United States.

During his eight years of power he traveled the gamut of human emotions; victory, defeat; courtship and matrimony; responsibility for leading a nation into war with the collateral responsibility of bringing it back again to the ways of peace; and finally a daily struggle with death.

He had heard himself hailed by the millions of Europe as "the God of Peace" and heard his name hissed by the same millions. Acclaimed at one time almost as a new Messiah, he heard himself cursed and damned as an autocrat and worse at home and abroad.

No other president since Lincoln was so worshipped and hated; no other president since Roosevelt had such friends and such enemies. Through it all he preserved an outward calm while the greatest distress which befallen close about him during the last months of his occupancy of the presidency followed him relentlessly to the modest home where he lived the ways of a retired gentleman and knocked at his door every day until it was at last opened.

After having borne the burdens of a war president he undertook the task of making a peace which he sincerely believed would be a lasting one and although he succeeded in getting Europe to accept it in large measure his own country rejected it. And in the fight he broke his health, wore himself out, suffered a stroke of paralysis which led to his death, and declared through it all that he would have been happy to give his life for the success of his efforts.

Was President Smasher
Woodrow Wilson was a precedent smasher from beginning to end. He began by reviving the practice of Washington and Jefferson in delivering his messages to congress in person; he finished by actually leaving American soil and going to Europe. His responsibility of deciding when a country with people torn by conflicting sympathies was ready to throw itself into the great world war, and when the moment came he took the responsibility of throwing in the men and millions which turned the scale to victory.

waiting for clients, so he abandoned a legal career and went to Johns Hopkins university at Baltimore for a post-graduate course in letters. While there he published his first book, "Congressional Government," a study in American politics. It evoked offers of professorships at Bryn Mawr and abroad. The young man who wrote of the defects of the American political system in 1885 found himself in a deprecatory tone of the tendency toward autocracy in American presidents he lived to hear himself called the greatest autocrat of them all and to see a resolution declaring his office vacant on those grounds introduced and tabled in the senate.

As Princeton's President

Life was a pretty well settled affair for him while he was president of Princeton. Its great oaks, shaded lawns and historic halls, furnished the settings in which Mr. Wilson did much of the literary work which later was to attract the world. He probably had little thought of being snatched into the maddest and riskiest of wars. He drew some public attention in the fight for preservation of democratic ideals at the university, but he lived the life of a family man on small pay and as late as 1910 was contemplating retiring on a teacher's pension.

That year the inexorable force of events came into evidence. The tide which "swayed on to fortune" began to rise about him. Nominated for governor of New Jersey in a political situation about which many interesting things have been said and denied with equal fervor, he was elected on the Democratic ticket, and immediately took on the state "busses" for a round about which attracted the attention of the country. In the Jersey legislature he found the young lawyer, Joseph P. Tumulty, who became his private secretary and biographer.

Governor Wilson's nomination for the presidency at the democratic convention of 1912 in Baltimore was one of the dramatic spectacles of American political history. It was a battle royal which brought him victory after more than 40 ballots.

Won the Nomination

At any rate, Woodrow Wilson got the nomination and won the election with 435 electoral votes. Roosevelt got 88 and Taft got 8. He came to the White House on March 4, 1913, signaling the return of democracy to power after successive defeats of 16 years.

Immediately he galvanized the country, appearing before congress in person, publicly denouncing "a vicious lobby" which he charged was attempting to influence Washington, and launched a legislative program which included repeal of the tariff, revision of the currency system, new styles of control of the trusts, the creation of many new government agencies, and such a multitude of other legislative business that congress and the country had difficulty in keeping up with it.

Congress danced to his tune. Congress thought Theodore Roosevelt a "dictator" and an "autocrat" but it soon found itself dancing to Woodrow Wilson's tune and at first it danced very obediently and with very little grumbling. Mr. Wilson early confessed that he had a "one track mind" and in practice he concentrated in his administration that he knew what he wanted and how to get it. He had a cabinet, it was true, but he consulted it after he had determined what he wanted to do. When he wanted a bill introduced in congress he frequently drew it himself and if it hesitated on passage he summoned the leaders and it passed soon thereafter. In dealing with the cabinet he did his own thinking and conducted much important business of the various departments direct from the White House.

Hardly had Mr. Wilson gotten him-

self turned around when he had his first foreign attention to deal with. It was with Mexico and was a legacy from the preceding republican administration. The republican chiefs said they left it for Mr. Wilson because they didn't want to embarrass him in dealing with it. The democrats declared the republicans had "passed the buck." It came to a crisis when Huerta, the dictator, seized the reins of government, and President Madero and Vice-President Suarez were murdered.

Mr. Wilson withheld recognition from Huerta and the situation boiled until Huerta troops attacked some American bluejackets at Tampico and Mr. Wilson ordered the occupation of Vera Cruz by the American army. The official reason given for the occupation was that the German ship Ypiranga was about to land arms and ammunition for Huerta and the occupation was to prevent it. The United States demanded a salute to the flag, which, critics of the Wilson administration took delight in pointing out, never was given.

Troops Withdrawn

Events in Mexico solved their own problem in a few months when Carranza, another newly risen leader, ejected Huerta, who fled. American troops were withdrawn from Vera Cruz and later President Wilson extended formal recognition to the Carranza government. But in 1920 Carranza in turn fled in the face of an armed revolution and the Mexican problem came back to a republican administration.

World War Breaks

Mr. Wilson was much criticized for "weakness" in handling the Mexican situation, but his friends said he saw a world-war coming and had told them he "did not propose to have the United States caught with one hand tied behind his back." He did not propose to be engaged in a war with Mexico at such a time. At all events, the world war broke the same year. Woodrow Wilson added his appendix to the futile effort to stay it, sitting by the bedside of his dying wife on a memorable August 6, 1914. Mrs. Wilson passed away that day, and with the word taking fire about him, he took her body to her girlhood home in Rome, Georgia, for burial. The president was almost prostrated with his grief, and returned alone to the White House to face the burden. Mr. Wilson's friends said that from the first Mr. Wilson saw it would be a world war and that the United States eventually would be drawn in. But he realized that the country drawing its population from the states of Europe which were going to war would face a much divided sentiment and a very difficult situation. His first words to

self turned around when he had his first foreign attention to deal with. It was with Mexico and was a legacy from the preceding republican administration. The republican chiefs said they left it for Mr. Wilson because they didn't want to embarrass him in dealing with it. The democrats declared the republicans had "passed the buck." It came to a crisis when Huerta, the dictator, seized the reins of government, and President Madero and Vice-President Suarez were murdered.

Mr. Wilson withheld recognition from Huerta and the situation boiled until Huerta troops attacked some American bluejackets at Tampico and Mr. Wilson ordered the occupation of Vera Cruz by the American army. The official reason given for the occupation was that the German ship Ypiranga was about to land arms and ammunition for Huerta and the occupation was to prevent it. The United States demanded a salute to the flag, which, critics of the Wilson administration took delight in pointing out, never was given.

Through a diplomatic correspondence which continued for two years, the president built up a record which reached its climax when he handed passports to Count Johann Vpn Bernstorff, the German ambassador, and asked Congress to declare war which it did. With that the president led the nation into the tremendous effort before it.

Won by Narrow Margin

A presidential election had intervened before the country went into the war and this time Mr. Wilson's republican opponent was Charles Evans Hughes, who left the supreme court bench to become a candidate. The issues of that campaign were very much muddled. The democratic slogan was "he kept us out of war." Mr. Wilson's election, however, was by a very narrow margin. The result trembled in the balance three days and finally turned in his favor when California finally flopped to the democratic column by a few votes. Mr. Wilson got 277 votes in the electoral college and Mr. Hughes got 254.

President Wilson actually assumed his place as commander-in-chief of the army and navy. He took the leading part in planning America's participation in the war. He insisted from the first for a unified command of the western front; for vigorous measures to curb the submarine menace. He personally initiated much of the war legislation such as the passage of the selective service law, the creation of the shipping board, the war industries board, the war labor board and a multitude of other arms of the government for carrying on the struggle. He devoted his whole being to the war, seeing nobody and thinking of

nothing else. Some of his days probably were like Lincoln's.

Peace

It was President Wilson who conducted the correspondence with Chancellor Max of Germany when the request for an armistice came, and once the Germans laid down their arms he turned his thought wholly from war to peace, telling his friends that while Germany must be made to pay to her full ability, Europe must not have another Alsace-Lorraine.

It was quite a different Woodrow Wilson who sat in the president's chair when the war ended. With hair whitened and face lined he showed the effects. He had learned something about men and human nature. He had learned "that some men become great and others swell up," but his penchant for doing things himself never had lessened. He wrote state papers and read them to the cabinet; afterward, he became impatient with men who disagreed with him and quarreled with friends who in turn approached him with being ungrateful, but he always kept on his course having once decided upon it.

Peace in sight, Mr. Wilson decided to go to Europe himself and take a hand in making it. Congress, no longer the suppliant handmaiden it was during his first administration, reared its

disapproval. Mr. Wilson assured congress that in the day of wireless and cable it would know all he did. As a matter of fact he told congress very little of what he was doing, or any body else, for that matter, until it was done. That was not Mr. Wilson's way. The result was that he committed the United States to the League of Nations and was repudiated.

President Wilson's participation in the memorable peace congress had been described by many pens, friendly and unfriendly, and his part was so indelibly written in recent history that it needs little attention in a brief resumé of his life works.

Charmed Europeans

The statement of Europe were charmed by his oratory, his wit and his personality, until they bumped into his indomitable will to do things his way when he was convinced he was right. Then the sparks flew in the secret meetings he had with Lloyd George, Clemenceau and Orlando. He was determined to have a league of nations covenant so inseparably interwoven with a treaty of peace that no nation could accept one without accepting the other. The opposing statesmen found that only by letting him have it could they get the provisions of peace they wanted. The result was a treaty in which all got something and it was de-

The HOOVER Lifts the Rug from the floor

and BEATS as it SWEEPS as it CLEANS

The Hoover Method of Cleaning Makes Your Rugs Last Longer

The greatest enemy to rugs is the sand and grit that becomes ground down into the nap. This destructive grit, under the pressure and skuffing of feet, cuts the nap little by little until your rug is soon worn out.

The broom can't extract deeply embedded dirt, neither do most other cleaners, especially those that pretend to clean by air alone.

The HOOVER lifts the rug from the floor, just as you would by sliding your hand under it. This opens the nap so the gentle beating of the motor driven brush can loosen the dirt—then the strong air suction carries it up into the dust bag.

Buy a HOOVER and you buy the best—buy it NOW and you will hardly miss the small monthly payments.

WILSON'S DEATH PUTS CONGRESS AT STANDSTILL

Bitter Partisan Debate Forgotten as Both Friends and Foes of Former Executive Pay Their Respects

WASHINGTON, Feb. 4 (AP)—Washington put aside today the bitter partisan debate which has held forth there in recent days, out of respect for the memory of Woodrow Wilson.

Both houses met at noon as usual but it was only so that their leaders, of all shades of political opinion might pay tribute to the fallen former chief and pass resolutions commensurate with his services to the nation. Senator Lodge of Massachusetts, the republican leader, and one of Mr. Wilson's uncompromising political foes, joined with Senator Robinson of Arkansas, the democratic leader, in the senate eulogies of the former president.

"In sympathy and sorrow and with every mark of homage," said Senator Lodge, "we stand with bowed heads in solemn recognition of this event, at once sad and momentous, which has thus come upon us in the wisdom of the overruling Providence that guides the destinies of mankind."

The republican leader said republican senators had heard with profound sorrow the announcement of Mr. Wilson's death. "We have felt this country," he said, "we have felt a very deep sympathy for the suffering of President Wilson during his long illness, which has borne with out complaint and with so much fortitude."

Lodge Pays Tribute.
"Mr. Wilson was a man of remarkable ability and of strong character. Through laborious years of thought and study he devoted himself to securing a mastery of the historical subjects, economic questions, the theory and science of politics and government commanded his special interest. He rose to be president of the ancient and honored university of which he was a graduate. From this high place in the field of education he turned to public life. He was elected to be the governor of New Jersey, one of the thirteen original states, eminent in our history and of the soil on which so many of the battles of the revolution were fought. He was then elected and re-elected president of the United States, which is to us, and which I believe to be, the greatest office among men."

Leader in War and Peace.
"During his period of service in the presidency came the war with Germany, the most terrible war from which mankind has suffered during history. After the victory of the allied and belligerent powers it fell to Mr. Wilson to play the leading part in the unspokenly difficult work of making peace. He stood there a chief figure in this great transaction and so he will stand in the pages of history in the days that are to come. There is no figure more conspicuous than his in the events of that time which closed one period in the history of mankind and opened another. Here in the capital of the country, the scene of his many triumphs, this remarkable career comes to an end."

World Mourns.
Senator Robinson said the announcement that former President Woodrow

Wilson had passed away caused grief throughout the civilized world. "His departure," he said, "marks the end of a career glorified by many notable achievements."

"Leaders in great crises do not depend upon favor for renown. Earnestness is indeed the path to immortality and all they who tread that way are certain of enduring fame."

"In the solemn presence of death, we behold the evidences of tender sympathy and universal grief. Tears, telling of a grief stricken land, inspire appreciation for his hopes and his dreams—dreams of freedom for every people—dreams of peace on earth and good will toward men."

DEATH RECALLS YEARS OF HISTORIC EVENTS

(Continued from Page 2)

nounced by its opponents as a breeder of wars rather than a treaty of peace. It would require a large volume to tell all the interesting things that happened to Woodrow Wilson while he was participating in making the treaty of peace in Paris in that historic winter of 1918-1919. It would require another volume to tell the sagacious story of diplomatic maneuvering, intrigues and dramatic moments that attended it. Publication of this kind at this time probably would result in the creation of a new club on both sides of the Atlantic and certainly would not add to good feeling among peoples who are looking forward to an end of wars and an era of peace.

Awarded Nobel Prize.

Woodrow Wilson himself would not wish it. Wilson, in 1920, he accepted the Nobel peace prize for being "the person who has promoted most or best the fraternity of nations and the abolition of diminution of standing armies and the formation and increase of peace congresses," he said.

"The cause of peace and the cause of truth are one family. Whatever has been accomplished in the past is petty compared to the glory of the promise of the future."

Woodrow Wilson lived his last years and died in "the glory of the promise of the future" confident that right as he saw it would ultimately prevail. He never lost faith in the League of Nations, but he lost faith in some of the human beings who were its inevitable elements.

He closed his eyes confident that as a man of letters and a president he had done his best for humanity but that his best was not all that he might have wished.

Time alone can write his epitaph.

FRAUD SUSPECTS WANTED

Bench Warrants Issued for 50 Men Recently Indicted for Use of Mails in \$3,000,000 Swindle

CHICAGO, Feb. 4 (AP)—Bench warrants for 50 men, supposedly residents of Chicago, who were recently indicted in the federal courts in Arkansas for use of the mails to defraud were issued here today by James R. Glass, United States commissioner, at the request of James A. O'Callaghan, assistant United States district attorney. The latter said he had been informed the men had obtained about \$3,000,000 by swindling people throughout the country.

What is useless to you may be valuable to others—advertise it in the classified columns.

PRINCETON MAN PRAISES WILSON

Faculty Member, Friend of War-Time Chief, Recalls Outstanding Achievements

PRINCETON, N. J., Feb. 4 (AP)—Dr. Henry Vanduyke, Princeton university professor, who was one of Woodrow Wilson's closest personal friends in Princeton, and ambassador to the Netherlands during the Wilson administration said:

"Former President Wilson's death is a great loss to the nation, but one cannot help thinking of it as a great relief to him from the pain of a long and strenuous fight for health. His achievements put him among the great American presidents. Five of these achievements may be recognized by all fair and reasonable men."

"First, the wise program of national legislation, which he carried through on his entrance into his high office, including especially the federal reserve bill which kept us from panic and financial disaster during emergency of war."

"Second, the patience and firmness with which he handled the question of American entry into the war, refusing to go in until it was unavoidable and until he had a united country behind him."

"Third, the vigor and efficiency with which he carried on the war after we were in, including the way in which he handled the great question of a selective draft."

"Fourth, the splendid way in which he made it clear that America's purpose in the war was to promote the cause of liberty and peace in the world as well as to protect her own interests."

"Fifth, the fine courage with which he advocated what seemed to him the best if not the only way of securing a lasting peace among the nations of the earth and the absolute devotion with which he practically laid down his life for that cause. These things will stand to his everlasting credit."

GREAT BRITAIN ORDERS RELEASE OF "MAHATMA"

Indian Nationalist Leader, Sentenced for Sedition, Wins Freedom; Has Recently Been in Ill Health

BOMBAY, Feb. 4 (AP)—"Mahatma" Mohandas Gandhi, the Indian nationalist leader, has been released from prison unconditionally by order of the government. Gandhi on March 18, 1922, was sentenced to six years' imprisonment for sedition in connection with the non-cooperation movement. He gained the title of "Mahatma," or "wonder worker," through his power and personal magnetism.

Recently the nationalist leader has been in a hospital. The action of the government was taken on recommendation of the attending physician, who declared the six months at the seaside was necessary for his convalescence.

WINS FOR FOURTH TIME

Studebaker Big Six First Car of Season to Succumb to Force Passage into Yosemite National Park

Thrusting triumphantly through snow and mud roads, a Studebaker for the fourth year in succession won the hotly contested race to be the first touring car to enter the Yosemite valley and drive in at the ranger's checking station.

The annual pilgrimage over the snow-tortured roads of the Sierras in order to appear first in the valley is one of the most grueling grins known to motorists, and is therefore a highly coveted honor for Studebaker. No car has even won the race four times before.

The winning passenger car was a stock Studebaker big six, dispatched from the snow rooms of the Chester V. Weaver company, San Francisco. The car was piloted through the "thick going" on the Wawona road by H. M. Gregory. He was welcomed at the park by Chief Ranger F. S. Townsley. Light Six Second into Park.

"Well," exclaimed the chief ranger, "we are not surprised. Although the roads are just about impossible now, we were looking for you. Year after year a Studebaker has been the first touring car into the Yosemite, and we just figured there would be one along again this year."

The chief ranger thereupon issued the first, towing one permit of the 1924 season to this Studebaker. The snow was heavier and the road conditions more difficult than in any previous year, according to Pilot Gregory. Another Studebaker, a light six touring car, driven by William J. Silva of Modesto, Cal., came in second in the first into the park. Several times cars arrived in perfect condition, victors over mountain roads and perilous winter weather.

"It was mighty cold and the grades were steep," said Pilot Gregory, "but the big six showed fine hill climbing qualities and ran faultlessly throughout the strenuous race. Several times we had to back away and charge the snow like a battering ram; then we proceeded on. It was a great honor for Studebaker to win this mountain race for the fourth time."

Engineering construction and motor efficiency made it easier for the Studebaker to win the 1924 pilgrimage, it was said. Automobile editors, poring over their records, recall the thrilling dash from the Pacific Coast to the Yosemite in 1922, when a Studebaker big six had 40 back the snow drifts

for three days before winning the race, while other contestants gave up in despair.

The feat of the 1924 big six is all the more striking in view of the fact that it covered the distance so rapidly. It demonstrates, motorists say, that this year's Studebaker products are the most versatile "job" in the 72 years of this corporation's manufacturing history.

"LOST HEIRS"—HEIRS WANTED.

SPORTS

Trojans Take Usual Count

Laundry Bowlers Win Two Out of Three from Golden Rule Squad

Everything in the dope bucket is accurate following the regularly prescribed defeat of the Clerks by the Trojan bowlers Monday evening. The whole story of the evening is summed up in the average of the two teams, the washers hitting an average of 172 without crowding, and the Clerks having to stretch some to make 161. The totals were 2287-2412, and you can guess the teams that go with each.

Taking the individual stars for the evening we have three or four in particular that stand out. Fritz, Cubit and King all made nifty totals for the laundry, while Roy on the "do unto others" squad, finished strong with 531 on a start that promised nothing with 113 for its score.

The first game was 711-887 for the cleaners while in the next the Golden Rule team took heart with a 222 mark, and stepped on the Trojans for a game, with the score reading 844-813 in their favor, but the reliable duo in Cubit and Fritz took care of the laundry for the laundry in the last game when they both went over the 500 mark and put it on ice for the evening for the laundry.

The Score.

Golden Rule	Total
Home	150 108 170-306
Sub	150 150 150-450
Roy	113 222 190-531
Kieffer	234 150 152-436
Vogel	152 174 160-483
	711 804 837-2412
Laundry	Total
Bailey	156 143 153-451
Bolek	182 159 151-495
King	235 207 190-631
Fritz	168 153 215-531
Cubit	170 179 201-550
	887 843 857-2587

NORWAY EASILY WINS LAST TWO SKI EVENTS

Finland Finishes Second and Great Britain Takes Third in Olympic Sports, United States is Fourth

CHAMONIX, Feb. 4 (AP)—Norway made a runaway race of the last two ski events in the Olympic winter sports, today, winning first place in both, while Great Britain took third place, 58 points to spare over Finland, which finished second with 76 1/2 points.

Great Britain took third place with 30, and the United States fourth with twenty-nine.

The Norwegian showed splendid form in all the events in which they competed. They were in admirable physical condition and displayed great efficiency in all branches of winter sports with absolute supremacy in the ski events.

Great Britain, in scoring one point more than the United States, did so with the aid of one of the curling competition in which only three nations were entered, while of the other hand the United States against eight nations placed in the hockey matches, took second place but scored five points.

The standing of the nations on the final accounting was:

Norway, 134 1/2 points; Finland, 76 1/2; Great Britain, 30; United States 29; Sweden, 26; Austria, 25; Switzerland, 24; France, 19 1/2; Canada, 12; Czechoslovakia, 1 1/2; Belgium, 6; Italy, 1; total, 391.

Nine points of the 40 for 16 events were not allotted, three points being withdrawn in the military ski race and six in the curling.

Firpo Planning to Come Back to Get Wills and Dempsey

Is Expected in U. S. in April; Eats Three Pounds of Steak Every Day

NEW YORK, Feb. 4 (AP)—Luis Angel Firpo now plans a return into this country on April 2 or 3 for his 1924 pugilistic campaign, during which he hopes to "lick Wills and Dempsey." Captain Thomas W. Sheridan, skipper of the Argentine Legion, which arrived from Buenos Aires today, said that was what Firpo told him just before sailing.

"When Firpo came to the ship at Buenos Aires he had about 5000 fans trailing him," said Captain Sheridan. "We had to keep him inside as the stevedores stopped work when he walked out on deck. I fed him a plank steak, American style and he said that is what he intends to train on here. He was in training that day—he ate only about three pounds."

Health Service Old

The United States public health service was organized 125 years ago under the name of the marine hospital service for the medical and surgical care of merchant seamen.

SIX DIE FROM POISONED FOOD

Four Others May Succumb from Effects of Eating Spoiled Home-Preserved Beans

ALBANY, Ore., Feb. 4 (AP)—Six persons were dead and four others were thought by doctors to be dying here tonight as the result of eating home-preserved beans which were believed to have spoiled and produced the deadly poison known as botulism.

The dead:

Mrs. Paul Gerbig, 34.
Hilda Gerbig, 10.
Alfred Gerbig, 7.
Gottfried Ruchling.
Mrs. Gottfried Ruchling.
Werner Yunker, 10-year-old son of Mr. and Mrs. Otto Yunker, of Thomas station, near Seio.

The dying:

Paul Gerbig.
Ester Gerbig, 13 months old.
Reinhold Gerbig.
Two-year-old son of Mr. and Mrs. Ruchling.

Two other persons were stricken by the malady but tonight were reported to have fully recovered. Mrs. Reinhold Gerbig, at whose home the fatal dinner was served, was none the worse for her experience and the two-year-old Margaret Gerbig was believed to have escaped the poisonous food. The child is still fed by bottle and it was not known whether she ate any of the beans.

JOHNSON'S TOUR PLANNED

California, Presidential Candidate to Speak in Several Mid-West States; Michigan Manager Named

CHICAGO, Feb. 4 (AP)—Colonel Augustus Ganssner of Bay City, Mich., was today appointed Michigan manager for the Hiram Johnson forces in that state. The announcement was made by Frank Hitecock, Senator Johnson's campaign manager.

Mrs. Hitecock announced that a speaking tour for the senator had been outlined, to begin in South Dakota, then run into North Dakota and Minnesota, then to a speech in St. Louis and work up through Illinois, finally returning to Chicago. Mr. Hitecock announced, however, that no dates had been set for the trip and that it required Senator Johnson's approval before any dates could be set.

SACKS DENIES CONSPIRACY

INDIANAPOLIS, Feb. 4 (AP)—William Sacks, wealthy St. Louis oil operator, and defeated candidate for the republican nomination for United States senator, pleaded not guilty when arraigned today here before United States District Judge A. B. Anderson on an indictment charging him with conspiracy to defraud and to use of the mails in furtherance of a scheme to defraud.

Trail date will be set later.

Sacks was indicted with 18 others in connection with the Hawkins Mortgage company and subsidiary companies.

LOCATE DRIFTING SHIP

CHRISTINA, Norway, Feb. 4 (AP)—The meteorological institute has issued a report showing that the position of the Amundsen exploration ship Maad, which is drifting in the ice in the Arctic ocean, was latitude 75.13 north, longitude 14.42 east yesterday. This report would indicate that the vessel had been driven only three minutes northward and three minutes and fifteen seconds westward since December 12.

TORNADO HITS INDIANA

EVANSVILLE, Ind., Feb. 4 (AP)—A tornado accompanied by rain and hail struck at Evansville, Ind., 17 miles north of here today, causing damage estimated at \$100,000. Orchards, outbuildings and barns were destroyed. Telephone communication was cut off.

ANNOUNCEMENTS

The regular meeting of the Twentieth Century club will be held this afternoon at the Baptist bungalow. The program will be given by the music department of the club of which Mrs. J. L. Alexander is chairman. This is open day and all ladies are invited.

The Highland View club has postponed their meeting from Wednesday, February 6, until the next regular day of meeting, which will be February 20, owing to illness in the homes of members.

The Shamrock club meeting scheduled for February 7 with Miss MacGinnis, has been postponed until February 14.

The Primrose Rebekah lodge No. 76, will meet Tuesday evening at 7:30 in the I. O. O. F. hall. Refreshments will be served.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Cycling on Ice and Ice

SEASONABLY shod with a tread much as that shown in the illustration, the "bike" can be depended upon for winter sport, or ordinary uses over ice and snow. With ordinary tires, cycling is not only hard work, in winter, but precarious; with the tread described here, however, speed and safety are assured, and the runner makes the machine easily handled.

The necessary materials are twenty 1 1/2 by 3-in. back-flap hinges; seventeen 7/8-in. stove bolts, 2 1/2 in. long, and four 3 in. long; three strips of 20-gauge galvanized sheet steel, 2 by 20 in.; 1/2 in. wide; a pair of light 3-in. strap hinges; a 3-in. T-hinge; a pair of 3-in. butt hinges; a 3 by 4 1/2-in. machine bolt with No. 14 screws, 3 in. long; one 1-in. awning pulley; 2 ft. of steel jack chain, No. 16, 5/8-in. link; one screen-door spring, and a skate.

For a 20-in. wheel, one less back-flap hinge is used, nineteen 7/8 by 2 1/2-in. bolts, and one 3-in. bolt.

The twenty hinges are bent at each end at right angles, the legs being 1/2 in. long, and the countersunk sides opposite the legs. Beginning 1/2 in. from the end of each galvanized strip, rivet the hinges to the strips, using four rivets to each hinge, and keeping them 2 in. apart. Equip two of the strips with seven hinges, and one with six, then connect each hinge to the next with the 2 1/2-in. bolts. Cut the strips with 1/2-in. ends, center them over the rim of the wheel, and connect the end hinges with 3-in. bolts. Tighten up the bolts, then, with pliers and hammer, shape the sides of the strips to grip the rim.

From 1-in. ash, cut a runner shoe, 3 in. wide and 25 in. long. Cut down 12 in. at one end to 1/2-in. or 3/4 in. thick and taper the sides down to 2 1/2 in. wide. Shape the top, so that it is flat and water then bend it to shape. The fork post fits below the head and is 2 in. wide and 24 in. long (22 in. for a 20-in. wheel); the hub block is 2 in. thick, 5 in. long, and 3 1/2 in. wide, and is bored to take the machine bolt with the post in place. To fasten the post below the head, shape the 3-in. strap hinges to form a slip screw to the post and bolt behind the head.

Assemble the machine with the toe point of the skate set in about 1 1/4 in. from the shoe bottom—so that there will be no possibility of "stabbing." At this end there will be perhaps an inch space between B and the shoe. Fit a wedge block here below the heel of the shoe brought up to block B and secure it with two 3-in. screws driven through B, through the wedge, and into the shoe. These must be countersunk 1 in. and a washer or two used under each screw head. At the heel attach a 4-in. butt hinge, three screws into B and three in each side of the shoe, then cut off any waste heel. At the toe, rivet the 3-in. T-hinge, as shown. Assemble the shoe to the post with a 3-in. butt hinge centered 60 top of the B-block.

The 3-in. spring, pulley, and chain keep the runner "headed up" for easier steering, and safety when "jumping bumps." Back of the post, secure the pulley with a screw set into the lower edge of the 2-in. opening. Cut the spring to length, and with another screw, fasten one gear to the post with a 3-in. butt hinge centered 60 top of the B-block.

Assemble the machine with the toe point of the skate set in about 1 1/4 in. from the shoe bottom—so that there will be no possibility of "stabbing." At this end there will be perhaps an inch space between B and the shoe. Fit a wedge block here below the heel of the shoe brought up to block B and secure it with two 3-in. screws driven through B, through the wedge, and into the shoe. These must be countersunk 1 in. and a washer or two used under each screw head. At the heel attach a 4-in. butt hinge, three screws into B and three in each side of the shoe, then cut off any waste heel. At the toe, rivet the 3-in. T-hinge, as shown. Assemble the shoe to the post with a 3-in. butt hinge centered 60 top of the B-block.

Assemble the shoe to the post with a 3-in. butt hinge centered 60 top of the B-block.

Assemble the machine with the toe point of the skate set in about 1 1/4 in. from the shoe bottom—so that there will be no possibility of "stabbing." At this end there will be perhaps an inch space between B and the shoe. Fit a wedge block here below the heel of the shoe brought up to block B and secure it with two 3-in. screws driven through B, through the wedge, and into the shoe. These must be countersunk 1 in. and a washer or two used under each screw head. At the heel attach a 4-in. butt hinge, three screws into B and three in each side of the shoe, then cut off any waste heel. At the toe, rivet the 3-in. T-hinge, as shown. Assemble the shoe to the post with a 3-in. butt hinge centered 60 top of the B-block.

Leaders in McAdoo's Campaign in Session

NEW YORK, Feb. 4 (AP)—Leaders of the campaign of William G. McAdoo for the democratic presidential nomination conferred in executive session today as to the future of the campaign but no action was taken. It was said by those in attendance that any announcement would have to come from Mr. McAdoo himself after the funeral of Woodrow Wilson.
