## FIGHT APPEARS PROBABLE FOR BONUS IN CASH

Straight Payment Option Wins Much Favor as Compensation Measure Is Talked; Expect Old Bill Will Be Altered

WASHINGTON, March 4 (AP)—Indications of a determined fight for a straight-out cash payment option developed today in hearings on soldiers' bonus before the ways and means committee. Chairman Green of the committee said the reporting of a measure might be delayed beyond Saturday because of expected efforts to make considerable changes in the old bill as substantially reintroduced in the McKensie measure now before the committee.

Representative Jeffers, Alabama, chairman of the special committee of five appointed by the house democratic conference to outline the views of that party on bonus legislation, declared tonight in favor of a two-fold bonus bill. He advocated the cash payment and put-up insurance options. This committee will present a bonus program to the house ways and means committee tomorrow. Mr. Jeffers emphasized, however, that their proposition was not to be considered as a partisan matter.

## Row Develops

The hearings today brought out the first opposition to the bonus, when the committee heard spokesmen of the chamber of commerce of the United States and the Ex-Servicemen's Anti-Bonus league. Questioned by committee members, representatives of the latter organization developed a committee row and brought demands from Representatives Oldfield, Arkansas, and Rainey, Illinois, democrats, that the list of contributions and records of the league be investigated.

Representative Garner, Texas, ranking democrat on the committee, who has opposed the bonus in the past, as well as some other democratic members of the committee, have indicated they favored the full cash payment option. The McKensie bill, similar to that passed last session and vetoed by President Harding, provides four options, but restricts cash payments to those entitled to less than \$50 under the adjusted compensation plan. Other options are adjusted service certificates, a form of insurance; vocational training and farm or home aid.

## Favors Insurance

Representative Fish, republican, New York, has introduced a measure providing only for paid-up insurance, and Representative Bacharach, New York, a republican member of the committee,

## Eastern Rail Men Enter Protest to Revision of Rates

Boston Man Asserts East Is Entitled to Benefits of Low Ship Charges; Suggests Establishing Branches.

NEW YORK, March 4 (AP)—Eastern rail men and manufacturers today submitted to the interstate commerce commission a combined protest against proposed revision of freight rates designed to eliminate the existing differential in rail and ship rates from Atlantic to Pacific coast cities.

Mid-western railroad representatives, manufacturers and shippers in support of revision, have contended that unless rates between the states and the Pacific coast territory were lowered, the comparative cheapness of water rates via the Panama canal route would make it impossible for those in the interior to compete in the western territory against coasters.

W. H. Chandler of the Boston chamber of commerce and of the Northeast Traffic league, asserted that the east, who admittedly benefit most from the Panama canal, was entitled to this benefit because it contributed most toward the cost of the canal.

He expressed approval of a single transcontinental rate, but contended that to make one rate effective between the Atlantic coast and Chicago and a lower rate from Chicago to the Pacific coast would be to legislate in favor of middle western points at the expense of their eastern competitors. He suggested that the complainants could overcome the existing handicap by establishing branches on the Atlantic, just as eastern concerns have established branches along the Pacific.

## Pastor Determined to Put on Boxing Matches in Church

Hundred Protests Fail to Halt Methodist Minister's Plan to Stage Bouts

DENVER, March 4 (AP)—Despite a hundred or more letters of protest which he says have come to him from a score of cities from New York to San Francisco, the Rev. B. B. Kessler, D. D., pastor of Moritt Memorial Methodist church, declared today he would continue his semi-monthly prayer meetings, followed by a number of boxing bouts.

"I am not in favor of prize fighting," Dr. Kessler said, tonight, "but I am very much in favor of clean athletics and amateur sports. Our next combination meeting is arranged for tomorrow night and it will be held even though the heavens may fall. I see no harm in boxing contests as conducted at our church. I have told my boys that those who can use boxing gloves will not use knives or guns."

## CALIPH OUSTED FROM TURKEY

Abdul Effendi Forced to Leave Constantinople by Decree of National Assembly

CONSTANTINOPLE, March 4 (AP)—The caliphate in Turkey was officially abolished today and the caliph, Abdul Medjid Effendi, left Constantinople for Switzerland. The Vail of Constantinople, director of public security, accompanied by police, at two this morning proceeded to the Dolmabahce palace. They ordered the caliph to take his seat upon the throne, and when he had done so the decree of the grand national assembly at Angora, ordering his deposition, was read.

The caliph was immediately ordered to descend from the throne and make his arrangements to depart at once from Constantinople. An hour later, accompanied by two of his wives and his son, the caliph was conveyed by motor car to Chatalja on the frontier, where a special train was in readiness to convey him westward.

Ismet Pashin, the foreign minister, during yesterday's discussion of the caliphate and the deposition of the caliph made the following statement before the grand national assembly in Angora:

"Our religion will suffer no change, even if the caliphate is abolished. Our ideals are based on such exalted principles that we never hesitate openly to tell the people and officers and soldiers the aims we are pursuing. "We intend to maintain to the bitter end our determination to suppress the caliphate. We have taken all the necessary precautions. Constantinople remains in our hands because we fought the Greeks and the caliph. Constantinople will never leave our hands if we continue to show the same energy. "If other nations have shown us friendship, it was not because the caliph was with us, but because of our strength."

## REPUBLICANS OF IOWA PLEDGE FOR COOLIDGE

DES MOINES, Iowa, March 4 (AP)—Republicans of Iowa today pledged their support to President Coolidge in the party's national convention at Cleveland, adopted resolutions endorsing his administration and brought out the name of L. H. Dickinson of Iowa, leader of the farm line in the house of representatives, as a candidate for nomination for the vice presidency.

## WARSHIP HITS HIGH SPEED

ROCKLAND, Maine, March 4 (AP)—A "torpedo" speed of 21.32 knots or 37 knots in excess of speed for which she was designed, was attained by the superdreadnaught Colorado, the world's largest warship, in her standardization trial on the Rockland course today. Darkness prevented completion of the trials, which will be continued tomorrow and succeeding days in Massachusetts bay.

## FIND SILVER DEPOSITS.

DAWSON, Y. T., March 4 (AP)—According to word received in Dawson from Mayo, east of here, stampedees who recently lost Mayor and Reno bill near Mayo, for a new silver strike on Beaver River, 40 miles beyond Reno, are returning after staking on the snow. Samples running nine to 1,500 ounces in silver, with heavy percentage of lead, were said to have been found. Further prospecting will be impossible until the snow disappears.

## Coolidge Orders Investigation of Alleged Bribery of Congressmen

## Moments of Comedy Offer Relief from Senators' Wrangles

Parodies on Classic Literature Lift Solons from Fumes of Oil Scandal and Bitterness of Debates

WASHINGTON, March 4 (AP)—After having been gassed for weeks in the heavy fumes of oil and scorched by the flames of the partisan debate, the senate today found a welcome relief in a few moments of comedy—an excursion into the classics, parodied with the names and subjects of the hour.

Senator Heflin of Alabama, renewing an attack on Edward L. Doheny, made a detour into the realm of literature and struck Henry Cabot Lodge of Massachusetts in his home spot.

The result was a passage at words that sent the galleries off into roars of laughter in which senators on the floor joined without restraint, in strange contrast to the studied decorum of last chamber.

Senator Heflin was referring to Mr. Doheny's tax refund of \$40,000 by the treasury department when he diverted to a parody on the classic tale of Abou Ben Adhem. Substituting "Dough Heenie" for Abou, Senator Heflin read:

"The Golden Fleece"  
Abou Dough Heenie (may his tribe increase)  
Awoke one night from a deep dream of peace,  
And saw within the moonlit room  
Making it rich like a lily in bloom,  
A senator writing in a book of gold.  
Enormous wealth had made Dough Heenie bold;

And to the senator in the room he said:  
"What wastest thou?" The statesman raised his head,  
And with a look which made Dough Heenie bold,  
Answered: "The names of those who speak for oil."

"A lie is mine one!" said Abou.

"We will see," replied the senator, but "how cheerily!"

Responded in a still softer tone:

"Write me as one who loves to make a loan."

The senator wrote and vanished. The next day

He came again—it looked like Char-

Calls Grand Jury to Proceed Immediately to Weigh Charges of Graft Involving Two Representatives

## GARRETT TALKS HOUSE CLEANING

Chairman Reed Declares Case Is One for Prompt Prosecution, Not Inquiry

WASHINGTON, March 4 (AP)—President Coolidge tonight ordered an immediate grand jury investigation of charges that two members of congress had accepted bribes to obtain pardons and pardons for persons convicted of crime.

Instructions have been given Acting Attorney General Seymour, it was announced at the White House, to "proceed with every diligence in the prosecution of the cases."

Wastes No Time.

The announcement given out by C. Hansen Shump, secretary to the president, followed:

"The president, immediately on reading the newspaper reports this morning that evidence before the grand jury at Chicago implicated two members of congress, gave immediate instructions to Mr. Seymour, acting attorney general, and reiterated the instructions again this evening to Mr. Seymour that prompt and immediate steps be taken to place the evidence before a grand jury and that he proceed with every diligence in the prosecution of the cases."

Will Begin Soon.

A grand jury is expected to be convened here shortly to go into the charges against the congressmen. Their identity has not been made known, even to congressional leaders, although it has been established that they are members of the house.

It also was disclosed today that while in Chicago last week Attorney General Daugherty appeared before the grand jury investigating veterans' bureau affairs to submit evidence regarding the activities of the two congressmen.

Garrett Wants Facts.

Coinciding was an announcement today by the senate veterans' committee that it would pursue a hands off policy.

(Continued on Page 5, Col. 3.)

## ORDER REPORT OF BILL FOR HIGHWAYS IN PARKS

WASHINGTON, March 4 (AP)—Favorable report of a bill which would authorize the appropriation of \$7,500,000 for expenditure during the next three years for highway construction in national parks was ordered today by the house public lands committee. The fund will be made available at the rate of \$2,500,000 a year, to be allotted under the supervision of the interior department. Chairman Slinott introduced the bill at the request of the department.

## FARMER RELIEF IS CONSIDERED

President Favors Aid Plan; Gooding Withdraws His Bill in Favor of Another

WASHINGTON, March 4 (AP)—President Coolidge is in entire accord with the desire to assist the farmers of the northwest and those of the country generally through the present period of depression, it was stated officially today. Officials of the department of agriculture are expected to submit recommendations to the president upon the various legislative proposals now assuming shape in congress.

The first of these measures—the Norbeck-Burness bill proposing a \$75,000,000 federal fund to finance diversification of crops—occupied the attention of the senate for the unfinished business when a recess was taken with no indication of when a vote would be had.

Opposition to the bill ranged all the way from the position voiced by Senator Watersworth, republican, New York, who classed it as "fruitless paternalism," to that of Senator Gooding, republican, Idaho, who held that it should be laid aside in favor of the McNary-Haugen bill, proposing a \$100,000,000 corporation to export surplus farm products. The latter measure would aid all agriculture, Senator Gooding insisted, and would accomplish the same purpose designed to be effected "in-

(Continued on Page 5, Col. 4.)

## FIRST CHARGES IN DAUGHERTY CASE PREPARED

Believe Attorney-General Will Be Quizzed for Failure to Enforce Anti-Trust Laws; Start Early Next Week

WASHINGTON, March 4 (AP)—Charges of failure to enforce the anti-trust laws in connection with cases transmitted by the federal trade commission probably will be the first produced against Attorney-General Daugherty in the investigation ordered by the senate.

This was indicated today by members of the special committee after another meeting at which procedure was discussed and the privileges of Mr. Daugherty's counsel determined definitely. Senators adhered to the plan to begin the hearings early next week.

At today's committee meeting a letter, drafted by Senator Brookhart, republican, Iowa, chairman, to Mr. Daugherty's counsel, defining their part in the inquiry, was approved and forwarded. Replying to specific requests of the attorney-general's two legal representatives, Paul Howland of Cleveland and former Senator Chamberlain of Oregon, the committee agreed to permit their examination of witnesses "subject to control of the committee," and also to introduce independent evidence and have subpoenas issued for their own witnesses, but also subject to committee approval.

## Request Not Granted

Counsel for the attorney-general were also informed that the request for notice of specific charges could not be granted, these being stated generally in the resolution of Senator Wheeler, democrat, Montana, moving spirit of the investigation and not subject now to amplification.

The federal trade commission cases, about fifty in all, figured prominently in the impeachment case against Mr. Daugherty in the house a year ago. Only a few days ago in response to a resolution by Senator King, democrat, Utah, and Norris, republican, Nebraska, reports regarding department of justice action on them were transmitted to the senate. Much of the material, however, has been withheld from publication as confidential, involving pending prosecutions.

## Review Former Evidence

Papers in the trade commission cases and others relating to complaints received by senators against the attorney-general are being sifted by Senator Wheeler, who virtually is committee counsel. He is negotiating with an at-

(Continued on Page 5, Col. 3.)

## Ford's Offer on Shoals Is Argued in Lower House

Bill Pending for More Than Two Years Is Taken Up; Proposition Finds Numerous Friends and Opponents

WASHINGTON, March 4 (AP)—Henry Ford's offer for Muscle Shoals, pending before congressional committees for more than two years, finally reached the floor of the house today.

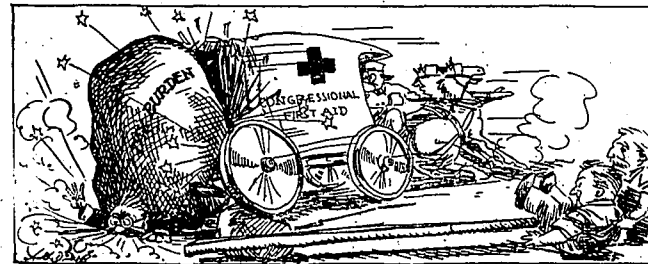

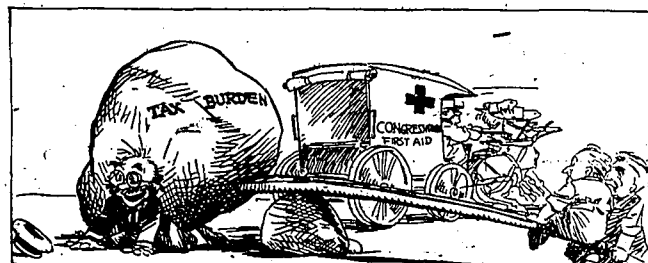

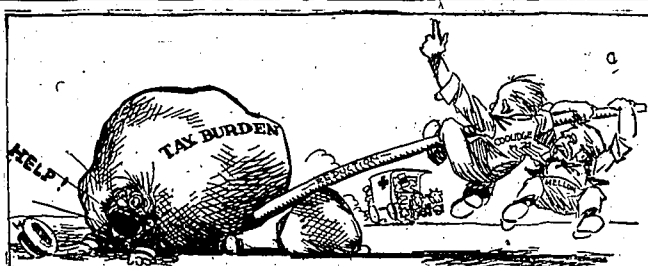

Under an agreement limiting debate to ten hours, the McKensie bill, providing for acceptance of the bid, was taken up with a final vote in sight before the end of the week.

As the discussion got under way the proposition of the Detroit manufacturer was alternately commended and attacked. Representative McKensie, republican, Illinois, led the fight in favor of the offer while the opposition rested chiefly in the hands of four republican members of the military committee who recommended acceptance of the bid—Representatives Morin, Pennsylvania; Hull, Iowa; Hill, Maryland, and Wainwright, New York, former assistant secretary of war. As reported the McKensie bill provides for the sale to Mr. Ford of the two nitrate plants at Muscle Shoals with the understanding that he is to manufacture fertilizer there, and the leasing of dams Nos. two and three for the development of power. The measure was amended in committee to provide for the replacement by the government of the Gorgas steam power plant, recently sold to the Alabama Power company.

DOHENY WANTED WALSH TO JOIN IN OIL SCHEME

Chairman of Senate Committee, Presents New Facts in Inquiry; Young McAdoo Says Palmer Was Fall's Counsel

WASHINGTON, March 4 (AP)—Three more interesting contributions were added today to the record of the oil committee while special government counsel were completing plans for action within the next 24 hours for the annulment of the Sinclair and Doheny leases.

The second disclosure was produced by William J. Burns, director of the bureau of investigation in the department of justice. He testified that in order to save possible embarrassment to Attorney-General Daugherty he had hinted to Edward B. McLean, publisher of the Washington Post, that he resign his commission as 31-year secret agent of the bureau, a position he said McLean had held since 1921.

Accused Palmer Francis H. McAdoo, of New York, son of Wm. G. McAdoo, furnished the third sensation of the two-hour committee session. He declared McLean, for whom he is counsel, had telegraphed him that A. Mitchell Palmer, a former democratic attorney-general, was counsel for Albert B. Fall and Harry F. Sinclair. Palmer denied before the committee last week that there was any such relationship.

In presenting to the committee copies of a telegram and two letters exchanged with Doheny, Senator Walsh said that reports concerning these documents had been "whispered about for the purpose of discrediting me." The telegram was found in the files of the Western Union Telegraph company, while a search was being made for messages relevant to the oil inquiry.

Talked Oil with Walsh The first communication in the exchange was a letter dated December 14, 1923, and sent to Doheny at New York City by the senator. Enclosed with it was a letter sent to Senator Walsh by T. S. Hogan of Great Falls, Mont., and inquiring as to whether Mr. Walsh might not be in touch with men who would be in a position to finance the development of oil fields in Montana. Senator Walsh wrote Mr. Doheny that if he had not dismissed the idea of entering the Montana field, the Hogan letter might be of interest to him.

EFFIE CHERRY STARTS DRIVE. (GRAND RAPIDS, Iowa, March 4 (AP)—Effie Cherry, one of the trio of Cherry sisters, famous on the stage a quarter of a century ago, opened her campaign for mayor here yesterday by appearing twice on the vaudeville stage where she delivered campaign speeches that evoked a more kindly reception than was given the sister when they tried out in New York 25 years ago. At that time they were greeted by a vegetable shower.

Dixon Is Mentioned as Navy Secretary.

Joseph M. Dixon, former Governor of Montana, and at one time a leader in the Roosevelt Progressive Party, is prominently mentioned to succeed Edwin Doheny, when the latter returns as Secretary of the Navy, on March 10.

HANSEN

HANSEN—The ladies of the Community Council met on Thursday afternoon with 25 members present. The ladies of Sherman Circle furnished a well-planned program, after which Mesdames Colner and Emery served a luncheon. The meeting adjourned at 4:30 to meet again in two weeks with Mesdames Tennewald, Goodwill and Frahm as hostesses.

Mrs. Cal Griswold of Bull was a guest of Mrs. G. E. Pledger Thursday. A birthday surprise party was given in honor of Mrs. Cleo Calie on Friday evening at the Frank Goodwill home. Fifty-two were in attendance. The evening's program consisted of dancing and card-playing.

Mrs. Sturgeon McCoy entertained the members of the Hansen Bridge club on Wednesday afternoon at her new home at 227 Elm street in Twin Falls. Mrs. Ralph Wheeler is very ill with complications following measles. At the present writing her condition has shown no improvement.

Charles Wolfswinkel, who recently removed to a farm near Filer, was a business caller in town Friday. Fred Walker is having a building constructed on the west side of Main street, where he will open a new stand and shine parlor.

Ruth Kingston, teacher in the Hansen schools, was unable to attend school last week on account of a badly sprained ankle. She spent the week at the home of her mother at Belfry.

Sam Wiseman made a business trip to Shoshone over Friday and Saturday. In place of the regular church services next Sunday evening the pupils of the seventh grade will reproduce the play "The Bishop and the Silver Candlesticks," taken from the book Les Miserables by Victor Hugo, in which kindness is shown as a power for redemption.

The following pupils made honorary grades during the past month: Primary, A grades, 95 or over, none; B grades, 90 or over: Malcolm Foster, Jimmy Hughes, Earl Thompson, William Wiseman; second grade, B average: Charles Bailey, Jessie Johnson, Frank Schaefer, Sherman Bellwood, Johnnie Bennett, Dean Hill, Clydella Jones, Lena Jackson; third grade, B average: Robert Durk; fifth grade, B grade, none; seventh grade, A, Alfred Ball, Rita Case; seventh grade, B, Corrietta Pledger, Frances Goodman, Clarence Lucerne, Alice Rambo, Lenora Tennewald; eighth grade, B, Howard Hill, Helen Scherrap.

The Rev. Mr. Bledgett has been confined to his home the past few days on account of tonsillitis. He was unable to fill his pastoral appointment both Sunday morning and evening, but Rev. Mr. Mungen of Kimberly kindly consented to preach for him.

The Senior Boys' Booster class will entertain their mothers at the church on Friday evening with an appropriate program, after which a party will be held in the basement.

A. R. Root, who has been quite severely ill the past week, is reported much improved.

Fact About the Moon.

The popular impression that the full moon has the power to clear away clouds disappears slowly, notwithstanding the almost unanimous pronouncement of scientists against it. That may be largely due to the fact that so great an authority in his day as Sir John Herschel regarded the idea as probably correct. After a study of the Greenwich observations it was suggested that the impression may be due to the fact that a change from the cloudy to the clear state is much more likely to attract attention when there is a full moon in the sky, and many meteorologists agree with this.

The Tsetse Fly.

The deadly disease fly of the jungles is said to have been given its double name from the short, sharp sound which it makes twice in quick succession.

IDAHO AND UTAH FORESTS RISING IN POPULARITY

District Forester at Ogden Reports Increase of More than 425,000 Visitors During the Past Season

OGDEN, March 4.—The national forests of the intermountain region are rapidly becoming the popular playgrounds for the public, states R. H. Rutledge, district forester, intermountain district, Ogden, Utah.

A recent report by Mr. Rutledge is as follows: "The national forests of the intermountain region were visited by a total of 426,174 persons in 1923, a marked increase over the year before when the number was slightly less than 300,000, the increase being very largely due to the greater number of through tourists who are visiting the national forests on their way east and west or to the national parks, as several trunk routes pass through national forests.

Parks Also Popular. "At the same time the national forests must not be conceived as competing in any way with the national parks in recreation for the public. The national parks contain wonders of major importance which attract tourists from far and wide all over the United States, while the national forests play their most important part by furnishing good healthful out-of-door recreation for the inhabitants of nearby cities and towns. Their importance in this is clearly shown in statistics recently compiled.

"A total of 141,426 campers visited the national forests of this region.

Nearly half of these, or 68,347, are credited to the Wasatch forest, not because this forest has remarkable attractions, but because it is close to the thickly populated Salt Lake valley. The Uinta, close to the Utah valley, comes next, with 11,000, while the Tejon forest, with its incomparable scenery and world wide fame was visited by only 10,000 campers.

Much the same thing is shown in regard to hunters and fishermen. The accessible forests rather than the primitive backwoods served the followers of Nimrod the best. Out of the 65,153 hunters and fishermen on the national forests of this region 7000 visited the Fishlake forest and over 6000 each were credited to the Wasatch and Uinta forests in Utah and the Targhee forest in Idaho.

"Probably the wildest forest in the whole region is the Idaho, yet it was visited by only 487 hunters and fishermen. The national forests serve the general public which has neither the time nor the money to travel far to the great wonders of the western country, while the national parks serve a more wealthy and leisured class from all over the United States. Each has a definite place to fill."

State summaries are given below:

Idaho, south of the Salmon river— Campers 23,970 Hunters and fishermen 25,282 Through tourists 80,929

Total 130,181

State of Nevada— Campers 2,395 Hunters and fishermen 2,175 Through tourists 64,669

Total 69,239

State of Utah— Campers 103,016 Hunters and fishermen 30,916 Through tourists 52,075

Total 185,949

Western part of Wyoming— Campers 11,415 Hunters and fishermen 4,780 Through tourists 15,992

Total 32,187

What is useless to you may be valuable to others—advertise it in the classified column.

CRAMTON ACCUSES CAMERON. WASHINGTON, March 4 (AP)—A charge that Senator Cameron, republican, Arizona, had sought to gain control of the famous Bright Angel trail, the approach to Grand Canyon national park, and had refused to obey a supreme court mandate that he vacate his claims there, was made on the floor of the house yesterday by Representative Cramton, republican, Michigan.

MRS. SHEPARD DIES

NEW YORK, March 4 (AP)—Mrs. Margaret Louise Shepard, widow of Colonel Elliott F. Shepard and the oldest survivor of eight children of the late Wm. H. Vanderbilt, died suddenly at her fifth avenue home yesterday. She was 79 years old.

Oil From Penguins.

The island of Macquarie lies about half way between the southern coast of Australia and the Antarctic continent. It is uninhabited, but serves as a breeding ground for millions of penguins. Recently it is reported the government of Australia has leased the island to a company which has gone into the business of manufacturing penguin oil, which is produced by digesting the lodges of the birds in huge cauldrons or boilers, in which the pressure of steam is kept at about twenty pounds. The oil is thus brought to the surface and drawn off.

Change now to the brand that never changes and you'll never change again.

Into the attic

FEW youngsters today ever saw a horsehair sofa. They wouldn't know what to do with a fire taper, carpet stretcher, or coal oil lamp. They couldn't braid rags into a rug, or wind yarn without tangling. But they know the how and why of typewriters, phonographs, telephones, automobiles; what happens when a push of the button gives light, or a kodak's flash fixes their image on paper.

Their education is as modern as the advertisements they see. They have no more use for the lamp and chimney of yesterday than you for the wick and tallow of the day before.

Advertisements induce such progress. They urge wide use that means improvement. They help you lift the out-of-date into the attic—rid you of water buckets and soap kettles of slavery. They bring late improvements within your reach.

Read the advertisements regularly. Keep alert to the new.

Without advertising, you would never know a product's worth until you had bought it

## THE GUMPS—OH, DOCTOR!

## MARSHALL SEES PROBABLE RISE IN WOOL PRICE

Expects Production to Show Increase in Response to Higher Market Level; World Production Declines

WASHINGTON, March 4 (AP)—The world production of wool in 1923 was estimated today by the department of commerce at 2,004,011,000 pounds, a reduction of about 60,000,000 pounds from the 1922 figures.

SALT LAKE, March 4 (AP)—With a continuation of the present rate of demand for wool, strong or higher prices seem certain the world over, according to F. R. Marshall, secretary of the National Wool Growers association, in a statement issued tonight. "If conditions affecting consumers are of a kind to enable them to continue moderate purchases at the prices obtaining," said Mr. Marshall, "it may be expected that production will increase in response to the new level of prices. This increase, however, can not be very large except as it is accomplished through the establishment of flocks in farming sections and this process must necessarily be a gradual one. A small increase is possible in range flocks but the curtailment of grazing lands will prevent any material expansion of the range industry."

**Much Wool Stored**  
Mr. Marshall stated that the gap between normal consumption and supply began to widen about the time of the world war, but that because of general conditions it was not noticed at that time. Lack of shipping facilities during the war led to the storing of large quantities of wool, especially in the southern hemisphere. Mr. Marshall stated, and this excess has been drawn upon since the war. Since 1919, according to Mr. Marshall, consumption has been running ahead of annual production, but the fact was obscured through the presence of the accumulated war stocks which have now practically disappeared.

Mr. Marshall added that before the war it was noticeable that South Africa was the only section of the world enlarging its wool-producing area.

**SUSPECT TO STAND TRIAL**  
SALEM, Ore., March 4 (AP)—Extradition has been granted by the office of Governor Walter M. Pierce on request of the governor of Alabama, for George Mondoux, to stand trial at Jasper, Walker county, Alabama, on an indictment charging murder in the first degree committed 10 years ago. The alleged victim was Will Eaton, slain in a coal mine.

## FIUME UNDER ITALIAN LAW

Military Governor Issues Decree Establishing Political Status of City; Carnaro Not Annexed.

FIUME, Italy, March 4 (AP)—Fiume has been placed under Italian law in accordance with a decree issued by General Giardino, the military governor, establishing the civil and political organization of the city. The new territory, which is designated as Carnaro, has not yet been officially annexed to Italy, so the administrative officers there will continue until after the annexation formalities and the government orders the holding of elections.

## UTAH DEMOCRATS ROILED

SALT LAKE, March 4 (AP)—A resolution condemning the republican party for its efforts to destroy the candidacy of the honorable William G. McAdoo for the presidency, "in order to distract attention from their own corruption," was passed by the state democratic central committee last night. The resolution also stated that the Utah democrats expressed their "confidence in Mr. McAdoo's integrity and appreciation for his great service in behalf of democracy."

The convention to choose delegates to the national convention will be held in Ogden, Utah, on June 5.

## BIG FIRM GOES BROKE

NEW YORK, March 4 (AP)—The Virginia-Carolina Chemical Company, one of the largest manufacturers of fertilizers in the country, yesterday went into the hands of receivers after failing in last week's attempt to obtain credit for the season's operations.

## Treasure of the Earth.

"It matters not on what plane of life one labors, nor how large or small the number of his acquaintances, the man who toils, and yet knows that in the circle of his influence there is at least one life in which there is sunshine where, but for him, there would have been shadow; that there is at least one heart in which there is hope where, but for him, there would have been despair—that man carries with him, as he goes, one of the richest treasures on this earth."

## Self-Closing Windows Wanted.

Fortunes await those who supply the idea for a few of the inventions that are needed for everyday use. Among the inventions recently suggested by a scientific writer are: A window that will close itself when it starts raining, snowing or blowing; a sugar dispenser for restaurants to replace the old-fashioned sugar bowl; an ice-water glass that will cool the water without allowing the ice to get in contact with it, and a salt shaker that will keep salt dry and shakable in wet weather.

## The Mongoose That Was.

Morpheus, a fossil animal which once lived in what is now Nebraska, was about the size of a modern camel, had a neck like a horse, back and tail like a tapir, legs like a rhinoceros, but had claws instead of hoofs.

## Congressman Works Way Through College

College boys in the past have done many things to work their way through college, but it remained for William P. Connery, Jr., congressman from Massachusetts, to hit upon the clever idea of going to college through Georgetown University Law School. Mr. Connery, a freshman in the school, hopes to be re-elected and thus be enabled to finish. His brother, who is his secretary and who also is a law student, hopes that wish is realized.

## RECIPE TO CLEAR A PIMPLY SKIN

Pimples Are Impurities Seeking an Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and excrete them out in the form of urine, but in many instances the bowels create many toxins and impurities that the kidneys can eliminate then the blood uses the skin pores as the next best means of getting rid of these impurities, which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of water each morning before breakfast for one week. This will help prevent the formation of toxins in the bowels. It also stimulates the kidneys, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithium. Here you have a pleasant, effervescent drink, which usually helps make pimples disappear—adv.

**Legion in Pennsylvania.**  
Pennsylvania has 608 American Legion posts, with a combined membership of more than 40,000.

**All Volunteers.**  
The army of presidential candidates seems to be made up entirely of volunteers.

## POWER TEMPTING TO SOCIALISTS

Party Members Agree They Should Be Invited to Form New Ministry for Belgium

BRUSSELS, March 4 (AP)—The first general council of the socialist party, convened in extraordinary session today, agreed unanimously that parliamentary tradition demands that the socialist party, whose unanimous vote provoked the fall of the Theunis cabinet, be invited to form a ministry.

An order of the day endorsing immediate dissolution of parliament and general elections also was voted, but a way was left open for collaboration by the socialist party in a government which would attend to immediate settlement of the reparations problem and take measures necessary to lower the cost of living and cause the franc to rise on the exchange market.

In general the socialists were outspoken in the criticism of the king's attitude in not calling upon them to form a cabinet.

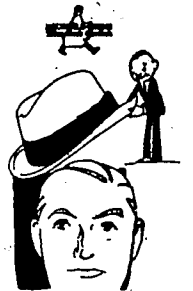

"The rule of fair play demands that the socialists be called to power," one of the most influential members of the party declared at the close of the council session. "By ignoring parliamentary tradition the king made a mistake; he has been badly advised. The socialists have a right to hold it against him."

## REAL ESTATE TRANSFERS

Furnished by the Twin Falls Title and Abstract Company

**Tuesday, March 5.**  
Idaho Farm Development company to T. A. Buckley, \$5000; NE NE 10-12-13. W. M. Schreiber \$5000; NW SW 24-12-13.

# Today's Sporting News

## Everything Ready for Albion Hoop Tournney

Advance Dope Indicates Filer or Burley as Having Best Chance to Win; Carey Team May Spring Surprise

By MARSHALL SOMERVILLE.

The stage is all set for the district basketball tournney at Albion Thursday, Friday and Saturday. Albion has a splendid gymnasium for the staging of such a meet and the roads to the southern town are in excellent condition, according to reports.

The advance dope on the tournney points to either Filer or Burley as the probable winners, judging from the past performances of the two teams.

In the four sub-district eight teams have qualified to enter the contest which will be run on a double elimination plan, meaning that two defeats will be necessary to disqualify a team.

**Eight Teams Qualified.**

The eight qualifying teams represent 28 schools supporting high school basketball in the south central Idaho district. These teams represent Filer, Carey, Jerome, Gooding, Rupert, Burley, Filer and Twin Falls.

The Filer team will not be present at the tournney due to sickness of several of the players and the Gooding and Jerome teams are not seriously contemplating the trip for financial reasons. The expenses of the trip are borne to a large extent by the competing teams.

**May Spring Surprise.**

By comparative scores the Filer and Burley teams have by far the large "edge" on the other teams with the exception of Carey, which has a more or less unknown team. Last year they demonstrated some brilliant basketball and it is very possible that a similar performance this year will upset either of the other two formidable teams.

**Twin Falls will enter the tournney with an unimpressive record of victories...** but, confident, of a good team which would not be totally lost with the loss of a player as would many of the faster teams and they, too, may be able to spring a surprise on the large Albion floor as the Burley team surprised Rupert two weeks ago at the district tournney when they trimmed Rupert decisively after many defeats at the hands of the Rupert team on smaller courts.

**Filer Has Good Chance.**

Filer, too, has extremely good chances of winning the tournney, according to fans who have seen the various teams of the district in action. The Filer players have a record of not one defeat during the season, that at the hands of the Twin Falls five, which they have beaten twice since then, and a victory over Burley early in the season. Filer has a clever combination of three men this year who are point-getters and the problem of covering the attack of all three men has proved too much for the most of the teams they have met this season.

**Jerome and Gooding Out.**

Jerome played second fiddle to Gooding on the north side of the river and Gooding was an easy victim of the blue and white hoopers early in the season.

The present indications are that but five teams, Rupert, Burley, Twin Falls, Filer and Carey will enter the district tournney Thursday when a representative will be chosen to go to the state meet the following week, March 15, at Moscow.

### SALT LAKE BOUT IS DRAW

Johnny Gibbs of Kemmerer and Herman Auerbach Battle Six Hectic Rounds to an Even Break

**SALT LAKE, March 4 (AP)—**Johnny Gibbs, junior welterweight of Kemmerer, Wyoming, and Herman Auerbach, local boxer, fought six rounds to a draw decision here last night. Auerbach forced the going, but Gibbs used a hard right which Auerbach could not evade.

Charlie Lavata, Pocatello Indian boxer, and Earl Matson, local bantamweight, fought six rounds to a draw decision. Matson won the first three rounds by a wide margin, but Lavata came back in the last three rounds strong enough to even it up.

### BERLENBACH STOPS DARCY

**NEW YORK, March 4 (AP)—**Paul Berlenbach, knockout king, dropped Jimmy Darcy of Portland, Ore., in the third round of a 12 round battle last night, and ran him string of knockout to 23. It has been erroneously reported that he had 25 to his credit. After Darcy had been floored three times in the third round the referee stopped the bout. The men are middleweights.

**Better Days.**

"There's a poor man outside who wants something to eat." "Give him some bread and potatoes." "But he seems to have seen better days." "All right; give him a napkin, too."

### Babe Ruth Gradually Getting Upper Hand in Battle with Flu

Yankee Home-Run King Takes Workout in Room and Corridors; Will Be Out Soon

**HOT SPRINGS, Ark., March 4 (AP)—**"Babe" Ruth, the Kingpin of the Yankee ball club, tried to chase the "flu" away today by pacing the hotel corridor and attending to his "duty" with a big black cigar and a bit of solid food.

Clad in a bathrobe, the famous slugger "worked out" in his room and the corridor while his physician, Dr. W. T. Wooten, repeated his predictions of yesterday that the patient would be out in a few days. Ruth is still very weak, the doctor said, but probably will regain his strength rapidly now that he can eat.

### TIMES MEN BOW TO MOVIE FIVE

Valentinos Vanquish Printers and Take First Place in League Standing

After two successive efforts to beat the movie men the Times-bowlers gave the Idaho theater all three games in Tuesday's contest which completes the sixth night of straight wins.

The first game was an easy win for the theater which the Times men confidently expected to pick up in the next game that was tied by a margin of three pins. Then they gave up in disgust and lost their chance to even take one cent from the movie men.

Bruggeman marked every time in the second game in his attempt to even up the count and made a neat little score of 254 which was tied by the evening and put him again into the blue light for high honors with a 553 total. Atlap led the theater and was second with a 537 score.

Totals were comparatively close for the three games with the Idaho theater making down 1474 pins to 2413 for the printers, the difference being 939. Team averages were: Theater 163 Times 160. This gives the Idaho theater first place, temporarily at any rate, with 31 wins to 23 defeats, while the laundry is still in second place with 21 Times a week third, and the sugar factory ready to repeat the theater performance.

Idaho Theater—	Total.
Pix	171 159 143—473
Atlap	180 176 172—528
Moore	157 171 178—506
McDonald	181 204 137—522
Font	137 132 167—436
	835 848 797—2474

Times—	Total.
B. Bruggeman	151 234 185—569
Anderson	180 148 164—492
L. Bruggeman	151 106 150—407
Hill	128 186 98—412
Tarsen	261 165 193—619
	801 839 773—2413

### EIGHT TEAMS TO COMPETE

**POCATELLO, March 4 (AP)—**The high school basketball championship for southeast Idaho will be decided at the tournney to be held in Pocatello Tuesday, Thursday, Friday and Saturday of this week at the gymnasium of the Idaho Tech Institute. Eight teams are entered.

### DERN BEATS YOKEL

**SALT LAKE, March 4 (AP)—**Ira Derr, Salt Lake wrestler, claimant of the world's middleweight title, defeated Mike Yokel of Wyoming here, when Yokel was unable to start the third fall. After Yokel had drawn first blood in 24 minutes, Derr evened things up by winning the second fall in nine minutes with what he terms the "airplane hold." Yokel came back for the third fall but was unable to keep his feet and upon the advice of a physician conceded the deciding fall.

Doctors fear that he may have suffered internal injuries when dashed to the mat by Derr.

**To Cut Glass Tubes.**

It is said that the following is a simple and effective way to cut glass tubes: First, with a sharp triangular file draw a fine line across the tube. Then, holding the two ends of the tube firmly in the hands, bend it, pulling the two ends or halves apart at the same time. It will usually crack at the scratch, with a smooth edge. If the tubing is thick, it may be necessary after making the scratch to start the crack by means of a red-hot bit of glass—for instance, the end of a stirring rod that has been heated over the flame of a lamp.

### 'Round-the World Aviators Plan Flight

The United States army's "Round-the-world" fliers are shown in conference in Washington, arranging the details of their special journey and receiving final instructions before setting out in the "Douglas Cruisers" to circumnavigate the globe. They are shown here, left to right, looking over their route: Lieutenant John Harding, Jr.; Lieutenant Erik H. Nelson; Lieutenant Howell Smith; Major Fred L. Martin, in command of the expedition; Lieutenant Leigh Wade; Lieutenant Leslie P. Arnold and Lieutenant Clair D. Schulze.

### BANKER GIVEN VERDICT IN SUIT FOR ANNULMENT

Beverly D. Harris Wins Pile in Proceedings in Which Wife is Accused of Making Misrepresentations

**NEW YORK, March 4 (AP)—**An supreme court jury today returned a verdict in favor of Beverly D. Harris, former vice-president of the National City Bank of New York, in the marriage annulment suit brought by him against his wife, Eleanor Elaine Harris, on charges that she misrepresented her origin before their marriage.

The jury after four hours and 30 minutes of deliberation found for Mr. Harris on five of the six questions submitted to them and for Mrs. Harris on the fifth question.

The fifth question related to an alleged separation contract entered into by Mr. and Mrs. Harris on May 7, 1921.

The verdict was given in the form of answers to questions that had been submitted to the jury by the appellate division. The findings of fact by the jury will now go to the special term of the supreme court, where attorneys for both sides will present further argument.

### WOULD ALTER LABOR LAWS

Tendencies Prevail in Several Foreign Countries Toward Changes in Length of Working Day

**GENEVA, March 4 (AP)—**Official statements issued recently by the international labor bureau showed the tendency in various countries to revise the hours of labor. It was noted that in Belgium a bill has been introduced to amend the existing eight-hour law limiting the restriction to actual hours of a factual work.

In Germany, it is pointed out, the eight-hour day remains in principle, but provision is made for exceptions, and in some industries, notably in the Ruhr, a prolongation of hours of work is in ready operation or on the point of acceptance, despite some opposition by the workers. In Denmark, the question of slightly increasing the hours of work is being discussed.

On the other hand, says the labor office, word comes from Bulgaria that the government is gradually extending the application of the eight-hour law.

### DEBATE THREE HOURS

**ALBANY, N. Y., March 4 (AP)—**Repeal efforts to memorialize congress to eliminate any chance for double jeopardy in prosecution of Volstead act regulations, embodied in a resolution introduced in the legislature by Assemblyman E. Truett Davidson, and debated upon for three hours in the lower house today, met with success. The measure was passed by a vote of 80 to 60. It now goes to the senate.

### OIL PRODUCTION DROPS

**LOS ANGELES, March 4 (AP)—**Production in the great oil fields of California is declining fast and one of the greatest needs of the industry is for continued exploration on a scale that will meet constantly increased demands, according to Paul Shoup, vice-president of the Southern Pacific railway and president of the Pacific and Associated Oil companies, who addressed the Advertising club here today.

### Deuce of a Time.

A man arrested for murder brined a simple member of the jury with a hundred pounds to insist on a verdict of manslaughter. The jury was out a long time and at last came in with the desired verdict. Afterwards the prisoner had an opportunity of seeing the simple juror, and said: "I'm thankful to you, my friend. Did you have a hard time?" "Yes," replied the man. "A deuce of a time. The other fellow wanted to acquit you."

What is useless to you may be valuable to others—advertise it to the classified columns.

### TOUGH SCHEDULE FOR IDAHO MEN

Six Hard Pacific Coast Games and Long California Trip Signed for Football Squad

**UNIVERSITY OF IDAHO, Moscow, March 4 (Special to The News)—**With six hard Pacific coast conference games and another long California trip already signed up, Idaho faces a tough schedule for her 1924 football season. Next fall the Vandals play at least one more Pacific coast game than any other team in the conference and, in addition, they meet the University of Nevada in a Thanksgiving Day game, at Boise. As the schedule now stands, Idaho plays two home games, with Washington State college October 17, and with the University of Oregon November 8.

In regard to eligibility, Idaho will lose only two men from last season's squad: Al Goff of Walla Walla, who played his third year of varsity ball last fall, and Maurice Kline of Placerville, N. J., who was ruled out according to decision of conference officials this year, has played his limit of western intercollegiate football. It happens that Kline and Goff were first-string centers on the Vandal team, so their loss will be a decided handicap to the team. Otherwise Idaho will open the season with practically every letterman back in uniform.

The schedule, as announced by R. L. Mathews, director of athletics at the university, follows: October 4, Graceland at Spokane; October 11, the University of Montana at Missoula; October 17, Washington State college at Moscow; October 25, Stanford at Portland; October 31, Oregon Agricultural college at Corvallis; November 8, the University of Oregon at Moscow; November 15, open; November 22, the University of Southern California at Los Angeles; and November 27, the University of Nevada at Boise.

Another south Idaho football game will be played at Boise when the freshmen meet the Idaho Technical Institute of Pocatello in November.

An Oversight.

Go-gettery is quite in vogue and is highly successful in so many cases where the citizen has failed to mine the approaches to his money and chutels.

### OSBORNE GETS 60 DAYS; APPEAL WILL BE TAKEN

Future of Baby Marie Is Still Uncertain Following Conviction of Her Father on a Charge of Battery

**IDAHO FALLS, March 4 (AP)—**Leon T. Osborne, 44, father of "Baby Marie" Osborne, juvenile motion picture actress, was sentenced to serve 60 days in the jail here late yesterday afternoon by A. D. Peck, judge of the probate court, following his conviction on a charge of battery, committed upon his daughter. Hurry Holden, counsel for the defense, stated that an appeal will be taken immediately.

While the fate of "Baby Marie" is still uncertain, pending a conference between Prosecuting Attorney Lewis A. Lee and Judge Peck, it is understood that the child will be sent to her mother or will be kept until her mother can come for her.

### IDAHO PIONEER IS DEAD

Word Is Received of Death of John Brown of Blackfoot, Former Legislator from Bannock County

**POCATELLO, March 4 (AP)—**Word has been received here of the death on Sunday at Los Angeles of John Brown of Blackfoot, well known Idaho pioneer and business man.

Brown located at Pocatello over 30 years ago and was interested in various mercantile establishments. He served in the state legislature as senator from Bannock county and in 1893 was appointed registrar of the Blackfoot land office by President Cleveland.

Following his service of four years in the land office he entered business in Blackfoot. He retired several years ago from active business. The body will be buried at Cleveland, Tenn.

### PLAN NEW BUILDING

**POCATELLO, March 4 (AP)—**Ground is broken for a one-story building to be erected by the National Loan company, adjoining the Bannock hotel, on South Arthur avenue. The building will cost \$20,000 and will be 60 by 100 feet.

### OPINION REVERSED

**BISMARCK, N. D., March 4 (AP)—**The state supreme court, in an opinion announced tonight, reversed an opinion of Judge P. T. Lemke of Morton district court, in issuing a peremptory writ of mandamus directing the secretary of state to place the name of Robert M. LaFollette on the presidential preference primary.

### RAIN FLOODS LOS ANGELES

**LOS ANGELES, March 4 (AP)—**A rain storm was sweeping over a large portion of southern California tonight. Precipitation started here at 3:20 p. m. and an hour later streets were flooded in a number of sections of the city. The United States weather bureau gauge showed a rainfall of .26 of an inch up to 5 p. m.

### Boomerangs.

Boomerang-like objects are claimed by some to have existed in ancient Egypt and Assyria, and it may be that certain bone objects which belonged to prehistoric man were used in the same manner as boomerangs. This weapon was used by the Australian bushmen. It averages 2 1/2 feet in length by 2 1/2 inches in width. It is made of the green wood of the acacia, or some other hard wood, treated with fire. In India, boomerangs are made of ivory or steel, and are generally sickle-shaped.

## THE RETIRING SENATOR

The public is already somewhat  
hardened to having business men re-  
tire from active participation in the  
money-making game in order to pur-  
sue a life-long desire for reading or  
travel or to carry out some beloved  
hobby. It is also fairly well prepared  
to withstand the shock when men in  
public life, like former Justice Clarke,  
retire for sound and interesting rea-  
sons to live their own lives more fully  
and to devote their energies to special  
causes in which they believe.

But the reaction is more severe  
when a United States senator chooses  
to quit his job, after only eighteen  
years in senatorial office, for the pur-  
pose of growing a flower garden. The  
Oklahoma statesman who plans to do  
that has been an able and industrious  
member of the Senate. Yet the rou-  
tine duties there have pulled on him  
and the things he has been able to ac-  
complish do not seem to him to be of  
sufficient importance to justify his  
seeking to remain there indefinitely.

A flower garden and leisure to take an  
interest in public affairs without being  
tied down to petty details are more  
appealing to him than law-making.

The independence of thought and  
action evidenced by his decision are of  
more importance than the actual with-  
drawing from public life. If more  
senators and other public officials had  
a hobby sufficiently strong to counter-  
balance their overbearing self-importance,  
they might tackle their public  
service with greater efficiency and a  
broader and saner point of view.

## AN AUTO SAFETY CODE

The American Society of Engineers,  
through a committee which has long  
been studying the subject, is now rec-  
ommending to the public three funda-  
mental for a code of automobile safety.  
It hopes to have these adopted in  
every state in the Union.

The code asks first for jail sentences  
and forfeiture of licenses for drunk  
drivers; second, for trial on charges  
of murder of drivers responsible for  
fatal automobile accidents; and third,  
for careful physical and mental exam-  
ination of all applicants for drivers'  
licenses.

Although these provisions may seem  
severe to some persons, they have al-  
ready justified themselves in various  
communities where they have had a  
partial trial. Reckless driving has  
been greatly reduced in cities which  
have failed intoxicated drivers. De-  
priving a reckless driver of his car  
for a period of days or weeks has  
also helped to check such driving.  
Licensing drivers and requiring that  
they pass rather rigid tests before re-  
ceiving the licenses are measures which  
appear strongly to thoughtful persons.

The fact that motor car accidents  
killed fourteen thousand four hundred  
sixteen persons in nineteen hundred  
twenty-three is a serious reflection on  
all drivers and automobiles. Yet the  
automobile is indispensable in indus-  
try and transportation, and its proper  
use undoubtedly saves lives and in-  
creased health last year. There is  
really no reason why deaths from reck-  
less driving should be accepted as in-  
evitable and so allowed to blacken the  
record of an otherwise useful and  
pleasurable thing.

## TOO MANY FIRES

A fire a minute and a blaze in a  
dwelling somewhere in the United  
States every four minutes is the na-  
tional record as discovered by the na-  
tural bureau of the National Board  
of Fire Underwriters.

Not every fire, of course, or every  
blaze in a dwelling, reaches large pro-  
portions or results in complete de-

## Dreamland Adventures

THE ONE GOOD SPARROW

BY DADDY

Jack and Janet catch a flock of  
sparrows in a barn. They put them  
in a cage and set out to tell them.

## CHAPTER III.

The Lonesome Little Girl.

"Birds for sale!" shouted Jack  
and Janet through the village  
streets. "Who wants to buy our  
birds?"

Children peeked out of windows at  
the cage which Jack and Janet were  
drawing on their sled. "Mother! Buy one bird!"  
cried the children to their mothers.  
But when the mothers looked into  
the cage and saw that the birds were  
commonplace sparrows they quickly  
shook their heads and turned away.

"We don't want any noisy, untidy  
sparrows in our houses," they scolded.  
The sparrows were also scolded.  
So Jack and Janet hurried on. They  
found it was not easy to sell the spar-  
rows. "I wish they were sweet-singing  
canaries," sighed Janet.

"The sparrows were anything but  
sweet singing. Indeed their voices were  
very harsh and shrill as they quar-  
reled among themselves."

"Birds for sale!" cried Jack. "Who  
wants our birds?"

A pale little girl looked out shyly  
from the window of a humble cottage.

"Would you like a bird?" asked  
Janet of the little girl. The little girl  
nodded her head, while a sad look came  
over her face.

"Yes, I would like a bird," she re-  
plied shyly. "But alas, I have no  
money with which to buy one."

Janet looked quickly at Jack. He  
grinned at the pale little girl.

"You don't need money to buy our  
birds," said Jack. "You can pay us  
with a smile."

"The face of the little girl lighted up.  
"Oh, I'll pay you well then," she  
cried. "For I'll give you all the smiles  
I have today and all I can make to-  
morrow."

"Have you a cage?" asked Janet.

"The little girl ran to a chest and  
brought out a battered but secure  
cage."

"I found this on a rubbish heap last  
summer," said she. "I brought it home  
hoping that some day I might get a  
bird."

Jack looked at the squabbling spar-  
rows in the box on the sled. They  
didn't seem a very nice lot of birds.

But nearly every fire is  
potentially a great and devouring con-  
flagration, and even the small ones  
involve some loss.

The first five causes of fires during  
the period from nineteen hundred sev-  
enteen to nineteen hundred twenty-one  
were found to be defective flues and  
chimneys; sparks on roofs; stoves, fur-  
naces, boilers and their pipes; elec-  
tricity; matches and smoking. All of  
these causes are preventable. Careful  
inspection and construction at the time  
of building, careful attention to the  
removal of soot accumulations and the  
making of repairs, careful handling of  
matches and glowing tobacco ashes,  
proper wiring in buildings and use of  
electrical devices are some of the  
many means of preventing fires in  
the first place. Calm and prompt ac-  
tion are essential after a fire has  
started.

The fire losses of the five-year pe-  
riod cited totaled well over thirty-one  
million dollars. That is too much for  
a nation that prides itself on good  
sense and business ability to pay for  
preventable losses.

## Predicted Power by Radio

Dr. C. P. Steinmetz, whose develop-  
ment of electrical science brought him  
to a place of eminence in the scientific  
world, said shortly before his death  
that the day was coming when there  
would be a new electric power trans-  
mitted by radio over a distance  
as far as from Chicago to Canton,  
China. He emphasized the word "pow-  
er" and said much of the world's work  
would be done by radio when it was  
fully developed.

## All the Same

Slankins considered himself a hu-  
munist. He sent a selection of his  
original jokes to the editor of a news-  
paper and was very much pleased when  
a ripe old man would send electric power  
transmitted by radio over a distance  
as far as from Chicago to Canton,  
China. He emphasized the word "pow-  
er" and said much of the world's work  
would be done by radio when it was  
fully developed.

He opened it with feverish haste.  
There was no check, however, just a  
small note, saying:

"Dear Sir—Your jokes received.  
Some were very good; some were  
have not seen yet."

## Might Be Elsewhere

"I saw your daughter was seen on  
classic music," said a popular  
songster singing, "Isn't it?"

"Not in this house," was the gloomy  
reply.

## Travel Inducement

American—I suppose your son's  
third after knowledge led him to travel  
in Europe this winter?

Second American—No; merely his  
thirst.

## X-Ray for Swiss Cheese

Swiss cheese is now examined with  
the aid of an X-ray machine by the  
Department of Agriculture.

"I'll give you all the smiles  
I have!"

They were scolding and pecking at each  
other. "I except one gentle looking  
bird in a corner."

"Which one would you like?" asked  
Janet of the little girl.

"Take me!" shrieked Pecky Spar-  
row. "Take me! Take me!" shrieked the  
others—all except the gentle look-  
ing bird in the corner. It just sat there  
and lifted pleading eyes to the pale  
little girl.

The pale little girl studied the spar-  
rows carefully. She turned from the  
noisy birds were when shrieking "Take  
me!" "Take me!" and her gaze rested  
on the gentle looking bird.

"I'll take that one," she said.

Jack put his hand into the box and  
brought out the gentle looking spar-  
row. He put it into the little girl's  
cage.

"Oh, thank you," cried the little  
girl with a warm smile. "I'll be very  
good to my bird and feed it crumbs  
every day. Perhaps it will sing sweet  
songs to me."

"Ah, Ah! Cheep! Cheep! Sweet  
songs indeed. That account spar-  
rows has the poorest voice among all  
joceros! The sparrows. "We are good  
singers! take us!"

That made Jack and Janet smile.  
The sparrows didn't know much about  
singing. Perhaps if they thought the  
gentle looking sparrow was such a poor  
singer it might really be the one good  
singer of the lot. "So for the sake of  
the pale little girl."

## In the Days of Poor Richard

By IRVING BACHELLER

Copyright by Irving Bachelier (Continued)

"They're going to be bad trouble that,"  
said Solomon. "Them lads ain't to  
be trusted. They're only dand' as they're  
commanded. It's the pecky king that  
orin he hatched."

They were hurrying on, as he spoke,  
and the words were scarcely out of  
his mouth when they heard the com-  
mand to fire and a rifle volley—then  
loud cries of pain and shrill curses and  
running feet. They turned and started  
back. There was rushing out of  
their houses, some with guns in their  
hands. In a moment the street was  
full.

"The soldiers are slaying people," a  
man shouted. "Men of Boston, we  
must arm ourselves and fight."

It was a scene of wild confusion.  
They could get no further on Cornhill.  
The crowd began to pour into side-  
streets. Rumors were flying about that  
many had been killed and wounded.  
An hour or so later Jack and Solomon  
were seized by a group of ruffians.

"Here are the d—n Tories!" one of  
them shouted.

"Friends of murderers!" was the cry  
of another. "Let's hang 'em!"

Solomon immediately knocked the  
man down who had called them Tories  
and seized another and tossed him so  
far in the crowd as to give it pause.

"I don't mind being hung," he shout-  
ed, "but if it's done proper, but no man  
can tell me a Tory lessen my hands  
are tied, without hitting hurt. An' if  
my hands were tied I'd do some hal-  
lowin', not to say no more."

A man back in the crowd let out a  
laugh as loud as the braying of an  
ass. Others followed his example.  
The danger was passed. Solomon  
shouted:

"I used to know Preston when I were  
a scout in Ambrose's army fightin' In-  
dians an' Frenchmen, which they're  
more'n twenty poutches on the stock  
of my rifle an' fourteen on my belt. An'  
my name is Solomon Binkus from Al-  
bany, New York, an' if you'll excuse  
us, we'll put for home as soon as we  
kin get away convenient."

In the morning they learned that  
three men had been killed and five  
others wounded by the soldiers. Squads  
of men and boys with loaded muskets  
were marching into town from the  
country.

Jack and Solomon attended the town  
meeting that day. The Old South  
meeting-house. It was a quiet and or-  
derly crowd that listened to the  
speeches of Josiah Quincy, John Han-  
cock and Samuel Adams, demanding  
calmly but firmly that the soldiers be  
removed from the city. The famous  
speech of Hancock was a great  
feature in those days.

It is not surprising that Jack was im-  
pressed by his grandeur, for he had  
entered the meeting-house in a sceriet  
velvet cap and a blue damask gown  
lined with velvet and strode to the  
platform with a dignity even above his  
reputations. As he faced about the  
boy did not fail to notice and admire  
the white satin waistcoat and white silk  
stockings and red morocco slippers.

Mr. Quincy made a statement which  
stuck like a bar in Jack Irons' memory  
of that day, and perhaps all the faster  
because he did not quite understand it.  
The speaker said: "The dragon's teeth  
have been sown."

The chairman asked if there was any  
person present who had been on the  
scene at or about the time of the shoot-  
ing. Solomon Binkus arose and held  
up his hand and was asked to go to  
the minister's room and confer with  
the committee.

Mr. John Adams called at the Inn  
that evening and announced that he  
was to defend Captain Preston and  
Solomon as witnesses. For that reason  
they were detained some days in  
Boston and released finally on the  
promise to return when their services  
were required.

They had a hearty welcome at the  
little house near the King's Arms,  
where they sat until midnight telling  
of their adventures. In the midst of  
it Jack said to his father:

"The speaker said that in Boston  
that the dragon's teeth had been sown.  
What does that mean?"

"It means that war is coming," said  
John Irons. "We might as well get  
ready for it."

These words, coming from his fa-  
ther, gave him a shock of surprise. He  
began to think of the effect of war  
on his own fortunes.

Solomon sent his furs to market and  
went to work on the farm of John  
Irons and lived with the family. The  
boy returned to school. After the boy  
had been released and tucked in mid-  
night, they were summoned to Boston  
to testify in the trial of Preston. They  
left in September, taking with them  
a drove of horses.

"It will be good for Jack," John  
Irons had said to his wife. "He'll be  
the better prepared for his work in  
Philadelphia next fall."

"It will be good for Jack," John  
Irons had said to his wife. "He'll be  
the better prepared for his work in  
Philadelphia next fall."

Philadelphia next fall."

"It will be good for Jack," John  
Irons had said to his wife. "He'll be  
the better prepared for his work in  
Philadelphia next fall."

Two important letters had arrived  
that summer. One from Benjamin  
Franklin to John Irons, offering Jack  
a chance to learn the printer's trade  
in his Philadelphia shop and board and  
lodging in his home.

The other letter was from Margaret  
Hare to the boy, in which she had said  
that they were glad to learn that he  
and Mr. Binkus were friends of Cap-  
tain Preston and inclined to help him  
in his trouble. "Since I read your let-  
ter I am more in love with you than  
ever," she had written. "My father  
was pleased with it. He thinks that  
all cause of complaint will be removed.  
Until it is, I do not ask you to be a  
Tory, but only to be patient."

Jack and Solomon were the whole  
day studying these letters across Van  
Deusen's and a headcar carried in  
the rough road. Mr. Binkus wore  
his hanger—an old Damascus blade in-  
herited from his father—and carried  
his long musket and an abundant store  
of ammunition; Jack wore his two pla-  
tois, in the use of which he had be-  
come expert.

They came to wagon roads improv-  
ing as they approached towns and vil-  
lages, in the first of which they began  
selling the drove. When they reached  
Boston, nearly a week later, they had  
only the two horses which they rode.  
The trial had just begun. Ben and  
Solomon's testimony made an impres-  
sion. Jack's letter to his father  
said that Mr. Adams complimented  
them when they left the stand.

There is an old letter of Solomon  
Binkus which briefly describes the  
"journey." He speaks of the "pomps"  
of the soldiers who escorted them. "They  
grinned at me all the time an' the ol'  
big wig judge in the women's dress  
got mad if I tried to crack a joke,"  
he wrote in his letter. "He looked like  
he had paid too much for his whistle  
an' thought I had sold it to him.  
That's who he was, an' he was eatin'  
John Adams in about as sharp as a  
razor. Took a likin' to Jack an' me.  
I tol' him he were smart 'nough to be  
a trapper."

The two came back in the saddle  
and reached Albany in late October.

## CHAPTER III

The Journey to Philadelphia.

The New York Mercury of Novem-  
ber 4, 1770, contains this item:

"John Irons, Jr., and Solomon Binkus,  
the famous scout, arrived Wednes-  
day morning at New York, and were  
conducted to the city by Major Wash-  
ington and accompanied him to the  
Great Kanawha river in the Far West."

Solomon was soon to meet an officer  
with whom he was to form the main  
scope for his talents. Jack was on his  
way to Philadelphia. They had found  
the ship crowded and Jack and two  
other boys "plugged together"—in the  
expressive phrase of that time—on the  
cabin floor, through the two nights of  
their journey. Jack noticed not the  
hardness of the floor, but that there  
was much drinking and arguing and  
expounding of the common law in the  
forward end of the cabin, which often  
interrupted his slumbers.

He took the boat to Amboy as Ben-  
jamin Franklin had done, but without  
success, and thence traveled by stage  
to Burlington. There he met Mr. John  
Adams of Boston, who was on his way  
to Philadelphia. He was a full-fledged,  
ruddy, strong-built man of about thirty-  
five years, with thick, wavy dark hair  
that fell in well-trimmed tufts on  
either cheek and almost concealed his  
ears. He had a fine, open brow gray  
at the temples. He had a prominent forehead,  
large blue and expressive eyes and a voice  
clear and resonant. He was hand-  
somer than most men of his time.

Mr. Adams greeted the boy warmly  
and told him that the testimony which  
he and Solomon Binkus gave had saved  
the life of Captain Preston. The great  
lawyer took interest in the boy and  
accompanied him to the top of the  
stage, the weather being clear and  
warm.

When Jack was taking leave of  
Mr. Adams at the Black Horse ter-  
race in Philadelphia the latter invited  
the boy to visit him in Boston if he  
was about to leave the city.

# MURTAUGH ROAD RIGHT OF WAY ISSUE CLEARING

Negotiations on Which Improvement of Gap in Oregon Trail Hinges Give Promise of Early Settlement

Negotiations for acquisition through the Murtaugh district of a right of way for the Old Oregon state highway are proceeding with promise of early satisfactory settlement, directors of the Twin Falls Chamber of Commerce were told Tuesday evening at a regular monthly meeting which was devoted largely to consideration of highway affairs. Statement to this effect was made by C. E. Lind, chairman of the chamber's road department, and Secretary C. F. Dwight.

The state highway department is ready to call for contractors' bids and begin road construction to bridge the gap in the Old Oregon Trail between the end of pavement at Hansen and the end of gravel road at the junction of the state highway west of Burley. The right of way through the Murtaugh district are completed, according to statement of H. W. Gregory, state director of highways, in a letter under date of March 3, read to the directors at this meeting.

## Governor to Attend Meeting.

Governor Moore and W. J. Hall, state commissioner of public works, will attend a meeting to be held probably in Piler to consider improvement of a portion of the state highway between Piler and Buhl, which remains unimproved and which for several days last month was practically impassable. Arrangements for this meeting will be completed when Commissioner Hall returns from northern Idaho within the next few days, according to statement made in a letter from the governor which was read to the directors. The governor, in this letter, expressed the wish that all persons interested in the improvement of this road should attend this meeting.

Every member of Idaho's congressional delegation is in favor of appropriations for improvement of roads and trails in national parks, and to this effect being sent by each senator and representative in congress to the chamber in acknowledging receipt of a resolution asking for such appropriation adopted at a former meeting of the chamber. The resolution was given by the Idaho delegation of support of a bill introduced in the house by Representative Sinnott, providing for an appropriation of \$75,000,000 for improvement of roads and trails in national parks during the next three years.

## Support for Bonting Body.

Report was made to the directors that membership subscriptions collected here to further the purposes of the Western Good Roads and Tourist Bonting association, amounting to approximately \$300. The association purposes to divert tourist travel from California and the southwest to Yellowstone national park, from Teton, Nevada, northward through Wells and Twin Falls. It has arranged to publish edition of a booklet which will be distributed through California hotels, garages and tourist information bureaus.

Chamber of commerce members are co-operating wherever possible with the Twentieth Century club in plans for the "Smile and Style" show to be presented here March 12 and 13. Kenneth Beach, chairman of the merchants' department reported.

## THREE CHURCHES WILL OBSERVE LENTEN PERIOD

Lutheran, Episcopal and Catholic Congregation and Parishes to Hold Special Services

Ash Wednesday, marking the beginning of the lenten period, will close on Easter day, will be observed with services today in the Lutheran church, Episcopal, and St. Edwards' Catholic church, while regular Wednesday services will be omitted in the Lutheran church because of the late-ness of the lenten season this year and the fact that many communicants are busy with work in the fields.

Holy Communion will be celebrated in Ascension church at 10 o'clock this morning followed by an evening service at 8 o'clock. Wednesday evening services will be conducted by the rector, the Rev. L. P. Nissen, during the lenten period.

## Distribution of the ashes will take place, at 8 o'clock this morning in St. Edwards' church, where there will be evening services each Wednesday and Friday throughout lent, with sermon by the pastor, the Rev. Romi S. Keyzer.

## NEW MEMBERS PLEDGED

Three new members to be initiated at a meeting next month were pledged by members of the I. F. T. society at a "smoker" meeting Tuesday evening at the home of James Deany. The members-elect are Robert Simpson, Edgar Russell and Forrest Varney.

# Month Just Closed Warmest Since 1907

Observer's Figures Show Average Temperature of February This Year 38.2 Above

A monthly report just compiled by M. Hammond, government weather observer here, is authority for the statement that the month just closed was the warmest February since February, 1907, when the average temperature was a little above 40 degrees.

The average temperature of the month just past, according to the observer's records, was 38.2 degrees above zero, average maximum being shown at 47.8 and average minimum at 28.7 degrees above zero.

The mercury reached its high mark for the month at 68 above and was low at 21 above.

A total of 1.12 inch of precipitation with four inches of snowfall was recorded.

Two days were listed as being clear, five cloudy and 14 partly cloudy.

# FIREMEN TRAVEL FAR FOR WATER

Extend Line from Bed of Rock Creek to Save Burning Alfalfa Meal Mill

Water was lifted about 200 feet from the bed of Rock creek by the Twin Falls fire department's pump to extinguish fire believed to have been caused about 5 o'clock Tuesday afternoon, by an overheated electric motor in the Independent Meat company's alfalfa meal mill in close proximity to its packing plant, two miles southeast of Twin Falls.

Damage from the fire was confined almost entirely to the roof of the building although the blaze was well under way when the fire fighters arrived on the scene. In order to obtain water it was necessary to drive the big motor pump down to the edge of Rock creek and to carry a line of hose about 200 feet in length up to the burning building.

A number of spectators in automobiles went out to the scene of the fire, many believing that the sugar factory, which is in that vicinity, had caught fire.

The water in the alfalfa meal mill is said to have been operated to force water into a tank for use in the parking plant, and the mill itself has not been operated for some time.

# BOY SCOUTS TO DEVOTE DAY TO TREE PLANTING

J. A. Waters to Direct Setting Out of Hundreds of Trees on Grounds Surrounding Shoshone Falls

Under supervision of James A. Waters, Twin Falls pioneer horticulturist, 250 Boy Scouts are expected to devote next Saturday to planting trees on property surrounding Shoshone falls and owned by B. P. Adams, Omaha, according to statement Tuesday of P. Douglas Hawley, district scout executive. Each lad is expected to regard the trees as plants on this occasion as personal monuments.

Twin Falls county commissioners have given permission for removal of a number of juniper trees from adjoining lands to be transplanted by the scouts and have agreed, Mr. Hawley said, to furnish protection for the trees and maintain favorable growing conditions for them.

Mr. Adams is reported to have contributed \$100 toward the expense of the undertaking.

# STAGE SET FOR FROLIC OF "FORTY AND EIGHT"

Former Service Men of Doren Neighborhood to Assemble Here Today for Installation Ceremony

Arrangements were completed Tuesday evening for the installation here today of a unit of "La Societe 40 et 48 Cheveaux," an organization composed of American Legion members and popularly known as the "Forty and Eight." The list of candidates for membership to be initiated at this meeting had increased at that time to about 25 names of veterans of the world war who are most active in the affairs of the legion.

Festivities of the gathering here of the "Forty and Eight" are scheduled to begin this afternoon with a street parade, followed by a banquet in the Rogerson hotel and an evening meeting.

Attendance of about 100 members and candidates for membership representing a dozen towns of this region is expected.

## Real Sportsman.

A real sportsman shoots a few birds, leaves a few for the other fellow, and a few more to raise broods for next year.

## NOTICE

On and after March 1, 1924, terms for services and supplies are cash.

DR. H. R. GROOMER

Twin Falls Veterinary Hospital.

# RESPIRE GIVEN IN MUTUAL CASE

Adjournment Taken in Preliminary Hearing on Embezzlement Charge

Possibility of postponement to the May term of trial in district court in the event that K. S. Peters, former manager and P. O. Lechleiter, former secretary of the Mutual Building and Loan association, are held to answer charges of embezzlement of \$18,432 of the association's funds as a result of preliminary examination opened in probate court here Monday, was presented Tuesday afternoon when, on request of Homer C. Mills, of defense counsel, the hearing was adjourned to be resumed next Saturday. Delay in bringing the case to trial was indicated in view of the fact that the March term of district court is to open next Monday, and it is considered doubtful that transcript of the proceedings in the preliminary hearing can be completed in time for trial during that term.

Mr. Mills sought adjournment of the preliminary hearing to Saturday because he was expected to appear in the interests of a client in United States district court in Boise.

## Auditor Only Witness.

Edwin A. Wilson, Twin Falls accountant, who recently completed an audit of the association's books on the report of which the embezzlement charge is based, occupied the witness stand throughout the second day of the preliminary hearing Tuesday. Prosecuting Attorney J. W. Taylor and Frank L. Stephan, his associate in this case, completed re-direct examination of the witness and then were questioning Mr. Wilson on re-examination when adjournment was taken.

An interesting development of the day's proceedings was the introduction in evidence by the defense of two notes said to have been executed by Peters and Lechleiter to balance their account with the association. Mr. Wilson said that he had not found those notes when his audit was made.

Mr. Mills stated that they had been kept in a "letter book" in the association's office.

## No Signatures Shown.

Corners on which there had been space for signatures of persons executing the notes had been torn off. Across each note was written the words "Charged to Peters and Lechleiter account."

One of the notes, dated December 29, 1921, was executed in the sum of \$2,083.73, and the other, dated June 18, 1921, was drawn for \$1,091.

Notice of defense counsel to eliminate from the complaint any of the amounts alleged, to have been embezzled prior to three years ago was denied by Judge O. P. Duvall, who ruled with the prosecution that alleged embezzlement of these amounts was part of a continuous transaction.

## LECHLEITER WOULD INTERVIEW

Petition of Frank George Lechleiter, former secretary of the Mutual Building and Loan association, for a court order permitting him to interview as a party defendant in the suit instituted by the association against the United States Fidelity and Guaranty company, was filed in district court here Tuesday by his attorney, Homer C. Mills.

Mr. Lechleiter in his petition asks also that the application of the defendant company for removal of the case to the federal courts be denied on the grounds that Lechleiter is a citizen and resident of Twin Falls, and further that he has a "good, meritorious and sufficient and complete defense to each of the causes of action and the whole thereof."

The action was instituted by the association for recovery of approximately \$18,000, claimed under provisions of bond issued for Lechleiter as secretary of the association.

# ENGINEER SUES IDAHO CENTRAL

J. H. Heyer Claims \$25,000 Fund Held in Esrow for Himself and Other Creditors

Suit on behalf of himself and "all other creditors of the Idaho Central Railroad company who come in and contribute to the expense of the action," to collect \$27,700 for services rendered as locating engineer for the Idaho Central company, was instituted in district court here Tuesday by J. H. Heyer, Twin Falls, against J. N. Clear, J. A. Walters, M. J. Sweeley, F. W. Dunne and J. A. Keeney, as trustees, and the Twin Falls National bank.

Request is made for the court order directing the bank to turn over to Heyer a fund of \$25,000 subscribed by Twin Falls citizens for purchase of the Idaho Central company's assets and which is held by the bank in escrow. A certificate of conference and necessity granted by the interstate commerce commission for construction of the Rogerson-Wells railroad, for the purchase of which the fund was subscribed, according to the complaint filed in this case, is the only asset of the Idaho Central company.

Heyer alleges in his complaint that he was employed from August 25, 1922, until May 31, 1923, under an agreement with the Idaho Central company providing that he should receive a salary of \$250 per month and a bonus of \$500 when his work was completed. He actually received he says, only \$25, and paid on his own account \$150.80 for meals and \$17.46 traveling expenses while engaged in this work.

The complaint was filed by Attorney James H. Wise and Harry J. Benoit.

## MOVES AUTO PAINT SHOP.

Jack Thorp has completed removal of his auto paint shop from its former location on Main avenue west into new quarters at 223 Second avenue south in the building formerly occupied by the Fred Post harness shop, across the street from the fire station.

# Declining Mercury Marks Day's Weather

Decided fall in temperature was the outstanding feature of weather conditions in the Twin Falls area Tuesday, records of the government weather observer's station here showing minimum temperature for the 24-hour period ending Tuesday evening at 23 above, a fall of eight degrees under the low mark of the preceding day. Maximum temperature Tuesday was shown at 45 above, an advance of one degree.

# FIREMEN CO-OPERATE IN BENEFIT FILM SHOWING

Share in Receipts from "Midnight Alarm" to Be Nucleus of Fund for Purchase of Siren at Station

Share of the Twin Falls fire department in the box office receipts from presentation of the motion-picture play, "The Midnight Alarm," Monday and Tuesday at the Orpheum theatre, will be retained by the firemen as the nucleus of a fund for purchase of a big siren which will be installed at the fire station, Manager A. R. Anderson of the Orpheum stated Tuesday evening.

The arrangement under which the Twin Falls firemen co-operated with the theatre in the presentation of the film here is one which has been employed in its presentation in Salt Lake, Idaho Falls and elsewhere, and in this instance, Mr. Anderson said, it seems to have been mutually satisfactory.

Under this arrangement, the fire department's chemical apparatus was driven slowly through Twin Falls streets to advertise the show. The route taken for this purpose, however, was not out of range of the fire alarm and the motor pump was held in the station ready for use in case of emergency.

The blaze at the Independent Meat company's alfalfa mill outside the municipal limits was the only alarm turned in during the two days.

## FILES NOTICE OF APPEAL

Notice of appeal to the state supreme court for judgment entered in district court here December 5, 1923, annulling a warranty deed and awarding \$4,681.10 to the defendants, I. G. Gooding and Maude Gooding, husband and wife, from the Ferguson Fruit and Land company, was filed in district court here Tuesday by Hodgkin, Stephan and North, as attorneys for the company. The notice was addressed to the defendant Goodings and Bothwell and Chapman, their attorneys.
