## Classes President as "Principal" Named in Telegrams to McLean

Hefflin Connects Coolidge with Person Mentioned in Secret Messages; Committee Goes in Closed Session

WASHINGTON, March 5 (AP)—As the oil committee prepared today to establish the identity of the "principal" mentioned in one of the celebrated McLean telegrams, Senator Hefflin, democrat, Arkansas, told the senate he thought the reference was to President Coolidge.

"I think the 'principal' referred to here is the president," Senator Hefflin said, after reading the message sent to the Washington publisher at Palm Beach on last January 29, by Ira E. Bennett, an editorial writer on the Washington Post.

Senator Hefflin expressed the belief that the statement in the telegram that there would be "no resignations" was in keeping with a published statement about that time that President Coolidge had said he would not permit Secretary Denby to resign at the time the senate was demanding his resignation.

Connects Evidence.

"I think these two things are connected up," Senator Hefflin said, "that they mean just what the telegram says; only that the 'principal' had been seen; that reaction in a political way is expected; that there will be 'no rocking of the boat and no resignations'."

"I should like to have the committee ask Mr. Bennett (owner) if he understood that he is going to appear before the committee—to explain this telegram in detail."

The "principal" is referred to in another of the McLean telegrams examined today by the oil committee behind closed doors after the public hearing previously announced had been abandoned. The text was withheld until tomorrow, but some committee men said it might be of assistance in the effort to ascertain who the "principal" is.

Seek Message.

Having received information that Attorney General Daugherty was at Florida at the time the telegram was sent, senators said they would seek also to establish the nature of the message which the Bennett telegram informed McLean had been delivered to the "principal."

White House officials would make no comment on Senator Hefflin's statement other than to say that Bennett had conferred with the president on several occasions, but that there was no record showing that he had a conference on January 28.

Bennett Silent.

Bennett also declined to comment, saying his statement would be presented to the committee, upon which he has.

Spent \$16,000 in Effort to Change National Anthem

Woman Who Financed Million-Dollar Church Objects to Third Stanza in the Star Spangled Banner

NEW YORK, March 5 (AP)—Mrs. August E. Stetson, who financed the \$1,250,000 First Church of Christ, Scientist, in this city, testified today before Deputy Commissioner of Accounts Louden she had spent \$16,000 for advertising space in New York newspapers in a campaign to strike the third stanza from the Star Spangled Banner.

Subpoenaed for the deputy commissioner's investigation of financial sources for an alleged flood of propaganda against the national anthem, Mrs. Stetson declared her advertising was prompted by a life ambition to further peace and good will on earth. The third stanza of Francis Scott Key's poem was subversive to both peace and good will and the music was that of "an old English bar song," she declared.

Deputy Commissioner Louden said he had learned by a special trip to the archives at Washington, D. C., that the melody of the national anthem was a popular song of Revolutionary days and that it originated in the hymn "Anacreon in Heaven."

Mr. Louden announced he was preparing an "authentic history" of the origin of the anthem.

## DESERTERS GET FRIENDLY TURN FROM COOLIDGE

Chief Executive Restores Rights of Citizenship Denied Men Who Abandoned Their Duty After Armistice Was Signed

WASHINGTON, March 5 (AP)—President Coolidge by proclamation today restored the rights of American citizenship to all deserters from the army and navy during the three year period between the armistice and the formal ending of the world war.

The proclamation, issued upon the recommendation of Secretaries Denby and Weeks, affects in no wise those who deserted in the face of the enemy or at any time before the armistice and does not result to restore the civil and martial sentences of those who deserted after the armistice and prior to the technical ending of the war.

The president acted to clear up a situation whereby under the law those who deserted after the fighting ceased suffered the same loss of citizenship as those who left the military forces during the war's prosecution. The war was actually over on November 11, 1918, but all who deserted after that date and before the last proclamation of peace on November 17, 1921, were deemed under the law voluntarily to have abandoned and forfeited their rights of citizenship as well as their rights to become citizens and to be forever incapable of holding any office of trust or profit under the United States of exercising any of the rights of American citizenship.

Secretary Denby in a letter to the president made public the navy department's decision to issue the proclamation at the White House declared the citizenship penalties, "however justifiable in cases of desertion committed during the prosecution of a war, are uncommonly harsh and severe for offenses committed at any other time."

"With mere boys, as many of them were when they deserted, a full conception of the statutory disabilities which confronted them was not possible," Mr. Denby said. "It is during the years"

## Dietrich Is Being Considered as Successor to Attorney General

DAUGHERTY DECLINES TO MAKE STATEMENT ON PENDING ACTION

Attorney-General Leaves Miami for Washington; Friends Were Unable to Induce Him to Talk

MIAMI, Fla., March 5 (AP)—Attorney General Daugherty left Miami at 10:35 tonight for Washington, without making a statement on dispatches from the White House that his immediate retirement from the cabinet is pending.

Those close to the attorney general said that there "was nothing new in the dispatches" to the cabinet members and that he would not make a statement or talk for publication on the latest developments in the case.

The attorney general has had reservations since Monday.

## STATE GUARDS KILL ANIMALS

Herds of Diseased Stock Quickly Disposed Of; Arizona to Raise Embargo March 7

OAKLAND, Cal., March 5 (AP)—Two parallel lines of armed state guards are on the ridge of hills extending from Berkeley to Pinole, in Contra Costa county, California, to shoot all wild animals moving between sections of the district under close quarantine in the campaign against the foot and mouth disease. It was announced today from the campaign headquarters here.

Thirty-three of the 64 infected herds have been slaughtered and it is expected that the remainder will be disposed of within three or four days. The headquarters today announced that a total of 9408 animals will have been disposed of before the epidemic is thoroughly stamped out. These include animals not yet infected, but in infected herds.

Question of Federal Justice Chief's Immediate Retirement Receives Serious Consideration; Coolidge Studying Appointment of Idaho Jurist, Kenyon, or California Man

WASHINGTON, March 5 (AP)—The question of Attorney-General Daugherty's immediate retirement from the cabinet is again receiving serious consideration.

## IDAHO MAN NOT READY TO REPLY

Dietrich Asks Time Before Commenting on His Availability for Cabinet Place

BOISE, March 5 (AP)—Frank S. Dietrich was appointed judge of the United States district court for Idaho in 1897 by President Roosevelt. In 1891 he came to Idaho and practiced law in Blackfoot and Pocatello before coming to the bench.

He has been active in the republican party for many years and has served in minor official capacities for the organization.

Judge Dietrich was born in Ottawa, Kansas, January 23, 1863, son of Jacob and Katherine Dietrich. He received his bachelor of arts degree from the University of Providence, R. I., in 1887, and his master's degree in 1890. He was given the LL.D. in 1916. He married Martha Belle of Blackfoot, Idaho, September 27, 1893. He was an instructor of history, Latin and political economy from 1887 to 1891, at Ottawa University.

Admitted to the bar in 1891, Judge Dietrich since going to the bench has not taken an active part in public affairs other than church and social.

When asked Wednesday whether or not he had been notified that he was considered for the post of attorney general of the United States, Judge Dietrich said he was not at liberty to say but asserted that he had not had any such query from Washington.

Asked whether or not he would accept appointment if offered him Judge Dietrich refused to comment other than to say he had not had a chance to think the matter over.

The situation today suddenly developed to a point where the selection of a successor was taken under advisement at the White House.

Those under consideration for the post include William S. Kenyon, former senator from Iowa and now judge of the eighth United States circuit court of appeals; Frank S. Dietrich, federal district judge of Idaho, and Curtis D. Wilbur, chief justice of the supreme court of California.

Steps have been taken indirectly to ascertain from each of the three men named whether he would accept if appointed, but no definite selection has been made.

One of the factors which have again brought the question to an acute issue was the situation resulting from disclosures in the recent veterans' bureau grand jury investigation at Chicago.

Several involved.

Some of these disclosures, according to information laid before President Coolidge, relate to matters over which Mr. Daugherty has had at least technical jurisdiction as head of the department of justice and in which persons close to him were said to be involved.

During the past few days developments in the oil scandal have led the trail of that investigation, too, into the same department.

In addition, the question has arisen whether the attorney general under the stress of the senate investigation of him and his department will be able to give to his official duties the attention they merit.

All of these considerations have put a new face on the situation since Mr. Daugherty left Washington a week ago after apparently convincing the president he should be permitted to remain in office until the senate inquiry is concluded.

The one element which apparently has contributed most to bring the question to a head has been information brought here from Chicago by John W. H. Crin, special government counsel in veterans' bureau grand jury proceedings. Although there has been no indication that evidence produced before the grand jury involved Mr. Daugherty himself, the ramifications of the inquiry have brought under examination close official and personal assistants.

Much Evidence.

Some of the evidence related to liquor withdrawals and some of it to procurement of pardons for federal prisoners. Both of these matters are handled by the department.

## Farm Production Values Increase By \$960,000,000

Crops, Livestock and All Other Products Last Year Valued at \$12,204,000,000; Allowance Is Made for Feed

WASHINGTON, March 4 (AP)—Crops, animals raised and livestock producers of American farms were valued at \$12,204,000,000 last year, the department of agriculture announced today in a preliminary estimate. This was \$960,000,000 more than in 1922. The total includes \$9,533,000,000 for crops and \$4,111,000,000 for animal products, less an allowance of \$3,800,000,000, the estimated value of crops fed to live stock.

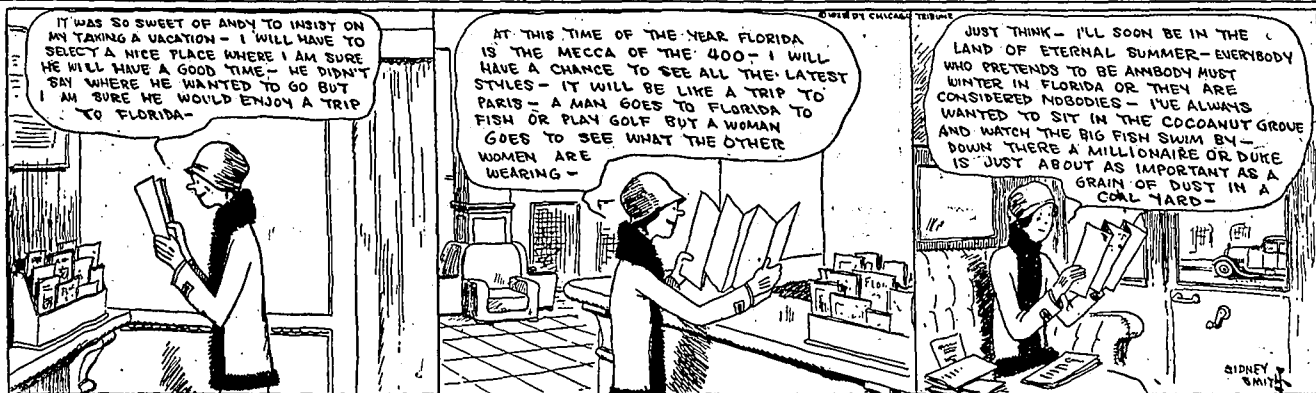

Value of the various crops were: Cereals, \$3,753,000,000; cotton, lint and seed, \$1,750,000,000; hay and forage, \$1,450,000,000; vegetables, \$1,040,000,000; fruit and fruit products, \$831,000,000; farm forest products, \$313,000,000; tobacco, \$299,000,000; legume seeds, \$175,000,000; sugar and syrup crops, \$132,000,000; seeds for planting, clover, etc., \$38,000,000; flax fiber and seed, \$37,000,000; and other crops \$122,000,000.

The distress of wheat growers is strikingly shown, the department said, by the 1923 wheat value estimate of \$726,000,000, compared with \$974,000,000 in 1922, and with \$2,080,000,000 in 1919.

Value of livestock produced was: Animals raised, \$2,397,000,000; dairy products, \$2,569,000,000; poultry products, \$1,047,000,000; wool, \$57,000,000; bee products, \$11,000,000; and other animal products, \$4,000,000.

ASSAULT AFFAIR  
CAUSES TROUBLE

Son of President of Peru Figures in Incident; American Colony Much Disturbed.

LIMA, Peru, March 4 (AP)—Juan Leguía, son of the president of Peru, recently figured in an assault upon the United States vice-consul here, Chauncey H. Wightman. Not only the assault but the subsequent developments have greatly disturbed the American colony.

The government censor in the cable office intercepted a press account which had been regularly filed, and ordered the message destroyed. The foreign ministry directed the correspondent to appear at the foreign office for censure, and explained that the government was censoring all incoming and outgoing cablegrams. To add to the trouble the government's daily paper, La Prensa, published a one-sided account of the episode under the heading, "A Deterred Lesson." While it gave the names of the individuals involved were well known and the tone of La Prensa's article added insult to injury.

Vice-Consul Wightman, who saw war service in France, entered a train at Areana with other Americans and was ordered out of a coach by Leguía, who said it was reserved for his family, including a sick child. He followed the vice-consul to the platform and struck him in the face, using derogatory remarks about Americans. The men were separated, Wightman not returning the blow. The fact that the child subsequently died tempered the discussion of the episode, but La Prensa's article rekindled it.

OXFORD STATISTICS POINT TO  
VOGUE OF GIRLS AND GAIETY

OXFORD, March 4 (AP)—There is a surplus of 4500 marriageable women in this town, which has a total population of only 57,000, according to the census returns.

The statistics show that Oxford is a city of youth, leisure and the professions, these three classes making up more than 37 per cent of the entire male population. The largest group of inhabitants is that at the age of 21, and more than one-sixth of the whole population falls within the ages of 18 and 25. Girl students at the university total only 521 against a total of males of 2,388. The city has 210 tavern keepers, 38 boat builders, and 482 persons, men and women, engaged in the tailoring trade.

CAIRO, March 5 (AP)—Egypt has formally adopted a new flag. It will be a green field with a crescent and three stars.

Size of the Human Body. Authorities differ in fixing the number of square feet of the surface of the human body, there being no fixed limit owing to the variations in size, but a man of 5 feet 8 inches weighing around 175 pounds has a skin surface of approximately 16 square feet. The larger men and women measure more, some of them very much more, while some of the more diminutive bodies have a measurement as low as 10 square feet.

BRITISH-GERMAN COMBINE  
TO CONTROL DYE BUSINESS

LONDON, March 4 (AP)—A new combination which will control the dye production of the world has been formed between the British Dyestuffs Corporation and the Interessen der deutschen Farbstoffindustrie, the German dye combine. Under the agreement the German secret processes are to be revealed to the British company for an agreed share of the profits.

The British Dyestuffs Corporation, of which the government is the largest stockholder, now controls the British markets and will be extended to foreign countries. Since the approval of the government is necessary before the English interests can sign the agreement, it will be necessary to obtain the approval of the MacDonald cabinet, which, it is said, will probably carry out the original plan.

First to reach the peak. Mount Washington, in Oregon, was scaled in August last for the first time on record. Six boys from Bend, Ore., none more than 21 years old, after hours of arduous work reached the top of the mountain. At one time a member of the party lost his foothold and clung desperately to the face of a perpendicular cliff, with an 800-foot abyss yawning beneath him. A tube containing their names, the story of the climb, and small personal effects, was left at the top to substantiate their claim. They slid down the dangerous part of the pinnacle by means of a rope which could not be disengaged and still remains on the peak.

Democrat Senator Tells Story of Attorney-General's Activities at Race Tracks

WASHINGTON, March 5 (AP)—A story to the effect that Attorney General Daugherty went to the race track with Harry P. Sinclair, and bet money for cabinet members on race horses and that the one Daugherty bet on lost; that later he turned over some money to Sinclair to let and that Sinclair came back with a bunch of money and turned it over to him and he divided it out and said: "These are our winnings," and then you talk about remaining silent!"

"There is a story to the effect," said Senator Heflin, "that the attorney general himself with Mr. Sinclair went to the race track and bet money for cabinet members on race horses and that the one Daugherty bet on lost; that later he turned over some money to Sinclair to let and that Sinclair came back with a bunch of money and turned it over to him and he divided it out and said: 'These are our winnings,' and then you talk about remaining silent!"

## Spruce Gum.

Spruce gum is collected by cutting the natural lumps of gum from the tree, usually by means of a small hatchet. It can be gathered at any time of the year, but the fall and winter are usually preferred, more because of the climatic conditions than because of the availability of the gum at this time of the year. Ordinarily the gum is sorted into two classes, one of which is clear and entirely free from bark. The small amount of the material which cannot be entirely separated from bark is sometimes sold as a low grade and is separated from the bark and dirt by melting and straining.

## Cause of Sun Spots.

If you sit an open fire in a grate and bring fresh coals to the front, it gives out a warmer glow. It is the same way with the sun, says C. G. Abbott, in charge of the astrophysical laboratory of the Smithsonian Institution. The so-called sun spots produced by a stirring of the sun's outer layer. By comparing measurements of solar radiation with photographs of the sun he has found that there is an increase in heat radiated by the sun on the same day that sunspots form, grow or are brought into view on the visible disk of the sun by rotation.

And only yesterday I had an enormous bit of luck." "Surely," said her friend, "yesterday was the thirtieth?" "Oh, yes. Isn't it wonderful? The seven again, you see. Seven and six are thirteen, aren't they?"

Men, as a rule, don't enthuse much over articles of apparel.

Usually they take hats as a matter of course and when they take a stock by storm there must be some mighty big reason.

Ever since the first lid was lifted on this Spring display—the lid has been off.

We have been swept off our feet selling hats to men who have never had two feet in this store before—and in two weeks we have closed almost a season's business.

PLAIN honesty and accurate mechanical equipment will give you "full measure," no matter where you buy your gasoline or oil. But the motorist, these days, has a sense of discrimination that seeks a bit further—and that is encouraging.

The chain of Continental Service Stations covering the mountain states from Canada to Old Mexico, has been built up on two fundamental ideas: First, high quality of products sold and always full measure to the last drop; and second, the spirit of prompt, courteous, cheerful service on the part of every attendant on duty.

The motoring public's recognition of the soundness of these principles is demonstrated in the increasing numbers who are "getting the CONOCO habit."

## NEWS BOWLERS BEAT FACTORY

Sugarmen Lose Games to Printers But Count Five More in Total Pins

The News bowlers stepped up another peg in their efforts to catch up with the league leaders by defeating the sugar factory squad two out of three remarkably close games Wednesday night.

"Burr" Seilly was absent and the lead-off place was filled on the factory team by Rucker. The first game went to the News men by a 22 pin margin with the sugar makers coming back strong in the second, taking advantage of Thompson's bad game and winning by a 32 pin gap. The battle of the evening came in the last game with frequency, accuracy and speed, the printers noosing out the sweet team by five pins.

Asbury, the News man, stepped out for the high honors with a total of 573, with Seif, Silver and Squires as close runners. The totals of the three games put the factory ahead on the total pin side of the margin with the sugar factory making 2495 to 2400 for the News.

Team averages were 166 for both teams, the sugar factory having a slight advantage.

## RAY ROMPS TO VICTORY IN DISTANCE FEATURE

Takes Two-Mile Run at Indoor Event in Competition with Two Old Rivals Included in Field of Nine

NEW YORK, March 5 (AP)—Jim Ray, Illinois A. C. star, need to do a double victory in the two-mile run, distance feature of the national senior A. A. U. indoor track and field championships tonight. Ray topped a field of nine and, conquered two of his former rivals, Vern Booth, John Hopkins, Robert E. Brown, Boston A. A., who finished second and third.

Booth, the intercollegiate cross-country champion, set the pace for ten of the sixteen laps. Ray then took the lead and set a terrific pace that in three laps shook off Brown, who had stuck to Booth's heels. Booth sprinted in the last lap and a half, passed Brown and drew up within 25 yards of Ray at the finish.

## REFUSE PLEA OF FILIPINOS

Coolidge Declines to Grant Freedom of Islands; Submits Letter of 3,000 Words

WASHINGTON, March 5 (AP)—The Philippine plea for immediate independence was dealt a stinging blow today by President Coolidge. The president, in a letter to Manuel Roxas, head of the Philippine independence mission, declared flatly that the administration did not believe the time had come to grant independence to the Philippine people and asserted that grievances against Governor General Wood were unjustified and were, like the independence appeal, unsupported by a considerable portion of the island's population.

Mr. Coolidge's views on the Philippine question were embodied in a 3,000-word letter, covering almost every angle of the controversy.

Defending Governor General Leonard Wood as "a hard working, painstaking and conscientious administrator," the president declared examination of the facts showed that the Philippine legislature had usurped functions of the executive rather than that the executive had taken over duties and rights of the legislature, as the independence mission has charged.

## CANNED FOODS IN ORDER

March 1 to March 8 Set Aside as "National Canned Foods Week" in Interests of Wider General Use.

WASHINGTON, March 5 (AP)—With eight representative organizations behind it, the National Association of Retail Grocers, National Chain Store Grocers association, National Wholesale Grocers association, National Food Brokers association, Canning Machinery and Supplies association, Glass Container association, and the National Canners association—National Canned Foods Week, which closes March 8, promises to be a great success.

This is attested by the fact that a new record has been set in demand for the new famous red, white and blue Canned Foods Week streamers, for close to 1,500,000 of these streamers are now being distributed. An idea of the size of this demand may be obtained when it is known that year before last 325,000 streamers served for the entire campaign.

The idea of canned foods luncheons being served at clubs during Canned Foods Week is being received enthusiastically in all parts of the country. The National Canned Foods Week committee is getting many inquiries from clubs such as the Rotary, Kiwanis, Optimist, Lions and University, with the result that canned food menus are being prepared showing the quantity of canned foods of each variety it will take to prepare a luncheon for 100 persons.

Something like 300 telegrams received and sent by McLean and others at Palm Beach, were examined in the two-hour executive session of the oil committee and more than half a hundred were selected for reading into the public record, probably tomorrow, as being relevant to the inquiry.

After six minutes and adjourned until tomorrow Senator Walsh, democrat, Montana, chief prosecutor in the inquiry, made a formal statement indicating opposition to the confirmation of Samuel Knight of San Francisco to be special government counsel in the court act for the recovery of California oil lands operated by the Standard Oil company of California, and others.

Senator Walsh said he had been "reliably informed" that Knight was atorney in California for the Equitable Trust company of New York, "a Rockefeller bank" and that should this prove to be the case it would be a basis for senate approval for the president's appointment.

Special government counsel in the oil lease annulment suits were unable to complete the necessary papers today for institution of initial civil litigation in those cases, but it was indicated action would not be long delayed.

Bebe Daniels in Zane Grey's "The Heritage of the Desert" A Paramount Picture

**ALL STAR! RIGHT!** Headed by Bebe Daniels, Ernest Torrence, Noah Beery and Lloyd Hughes, the cast of Zane Grey's "The Heritage of the Desert," which opens a three-days' run at the Idaho theatre today, is particularly strong and well suited for this type of picture.

Bebe Daniels plays the role of a western girl, part Indian and part Spanish. Ernest Torrence, whose characterization of an old plainsman won him world-wide recognition, is cast as a God-fearing pioneer, typifying American patriotism. Noah Beery as a bad man of the desert and Lloyd Hughes as a tenderfoot complete the featured players. Others in the cast are James Mason, Richard B. Noll and Leonard Chapham.

The Idaho Tech Glee club has arrived to play a matinee and night engagement at the Idaho theatre. Fresh from successful engagements in other towns they expect to add more laurels in their Twin Falls engagement.

# SMOOT INSISTS TAX BILL MUST BE REMODELED

Chairman of Finance Committee Declares Revision Must Be Made in Order to Provide \$100,000,000 More Revenue

WASHINGTON, March 5 (AP)—The tax reduction bill passed by the house will have to be remodeled to provide for \$100,000,000 more revenue, Chairman Smoot of the senate finance committee announced tonight on the eve of consideration of the measure by that committee.

Based on his calculations on estimates reported this week by the treasury department that the house bill would cut off \$446,000,000 in revenue in the calendar year 1925, Mr. Smoot said this would fall by \$100,000,000 to provide funds for the working expenses of the government alone, exclusive of a soldier bonus bill or other pending extra appropriation measures.

**Urges Rate Change**  
Mr. Smoot declared that undoubtedly some of the tax rates would have to be changed to meet this expected deficit, but expressed no opinion as to what taxes would be affected pending consideration of the bill by the senate committee. The principal tax reductions made by the house were in the personal income taxes, the miscellaneous or excise taxes, and a special deduction of 25 per cent on earned incomes.

This situation will be presented to the committee tomorrow by Senator Smoot when it holds its first session for consideration of the bill.

## Favor Mellon Rate

With tax legislation thus getting under way in the senate, Senator Watson of Indiana, member of the finance committee, and Moses of New Hampshire, republicans, called on President Coolidge today to inform him of the present outlook for the bill there. They expressed the opinion that the White House that the bill would be amended in committee to carry substantially the Mellon income rates. The bill as reported out by the house ways and means committee carried these rates but they were substituted first and later by the Longworth compromise the democratic income tax plan also schedule which was adopted with the support of the republicans as a unit.

The Longworth rates in the bill provide for a maximum surtax of 37 1/2 per cent on incomes above \$200,000, while the Mellon rates carried a maximum surtax of 25 per cent above \$100,000.

## Sentiment Not Untied

Both Mr. Watson and Mr. Moses expressed the opinion that, outside of committee, sentiment had not crystallized very distinctly on tax legislation in the senate. This belief was supported by statements of senate leaders of both parties. A determined effort, however, is expected to be made by administration republicans to eliminate the house amendments to the bill providing for increases in the estate taxes, institution of a different tax, and operation of income taxes to certain congressional committees.

## Broaden Scope

On the other hand, some democrats have indicated that they will not seek to retain these amendments, but will attempt to broaden the scope of income tax return inspection to make the returns virtually public records.

Although the attitude of republicans, however, led by Senator La Follette, Wisconsin, has not been definitely indicated, the insurgent group in the house voted with the democrats on their income tax schedule until republicans reduced the surtax rate to 37 1/2 per cent and reduced the normal tax rates.

## Progressives Determined

A statement issued during the tax fight in the house by Representatives Nelson and Frost, Wisconsin leaders of the insurgent group there, declared the work of tax reform will be further carried out by progressives in the senate.

While democrats have not outlined any stand, some leaders have indicated they will support a plan similar to that advanced by their party in the house for a 42 per cent maximum surtax rate above \$92,000.

# DIETRICH CONSIDERED FOR DAUGHERTY'S JOB

died through the department of justice and Mr. Daugherty is said to have given testimony before the grand jury in regard to a man when he was in Chicago last week.

The facts have only recently reached President Coolidge and caused him to order immediately prosecutions acting of veterans' bureau matters. Acting Attorney General Seymour, to whom Mr. Grim recently made his report, conferred Monday with the president and in addition the executive has been in conference with senators who have discussed the questions with Mr. Crim.

It has been indicated in selecting a successor to Mr. Daugherty, the president would prefer to name a man from the west, or middle west, of outstanding reputation in the legal profession. Judge Kroyen, a former chairman of the senate farm bloc and generally regarded as of progressive leanings, resigned from the senate two years ago to accept the appointment to the federal court of appeals tendered by President Harding.

Judge Dietrich, resident of Boise, Idaho, has been a federal judge since 1907.

Chief Justice Wilbur is a graduate of the naval academy. He began the practice of law in 1888, was elected to the superior court of Los Angeles in 1903, and became a member of the supreme court of California in 1910.

Others who have been urged for the attorney generalship include Governor Alexander J. Greenbeck of Michigan, and a former attorney general of that state; Silas H. Strawn of Chicago, one of the originally selected as a member of the special government council in the oil case.

# TRAINING CAMP OPEN TO YOUTHS

Fort Douglas to Be Point of Assembly for 610 Young Men of Five States

Six hundred and ten young men, ranging in age from 17 to 24 years, from the states of Idaho, Montana, Wyoming, Utah and Nevada, will be admitted to a citizens military training camp to be held June 12 to July 11 at Fort Douglas, Utah, according to an advance announcement received here.

Assurance is given that the summer camp this year will be even finer and bigger than in previous years, and in addition, it is reported, are that applications will exceed the corps area quota. It is urged that prospective students submit their applications for enrollment as early as possible and to assure favorable action on their applications, before the authorized quota is filled. Interested persons in this region are directed to communicate with the chief of staff, 104th division, Dooly block, Second south and West Temple street, Salt Lake.

## Purpose Outlined

The purpose of these camps is to bring together young men of high type from all sections of the country and thereby develop close national and social unity; to teach the privileges, duties and responsibilities of American citizenship; to inculcate self-discipline and obedience; and to develop the physical standards of American youth through participation in military exercises, athletic games, and sports conducted by expert directors. Officers in charge of the camps are selected for their experience, sympathetic character. Medical officers and chaplains will be in regular attendance at the camps to safeguard the students at all times.

## No Expense Involved

The benefits derived from attendance at these camps are secured without expense to the students as the war department provides free transportation to and from the camp, reimbursement for actual expenditures for meals on outdoor excursions, medical pay, board, lodging, expert medical attendance, uniforms, equipment, laundry (for clothing issued at camp) and amusements in the form of athletic exercises, musical and social entertainments.

## Courses of Instruction

Four courses, each requiring 30 days for completion, will be given as follows: The basic course, for those having no previous military experience; the red course, the white course, and the blue course, each being an advanced course over the one preceding. Upon completion of the blue course the candidate is qualified and entitled to take an examination for commission as second lieutenant in the organized reserves, should he so desire. The attendance at these camps is voluntary and the applicant is not required to become a member of any component of the army of the United States unless he desires to take the blue course.

# SENATE FORCED TO LAY ASIDE FARM AID BILL

Agreement is Reached to Resume Discussions Monday so that Final Action May Be Taken Within a Few Hours

WASHINGTON, March 5 (AP)—

Growing opposition in the senate to the proposal that the government finance crop diversification led today to the temporary laying aside late today of the McNary-Haugen bill, which would make such provisions in favor of appropriation measures. An agreement was reached, however, to take up the farm relief bill Monday under an arrangement for limiting debate so that final action can be taken within a few hours.

Although centered upon the bill under consideration, the opposition extended also to the McNary-Haugen bill which would establish a \$100,000,000 corporation to export surplus farm products. Senator McLean, republican, Connecticut, recalling that some members of the farm bloc had expressed their preference to this bill, declared it could only result in "increasing the surplus, if it was success, and would be of no value otherwise." The bill was defeated by its co-author, Senator McNary, republican, Oregon, who denied it was intended to insure a profit on farm commodities.

## Explains Bill

"The bill is designed," he explained, "to place the farmer upon a fair competitive basis with other producers by giving him the ratio-prices equal to the pre-war prices of many farm commodities."

Senator Dial, democrat, South Carolina, led the attack on the diversification proposal, and contrasted the appeal for federal assistance with the unpaid recovery of southern agriculture after the civil war, and with the present privations caused in cotton territory by the boll weevil.

Advocates of the bill, including Senators Burton, republican, New Mexico, and Johnson, farmer, Minnesota, insisted the government was responsible for the situation of the wheat growers and should make amends.

## Club Celebrates Anniversary

Members of the Morningside club celebrated their tenth birthday anniversary Wednesday at the home of Mrs. E. N. Whitney, Mrs. Deane being assistant hostess. The meeting was in charge of the new officers, of which Mrs. J. C. McKinley is president.

The usual business was transacted during which committees were appointed for the coming year. A most interesting program with Mrs. Fred Floss as leader was given. Mrs. McKinley rendered two instrumental numbers. There was a reading by Mrs. Ray Cochran and Miss Pearl Young read a paper on "Railroads" sent out by the Rural Federal club. A pleasing program for the ten years of its life was read by Mrs. Albert, Putzler. This proved amusing as well as intensely interesting.

At four o'clock a delicious three-course dinner was served, which included a large cake iced in pink and decorated in gold candies, the club colors being gold and pink. The home was beautifully decorated in these colors.

## Kimberly Road Club Names Officers

Mrs. Hattie Ludlum was hostess to the Kimberly Road club Wednesday afternoon.

The meeting was called to order by the president, Mrs. Harry Alexander, who read an interesting letter from Mrs. Carrie Harper White. Current events were given and a general discussion followed.

Annual election of officers was held, Mrs. Ludlum being elected president; Mrs. W. W. Wallace, vice-president; Mrs. Stella Garrison, secretary; and Mrs. W. B. Hoag, treasurer. During the social hour the hostess served dainty refreshments.

## Mrs. White Entertains Harmony Club

Mrs. Ernest White entertained the members of the Harmony club at a 1 o'clock luncheon Wednesday. The usual games of bridge followed, Mrs. H. P. Barger winning the club favor.

## Mrs. Stewart Hostess to Sisterhood

On Tuesday evening the P. E. O. sisterhood enjoyed a buffet dinner at the home of Mrs. J. B. Stewart on Eleventh avenue east.

A short musical program under the

direction of Miss Grace Bryant followed, consisting of a piano duet by Mrs. M. E. Johnson and Miss Bryant; a piano trio by the same ladies and Miss Alice Taylor, and two vocal numbers by a trio composed of Mrs. F. S. Bell, Mrs. Zenas Smith and Miss Alice Taylor.

Annual election of officers resulted as follows: President, Mrs. Earl Felt; vice-president, Mrs. D. R. Churchill; recording secretary, Mrs. Johnson; corresponding secretary, Mrs. DeWitt Young; treasurer, Mrs. Jessie Fraser; chaplain, Miss Grace Bryant; guard, Mrs. John M. Maxwell.

Delegates to the state convention at

Butte were elected, alternate to the

president, Mrs. Edith Dygert.

Miss Alice Taylor was elected delegate with Mrs. M. C. Mitchell alternate.

Mrs. Eagleson, a member of chapter A of Boise, was a visitor, other

visitors being Mrs. R. P. Parry and Mrs. W. C. Dickey. About 42 mem-

bers were present.

This was the second of a series of

three dinners which the chapter will have this year, the membership being

divided in groups of three, each group

providing a dinner for the rest of the

chapter. Mrs. F. F. McAttee was chair-

man of the committee on arrangements.

## Winodau Club Meets

at Maxwell Home  
Mrs. John M. Maxwell entertained the Winodau club with a 1:30 luncheon Wednesday at her home on Seventh avenue east.

Covers were laid for 17 at three tables, the decorations carrying out a

St. Patrick's color scheme. The con-

tempers for each table was a crystal

candlestick, tied with a green tulle

bow and holding a green candle. Green

cup cups were used and the place cards

were decorated in green.

Mrs. E. S. Cook and Mrs. Dolman

were guests. The afternoon was spent

with needlework and conversation.

## MATRIMONIAL TIPS

The director of educational activities  
in the Brooklyn Y. M. C. A. gives a  
neat little bunch of tips to young men  
contemplating matrimony—occasionally  
realizing that marriage itself is educa-  
tional. Here they are:

"Don't marry for sex attraction

alone.

"Don't fail to run your household

on a budget system.

"Don't expect your wife to live ac-

cording to a single standard of mor-

ality while you have a double standard.

"Don't put off marrying until you

are making four thousand dollars a

year.

"Don't pay more than thirty per

cent of your income for rent in New

York; elsewhere twenty per cent."

It may be unfortunate that this ad-

vice is all put negatively. Modern

psychology urges the positive thought.

Nevertheless the points are good, and

will probably serve the purpose as well

as any.

One of them in particular seems

worth calling special attention to, be-

cause it is usually ignored in giving

gratuitous advice along these lines,

and because it hits at one of the big-

gest mistakes of the generation now

doing its courting. It is, "Don't put

off marrying until you have four thou-

sand dollars a year."

Waiting to marry until the young

couple can start with all that their

parents have taken a lifetime to at-

tain, in the way of domestic equip-

ment and comfort, is a foolish waste of

time and a fertile source of unhappi-

ness.

## WORKMEN'S HOMES

The Illinois Manufacturers' Associa-

tion reports that three-fourths of

all the residences built in Chicago

last year are owned by "overland

people." The total number of new

homes provided was seven thousand

eight hundred fifty-two, of which five

thousand eight hundred eighty-nine

were built not only by but for work-

men. The explanation is that wage-

earners build houses for themselves be-

cause they could not afford to pay

fifty a month for rent.

This is gratifying in more than one

respect. It is a fine thing when the

most numerous class of citizens become

so demonstrably the most numerous

class of home-owners. It increases the

self-respect and self-dependence of

wage-earners and raises the general

level of citizenship. It makes the

whole community more stable and pro-

perous.

There will be plenty of people insist-

ing, however, that the figures mean

simply this—that wage-earners can do

most of the home-building because they

are now the most prosperous class.

## Dreamland Adventures

THE ONE GOOD SPARROW

By DADDY

Jack and Janet, after catching a  
flock of sparrows, take them out  
to sell them.

## CHAPTER IV.

## Tabby Buys Birds.

Jack and Janet had begun to give  
up hopes of selling any of the Eng-  
lish Sparrows. They had got rid of  
only one of the flock and that one  
they had given to a little lame girl in  
exchange for a smile.

The Sparrows fought among them-  
selves and make such a racket that they  
drove folks away instead of attracting  
buyers.

"Perhaps we should not try to sell  
these noisy Sparrows. They would  
make only noise and dirt and bother  
for the person who bought them," said  
Jack at last.

"—guess you are right," nodded  
Janet. "I wouldn't want one of these  
quarrelsome birds in my house."

"What shall we do with them,  
then?" asked Jack. Janet shook her  
head. She couldn't answer that.

As the children puzzled over this  
question, they heard a soft tapping on  
a window. There was Tabby Cat peer-  
ing out at them with excited eyes.

"What have you in that box?"

meowed Tabby Cat.

"We have birds for sale," answered

Jack.

"Oh, have you?" meowed Tabby Cat.

"How fortunate. We have just lost

our two birds and the cage is empty.

I'll take the fattest and sweetest pair

you have in stock."

Jack looked doubtfully at Tabby Cat.

"What will you give for them?" he

asked.

"I'll give you three mews and five

purs," meowed Tabby Cat.

That did not seem very much to

give for a pair of birds. Jack looked

at Janet. She nodded her head at him.

"Take what Tabby offers," whispered

Janet. "We should be glad to get rid

of those Sparrows at no price at all."

"We will sell you the birds for three

mews and five purs," said Jack to

Tabby Cat. "You can yourself pick

out the fattest and sweetest."

"Cheer! Cheer! I am the fattest,"

screaked Tabby Sparrow, forcing his

clashes that have few parallels in the

history of that body, marked by

shouted charges and counter-charges,

with epithets which include "charac-

ter assassins," "murderers," "falsehood,"

"lie," and other terms not often heard

in congressional debate, the Senate

fought until six o'clock tonight, un-

able to reach a vote on the pending

resolution which was the storm center

of today's battle."

Such conduct is not only foolish,

because it is not calculated to accom-

plish what needs accomplishing; it is

shameful, disgracing the country

those lawmakers represent. The pub-

lic has not lost its head as Congress

has. The public would like to lay a

calm hand on Congress's fevered fore-

head and recall it to its sober senses

and its duty.

The job that needs doing at Wash-

ington is not a case for a howling mob

bent on lynching. It is a job for po-

litical and governmental surgeons.

And good surgeons keep their hands

and shirts on.

## Straightened Surveyed Lines

The straightest of the world's sur-

veyed lines is this running northward

between Alaska and Canada from the

coast to the Arctic ocean and consti-

tuting the boundary line between the

two countries. The line consists of a

clearing 20 feet wide, cut through all

thunder of aluminum-bronze monu-

ments set at intervals of points not

more than four miles apart, and of a

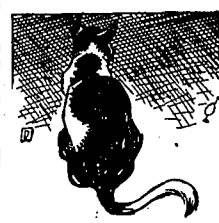

map in detail of the strip of country

between each side of the boundary

line. In 1887, the American and

way to the front of the cage and fight-  
ing the other Sparrows back. And,  
indeed, he was the fattest, for he was  
the meanest of the Sparrows and the  
worst fighter, and so the groovy clan  
got more food than the others. That  
is what made him the fattest.

Jack took out Pesky Sparrow and put  
him in Tabby Cat's cage. And with  
him went Brawly Sparrow, who was  
the next meanest and the next worst  
fighter and so the next fattest.

Tabby Cat licked her chops and gave  
three mews and five purs to pay for  
the birds.

Jack and Janet went on their way.

But suddenly Jack stopped short.

"I have just thought that cats eat

birds," said he. "I wonder if Pesky

Sparrow and Brawly Sparrow are safe

with Tabby Cat."

The children ran back. They looked  
in the window.

Tabby Cat sat there licking her

chops. The door of the bird cage was

open. There was no sign of Pesky

Sparrow and Brawly Sparrow—only

feathers scattered about on the floor.

Tabby Cat winked at Jack and Janet.

"Move! Hello!" said Tabby Cat.

"How fortunate you came back. Those

two birds have gone away. I'd like

you, more in their place."

Jack and Janet did not feel like

selling any more birds to Tabby Cat.

They drew the lid away.

(How the children get rid of the

whole flock of Sparrows will be

told in the next chapter.)

"Matrimonially Speaking"

By Hugh McKay.

My wife thinks up improvements

that simply have to be made around

our house.

And then, before I've paid the bill

for them, she's out campaigning for

me to buy her bill of reconstruction.

After a week without new savings

papers, we had to get new furniture

for the living room. And right after

that came new window shades, and

then the new ice box.

And all the time I was trying to

keep enough money in the bank so that

the casher wouldn't have to be writ-

ing me letters every week or two.

Now she's decided that the front

porch will have to be enlarged this

spring.

An I after that's been done—I doubt

if it will ever be paid for—she's sure

to make up her mind that she can't

live another week without new savings

papers and some presentable porch furniture.

And so it goes. She has the house-

making instinct so strong that I'm

afraid it's going to get the best of us.

But there's one addition that I don't

want to see—and that's a "For Sale"

sign on the front of the house!

One of Simon Ford's latest stories

is about a Pennsylvania Sunday

school. A young lady with philan-

thropic nerves was teaching a dozen

or two little ones in the mining dis-

trict. "Now, where did I tell you the

Savior was born?" she asked one

morning. "Allentown," shrieked a

grimy twelve-year-old. "Why, what do

you mean, Johnnie! I told you he was

born in Bethlehem." "Well," replied

Johnnie, "I knowed two some place

on de Lehigh Valley railway."

## THE MARKETS

BEARISH VIEWS PREVAIL;  
GRAIN DROPS IN PRICE

Reaction Attributed to Positions Taken by Traders as to McNary-Haugen Bill; Buying of Futures Checked

CHICAGO, March 5 (AP)—Grain declined in price today owing more to bearish views than to any trading movement. The market was characterized by a lack of enthusiasm for the McNary-Haugen bill. Word, however, that the tariff commission report on wheat production costs had been turned over to President Coolidge was something of an offset later. Wheat closed steady 1 1/2 to 1 3/4 net lower, May \$1.11 3/4 to 1.12 1/2; corn 1 1/4 to 1 1/2; oats 1 1/4 to 1 1/2; clover 1 1/4 to 1 1/2; provisions ranging from a setback of 5 to 7 cents to a rise of 2 cents.

Apparently a check to buying of future deliveries of wheat was the immediate effect of news circulating here that the McNary-Haugen bill had received qualified approval at the White House. Uncertainty as to what might follow the proposed far reaching changes in business methods had an evident disturbing influence on the market. The market was also affected because of a somewhat general impression that a price setback would be natural after recent upturns. Subsequently, dealers which were forthrightly taken any decided position regarding the Haugen-McNary bill tended to underbid values and there was considerable buying as a result of advice that the wheat tariff would soon be raised. The enlarged demand though, was of insufficient force to lift prices again to the level of yesterday's close.

Corn and oats weakened with wheat. Shortness of sale for the poorer grades of corn was a depressing factor. Shipping demand here also was reported slack. Nevertheless, the market showed stubborn resistance to bear tactics. Provisions were easy in line with the hog market.

# STAGE SYSTEM OVER HISTORIC ROAD PLANNED

Project for Motor Bus Passenger Service Over Old Oregon Trail Is Told Here by Ralph Walsh

Motor stage passenger service operating on a schedule over the Old Oregon Trail between Portland and Pocatello with terminals at Salt Lake and Yellowstone national park is the objective set for the "Old Oregon Trail System," in the formation of which the Old Oregon Trail association and the Intermountain States Truckmen and Auto Carriers association are co-operating, according to statement Wednesday of Ralph Walsh, Boise, secretary of the latter organization.

Mr. Walsh is here to arrange for a meeting of interested Twin Falls citizens at which the Old Oregon Trail System plan is to be presented by Walter Monahan, La Grande, Oregon, president of the Old Oregon Trail association. Similar meetings, Mr. Walsh said, have been held in a number of cities on the Oregon Trail in Oregon and southwestern Idaho. On Monday of next week, he said, such a meeting is to be held in Boise.

Support of the projected system to the extent of contributing to the expense of its necessary advertising is sought in the communities where these meetings are being held, and Mr. Walsh says, the plan has been enthusiastically received wherever it has been presented.

**Employs Existing Lines**  
The plan contemplates the adoption by operators of existing passenger stage lines along the route of an agreement under which stages will be operated on schedule to permit of advantageous connections. Further than that it provides for a public relations campaign to bring the system and its service before the country at large.

Motor stages lines which it is expected to include as component parts of the system already are in operation between all points on the route from Portland to Twin Falls. Mr. Walsh said, and within a short time a stage line, operating through stages between Twin Falls and Pocatello is to be established.

**Stresses Scenic Appeal**  
Service expected by the Old Oregon Trail System is afforded here over the strong appeal to visitors arriving at Yellowstone park by rail and desiring to continue their trip to the Pacific coast.

"Travelers by rail through the Pacific northwest miss most of the region's scenic beauties which lie along the route of the Old Oregon Trail," Mr. Walsh said. "The railway through southern Idaho, for instance," he continued, "traverses only a dreary desert region, while the traveler over the Old Oregon Trail would see without leaving the car some of the outstanding scenic attractions of the region, including the Thousand Springs and the Hagerman valley, while short detours or side trips should be provided to permit these travelers to see the Hansen bridge, Shoshone falls, Blue lakes, and the Sawtooths of the Wood river region."

"It would be up to Twin Falls to see that visitors brought here over the Old Oregon Trail system made the most of their opportunities for sight-seeing while here."

The Old Oregon Trail, Mr. Walsh said, will receive a generous measure of attention throughout the country as a result of a trip which Mr. Mench is arranging to make this season through middle, western and eastern states in a "covered wagon" mounted on an automobile chassis.

# Students Vote Ban on Sheared Tresses

Two to One Debate Decision in Forum Club Goes Against Practice of Bobbing Hair

Girls should not bob their hair, according to a decision reached at a meeting of the Forum club Tuesday evening in a debate on the question which ended with a close 2-1 decision in favor of the affirmative, represented by Victor Galloway and Harry Putzier. The girls defending their sheared tresses were Edgarda Shurtz and Jerona Krivanek.

Other features of the program which was presented in the auditorium before a large audience, included a piano solo by Willa Hammond, a short talk by C. C. Kirkpatrick, music by the "Pop" band and a mock trial in which Gertrude Horrold, George Harrison, Alton Blackburn, Jerona Krivanek and Walter Putzier starred.

# \$18,000 LOSS CAUSED BY FIRE

Independent Meat Company's Alfalfa Meal Mill Is Wiped Out by Recurrence of Blaze

Fire that is believed to have smoldered in the dust escaping the drenching to which the building was subjected by the fire department late Tuesday afternoon when it was drenched in flames, early Wednesday morning burst into flames and completed the destruction of the Independent Meat company's alfalfa meal mill on Rock Creek canyon about a mile southwest of Twin Falls.

Twin Falls fire department, hesitating a second time, again lifted water about 200 feet from the bed of Rock Creek and prevented spread of the fire to the packing plant and a 100-ton storage warehouse in the immediate vicinity of the burning building.

**Machinery May Be Salvaged**  
Loss caused by the fire is estimated at approximately \$18,000. Little insurance was carried because of the nature of the risk involved. The mill was built about five years ago at an expense exceeding \$20,000. It is believed that machinery will be salvaged and installed in a smaller building that will serve the same purpose as the larger one had.

The mill had not been operated since last spring. A motor housed in the building had been used to pump water for the packing plant, and it is believed that this motor, becoming over-heated, caused the fire.

The blaze Wednesday morning was discovered about 4:30 o'clock by employees of the company who remained at the plant throughout the night on watch for possible recurrence of the blaze.

# RIGHT OF WAY DISPUTE PUT UP BY ARBITRATORS

Way Opens for Settlement of Differences Between Murtaugh Highway District and Affected Land Owners

Differences between affected landowners and the Murtaugh highway district board regarding the right of way through the district of the Old Oregon Trail state highway as lately established by the state highway department will be submitted to a board of arbitration which was selected Wednesday and which today will traverse the route in question and undertake to set a value on the property. Members of the board of arbitration are R. B. Tru, Murtaugh; R. C. Calico, Hansen, and Arthur L. Swin, Twin Falls. They were chosen at a meeting Wednesday of affected landowners and directors of the Murtaugh district in the office of M. J. Sweeney, attorney for the district.

The affected landowners are Sam Cox, Fay Cox, Olaf Nelson and P. J. Pringle.

Decision to arbitrate the differences in respect to the right of way is regarded as making for early beginning of road construction to bridge a gap pointed to serve this year were announced today by J. M. Market, secretary of the board, as follows: P. C. Meredith, Buhl; R. T. McNamara, Buhl; G. C. Davis, Filer; E. O. Walter, Filer; R. S. Armes, Filer; R. E. Brossard, Twin Falls; Carl D. Irwin, Kimberly.

# VETERANS STAGE RIOT OF MIRTH

Twin Falls Citizens Share in Fun Incident to "Forty and Eight" Initiatory Ceremonial

With rollicking fun, shared in a generous measure with the public, and with reaffirmation of loyalty to the principles for which they served with the nation's armed forces in the world war, 12 active members of the American Legion were initiated here Wednesday evening as members of the Twin Falls chapter into the mysteries of "La Societe des 40 Hommes et 8 Chevaliers," which is popularly known as the "Forty and Eight," and the playground of the legion.

The ceremony of initiation which was conducted by Marshall Chapman, chef de guerre, and other members of the Hully venture, assisted by local men who previously had been received into the order, was preceded by a street parade and performance by candidates for membership of certain prescribed tasks, and by a banquet and lively program of "stunts" at the Boperton hotel.

The initiatory ceremonial in the Old Fellows hall was followed by a business session. Several towns were represented. Members of the order representing several of the towns of this region attended and took part in the event. Legion men who were received into the society on this occasion were C. H. Kregel, A. J. Myers, Ray E. Brown, Harry Benoit, Hugh Boone, Dr. F. E. Snook, J. L. Hodgins, Merlin G. Batley, Ben Pullman, A. E. Dickey, all of Twin Falls, and R. D. Wales of Hazelton.

Appearance in public of members of the organization wearing gray trench coats and insignia and the candidates garbed in conspicuous white blouses, was heralded by the high school "pop" band, which, after the parade, took a position at the intersection of Main avenue and Shoshone street and played lively music while the candidates performed their appointed tasks, including recital of inscriptions of the figures "40-8" which had appeared on windows of principal business houses during the preceding night.

In the banquet hall the candidates furnished two solid hours of hilarity with a program of stunts which they were required to present. Mr. Chapman presided as master of ceremonies.

**Decorations Significant**  
The decorative scheme included flags of the French republic surmounted by that of the United States, and the replica of a French railway boxcar bearing the inscription from which the organization takes its name, and which in wartime signified that such car was expected to accommodate 40 men and 8 horses. Two figures were candidates in the shape of a grenade containing a fool's cap which the candidates were required to don, and the other labelled "Gone but not forgotten."

All arrangements for the affair were made by local men who previously had become members of the organization. A. Dorman Johnson had charge of the street activities; A. Wilton Peck of the banquet and entertainment program, and R. P. Parry and C. H. Perkes of initiation.

# MOVIES SHOWN IN SCHOOL

Moving pictures made their first appearance of the year at the high school building when Miss Lovell's general science classes entertained the junior high school with an assembly program consisting of an interesting film, "The Romance of Glass," which depicted the development of glass and glass works through ancient times beginning with the Phoenicians down to modern methods employed today. The same film will be displayed today for the senior high school students.

**WILL GIVE SONG RECITAL**  
Miss LeNelle Breckenridge, daughter of Mrs. L. L. Breckenridge, will appear this evening in a public song recital to be given in the Sunday school room of the Presbyterian church. Mrs. Merlin Batley will play the piano accompaniment, and Miss Nellie-Nelson will give a violin obligation.
