## BRITISH CREW MEMBER TELLS OF RUM SALES

**Witnesses in Government's Case Against Royal Mail Liner Reveal Huge Traffic in Rum and Dope Brought to New York**

NEW YORK, March 14 (AP)—Trial of the government's suit for confiscation of the Royal Mail liner Orduña, seized Wednesday as a smuggler, began today with witnesses testifying that narcotics and liquor were sold freely each time the vessel reached this port and that her owners shared the proceeds.

Champagne, whiskey, benedictine, rum, beer, gin, and drugs were all passed to bootleggers by officers and crew of the Orduña, according to the testimony. Witnesses, including federal agents and members of the crew, declared the Orduña's bar never was closed in port.

At the outset of the proceedings, J. J. Berwind, American and British co-operator and financier, posted a \$1,000,000 bond so the Orduña might continue in trans-Atlantic passenger service. She is scheduled to sail for Hamburg tomorrow with 144 passengers.

**Says Booze Was Sold**

Charles Daws, the ship's storekeeper, and one of the seven members of her crew to plead guilty of illegally importing liquor, was the government's principal witness. He testified that in his three years on the Orduña liquor had been sold aboard her every time she reached the port of New York.

He declared the liquor was brought in under seal, the seals were broken when the vessel docked, the liquor was disposed of to bootleggers, and the storekeeper received.

Daws identified Joseph Smith, one of the revenue agents who raided the ship and one of the government's chief witnesses today, as a bootlegger who often had bought liquor on the Orduña.

Smith, preceding Daws on the stand, said he was a truck driver until he became a federal liquor agent last January. While still driving trucks he had seen bootleggers laden with liquor leave the Orduña on 20 or 30 occasions, he said.

He told of joining the government service, of boarding the Orduña with a fellow agent two voyages ago, and of buying five whiskey at \$23 a case and gin at \$3 a bottle. They also drank good beer over the ship's bar.

## Senatorial Dignity Hurt in Clash With Indignant Copy Boy

**Reed Takes Stand in Doorway to Block Copy Boys at Daugherty Hearing; Says They Step on His Toss Too Much**

WASHINGTON, March 14 (AP)—Senatorial dignity, represented in the person of Senator Reed of Missouri and senatorial curiosity, also represented by Senator Reed, blocked one outlet for news bulletins from the Daugherty investigating committee room today, but not without a struggle. It required both physical and verbal efforts on the senator's part to make good his vantage point in a doorway of the committee room.

While there was no physical repulsion on the part of the capital police guard, the copy boy bustling with news bulletins to the wires, or bystanders who felt the weight of the senatorial hand, the ten-year-old copy boy did not fail to exchange remarks, even with as fearsome a senatorial debater as Senator Reed.

"Who are you hitting?" demanded the indignant youngster when a sweep of the senator's hand reached him as he sought to plunge through the doorway. A moment before the watchman had tried to clear the doorway for the copy boys, but was whirled to one side by the senator.

"I'm tired of having you damn kids tramping on my toes," snarled the august senator at the boy.

"I'm no more a damn kid than you are a damn man," he got back from the boy just as hotly.

Then the kid skipped on with his message. A new route for the flying messengers had to be arranged to the disturbance of the audience crowding the committee room, before the business of reporting the proceedings to waiting newspapers could go ahead at full speed.

## House Committee Awaiting Grand Jury Report Before Investigating Bribe Claim

**PETER'S BOND \$25,000**

NEW YORK, March 14 (AP)—Charles Peter, held as the promoter of a nation wide stock swindle, reserved the advantage of his "silver mine" in Pocatello, Idaho, exclusively for the poor but worthy Germans. It was testified today at his arraignment. He was held in \$1500 bail on a charge of grand larceny. Yesterday his bond was fixed at \$25,000 when he was arraigned in Brooklyn on similar charges.

## WATER PROJECT TO BE REVIEWED

**Commission Named to Meet Canadians for Study of Proposed St. Lawrence Waterway**

WASHINGTON, March 14 (AP)—Agreement between the United States and Canadian governments has been reached under which they create a "national" commission to co-operate with the joint engineering board planning the proposed St. Lawrence-Great Lakes waterway project.

The American commission, named to night by President Coolidge, will be headed by Secretary Hoover and include William C. Brewster, former president of the New York Merchants' association; James E. Davidson of Bag City, Mich.; James R. Goodrich, former governor of Indiana; James R. Howard of Chicago, former president of the American Farm Bureau Federation; American Farm Bureau Federation; Washington attorney; Charles P. Davis, of Duluth, Minn., and an additional member to be chosen from the commercial community of the New England states.

In appointing the commission President Coolidge said, in part:

"It is my desire that the commission shall thoroughly consider the whole project in its economic and national aspects, should solicit the views of the various sections of the community, should be able to express an opinion as to whether the St. Lawrence project should be undertaken at the present time. If this judgment should be in the affirmative, then I wish the commission to consider the formulation of such projects as might be submitted for international agreement on construction, finance and administration—all of which, of course, must be of a preliminary nature as a basis for normal negotiations with the Canadian government and obviously subject to the views of congress."

"The project of opening the Great Lakes to the ocean going ships and development of the great power resources of the St. Lawrence river on behalf of both the Canadian and American people has been a hope long treasured by many millions of our people and it is in the desire that this matter, if it is sound and practicable, should be brought one step nearer to consummation that I am asking you and your fellow commissioners to serve in this matter."

## NEW TRIAL DENIED IN ROSEWORTH LITIGATION

**Judge Babcock Rules Against Idaho Farm Development Company's Objection to Reduced Judgment**

Motion for new trial in the case of the Idaho Farm Development company against Chester Brackett and others, a suit instituted about four years ago for condemnation of ranch lands inundated by construction of the company's irrigation project reservoir in the vicinity of Roseworth, was denied and overruled by Judge W. A. Babcock in district court here at the conclusion of a hearing on the company's objection to the defendant's motion of willingness to accept a judgment reduced by the court to \$44,589 from \$59,871, awarded by a jury in district court last December.

## ATTORNEY AGAIN STRICKEN

James H. Wise, prominent Twin Falls attorney, was stricken Friday afternoon in his office by a second attack of paralysis, coming almost exactly a year later than the first attack with which he was stricken while walking near the court house toward his home in the evening.

Mr. Wise was taken from his office to his home, where his condition seemed to become rapidly more serious. It was announced late Friday evening, however, that Mr. Wise had not lost consciousness and it was not deemed necessary to send for his son, Chester Wise, a student of University of Southern California law school.

**Four-Hour Conference Is Held Between Attorney-General and Burton Regarding Course of Inquiry**

WASHINGTON, March 14 (AP)—The house committee appointed to investigate charges involving misuse of influence by two representatives probably will delay holding hearings until proceedings before a federal grand jury here by the department of justice approach a conclusion.

This was indicated at the conclusion of a four-hour conference at the department of justice tonight between Attorney General Daugherty and several of his assistants and Chairman Burton and members of the house committee when a program of procedure was discussed.

WASHINGTON, March 14 (AP)—The situation which has arisen between the house and the department of justice in connection with charges that certain representatives have improperly accepted money was discussed at a conference tonight between Attorney General Daugherty and Chairman Burton and members of the house committee appointed to conduct an investigation.

The department of justice is proceeding with the charges which were developed at the Chicago grand jury's inquiry into the veterans' bureau affair before a federal grand jury here while the house committee has decided to defer public hearings until next week.

Attorney General Daugherty has declined to discuss the names of the members of the house implicated and at the same time Chairman Burton has stated that the house committee had been given no idea of what co-operation it might receive from the department of justice in conducting its inquiry, which it is said, would be concerned primarily with the question whether any member had acted in such a manner that his seat should be forfeited.

## ARCHBISHOPS ARRIVE

CHEROKEE, March 14 (AP)—Archbishop Hayes of New York and Archbishop Mundelein of Chicago, arrived here this afternoon on board the steamer Berengaria.

## THOUSANDS OF REVENUE CASES NOT ADJUSTED

**Commissioner, Blair Reports 8,500 Returns Filed for 1917 Still Unsettled; King Suggests Facts Be Made Known**

WASHINGTON, March 14 (AP)—More than 8500 income tax return cases for 1917 still are awaiting settlement in the internal revenue bureau, the senate committee investigating administration of that bureau was told today by Commissioner David H. Blair. About 8000 of these cases, of seven years ago have been audited, Mr. Blair said, and are awaiting settlement, but the rest have not even been audited. He predicted, however, the bureau's work would be current within another year.

Commissioner Blair and several of his assistants were before the committee practically all day giving evidence as to the present status of the government's income tax operations. Professor Thomas J. Adams of Yale was present as an expert advisor to the committee and conducted much of the questioning.

"There has been a tremendous whispering campaign against the bureau," Senator King, democrat, Utah, said, in opening the session. "It will be to your advantage, Mr. Commissioner, to have these charges brought into the light."

"I agree heartily with that," said Mr. Blair.

He added that "in a force of 10,000 were were sure to find a certain proportion of criminals and that the bureau had 60 secret service men at work with fair success among its employees."

Bureau officials denied there had been any campaign of intimidation by which the taxpayers were suddenly notified of a large extra assessment and then were offered a compromise settlement.

The committee adjourned late today until Monday.

## IDAHO WEATHER

Saturday: Rain or snow, and colder.

## Idaho Weather Man Warns Stockmen of Approaching Cold

**Boise Observer Reports Conditions Are Favorable for Lower Temperatures**

BOISE, March 14 (AP)—An atmospheric disturbance of considerable intensity is centered over southeastern Idaho tonight, according to a bulletin issued from the United States weather bureau office tonight.

"Up to the time of the observation Friday night," the bulletin says, "only light scattered precipitation had occurred over the Pacific northwest, but conditions are favorable for rain or snow with cold northwesterly winds Saturday and Sunday. Stockmen should take notice and govern themselves accordingly."

## MEANS ADDS TO LURID EVIDENCE

**Former Federal Agent Relates Sensational Tale But Keeps Clear of Incrimination**

WASHINGTON, March 14 (AP)—More sensational—the most lurid of the yet developed—tumbled today into the record of the senate committee investigating Attorney-General Daugherty.

Gaston B. Means, former investigator of the department of justice, and man of many adventures, who described his present business as "answering indictments," testified that he was the "money carrier" for Jess W. Smith in various deals implying corruption.

He told a startling tale of collections of money for Smith in sums ranging from \$5,000 to \$100,000, and before he finished had brought Secretary Mellon's name into a story about permits for whiskey withdrawals and said he had even once investigated Attorney-General Daugherty himself for the late President Harding.

## "Evidence Lacking"

Means was careful to say that the charges against the attorney-general which he investigated then he found to be without any foundation in fact. He also disclaimed in his testimony to the committee.

(Continued on Page 4, Col. 1.)

## WITNESS' TALE BRANDED AS LIE BY DAUGHERTY

**Attorney-General Makes Sweeping Denial of Insinuations Made at Inquiry by Woman**

WASHINGTON, March 14 (AP)—Attorney General Daugherty tonight made a general public denial of the insinuations against him made in testimony before the senate investigating committee.

"Any inference, direct or indirect," he said, "that I ever participated in any way with the late Jess Smith or anyone else for a consideration, either monetary, political or social, in any dishonorable way in connection with administration of the liquor laws or any other laws is false and untrue."

## "Was Disappointed."

The attorney general then proceeded to deny in detail, in a formal statement, the inferences as to wrongdoing on his part contained in the testimony of Roxie Stinson, Smith's divorced wife. Mr. Daugherty described as "a disappointed woman who blames me because her divorced husband did not make her sole legatee under his will."

He declared he had no interest whatever with Colonel James O. Darden in his western oil company; that he had not been a party to any speculation to make money out of violations of the law or out of the showing of prize fight films; or that Jess Smith ever approached him at any time on the subject of clemency for federal prisoners.

"On several occasions," he continued, "I have been intimidated by persons ostensibly acting for Miss Roxie Stinson that for a consideration her silence could be purchased and any documents in her possession could be delivered, all of which deliberate and serious attempts at blackmail have been absolutely and unconditionally rejected."

This statement was one of four issued from the department of justice, mostly directed against Miss Stinson's testimony. One contained a copy of a letter to Senator Wheeler giving a list of precautions brought and sentences imposed in the fight film cases; another relates more in details the story about an alleged attempt to secure clemency for a relative of Joe Weber.

## Wreck Survivors Describe Scenes on Fated Vessel

**Ten Weary-Eyed Men Brought to Safety After Giant Freight-Sank; Only Members of Crew to Escape**

BALTIMORE, March 14 (AP)—Ten still, weary-eyed sailors, clad in nondescript clothing, filed down the gangplank of the Norwegian steamer Clay, which docked here today.

They are the only known survivors of the crew of 35 of the big Ward line freighter Santiago, sunk in the blizzard off Hatteras Tuesday night.

They brought a tale of a ship battered by storms for three days, suddenly turning over and going down with her captain lashed to the bridge, her engineer and his assistants down in the hull and others of the crew scrambling for boats.

Ten stokers were trapped in the fire-room.

The Clay picked up the 10 survivors Wednesday after they had clung to their capsize lifeboat for hours. When they left the Santiago there were 11, but when the boat overturned one was washed away.

The first and third officers were knocked unconscious and washed overboard by the furious seas which flooded the ship through an open hatchway. Finally the cargo shifted, one of the men said, and it was only a short time before and ship began to list and turn over slowly.

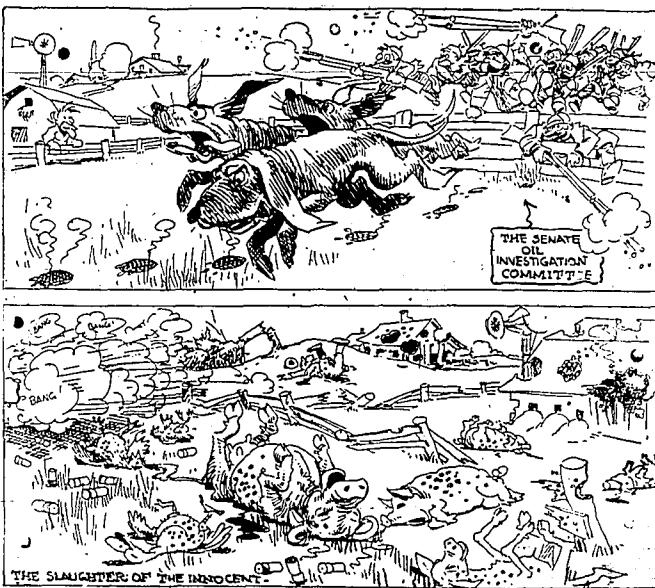

The crew made for the boats, two of which were launched. Only one succeeded in getting away. The other was smashed like an eggshell against the side of the ship.

**MELTON DENIES CHARGE**

WASHINGTON, March 14 (AP)—When asked about Gaston B. Means' testimony before the Daugherty committee today, regarding whiskey permits, Secretary Mellon said he had no command to make.

"It is merely vicious piffle," said the secretary.

## HUNTING THE WILD-EYED POLITICAL HOKUS-POKUS

# WILL SEEK CUT ON INCOME TAX DUE ON JUNE 15

Harrison Predicts Passage of Provision for 25 Per Cent Reduction Before Second Installments Are to Be Paid

WASHINGTON, March 14.—Enactment of the provision in the revenue bill for a 25 per cent cut in income taxes payable this year before second installments are due June 15, regardless of the fate of the measure itself, appeared assured tonight.

Senator Harrison, democrat, Mississippi, today predicted passage of the provision as a separate resolution "whether the revenue bill becomes law or not," joining house leaders who recently announced they would seek adoption of a separate resolution providing for the cut if the revenue bill were delayed.

Meanwhile the revenue measure was sidetracked by the senate finance committee, while inquiries were continued into the condition of the treasury preparatory to revision of the rate schedules adopted by the house.

The committee will not meet tomorrow, Chairman Smoot announced, and actual work on the rate schedules cannot be started, he said, before late next week, pending conclusion of the hearing of treasury officials.

Mr. Smoot declared, however, that if further delays were encountered night meetings of the committee would be called.

Senator Harrison, in endorsing the proposed cut in the income tax this year, criticized President Coolidge's message asking immediate action on the proposal as a "political move," asserting the president "knew this action could not be taken before first installments are due."

**RAID SOVIET SCHOOL.**  
SAN PEDRO, Cal., March 14 (AP)—Thirty-nine alleged members of the communist party, were arrested in a police raid here last night on what officers described as a school for soviet sympathizers conducted by a Russian in the Russian language. Those taken into custody were booked on charges of suspicion of criminal syndicalism.

**TAKE BIG LOOT.**  
BETHLEHEM, Pa., March 14 (AP)—Armed bandits this afternoon held up two clerks in the Saucon Valley Trust company at Hellertown, four miles from here, and escaped in a green automobile with bags of money estimated at between \$10,000 and \$20,000 taken from a vault. A third man stood guard outside the bank.

**CAPITAL TAKEN.**  
SAN SALVADOR, March 14 (AP)—The 72-hour armistice arranged by the diplomatic corps in Tegucigalpa having ended, it is reported here that the revolutionists have occupied the Honduran capital.

**VOLCANOE ERUPTING.**  
TOKIO, March 14 (AP)—A far eastern news agency dispatch from Petrovsk says 17 volcanoes on the peninsula of Kamchatka, Siberia, are in eruption.

**Parrots and Eagles Long Lived.**  
The wren is a short-lived bird, compared with other of its species, its average span of life being but three years. The sparrow is a veteran beside the wren, and often lives for 40 years. But there are other birds which attain much greater ages. Parrots, for instance, often become centenarians, while eagles have been known to pass the century mark. The swan, too, is a long liver, there being numerous instances on record of this bird having lived more than 150 years. Classical writers tell of ravens which lived 240 years, but even these birds may be said to have died young when compared with the 700-year-old rooks mentioned by Pliney in his writings.

**New Danger Signal.**  
One traction company in New Jersey, realizing the danger to the motoring public of level crossings, has evolved a sign system of warning at each crossing. Suspended across the road and directly above each crossing is a large board with several electric lights. This board bears the following message: "Danger! Lookout for locomotive! Stop when lighted!" No light shows when the way is clear.

## KING BORIS IS NOT DRIVEN FROM THRONE

KING BORIS  
His country story stories published in London papers which said the Government of Bulgaria had been seized by the Reds and that King Boris had been banished.

## VOTE TUESDAY ON BONUS BILL

Proponents of Compensation Measure Predict Its Passage After Debate in House

WASHINGTON, March 14 (AP)—Protested by rules prohibiting amendments and limiting debate, the soldiers' bonus will be brought before the house for a vote next Tuesday.

Under this arrangement agreed upon in the house today, a two-thirds vote will be necessary for passage but proponents of the measure tonight predicted its approval. Advocates of a full cash payment option form of the principal opposition to the bill as now drawn but after a protest on the floor today against consideration of the measure under limiting rules this group said no organized effort to obstruct the measure was to be expected.

The bill provides for paid up 20-year endowment life insurance policies and cash payments to veterans entitled to not more than \$50.

Representative Jeffers, democrat, Alabama, who favors a cash option, described the bill on the floor today as a "gold brick." Other speakers also declared for a full cash payment option.

## ROCK CREEK

ROCK CREEK—Mrs. Walter Brose and child of Twin Falls spent the weekend with home folks.

Eddie Domrose returned from California Wednesday after spending the winter there. He expects to return to the land of flowers next fall.

Little Bunkey Moffett entertained his little friends with a party Sunday.

H. P. Larsen vaccinated his cattle Tuesday for blackleg.

Mr. and Mrs. Ed Domrose motored to Twin Falls Wednesday on business.

Ruby Hansen spent the week-end with home folks.

The Rock Creek club will meet with Mrs. H. P. Larsen and Mrs. Ann Larsen in two weeks.

**Wild Indians of Mexico.**  
There are 14 distinct tribes of wild Indians in the state of Chiapas, Mexico, down near the Guatemalan border. Each tribe has its own language, and they mix as little as possible with the whites. The curious assertion has been made that these savage Indians are able to communicate telepathically across hundreds of miles of space by a sort of wireless, the secrets of which are carefully guarded from all outsiders.

## FUTURE BRIGHT FOR SOUTHWESTERN AREA

Babson Discusses Conditions in Western States and is Confident of Tremendous Growth Along Coast

BABSON PARK, Fla., March 14 (Special To The News)—"General business in the southwest is running 7 per cent ahead of the volume of a year ago," according to the seventh section of Roger W. Babson's report on current business conditions. The states comprising this section average about evenly with the country as a whole, according to the statistician's findings.

"California is leading the group of southwestern states with a gain of 8 per cent over last year," says Mr. Babson. "Arizona comes next with a gain of 2 per cent; New Mexico follows with a gain of 1 per cent. In checking up Utah we find a loss of 2 per cent; Colorado a loss of 4 per cent; Nevada a loss of 11 per cent. These states differ from most of the other western and southern states in that a large portion of their purchases of power comes from their minerals. Vast quantities of petroleum have been taken from the ground in southern California; large amounts of copper are being mined in Arizona, Nevada and Utah; Colorado and New Mexico are rich in oil deposits; while gold, silver and other metals are found in practically all of these states.

**Livestock Production.**  
"The raising of livestock has also been a feature of these states, although one may be somewhat surprised to find that only from 5 to 10 per cent of their income is derived from this source. Arizona leads the group in livestock production. While formerly cattle were a great source of income, sheep are now found to be more profitable."

Stable in most sections. Incidentally as the price of cotton increases the demand for wool should also increase. "Hay is the principal crop of each of these states with the exception of California and Arizona, although it should be noted that hay is more of a 'supply' crop than a 'cash' crop. In California, of course, fruit leads, and in Arizona half of the agricultural income is derived from high-grade cotton."

**Power Failures.**  
"Examining the barometer of failures we find in California, Nevada and Utah showing relatively small increase in failures compared with a year ago; while Colorado is somewhat less favorable, and Arizona and New Mexico show relatively large failure increase. All of these states, with the possible exception of California, have weathered the worst of their readjustments. I am a little anxious as to what may happen in southern California when the oil gives out and the influx of new capital from eastern states begins to decline."

**Findings by States.**  
Analyzing the situation in detail Mr. Babson's report includes the following findings by states:

California: Iron and steel industry shows little improvement. Reduction of forces in southern oil field tends to slow up allied oil trades. Railroad shops' activity indicates some improvement. Building and construction activities promise favorable trend. Compared with a year ago, there is a large gain in the price of potatoes, but there are decreases in the prices of hay, barley and wheat. The price index of crops is about 2 per cent under last year.

Arizona: Lumbering continues noticeably active. Large program of highway construction provides considerable employment. Metal mining remains steady. Comparing prices with last year, cotton shows a large gain and hay a smaller gain. Wheat, however, is about the same in price as a

## FUTURE BRIGHT FOR SOUTHWESTERN AREA

year ago, while barley is considerably less. In total the price index of crops is about 14 per cent higher than last year.

**Lower Prices.**  
New Mexico: Railroad shop employment steady. Probability of early resumption of highway and construction activities which were impeded by bad weather. Hay, wheat and oats are below last year in price and corn is only slightly above. As a whole the price index of crops registers a loss of 24 per cent compared with last year.

Colorado: Metal mining fairly active. Reports of considerable prospecting for oil. Meat packing and other major industries continue on about a normal basis. Expectation of satisfactory program of building and construction in the spring. Comparing present prices with last year, wheat is much lower, corn slightly lower, and hay about the same. Potatoes, however, show a large gain and bring up the price index of crops to a level 4 per cent higher than last year.

**Rail Activity.**  
Nevada: Metal mining outlook somewhat improved, and railroad shop activity has slightly increased. Highway and construction activities checked by weather conditions, but should be resumed on considerable scale in the spring. Because of the large increases in the prices of hay and potatoes, the price index of crops shows a gain of 42 per cent over last year. Wheat and barley, however, are both below last year's level.

Utah: Railroad shop activity increasing. Industrial operations generally quiet, but curtailment less pronounced than in some years. Iron and steel plants on part time basis. Outlook for building and construction operations at fairly high level. The price index of crops products is 2 per cent higher than last year, due to the large increase in the prices of potatoes and oats. Both hay and wheat are slightly lower than a year ago.

**Water Power.**  
"When considering the various opportunities of these states, one should not overlook the great latent and undeveloped water power and irrigation possibilities. Not only does manufacturing grow up amongst such power;

but in their localities living should ultimately be easier and perhaps more economical. It is estimated that a large proportion of the water power resources of the country are in the southwest. It is quite possible that the Pacific coast states may lead the world in the development and application of hydro-electric power. With the tremendous output now available or in prospect, this should be one of the most important territories for the sale of electrical equipment, apparatus, and supplies. Manufacturers who have not already completed their arrangements for distribution on the Pacific coast should give the matter careful consideration. Though I am discussing the long range rather than merely the immediate future, it should nevertheless be remembered that those manufacturers who are first to establish themselves in this field will be in a more favorable position than belated competitors."

**Westward Movement.**  
In conclusion Mr. Babson made this interesting prophecy regarding the Pacific coast: "Little do the people of America realize how rapidly the center of business activity is moving westward. With the Atlantic ocean, the great present-day artery of commerce, and with New York our greatest seaport, we are apt to forget the great changes which are coming tomorrow. It, however, will only be a question of time when the Pacific ocean will carry three-quarters of the world's trade and San Francisco will exceed New York in wealth and population. Los Angeles will probably be the second or third city in size in the United States and the entire Pacific coast is destined to see great growth."

The Country Women's club will have a cooked food sale at Wall's grocery Saturday, beginning at 11 o'clock—adv.

## OIL COMMITTEE TAKES RECESS OF FOUR DAYS

Illness of Senator Walsh Necessitates Layoff Until Tuesday; Diplomatic Correspondence Is Given Study

WASHINGTON, March 14 (AP)—The oil committee took a sudden recess today until next Tuesday because of the illness of Senator Walsh of Montana, its chief prosecutor.

A cold from which the senator has suffered for some time developed into a slight bronchial trouble and his physician advised him to rest. It was stated that his condition was not serious and that he should be able to resume his duties next week.

Until Senator Walsh returns the order of procedure in the inquiry will be undetermined. There are several phases remaining including the report of auditors who examined the books of stock brokerage firms; examination of witnesses relating to the story of Leonard Wood, jr., regarding alleged attempts at "oil deals" during the republican convention in Chicago in 1920; and the questioning of Harry F. Sinclair.

During the day President Coolidge transmitted to the senate copies of diplomatic correspondence passing between the American and Colombian governments regarding the Colombian treaty, but there was nothing to show that Albert B. Fall, as secretary of the interior, had influenced the administration's course in urging prompt ratification of the long-pending convention in 1921.

Senator Dill, democrat, Washington, sponsored the resolution under which the correspondence was transmitted to the senate. He wanted the documents referred to the oil committee, but Chairman Lodge, of the foreign relations committee, insisted that it be referred to his committee, as it was an international matter, and he carried his point.

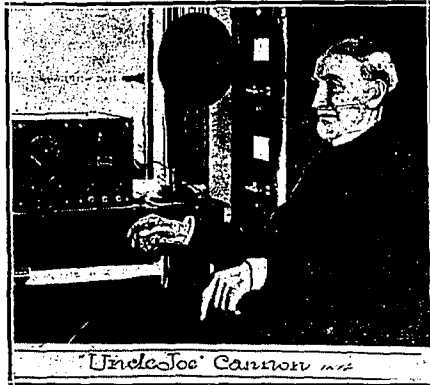

The correspondence was ordered printed as a public document and as such it will be available to the oil committee.

**Straw Brail.**  
In the United States straw hats are made from brail that is chiefly imported from Italy, China and Japan. Of the various materials which go into the fabrication of plaited hats, the most important is wheat straw. The straw must have a length of "pipe" between the knots and must possess a clear, delicate, golden color and must not be brittle. The most valuable straw is from Tuscany, and from the Tuscan plait the Leghorn hats are made. Many substances besides straw are used in brails for hats and bonnets. Among these may be cottoned willow and cane, as well as palm. The famous Panama hats are made from the leaves of the screw pine.

**Malleo Acid.**  
Malleo acid is present in generous quantity in apples, pears, red and white currants, blackberries and raspberries, guineas, pineapples and cherries. Citric acid is found in lemons, limes, oranges, gooseberries, strawberries and raspberries, and tartaric acid predominates in grapes, though it exists in other fruits. Salicylic acid is sparingly present, probably in the form of methyl ester, in plums, cherries, currants, grapes and strawberries, raspberries, etc. Boric acid is said to be present in oranges and lemons.

## Has "Uncle Joe" Quit Smoking?

Here is the most recent photograph of "Uncle Joe" Cannon, for so many terms the Chief of congress, snapped at his home in Danville, Ill. The ex-congressman, seated at the radio in his home, is without the inevitable cigar, one of the few pictures ever made of him without it.

## REGRETS DEFEAT OF CREDIT BILL

Coolidge Had Hoped Norbeck-Burnett Plan Would Be Accepted; Submit New Scheme

WASHINGTON, March 14 (AP)—Defeat by the senate of the Norbeck-Burnett bill to aid Northwestern farmers in diversifying their crops is a matter of regret to President Coolidge.

The president regarded the measure as in harmony with his advocacy in his message to congress of legislation to permit greater crop diversification in the wheat-growing states and he specifically recommended its enactment in a special message to congress.

The McNary-Haugen farm export corporation bill, which will be the next farm relief measure considered by the senate, is looked upon by the president as possessing merit, but not designed to accomplish the purposes sought in the Norbeck-Burnett proposal.

**Stringing Pearls an Art.**  
The stringing of pearls is a profession literally handed down from mother to daughter. Because the pearls are of such great value there is not much chance of new workers breaking in. It takes at least a year of practice for a beginner to master the knot that holds each pearl in place. If the knot is only one hair breadth out it will spoil the hang of the necklace, showing the gap or that the gems were crowded.

## FORM CORPORATION FOR AIR PASSENGER TRAFFIC

DAYTON, Ohio, March 14 (AP)—Backed by Dayton and New York capital, an organization to carry passengers over the model airways between Dayton and Washington is in process of formation, it is reported. The route may be lengthened to New York with a stop at Washington.

Capitalists considering the project said the materialization of their plans might be some months distant.

## Giant Parrot of the Rockies.

A giant parrot with a massive beak and a raucous voice that might have sounded like a megaphone for miles through the ancient marshes of prehistoric America, once lived in the Rocky mountains, scientists have learned. The bird stood seven feet tall, and its huge head was two and a half feet long. Of this there is no question, as one nearly completed skeleton exists, and fragments of others, including skulls, have been dug up. Several million years probably has elapsed since this mighty fowl trod the earth.

## Rare Book.

The first printed book on bookkeeping was published in Venice in 1494. The author was Luca Pacioli, an Italian monk, who wrote it in Latin and Italian, originating many of the algebraic signs now in use, such as plus and minus. The precious volume has recently been presented to the University of California.

## STILLMAN CASE NEARS FINISH

Wife's Victory in Lower Court Upheld by Higher Tribunal; Former Banker Held Guilty

NEW YORK, March 14 (AP)—The end of the 44 months legal battle unsuccessfully waged by James A. Stillman, former president of the National City bank, to win a divorce from his wife, Mrs. Anne Urquhart Stillman, came today, in the opinion of her counsel, with the decision of the supreme court, appellate division, upholding Mrs. Stillman's victory in the lower court.

Today's decision was on an appeal made by Stillman on November 7 for a new trial. It upheld the findings of Referee Gleason, later confirmed by supreme court Justice Morehouse, and decided that Mr. Stillman was guilty of adultery and that his baby son Guy had not been proved illegitimate.

The appellate division made no pronouncement on the question of whether Mrs. Stillman was guilty, as charged by her husband, of misconduct with Fred K. Beaulieu, French Indian guide. Such a finding was not necessary to support the decision and would not change the result, it was stated. In addition, findings of the referee and lower court on this subject were ordered stricken out.

If your property is desirable and is advertised in the classified—you'll find your buyer.

## Radio Enthusiasts Glad When Sailors Leave for Panama

Bluejackets on U. S. Battleships Annoy Wireless Fans by Whistling to Sweethearts

NEW YORK, March 14 (AP)—The eleven battleships of the Pacific fleet which have been here on a ten days visit stormed out of the harbor on their way to the east coast of Panama carrying with them the earnest farewells of radio enthusiasts, who have complained that sailors' playful use of the powerful navy radio sets has interfered with broadcasting operations.

The sailors, it was stated, whistled popular airs into the senders of the navy sets, intending to reach the ears of their feminine friends. One station, broadcasting from a theater last night, was said to have been forced to discontinue because of the whistling.

## History in Words.

The study of words—words which endure longer than temples hewn out of solid rock—teaches us to know the likeness of the human heart. In all countries and in all ages—to recognize the superiority in many respects of nations long deemed barbaric—and to understand fully the existence of that wondrous law of intellectual development which adapts faith to purposes and hopes to necessities, and tempers the sense of beauty according to human powers of acquisition.—Lafcadio Hearn.

If we could unscrew the tops of men's heads and look in—

We would know exactly what men were thinking about and how to talk to each individual case.

Some men are thinking style and pattern in Spring clothes—others are thinking about the cloth and long wear—a great portion are thinking about the fit and hang—but we think they are all thinking of large values—and low prices for good merchandise.

The purpose of this ad is this; if you are style inclined—fit fastidious—a bug on Quality—a bear for Value—you can keep your mind on your desire—let us put our organization to work on it—and Presto—as if by magic—all fear has been dispelled—and in the coat pocket of your new Spring suit you will find our name!

Spring Suits \$17.50 to \$55.00  
New shipment Bates-Street Shirts \$2.00 to \$6.75

## CHALLIS DROPS OUT OF RACE, RUPERT LOSES

One of Four Teams Entered from Southern Division Eliminated at Moscow; Boise Wins Two Games

BOISE, March 14 (AP)—Boise and Rigby, the only undefeated teams in the intercollegiate basketball tournament at Moscow for the championship of Idaho, will meet tomorrow afternoon at 4 o'clock on the University of Idaho floor. Boise defeated Rupert this afternoon, 22 to 12, and the Moscow quintet tonight, 14 to 10. Rigby won from Challis, 37 to 11, in the afternoon, and defeated Kellogg, 24 to 10, tonight.

Four teams with one defeat each will meet tomorrow afternoon for elimination. Kellogg and Moscow will meet at 2 o'clock and Kootenai and Rupert will meet at 3 o'clock. Drawings will be made for the final game tomorrow night. Challis and Malad, each with two defeats, have been eliminated from tournament competition.

MOSCOW, March 14 (Special to The News)—Eight teams representing the eight districts of the state of Idaho met here today and tomorrow to decide the intercollegiate basketball title in the University of Idaho gymnasium.

The teams which entered the play which commenced this afternoon and will end Saturday evening in a championship game are: Rupert, Rigby, Challis, Malad and Boise from the southern part of the state, Kootenai, Kellogg and Moscow from the northern division.

The Moscow team won last year from the Oakley quintet in a battle that will long be remembered and has hopes this year of repeating the victory. However, there is every indication that every team in the meet will put up a stiff fight.

Elva Hunter, coach at Lewis and Clark and former Idaho star, with "Buck" Hunter, a well known basketball official at Moscow, have been agreed upon to handle the tournament. Elaborate plans for the reception of the visiting players are being carried out by the university students and fraternities where the players are being housed during their visit.

## BLUES WIN IN OPENING GAME

Kansas City Team, American Association Champs, Beat Coast League Title Holders

SAN FRANCISCO, March 14 (AP)—The Kansas City Blues, champions of the American association, today defeated the San Francisco Seals, winners of the Pacific Coast league title, in the first of a series of games to determine the relative strength of the two teams.

Ineffective hurling by Oliver Mitchell and the failure of his teammates to connect with the offerings of Caldwell and Thormathen accounted for San Francisco's defeat. Caldwell allowed the Seals but one scratch hit in the six innings he pitched.

Kansas City (Association).....5 11 1  
San Francisco (Coast).....1 6 2

## MEANS ADDS TO LURID EVIDENCE

(Continued from Page One)

day about Smith's alleged money collections he had any knowledge of the attorney-general being involved in receiving any of the money collected for Smith or one W. T. Underwood, whom he named in that connection.

At no time, in his story of money collections, did Means identify the people he said he got it from.

Specifically, Means testified that in February, 1922, at Smith's direction, at the old Bellevue hotel in Washington, he collected \$100,000 in thousand-dollar bills from an unnamed Japanese representing the Mitsui and Company, Japanese bankers, who brought it on behalf of the Standard Aircraft corporation to halt government action toward recovery of over payments aggregating \$5,000,000 on war contracts. The witness said that Smith came the same night and took the money from him.

Free catalogues. 15 minutes from Twin Falls. Open evenings. NOR on Sunday. Phone-46. Catalogue free. Kimberly Nurseries, Kimberly, Idaho.

## Chief Figures in the News of the Day

Colonel Charles R. Forbes, former head of the United States Veterans' Bureau, has been indicted in Chicago on the charge that he accepted a bribe of \$5,000 from J. W. Thompson, wealthy contractor, to whom Forbes awarded hospital building contracts. Babe Ruth, world's champion slugger, has been stricken with his fourth attack of fluennia at Hot Springs, where he was doing preliminary spring training. Congressman Nicholas Longworth, of Ohio, is author of the income tax reduction bill as finally passed by the house. Governor Alex J. Groesbeck, of Michigan, was summoned to Washington for a conference with President Coolidge, the inference being that he was to be offered the post of attorney-general when Daugherty resigns. Senator William Macdonell has announced that within a few minutes after he is elected will send messages along a railway line in which only the station at which they are aimed will be able to pick them up. Former Secretary of the Navy Josephus Daniels, of North Carolina, is being loomed by his friends for the democratic presidential nomination.

## MURTAUGH MEN ARE VICTORIOUS

Former Cafe Squad Loses in an Evenly Matched Contest; Games Scheduled

Two evenly matched teams met Friday evening in one of the closest games of the season at the local bowling alleys. Every man on both teams made a score of over 500 with Thompson low at 511, and Silver high with 590, which closely approaches the 600 mark. He was closely pursued by Roy, who stepped out with a 241 score in the first game which boosted his total to 584. The Murtaugh squad, under Mark's active supervision, took all games and a safe total margin with 2773. The other five, who are variously known, originally claimed no relationship to the Rogersmen came from last season, but the addition of several new faces nearly disqualifies that name and now they are generally known as the "nut" team, with Murtaugh's men promptly adopting "grapevines" as their official moniker.

Negotiations are also under way for a double game with Idaho Falls where they travel to the local alleys. Manager Tritt announced Friday that the Idaho Falls men would be asked to bring two teams of their southern trip and in that event the bowling will start at 7 o'clock and end by 11.

## DATE SET FOR SECOND TRIAL ON ARSON CHARGE

A second trial in the case of Fred Brander, Payette, charged with second degree arson in connection with the alleged attempt to burn the plant of the Twin Falls Vinegar and Cider works here last December, was set Friday by Judge Babcock to be held March 21 in district court here. The jury failed to agree upon a verdict in the first trial of the case which was featured by testimony of the complaining witness and other associates in the local vinegar and cider works that they did not wish to see Brander convicted. Brander at the time of the alleged offense, was an official of the Payette Vinegar and Cider works.

## BRITISH CREW MEMBER TELLS OF RUM SALES AT THE HOTELS

(Continued from Page One)

at Dave's invitation, said the witness. Smith's next visit to the Orduña was when he reached port in February. Ralph Oyer, a federal narcotics agent, accompanied him. Smith testified he bought 50 cases of whiskey at \$35 a case from Storekeeper Dave and his linen man, and that Oyer bought several ounces of a narcotic drug. Smith also testified that he and Oyer bought all the champagne, gin, and brandy in the ship's storeroom, and a considerable supply of narcotics. "It was on the pretense of taking off these purchases the next day that a squad of federal men raided the ship."

Profile Big Curiosity prompted him, said the witness, to ask Dave what he did about "the people who run the boat." Dave answered, according to Smith, "we turn the money into the company. They don't care what we do with the liquor as long as we get the money." Oyer got 50 cases of whiskey and quoted Dave as having explained further:

"The company makes more out of this than we do. They require a certain amount of each bottle and we get just the profits over that price." Oyer corroborated Smith's testimony throughout.

Askins, declares the author, gives credit to Sweeney, whom he considers the greatest shotgun genius the world has ever seen, possibly excepting Fred Kimble, who discovered and bored the first choke-bore gun, way back in the 70's. Give credit to two tireless investigators and men of science, the article concludes.

## JEROME GIRLS DEFEAT BUHL

West-End Sextet Gets Slow Start But Later Burst of Speed Nearly Wins Victory

BUHL, March 14 (Special to The News)—Splendid teamwork, coupled with superior back shooting on the part of Jerome, and over-confidence of Buhl, sent the black and orange-coated basketball team's chances for a state championship glimmering with a score of 28 to 20 here tonight.

Coach Barry's sextet found something new and entirely different when they struck the Misses Gill and Wilcox, right and left forwards for Jerome, who shot basket after basket without regard to the effects on the reputation of the Buhl "wonder team." In fact throughout the first half, Buhl was able to keep one field goal in the championship game and the half ended with Jerome far in the lead with a 10-2 score.

The second half started out as a repetition of the first and the count continued to mount with Barry arranging and rearranging the Buhl lineup to fit his needs, using 11 players in all, and finally, with the score 20-4, decided upon a combination of Cox, Dingman, Hayes, Winegar, Brennan and Dennis.

This combination performed the miracle for Buhl and promptly and efficiently started to balance the count, scoring eight field goals in as many minutes, only to find that there was not enough time to finish the task and had to be content with the small side of the score.

As for the work of the Jerome girls, who have been coached by Superintendent Snodgrass, their teamwork and efficiency was entirely workable and as matters stand now they are undisputed champions, with the challenge open to any feminine six which cares to meet them.

The Lineup  
Buhl (20) Pos. Jerome (28)  
Meyer, J. F. Gill  
Meyer, J. F. Wilcox  
Hayes, J. F. Ayres  
Baker, J. F. Aberdeen  
Scully, J. F. Dobkins  
Ralph, J. F. McGowan  
Substitutions—Buhl: rg, Metz; sc, Winegar; lg, Ralph, Brennan, Dennis; rg, Metz; Jerome: none.  
Scoring: Cox, 7 field goals; Dingman, 3 field goals; Gill, 8 field goals; Wilcox, 6 field goals. No fouls.  
Referee: Davis, Twin Falls.

## Theatres

"ETERNAL CITY" FILMED.  
A love that was born in a little village and culminated, after many vicissitudes, in the aristocratic halls of Rome, amid luxury and splendor, is vividly told in "The Eternal City," which is coming to the Orpheum theater next week. George Fitzmaurice produced this First National picture in Italy, with a cast that includes five stellar players—Barbara La Marr, Lionel Barrymore, Bert Lytell, Richard Bennett and Montagu Love.

## GISH FILM OPENS NEW ERA.

## LILLIAN GISH

Never in the history of motion pictures was a film made under such rare conditions as "The White Sister," which is coming to the Idaho theater, starting Monday. When Henry King, the director, and Lillian Gish, the star, headed a troupe of adventurous Americans who journeyed to Italy to create "The White Sister" in the locale in which the story was written, they opened up a new era on the screen. As a result, the film, based on F. Marion Crawford's novel has backgrounds of surpassing beauty. "The White Sister," a Henry King production, is an inspiration picture, released through Metro.

# SOCIETY

Edited by Mrs. E. B. Williams

Telephone 396

## Entertain Pythian Social Club

Mrs. G. R. Halpin, assisted by Mrs. F. H. Higbee, entertained the Pythian Sisters Social club Friday afternoon.

There was the usual business session to discuss the activities of the club and it was decided to serve waffles and coffee the first Saturday in April. The remainder of the afternoon was spent playing "Go!" the prize for high score being won by Mrs. James Tate, and Mrs. Mead was awarded the consolation.

The regular club prize was won by Master Armour Anderson. Late in the afternoon a two-course luncheon was served. Sixteen members were present and Mrs. Tate and Mrs. Kate Taber were guests.

## T. S. S. Club

### Meets

Mrs. H. H. Hedstrom entertained the T. S. S. club at a delightful luncheon Friday afternoon at her home on Eleventh avenue east.

The rooms were attractive with pussy willows and green tea weeks stock. The guests were seated at two tables, the decorations and menu carrying out a St. Patrick's idea.

Mrs. S. W. Osgood and Mrs. Burton Smith were guests and the entire club

membership numbering 12 was present. The usual social time followed the luncheon.

## Mrs. Cogswell Resigns

The Past Noble Grand club met Thursday evening with Mrs. E. T. Guttery on Jefferson street.

Mrs. F. L. Cogswell resigned her position as secretary of the club and Mrs. Guttery was elected to fill the vacancy.

After the transaction of business a handkerchief shower was given for Mrs. Cogswell, who expects to leave in a short time to make her home in Boise.

A radio concert furnished entertainment for the remainder of the afternoon. The hostess, assisted by Mrs. S. Watkins, served dainty refreshments.

## Surprise Party for Mrs. C. C. Long

Mrs. C. C. Long was the recipient of a delightful surprise party Friday afternoon at her home on Sixth street north.

A program was rendered and various games were enjoyed. Late in the afternoon dainty refreshments were served.

Those present were Mrs. M. M.

Whitehead, Mrs. Roy Fink, Mrs. O. C. Hall, Mrs. W. H. Schultz, Mrs. L. E. Whitzell and Mrs. Nephi Shores.

## Missionary Society Meets

The Presbyterian Missionary society met in the church parlors Thursday afternoon with the president, Mrs. G. M. Hall, presiding. Devotionals were led by Mrs. G. M. Simpson, and the subject for roll call was prayer.

The program was in charge of Mrs. Frank Brough and consisted of a review of two chapters in the study book. She was assisted by Mrs. J. A. Johnson, Mrs. L. L. Breckenridge and Mrs. D. F. Sweet.

Miss Jane Provost played two instrumental numbers which were greatly enjoyed. Mrs. O. W. Witham, Mrs. Wilbur Hill, Mrs. H. J. Youngs and Mrs. William Scott were hostesses and served refreshments to about 35 ladies.

## Tri-O Club Gives

### Dancing Party

The Tri-O Bridge club, composed of girls of high school age, entertained a large number of guests at a dancing party Friday evening at the Parish hall.

The hall was artistically decorated in green and white, significant of Saint Patrick's Day, and paper hats as favors were given the guests present.

Late in the evening refreshments were served the dancers.

Genuine Watkins' extracts and spices. Phone 503J11.—adv.

## A New Shipment Special Silk Dresses \$29.75

Yesterday's express brought us from New York a special purchase of new models in silk dresses that we think so much of that we want you to see them. Open for your inspection today. In various colors, styles and sizes; no two alike. Quality is extra good. Priced \$29.75.

Another lot of awfully pretty dresses are shown in printed and plain crepes and satins at \$35.00.

## Mannish and Boyish Tailored Suits Are Selling Best

The fact is the proper and the popular thing is a suit of men's wear cloth, the coat of which is cut no longer than, if as long as, men's and boys' coats. They look smart, are practical and Spring is the suit season. Choose early.

New models \$35 and \$45

"Another Package from Booth's"  
Booth Mercantile Co.

## Spring Days Announce Their Coming with Lustrous Silks in Captivating Hues

The fabrics are as soft and alluring as feminine charms, colorings vie with those of summer's rainbow, and weaves are resplendent with romance in their originality of design. All these elements are artfully woven together in the new spring silks, which combined by fine needlecraft will result in stunning spring dresses, blouses, and skirts. Most every woman has spring sewing to do, this showing will present numerous inspirations for smart costuming.

Probably the largest and finest assortments of fine silk ever in Twin Falls are here on display now, including plain and printed effects.

### Printed Silk Crepe

The air of spring is borne in these pretty new crepes. Not too much color but just enough, and patterns are dainty and pretty. 39-40 inches wide, \$2.95 per yard.

### Marigold Crepe

Genuine Marigold is made of fibre silk; very lustrous. Sport shades in green, gold, tan, blue and grey. \$1.48 per yard.

### Printed Roshanara Crepe

40 inches wide, this crepe is in subdued Oriental colorings and patterns. In making dresses or skirts it is extremely handsome. Per yd., \$3.95

### Crepe Maurice

The richness that is in silk only is typical of Crepe Maurice. One of Mallinson's fine productions. \$9.75 per yard.

### Town Talk Silks

Famed by Mallinson, this suiting or skirting in tan or grey plaid is pretty and practical. All silk. \$5.95 per yard.

### Plain Rochanara Type Crepe

This Rochanara weave in crepe is very popular for skirts and dresses or blouses. Black, brown and tans. 40 inches wide. Per yard, \$3.25

### Silk Broadcloth

Such a serviceable silk for skirting and wash dresses never was. Prettiest striped patterns, heavy, washable. \$2.75 per yard.

### Tub Taffeta

Another new silk and it is wonderful for underwear slips and skirts. Many colors. Per yard, \$1.79

### Sumry Velvet

A velvet for summer wear, as light in weight as chiffon. Velvet patterns are brocaded on silk chiffon. \$9.75 per yard.

### Printed Pussy Willow

Gorgeous designs of the orient are in these genuine Mallinson's Pussy Willow. Washable, wearable. \$5.00 per yard.

## Crepe Back Satin or Satin Back Crepe

These silks are more fashionable than ever, having a lustre and still retaining that softness of silk crepe. They drape artistically and make into straight-line models equally well.

Two qualities are here—both are heavy Cantons—superior in every respect. The kind you would expect from here but priced lower. Per yard,

square, New York, N. Y. Receptor, 141  
Madison Building, Chicago.

**STRAIGHT THINKING**  
Naturally, with hopes keyed high  
and anticipation of real work well  
large in the public mind, every appar-  
ent delay in the actual beginning of  
construction of the new railroad causes  
acute discouragement.

Today delay is caused through what  
is apparently a misunderstanding as to  
the right of way through the prop-  
erty of the Utah Construction com-  
pany. Nobody is to blame. Nobody  
blundered. Nobody was careless. Such  
misunderstandings occur every day in  
the world of business and in a few  
days they are straightened out and  
the business goes forward just the  
same.

Within a short time now it will be  
possible to see clearly just what is  
necessary to be done. When that time  
comes it will be easy to decide for or  
against the doing of it. Railroads  
necessarily move slowly. So, too, do  
committees when such committees are  
charged with negotiations as impor-  
tant as those comprised in the matter  
of the new line.

There is no particle of ground for  
apprehension of any change in the  
plans for the line. There is delay,  
which may have been expected, and  
the cause of which will be dissipated  
in due course. In the meantime it  
might be well to accept the situation  
as it is and devote our energies to a  
consideration of the best means to a  
solution.

Twin Falls needs this railroad and  
needs it mightily; but its of almost as  
much importance as the two building  
permits issued here recently.

The negotiations are proceeding and  
there should be no room for the thought  
that there is any chance of other than  
a favorable outcome.

THIS YEAR'S WATER

In view of possible water shortage  
during the coming irrigation season in  
this region, Burton Smith, new man-  
ager of the Twin Falls Canal com-  
pany, is taking a wise course in pre-  
serving this early the facts in the  
situation and appealing for co-opera-  
tion on the part of water users in  
making most efficient use of the  
available water supply.

Without co-operation of the water  
users no irrigation project can suc-  
ceed even under most favorable con-  
ditions; but in seasons of water short-  
age disaster is inevitable unless this  
co-operation be given.

In addition to the part of the water  
users in meeting the indicated situa-  
tion, there must be, of course, utmost  
efficiency of operation in regard par-  
ticularly to maintenance of ditches  
and handling of water through the  
canal system. Mr. Smith's wide ex-  
perience in operation of other irri-  
gation systems and his increasing fam-  
ilarity with the Twin Falls canal sys-  
tem breeds confidence that canal opera-  
tion will be conducted on the high plane of  
efficiency that the situation would  
seem to make imperative.

TOM SAWYER'S CAVE

Shade of Tom Sawyer's cave on  
the bank of the Mississippi river near  
Hannibal, Missouri, is likely to be  
whitewashed for the benefit of tour-  
ists. Not that whitewash is inappro-  
priate for Tom Sawyer's cave. He  
was the boy, and Mark Twain, the  
author, who may be said to have made  
whitewash inseparable from thoughts  
of American ingenuity. But white-  
washing estaglates and stales in  
order to make them look better to  
tourists sounds a little lousy.

It may be a sensible move. It is  
said that many years ago the strange  
and interesting formations within the

Dreamland Adventures

DR. JACK  
BY DADDY

Jack and Janet, playing doctor  
and nurse, are called to attend  
Lonesome Bear, who has a tooth-  
ache. They take Lonesome Bear to  
a dentist, who is scared away by  
the sight of the bear. Jack then  
takes the dentist's forceps to  
pull the tooth, but Lonesome Bear  
runs away.

CHAPTER VI.

Jack Pulls the Tooth.

JACK chased Lonesome Bear almost  
to the woods. Jack was waving the  
dentist's forceps with which he wanted  
to pull Lonesome Bear's tooth, and  
Lonesome Bear was running as fast as  
he could to keep away from those  
awful steel jaws.

Finally Jack saw he could not catch  
Lonesome Bear.

"Wait, Lonesome Bear!" he cried.  
"I'll not pull your tooth if you don't  
want me to."

Lonesome Bear halted and looked  
back warily.

"Now, I'll put away those awful  
steel jaws then," growled Jack.

He took the forceps in his pocket and then  
Lonesome Bear let him come near. At  
that moment Janet and Hoppity Hop  
Babbit also came up.

"Has your tooth really stopped ach-  
ing?" asked Jack.

Lonesome Bear growled. "It did  
stop aching while I was in the den-  
tist's office," he snarled. "But it has  
started again worse than ever."

"You must get that tooth out," said  
Dr. Jack. "Why are you so silly about  
letting me pull it?"

"Want you to pull it as soon as you  
pull it, but I don't like to have you  
pull it with those awful steel jaws,"  
said Lonesome Bear.

"Isn't there some other way you can get it out?"  
Jack shook his head, but Janet spoke  
up quickly.

"My daddy pulled a tooth for me  
once with a string," said she. "Mother  
tied one end of the string to my tooth  
and the other end to the door, and  
when daddy opened the door the tooth  
was jerked out, and it didn't hurt me  
a bit, either."

"Want you to pull it with a string?" growled  
Lonesome Bear.

Jack spoke up quickly. "Then that's  
the way we will do it." He took a  
short fish line from his pocket and  
quickly made a loop at one end. "Open  
your mouth!" Lonesome Bear opened  
his mouth and Jack slipped the loop  
over the aching tooth. He gently pulled  
it tight.

"We haven't any door to jerk open,"  
said he. "But you sit still and I'll  
run away with the other end of the  
line. When the stick is taken up the  
jerk will bring the tooth out!"

"Wan-!" All right," growled

"I was brave, wasn't I?"

Lonesome Bear.

Jack took a tight hold on the string  
and ran as fast as he could. The line  
was only about 50 feet long and Jack  
expected a hard jerk when he came to  
the end. But there was no jerk. The  
line came right along with him. He  
looked back in surprise. Had the loop  
slipped off Lonesome Bear's tooth?

But no. There was Lonesome Bear  
sitting close after him, going as fast  
as he was. "Sit still! I can't pull  
your tooth while you run after me,"  
shouted Jack.

But Lonesome Bear chased right  
along. "I'm afraid you'll hurt," he  
growled. "Shutty Jack stopped! He  
was only about 50 feet away from me  
and he was trying to pull Lonesome  
Bear's tooth that way, for Lonesome  
Bear could run as fast as he could."

Jack had stopped right behind an  
automobile. The sight of the car gave  
him an idea.

"Sit down, while I plan another way  
of pulling your tooth," said he to  
Lonesome Bear. While Lonesome Bear  
was sitting down Jack quickly and  
quietly tied his end of the string to the  
back of the automobile. Then he got  
around behind Lonesome Bear and  
grasped him by the tail.

"Now, you are doing  
that," asked Lonesome Bear in sur-  
prise. Just then the automobile started  
up. Jack hung on tight to Lonesome  
Bear's tail. Before Lonesome Bear  
could see that the other end of the  
line was tied to the automobile, the  
stick was taken up with a jerk. Lonesome  
Bear gave a mighty lurch as the  
pull came on his tooth. Jack hung on  
behind. There was a wild howl from  
Lonesome Bear, and then the automob-  
ile went on its way dangleing a line  
tail behind it.

"There goes your aching tooth,"  
shouted Jack. "You'll have no more  
pain, Lonesome Bear!" Lonesome Bear  
looked after the auto in astonishment.  
Then a grin came over his face.

"Want you to pull it out?" said he.  
"I was glad it is out."

Jack, Janet and Hoppity Hop Babbit  
all laughed.

Jack had stopped right behind an  
automobile. The sight of the car gave  
him an idea.

"I was glad it is out."

young men and said: "Gentlemen, is  
there no way in which your honor can  
be satisfied without fighting?"

They shook their heads.

"Your stations have been chosen by  
lot. Irons yours is there. Take your  
ground, gentlemen."

The young men walked to their  
places and at this point the graphic  
Major Solomon Binkus, whose keen  
eyes observed every detail of the  
scene, is able to assume the position  
of narrator, the words which follow  
being from a letter he wrote to John  
Trout of Albany.

Our young David stood up then as  
straight as an iron rod, a young  
spruce on a still day—not a quiver in  
any twig. The Clarke boy was a toothy  
pale man when he raised his pistol I  
could see a twitch in his lips. He  
looked kind of stiff. I see they were  
one thing about his shooting, he  
didn't. It don't do to deny it—cause  
a gun don't allow have to be played  
careful to kill a man.

"We all stood watchin' every move.  
I could hear a bird singin' twenty rod  
—twere that still. Preston stood a  
few rods out of line 'bout half way  
—twere that still. Up came his hand with  
the han'kerchief in it. Then Jack raised  
his pistol and took a peek down the  
line he wanted. The han'kerchief was  
in the air. Don't seem so it had  
fell an inch when the pistols went  
up. Jack's holter fell. Just  
Clarke's pistol fell. His arm dropped  
an' swung like a rope's end. His hand  
turned red an' a blood began to  
spurt above it. I see Jack's bullet  
had jumped into his right wrist an'  
fore it wide open. The lieutenant  
staggered, like he'd been a stick whist.  
He shied some to the ground, but his  
friends grabbed him. I run to Jack.  
"He ye quick," I says.

"I think his bullet teched me a  
little on the top o' the left shoulder,"  
says he.

"I'll get you out here, fore an' we  
look at the jacket, and I ripped  
the shirt some an' see that the bullet  
had kind o' scuffed its foot on his  
goin' by, an' left a track in the skin.  
It didn't hurt nothin'." The Doc-  
tor washed it off an' put a plaster on.

"Looks as if he'd drawn a line on  
yer heart an' yer bullet had lifted his  
foot o' it. I'll be quick, Jack,  
an' mebbe that's what saved ya."

"I looked kind o' nervous like  
that 'ere Englishman had intended  
they was goin' to be one Yankee less.  
Jack put on his jacket an' his coat an'  
we stepped over to see how they  
was gettin' on. The other doctor  
was takin' up with a jerk. Lonesome  
Bear gave a mighty lurch as the  
pull came on his tooth. Jack hung on  
behind. There was a wild howl from  
Lonesome Bear, and then the automob-  
ile went on its way dangleing a line  
tail behind it.

"There goes your aching tooth,"  
shouted Jack. "You'll have no more  
pain, Lonesome Bear!" Lonesome Bear  
looked after the auto in astonishment.  
Then a grin came over his face.

"Want you to pull it out?" said he.

Church Services

First Presbyterian Church.

A. G. Pearson, Minister.  
9:45 a. m. Sunday school.  
11 a. m. Morning worship; sermon  
subject, "A Lesson in Faith." Mr.  
H. C. Maguire will sing.

6:30 p. m., Christian Endeavor meet-  
ings.

7:30 p. m., Evening worship; sermon  
subject, "The Spiritual Life." The  
pastor will speak at both services.

First Christian Church.

W. W. Burke, Pastor.  
Bible school weekly at 10 a. m.;  
W. A. Patrick, superintendent.

Communion and sermon at 11 a. m.  
The Rev. H. J. Reynolds of Burley,  
will preach. The pastor will speak at  
Bible.

Junior meeting at 4 p. m.  
Sunday school at 10 a. m.  
Dr. Burke will speak at the evening  
hour in his pulpit on the topic, "Go  
and Tell John." Special music will  
be at the services.

Baptist Church.

John E. Knapp, Minister.  
The church study and worship  
from 9:45 to 12 noon.

Subject of the morning sermon,  
"Business Principles in Kingdom In-  
terests." There will be a short busi-  
ness session of the church at the close  
of the morning service.

The church will have training and evangel-  
ism from 6:15 to 8:30 p. m. The young  
people assemble for their devotional  
meetings and also conduct the music  
and opening services for the hour of  
prayer, "Self Denial" is the theme  
of the evening meeting.

Religious education, he practical re-  
ligious education will be discussed at  
the Wednesday night meeting.

"The House of Good Order."  
(Methodist.)

"Watching the Orchestra When God  
Holds the Baton," will be the theme  
of the Rev. C. E. Wiggins' Sunday  
evening service.

The orchestra, Dr. Barrett, leader,  
and the choir, Mrs. Bell, director, will  
be at their best. Anthem, "Ye That  
Stand in the House" (Spinyne), male  
quartet, by Messrs. F. W. Neale & C. E.  
Grieve.

"Glory Revealed Through Suffering,"  
will be Mr. Wiggins' theme in the  
morning at 11

# FISHING LIKELY TO BE RESUMED IN ROCK CREEK

State Game Warden and Fish Commissioner Confer with Local Sportsmen; Increased Propagation Called Policy

Issuance of a proclamation opening the lower reaches of Rock creek to fishing this season was indicated in statement of R. E. Thomas, state game warden, to several members of the Southern Idaho Fish and Game association at an informal meeting here Friday evening.

Issuance of such a proclamation, Mr. Thomas indicated, is contingent upon results of an inspection trip along the stream to be made today by Mr. Thomas and W. M. Keil, newly appointed state fish commissioner, who accompanied the warden on his trip here Friday.

Rock creek and its tributaries have been closed to fishing during the past year by proclamation of Mr. Thomas' predecessor.

**Gives Views on Conservation**  
Mr. Thomas expressed the opinion that the lower reaches of the stream ought not to be closed to fishing, but that adequate protection can be afforded by closing of the headwaters where fish repair in the spawning season and where the young find natural protection.

"Opening of a stream that has been closed is a signal for all the fishermen in the country to camp on that stream, and as a result within two weeks it has been fished out, so that in reality the ends of conservation have not been served at all by the closing order," Mr. Thomas said.

The warden and fish commissioner made a trip Friday to Genesee creek and at the meeting here they gave assurance that a rack would be installed in that stream at the beginning of the spawning season.

Increased propagation of fish and wild life is a cardinal principle of the present administration of the state game commission, according to Mr. Thomas, and it is his avowed purpose to lay stress upon this feature of the commission's work rather than upon extension of police forces through multiplication of deputy wardens.

"Automobiles and improved highways have brought about a restriction to years in advance of our present capacity for preservation and propagation of fish and game," Mr. Thomas said. "We must have more fish hatcheries, and strive to supply demand rather than to curtail it."

Mr. Thomas spoke in terms of warm praise of the new fish commissioner, Mr. Keil, who came February 1 from New York, where he had been employed on large private estates, to enter upon work here.

"Mr. Keil's selection came after a long country-wide search for the most competent man to direct fish propagation and distribution available for the place," Mr. Thomas said.

Mr. Keil has had 25 years experience in the work and has originated methods of handling fish that have brought him into nation-wide prominence.

**Refers to Finances**  
Referring to the report of the state fish and game commission for the year 1923, Mr. Thomas quoted figures showing a net saving of about \$20,000 in carrying on the commission's activities. Revenues were reduced about \$6000 as a result of prohibition by the legislature of trapping fur-bearing animals and alterations made in license regulations. The commission maintained the same field force as during the preceding year, and augmented its force of trappers of predatory animals and in addition constructed the new fish hatchery at Ashton at a cost of between \$11,000 and \$12,000.

## TWO WOMEN GET DECREES

Court Approves Divorce on Representations of Desertion and Failure to Provide

Allegations of desertion and failure to provide were decrees of divorce for two unhappily married women appearing before Judge Halebeck in district court here Friday. The accused husband in each case was not present nor represented at the hearing.

Mrs. Myrtle Smithwick of Castleford, was granted a decree of divorce from William A. Smithwick, to whom she was married in October, 1913, in North Dakota, and was awarded the custody of her nine-year-old daughter, and title to residence property in Castleford.

Mrs. Mary McBride was granted a decree of divorce from Joseph J. McBride to whom she was married in Salt Lake in August, 1903. She was awarded custody of her 17-year-old son.

# Tragedy Pursues Pedigreed Dogs in Buhl Country

Only One Blooded German Shepherd Remains Alive Out of Five Brought to West End

BUHL, March 14.—(Special to The News).—Tragedy seems to hover over the valuable German Shepherd dogs imported to this end of the country.

The first of this breed in Buhl was a splendid puppy, from a dam brought directly from one of the leading German kennels. The pup was owned by O. B. Pote who took the best care of the young animal, but it died of distemper before it was four months old.

A second dog, bought by Mr. Pote from the same kennels, was run over and killed late last fall. Shortly afterwards the registered Shepherd owned by Shelby Constant was killed in the same manner.

The tragic end of Delfin of Carlsruhe, the pedigree dog of Constant's brothers, who broke her neck while jumping over a fence, makes the fourth death.

The sole survivor is Barry van der Kruzenberg, son of Ali van der Hofhauf of Christy Comedy fame. N. A. Spence personally selected the puppy and brought him from California a few months ago. The Austrian grand champion was his grandpaw. The grandson on the mother's side was Criminal Police, the famous Shepherd owned by Mrs. Elliott Dexter, who is president of the Western Kennels club.

# MAN AND WIFE FACE CHARGES

Frank and Virginia LaPepe Arrested Here for Alleged Violation of Mann Act

Frank LaPepe, 24, and Virginia LaPepe, 21, husband and wife, arrested here by the police upon request of agents of the federal department of justice, are held prisoners in the county jail pending their arraignment on information charging violation of the Mann act filed Friday in federal court in Pocatello.

LaPepe was arrested Thursday evening, and upon request of the officials, his wife was taken in custody Friday.

LaPepe and his wife were married after their arrival here about three months ago from Contact, Nevada. The woman's conduct following the marriage furnished basis for the information filed Friday against the pair, according to police.

LaPepe's work was again completed in police court here of a charge of disturbing the peace preferred at the instance of other inmates of the lodging house in which he and Mrs. LaPepe were quartered.

## FIRE RAVAGES DWELLING IN ABSENCE OF FAMILY

W. H. Thomas and Family Return from Picture Show to Find Home Destroyed by Flames

Fire, believed to have started from an overheated stove in the absence of the family at about 8 o'clock Friday evening, destroyed almost the entire contents of the W. H. Thomas residence at the end of Main avenue south, and caused considerable damage to the building.

The building was engulfed in flames when the fire department arrived on the scene and by prompt action prevented spread of the blaze to a grocery and service station and to other residence buildings in the immediate vicinity.

Contents of the burned dwelling included a baby grand piano which was charred black. A bed in one corner of the house is said to have been the only article of furniture that seemed to have escaped destruction.

Mr. and Mrs. Thomas and their daughter had left home earlier in the evening to attend a motion picture show. Mr. Thomas is the proprietor of a grocery, on Main avenue south.

## TURN CAR INTO CURB IN ATTEMPT TO AVOID CRASH

In an attempt to avoid collision with another car at the intersection of Second avenue and Second street north Friday afternoon, G. M. Hall, president of the Salmon River Canal company, turned his big sedan into the curb at the corner with the result that both front wheels were broken off before it could be brought to a halt. Mr. Hall escaped without injury.

## BOYS FURNISH PROGRAM FOR NINTH GRADE RALLY

Boys of the junior high school ninth grade class furnished the entertainment program Friday afternoon at the first of a series of these class gatherings arranged to be held during the remaining weeks of the semester to replace class parties often given at this time of the year.

A variety of contests in which the boys participated as members of two competitive teams under leadership respectively of Richard Robertson and Elvin Kelly, was a feature of the program. The "green" team under Kelly's leadership was adjudged the winner and was awarded with elaborate ceremony a small doll.

The class hand contributed several numbers to the pleasure of the affair which was in the gymnasium under the direction of Miss Lipp and B. J. Bingle, class sponsors.

Girls of the class will furnish the program for the next meeting, and boys and girls together will make arrangements for the final event of the series.

## TAKE TIME TO ENTER PLEA

K. S. Peters, former manager, and Frank G. Leichter, former secretary of the Mutual Building and Loan association, in district court here Friday, exercised their privilege to defer until Friday entering plea to charge of embezzlement of \$18,442 of the association's funds on which they were arraigned at that time.

To Visit Daughter—N. W. Isaacson,

# THREE SCHOOLS DIVIDE HONORS

Twin Falls, Filer and Buhl Represented by Winners in Sub-District Declamatory Contest

BUHL, March 14 (Special to The News).—Twin Falls, Filer and Buhl high schools divided honors Friday in the sub-district declamatory held in the high school auditorium here before an audience which packed the hall to its utmost capacity.

Miss Martha Farnas, Twin Falls, with a dramatic reading, "Polly of the Circus," was adjudged the winner in the dramatic class by a safe margin. Ralph Love, Filer, presenting "Education a National Problem," was also a winner, proving that he is not merely an athlete but a speaker of merit as well.

The winner in the oratorical division was Marie Dunn, Buhl, with an unusually clever piece, "On the Summer Resort Porch with Johnny."

These three winners will compete at the district contest to be held at Alhambra March 28, where further elimination for the state meet at Boise will take place.

The program included several selections by the Buhl high school orchestra, preceding the contest. The speakers in each of the three divisions were: Oratorical, Maude Durace, Hagerman; Sterling Logan, Bliss; Ralph Love, Filer; and Anton Young, Twin Falls; dramatic, Violet Dale, Buhl; Martha Farnas, Twin Falls; Garnet Owsley, Bliss; Magdelaine Schaeffer, Filer; humorous, Carrie Ayres, Hagerman; Mark Dunn, Buhl; Cora Jensen, Twin Falls; Rita Owsley, Bliss; Glen Wilcox, Filer.

father of Mrs. Sidney Graves, is expected to arrive today for a few days' visit with Mr. and Mrs. Graves before returning to his home in Princeton, Illinois. Mr. Jensen is coming and extended trip through California and Oregon.

## BOARD OF THANKS

We wish to express our heartfelt thanks to our many friends and neighbors for their many kindly acts and expressions in connection with our recent bereavement through the loss of our daughter, Lolita. The many manifestations of the friendship and sympathy will ever be remembered in a spirit of warm appreciation.

MR. and MRS. E. J. STEPHEN.

# Wind Rises Here with Prediction of Storm

Rising winds swept over the Twin Falls area late Friday evening when warning was issued by the weather bureau forecasters in Boise of a storm imminent in this region. Mercury's range Friday was almost a duplicate of that of the preceding day, according to records of the government weather observer's station here, showing low mark for both days at 33 above and high Friday at 51 above, a decline of only one degree under the maximum of the preceding day.

## REPUBLICANS TO NAME DELEGATION AT RALLY

General Invitation Extended to Party Members to Participate in Meeting of County Central Committee

Invitation has been extended to all members of the republican party in this county to attend and participate in a meeting of the republican county central committee to be held at 2:30 o'clock this afternoon in Parish hall here for the purpose of electing six delegates to the state convention at Lewiston March 25, which will name Idaho's delegation to the republican national convention in Cleveland next June.
