## THREE MORE HEARINGS IN HOUSE URGED

Kindred Calls for Investigation of Prohibition Enforcement; Would Study Aircraft and Shipping Board Affairs

WASHINGTON, March 21 (AP)—Another congressional investigation aimed at prohibition enforcement, was proposed today in the house which has two inquiries under way and is expected shortly to authorize two more.

Representative Kindred, democrat New York, called for the appointment of a special committee to look into the administration of the prohibition bureau in a resolution in which he declared that the "great majority of American citizens believe allegations that there is corruption on the part of certain officials" in the bureau.

The resolution was referred to the rules committee which earlier in the day had recommended that an investigation be authorized of charges that a huge quantity of government bonds had been duplicated at the bureau of engraving and printing.

Chairman Snell was instructed to bring up in the house at an early date the resolution, offered by Representative Kindred, republican, Illinois for the bureau of engraving and printing. He also has been directed to bring to a vote a resolution by Representative Nelson, republican insurgent leader of Wisconsin, for an investigation of the aircraft industry.

House action on the Nelson resolution has been delayed by a difference of opinion among republicans as to whether the inquiry should be conducted by the patent committee or a special committee. Mr. Nelson, who originally held out for an investigation by the patent committee, has agreed to have it handled by a committee of five other house members. This leaders say, however, adoption of the resolution. They also declared today there would be no formidable opposition to approval of Mr. Kindred's resolution.

The special committee authorized to look into shipping board affairs after a number of preliminary considerations will hold its first formal meeting tomorrow with several shipping board officials before it as witnesses. Another committee, named to investigate criminal charges developed before a Chicago grand jury against two members of congress, also has been holding sessions behind closed doors and is not expected to begin public hearing until a grand jury now in session here completes its investigation of the charges brought to light at Chicago.

## Lower Test Weight On Wheat Favored At Grain Hearing

Recommend Reduction from 60 to 58 Pounds at Spokane Session Held by Federal Man; Other Changes Urged

SPOKANE, March 21 (AP)—Reduction of the test weight on wheat from 60 to 58 pounds per bushel was recommended by a meeting of growers, millers and grain dealers at a hearing held here today by Dr. Henry C. Taylor, head of the federal bureau of agricultural economics in Washington, D. C., and E. L. French, head of the state department of agriculture.

The vote, 23 to 18, came after opposition had been voiced by millers and grain dealers, who denied the contention of the growers that such a change would be equivalent to an increase of two cents a bushel in the price to the grower.

The meeting also went on record as favoring an increase in the limitations percentage on mixed wheat from 2 to 5 per cent, applying mainly to white wheats mixed with turkey red and marquis varieties of hard wheat. Millers and grain dealers also opposed this proposal.

## COOLIDGE AHEAD

FARGO, N. D., March 21 (AP)—Returns from 1,034 precincts out of 2,058 in North Dakota for the republican presidential choice give: Coolidge 50,539; La Follette 37,052; Johnson 30,934.

## INDORSE COOLIDGE

SANTA FE, N. M., March 21 (AP)—New Mexico republicans in their state convention here late today, endorsed President Coolidge for the republican nomination for president. Delegates to the national convention, however, were not instructed.

## Abandon Effort to Unite Co-operative Projects in Idaho

Action Is Reported Taken at Conference at Caldwell on Sales Agency Plan

BOISE, March 21 (AP)—Hope for uniting all the big co-operative marketing associations of Southern Idaho in a single sales agency has been practically abandoned, at least for this year, it was said today following the final session of a conference which has been in progress at Caldwell for several days, according to a special dispatch from Caldwell to the Statesman tonight.

There is still a good prospect of united action, it was brought out at the meeting between the Idaho Producers' union and the Arrow Rock Producers' association.

## EX-BANDIT HAS SCANDAL STORY

Al Jennings Says He Will Tell of \$1,000,000 that "Bought Harding Nomination"

LONG BEACH, March 21 (AP)—Al Jennings, former train robber and of late politician and evangelist, who departed last night to testify before the senate oil investigation committee, left behind him a statement published today in which he said he planned to "rock the country" with the story of a \$1,000,000 payment that bought the nomination of the late President Harding as the republican candidate in 1920.

Jennings, who said he was a close personal friend of the late Jake Hamon, republican leader in Oklahoma, said he would unfold to the committee the details of Hamon's negotiations to swing the 1920 presidential nomination and "what Hamon expected to get out of it."

He declared that the deal was engineered by one of the national republican leaders who is an "ex-senator and an ex-candidate."

The \$1,000,000, Jennings stated, came from oil interests but from what oil interests he refused to divulge until he appeared before the senate investigators.

Jennings a few days ago went to Captain of Detectives J. B. Worley with his story. The latter communicated with Washington and the former train robber was expected to appear before the committee. He left here last night for Los Angeles and planned to continue his journey to Washington Saturday.

## Bruce Admits that He Enjoyed Offer of Virginia Booze

Says He Hopes to Repeat the Experience; Walsh Failed to Get Invitation

WASHINGTON, March 21 (AP)—Senator Bruce, democrat, Maryland, admitted in the senate yesterday that he recently enjoyed an offer of some "good Virginia liquor" and hoped to repeat the experience.

The statement was made as an interlude to the debate on the latest proposal for a constitutional amendment.

"I am reminded," said Senator Walsh, Montana, democrat, "that in the interesting address delivered by the senator a few days ago, he referred to the fact that during a recent visit to the state of Virginia he was most hospitably offered some of the good liquor of that state."

"Indeed, I was," replied Senator Bruce, "and I enjoyed it to the very highest degree and hope to repeat the experience just as soon as possible."

The laughter which greeted the statement was repeated when Senator Walsh remarked that he also had recently visited Virginia to address the state bar association, but was not offered anything to drink.

## SEALS EVEN UP

SAN FRANCISCO, March 21 (AP)—The San Francisco team, winner of the 1923 pennant in the Pacific coast league, opened its series with Kansas City, last season's American association champions, today by winning the final game, 2 to 1. Each team won four games.

## HAVANA HOTEL BURNS

HAVANA, March 21 (AP)—The Oriental hotel and several adjoining buildings at Maricao, situated just outside the gates of the race track, were destroyed by fire today.

## IDAHO WEATHER

Saturday: Fair and colder.

## WANT ACTION ON BEHALF OF AGRICULTURE

President Coolidge Meets Senators at Dinner Session and Urges Acceleration of Proposed Measures

WASHINGTON, March 21 (AP)—President Coolidge at a conference tonight with republican house leaders expressed the desire to have some form of farm legislation enacted before the close of the present session of congress.

The legislative session generally was discussed and Mr. Coolidge's call for action was emphasized by the congressmen.

The president was told that the house would rush action on appropriation bills, dispose of the Johnson immigration bill, and before the end of the session, take up a measure providing for a readjustment of salaries of postal employees.

## Meets Senators

The discussion was at a White House dinner conference arranged to consider the possibility of speeding up the legislative program in the house and followed a day during which the president saw several senators on the situation in that branch of congress.

Those who dined with the president tonight and then discussed legislation with him and Secretary Stamp were Representative Longworth, the party leader in the house; Representative Wilson of Connecticut, acting speaker; Chairman Madden of the appropriation committee; and Representatives Darrow, Pennsylvania; Sanders, Indiana; McGowan, New York; Shinnott, Oregon; Graham, Illinois; and Tinker, Kansas, members of the republican steering committee.

## Predicts Tax Out

Afterward Mr. Longworth asserted that regardless of the fate of the tax bill congress would authorize a 25 per cent reduction in income taxes payable this year. He predicted also that the senate and house would be able to agree on rate schedules in the revenue measure in time to permit enactment.

## 1500 PERSONS KILLED IN CIVIL WAR BATTLES IN HONDURAS

GOVERNOR MOORE SENDS MESSAGE TO McMILLAN

Moore Sends Radio Message to Head of Exploration Party Near North Pole Extending Idaho's Best Wishes

BOISE, March 21 (AP)—A cheery message from Governor C. C. Moore was buzzed through the air today to the McMillan polar expedition which is now within 11 degrees of the north pole. Governor Moore complimented the explorers on their fortitude and stated that the people of Idaho wished the expedition entire success.

## FACT FINDERS WILL REPORT

Will Urge Writing Off Excess Charges Against Water Users, Senators Are Told

WASHINGTON, March 21 (AP)—A conference of senators from the so-called reclamation states was held today that the interior department's fact-finding commission will recommend the writing-off of all construction charges against water users on government projects which are in excess of those under which they made their original contracts.

Former Governor Thomas E. Campbell of Arizona, chairman of the commission, was told by senators who attended the conference to have indicated that the commission's report would be ready by April 10. They were informed, they said, that the interior department's program for new projects and extension to some old ones would then be immediately submitted to congress.

Senator McNary, republican, Oregon, who has been prominent among those urging expedition of the commission's work, said today that proposed legislation would be held up pending the report.

## STRIKE CALLED

LONDON, March 21 (AP)—A strike of the tramway operators and bus men began tonight. It involves about 40,000 employees.

## HAD ALL THE TROUBLE WITH SECOND-HAND LUMBER HE CARES FOR

Copyright, 1923, by the New York Tribune, Inc.

First True Dispatch, Sent by Courier, Tells Details of Sanquinary Outbreak; Heavier Toll Expected

## Claim Treaties Are Not Being Enforced

Recall Agreements Entered into by U. S. to Prevent Trouble in South America

NEW YORK, March 21 (AP)—The following dispatch on the civil war in Honduras was sent overland by courier from the Associated Press correspondent at Tegucigalpa, capital of Honduras, and is the first detailed information of the grave condition there, other than official advices to Washington.

America's machines have been sent since the dispatch was made, and are now at Tegucigalpa.

TEGUCIGALPA, Honduras, March 1 (By courier)—Herewith is sent the story of the state of affairs in Honduras.

It is not sure this dispatch will reach you. It is being sent by special messenger who will travel over 400 miles on muleback through mountains and valleys full of revolutionists or government soldiers, who will kill the messenger if they find him with this dispatch.

May he reach safety and the sea shore. Civil war has taken possession of Honduras and has already caused the loss of 1500 lives—and it is just beginning.

Notwithstanding statements by the Washington government that Uncle Sam would not permit any more revolutions in Central America, notwithstanding treaties signed at Washington in February, 1923, and on board the U. S. S. Tacoma, between the presidents of Salvador, Honduras and Nicaragua and the three American

(Continued on Page 4, Col. 1.)

## SHIPPING ACT IS EXPLAINED IN NEW LIGHT

Commerce Commission Chairman Gives His Version of Effects of Law as Affecting Rail and Ship Rates

WASHINGTON, March 21 (AP)—The interstate commerce commission today added another phase to the national and international controversy pending over the enforcement of section 28 of the merchant marine act.

Chairman Hall of the commission wrote Chairman Smith of the senate interstate commerce committee that the law did not permit the commission to pass upon the policy, good or bad, of enforcing the law and pointed out that the commission previously has sought legislation on section 28 "to obviate unnecessary conflict with the needs and usages of inland transportation."

Would Shift Business. Enforcement of the section, Chairman Hall said for the commission, might be expected to force business away from Atlantic ports and other New York, Philadelphia and Norfolk, which he classed as "congested" ports.

It would further, under the shipping board's certification by which the section has been ordered into effect, he said, tend to hamper American liners in selling goods and other products in competition with foreign liners.

Reciting that section 28 provides that no ocean transported goods may receive from American railroads the benefit of special import and export rates unless those goods move in American ships, the letter pointed out that import and export rates in many cases give lower land transportation charges that are applied to movement of goods over the same route for domestic consumption.

## ROTARIANS TO MEET

SPOKANE, March 21 (AP)—More than 1500 Rotarians are expected to attend the eleventh annual conference of the first Rotary International district, which will be held here for three days, April 12, 14 and 15 next. The district embraces the states of Washington, Oregon, northern Idaho and British Columbia.

## Mysterious Woman Bandit Reappears; Officers Baffled

Brooklyn's Bobbed Haired Hold-up Queen Locks Victim in Ice Box and Takes Cash; Man Eyes Gun, Faints

NEW YORK, March 21 (AP)—Brooklyn's bobbed-haired girl bandit called on Manhattan again today.

Her visit convinced police that Mrs. Alfred Guimares, alias Betty Santos, of Riverside Drive, whom they arrested last night in a tailor shop robbery, was not the girl they have sought for months.

A demure-looking young woman with reddish hair, bobbed—asked for round steak in the Trieste Meat market on Ninth avenue.

"I think you're a nice piece in the ice-box," she said. The clerk entered the box to look and the customer promptly locked him in. Then she drew a pistol from beneath her costly fur coat and commanded the remaining clerk to "punch that cash register for all that you've in it."

Instead, the clerk dropped unconscious. Miss Bandit got \$15.

As she slipped outside and off into the stream of pedestrians, a tall dark man clicked the padlock on the door, imprisoning the clerks.

Mrs. Guimares, whose husband, now in Atlanta penitentiary for fraudulent use of the mails, was the closest friend to Dorothy "Doc" King Korman, the model whose murder a year ago remains unsolved, was in the meantime held in \$7,000 bail charged with attempted robbery of a tailor shop last night, and of being in possession of a stolen limousine.

Police were looking for the "tall dark man" who escaped while Mrs. Guimares struggled in the arms of the tailor's wife. Detectives were in possession of Mrs. Guimares' \$7,000 fur coat, seeking to establish whether it also might have been stolen.

# PLAN MEMORIAL TO IDAHO VETS

Plans are Under Way on Be-half of Armory and Gymnasium to Be Built at Moscow

MOSCOW, Idaho, March 21 (Special to The News)—The building of an Idaho war memorial in the form of an armory and gymnasium at the University of Idaho looks up as one of the major statewide projects for this year with the announcement by Robert D. Leeper, Lewiston attorney and president of the Idaho Memorial Building association, that plans are now well under way. After a series of monthly meetings which began in September, 1923, the Idaho Memorial Building association has been incorporated under the state law with the purpose, as expressed in the articles, of building an armory and gymnasium at the state university in memory of the Idaho soldiers and sailors who participated in the world war.

Officers of the association are Robert D. Leeper, Lewiston, president; J. Ward Arney, Coeur d'Alene, and Paul Davis, Boise, vice-presidents; George Horton, Moscow, secretary-treasurer; Dr. Harry Elmhous, Moscow, and J. V. Patch, Payette, directors. Paul Davis, with headquarters at Boise, will act as managing director.

**Sponsored Last Year**  
"The Idaho memorial was first sponsored by the university alumni association at its annual meeting in June, 1923," says Mr. Leeper's announcement. "In July, the American Legion in department convention at Coeur d'Alene passed a resolution endorsing the project with the belief that the state university was the proper place to locate such a memorial building where the coming generations, representing on the campus every section of the state, would have before them the inspiration of the memorial. Commander Davis appointed a committee from the Legion to co-operate with the university alumni and with a representative business men's committee. A committee appointed by Talbot Jennings, president of the university student body, will co-operate for the students."

**Used for Training**  
"The Idaho memorial, as planned, will be used by the military department of the university as an armory for the training of cadets. It will also serve as a gymnasium. It will contain memorial rooms in which will be preserved forever the name and record of every man from Idaho who served not only in the world war but in all other wars. The memory of the dead will be enshrined in a 'Hall of the Heroes.' Space will be provided for the preservation of relics of historical import."

"Every civic, fraternal and patriotic organization in the state has evinced a lively interest in the project. Manager Davis is laying the foundation for an extensive program during the coming months, which, it is anticipated, will culminate on Armistice Day, November 11, 1924."

## JAPAN BUSY WITH PLANS TO BUILD AIRSHIP FLEET

TOKIO, March 21 (AP)—The first Japanese-made battleship was completed recently by the Mitsubishi Aviation Works at Nagoya and shortly will be put through its tests.

British aviators and engineers have assisted in the establishment and operation of the plant at Nagoya, which the Japanese army hopes to make its principal source of supply for fighting planes in the future.

The new battleship carries a 450 horsepower Napier-Lion engine, has a wing spread of 40 feet, and is armed with Lewis machine-guns. It is expected that the army will order several more of the same.

## BUSINESS MEN QUIT WORK TO FIGHT GROUND SQUIRRELS

COLFAX, Wash., March 20 (AP)—The Columbian ground squirrel, arch-enemy of the eastern Washington farmer, will find itself doctored by an army of determined business men and agriculturists, recruited from this district, when a campaign to exterminate the rodent is launched some time this spring. Business men of Colfax, through the annual chamber of commerce, recently pledged themselves to declare a one-day holiday to co-operate with farmers in fighting the pest.

Figures compiled from long experience show that one squirrel destroys the equivalent of one bushel of wheat during a season of activity.

## WISCONSIN WILL PICK DELEGATES

Major Political Activities Confined to Election of Envoys to Party Conventions

MILWAUKEE, March 21 (AP)—Wisconsin's major political activities this spring are confined to the election of delegates to the various political party conventions, in the election of April 1. This date also is the time of the state-wide municipal elections. Besides municipal and town officers to be elected, only party convention delegates, circuit court judges from three districts and one supreme court justice will be chosen.

**Favor LaFollette**  
Early prospects point to the election of republican delegates who favor the policies of Senator Robert M. LaFollette. In some districts there is a movement to elect Coolidge delegates, but these are individual efforts and it has been definitely stated that the president is not waging a fight for the Wisconsin delegation. The state, under new allotment, will send seven republican delegates at large to the national convention.

**Two Factions**  
Pre-election democratic activities disclose two factions seeking delegates to the democratic national convention. These are the adherents of William G. McAdoo, strongly organized, and the Smith-Tidwellwood faction. Five democratic delegates will be sent to the democratic national convention from Wisconsin.

Women's activities in the state before the election do not appear to be pronounced, except in a few scattered places where the leaders have protested the activities of the wet forces.

**Women Active**  
Although complete slates have not been picked on either side, party lists of delegates to the national conventions will contain the name of one woman on the republican and democratic lists, in the opinion of party leaders.

In Milwaukee local politics is comparatively quiet. Mayor D. W. Hoan is a candidate for reelection with David Rose, former mayor, and Dr. Ralph Elmergreen running on a tax reduction platform.

## STRANGE DEPOSIT FOUND.

EUGENE, Ore., March 20 (AP)—Large pieces of organic matter resembling charcoal, believed to be remnants of the forest destroyed ages ago when this part of the continent was torn by seismic disturbances and covered by volcanic material, have been discovered in the Big Marsh country, south of Crescent, in Knapley cuts being made for the Eugene-Klamath Falls line of the Southern Pacific Railway company on the east slope of the Cascade mountains.

## THE GUMPS—HOMEWARD BOUND

LAKE STATE IS  
READY TO VOTE

Believe Coolidge Has Good  
Chance in Minnesota; Each  
Party to Ballot This Month

ST. PAUL, March 21 (AP)—Minnesota's presidential preferences probably will be expressed in various congressional district conventions and state gatherings here this month under separate calls of each major party, but in the state-wide primary in June each party will nominate candidates for United States senator and congressmen, and state and local offices to be voted on in the November election.

Minnesota's three parties are the republican, farmer-labor and democratic, and again the farmer-labor party will be the center of interest when it seeks to elect a United States senator for the six-year term in succession to the late Knute Nelson.

As to presidential choices, there has been little campaigning, but the republican party's state central committee, in adopting its convention plans, accepted the program drawn by members admittedly favorable to the candidacy of President Calvin Coolidge in the face of a telegram from Hiram Johnson urging that a state primary be held in Minnesota.

On the democratic side, while William G. McAdoo is declared by supporters to have a strong following in the state, a favorite son candidate is being put forward by many who urge support of Dr. C. T. May of Rochester, whose friends declare he "would consider" any such action favorably, despite his public announcement that he did not wish to be considered.

Presidential choices may not be shown in the various conventions, however, for it is optional whether a convention wishes to definitely instruct a delegation or send them uninstructed. Each of the ten district conventions will select two delegates to the republican convention, and the state convention will choose the other seven delegates at large.

Max Baer Johnson, the "dirt farmer" senator from this state, was elected on the farmer-labor ticket to serve out the unexpired term of Senator Nelson after the latter's death last year, winning decisively over Governor J. A. O. Prou.

Now Senator Johnson, whose family had intimated that he would run for governor instead of the senate next fall, has announced that he will seek election to the six-year senatorial term.

Just what his democratic and republican opposition will be has not de-

veloped. Governor Prou has indicated he will not be a candidate, and to date the matter of opposition for Johnson is an unanswered question.

It is on this senatorial contest and the fight for governor that the greatest interest will center in Minnesota.

CHILDREN HAVE NOVEL  
ENTRY IN FLOWER SHOW

SPOKANE, March 20 (AP)—Twenty varieties of buttercups all gathered in or near this city, formed the unique exhibit of two children, which was entered in a "buttercup exposition" recently conducted here.

The varieties included giant singles with five petals and giant doubles having 15 petals, singles and doubles with broad petals, double kinds, franks and numerous others ranging from five to 17 petals.

According to local florists the exhibit was one of the most complete ever seen in the city.

## FORD'S ROAD LOSSES

NEW YORK, March 21 (AP)—Henry Ford's railroad, the Detroit, Toledo and Ironton, operated as a "plant facility," has lost its owner \$98,207 in the four years of its operation, it was declared tonight in a report by the committee on public relations of the eastern railroads.

## BETTER HEALTH SERVICE

Public Health Is Public Wealth

Issued by the Public Health League of Idaho

## "BIRTHDAY" HEALTH EXAMINATIONS.

The best birthday present a person in some other place.

can receive is a health examination. A real examination with its consequent expert advice will make possible many more birthdays. In fact it is estimated that any individual who will have his body "overhauled" at least once a year by a competent physician and who will follow the advice given or the treatment prescribed can extend the span of his life five years or more.

We accord to our automobiles the right of frequent examination. We know that periodic inspection of machinery protects the property, saves accidents and premature wear and tear on the many parts. The machine runs better and more smoothly if it is cared for, tightened a bit here and repaired

everywhere. The human body is the most delicate machine in existence. It involves a system of checks and balances of the most complex character. It demands the best care in the world and it should have at periodic intervals an honest-to-goodness examination that will note and changes or weaknesses may be noted and plans for rebuilding determined. It is early attention to organic weakness or disease that gets the most favorable results. How many times have we heard the statement: "Why, he was the picture of health!" They say he died "suddenly." But there is really no sudden death. Such deaths seem sudden just because people do not know the truth about themselves. Little signs or symptoms which

mean nothing to them would tell the truth to a physician at once. Many life span and keep you sound as a day no attention to these danger flashes. They continue to "guess" they are alright. Yet, it may be, day by day some weakness or disease is eating into some organ, the heart, the kidneys, the liver, the lungs or some other part of the body.

Life insurance companies as a matter of cold dollars and cents are having their policy holders examined in this way. They have found it pays to make it possible for people to live longer. It is not a question of sentiment—this question of longer life expectancy—it is a question of business to them, and their interest in health examinations is indicative of its utility.

That expert of the human body, the physician, may not suggest drugs or surgery; he may prescribe more fresh air or more sleep, a change of diet perhaps or rest—maybe a changed environment; possibly there is slight infection from the teeth and dental care is advised. Yet this advice, whatever it

## REBELS LEAVE CITY

MEXICO CITY, March 21 (AP)—The rebels have evacuated Puerto Mexico, says a dispatch from War Minister Serrano, and the port has been occupied by federal forces. The rebels embarked for Protopera.

BANTAM TITLE CHANGES HANDS IN SLOW BOUT

Abe Goldstein Wins World Championship from Joe Lynch in One-Sided Fifteen-Round Go in New York

NEW YORK, March 21 (AP)—Abe Goldstein won the world's bantam-weight championship tonight from Joe Lynch in a one-sided 15-round battle at Madison Square Garden. Goldstein gained the judges' verdict after decisively whipping his rival all the way in a title match between two veteran New Yorkers.

Lynch was dethroned after one of the sorriest exhibitions a title-holder has given in a metropolitan ring. At times he fought a sluggish, listless battle from start to finish. He was a mark for Goldstein's rapid-fire left jab and was rocked repeatedly by the challenger's solid right across to the ribs and chin.

Goldstein, on the other hand, fought a handy, resourceful battle. At times he seemed slow to follow up his advantages, but he successfully blocked most of the champion's rallies and kept up a relentless fire with his left. Lynch was unable to solve that constant jabbing and he did not seem to have the strength to keep up any sustained assault himself.

OFFERS REMEDY ON HAY PROBLEM

Means Proposes Removal of Quarantine on Idaho Product; Stock Ban Unchanged

BOISE, March 21 (AP)—California should remove its quarantine on Idaho hay rather than request permission to transport livestock to this state, said Mr. Means, Idaho's commissioner of agriculture, in a statement today.

It is necessary for Idaho to enforce the quarantine on livestock entering from California, Mr. Means said, in order to protect Idaho livestock from the foot and mouth disease. It would be better for California and less hazardous for Idaho if the coast state could modify its ban on Idaho alfalfa on account of the fact, said Mr. Means, that there are vast tracts in the state which are not infected with weevil and producers should be allowed to sell this hay in any market.

1500 ARE REPORTED KILLED IN HONDURAS

(Continued from Page One)

The diplomatic corps, headed by the British chargé, George Layall, on February 1, visited the president and the congressmen saying that in the interest of peace it would be most desirable that the election of a president be concluded some way or other. But several deputies of the Curias party had already taken the capital and were in the mountains preparing for war. No quorum could be gathered and congress adjourned on January 21 without having elected a president.

The dictatorship now began. The outgoing president, General Gutierrez, issued a decree declaring the constitution suspended and assuming all powers. The American legation made public a cablegram from Washington saying the American government would recognize the dictatorship conditionally and this naturally strengthened the position of the dictatorship.

War broke out on February 16, when Colonel Andary of the Curias party took the city of Tegucigalpa, 35 miles west of Tegucigalpa. At the same time attacks were made at other cities, resulting in many killed and wounded, but the only towns taken by revolutionists were Tegucigalpa and La Paz.

On February 11 it was officially announced that the United States government had ceased diplomatic relations with the existing regime of Honduras.

BOWLERS READY FOR FAST GAME

Locals and Idaho Falls Tangle Tonight; Line-ups Unchanged Since Last Session

Everything is in readiness for the Idaho Falls bowlers this evening for what promises to be the best game of the year. The eastern team will arrive today and will play at 7:30 p.m. at the local alley to find the "grooves" preparatory to their meet with the Twin Falls squad in the evening.

Friday evening the "Not" team sponsored by Mark Murtough for the third week in succession trimmed the former Rogersian ace bowlers with a rather strong score of 2414 to 2411. Good bowling was very much in evidence on both sides and should the bowlers show as much form this evening Twin Falls should have a good chance to win from Idaho Falls.

Efforts to get a second team from Idaho Falls have apparently failed, for until Friday evening no word had been received by Manager Tritt's request for a second team to compete with the local squad.

Interest in the contest is manifest by the fact that practically every seat is already sold and stalling-room will undoubtedly be at a premium. The same line-ups as faced each other two weeks ago will undoubtedly meet this evening.

The two teams are as follows: Twin Falls—Bailey, Logan, Cubit, Larsen, Town.

Idaho Falls—Cline, Lenz, Norton, Timpon, Karr.

COOLIDGE ASKS MORE SPEED ON TAX REDUCTION

Urges Earliest Possible Action When Told Passage Not Expected Before June 1; Bonus to Get Priority

WASHINGTON, March 21 (AP)—President Coolidge today urged the senate leaders to speed up consideration of the revenue bill when informed by Chairman Smoot and Senator Curtis, republican, Kansas, of the finance committee, that its passage before June 1 now seemed unlikely.

Although the soldier bonus bill was not discussed at the White House conference, Mr. Smoot said it was probable this measure would be given priority over the tax reduction bill by the committee for immediate action, and predicted that little time would be required for its disposal.

Still Opposed Bonus. In this connection, however, it was again made plain at the White House that President Coolidge opposes a soldier bonus and supports the Mellon tax rates rejected by the house.

Regarding the paid-up insurance bonus bill passed by the house and the revised revenue measure sent by that body to the senate, it was reiterated at the same time that the president would not declare in advance of receiving either measure whether he will veto or sign it.

Senators Smoot and Curtis went to the White House after a conference of republican members of the finance committee at which the program for fiscal bills was discussed. It was indicated the members favored taking up immediately the bonus bill and then rounding out the revenue measure which has been before the committee for more than two weeks.

Tax Not Discussed. The tax rate schedules were not discussed at either conference, it was said.

Outside of the committee meeting, its members today took occasion to place on each other the responsibility for the delay.

Chairman Smoot declared "excessive talk for reasons best known to the speakers has been indulged in at the committee meetings with the result we have not yet taken up a major section of the bill." He again threatened next session for next week it the work were not speeded up.

Mr. Smoot predicted that if the revenue measure were not passed before June 1, when congress plans to adjourn for the national party conventions only a recess would be taken at that time. With all of the rate schedules yet to be considered, Mr. Smoot said it was likely that at least three more weeks would be spent by the committee on the tax bill alone.

BABE GETS FIRST HOMER

NEW ORLEANS, March 21 (AP)—"Babe" Ruth tallied his first circuit drive of the spring exhibition series in a game yesterday between the New York Yankees and the New Orleans Southern association team, which the Yankees won, 14 to 4.

TUTTERY FLECTED

NEW YORK, March 21 (AP)—Major General Tuttery, chairman of the finance committee of the National American Athletic Federation of America, yesterday was elected acting vice president and executive officer of the organization to succeed Edward K. Brown, who died Tuesday.

WOULD PAY INDIANS

WASHINGTON, March 21 (AP)—Payments of claims in the state of Washington amounting to \$400,000 would be authorized in a bill favorably reported today by the senate Indian affairs committee. It was ofered by Senator Jones, republican, Washington.

FINDS HER "DEAD" BABY IN BLACKMAIL PLOT

AFTER the world war, when she was a nurse with the British army in Flanders, Miss Mable Dring came to America to marry an American who had met in France. He deserted her when he learned she was to become a mother, and she gave her baby to a Chicago woman, who later told her it was dead. Recently attorneys for Joseph Baum, wealthy Kansas City (Mo.) packer, informed her the baby was alive and was being used to attempt to blackmail Baum. Miss Dring has her baby back and the police are seeking the other woman.

UNCORK GIANT LIQUOR DEAL

Drug Company Official Tells of Sharing in \$200,000 Split of Bonded Goods

WASHINGTON, March 21 (AP)—A \$200,000 whisky deal—the biggest yet was uncorked today by the Daugherty investigating committee.

John Goren, vice president of the Alva Drug company, told a story of how he, the late Jess W. Smith, "bomber and friend" of Attorney General Daugherty, and Howard H. Manning, one of the occupants of the "little green house on K street," had, he said, shared in the "split" which accompanied the withdrawal of whisky from federal warehouses for sale to bootleggers.

As with previous testimony of the sort, it was brought no nearer to Attorney General himself than these two friends.

Goren told the committee some of the things which he said did not count when he was tried and acquitted of conspiracy to violate the prohibition law in New York.

Daugherty Comments

Attorney General Daugherty in his nightly comment on today's testimony, let out that he himself was "in no way embarrassed or implicated."

More \$1000 bills figured in Goren's story of the whisky transaction. He testified that he had paid \$50,000 in bills of that denomination to W. A. Orr of New York, previously connected with the Dempsey-Carpenter film "deal," and also \$150,000 to Owen P. Murphy, another New York politician. The payments, Goren said, were at the rate of \$15 a case for permits obtained to get whisky into bootleggers' hands. About 50,000 or 60,000 cases "went through," Goren said, although he told of paying only \$200,000.

GRAFT RUMOR RELEASED IN BUREAU PROBE

Ousted Employees File Sweeping But Unspecific Charges; Senators Allege Tax Refund Methods Are Not Fair

WASHINGTON, March 21 (AP)—Sweeping but unspecific charges of graft in the internal revenue bureau by former employees before the senate investigating committee vied for attention today with allegations on the senate floor of "outrage" methods of making tax refunds, the names of "Mellon companies" coming in for particular attention in both places.

The committee witnesses, both employees formerly assigned to field work in connection with war plant authorization allowances, had been dismissed from the bureau, the testimony declared. One of them, J. F. Adams of Washington, declared "there are some of the worst cases being put through in that department (the bureau) I ever heard of."

Demands Answer

Pressed by Senator Watson, republican, Indiana, committee chairman, to say whether he had personal knowledge of any specific case of graft by bureau officials, Adams answered that he had not, adding:

"But if you will take my evidence there is no doubt under the sun." Senator King, Idaho, a member of the investigating committee, brought the tax refund question up in the senate after consulting his committee colleagues and being advised by Senator Watson that he must use his own judgment.

The Utah Senator attacked an item of \$105,000,000 for tax refunds, submitted in the deficiency bill pending in the senate. On the ground that the finance committee had been advised that only \$25,000,000 in pending refund claims had been decided, Senator King said that the hundred million dollars item was "a guess as to probable refund," his motion to cut the item to \$30,000,000 was defeated.

BRITISH TROOPS ARE FIRED UPON

One Soldier Killed, 20 Wounded, in Irish Territory; Assassants Escape

QUERNSDOWN, Ireland, March 21 (AP)—One British soldier was killed and 20 were wounded, eight seriously, when landing on boats from Spike Island they were fired on by a machine gun set up in a motor car operated by four men in Free State uniforms. Spike Island is occupied by Part Womansborough.

The men in the motor car also fired on H. M. S. Seythe and immediately made their escape at great speed.

It is reported that they shouted "Up Tobin," as they drove away.

General Tobin is one of the officers responsible for the present trouble in the army and Free State government.

Four of the wounded soldiers are not expected to recover. It is understood that there were no casualties aboard the destroyer Seythe from which the British soldiers had just landed. Free State patrols are scouring the district for the assassins.

## NORTHWEST BUSINESS GOOD, BABSON SAYS

Statistician Finds Idaho and Neighbor States in Favorable Condition; Has Praise for Resources and Predicts Great Development as Trade Tide Shifts Westward

BABSON PARK, Florida, March 21 (Special to The News).—Business in the northwest averages about even with that of the United States as a whole, according to Rorer W. Babson, the statistician, who today issued the last section of his findings on current business conditions for the United States. Mr. Babson's report on Canadian conditions will be completed in about one week.

"I like the Pacific northwest," says the statistician. "It is a good sound country inhabited by good and sound people. The climate is attractive yet this district has not been infected by pleasure sickness. Natural resources are great yet the people are inclined to work rather than to exploit and speculate."

**Values Change.** "In Washington the value of crops was nearly 25 per cent above the preceding year. Several representative cities in the state show an encouraging tendency. In Bellingham, for example, the trend of general business has been moderately but almost steadily upward since the middle of 1923. Bellingham also shows an upward movement. In Seattle the improvement is not so pronounced and can be described more as a sideways drift. Commerce is also proceeding about at a level. Seattle did very well up to the close of 1923; but since then, the indications have not been so favorable. Yakima showed considerable weakness in the last quarter of 1923, but recent indications have been more encouraging."

**Retail Trade.** "Retail trade sales both in Seattle and Spokane were reported at nearly the same level as a year ago, and stocks of goods show comparatively little change. The latest industrial report of the government, covering conditions in this state mentions the following points: Employment in the woods was somewhat improved with the weather conditions and a customary holiday shutdown of two to four weeks. Some recent plants and shingle and inland sawmills have been closed on account of insufficient orders. Magnificent operations are on a small scale, because of uncertainties and there has been considerable slackening in retail trade, building, mines and railroad repair shops. Though some unemployment is in evidence, there is no general report of disturbing circumstances."

**Crops Improve.** "In Oregon the value of crops was somewhat above last year, but the gain was not so notable as in the case of Washington. Several of the Oregon cities are making a good showing in business statistics. In Eugene, for example, business is holding materially above the corresponding period 5 years ago. Portland also shows an encouraging trend. The latest government report on industrial conditions in this state mentions the encouraging improvement in employment. This is reported to have affected railroad construction between Eugene and Klamath, high altitude logging camps, meat building and out-of-door work in general. Most industries, however, continue active, with the possible exception of sawmills in the eastern part of Oregon. Official reports state that where unemployment does exist, it is causing little if any hardship. Looking merely at business conditions at present and in the immediate future, there are few indications of great activity in the remaining states of the Pacific northwest. Though somewhat slackening is indicated in the west, the available statistics in these states remain at a level considerably above the same period of 1923."

**Unemployment.** "Montana, the government reports, is experiencing some seasonal unemployment. Confidence in the state is on the trend in metal mining and a slight improvement is noted in logging and lumbering in the Missoula district. The general tenor of the reports is significant of rather quiet business."

"In Idaho lumbering is reported on a curtailed basis in the northern section of the state. Though somewhat slackening appeared, employment in the railway shops has been about normal for this time of year. Some resumption of metal mining, other than silver, in northern part of state, afforded relief for unemployment. Though most industrial concerns and activities not affected by weather are doing fairly well, conditions cannot be interpreted as showing a high rate of activity."

"Railway shop activity in Wyoming is reported as distinctly curtailed with expectation of approaching improvement. An extensive program of high speed construction is also coaxed upon to relieve unemployment. Expansion is anticipated in oil field and refinery operations, building and construction. There is probability of improvement."

In these lines; but it is still hard to find as yet any promise of a strong upward movement.

**Many Opportunities.** "For the near future, then, the best business opportunities in this general region will undoubtedly be found toward the west. However, do not lay so much stress on the present and near future that you shut your eyes to the inherent possibilities that will eventually be developed in Idaho, Montana and Wyoming."

"All of these states should benefit from the great change which is coming in world commerce which change will transfer the center of trade from the Atlantic to the Pacific ocean. Few people realize the great significance of this transformation. It will be truly revolutionary in character. New York city, now the financial center of the western world, must give up its supremacy as has each of the great cities of Europe in its turn. The cities of the Pacific coast are to become the great cities of America. California, Washington and Oregon are to become the richest and best of our states. These Pacific coast centers are destined to be the clearing houses, between the wealth of America and the booming millions of China, India and the Far East. For centuries these eastern people have been asleep; but when they awake, the result will be greater than the wildest imagination can visualize."

**Talks Rail Problem.** Mr. Babson was asked if the Pacific coast has such a future who replied: "Railroads are primarily made by their managements—not by the territories which they serve. Men make values—and vision, courage and energy must meet Great Northern and Northern Pacific are suffering from the death of James J. Hill. The St. Paul road is an orphan without any father. This condition will, however, not always continue. Someone connected with these properties will rise out of the management and again assume leadership. New generals are born as the old ones die. These new leaders will again revitalize these systems and their future will again be bright. The only question is whether or not conditions are yet ripe for the change. These great northwestern railroad systems are so temporarily slumbering, pending a change in general, and not only make railroads, but they make cities and states. Hence the importance of giving more thought to men and less to material things. Money, machinery and buildings are mere tools. They are valueless except as used for profit while purposes are being attained with a desire to blow the trail for new methods, new industries and new communities."

General business throughout the country as indicated by the current reading of the Babson chart is running at practically normal."

### Mme. Le Blanc Conducts Love Clinic

GEORGETTE LE BLANC'S LOVE CLINIC.

Mme. Georgette LeBlanc, for 17 years the wife of Maurice Maeterlinck, the famous Belgian poet, who divorced her for a younger woman, has opened a love clinic in New York city, and is shown here with two of her patients. She has devised a test which, she says, will determine real love from spurious.

#### League Honors Mrs. Fink

The Catholic Women's League met in regular session in the Business Women's club rooms Thursday evening.

The meeting was opened with prayer and after the usual transaction of business steps were taken in regard to the coming election of officers which will take place in April. The league, as a token of appreciation of the excellent work done by Mrs. A. J. Fink, who is leaving Twin Falls in the near future, presented her with a beautiful pair of silver candlesticks. The program consisted of two piano selections by Miss Mary Virginia Hart. These were "The Polonaise" by McDowell and "A Spanish Serenade" by Anton Strakosky, and two violin selections by Felix Andriani, who was accompanied on the piano by Mrs. D. E. Regan.

A paper which showed careful study entitled "The Crusades" was given by Mrs. E. M. Wolfe. The league will meet again in two weeks.

#### Mrs. White Hostess to Acirema Club

Mrs. J. E. White was hostess to the Acirema club Friday afternoon at her home on Blue Lakes boulevard. Following a brief business session, the afternoon was spent socially and dainty refreshments were served. Mrs. J. E. Kessler was a guest and ten members were present.

#### Husbands Are Guests

Members of the Winola club gave their annual dinner in honor of their husbands Thursday evening at seven o'clock at the home of Mr. and Mrs. L. L. Breckenridge. The guests numbered 32 were seated at one large table and five small ones. The large table had as centerpiece a low bowl of orange candles. With this crystal candlesticks holding green candles were used. The small tables were centered with a crystal candlestick holding a green candle and tied with green mulling. The place cards and nut cups carried out a St. Patrick idea. After dinner a play entitled "The Pre-Breakfast Comedy" was given by Mrs. L. L. Breckenridge, Mrs. C. S. McMartin, Mrs. C. R. Scott and Mrs. McMartin.

## ADAMS ANSWERS LATEST CHARGE IN TEAPOT CASE

National Chairman of Republicans Shows Falsity of Reported Slush Fund; Sinclair Dodges Senate Investigators

WASHINGTON, March 21 (AP)—As Harry P. Sinclair through his counsel, was waging an ineffectual, but apparently losing battle to keep off the all committee witness stand today, William C. Adams came to Washington to deny a story that Sinclair dodged a large batch of securities to wipe out the \$1,000,000 deficit of the republican national committee after the 1920 campaign. The all investigators will decide the issue with Sinclair tomorrow and indications tonight were that they would take the New York oil magnate to the stand. After he leaves the witness chair, the committee will call Hays, former chairman of the republican national committee, and the first postmaster general in the Harding administration.

**Adams Scouts Rumor.** After critical hearers remained in seclusion, but Chairman Adams of the republican national committee, declared there had been no contribution of oil stock in wiping out the deficit.

"The story that 75,000 shares of oil stock were used to pay off the deficit of the republican national committee is, of course, ridiculous," Mr. Adams said. "About 10,000 or more contributors from every state in the union made up the amount."

"It took three long years of strenuous work by our financial organization to wipe out this indebtedness and there was no contribution of oil stock or easy money of any kind."

### DEATHS

**POSTER**—Quincy Poster, pioneer farmer of the Piler and Twin Falls districts, died early Friday morning at his home one-half mile south of Twin Falls, from effects of a paralytic attack with which he was stricken about two weeks ago. The body was taken to the P. J. Grossman mortuary. Arrangements for funeral services await word from relatives in Illinois, the former home of Mr. Poster.

Mr. Poster was 64 years of age. He is survived by his wife and one son.

## FIRMNESS PREVAILS IN DAY'S PRICES ON CORN

Gains Resulting From Friendly Feeling Toward Buying Side Fall to Hold; Wheat Sellers Cautious

CHICAGO, March 21 (AP)—Evidence of a more friendly feeling toward the buying side of the corn market became apparent in some quarters today, but the resulting gains fell far short of what the close was steady at the same as yesterday's finish to 1-4 cent, May 78 1-8 to 1-4 to 78 1-4, with wheat unchanged to 1-4 to 3-8 lower, May \$1.01 7-8 to 1.05, and July \$1.00 1-4 to 1-4 unchanged to 1-8 down and provisions ranging from 2 cents decline to a rise of five cents.

Firmness which prevailed in the corn market throughout the greater part of the day was based on reports showing widespread stormy weather and curtailment of receipts. Various prominent traders who recently have been sellers were said to be holding more nervous about their position and to be leaning to the view that corn receipts this week at primary points gave indications of a permanent let up in the crop movement. Talk was also current that as soon as weather conditions permitted farmers would make every effort to get into field work and that rural livestock of corn would drop almost to zero.

Steady resistance to selling pressure prevented any decided setback of corn values in the final dealings, although pit offerings on the upturn in prices entailed to a considerable degree. Reported shortages of shipping demand here and in the southwest acted meanwhile as a handicap on efforts to maintain the advance.

Wheat ruled easy on account of favorable crop conditions, especially in the southwest, and because of entire lack of export business. Nevertheless, sellers were cautious in view of recent sharp declines.

Delay to selling gave relative firmness to oats.

Provisions were upheld by an advance of the hog market.

Wheat—Open. High. Low. Close.

# DAIRYMEN TAKE OBJECTIVE FOR MARKETING PLAN

Association's Articles to Be Filed Following Canvass of Sign-up Showing Control Over 30,000 Pounds of Butterfat

Twin Falls county dairymen have attained an objective which they set for themselves when they launched a campaign looking toward formation of a county-wide co-operative dairy marketing association. It was announced Friday evening following the canvass at a meeting here of the organization committee of the results of an intensive seven-days membership drive.

Owners of 1200 cows, this canvass showed, have enrolled as members, assuring to the Twin Falls County Dairymen's association control over the marketing of at least 30,000 pounds of butterfat each month. This figure was set as the minimum requirement for proceeding with incorporation of the association, and the officers of the organization committee were directed at the meeting Friday evening to file today in the offices of the secretary of state and county recorder, the association's articles of incorporation.

## Issue Call for Meeting

The committee also issued call for a meeting of the association members to be held here Thursday, April 10, for the purpose of ratifying the articles of incorporation, adopting by-laws for the association and completing its permanent organization by election of directors.

The survey made Friday evening of the results of the membership drive showed that there had been enrolled as members of the association since Friday of last week the owners of a total of 585 cows. The membership campaign will be continued for several days, with arrangements already made for a meeting for presentation of the association's plans and reception of additional applications for membership, to be held in Ellet on Friday next.

Members of the association, under their contract, agree to deliver to the association all of their milk, except that reserved for use in their own families, during the years of 1924 and 1925.

Detailed arrangements for marketing of milk handled through the association have not been worked out. But, it was suggested at the meeting Friday evening, members of the organization committee may submit to the directors when they are elected some definite suggestions in this connection.

## Farm Work Causes Delay

Earlier completion of the membership campaign was prevented last spring by press of farm work, and the drive was resumed again last fall, the association's plans and objectives being presented in a series of meetings throughout the county and by individual effort of members of the organization committee and volunteer assistants.

Members of the committee which has brought to a successful conclusion the movement for organization of the co-operative dairy association in this county are Gustav Kuase, E. S. Wood, Sam Hall, Guy McVey, C. H. Hempleman and L. S. Ayotte.

## FINAL TRIBUTE PAID TO PIONEER ATTORNEY

Friends and Professional Associates of James H. Wise Crowd Methodist Church for Funeral Rites

Friends and professional associates of James H. Wise, one of the best-known of southern Idaho attorneys and a pioneer citizen of Twin Falls, crowded the Methodist church here Friday afternoon for his funeral service. Tribute was paid to the memory of the departed barrier in the service delivered by the Rev. Charles E. Wining, at the conclusion of which officers of Twin Falls commandery, Knights Templar, conducted a brief ritualistic ceremony in the church. The commandery also had charge of the service in the cemetery.

Members of the Bar association attended the services in a body, and six of their number served as honorary pallbearers, with members of the commandery as active pallbearers.

Interment was in the Twin Falls cemetery. The funeral cortege was one of the largest ever assembled here.

### Slim Shoe Repairing

PETERS BROS. OLD LOCATION  
230 Shoshone Street South

I bought Peters Bros. shoe-repairing equipment. This has nothing to do with any other shoe shop in the city. I am sole owner. My aim is to carry on the business along the same lines as always done by the old firm. I will not be satisfied unless you are. Come in and give me a trial.

CHAS. LARSEN.

# Citizens of Burley Vote Sunday Shows

Election Results in Vote of 537 to 460 for Seven-Day Operation of Play-Houses

BURLEY, March 21 (Special to The News)—Citizens of Burley, in a hotly-contested election today, voted 537 to 460 to authorize adoption by the city council of an ordinance permitting Sunday motion picture shows. Managers of both show-houses here stated, when the result of the election was made known this evening, that they probably would offer first Sunday performances Sunday evening, March 30, and that the proceeds from the first Sunday performances would be contributed to a fund for improvement of Burley's tourist park.

Question of whether Sunday shows should be permitted in Burley was submitted to an election by the city council after petition for and against the proposition had been presented. Members of the council agreed to take action in conformity with the result of the election.

Persons interested in the question agreed to pay all expenses incident to the election.

## REPORTS GOOD CROPS ON ROSEWORTH TRACT

An echo of Scott's caravan of Brooklyites, who settled on the Roseworth tract, was heard here this week when A. L. Williams and family drove into Rupert in a covered wagon on their way to Denver from the Roseworth tract, says a dispatch from Rupert to the Salt Lake Tribune. Williams, originally a railroader from Missouri, says that he farmed on the Roseworth tract last year and did well. He produced and sold at 33 cents a pound 15,500 pounds of Grimm alfalfa seed from 40 acres of land. He also took 40 tons of hay from 15 acres at one cutting; 870 bushels of barley from 25 acres; 600 bushels of corn from 20 acres; and about 400 bushels of wheat from a tract of between 15 and 20 acres. Besides, this he raised about 400 chickens which did well. Total sales from the 125 acres farmed amounted to about \$6000. Out of this he had to pay rent for the farm on a share basis. Mr. Williams expects to return to Idaho.

## MOOSE ANNOUNCE RALLY

Twin Falls lodge, Loyal Order of Moose, will initiate several new members and nominate officers for the year ending at a meeting to be held Tuesday evening in the lodge hall at the corner of Main avenue and Second street west, it was announced Friday. The degree team in charge of initiatory work on this occasion is composed of C. O. Slack, dictator; Floyd Bunnell, vice-dictator; J. W. Goerten, poet; and George Stein, orator; L. C. Smith, scribe.

## MEMBERS OF THE LODGE WILL GO IN A BODY TO RUPERT APRIL 6 TO ASSIST IN INITIATING A NEW LODGE THERE.

## FIXES ARBOR DAY DATE

Arbor Day will be observed in Twin Falls county Friday, April 18, this date being designated in announcement made Friday by Miss Charlotte Lund, county superintendent of public instruction, urging all schools in this county to observe the day in a fitting manner.

## SUGGESTIONS FOR PROGRAMS IN THE SCHOOLS IN OBSERVANCE OF THE DAY ARE BEING PREPARED BY THE COUNTY SUPERINTENDENT.

## POWER TO BE SHUT OFF

Twin Falls and immediate vicinity will be without electric lights or electric service of any kind during the hours of 1:30 and about 5 o'clock Sunday afternoon, according to announcement made Friday by the Idaho Power company. The period of this service interruption will be utilized by the power company workmen for changing insulators on the high voltage lines entering the Twin Falls substation. Promise is given of shortening the time of the interruption as much as possible.

## GROWERS TALK MARKETING

Marketing of certified Grimm alfalfa seed under seal of the growers' organization was the topic for consideration at a meeting here Friday evening of growers and prospective growers of the crop with C. B. Ahlson, state seed commissioner, and representatives of seed dealers. A similar meeting is to be held Monday evening in Roseworth.

Cooked food and rummage sale, by the Star Social club, Saturday, next to Mrs. Brown's art shop—adv.

# Idaho Agriculture Holds Lead of Year in Recovery From Depression Effects

Advantageous Position of Gem State Farmer Is Shown by Evidence Presented at Conference Here to Consider Factors Making for Success During Coming Season

Evidence in support of the assertion that agriculture in Idaho's, in respect to recovery from recent depression, advanced at least one year further than in any other state, was presented here Friday at the opening session of a two-day conference of county agricultural agents and representatives of farming, banking and canal operation interests, brought together by W. Kjosness, state leader of county agents, to consider factors entering into success of agriculture in south Idaho during the season now opening. Today it is expected that there will be worked out conclusions and recommendations to which publicity will be given by means of public meetings and other agencies throughout this region, in the immediate future.

Factors advanced at Friday's sessions as contributing to the advantageous position of Idaho's agriculture, industry, included:

1. Rapid development of markets in the southwest and in California mandatorily, for Idaho products. This advantage will be increased by building of the Rogerson-Wells line and by anticipated adoption of federal legislation in relation to "big and short haul" freight rates. Prevalence of drought in California this year, also was considered as making for an important although temporary advantage to Idaho producers.

## Meets Market Demand.

2. Diversification of Idaho agricultural production and its adaptation to most advantageous market requirements. Value of Idaho's annual egg production in three years, it was shown, increased from \$6,000,000 to \$16,000,000, and volume of eggs and butter shipped out of the state increased during that period from 165 carloads to 452 carloads. Development of Idaho dairy industry during the past three years is just beginning to figure in statistics, but it was stated, is such that dairying will be recognized from now on as one of the state's most important industries.

3. Retirement within the past three years of \$11,000,000 in loans made by the federal reserve bank to Idaho producers, reducing the total from \$17,000,000 to \$6,000,000 now outstanding.

## Advices Farmers to "Sit Tight."

In view of possibility of greater or less water shortage and various other factors entering into the situation for south Idaho agriculture in the coming season, it was the consensus of opinion represented at the conference Friday that Idaho farmers had best "sit tight and play the game you know best."

Disposition to sacrifice livestock or to attempt production of "miracle" crops as a means of meeting the indicated condition came in for disapproval at the conference. Statistics were presented to show that the dollar received by the producer for poultry products is the equivalent of \$1.12 received on an average of a wide variety of commodities and that the sheep dollar on this basis is worth \$1.40.

Relation of water requirement to production of each of several crops came in for attention, other factors given consideration including the probable demand for each product this season.

Statistics considered by the conference indicated reduction in the Idaho potato crop area amounting to 25 per cent and in the western states region the decline was estimated at 18 per cent this year as compared with last. Prospect for Idaho bean production was considered as being improved as a result of drought in California which ranks second among bean producing states, Michigan ranking first and Idaho fifth.

## Would Continue Work.

It was indicated at the conference that there should be formed a permanent organization or committee to continue the work of this conference and to issue its conclusions and recommendations each month hereafter.

Persons attending the conference Friday included W. Kjosness, who presided over the session; J. H. Reardon, assistant state leader of county agents; C. B. Ahlson, field agronomist; R. L. Spangler, assistant field agronomist;

## BREVITIES

Visits in Kimberly—Miss Hazel Draper of the telephone exchange here, spent Friday visiting in Kimberly.

Go to Hot Springs—Mike Bourne of Jarviside, passed through here Friday on his way to Lavi Hot Springs.

On Vacation Trip—Mr. and Mrs. N. P. Anderson left Friday morning for Portland on a ten days' vacation trip.

Returns From Coast—M. C. Ware returned Friday from California points, where he spent a few weeks on business.

Leaves for Visit—Mrs. Alice Sullivan, mother of D. E. Sullivan, left Friday morning for a visit in La Grande, Oregon.

Oil Dealer Travels—O. C. Allen, manager of the Allen Oil company, left Friday morning on a business trip to Pocatello.

Visiting Daughter Here—Mrs. Ozella Rowley of Provo, Utah, is a guest at the home of her daughter, Mrs. E. D. Puckett of Highland View.

Here From Long Beach—A. R. Osterlander, former resident of Twin Falls, arrived here Friday from Long Beach, California, for a few week's visit.

Leaves for Visit—G. E. Rowell left Friday morning for Taft, California, where he will spend several weeks visiting his son, Theodore Rowell. He expects also to visit other California towns before returning.

Back From California—Mr. and Mrs. Edwin N. Day and youngest son have returned from several weeks' trip to California, where they visited their son, Lambert Day. They made the trip by motor.

Ennued to Son's Side—M. F. Gamble left Thursday for San Bernardino, California, in response to word of the critical condition of his son, John Gamble. Mrs. M. F. Gamble left about a week ago to visit the son who has been stricken.

Free Moore, poultry specialist; Julius Jacobson, crop statistician; John Badley, manager of the Big Wood River Irrigation district; Earl J. Holte, food; big representative of the Idaho Bankers' association; J. S. Welch, Jernome; L. S. Otto, Ellet, and the following county agents: O. E. McConnell, Gooding; P. L. Williams, Emmett; M. A. Powell, Preston; H. W. Wilson, Soda Springs; D. P. Murray, Pocatello; L. E. Thibault, American Falls; John T. Montgomery, Rupert; J. W. Barber, Burley; P. M. Jones, Fairfield; R. E. Broadard, Twin Falls.

Conference sessions are being held in the Rogerson hotel.

# Bluebirds Observed by Weather Man Here

Although unable to record weather conditions Friday entirely in keeping with the advent of spring to the Twin Falls area, the government weather observer here reported having seen that day as a harbinger of spring the first flock of blue birds coming under his observation this year.

Mercury reached its maximum level Friday at 40 above, a decline of two degrees under the high mark of the preceding day, and was low at 27 above, an advance of one point.

## MUTUAL ASSOCIATION WINS ROUND IN COURT

Judge Babcock Denies Motion to Set Aside Summons in Action Against Lion Bonding and Surety Company

Provisions of Nebraska law providing for maintenance of suit against defunct corporations were quoted by Judge W. A. Babcock in an order issued Friday in district court here denying motion of the Lion Bonding and Surety company to set aside summons against itself in an action instituted by the Mutual Building and Loan association to recover \$3000 on a bond issued by the defendant corporation for Frank George Lechleider, former secretary of the association, who also is named as a defendant in this action.

The motion was argued by counsel for the defendant corporation and its grounds that the concern had been dissolved before this action was instituted.

READ THE DAILY NEWS

# VAN EATON PAYS HIS FINE

Wade Van Eaton, Hogue Creek ranch employe, in district court here Friday pleaded guilty to charge of violating the state prohibition laws and was sentenced by Judge Babcock to pay \$200 fine and serve 30 days in jail. The jail sentence was suspended and Van Eaton was released from custody when he paid the fine. Van Eaton was arrested by deputy sheriffs and a federal agent who confiscated a quantity of moonshine in his domicile on the Hogue creek ranch.
