REPORT SHOWS  
UPWARD TREND  
IN PRODUCTION

Further Gains in Business Activities Indicated in Federal Report; Building to Gain Soon; More Men Employed

WASHINGTON, March 26 (AP)—A further increase in production of basic commodities and a slight increase in employment for February and early March were reported by the federal board today. Wholesale and retail distribution also continued large during the period covered in the monthly summary of business conditions.

Factory employment alone rose one per cent in February, after declines in payrolls in the three preceding months and through a reduction in the part time employment, the average weekly earnings of this class of labor was about five per cent over January.

Building activity, although slightly lower in February than in January, appeared only to have slackened for a fresh start. The board said there had been greater expansion of building program and the department of commerce has reports showing that probably the largest number of contracts have been arranged for the forthcoming season of any recent year.

Federal reserve board figures place the increase at seven per cent over the same month a year ago.

**Steel Output Gains.**  
The department of commerce figures on production shows that 275,118 tons of steel sheets were turned in February, while a year ago the production was about 247,000 tons. This output, it was asserted, represents approximately 96 per cent of the plant capacity.

In connection with steel manufacturers the government statements show an iron ore consumption of 4,783,000 tons against 4,688,000 in January and 4,671,000 tons in February, 1933.

Stocks of iron ore at furnaces and Lake Erie docks aggregated 29,258,000 tons at the end of last month, a decrease of about 1,000,000 tons from the stock of the same date last year. January stocks, however, were larger than those held the first of this month, or on the same date a year ago.

Automobile production for February, which was continuing at the same average rate in March, was 336,363 passenger cars, while the truck production exceeded 31,000. The output of both types of machines showed large increases last month over January and over February, 1933.

In the financial field, the federal reserve board survey showed that the volume of borrowing continued through February and the first of March, the increase that was begun in January. On March 12 total loans of reporting banks were higher than at any time since the seasonal peak at the turn of the year and about \$275,000,000 greater than a year ago.

There were decreases, however in the volume of discounts with the federal reserve banks but there, the board's statement showed, were more than offset by increases in the holdings of the United States government securities.

Sum of \$50 Awaits  
Man Who Brings in  
War Draft Dodger

Government Offers Cash in Payment for Apprehension of Bergdoll, Whose Whereabouts as Still Unknown

WASHINGTON, March 26 (AP)—Grover Cleveland Bergdoll returns to the United States some person may earn an easy \$50. War department officials said today the government would pay that sum for Bergdoll's apprehension, just as it has paid for the delivery of other deserters. Bergdoll's return, however, it was added, would be attended by the presence of department of justice agents, or members of the military police, at the port where he landed, and if one of them apprehend him no payment would be made.

State and war department officials have received no reports from their representatives in Germany indicating that Bergdoll was enroute to the United States. In view of press reports that he might be returning, however, it was reiterated that the government had made no commitments regarding the punishment it would mete out to the deserter, nor offered any inducement for him to return.

Senate Committee Approves Resolution to Order Reorganization of Entire Rate Structure to Bring About Lowest Possible Schedule on Farm Crops and Livestock Shipments

WASHINGTON, March 26 (AP)—Reorganization of the freight rate structure so as to bring about lowest possible rates on agricultural products and livestock at the earliest time practicable would be ordered by congress under a resolution approved today by the senate interstate commerce committee.

FIFTY KILLED  
IN LANDSLIDE

Catastrophe on Italian Coast Causes Heavy Damage; Monastery Is Threatened

ROME, March 26 (AP)—Fifty persons have been killed in a landslide in the resort of Amalfi, 23 miles southeast of Naples, according to a dispatch from Amalfi to the Giornale d'Italia.

The ancient Hotel Capuchini, is picturesque situated on the summit of lofty rocks crowned with crenellated walls and ruined towers. It suffered from a landslide in January, 1906, when a portion of the promontory on which it is situated fell into the sea.

The ancient hotel Capuchini, however, is visited by all tourists, is threatened with collapse. The landslide reached the famous monastery of the monks, causing the terrace, which permitted of a magnificent view of the coast for miles to cave in. The building is greatly endangered with the possibility of collapse at any moment.

The chief villages affected are Vietri, where most of the casualties occurred, Minori, Positano, Praiano and Atrani.

The catastrophe was caused by recent storms which swept the Bay of Salerno, undermining the shore and upsetting the foundations of the houses and buildings on the sides of the hill.

ALIEN FINED AND FORCED  
TO KISS AMERICAN FLAG

PORTLAND, Ore., March 26 (AP)—George Steckle, an alien, was sentenced in municipal court here today to kiss the American flag and pay a fine of \$100 on a charge of disrespect to the flag. The fine was suspended. Patrolman W. B. Stramm testified he saw Steckle using the flag as a pack rag to carry wood into his basement.

## COOLIDGE'S SONS ENROLL

BOSTON, March 26 (AP)—President Coolidge's sons, John and Calvin, Jr., have applied for enrollment in the citizens' training camp to be held at Camp Devens next August. It was learned here today.

CRIPPLED BANDIT AND PAL  
TAKE \$1500 AND ESCAPE

SAN FRANCISCO, March 26 (AP)—Two bandits, one of them a cripple, entered the Westwood park branch of the Mercantile Trust company here today, terrorized Manager Nicholson, an assistant bookkeeper and a woman stenographer, secured up approximately \$4500 in currency and escaped in a big automobile.

## SECRET MEETINGS HELD

PAGO PAGO, American Samoa, March 11 (AP)—Secret meetings have been held by the natives of American Samoa at various times in the past month to consider the question of petitioning the president of the United States to end the present control of naval officials over Samoan affairs and to grant them a civil form of government in which all taxpayers may participate.

## MEXICAN CONFESSES

POCAHONTAS, March 26 (AP)—Juan Robles, Mexican, arrested Tuesday at Lima, Mont., has confessed that he shot and fatally wounded Pedro Leona, a fellow countryman, on the street here last Saturday. The two are said to have quarreled over a card game, Robles claiming Leona threatened to kill him with a knife.

## RUMBER IN TEA

COLOMBO, Ceylon, March 26 (AP)—Complaints from Egypt concerning the quality of a consignment of tea from this port have served to draw attention to the fact that the trade in rubber leaves, labelled as tea, has become a major industry in Ceylon.

RADICAL CUT IN  
APPROPRIATIONS  
WINS APPROVAL

Reduction in Expenditures of Veterans' Bureau, Shipping Board and Other Government Agencies Is Proposed

WASHINGTON, March 26 (AP)—A sharp reduction in expenditures by the veterans' bureau, the shipping board and several other government agencies is proposed in the independent office appropriation bill reported today to the house.

The measure curbs \$398,406,800 or \$107,327,450 less than last year's appropriation, and \$211,741 less than budget estimates.

Of the total \$349,065,000 would go to veterans' bureau, a reduction of \$95,388,080 under a year ago, the shipping board and emergency fleet corporation would be allotted \$30,344,000, or \$50,007,500 less than the last bill enacted.

The bill provides \$75,000 for President Coolidge's salary, \$25,000 for his traveling expenses, \$93,520 for salaries and \$37,000 for contingent expenses in the executive offices, and \$55,240 for the pay of the White House police.

Other items include \$225,000 for the alien property custodians office; \$947,115 for the civil service commission; \$2,650,000 for the employees compensation commission; \$3,724,017 for the general accounting office; \$508,100 for the housing corporation; \$4,282,284 for the interstate commerce commission; \$440,000 for the national labor committee for aeronautics; \$322,200 for the railroad labor board; \$759,000 for the Smithsonian institution, and \$381,680 for the tariff commission.

The bill carries \$83,000,000 for compensation in war veterans and \$88,000,000 for insurance.

For medical and hospital services \$42,000,000 was recommended with a provision that \$2,048,000 is to be expended during the coming year for improvement at hospitals which include:

Palo Alto, Cal., \$207,100; Fort Bayard, N. M., \$23,500; Helena, Mont., \$100,000; Walla Walla, Wash., \$10,000; Sheridan, Wyo., \$125,000, and Legion, Texas, \$50,000.

The bill provides \$89,000,000 for veterans' hospitals.

TAX RECORDS TO  
BE DISCUSSED

Figures on Mellon Company Returns Submitted; Committee Hears Dismissed Employee

WASHINGTON, March 26 (AP)—Tax records of the "Mellon companies" were brought today to the committee room of the special senate committee investigating the internal revenue bureau, but the committee did not reach them during the session. Its time was occupied with Charles P. Brown, one of the group of appraisal engineers dismissed from the bureau last year.

Brown recounted the circumstances of his dismissal, making charges of incompetence against his former chiefs. He declared specifically, however, he had no knowledge of any graft or corruption within the bureau.

At the conclusion of the session, Brown said he would present the case of "another Mellon company" in which he had worked. He named Allen P. Davis and company, Pittsburgh steel concern, but bureau officials said this was not a Mellon company.

It developed that Brown's information that Secretary Mellon was interested in this company came from the engineer who assisted him on the tax appraisal.

## BRINGING HOME UNCLE SAM'S WASHING

Legal Action Instituted on Behalf of Right of Way South of Rogerson; Important Meeting on Schedule

Suit against the state of Idaho to condemn a right of way for the Rogerson-Wells line through state lands in Twin Falls county south of Rogerson was instituted in district court here Wednesday by attorneys for the Oregon Short Line Railroad company.

Condemnation in this instance is necessary, according to the Short Line's complaint in this suit, because there is no provision in Idaho law for obtaining right-of-way through state lands at private sale. The lands in question are situated in section 20, township 14, range 15. The complaint was filed by attorneys of George H. Smith, H. B. Thompson and John H. McEvoy as attorneys for the Short Line.

In a final effort to reach an agreement satisfactory to all concerned for the purchase of the necessary right of way through the Nevada properties of the Utah Construction company, a meeting will be held in Ogden Friday between representatives of that company, the Twin Falls committee and the Nevada committee and representatives of the legal department of the Oregon Short Line.

Arrangements for the meeting were worked out Wednesday by M. J. Sweeley, chairman of the Twin Falls committee, following receipt of a letter from George H. Smith, head of the Short Line legal department, setting forth that such a meeting would be agreeable to the Utah Construction company. Mr. Watts of that concern has been in the city since Friday to participate in such conference or to have representatives of his company take part.

Several to Participate.

E. F. Gray of Contact, chairman of the Nevada committee, has advised Mr. Sweeley that he, with a delegation of Nevada men, will leave Wells on Thursday night for Ogden. Members of the Twin Falls committee to participate in the conference will be Mr. Sweeley, John N. Char and, if it is possible for him to be present, Judge E. A. Walters.

The latest development in the situation is in line with the hopes of both the local and the Nevada committee, the general feeling being that if a satisfactory agreement could be reached or the purchase of the right of way in Nevada, such a plan would be more generally satisfactory than the prosecution of a suit to condemn. Members of both committees have felt all along that the lands of the Utah Construction company represented a real value and there has been no disposition to question the right of the company to reimbursement for the right of way if an agreement can be reached within the scope of the two committees to negotiate.

According to Chairman Sweeley, the conference will not interfere with the prosecution of plans to begin suit to condemn in the event such a course is

Lockhart, Last of  
Notorious Outlaw  
Trio, Meets Death

Fosse Traps Him in Attempt to Flee from Farm House; Died with His "Boots On"; Served in Six Battles in France

TULSA, Okla., March 26 (AP)—Ed Lockhart, last of a trio of notorious Oklahoma outlaws, was killed today near Sperry, Okla., as he attempted to flee from a farm house where he had been trapped by a posse.

Lockhart went like his pals, Henry Starr and Al Spencer, "with his boots on," and defying the law.

The bandit had been sought since October 7 when he broke jail at Jay, Okla.

Lockhart's life of crime was alleged to have begun with the attempt to rob the Harrison bank that cost Starr his life.

He died as he hoped—without ever having killed a man in a robbery. While in the army he was attached to the 30th division and served in six major engagements overseas, emerging unscathed.

# POINCARÉ MAY YIELD TO PLEA TO RECONSIDER

Friends Believe French Premier, Who Resigned with Cabinet, May Resume Office Again within a Few Days

PARIS, March 26 (AP)—Premier Raymond Poincaré, with his entire cabinet resigned from office today, and when he announced his resignation he declared that his decision was final. But tonight there is every reason to believe that he will acquiesce tomorrow in President Millerand's request that he resume office at the head of the ministry. M. Poincaré's acceptance in principle of the president's request, which he has already made, is the first step toward the ministerial crisis, which broke over a comparatively serene situation. M. Poincaré's official acceptance of President Millerand's request is regarded as a foregone conclusion. The advice emphatically tendered to President Millerand by both M. Doumergue and Poincaré, presidents of the senate and the chamber, respectively, that M. Poincaré was indispensable as premier in the continuance of work undertaken in the past two years, and the conviction of M. Millerand himself that the "surprise" vote in the chamber did not reflect lack of confidence in the premier personally, caused the president to dispense with the usual consultations in such cases with other prominent statesmen and sent for M. Poincaré immediately and asked him to carry on.

**Premier Not Present.**  
The defeat of the government in the chamber was on a question of minor importance. The premier himself was not present. The vote against the premier was 274 to 264, many of the votes being cast by proxy. The opinion advanced in parliamentary circles is that M. Poincaré will return to power with a somewhat changed cabinet. It is thought that the ministries of finance, agriculture and hygiene will be overthrown and so that the premier's program of economies may be begun in the right way, certain under secretaries of state will be eliminated and that possibly the ministries of agriculture and commerce will be combined. But there is no one this evening, either politician or layman, who believes that M. Poincaré will not succeed himself.

**BRITISH INTERESTED.**  
LONDON, March 26 (AP)—M. Poincaré, the French premier, has weathered so many political storms that his resignation came as a surprise, but not a disagreeable one to the British public and press. Should he persist in his refusal to reconstruct his cabinet, his action, it is asserted, will be interpreted here as an admission of the failure of his Ruhr policy, which from its inception has been disapproved by the British government and people.

Chief interest in the French crisis lies in the prospect it opens for a new chapter in the troubled relations between Britain and France, which have been also in a secondary degree regarding the effect it may have on France's financial future.

## YOKOHAMA POPULATION GAINS.

**EXTRA STILL BELIEVED NOBLE.**  
YOKOHAMA, Japan, March 26 (AP)—Although tens of thousands of citizens driven from this city by the great quake of last year are struggling back and trying to re-establish their homes, the population of Yokohama is still 150,000 less than it was on the morning of the fateful first of September, according to police statistics. Yokohama's population now is 291,250; on September 1 it was approximately 450,000.

## MILLIONS SPENT ON FAIR.

LONDON, March 26 (AP)—When the British Empire exhibition opens at Wembley April 23, it will represent a direct expenditure of \$50,000,000. The amusement park alone has absorbed \$5,000,000. Two of the main buildings, one the largest concrete structure in the world, will cover 25 acres. At night some 2,000 electric lights will make the grounds brilliant.

**UNION PACIFIC AGENT HAS SPOKEANE, March 26 (AP)—**Railroad tickets are rather easy articles to sell as compared to live buffaloes, in the opinion of Fred De Reimer, city ticket and passenger agent for the Union Pacific, Omaha division, and Spokane international railway. He has been appointed as Spokane agent for a company of Kaysville, Utah, which wishes to dispose of some buffaloes.

According to Mr. De Reimer, the agent went formerly part of the John P. Doyle herd, which thrived for many years on Antelope Island, in Great Salt Lake.

# BROOKHART HAS HOLD ON IOWA

Political Tempest Stewing in Mid-West State; Leading Senator Keeps Silence

DES MOINES, March 26 (AP)—The contest for delegates to the republican national convention from Iowa has developed a contention that has had no recent political history of the state because of the attitude of United States Senator Brookhart. He is recognized as strong in his home state and all political sides concede that he will have a great influence on the delegation. But the fact that Brookhart has not indicated any leaning toward any of the announced presidential candidates.

At the county convention the delegates were instructed to vote for President Coolidge at the Cleveland convention.

In the meantime, the state is seething with politics and Senator Brookhart is seeking reelection to a full term and has as an opponent former Congressman Burton E. Sweet, who ran fifth in a six-man contest when Senator Brookhart received the republican nomination to fill the seat made vacant by the resignation of Senator W. S. Kenyon in 1922. The primary comes on June 2.

**Sweet in Sift Campaign.**  
Mr. Sweet has been campaigning in the state for the last six months and is showing signs of fulfilling his prediction that he would make "the most strenuous campaign ever conducted by a candidate for U. S. senator."

A third candidate for the senatorial nomination is Vernon Lester Hogue, of Fairfield, Iowa, described on his cards as a "traveler and dilettante." He also described himself as a stockman and Princeton graduate. Congressman Sweet in opening his campaign some time ago declared the issue between Senator Brookhart and himself was "Radicalism against Progressivism."

**Six for Governorship.**  
The republican gubernatorial contest has developed into somewhat of a free-for-all affair, for no less than six candidates already have signified their intention of running for the nomination. They include J. H. Anderson of Thompson, speaker of the house of representatives; A. J. Banks of Mount Pleasant, leader of the "Farmers' League" and a "dirt farmer" candidate; W. J. Birbank of Waterloo, treasurer of the state; J. D. Buser of Council Bluffs, state senator from Muscatine and Louisa counties; John Hammond of Britt, lieutenant governor; and Glenn C. Haynes, auditor of the state.

Each of the six candidates claims a fairly well defined group of supporters and if none of the six gets the 35 per cent of the total primary vote required by Iowa primary law to nominate a candidate, the nomination must be made in convention and will narrow down to the task of delegate-getting. There are numerous candidates for lieutenant governor, treasurer, auditor and state auditor, but as yet no candidates have appeared to contest for the offices of secretary of state, attorney general or secretary of agriculture, except the present incumbents.

All of Iowa's present congressmen have taken out papers for re-nomination, but several will have contests on their hands in the primary.

# WILL PRESENT CONTEMPT CASE TO HIGH COURT

Action to Be Taken Thursday on Sinclair's Refusal to Testify; Many Events Crowd Program of Oil Investigators

WASHINGTON, March 26 (AP)—The senate oil committee turned today from its public inquiry to consideration of pending legislation, but there were several developments incident to its labor outside the committee room. The contempt case of Harry F. Sinclair, lease of Teapot Dome, who refused to answer questions before the oil committee, is to be presented tomorrow to the District of Columbia supreme court.

The treasury accepted the resignation of Clarence C. Chase, son-in-law of Albert B. Fall, as collector of customs at El Paso, Texas, but the house judiciary committee failed to act on the senate resolution contemplating impeachment proceedings as a result of his refusal to respond to questions before the oil committee.

**Coolidge Assailed.**  
President Coolidge was assailed in the senate by Senator Walsh, democrat, Montana, the oil prosecutor, because he did not "ignominiously dismiss" Chase from office immediately after the testimony of Price McKim, who said that the customs collector had sought to have him agree to say he had loaned Fall \$100,000.

Al Jennings, one-time train robber, but now evangelist and politician, arrived in Washington and announced he would have "a whole of a story" to tell the oil investigators tomorrow concerning an alleged "oil deal" at the republican national convention in Chicago in 1920.

A subpoena was issued for William

Byron Thompson, of New York, formerly chairman of the finance committee of the republican national committee, who is to be questioned about the methods of wiping out the \$1,000,000 deficit the national committee had after the 1920 campaign.

Chairman Ladd made it known that a majority of the oil committee had voted adversely on the nomination of Samuel Knight, of San Francisco, to be special counsel in suits for the recovery of oil lands in the Elk Hills reserve in California and there were intimations that the nomination might be withdrawn.

# WOMEN TO MAKE CAMPAIGN TALKS

Widely Known Kentucky Residents Give Stump Speeches in Political Drive

LOUISVILLE, Ky., March 26 (AP)—No less than 22 Kentucky women, 13 republicans and nine democrats, none of whom is a candidate for office, will take the stump in support of their political views during the presidential campaign this year.

Some of the widely known women are Mrs. Christine Bradley South, of Frankfort, daughter of late Senator Bradley, and a member of the republican national committee; Miss Laura Clay, of Lexington, a pioneer in the women's suffrage movement whose tenets are strongly democratic; Mrs. Alvin T. Hirt, widow of "Toby" Hirt, for years republican national committeeman from Kentucky, and Mrs. J. Campbell Cantrell, widow of

the democratic nominee for governor last year—who died after being nominated. The republican state convention not only instructed the delegation to the national convention to vote for President Coolidge for president, but also instructed that the vote for vice-president be cast for United States Senator Richard P. Ernst, of Covington.

Up to the present time only one candidate has been mentioned among the democrats, William G. McAdoo. The democratic state convention, which will meet in May, will decide upon Kentucky's choice at the national convention.

Kentucky this year will elect a congressman from each of the 11 districts and a United States senator. Congressional incumbents, nine democrats and two republicans, are understood to be candidates for re-nomination. United States Senator A. O. Stanley, democrat, is believed to be certain to seek the democratic nomination to succeed himself, while Judge J. B. Bethurum, of Lexington, has announced he will seek the republican nomination.

Senator Stanley files opposition for the democratic nomination as John J. Howe, commonwealth's attorney for the fifteenth judicial district, has announced his candidacy, subject to the action of the state-wide primary August 2.

## THE GUMPS—EVERY KNOCK IS A KNOCK

## WOMAN RELATES ANOTHER HUGE OIL STOCK DEAL

Roxie Stinson Tells of \$33,000,000 Made by Five Men on Sinclair Issues; Says Daugherty Was "Sore"

WASHINGTON, March 26 (AP)—Senate investigation into the administration of Attorney-General Daugherty was continued today at another public session with a bare mention of \$33,000,000 made in a few days by "five men" unnamed, through a "stock market deal in Sinclair Oil" as the most salient feature.

As before, Roxie Stinson, the divorced wife of Jess W. Smith, who shot himself in the attorney-general's apartment last summer, was the star witness. Her story, replete with mentions of considerable sums of money passed to her by the dead man during the two years of his association with Mr. Daugherty, was filled out by the introduction of scores of telegrams, taken by the committee from files in Washington, Palm Beach and Washington, Courthouse, Ohio, and a few letters from Smith to her.

The wire messages, some of them trivial and others obscure in terms and references, were signed by persons some of whose names have already been heard during the proceedings.

**Daugherty "Sore"**  
Of the \$33,000,000 deal Miss Stinson said she had been told by Jess Smith, to whom she ascribed the statement that he and Mr. Daugherty were "sore" because they were not "in on it." When she professed unwillingness to tell of it further, or to name the men Smith had named, she made the profit, there was a moment of committee conference, and an announcement by Chairman Brookhart that a decision as to whether the inquiry into that question would be pressed must await the committee's executive consideration.

Summed up, Miss Stinson's account was that Smith came to Washington worth perhaps \$140,000; that he gave her "several thousand dollars," that he "lost heavily" in stock market transactions; that he paid his half share of \$50,000 per year in living with Attorney-General Daugherty, and that he died worth \$214,000. Whether he had more at death, she said, she did not know.

## No Cross-Examination

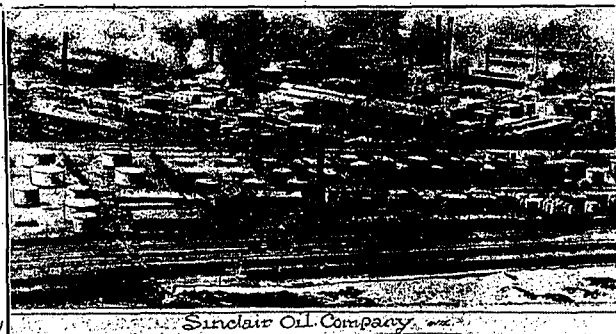

All through her examination, Paul Howard and former Senator Chamberlain, Mr. Daugherty's attorneys, sat waiting for an opportunity to cross-examine. Their opportunity would come tomorrow, the chairman said, when Senator Wheeler, democrat, Montana, directing the presentation of evidence, might be expected to return after an indisposition which had delayed the proceedings for several days.

Outside of the committee's record, Secretary Hughes sent to city chairman a letter saying that Howard Man-ning of Ohio, now in Paris, intended to start for the United States March 29. He has been named in testimony as a friend of the attorney-general who received \$2 a case for each person to withdraw liquor from bonded warehouses while the committee's record of New York drug companies, ostensibly for the bootlegging trade. Mr. Daugherty called at the White House twice during the day but declined to discuss his visits, and the justice department refrained from comment upon the day's procedure.

## Witness Emotional

Miss Stinson sometimes smiled and sometimes wept as she read the letters sent her by Smith during the two years before his death, some of which, she said, had contained checks, some drafts and some \$500 bills. He was, she said, "nice about money" and his communications with her were personal and often affectionate. The telegraphic files revealed also that Smith during two years had given her a complete record of the attorney-gen-

## BOURBON FORCES IN HOT BATTLE

Reed and McAdoo Backers Cross Swords in Missouri Campaign to Pick Delegates

ST. LOUIS, March 26 (AP)—Missouri is being politically torn asunder in the contest for delegates to the democratic national convention, with United States Senator James A. Reed fighting the McAdoo forces in every turn. The state convention, where the delegates at large are chosen, will be held on April 15 at Springfield.

The district delegates will be chosen at conventions held in the congressional district. The fight between Reed and McAdoo has been carried into every district.

Senator Reed has been touring the state, and making speeches in which he attacked the former secretary of the treasury on his record with the Doherty oil interests, while at the Chicago "get together meeting of McAdoo's friends, Reed was referred to as a "renegade republican" by members of the Missouri delegation.

The McAdoo organization in the state is headed by Frank Farris, chairman of the democratic state committee, while the Reed forces are being led by Ed Glenn and Bennett Clark. Few fireworks on the republican side have been reported as yet, but this campaign is expected to open up about the time of the republican congressional conventions. At the present time the Coolidge forces are displaying a calm confidence and saying little, while Senator Johnson is expected to enter the state some time during March and make his plea for support.

The republican state convention to elect delegates at large also will be held at Springfield and will be on April 29. There is a rather warm contest on for republican national committeeman to take the place of Jacob Baile, who is not a candidate. The race at present has simmered to Congressman L. C. Dyer and Dr. E. B. Clements, chairman of the republican state committee. The national committeeman in Missouri is chosen by delegates to the national convention.

With the state primary scheduled for August the gubernatorial contest has not even begun to get warm, but announcement of candidates of both parties is expected to be made shortly before the state conventions.

Foot and Mouth Outbreak Is Checked Around Los Angeles; Source Is Traced

SAN FRANCISCO, March 26 (AP)—The foot and mouth disease outbreaks in Los Angeles are being held in check and in San Francisco all evidences have been wiped out, federal and state officials announced today. In other parts of the state the epidemic situation is being controlled.

The source of the infection in Los Angeles and here was traced to a Merced county ranch and a cattle chute in Merced City. The stock yards in Los Angeles and San Francisco are being disinfected.

Cattlemen in Merced and Mariposa counties met today to perfect plans for co-operating with the state and federal authorities and it is expected that 5,000 cattle will have to be destroyed in the two counties where the latest outbreak occurred.

## FIRST GAME OF SERIES GOES TO SENIOR SQUAD

Swim Scores Home-Run and Hits at Critical Moment; Second-Year Men Lose Opening Contest with 2-1 Score

Swim, with a home run and a three-base hit was responsible for the victory which won the first game of the high school interclass baseball series for the seniors with a score of 2 to 1 Wednesday evening.

Stan Cron, veteran third baseman of the Bruins took the mound for the opening of the interclass series Wednesday and held the sophomores to a single hit in the first inning on which Cornell "Doc" Jarman got to first. Stan performed nicely in the box for the first four innings with a single run against his record, this coming in the fourth when Laval Jastran got on and completed the circuit for the sophomores' only score. Cron has nine strikeouts to his credit and one hit and run in the first four innings.

"Biddle" Martin for the sophomores performed nearly as well, with seven strikeouts and two hits, one of which was in the first inning at the hand of Bernard Martyn, who appears to be first team material this year. The other hit was Swim's home run in the fourth inning when the big center fielder for the upper classmen took a healthy swing on his last strike and cracked the ball into the center field fence.

Cron replaced. In the fifth inning Hodgkin replaced Cron on the senior lineup and made a good start with three strikeouts. Cornell Jarman took the sophomore box and with good support held the seniors hitless and scoreless for the fourth inning. The sophomore was practically repeated in the sixth inning and in the seventh Hodgkin held the sophomores still to their single run and hit.

Laval Jarman, adult moundman and captain of the sophomores, took no chances in the last half of the first inning (the arrangement being to play but seven innings) and took the mound himself, again blanking the seniors with two strikeouts and a fly.

Seventh Strikeout. With darkness drawing on the seniors again took the field and Hodgkin completed his seventh strikeout and the younger team took the field.

Martyn, first man up, got a single and Jarman walked Hodgkin. The next man up was Cron, who flied out, and Russell walked. With the bases filled and one out Jarman faced Swim, who took a sound swing on the bat, took a healthy swing—and made a triple. That ended the game.

Lineup: Seniors—Musselle, Cron, p.; Blackburn, 1b.; Martyn, 2b.; McRoberts, 3b.; Hodgkin, cf.; Montooth, lf.; Swim, cf.; Daly, r.

Sophomores—Johnson, cf.; Martin, p.; Jarman, C. 1b.; Sears, 2b.; Laubenhelm, 3b.; Jarman, L. ss.; Kersted, lf.; Berg, cf.; Cleveland, r.

Substitutions: Seniors—Hodgkin for Cron; Moffatt for Montooth; McDonnell for Daly; DeWitt ran for Martyn in eighth inning; Sophomores—C. Jarman for Martin; L. Jarman for C. Jarman.

# SHOE CLERKS LOSE TO NEWS

Printers Take Three Games in Slow Contest; Self Is High Man

Wednesday evening's session of the bowling league resulted in a straight win for the News bowlers, who took all three games with but little opposition.

In all three games the difference in total pins amounted to 193 pins, with the shoe clerks averaging 160 pins per game, who no doubt set a new low record, and the News men bowling 161 for an average. Not taking high with 226, the only 500 game rolled by either team.

The result of Wednesday's clash puts the News up in the list again and should the Sugar Factory Times tilt tonight result in a 2-1 victory for the sugar men the Times, sugar factory and News will be tied for third place.

Although the News had the bad luck to have their team badly disorganized twice during the season, and twice forced to start from the bottom to work their way to the top, they are finishing strong as one of the best teams in the league.

# "MAIN STREET" FOUND IN HEART OF GREAT CITY

Broadway, the Broadway of the white lights and cabarets, has been discovered to have the characteristics and properties of a small town, the kind written of by Sinclair Lewis in "Main Street," his novel that has now been adapted for the screen.

It boasts low buildings, the Metropolitan opera house, six blocks of structures, some of them hardly more than shacks; it has all the earmarks of a small city which has stopped growing. These are the things one notices in "Main Street," the Warner brothers classic of the screen announced for a run beginning today at the Idaho theater. Gopher Prairie is a midwestern town that is sleepy and conservative and into which Carol Kennicott is lured, actuated by a strong desire to make it up and infuse some new ideas into it.

# FEATURE FILM CLASSIC TO BE SHOWN AT IDAHO

After months of reading of the prentest of Universal's "Hunchback of Notre Dame," Twin Falls will have a chance to see the classic, as it is looked for showing at the Idaho theater, starting on next Monday.

The senate committed the Waters bill regulating a new method of ratifying constitutional amendments.

The senate interstate commerce committee reported a bill proposing freight rate revision for agricultural commodities.

Officials were informed that the Nonduran revolutionary leaders had agreed on Faustina Davila as provisional president.

The federal power commission urged congress to go slow on a general policy of electric power development.

Herbert Hoss, American Legion treasury, told the senate finance committee the house soldier bonus bill would cost \$3,200,000,000.

An unfavorable report was decided upon by the senate oil committee on the nomination of Samuel Knight to be special oil counsel.

Activities of tax experts formerly employed in the internal revenue bureau were exploded in the senate committee investigating the revenue bureau.

Roxie Stinson told the Daugherty committee of Jess Smith having told of a deal in which \$35,000,000 was made by five men in 1922 and disclaimed any belief that Smith's death was other than suicide.

The senate land frauds committee decided to subpoena telegrams from Washington by R. B. Crocker, Texas republican national committeeman, or by his attorney, George Hill, to land companies or others in Texas since December 1.

District Attorney Gordon announced he would present the Sinclair contempt case to the grand jury tomorrow.

The house judiciary committee failed to act on the senate resolution to impeach C. C. Chase, El Paso customs collector, who refused to testify before the oil committee. The treasury accepted Chase's resignation.

# WAR ON PLAGUE FINDS SUPPORT

Proceeds of Christmas Seal Sale in County Double Those of Preceding Year

Per capita sales of 1923 Anti-Tuberculosis Christmas seals in Twin Falls county, based upon the 1923 census was 2.84 seals per capita, or more than double the sales of the preceding year, according to statement made public Thursday by Mrs. D. L. Alexander, chairman of the seal sale.

This record entitled the Twin Falls County Anti-Tuberculosis association to retain 20 per cent of the proceeds of the sale for use in its program of work in the schools.

Proceeds of the sale of seals in this county, according to the statement, grossed \$867.26, from which expenses amounting to \$21.40 were deducted. The county association's share amounted to \$845.86, and in addition to this amount it received from the state organization a total of \$341.97 with which it had been credited for the 1920 seal sale.

## Community Records.

Sales in the different localities of the county were reported in the statement as follows: Twin Falls, \$534.40; Buhl, \$88.60; Kimberly, \$60.60; Piller, \$34.30; Crested Butte, \$6.25; Tinsley, \$5; Biggs, \$8.50; Hooten, \$10.80; independent school districts, \$50.10.

In connection with the 1923 seal sale, 500 letters were mailed out, to 351 of which response was made.

Among the activities of the county association, the statement includes a series of a nutrition survey which helped the local committee to establish a demonstration nutrition class, members of which drank milk twice daily and are making satisfactory gains in weight.

According to the statement, it is the hope of the county association to help finance the services of a county nurse during the coming school year, but as yet details of the undertaking have not been worked out.

## SOCIALISTS TAKE STEPS TO ORGANIZE LOCAL HERE

Twelve Persons Sign Membership Roll at Meeting Addressed by Visiting Lecturer

Initial steps toward organization of the first socialist local that has existed in Twin Falls were taken Wednesday evening at a meeting in the Moose hall of about 60 persons addressed by Emil Hermann, lecturer for the socialist party. Twelve members were enrolled at this meeting, and Mrs. Stella K. Garrison, who presided at the meeting, was elected secretary of the new local. The organization is to be completed at a meeting to be held two weeks later.

The visiting lecturer's address was devoted mainly to a plea for release of "political prisoners" and for general amnesty restoring to full citizenship all persons convicted under the war time espionage act.

# Changes Noted in Acreage to Be Planted in Idaho This Year, Report Shows

Crop	In Idaho	In Far Western States	In All United States
Spring wheat	5% Decrease	8% Decrease	14% Decrease
Corn	15% Increase	13% Increase	3% Increase
Oats	6% Increase	7% Increase	7% Increase
Barley	35% Increase	19% Increase	8% Increase
Potatoes	12% Decrease	3% Decrease	3% Decrease
Hay	4% Increase	3% Increase	4% Increase

BOISE, March 26.—Idaho farmers intend to plant five per cent less spring wheat this year and 12 per cent less potatoes than was planted in 1923, according to a report compiled and announced by Julius H. Jacobson, Idaho statistician for the department of agriculture. The report concerns the farmers' intentions as to 1924 acreages as compared with acreages harvested in 1923.

On the other hand, the report says, Idaho farmers intend to plant 35 per cent more barley, 15 per cent more corn, 6 per cent more oats and 4 per cent more hay than they did in 1923.

The above reports what farmers had in mind about March 1st when the survey was made. In Idaho, 455 farmers reported and the United States figures are based on 43,000 farmers representing every county in the nation.

In Idaho, the tendency is evidently to shift from potatoes and wheat to such cash crops as beans, sugar beets and peas. The state's bean acreage has been as follows: 1921, 18,000 acres; 1922, 26,000 acres; 1923, 45,000 acres; 1924 (indicated), 67,000 acres, or 49 per cent more than 1923. The material increase indicated for barley and corn, and to a less extent oats and hay, reflects the increasing tendency to market crops through dairy cows, fat sheep and cattle.

Irrigation farmers are watching the situation with respect to a water shortage resembling that of 1919. Crops and farming practices will be favored which best meet the requirements of a short water year. The drought situation in California and other western states is a factor to be considered because of the increasing tendency Idaho ships to their markets each year.
