JAPAN'S ENVOY
EXPLAINS NOTE
ON EXCLUSIONLetters Exchanged Between
Hanihara and Secretary
Hughes Restore Peaceful Re-
lations as to Immigration Bill

WASHINGTON, April 19 (AP)—A specific disclaimer of any intent to convey "a veiled threat" in the use of the phrase "grave consequences" in his recent communication to Secretary Hughes protesting against the Japanese exclusion feature of the immigration bill is made by Ambassador Hanihara in a second letter to the secretary made public today and characterized by Mr. Hughes as a "frank and friendly explanation."

The ambassador's letter and a reply by the secretary were made public by the state department, Mr. Hughes' letter saying that in the light of the context of the original and prevailing friendship and understanding between the two countries, he "had no doubt that these words (grave consequences) were to be taken in the same sense you have stated and I was quite sure it was far from your thought to express or imply any threat."

The correspondence was made public after Secretary Hughes had given much of his time for the past two days to a consideration of the international issue involved. He conferred again today with President Coolidge and, before receipt of the ambassador's second letter, had been advised of the desire of officials of the embassy to have an explanation of the language of the protest placed before the public.

What effect the explanation may have on the pending exclusion legislation in congress is not apparent at night. Senator Lodge, chairman of the senate foreign relations committee, who in senate debate characterized the phrase "grave consequences" as a "veiled threat," in recent days has conferred with President Coolidge on the question, but leaders in congress desired apparently to study the language of the latest letter before appraising the situation.

Steps to send the immigration bill to conference were taken at the capitol today and the conferees are expected to begin work without delay.

It is understood that the ambassador made his explanation with the approval of the Tokio foreign office, which had given its explicit endorsement to the wording of the letter. Both communications, however, were made public without comment.

FILES INCORPORATION PAPERS.
Articles of incorporation of the Snyder Hardware company of Piler with capital stock of \$25,000, by E. H. Snyder, M. E. Snyder and O. C. Johnston, all of Piler, were filed Saturday in the office of the county recorder here.

Production of New
Metal Feature of
Muscle Shoals Bid

Pennsylvania Railroad Executive Has Plan to Produce
Substitute for Steel; Would
Change Transportation

WASHINGTON, April 19 (AP)—Production of a metal, which its sponsor claims would "revolutionize transportation" is one of the features of the Hooker-White-Alterbury proposal for operation of Muscle Shoals, it developed at today's hearing of the senate agriculture committee.

W. W. Alterbury, vice president in charge of operations of the Pennsylvania railroad, and one of the principals in the bid, said the cheap power available at Muscle Shoals would virtually assure the practical production of this metal, which is made from an alloy of aluminum and magnesium. The chief merits of the metal, Alterbury said, is that it is a strong, light metal, which could be used as a substitute for steel in railroad cars and would permit the carrying of heavier freight and passenger cargo. Manufacture of the metal is non-pollutive, he said, because of the high cost of electric power, which is needed in the process. The metal was used in German Zeppelins during the war, he explained.

J. G. White, one of the three bidders said their proposal would assure the production of fertilizer for the farmers at a lower cost than government operation because their corporation would be free from politics and would encourage initiative.

Sparks to Continue
on Holy Land Quest
in His 23-Foot Boat

Eccentric Voyager Reaches
Honolulu; Attempted Part of
Journey in Packing Box

MANILA, April 19 (AP)—Ira Sparks, who arrived at Tauslog, Surigao province, on March 22, in a 23-foot boat in which he made the passage from Honolulu alone, has announced his intention of continuing the voyage to Singapore. From that port, he said, he will travel by steamer or walk to the Holyland, where he announced before his departure from Honolulu he "would take up the work of Moses."

Sparks had a shotgun which the constabulary seized, as he had no gun license.

Sparks attempted to make the first part of his journey in a packing box in which he was discovered several days after the vessel left port.

MOTOR INVADES
BOOTH'S WINDOW

Damage Estimated at \$1000
Results from Auto's Plunge
Over Curb

A plate glass window of estimated value of \$1000 was destroyed and five persons narrowly escaped injury when a Dodge car, owned and driven by L. J. Malone, Piler district farmer, plunged over the curb and into the south display window of the Booth Mercantile company, in the McCornick building on Main avenue south Saturday night. Contents of the show window were destroyed.

The car started on its wild career when Mr. Malone undertook to crank it. The gear seemed to engage smoothly, but instead of the starting of the engine, Mr. Malone escaped with difficulty from the path of the machine just before it crashed into the heavy plate glass. Mrs. Malone and three children, the youngest an infant of a few months, occupied the rear seat and language of the latest letter before appraising the situation.

The car was brought to a halt by Mr. Malone who turned off the ignition just before it plunged into the store building.

The destroyed glass was in three panes covering a space of approximately 100 square feet. No insurance was carried by the owner of the building.

This particular window has been broken by automobiles running wild at least three times during about as many years.

D-E-R-CLOSE CONVENTION

Immigration Bill Endured in Closing
Sessions; Easter Greetings Sent Mrs.
Wilson and Mrs. Harding

WASHINGTON, April 19 (AP)—The thirty-third continental congress of the Daughters of the American Revolution characterized by its officers as one of the most successful for constructive work in the history of the Society, closed today.

The immigration bill, with its provision for exclusion of Japanese, was endorsed in a resolution adopted with, out a dissenting voice, while other resolutions approved called for forest preservation, and support of the Yorktown battlefield legislation in congress and of the policy of Secretary Hughes with reference to soviet Russia. The society also voted to support President Coolidge's stand on the permanent court of international justice.

Easter greetings and flowers were sent to Mrs. Woodrow Wilson and Mrs. Warren G. Harding.

Installation of newly elected officers and a banquet concluded the sessions which opened here last Monday.

SHIP BREWS BEER SUPPLY.
PLYMOUTH, England, April 19 (AP)—The North German Lloyd liner Stuttgart was able to manufacture 1800 quarts of beer in the ship's brewery during its recent voyage from New York. The beer is all consumed on the trip.

Weather Variations
on Week's Schedule

WASHINGTON, April 19 (AP)—Weather outlook for the week beginning Monday.

Northern Rocky mountain and plateau regions: Considerable cloudiness and probably occasional showers; local snows in the mountains; temperature near or slightly below normal most of week.

IDAHO WEATHER.
Sunday: Unsettled and occasional threatening.

SUSPECT PLOT
IN CONNECTION
WITH BIG FIRE

Firemen Testify as to Finding
Oil Spilled About Building
Where Nine Men Were Killed;
Three Persons in Custody

CHICAGO, April 19 (AP)—Firemen who last night fought a fire in a four-story box factory on the west side in which eight firemen and one civilian were killed when the walls fell, and a score were injured, testified at the inquest today that oil was found spilled through various parts of the building.

Two firemen told of finding oil strewn over the floor and one said he found a pile of oil-soaked waste in a corner. Battalion Chief Michael F. Korwin declared a terrific explosion inside the burning structure had caused the walls to crumble, pitching the firemen into the roaring flames. The inquest was continued after five witnesses, all firemen, had testified.

Three men were held in custody tonight after a day spent in questioning them. They were Sam Polinsky, Samuel Moore and Leo Unell. Moore and Unell are owners of a leather goods company which occupied the destroyed building. Polinsky is reported to have held a \$32,000 fire insurance policy on their business in connection with a mortgage.

Fire Commissioner John F. Callerton announced today he will ask the city council at a special meeting Monday for a fund of \$200,000, the interest to be used for the families of firemen who lost their lives. The smoldering ruins of the building were being raked over tonight in a hunt for any additional victims, it being reported that a 10-year-old boy was caught by the walls.

DEMOCRAT FOR 93 YEARS.

YREKA, Cal., April 19 (AP)—The will of Dave Ream, widely known northern Californian, who died here recently at the age of 93, was found to contain the request that this inscription be put on his tombstone:

"I have been a staunch democrat from the cradle to the grave."

Nearly 50,000 Valued
Animals Destroyed as
Result of Epizootic

Estimate Total Loss at More
than \$2,000,000; 378 Herds
Are Reported Killed

LOS ANGELES, April 19 (AP)—A total of 48,790 animals have been destroyed since the outbreak of the foot and mouth epizootic in California, and an estimated appraisal of \$2,034,437 has been placed upon these animals and property condemned during the process of disinfection of infected premises, according to figures compiled here today by H. W. Lovell, chief accountant of the state department of agriculture.

The report which includes cases up to and including April 17, estimated that 378 herds had been destroyed. Of the animals killed 25,447 were cattle, 10,204 hogs, 12,655 sheep and 210 goats.

DISTRICT ROAD
PROJECTS DONE

Twin Falls Highway Commis-
sioners Approve Final Esti-
mates on Completed Contracts

Final estimates were approved by Twin Falls highway district commissioners at a regular meeting here Saturday upon completion and approval of several highway projects including grading and graveling of Addison avenue from a point three miles east of Twin Falls east to the Hansen bridge and one mile north and south between Addison avenue and Kimberly road five miles east of Twin Falls.

Other road projects completed and approved at this time were grade and gravel on four and one-half miles of road south and west of Hollister; grade and gravel on one mile east and west through Amsterdam; grade on one mile of road south of Twin Falls water purification plant.

The commissioner sat this time also approved depository bonds furnished by the several banks of the county holding highway districts funds.

GUARDSMEN BACK UP
ARIZONA QUARANTINE
AGAINST AUTO TRAFFIC

Situation Along Border Lines Rapidly Becomes
Intense; Sheriff Claims Authority and Is
Equipped with Arms Supply; Rumors of In-
tended Invasion Spread; Autoists Go North

WINTER HAVEN, Cal., April 19 (AP)—This little hamlet perched on the California side of the Colorado river is flamed tonight by alternate breezes of verbal war and peace, the result of Arizona's foot and mouth blockade against east-bound automobile travel.

FIVE PIANOS SALVAGED

Logan Company Takes Instruments
Damaged to Greater or Less Degree
Out of Fire-Devastated Building

Five pianos that had been damaged to greater or less extent in the fire Friday evening that devastated the basement and first floor of the B. H. Moorman building, Main avenue north, were removed Saturday by the Logan Piano company into storage in the W. M. Lambing building, Second avenue north. A sixth piano that had stood near the front of the building, had been catapulted into the building when the front two-thirds of the floor gave way, and no attempt was made to salvage it.

The five pianos that were removed Saturday were protected to an extent from heat and water by canvas and rubber coverings placed over them Friday afternoon in preparation for the removal Saturday of a hallway over head that was to have been moved to quarters in the old postoffice building which had been leased to be occupied within the next few days by the Logan concern.

OFFICERS ALLEGE PLOT TO
SMUGGLE JAPS TO U. S.

SEATTLE, Wash., April 19 (AP)—Authorities are investigating the method by which 18 Japanese, arrested in the past four days in western Washington, entered the United States, Luther T. Weedon, United States immigration commissioner, announced yesterday. The arrest of the Japanese followed the unearthing of a plot to smuggle Japanese into this country, he said. The 18 in custody are believed to have come to the United States as stowaways and deportation proceedings are to be brought against them, Weedon announced.

To the east is the bridge over the river into Yuma, Arizona, where the Arizona end is guarded by its Auto millitiamen, but back of whom are Yuma officials and citizens who have been laboring all day to alleviate the privations of the stranded travelers now going through the process of fumigation and proceeding eastward.

On the Imperial valley, California side, is Sheriff Gillett of Imperial county, who declares threats have been made from the Arizona side that the Arizona guards will cross the bridge and re-establish the road blockade in the Indian reservation—California soil—which Gillett broke down yesterday.

Gillett says he has authority from Governor Richardson of California giving him "full police powers" over the situation. He is reported to have ordered guns and ammunition from El Centro to oppose the threatened invasion.

To this, Colonel Charles W. Harris, adjutant general of Arizona, replies that neither he nor his men have any intention of trespassing on California soil.

While talk of peace and near-war was flying back and forth, the blockaded travelers were being fumigated 11 miles west of here at a station established at Knobs Siding, in the desert. Fumigation will proceed tonight until all are handled, then the border will be closed again under orders from Governor Hunt of Arizona.

SHERIFF GETS RIFLES

EL CENTRO, Cal., April 19 (AP)—Sheriff C. L. Gillett of Imperial county, California, announced here today that Governor Richardson had telegraphed him he had "full police powers" to keep the California roads open in the face of the Arizona foot and mouth blockade at the California-Arizona state line.

A supply of rifles, sawed off shotguns and ammunition has been dispatched to Sheriff Gillett, who is in charge of the California side of the situation at Winterhaven, near the end of the Yuma bridge. The sheriff declared he would restrain any attempt of Arizona guards to step across the border.

Self-Styled Hero
Sees Evidence of
Crime at Capital

Mannuel Herrick Defends Term
in Congress; "Sodom and Gomorrah
Virtuous Compared
to Washington Society"

ENID, Okla., April 19 (AP)—Mannuel Herrick, self-styled "aerial daredevil," presented his inside story of Washington politics and society in an address here this afternoon in which he defended his one term in congress, reviewed his romantic adventures in the capital and made a plea for re-election. Herrick is seeking the republican nomination in opposition to Representative Milton C. Garber, by whom he was defeated two years ago.

Sodom and Gomorrah were "paragons of virtue" compared to Washington society and capital politics which is full of graft and corruption, only the surface of which has been scratched by the recent investigations, Mr. Herrick declared.

Bootleggers openly ply their trade in the senate and house office buildings, even invading the rostrums of the legislative halls, the former congressman alleged. "A bootlegger extraordinary" might make the rounds of the legislative offices soliciting liquor or dows from congressmen, he charged. Because of his efforts to represent the people and curb "predatory industry," Herrick declared he had been harassed, libeled and bounded by the metropolitan press.

THE EASTER PILGRIMAGE

CARTER HOPES TO START WORK AT TOMB AGAIN

Co-Discoverer of Pharaoh's Burial Place Arrives in America; Gives Interesting Review on Recent Efforts

NEW YORK, April 19 (AP)—Howard Carter, co-discoverer with Lord Carnarvon of Tutankhamen's tomb in the Valley of the Kings, arrived on the Peregina today.

He hoped, he said, that the present litigation between himself and the Egyptian government might be settled so that he could resume work at the tomb next fall.

Young, looking, vigorous and eager to talk of excavations, mummies and Egyptian legend, Mr. Carter laughed at the supposition that the curse of ancient pacts descended upon explorers of tombs and sarcophagi.

Would Return Mummy.

Given the 700 mummies which worked their way into the valley, took the mummy lightly, he said. He insisted, however, that he did not believe in permanent despoliation of tombs, and he advocated that when pending excavations were completed the mummy of King Tut, as well as all other royal mummies now in the possession of the British Museum, be returned to their native resting places.

In answer to one question from the reporters' questionnaire, Mr. Carter said:

"On many ancient tombs I have found this inscription: 'Let all those who breathe life and hate death with thousands of graves, leaves of bread and beer to my soul.'"

"That is what the old Egyptians thought of prohibition. And I believe I agree with them."

"Cursed in Gold."

The explorer said he expected to find the body of King Tut "literally encased in gold, with the scorching rays of the sun and the fingers and toes incased in gold."

Mr. Carter said he was "hopeful a novel would be found within the coffin—a story placed there for King Tut's delectation in the next world," and he hoped the narrative would disclose things about ancient Egypt which were available from no hitherto discovered source.

COSSACK LEADER PLANS TO FIGHT FOR RUSSIA

TOKIO, April 19 (AP)—Ataman Semionoff, leader of Cossacks and heir to Admiral Kolchak's illustrious title as supreme ruler of the Russians, says that before he dies he will fight again on Russian soil "for the freedom of the Russian people." Just when he does not know. At present, he admits, the time is not ripe. But he has plans and hopes, he says, and his "preparations" go forward.

Semionoff has just left Tokio after a two weeks' visit in the Japanese capital. He came here from Nagasaki, where he has been living for the last year, since he left the United States at the urgent request of the American government and failed to find satisfactory asylum in China.

PRISONERS DENIED BAIL; ARE HELD FOR MURDERS

EDINBURGH, Pa., April 19 (AP)—Thirteen citizens of Lily, arrested upon charges of murder and riot in connection with the fatal disaster at Lily, April 5, between visiting K. K. K. and townspeople, were denied bail and remanded to the Cambria county jail for the June term of criminal court in a decision handed down last night by Judges John E. Evans and John H. McDonald. The decision was given upon an application for writ of habeas corpus upon which a hearing was held Thursday.

Twenty-seven other men, said to be klanmen, are held in the county jail upon similar charges.

BOY HELD AS MURDERER

SPOKANE, Wash., April 19 (AP)—Because his father struck and kicked him, Louis Craver, age 15, shot and killed the parent, John Craver, a carpenter, according to a confession police say the boy has made.

PREPARATIONS MADE FOR PAGEANT AT WALLA WALLA

WALLA WALLA, Wash., April 19 (AP)—Mayor Ben Hill of Walla Walla, considered a possible candidate for governor of the state, has developed histrionic aspirations and may soon be seen on "the boards," according to announcement here. He has been enrolled as a member of the cast which will stage Walla Walla's pioneer pageant, "How the West Was Won," May 28 and 29 next.

Thirty-two hundred residents of the Walla Walla district are scheduled to appear in the pageant here, which is a review of 70 years of northwest history.

TURKO-RUSSIAN TRADE TREATY

CONSTANTINOPLE, April 19 (AP)—The Turkish and Soviet governments have concluded a trade agreement whereby freedom of trade, subject to custom dues, is allowed between the two countries. Turkish traders are free to enter Russia at any time and to sell their wares to whomsoever they please.

The Day in Washington

The senate agricultural committee heard additional testimony concerning the Hook-White-Atterbury bid for Muncie Shoals.

Representatives of the Honduras provisional government were informed that the entire consulate was in control of their forces except for the capital.

The senate took up the soldier bonus bill which American Legion officials asked that no attempt be made to amend it from the floor.

The house approved a resolution to provide an additional appropriation of \$3,500,000 to combat the foot and mouth disease in California.

The state department received from Ambassador Hanthorn, formal explanation of his recent protest against Japanese exclusion legislation.

The effective date of section 28 of the merchant marine act was delayed from May 20 to June 20 by order of the Interstate Commerce commission.

Secretary Wallace declared that federal quarantine measures against the foot and mouth disease in California were ample to protect the interests of all concerned.

Senator Wheeler, democrat, Montana, gave bond for \$1000 before a United States commissioner for his appearance May 5 at Great Falls, Mont., to answer to an indictment charging acceptance of illegal fees.

Senator Walsh, democrat, Montana, announced that the committee on committee's investigation would not be concluded until after the courts had determined whether Harry P. Sinclair is to be required to answer questions put to him by the committee.

CRIGUI ANXIOUS FOR RETURN BATTLE WITH FEATHERWEIGHT CHAMP

Wife of Plucky Little Frenchman Responsible for His Return to the Ring; Wants Dundee to Fight

PARIS, April 19 (AP)—Madame Eugene Crigui is responsible for the decision of the French featherweight champion of the world to return to the ring. She it was who, last August, after the defeat of her husband at the hands of Johnny Dundee, ruled that he would never fight again. Seven months of the life led by the members of the Paris bourgeoisie worked the change in her attitude toward the ring.

When Gene returned from the Polo grounds after losing the world's featherweight title to Johnny Dundee and sustaining 15 of the most punishing rounds ever administered to a fighter, Madame Crigui gave her husband a look at her husband's battered face and shouted: "Never again! We will return to Paris and live a retired life."

Crigui had accumulated 2,000,000 francs in Australia and America. He invested the money, rented a little flat and settled down. He met Helran, the Belgian boxer, as he had given him word he would. All he got out of it was a badly broken hand.

Recently Crigui decided to see the world's featherweight champion. He took Madame along. At the conclusion of 20 rounds which brought the title back to the veteran Ledoux, Madame Crigui turned to her husband and said: "My word, Gene, I don't know anything about the fighting game, but I am sure you could beat the two of them the same night."

"I am certain I could," Crigui replied with slight interest. "I am quite certain I could give Dundee a real fight, too. Do you want me to do it?"

"All right, go ahead," she permitted, and then Crigui sought Helran, his manager, and told him he was ready to go back to the ring. He already has started training.

"My hand is all right again. I intend to ask Dundee to give me that return match he promised me before we sailed. I think I gave him a good enough battle for the American public to wish to see me get another chance at him," Crigui told the correspondent.

"I made no bones about taking him on right after I won the title. I feel I am entitled to another crack at him."

FRENCH FEAR OF EARTHQUAKES PREVENTS NEW TOKIO EMBASSY

PARIS, April 19 (AP)—The prevalence of earthquakes in Japan is given as the reason for the decision of the French government to abandon the plan of erecting an embassy building in Tokio. A bill recently introduced in the French chamber and sponsored by the government, asks authority to sell the site purchased in 1912.

SAYS RED PEPPER HEAT STOPS PAIN IN FEW MINUTES

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, sprains, aching joints. When you are suffering so you can hardly get around just try Red Pepper Rub.

Nothing has such concentrated penetrating heat as red peppers, and when heat penetrates right down into pain and congestion relief comes at once.

Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

Bowles Red Pepper Rub, made from red peppers, costs little at any drug store. Get a jar at once. Be sure to get the genuine, with the name Bowles on every package.—adv.

Yes, How About It?

In animal instinct always reliable! How about a woodpecker tapping on a telegraph pole?

OIL COMPANY ANSWERS IN GOVERNMENT SUIT

CHEYENNE, Wyo., April 19 (AP)—The issue between the United States of America and the Mammoth Oil company concerning the validity of the Mammoth's lease on the Teapot Dome naval reserve, Wyoming, became joined today when the Mammoth filed answer to the government's bill of equity praying for annulment of the lease on the ground that it was obtained through collusion and fraud. The Mammoth Oil company filed in the United States court a direct answer, denying all allegations of fraud and asserting the validity of its lease, thereby bringing the suit squarely to issue at a date to be set by Judge T. Blake Kennedy of the federal district court. Similar answers previously had been filed by the Sinclair Crude Oil Purchasing company and the Sinclair Pipe Line company, joint defendants.

CITIES SPEND BIG SUMS FOR PUBLIC RECREATION

NEW YORK, April 19 (AP)—More than \$14,000,000 was spent for public recreation last year by the cities in the United States and Canada, according to the Playground and Recreation Association of America, which has just compiled the figures from a questionnaire on community play. This sum is more than twice the amount spent for the same purpose ten years ago.

In a total of 680 cities reporting community recreation leadership 600 conduct 6500 playgrounds and recreation centers under public leaders. In 1900 when Theodore Roosevelt and others organized the association, only 41 cities had playgrounds and recreation centers with paid leaders.

REBELS STAGE ATTACK

MEXICO CITY, April 19 (AP)—The rebel general, Marcel Cavares, heading about 500 men, attacked the important mining city of Toluca, state of Hidalgo, less than 50 miles from Mexico City, this morning, but was repulsed by the federal garrison under General Juan Rios Zertuche after considerable street fighting.

CALIFORNIANS SEEK TO IRRIGATE MORE LAND

SACRAMENTO, Cal., April 19 (AP)—Applications to irrigate lands in California involved more than 4,000,000 acres last year, an area as large as that now under irrigation. It was announced by H. A. Kluegel, chief of the division of water rights in the state department of public works.

"A very large proportion of the development proposed," said Mr. Kluegel, "is not at present feasible because water and capital are lacking. Nevertheless, the number of filings bears relation to the demand for irrigation and power development."

The applications last year represented about five times the average yearly increase during the last decade. What irrigation has done is shown in one of the older central California irrigation districts started in about 1890. In this district the population has increased eight times; the number of farms increased from eight to 2,025. The land in 1890 was valued at about \$30 an acre and now conservative estimates place the average value at \$250 an acre. Thirty-four years ago the district had a total estimated value of \$2,500,000; today it has reached \$25,000,000.

ART GALLERY IS PROPOSED

WASHINGTON, April 19 (AP)—Priceless art treasures are jostling in valuable examples of man's progress in other fields into places of obscurity in the National Museum, and in consequence the scientists of the country have come to the support of the American Federation of Arts in its campaign for a national art gallery.

Bills providing for the construction of a national gallery are being prepared for introduction in the senate and house should funds for the structure not be raised by gift or bequest, and Charles A. Platt of New York has been commissioned to design the building by a group of art patrons who have subscribed \$10,000 for the purpose. Meanwhile, however, the situation is described as acute.

Johnny Was Well Taught.

Teacher (new style)—"If a man took two drives, one mid-iron shot and two putts to make a hole, how many shots would that be?" Johnny—"Dad would call it four."

BETTER HEALTH SERVICE

Public Health is Public Wealth
Issued by the Public Health League of Idaho

THE MEDICINE CHEST AND SAFETY.

There is no doubt that every home should have its medicine chest, where certain timely drugs are available for use. The drug store at the corner may be closed or time may be short. Possibly the physician is out of his office on a call. Emergencies frequently come and quick action is demanded. It is imperative, however, that everything in the chest be properly and carefully labeled. Many times lives are lost through carelessness in the home—the wrong medicine being taken. If you are not certain—let it alone. A medicine chest does not carry "safety" if its contents are not labeled.

The following precautions should be borne in mind:

Never guess about medicine. If a partially filled bottle has no label on it, do not take it but throw it away. When you have emptied a bottle throw it away or wash off the label. Remember—quinine and morphine look alike—it requires a chemical test to tell the difference.

Liniments are most effective when rubbed until nearly dry.

Do not use a liniment near a fire or light, as many of them are inflammable.

In many cases it is well to keep medicine out of the reach of the patient. This applies especially to sleeping draughts.

Never use medicine you have had in your house for months and years. It likely has undergone changes, due to light and heat, and is possibly inert.

Remember—a dose for an adult does not mean the same dose for a child.

Antiseptic or bichloride of mercury tablets or carbolic acid should not be kept with other medicine.

When a prescription is refilled, always send the original package, containing label.

A druggist can not refill prescriptions that call for cocaine or opiates. The federal laws do not permit it.

QUAKE HITS IRLAND.

MANILA, April 19 (AP)—An earthquake which occurred on April 15 in Davao province, southeast Mindanao, caused the collapse of several buildings and injury to two persons, according to advices received by consular headquarters. Slight shocks occurred throughout the night. The earth opened from two to six inches in several places. Damage is estimated at \$5000.

Stops Asthma

Discomfort and Annoyance Often in 24 Hours

Asthma, Hay Fever and Catarrh are responsible for much misery and falling health. If you are a sufferer from wheezing, sneezing, difficult breathing, hawking, running, phlegm, etc., to prove that you can stop these troubles quickly and easily with the pleasant, scientific Florence Formula, I will send you a \$1 bottle postpaid and free of charge or obligation. If it satisfies, tell your friends and pay me only One Dollar, otherwise the loss is mine. Merely send your name today for this liberal free introductory offer—good only for 10 days. F. SHEARER, A-1051 Coca Cola Bldg., Kansas City, Mo.

The Daily Test

SUPPOSE you tested everything before buying . . . Held it under searching light, examined it, turned it critically over and over. Not then could you feel so sure of it as of advertised goods you have never seen.

Wares advertised have already been tested. They have proved their worth under publicity that would have illumined defects. Thousands of buyers have tried them before you—and been satisfied. Without this satisfaction, they couldn't continue to be advertised goods.

That thousand-fold testing goes on each day. Advertisers invite it. They believe in their wares, and prove their wares justify belief by advertising to you daily.

Read the advertisements to know of the best—to protect yourself against unwise buying.

Advertised goods stand the test of economy—they cost less in the end.

THE GUMPS—THE INFERNAL TRIANGLE

SPANISH WAR
CALL WILL BE
COMMEMORATED

University of Idaho Student Body to Observe Anniversary of McKinley's Order for Men in Hostilities in 1898.

MOSCOW, Idaho, April 19.—(Special to The News.)—On Wednesday, April 23, the University of Idaho student body will commemorate the twenty-sixth anniversary of President McKinley's call for volunteers in the war against Spain, which was promptly answered in Idaho by formation of the First Idaho infantry, wherein company "D" was largely made up of university undergraduates. The Idaho troops took no part in the operations in Cuba, but were sent by way of San Francisco to the Philippines, where they later went into action against the native insurgents.

Two university students lost their lives in the first expeditionary force sent overseas by the United States. A monument on the university campus stands to perpetual memory of the Idaho dead, while the names of all the university Spanish-American volunteers are graven on a bronze tablet in the hall of the administration building.

Of special interest to university students in this commemoration is the fact that Colonel E. B. Christman, commandant of cadets, was commandant in 1898, and was called for duty in Cuba at that time. Colonel Christman took part in the major engagements on Cuban soil, serving with distinction at the battle of San Juan hill. After the war Lieutenant Christman continued his army service in peace, far remote from Idaho. He retained, however, an affectionate interest in the university, and sent his sons and daughter thousands of miles across the continent to become students at the institution which he served in '98. Twenty years later he was reclaimed by a new generation

COMMUNIST AGITATION IN
EGYPT INCITES VIOLENCE

ALEXANDRIA, Egypt, April 19 (AP)—Reports from industrial centers of Egypt indicate that several hundred communist leaders are busy organizing workers and inciting them to violence. The communists are believed to have entered the country when the British control was withdrawn, and evidently have made considerable headway in spreading propaganda.

KOREANS GROW TOBACCO.

SEOUL, Korea, April 19 (AP)—American tobacco transplanted to Korea, is being cultivated with results said to be nearly as satisfactory as those obtained in the southern part of the United States. Particularly good crops are obtained in North Chusan province, just southwest of Seoul, which last year produced 272,000 pounds. About one fourth of this yield was exported to China.

LASSEN PEAK ERUPTS.

REDING, Cal., April 19 (AP)—Lassen peak, the only active volcano in the United States, was in eruption for more than an hour Thursday, beginning at 7:30 a. m. The smoke and steam emitted was heavily laden with ashes.

Acorn Alcohol.

Up to the present time no industrial use has been made of acorns, but recent experiments show that alcohol can be made from them. Shelled acorns contain about 40 per cent of starch, which can be readily saccharified and then converted into alcohol.

Coal in Siberia.

The presence of coal in eastern Siberia has been known for many years, and since the construction of the first railways through that region lignite and soft coal mines convenient to transportation have been worked. The total known deposits on the mainland contain some 625,000,000 tons, part of which is hard coal.

and is seen again on duty at the old post.

It is hoped by the students that within a year the memorial and relics of the Spanish-American war will be enshrined in the Idaho memorial building which will be dedicated to the veterans of that conflict as well as those of the war against Germany.

Attendance at American Colleges
Reverts to Rate Before the War

Reports from Many Schools Show Changes Noted in Enrollment of Recent Years

CHICAGO, April 17 (AP)—Increase in attendance at American colleges and universities has moderated to about the pre-war rate, in contrast with the increases of 1919 to 1921, according to detailed reports from 30 typical universities and general reports from a total of 151 leading colleges and universities received by Dean Raymond Walters of Swarthmore college and made public here.

The 1923 advance in full time regular students in 134 of these institutions was three per cent, according to the report. The increase the previous year in 123 institutions was two per cent. In grand total enrollment the gain in 1923 over 1922 was six per cent, as compared with 14 per cent increase in 1922 over 1921. Other features disclosed were:

The increase in full-time student enrollment at 25 of the largest institutions was three per cent for 1923 over 1922, while the gain in 25 of the smallest institutions for the same period was seven per cent.

The University of California, including the southern branch, stood at the top in enrollment, with 13,276 students; Columbia university was next with 11,530, and the University of Illinois was third with 9,251.

The college of forestry at Syracuse university was the largest of its kind, with 334 students. Missouri led numerically in journalism with 207 students and in music Northwestern university was first with 347.

An enrollment of 820 made Columbia university's pharmacy school the largest in the country.

What is useless to you may be valuable to others—advertise it in the classified columns.

NEGROES TO CONVENT

WASHINGTON, April 19 (AP)—Decision to hold the national democratic negro convention at Baltimore on May 27 was announced here Friday by the executive national negro democratic committee. The purposes of the convention, the committee said, will be to organize for rendering aid to the national democratic party in the coming election.

"What makes you think you were defeated by fraud?" "I paid for 163 votes in the second precinct, and the books show that I got a total of only 153 there. Our election system is simply rotten."—Cleveland Leader.

WOMAN DISAPPEARS

LOS ANGELES, April 19 (AP)—Helen La Maie, wife of Elmer La Maie, a motion picture director, who brought charges when she filed a divorce action several months ago that her husband attempted to sell her to a wealthy Jaeger negro gambler, has disappeared. This announcement was made by her attorney, Charles H. Rash, who has endeavored to find her since she failed to appear when her suit for separation was called in court a few days ago.

Sacred Days in Islam.

In Shin the eighth and fifteenth days of the moon are regarded as sacred, and devoted to worship and rest from ordinary labor.

WILL BE DEPORTED.

HONOLULU, April 19 (AP)—E. A. Burnett, chief of the immigration forces here, has announced that two Japanese and 13 Chinese will be returned to the Orient next week, having failed to prove their right to enter Hawaii. Fifteen other Orientals, Burnett stated, probably would be deported at the same time. He said he expected a large number of immigration cases now on appeal to be decided against the applicants.

What She Said.

Allice—"Did you say 'This is no sudden' when Jack proposed to you?" Agnes—"No; I intended to, but I was so flustered that I forgot, and cried 'At last!' instead."

SERIES WON BY
BRUINS; LOSE
FINAL CONTEST

Twin Falls High School Baseball Team Takes Two Out of Three Against Pocatello; Blow Up in Last Game

The Bruins by taking two of the three games, won the baseball series with Pocatello high school on Lincoln lot Saturday morning.

Local weather conditions prevailed for Saturday's games and in the morning Twin Falls, after letting Pocatello hold a 6-3 lead for seven innings, suddenly rallied against Hogan's pitching and sent five men over the rubber for a final score of 5-3.

In the afternoon Pocatello for the first time in three years scored a victory over the blue and white by successfully trimming the local ball club, 10-4.

Bruins Blow up.

A good game and a small crowd of spectators featured the morning fracas and in the afternoon a considerable crowd turned out to see the Bruins' matchless blow up completed in the first and sixth innings. Anderson, southpaw pitcher, who performed so creditably against Buhl, took the loss in the opening round. After getting a single strikeout on four batters, he was pounded for four hits in quick succession, scoring five runs. Beans yanked Anderson in favor of Gley Sears, who pulled a neat double play over Nunnaker but brought in the sixth score on Timm's error on an over-throw home.

Sears hit into a neat double, the first of the season, in the last of the inning when he grounded out to Sears who caught a runner at second and Jarman three batters out at first with a pretty peg. Lamb disposed of the local batsmen in one-two-three order until the third inning when Marryn bumped the pill for a single and scored on a ground ball a few minutes later, after Sears had advanced him to third with a neat fly placed him into catcher's field.

Fun Begins.

Sears pitched hitless ball for four innings and got by in five style until the beginning of the sixth inning when, with the score 6-1, two Pocatello players got on as many errors on the part of Timm, Sager and Donat get singles and the merry go-round started. It was kept in progress by "Doc" Jarman's error and two more singles off Lavell Jarman, who took the box for the blue and white. Garrity let in the eighth run of the inning when he muffed Sager's fly. Finally Jarman struck out Lamb and ended the inning. The locals made a half-hearted attempt to rally in the last half, but stopped with a single by Garrity and a double by C. Jarman, which scored the Moose. Two hits and two runs in the seventh completed the visitors' scoring and two triples by Day and Jarman in the seventh and eighth completed two more runs for the blue and white.

Morning Game.

Hodgin pitched the full route in the morning game in which the locals displayed an eminently superior brand of baseball to that demonstrated in the afternoon game.

Pocatello led the blue and white until the last half of the eighth inning when the local team rallied and scored five runs on three hits and the errors of Hogan and Leate, making the final score read 6-3.

Hogan pitched a creditable game for the Gate City, letting in nine hits and getting six strikeouts. Hodgin breezed the ball past 12 Pocatellians and let in nine runs. His greatest worry was in Jackson who eluded the ball for four hits in five times up.

PICK MARATHON WINNERS

BOSTON, April 19 (AP)—The first five men to finish in today's American marathon race from Hopkinton to Boston were selected after the race by the Olympic committee as members of the American Olympic team. The sixth place on the team will be contested by Frank T. Zuna of Newark, N. J., and Ralph A. Williams of Quincy.

The five runners selected in the order they finished were: Clarence H. Demar, Melrose; Chas. L. Moller, Chicago; Frank E. Wendling, Buffalo; Wm. J. Churchill, San Francisco, and Carl W. A. Linde, Boston.

ILLINOIS WINS
TRACK CONTEST

U. of California Beaten by 14 Points; Each Makes Clean Sweep in Two Events

CALIFORNIA OVAL, Berkeley, Cal., April 19 (AP)—The University of Illinois defeated the University of California by 14 points in a dual track meet here this afternoon replete with thrills.

The final score, 72 1-3 to 58 2-3, was in doubt until the last event. Although Illinois, showing consistent superiority in the races, had amassed a commanding lead early in the meet, the California boys, fighting desperately, came near tying the score by taking several unexpected places in field events.

Illinois and California each made clean sweeps in two events. Illinois took first, second and third in the quarter mile and two mile runs, while California annexed all the points in the shot put and discus throw.

In the track events Illinois made 51 points; California 26. In the field events California scored 32 2-3; Illinois 21 1-3.

Captain Bill Neufeldt of California was the highest individual scorer with 11 points. The other high scorers were Evans and Kinsey, both of Illinois, with 10 points each.

CARDINALS LOSE
TO PITTSBURGH

Maranville's Triple in Ninth Features Game; Cubs Go into First Place

ST. LOUIS, April 19 (AP)—Maranville's triple in the ninth inning with two on bases gave Pittsburgh two runs and a victory over the Cardinals today, 4 to 2, in the first game of the series. The locals made their first triple play of the season in the fifth inning when Bell doubled Mendays at second and throw to Bottomly to retire Maranville.

The score: R. H. E.
Pittsburgh.....4 13 1
St. Louis.....2 11 2
Batteries: Meadows and Schmidt; Pfeffer and Vick.

CUBS STEP UP

CINCINNATI, April 19 (AP)—The Cubs went into first place in the National League race today by earning a 2 to 1 victory over the Reds in a brilliant pitchers' battle between Jacoby, a recruit from Seattle, starting his first regular game, and Donohue, star right-hander of the locals. Each pitcher allowed only four hits, and neither passed a man. Three-baggers by Grimes and Grantham accounted for the two Chicago runs.

The score: R. H. E.
Chicago.....2 4 1
Cincinnati.....1 4 0
Batteries: Jacobs and O'Farrell; Donohue, Sheehan and Hargrave.

SHOE GAME

NEW YORK, April 19 (AP)—The New York Nationals came from behind in the late innings and defeated Boston here today 3 to 2. Genowich weakened in the last two innings after pitching a strong game. The Giants tied the score in the eighth on Young's double and Mussell's single and won in the ninth on a pass to Ryan and hits by Southworth and Groh.

The score: R. H. E.
Boston.....2 6 2
New York.....3 9 3
Batteries: Genowich and O'Neill; Barnes and Gowdy.

SCORE 11 TO 4

PHILADELPHIA, April 19 (AP)—Brooklyn took the opening game of the series from Fletcher's Phillies today by the decisive score of 11 to 4. The Dodgers pounded four local hurlers.

Oldest Baseball to Be Used in Opening Contest at Waterloo

Sphere Patterned After Lines of 1854 to Be Thrown in Mississippi Valley Opener

WATERLOO, Iowa, April 19 (AP)—What is probably the oldest baseball "in captivity" will be thrown over the plate here May 1 when Waterloo and Cedar Rapids clash in the opening game of the Mississippi Valley league season. The ball was given John C. Hartman, editor of the Waterloo Courier, by his school teacher, Miss Martha Virden, in this city in 1872. The ball was made after the requirements of 1854, weighs six ounces and is three inches in diameter.

SOX PLASTER PHILADELPHIA

Boston Trims Athletics, 12 to 0; Stoner Pitches Detroit to Victory Over St. Louis

BOSTON, April 19 (AP)—Ehmke held Philadelphia to five hits this afternoon in the Patriots' day game before 29,000 fans and Boston won 12 to 0. In the second inning Boston slugged Hasty, Gray and Meeker, making nine hits for 12 bases and scoring 10 runs. Beane and O'Neill singled twice in the inning. The crowd pushed down part of the park fence and several persons were injured.

The score: R. H. E.
Philadelphia.....0 5 1
Boston.....12 10 1
Batteries: Hasty, Gray, Meeker and Perkins; Ehmke and O'Neill.

TIGERS WIN

DETROIT, April 19 (AP)—Lil Stoner started auspiciously as a Tiger regular today, pitching Detroit to a 7 to 4 victory over St. Louis. Homeruns accounted for all St. Louis scores, McManis driving two over the left field wall and scoring a third time on Jacobson's eighth drive. Heilmann's homer was his second of the season.

The score: R. H. E.
St. Louis.....4 11 0
Detroit.....7 13 0
Batteries: Shocker, Volght, Lyons and Severeid; Stoner and Dasher.

YANKES LOSE ONE

WASHINGTON, April 19 (AP)—Hitting Pennock and Hoyt opportunely, Washington defeated New York on its first appearance of the season here today, 7 to 2. Martin, recruit from the Southern association, fanned seven of the champions, taking Ruth, Pipp and Ward in a row in the fifth.

Joe-K says:

It is not by loving a man but by keeping him loving her that a woman is a good wife. Gee, I've got a good wife! Doyogeddy?

COOLIDGE MEN IN OHIO SEEK NOMINATIONS

**President May Have Former
Harding Forces Back of Him
in Coming Election; Several
Candidates Are Listed**

COLUMBUS, April 19 (AP)—If President Coolidge is victorious in Ohio in obtaining pledged delegates at the April 29 primaries, he will have behind him his candidacy in this state virtually the same organization that believed Mr. Harding to victory in 1920. With few exceptions it is the Harding home state forces that constitute the Coolidge pre-convention organization.

On the Coolidge list of candidates for delegate-at-large to the Cleveland convention is the name of Harry M. Daugherty, the man whose thundering speech at the Chicago convention of 1920 placed the Ohioan in the lists for the nomination, United States Senator Frank D. Willis.

Another candidate for delegate-at-large under the Coolidge banner is Mrs. James Gordon Battelle of Columbus, associate member for Ohio of the Republican national committee. She is the wife of the late Colonel Battelle, as far as ten years back was talking of his friend Warren G. Harding for the presidency.

Colonel William Caesar Proctor of Cleveland is another candidate from this state for delegate-at-large. He is the only one of the lot who was not a pre-convention Harding man four years ago. He was one of the most prominent backers of the candidacy of General Leonard Wood.

The Coolidge list of delegate-at-large candidates is completed by United States Senator Ross of Ohio, Charles Wright of Akron, former governor, and Mrs. David Todd of Youngstown. Managing the Coolidge campaign in the Buckeye state is Mr. Harding's old friend and neighbor, Hoke Booth of Marion, and the host of candidates for delegates to the convention from the 22 congressional districts of the state is replete with the names of "Harding" men and women and of "organization republicans."

RELAY RECORDS BROKEN

STADIUM, LAWRENCE, KANSAS, April 19 (AP)—Records fell thick and fast at the second annual University of Kansas relay here today. Starting with the flims in the first event, records went all the way along the line, in both track and field events. One intercollegiate record was broken when Texas University won the medley relay in 7 minutes 34.2-10 seconds. The record was 7 minutes 45.2-10 seconds.

The track was exceptionally fast and the day warm. No team or individual points were scored.

FANS HAVE CLOSE CALL

NEW YORK, April 19 (AP)—Two truck cars loaded with baseball fans homeward bound from the Polo grounds, narrowly escaped destruction late today when part of a superstructure on a Harlem river bridge near the ball park collapsed.

Hundreds of persons who saw the steel girders topple were panic-stricken.

YOUNG DRIVER ENTERED

INDIANAPOLIS, April 19 (AP)—The entry of Harlan Fongler, youngest driver in the A. A. A., in the annual 500-mile automobile race to be held at the Indianapolis motor speedway May 30, was announced today. Fongler won his first fame in California several months ago when he established a world's record for 250 miles, his average being 116 miles an hour. He originally came from Chicago, but has lived in California for some time.

PREVENT APPOINTMENT

WASHINGTON, April 19 (AP)—Indications were given at the White House Friday that the appointment of Robert Lansing as an American member of one of the two Mexican claims commissions had been prevented by the development that the former secretary of state, in his legal capacity, represented some interests likely to become claimants before the commissions.

Committee Receives Varied Appeals For Tickets to G. O. P. Convention

CLEVELAND, April 19 (AP)—Varied appeals for tickets to the republican national convention, to open here June 10, are deluging headquarters of the local convention committee. They are referred to the national committee at Washington. Probably the briefest, and most sanguine follows:

"I have enclosed the enclosed stamped envelope a ticket to the republican convention."

"Lost \$125 on you for governor."

"Was the commanding argument buried at a Cleveland leader by one applicant for tickets."

"I will probably recall," urged another, "having met me when you were in L., during your campaign. We were together on the bandstand."

INCREASING INTEREST IN SCOUT WEEK SEEN

Committee in Charge Reports Ready Co-operation on Part of All Persons Invited to Assist

Interest in Twin Falls annual Scout week is increasing as the time draws near, according to announcement made Saturday evening by the committee in charge. The committee reports willing co-operation of all who have been invited to help. Arrangements are being completed for a busy week in which for all the Boy Scouts and the boys are looking forward to the week with much interest.

Sunday, April 27, the first day of Scout week, is designated as "Go to Church" day and the various troops will attend church in a body. The ministers of the city are being asked to make their service one of special interest to the boys and those who have been seen have signified their willingness to do so. A complete program will be made within a few days. The boys seem to realize the benefit to be derived from Boy Scout week, the committee stated, and those in charge ask the people of Twin Falls to assist in impressing the seriousness of the work upon the boys as far as possible. Heretofore the public has looked upon Boy Scout week as a picnic week, but while the boys will get plenty of real enjoyment from their tasks and duties yet the real part of the idea is to assist the boys in becoming well informed citizens.

LIQUOR IN EVIDENCE

CHICAGO, April 19 (AP)—Steam radiators filled with beer, a fire hose nozzle that sprayed beer, capping and bottling machines instead of repair equipment of sewage were found in the building opposite Terry Druggists and Frank Lister's Standard beer house, police agent and partner of Bruce Armstrong, testified today in federal court. The Standard company and its officials are on trial charged with violation of the prohibition act.

DRY OFFICERS STAGE RAIDS

ACCORDING TO FICTION: NEW YORK, April 19 (AP)—Prohibition agents recently used theatrical methods to carry out two raids. Posing as cabaret entertainers they made three arrests in a Broadway club house. Then they applied burnt cork and changing their makeup they raided an inn in the negro section of Harlem and arrested the two proprietors and five waiters.

Some Hope.

The superintendent of the Sunday school was bubbling over with enthusiasm at the regular attendance of his pupils. "Dear children," he announced, "now today out of the whole school only one of us is absent—little Maggie. Let us hope that she is ill."

Seal's Second Skin Finest.

Fine brown fur of the fur seal is under a top skin that is stiff, coarse and gray in color and which is taken off when preparing the skins for the market.

Quite So.

Popular songs would be less objectionable if sung only in the hearing of those with whom they are popular.

Love Diplomacy.

And many a young man doesn't know that he is in love until the girl in the case hands him the information in a diplomatic way.

from which you spoke that evening.

"From the time I was large enough to carry a drum," a fourth proclaimed. "I have done my part. I am a thirty-second degree Mason, have a wife who was reared a republican and three sons whom I expect to vote the republican ticket. Mr. X, in the bank here, is a very good friend of mine."

"I am a beautiful, ideal republican, as are all my relations," is a typical argument. Similar pleas followed. "I have nine children and every one (doubtless deceased) votes the republican ticket."

"I have never attended a convention of the party for which I have always worked and supported, to say nothing of a father and four brothers and as many sisters."

SIX TWIN FALLS YOUTHS TO GRADUATE AT MOSCOW

University of Idaho Registrar Compiles List of 180 Seniors to Be Given Degrees; Institution's Largest Class

UNIVERSITY OF IDAHO, Moscow, April 18.—One hundred and eighty seniors, including six Twin Falls youths, will be given degrees from the University of Idaho at the annual commencement exercises to be held June 2. The list as compiled by the university registrar, includes the largest number of graduates in the history of the institution. The graduates will be from seven schools and colleges of the university and the degrees to be granted will cover a wide range of subjects in both arts and specialized science courses.

Students from Twin Falls recommended to receive degrees are: Bachelor of Arts—Francis Calvin Sheneberger. Bachelor of Science in Business—Claver Earl Wyland. Bachelor of Science in Pre-Medical—Oswald Dwight Moody Kuhns, William Spencer Starnes.

Bachelor of Science in Agriculture—Ralph Scott Bristol, Buford Elmer Kuhns.

Bachelor of Laws—Glen R. Wilkison.

COLLEEN MOORE SEEN

IN ICE-BEST BOLD "The greatest rule of my career!" This is Colleen Moore's description of the role which she portrays in "Flaming Youth," a First National production of Warner's Fabian's action novel of contemporary life, which begins a three day showing at the Orpheum theater soon.

In "Flaming Youth," Miss Moore portrays a modern "flapperish" heroine, a young girl reared in an atmosphere where reckless pleasure seems to be the only consideration.

COWBOY "WILLIAM TELL" ACT

RESULTS IN TARGET'S DEATH HARMON, Mont., April 19 (AP)—A "William Tell" stunt without the apple, resulted recently in the death of William Cosgrove for manslaughter. The two men were employed on a nearby ranch as cowpunchers. Abundantly holding out his hat, challenge Cosgrove to shoot a hole through it. Cosgrove, reputedly an expert shot, fired and missed. Abundantly then placed the hat on his head and told Cosgrove to try to hit it in that position. Cosgrove fired again and Abundantly fell shot through the head.

Cosgrove was sentenced to from one to two years in the penitentiary, but the sentence was suspended and he was released with an admonition.

Mr. and Mrs. Mitchell Give Dinner

Mr. and Mrs. M. C. Mitchell were hosts at dinner Thursday evening for Dr. and Mrs. C. R. Scott, Mr. and Mrs. L. L. Breckenridge and Mr. and Mrs. A. G. Pearson. The caterers for the table was a bowl of jonniqua and the nut cups and place cards were in lavender and yellow.

Party Given at Witham Home

The home of Mr. and Mrs. O. W. Witham on Poplar avenue was the scene of a delightful party Friday evening when the members of the drama and literature department of the Twentieth Century club were entertained at dinner by the losing division of a program contest held during the year.

was served at 7 o'clock in three courses, the guests being seated at small tables, each centered with a bird vase filled with daffodils, the menu and place cards carrying out the Easter colors of white and yellow.

A clever guessing contest followed the dinner, the prize being won by Mrs. A. L. Houghtelin. The remainder of the evening was spent with "500," a favor for high score being won by Mrs. Herman Schurmer, who with Mrs. W. W. Clouschek had the evening's entertainment in charge.

The dinner committee was composed of Mrs. C. F. Dwight, Mrs. B. N. Renner and Mrs. O. W. Witham, and the table committee of Mrs. E. V. Parker and Mrs. Don Henry. This was the first meeting of the department for the year, and those present were the members of the department and their husbands and Mr. and Mrs. W. Orr Chapman.

Miss Anna McNew Complimented

Complimenting Miss Anna McNew, who is leaving soon to make her home in California, Miss Aloise Seal entertained at dinner Friday evening at her home on Poplar avenue.

The Easter motif was carried out in the decorations, the centerpiece for the table being a basket filled with candy rabbits. White candles in crystal stands tied with yellow maline and nut cups and place cards in yellow and white made the table most attractive.

Following dinner dancing was enjoyed until a late hour, a favor being a feature of the evening.

Those present in addition to the hosts and guest of honor were the Misses May Franklin, Aylene Booth, Imogene Craven, Helen McDonald, Mary Louise Bailey, Clara Clear, Messrs. Wayne Parish, Gail Bevercomb, Donald Lenz, Kenneth Henderson, Oscar McCormick, Edward Pitts, Harry Putzier and Walker Berlich.

Birthday Party at Flechtner Home.

Alfred Flechtner was the host Saturday afternoon to the several members of the junior orchestra which took part in the semi-annual concert given the first of the month under the direction of his father, Professor Gustav Flechtner.

The party was given in honor of Master Flechtner's eighth birthday. The young guests attended a theater party at the Orpheum during the fore part of the afternoon and later concluded the event with dainty refreshments at the Flechtner home.

The guests were Helen Parrott, Helen Warner, Richard Evans, Howard Gerish, Noel Neer, Mildred Flechtner, Audrey Gabbard, John Stinson, Lewis Lindsey, Clara Bauman and Miss Edith Lipp.

Mrs. Flechtner was assisted with the serving by Miss Lina Bauman and Mrs. Bauman.

Lodge Women Meet.

Neighbors of Woodcraft met Friday evening in the Business and Professional Women's club rooms. Guards from Ruhl helped put on the initial work. Neighbor Gard, district Guardian, from Burley, and 10 members of the Burley circle, were guests of the Twin Falls circle. Each visit-

Same period a year ago	14.80

FOUR TAKEN TO HOSPITAL

BOSTON, April 19 (AP)—Four baseball fans were crushed and trampled today when a portion of a gate to the bleachers at Fenway park gave way under pressure from the crowd waiting to gain admittance to the afternoon game between the Red Sox and the Philadelphia Athletics.

All four victims were removed to hospitals, two of them badly hurt. One man suffered several fractured ribs and a boy of 16 suffered a fractured knee.

SEES ORGANIZATION AS FARMERS' ONLY CHANCE

CHICAGO, April 19 (AP)—Present economic ills of agriculture are caused by the farmer selling on a wholesale market and buying at retail, "and the farmer himself is to blame," Milo Benn, Des Moines, Iowa, president of the Farm of Iowa, declared yesterday in a radio talk.

"He meets competition on every side. It is an age of organization, and it is unthinkable that the farmer can exist and function in his present un-organized state."

ANNOUNCEMENTS.

The Business and Professional Women will not meet Monday but will hold their weekly luncheon on Tuesday as usual.

The regular business meeting of the O. E. S. on Tuesday evening will be followed by a dance for Eastern Stars and their escorts, and Masons and their wives.

The Pythian Sisters will hold a regular lodge meeting at 7:30 o'clock Tuesday evening, April 22, in the Business Women's club rooms. A surprise is in store, and a large attendance is desired.

George B. David Co., Inc., 171 Madison Square, New York, A. R. Krator, 1111 Northford Building, Chicago.

There is a significance attaching to Easter Sunday which carries with it an urge in the direction of church attendance which is shared generally.

It is a day upon which everyone should attend church even if to do so is to break an established custom.

One has a choice of many programs and varied topics at the churches of Twin Falls and surrounding towns today.

Any church—why not go!

THIS MAY BE IT

Comes now the Christian Science Monitor of Boston with a plan to end war which, on the face of it, would seem to be to a considerable extent at once simple and effective.

The Christian Science Monitor occupies a unique place in the field of American journalism. It is the cleanest daily newspaper in America and one of the most fearless. It is built for thinking people and its contents day by day reflect the careful thought of some of the keenest intellects of the country.

The plan, briefly summed up, is as follows:

In the event of a declaration of war, the property, equally with the persons, lives and liberties of all citizens, shall be subject to conscription for the defense of the Nation, and it shall be the duty of the President to propose and of Congress to enact the legislation necessary to give effect to this amendment.

There are no two meanings about it. Yet the plan recommends itself more strongly as one thinks about it.

"Take the profit out of war," we quote; "when the boys are called to the colors put capital and labor in khaki—and on soldiers' pay and ration. Make every industrial plant a cantonment. Put the Government in charge of production and dividends. Render fighting unprofitable and there will be less talk of preparing for it."

In theory at any rate it is imposed by the thought of the fortunes made overnight on the one and the blood and tears spilled on the other, during the last great war. Only in rare instances in the whole history of the world has capital paid its just share of the cost of war. Capital of the better sort has made sacrifices, so too has labor, but by and large the brunt of the battle falls upon the men and women who represent neither capital nor labor—it has always been so.

But there is a distinction between wars. There is the war of defense and the war of offense and many persons will disagree with the idea that the machinations of either capital or labor had anything to do with America's entry into the late war. The war against the German was a war of defense and if any error were committed with respect to the matter of the entry of America into the shambles it was in a too lengthy postponement of America's declaration.

Yet it is not conceivable that, had the proposed amendment been in effect at that time, any greater delay would have been occasioned. America's war machine would have functioned just as readily, perhaps more so. The only difference would have been that there would have been fewer war fortunes built up, together with a more even distribution of burdens.

The Monitor's plan should recommend itself to everybody. With such an amendment in effect and a little less hatred and intolerance in the hearts of men, war, if it comes at all,

should be a very different thing to that which has gone before.

UP TO GERMANY

The reparations outlook has been brighter this week. There has been a growing volume of favorable sentiment regarding the Dawes plan. The world seems to regard it as the last hope of European revival. The Allies, at first dubious, have warmed toward it day by day. France seems almost eager for its success. England, though without enthusiasm, says it will interpose no obstacles. Belgium agrees. Italy has no great objections. Wherefore international exchange rises—a good sign.

The fate of the report rests with Germany. All eyes are turned on Berlin. The first reports from there were discouraging. Now they are not so bad, yet hardly what clear-sighted friends of either Germany or France could wish.

The word is that Germany is ready to accept the Dawes plan "as a basis for agreement." That is not enough. If there is merit in the plan, it seems rather the merit of a complete design from the hands of a good architect. Germany is not expected to revamp the superstructure. Any attempt to do so will hold up the whole business. It should be enough for Germany to put on the roof.

Fifteen Years Ago in Twin Falls

From News Files, April 23, 1909.

Sixty-five thousand rainbow trout were placed in Brook Creek on Wednesday. The fish came from the state hatchery from Hay Spur, and are in excellent condition. This is the second time Brook Creek has been stocked with trout.

Harley O. Miller has resigned the office of president of the Twin Falls Commercial club, but will remain as the director. He found that the demands on his time were too heavy to enable him to do justice to the position. John M. Maxwell, first vice president, has been promoted to the presidency, which insures a progressive administration.

Carl Lind has commenced the construction of a garage on lower Main avenue. He has engaged an expert machinist and will fit up a first class repair shop. There are several automobiles in town now to make it interesting for him.

The Lincoln school baseball team of Twin Falls won an exciting game from the Pifer juniors in the Midway City on Sunday. Charles Austin of the Twin Falls club pitched a splendid game and Ray Rogers caught like a veteran.

The Oregon Short Line wants a free right of way from Twin Falls to the high line near the preliminary to the construction of the Nevada and California. Nevada cut off which the company is under contract to complete to the Salmon dam by August 1 of this year. The engineers are on the ground. Their headquarters have been established; rails and ties have been ordered and grading will begin the moment the right of way is assured. Two crews are at the Perrine and H. Hollister had a railroad survey made from Twin Falls to Wells, Nevada. Their purpose was to build a road which would place the falls on the route within reach of Nevada and California markets. About a year ago Mr. Perrine and Mr. Hollister had a contract for grading on the southern road, beginning at the Perrine and H. Hollister moved to Hollister and considerable work done. In all they expended about \$27,000.

This week a measure for the Oregon Short Line and the latter company played engineers in the field and made a survey from Twin Falls to a point on the line of the Southern Pacific near Grants, Nevada. Mr. Perrine and Mr. Hollister negotiated with the Short Line for months without being able to reach an agreement, finally the two crews at the Perrine and H. Hollister right of way and pay them \$15,000 provided they would guarantee the Short Line a right of way to the high line canal. If this right of way is secured the local men will still be out \$12,000 so they now ask the assistance of the people in securing this right of way.

The committee appointed to solicit subscriptions found the people hostile to the movement and they wanted more information on the subject before they would subscribe. They wished to know if they were to be given the Perrine and Hollister Pacific or supplying funds to construct a branch to Salmon dam. They were informed by General Manager Hancock that the Salmon company had accepted a loan of \$300,000 to indemnify them against possible loss on the road. That is the present situation and it is up to the people of Twin Falls and the farmers to give what they can afford.

Much Nitrogen in Air.
By volume, the air near the earth is about 78 per cent nitrogen and 21 per cent oxygen. Hydrogen is found almost uniformly distributed. Other gases and vapors of more complex molecular nature are water, carbon dioxide, ammonia and sulphur dioxide.

Bald Heads.
The thing that most annoys a bald man is the fact that every barber wishes to use his head as an experiment station.—Duluth Herald.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Motion Pictures of Lips Aid the Deaf to Speak

By means of motion pictures of the lips of a person speaking, the deaf, children with defective speech, and foreigners are

greatly assisted in their efforts to talk correctly and to interpret sounds by lip-reading. A specially designed camera takes a series of "close-ups," the "read" lip-reading the words, taking great care to move his lips in the precise positions for forming the sounds. The pictures are shown with the words and symbols to accompany them, supplying a graphic "pattern" for the pupils to follow.

Concrete Railway Ties Have Wooden Plugs for Spikes

Concrete railway ties, used on a section of a right of way in northwestern India, have proved to resist wear and weathering as well as wooden ones, according to a report. It is believed their employment will result in great savings of lumber and labor, since they will not require replacing as frequently as the timber. The cement beam consists of two blocks tied together with steel straps. The rails are fastened on by means of spikes driven into "rotated-wood" plugs set in the concrete.

Tobacco Smoke Not Harmful According to Mine Test

To test the effect of tobacco fumes, three men were confined in a closed chamber where the air was so smoky that it was impossible to see across the room. The atmosphere was so irritating to the eyes that it was necessary to wear goggles.

After an hour and a half, samples of the air and the blood of the smokers were taken for analysis. The experiment was made by the bureau of mines, and as a result, it was decided that the harm from smoking indoors, or in mines, is negligible.

Pulling Car Out of Mud

When stuck in mud the lone autoist need not despair as long as he has a pair of good chains with him, for, with their help, the car can usually be run out of the mud, providing, of course, it is not too deep. One end of the chain is fastened around the tire and to the axle of the rear wheel, while a short, stout iron bar is pushed through the links at the other end of the chain and a tow rope tied to this bar. If no iron bar is handy or it is too large to be pushed through the links, the tow rope is tied to the last cross member. The other end of the tow rope is securely tied to a tree located in front of the car, slightly toward the side. By applying pressure to the wheel, it will run along the chain for a foot or more. The operation is repeated until the wheel is out of the mud.

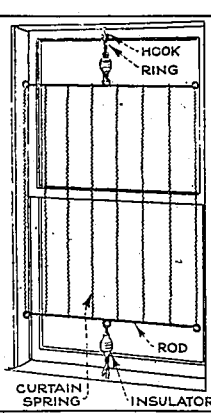

Cleaning White Woolens and Furs

Garnets are often dry cleaned at home, but the result obtained in the case of white woolens or furs is not always satisfactory. However, the simple trick described below can be employed by anyone, and the results will prove a pleasant surprise.

After the woolen or fur has been washed and rinsed in gasoline, it should be wrung or shaken out thoroughly and placed in a deep pan. A pound or two of white flour should then be sifted over and rubbed into the article. After allowing the article to dry on the line, the flour is whipped out, leaving the garment in a cleaner and whiter condition than usual after cleaning. This is due to the fact that the flour sifts into the fur or fabric and absorbs the dirt with the gasoline that cannot be wrung or shaken out. When whipped out, the dry flour naturally carries the dirt with it.

Curtain Springs Make Simple Window Aerial

Various kinds of indoor aerials are advocated for buildings where any other type is impossible; one of the most effective is shown in the illustration. Two cross-arms of heavy iron wire or light iron rod, a little shorter than the width of the window, are bent with an eye at each end, and one in the center. The two spreaders are connected with a number of the light

curtain springs that are widely used instead of curtain rods. The efficiency of the aerial depends to a great extent upon the number of springs used. The spreaders are suspended between the top and bottom of the window casing, insulators being used as shown. The springs are drawn up tightly so that they will not touch each other, and the aerial will not swing.

Showing a Tire's Work

An automobile tire company displays in its showrooms in New York one of the most perfect machines yet devised for demonstrating the working of a tire under various conditions. Mounted on a heavy stand, a big iron drum is driven by an electric motor. An axle and wheel are mounted over the drum, with the tire in contact with it and bearing its weight. The tire is under the same pressure as if on a loaded touring car. The test, a most severe one, consists in driving nails, spikes, etc., into the tire and tube and then running with them in at a rate of about twenty-five miles an hour. The machine is operated by electric power, and is also equipped with a speedometer, which gives a correct speed of wheel, as if in real-road use.

New Kind of Milk Bottle

Getting the milk out of a bottle while leaving the cream always has presented something of a problem. The usual method is to pour the cream off; the round-mouthed type of milk bottle makes this method somewhat difficult. Ray Dunn of Tipton, Ind., says Popular Science Monthly, has now provided the ordinary milk bottle with a small hole in its bottom. A cork keeps this hole closed. When it is wished to draw off the milk, the cork is removed and the milk allowed to flow into another receptacle until it is all gone.

Buenos Aires Enjoys Boom

Buenos Aires is growing faster probably than any other city in South America and its population is now said to be beyond the 2,000,000 mark, and conditions are troublesome to the authorities because housing legislation cannot be executed fast enough to keep up with the strides of the city. Immigration from abroad and from other provinces is very rapid.

Electricity in Homes

In percentage of electrically lighted homes Illinois is the leader. Having 61 per cent of the nation's population, she has over 10 per cent of the homes in the United States with electric service—or about \$50,000. Second among the states is California—third is New York.

His Alarm Clock

Hughes—How do you know it is time to get up?

Flower Nature's Thermometer

Leaves of the rhododendron are one of nature's thermometers, for at a temperature of 50 degrees Fahrenheit they erect—the temperature drops the foliage becomes horizontal and at zero the leaves roll inward.

Must Have Been Jealous

Mr. Jack—"Isn't that skirt-dancer a peach?"
Mr. Jack—"Should say she was more like brown sugar; very sweet, but coarse; a little off color, and decidedly unpred."—Dostop Transcript.

Bean Beetles in Higher Altitude

Mexican bean beetles in Colorado have begun to live higher. Four years ago they were not found higher than 5,000 feet above sea level, but now they have reached 8,231 feet.

Breakfast Food "Matrimonially Speaking"

By Hugh McKay.

My wife corrects my table manners. She's the best little etiquette coach in this world. After she'd chiding about down I know about "How to Behave in a Dining Room"—and she's downright generous with her suggestions. I believe I know as much about eating according to Hovle as the next man. But there are lots of times when I'm tired or in a hurry and do my dining on a catch-as-catch-can basis. The right to eat where by wife gets in her hints.

"Now, Hugh," she says reproachfully, "you know how badly it looks when you put your elbows on the table."

Or: "What are you trying to do—get through in time to catch a train? You're eating like a wild man." There are quite a few of her long series of sideline suggestions as to what I might do to improve my meal-time morale.

Am going to get her to write them all down and then I expect to make a lot of money from a book called "Table Training for Hovle Housewives" by the well-known authority, Mrs. Hugh McKay!

Edison Says Few Men Have Real Imagination

There is a lack of men capable of designing automatic machinery, says Thomas A. Edison in a System. We are increasing our knowledge of the possibilities of automatic machinery at the rate of 100 per cent every year. The men capable of putting the ideas into effect at two. So educational or technical institution that I know of is even attempting to develop men for this all-important phase of industry.

This is an extremely serious problem. I had much less trouble getting men forty years ago than I have today. There are not enough men to handle the work. I have examined 1,800 men for positions in the last two years. I took 80 of them and of that 80 only 35 lasted. I test out the men with a questionnaire, in which I put five little mathematical problems which I took from a child's schoolbook on arithmetic.

It seems somehow that in the modern system of education the average boy's brain stops somewhere between the elementary school and the secondary school—that is, when he is about fourteen years old—and thereafter he takes no more interest in learning anything. I find that unless a boy has become interested in some subject—it does not make much difference what it is—before he is fourteen, he never thereafter after masters anything, but is content to be led or driven.

Industry is the result of the efforts of man, and I think a large part of the work of the industry will have to begin with the education of the boy.

America Gathering All the Diamonds and Gold

The National City Bank of New York discloses the somewhat appalling truth that about half the world's present supply of diamonds is now held in the United States. In the last fifty years we have spent approximately \$2,000,000,000 in the acquisition of these trifles, but since the war we have been importing them at the astounding rate of \$50,000,000 to \$100,000,000 worth a year, and in 1923, not only a similar sum was expended on both Kimberly and the European crown jewel supplies will check the influx.

Already about one-half of the world's \$5,000,000,000 worth of monetary gold has been amassed in our vaults. Precious stones are not currency, but they perform an important stabilizing function in international exchange, and we appear to be withdrawing this last form of portable wealth from Europe as rapidly as we are reducing her gold. The more we have the more rapidly we accumulate, and while we are relieving the rest of the world of its cash, we are taking the jewelry as well.

The suggestion of highway robbery is too strong for European cartoonists to resist; but the melancholy truth is that we regret the situation fully as much as our apparent victims. But as the world's gold sources are doing anything about it as they are.—New York Sun and Globe.

It Works Both Ways

A farmer driving along a country road was thus accosted by a young man: "Hello, Reuben! Give me a lift to Bountown, will you?"

The young man climbed up and he pulled the car with lively chatter. After a few miles had been traveled, he said:

"It's quite a distance to Bountown, isn't it?"

"Quite a distance," answered the farmer.

After a few more miles the young man asked: "Say, farmer, how far is it to Bountown, anyway?"

"Well," replied the farmer, "keepin' right on the way you're goin' now, I should say it would be about twenty-five thousand miles or so; but if you wanted to get out and walk back, it wouldn't be very much more than ten miles."

Gold in Black Mud

Gold valued at \$1,800.50 was recovered from a trunkful of black mud purchased at a sale of unclaimed express by a buyer in Omaha, Neb., who was ridiculed for his purchase until a chemist's analysis proved its value.

mony. Address Love and Faith."—Los Angeles Times.

ROBINSON GETS CONTRACTS FOR ROAD BUILDING

Twin Falls Man's Bid for Grade and Gravel on 23-Mile Span Between Hansen and Burley \$20,000 Under Estimates

Contracts were awarded here Saturday by H. W. Gregory, supervisor of state highways, to C. A. Robinson of Twin Falls, for grading and graveling a span of approximately 23 miles on the Old Oregon Trail state highway between Hansen and Burley. Mr. Robinson's bids, aggregating \$150,000, were approximately \$2,000 under the estimates of the state highway engineers and about the same amount under the bids of the next low bidder.

Fixes Time for Completion.
Under contract provisions Mr. Robinson agreed to complete the work in Cassia county by October 15 next, and the work in Twin Falls county by December, 15 next.

Six contractors submitted bids on the work in Twin Falls county and five on the work in Cassia county. Several other contractors attended the session in the Twin Falls highway district offices at which the bids were opened, but did not participate in the bidding. The Marne highway district through which the road in this county is to be built, was represented by Mr. Nelson of the district board of directors.

Mr. Robinson's bid on the work in Twin Falls county, as announced by Mr. Gregory, was \$103,445.81, as against the engineers' estimate of \$114,705.57; and on the work in Cassia county the bid accepted was \$46,729.12, as against the estimate of \$50,177.12.

Comparative Figures.
These figures include 10 per cent for contingencies and cost of pipes for culverts furnished by the state. With out these items, the three lowest bids on each section of the work were:

Twin Falls county project—C. A. Robinson, \$98,935.69; Morrison-Knudsen, Boise, \$104,806.93; H. E. Cornett, Boise, \$105,997.

Cassia county project—C. A. Robinson, \$45,290.49; Ellis and Tompkins, \$50,177.12; Morrison-Knudsen, \$50,000.

Other bidders on the work in Twin Falls county were D. P. Murphy, Boise, and Brown and Fisher, Rupert. Other bidders on the work in Cassia county were Nelson and Stephenson, Burley; Brown and Fisher, and H. E. Cornett.

WOOL GROWERS ARRAYED TO FIGHT FOR SAFETY

Association Gathers Evidence to Rebut Impression that Danger from Foot and Mouth Disease Has Abated

Evidence in support of the contention that danger from the prevalence of the foot and mouth disease in California has not abated, and that rigid quarantine regulations are necessary for safeguarding the livestock industry of Idaho and other western states is being collected at headquarters of the Idaho Woolgrowers' association for presentation at a conference arranged for next Wednesday in Boise, by Governor Moore and other state officials.

This evidence includes a number of clippings from newspapers of recent date telling of new outbreaks of the malady in California.

It is the contention of the wool growers that Idaho business interests cannot subscribe millions of dollars to fight the plague as has been done in California, while expenditure of comparatively small sums for enforcement of quarantine will protect the livestock of the state.

If the disease breaks out in Idaho, Secretary Donald M. Leach of the wool growers said Saturday, it will be impossible to ship out of Idaho this year any livestock or agricultural products, and serious situation would result since Idaho's production largely exceeds its consumption.

The association received Saturday telegrams from Senators Gooding and Borah and Representative Smith in reply to its demand for enforcement of rigid quarantine against shipments of California products into Idaho through the mails.

Appraisal Made on Right of Way Lands

Arthur J. Penney and L. T. Wright, who have returned from Wells, Nevada, report that property through which the new rail-road will run contiguous to Wells has been appraised and the figures sent to George H. Smith of the legal department of the Oregon Short Line.

As soon as arrangements are completed for the purchase or guarantee of purchase of the land it is expected that bids for grading will be opened.

BURIED LIQUOR COMES TO LIGHT

Two Men Arrested and Much Moonshine Seized on Farm By Federal Men and Police

Federal officers at police headquarters here late last night were questioning J. J. Jones and S. M. Brackenhorn, who were arrested last evening when, according to the officers, they sold liquor to the federal men and later disclosed a buried cache of more than 15 gallons of moonshine whiskey on a farm about one-half mile east of town where they had resided for some time and where they were arrested. The accused men stated, according to the officers, that they had purchased the liquor from another person or persons whose identity the officers were endeavoring to learn.

The federal agents were assisted in the raid by the police. The hidden cache, located a short distance from the dwelling, included a 30-gallon barrel more than half full of liquor and several glass containers. It was brought to police headquarters.

United States Commissioner H. E. Powers was called out of bed soon after midnight and arrangements were made for arraignment of the accused men at that time.

ONION GROWER GIVEN AWARD FROM PURCHASER

Jury Finds Idaho Lettuce Company Bought Walker Crop 'In the Field' and Assesses Damages at \$1750.74

Verdict awarding \$1750.74 to L. L. Walker, Twin Falls district farmer, from the Idaho Lettuce company was returned by a jury in district court Saturday afternoon at the conclusion of two days trial of the suit instituted by Walker against the company for \$1800.25 in addition to \$500 payment previously made for a crop of onions produced last year. The verdict was signed by 10 out of the 12 jurors.

Walker claimed that the onions were purchased by the company "in the field" for \$1.75 per hundred pounds. The company admitted liability for payment of approximately \$800 in addition to the initial payment of \$500, alleging that this amount represented the sum actually received for the onions after freight and handling charges. The company contended that it had contracted to buy No. 1 grade onions, and that all of the onions delivered by Walker were inferior to that grade; but that they were sold to the best possible advantage when Walker delivered the crop in the company's warehouse and refused to remove it.

LONG ILLNESS IS FATAL

Mrs. J. B. Barrett, Mother of John A. Barrett and Edward Barrett of Twin Falls, Dies at Home in Salt Lake

Mrs. J. B. Barrett, mother of J. A. Barrett and Edward Barrett of Twin Falls, died early Saturday morning at her home in Salt Lake, following several months serious illness, according to word received here. Mrs. J. A. Barrett had been for several days at the home of the deceased, while Mr. and Mrs. Edward Barrett and J. A. Barrett left Friday evening for Salt Lake upon learning of their mother's critical condition and arrived there a few hours after her death.

FIND LIQUOR IN WEAVER ROOMS

Federal Officers and Police Seize Contraband Beverage and Arrest Man in Charge

Federal officers and Twin Falls police Saturday afternoon descended upon the Weaver rooms, 255 Main avenue east, seized a quantity of liquor and arrested Sumner I. Brownell, who is said to have been manager of the establishment in the absence of the proprietors, Paul and Jane Dawson, who were in Twin Falls, Nevada, for their opening Saturday evening of the resort owned and operated several years ago by the late William Burgoyne.

Brownell was arraigned before United States Commissioner H. E. Powers on charges of illegal possession and sale of liquor, and was by the commissioner held under \$750 bond to the action of the federal grand jury. In default of bond Brownell was committed to the custody of the sheriff.

Brownell is said to have offered resistance and to have attempted to destroy the liquor in the hands of the officers after learning their identity. The establishment has been raided on numerous occasions without discovery of liquor on the premises, although the police have expressed their belief that liquor was kept and sold there.

The proprietors, Paul and Jane Dawson, have appealed to the supreme court from conviction in the district court here about two years ago on charges of violating the prohibition law.

DELEGATION NAMED BY PROGRESSIVES LEADERS

Third Party's County Organization Arranges for Representation at State Convention in Jerome

The progressive party in Twin Falls county will be represented at the party's state convention in Jerome May 24 by delegates elected by precinct committees at a meeting called by Attorney Harry H. Kinsey, secretary of the county organization, and held in his office here Saturday afternoon.

Delegates elected were O. G. Hall, Twin Falls; L. Walton, Kimberly; F. H. Franklin, Twin Falls; W. M. Shriver, Buhl. As alternates the following were elected: Elmer Amann, Filer; D. Scott, Kimberly; Harry H. Kinsey, Twin Falls; J. E. Tolman, Amsterdam. The meeting was presided over by L. Walton of Kimberly.

SCOUT LEADERS TO VISIT

Members of National Staff and Regional Executive Coming to Twin Falls on Tour of Inspection

J. P. Freeman of New York, member of the national field staff of the Boy Scout movement, and G. H. Overteut of Spokane, regional scout executive, will arrive in Twin Falls next Saturday in the course of an inspection tour of this region, according to word received by P. Douglas Hawley, district scout executive. The visiting scout leaders will come here from Buhl, where they will arrive on Friday, and will leave here Sunday noon. Plans are being made for entertainment of the visitors at a dinner meeting.

FIGHT ON SCALE BEGINS

Big Power Spraying Machine Secured by City to Begin War on Devastating Pest on Trees in Park

Opening of war on elm scale menace in Twin Falls shade trees is scheduled to begin Monday when one of the two big power sprayers secured by the municipal administration for the purpose will start spraying the trees in the city park, according to statement Saturday evening of H. T. Blake, state horticultural inspector. Within a day or two later the second machine will be brought into play, and shade trees will be sprayed for private owners.

NEW EVIDENCE UNCOVERED

W. L. Adams Offers Affidavit of D. Patrick With Motion for Another Hearing in Suit Brought by Seaver

According to affidavits accompanying a motion for new trial in the case of J. H. Seaver, local warehouse proprietor, against W. L. Adams, local apple grower, filed Saturday in district court here, new evidence has been discovered in support of certain statements made by Adams and submitted with corroborative at the trial of the case last week, in which judgment for \$975.81 was awarded to Seaver from Adams on the former's claim for compensation for handling and marketing Adams' apples last year.

Adams testified that A. T. Harmon, a produce buyer, had agreed to pay these charges to Seaver. After the case had gone to the jury, according to the affidavits of Adams and D. Patrick of Twin Falls which accompanied the motion for new trial, Adams learned that Patrick had overheard conversations between Harmon and Adams and Harmon and Seaver that sustained Adams' contention in this regard.

GALLIHER NEW PATROLMAN

Well-Known Twin Falls Citizen Becomes Member of Police Force Succeeding L. C. Peterson, Resigned

Appointment of James A. Galliher, junior, to succeed L. C. Peterson as patrolman beginning last evening, was announced Saturday by Chief of Police P. O. Herriman. Mr. Galliher returned recently to Twin Falls from Oregon and Washington, where he spent several years. He was a member of the police force in Walla Walla shortly before returning here.

Mr. Peterson's resignation was submitted with the explanation that he expected to spend a few weeks visiting in the east before resuming work as a threshman here during the coming harvest season. During several months service as a member of the local police force, Mr. Peterson established an enviable record for efficiency.

MOTHER SEEKS DIVORCE; WOULD GIVE UP CHILD

Buhl Woman Asks Court to Award Custody of Five-Year-Old Daughter to Father

Declaring that she has not had a proper home for her five-year-old daughter, Mrs. Myrtle Birge, who instituted suit in district court here Saturday for divorce from Harry E. Birge, asked that the court award custody of the child to the father. The suit is based on alleged failure of Birge to provide for his family since February of last year. The marriage took place in August, 1915, in Twin Falls. Mrs. Birge's petition was filed by Attorney C. G. A. Divilbiss of Buhl.
