TALK PLANS FOR
SPEEDY ACTIONCoolidge and Party Heads Get
Together in Interest of Boost-
ing Legislative Program;
Farm Relief Scheduled.

WASHINGTON, May 7 (AP)—Aroused by the threat of democrats and insurgent republicans to hold congress in session during the national political conventions in June, President Coolidge and the republican organization leaders in the senate and house today reconciled their lines in preparation for an aggressive effort to clear the congressional calendar of important legislation.

The legislative program in general, and means of speeding up action, was discussed by the president with republican leaders of the house at a benefit conference and later with Senator Lodge and Senator Smoot.

The president went over with the republican house leaders the legislative situation in that body in detail, discussing the measures yet pending before the house, including legislation to afford farm relief.

While Senators Lodge and Smoot were at the White House, Senator Borah of Idaho also was called into the meeting which had to do primarily with the status of financial measures, including the tax bill and the Bureau pensions measure vetoed last week. The possibility of enacting some sort of reclamation legislation also was considered.

The house leaders, in their talk with the president, suggested June 7, the Saturday before the opening of the republican convention at Cleveland, as the adjournment day for congress. They told the president that the house would have its legislative slate clean by that time.

KLAN CANDIDATE AHEAD.

INDIANAPOLIS, May 7 (AP)—Ku Klux Klan influence, an open factor in the pre-primary republican contest that ended Tuesday, was felt with tremendous force tonight when virtually complete returns showed that Ed Jackson, secretary of state and only candidate for governor having Klan support had gained a majority vote that precluded the contest being thrown into the state convention later this month.

PARIS, May 7 (AP)—Members of the reparation commission, who recently rounded out J. P. Morgan, are planning a further meeting with London financiers some time within the next ten days regarding the project for an international loan under the experts' plan, according to information in the highest reparation circles today.

Reporter from Rival Paper Exposes Friend's Hoax on Lunacy Commission; May Gain His Freedom Soon.

DES MOINES, May 7 (AP)—The scales of justice were being tilted today to gain freedom for John Duncan a Des Moines newspaper reporter who was sent to the state insane asylum at Clarinda yesterday following his unsuccessful effort to test a theory that "any bright criminal could prove himself insane and thus escape punishment for his crimes."

Duncan, who told a wild story about having millions on deposit in a local bank to help defray reparation claims against Germany, was so successful in his scheme that the sanity commission ruled him a dangerous lunatic.

It is considered likely that Duncan will be given his freedom soon. This was not in accordance with the plan. Duncan hoped to stay at the insane hospital for a week or more, but he was recognized as he was being taken to the train en route to the hospital and a rival newspaper reporter, exposed the hoax.

Members of the sanity commission would not comment on the case today.

M. Krestinsky, the Soviet ambassador in Berlin, is expected to return to Moscow forthwith to confer with the government.

All the Soviet newspapers warn Germany if adequate apology is not forthcoming, complications may ensue.

Result of Censuses Among Producers for Financing of Co-operative Association Declared Satisfactory.

Directors of the lately formed Twin Falls County Co-operative Dairymen's association, at a meeting Wednesday evening in the office of the county agricultural agent, reviewed results of a canvass among producers for collateral security required by banks in financing the association's initial operations, and announced the results quite satisfactory.

One-half of the \$15,000 collateral security required, under an agreement with the Twin Falls Chamber of Commerce, is to be raised by the producers, while local business men will undertake to furnish the balance. Chamber of commerce directors Tuesday evening authorized appointment of commitment to carry out this undertaking on the part of the business men.

Names of Leading Figures and Prohibition Officers Brought into Trial of Congressman on Liquor Charges.

CONVINGTON, Ky., May 7 (AP)—Tables of "conspiracy," bribery and evasion involving the prohibition re-arrangements of two states and men prominent in politics in Kentucky were told today in federal court here in the trial of Congressman John W. Langley of Kentucky and four other defendants charged with conspiracy to defraud the United States government through illegal removal of whiskey from a government warehouse in 1921.

Witnesses for the government related a number of "conferences" which took place in the months of September, October and November 1921, at Lexington and Louisville. These meetings were for the purpose of discussing transportation of whiskey from the Belle of Anderson distillery of Lawrenceburg, Ky., to Philadelphia and other cities. Congressman Langley attended most of the meetings, testimony showed.

As government witnesses, confessed members of the ring, told of whiskey operations and implicated Langley, the congressman sat undisturbed with the six attorneys who compose his counsel. Langley was paid big sums for his influence in securing permits, the alleged former associates of the congressman testified. When he needed money he appealed to men in Washington who worked in conjunction with whiskey dealers in this state and the numerous "gangs" who were active in the state. Road's Case Marks Climax in Utilities Commission Session in Teton Complaint

BOISE, May 7 (AP)—Formal opening of the Oregon Short Line railroad company's defense against the complaint of the Teton Coal company marked the climax of today's events in the hearing in progress before the public utilities commission.

The coal company is asking the commission to order the railroad company to repair the tracks leading to the mining claims in the Teton valley in order to make possible transportation of coal to Idaho consumers.

But two witnesses were on the stand today. One, J. H. Stemmer, state highway engineer but formerly in the employ of the mine owners, who was the last witness of the coal company before it rested its case. The other was Eugene B. McAuliffe, president of the Union Pacific Coal company, and an expert witness for the railroad company. Mr. McAuliffe conducted the cross examination of Mr. Stemmer and then took the stand himself under direct examination for the railroad. He testified practically continuously from shortly after the noon recess until 5:45 o'clock in the evening. The hearing will be resumed at 9 o'clock Thursday morning.

Mr. McAuliffe began with the early history of the group of coal mines in the Teton valley and traced their development down to the present time, closing his testimony with an expert opinion of the present condition of the mine equipment.

Additional Territory in California
Released From Quarantine;
Few New Cases Reported;
Will Study Outbreak.

WASHINGTON, May 7 (AP)—General improvement in the foot and mouth disease situation in California with respect to new infection, plans for a western conference to make a full study of the outbreak, and the release of additional territory from quarantine featured developments announced today by the department of agriculture.

Extermination of infected herds is now outstripping new infections, only one infection in Los Angeles county having reported today and one in Merced county yesterday. For a few weeks infections in Merced county in the range district, were extensive, several new infections involving large herds appearing daily. Most of these herds are now exterminated.

Meeting Called
A conference has been called at Sacramento by Governor Richardson for a study of conditions with a view to ascertaining all facts concerning the disease in California.

New Mexico, Arizona, Nevada, Oregon and Hawaii have accepted the governor's invitation.

A number of counties and parts of counties in which no infection has existed at any time, have been released from quarantine so that the quarantined territory at present includes Contra Costa and Orange counties, and parts of Napa, Solano, Alameda, San Francisco, San Joaquin, Stanislaus, Merced, Mariposa, Madera, Kern, Los Angeles and San Bernardino counties.

Disinfection of about six thousand railroad stock cars, from exposed or infected counties, which had been withdrawn from traffic, has almost been completed. As soon as infected herds in Merced county have been buried, irrigation water, shut off voluntarily during the emergency, will be turned on again.

The situation, though still serious, has improved greatly since May 1. A few cases of supposed infection have been reported outside the quarantine zone, but investigation has shown that the ailments were not foot and mouth disease. Livestock owners and veterinarians are requested however to continue to report any suspicious cases.

SENATOR GOODING AIRS
PROFITTEERING CHARGE

WASHINGTON, May 7 (AP)—A charge that the government "profiteered" in its wheat transactions during the war was made by Senator Gooding, republican, Idaho, in a senate speech today, urging farm relief legislation.

Senator Gooding said he did not intend to press his bill to fix the price of the 1924-25 crops of wheat at \$1.50 per bushel, in view of more favorable status of the McNary-Hanger bill, proposing the establishment of ratio prices for farm products.

Dividing of Estate
Depends on Hour of
Relatives' Deaths

Efforts Being Made by Attorneys to Fix Exact Time of Passing of Men on Opposite Sides of World.

NEW YORK, May 7 (AP)—New York attorneys today were working on a unique case in which the disposition of a \$500,000 estate depends upon which of two men, who met death on opposite sides of the globe at almost the same hour, was the first to die.

The estate is that of Captain Coleman of the San Francisco vigilantes of Argonaut days. His heirs were a son, Robert Louis Coleman, San Francisco financier, and a grandson, William T. Coleman, of Menloville, Cal.

The son, with George B. DeLong, New York broker, was slain by highwaymen in Albania last April 6, while on a tour of the world. On the same date the grandson died at his home in California. How the \$500,000 estate shall be divided and whether descendants of the son or grandson shall receive the major share depends upon which of the two died first.

AGREE ON NEW DATE TO EFFECT IMMIGRANT BILL

President's Last Minute Efforts for Postponement of Exclusion Feature Wins Support of Conferees.

WASHINGTON, May 7 (AP)—President Coolidge by strenuous last minute efforts today obtained from senate and house immigration bill conferees an agreement to recommend postponement of statutory Japanese exclusion until March 1, 1925. Such a postponement would give the state department opportunity to negotiate with Japan for exclusion by treaty.

Confounded with the prospect of exclusion effective July 1, next, as agreed to yesterday by the conferees, the president held a number of hurried conferences with the result that the conferees committee at a separate late in the day rescinded their previous action and voted for the new effective date.

Insistence by the president for the delay in operation of the exclusion feature was the reason given by the conferees for the annual action. Senator Reed, republican, Pennsylvania, an spokesman for the conferees, said the provision had been proposed by the house members "at the request of the president" and had been accepted by the senate members for that reason.

The new effective date was suggested by the president to Chairman Johnson of the house conferees during a conference this morning at the White House. Senator Reed was also called to discuss the question with Mr. Coolidge and previous to his conversations with the immigration conferees chairman the president had sought to enlist the support of republican leaders of the house in a move to make a fight upon the house floor in behalf of a deferred date.

The action of the conferees today was secret but there were indications that the vote by which the president's views were met was unanimous. Senator Harris, democrat, Georgia, a member of the senate group, announced that he had voted against reconsideration and would reserve the right to oppose the report when it came to the floor.

Secretary Hoover Offers Answer to Business Problems

Industry Must Correct Wrongs Within Itself, Conference Delegates Are Told.

CLEVELAND, May 7 (AP)—The plan for "less government in business" need not be met by industry itself will supply the ten commandments in its own conduct and correct the wrongs within itself. Secretary Hoover declared tonight in an address at the annual meeting of the Chamber of Commerce of the United States. Sounding the warning that the government will legislate against existing evils in business unless these evils are eliminated by business itself, the secretary of commerce appealed for adoption of a high standard of ethics to keep the government from interfering itself into commerce.

National character cannot be built by laws, he said.

Watch Your Step. Probably the easiest task a business man is ever called upon to accomplish is to induce an employee to accept an increase in salary.

Settle Three Cheers. Conferring a degree on some distinguished person is the sedate way that college professors give three cheers.

REPORTS PLANS FOR ASIATIC COLONY IN MEXICO ARE DENIED

Los Angeles Editor Scouts Story Concerning Scheme for Establishing Big Settlement Close to Border Line.

WASHINGTON, May 7 (AP)—The story of a great Asiatic colony in northern Mexico was characterized before the house immigration committee by Harry Chandler, publisher of the Los Angeles Times, as the "wildest of dreams."

Chandler asserted that there was no truth in the report that he had sent J. C. Allison of Los Angeles to Japan to confer with Tokio bankers in regard to financing the project. Allison went to Japan, the publisher asserted, on a honeymoon and to secure capital to develop 100,000 acres of land upon which he had secured a lease.

The colony story was recently told to the committee by George H. Maxwell, executive director of the National Recreation association, who, although not naming Mr. Chandler, said a man named Allison had been employed by large land holders in Mexico to exploit the project. The publisher's testimony was developed after he had been questioned regarding the proposed Boulder canyon dam upon the Colorado river.

Mr. Chandler said several years ago at a time when labor was scarce in this country, he had arranged to bring over 300 Chinese laborers and further than this he had not attempted to exploit a colony.

Information at present, he added, would indicate only about 300 Japanese in the section reported to be the site of a great Oriental city, and these Japanese were cotton growers and not recluses in any foreign army.

Majurada J. Sanchez, chief financial engineer of the Mexican department of labor, appeared to correct the testimony by Mark Rose, director of the imperial valley irrigation district, that he received a salary from the district.

Information at present, he added, would indicate only about 300 Japanese in the section reported to be the site of a great Oriental city, and these Japanese were cotton growers and not recluses in any foreign army.

CHANGE IN TAX BILL IS VOTED

Senate Bloc Substitutes Graduated Levy on Corporation Profits for Present Plan.

WASHINGTON, May 7 (AP)—The senate republican insurgent-democratic coalition voted another amendment into the revenue bill tonight instituting a graduated tax on undistributed profits of corporations for the present flat corporation levy. The vote was 43 to 32.

The amendment was put forward by Senator Jones, democrat, New Mexico, and was endorsed at a conference of the minority party. President Coolidge had made known his opposition to the approval and republican organization leaders strenuously fought its adoption.

Then the senate accepted without a record vote an amendment offered by Senator Walsh, democrat, Massachusetts, substituting an inheritance tax for the present estate tax.

This action virtually completed disposition of controversial provisions of the measure including all committee amendments except for the gift tax which will be taken up tomorrow. This tax was written into law by measure by the house but knocked out by the finance committee.

Under the Walsh substitute beneficiaries of estates would be taxed directly. The present law applies the tax to the estate of a decedent before it is divided.

Severe Case. "Mamma! Mamma!" cried the little girl at the circus, looking at a leopard. That doggie has the largest measles I ever saw!

Right Again. "An argument," said Uncle Eben, "is mos' generally made up of two or mo' men tryin' to 'splain' sumpin' dey don't none of 'em fully understand."

Shocking. "Burr—I hear that Martin is a prude." "Carr—I'll say he is. Why he won't even look through the women's advertising pages of magazines."

Cheer Them Up. Don't be deceived by the jaunty way that people tell of their ailments. They need cheering up just the same.

During the business session committees were appointed for the coming year and plans were made for a special Mothers' day party to be given in the Business Women's club rooms on May 15. The club also voted to take up the study of parliamentary law under the leadership of Mrs. C. J. Schroeder.

Mrs. Frank McCornick entertained the Morningside club Wednesday afternoon. The guests were all attired in little girls costume and each one recited the first piece she could remember having given in her childhood days. They also brought their baby pictures and the members guessed who they were. Mrs. Jay Cochran guessed the most correctly and received first prize and Mrs. Fred Fox was awarded second. Each member also read something pertaining to Mothers' day and all were presented with a carnation.

ASKS CO-OPERATION IN WHEELER INVESTIGATION

WASHINGTON, May 7 (AP)—All persons having information which may aid in investigating the charges against Senator Wheeler, democrat, Montana, were urged today by Chairman Borah to submit it to the senate investigating committee. In a statement on the floor of the senate, Senator Borah said it was the desire of the committee to make its investigation as complete as possible.

Replying to criticism by Secretary Lockwood of the republican national committee, he declared his committee had called for copies of all documents in the case and that the attorney general had agreed to supply them. The committee has not yet received, however, any papers or documents bearing on Senator Wheeler's indictment.

BEAN GROWERS' ADVICE SOUGHT BY GOVERNMENT

Department of Agriculture Officials Here to Develop Views on Federal Licensing of Bean Warehouses.

A meeting of extraordinary significance to Idaho, in view of the growing importance of the state's bean production industry, is to be held in Twin Falls this afternoon being one of a series of public hearings conducted by the United States department of agriculture in connection with establishment of a recently authorized policy of government licensing of bean warehouses under authority of the United States warehouse act. Purpose of the hearing is to obtain those interested in bean production as to their views on proposed regulations and for suggestions. H. S. Yoho, in charge of the warehouse division of the department of agriculture, assisted by Paul M. Williams, also of the warehouse division, will conduct the hearing which will begin promptly at 2 p. m. in the postoffice building.

State Officials on Hand

L. G. Schell, federal supervisor of inspection cooperating with the Idaho department, and M. L. Dean, director of the Idaho bureau of plant industry, arrived here Wednesday evening in attendance and observation and interest, particularly in probable discussion on this occasion of bean grades and grading. Mr. Dean stated that the Idaho department will this year promulgate bean grades and expressed desire to discuss with producers and shippers the grades best adapted to the Idaho product. The hearing in Twin Falls, Mr. Yoho stated Wednesday evening, is the fourth of a series of six arranged to be held in the most important bean producing regions. The first was held at Rochester, New York; the second at Lansing, Michigan; and the third at Denver. Another hearing will be held May 12 in San Francisco and the last at Los Angeles May 15.

Wide Interest Develops

In commenting on the meetings already held Mr. Yoho stated: "We were greatly surprised to see the interest which was shown, particularly on the part of some of the largest bean dealers in the country. All the meetings clearly indicated that a great many persons interested in the bean industry do not understand the Federal law and its purposes. For this reason we should like to see a good attendance at Twin Falls. In all sections it is evident some of the largest operators of bean warehouses are going to ask to operate their warehouses under the Federal law and thus give to their customers the benefit of a warehouse receipt which has been recently styled by the Governor of one of our Federal Reserve Banks, 'the best warehouse receipt this country has ever had.'"

Receipts Valued

"The Federal warehouse receipt," Mr. Yoho stated, "has been the basis on which millions of dollars have been loaned by the War Finance Corporation. One growers' association arranged for over a \$100,000 loan through these warehouse receipts while a great many others were granted loans ranging from \$100,000 to \$100,000 by the War Finance Corporation, the Intermediate Credit Banks and many private banks. From one end of the country to the other, the bankers recognize the receipts issued under the provisions of the United States Warehouse Act as the most acceptable security for a loan on agricultural products which are stored pending such time as they can be sold without glutting the market."

Request that a hearing be held in Twin Falls was made by Representative Addison T. Smith when he learned of the department's purpose in this regard, Mr. Yoho stated.

FUNERALS

AINSWORTH—Funeral services for the infant daughter of Mr. and Mrs. C. J. Ainsworth, whose death occurred Wednesday evening a few hours after birth at a hospital here, will be held this afternoon in the DeWitt chapel.

HOSPITAL ARRANGES FOR OPEN HOUSE ON OCCASION

In observance of national hospital week, coincident with the birthday anniversary of Florence Nightingale, Twin Falls county general hospital will hold open house next Monday from 11:30 a. m. to 4:30 p. m., and has issued a general invitation with the hope that there will be as many visitors as can arrange to attend. The hospital and nurses home will be open to public inspection between the hours named.

Invitations have been issued to parents of babies born in the hospital, but every baby and its parents will be welcomed at a baby clinic to be held beginning at 2 o'clock Monday afternoon. Dr. John P. Connelley on this occasion will talk to mothers, and babies will be examined to determine the measure of their physical well being.

Refreshments will be served to visitors in the nurses' dining room.

VETERANS SHARE MIRTHFUL EVENT

Twin Falls Public Participates in Measure in Hilarity of Forty and Eight Initiation.

Twin Falls citizens shared, in a measure, in the hilarity of an initiatory ceremony held here Wednesday afternoon and evening by Twin Falls chapter of La Societe des 40 Hommes et 8 Chevaux, a nationwide organization composed of active members of the American Legion, when a half dozen candidates for membership in fraternal and comic costumes were paraded through the principal thoroughfares and then put to work, under close supervision of initiators, at various tasks, including repainting of automobile parking stalls, and vending of "hot dogs" and pop corn. The ceremonial, which was opened with the street parade, included a banquet for members and candidates served at the Hotel Fremont, followed by continuation of the initiatory proceedings and a business session in the Odd Fellows hall. Candidates contributed to the entertainment program at the banquet, which was presided over by Marshall Chapman of Halley, chief de guerre, and included an address by Harry J. Bennett of Twin Falls. The ceremonial brought here members of the organization from Boise, Halley, Gooding, Jerome, Hazelton and Burley. The next initiatory ceremonial, it was announced, will be held at Guyer Hot Springs in the Wood river country.

In Novel Roles

In the street parade, Twin Falls citizens saw as candidates for membership in the Forty and Eight, Eugene Osterander in the role of an equestrian; Glenn Wilkins as a "white wing"; William B. Wall as a Jewish peddler; Charles "Chuck" Austin in clown's garb trundling a dust pan; Herbert G. Lauterbach in grotesque uniform of a general officer carrying an immense saber and diminutive hand instrument; C. A. "Bill" Bailey in the habiliments of a native of the South Sea islands; and Chester Wine in a barrel. Dr. J. L. Alexander who also was inducted into membership on this occasion, was excused from participation in the parade because of a professional engagement at the time, but it was stated, he was not exempted in subsequent proceedings in which the general public has no share.
