LECHLEITER ON STAND DEFENDS OFFICIAL ACTS

Former Secretary of Mutual Building and Loan Association Describes Financial Operations.

Financial operations of the Mutual Building and Loan association, including creation of an alleged overdraft by K. S. Peters, former manager, and Frank D. Lechleiter, former secretary, of the association, were defended Tuesday in testimony on his own behalf by Mr. Lechleiter, who is on trial in district court here charged jointly with Mr. Peters with embezzlement of \$18,442 of the association's funds. The association's financial policy under administration of Peters and Lechleiter extending over a period of nearly four years, according to Mr. Lechleiter's testimony, was moulded by purpose to extend sales of the association's stock on the strength of the record for dividend payments. With this end in view, Peters and Lechleiter, according to Lechleiter's testimony, refrained from demanding payment of their earned commissions and charged their account with amounts drawn by them from the association's funds to meet expenses of stock selling campaign and their own personal expenses.

Denies Contract Violated.
No dividends could have been paid by the association, Lechleiter testified, if it had paid all of its outstanding obligations including commissions due to Peters and Lechleiter under their contract with the association. No provision of this contract had been violated by the financial operations described, Lechleiter testified, and further, he stated, these financial operations had been known to the association's board of directors, which had given its assent. Members of the board who testified previously in the trial as witnesses for the state denied any knowledge of the financial operations described by Lechleiter.

Mr. Lechleiter was called to the stand Tuesday morning as the third witness for the defense after Judge W. A. Babcock, presiding, announced denial of defenses motions to strike from the record all of the testimony offered by the state and for the state to deny that not guilty as to both defendants. Testimony by Mr. Lechleiter occupied the entire day session and cross examination, conducted by Prosecuting Attorney J. W. Taylor, was not completed when the evening recess was taken. Defense counsel stated that presentation of the case for the defense could not be completed before Thursday evening.

Consideration of Dividends.
Under cross examination Mr. Lechleiter stated that he had not computed the amount of commissions alleged due him from the association, but that he accepted the auditor's statement that the balance in his favor at the end of the year 1919 amounted to \$1640. No action of their association had been taken to pay the dividends, he testified, because of desire that showing of the association's earnings should not be reduced to a point where dividends could not be paid.

In reference to testimony of the directors regarding a certain interview on November 10, last, when Lechleiter was asked by the directors with allegation of shortage in the account of Peters and Lechleiter, the witness testified that he had told the directors on that occasion that the situation might be worked out if Peters and Lechleiter were permitted to continue work under their contract, or as an alternative, that the directors "might try the bond route."

In reply to question on cross examination Mr. Lechleiter stated that he had

(Continued on Page 8, Col. 4.)

President Coolidge Takes Chlorine Gas Treatment for Cold

White House Physician Utilizes War Discovery in Effort to Relieve Executive of Last Trace of Illness

WASHINGTON, May 20 (AP)—The chlorine gas treatment for cold, one of the discoveries of the chemical warfare service, was taken by President Coolidge today in an effort to remove the remaining traces of the bronchial pneumonia which confined him at the White House last Saturday and Sunday, and which has since slightly troubled him.

The president took the treatment on the recommendation of Secretary Weeks, to whom it was administered with beneficial effects some time ago. Accompanied by Brigadier General Charles E. Sawyer, the White House physician, Mr. Coolidge after lunch, went to the army dispensary and sat for 45 minutes in an airtight room while the chlorine gas was released in the room under the direction of Lieutenant Colonel M. A. Delaney, attending surgeon of the army medical center. Another treatment may be taken within a few days by the president.

Pursuers Fare Badly in Running Battle With Bank Robbers

Farmer Killed, Deputy Sheriff Wounded, as Result of Gun-Fight with Yeggs.

PRAIRIE GROVE, Ark., May 20 (AP)—Henry G. Miller, farmer, is dead, and Charles Burchfield, deputy sheriff, wounded, as a result of a running gun fight with bandits who yesterday robbed the First National bank of Prairie Grove of \$3500, according to information received here tonight.

A small posse of which Miller and Burchfield were members, located the bandits on the slope of Strickland mountain, near here, late today. Both sides opened fire on sight and Miller was fatally wounded. Burchfield's wound is expected to prove fatal.

BORAH DEFENDS MONTANA SOLON

Declares Wheeler Can Only Be "Presumed" to Be Guilty of Taking Fees for Influence.

WASHINGTON, May 20 (AP)—A review of the evidence covering the circumstances under which Senator Wheeler, democrat, Montana, was indicted in his home state on a charge of taking a fee for representing a claimant before the interior department was given the senate today by Senator Borah, republican, Idaho, as chairman of the special committee which investigated the matter. The only way Senator Wheeler could be found guilty, Senator Borah said, was "to presume him guilty and presume every witness who testified about his law contract to be a perjurer."

Sensor Borah's remarks were aimed at the minority report brought from his committee to the senate by Senator Sterling, republican, South Dakota, who disagreed with his four associates in their majority conclusion that Senator Wheeler was guiltyless "in spirit and in letter of the law" of the charges brought against him. Senator Sterling interrupted Senator Borah once or twice during his review of the committee's report, but would wait until tomorrow before entering his response.

OFFICERS GREET THAW ON REACHING NEW YORK

NEW YORK, May 20 (AP)—Harry K. Thaw returned to New York city today after an absence of seven and one-half years.

He was met by a train in the Pennsylvania station he had been arraigned and pleaded not guilty to two indictments charging assault in the second degree by kidnapping Frederick Gump, Jr., in 1910.

Bail for the two indictments was fixed at \$10,000 and Thaw was released. After he had gone to the office of his attorney he was recalled to the court for arraignment on a third indictment which had been recovered from the court's files. The indictment charged Thaw with a conspiracy to get Gump, then 10 years old, out of the jurisdiction of the court after the alleged attack. Returning to the criminal courts building Thaw also pleaded not guilty to this charge. He is released in the custody of his counsel.

SHERIFF DEFENDANT IN SUIT FOR APPLE BOXES

W. L. Adams Claims \$3250 Worth of Property Wrongfully Held as Possession of Another Person.

M. E. Finch, Twin Falls county sheriff, was named as the defendant in a suit instituted in district court here Tuesday by W. L. Adams to recover the value of fruit baskets and apple boxes which, he alleges, are wrongfully held by the sheriff as being the property of A. T. Harmon, defendant in a suit instituted by Adams last January. Adams asserts claim to this property which he values at approximately \$3250 and as an alternative for return of this property he asks judgment for his amount. He is represented by Attorney C. A. Buhl.

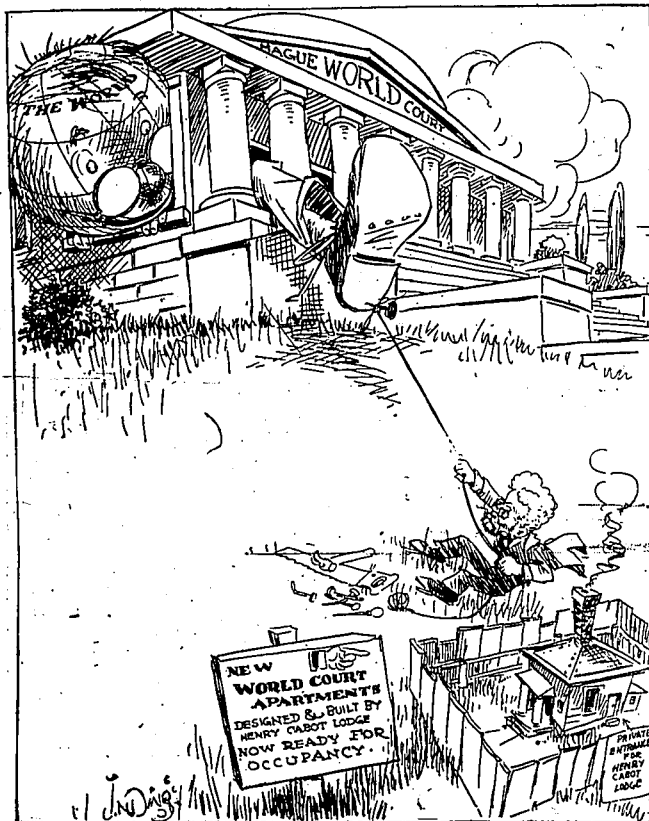

BUHL MAN ATTACKED BY BULL HAS CLOSE CALL

W. E. Luat, well known farmer residing here, and his wife were rescued from a half mile south of the coast of Buhl, suffered fracture of his collarbone and narrowly escaped more serious and even fatal injuries when he was attacked last Monday afternoon by a charging bull on his farm. Mr. Luat was borne to the ground by the attack and was being trampled by the animal. Grasping the bull's horns, Mr. Luat succeeded in turning it so that he could rise and take refuge over a fence.

Copyright, 1933, by the New York Tribune, Inc.

Coolidge Stands by His Policy on Plan for World Court; Senators Seek Action

JEWS VICTIMS OF MASSACRES

Pogroms Reported Raging; Several Killed and Wounded; Trouble Starts at Budapest.

VIENNA, May 20 (AP)—Pogroms against the Jewish population of Transylvania have been raging for several days, according to report from Klausenberg. There have been massacres in several towns.

Twelve persons are said to have been killed and a larger number wounded. At Szatmar, a Jewish student, Heinrich Kugler, is declared to have been hanged to a lamp post by a mob. His mother was drenched with petroleum and burned before his eyes prior to his being hanged. At Tolu numerous Jewish stores were plundered and burned. The mob, under the leadership of students, drove a Jewish woman, unclothed into the market place.

It is asserted that in Klausenberg, Rumanian officials and members of the Rumanian secret police who previously had been arranging a demonstration in honor of Crown Prince Charles of Rumania, who was in town, took part in the disturbances there.

BUDAPEST, May 20 (AP)—Jew-baiting, which for some time has increased under extraordinary circumstances, while Professor Bugarsky was lecturing on general anatomy some of the students rose and demanded that his Jewish auditors be killed on the spot in order to furnish material for dissection, "so rarely have we seen Jewish corpses."

The students declared that only the bodies of Christians were submitted for anatomical study, as the Jews buried their poor dead. They asserted that it was unjust to them that Jews should profit through study on the bodies of Christian dead.

Professor Bugarsky protested energetically against the interruption. He called for the assistance of aton of Bas who succeeded in helping four Jewish students to make their escape from the class room after they had suffered minor bruises from students who attacked them. It was understood the university senate intends to expel the unruly students.

LODGE PROPOSAL IS LATEST OF SEVERAL SUGGESTED SCHEMES

Foreign Relations Committee Members Confer with President; Will Attempt Course in Harmony With His Views.

WASHINGTON, May 20 (AP)—Republican members of the senate foreign relations committee were told by President Coolidge at the White House conference tonight that his position with reference to the world court question was the same as indicated in his message on the subject in various statements since made.

The committee members who were headed by Chairman Lodge, it was said, would attempt to formulate a plan which would be in harmony with the president's position. The visit to the White House of the republican members headed by Senator Lodge of Massachusetts, the committee chairman and himself the author of a world court proposal, was preliminary to a meeting of the full committee tomorrow on the world court question.

The committee meeting was called by Chairman Lodge several days ago at the request of Senator Swanson, of Virginia, ranking democratic member, who indicated in a public announcement that unless some action soon was taken he would move to discharge the committee, thereby bringing the world court question to the senate floor.

Confers With Hughes
The meeting was preceded by a lengthy conference between the president and Secretary Hughes.

Three world court plans are before the foreign relations committee and Senator Pepper of Pennsylvania, a republican member, was understood to have prepared for discussion at tonight's conference an outline of a compromise proposal on which he has been at work. The original Harding-Hughes plan, providing for conditional American adherence to the permanent court of international justice, has lain dormant in the committee for more than a year although action on it was recommended by President Coolidge in his message to congress and the executive repeated his endorsement in his recent New York letter.

Lodge Plan

Senator Lodge presented his proposal about ten days ago without consultation.

(Continued on Page 4, Col. 4.)

ELDER NAMED BY IDAHO BOURBONS

Wilson Defeated for National Committeeman; Fight in Committee Reported.

ST. MARIES, Idaho, May 20 (AP)—Robert Elder of Coeur d'Alene, who is recovering from an operation in a Portland hospital, was re-elected national committeeman by the Idaho democratic state convention here tonight by a vote of 52-34 to 41-3.

After Asher B. Wilson of Twin Falls, Mr. Elder's strength was demonstrated in the election of a temporary chairman when the convention met this afternoon. This strength was consistently maintained throughout the deliberations of the credentials committee tonight and the fight, over the adoption of its report, his strength increased, by the vote which resulted in his selection which was the climax of the convention.

The first sign of a break in Elder's favor came during the vote in the fight on the credentials committee report when the opposition lost a few voters to the winner, and in the vote by which G. A. Walters of Caldwell was elected temporary chairman this afternoon over M. Reese-Hattabaugh of Grangeville.

Mrs. Teresa Graham of Coeur d'Alene was unanimously re-elected national committeewoman.

A fight on the credentials committee report opened at the beginning of the night session when W. Orr Chapman of Twin Falls, Wilson's campaign manager, presented a minority report signed by 11 members of the credentials committee. The report provided that C. O. Stockinger be seated from Lincoln county and E. Noble be seated; that G. L. Tyler be seated as a member of the Banquet court delegation and that the other five members be permitted to cast their entire six votes.

RICKARD REPORTED AS NAMED BY GRAND JURY

NEWARK, N. J., May 20 (AP)—Indictments against Tex Rickard, six other men and an unknown corporation for the transportation of the Dempsey-Carpentier fight films are reported to have been returned by the federal grand jury today.

The indictments are understood to charge illegal transportation of the films in interstate commerce.

DEBATE ON FARM AND BILL OPENS

Proponents of McNary-Haugen Measure Line Up in House; Hope to Reach Vote by Saturday; Expect Close Contest.

WASHINGTON, May 20 (AP)—The house today formally took up the McNary-Haugen farm relief bill with debate, limited to 15 hours.

Those in charge of the measure, admitting that the result probably will be close, said they hoped to reach a vote by Saturday.

Chairman Haugen of the agricultural committee, joint author of the bill, aided by Representative Tinch of Kansas, a republican member of the committee, and Rubey of Missouri, a democratic member, planned to direct the fight in behalf of the bill. The opposition will be directed by Representative Voight, republican, Wisconsin; Aswell, democrat, Louisiana; and Kincheloe, democrat, Kentucky, all committee members.

Urges Other Bills.

Preceding general debate the house spent an hour discussing whether the measure should be given the right of way. Mr. Kincheloe declared other farm relief proposals also should be taken up and urged that an opportunity be given to discuss the so-called "Kokom" plan, by Representative Aswell and providing for a co-operative marketing system.

Mr. Aswell asserted the "scheme" was to make money think they at "either vote for this (McNary-Haugen) or no other farm relief proposal." He added he could not support a measure with such "wild theories." Denying the bill to be "an emergency character," Mr. Tinch charged that much propaganda had been issued against it. He said he wished to deny newspaper stories portraying the measure as either a "socialist or bolshevik" proposal.

Scores "Trusts."

Representative Schall, republican, Minnesota, asserted that "trusts" have been settling prices "right and left" and it would be a "strange thing" if the farmers could not get the protection of the tariff he is entitled to in comparison with other basic industries.

Opening debate, Mr. Haugen gave exhaustive review of the measure's proposals while opposition to the bill was voiced by Representative Linthicum, democrat, Maryland, who several times interrupted the debate to make a point of no quorum.

KNIGHTS OF COLUMBUS CLOSE STATE SESSION

POCATELLO, May 20 (AP)—George Meier of Boise, formerly state secretary, was elected state deputy of the Idaho state council, Knights of Columbus, at the closing session of the state convention here today. Nicholas Nye of Nampa, was chosen state secretary; A. C. Lineham of Genesee, state treasurer; J. L. Fitzgerald of Wallace, state auditor; and H. H. Hood of Pocatello, state warden.

William H. Macaulay of Twin Falls, was chosen as first alternate to the national convention. New York city delegate, J. A. and William Cahill of Moscow, second alternate.

Coeur d'Alene was selected as the next meeting place of the state organization.

Smith Bill Would Augment Supply of Water for Idaho

Introduces Measure in House Providing for Developing Artesian Wells with Proceeds from Land Granted State.

WASHINGTON, May 20 (Special to The News)—With view to augmenting Idaho's water supply for land reclamation by development of artesian waters, Representative Addison T. Smith has introduced in the house a bill providing for the granting to the state of Idaho 200,000 acres of land to be leased or sold and the proceeds used in developing artesian wells with the hope of discovering artesian water.

The bill, which has been referred to the committee on public lands, provides "that there be, and are hereby, granted to the state of Idaho 200,000 acres of unreserved, non-mineral, surveyed public lands in the said state, which shall be used, held and disposed of by sale or lease, and the proceeds therefrom for exploring for artesian water for the irrigation of arid lands and to enable the state to co-operate with the United States reclamation service in developing and conserving artesian water supply and the construction of dams and reservoirs for irrigation purposes."

WOOL OUTLOOK REPORTED TO BE IRREGULAR

Conditions in Producing Areas
Spotted, Federal Report
Shows; Shearing Near Com-
pletion; Activity in Utah.

WASHINGTON, May 20 (AP)—Condi-
tions in the wool producing areas of the
range country have presented a rather
spotted appearance during the past two
weeks, fair activity in certain sections
being counterbalanced by extreme dull-
ness in others, according to reports re-
ceived by the United States department
of agriculture from special representa-
tives located in the various states.

As a rule shearing is progressing rap-
idly and in some states is virtually com-
pleted. This is true in California with
the extreme northern portion. In
Washington and Utah, shearing is about
80 per cent completed, and in Arizona it
is practically all over. This is also
true in the Union Pacific territory in
Wyoming. Exceptions to this rule are
Colorado, where probably not more than
25 to 30 per cent of the sheep have been
shorn, and New Mexico where practi-
cally no shearing yet has been done. As
a rule buyers are inactive and sales
limited.

Active in Utah.

Actively was evidenced in Utah and
Wyoming. About two-thirds of the
Utah crop has been sold with about an
equal proportion of the Nevada crop
contracted for. In Wyoming prospects
favor the bulk of the clip being sold
or contracted at an early date. Buyers
are showing considerable activity in
that state.

Washington reports about 35 per
cent of the clip sold and about 25 per
cent moved out of the state.

San Angelo area of Texas reports
about 3,000,000 pounds of wool have
been contracted on the sheep's backs
and the first public sale was scheduled
for today. Approximately 2,500,000
pounds are reported in warehouses at
Del Rio, Kerrville and San Angelo,
Texas.

Virtually all of the Arizona wool is
being consigned to Bascom.

In Colorado from 10 to 15 per cent
of the clip has been sold, but there are
few buyers in the field and there has
been practically no contracting. In
that state three pools hold approxi-
mately 625,000 pounds of wool.

Tone Appears Weak.

Price changes since the first of the
month have not as a rule been mat-
terial, but the tone appears weak and
the trend downward. In Utah, where
buyers have been most active, sales
have ranged from 32 to 43 cents, with
the bulk 38 to 40 cents. Two large
amounts, however, were moved at 42c.
In Texas few sales were reported up to
47 cents with more at 40 and 42 cents.
Wyoming sales in Rock Springs and
Rawlins territory have ranged from 40
to 41 cents. In Colorado buyers and
prices are far apart on the question of
sales, growers asking 36 to 40 cents
with most sales at 36 to 37 cents. New
Mexico buyers are offering 38 cents
and in Idaho there have been some
small sales at 38 cents.

Meaning of "Double Standard."
The term "double standard" is used
in both ethics and in money. In the
first case it refers to what is known
as the double standard of morals,
whereby certain privileges are al-
lowed to men that are not permitted
to women. In money the double stan-
dard is a monetary standard based on
both gold and silver as the material
of the circulating medium, distinct
from the single standard based upon
either gold or silver.

Men and Women in the News of the Day

Above: SUZANNE LENGLEN, Mrs. E. H. HEDGES
Below: JAMES CURLEY & REAR ADM. FULLAM

ACCORDING TO THE NICE CORRESPONDENT of the Paris L'Auto, Suzanne Lenglen, world's champion tennis player, is ill with jaundice and will be unable to defend her three French championships. In a signed statement Rear Admiral W. F. Fullam, U. S. N., retired, declares there is nothing fundamentally wrong with the American surface fleet, which he says is not inferior to the British. He adds, however, that the navy is weak in submarines and aircraft. Mrs. Eleanor Hedges, Harris, bizarre central figure in the successful marriage annulment proceedings brought in New York by Beverly D. Harris, formerly vice president of the National City Bank, is under arrest there on the charge of forging Harris's name to a letter on which she sought to reopen the case of the grounds that he had extorted her. Mayor James Curley of Boston, has asked a senatorial investigation into the collection of funds for the Coolidge campaign committee, alleging a plot to buy the presidency.

BETTER HEALTH SERVICE

Public Health Is Public Wealth

Issued by the Public Health League of Idaho

TEETH AND DEAD NERVES.

When a tooth reaches a certain status of decay the inner part of it becomes infected and treatment is demanded. In this inner part or chamber we find blood vessels, a nerve supply that is extremely delicate because of the striding outside protective walls. When decay touches the inner chamber the live tissue therein dies and becomes infected within the tooth.

It is frequently the case that this tissue dies under fillings that are too large. Sometimes the fillings have not been properly put in, and this leads to tissue-dying.

It is not sufficient simply to put medicine in a tooth of this sort and cover it with a filling or crown. When the medicine has lost its power, an abscess will develop and pain will form continually until the tooth has been properly cared for.

Such abscessed teeth when treated improperly do not always ache because the pus when formed is quickly carried into the blood stream and it does not collect in any place to cause a swelling with pain. These teeth carry a great deal of harm for the system.

It is not always necessary to yank the offending pus-pocketed tooth out. Sometimes it can be saved with careful treatment and can render good service for years. If a person is well and the number of teeth left is small, it is frequently better to try to save the tooth and try to get future service out of it.

To find out whether a tooth is worth saving, the inner portion is cleaned out and sterilized. Then if the examina-
tion shows the possibility of ef-
fective filling, the inner chamber or
space is filled with a substance that

does not irritate the part at the end of the root, and this filling seals the root and is workable with the tooth. After the root is filled it should be X-rayed each year to see that it does not become infected again.

It is impossible to say just how long this tooth will function without disaster even if the work is done under the most careful conditions. We do know, however, that many of them render service for a long time. Once in a while and abscess will form on a tooth almost as soon as it is treated, but this is more the exception than the general rule.

The best system after all would be to avoid the uncertainty by starting early to have the teeth examined care-
fully. When cavities make their initial appearance, have them filled. Don't let the decay work along unchecked until it has progressed into the inner part of the tooth.

SUPERVISOR GARVER PROMOTED

R. D. Garver, who has been supervisor in charge of the Minidoka national forest for the past four years, has been promoted to forest inspector of the in-
termountain district with headquarters at Ogden, Utah. Mr. Garver will take up his duties at Ogden on June 1. S. S. Stewart, formerly deputy supervisor of the Salmon forest, will succeed Mr. Garver on the Minidoka.

12:15 p. m.—Baseball scores, inning by inning.
6 p. m.—Concert by the Black Cat orchestra; jazz program.

"Go West, Young Man."

Horace Greeley did not say, "Go West, young man," first. This expression was first used by John L. Soule in 1851 in the Terre Haute Express. Greeley later used the sentence in an editorial entitled, "Hins Toward Reform." Later Greeley reprinted the article from the Terre Haute Express and explained that he was not the originator of the expression.

Boxing Improves Eyes.

It is said that boxing improves the eyes. Perhaps it does, but there are times when boxing puts both eyes in mourning.

Find Uses for Old Cans.
Millions of cans from food piles will now be recast into many conveniences for the home, as the result of a series of experiments recently conducted.

New Industry in Crabs.
A new industry is expected to spring up on the Pacific coast as the result of the invasion of Alaskan waters by the king crab formerly only found in merchantable quantities near Japan.

Death Rate Is Declining.
The death rate of the United States steadily declines. Registration, which now includes eighty-five per cent of the entire population shows deaths last year to have been only 11.8 per 1,000.

Ban on Bracelets.

Concrete Pavements Grow Stronger Year After Year

When you vote for a paved road or street, you want to know that you won't be called upon for assessments every now and then to repair or rebuild it.

Built according to present-day high standards, Concrete roads and streets permanently withstand the heaviest pounding and grinding of modern traffic. In fact, they grow stronger year after year.

That is because their definitely proportioned mixture of sand, pebbles or broken stone, and water, is held together by the everlasting grip of that tenacious binder, portland cement.

Concrete Pavements have the repair built-in and the maintenance built in. That is why they pay you handsome dividends in satisfaction and service.

Firm, rigid, unyielding, and the last word in paving economy, Concrete Roads and Streets are also skid-proof. And their color is a pleasing, light gray—another very important advantage, especially for night driving.

Watch for advertisements telling about the many other uses of concrete. And remember that the Portland Cement Association has a free personal service to offer you. Whether you use concrete or have it used for you, this service will give you more for your money.

Our booklets R-3 and R-4 tell many interesting things about Concrete Roads and Streets. Which one would you like us to send? There is no charge.

FIGHT RENEWED ON NOMINEES TO FEDERAL BOARD

Howell Voices Objections to Harding's Choice After Banking Committee Reports Favorably.

WASHINGTON, May 20 (AP)—The fight against the nomination of members of the federal farm loan board by the late President Harding, was renewed today by Senator Howell, republican, Nebraska, at the time on the floor of the senate after the nominations had been favorably reported by the banking committee.

Entering a series of charges involving the conduct of the board declaring the question had arisen as to whether the "senate could afford to put its stamp of approval on the methods" of administration adopted by the board, the Nebraska senator was met with the assertion by Senator Glass, democrat, Virginia, a member of the committee, that the nominations had been approved after a complete hearing.

Named by Harding.
The nominees—Lewis J. Pettibone of Kansas, Elmer S. Landis of Ohio, Morten L. Kelsey of Nebraska, and Edward E. Jones of Pennsylvania—were given recess appointments a year ago by President Harding and their names were sent to the senate last December by President Coolidge.

Senator Howell charged there had been a "violation of a cardinal principle of public policy," which should be assessed against the board in the matter of the appointment of Charles E. Lobdell, its former chairman, to the post of fiscal agent, at a salary of \$25,000 per year. This action he declared to be "unlawful procedure in the creation of a new official."

Many Charges.
Other charges included: Looseness and gross misconduct of affairs in the board, "indicating incompetence," and evasions by the lack of books of account.

Senator Glass again declared the hearings had been closed only after Senator

DROUTH FACTOR ENTERS FISH PLANTING PLANS

BOISE, May 20.—In view of the fact that many or smaller trout streams throughout the state are already so low that unless rains come within a few days they will be completely dry, according to its announcement issued today, believes it the best policy to confine earlier fish distribution to those lakes and streams in which it is known there will be sufficient water to carry the fish in safety through this abnormally dry period.

"In this work," said W. M. Kiel, state fish commissioner, "we hope that the sportsmen in general and the fish and game associations in particular will co-operate by sending into this office information regarding the waters with which they are familiar and especially those for which they have already sent in applications for fingerling fish. All our hatcheries will be filled to capacity with fingerling fish this summer, and it is regrettable that this condition has arisen which will prevent their being planted in many streams that were badly in need of restocking. Where it is decided that applications cannot be filled on account of shortage of water, and the intended fish diverted to some of the lakes and streams of the interior mountain country, such applications shall be kept on file and a greater number of fish consigned to such waters another season if conditions warrant."

Abaca From Banana Trees.
Among the many banana trees in the Philippines is the musa textilis which furnishes the Manila hemp (abaca) of commerce.

Independence.
In your own flat, you have a little independence, in your garden a little more, on your 100 acres 75 per cent.

Government Bonds are Best.
A government bond draws much interest, but a post office does not. It is more profitable to the holder.

Howell had been asked if he "had any new questions to present."

"The senator had none," Senator Glass said. "If he will present them now, we will go further."
Answering Senator Dial, democrat, South Carolina, Senator Howell said "there has not yet been an audit of the board's account—but merely an analysis of them."

KLAN ACTIVITY BEING PROBED

Senators Investigate Charges Against Hooded Order; Witness Alleges Graft.

WASHINGTON, May 20 (AP)—Charges of Ku Klux Klan activities in the election of Senator Mayfield of Texas, particularly in reference to the use of money occupied the attention today of the senate committee investigating the question. The use of Klan money in the 1922 elections was denied by K. H. Furney, cashier of the Imperial palace, and J. E. McQuinn, auditor and assistant cashier, and was asserted by J. Q. Jett of Whitepath, Ga., a former Klan employee.

Both Furney and McQuinn were emphatic in their statements that no Klan money had been used and Jett was equally positive that Imperial Wizard H. W. Evans had turned \$25,000 over to Furney for use in the Mayfield campaign.

This Furney denied.
It was impossible for any Klan money to be used at any time for any purpose without his knowledge, Furney told the committee and Chairman Spencer at once interjected an inquiry as to whether the Klan had expended any money in Texas directly or indirectly on the election of Senator Mayfield. Furney replied with an emphatic, "No, sir."

Not only did Jett insist that Imperial Wizard Evans had given Furney money for use in the Mayfield elections, but he asserted that the Klan "all the way down" were "stealing" Klan funds and that all employees were "grafting."

McQuinn was equally sweeping in his denial of the expenditure of Klan money in the Mayfield campaign.

TOURIST PARK NOTES.

The majority of the guests in the tourist park are people looking for work. The greater number coming from neighboring states. Of the 130 cars registered for the first 10 days, 31 bore California licenses, and 24 came from Washington.

It is interesting to watch the meeting of old friends in the park. Sometimes it is two parties of tourists, and often it is residents of the city "just looking around." The writer spent a very pleasant hour with the Rev. and Mrs. F. P. Frisbee of Raymond, Washington, who are on their way to southern Colorado or New Mexico, seeking a climate that is more healthful. The Rev. Mr. Frisbee is a native of Asheville, N. C., the writer's former home.

Mr. and Mrs. H. E. Fischer and Mr. and Mrs. W. L. Fischer of Maupin, Oregon, are making a leisurely trip to Dubuque, Iowa, where they will remain during the summer.

E. F. Keels of Nampa, accompanied by a friend, stopped for the night, on their way to various points in Wyoming.

J. C. Perkins and family of Delta, Colorado, left Tuesday morning for Portland, Oregon. From there they go to Montrose, California.

Mr. and Mrs. C. C. Richards of Allen, Oklahoma, are returning from a trip through Washington.

The News is read by the permanent earning classes.

Produce Petroleum Products.
By decomposing raw material and then allowing the products to be acted upon by hydrogen, an investigator has succeeded in producing petroleum products from vegetable oil thus obtained.

Origin of "Parlor Car."
It is said that Jenny Lind applied the term "Parlor Car" in a joking way to a car that was specially prepared for her comfort when she made her tour of the United States from 1850 to 1852.

PIRATES WIN BATTING DUEL

17 Hits Take 12-3 score for Pittsburgh; Giants Drop to Third Place.

PITTSBURGH, May 20 (AP)—Pittsburgh hammered three Giant pitchers for 17 hits today, the Pirates winning the second straight game from New York, 12 to 3. Eight of the Pittsburgh hits were for extra bases, Grimm leading the attack with two doubles and two singles.

R. H. E.
Pittsburgh 12 17 3
Giants 3 11 3

Batteries: Dean, Maun, Jonnard and Snyder; Meadows and Goech.

PHILLIES WIN FROM PHILLIES
CHICAGO, May 20 (AP)—Vic Keen held the Phillies to five hits today and the Cubs won, 7 to 4. All the hits made off Keen were for extra bases and four of them were in the first three innings, after which Moken, who hit a homer in the ninth, was the only visitor to reach first base. Sand hit a home run in the first and Walker in the third.

R. H. E.
Chicago 7 11 0
Phillies 3 11 3

Batteries: Glazner, Betts and Henline; Keen and Hartnett.

Brooklyn at Cincinnati, postponed, rain.
Boston at St. Louis, postponed, rain.

All four American league games postponed, rain.

HUSKIES IN FIRST PLACE

The University of Washington by defeating the University of Idaho on two successive days advanced into first place in Pacific coast conference baseball Tuesday afternoon.

Prior to the games which Washington took at Moscow with an 11 to 8 score Monday and a 6 to 4 score Tuesday, Idaho occupied first place in the standing. Now Washington is in top place with Idaho standing second with a percentage of .500.

Today the Idaho school will meet the University of Oregon in an effort to boost their standing, with the expectation of taking the coast title for the season.

AUDITORIUM AS MEMORIAL PLAN

Mayor Hodgkin Suggests Community Undertaking in Talk to World War Veterans.

Erection in Twin Falls of a community auditorium to serve as a memorial to men and women of this county who served with the armed forces of the nation during the world war, was suggested by Shad L. Hodgkin, Twin Falls Mayor, to American Legion members at luncheon meeting in the Anderson hotel Tuesday. Such a building, the mayor suggested, might provide accommodations for the public library and armory room for the Twin Falls unit of the Idaho national guard. The plan, the mayor suggested was one which all civic and patriotic organizations of the community might co-operate.

Mr. Hodgkin was introduced at the meeting by Dr. F. E. Snook, in charge of the program for the day.

FILER'S KIWANIS CLUB RECEIVES ITS CHARTER

Twin Falls Organization Members Join With Neighbors in Presentation Festivities.

Twin Falls Kiwanis club members joined Tuesday evening with members of the Filer Kiwanis club at a banquet at the Elks club at which the charter for the Filer organization was presented by J. E. Edgerton of Pocatello, Kiwanis district governor. Brief addresses were made on this occasion by C. F. Wright of Twin Falls, Kiwanis district lieutenant governor, and officers and members of both Filer and Twin Falls clubs.

SHORT REHEARSAL SCHEDULED

Members of the "Elks Review of 1924," the big home talent musical-minstrel offering of Twin Falls lodge No. 1183, which will be presented at the lavatory theater June 2 and 3, will meet for a short rehearsal this evening at 7:30 o'clock.

The rehearsal will be completed in time to allow everyone who desires to attend the national guard company's dance, it was announced.

The committee in charge of the Elks' show met Tuesday noon and discussed the various angles in connection with the presentation of what promises to be one of the biggest and best productions ever given by the lodge. Publicity will be mailed out to the surrounding cities in the next few days.

What is useless to you may be valuable to others—advertise it in the classified columns.

COOLIDGE FIRM ON WORLD COURT POLICY

(Continued from page one)

Intention either with the White House or the state department. It provides for creation of an entirely new court through a third Hague conference to be called by President Coolidge. Senator Swan also has a plan, which is a combination of the original Harding-Hughes proposal and the suggestion made by President Harding in his St. Louis address last June for divorce of the existing court from the league of nations.

ABANDON SEARCH FOR TWO MISSING SOLDIERS

HILO, T. H., May 20 (AP)—Search for privates Edward Hinman and Howard Simmons, soldiers attached to the military force on duty at Kilauea volcano, who have been missing since a violent explosion at the great crater last Sunday, was abandoned today. It is feared that the soldiers may have been knocked unconscious by flying rocks from the crater and possibly buried in the lava avalanche which accompanied the explosion. The volcano today was displaying the most alarming indications.

Who Will Act for You When You Are Dead?

Have you ever considered who would administer your affairs when you are gone? Do you know to whom you could entrust the administration of your affairs after you are deceased?

This is not an attempt to scare anybody, but we are dealing in facts and we might as well face them.

Do you know that when no provision has been made by a man who dies, his estate may very unwisely be broken up and sold at very much less than its real value?

Why not ask advice about ways and means of safeguarding your interests at that time when you will no longer be here to watch out for them?

STUDENT HURT BY EXPLOSION

Paul McClellan, High School Junior, Threatened with Loss of Sight.

Paul McClellan, 17, son of Mr. and Mrs. Ray McClellan, 429 Walnut street, and member of the Twin Falls high school junior class, suffered severe burns about the head and face threatening loss of sight as a result of explosion of a combination of phosphorus and potassium chloride with which he was experimenting in a high school chemical laboratory Tuesday. His hands also were cut by particles of glass sent flying by force of the explosion. Glenn Jain of Murtaugh, a classmate, received minor injuries. Hope for saving Paul McClellan's sight was expressed Tuesday by Dr. W. F. Passer, attending physician. The injured lad was resting quite comfortably at home.

Edited by Mrs. E. W. Williams
Telephone 386

On Saturday evening the grade teachers in the Twin Falls schools entertained with a delightful banquet in the private dining room at the Hotel Rogers, complementing Miss Elizabeth Howell and Mr. and Mrs. M. C. Mitchell. Covers were laid for fifty at a table beautifully decorated with lilacs in cut glass buckets and pink and lavender tapers, in crystal sticks tied with mullins in the same shades. Place cards and nut cups carried out the lavender and pink motif. During the evening a three-piece orchestra consisting of Mrs. D. E. Regan, harp; Zeena Smith, cello; and Felix Adriano, violin, rendered a number of selections. Miss Teresa Poffaut also played several violin numbers. Mrs. Ethel Gray was toastmistress, and the following toasts were responded to: "Our Guests," Mrs. Charles E. Jones of Washington school; "Our Profession," Mrs. C. T. Bunce of the Bickel school, and "Ourselves," Mrs. Scarlett of the Lincoln school.

The Twentieth Century club met Tuesday afternoon in the Baptist bungalow. Mrs. A. B. Martyn presided at the opening and Mrs. E. B. Seville acted as secretary, closing up the business of the past year before turning over the reins of government to the newly elected president, Mrs. P. W. McRoberts, and her secretary, Mrs. Herman Schuyler. Mrs. McRoberts outlined briefly something of the plans for the coming year and announced the appointment of the chairman of the following committees: Program, Mrs. H. H. Atkinson; year book, Mrs. Arthur K. Seaver; by-laws, Mrs. W. F. Pike; ways and means, Mrs. H. C. Gettort; courtesy, Mrs. Marshall Brown; housing, Mrs. E. F. Ashbury; decorating, Mrs. W. T. Leslie; membership, Mrs. S. O. Wyatt; refreshment, from September to January, Mrs. H. E. Vogel; from January to June, Mrs. Henry J. Wall; (press committee to be appointed); chairman on Americanization, Mrs. E. M. Wolfe. New board of directors: President, Mrs. W. F. Pike; Mrs. Kennedy Packard and Mrs. W. Orr Chapman.

The regular weekly luncheon of the Business and Professional Women was held Tuesday at the club rooms. An interesting and amusing feature of the occasion was a debate on "Whether or Not to Bob." Mrs. Emma Warren and Mrs. Geneva Lewis spoke for the negative, and Miss Gladys Terhune and Miss Stella Riley for the affirmative. Owing to the excellent manner in which the question was handled by the speakers on both sides it was impossible to say which side won. After the main

speakers had concluded their arguments the subject was open for discussion by the individual members and the consensus of opinion seemed to be that "a man convinced against his will is of the same opinion still." About 25 members were present.

The Shamrock club met last Thursday afternoon with Mrs. James Swanson. Mrs. Standlee and Mrs. Edwards were guests and nine members were in attendance. There was the usual transaction of business and the paper sent out by the federation was read. The remainder of the afternoon was spent socially and a delicious luncheon was served by the hostess. The next meeting will be held with Mrs. Dallas.

Mrs. J. D. Sinema and Mrs. C. A. Miller entertained for players at nine tables of bridge Tuesday afternoon at the home of the former. A color scheme of lavender and green was used by the hostess both in decorations and in the tasty refreshments. A high score for the evening was won by Mrs. Ira Taylor, second by Mrs. C. B. Bowles, and consolation by Mrs. R. G. Joest.

WHY TAKE CHANCES?

Gradually but surely the thin edge of the wedge of pressure against the Idaho embargo against California goods is being forced into the situation. Certain interests are not satisfied with the embargo because they consider it unnecessarily drastic and because its existence interferes with their business.

There is no evidence whatever to indicate that any progress has been made toward the stamping out of even the control of the foot and mouth disease in California. Rather it would appear that the disease is steadily gaining ground. Facts being daily brought to light indicate that sources of infection not heretofore considered the sources at all are responsible for fresh outbreaks. Baby chicks which California argued could not possibly contribute to the spread of the ailment, are directly responsible for the disease at the farthest northern point yet reached in California.

Only four out of 26 dairies are operating in Lamanda Park, a suburb of Pasadena, the rest are closed because their owners have not sufficiently healthy cows left to permit of their remaining in business, and this is but one of dozens of similar cases throughout the area of infection.

Arizona state authorities, imported to lighten the terms of Arizona's embargo against California products, reaffirmed their determination to maintain every regulation now in force. Probably Arizona feels that as long as the disease continues to spread, an embargo to be effective, must have few loopholes. Possibly in some cases real hardship is worked upon certain interests through such embargo, but as long as a chance remains, why fool with a situation which, once out of hand would mean the absolute bankruptcy of sixty per cent of all the interests of whatever kind in the entire state?

"AMERICAN BOURGEOIS DREAM"

Trotsky, Soviet war minister, wants Russian scientists to work up to the importance of chemical warfare, and wants to reorganize the country's chemical industry for military purposes. This is by no means a new idea, in any civilized country. Trotsky need not be accused of militarism merely on this score. He is doing what the rest of us have been doing. But his reasons for such action are interesting to Americans.

The United States, he says, along with the other "victorious nations of the world war," has made tremendous strides along this line. Wherefore "Russia should wake up, because nobody knows what dreams the American bourgeoisie is indulging in." Perhaps Trotsky doesn't know, but nearly everybody else in the world does know, or ought to know. The "American bourgeoisie," by which fancy economic term Trotsky probably means this nation of business men, is thinking about making money and living comfortably. Various other ideas of one sort and another emerge to the surface of American life now and then, but these are the salient things.

The last thing our "bourgeois" citizens are thinking of is making war against any other nation—especially poor, far-off, pitifully abused Russia. Much as we deprecate the fiery animations from Moscow, we have no inclination whatever to smother the Muscovites in their beds with poison gas from a trans-Atlantic fleet of bombing planes.

We do wish, however, that Moscow itself would let up on its own emission of poison gas, in the way of foolish misrepresentations and plain propaganda.

Breakfast Food

"Matrimonially Speaking"

By MRS. HUGH MCKAY

My husband's friends drop in and spend the evening talking business. And that's just about as entertaining for me as listening to a session of the Chinese senate.

For about the first five minutes after they arrive, Hugh and his friends make some sort of an effort to include me in the conversation.

But after that the talk takes a sudden twist to business, or golf, or automobiles—and I'm left to amuse myself. Sometimes I sigh and say: "You wouldn't mind if we talked this business matter over alone, would you, dear?" And that means I'm exiled to my room upstairs for the rest of the evening.

I hate to answer the phone ring after dinner for fear that it's Tom or George or Bill saying that he thinks he'll "drop over and see us for a few minutes."

I always feel like answering, "What you mean by 'at'?" And what do you mean, "a few minutes"?

Tomorrow: "My wife always takes the opposite side of the political fence from me."

SNEAKING BACK TO IDAHO

An Idaho woman who moved to California at the end of the last year, the last of a long list of faithful people who make arrangements to move back to Idaho says a recent issue of the Idaho Falls Post: "My wisdom tooth I think I've cut, I'm wiser every day."

No more for me, apparition 3,000 miles away.

I'm sneaking back to Idaho, You may jeer your better roast; But I'll take the worst that you can say, But not the Pacific Coast.

I don't like the flowers and earthquakes mixed, Nor suns that sigh and moan, When every night they bring a fog that chills me to the bone.

I'm sneaking back to Idaho In hope that I may find The paradise I sought so far But surely left behind.

Idaho, you of all the states, Take back thy weary child: I'll never roam again among the land shrubs, bleak and wild.

I'm sneaking back to Idaho, You may jeer me if you will; But in the role of prodigal, You bet I've had my fill.

You may hear about my Golden Gate, The shimmer of the sea, The beauty of your orange groves, Idaho will do for me.

I'm sneaking back to Idaho, I'm tired of California; I wonder if some friend for me Will kill the fatted calf?

I do not need much work, I'm not much for ease, But heaven defend me from the pest—Those California fleas.

I'm sneaking back to Idaho, My legs and feet are sore; Just let me reach that favorite spot And I will roam no more.

THE NEW ROAD

(Idaho State Journal)

The awarding of the contract for the building of the Rogerson-Wells cut-off rail of the Pacific coast is not simply to be a stretch of railroad, the object of which is the hauling of copper ore from the Contact fields. It is not in any sense a short line tapping its immediate territory of its traffic. It has a far greater import.

Isolated Idaho takes heart, for its great markets of the future lie not in the east, but in the west. California with its great cities and big ports can use what we raise. It is our future market, as has been foreseen by the way it is even now taking some of our surplus. The great farming areas of Nebraska, western Iowa and Kansas are great because they are near the center of population. We in Idaho have markets as near on the west coast and the ports of the Pacific are nearer to us than the ports of the Atlantic are to the mid-west.

We cannot sell our potatoes in the east for a reasonable price to pay the freight. We can in the west. It is not now out of the question that train loads of products from the farm and ranch will originate in southeast Idaho and on the Twin Falls tract for through quick shipment over the new line. It is not at all improbable that through passenger trains from Pocatello to San Francisco are in the near future.

Pocatello ought to richly profit from the building of the Rogerson-Wells line. It will add greatly to our importance as a distributing center. Railroad officials are naturally and rightly reticent and conservative. They must know what a territory will do before they take steps to provide transportation facilities with the enormous investment attendant. They cannot follow in construction, the more dreams of a booming city. They must know.

The Rogerson-Wells cut-off is being built because the time has come. It presages new markets, greater production and more money for Idaho.

Willie Willis. The Sunday school teacher asked Willie Willis if he remembered the prophet Isaiah, and he said he couldn't remember any of them except Genesis and Aeneas.

Would Return to Old Job. "Doubtless many a woman wishes she could dispose of her stock in the matrimonial combine and get her old job back in the laundry."

Rights of Finnish Women. In Finland married women control their own property, and have equal guardianship over their children.

Dreamland Adventures

THE STRONG YOUNG MAN

BY DADDY

Daddy Dog finds a pair of glasses that make him think a rat is a panther. Janet looking through them, thinks a caterpillar is a dragon, and Jack thinks Hal, the wood-chopper, an awful giant.

CHAPTER III. The Beautiful Witch.

HAL, the woodchopper, laughed as he put the dark glasses over his eyes. "Hal! Hal! Hal! You say these glasses make you see things that scare you. Hal! Hal! I'd like to see anything that would scare me."

Hal glared around, through the woods but he saw nothing that scared him. Jack and Janet looked around too. They could see nothing alarming.

Then of a sudden, Hal gave a hoarse gurgle. He grabbed the children and showed them back into the hollow tree where they had hidden from him. He, himself, tried to conceal his bulky frame behind the trunk of the tree.

"Keep still," he warned. "A witch is coming through the woods—a beautiful witch who carries a beast in her arms."

Jack and Janet shuddered. This was the most scary thing of all—a beautiful witch. The wonderful what she was like. They would like to see her. But when they tried to peek, Hal the woodchopper, shoved them back. "No," he whispered, "she must not see us."

"What does she look like?" whispered Janet.

"She is very, very beautiful," murmured Hal the woodchopper, as if to himself. "She is very beautiful, but I fear she is evil, too. She has lovely black hair, but in it one's heart could become tangled. She has dark brown eyes, but they could pierce one with boring glances. She has glowing red cheeks, but they could lure one to unhappiness. Ah, she is a witch, indeed, and I feel her spell upon me."

"Is she coming this way?" asked Jack.

"Yes," whispered Hal the wood-chopper. "Keep quiet."

ESTIMATE OF EXPENSE FOR FISCAL YEAR Commencing May 6, 1924. of the City of Twin Falls, Idaho.

Administration—Mayor \$1,000.00, Commissioners \$1,000.00, Clerk \$1,000.00, Treasurer \$1,000.00, Deputy Clerk \$1,000.00, Printing \$1,000.00, Office Supplies \$1,000.00, Telephone \$1,000.00, Bonds and compensation insurance \$1,000.00, Fire insurance \$1,000.00, Coal, Light, etc. \$1,000.00, Interest on warrants \$1,000.00, Paving taxes \$1,000.00, County Collection Fees \$1,000.00, Total \$10,000.00.

Fire Department—Chief \$1,000.00, Aest. Chief \$1,000.00, Drivers (2) \$1,000.00, Firemen (4) \$1,000.00, Auditors \$1,000.00, Coal \$1,000.00, General Expense \$1,000.00, Electrical Expense \$1,000.00, Fire and Liability Insurance \$1,000.00, Compensation insurance \$1,000.00, Hose (2 1/2") \$1,000.00, Special Nozzle \$1,000.00, Spreading Nozzle \$1,000.00, Pumper Ladder (14 foot) \$1,000.00, Rear tire for trucks \$1,000.00, Total \$11,000.00.

Police Department—Chief of Police \$1,000.00, Patrolmen \$1,000.00, Sergeant \$1,000.00, Judge \$1,000.00, Board of prisoners \$1,000.00, Automobile \$1,000.00, Car repairs and upkeep \$1,000.00, Jail fixtures and supplies \$1,000.00, Comp. Ins. \$1,000.00, Station expenses, light, heat supplies and printing \$1,000.00, Special patrolmen \$1,000.00, Total \$11,000.00.

Reduced One-Pare Rates. Via Union Pacific system, daily, effective May 12th, Idaho to points in Nevada, Arizona, New Mexico and California. Twin Falls to Los Angeles \$30.49; same fare back. Other points proportionate. A-M. Smith, ticket agent, Twin Falls.
