DEBATE ON FARM BILL IS FINISHED

House Members Complete 15-Hour Discussion of McNary-Haugen Measure; Showdown Expected to be Delayed.

WASHINGTON, May 23 (AP)—Fifteen hours general debate in the house on the McNary-Haugen farm bill was concluded late today and the matter will be taken up tomorrow under the five-minute rule with amendments in order.

There were indications that a move to kill the bill by striking out the enacting clause might be made but leaders generally expressed the opinion that such a motion would not prevail. Many opponents, they pointed out, desired that opportunity be of the McNary-Haugen farm bill and would vote against such a proposal although on the final lineup they would cast their votes against the bill.

It was generally agreed that a final vote could not be reached tomorrow and it appeared probable that the showdown would not come before the end of next week. Present plans are to devote the first three or four days of the coming week to other legislation resuming consideration of the McNary-Haugen bill either late Thursday or Friday.

Contradictory claims continued to be made by friends and opponents of the measure as to the sentiment of the house on the legislation. Both sides, however, expressed the opinion that the result would be close.

Starting in the last lap of debate today, Representative Kitchin, Kentucky, a democratic member of the agriculture committee, launched into a bitter attack on the bill. The last word came from Representative Ruby of Missouri, another democrat on the committee and one of the measure's leading supporters, who declared that if the bill was rejected, there was no likelihood whatever of any farm relief legislation being enacted at this session.

Throughout a six-hour session, friends and foes of the measure in rotation discussed its provisions, the attack being as vigorous as the defense. Representative Frenn, Wisconsin, endorsing the bill, said the farmer should be permitted to sell his surplus products abroad at a 4 per cent interest on all money furnished by the government, while Representative Dickinson, democrat, Missouri, said the bill should be looked upon as a temporary relief measure which would not interfere with the enactment of permanent relief legislation.

Goes to Gallows Still Convinced of His Innocence

Satterfield Pays Penalty for Murder; Drama and Tragedy Seen as Message Comes Just Before Noose Is Adjusted.

ATLANTA, Ga., May 23 (AP)—James Satterfield went to his death on the gallows this afternoon, convinced until the very noose was adjusted about his neck that he would be saved from paying the extreme penalty for the murder of his brother-in-law, R. H. Hart. His only show of emotion was when he wept as he spoke of his daughter Elizabeth, who committed suicide not long ago in despondency over her father's impending doom.

Satterfield shot and killed Hart here in December 1921. In his trial and throughout the long court battle he waged to escape the gallows, he sought to prove justification for the slaying by his assertion that Hart to whom he had been delegated the guardianship of his two daughters and the administration of their estate by the late Mrs. Satterfield, had led the girls into a life of shame and dissipated their property.

Shortly before noon he received a message from the widow of Hart asserting that she forgave him. He smiled cynically and observed: "She can't; she can't; if she had she would tell all she knows and I would not hang today."

IDAHO WEATHER Saturday: Fair.

CAPITAL CITY POLICE CALLED OUT AS PROBE SESSION RUNS WILD

Taunts and Jibes of Federal Attorney Draw Ire of Daugherty Committee Members; Fires Serious Charge at Senators; Officers Prevent Fisticuff Session in Ante-Room.

KLANSMAN, DRY DAIDER, AND WIFE ARE WOUNDED

OKAWVILLE, Ill., May 23 (AP)—S. Glenn Young, East St. Louis, Ill., Ku Klux Klan dry raider, and his wife were wounded late this afternoon while riding toward St. Louis by unidentified automobile gunmen on the Atlantic-Pacific highway at the Okaw river but none near here.

FEARS GIGANTIC LAVA EXPLOSION

Expert Sees Possibility of Big Blast from Kilauea Crater at Any Moment.

HILO, T. H., May 23 (AP)—Despite the present apparent quietness of Kilauea volcano, Roy Finch, the volcanologist, believes that a major explosion may occur at any moment. The region he considers as dangerous as ever.

Two dust columns were thrown up 4000 feet at 8 and 9 o'clock, but there was no ejection of rocks. There have been 48 earthquakes in the past 18 hours but the volcano has been quiet since the eruption of yesterday afternoon.

The earthquakes in the Pau district have caused cracks in the east 200 feet, according to Oser Egan, "the volcanologist." The cracks run parallel to Halemauana, the hottest crater in the volcano, and there are indications that the pit may extend that far. Another crack runs southwest from the fire pit to the rim of Kilauea. An inspection of the northeastern side of the pit is being made today and if cracks are found there the observatory equipment will be moved.

Vast clouds of steam were released from the pit this morning. The avalanches inside the pit are decreasing, but the pit continues to recede on the north side.

Dirigible Makes Good on First Trip Since Recent Wild Journey

Shenadoah Functions Well in Trial Flight; Reaches Altitude of 1200 Feet.

LAKEHURST, N. J., May 23 (AP)—The big dirigible Shenadoah, pride of the United States navy, last night successfully completed its first trial flight since January 16 when the big ship was torn loose from its mooring masts here during a violent storm.

The ship was in the air just one hour. Leaving the ground shortly after 8 o'clock the ship circled around the field and then proceeded to Lakewood and Tom's river at an altitude of 500 feet. Returning to the station, the ship reached an altitude of 1200 feet and at times attained a speed of 54 miles an hour.

IDAHO AVIATOR IS KILLED

BOISE, May 23 (AP)—Don Jokisch, 24, well known as a passenger flier in southern Idaho and Utah, was instantly killed this morning at 10:50 o'clock when the right wing of the biplane he was testing crumpled and the plane went into a nose dive, falling 600 feet into a cow shed in a pasture about three miles west of Boise. The probable reason for the crash, according to witnesses, was Jokisch's unfamiliarity with that type of plane, combined with excessive speed. It was estimated the machine was traveling 120 miles an hour.

THREE JAPANESE KILLED

LOS ANGELES, May 23 (AP)—Three Japanese were shot to death and the killer committed suicide near Zelo, several miles northeast of here today, after a dispute over land.

Sanichi Nakamura, leasee of the land in dispute, is said by deputy sheriffs to have shot down Mohel Yuchi and the latter's wife, after which he returned home, shot and killed his own wife and then committed suicide.

FINAL ACTION IN SIGHT ON REVENUE BILL

Senate to Take up Conference Report Saturday; Coolidge Gives Intimation of His Expectations as to Measure.

WASHINGTON, May 23 (AP)—Congress continued final today in its support of the pending tax measures on the eve of final action on the bill.

The senate will take up the conference report tomorrow with prospect of favorable action before adjournment, in which event the house is prepared to take it up Monday. Republican leaders in congress freely predicted today that the measure would be signed by the president.

Wants Suitable Law

At the same time president Coolidge let it be known that the general question of whether the bill is an improvement on existing law will form the basis of his action. Specific considerations to be weighed by the president in determining his action are whether the new measure will provide sufficient revenue, whether it will provide an efficient system of administration, and whether what he views as its undesirable features are outweighed by its good points. Chairman Smoot of the senate finance committee declared after a conversation today with Secretary Mellon that there was no possibility of a change in the conference report which would modify the publicity provisions of the senate tax rates.

May Not Urge Veto

Mr. Mellon made known his objections to these provisions but members of congress minimized predictions that the treasury head would recommend a veto of the bill, especially until after he had opportunity to study the measure as finally passed by congress.

MADDOX WINS VOTES

NASHVILLE, Tenn., May 23 (AP)—Tennessee's 24 delegates to the national democratic convention in New York will leave instructed to cast their lot for William G. Maddox for the presidential nomination. Turnout and confusion prevailed during the state democratic convention which late yesterday decided to instruct for Maddox by a vote of 1300 to 734.

Parents Lived in Luxury While Girls Begged on Streets

Allege Daughters' Earnings Bought Car and Paid for Trip Through the West.

DES MOINES, Iowa, May 23 (AP)—Three girls, ranging in age from 9 to 14, whose earnings as street hoppers were alleged to have purchased an automobile, paid for a tour of the west and finally started the parents in the purchase of a home here, were ordered committed to the juvenile home here by Judge Lester Thompson today, and the parents, Mr. and Mrs. Joseph M. Overton, were given a suspended 30-day jail sentence for paternal delinquency. Evidence was offered to show that the father could earn \$60 a week as a salesman if he would accept regular employment.

COOLIDGE FIRM ON COURT PLAN

President Still Urges American Adherence as Proposed by Late Chief Executive.

WASHINGTON, May 23 (AP)—President Coolidge stands squarely upon his recommendation for American adherence to the permanent court of international justice as proposed to the senate and advocated by President Harding.

The executive is not optimistic over the possibility of action at this session because of the divergence of view among republican senators. He intends to devote in nowise from his original recommendation, however, believing that to do so would be a violation of good faith. Having announced in his message to congress and subsequently his support of the Harding-Hughes plan, he feels he should abide by that declaration because on it he went before the country and delegates to the republican national convention were pledged to him on that understanding.

COOLIDGE CONQUERS COLD

WASHINGTON, May 23 (AP)—A bronchial cold, from which President Coolidge has been suffering for a week has yielded finally to medical treatment and rest, and the chief executive today for the first time since last Saturday went through with all his engagements.

PRISONERS OF RUSSIANS ARE GIVEN FREEDOM

Member of Japanese General Staff Among Captives Allowed to go Free; Release Ends Strained Situation.

TOKIO, May 24 (AP)—Captain Mats of the Japanese general staff, and Commander Minot Suma of the navy, who have been held as prisoners of the soviet government at Vladivostok for the last two months have been released according to the Japanese foreign office.

The release of the two officers with promises of an early release of other Japanese still in jail at Vladivostok, greatly eases the Russo-Japanese situation which has recently caused the foreign office some apprehension.

Government officials state that the negotiations at Peking between L. M. Karakhan, representative of the soviet regime, and Japanese Minister Yoshiyama have been going smoothly and there are excellent prospects for an eventual agreement on Russo-Japanese relations. Japanese recognition of the soviet government, however, is said to be still many months away.

The release of Captain Matsui, vice Consul Gunji and Commander Minot Suma was erroneously reported to the press as agreement on Russo-Japanese relations. Eighteen other Japanese, principally students and interpreters are still being held in the Vladivostok jail.

CRIM DEFENDS DAUGHTERY

WASHINGTON, May 23 (AP)—An expression of faith in the integrity of former Attorney-General Daugherty, but up during three years of association with him, as his chief assistant in directing criminal prosecutions, was made before the senate Daugherty investigating committee yesterday by John W. H. Crim, a present government attorney in the present alleged fraud in the veterans bureau. In an engagingly frank three hour discussion of his association with the former attorney-general, Crim, chief assistant of justice, Mr. Crim unhesitatingly gave his opinion that the department was near collapse, that its espionage and other misdeeds ought to be "ninth months abolished" and said that he had resigned because he considered it "not functioning as well as it might." But he had never, he declared, had a thought or suspicion of corruption in connection with Mr. Daugherty.

ADDRESSES EDITORS

OKLAHOMA CITY, Okla., May 23 (AP)—A plea for moderate journalism free from sensation and assuming a definite leadership was voiced here today by Governor M. E. Trapp in an address welcoming members of the National Editorial association to the house number at the state capitol, where they conducted the second day's session of their ninth annual convention.

Recommend World Church Conference to Eliminate Wars

Methodist Committee Urges Unity Against Future Hostilities; Signs of Revolt Seen as Report Is Submitted.

SPRINGFIELD, Mass., May 23 (AP)—The organization of a world conference of churches to fight the evil of war was proposed to the Methodist Episcopal general conference today in the report of a special committee. Avoiding the issue of the church's attitude toward a war involving this country, the report declared that continuance of war meant the suicide of civilization and called upon America to lead the way in a crusade for peace.

The ballot must be used to outlaw war, the report said, and the church would elect to public office men pledged to secure the entry of this country into the world court and "a league" of nations. President Coolidge was urged to call a conference for more drastic armament reduction by the nations.

Within a few hours of the presentation of the report which will be debated tomorrow, signs of revolt among pacifists of the conference began to show themselves. It was reported that these men, if the report were adopted, would hold a special meeting and pass their own resolutions on war.

MY, HOW HE WILL MISS THAT OLD HORSE

FIND FEW CLUES AS TO SLAYERS OF CHICAGO BOY

Evidence Scanty in Mystery Murder of Wealthy Man's Son; Seek Car Believed to Have Carried Lad Away.

CHICAGO, May 23 (AP)—A few flimsy clues, including a gray automobile, a pair of spectacles and theories of kidnapping and ransom were all the police had to guide them tonight in their search for the slayers of Robert Franks, 13-year-old son of a Chicago millionaire, whose body was found in a swamp yesterday while the father was waiting to pay a \$10,000 ransom. Even the cause of death was not determined definitely tonight and after 24 hours of investigation the police admitted the crime one of the most baffling in the city's history. Detectives were hunting the answers to a score of questions while a coroner's inquest opened today was continued indefinitely because of lack of information.

Seek Place of Death.

The place where the youth died had not been found but the police believe it was far from the swamp where his body was found in a culvert. One of the lad's stockings was found near his body but none of his other clothing has been found. Coroner's assistants believed poison was the actual cause of death and anxiously awaited the results of a chemical analysis tonight. They said the blows on the head which the boy had suffered had not fractured the skull.

Kidnaping for ransom or some unexplained motive alternated in the minds of the police who were disinclined to believe that the boy had been abducted for ransom alone after he had been killed within four hours after he disappeared Wednesday afternoon while on his way from a private school to his home, three blocks distant. One instructor of the fashionable private school attended by the youth was under surveillance tonight and two others and the principal were questioned during the day.

Car Not Traced.

A gray car which loitered near the school the day the boy disappeared and in which he is believed to have been carried away has not been found and automobile tracks near the culvert where the body was found are undeveloped clues. The pair of spectacles found near the body and at first believed the property of the boy, presented a peculiar angle. Finding of the owner of the spectacles will go far toward solving the mystery, the authorities believe.

TOURIST PARK NOTES

Mr. and Mrs. Thomas V. Dunlap and two children, and Mr. and Mrs. R. U. Wheeler, who have been residing in Pasadena for several months, are returning to Erie, Pa., where they intend to make their home. They say that they have more than enough of California. They came through the Yosemite park and will go to Salt Lake and other points in Utah until the Yellowstone park is opened. They were much pleased with the Twin Falls park and said it was such a pleasant change from the one that they camped in the night before. One of them said: "Thank goodness I can sleep tonight, but last night people were yelling about the camp till nearly morning."

Mr. and Mrs. S. K. Elder of Nampa are going to Brownsville, Texas, to look after some property. Mr. Elder is manager of the Western Union office in Nampa, and Mrs. Elder is the cashier. They have a 90-day furlough.

J. D. Hughes of Marysville, California, is traveling all by his lonesome, and waiting for Yellowstone park to open.

Mr. and Mrs. L. Anderson are just

Men and Women in the News of the Day

Below: MRS. HARRY JACKSON, GEORGE W. OLVANY, LORA SANDERSON, EDITH KELLY.

EDITH KELLY, former American dancer, lost her fight for half the \$40,000 estate of Frank Gould, her former husband, courts in Versailles, France, holding they had no jurisdiction because Gould's legal residence is in America. Mrs. Harry Jackson, daughter of a Los Angeles, Cal., man, is under arrest in New York, charged with being the accomplice of her husband, Harry Jackson, alias Lesser, in robbing Mrs. Howard Johnson, wife of the musical comedy writer, of \$9,000 worth of diamonds after they had lured her to a New York City hotel. Judge George W. Olvany, of New York, is said to be slated to be leader of Tammany Hall, following Surrogate James Foley's sudden refusal to accept the place made vacant by the death of Charles Francis Murphy. After she had been lured from her New York apartment by a fake telephone call that her husband was seriously ill, thieves entered it and stole \$30,000 worth of jewels from Lora Sandereson, noted actress.

wandering. They are residents of Minneapolis and are out for a good time. Mrs. Anderson said that the local camp is better than the average, and that Idaho rams are better than those further east.

Vote Wouldn't Settle Evolution.
Should the people take a vote on evolution, it wouldn't settle it. They might as well vote on the law of gravitation.

SOCIETY

Edited by Mrs. E. W. Williams
Telephone 596

Mr. and Mrs. Burton E. Morse were hosts at an informal reception Thursday evening after the graduating exercises in honor of Dr. Elmer I. Goshen of Salt Lake. About 54 guests enjoyed meeting Dr. Goshen and listening to his discussion of various interesting subjects, as he is considered one of the leading speakers of the United States. Dainty refreshments were served during the evening.

Mrs. E. P. Dunlap and Mrs. G. M. Simpson entertained with a charming luncheon Friday for the members of the A. A. K. club at the home of Mrs. Dunlap on Poplar avenue. A color scheme of pink and white was carried out in flowers, nut cups and place cards and the luncheon was served in four courses. Those present in addition to the hostesses were Mesdames De Witt Young, D. R. Churchill, T. H. Irwin, Carl Irwin, Bruce McMillan, Ernest Koch, M. J. Jamison, David Brown, W. A. Howard, Bert Herron, and L. O. Evans.

Mrs. Burton Smith was hostess to the T. S. S. club Friday afternoon at her home on Addison avenue. The time was spent with sewing and visiting and late in the afternoon dainty refreshments were served.

The Ladies Aid of the community church met at the home of Mr. Cline on Wednesday afternoon May 21 for a house cleaning bee with 14 members and one guest present. The next meeting will be held with Mrs. Dean Miller on June 4.

The community club met with Mrs. Walter McDowell Thursday afternoon at her home near Kimberly. Mrs. Knutson was a guest and eight members were present. There was the usual transaction of business and it was decided to have a picnic at Clear Lakes during the month of June. The remainder of the afternoon was spent socially and delicious refreshments were served by the hostess. The next meeting will be held with Mrs. Johnson.

When the Ark Sailed

Long ago March 17 was known as the anniversary of the date on which Noah and his family entered the ark. Many hundreds of years ago, before there were theaters in England plays used to be given in front of the churches by the priests who acted out Bible stories. When March 17 came around a very funny play about Noah and his wife was performed. Mrs. Noah was a woman of a hot temper who thought her husband was quite losing his mind by building an ark. She refused flatly to live in it, even when the rain began to fall in torrents. The quarrel between Noah and his wife lasted until the water got so high that the shrieking woman had to jump on the ark at the end to save herself from drowning.

Movies Now Furnish Diversion.
Men don't spend their evenings "gowntown" as the last generation did. The movies are the diversion now.

If your property is desirable and is advertised in the classified—you'll find your buyer.

Fastening Picture Frame Back.
Used steel phonograph needles are valuable for fastening the backs in picture frames, especially when the frames are small and delicately constructed, says Popular Science Monthly. The needles will not split the wood and can be pressed into place without hammering.

Decorate U. S. Architects.
Architects of Princeton university have completed their work of aiding reconstruction in France and have returned home. The men were decorated with medals by the city of Soissons.

Water Breaks Concrete.
Concrete can be broken up by use of water in a special tool under three to five tons per square inch pressure.

THE GUMPS—THE ONE TO BLAME

SENATE ADOPTS BORAH REPORT

Montana Man Given Vote of Confidence; Is Held Not Guilty of Accepting Fee.

WASHINGTON, May 23 (AP)—Senator Barton K. Wheeler of Montana, indicted by a federal grand jury in his home state, was given an overwhelming vote of confidence today by his colleagues in the senate.

Sweeping aside two proposals to defer expressions of guilt or innocence until after the court trial, the senate adopted, 56 to 5, the majority report of its investigating committee exonerating the prosecutor of the Daugherty committee of the charge of accepting a fee to practice before the interior department after his election to the senate.

Eighteen republicans and the two farmer-labor senators joined with 36 democrats in favor of the resolution approving the majority report submitted by Senator Borah, republican, Idaho, chairman of the investigating committee. The five opposing the resolution were republicans.

Twenty-two republicans, 34 democrats, and the two farmer-labor members voted against the Sterling resolution, while the five republicans supporting it were Curtis, Sterling, Wadsworth, Warren and Willis.

Senator Spencer's resolution would have limited the senate to a statement that no facts had been developed in the inquiry which would disqualify Senator Wheeler from retaining his seat. It was rejected, 56 to 8, all of those supporting it being republicans.

Christian Endeavor at 7:00 p. m. Worship 8:00 p. m. Sermon topic: "The Call of the Master." Special music by male quartet.

First Methodist Episcopal Church "The House of God Choir" Sunday morning at 11 o'clock Mr. Winning will speak on "Always Triumphant in Christ." and at 8 p. m. he will deliver a Memorial Day address in which he will present Methodism's new attitude or stand as regards war, all veterans of all wars, and all citizens who have the flag and country are invited to be present. In the morning the choir, Mrs. S. A. Bell, leader, will present the Anthem "Jerusalem is Built" (Hoyner) and Mrs. Stover will play "Ave Maria" by Cherubini, an offertory. YANKEES TAKE EXCITING GAME

Brilliant Contest Is Won by Champions; Walter Johnson Shuts Out Chicago.

NEW YORK, May 23 (AP)—The world's champions won a 7 to 6 victory over Detroit today in a thrilling game. Cobb made four hits and picked a blow from Ruth's bat off the center-field bleachers after a long run. Ruth had previously made his tenth home run with home on. Heisen, up with three on in the sixth, was called out on strikes and threw his bat which hit Catcher Hoffman. Umpire Pratt sent him out of the game. Braw, next at bat, cleared the snek, with a double. Dugan hit a home run inside the field with one on.

The score: R. H. E.
Detroit 6 12 1
New York 7 12 0
Batteries—Cole and Buesler; Bush, Jones, Shawkey and Hofmann.

JOHNSON SHUTS OUT CHICAGO
WASHINGTON, May 23 (AP)—Hooper's single in the fourth was all that prevented Walter Johnson from registering a no-hit game today when Washington defeated Chicago, 4 to 0. Johnson struck out 14 of the visitors, twice setting the side down on strikes and from the second to the fourth inning fanned six in succession. It was the 103rd shutout of the career of Johnson, who is pitching in his nineteenth season in a local uniform.

The score: R. H. E.
Chicago 0 0 1
Washington 4 0 0
Batteries—Leeverette and Schalk; Johnson and Ruel.

ATHLETIC BLANK ST. LOUIS.
PHILADELPHIA, May 23 (AP)—Ray Meeker, one of the Philadelphia American young pitchers today held St. Louis to three scratch hits and shut out the Browns, 5 to 0. Three surprise double plays aided in the victory and prevented any of the visitors from getting beyond first base.

The score: R. H. E.
St. Louis 0 0 1
Philadelphia 5 0 0
Batteries—Danforth, Kelp and Severick; Meeker and Perkins.

BOSTON TAKES 6-1 GAME.
BOSTON, May 23 (AP)—Ehmske pitched Boston to a 5 to 1 victory over Cleveland today, the visitors making four errors behind George Uhl. Speckers center fielding and the batting of Boono and O'Neill were features.

The score: R. H. E.
Cleveland 1 7 4
Boston 6 0 0
Batteries—Uhl and Myatt; Ehmske and O'Neill.

WANTS CHAMP TO FIGHT
KANSAS CITY, Mo., May 23 (AP)—An offer of \$100,000 to Mike McGuire, light heavyweight boxing champion, for a 15 round bout at Tulsa, Oklahoma, today was being turned down by McGuire. McGuire was telegraphed yesterday to Paddy Mullen, McGuire's manager. Barry McCormick, promoter announced here tonight.

Democratic Common Ground.
Cambridge Prospect union, for 30 years the place of evening instruction where poor men's sons met on common ground with sons of the idle rich, is making no work required to enter or continue at Harvard, is the pioneer institution of evening learning in this country. From it most other agencies now giving evening classes took their birth. Recently, in order to compete and conform with the other agencies, it has had to reorganize its own activities.

Motion Pictures to Be Used to Record Finish of Contests

No Doubt as to Outcome of Races Permitted Under Plans for Harvard Meet.

NEW YORK, May 23 (AP)—The mechanical eye of the motion picture camera will supplement, and if necessary, overrule the decisions of judges of the finish of the intercollegiate track and field championship to be held May 30 and 31 at Harvard stadium.
The intercollegiate A. A. A. has announced it had used a film camera to take movies of track events which will be regarded as official, and used to decide any controversy arising from close finishes.
This innovation which will be effective for the first time in intercollegiate A. A. A. history was authorized at the association's annual meeting last March. It was prompted by disputes that have arisen in a number of close races in the past, pictures of which apparently showed that the judges had erred.

GIANTS REGAIN LOST POSITION

Defeating Cincinnati 8-3, New York Once More Assumes Top; Pirates Lose.

CINCINNATI, May 23 (AP)—New York regained the lead in the National League today by winning the second game of the series from Cincinnati, while Chicago lay idle. It was a close battle between Mays and McQuillan until the ninth when the Red defense collapsed and the champions scored five runs on four hits and three errors. The defeat forced the Reds down to fourth place.

The score: R. H. E.
New York 8 13 0
Cincinnati 3 8 4
Batteries—McQuillan, Barnes and Snyder; Mays and Wingo.

DODGERS TAKE SECOND GAME
PITTSBURGH, May 23 (AP)—Grimes' masterful pitching enabled the Brooklyn team with its second game of the series from the Pirates today by a score of 3 to 1. Wheat celebrated his thirty-third birthday by hitting a homer. A sensational catch in center by Loftus, robbing Barnhart of a hit, was a feature of the game.

The score: R. H. E.
Brooklyn 3 8 1
Pittsburgh 1 6 1
Batteries—Grimes and Taylor; Morrison, Lundgren and Gooch.

Philadelphia-St. Louis postponed; rain.
Boston-Chicago postponed; rain.

Origin of Halloween.
Halloween is the popular name given to the festival of All Saints, celebrated October 31, as the eve of November 1. The Greek church as early as the fourth century kept a feast of all martyrs and saints on the first Sunday of Pentecost. The object of this day was, in its inception, probably to do honor in bulk to all the lesser saints who could not have a feast specially set apart for them as well as all the holy men and martyrs whose record has not survived.

Human Race Uncontrollable.
Human race will be what the weather will be: Quite uncontrollable in its development. Its course was fixed when it was created.

Sea Creatures Cling to Cables.
Cables drawn up for repairs are often covered with eelgrass, sponges, coral, and one set of wires was found wrapped around a young whale.

Hairs on Man's Head.
Forty to fifty thousand hairs is the crop on the average man's head, according to investigations conducted by professors of the Munich university.

PRINCETON SENIOR IS CALLED "BEST MAN"

HARVEY C. EMERY

HARVEY C. EMERY, of New York City, has been chosen as the "best man" in the senior class at Princeton University. He was named as the most popular, most respected, best-all-around athlete, the best student and the man who had done more for his class. Emery is president of the senior class and a member of the football and track teams.

The Day in Washington

The conference report on the tax bill was presented to the senate. General debate was concluded in the house on the McNary-Hugan bill. The agricultural appropriation bill, carrying \$40,000,000 was passed by the senate.

President Coolidge attended the opening of the new congressional country club, his cold having improved. By a vote of 55 to 5 the senate adopted a committee report exonerating Senator Wheeler, democrat, Montana. The Senate Mayfield committee continued inquiry into charges of Ku Klux Klan activity in the 1922 campaign in Texas.

Agreement was reached by the senate foreign relations committee to vote tomorrow on proposition dealing with the world court. The troubles of Gaston B. Means were so bitterly debated before the majority committee that spectators had to be ejected by the police. Chairman Hale of the senate naval committee declared the American navy to be nearer the 3-3-3 ratio than at any time since the arms conference.

MALARIA IS REPORTED SPREADING IN RUSSIA

LENINGRAD, Russia, May 23 (AP)—Malaria and other diseases are spreading alarmingly throughout Russia. There is an acute shortage of quinine and other essential drugs and the authorities are finding it difficult to combat epidemics.

According to a report presented to the epidemiological congress here yesterday there were more than 6,000,000 cases of malaria in Russia last year, also 300,000 cases of spotted typhus, 250,000 of recurrent typhus and 50,000 of scarlet fever.

Many Men Employed in Mapping British Coasts

Few people realize the hardships and dangers undergone by a comparative handful of officers and men belonging to the royal navy who work year in and year out surveying coast lines and mapping the little-known depths of the ocean.

The hydrographic department of the admiralty has eight ships constantly employed in the task of keeping the seas charted, and 40 officers and 700 men are under the control of a rear admiral, says London Times-Flits.

The bed of the ocean and the outlines of the coast are constantly changing, and the charts of the world are being brought up to date of frequent intervals.

Cuba has been known where whole islands have either appeared or disappeared in the course of a few hours. Falcón Island, for instance, for a long time was first discovered and charted in 1885, yet, although the mass of rock included cliffs rising fully 150 feet above the ocean level, it completely disappeared shortly afterward.

In 1898 a volcanic disturbance once more brought the island to the notice of the surveyors, but before the end of the year it had disappeared again. Small parties landing on wild stretches of coast are frequently met with showers of stones or even bullets from suspicious inhabitants. Again, much of the work is done by the use of small boats, which may be away from the parent ship for a week or more at a time.

BABSON SEES DECLINE IN COMMODITY PRICES; INVESTMENTS TO GAIN

Downward Trend Slowing and Recovery Expected; Traces Rise and Fall During Past Years.

BABSON PARK, Mass., May 23 (Special to The News)—The decline in commodity prices continuing steadily since the first of this year has brought averages to a point but 45 per cent above pre-war levels, according to Robert W. Babson, statistician. "The trend, still downward, is slowing up a little and many commodities that have suffered severely will doubtless come back," Mr. Babson says. "The success of business men and investors over the next few years, however, will depend to a large extent on their correct interpretation of this trend."

"Commodity prices, therefore, have the center of the stage, just now, and the business world and its students seem to be split into two opposing camps. In fact, we seem to find two schools; a group of 'fundamentalists' and a group of 'modernists.' If you like, who disagree even as the churchmen."

Price Swing Irregular.
"If we begin by getting the facts on the situation," says Mr. Babson, "we find that commodity prices have a habit of rising for 20 to 30 years then gradually declining for about 20 years. If we go back to 1789, we find prices at a low level. They then rose gradually to a peak in 1899 only to decline again to a low point in 1919. Beginning in the middle of the last century we find a rising price scale that carries us up to a peak in 1895. Following the Civil war prices again fell to a low point reached in 1897. From 1897 to 1920 prices rose and since 1920 they have declined an average of 40 per cent. Historical evidence would seem to indicate a decline in prices lasting for the next 15 to 25 years."

Wars Figure.
"Those who take exception to this conclusion argue that there has been a war at each of those peaks and that this economic phenomena is the result of wars and not of the natural trends of the price scale. Perhaps they are right, and if we do not have another war this broad trend of gradually rising and gradually falling prices may not continue indefinitely. It happens, however, that we have had our war for this present generation and it will have its effect upon our economic situation for many years to come. Other points to large gold reserves and tremendous potential credit insuring that there will keep prices up. These same people were to keep them up in 1920 by the same means and have been predicting further advances ever since."

"This whole business of money and price is cleared up," continued Mr. Babson, "in a certain sense, that capital is stored up labor, nothing more, and that money and credit simply represents an immediate demand on the supply of labor or its products."

"Now let's see what happens when we have a war. The immediate emergency invariably outweighs any other consideration. A certain battle must be won. Supplies must be delivered to a certain point at a certain time, regardless of cost. Governments, exhausting present resources in such an emergency invariably borrow labor from the future to be used for the present. They do this by floating war loans and borrowing money. The loans must be paid later on, perhaps by the next generation. What they actually do, then is to borrow, say five years, from succeeding generations and throw them into a single battle. Such a move has two results:

Shows Results.
"First, it throws five years additional purchasing power into a market that has only normal or less than normal production. Prices rise."

"Second, after the emergency is passed and this five years of labor has been expended in fighting we face the unpleasant business of paying it back in the form of increased taxes. In order to make this up a part of our labor is taken from us and we find that we are working eight hours a day, but that after paying our taxes, we have the results of but seven hours' labor left. In this case we have eight hours' production but only seven hours' purchasing power. Multiplied by seven million individual instances we very soon find the supply of goods greater than the market for them and prices weaken."

SHE SEEKS TO HEAD WOMEN'S CLUBS

MRS. JOHN D. SHERMAN

MRS. JOHN D. SHERMAN, of Estes Park, Col., and Chicago, is a candidate for the presidency of the General Federation of Women's clubs. The election of officers will take place at the seventeenth annual of the Federation in Los Angeles in June. Mrs. Sherman is at present chairman of the Department of Applied Education.

DELEGATES ARGUE BONUS

MONTPELIER, Vermont, May 23 (AP)—The election of 11 delegates pledged to President Coolidge's foregone conclusion, took second place in interest for the delegates to the republican state convention today, who devoted most of their time to a bonus discussion. The outcome was adoption of a resolution expressing the "absolute and unqualified disagreement of the delegates with the action of Senator Porter R. Dale and Congressman E. W. Gibson of Vermont, in voting to override the president's veto of the bonus bill."

"Couldn't Eat While Squeezing."
"Hermann, see how that lawyer is squeezing daughter's hand under the table?" "Law him! While he's squeezing he can't be cutting!"—Filegends Blatter.

FOUND GUILTY ON CHARGE OF EMBEZZLEMENT

Peters and Lechleiter Convicted by Jury of Misappropriating Building and Loan Funds; Will Appeal Case.

K. S. Peters, former manager, and Frank G. Lechleiter, former secretary of the Mutual Building and Loan association, were found guilty as charged of embezzlement of \$18,442 of the association's funds, by a jury in district court here which returned its verdict at 11 o'clock Friday, following 29 hours' deliberations. Judge W. A. Babcock presiding, will pronounce judgment tomorrow, it was announced. Thereafter, according to defense counsel, notice of appeal to the state supreme court will be filed. The jury found Peters guilty of embezzlement of \$1472, and Lechleiter guilty of embezzlement of \$13,701.67. The verdict was returned at the conclusion of trial occupying ten days.

Peters and Lechleiter entered the employment of the association in 1919, under contract, providing that they should receive a salary of \$2000 per month for all shares of stock sold and 1 per cent commission on real estate loans. They were discharged last November following discovery of embezzlement of their joint account with the association. Amounts alleged to have been embezzled by Peters and Lechleiter, according to evidence introduced by the state, were concealed in stock loan entries on the association's books, and were likewise concealed in reports made to the state commissioner of finance.

Dispute Overdraft Amount.
Testifying in their own behalf, Peters and Lechleiter stated that the financial operations of the association including creation of the alleged overdraft, had been approved by the board of directors and that no evidence of embezzlement had been involved. The association's assets had been inflated with the consent of the directors, they testified, in order that regular dividend payments might be made. These statements were denied by directors called as witnesses by the state. Amount of the alleged overdraft was estimated by Peters and Lechleiter who claimed credit due them from the association on account of unpaid commissions and fees. The case for the state was conducted by Prosecuting Attorney J. W. Taylor and Frank L. Stephens, former prosecuting attorney; defendants being represented by Homer Hill of Twin Falls and Roy L. Black of Pocatello, former Idaho attorney general.

What the World Is Doing

As Seen by Popular Mechanics Magazine

Giant Turbine Is Installed at Niagara

Water, pouring at the rate of 3,500 cubic feet a second on the giant turbine of the recently completed 70,000-horsepower project will house units with a total rated capacity of 454,000 horsepower. Water is to be supplied from the rapids above the

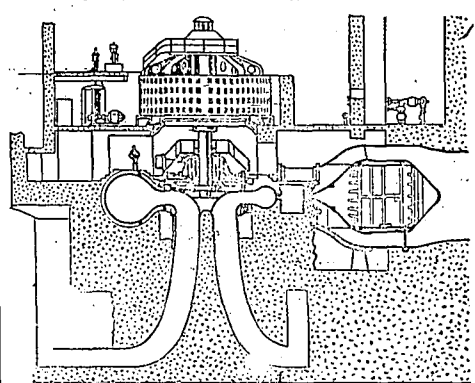

Diagram of 70,000-horsepower hydroelectric unit at Niagara Falls, showing arrangement of turbine and generator, and size of parts compared to a human figure.

power hydroelectric unit of the Niagara Falls power company, does work that would require 70,000 tons of coal annually if the energy were generated by steam. So efficient is the generator, said to be the largest in the world, that it uses no more water than was required for seven 500-horsepower units formerly used to deliver energy equivalent to that produced by fourteen of them. Specially designed cars were required to haul the castings for the turbine, the revolving elements of which weigh approximately 500 tons. Nearly 93 per cent of the efficiency of the water is gained through the fine adjustment of the parts. Another similar unit is being installed and the completed

falls, for this and proposed units, through a hydraulic tunnel, tunnel, thirty-two feet in diameter and 2500 feet long.

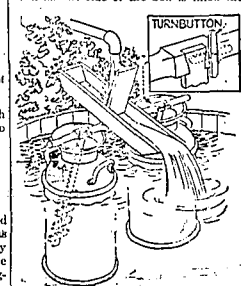

Heart Tissue Is Still Alive after Twelve Years

Preserved in a fluid that supplies food for its cells, a piece of chicken's heart has been kept beating for twelve years by Dr. Alec C. Carrel in his laboratory at the Johns Hopkins university. The fragment's twelfth anniversary in the "new life" occurred last January. The tissue was transferred directly from the beating heart of the fowl to the fluid.

Simple Device Stirs Milk While Cooling

Fresh milk is often stirred in order to cool it, and this is usually done by hand, which is a slow and tiresome task. A simple device for doing the work automatically by water flowing into a tank, as shown in the drawing, can be made by any farmer from materials that are available everywhere.

The device consists of a shallow box, made of 1-in. pine boards. The ends are sloping and the box is divided into two equal parts by a board extending vertically in the center about 8 or 10 in. above the sides. The box is mounted at its center on a wooden axle, and a stirring paddle is attached to each end as indicated. These paddles are made from lath, about 1/2 in. wide, and having a number of short cross-pieces on them. In use, the milk cans are placed in the water tank and the stirring device arranged as shown in the drawing, the rocking-box being located under a water pipe so that the water first flows into one side and then into the other alternately. As soon as one side of the box is filled the

weight of the water causes the box to tilt over, and the other side of the box is then filled.

As to our bodies, inclined to give them at least an even break with our business. Sometimes we even pay no attention to incessant warning signals of trouble. Wholesome living, careful eating and exercise—and less of the speed that kills—is this way can we give the arteries their chance and prolong the span of life.

POLICE CALLED TO SCENE OF PROBE SESSIONS

(Continued From Page One.)

him with being involved in unprofessional conduct in the matter of working with detectives and an alleged "frame-up" against Senator Wheeler, Howland declared. Senator Wheeler debated this with him and Chairman Brookhart chimed in saying that Howland had known in advance of the indictment against Senator Wheeler.

The argument continued between Howland and Brookhart after the hearing had adjourned, Means joining in to state his objection in personal fashion to Howland in an anteroom but the capital police intervened and quieted the row.

ILLINOIS WOMAN BANKER FOR SCHOOL CHILDREN

MRS. MARY DAVISON

MRS. MARY DAVISON is the official banker for the public school children of Bloomington, Ill., with more than 2500 depositors. She explains the methods of banking to the children, so they may have a thorough insight into the financial system, and also teaches them lessons in thrift. Two-thirds of all the children have savings accounts with her.

DIES AT AGE OF 110

SAN DIEGO, Cal., May 23 (AP)—Juan de la Cruz Pipo, said to be 110 years old is dead at the Concho Indian reservation near Alpine, San Diego county, according to word received here. One of his sons said Juan never ate flesh of domestic animals or vegetables such as grown by white men, and always ate at 4:30 a. m. and took a bath in a cold stream. Until a few days ago he could run up steep trails like a young man.

SAYS YOUNG IRELAND GOING WILD ON DANCING

DUBLIN, May 23 (AP)—Young Ireland has gone mad on dancing. The bishop of Armagh, following on the pronouncement of numerous other bishops, says that the youth of the country is suffering moral impairment through dance houses. Young people of both sexes, he said, frequent dance houses and stay out all hours. There has also been a wave of intemperance and an extension of clubs where drinks can be had.

Wants Ford to Pay \$11,000,000 for Use of Patented Magneto

Huff Asserts Claim as Inventor of Magneto and Asks Review of Court Decision.

WASHINGTON, May 23 (AP)—Claim against Henry Ford for \$11,000,000 was filed today in the supreme court. It was presented by Edward S. Huff, who asserted that he was the inventor of the magneto now used by Ford on his automobiles.

In asking for a review of the decision of the lower federal courts, which were adverse to him, Huff declared Ford agreed to give him \$250 for each magneto used. Huff received from Ford \$10,000, he said, "50¢" the magneto was used in 4,500,000 automobiles for which he has received no payment.

Hard Wheat for Macaroni.
United States Department of Agriculture experts have developed a new variety of hard wheat especially suitable for making macaroni.

BETTER HEALTH SERVICE

Public Health Is Public Wealth

Issued by the Public Health League of Idaho

THE AMERICAN DISEASE.

Hardening of the arteries has been termed by many "The American Disease." Of course it is not confined to this country, but the swift pace American travel has produced this condition as almost a characteristic of the bustling and sweep of American methods. The stress and strain of modern business and professional competition, the heavy quickly swallowed meals, the lack of exercise and scarcity of periods of relaxation—here in this abuse of the machinery of the human body—is a drug on nature's resources which spells trouble. Then in addition can be added the infections which attack us and it is not to be wondered at that many of us at 60 have the hardened arteries of the man of 60.

Some one has said, "A man is as old as his arteries." These arteries are the pipes which feed our bodies the food (blood) they must have every instant. They have elastic walls, when they harden in old age or early with disease, lose their elasticity and become brittle.

When some organ of the body or some muscle is active, more food is demanded and consequently there is an added load for the arteries to carry. They expand to meet this increased demand. If the arteries are hardened or narrowed, then the part or organ asking for increased support is denied this assistance. The man of 65 cannot run as fast, eat as much, or exercise as strenuously as the could at 25—the muscles and stomach cannot get the blood they require for the sudden strain put upon them.

When an artery becomes hardened or brittle it sometimes may break, especially if there is an increase in the blood pressure. If this break occurs in a vital part, such as the brain serious danger results and the person is said to have a stroke of apoplexy.

The fact that this general arterial condition does not carry any pain brings carelessness. When we have suffering then we are inclined to give added re-

TWIN FALLS, IDAHO

\$55 Cash Prizes

For the Best Articles on The Sampson Trail

The Sampson Trail has now been in existence nearly four years and covers 4100 miles of roads in Idaho, Utah and Wyoming. The Sampson Trail is a system of 10 separate trails each bearing a distinct letter pointing the way from one point to another.

In order to get an expression from the public as to the value of the Sampson Trail to Idaho, to local autoists and to tourists this contest is being inaugurated and it is the wish of Mr. Sampson, the author and builder of the Sampson Trail that writers confine their articles, either prose or poetry, to dealing with the Trail from the standpoint of public service or from experience in following the Trail.

RULES OF CONTEST

All poetry submitted not to exceed thirty lines; all prose articles not to exceed 350 words.

Employees or relatives of employees of Sampson Music company not eligible to receive prizes.

All articles must be in by midnight of June 15. Same person may enter both poetry and prose contents and each person may submit as many articles either poetry or prose, or both, as he or she may wish.

Do not write your name on same paper as manuscript but be sure to write your name and address clearly on separate piece of paper and attach it to each article submitted.

All articles submitted, prose or poetry, to be the property of Mr. Sampson.

AWARDS

FIRST PRIZE

\$25.00 cash prize for the best article, either poetry or prose.

TWO SECOND PRIZES

\$10.00 cash for the best poetry.

\$10.00 cash for the best prose.

TWO THIRD PRIZES

\$5.00 cash prize for second best poetry.

\$5.00 cash prize for second best prose.

JUDGES OF CONTEST

MRS. E. T. BARTON, President of Columbian Club.

MRS. E. B. SHERMAN, President College Women's Club.

MRS. OLARA BROWN, President Business Women's Club.

LOWER TEMPERATURES CAUSE MARKET ADVANCE

Secretary-Treasurer, Murtaugh Highway District.

GUARD DETAILED TO STOP USE OF PUMP AT MILNER

Regulation of Water Deliveries Cuts Off Supply to Low Lift District; Storage Water Available.

Posting of a guard at Milner to prevent operation of Milner Low Lift Irrigation district pumps that are alleged to have been diverting 100 second feet of water from Snake river to which the district has no legal claim marked completion Friday of putting into effect of regulation for this season of the distribution among water users of district number 36 extending from the point at which Snake river enters Idaho to Milner dam.

Regulation of Snake river water distribution, which the watermen's committee on nine declined to order at a recent meeting here and left to determination by G. Clyde Baldwin, watermaster, the time at which regulation should be made effective, was ordered by Mr. Baldwin here Monday. Under regulation each canal company or irrigation district will be restricted to proportionate share in the water supply in accordance with amount specified in its filing or decree.

Pumpers Ignore Order
Diversion of water from the Snake river by the Milner district was prohibited under the regulation order, which was served Thursday against the Milner district by W. M. McConnell, Milner dam superintendent and deputy watermaster. In accordance with this order operation of the pumps was halted at 2 o'clock Thursday afternoon, but two hours later they were discovered again in operation. Application then was made for posting of a guard at Milner to enforce regulation against the Milner district, and A. L. Bessie of Twin Falls, was deputized for this duty, upon which he entered Friday. Water before diversion from the river to the Milner district will, under regulation, be available to the Twin Falls North Side Canal company, it was stated today at the office of the Twin Falls Canal company. The Milner district has no other source of water supply.

Water deliveries through the Twin Falls canal system were maintained Thursday and Friday at 90 per cent of normal for this season, according to Barton Smith, general manager of the canal company. There was available for the Twin Falls Canal company at Milner 2000 second feet both days. Early reduction in the available supply was anticipated by Mr. Smith.

Effect of cool weather Thursday night interfering with the runoff at the headwaters of the Snake, is expected to be reflected in a decided reduction in the available water supply within the next few days.

Storage Water Available

Reports received Friday by Mr. Smith from the watermaster's office showed that the water level in Jackson Lake reservoir had risen Thursday to a point where storage water began to be available for the Twin Falls and North Side canal companies. Thursday's report showed total of 343,180 acre feet in storage, 125,000 being required before Twin Falls and North Side companies participate, so that there was available for these companies approximately 11,000 acre feet.

BLAZE ATTRIBUTED TO PLAYING WITH MATCHES

Prompt Appearance of Fire Department on Scene Prevents Spread of Flames from Coal Shed.

Fire believed to have been caused by children playing with matches, caused nominal damage to a coal shed at the residence of Mrs. R. Massey, 213 Jackson street, at about 5 o'clock Friday afternoon. The damage is reported to be covered by insurance. Prompt response of the fire department prevented spread of the blaze to an adjoining barn and other outbuildings in the immediate vicinity.

CONTACT WILL CELEBRATE

Opening of New Hotel on Saturday Night to be Gaiety Affair, Flavors and Dance to be Special Features.

Plans are under way for a real celebration in Contact in connection with the opening of a part of the new hotel there Saturday, according to word received from Contact business men Friday.

The evening there will be a display of fireworks while the hotel itself will be the scene of a dance upon which no pains will be spared to ensure success. Arrangements have been made for an orchestra and an influx of guests is confidently looked for from Twin Falls and surrounding towns as well as from the Contact neighborhood.

SNOW LIES DEEP AT HEADWATERS

Warm Rain Would Cause Material Gain in Storage Water Supply Says R. E. Shepherd.

That there is at this time a substantial quantity of snow and ice in the Jackson Lake watershed is the statement of R. E. Shepherd of Jerome who returned from a personal investigation of water conditions in and around the lake a two-day and night trip Friday in Twin Falls of business.

Mr. Shepherd states that it is too early yet to venture a prediction as to the actual amount of water which will be stored in Jackson Lake this year. Much depends on the nature of the weather during the next ten days or two weeks.

"There was virtually no rainfall last fall or through the early winter last year," said Mr. Shepherd, "nor has there been any of consequence this year. The snow lies in heavy drifts along the south fork and is slowly melting. Flow much of this snow melt gets into the reservoir however cannot be estimated. A warm rain would result in more water and would build up storage as well as run off below the lake quite rapidly. If the drought continues the available water supply is problematical. There is plenty of snow back of Briggs and Victor. The actual snow line begins two miles this side of the summit and beyond that point it is almost impossible to travel except on foot."

Mr. Shepherd says that the present situation should not be regarded as anything to worry about at this time although no matter what happens there is bound to be less water than during normal years. He expects to return to the vicinity of Jackson Lake in order to keep closely in touch with the water situation, but for the present it is impossible to say definitely what the storage will amount to at the maximum.

ENTERTAIN WOMEN'S CLUBS

Mrs. Maud Kenworthy entertained the Country Women's club at her pleasant home west of town, on Wednesday afternoon. During the short business session plans were made to work at sewing during the summer, rather than taking the usual vacation.

REPRESENT PROGRESSIVES

Twin Falls county delegation at the progressive party's state convention to be held in Jerome is composed of eight delegates and alternates elected at a meeting of precinct committees held here April 10. Delegates are O. C. Hall, Twin Falls; L. Walton, Kimberly; F. H. Franklin, Twin Falls; W. H. Shriver, Buhl. Alternates are Elmer Aman, Plover; B. Scott, Kimberly; Harry H. Kinney, Twin Falls; J. E. Pohlman, Amsterdam. The convention will be held today.

Advice. Advice should always be calculated to fit the other fellow's personality. One can do what another can't.

MEMORIAL DAY PROGRAM GIVEN

J. W. Taylor, County Attorney, to Deliver Address in Twin Falls' Observance.

J. W. Taylor, Twin Falls county attorney, will deliver the Memorial day address in Twin Falls Friday, May 30, and former Senator J. H. Beaver will be marshal of the parade preceding the exercises to be held in the cemetery.

Graves of veterans in the Twin Falls cemetery will be decorated in the morning before the opening of the exercises. Dan McCook circle and Henry V. Walling circle of the Ladies of the G. A. R., and the American Legion Women's auxiliary will have charge of the decoration of veterans' graves upon each of which an American flag will be placed, request being made by the committee that the flag be not used in decoration of other graves for this occasion in order that the veterans' graves may be readily identified.

Under direction of Senator Seaver the parade will start promptly at 10 o'clock on Shoshone street at the city park and will proceed along Shoshone street and Main avenue to the intersection of Main avenue and Fourth street east, where it will disband and where automobiles will be on hand to carry as many as desire to attend the exercises, taking place immediately thereafter in the cemetery. Following is the announced order of march: Twin Falls band; Dan McCook post, G. A. R.; American Legion; Spanish-American War veterans; Sons of Veterans; county auxiliary, Idaho national guard; Boy Scouts; Campfire Girls and all other auxiliaries.

Order of Exercises.
Exercises in the cemetery are to be opened with playing of the Star Spangled Banner, immediately following which at the command to be erected upon a representation of the graves of all veterans. Thereafter the program provides for reading of John A. Logan's order number 11; singing by a male quartet; ritual services by Dan McCook post, firing squad; music by band; singing by male quartet; address by J. W. Taylor; singing of America by the assembled group.

Announcement was made that elderly persons desiring to see the parade should call telephone number 210 at 9 or 9:45 a. m. for cars.

NEW PATROLMAN NAMED

Chief of Police Announces Appointment of H. U. Butts as Member of Force, Succeeding J. A. Gallaher.

Appointment of H. U. Butts to succeed J. A. Gallaher as a member of Twin Falls police force, was announced Friday by Chief of Police P. O. Herlihy. Mr. Gallaher has resigned from the force to devote his time and attention to farming operations on property near town which he leased recently. Mr. Butts has been a resident of Twin Falls for about two years.

NOTICE

Shoshone Falls ferry is again running with improved landings. The Galusha Power company has completed a dam creating a back water which assures no further interruption in the operation of the ferry. Graveling of the highway from Falls City to the Ferry is completed and the grade is in fine condition.

CARD OF THANKS

We wish to express our sincere thanks and appreciation to the friends who gave and offered their assistance during our recent bereavement and for the beautiful floral tributes.

MRS. JOHN C. SCHIFFMAN, MRS. L. A. KOEPEL, C. J. SCHIFFMAN, W. C. SCHIFFMAN, R. D. SCHIFFMAN. —adv.

BROKEN BOTTLE FACTOR IN DRY LAW CONVICTION

District Court Jury Accepts Police Version of Henry Frough's Use for Half-Pint Flask.

Henry Frough of Twin Falls, arrested by the police when he appeared on the evening of March 26 last, in a local restaurant with a half pint bottle in which, he testified on trial, he expected to carry away a purchase of coffee, was tried Friday in district court on charge of illegal possession of liquor and found guilty by a jury of six men which returned its verdict after brief deliberations. Judge W. A. Babcock will pronounce judgment today.

The bottle, fragments of which were placed in evidence, was broken before Frough was taken in custody. The arresting officer, Det. Konkinson and L. C. Peterson, testified that it had contained liquor. Frough testified that it had contained coffee and that he had brought it to the restaurant to carry away a purchase of coffee for a party in which several persons were participating.

RECOVERS MISSING CAR AND TALKING MACHINE

Automatic Switch, in Owner's Opinion, Defeats Purpose of Auto Thieves to Make Away With Brown's Machine.

An Overland touring car and its contents including a phonograph valued at \$50 and a .44 calibre revolver, were recovered Friday by the owner, Claude Brown, local music dealer, after having been missing nearly two days. The car and contents were taken between 10 and 11 o'clock Wednesday night from in front of the owner's residence at 412 Fourth avenue north, and were discovered Friday, abandoned in the middle of the road a half mile north of Curry. The owner is of the opinion that persons who took the car were unable to operate an automatic switch which would it was equipped to start it after stopping it on the road, and abandoned it under the impression that the gasoline supply had been exhausted.

ADVISES ORCHARDISTS WAGING WAR ON WORMS

Horticultural Inspector Says First Over Spray for Codling Moth Should be on Apple by Thursday Next.

Application of cover spray in combating codling moth infestation of orchards should be completed by May 29, according to statement issued Friday by H. T. Blake, deputy state horticultural inspector. The statement follows: "The only spray for the codling moth was finished in most of our orchards by May 20, and we now have before us the necessity of applying the first cover spray of lead arsenate before the eggs of the first brood of moths start to hatch.

The past two weeks have been unusually favorable for the emergence of the moth and the laying and hatching of its eggs, and observations made in several orchards show that a few moths were flying May 14 and that practically all have now emerged from their pupal cases. If weather conditions continue as at present most of these eggs will hatch about May 30, and it is very necessary, for the best results, that the first cover spray be on the apple before this time. Our apples are growing very rapidly in a very few days there will be a large percentage of its surface unprotected by a coating of lead arsenate.

By applying this spray thoroughly and at the proper time we have gone a long way toward harvesting a crop of apples free from worms this fall. It should be on the apple by May 29.

REDUCED ONE-PARE RATE

Via Union Pacific system, daily, effective May 12th, Idaho to points in Nevada, Arizona, New Mexico and California. Twin Falls to Los Angeles \$30.49; same fare back. Other points proportionate. A. M. Smith, ticket agent, Twin Falls.—adv.

BREVITIES

Ferrine Arrives—J. R. Perrine arrived Friday to visit home folks a few days.

Back from Salt Lake—Ernest White returned Friday from a business trip to Salt Lake.

Will Visit Friends—Eleanor Strunk left Friday morning for American Falls to visit friends.

Visiting in Burley—Miss Gladys Olson went to Burley Friday morning to visit friends.

Leaves for Visit—W. W. Davis, father of Mrs. Gen. Randolph, left this morning for Salt Lake on a visit.

Visits in Oakley—Mrs. E. D. Puckett of Highland View went to Oakley Friday morning to visit relatives.

To Visit Relatives—Mrs. G. Condon left Friday morning for Big Pine, Wyoming, to visit friends and relatives.

On Machines to Hansen—H. J. Smith of the Golden Rule addition went to Hansen Friday morning on business.

On Professional Visit—Dr. J. T. Evans, optician of Boise, arrived Friday morning to spend a few days in Twin Falls.

Leave for Summer—Mrs. Elizabeth O'Neil, daughter June and son Eddie, left Friday evening for Salt Lake to visit for the summer.

Concludes Visit—Mrs. A. R. Pugmire, who has been visiting her sister, Mrs. Wise Evans, left Friday morning for her home in Idaho Falls.

Leaves for Chicago—Miss Ruth Van Gilder who has been making her home with her aunt, Mrs. J. A. Barber, left Friday morning for her home in Chicago.

Visiting Friends Here—Mr. and Mrs. John W. Kendall arrived Friday from Salt Lake and will be in Twin Falls a few days. Mr. Kendall represents the Rexal Drug company.

Choir and Orchestra Plan—Members of the choir and orchestra of the Methodist church and their families, composing a group of about 75 persons, enjoyed a picnic dinner Friday evening in the lawn at the country home of Mr. and Mrs. Charles Grieve near Kaul.

Grocer Stricken—James Burnmeister, proprietor of the Elm Park grocery, is a patient in the county general hospital where he was taken Wednesday following a severe attack. Mrs. Burnmeister, who recently left for a visit in California, is expected to return here today in response to word of Mr. Burnmeister's condition.

SCOUT LEADERS TO MEET

A meeting of Twin Falls scoutmasters has been called by Dr. W. F. Passer, commissioner to be held Monday evening in the probate court rooms to consider plans for participation by Boy scouts in observing here of Memorial day and Flag day, and to formulate detailed plans for local archery and swimming contests for scouts.

Lost in the Fog

Children lost in London fog have furnished the basis for many a story. Temporary separation from home and friends is, however, merely one of the minor tragedies shrouded in the mark, health statisticians have found. Recently it was discovered that the death rate from bronchitis and pneumonia increased sharply during the week following extensive heavy fog. Large quantities of unborn coal from chimneys of factories and private residences, held in the atmosphere by the fog, are blamed for lowering the individual resistance to the disease germs, and so boosting the death rate.

Success of Native Son. Little towns wonder how a native son goes out in the world and makes a great success. He soon ceases to be the same man after he "goes out."

Weather Records Show Cooler Nights Return

Mercury's return to lower minimum mark, indicating, in records of the weather observers, a cooler night, was a distinguishing feature of weather conditions of the 24-hour period ending Friday evening in the Twin Falls area. Temperature's low mark for the day was recorded at 41 above, a decline of nine degrees under the maximum of the preceding day, with high at 70 above, a decline of one degree.

SHOSHONE FALLS FERRY AGAIN CROSSING RIVER

Owner Announces Resumption of Service Following Suspension Caused by Low Water, and Explains Situation.

Operation of the ferry across Snake river at Shoshone falls has been resumed following temporary suspension of service caused by low water, according to announcement made Friday by Fred Anderson, owner of the ferry. Water level of the river has not risen, Mr. Anderson stated, but the ferryman's problem has been solved by construction of new landings.

Full of the water level came unexpectedly and there was no opportunity for giving adequate warning to travelers seeking passage on the ferry at the time ferry service was suspended. Mr. Anderson explained. Signs telling of the suspension of ferry service were placed on roads leading to the crossing but were disregarded or not seen by a number of travelers who were put to inconvenience for which Mr. Anderson expressed regret.

FILER FARMER ACCUSED

Issuance of Warrant for Arrest of E. H. Johnson Follows Alleged Attack Upon John O'Connell in Dispute.

Complaint charging E. H. Johnson of Filer with assault and battery and warrant for his arrest was issued Friday at the instance of John O'Connell of Filer, who alleged that Johnson struck him on the head with a shovel inflicting severe injuries in the course of an argument over irrigation water early this week. O'Connell was discharged Wednesday from the county general hospital. Assurance was given to county authorities by J. W. Porter, an attorney for Johnson, that he would not attempt to evade arrest.

WHOLESALE FIRM ADDING TO WAREHOUSE QUARTERS

Southern Idaho Grocery Concern Begins Excavation for Two-Story Basement, 100x105 Feet.

In connection with plans for expansion of its warehouse facilities, the Southern Idaho Wholesale Grocery company has begun an excavation for a full two-story basement, 100x105 feet, adjoining its warehouse buildings on Fourth avenue south. The work is being done by force account, no contract having been awarded. In connection with its extensive business in wholesale distribution of groceries, the company serves as marketing agent for the Southern Idaho Bean Growers association.

The News is read in the permanent place.
