MEMBER AUDIT BUREAU OF CIRCULATION

PRICE FIVE CENTS

ACTION OF FALL IS BLAMED FOR GIGANTIC LOSS

Refused to Renew Contract With Shipping Board for Purchase of Royalty Oil, Witnesses Testify.

WASHINGTON, May 28 (AP)—Officers of the fleet corporation told the house committee investigating the shipping board today that Albert B. Fall, as secretary of the interior in July, 1922, had refused to renew a contract with the board for purchase of government royalty oil in Montana and Wyoming, thereby forcing it to obtain it elsewhere, entailing a loss of millions of dollars.

The testimony was given by Joseph F. Sheedy, vice president, and M. B. Bowen, manager of purchases and supplies of the fleet corporation, in response to questions. The latter declared that "every argument at the board's command" was brought to bear upon Mr. Fall who, subsequently, committee members brought out, entered into a contract with the Sinclair interests for purchase of oil.

The contract at the time Fall refused to renew it, Bowen testified, had been enforced since May, 1920, when it was entered into through negotiations with the interior department when Barton Payne was secretary. Assistant Secretary Finney drew up the contract, he said, adding that Mr. Payne who had just entered the department after having served as chairman of the shipping board, was familiar with the fuel needs of the government fleet.

Approximately \$5,800,000 was saved by the board during the life of the contract, Bowen said. In response to questions of Representative Linderberger, republican, California, Mr. Sheedy who occasionally prompted the witness, with the committee permission, testified a further saving of about \$13,000,000 a year would have accrued to the board had the contract been continued. Pressed for the reasons that guided Fall in declining to extend the contract, Bowen said that the former interior secretary told him he desired to enter into a contract "with someone other than the one company which was operating in the Salt Creek field, which was the Midwest Refining company."

The witness admitted, however, upon further questioning that representatives of Sinclair were constantly on hand during the negotiations between board officials and Fall for the contract extension. The secretary told him,

House Passes Bill to Raise Strength of American Navy

Measure Would Authorize Construction of Several Additional Vessels Under Ratio Fixed at Arms Conference.

WASHINGTON, May 28 (AP)—The house tonight passed a bill designed to bring the American navy up to the 5-5-3 ratio fixed by the Washington arms conference. The vote was 166 to 138.

As sent to the senate, the measure would authorize construction of eight scout cruisers, six river gunboats and extensive improvements to six battleships at a total estimated cost of \$111,000,000.

The measure was introduced by Chairman Butler of the naval committee at the request of the navy department. An unsuccessful effort was made by Representative Britten of Illinois, ranking republican on the naval committee, to provide \$6,500,000 for the elevation of guns on 13 battleships. The proposal was opposed by Chairman Butler, who declared it would violate the arms conference treaty. It was rejected 74 to 54.

An amendment by Representative Montague, democrat, Virginia, to authorize the president to suspend the building program should another naval limitations conference be held, was accepted.

A motion by Representative McClintock, democrat, Oklahoma, to eliminate the section authorizing the cruiser and gunboat program was lost, 174 to 144. The house also refused to accept a proposal by Representative McKown, democrat, Oklahoma, to strike out an authorization of six gunboats which would be used in Chinese rivers.

Contrary to expectation of some members no effort was made to amend the bill to authorize the construction of two additional airplane carriers.

Twin Falls County Farmers Preparing for Short Water

Views and Ideas of Men Who Expect to Raise Good Crops Notwithstanding Existing Conditions; Methods of Handling Crops Set Forth in Interviews Gathered by The News.

THAT he never uses over two-thirds of his available water and has no fear whatever of a water shortage of serious import this year, is the statement of Thomas E. Pike, well-known farmer in the Kimberly district whose farm is on Addison Avenue, just north of the town.

Last year Mr. Pike harvested 38 bushels of beans to the acre on 6 acres and took 215 tons of beets off 9 acres. He attributes his success very largely to the fact that he makes cultivation do the work of water and uses the latter just as sparingly as he can. He states that he expects to raise good crops of everything planted if he receives 50 per cent of the water he received last year.

Asked as to his methods of handling the beet crop last year, Mr. Pike said: "I watered first and planted the seed in wet ground. The first watering consisted of a four-hour run on every second row, allowing the water to sub up to the beets rather than flood the rows. I watered five times in all increasing the run by an hour with each watering, still watering each second row. I have no fear of a water shortage as I never use two-thirds of my water, and I figure I can make good crops if I get within 50 per cent of as much water as was available last year. Of course, I am right on a lateral and for this reason I get a more economical use of the water than many farmers can get just in a general way I know I use much less water than a good many, and I do this from choice because my experience has shown me that I can do better that way."

Mr. Pike believes in the principles of diversified farming. His crops this year consist of 7 acres of beets, 7 acres of potatoes, 18 acres of beans, 5 acres of corn, 9 acres of wheat, 5 acres of alfalfa and 5 acres in orchard. While he refers directly to beets, in his remarks as to the use of water, the same principles of conservation of moisture are carried out with respect to all his crops. He emphasizes the fact that he does not fear a water shortage even though the actual available water is materially cut.

WETUMKA, Okla., May 28 (AP)—Thirteen persons are known to have been killed and many were injured by a tornado that struck Wetumka, in Hughes county, Oklahoma, late today, according to telephone news wires here tonight.

The tornado approached from the southwest and swept through the southern fringe of the town whose population has been swelled recently by all activities in the surrounding territory.

A later report from the telephone company at Wetumka said that of the 13 known dead, five were children.

A later report from the telephone company at Kildeaville placed the number of dead at 20 and the number of injured at 50.

The tornado struck the residence of a prominent citizen, the business section escaping damage.

OKLAHOMA CITY, Okla., May 28 (AP)—The tornado which struck Wetumka, in Hughes county, Oklahoma, late today, according to telephone news wires here tonight.

The tornado approached from the southwest and swept through the southern fringe of the town whose population has been swelled recently by all activities in the surrounding territory.

A later report from the telephone company at Kildeaville placed the number of dead at 20 and the number of injured at 50.

PIRATES HOLD PRISONERS IN MOUNTAIN DEN

Bandits Attack Motor Boat and Capture 24 Persons, Including Two Americans; U. S. Consul Takes Action at Once.

CANTON, May 28 (AP)—Pirates recently attacked the motor boat Roanoke, belonging to the American Southern Baptist mission at Wuchow, west of here in Kwangsi province, captured 24 prisoners, including four whites, and carried them to their mountain stronghold, the American consul here was advised today.

The motorboat was loaded with supplies for the relief of missionaries at Kweilin. Two Americans were taken, Rev. Ray and Dr. H. G. Miller, and two Englishmen named Jaffray and Carmo. The other prisoners taken were Chinese. All were blindfolded before the trip into the mountains, and were kept so during the journey.

The story of the attack and capture became public when the bandits released the Chinese captain of the Roanoke, that he might notify the mission that the prisoners would be freed on payment of a large ransom.

The American consul here is taking immediate steps to secure freedom for the prisoners, but due to the fact that they were taken into a wild and uninhabited country, he fears that an early release is improbable.

EXPLOSIONS TAKE TOLL

BUCHAREST, May 28 (AP)—The arsenal and ammunition dumps on the outskirts of the city were destroyed today by a terrific series of explosions and fire. Enormous damage was done and great loss of life is reported. The royal palace at Cotroceni was imperiled. The conflagration was still raging tonight.

IDAHO WEATHER.

Thursday: Fair and warmer.

IT'S ABOUT TIME YOU GOT BUSY, YOUNG FELLER; HERE COME YOUR FOLKS.

PREDICT DR. FOSDICK WILL BE OUSTED

DR. HARRY E. FOSDICK

THE OUSTING of Dr. Harry Emerson Fosdick, modernist leader, from his New York City pastorate and a complete rout of modernists in the Presbyterian church, was predicted in Grand Rapids, Mich., following the announcement that Dr. Charles E. Macartney of Philadelphia, moderator-elect of the Presbyterian general assembly, had named William Jennings Bryan as vice-moderator, and ultra-fundamentalists to chairmanships of all important church committees.

EXPORTS SHOW INCREASE

WASHINGTON, May 28 (AP)—American exports of manufactures ready for consumption increased nearly \$20,000,000 in April over the corresponding month last year, it was shown today in an analysis of American trade made public by the commerce department.

Exports of crude foodstuffs fell off from \$17,530,000 in April, 1923, to \$13,350,000 last month. Manufactures ready for consumption exported were valued at \$147,574,000 against \$128,483,000 for April 1923. Total American exports were \$346,858,000 against \$327,492,000, the same month a year ago.

Imports of manufactures ready for consumption totalled \$64,103,000 for April against \$62,400,000 for April, 1923. Imports of foodstuffs were valued at \$15,316,000 against \$32,860,000. Manufactured foodstuffs imported totalled \$58,652,000 against \$60,252,000.

FOSDICK CASE IS ACTED UPON AT ASSEMBLY

Presbyterians Rule New York Pastor Must Change Faith if He Is to Stay in Pulpit; Baptists. Hold Convention.

GRAND RAPIDS, Mich., May 28 (AP)—If Dr. Harry Emerson Fosdick, a Baptist, desires to continue to occupy the pulpit of the First Presbyterian church, New York city, he should enter the Presbyterian denomination; if he cannot accept the Presbyterian doctrinal standards, he ought not to continue in a Presbyterian pulpit.

This was the verdict of the 136th general assembly of the church in its session today. The assembly, in adopting a report of its judicial commission after refusing by a majority of 193 votes to review the entire case, made this decision.

The New York presbytery, therefore, is directed "to take up with Dr. Fosdick this question to the end that he may determine whether it is his pleasure to enter the Presbyterian church and thus be in regular relationship with the First church of New York as one of its pastors."

The fight over the Fosdick case which has been an outstanding issue of the church since last year's assembly, has been a long and bitter one. The by-laws to make the preaching in the first church conform to the confession of faith, did not come on the adoption of the commission's report. It centered instead upon an attempt by the fundamentalists to throw the case upon the floor of the assembly.

BAPTISTS POSTPONE ACTION.

MILWAUKEE, Wis., May 28 (AP)—Opponents of the plan to approve the declaration of principles of the Baptist World Alliance, commonly known as the Stockholm declaration, won the first skirmish on the floor of the Northern Baptist convention here today when the convention voted to postpone action on the proposal until the tract could be printed and distributed among the delegates. The action taken also was regarded as a fundamentalist victory in view of the fact that this faction opposes the approval on the ground that the statement of the Baptist attitude toward the creed expressed in the declaration does not go far enough and is weak in expression.

Doctrinal unit of the declaration objected to as weak, is described in the following language:

"The Baptist with all the evangelical Christians, rejoice in the common basic beliefs, the incarnation of the Son of God, his sinless life, his supernatural works, his deity, his vicarious atonement, his resurrection from the dead, his present reign and his coming kingdom, with its eternal awards to the righteous and the unrighteous."

Army World Fliers Hope to Make Next Jump in One Day

Commander Announces Aviators Are Ready to Resume Long Journey; Plan to Regain Lost Time.

TOKIO, May 28 (AP)—Lieutenant Lowell H. Smith, acting commander of the American army round-the-world flight, announced today that the aviators plan to leave Kagoshima Saturday morning on the next leg of their journey, weather permitting. They will endeavor to make the flight to Kagoshima at the southern end of the island of Kyushu in one day, stopping at Kushimoto only for fuel.

By making the flight in one day the fliers hope to regain some of the time they lost owing to bad weather in Alaska. The original plan was to fly from Kagoshima, 50 miles north of Tokio, to Kushimoto, a port at the southern end of the main island of Japan, a distance of 350 miles and after a rest there, continue on another day to Kagoshima. From Kagoshima the aviators make their hop of 600 miles across the Yellow sea to Shanghai, their first landing place on the Asiatic continent.

BANK TELLER.

SAN FRANCISCO, May 28 (AP)—A warrant was issued today for the arrest of Dan Rowan, a teller for the Bank of Italy, who has been seen since Saturday night. Bank officials reported \$47,300 of the bank's funds are missing.

JAPAN AWAITS MOVE OF U. S. ON EXCLUSION

Question of Prohibiting Orientals Is Now Up to Hughes, Tokio Officials Believe; Protest Sent to Washington.

TOKIO, May 28 (AP)—The next move in the question of the exclusion of Japanese from America, provided in a clause of the immigration bill passed by the American congress and signed by the president, is up to the state department in Washington, in the view of officials here.

The solemn protest of the Japanese government, based, it is believed, on the ground that the exclusion provision is a contravention of article one of the treaty of commerce and navigation between the United States and Japan has been sent to Ambassador Hanihara for presentation to Secretary of State Hughes. This article of the treaty of commerce and navigation guarantees equality of treatment of the merchants of the two countries.

When Hanihara has delivered the protest to the secretary of state and the matter is disposed of the ambassador is expected to leave for home. The foreign office says this is at his own request, he having repeatedly asked to leave, but it is not expected that he will return to Washington.

Is Important Affair.

The protest, approved by the cabinet, was also submitted to the prime minister for his sanction, an unusual proceeding, indicating that great importance is attached to it. Foreign Minister Matsui added a statement to the press, expressing deep regret at the passage of the immigration bill and referred to the government's protest as a "solemn one." He urged the press, which had commented bitterly on the signing of the bill by President Coolidge, to maintain an attitude of restraint. Leaders of all the parties in the diet, including men who will take over the government when Premier Kiyoura's cabinet resigns, probably early in June, in a special meeting passed a resolution binding themselves to use their best efforts to restore the old friendly relations between the two countries. In their view the exclusion law does not represent the true will of the American people, supporting their statement by the declaration of President Coolidge disapproving of it.

WORD NOT RECEIVED.

WASHINGTON, May 28 (AP)—Official word of Japan's protest against exclusion legislation was still lacking tonight in Washington. It was said at the embassy that the communication had not been received from Tokio, and lacking knowledge of the basis of the Japanese objection, neither embassy nor state department would discuss the matter in any way.

Tokio advices have indicated that allegations of treaty violations are the basis of the complaint. Such a communication is certain to receive most careful attention here as administration officials were careful throughout the congressional debate that led up to the passage of the immigration bill with an exclusion clause to keep congress fully advised as to obligations resting upon the country which should be considered in dealing with the exclusion question.

It is the business of the executive branch of the government to see that every expected or implied international engagement is fully understood by congressional committee. In view of that, it may be significant that no question of treaty violation is opposing the exclusion clause. The position taken by President Coolidge and his advisers throughout was that the legislative method of dealing with Japanese immigration was unnecessary and inexpedient; that it was likely to create resentment in Japan without any compensating advantage to be gained in this country.

President Coolidge emphatically summed up the administration case against the exclusion measure in his statement which accompanied his signature of the bill.

Era of Good Feeling

In American political history the two administrations of President Monroe, up to the time of the campaign for his successor, 1817-1824, was known as the era of good feeling. There were practically no issues and but one party, Monroe being unanimously re-elected in 1820 except for the personal whim of one elector.

Need \$725 to Wed

Danish banks have forbidden male employees receiving less than 4,000 crowns (about \$725) a year to marry. In many of the banks most of the clerks have to work several years before attaining the minimum marriage salary.

A New Vegetable

Growers of the dandelion, a new potato-like vegetable, have organized in Florida to develop a market for their product before the industry has become fully established on a production basis itself.

Men and Women in the News of the Day

Left: CURTIS D. WILBUR, 3. ADA MAY, 4. Right: EX-CROWN PRINCE OF PRUSSIA, 5. MRS. CHARLES DILLINGHAM, 6.

IN A REPORT TO CONGRESS, Secretary of the Navy Curtis D. Wilbur admits the American navy has fallen below the terms of the naval disarmament treaty, until the ratio, which should be 5-3, is now: England, 5; America, 4; Japan, 3. Ex-Crown Prince Frederick Wilhelm, after giving much study to his vast estate at Oels, Germany, has engaged the Breslau university as a summer student in agriculture, in an effort to increase the productivity of his land and thus increase his income. Mrs. Charles B. Dillingham, wife of the noted New York theatrical producer, will shortly apply to the French courts for a divorce, according to a Paris cable. Ada May, New York dancing star, now featured in "Lollipop," is soon to marry Lieutenant Colonel Wilson Potter, Philadelphia society leader, according to reports on the Rialto.

JEROME

JEROME—Willis Evans of Oregon, has returned to his home after a two weeks' vacation at the home of his aunt, Mrs. Dick Johnson and family, north of Jerome.

Mr. and Mrs. F. G. Nims have as their house guest their daughter, Mrs. E. C. Shellworth and family of Payette. Mr. and Mrs. Shellworth were residents of Jerome in pioneer days.

Mr. and Mrs. Allen Duml have as their house guest Mr. Welch of Seattle, Wash. Their Westminster Guild met on Monday evening with Mrs. Joe Shirley. The usual business meeting and social hour were enjoyed. This being the last meeting until fall, a good attendance was present. Mrs. Shirley was assisted by Mrs. Burdick in serving delicious refreshments.

J. Sauer has gone to Nebraska where he will make his home.

On Friday evening the members of Pleasant Plains Grange were hosts to members of other granges around Jerome at a social gathering at the school house. An old fashioned school was cleverly conducted with a spelling match and singing. Lunch was served in baskets which was brought by those present. About 100 attended.

The Jerome municipal band delightfully entertained the public with their first concert on Tuesday evening at the North Side Inn.

Mrs. Andrew Anderson spent the first of the week shopping in Twin Falls.

Mrs. R. E. Shephard has returned to her home after spending the past week with relatives in Twin Falls.

Mr. and Mrs. C. C. Jones of Twin Falls are spending a few days at the home of Mr. and Mrs. Alfred Dewhirst of Sugar Loaf.

TOURIST PARK NOTES

H. Angle with a party of friends is on the way to Detroit, from Aberdeen, Wash.

George P. Barton from Seattle, rolled into camp late Tuesday evening. When asked what his destination was, he answered, "Right here."

R. Weise and family are going back to Chicago from Los Angeles.

Mr. and Mrs. A. P. Parrapp came from Oakland, Cal., and are going somewhere east.

W. C. Sullivan and family from Yakima, Wash., are going through Yellowstone park as soon as it opens.

Mr. and Mrs. Fred McLane are returning to McGraw, N. Y., from Santa Ana, Cal.

Windy weather is not good touring weather, therefore there are few in the park, and little to say about them.

"No More Than 5 in 1 Bed"

The museum of the city of New York has an old-time tavern sign on which is printed the following: "Four pence a night for bed. Six pence with supper. No more than five to sleep in one bed. No boots to be worn in bed. Organ grinders to sleep in the wash-house. No dogs allowed upstairs. No beer allowed in the kitchen. No razor grinders or tinkers taken in."

Used Gold to Decorate

While gold is now the standard of value throughout the world, in the days of old Greece gold and silver were commonly used in the decoration of buildings.

UNUSUAL CAR BODY IS DISPLAYED HERE

Advantages of All-Steel Construction in Closed Cars Are Revealed by Novel Exhibit.

Magel Automobile company, the local Dodge Brothers dealer, has on display the half-skeleton steel body which attracted so much attention in the educational exhibit held by Dodge Brothers in connection with the New York, Chicago and San Francisco show.

The body is unique in that one half is enameled, trimmed, upholstered and finished like the body of a car ready for use, and the other half is entirely unfinished, showing clearly every part of the strong, light, safe, all-steel construction.

The upholstery and trimming are cut at the center line of the car, showing the deep cushion springs and the genuine hair padding.

The finished side of the body shows a fine, smooth, lustrous surface. The reputation for retaining newness of appearance after years of service is the result of Dodge Brothers' process of baking the enamel at high temperature.

The unfinished half shows how the frame, consisting of pressed steel parts welded and riveted together, gives maximum strength and stiffness together with light weight and freedom from warping and from squeaks and rattles. No wood whatever enters into the construction of the body except the frames for the removable cushions and the few strips to which the trimming materials are tacked. Even the moulding around the windows, which upon the closest examination looks like varnished hardwood, is of pressed steel finished in baked enamel.

Everyone interested in seeing this unusual body is cordially invited to the Magel Brothers salesrooms any time during the week, from 9 a. m. to 6 p. m.

The Only Reason

We believe lots more persons would attempt authorship if they could but find a way to keep from starving to death while writing a masterpiece.—Bethany Republican.

AMSTERDAM

AMSTERDAM—Dale D. Kunkel and family, C. L. Kunkel and family and Miss Lucille Kitchell enjoyed a motor drive to Smith's hot springs on Sunday. H. E. Clappitt has moved from the Ed Pastor home to the Pastor home east of town. Elza Niccum was in this vicinity on Monday.

Mr. and Mrs. L. V. Deun and son, Billy, were Sunday guests at the Paul Reed home.

Clair B. Pershall was a Rogerson business visitor on Thursday. Mr. and Mrs. C. C. Kunkel and Anthony K. Hurdman motored to the county seat on Saturday morning.

Mr. and Mrs. Marian Larson and family of Rogerson were in this vicinity the first of the week.

W. A. Kent was over from Contact Monday, stopping in Amsterdam on business while enroute to Twin Falls.

Miss Lucille Kitchell closed a very successful term of school May 23. As a closing exercise a splendid program was rendered on Thursday night which was appreciated and enjoyed by a full house. On Friday she took the school to "Wild Cherry Dell," east of Rogerson, on a picnic. Miss Kitchell has been employed for the 1924-1925 term.

Mr. Dale and Miss Lila Skinner were visitors with home folks on Sunday evening.

Mrs. Garrit Peters, who has been on the sick list, is somewhat improved. Buford E. Kuhns was in this vicinity on Sunday, coming for his mother, Mrs. Emma Kuhns, who accompanied him on his return to Moscow, where he is a graduate from the university. Mrs. Kuhns expects to go on from Moscow to Portland to visit relatives, thence to Corie Madre, California to spend the summer with her daughter, Mrs. Frances White.

Leonard Peters and his mother, Mrs. Garrit Peters, and Mrs. Mira Duitman were Twin Falls visitors Tuesday.

Mr. and Mrs. William Hines made a short stop in Amsterdam, Tuesday. They were driving from Rogerson to their home at Rockland, Idaho. Cards have been received announcing the marriage of Miss Grace Young, daughter of the Rev. and Mrs. W. S.

ROCK CREEK

ROCK CREEK—Miss Ann Larsen Dale and Thelma and Florence Van Eaton are recuperating from the measles and mumps.

Edward Miller returned home from Jerome where he spent the winter with his sister, Mrs. Dewey Greenfield.

Mrs. Viggo Rasmussen was brought home Saturday from Twin Falls, where she was under the care of a physician.

Evans Thompson had visitors from Hagerman, Sunday. His brother and Mr. Jacobson were here.

Ruby Hansen came home Tuesday from Twin Falls.

Miss Irena Hoppe and Dean Maher of Twin Falls returned home Tuesday after spending a week's vacation with Mrs. M. Larsen.

Young of Rigby, to Charles R. Ponce of Mackay, Idaho.

Mrs. Henry Jones and sons, Norris and Truman, and Virgil Jewett, were in from Goat Springs ranch Saturday.

Farmers are more than busy irrigating.

Homemade Breezes

Ocean breezes, or at least good imitations of them, are said to be obtainable from a household electric vacuum cleaner at about 2 cents an hour. The bug and driving belt of the cleaner are removed and a sponge soaked in salt water is placed in the suction end. The effect of sea breezes is heightened by placing the converted vacuum cleaner in an open window.—Popular Science Monthly.

Oldest Bottle of Wine

The oldest bottle of wine in the world, so far as authenticated records can settle this question, is in the possession of a London wine expert. It is a bottle of Bavarian bock, which bears on its label the date 1540.

NO FEAR OF EVIL resulting from change of diet, water or climate, concerns those who take on the short trip, summer vacation or long journey, CHAMBERLAIN'S COLIC and DIARRHOEA REMEDY. Ready for emergency - night or day.

New Arabian Nights

AMAZED at wares described in modern newspapers and magazines, ancient readers would believe them fantastic Arabian Nights . . . tales of cylinders that bottle the lightning's flash, of tiny ticking gold that measures the turning-over of all the earth, of bits of metal that pull concerts out of thin air and sing them to you in your living-room.

Yet you accept these Arabian Nights Entertainments as naturally as the products they represent. The printed page has kept you in daily touch with all the audacities of progress.

If you are wise, you keep on reading the advertisements in these pages. You read them every day. Only through them can you soonest learn of new comforts and conveniences men have thought out for you.

You read them to keep alert to ways of making your life more pleasant.

You read them to compare.

To choose.

To save.

Easier than rubbing the lamp—to turn these pages and have the goods of the world before you

THE GUMPS—COME AND GET ME

POLICE EFFORTS
FAIL TO SOLVE
BAFFLING CASE

Two Instructors, Only Suspects Held for Boy's Murder, Are Released for Lack of Evidence; Woman Questioned.

CHICAGO, May 28.—Two instructors of the private school attended by Robert Franks, Chicago school boy, slain while his parents waited to pay a \$10,000 ransom, were freed today on writs of habeas corpus when the police failed to place charges against them.

With the freeing of the two men the only suspects held, the police department, detectives and state's attorneys investigators admitted tonight that the crime is as baffling as when the boy vanished a week ago today.

The following day his nude body was found in a south side swamp. For hours today there was feverish excitement by investigators after Judge Frederick De Young informed the police that they must place charges against Mott K. Mitchell and Walter E. Wilson, instructors of the Harvard school, attended by the boy, who have been in custody for four days, or free them.

Lacked Evidence

Robert E. Crowe, state's attorney, appeared in person to ask the court to have the men remain in police custody voluntarily if they would, or otherwise if there were any legal way to hold them. He admitted the police did not have sufficient evidence to make charges. Attorneys for the instructors declared that there is no crime serious enough to overthrow the rights of citizens and that their clients had been denied justice over since being taken into custody, although they have given all the information they possess.

Woman Questioned.

Wilson's landlady was also in custody for a time after a gardener living near her home said that he had seen her in the neighborhood of the Franks home about the time the boy vanished and she acted in a strange manner, hunting around shrubbery and telling him she was looking for a lost cat. She denied being near the Franks home and was later released.

Two telephone calls to the Franks home resulted in an extensive investigation today. One of them was found to be from a man who said he was an amateur detective and wanted to work on the case. He was held for further questioning. Another call directed investigators at a private home where it was found those whose names were mentioned knew nothing of the case. An attempt to find who sent the message was being made.

"Black" Foxes

The true black fox is black all over with the exception of the tip of the tail, which is white, but such animals are rare indeed, according to sportsmen of authority. The silver, or silver-gray, is virtually the same color save that the back shoulders are shot with more or less gray hairs; the less light hairs there are, the more valuable the pelt. Foxes that have a small amount of these hairs are classed as black. The cross fox is a mixture of the dark fox and the ordinary red one, rusty colored patches being visible at different points, especially on the shoulders and the rump. As in the case of the silver, the more black on the cross the greater the value of the fur.

A Valuable Food

Scorfield urges the greater use of watercress, which contains all three vitamins, as a food. Watercress is a cheap green vegetable which, like lettuce, is eaten unspiced by cooking but which, unlike lettuce, is available all the year round. Its more extensive use may, therefore, be an appreciable help in remedying dietary errors caused by urbanization.—British Medical Journal.

SEEK MAN WHO FLED
WITH WIFE'S AID

HOWARD KEAVIN.

HOWARD KEAVIN, 29 years old, is being sought all over America after his sensational escape from the Ontario county jail, Canadaigua, N. Y., where he was held on the charge of assassinating Policeman Aeneas McDonald, of Geneva, N. Y. Keavin was visited in the jail by his wife and her sister, Mrs. Loreta Maloney. Mrs. Keavin thrust two pistols in the face of Deputy Sheriff Charles Smith, and Keavin drew an axe. He and his wife fled, but the sister fainted and was captured.

HALEMAUNAU CRATER IS
SEEN IN ACTION AGAIN

HILO, May 28 (AP)—Halemaunau crater, after two days of comparative quiet, returned to life at 8 o'clock this morning and threw a giant dust cloud into the air. No stones were visible, nor was there any electrical display which had been noted in connection with previous eruptions of the present series. The cloud eventually drifted off toward Palapa, obscuring the countryside.

The volcano pit remained quiet all night, the light rising clouds of steam being the only indication of continued activity. Twelve earthquakes were registered between 6 p. m. and midnight.

The pit now measures 3000 by 4,000 feet embracing 180 acres within the void as compared with 50 acres on May 10 before the present disturbances started.

Porpoises Great Eaters

Porpoises live on fish, and recent examinations of the stomachs of the porpoises show that it takes many fish to keep them from having that hollow feeling. A clew to the number of fish on the dietary list of an active porpoise may be had from the number of otoliths or carbonates of fish found in the stomach of the sea mammal. One porpoise has yielded enough of these to account for the consumption of 7,300 fish, and since these otoliths are thought to be dissolved in the stomach in a period of no great length, the fish-eating proclivities of the porpoise may be estimated.

Well Paid

Millstones in human progress were set up here and there by a creative mind. Creative minds are now pretty well paid, too.

Radio Programs

Advance offerings at principal stations within range of receiving sets in Twin Falls country, arranged briefly for busy readers. TWIN FALLS TIME.

The Wonderful New
Starch for Children's Clothes

THERE is nothing that gives such a soft, pliable finish as Linit—for starching your children's dainty clothes.

That is why all modern mothers use Linit, the remarkable new starch discovery. Linit makes even ordinary cotton fabrics look and feel like linen.

Because Linit remains THIN and FREE-RUNNING like water, it penetrates every thread of the fabric, and helps strengthen it, thus preventing wear and increasing the life of the material.

New Starch Discovery

USE Linit according to directions, and, unlike other starches, you will not find Linit stiff or jelly-like.

This is also why Linit goes much farther than old-fashioned starches—and why it is easier to iron with Linit.

Go to your grocer, ask for a 10c package of Linit and begin to use it for all fabrics. Linit is the economy starch—it goes further and saves your clothes.

GIBBONS ENDS TRAINING FOR RING CONTEST

St. Paul Flash Puts in Speedy 10-Round Session with the Gloves; Carpenter Views Shelby Fight Film.

MICHIGAN CITY, Indiana, May 28 (AP)—With a spirited ten-round session with the gloves, the heaviest work of his training campaign, Tom Gibbons of St. Paul today wound up his boxing program for his ten-round boxing contest with Georges Carpentier here next Saturday afternoon.

Gibbons faced five sparring partners each for two rounds, carrying them along at a spirited pace and revealing an unusual lot of speed and flashy work.

While Gibbons was engaged in his last boxing, Carpenter stole out of the city with Jack Curley, his American representative, and others for a private exhibition of the motion picture of the Gibbons-Carpentier fight. Carpenter wanted to see for himself how Gibbons boxed the heavy-weight champion. The Frenchman declined to comment on Gibbons' showing but was evidently pleased with what he saw.

Carpenter will do his final boxing tomorrow.

LOCALS READY FOR POCATELLO

Grounds in Good Shape for Opening Baseball Contest; Cosgriff to Pick Team.

The local baseball grounds are in excellent condition for the coming bout with the Pocatello Bears. "With an outfield like an infield and an infield lightning fast," as one spectator modestly described the conditions on the local diamond after watching practice Wednesday night.

Manager Cosgriff expresses some worry over the Gate City team which comes here Decoration Day but with a squad of 29 to seed his nine from there is little fear but what a creditable team will meet the Bears.

This year by virtue of the color of their uniforms, the Twin Falls club will travel under the name of the "Blues."

The shortstop from Boise failed to appear and it is probable that Bill Bailey will occupy the position between second and third.

Another snappy workout tonight will put the team in shape for the opening on Friday and it is expected the usually large crowd of local fans will be on hand to start the club off.

HARD HITTING BEATS PIRATES

Chicago Wins 9-6; New York Wins Both Games; Phillies Best Boston.

CHICAGO, May 28 (AP)—Chicago drove Cooper and Landgren off the mound today and defeated Pittsburgh 9 to 6. Alexander pitched a steady game faster the first inning, the visitors being unable to make a hit between the second and ninth innings. A one-hand catch by Carey and the fiddling of Friberg were features. Hartnett's wrist was bruised by a pitched ball and he will be unable to play for a few days.

SEED INDUSTRY SESSION THEME

County Agents' Conference Deals with Big Problems of Production and Marketing.

Quality rather than quantity production, increased tariff protection against foreign competition and several pitfalls in the path of the seed industry and co-operative marketing were important subjects considered at a two-day conference at Blackfoot of county agricultural agents, from which M. A. Thumetz, president of the Idaho Seed Growers Association, and R. E. Brown, Twin Falls county agent, returned Wednesday.

Action was taken at this conference toward securing recognition of small seeds as a staple commodity upon which federal funds might be advanced through the medium of bonded warehouses and intermediate credit banks. Quality rather than quantity production was urged by J. K. Wiley of Springfield, and other speakers, who pointed out that quality seed generally is produced in seasons of water shortage.

Importance of high quality seed, weed control and certification was urged by C. B. Abban, field agronomist and state seed inspector.

Argument that the present tariff rate on seed is too low for adequate protection of the domestic product was presented by W. R. Kjosness, state leader of county agents, and by M. A. Means, state commissioner of agriculture.

Praise for Idaho seed growers on their achievement in making Idaho one of the leading seed producing states of the nation was expressed by Governor C. C. Moore who addressed the conference at its second day's session, Tuesday.

M. A. Thumetz led a discussion following presentation of the subject, "White and Albino Clover Seed Production," by his son, J. W. Thumetz, Blackfoot county agricultural agent. Mr. Brown served as secretary of the conference.

ACTION OF FALL BLAMED FOR GIGANTIC LOSS

(Continued From Page One.)

Bowen said, as the oil was of such a high grade, he wanted to obtain a price above the prevailing market quotation. The contract later awarded Sinclair, it was testified, called for a price about 25 cents higher than the market price. Both Sheely and Bowen, however, contended the government eventually suffered through this contract because the price paid by Sinclair did not come near making up the losses sustained by the board in losing its contract.

THREE CHURCHES TO HOLD ASCENSION DAY SERVICES

Catholic, Episcopal and Lutheran Parishes to Observe Outstanding Event in Christian Calendar.

Ascension Day will be observed with special services today in the Catholic, Episcopal and Lutheran churches in Twin Falls, according to announcements made Wednesday.

The first mass at St. Edward's Catholic church will be at 6:30 and the second at 9 a. m.

Services in Ascension church, Episcopal, will be at 10 a. m.

In the evening at the Lutheran church, the Rev. F. C. Braun of Idaho Falls will conduct the services and give an illustrated lecture on "Our Mission in Brazil," while on Sunday morning next the pastor will preach on the Ascension.

EARLY SPRAYING ADVISED

Horticultural Inspector in West End Urges Persistent Fight Against Worms; Sees Favorable Outlook.

Buhl, May 28.—The dates decided upon for the completion of the first cover spray for the codling moth for the west end of Twin Falls county are May 26 within about a two mile radius of the river, and May 28 for the remainder of the territory. It should be noted in particular says Farrell L. Hansen, horticultural inspector, that the time is advancing somewhat more rapidly this year than ordinarily due to the continued unbroken warm weather we are having this spring, and it will stand the farmers well in hand to be prepared to apply the sprays promptly. The present outlook is that the fruit will bring a good return this fall and a persistent fight against the worms is going to be necessary to keep them down.

The second cover spray should be completed within two weeks from the date which the first cover spray was completed.

LINDLEY HALL STUDENTS FORM OWN ORGANIZATION

UNIVERSITY OF IDAHO, Moscow, May 28.—John Derr of Clarkfork, a junior in the college of agriculture, has been elected president of the Associated Students of Lindley hall. The organization is composed of all students living in the hall and is said to be the most efficient one for the hall men yet devised.

Other officers elected were: vice-president, Charles Lawson of Wilder; treasurer, Homer Curtis of Weiser; athletic manager, Winford Martin of Filer; members of the inter-hall council, Devant Jordan of Seattle, James Chapman of Boise, Francis McKee of Shoshone, and Robert Lawson. In addition to the general officers, the executive board is composed of Walter Myers of Boise and Walter Monroy of Idaho Falls.

Edited by Mrs. E. W. Williams

Telephone 395

The Flier Woman's club gave a charming luncheon Wednesday at the Hotel Perrine with covers for about 75 including members and guests. A color scheme of yellow and lavender was used in all the decorative details. At intervals down the center of the table were low bowls of daisies. Crystal candlesticks held lighted yellow candles and the cut cups were in the form of pansies. A profusion of the flowers of the season were placed about the dining room. Delightful music was furnished during the luncheon by the Allen stringed quartet. Mrs. Leona H. Brown, retiring president, acted as toastmistress and toasts were responded to by Mrs. M. J. Sawley and Mrs. H. J. Austin, both of whom are honorary presidents of the Flier club, and Mrs. P. W. McRoberts president of the Twentieth Century club. Mrs. H. H. Schliman, the incoming president gave a most interesting talk.

The M. S. and S. club was pleasantly entertained on Wednesday afternoon at the home of Mrs. Chas. E. Jones. After the usual business session a short program consisting of a vocal solo by Mrs. Guy Sturgeon with violin accompaniment by Wilma Parish and two readings by Mrs. Herman Schurgen was enjoyed. The remainder of the afternoon was spent socially and dainty refreshments were served by the hostess assisted by Mrs. C. B. Lindsey and Mrs. Rudolph to 20 members and the following guests: Mesdames Scott, Peterson, Schurgen and Squires.

Mrs. P. J. Castello, Mrs. Z. H. North and Mrs. Charles A. North entertained a Friday Tuesday evening at the home of the former on Second avenue west. The rooms were most attractive with bowls and vases of cut flowers. Fourteen tables of players enjoyed the games, first prize being won by Mrs. Carl L. DeLong, second by Mrs. Arthur Vincent and consolation by Mrs. Gen. D. Aiken. A delicious two course luncheon was served after the games. Mrs. J. H. Masters accompanied by Mrs. Arthur Ostrom of Buhl gave three delightful vocal selections.

Mrs. T. F. Warner entertained the Winodausi club on Wednesday with a one thirty luncheon. Covers were laid for fourteen at three small tables decorated with roses and snapdragons. Mrs. Julia Jenkinson and Miss Georgia McMaster assisted in serving. The afternoon was spent with the usual social time and Miss Georgia McMaster sang two numbers accompanied by Mrs. R. D. Stover who, with Miss Georgia Conba, was a guest of the club.

The Pythian sisters met in regular

session Tuesday evening in the Business Women's club rooms. Nomination of officers was held and Mrs. W. G. Thompson was appointed delegate to grand lodge which meets in Lewiston in June. Mrs. Albert Putzier was appointed alternate. After the lodge session the blue bird quilt was given away and won by Mrs. Stephan. Members of the organization wish to thank all who assisted them in making the sale of the quilt a success. A social hour followed, first prize in a guessing contest being won by Mrs. Ira Westfall and consolation by Mrs. W. G. Griffin. At a late hour refreshments were served by Mrs. C. N. Anderson and Mrs. D. Harvey Cook.

Mrs. Fred K. Wahl was hostess to the Woman's Progressive club Wednesday afternoon with 17 members and two visitors present. After the usual business hour a good program was given, the most interesting number being a pantomime play. Mrs. Wahl served a dainty luncheon and the club adjourned to meet with Mrs. Ames Walker on June 11.

Mrs. F. W. Brough entertained a number of the friends of her small son Protefick, on Wednesday afternoon in honor of his fourth birthday. The hours were merrily spent with games and the guests were seated at one large table where refreshments were served carrying out a color scheme of pink and white, the lovely birthday cake being ornamented with four pink candles. Dainty baskets of candy were given as favors. Those present were: Hubby and Leonard Moore, Donald and Jack Barber, George and Leonard Salda, Alice, Ann, Tom and Frank Penney, Wallace Cooper, Asher B. Wilson, Jr., Betty Brown, Lank and Helen Heitler and Gordon Cathro.

Mrs. H. A. Severin entertained the Pythian club on Tuesday with a picnic in Rock Creek canyon where the town of Rock Creek. The party left town at one o'clock and motored to the picnic grounds where they were served a royal picnic lunch, afterwards visiting and exploring the interesting sights in the canyon. This was the last meeting of the club until the first week in September when Mrs. F. W. Shack will be hostess at her home at 521 Third avenue north. Those making the trip were Mesdames L. L. Patrick, P. W. Shack, Dewey, Stittler, Milton Telford, Frank Belleville, H. A. Severin, Goodrich,

Paul Beer, Vernita Stittler and Helen Severin.

The Wednesday Bridge club met this week with Mrs. Alan P. Senior. Mrs. Jack Thorp won the favor for high score.

ANNOUNCEMENTS

The Episcopal Guild will meet this afternoon with Mrs. S. P. Newman in the DeLong addition.

The Mentor club will meet Wednesday, June 4, with Mrs. Roger Harris, two blocks east and one north of the Washington school instead of with Mrs. Walter Hays as previously announced.

INSTALLS NEW EQUIPMENT
GOODING COLLEGE, Gooding, Idaho, May 28.—In preparation for the summer school June 9 to July 18, Gooding College is installing a Burroughs adding and banking machine and also a new phonograph to secure rhythm in typewriting and shorthand work, thus completely equipping the commercial department with modern appliances. College credit will be given for the work done at this summer school and courses will be given in commerce and business administration, music, history and philosophy and physical education.

**The New
BLUE & STURDIVANT
MORTUARY**

201 Shoshone South.

Phone 1400-W

ONE OF THE MOST
MODERN INSTITU-
TIONS IN IDAHO

The Blue and Sturdivant Mortuary is beautifully and completely equipped throughout to meet with the approval of an exacting public. Here, amidst refined surroundings, ceremonies are conducted with perfect privacy.

The Generous Size

of the chapel permits a large attendance such as is impossible in the average home. Booths for the family behind drawn portiers affords that privacy so desirable at such times. Each room of the mortuary is provided with artistic furnishings that harmonize with the simplest services as well as the more pretentious.

The Latest Type Ambulance

Notable among the features that characterize the Blue & Sturdivant mortuary service is the adoption of the very latest type side entrance ambulance, fully equipped with every convenience for the comfort of the occupant. With exceptional ease and care the attendants quietly and efficiently serve the patient.

Wright's
A GOOD PLACE TO TRADE

Stock Reduction Sales

Thursday and Saturday—we shall be closed Friday, Memorial Day—all prices advertised so far in our big stock reducing sales will prevail. There have been some mighty attractive offerings as evidenced by the big volume of business the past two weeks. Every department has some special offering, in fact the store abounds in good, clean, seasonable merchandise, specially priced to induce active buying.

Every department head has been told to hunt out the "sleepers" and forget cost. These "sleepers" in most instances are clean, seasonable stocks that one cannot afford to miss at the prices offered. Every day new ones appear in the windows and on the counters.

Enter the Contest

Saturday is the last day in which to enter the sewing contest. It is open to any girl under 18 years of age. After Saturday there are 12 days in which to complete the garment. Just buy a Home Journal pattern and your materials at Wright's.

ANOTHER DISARMAMENT MEETING.

Disarmament comes prominently in to the news again, with the suggestion from Premier MacDonald that the British government would welcome an invitation from the United States to a new conference for the limitation of naval armament.

The subject has been taken up already in parliament, with the introduction of a motion for open discussion in the near future. The motion expresses a belief "that the time has arrived for another conference of disarmament to deal with all surface and submarine craft of ten thousand tons displacement and less, and aircraft and other craft outside the scope of the Washington conference."

It was felt at the conclusion of the last Washington conference that its work was incomplete, because it covered only battleships and battle cruisers, whereas submarines and aircraft were coming into greater prominence as the instruments of future warfare. The United States government felt that it was going as far as it could at that time, because the whole question was new and France was sensitive about limiting airplanes and submarines. Now, with the reparation problem apparently nearing settlement and France on better terms with England, there may be hope of all-round agreement on more thorough limitation, for the double purpose of saving money to all the powers and avoiding the fear and ill feeling naturally aroused by competitive building.

It happens that the branches of armament suggested for limitation are those in which the American navy is now urging considerable new construction. It is possible that some of the recent American agitation for more submarines, light cruisers, etc., was intended for this very purpose—to put the other powers in a mood for further disarmament, and thus make the new building unnecessary.

SNAKE SHOES

French women are wearing snake-skin shoes. So great is the craze that the demand has outrun the supply, and fashionable ladies are offering enormous prices for fine pelts. It is de rigueur to buy extra skins at the shoe store and make up a handbag to match the shoes.

This is probably no worse than numerous other sartorial fads originating in Paris, but more interesting. The snake-skin is not necessarily to be regarded with a shudder. The snake was long esteemed by mankind as strangely wise, and a symbol of wisdom. That view is taken in the biblical account of Paradise and the fall of our first parents. Serpent worship is a very ancient faith, at one time apparently almost universal. The "brazen serpent" of the wandering Children of Israel is an example. The Greeks always carved a snake around the staff of Hermes, god of arts, sciences and communication.

The fashionable Parisiennes probably know and care nothing of all this. They merely want something new and strange, to attract attention. To the four things Solomon was unable to understand—one of them being the way of a snake on a rock—he might have added the way of a woman with clothing.

One thing sure—this fad, if it lasts, will deplete the snakes. And that may not be so bad, as decimating the birds, with the late and unlamented cat fashion. Yet our naturalists, unswayed either by ancient superstitions

or modern styles, say most snakes are beneficent, destroying rodents and other natural enemies of man.

FATAL VACATIONS

More people are taking vacations nowadays than ever before, but fewer are finding them fatal. There are fewer deaths during or immediately following vacation. This is the result of growing intelligence and common sense about outdoor life.

Browning has long been the leading item among recognized vacation fatalities. Drownings diminish steadily as more people learn how to swim and how to revive victims. Typhoid has been another big blight upon summer outings. Post-vacation typhoid deaths diminish with the improvement in water supply and the spread of knowledge regarding contaminated water and its avoidance.

Not the least cause of vacation fatality is the increasing vogue of outdoor recreation the year round. That the vacationer into better condition for his outing, and at the same time makes it seem unnecessary to try to crowd a whole year's exercise, air and sun into two weeks.

WHEAT AND HOGS

Says President Jardine of the Kansas Agricultural College:

What Kansas farmers want is to be let alone. We will work ourselves out of the hole we are in. We are in a better condition today than we were a year ago, but if they come along now with a scheme of artificial price-fixing, all that the farmers so painfully have accomplished for themselves will be undone.

The reason why wheat and hogs are so low in price is because the supply exceeds the demand. The reason why corn and cotton are high in price is because the demand exceeds, or at least equals, the supply. The way to prevent the lowest prices for a commodity is to curtail the overproduction of that commodity. That is what the wheat farmers of Kansas are doing today, and they know it is their only way to salvation.

Any scheme to boost prices artificially, he admits, may raise the price of a commodity the first year. But what about the second and third years? Artificially stimulated prices, he argues, would increase the evil eventually, by encouraging farmers to raise more of the subsidized commodity when they ought to be raising less. This is not a very popular argument among distressed farmers, but it seems economically sound; and economic law has a way of vetoing legislation enacted in defiance of it.

Breakfast Food "Matrimonially Speaking"

By Hugh McKay.

My wife gives me many wedding presents she keeps me poor.

To begin with, she has a lot of friends who have never been married, but who seem to think they'll try it, and she and we get invitations from every one.

Now, to my mind, a wedding invitation shouldn't be taken too seriously. It's just a pleasant remembrance, like a Christmas card, or something like that.

But to my wife it's an entirely different matter. She gets all excited over every one and begins trying to decide what to give "dear old Elsie." It's great to be big hearted and all that, but the chances are that Elsie lives in Portland, Ore., and that my wife hasn't seen her since they went to school together and that I never did see her.

There's about as much point in my paying for 85 per cent of the presents that my wife gives to her friends as there'd be in our sending a cut glass dish to the Prince of Wales, when, if and supposing he decides to get married. And that's the truth!

Tomorrow: My husband never puts his wet umbrella in the umbrella stand.

HAZELTON

HAZELTON—Mrs. Thompson, who has been seriously ill, is rapidly improving.

The members of the L. D. S. Sunday school and many others from Hazelton enjoyed a picnic at Artesian City on Friday.

Mr. and Mrs. Lew Webb entertained at a dinner Friday evening.

Little Geneva Lockridge, daughter of Mr. and Mrs. Morgan Lockridge, has been ill for several days.

B. H. Murphy and nephew motored to Shoshone falls Sunday.

An Astrological Tip

According to an old astrological prediction, a girl born in March is a frivolous chatterbox, somewhat given to quarreling; and it born in April is inconstant, not intelligent, but likely to be good looking.

THE HUMAN ZOO

By C. D. Batchelor

(Reg. U. S. Patent Office)

"She's going to marry John Doe if John can get a divorce from his present wife, and it seems he can, for she wants to marry Dick Roe, whom no one ever remembers except as the third husband of Nina Trent."

Dreamland Adventures

JUST IN FUN
BY DADDY

Jack and Janet find fires set in the woods. They put them out, saving Lonesome Bear's berry patch, the life of Snapper Turtle, that of King Bird and the tree home of the Wild Bees.

CHAPTER III.
The Firebug.

"WELL, WILL have to catch the boy who is setting the fires in the woods," declared Jack.

"He is a firebug!" added Janet.

"Firebugs are bad when they are allowed to run loose."

The children went on swiftly leaving the Wild Bees buzzing about the tree which the firebug had tried to burn down. They wondered what the firebug would look like.

They soon learned, for as they ran along the forest trail they came upon a grinning boy who was stooping over touching a match to the brush heap under which Hoppity-Hop Rabbit had his home.

"Hey, stop! You are you starting that fire?" cried Jack.

The boy looked up and his grin broadened.

"Just for fun," he answered.

"Watch what a fine blaze this brush-heap will make. Perhaps we shall see a scared rabbit hop out of it."

"Jack, run up and beat out the fire with his fir branch."

"The boy's grin turned to a frown. "Why did you do that?" he demanded.

"To save the woods," Jack replied.

"Don't you know you might set the whole forest ablaze and destroy it?"

The boy's grin came back. "That would be fun," he declared. "What a whooping big bonfire the forest would make!"

"And the trees would be burned and the birds and animals would be left out of homes and the owners of the woods would lose thousands and thousands of dollars," said Janet.

"My, it would be fun to watch the animals run," grinned the boy. "But I'll not set a fire like that; I'll just start a little blaze in this brush heap and see what is under it."

He struck another match, but before he could touch it to the brush heap Jack blew it out.

"You are a bad firebug," declared Jack. "Get out of the woods."

"I'll show you whether you can stop me."

The boy bristled and dignified up his fist. "Who are you calling a firebug?" he blustered.

"I'm calling you that," said Jack sturdily, although the boy was much larger than he was. "And I'll not let you set any more fires."

"You'll not!" exclaimed the boy.

"I'll show you whether you can stop me."

He aimed a blow which Jack dodged. Jack was so small behind the boy that he scarcely could reach his face, so he gave the boy a thump in the stomach.

"Ouch!" grunted the boy. "I'll give you an awful thrashing for that."

He started forward with whirling fists. It seemed that Jack was in for a beating, as the boy was far too strong for him. But suddenly something very strange happened. The boy aimed a blow at Jack but stopped it half way and turned it against his own neck. Wham! He hit himself. Then he banged himself on the head and slumped the side of his leg.

He seemed to be thrashing himself instead of Jack.

"Ouch! Ouch!" he bellowed. "Quit! Quit! That hurts!" But he kept right on slapping his head and body.

Jack watched him in astonishment. Had the firebug gone crazy?

But Janet, who also had been astonished, now saw what had happened. She began to laugh.

(Do you know why Janet laughed, and why the firebug thrashed himself? You will learn in tomorrow's chapter.)

Paper Film Invented

A recent British invention, which may completely revolutionize the film industry, enables paper film to be projected on the screen by means of reflection from light placed in front of the reels, not behind them, as at present. These new paper films are said to possess many advantages over the ordinary celluloid kind. They are non-inflammable, they do not crack or tear, and last considerably longer than celluloid. They can also be made very cheaply, and may be sent through the mails in ordinary paper wrappers.

The Wise Man

Opportunity knocking at the front door has given way to the wolf in many a man's life because he allowed disease to creep in through the back door. The wise man looks first to the health of himself and family and after that to the less difficult matter of making a living.

Don't Say Anything

"You say that public official had nothing to say?" said the editor. "Yes," answered the self-confident reporter, "but he talked three-quarters of an hour before I discovered it."—Washington Star.

Sea Water Affects Glass

Glass is considerably affected by exposure to sea water. The losses of signal lights on ships become corrected by a thin layer of sea salt which eventually etches into the glass. The United States bureau of standards in an investigation of this subject has found that sea water was quite susceptible to this corrosive action, while ordinary soda-water glass and borosilicate glass are little affected.

Platinum

Platinum is found in small gray particles along with other metals, in clays and in chromite. Occasionally it is discovered in the form of nuggets, which are naturally extremely valuable. A twenty-five pound nugget of platinum would at the present time be worth over \$30,000.

The Joseph Gallery

In the salt mine at Tordo, Rumania, there is a gallery known as the Joseph gallery, where one may hear his voice echoed and re-echoed sixteen times.

Dream of the Future

Automobile bodies of the future in all quantity-produced cars will be of steel, say engineers.

Pay Gravel
By
HUGH PENDEXTER.

Copyright by The Bobbs-Merrill Co. (Continued.)

The chief nodded. Grand, a native of the Sandwich Islands, had been captured by Crazy Horse's men while serving as mail-carrier in Montana. Because of his dark complexion he was believed to be an Indian who had been taken prisoner by the whites when very young. He had lived with the Indians for several years and was thought highly of by both Crazy Horse and Sitting Bull. Scissors truthfully answered that Grand was serving as guide and scout for General Crook's forces.

Instead of showing any resentment Crazy Horse said:

"He was a good man. I would like to see him and call him Kola again. Shuncu-luta has his mystery glass and is sent by his wolf robe. What does his medicine tell him?"

Surrel had been chagrined at the lack of respectful attention, became busy immediately. He opened a roll of red cotton cloth and from a wad of eagle down gently picked up a small round stone and whispered to it and then held it to his ear for nearly a minute. Carefully replacing the sacred stone on the eagle down he bowed.

"Shuncu-luta's medicine is very strong. It has teeth like the gray wolf. It will bite the medicine of Two Knives Talking into many pieces."

With the aborigine's love for the dramatic the spectators leaned forward, the copper faces awaiting their capt attention. No duel could compare with a duel between rival medicines. Crazy Horse, too, was intensely interested, and Shuncu-luta was at his best when demonstrating his wizardry before an appreciative audience.

After glancing about he closed his eyes for a moment as if summoning spirit, strength, then swiftly extended a hand high above his head and plucked a deck of playing cards from the air. A brilliant flash of approval rewarded his sleight-of-hand.

He fanned the cards down for a moment, he carelessly threw them on the ground within reach of Scissors. Then, apparently without looking at the white man, requested:

"Let Two Knives Talking pick out one if his medicine is not asleep."

Scissors selected one and almost immediately Shuncu-luta brought the tips of his index fingers and his thumbs together to form the shape of a diamond and announced: "Squaw."

Scissors held up the card so all might see it was the queen of diamonds. Holding the cards down for a moment, he read in a like manner. Then the medicine man scooped them up and made a motion of tossing them into the air, and they were gone and his hand was empty.

"For an Indian he's clever with cards," Scissors said in English for Dinah's benefit.

During the second his gaze was off the medicine man the cards dropped before him as if falling from the sky. A murmur of approval swarmed Scissors must be on his mettle. He tore a sheet of paper from his pad and did a trick with the cards.

Folding the paper he requested Crazy Horse to hold it in his left hand. The chief hesitated for a moment, then accepted the paper and clinched it tightly to make sure it did not vanish. Scissors proceeded to pick up the card and to haggle them with a dexterity that would have won the hearty admiration of San Juan Joe or French Curry.

Next he extended his two hands, the deck in his left palm, and asked the medicine man to look at the top card, he named the card, then the deck, placing the cut in the right palm and burying it with the remainder of the pack. Surrel Horse unwillingly complied, his common sense warning him his rival would not embark on anything that was destined to be a failure.

He let the three of hearts and buried it in Scissors' right palm with a shallow cut.

Even as his hand was completing the cut Scissors asked him to turn up the top card. It was the three of hearts. Surrel Horse was sullen of face and endeavored to balk the white man's will by cutting the three of the left hand before Scissors could speak. Then with a grin of triumph he turned up the top card only to grant in disgust on beholding again the card he had tried to bury.

"Don't ever ask me to play poker," muttered Dinah.

"They never say any one reverse the cut with one hand," mumbled Scissors. "And I'm wakan." As he spoke he began shuffling the cards back and forth until they seemed to fly from hand to hand of their own volition, and finished by opening them in a big fan. With a flourish he shoved them toward Crazy Horse and requested him to do one. The chief scowled and seemed disinclined to participate in

the demonstration. But the white were like children in their eagerness to behold the completion of the mystery, and he darted his fingers toward an end of the fan.

But even more rapidly did the trickster's fingers, concealed by the opened deck, convey to the danger point the card he desired to force upon the chief. Crazy Horse had no suspicion that his choice had been influenced in any way by the white man, but when he observed the card he drew, the three of hearts he was deeply irritated. He cast the card on the ground and eyed it malevolently. But Scissors was not done. He asked the chief to show the paper he was still holding in his left hand. Crazy Horse willingly smoothed out the paper and beheld, in a perpendicular line, three hearts.

"Washie-helo!" he muttered, staring thoughtfully at the piece of paper. Thus far it was obvious that Two Knives Talking could bring to light anything Surrel Horse sought to hide. Then the white man—as evidenced by the paper—just what the medicine man would attempt to conceal. Surrel Horse felt his reputation slipping. He stared off at the black hills, conjuring help from Mato Tipi, the Grizzly Bear. Dinah's spirit mounted as he beheld his friend's legendary surpassing that of the red conjurer; and despite his anxiety over their situation he could not refrain from speculating on his companion's cunning. He did not believe that any sorcerer in Dinah's country could outdo his own. And he wondered in how many other ways would Scissors prove to be a surprise.

Surrel Horse now proceeded with his next trick. He drew a short knife and stabbed it into the ground several times to prove it was genuine blade. Then he drew back his head and opening his mouth he began, apparently, forcing the knife down his throat.

"This in itself was sufficient to evoke a low chorus of applause, mixed with shouts of wonder. But the medicine man had set to appear at his usual best. Trailing on his side he groaned.

He appeared to be very ill, and a thin voice that seemed to float in the air, begged for a lighted pipe.

One was brought and placed beside him on the robe. He stuffed the bowl in his mouth and blew the smoke through the stem, then he inhaled it. As he kept this up for a dozen whiffs the perspiration stood out on his sharp features and his copper skin took on the color of used Dinah's belated he was dying. Scissors smiled complacently and watched closely. Suddenly tossing the pipe aside and clutching a hand to his naked ribs he plucked forth the knife, and his physical appearance quickly became normal.

"Washie-helo!" exclaimed Crazy Horse.

Initiating his chest Surrel Horse haughtily asked:

"What does the white medicine say to that?"

"It says this," answered Scissors, "Scissors up the knife. A grand lunge forward, pluck it from his hand and found it empty. Crazy Horse called out for the man to desist. Now undisturbed Scissors made the knife appear and disappear with bewildering rapidity. He seemed to pull it from his mouth, his leg, and to spit it from his mouth. It changed for the last time only to appear from over his right shoulder, whirling rapidly and striking on its point in the wolf robe near the foot of Surrel Horse.

Before the medicine man could essay a further feat the white man had up a small square of paper in his left hand. Then he waved his scissors above his head, while the nimble fingers of the left hand folded the paper several times. Then advancing the paper toward Crazy Horse he daintily slipped off a protruding corner. Opening the paper he revealed that the one movement of the blades cut out a perfect star of five points. Until the simple trick was explained it must remain a big mystery to the wondering spectators, and a mystery is always worth before a medicine.

Especially so, if the man named Crazy Horse, inasmuch as the man reminded him of General Crook, or Three Stars. And how could one stroke of the two blades cut it out? His face was somber as he turned to Surrel Horse and asked:

"Is there more medicine?"

"Surrel Horse, now desperate in his desire to prove the superiority of his magic, replied:

"Let Shuncu-luta and the white man be tied fast and placed in a lodge together. We will see whose medicine comes first to save the rawhide.

Those warriors who had come with Crazy Horse were elated over this proposed test. But Little Big Man and his braves were much concerned. They had said nothing to Crazy Horse or the medicine man about Scissors' ability to free his hands from bonds. But as they remembered that the presence of Shuncu-luta should render futile any such power they became more uplimate.

It was Little Big Man who superintended the tying up of the two men. They were bound with many lengths of rawhide, and Surrel Horse himself expected the thought to make sure they were right, and he directed that certain knots in the cords of Surrel Horse be made more secure.

If a medicine was worthy of a man's devotion it needed no assistance from cunning. Scissors read the dismay in Dinah's face and murmured:

"The more rope the better. Four feet would be harder to get out of than a dozen."

THE MARKETS

SPECULATORS SELL OUT
AS DROUGHT IS ENDED

Reports of Rainfall in Kansas Tended to Lower Wheat Values; Traders Fail to Maintain Bullies.

CHICAGO, May 28 (AP)—Indications that drought complaints, especially from Kansas, have been stopped, did a good deal today to lower the wheat value. Closing prices in the wheat market were unsettled, at 1-4 to 1-7 net decline, July \$1.07, 2-8 to 3-4 net, and September \$1.08 1-2. Corn finished at 1-3 to 1-4 to 1-5 net down, oats 1-4 to 1-5 net, and provisions virtually unchanged.

With more rain reported to have fallen in Kansas late yesterday and night and with improvement of the crop prospect in Nebraska also reported to day's wheat trade consisted largely of selling out on the part of speculative holders. Besides, some selling here against simultaneous buying at Liverpool was in progress, the Liverpool October delivery being purchased and Chicago September sold. Meanwhile, the Winnipeg market failed to show as much of a downward tendency as Chicago did. As a result wheat was regarded as being closer to export business with bids on hard winter grades said to be less than 2 cents out of line.

Rallies in the wheat market today were hard to maintain, although on setbacks the support for prices was fairly good. Talk was current that some wheat had been taken for shipment to Europe from ports on the Gulf of Mexico, but the gossip was unconfirmed, and it was estimated that only 250,000 bushels of Canadian wheat was bought today for export to the Atlantic. On the other hand, the world's available supply this week showed nearly 10,000,000 bushels decrease.

Corn and oats were weakened by larger receipts of corn and by favorable weather. Demand from shorts in corn was missing.

Provisions were neglected, but were quoted about steady.

Wheat—	Open.	High.	Low.	Close.

bull and medium 100 pounds

BURLEY GIVEN DRENCHING BY BELATED RAIN

Light Showers Fall Throughout Twin Falls Region Generally with Bulk of Precipitation to the East.

RECORD OF RAINFALL OVER SOUTHERN IDAHO

BURLEY—Heavy rain began here about 6 o'clock this evening and had continued steadily for more than four hours.

ARMORE—Rain fell here for about an hour between 6 and 7 o'clock, and a little between 7 and 8 o'clock. It was drizzling at 10:30 p.m.

BOH—No rain fell here all evening, but the sky was overcast.

BOYD—Light rain began falling here at about 10:30 p.m.

HANSEN—Very little rain fell here, although weather conditions were cloudy and windy.

SURTAUGH—Light rain began to fall here at about 10 o'clock and was continuing at 10:30.

TUPPER—Rain began falling here at about 9 p.m. and was continuing at 10:30, although it was cold with a dust storm in the afternoon.

Rainfall Wednesday evening, according to reports gathered by the News from a number of southern Idaho districts, seems to have centered about Burley early in the evening after moving eastward to include the Rupert district.

In Twin Falls showers of but a few moments duration came at about 7 o'clock, and similar situation was reported from other points in this immediate region, while at Buhl there had been no rainfall at all up to 10:30 o'clock.

Indications of a break in the long dry spell that has prevailed in the Idaho valley have been seen in the showers Wednesday evening by many unofficial weather observers here.

Efficiency in the precipitation forecasts was frequently referred to, and almost unanimously the hope was expressed that the country might be freed from a drenching rainfall. On the other hand it was noted that in some places there is little or no need here now for heavy rainfall since most farms have been heavily irrigated and are well supplied with moisture in the soil.

Light Rain at Moran

Report of rain Tuesday at the head waters of the Snake river was confirmed Wednesday evening by E. B. Harrison of Burley, reclamation district manager, who stated that he had received a report of a one-hundredth of an inch of precipitation recorded Tuesday at Moran, with about one-tenth of an inch at Idaho Falls.

Tuesday's rain at Moran, Mr. Harrison stated, would have little effect upon conditions at Jackson Lake, except for the moisture which watered the reservoir which melted snow water must run to reach the reservoir. An all-day warm rain, he said, would effect a great improvement in the run-off and storage water situation. Temperature at Moran for several days past has been extremely high, with freezing weather every night.

Water delivery through the Twin Falls canal system dropped Wednesday from 90 to 70 per cent, in consequence of diminished flow of the river.

DAVIS HEADS FRATERNITY

UNIVERSITY OF IDAHO, Moscow, May 28—Official recognition of Tau Kappa Iota, newly organized men's fraternity, as the eleventh fraternity of the Idaho campus, was given recently by the university faculty. Milo Davis of Twin Falls, a freshman in the college of agriculture, has been elected president of the new organization.

The new local expects to spend the remainder of the year living the residence of one of the members. Plans are under way for construction of a fraternity house next fall. C. C. Crawford, professor of secondary education, has been chosen as faculty advisor.

The 19 charter members of Tau Kappa Iota are: George Waters of Moscow; Elmer Holbrook and Theodore Holbrook of Osh; Carl Threlkeld of Walla Walla; Arthur Matthews of Boise; John Wiley of Payette; Conrad Lee of Enterprise, Ore.; Rex Pickering of Annette, Wash.; Norman Shuttler of Harrison, Cecil Brown of Homedale; Elwood Johnson of Napperville; Wendell Stucki of Paris; Clifford Morgan of Moscow; H. A. Stone of Moscow; Averitt Harker of Parma; Alvin Anderson of Wallace; Willard Lamphere of Moscow; Milo Davis of Twin Falls; and Vernon Chapman of Asotin, Wash.

NOTICE

Shoshone Falls ferry is again running with improved landings. The Idaho Power company has completed a dam creating a back water which assures no further interruption in the operation of the ferry. Gravel of the highway from Falls City to the Ferry is completed and the grade is in fine condition.

Platt Announces Formal Award of Railroad Contract

Deeds to Right of Way Through Properties of Utah Company Received by Swooley.

BRIGHAM, Utah, May 27.
D. E. Sullivan, Agent O. B. L.

You may say to Twin Falls committee that contract for construction of Rogerson-Wells line was awarded today to the Utah Construction company and they will begin active construction without delay.

H. V. PLATT.

The above message from H. V. Platt, general manager of the Oregon Short line, was received by D. E. Sullivan, local agent, Wednesday.

M. J. Swooley, chairman of the chamber of commerce committee having charge of the matter of the new railroad, Wednesday received deeds to all the lands comprising the right of way through the properties of the Utah Construction company in Idaho and Nevada.

Six or seven hundred feet of track has been laid at Rogerson to take care of supply yard and a good deal of equipment is already on hand for the beginning of work.

THREE MEN HELD AS MOONSHINERS

Federal Officer and Deputy Sheriffs Seize Two Big Stills and Alleged Operators.

Three alleged moonshiners were arrested and two large stills and a quantity of liquor were confiscated by a federal officer and Deputy Sheriff C. E. Jones and J. W. Galtman on Tuesday to Elmer's Hot Springs and vicinity in Owyhee county, about 30 miles southwest of Twin Falls on the Jarbridge road. Prisoners and the confiscated stills were brought here early Wednesday morning. The prisoners were held here until they were turned over to the charge of violating federal prohibition laws.

N. L. Blitcher, 60, and Frank Leonard, 25, are held as owners and operators of a still of about 75 gallons capacity which was seized at Elmer's Hot Springs. The still which was located about 100 yards below the roadhouse at this point, was discovered in a cave concealed by heavy growth of willows. It was embedded in concrete and removal was effected by use of dynamite.

Frank Elmer, Besque, aged about 35 years, is held as the operator of a still of about 25 gallons capacity, discovered by the officers at the end of a difficult trail in Buck creek canyon, about five miles from the hot hole. Elmer told the officers he had brought his supplies to the place by means of pack animals after leaving a road out of Jarbridge. The officers found about two gallons of liquor at this place and destroyed eight barrels of mash.

CLAIM FOR DAMAGES FOR PROPERTY SEIZURE AIRD

Trial in Suit Brought by Mrs. Stella Smith Against Husband's Creditor and Sheriff Before the Court.

Trial was begun Wednesday in district court in the action instituted by Mrs. Stella Smith against Ed. Tolbert and M. E. Pugh, Twin Falls, county sheriff, for approximately \$1000, representing the value of certain furniture alleged to have been sold illegally under execution together with claim for \$1000 exemplary damages. Cross-examination of Mrs. Smith was completed by Attorney P. L. Stenham of counsel for the defense, when the evening session adjourned. Attorney W. O. Chapman of counsel for Mrs. Smith announced that there would be re-direct examinations beginning this morning.

It is Mrs. Smith's contention that the property involved in this action was her separate property and should not have been levied against under execution of judgment obtained against her husband, W. S. Smith, by Mr. Tolbert. The property at the time of the sale, was removed from storage here where it had been placed when the Smith family moved to Oregon. Mrs. Smith testified that she had purchased the furniture with part of a gift of \$500 which she had seven years before by her father-in-law.

WEST END WOMAN HURT BY GASOLINE EXPLOSION

BURL, May 28 (Special to The News)—Explosion of fumes from a pan of gasoline that had been placed for heating in a basin containing hot water, caused severe burns about the hands to Mrs. D. E. West, who was using the heated gasoline Tuesday afternoon at her farm home three and a half miles west of here to heat a silk skirt. A little daughter of Mrs. West, was standing near her mother when the explosion occurred, but her eyelashes scorched, but was not otherwise injured. There was no fire near the gasoline.

TWIN FALLS TO HOLD MEMORIAL

Plans Complete for Observance of Occasion for Paying Reverence to Heroic Dead.

Purpose of proprietors and managers of Twin Falls business houses generally to close their establishments all-day Friday in observance of Memorial day was indicated in numerous announcements made public Wednesday.

The observance of Friday is to be given over the Memorial day parade and exercises to be held at the cemetery, for which arrangements have been completed according to the committee of Dan McCook post, Grand Army of the Republic, in charge of the observance of the occasion here.

The Twin Falls Cemetery association and the American Legion, it was announced Wednesday, are co-operating in the matter of parking of autos in the cemetery during the exercises on Memorial day, according to announcements made Wednesday as follows:

Ample parking facilities are being provided for all cars at the exercises and it will not be necessary to park any cars on the state highway. A large number of men will be stationed at different parts of the cemetery to direct the traffic and everyone is asked to be courteous and co-operate with the men to the end that everyone may be taken care of in the easiest way. You may not be able to park your car just where you want to, but there will be no confusion if everyone will follow the instructions of the men in charge.

DECISIVE BOUT BROUGHT HERE

Al Shepherd of Utah and Henry Potter of Idaho, to Settle Score at Elks' Show.

Al Shepherd of Salt Lake, light heavyweight champion of Utah, and Henry Potter of Buhl, Idaho, have been matched for the main event of the boxing carnival to be staged here Wednesday evening, June 11, as a feature of the entertainment program for the state Elks convention of the Idaho Elks' association, to be held here June 11 and 12, it was announced Wednesday by the committee in charge of the pugilistic show.

The Idaho fighter has twice met the Utah champion in the squared ring, securing a win and a loss in the two engagements which were staged last year.

"Shepherd is going better than he ever did," says Dick Davis, his manager, in a letter received by the committee. "His last fight was a real knock-out now that he was when he boxed Potter before, so he will be about as heavy as Potter now, and I think they will make a good tough fight. Both are hard punchers and each can stand punishment, and both are willing mixers."

Shepherd and Potter will arrive here three or four days in advance of the battle to finish training.

VERDICT FOR PLAINTIFF VICTORY FOR DEFENDANT

Jury Upholds Defense of Hansen Farmer in Suit on Note and Gives Judgment for \$300 Balance to Banker

Verdict returned Wednesday afternoon by a jury in district court awarded the defense in the case of Hansen Farmer in suit on note and gives judgment for \$300 balance to Banker.

Civil War Veterans Guests of Rotarians

Grand Army Men Voice Their Appreciation of Respect Paid Organization.

Six members of the local post of the G. A. R. were guests of the Twin Falls Rotary club Wednesday, the regular weekly meeting of which was devoted to a special Memorial day program.

A brief forceful address was delivered by Judge Edward A. Walters, following which short remarks were made by a number of the guests present. A special musical program was part of the program.

J. D. Smith, commander of the local post of the G. A. R., expressed for the veterans their appreciation of the invitation and during the course of his remarks stated that he had never been in a community where a higher degree of respect and honor was habitually paid to the G. A. R. than was the case in Twin Falls. This same sentiment was also referred to by Adjutant J. M. Rice, who also took occasion to offer a number of complimentary remarks of the days of '63 which were received with warm approval.

W. W. Humphrey, chaplain, read the following poem entitled, A Song For the Flag:

A SONG FOR THE FLAG.

Here is my love to you, flag of the free,
and flag of the tried and true;
Here is my love to your streaming
stripes and your stars in the field
of blue;
Here is my love to your silken folds
wherever they wave on high,
For you are the flag of a land for which
I've sweated for a man to die.

Native or emigrant, here is the task
to which we must summon our powers:
Ever unquelled, let the flag in peace
lie in war's wild hours.

Selfishness, narrowness, graft and greed,
and the evil that hates the light—
all these are foes of the flag today;
all these we must face and fight.

Symbol of hope to me and to mine
and to all who aspire to be free,
Ever your golden stars may shine
from the east to the western sea;
Ever your golden stars may shine,
and ever your stripes may gleam.

To lead us on from the deeds we do
to the greater deeds that we dream.

Here is our love to you, flag of the free,
and flag of the tried and true;
Here is our love to your streaming
stripes and your stars in the field
of blue;
Native or foreign, we're children all
of the land over which you fly.

ARRANGE FOR CONFERENCE

A quarterly conference of Twin Falls stake, Latter Day Saints church will be held Saturday and Sunday, it was announced Wednesday evening by President L. G. Kirkman. Apostle Richard L. Lyman and Dr. George W. Middleton of Salt Lake arrived Wednesday to assist with the conference work. Showers Recorded as Precipitation Trace

Showers in this vicinity Wednesday evening were recorded by the government weather observer's station here as a trace of precipitation. Showers came at the close of a day marked by low temperature and wind. Mercury's high mark for the day was recorded at 62 above, a decline of eight degrees under the maximum of the preceding day, with low 42 above the same as for the day preceding.

NEW MORTUARY OPENED

Opening by G. A. Blue and E. G. Sturdivant of the Blue and Sturdivant mortuary, occupying the entire first floor of the building at the corner of Shoshone street and Second avenue south, was announced Wednesday, following several weeks preparation for the launching of the new institution. It is the boast of the proprietors that their establishment is one of the most modern institutions of its kind in the state. Arrangement and appointment of parlor, chapel and other rooms have been made with view to providing an artistic and refined setting for conducting funeral services.

Mr. Blue, who is the son of an undertaker and has been engaged in the work for many years, came here recently from Iowa, Kansas, after disposing of his establishment there, while his associate, Mr. Sturdivant, has been for four years identified with the P. J. Grossman mortuary here.

DEMOCRATS TO CONVENE

Twin Falls County Jefferson club and the Democratic Women's club, at a joint meeting this evening in the Buhl Women's club rooms here, will pay tribute to the memory of Woodrow Wilson. Various phases of his life and work are to be discussed by several speakers. Annual election of officers of the Jefferson club also is to take place at this time.
