STIFF BATTLE
PREDICTED FOR
OPENING DAY

Democratic Chiefs Preparing for Two Major Arguments at New York; McAdoo-Smith Lines Are Drawing Tighter.

NEW YORK, June 20 (AP)—With their lesser disagreements almost forgotten, the chieftains of the democratic party are preparing for two momentous political battles in the opening days of the national convention which begins Tuesday in Madison Square Garden.

One of them will result from the stiffening rivalry between William G. McAdoo and Alfred C. Smith for the nomination for the presidency. The other is fast developing around the proposal to condemn openly the Ku Klux Klan in the party platform.

Each may be the start of a third struggle that will make political history—a sharp and bitter skirmish over retention of the long standing rule requiring a two thirds vote of the delegates to nominate.

Chairman Needed
Should McAdoo and Smith both be forced out of the running after a prolonged deadlock, there will come another spirited fight over selection of a chairman candidate but for the moment only the partisans of the favorite sons and dark horses are looking that far into the future.

The McAdoo men with their candidate in their midst are stalling every resource to augment their forces to a point that will assure a nomination but they also are cementing together a reserve that will stand to the last, if necessary, against the selection of any other whose policies are not to their liking.

Smith Men Busy
Similarly the supporters of Governor Smith, realizing that McAdoo will have the largest vote among the many to enter the running on Tuesday, are working night and day to align a block of delegates large enough and cohesive enough to exercise a definite vote against selection of the former treasury secretary as the standard bearer of his party. To these two movements all of the maneuverings of the dozen or so other active aspirants are subordinated.

They appear likely to remain so until the balloting is well under way. Then if the McAdoo-Smith duel results in a draw the other candidates may get the ear of the great body of delegates. Outward appearances today showed little change in the lineup of the delegates who are consolidating their respective forces about McAdoo and Smith. The McAdoo managers hold their claim of more than a majority of the 1,098 delegates on the first ballot with a steady increase thereafter. Those who spoke for Governor Smith were less definite but generally was conceded that the governor would run a good second on the early roll calls. The supporters of Senator Underwood, John W. Davis, James M. Cox, Senator Tamm and others all professed to see their respective candidates gaining in potential strength as the lines between McAdoo and Smith grew tighter.

Farmer-Labor Chief
Scores Communist
Action at St. Paul

Chairman Warner Denies His Organization Has Faith in Radicals' Platform; Says House Will Pick President.

DENVER, Colo., June 20 (AP)—Dr. C. B. Warner of Bilozi, Miss., chairman of the national campaign committee of the farmer-labor party of the United States, in a signed statement issued here today declared "the recent conference held in St. Paul by the progressive element in the United States does not have the confidence of the farmer-labor party of the United States."

Dr. Warner is here in connection with the work of the farmer-labor party in Colorado.

"The St. Paul conference," said the statement, "originally was intended to unite all progressives in this country, but it was soon discovered that the communists proposed to seize control and the more conservative element of the progressives refused to take part. The farmer-labor party of the United States was invited to come into the conference, but refused to do so. It is unfortunate that so many radicals have seized upon the name of farmer-labor to designate themselves. It is a popular name and they hope to improve their chances thereby."

"The farmer-labor party expects to take an active part in the progressive conference which will meet at Cleveland on July 4. It is expected that a good progressive platform will be adopted and that Senator Robert M. La Follette will be our candidate. From information which comes to us we are confident that a very large part of the vote of the west and the northwest will be for Mr. La Follette and that the election of a president will eventually be made in the house of representatives."

ANNOUNCE PLANS
FOR HUGE GRAIN
CONTROL MERGER

Five Large Concerns and 5,000 Co-operative Elevators Involved in Gigantic Deal; New Corporation Would Be "Grower Owned, Financed and Controlled."

CHICAGO, June 20 (AP)—A detailed plan by which five large grain concerns and 5,000 co-operative elevators would come under producer control was formally submitted today to the executive committee of the American farm bureau.

The corporation resultant from the consolidation under the proposed plan would become "grower owned, financed and controlled."

The plan as submitted to the farm bureau federation contemplates acquiring the mechanical and managerial facilities of the following firms:

Five Firms in Deal
Armour Grain company, Rosenbaum Grain company; Bartlett, Frazier and Company; Rosenbaum Brothers, and J. C. Shaffer and Company.

"The proposal contemplates using the facilities of existing exchanges operating in accordance with their established rules," said the announcement of the farm bureau.

The statement does not reveal by whom the plan was submitted.

It is understood that a tentative plan has been presented to other farm organizations, the farm bureau announcement said.

Shape Legal Details
A selected committee headed by President O. E. Bradford of the American Farm Bureau federation has been appointed to examine the plan and shape the legal details of the merger.

The personnel of the committee probably will be announced within the next few weeks and the report will be ready for the entire farm bureau membership before fall, according to the present plans of Mr. Bradford.

Use Rebate Funds
The financing of the consolidation is expected to be cared for with the funds which ordinarily make the "rebate" to the producer under co-operative marketing systems.

While the legal and financial details of the plan were not made public by the federation, it was suggested that the "rebates" must be diverted into a sinking fund for the amortization of the consolidation debt, stocks and bonds.

Details of financing reaching to many millions of dollars will make the chief demands upon the efforts of the committee in the view of those who have followed the trend of recent negotiations in the grain trade.

Time Needed
Prominent figures in the grain trade (Continued on Page 5, Col. 6)

CONVICT M'DOWELL OF KILLING HIS MOTHER
CLEAVELAND, Fla., June 20 (AP)—Frank McDowell was convicted today in circuit court of the murder of his mother at St. Petersburg last February.

One body showed the bullet holes and the jawshot away. The other had four bullet wounds.

Three men and a woman found in a car half a mile from where the bodies were located were questioned tonight.

HOPE HELD FOR VICTIM OF STRANGE ACCIDENT
MOUNT CARROLL, Ill., June 20 (AP)—His throat cut from ear to ear as the result of a thunderbolt, Ed Roberts may nevertheless live, his physician said. He was watching a storm from his window when lightning struck a telephone pole near his house, entering the house by the telephone wires.

Mr. Roberts, stunned, fell forward against the window, his head breaking through the glass. His windpipe was partly severed.

REPUUDIATES CONFESSION TO DEATH OF FRIEND
GRELBY, Colo., June 20 (AP)—Frank Grace, Bellevue, Ohio, youth, who was returned here yesterday, repudiated his confession in connection with the death of his companion Sam Arino, who died after falling or being pushed off a freight train near here May 19, repudiated his alleged confession of the crime, said to have been made in Ohio, according to prosecuting authorities.

Grace, it was said, declared he was forced to make the confession under third degree methods.

TRACE CAUSE OF MISHAP
SAN PEDRO, Cal., June 20 (AP)—Heavy seas and a faulty gyro-compass caused the submarine S-33 and S-35 to collide during battle practice off San Clemente Island last Wednesday, according to testimony heard here today by a naval court of inquiry investigating the accident.

MINISTER RESIGNS
NEW YORK, June 20 (AP)—The Reverend Percy S. S. Grant, Episcopal rector who has had several difficulties with Bishop William T. Manning on religious subjects today resigned as rector of the church of the Ascension on lower 24th avenue. The resignation presented at the vestry "was accepted with regret."

ADDRESS PHYSICIANS
BOISE, June 20 (AP)—Idaho physicians, meeting in their thirty-second annual state convention, Friday morning heard the annual address of Dr. F. A. Pittenger, Boston, listened to the reports of committees and in the afternoon heard discussed technical papers. Friday was the first day of the convention which will close today.

IDAHO WEATHER.
Saturday, fair.

DEMOCRATS PUT
GUNMEN ON JOB,
PELKEY CLAIMS

Warfare in Rhode Island Legislature Grows More Serious; Bourbons Are Left Without a Quorum.

PROVIDENCE, R. I., June 20 (AP)—The senate ship of state, long stranded upon the rocks of deadlock, lost more than half its crew today, due to the exploding of a poison gas bomb in the senate chamber yesterday.

All those affected and recovered, but 21 of the 22 republican members kept away, and the democrats, hampered by lack of a quorum, assembled only to assault their republican colleagues and recess until Tuesday.

Fifteen republicans were arrested yesterday by Sheriff Jonathan Andrews when they refused to renounce their seats at the request of Lieutenant Governor Felix A. Toupin, democratic president of the senate.

Today William C. Pelkey, chairman of the republican state central committee, announced he had advised the republican senators to leave the state to escape "probable violence" in the senate.

Charges and counter-charges flew thick and fast during the day. Mr. Pelkey asserted "thugs and gunmen were circulating among senate spectators to the peril of republicans and by the connivance of democrats."

Lieutenant Governor Toupin declared from the rostrum that Sheriff Andrews was guilty of treason and malfeasance in permitting the arrested republicans to leave his custody.

BELIEVE "CRANKS" SENT THREATENING LETTERS
CHICAGO, June 20 (AP)—"Crank" letters were blamed by the police today for new threatening letters in connection with kidnapping and slaying of Robert Franks to which Nathan Leopold Jr. and Richard Loeb, millionaire's sons, and neighbors of the slain boy, have confessed.

Chief Justice Caverly of the criminal court, who will preside at the trial of Loeb and Leopold, today revealed that he had recently received a letter threatening the life of Josephine Franks, sister of the slain boy.

Meanwhile Irvin Hartman Jr., 10-year-old son of the wealthy furniture dealer and phymatist of the Franks boy, had been taken out of the city after his father had received a note modeled after the ransom letter written by Leopold and Loeb, and demanding a \$10,000 ransom under penalty of death.

WHILE THE PUBLIC TRAFFIC WAITS

CHICAGO, June 20 (AP)—Storms and heat in the Mississippi and Ohio river valleys during a period of 24 hours ending tonight took a toll of more than 20 lives and caused injuries or destruction to more than a score of others and property loss estimated at more than \$2,000,000.

More Than Twenty Deaths Attributed To Heat and Storm

Fourteen Persons Known to Have Died in Ohio as Result of Torrid Weather; Four Victims at Pittsburgh.

CHICAGO, June 20 (AP)—Storms and heat in the Mississippi and Ohio river valleys during a period of 24 hours ending tonight took a toll of more than 20 lives and caused injuries or destruction to more than a score of others and property loss estimated at more than \$2,000,000.

COLUMBUS, Ohio, June 20 (AP)—Fourteen persons are known to have died in Ohio as the result of the first heat wave of the year which has enveloped the state for the last 48 hours. Thunderstorms predicted for tonight and tomorrow are expected to bring relief.

PITTSBURGH, June 20 (AP)—Four deaths due to excessive heat and one death indirectly due to the torrid weather were reported here today. The mercury registered 91 degrees in the middle of the afternoon.

POWER COMPANY REPORTS OPENED TO INSPECTION

BOISE, June 20 (AP)—In a formal order issued Friday the public utilities commission opened to public inspection all records and reports submitted to it by the power company for 1923 to the commission is also opened to public inspection by the order.

Such an order was petitioned for by the Southern Idaho Light and Power user's association May 21, 1924, and on the same day the commission on the power company's show cause, such an order should be issued.

Faithful Watchdog
Died in Defense of
Master's Property

Find Evidence of Battle With Burglars; Cafe Owner Missed Animal More Than Cash.

CHICAGO, June 20 (AP)—Tige, watchdog, died in the line of duty. His owner found him today beside the safe in his cafe, a bullet through his body and a large piece of his large trousers gripped between his jaws.

"In the dog your total loss," asked the police lieutenant when William Burns, the proprietor, reported the loss.

"I almost neglected to mention that they took \$1100 in cash and \$300 in checks," was the reply.

"But I don't seem to worry much about that."

FIRST WIRELESS PHOTO PRINTED

Picture of French General Sent Successfully Over Radio After Years of Experiment.

PARIS, June 20 (AP)—The first photograph ever transmitted by radio was printed today in the Matin. The picture of General Gustave A. Ferrie, director of the Eiffel tower wireless station, was an excellent one, but it bore several defects which were, however, eliminated by retouching.

The picture was made by the process of Edouard Belin, the inventor of the method for transmitting pictures and photographs by wire. Although the details of the wireless method have not yet been disclosed, it is known that it is the same principle as is used on the wires.

Mr. Belin is confident that he can send wireless pictures across the Atlantic and an attempt at such transmission between Paris and New York is to be tried within a few weeks by him in co-operation with the Matin.

The first wireless picture sent by Mr. Belin was from Malmaison, a few miles south of Paris, to the Matin office. This was early Thursday morning and the experiment was so successful that Belin declared he was sure trans-Atlantic transmission was quite practicable. A second picture, sent an hour after General Ferrie's had been received, was even better than the first, being entirely free from smudges.

Mr. Belin's experiments in wireless transmission of pictures began in 1912. The Matin, in announcing his success today, predicts that "television," or long-distance seeing, will soon be accomplished.

MAUGHAN MAY NOT START FLIGHT BEFORE MONDAY

MITCHELL, FIELD, N. Y., June 20 (AP)—After observations last tonight, Lieutenant Russell L. Maughan announced that weather conditions probably would cause postponement of his transcontinental flight until Monday morning.

MINOLTA, N. Y., June 20 (AP)—Lieutenant Russell L. Maughan probably will not attempt his dawn-to-dusk flight across the continent tomorrow it was said at Mitchell field today, as unfavorable weather reports came in. The pilot had planned to start early today but at the last minute postponed his departure because of heavy weather.

More Than Twenty Deaths Attributed To Heat and Storm

Fourteen Persons Known to Have Died in Ohio as Result of Torrid Weather; Four Victims at Pittsburgh.

CHICAGO, June 20 (AP)—Storms and heat in the Mississippi and Ohio river valleys during a period of 24 hours ending tonight took a toll of more than 20 lives and caused injuries or destruction to more than a score of others and property loss estimated at more than \$2,000,000.

Such an order was petitioned for by the Southern Idaho Light and Power user's association May 21, 1924, and on the same day the commission on the power company's show cause, such an order should be issued.

THE GUMPS—HONK! HONK!

Rules and Regulations Governing Use of Flag

Right and Wrong Methods to Be Employed in Display of National Emblem as Compiled by Officials of D. A. R.

In view of the close proximity of July Fourth, when the American Flag will form a part of the celebration of the holiday, the following brief statement of the rules and regulations governing the use of the national emblem should be of interest.

The matter following will probably not soon appear again and because of this the article should be clipped by all interested persons and filed for future reference. These rules are put out under the auspices of the National Society, Daughters of the American Revolution and are accepted as authority on the subject.

1. The flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be displayed on national and state holidays and on historic and special occasions. The flag should always be hoisted briskly and lowered slowly and ceremoniously.

2. When carried in a procession with another flag or flags, the flag of the United States should be either on the marching right, i. e., the flag's own right, or when there is a line of other flags the flag of the United States may be in front of the center of that line.

3. When displayed with another flag against a wall from crossed staffs, the flag of the United States should be on the right, the flag's own right, and its staff should be in front of the staff of the other flag.

4. When a number of flags are grouped and displayed from staffs, the flag of the United States should be in the center or at the highest point of the group.

5. When flags of States or cities or pennants of societies are flown on the same halyard with the flag of the United States, the National Flag should always be at the peak. When flown from adjacent staffs the flag of the United States should be hoisted first. No flag or pennant should be placed above or to the right of the flag of the United States.

6. When flags of two or more nations are displayed they should be flown from separate staffs of the same height and the flags should be of approximately equal size. (International usage forbids the display of the flag of one nation above that of another nation in time of peace.)

7. When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony, or front of building, the union of the flag should go clear to the head of the staff unless the flag is at full mast.

8. When the flag of the United States is displayed in a manner other than by being flown from a staff it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, i. e., to the observer's left. When displayed in a window it should be displayed the same way, that is, with the union or blue field to the left of the observer in the street. When festoons, rosettes, or drapings of blue, white and red are desired, bunting should be used, but never

the flag.

9. When displayed over the middle of the street, as between buildings, the flag of the United States should be suspended vertically with the union to the north in an east-and-west street or to the east in a north-and-south street.

10. When used on a speaker's platform, the flag should be displayed above and behind the speaker. It should never be used to cover the speaker's desk nor to drape over the front of the platform. If flown from a staff it should be on the speaker's right.

11. When used in unveiling a statue or monument, the flag should not be allowed to fall to the ground but should be carried aloft to wave out, forming a distinctive feature during the remainder of the ceremony.

12. When flown at half staff, the flag is first hoisted to the peak and then lowered to the half staff position, but before lowering the flag for the day it is raised again to the peak. On Memorial Day, May 30th, the flag is hoisted at half staff from sunrise until noon and at full staff from noon until sunset, for the Nation lives and the flag is the symbol of the living Nation.

13. When used to cover a casket, the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried foot first.

14. When the flag is displayed in church it should be from a staff placed on the congregation's right as they face the altar. The service flag, the state flag, or other flag should be at the left of the congregation. If in the chancel, the flag of the United States should be placed on the clergyman's right as he faces the congregation and other flags on his left.

15. When the flag is in such a condition that it is no longer a fitting emblem for display it should not be cast aside or used in any way that might be viewed as disrespectful to the national colors, but should be destroyed as a whole, privately, preferably by burning or by some other method in harmony with the reverence and respect we owe to the emblem representing our country.

CAUTIONS

1. Do not permit disrespect to be shown to the flag of the United States.

2. Do not dip the flag of the United States to any person or any thing. The regimental color, state flag, organization or institutional flag will render this honor.

3. Do not display the flag of the United States with the union down except as a signal of distress.

4. Do not place any other flag or pennant above or to the right of the flag of the United States.

5. Do not let the flag of the United States touch the ground or trail in the water.

6. Do not place any object or emblem of any kind on or above the flag of the United States.

7. Do not use the flag as drapery in any form whatever. Use bunting of blue, white and red.

8. Do not drape the flag over the hood, top, sides or back of a vehicle, or of a railroad train or boat. When the flag is displayed on a motor car, the

staff should be affixed firmly to the chassis or clamped to the radiator cap.

10. Do not display the flag on a float in a parade except from a staff.

11. Do not use the flag as a covering for a ceiling.

12. Do not use the flag as a portion of a costume or an athletic uniform. Do not embroider it upon cushions or handkerchiefs or print it on paper napkins or boxes.

13. Do not put lettering of any kind upon the flag.

14. Do not use the flag in any form of advertising nor fasten an advertising sign to a pole from which the flag of the United States is flying.

15. Do not display, use or store the flag in such a manner as will permit it to be easily soiled or damaged.

PROPER USE OF BUNTING

Bunting of the national colors should be used for covering a speaker's desk, draping the front of a platform, and for decoration in general. Bunting should be arranged with the blue above, the white in the middle and the red below.

SALUTE TO THE FLAG

During the ceremony of hoisting or lowering the flag or when the flag is passing in a parade or in review,

all persons present should face the flag stand at attention and salute. Those present in uniform should render the right-hand salute. When not in uniform, men should remove the headress with the right hand and hold it at the left shoulder. Women should salute by placing the right hand over the heart. The salute to the flag in the moving column is rendered at the moment the flag passes.

When the National Anthem is played those present in uniform should salute at the first note of the anthem, retaining this position until the last note of the anthem. When not in uniform, men should remove the headress and hold it as in the salute to the flag. Women should render the salute as to the flag. When there is no flag displayed, all should face toward the music.

Use Many Pencils

Pencil manufacturers say the people of the United States pay more than \$20,000,000 a year for pencils, representing more than 30,000,000,000 wood-and-pencil.

Ripe When Green!

From the standpoint of the harvester, the banana is ripe when it is green, says Nature Magazine. In order that it may withstand the hardships of travel, the fruit is gathered before it begins to take on the tinge of yellow.

The News is read by the permanent earning classes.

Spreads Cotton Seed

The wind plays an important part in spreading the numerous down-covered seeds when the cotton plant is not systematically cultivated. The root penetrates deep into the soil. The plant responds readily to differences in climate, soil and methods of growing. —Nature Magazine.

True

A physician says that the stomach has nothing to do with seasickness. Perhaps he is right, but seasickness has a good deal to do with the stomach.

Mountain Water Line

Twenty-five million gallons of mountain water a day will be the capacity of a pipe line from the Spawina hills to Tulsa, Okla.

Humanity in Trapping

Experts are trying to find a way in which poison gas will kill wild animals as soon as they are trapped.

Never again

YOUR forefather's bathtub was the creek. He mirrored his face in a basin of water and made his fire with a flint. His Ford was a horse's shanks, his electric light a wick in tallow, his telephone a shrill shouting through his hands. He hewed for his furniture, spun for his clothes, tilled, sowed, reaped, ground, mixed, baked for his bread. When he died, not a newspaper printed the news, and his possessions were too few for a will.

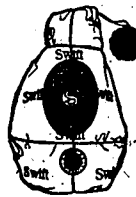

You'll never have to go back to his old discomforts. Not while printed pages are available. News and advertising have carried far the story of new inventions. Every day more are added, more things for use, for comfort, for enjoyment.

Advertisements tell you about them. It pays to read advertisements.

Advertisements show you how to spend your money where it will do you the most good

JOHNSON SAYS "ROUGH STUFF" TO BE TABOO

President of American League Requests that Players Settle Differences Hereafter on Vacant Lots.

CHICAGO, June 20 (AP)—With the announcement that the players involved in the riotous New York-Detroit game at Detroit last Friday had been fined as well as suspended, President John Johnson of the American League tonight declared that fighting and horse games should have no part in the playing of an American League game and that if there are to be any finished battles, "they must be staged in a vacant lot, far removed from the ball park."

Babe Ruth, world's champion home run hitter while wearing suspension was fined \$50 for what President Johnson characterized as his "frivolous efforts to participate in the trouble." Bob Meusel, Yankee outfielder, was fined \$100 in addition to a ten day suspension. Detroit's Detroit Tigers, who were fined \$50 and suspended for ten days.

The game breaking up a free-for-all fight in which players, police and spectators participated was forfeited due to nothing to the Yankees when the police were unable to clear the field.

SENATORS WIN IN 12 INNINGS

Washington Takes Session With Athletics, 3 to 2; Cleveland Beats Detroit.

PHILADELPHIA, June 20 (AP)—Washington won a 12-inning game when Peckinpaugh crashed a double to center field with Bludge on base, winning the game, 3 to 2.

DETROIT, June 20 (AP)—Cleveland continued its slugging at the expense of Detroit and won today's game, 11 to 0. Both managers threw the majority of their substitutes into the game, Manager Spence using 15 players and Manager Cobb sending in 18 players.

NEW LONDON, Conn., June 20 (AP)—Following a cautious, heady race, Yale's crew led Harvard home by four lengths over the four mile course in 11 minutes. The fifty-seventh regatta between the two ancient rivals. Carefully handling its strength over the early miles, Yale gradually increased its advantage obtained in the first half mile and was able to romp down the final quarter mile to the New London railroad bridge at a stroke of 37, secure, but with plenty of strength in reserve.

WALKER TO MEET CHAMP

NEW YORK, June 20 (AP)—Mickey Walker will defend his world's welterweight title against Benny Leonard, light-weight champion, and Dave Shande will meet the winner, the New York state athletic commission announced today.

Used by the Romans

Centuries ago, long before the mullein grew in this corner, the Romans dipped its dried stalk in suet to burn for candle light in processions. Greeks soaked its leaves in oil to use as wicks in their lamps.

Proud of Scars

In New Holland the women cut themselves with shells, and, keeping the wounds open a long time, form scars in the flesh, which they deem highly ornamental.

Hotentots in France

France was populated with ancestors of the Hotentots of South Africa some thousands of years ago, according to discoveries in archeology recently.

New Copper Deposits Found

Deposits of what may prove to be the richest copper ore in the world have been discovered on the island of Minor in the Dutch East Indies.

WINS WORLD TITLE BY OUTPOINTING DUNDEE

BROOKLYN, June 20 (AP)—Kid Sullivan of Brooklyn won the world's junior light-weight championship tonight by outpointing Johnny Dundee in a 10-round battle at the Nostrand A. C.

with heights varying from 3 to 20 feet. For the most part the plant lives one year, although it is found having a two-year span of life and in some cases a continuous life.—Nature

A One-Year Plant

Cotton is a seed plant. We find it growing either as a shrub or a tree with bushy, wing from 3 to 20 feet. For the most part the plant lives one year, although it is found having a two-year span of life and in some cases a continuous life.—Nature Magazine.

To Rent—A Volcano

Bolivia offers an active volcano for sale or rent. It is reported, and which it is claimed will furnish sufficient steam to develop a great amount of electricity.

Maple Tree's Secret

Before the first white settlers came to the New World the Indians had discovered the secret of the maple tree. Crudely and wastefully they were turning the sap into sirup and sugar.—Nature Magazine.

Chosen Prettiest Girl at Industrial Exposition

MISS JANE LEWIS, aged 18, was chosen as the most beautiful maiden at Jersey City's Industrial and Civic Exposition. And there were none to dispute the honor, when she smiled.

MOUNTAIN CLIMBING TRIP ENDS FATALLY

LONDON, June 20 (AP)—Sir Francis Young, husband, president of the Royal Geographical society, tonight informed the newspapers that a telegram had been received by the Mount Everest expedition committee in London to the effect that the attempt to scale Mount Everest had ended in disaster, involving the death of two members, George Leigh-Malory and A. C. Irvine.

Interviewed at Westminster, Sir Francis said it was not known how the disaster occurred but that it probably happened a fortnight ago. The expedition, according to Sir Francis, was within a short distance of the summit at a greater height than ever had been reached before. It had experienced great difficulties, forcing it through tremendous blizzards, which lasted for some weeks.

The members of the expedition, Sir Francis said, must have been greatly exhausted when Mallory and Irvine died. It was the final assault on the peak and the men had great hopes of reaching the top. Sir Francis said it was almost certain the expedition would be abandoned for this year.

Charged Dealers

Doctor Lubig had passed on, and many of his patients were employing Doctor Ford. A little girl who had a good many brothers and sisters, proudly announced to a neighbor, "We have a new baby at our house." "A new baby?" said the neighbor. "Where did you get it?" "Well, we used to take from Doctor Lubig; now we take from Doctor Ford."

Only in Australia

The bird is found only in Australia. His nearest relative in our country is the starling, a black bird with a metallic gloss and with spots of yellowish-white among his feathers. The starling is more friendly than his Australian cousin.—Nature Magazine.

This Bird Is Ugly

Among the many curious birds occurring in Africa, there is one conspicuous for their beauty have frequently been plucked. The shoe bill, which is unique in its outward appearance and in its physical characteristics, probably holds the palm for ugliness.—Nature Magazine.

How Bananas Grow

A banana plant produces but one bunch of the fruit, as nature's compensation provision has been made for permitting the plants to grow closely to one another. The banana does not grow in the drooping position of the market display. The tips point upward.—Nature Magazine.

Apostle Spoons

Genuine old Apostle spoons, very popular in the Sixteenth century as christening gifts, bring very high prices in auction sales nowadays. The largest sum was \$24,500 for a set of 13 dating from the time of Henry VIII.

Contract Beans

Have a limited amount of beans to let on contract. Call 1529-W or 191. ROGERS BROS. SEED CO.

GOVERNOR SMITH IS SURE HE WILL WIN NOMINATION

Refuses to Seriously Discuss Dark Horse or Second Choice; Chicago Executive Is Among Visitors.

NEW YORK, June 20 (AP)—After a day spent in greeting delegates from 17 states, Governor Alfred E. Smith tonight was so certain of the democratic presidential nomination that he refused to discuss dark horses or second choice candidates.

"There are no such things," he declared. "I believe I will be re-elected. I am convinced that when the convention gets through paying its compliments to favorite sons it will get down to figuring who could most assuredly win the race to the White House."

The governor's state of mind was illustrated in his answers to a feature writer who sought comparative information on the Smith and McAdoo qualifications from the standpoint of the prize ring.

"My height, five feet, nine inches," he answered the first question. "My reach? Washington," was his reply to the second.

Mayor J. C. Hughes was among the visitors at Smith headquarters today and although the mayor is credited with having dined at Chicago, it was unofficially announced that he is supporting the Smith candidacy.

"He's like I am," the governor explained. "A man may be wet but if he is a public official he should enforce the law—if the money for their enforcement is appropriated. A president takes an oath to enforce all laws of the land. But a city, or a state, or a nation gets only so much law enforcement as it is willing to pay for."

DENTISTS CLOSE SESSION

POCAHONTO, June 20 (AP)—Members of the state dental association ended the second day's session of the convention with a banquet at the Pocahontas hotel Wednesday evening at which the ladies were guests.

Interesting talks were made by the visiting clinicians and Dr. M. F. Lucas of Boise was the toast master. Following the banquet a business session was held and officers were elected for 1924-1925 as follows:

Dr. M. F. Lucas, Boise, president; Dr. J. F. Johnson, Twin Falls, vice president; Dr. H. B. Colver, Boise, secretary; Dr. A. G. Miller, St. Anthony, treasurer. The meeting was closed by attending the national association meeting at Dallas, Texas in October were Dr. Lucas with Dr. W. J. Cruse of Ponchaqui as alternate; Dr. G. B. Crabtree of Idaho Falls was elected to the executive board. Boise was selected for the next annual meeting.

Always Something

City people sometimes think they will move out to the country temporarily "to see the spring come in," but before they get started the weather is too hot.

Radioactive Rocks

Rocks found on mountains in Oceania are said to throw off a light that will cause extreme irritability to the human skin. This, scientists believe, may be caused from a radioactive mineral imbedded there.

Only One Glass Plant

In the whole of Mexico there is only one glass factory of any importance. This factory is at Monterey and confines itself largely to the manufacture of beer bottles.

Orange From Asia

The sweet orange is a native of eastern Asia and was carried to India, Asia Minor, and the south of Europe along the Mediterranean. The early navigators of Portugal are supposed to have brought it home from India.—Nature Magazine.

Fastest Flowing River

The fastest flowing river in the world is the Sutlej, in India, which rises 15,200 feet above the sea and falls 12,000 feet in 150 miles.

A Substitute

Difference between praise and flattery is that praise means it. There is too little "means it," so flattery substitutes.

Joe-K says:

There are mighty few people who can see any side to a thing except their own side.

McADOO DRAFTS FINAL PROGRAM

Democratic Candidate Devotes His Time to Conference With Party Leaders.

NEW YORK, June 20 (AP)—Carrying out a definite plan designed to strengthen and consolidate his position, William G. McAdoo devoted virtually all his time today in conferences with members of state delegations, members of the national committee and other delegates to the national convention.

Abrogation of the two-thirds rule for the presidential nomination of a presidential candidate was one subject discussed. Decision as to the attitude the McAdoo forces are to take on this question, however, will be deferred probably until Saturday afternoon.

With Mr. McAdoo denying himself to newspaper correspondents and his lieutenants declining to discuss subjects, affirmative announcements from his headquarters were the McAdoo bills were few. It was formally announced that former Senator James Phelan of California, who will arrive here tomorrow from Paris will place his name as McAdoo in nomination before the convention.

Seconding speeches probably will be limited to three, two to be delivered by men and one by a woman. Charles M. Hay, delegate at large from Missouri, will make one of these addresses, which very likely will be limited to five minutes each under the convention rules.

David Lusk, floor manager of the McAdoo forces probably would be conducted under a zoning plan with 12 seats assigned to each under the direction of Mr. Rockwell.

Among some of these named as probable second managers were Brockton Ridge Long of Missouri, former assistant secretary of state, W. O. Hollister of Missouri, Thomas Love of Texas, Daniel C. Roper of North Carolina, former commissioner of the internal revenue; William T. O'Connor of Chicago, W. W. Hines of South Dakota and Hollins Randolph of Georgia.

From early morning until well into the night there was a steady stream of callers at both the McAdoo headquarters and his private suite. The former treasury secretary took time, however, to take his children for a walk in Central park in the early afternoon.

SUES ON CONTRACT OF SALE

Suit against Richard Hansing and others to foreclose on a contract for sale of realty property on Fifth avenue east was instituted in district court here Friday by Robert W. Jones. The complaint alleges that there is remaining unpaid \$2000 on the contract entered into in August, 1923, whereunder the property was to have been sold for \$5000.

Signal for Battle

The signal for battle of the Romans consisted of the unrolling of a red flag, the white flag has always been a sign of truce or peace.

People of Marshall Islands

Population of Marshall Islands, a group of 24 coral islands east of the Caroline Islands, consists of 15,000 natives and about 180 Europeans.

HAUTAQUA Seven Big Days

WORK HERE FOR IDAHO LABDRERS

Edited by Mrs. E. R. Williams
Telephone 396

Complimenting Mrs. F. B. Seville, who is longing in the near future to make her home in California, Mrs. Francis X. Seville, who is now in California, retained with a charming bridge tea at the home of the former on Poplar avenue Thursday afternoon. Prizes were won by Mrs. Arthur K. Seaver and Mrs. Seville and consolation was awarded Mrs. Herman Schugger. Quantities of beautiful roses decorated the rooms and the ten table had for a centerpiece a large bowl of roses and Mrs. Seville presided over by Mrs. C. R. Scott. Miss Virginia Victory and Miss Dorothy Ebeling assisted in serving. About 20 guests enjoyed this delightful affair.

Idaho's agricultural pursuits, according to anticipation of the United States employment service industrial employment survey for May in the mountain district, will absorb practically all of the unemployed resident common labor. The survey, which has just been made public, says in regard to employment conditions in Idaho:

Labor is fairly well employed, except for a surplus of unskilled workers and some metal miners. Agricultural pursuits, especially haying to begin now, will absorb practically all of the unemployed resident common labor. While metal mining in the east-northern part of the state continues fairly active, a moderate surplus of both skilled and unskilled mine labor exists. There is some activity in oil developments in the Payette and Boreland districts. Increased activity in building, general

construction and public improvement is general throughout the state, resulting in building mechanics being employed. There has recently been temporary slight curtailment in many labor. Large forces are engaged in highway construction and additional workers will be employed as new contracts are let. There is considerable railway track improvements and new railway construction under way, with sufficient labor available to meet demands.

Boise—Workers of all classes are fairly well employed except common labor of which a moderate surplus exists. In adjacent territory haymaking soon to start and will cause employment of a considerable number of men. Building and construction work is under way and local tradesmen are well employed.

Portella—Employment increased during the past month, particularly in agriculture, building, and other out-

for construction. Demands for labor are gradually increasing, with a supply of workers available at the moment. A surplus of common labor exists, but nearly all should be employed in the immediate future on the best farm. Building continues active and includes many residences, a few apartment houses, school structures and one commercial building. The demand for labor at present adequate. Construction of an \$80,000 sewer system was recently commenced, affording employment to a small number of chiefly unskilled laborers. While employment in the local railway shops continues at about normal, sewer crews have recently been laid off.

THE MARKETS

WHEAT AVERAGES LOWER;
PRICES RALLY AT CLOSE

Reports of Liberal Export Buying at Winnipeg Aid in Offsetting Decline in Liverpool Quotations.

CHICAGO, June 20 (AP)—Wheat averaged lower in price today but was rallying at the last. The liberal reports of export buying at Winnipeg helped to offset a sharp decline at Liverpool and the breaking of the hot wave in the southwest. Wheat closing quotations here were unsettled at 1/2c off lower to 1/2c advance, July \$1.14 1/2 to \$1.14 1/2, and September \$1.15 1/2 to \$1.15 1/2, with corn at 1/2c off to 1/2c gain, oats a shade to 1/2c up and provisions showing a 1/2c to 1/2c drop.

With lower temperatures and rains in the southwest and with Liverpool quotations down the wheat market here underwent a material change. They rallied to a little above yesterday's finish and after fluctuating nervously within the previous range. Much of the demand on the decline came from buyers who apparently acted on opinion that the bearish reaction had gone far enough. On the other hand, crop reports from the spring wheat territory were favorable and the harvest of the winter crop was making progress in Kansas as well as in Oklahoma and Texas.

Estimates were current that 1,000,000 bushels of wheat for shipment to Europe had been purchased at Winnipeg. There was also considerable replacement of speculative lines here which had been sold out at recent higher figures. Reports, however, that a big combination of elevator interests had been effected and unsettling influence on the day came to an end.

Signs of expansion of speculative demand for corn brought about higher prices for July and September deliveries but better weather conditions eased December. The east was said to be after oats.

Commission house selling weakened provisions.

Wheat—Open, High, Low, Close.

	Open	High	Low	Close
July	113 1/2	115 1/2	113 1/2	114 1/2

Low 1924 96.27 81.00

Total stock sales, 782,100 shares.

NEW YORK, June 20 (AP)—Uncon-

vinced price movements characterized today's

stock market which witnessed new 1924

high and low prices for many securities

simultaneously in different sections of

the list, but net gains exceeded net

losses at the close. Strength of public

utilities and industrial specialties was

one of the outstanding developments.

Bullish demonstrations in the Ameri-

cain Water Works issues was one of the

day's features, the common being run

up 1 1/2 points to a new peak for the

year at 88 1/2, and the other slipping

to 85 1/2. The Pacific and Puget Sound

closed seven and a half points higher

at 94.

Recent accumulation of the public

utilities has been based on a progressive

increase in earnings by the

United States. Other stocks in this

group which developed marked

strength include Montana Power, up

two and a half points.

CROP CONDITION HERE FAVORED BY COMPARISON

Water Users' Investigating Committee on Trip to Upper Valley Sees Nothing Better Than Twin Falls Country.

Crop conditions in the Twin Falls district are well excelled by those of any other region of the Snake river valley according to members of a committee which this week made inquiry at Idaho Falls on behalf of Twin Falls water users to determine the effect of the policy adopted by the "committee of nine" permitting exchange of natural flow water in return, later in the season for storage water.

In advance of the submission of their report at an early meeting of the Twin Falls Canal company directors, members of the committee would make no statement relative to conclusions reached by them as a result of their inquiry. Members of the committee, who were named at a meeting here last Saturday of a number of water users, were Carl J. Miller, president, and N. V. Sharp, member of the canal company board of directors, and J. A. Cron, former canal director. Hurton Smith, general manager for the canal company, accompanied the committee in an advisory capacity.

Best Conditions Here.
With regard to crop conditions as observed by the committee on its overland trip to Idaho Falls and beyond as far as Heise, the furthest measuring station on Snake river, Mr. Smith said Friday evening that he considered crop conditions here superior to those of any other district visited by the committee.

"I would not exchange one township here for all the country we saw on the trip," Mr. Cron stated. There was no evidence of crop damage from shortage of water in any district between Twin Falls and Heise, Mr. Cron said, except possibly on the Aberdeen project, where water this week had been turned out of canals in order to gain credit for storage water later in the season, under the exchange plan. On the Minidoka projects and in districts in the vicinity of Idaho Falls, he said, crops were flourishing.

Some Rain in Upper Valley.
Some rain fell at Idaho Falls Wednesday when four one-hundredths of an inch of precipitation was recorded here. The rain gauge at Idaho Falls that day showed one-tenth of an inch of precipitation, and at Jackson Lake reservoir, four-tenths of an inch of rain was recorded. Cooler weather that came with the rain halted run-off into Jackson lake, and opinion was expressed by G. Clyde Baldwin, watermaster, that the peak of the run-off had passed.

There has been accumulated in Jackson lake approximately 10,000 acre feet of stored water to the credit of the Twin Falls Canal company, Manager Smith stated Friday evening, while in Lake Wolfelt there has been stored to the company's credit between 300 and 400 acre feet. Reduction of water delivery through Twin Falls canals from 80 to 70 per cent made on Thursday, Mr. Smith said, had been ordered with view to building up and maintaining this reserve water supply.

GIRLS BACK FROM OUTING

Methodist Sunday School Class Members Spend Pleasant Days at Camp Tomeda in Sawtooths.

Members of the Mc-Wo-Ho-Mia Sunday school class of the Methodist church, accompanied by Mrs. T. P. Warner, have returned from an outing at Camp Tomeda in the Sawtooth mountains. The outing party included Lola Silver, Roberta Silver, Ella Bear, Beatrice Smith, Lois Baker, Clara Showers, Juanita Glover, Hazel Slack and Dorothy Sherris.

The News is read by the permanent earning classes.

CANAL COMPANY APPEARS FROM \$115 JUDGMENT

Records in Suit Instituted by Thomas Owens Company Are Transferred to District Court Here.

Records in the case of the Thomas Owens company against the Twin Falls Canal company, involving plaintiff's claim for \$115.00 as the unpaid balance of \$5,301.75 asked as compensation for construction in May, 1923, of a drain on the C. M. Parrish land, have been transferred from the probate court to the district court here to which appeal has been taken by the canal company from judgment of the lower court awarding to the plaintiff the full amount. Plaintiff's attorneys are represented by E. M. Wolfe and C. Wilkins, J. R. Bethwell appearing for the canal company.

SCHOOL COMES IN FOR PRAISE

State Inspector Approves Work in Local Institution; Regrets Loss of Supervisor.

Recommendation to the state board of education that the Twin Falls high school be retained on the list of accredited high schools of the state, made early last month by Miss Ethel E. Redfield, state high school inspector, was accompanied by report of her inspection March 27, last, of the local school system, where no criticism was given work done by instructors and a measure of criticism was directed against abolishment of the position of supervisor of the grades. Organization of the school, Miss Redfield reported, is "very good," although she stated, "more has been expected of the superintendent than properly should have been."

The report, a copy of which has been received by the clerk of the Twin Falls school district, is as follows: "The elementary schools of this district are in very good condition. This district has had for a number of years, the benefit of a splendid grade supervisor, and the schools have been brought to a high grade of efficiency through this work. A junior high school is maintained and is well organized and doing excellent work."

Lauds Teachers' Work.
"The high school building, which also contains of the junior high school in a separate wing and part of the building, is a splendid two-story brick with basement. One of the finest buildings in the state. The lighting, heating and sanitary and ventilation features are good. The building is well taken care of. The laboratories and equipments for chemistry, physics, biology and general sciences are good with perhaps the poorest equipment in the physics laboratory. The library is very good. More room is needed for this department. The commercial department is well equipped."

"All the teachers of this high school meet the requirements for accredited schools, and splendid work is being done."
"All the courses offered in this school are well selected and accord with the requirements of the high school manual. No vocational work is offered except commercial work."
"I was very pleased with the work of this school. Its organization is very good, although more has been expected of the superintendent than properly should be. The efficiency of the school can not be kept up if the administrative offices are overloaded, any more than if teachers carry too heavy a burden. The results of the work in grade supervision are felt throughout the high school. This work has been especially well done in Twin Falls, and it is a matter of great regret that the grade supervisor has been dropped from the corps of teachers. Undoubtedly the effect of this action will be felt within two or three years in the school."

Chief Figures in News of the Day

Arthur Lehman, New York banker, has given \$200,000 to Harvard University for the sale of the human frame. Below: Dr. William J. Mayo & Rev. Dr. W. N. Guthrie.

ARTHUR LEHMAN, New York banker, has given \$200,000 to Harvard University for the sale of the human frame.
THE LONDON HOME of Lady Ludlow, whose first husband was Sir Julius Wernher, diamond king, has been robbed of jewels valued at \$2,500,000, believed to be the most stupendous robbery on record.
DR. WILLIAM J. MAYO of Rochester, Minn., world-famous surgeon, told delegates to the American Medical association convention in Chicago that spleen removal in future would supplant removal of the appendix in the hunt for the sale of the human frame.
DR. WILLIAM NORMAN GUTHRIE, pastor of the Church of St. Marks-in-the-Bowrie, in New York, leader of the modernists in the Protestant Episcopal church, has finally bowed to the orders of Bishop Manning and eliminated the so-called pagan dances and similar affairs that had been featured in his historic church.

TWO FULL DAYS AHEAD FOR MODERN WOODMEN

Twin Falls Camp to Make Gala Occasion of Assembly Here of District Deputies for School of Instruction.

Assembly here Monday of district deputies of the Modern Woodmen of America in Idaho for two days sessions brought to a high grade of efficiency of the school is to be a gala occasion for the Twin Falls camp of the order which in addition to providing elaborate entertainment for the visiting delegates, will, on Tuesday evening, stage a big class adoption with all the work put on by visiting deputies assisted by the Hines camp team.

The school of instruction will bring to Twin Falls W. P. Gilroy of Canton, Illinois, national lecturer, and J. W. Babcock of Boise, state deputy, together with some 20 or 30 district deputies of the order, to take part in discussion of a great number of questions that are to claim their attention.

The entertainment program for Monday night, beginning at 8 o'clock in the I. O. O. F. hall, includes a play to be presented by the Royal Neighbors; speaking by national and state officers of the order, and a Woodmen dance, all of which is free to all Woodmen and their families.

Woodmen and candidates only will participate in the class adoption which is to be preceded by a banquet to be served at 7:30 o'clock Tuesday evening.

\$25,000 Found in Tree

An iron box containing \$25,000 was found buried in the roots of an aged tree by a woodcutter at Berford, Pa. Robert Boyer found the box. Most of the money was in bill form, but in bad condition.

BREVITIES

Return From Visit—Mrs. C. A. Miller and daughter returned Friday from a month's visit in Missouri.

Back From Salt Lake—J. A. Barrett of the Barrett Auto company, returned Friday from a business trip to Salt Lake.

On Overland Trip—Mr. and Mrs. J. P. Kinney left Friday morning on an overland trip to Salt Lake to spend two weeks vacation visiting relatives and friends.

Brings New Car—E. T. Outtery, distributor here for Hudson cars, has returned from Salt Lake, bringing a handsome equipped Hudson coach for the Misses Stella and Etta Riley.

Take License at Burley—Arthur E. Conklin of Twin Falls and Lena Chase of Idaho Falls obtained a marriage license last Monday at the office of the county recorder in Burley.

Home From Extended Trip—Mrs. F. P. Bracken returned Friday from an extended visit with relatives and friends in Kansas, Iowa, Missouri and Oklahoma. She had been away since last November.

Marriage Announced—Cards have been received here announcing the wedding in Salt Lake, June 14, of Miss Emily Nye, daughter of Mr. and Mrs. J. H. Nye of this city, and Roland E. Squires of Salt Lake.

Here to Join Blues—Tom Flynn, baseball pitcher, arrived Friday from San Francisco to join Manager C. E. Corrigan's Twin Falls Blues, and will make his initial appearance in public here in the game with Wendell next Sunday.

Home From School—Miss Sunshine Williams, daughter of Mr. and Mrs. R. M. Williams, and Miss Una Stafford, daughter of Mr. and Mrs. A. D. Stafford, returned Thursday from California, where they attended Leland Stanford university, being two of 500 women students admitted to that institution. They were met by their parents at Wells and completed the trip by motor.

Bible Class Holds Social—Members of the Progressive Bible class of the Methodist Episcopal Sunday school, of which C. E. Pickett is teacher, assembled Friday evening at the country home of Mr. and Mrs. George W. Bice, southwest of town, for a monthly social session. Between 30 and 40 persons contributed to the merriment of the occasion. The program included songs, stunts and games. Dr. C. E. Winning, pastor of the Methodist church, and Mrs. Winning were invited guests.

The News is read by the permanent earning classes.

Mercury Touches Low at Four Above Frost

Mercury fell Thursday night to 36 above, just four degrees above the frost line, and ascended Friday to a maximum height at 79 above, which was 10 points higher than the high mark of the preceding day. Low at 30 was six degrees under the maximum of the preceding 24-hour period, according to records of the government weather observer's station here.

LAST DAY TO PAY TAXES

This is the last day for payment of the second installment of 1923 taxes without penalty, although, according to statement Friday evening of Mrs. E. L. Warren, county treasurer, remittances mailed Sunday in payment of second installment taxes are not subject to penalty.

WOOL GROWERS REJECT BIDS

RUPERT, June 20—A directors' meeting of the Minidoka-Casida County Wool Growers association was held at the county agents office in Burley Tuesday night for the purpose of considering bids for pooled wool. The highest bid received was an average of 39 cents per pound. After considerable discussion all bids were rejected and the secretary instructed to keep in touch with conditions and when the situation justifies to again advertise the wool for bids.
