5000 CELEBRATE AT KIMBERLY ON PIONEERS' DAY

Witness Stirring Episodes in Experience of Western Pioneers at Celebration Thursday; Big Entertainment.

Stirring episodes in the experiences of western pioneers were re-enacted Thursday to bring to a climax Kimberly's celebration of Pioneers' Day.

Approximately 5000 persons, including numbers from many neighboring towns and communities, gathered in Kimberly to attend the celebration which was launched at 10 o'clock with a thrilling holdup of an old-time stage coach by a band of half-naked savages, stage driver, guards, passengers and Indians being effectively impersonated by Kimberly citizens. The Indians staged a war dance following the holdup.

The old stage coach and the fleet of covered wagons and "hand-carried parades" were picturesquely featured of the parade that marked a high point of the afternoon's program. The parade extended over six blocks. It included, in addition to the pioneer section, an imposing array of floats entered by the business concerns of Kimberly, the hospital of the Kimberly L. D. S. junior, Twin Falls Boy Scouts, national guard hospital unit, commanded by Captain George C. Hallett of Kimberly; boy scouts, children's bicycle section.

Hand Cart Wins Prize.

First prize for the "most appropriate and best represented" exhibit in the parade was awarded by a committee of five judges to Mrs. Andrew Glenn of Kimberly for the "hand-carried company."

Second prize went to the Kimberly L. D. S. hospital float, and honorable mention was accorded the Twin Falls Boy Scouts.

In imitation of pioneer social affairs, hand carts and covered wagons following the parade, formed a circle within which many persons indulged in an old-time square dance to fiddlers' accompaniment.

Significance of the occasion observed in commemoration of the indomitable courage of the pioneers was expressed by Shad L. Hodgins, Twin Falls mayor, in the principal address of the occasion, delivered in connection with a program of speaking and music that was presented on the high school campus immediately following the Indian raid on the stage coach. W. P. Whitaker, former mayor of Pocatello, who also was to have been a speaker, sent word that he had been detained unavoidably. C. E. Leavitt of Twin Falls introduced the speaker and announced the various numbers on the program, which opened with the singing of "America" by the entire assembly. Thereafter prayer was offered by E. M. Guest of Twin Falls. Musical numbers were given by a Murtaugh women's quartet and by a Twin Falls male quartet, with vocal solos by Mrs. Duncan and Mrs. Iris Burkhalter. Mrs. True of Murtaugh gave a reading, and Clifford Tolman of Murtaugh presented "Uncle Josh." An instrumental solo was given by Miss Eva Burkhalter.

Basket Dinner.

Pioneers and celebrators at noon sat down to a basket dinner spread on the campus, opportunity being improved by the older persons with reminiscence of

SILVER TO HEAD GRAIN CONCERN

Farm Bureau Federation Agent President of Huge Marketing Agency.

CHICAGO, July 24 (AP)—Gray Silver of West Virginia, Washington representative of the American Farm Bureau Federation, today was elected president of the \$25,000,000 grain marketing company, representing a merger of five of the largest grain companies in the country which eventually is to be farmer owned and controlled according to plans.

Other officers elected by the board of directors are Harry L. Keefe, Wallkill, Neb., first vice president; G. M. Dyer, Spencer, Ia., second vice president; J. W. Coverdale, Ames, Ia., secretary-treasurer.

The executive committee is composed of President Silver, Secretary Coverdale, Millard Myers, Chicago, chairman of the board of directors; Mr. Keefe and Fred A. Mudge of Peru, Ill.

The officers and board will serve until the second week in February, 1925, when the first annual meeting of the grain marketing company will be held.

Australia Places Ban on American Cattle Shipments

Commonwealth, Fearful of Plague, Imported 18 Cows Last Year From U. S.

WASHINGTON, July 24 (AP)—Because of the danger of mad cow and mouth disease, the governor-general of Australia has issued a proclamation banning all cattle shipments from the United States.

Records of the commerce department reveal that 18 cows were shipped from the United States to Australia in 1923.

CATHOLIC DIGNITARY DIES

CHARLOTTE, N. C., July 24 (AP)—Right Rev. Leo Haide, bishop of North Carolina, dean of the Catholic hierarchy of America since July 1885, abbot of Belmont cathedral abbey, near here, died at the abbey tonight following several weeks illness.

REBELS FACING NEW ONSLAUGHT

Brazilian Troops Extend Operations to West of Sao Paulo; Occupy Sorocoba.

BUENOS AIRES, July 24 (AP)—Activities westward of Sao Paulo by the Brazilian federal forces is reported for the first time in today's official communication by the Brazilian government. It tells of the occupation of Sorocoba, which lies 45 miles west of the besieged state capital.

It is believed here that the forces mentioned consist of troops assembled in southern Brazil who are marching northward to close the circle around Sao Paulo and cut off the communications of the rebellious forces in the region to the west and northwest, whence they are deriving provisions.

NEBRASKA DEMOCRATS PICK J. H. NORTON FOR GOVERNOR

LINCOLN, Neb., July 24 (AP)—John H. Norton, of Polk, was nominated tonight by the democratic state central committee for governor on the seventh ballot. He will succeed Governor Charles W. Bryan, elected at the April primaries, who today declined the nomination to make the vice presidential race.

RAILWAY LABOR LEADERS DEFEY BOARD'S ORDER

Government Agency Meets Rebuff in Attempt to Intervene in Dispute Between Carriers and Employees.

CHICAGO, July 24 (AP)—The United States railroad labor board today heard its jurisdiction challenged in the wages and rules dispute between carriers and employees of western roads and went into executive session to determine what action it would take against approximately 90 employee chairmen who refused through counsel to answer summons and testify.

The board sought in a hearing set for today to take testimony under its functions and prepare to settle the controversy. Donald R. Richberg, counsel for employers and two officers of the brotherhoods of locomotive firemen and engineers and locomotive engineers, asserted the board had illegally attempted to assume jurisdiction and that the witnesses, while present, would not testify.

Ask Direct Conference.

The employees made another plea for direct conference with the individual carriers but it brought no immediate comment by representatives of the managers committee appointed by the railroads. Hope was expressed in some quarters that before tomorrow an understanding might be reached whereby the dispute would be reopened between the committees of the two parties. Arguments today indicated there were differences as to power and responsibility of members of both committees which possibly could be clarified for further negotiation.

FROST TOUCHES WYOMING

Mercury at 38 Above, Within Two Degrees of Lowest on Record for July at Sheridan.

SHERIDAN, Wyo., July 24 (AP)—A light frost was experienced here last night in the lower parts of the city. The temperature of 38 degrees recorded at the United States weather bureau here was within two degrees of the lowest on record here for July, according to Will L. Wyland, weather observer.

WHY, ROBERT! WE THOUGHT YOU BELIEVED IN THE DIRECT VOTE OF THE PEOPLE.

Indian Patriarch of Spring Dance Dies at 90 Years

Famous Californian Redman member of All-Day Dance of Gratitude.

HANFORD, Cal., July 24 (AP)—"Indian Bob" Baptiste, patriarch of the Tache tribe of Indians, famous for his "spring dance," died here last night. He was about 90 years of age and was born in the Sierra Nevada foothills.

For many years on the first day of March "Indian Bob" danced from sundown to sunrise, in expression of his gratitude to the "Great Spirit" for the blessings throughout the year ahead.

"Indian Bob" foretold his death at the conclusion of his all night dance on March 1 last, saying that before another year he would "go to his fathers."

LONDON PARLEY AWAITS FORMULA

Deadlock Between Herriot and Financiers Over Safe-guard for Loan Unbroken.

LONDON, July 24 (AP)—Although Premier Thomsen of Belgium and the American representatives at the inter-allied conferences are continuing to exercise to the utmost their powers of conciliation, the deadlock remains unbroken between Premier Herriot of France and the British and American financiers over the formula by which to safeguard the proposed loan to Germany.

Before the king's garden party at Buckingham palace today, conferences and informal conversations were carried on in an effort to discover a formula which, as a member of the French delegation said tonight, certainly would be found.

Another long conference between M. Thomsen and Thomas W. Lamont of the J. P. Morgan & Co. was typical of the being continued in an effort to restore the unanimity which characterized the earlier work of the conference.

An American commentator who sought to view the situation with detachment said that although there was a certain

Bloodstains, Chisel and Rope Figure in Evidence Against Frank's Slayers

Defense Offers Few Objections as Prosecutors Review in Detail Story of Crime for Which Lives of Leopold and Loeb Are Demanded; Defendants Maintain Stoicism.

CHICAGO, July 24 (AP)—Prosaic things—trousers, boots, a rectangular robe, and a junky-looking bundle of boards—were added today to the evidence with which the state seeks to obtain the death sentence for the confessed murderers of Robert Franks. Commonplace in themselves, the articles with

many others offered as people's exhibits by State's Attorney Robert E. Crowe, were viewed, by the prosecutors as tightening the web of uncontroverted detail which they expect will send Nathan Leopold, Jr., and Richard Loeb to the gallows.

The cold chisel with which young Franks was slugged, the rope with which he was bound, the acid bottle from which was poured the fluid that marred his features, and the wrecked and water-soaked typewriter on which was written the ransom letter sent to the boy's father also figured in the day's proceedings.

Bloodstains Everywhere.

On the clothing, the chair, an automobile, stains of human blood were found like robe, floor boards, and paint of the automobile, expert chemists told Judge John W. Caverly.

One pair of trousers which, it was claimed by the state, was worn by Franks, the "other pair" of trousers, a coat and the hip boots by Leopold on the night of May 21 when young Franks was slain and his body deposited in a water-filled culvert near the southern limits of the city.

Also introduced today were the specially designed, tooth-shaped appendages found near the body and described as the first tangible clue connecting Leopold with the crime.

Three Doctors Testify.

The remnants of an automobile robe, partly consumed by fire and identified by several witnesses as "resembling" one formerly used in the Leopold home, also yielded signs of human blood under the microscope, in the test tube and in biological tests, Dr. William B. McNally, Cook county's coroner's physician, testified.

Dr. John Weisner and Dr. Ralph Wolcott corroborated this testimony, the expert qualifications of all three being admitted by the defense.

Presentation of this evidence was planned for the last half of the afternoon session but it was disposed of so rapidly as the defense admitted the outstanding points and declined to

(Continued on Page 5, Col. 3)

POWER COMPANY TAKES RATE ISSUE TO COURT

Asks Review of Public Utilities Commission's Decision and Orders; Claims \$4,000,000 Under Valuation.

BOISE, July 24 (AP)—The Idaho Power company filed Thursday with the United States district court a bill of complaint, asking the court to review the valuation rate decisions and orders of the public utilities commission. The utilities commission and A. H. Conner, Idaho attorney general, are made joint defendants in the action.

The bill of three kinds is sought by the company. The charge is made that its property has been undervalued by approximately \$4,000,000. The company holds the rate of return on its investment allowed by the commission to be too low. It is further asserted that relief should be given from certain non-consumptive rates, such as those for irrigation power and heating purposes.

BRITISH AROUND WORLD AVIATOR IN KAMCHATKA

Fog Halts First Attempt and Causes One Day's Delay in Reaching Present Destination.

TOKIO, July 25 (AP)—A. Stuart MacLaren, the British aviator, and his companions, who are on a flight around the world, has reached Petropavlovsk, Kamchatka.

MacLaren attempted to fly to Kamchatka yesterday from Paramashiru, Kurile islands, but after two hours in the air was compelled owing to a dense fog to return to the Japanese island, from whence he now continues his journey.

MacLaren's plane, which is assigned to assist the British aviator, the British plane since it left Kamchatka, the Japanese naval air base, north of Tokyo, on July 12. The aviators have been compelled to fly at high altitudes and to make several forced landings.

Friday: Fair.

INVOKES AID OF WOMEN TO STIR LAGGARD VOTER

Former Kentucky Governor Appeals to Business Women in Fight Against Political Indifference.

WEST BADEN, July 24 (AP)—Likening this "motion picture age in America" to the decadent hippodrome period in Rome, former Governor Edwin P. Morrow of Kentucky, speaking at the annual banquet of the National Federation of Business and Professional Women here tonight urged women to do their part in stemming the flood of political indifference.

Oliver W. Wright of Cleveland, Ohio, first vice president of the federation, presided at the banquet which was designed to climax the gala night of the convention.

Time Fears by Founders.

Former Governor Morrow said in his speech:

"It is apparent that we are reaching a time feared by both Washington and Hamilton. Indifference and neglect of interest on the part of people will threaten, if not destroy, our orderly government. Out of 50,000,000 million voters in 1920 only 25,000,000 asserted the franchise. In 1922 the percentage was much less, only one voter out of every two apparently taking sufficient interest in government and those who serve to go to the polls and vote."

"With one-half of the electorate of the nation listless and indifferent to welfare, corruption can not be rebuked, demagoguery can not be prevented, communism can not be forestalled and folly can be expected everywhere."

The voter that does not vote should not be penalized, but should be denied any further exercise of the blood-bought privilege which he is too indifferent to assert. We will never have a government in business until business gets into government, that is, into what produces government in the long run, a healthy, intelligent and active interest in politics."

The nominating committee was submitted to the convention by Margaret Stewart of Ogden, Utah.

The committee recommended the reelection of Adella Pritchard of Portland, Ore., as president.

CITIZENS MOURN OFFICER'S DEATH

Killing of Detective S. Garbett Shocks Pocatello; Wounded Chief Recovering.

POCATELLO, July 24 (AP)—Pocatello is shocked today at the tragic death of City Detective Sam Garbett, who was shot and instantly killed late Wednesday afternoon on East Weyth street by George Rives, a West Indian.

The West Indian, who fired upon Chief of Police L. A. Lehrman and Detective Garbett, was killed by bullets fired by the chief after he himself had been shot in the face and seriously wounded.

According to Mrs. Artie Smith, Rives came to her home and after making improper proposals to her, drew a revolver and threatened to kill her if she refused his proposal. Mrs. Smith ran out of the back of the house to the sheriff's office where she reported the affair.

Chief Lehrman and Detective Garbett drove to the locality in the chief's automobile and found Rives walking east on East Weyth street. Chief Lehrman

SWEDISH PRINCE MAKES FIND IN OLD GREEK TOMB

Uncovers Heirlooms That Were Ancient in Days of Homer, in Burial Place Undisturbed for 3000 Years.

STOCKHOLM, July 24 (AP).—The discovery of 250 gold ornaments that were ancient heirlooms even in the time of Homer, the opening of a Greek tomb that had not been disturbed for more than 3000 years, and the discovery that the so-called saddle roof was not unknown in the architecture of that early day, are some of the important results, just reported here, of the Swedish archaeological expedition, headed by Crown Prince Gustaf Adolf, which is excavating the ancient city of Aegina, Greece.

The latest discovery of the Swedish expedition came somewhat as a surprise when, after having explored a tomb as big as a house and finding nothing of unusual interest, they turned to a tomb less than five feet wide. This proved to be a treasure trove, dating about 1150 B. C., in the Mycenaean, or pre-Hellenic period.

Urns Hold Glass Beads.

It contained numerous earthenware vases of rare design and decoration, eight beautiful bronze urns and other vessels, of which one was 20 inches high. One of the smaller bronze urns contained four necklaces of gold and iridescent glass beads, and curiously enough the strings were sufficiently well preserved to show the arrangement of the beads, so that the necklaces can now be restored to their exact appearance 3000 years ago. The necklaces contained 600 beads and other ornaments, of which 250 were of gold.

The great tomb near by, which contained few treasures, is nevertheless of great archaeological value, since it is built in the form of a house, and its top, hewn into the rock, is the exact shape of the familiar "saddle roof," with sloping sides and gables at both ends, thus proving that this architectural detail was known in Greece more than 1000 years B. C.

At Work for Two Years.

The Swedish expedition has been at work in the excavation of Aegina for more than two years and has already unearthed and classified more than 500,000 treasures and fragments of value, some of which date back as far as 2500 B. C. Yet the experts say that the work has only just begun, and that still more important discoveries may be expected in the near future.

All the portable finds of the crown prince's expedition are being studied in the University of Lund, Sweden, to which they have been shipped by special permission of the Greek government. As soon as the examination has been completed by archaeological experts the finds will be returned to Greece.

"Palatinate"

This term is a survival of feudal times. In the days when a man's house was actually his castle which he had to defend by force of arms, kings were not anxious to assume responsibility. Therefore they found it convenient to assign their adherents to districts, giving each the power to be master, collect taxes, and administer justice as he saw fit. The term "palatinate" was appropriately applied to such a building as it comes from the same Latin root word as "palace" and "castle." Three hundred years ago palatinates were common. Many English counties have been palatinates and this form of government was common over here. For instance, Maryland was the palatinate of the Calvert family, Maine the palatinate of Ferdinand Gorges, etc. The Bavarian palatinate is the only territory of any importance which has retained the term.

Determination

This is an age of competition. If you want anything you must go after it, not in a halfhearted way, but with a determination that will brook no interference. The one thing that you may as well understand right in the beginning is that you will get no more than you are willing to pay for, but you can have almost anything you want, when you want it bad enough.

—A. E. Stewart

Chief Figures in the Day's News.

Above: EOSEL FORD & MISS ANNE MORGAN
Below: J. G. SCHURMAN & VINCENT RICHARDS

IT IS REPORTED in New York financial circles that Edsel Ford, son of the automobile manufacturer, is to start one of the biggest banks in the world in New York City.

FOR HIS WORK on the American Committee for Devastated France, Miss Anne Morgan, daughter of the late J. Pierpont Morgan, of New York, has been made an officer in the Legion of Honor by the French government.

JACOB GOULD SCHURMAN, American minister to China, is returning to America in August, according to Peking reports, to urge that the Peking legation be raised to the rank of an embassy.

VINCENT RICHARDS, youthful Yonkers, N. Y. tennis star, won the Olympic tennis singles, defeating Henri Cochet, the French champion, three sets to five.

PUBLIC UTILITIES TO EXAMINE INTO RATES

Charge on Coal from Teton Coal Mine Appears Excessive, Says Utilities Commission; Hearing at Pocatello.

Oregon Short Line freight rates on coal from the Teton coal mine at Talbot to various points within the state will be investigated and a hearing held by the state public utilities commission at Pocatello on August 4, it has been announced in a circular letter sent out by the utilities commission.

"It appearing," says the letter, "to the commission that the rates contained in said tariff are unreasonable and excessive, and for the purpose of investigating the same, a public hearing will be held at Pocatello, August 4 at 10 o'clock in the morning at which time all parties interested are requested to appear, either in person, or by counsel, and present evidence bearing upon the reasonableness of said rates."

Among the rates quoted in the railroad company's tariff on lump coal from the Teton coal mine is that from Talbot to Twin Falls, a distance of 253 miles for which the railroad company asks \$4.10 a ton. To Idaho Falls, a distance of 90 miles the rate asked is \$2 while to Pocatello a distance of 147 miles the rate asked is \$2.50. To points around Boise, such as Nampa, Caldwell, Parma and Emmett the charge is \$4.75.

Paper That Can Be Washed.

A Japanese inventor has patented a paper that can be crumpled up and washed with soap and water. So durable is this paper that it can be used as a covering for umbrellas, and when soiled, can be easily cleaned at home. The inventor says that as wrapping paper, it could be used over and over, being washed when soiled. It is said that the product can be made at a reasonable price. It has a texture somewhat like cloth, and is not to be confused with oiled paper.

CONSTIPATION

TOURIST PARK NOTES

A. E. Allison and family came from Los Angeles via Elko, Nev., and proceeded on their way to Mandan, N. D.

E. Krusa and family from Chicago are enroute to California.

E. Koehn and family from Chicago, visited the park on the way to California.

L. E. Scott and party from Toledo, Oregon, have been to Yellowstone, and are now on the road home.

J. E. Smith and friend from Orlando, Cal., arrived from Elko, and departed for Rupert.

G. A. Tobey and family, former residents of Twin Falls, have had quite enough of California, and have come back to stay.

Mr. and Mrs. Dan Nielson are journeying from Emmett, Idaho, to Salt Lake.

George Williams and family are returning to Salt Lake from California.

George Bettner and party of Pittsburgh, Pa., came from Denver, and left for the coast.

L. W. Welch and family are returning to Long Beach, Cal., from the Yellowstone park.

Mr. and Mrs. Virgil Argo have just begun a long journey from Walla Walla, Wash., to Idaho, N. Y. where Mr. Argo has a position as instructor in Cornell University. Before assuming his duties, they will visit New York and then go to Washington, D. C. where Mr. Argo will spend some time in the Smithsonian Institute studying the entomological collection.

Mr. and Mrs. Lymann Kelly are returning to Smith Center, Kan., from California.

J. Longcraft and family of Des Moines, came from Salt Lake via Snowville and left for Los Angeles.

S. E. Sanders and family are going to Des Moines from Portland.

Pat Sullivan who hails from Butte, Mont., has been looking over the mineral region about Contact and Jarbridge and is undecided as to his future movements.

Mr. and Mrs. A. Sheppard from Chicago, are going to Boise.

Ray J. Patterson and family are enroute to Boise from Brazil, Indiana.

Mr. and Mrs. F. K. Strätman who have been touring the west are now going

SONS OF REVOLUTION ELECT KENTUCKY MAN PRESIDENT

SALT LAKE, July 24 (AP).—Marvin H. Lewis of Louisville, Ky., was elected president general of the Sons of the American Revolution at the closing session of the organization's thirty-fifth annual congress here late Wednesday. He succeeds Arthur Preston Sumner of Providence, R. I.

Boston, Mass., was chosen as the 1925 convention city, the sessions to start the third Monday in May.

home to Coon Rapids, Iowa.

Frank Gardiner and family from Leitchfield, Ky., have finished California, and are now going to Salt Lake and the coast.

Ed Sheldon and family from Minneapolis, came through the park and are going to Seattle.

E. C. Bills and family from Bancroft, Idaho, are here looking around.

H. McDonald and family are returning to Seattle from a trip to the eastward.

C. F. Erickson and family are journeying from Hiawatha, Kan., to Seattle.

M. P. Chase and family from Roseville, Cal., are traveling eastward.

G. R. Overton and family have been up in the park, and are returning to Seattle via Portland.

C. H. McDermid and family from Denver, are going to somewhere on the Pacific coast.

Mr. and Mrs. C. H. Richards from San Francisco, came from Salt Lake and left for home.

Blindness in Egypt.

The prevalence of blindness in Egypt is probably traceable to the fact that the fly is sacred in that country. It is said that a mother will not kill a fly nor even brush it from the eyelid of her child. Infection is often carried from one child to another, and in the case of diseased eyes the malady is spread in this manner.

DAMNED PETRIFFED FOREST FOUND IN CRATERS OF MOON

BOISE, July 24 (AP).—An extensive area of petrified wood, equaling in grandeur the petrified forests of Arizona, is reported by Robert W. Limbert, Boise, to lie in the Craters of the Moon country, near Arco, although not included in the national monument. Mr. Limbert, who has returned from a trip to the Craters of the Moon and a journey through some of the scenic wonders of Utah, said Wednesday that an effort will be made to have the petrified forest included in the national monument, set aside recently by order of President Coolidge. The area, according to Mr. Limbert, contains from 150, to 200 petrified trees, mostly stumps, a few trunks, and some others standing as they were when trees, ages past.

Our Wills

Our wills are queer things. They are like plaster of paris; for after they have been melted into liquid form they tend to "set." They do thus preserve the contour of that about which they have been molded. If it is a good cast, well enough; we make a cast for a permanent possession. Here it is—fixed and final! Is the leathery of a standard pattern, no matter how excellent it may have been at one time, to prevent any change and growth?—The Living Standard

An Ancient Anesthetic

In prehistoric times, Zulus and other tribes of North American Indians used a substance obtained from the Juncus weed as an anesthetic during surgical operations.

IDAHO FOREST
ROADS GET AID

Fund of \$413,000 Approved
for Roads in State by Federal Department.

OGDEN, Utah, July 24—Expenditures totaling \$413,000 of forest road funds for the construction of roads within or adjacent to the National Forests of Idaho have been approved, according to announcement from the Forest Service, United States department of agriculture.

One of the projects involves the construction of three and a half miles along the Elk City highway within the Nezperce national forest. The sum of \$75,000 has been allotted for this work. This road is expected to be especially beneficial to the mining community around Elk City as well as highly desirable for the better protection of Nezperce forest.

\$100,000 on Lolo Pass

Six miles in the Lolo Pass section of the Selway forest will be built at a cost of \$100,000. For improving nearly seven miles of highway along the North Pacific road in the Coner d'Alene forest the sum of \$45,000 has been allotted, with \$5,000 additional offered by the State. This road is a link in the Yellowstone trail.

For the extension of the Ketchum-Glacier road to the town of Ketchum, a distance of about seven miles, the sum of \$50,000 has been set aside. To complete the road from Loomis to a point six miles east the sum of \$25,000 has been allotted.

Payette Highway

The North Fork-Payette highway within the Payette national forest will be extended from Gardiner to Horseshoe Bend, a distance of about five miles, at an estimated cost of \$97,000. In the Caribou national forest an addition of five miles to the Freedom-Soda Springs road is to be made, for which \$10,000 has been allotted. The sum of \$5,000 will also be spent on this project by local authorities.

The sum of \$3,000 from federal funds and \$4,000 from local funds will be spent on the construction of 22 miles along the Victor-Travis highway within the Targhee forest.

An additional \$10,000 has been set aside for maintenance of the highways heretofore built or which are under construction.

Diet Changes Bird's Color.

Varying the diet of birds has been demonstrated by a Berlin naturalist to result in changing the color of their feathers. Certain foods will cause red and green parrots to turn yellow. The experiments tend to show that a bird's plumage depends largely on the dry-stuffs contained in food. Diet stuff put in chicken feed affects the hue of eggs. It takes to a considerable degree. Caterpillars fed exclusively on walnut foliage become dark butterflies. Indians have long understood the art of changing the color of living birds through the diet method.

PRESIDENT'S CAT MISSING BUDGET OFFICER AT WORK

White House Rules Against Second Radio Search for Animal That Prefers Other Society.

WASHINGTON, July 24 (AP)—President Coolidge's pet cat, lost again, has been lost for 47 months and has been virtually given up as lost forever.

Tige wandered off several months ago and was found only after notice that he was missing had been broadcast over the eastern half of the country by radio. The cat then was given a collar to keep as a souvenir, and Tige began again his nocturnal wanderings. Finally, he left for good.

Mr. Coolidge ruled against another radio search on the ground that Tige plainly had indicated his preference for society other than that found around the White House.

Tracing Surnames

Surnames offer a most convenient method of recalling forgotten trades. Who would guess that Thacker or Thackeray was the man who thatched the roof with straw; that Tyler was the one who tiled it, or Slater, who roofed with slate? A few other names, as Collier, the charcoal burner; Chandler, the candle maker; and Fuller, the cloth cleaner, will show how numerous were the ancient crafts. Blacksmith has no equivalent among English names, unless it be the abbreviated Smith, though in German there is Kluge-smith, the "clanging smith." But the horseshoer was a Farrier, dropped in our dictionaries but retained in the directories.

The Worst Way

Him (over phone)—"I want to see you in the worst way, dearest. Her (over phone)—"Well—I usually get up around 10 a. m."—New York Medley.

STATE LAND SALE

Notice is hereby given that the following described tracts of land belonging to the State of Idaho and situated in Twin Falls and Cassia Counties, will be offered for sale at public auction at the Court House in Twin Falls, Twin Falls County, Idaho, on Saturday, August 23, 1924, at 2 o'clock P. M., to-wit:

One-tenth (1/10) of the purchase price and first year's interest on deferred payments, cash on day of sale; balance in forty (40) annual installments at six per cent (6%) interest. All sales made subject to any valid interfering rights which may have existed prior to date of sale, except those for which allowance is made herewith. All improvements to be paid for in full on day of sale. Land sold subject to harvesting of crops on land sold. By order of the State Board of Land Commissioners.

L. H. NASB, State Land Commissioner

CAMPER CAUSE ELEVEN
FIRES IN BOISE FOREST

Forestry Office Reports Half of 22 Blazes This Season Are Man-Made; Lightning Starts Others.

BOISE, July 24 (AP)—The Boise National forest has had 22 fires this season, 11 caused by persons camping or otherwise on the forest, and 11 by lightning, according to a report issued by the forestry office. Of the man-made fires, said the report, six were caused by cigarettes, cigars or matches carelessly thrown in inflammable material, and 11 were caused by camp fires. The man-made fires, declares the report, burned over 252 acres of forest land and were extinguished at a cost of \$11,437.

"Coffish Aristocracy"

The "coffish aristocracy" is an emblem of an important activity in Massachusetts. The expression "coffish aristocracy" was first used by Senator Butler in the United States senate, July 6, 1920. Referring to New England influences in politics, he said, "We should regret it is somewhat strange if we should require a 'coffish aristocracy' to keep us in order." The term is now sometimes applied to those who make vulgar display of recently acquired wealth.

Get Busy

Get busy! Today, not tomorrow, is the accepted time. If you would be a success, be one. No one is stopping you. Your hands and feet are not tied. You need not wait till some one drives up in a 40-horse power automobile and invites you to ride with him to fame and glory. Hard work and a little common sense will do the trick. Get busy.

He Got His Hat

A young man who has lost his new hat states that unless it is returned he will forward to the wife of the person who took it the note found concealed in the lining of the old one left in its place.

"Veins of Wealth"

As Plunkett tells us: "The veins of wealth are not the veins of gold and silver in the earth, but the veins of rich, red blood in the bodies of youth."

Unsatisfaction

Babe was a melting pot, and the results were rather unsatisfactory in that case.

Theatres

ALL COMEDY SHOW AT THE IDAHO THEATRE TODAY

An uproarious mythical comedy of a trio of unmanageable kids with no one to manage them, is the theme of the picture announced by the Idaho Theatre management for today and tomorrow. It is "The Country Kid," Wesley Barry's latest picture, a Warner Brothers classic of the screen. The parts of the other two kids are played by "Boby" Bruce Guerin, four years old and a wonder, and "Spoo" O'Donnell.

The story was specially written around "Freddie" Barry by Julius J. Rosenberg; the direction is by William Beaudine.

The balance of the program consists of "The Crude Brothers," one of the famous "Our Gang" comedies, "Felix Gets Broadheaded," a Felix Cartwright and the International News Weekly.

BAD MAN ON SCREEN AFTER THREE YEARS-ON-STAGE

Holbrook Blinn, star of Edwin Carver's "The Bad Man," a First National picture at the Orpheum Theatre today, is the original "bad man" of both stage and screen.

Blinn, up to the time of the release of "The Bad Man," was the only actor who had ever played the role. This is a unique achievement in itself, because seldom is a stage actor as good in the films as he is on the stage and vice versa.

Blinn began playing the role back in 1920 when the play was first presented in New York City. For three years without cessation he played the role of "Panoche Lopez" before Broadway audiences. Then he followed this with a short tour of the country, playing in all the principal cities, returning to Chicago for a solid year. This was followed by another tour which ended in Los Angeles.

EIGHTH INNING RALLY WINS FOR KIMBERLY NINE

Inter-Church League Agrees on Schedule

A schedule officially adopted for the inter-church league baseball season which will close the last of the next month with the present four teams composing the league participating will allow each team to play once each week and will end with each team having played nine games, three with each of the other teams of the league.

Kimberly's Crow Takes Long End of 5-to-3 Score Before Crowd in Pioneer Day Game With Wendell.

KIMBERLY, July 24 (Special to The News).—Franking a 3-to-3 tie in the eighth inning with brief battling rally which brought in two runs, Kimberly took the large end of a 5-to-3 score in a hotly contested baseball game with Wendell Thursday afternoon. The game was one of the big features of the Pioneer Day celebration here.

The opposing teams were well matched, but at edge in fielding ability turned the tide in favor of the home team, which also demonstrated a better brand of base running than did the visitors.

Venemon was hit hard for the opening innings and got good field support kept Kimberly from scoring until the third inning, when Wendell fielded a weak throw, allowed four errors and three Kimberly runners crossed the plate.

In the fourth frame, with the score 3 to 0 for Kimberly, Myers started things for the visitors with a single, scoring on Hansen's triple. Hansen, too, scored when Barlogi sent out a neat double, and in an attempt to stage the hit into a three-bagger the lengthy shortstop was trapped out at third. This checked the Wendell batting rally and allowed Thompson to collect his forces and hold the runners to two runs for the inning. In the fifth Wendell sent over another score when Critchfield reached first on an error and scored on a single.

Both teams tightened up after this brief spurt and the game became a duel between "Jimmy" Thompson and Venemon, with the latter holding a slight edge.

The eighth inning all but passed with the score still tied when, with two men out, Venemon gave Stowe a pass to first and the home team took advantage when Oalborne broke the tie with a two-bagger. The grandstand applauded and the applause became an uproar when the second run was driven in, by Lowry before the locals were retired.

In the ninth Barlogi sent his batting average to .350 for the time being, and single to right field, raising the Wendell score. Showperli lined out a base drive down the third base line which was credited as a foul by Umpire King, who drew caustic comments from the northsiders by his decision, and for a time the game hung suspended until the near riot was quelled, after which Showperli went back to the plate and drew a pass to first. With two men on base Wendell was unable to score the necessary runs to tie the score.

AUTHOR OF BROWNIE STORIES TO BE BURIED AT HOME TOWN

NEW YORK, July 24 (AP)—Palmer Cox, author of the "Brownie" stories for children, who died today, will be buried at his home town, Granby, Quebec, where he was born 84 years ago, friends here learned tonight. The funeral plans have not yet been completed.

Mr. Cox was 84 years old. He illus-

SUGAR FACTORY TAKES FAST GAME AT BURLEY

Local Nine Defeats Burley to Tune of 8 to 3; Home Run by Finks Lets in Four.

Burley's baseball team suffered a severe drubbing Thursday at the hands of the Twin Falls sugar factory team in the Burley field in a game which ended with the score 12 to 8 in favor of the factory nine. Anderson of Burley, who blew up in the sixth, let the local team in for nine runs, four of which were the result of a home run made by Finks, first "sacker" for the sugar factory.

The game which until the sixth inning looked dark for Twin Falls. The game was fast throughout and the work of Jim Seilley for the sugar factory, who pitched seven innings and allowed but five hits, and Flynn, who pitched two innings and allowed but one hit, were features of the game. Butner caught for Seilley and Seilley for Flynn.

BIBLE STUDENTS INAUGURATE CAMPAIGN FOR MEMBERSHIP

COLUMBUS, July 24 (AP)—Ten thousand earnest men and women today were carrying into 60,000 homes in Columbus and for miles around the belief of the International Bible Students association that there is coming a golden age in which sin and death will be unknown and happiness will be universal.

The campaign, designed to increase membership and carry knowledge of the organization into new fields, comprised today's convention program.

TUNNEY WORSTS CARPENTIER IN CRUEL BOUT

Frenchman Sinks to Floor at Beginning of Final Round and Referee Awards Technical Knockout to American.

NEW YORK, July 24 (AP)—Gene Tunney, American light heavyweight champion, won a technical knockout over Georges Carpentier of France in the fifteenth round of a fifteen-round match in the Polo Grounds tonight.

Carpentier was unable to continue after coming up for the fifteenth round. A blow which Carpentier's handler said was low, at the termination of the fourteenth round, sent Carpentier to the mat in writhing pain, but Referee Andy Griffith refused to call the blow a foul, and ordered Carpentier to continue when the bell sounded for the fifteenth.

Carpentier Game to Last

The Frenchman came out but sank to the floor, unable to continue. The referee awarded the fight to Tunney by a technical knockout, terminating the match after 14 rounds of the last round in which not a blow was struck.

The conclusion of the match, one of the most confusing and unsatisfactory endings in local ring history, came when Carpentier, doubled up from apparent pain, attempted to renew the fight from a semi-crouched position. He groped around the ring, attempting to find Tunney. Referee Griffith, uncertain whether to allow Carpentier to continue, waved Tunney to his corner with the idea of stopping the match. Carpentier rolled to the floor of the ring, unable to stand.

The ring was a bedlam of confusion. Handlers of both fighters rushed into the ring. Francois Descombes, Carpentier's manager, with arms waving, rushed to the referee yelling "Poull Poull!" Griffen waved him away while Joe Humphries, official announcer, lifted Tunney's arm in token of victory.

Crowd Cheers Frenchman

Many of the spectators thought the blow which terminated the bout was foul and booed the decision. They thought the fight was a sham and the French idol was assisted through the ropes by his handlers and several patrolmen.

Tunney made his big bid for victory in the tenth round when Georges was floored twice, once for a count of five and again for a count of nine, but he staggered to his feet each time and with wild swinging fists rushed to Tunney and managed to hold on until his head cleared.

FITZKE TO JOIN INDIANS

SPOKANE, July 24 (AP)—Bob Fitzke, all around University of Idaho athlete, has been signed as a pitcher by the Cleveland Americans and will leave Monday to join the club at Cleveland, according to word received here today from Couer d'Alene, Idaho, where Fitzke has been playing ball this summer.

Fitzke was a all-Northwest football halfback, played center on the University's basketball team and was the school's main stay on the pitching staff. He is a right hander.

REPUBLICAN TREASURER NAMED

CHICAGO, July 24 (AP)—Colonel Bernard Eckhart of Chicago has been appointed assistant treasurer of the republican national committee, William M. Butler, chairman of the committee announced tonight.

Joe-K says:—

Some people regard life as a travesty not seeking to find the tangible and pure soul that lies beneath the surface.

SUPREME COURT ORDER FREES ARIZONA EDITOR

Carl B. MacGee, Sentenced for Contempt and Fined by Governor, Is Released on \$2500 Bond.

SANTA FE, N. M., July 24 (AP)—Carl C. MacGee, Albuquerque editor, was released on \$2500 bond by order of the state supreme court here tonight at the termination of a hearing instituted on a writ of habeas corpus. Release of the editor was for duration of the court's deliberation on the question of the governor's power of pardon in the case of "direct contempt" for which MacGee is under sentence in the Santa Fe county jail.

WHEAT PRICES HELD DOWN

Reports on Crop Conditions Cause Fluctuation Throughout Trading Session; New Gains Fail to Hold.

CHICAGO, July 24 (AP)—New high prices for wheat for the year were established in trading here today although the new gains did not hold at the close of the market which dropped to near the low point for the day. July wheat, which reached \$1.33 1-2 a bushel as high, closed at \$1.31 3-4. September wheat went to \$1.31 3-4 closed at \$1.26 3-4 and December wheat which soared to \$1.34 1-2, closed at \$1.31 3-4. Cross currents in the news kept wheat prices fluctuating most of the time.

Cause of Earthquake

The usual cause of earthquakes is dislocation of the crust of the earth along fracture lines. There is a fracture line along the coast of Japan and another along the coast of California. The crust of the earth is constantly in motion, up or down, slide or twist. Millions of years may pass before bringing a strain so severe that the strain will slip or crumble along a great fault in the earth's crust, but when that slip comes there is an earthquake. Usually it is only a fraction of an inch, or a few inches. In Yakutat, southern Siberia, a slip of forty feet was once recorded and the quake was felt all over the world.

OUR FUTURE

Evidence multiplies that this year in the Twin Falls Country is going to be the best year in nearly half a decade.

There can be no question, unless some extraordinary contingency should arise, but what prices for farm products will be higher than in a long time past, and notwithstanding a partial shortage of water on both the South and North Side tracts, there will be good, substantial crops of nearly all kinds.

The new railroad will perhaps benefit Twin Falls to a greater extent than other towns in Southern Idaho, yet the entire section will share in the advantage to some extent, and, later on when certain shipping problems are worked out, this whole country side is very apt to take on an untold new lease of life as a result of the benefits of added railroad facilities which we could not avoid if we wished to.

Twin Falls has waited long. So long that many people have refused to believe, even in the face of actual construction. A few months more will change all this. Next Spring, probably, trains will be running; they will be running to Contact this Fall. Possibly the results will fall short of the anticipations of some but certain it is that there never was a year in the history of this section which held out better promise of future progress and prosperity.

THE YOUNGSTERS' DAY

A very good start has been made on the proposition of supplying organized recreation to the youngsters of Twin Falls. Within a short time, presumably, this City will have a boys' and girls' playground, well equipped, carefully managed and calculated to supply a need which certainly has never before been met in Twin Falls.

Child work has gone beyond the experimental stage. Facts are available going to show that the child with plenty of opportunities for recreation of the right sort is a healthier child, a better behaved child and a more successful student, on the whole, than the other child. The same is true as to boy scout work. The lessons taught, the discipline insisted upon, the love of nature and the outdoors inculcated into the child, all make for a sounder sort of childhood, and a cleaner.

The great question as to whether the lessons stick through later years is perhaps yet to be answered. Whether or not the formative years as to character are those of late childhood and early adolescence or whether they are actually the baby years is yet unsolved, and it is altogether likely that there are no definite rules on the subject.

It is a mistake to suppose that all these things in any manner take the place of the home life and home training to which every child has a right, but as supplementary to this they must be good and, in general, why, the whole child, more, so to speak, should have the endorsement and the support of all.

THE DEMOCRATIC CAR

Lord Sumner of England, while approving the safety razor and artificial silk as two of the greatest of modern inventions, because they have revealed respectively men's faces and women's ankles, is not so enthusiastic about the motor car.

"I doubt," he says, "whether any other invention has done more to sow water and ripen a feeling of jealousy between classes."

Breakfast Food
"Matrimonially Speaking"

By Hugh McKay.

My Wife Goes to "Special Sales." She brings home something we really need from about every tenth one. But she always buys something at the other nine, too.

No anybody who's gotten as far as subtraction in arithmetic could figure out just how much money she saves by following these bargain opportunities. We may have all the tables and chairs and beds and things else that we can use, but off she goes to the first big furniture sale she hears about.

And she never fails to bring home "such a cute chair" that she got for "only nine dollars—reduced from fifteen."

It's very nice, but the only place we can possibly put it is in the cellar or on the roof.

White goods sales and dress sales and household sales may save some people a lot of money, but they certainly do hit our family hard!

Tomorrow My Husband Can't Do Anything Without a Full Set of Directions.

where in Europe, but certainly it is not so in America. What class owns most of the motor cars in this country? The question answers itself, when you recall that most of our cars are of a certain humble breed made in Detroit by the wealthiest man in America.

The automobile may be aristocratic abroad, but here it is undeniably democratic. A fiver will provide individual and family transportation, of a convenient and flexible sort, about as well as a Rolls-Royce, even though not so comfortably. The average family out for an airing in a little car seems to feel itself just about as important as the average family in a big car. All of which is as it should be.

Transportation is implied in the fundamental American rights of "life, liberty and the pursuit of happiness," and the automobile industry is helping mightily to fulfill the spirit of the Declaration of Independence and the glorious Constitution.

Europe's First Tea
 Tea was first taken to Europe in the early part of the Seventeenth century.

ALIAB SUMMONS.

In the district court of the Eleventh judicial district of the state of Idaho, in and for Twin Falls county.

The Scottish American Mortgage company, limited, a corporation, Plaintiff,

vs.

Charles C. Miles and Zadio E. Miles, his wife; Frank Nelson, A. D. Smith and the Twin Falls Bank and Trust company, a corporation, Defendants.

The state of Idaho sends greetings to Charles C. Miles and Zadio E. Miles, his wife, and Frank Nelson, the above named defendants.

You are hereby notified that a complaint has been filed against you in the district court of the Eleventh judicial district of the state of Idaho, in and for Twin Falls county, by the above named plaintiff, and you are hereby directed to appear and answer said complaint within 20 days of the service of this summons if served with said judicial district, or within 40 days if served elsewhere, and you are further notified that unless you so appear and answer, the court will take the time herein specified, that plaintiff will take judgment against you as prayed in said complaint.

Said action is brought for the purpose of foreclosing these two certain mortgages given by Charles C. Miles and Zadio E. Miles, his wife, mortgage company, limited, a corporation, mortgage, dated December 12, 1918, and November 16, 1920, and recorded respectively in books 64 and 61 of mortgages of pages 325 and 630, in the office of the recorder of Twin Falls county, state of Idaho, and covering the following described land situate in Twin Falls county, Idaho, to-wit:

The west half of the southwest quarter, and the southeast quarter of section one (1), township ten (10) south, range sixteen, (16) E. B. M.

Witness my hand and the seal of said district court this 19th day of July, 1924.

C. C. SUGGINS, Clerk.

C. A. Bailey, attorney for plaintiff, residing at Twin Falls, Idaho.

THE HUMAN ZOO

(Reg. U. S. Patent Office)

DUMDORIA SAYS:
 Lawyer: "He's my client. He's suing for damages."
 Dumdoria: "But hasn't he enough damages already?"

he would have a fine, wicked morning catching birds.

"Meow, meow, meow, this will be fun. I shall catch them soon now."

But he could not catch a single bird. No, not a single one could he catch.

He tried and he tried and he tried. "Meow, meow, meow," he said. "I am out of practice. I must have more experience with my kind of this kind and then I will get into practice."

Again and again he tried but not a bird could he catch.

"Meow, meow, meow," he complained. He was becoming quite angry now.

No longer did he feel peaceful and happy as he had when first he had come out this morning.

His green eyes looked angry now. He was angry with himself and yet it was no one's fault except his own.

Well, sometimes they always gave him so much food. They always watched out for the birds.

They always drove him away when he was looking at the birds.

They always made him wear a cap with many little bells upon it and it was so hard not to move those little bells.

But it was his own fault for having eaten so much of the food they gave him.

He had grown too fat to catch birds. He was too big and fat for wicked fun such as he had planned to have.

"Meow, meow, meow, this is dreadful," he said.

Before long the family were awake and found him watching the birds.

"Oh, n-a-u-b-y cat," they said.

"Come and eat your breakfast."

"They gave him his breakfast then and it was so good he could not help but eat it."

"I should go without eating for awhile," he said. "But not yet, not yet."

"Soon I will give up eating for a little so I will be a good bird catcher once more."

But food ready for him was very pleasant. And he purred happily.

THE MARKETS

PROFIT TAKING SELLING
RETARDS WHEAT PRICE

Canadian Crop News Continues Unfavorable but Buying Power Proves Insufficient to Absorb All Offerings

CHICAGO, July 24 (AP)—Although wheat prices today reached new high price records for the season, heavy profit-taking sales made the market advance lower most of the time. The advance of prices today led many traders to look for reaction, especially as black market reports from Canada indicated that the amount of damage which might be done by rust would depend upon weather developments. The close was unsettled at 1/2 to 1 1/2 to decline, September \$1.28 1/2, to \$1.28 1/2, and December \$1.31 1/2 to \$1.31 1/2, with corn 1c to 1 1/2c off, oats 1/4 to 1/2c to 1/2c down and provisions showing 5c to 2 1/2c decline.

Attention of wheat traders continued to focus chiefly on Canadian crop news, and some of the experts were more emphatic in the bullish character of their advice, despite assertions from other authorities that by contrast were called bearish. The top prices of the day here were reached about midday on a wave of buying that was associated with a sharp advance at Winnipeg. Increased selling here, however, resulted from the bulge and, as was the case on numerous quick upturns earlier, the market again gave way. At no time, however, were prices as much as 2 cents under yesterday's finish.

One of the largest traders in the wheat market contended that the reaction in the Canadian crop this year as compared with last year, equals the entire exportable surplus of Argentina and Australia combined. He also maintained that it equals the total crop of Kansas, Oklahoma and Texas combined. In the face of this sort, however, buying power today proved insufficient to absorb the offerings fully, and the market finished near to the day's low point.

Corn and oats were governed by the action of wheat and by weather favorable for the new crop.

Provisions came down, sympathizing with grain and hogs.

Wheat	Open	High	Low	Close
July	132	133 1/2	130 1/2	131
Sept.	128 1/2	131 1/2	128 1/2	128 1/2

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and are intended to cover only the average of prices. Where certain dealers for short periods offer more than the quoted price no effort is made to include such quotations. Quotations are offered merely as a guide to producers and should not be accepted as reflecting extremes of either high or low prices.

Sugar took a rise of 10 cents a hundred on the wholesale market Thursday. Top hogs are bringing \$7.50, the price offered by the local buyers.

Bran and stock feed each advanced a nickel on the local market Thursday. "Peanut" from every orchard are finding a ready sale at the stores at 10 cents a pound.

Roasting ears are more plentiful and much better quality, and the prices are from 15 to 25 cents a dozen.

Green peaches, shipped in, are on the market and are priced at 50 cents a pound.

RETAIL MARKETS

Paid to Producers

The Twin Falls markets yesterday were as follows:

Fowl.	
Heavy hens	13
Light hens	10
Broilers (Leghorns)	13
Broilers (colored)	16
Dairy.	
Butterfat, creamery	35
Butterfat, station	37
Cowery butter	20
Eggs (shippers)	20
Eggs (local store)	22
Wheat and Mill Feed.	
Wheat	\$1.0
Bran, cwt.	\$1.4
Bran, 500-lb. lots	\$1.4
Stock feed	\$1.5
Stock food, 500-lb. lots	\$1.5
Sugar, Wholesale.	
Cane	\$8.5
Beet	\$9.0
