TWO HELD FOR KILLING THREE ON BOISE ROAD

Charges of Manslaughter Filed Against Nampa Men as Result of Auto Accident Sunday; Hearing Today.

NAMPA, Sept. 2 (AP)—Complaint charging Carl Moultrie and Roy Tolliver of Nampa, with manslaughter in connection with the auto accident Sunday on the Caldwell boulevard, which resulted fatally for Mrs. Wiley Payne, Mrs. Ed Slomper and William Demastera, was filed late this afternoon at Caldwell, Edward Slomper, husband of one of the dead women, signed the document as complaining witness. The men will be arraigned Wednesday before D. D. Harger, justice of the peace.

The complaint charges the men while operating a motor vehicle on the designated highway, did, when overtaken by the car driven by Mr. Slomper, turn to the left and drive past the left corner of the highway and crowd the Slomper car off the road into the gutter on the left side, causing the Slomper automobile to turn over, mortally injuring three of the occupants. The deaths of the three persons, the complaint concludes, was caused by Moultrie and Tolliver "unlawfully and without malice." No degree is charged in the complaint.

ORGANIZED EFFORT IS FARMERS' HOPE DECLARES OFFICIAL

BERKELEY, Cal., Sept. 2 (AP)—The hope of the farmers lies in co-operative marketing, and the hope of the co-operative marketing groups lies in the farm bureau, it was stated here today, by M. S. Winder, an official of the state farm bureau of Utah in an address before representatives of farming interests from 12 western states.

The first major step was to establish a co-operative marketing organization working under the direction of the farm bureau, Winder said. The plan was as successful that it is being adopted for the marketing of agricultural products in Idaho, and is to be utilized for the disposition of Utah's present dairy output, valued at \$10,000,000.

"The farmers face the necessity of working hard for an orderly and economical way of disposing of their crops," the speaker said.

Coroner's Inquest in Herrin Killing to Be Held Today

Klan and Anti-Klan Factions to Face Each Other in City Hall Over Slayings; to Enforce Law.

HERRIN, Ill., Sept. 2 (AP)—Williamson county tonight is guarding against a possible resumption of hostilities. Tomorrow morning the sworn enemies, the Ku Klux Klanmen and anti-Klanmen—will face each other in the Herrin city hall.

The occasion will be the coroner's inquest of the shooting affray here Saturday noon in which six men were killed and several wounded.

Sheriff George Gilligan said that he and his witnesses would be on hand from Marion, headquarters of the sheriff and anti-Klanmen.

"We will come armed with machine guns if necessary," he said, "and after the inquest we will go to the Smith garage and get the automobile we went after Saturday," he added. State's Attorney Dolos Duty said he would not be present.

"If the coroner's verdict is adverse to the Klanmen they would say I lent my official position to influence the jurors," Mr. Duty said. "For that reason I think it best that I stay away."

Express Doubts.

Members of both factions as well as townspeople, who declare themselves neutral, are frankly expressing doubt as to the peaceful conclusions of tomorrow's proceedings. Both sides are armed and both express the fear "the other side is out gunning for us."

Klanmen are frankly skeptical. "You can't tell about a jury. If it doesn't look fair and impartial to us we won't take our witnesses before it," one of the leaders said. "Instead we will wait for action by the grand jury."

The anti-Klanmen are not friendly. They also talk of "frame ups" and "jacked jury boxes."

A grizzled old miner at the city hall this morning said: "Boys it should be right interesting."

NATIONS MOVE NAVAL FORCES TO SHANGHAI AS WAR THREATENS

Impending Clash Between Two Chinese Provinces Causes Four Great Powers to Take Precautionary Steps.

TOKIO, Sept. 2 (AP)—Official dispatches received by the Japanese foreign office say that civil war has actually begun in China. The navy department announced today that the cruiser Tatsuta has left the Sasebo naval base for Shanghai with 150 marines.

The cruiser due at Shanghai at 5 p. m. Thursday will report to Rear Admiral Nomura, commander of the Japanese Yangtze squadron.

Sporadic Firing.

SHANGHAI, Sept. 2 (AP)—Sporadic firing was heard, but no actual engagement seen by a messenger who reached Shanghai today from Quing.

Traveling through the country where the forces of the rival Tchang General Lo Hsiang-shang of Chekiang, and General Chi Shieh-Yuan of Kiang, are facing each other, the messengers many well-armed soldiers equipped with new guns and many field pieces. Large bodies of northern troops were moving towards Shanghai, and the belief exists that extensive fighting is probable today.

WASHINGTON, Sept. 2 (AP)—Naval forces of the United States, Japan, Great Britain and France kept for patrol work in Asiatic waters are being assembled at Shanghai, China.

Some already are there and others are en route, but not moving as neutral ships, but prepared to act swiftly in the event they are called upon to protect their respective nationals, commercial and trade interests, now menaced by danger of hostilities between rival forces.

The diplomatic agents of the four governments already have advised the Peking foreign office "that the idea of a naval battle in the greatest harbor on the east was unthinkable and could not be tolerated," pointing out that the Shanghai waters constituted vital interests in which the ships of every nation floated and that the present status of affairs presents a situation that cannot be regarded with equanimity by them.

Admiral Thomas Washington, commander in chief of the Asiatic squadron, and Edward Bell, charge of the legation in Peking, both reported today to the Washington government on the situation at Shanghai.

Nine Destroyers. Admiral Washington said nine destroyers, the Borie, Smith, Thompson, Tracy, Hubert, J. D. Evans, Preble, Pruitt, Fenimore and Whipple, had been dispatched from the summer base at Chesapeake to Shanghai and in addition the gunboat Eschscholtz, flagship of the river patrol, had been ordered from Kinkiang to Shanghai.

Selection, however, was contained in these dispatches as to what ships the other three powers now have at Shanghai or have ordered there. It is known, however, that the Peking diplomats, representing the four great powers, are acting in unison in the Shanghai matter and that they will be or are represented there now by vessels of their respective naval forces, selected

GENEVA, Sept. 2 (AP)—Republican Geneva, accustomed to greatness within its borders rarely gets excited over a distinguished visitor, but tonight laid aside its reserve and gave to Premier Herriot of France one of the most enthusiastic greetings in its history. The crowds which had waited for hours greeted the premier with cries of "Vive Herriot!"

Hundreds rushed forward in an attempt to grasp his hand, and then, inaugurating a serenade, sought instantly, though vainly to have M. Herriot come to the hotel balcony and make a speech.

Pact Ratified.

But there was another development of great importance which possessed peculiar American interest. This was the ratification of a pact for disarmament and security by a committee of its American authorities who are now in Geneva and presentation of a new text to M. Herriot. Professor James T. Shotwell and David Hunter Miller, at the invitation of Premier Herriot went to Lyons and spent two hours explaining the new American draft which is attracting attention in all the leading directions.

PLANS MADE TO ENTICE SPENDER INTO GERMANY

American Tourists With Lots of Money Sought by European Nations; Take Steps to Attract Them.

BERLIN, Sept. 2 (AP)—American tourists are coming to Germany again in sufficient numbers to arouse the hope that possibly by fall this business will again assume proportions something like normal.

But where the tourists spent weeks or months in Germany a year ago during the inflation period of the paper mark, they now remain a comparatively short time because of the high prices. Since the introduction of the Renten mark last November the cost of living has risen two or three fold what it was when the printing presses had much difficulty in keeping up with the demand for paper currency.

Government officials and representatives of the hotel keepers' association have been working for months upon a plan designed to reduce the cost of travel and living in Germany for tourists, but as yet no definite conclusions have been reached.

Tourist agencies which were operating night-seeing cars from Strasbourg to Cologne by way of Mayence and through Culmburg, Bonn and other historic points along the Rhine, have abandoned the service because of the high prices for meals and rooms in the small hotels, and the refusal of travelers to meet the increased rates.

LIFE IN ITALY HOLDS PROMISE

Italians More Joyful Now Than They Were Before the War; Eat a Lot.

ROME, Sept. 2 (AP)—Italy eats more, drinks more and smokes three or four times as much as before the war. In the old days each Italian disposed of an average of 30 pounds of fresh meat a year and eight of preserved meat; now the consumption is 46 and 40 respectively. The use of sugar has risen from 11 to 17 pounds a year per capita, while the consumption of coffee has nearly doubled. Where the average Italian drank 40 liters of wine a year, he now consumes 500.

There has been a heavy increase in the consumption of tobacco, as the average Italian used to spend nine lire every year up his smoke and now spends 60.

More Transportation.

Perhaps the greatest increase of all is the means of transport. Before the war the bicycles in Italy numbered 1,200,000; now the country contains 2,300,000; motorcycles numbered 17,000; now there are 38,000 automobiles; there were 10,000 and now they number 54,000; public automobiles which were 1500 are now 7000; there were only 100 motor launches and now there are 1000.

There is no doubt that whatever Italy has suffered through the war, the standard of living of her people has gone up refreshingly.

French Deserters Start Returning Under Amnesty Act

Law Passed by Chamber of Deputies Brings to Light Deserters Who Were Thought Killed in Action.

PARIS, Sept. 2 (AP)—The amnesty bill just passed by the chamber of deputies is expected in some quarters to result in a general resumption of French soldiers who had passed into history as "killed on the field of battle."

Already, though the senate has still to pass on the measure, deserters are crossing the frontier and breathing the air of France for the first time in six years or more. One of them, a soldier named Robin, given up for dead after the battle of the Chemin des Dunes in April, 1917, started his brother, who keeps a wine shop in Paris, by suddenly appearing before him the other day.

Deserters Home.

"You don't know me," remarked the deserter, who had grown a beard during his exile.

"No, I don't know you," was the reply.

"I am your brother," replied the deserter.

"My brother was killed at the Chemin des Dunes," was the rejoinder.

"No," insisted the deserter, "there were not so many butchered as was supposed. A lot of them deserted to the enemy and I was among them. Now that the chamber has passed the amnesty law I have come back and I need money to start me off."

Urged to Leave.

The brother agreed to give him funds on condition that he never show his face in the neighborhood again.

This deserter walked away with the money to celebrate his return at a public ball in the Boulevard de Grenelle. There he picked a quarrel and within half an hour was carried out with a fatal stab in the abdomen.

DAWES PLAN TO WORK WONDERS

Secretary of Treasury Says Pre-War Prosperity in Sight for Europeans.

NEW YORK, Sept. 2 (AP)—Pre-war prosperity will return to Europe now that the Dawes plan is in effect, Secretary of the Treasury Mellon predicted today upon his arrival from abroad aboard the White Star liner Majestic.

Mr. Mellon's statement concerning his experience abroad were brief, however. Reaching quarantine seven hours overdue because of fog, presaging the onset of a hurricane traveling up coast, brought the Majestic to a standstill offshore, the secretary of the treasury was met by a score of government officials and hurried to the Battery aboard a revenue cutter.

Mr. Mellon's party included his brother's family, Mr. and Mrs. Richard B. Mellon, and their daughter Sarah, and R. K. Mellon, the secretary's nephew. His daughter Aileen remained aboard. Mr. Mellon entrained for Washington immediately upon landing, saying he was "anxious to get back to business."

He declined to discuss whether his presence with that of Secretary of State Hughes in England and France at the critical periods of Dawes plan

COOLIDGE SURE OF IDAHO VOTE CHAIRMAN SAYS

Inform President He Can Count on California, Oregon, Utah, Colorado, Iowa, Nebraska and Kansas.

WASHINGTON, Sept. 2 (AP)—An encouraging report on the political outlook was presented to President Coolidge today by William M. Butler, chairman of the republican national committee and after a long conference between them it was said that Mr. Coolidge would participate in the campaign as he has to date, making occasional speeches.

The president told friends he expected to speak from time to time but he also was represented as believing that the duties of his office required his presence in Washington throughout the campaign.

Optimistic.

Optimism at the White House over Mr. Butler's report was bolstered up by messages from Senator Watson of Indiana and Representative Parnell of Indiana. Mr. Watson, who has been speaking throughout the west, told the president his election was assured but that a stiff fight would be necessary to retain the republican majority in the senate. Mr. Parnell declared Coolidge and Dawes would sweep Indiana "overwhelmingly."

Mr. Butler also mentioned California, Oregon, Utah, Idaho, Colorado, Nebraska, Iowa, and Kansas as among the states which were counted upon for republican majorities in November.

negotiations had any official significance. "He was certainly an unofficial visitor in Europe," he said, and went there primarily for recreation.

These decided to call into life a civil servants' international, with a teachers' sub-section.

The date for the first international congress, at which the organization is to be definitely launched, has been fixed for October 27, and the convention city will be Paris. It is expected that British and Belgian organizations also will be represented. Some 7000 French, 5000 Austrian and 7000 German organized teachers have already declared their readiness to affiliate.

DEADLOCK OVER ELECTION CASE OF SPECULATION

Dopesters Attempting to Figure Out Chances of Three Presidential Candidates in Electoral College.

WASHINGTON, Sept. 2 (AP)—As always happens when more than two outstanding presidential nominees are in the running, political dopesters again are figuring over the possibilities of a deadlock in the electoral college this year and speculating whether in that event the house or the senate finally would decide who should become president.

There are many ifs and ands in these calculations and the dopesters themselves are not forgetful of the fact that only twice in the country's history—in 1800 and 1824—was the college of electors unable to make a choice. And on those occasions the issues were settled in the house without difficulty.

Nevertheless, the figuring goes on. Coolidge, Davis and La Follette, warming up for their three-cornered campaign, and some of the prognosticators even advance the theory that all three may fall of election. That point is in the complicated scene of the election is arrived at in this fashion:

Should no presidential nominee receive a clear majority of the 531 votes in the electoral college the house would be called upon to select a president from the three candidates receiving the highest number of votes in the college, and the senate would be directed to choose a vice president from the two highest vice presidential candidates. Should a deadlock then develop in the house, the vice president-elect by the senate would become president.

ISSUES WARNING ON FRUIT JUICE USES IN HOME

General Counsel for Anti-Saloon League Says Care Must Be Taken at This Time That Drinks Are Non-Alcoholic.

WASHINGTON, Sept. 2 (AP)—A warning against using the current fruit crop to make intoxicating beverages in the home has been issued by Wayne B. Wheeler, general counsel of the Anti-Saloon league. The case pending against Representative John Phillip Hill of Maryland, for alleged manufacture of illegal fruit juices in home is cited. Mr. Wheeler set forth his views on fruit juices to correct possible misinterpretation of his recent statements on the subject before the house judiciary committee, when the 2.75 per cent for bills were being filed.

"The fruit crop now coming on the market may be used in making non-intoxicating fruit juices for exclusive home use," Mr. Wheeler explained. "If the juices become intoxicating in fact, then they are forbidden for home use by the constitution and the Volstead act, which exempts only non-intoxicating fruit juices and cider for exclusive home use."

"Congressman Hill tested this law when he made fruit juices containing as high as 10 per cent of alcohol last year, claiming that the law permitted this. The government challenged his right to make fruit juice that was in fact intoxicating wine. A temporary injunction issued by United States District Judge Soper prevents Mr. Hill from further violations of the law."

Best of All Patients

A doctor who had taken up as his specialty the treatment of skin diseases, was asked by a friend how he happened to select that branch of medicine. LANG'S VISIT CAUSES GRIEF

Citizens of Oberammergau Divided Into Factions on American Trip.

OBERRAMMERGAU, Bavaria, Sept. 2 (AP)—Oberammergau is not the peaceful village that it was before Anton Lang and his wood-carving companions went to America early this year. Local opponents of the trip to the United States have gained reinforcements since the return of the Lang party some weeks ago and the town has divided into bitter Lang and anti-Lang groups. The anti-Lang towns assert that the American visit of the Oberammergau players was an attempt to commercialize the Passion Play, that the trip was a financial failure and they have threatened to sabotage the next production of the performance scheduled for 1925.

Anton Lang himself has held aloof from his critics thus far and refuses to answer them, contending that the charges are unfounded and avers that the Passion Play will not suffer from criticism or jealousies of individuals.

PICKWICK EDITION IS SOLD FOR HIGH PRICE

LONDON, Sept. 2 (AP)—The record price of \$7000, over paid at an auction recently for the first issue of the first edition of "Pickwick," in the original numbers and wrappers, brought out in 1827-28. There was keen competition from American collectors, but the copy was secured by a Londoner.

After long bidding against American buyers, another Englishman secured a first edition copy of "Grays Elegy," printed in 1751, for \$7750. The copy contains six pages and was considered by the original collector to be incomparable.

Rain Like Soot

On Sunday, November 9, 1819, a dense black cloud descended on Montreal, according to Doctor Atterton's history. The cloud deposited a substance that looked and tasted like soot. On the following Tuesday, after a dark morning of gloom, with the sun clouds at times greenish black, pitch black, dingy orange and blood red, so that some thought Montreal was going to be another Pompeii, and that Mount Royal would erupt. At three in the afternoon rain fell again.

After long bidding against American buyers, another Englishman secured a first edition copy of "Grays Elegy," printed in 1751, for \$7750. The copy contains six pages and was considered by the original collector to be incomparable.

His Dreams Come True

Julius Verne, when a boy, wrote a novel, a story by Edgar Allan Poe may have inspired his first romance, "Five Weeks in a Balloon," and an advertisement of Cook's tours perhaps gave him the idea for "Around the World in Eighty Days." Verne was a Breton and a Breton is naturally a dreamer. He spent his summers cruising in his boat, the St. Michael, with two sail orators as companions. Something would give him an idea for a story and he would work hard to get it out correct in every detail. Early in his career he contracted to furnish two books yearly and did it. Will anybody ever realize his dream of a voyage to the moon, as it made real his submarine.

Her Need Fulfilled

Betty had come from a small town to the city school and not a child spoke to her the whole day. Just before leaving for home she stood alone weeping as she saw little girls go off talking to each other. She felt the hot tears coming and she started to run, when—bump! she went right against another child. Betty got up and found that it was the girl who had bumped her. The other little girl picked her up and put her arm around her and spoke comfortingly to her when suddenly Betty smiled through her sob and said, "O, say, we've acquainted now, haven't we? I need a friend."

When The Circus Comes To Town

Here's glad news!

A bevy of beautiful girls from sun-kissed California are coming to Twin Falls Thursday, September 4, with the Al G. Barnes wild animal circus.

They will form a part of the gigantic and most sensational circus pageant and fantastic extravaganza of the age, "Peachthaus at the Court of Queen Anne," the opening spectacle of the circus performance, and every one possesses a wonderfully trained singing

voice.

These pretty beach flappers, many of whom have taken parts in some of the latest motion picture productions of this season, try the "light fantastic" in a truly captivating manner, the result of extensive training and long experience in some of the best dancing schools in Los Angeles.

The great act will also include three tribes of American Indians, Washoes, Comanches and Apaches.

And last—but not least, there will be the greatest movie star of them all—Joe Martin, himself.

The management of the Al G. Barnes circus, which exhibits here on Thursday, Sept. 4, authorizes the statement that no street parade will be given this year, according to the fact that so much time is necessary for the preparation of the presentation of the spectacle "Peachthaus at the Court of Queen Anne."

NET TIGHTENS AROUND MCCOY

Chain of Evidence Against Boxer for Murdering Woman Being Forged.

LOS ANGELES, Sept. 2 (AP)—The chain of evidence against Kid McCoy, former prize ring idol, charged with the murder of Theresa Mors, divorced wife of Albert A. Mors, wealthy antique dealer, was tightened late today in the opinion of district attorney's operatives by a formal statement from Mrs. Mary Moore, maid at the Mors home at the time of the killing.

In her statement the maid declared that McCoy had visited the Mors home late during the night of August 12, before Mrs. Mors body was discovered in the apartment she and McCoy had been occupying in another part of the city.

Apparent Nervous.

She stated that McCoy was disheveled and nervous at the time of the call and that he asked for Mors. Not satisfied with her answer that Mors was not home, she said, McCoy brushed past her into the apartment and searched the bedroom.

McCoy appeared in court today and pleaded not guilty to one charge of murder, three of assault with intent to commit murder and four of robbery. The murder trial was set for October 20.

For Calypso of Long Ago.

There is a little dweller of our northern pent house called calypso, from the Calypso of old who fell in love with Ulysses and detained him for seven years on her island, dying of a broken heart when he left. Calypso is a solitary little flower, says Nature Magazine of Washington, that blooms from the top of a jointed scap that grows to a height of five or six inches from the bulb. It can boast of but one nearly round leaf near its base. The solitary purple blossom bears a slight resemblance to the lady's slipper.

REFORMERS PESTER FIRPO ON CHARGES, SAYS TEX RICKARD

NEW YORK, Sept. 2 (AP)—Louis Angel Firpo, Argentine heavyweight, left Saratoga Springs for New York tonight to finish his training for his match with Harry Wills, scheduled for Boyle's Thirty Acres in Jersey City, on September 11, at Madison Square Garden. The Argentine is abandoning his Saratoga Springs camp like the direction of Tex Rickard, promoter, who ordered him to New York to finish his training.

"The reformers have been pestering him unmercifully during the past week, concerning deportation charges which are hanging over his head and his state of mind is such that he can not concentrate on his training. I have ordered him to come to New York to finish his work, so that I can have him hear with me and speed up and squelch, if possible, the absurd charges that are hanging over him," said Rickard tonight in discussing the case.

Rickard added that he did not believe the legal tangle in which Firpo finds himself will cause any change in the match with Harry Wills.

KLAN DENOUNCED BY CONVENTION

Texas Democratic Convention Stands With National Nominee; Mrs. Ferguson Named.

AUSTIN, Texas, Sept. 2 (AP)—Proclaiming no quarter for the Ku Klux Klan, framing a platform which declared the Klan a menace to the state's strict economy in government and asserting complete recognition to Mrs. Ferguson as the democratic nominee for governor, the state convention went through vociferous sessions here today with the Ferguson element in absolute and unshakable control. An eight-fell-on the capital the meeting was still continuing with the permanent organization effected only a short time before by the election of Joseph Weldon Bailey, former United States senator, as chairman, and Senator Joe Burckett of Eastland, as secretary.

The day was marked with bitter denunciation of the Klan and its methods, with heated oratory, climaxed by a masterful appeal of Senator Bailey for peace and marked by warm acclamation for Mrs. Ferguson and her husband, James E. Ferguson, who with their daughters, sat on the speakers' platform throughout the day.

Wild Flowers to Europe.

Wall-holders among the long-grasses of our fresh-water marshes and low, wet meadows dwell a modest little orchid, the rose pogonia. A delicate rose pink and with a faint but delightful perfume. It is one of the daintiest of all our native orchids, says Nature Magazine of Washington. It blooms in late June and throughout July. Somewhat similar in form, although a resident of more northern latitudes, is the arethusa. Its long slender stem bears but one pink flower, with a delicate violet-like odor. So many of these plants have, in late years, been gathered for exportation to European hotbeds that many a northern bog knows them to more.

TIP PREVENTS TRAIN HOLDUP

Bandits Foiled in Attempted Robbery of Limited; Two Are Wounded.

CHICAGO, Sept. 2 (AP)—A tip to Chicago, Rock Island & Pacific railroad officials tonight prevented a holdup of the Golden State Limited at Meade, Kans. Deputy sheriffs boarded the train at Fowler, a few miles east of Meade, and fought off three masked men who boarded the train at the latter stop.

In the shooting that followed two of the dupes were wounded, one of the bandits was captured and the others escaped into the darkness. Employees aboard the train believed that other bandits were lying in wait alongside the track as an automobile sped away from the scene as the shooting started.

Information regarding the attempted robbery was received at the telegraph office of the general headquarters of the Rock Island lines here. The Golden State Limited left Chicago at 6:30 p. m. Monday.

Battle With Fort.

Mr. Bell, representing the other diplomatic officers held in Peking with Dr. Koo, the foreign minister, declared that while it was their desire to remain strictly neutral and not to interfere with Chinese internal wars, the diplomats had made it clear to the Chinese minister that a battle between the forts at Woosung and the Nanking navy, such as was threatened, would endanger the ships of all nations crowded in Shanghai waters and would not be tolerated.

The situation now developing at Shanghai is attributed by officials here familiar with conditions in China to an intense rivalry which has existed for a year or more between Generals Chi Hsiang-Yuan and Lu Yung-Hsiang, military governors, respectively of Kiangsu and Chekiang, adjoining provinces. A conflict between them it is feared would tend to throw other provincial forces into the struggle and, it is said, might result possibly in general warfare in China.

Question at Issue.

The question at issue between the two provincial leaders is said to resolve itself practically into a contest between them for military control of Shanghai. That city is located in Kiangsu province over which General Chi holds military control as governor. General Ho Feng-Lin, defense commissioner of Shanghai, however, is related to General Lu, governor of Chekiang. It is, for control of this office, officials here understand, that the two governors are now threatening conflict.

CRABTREE AND PERRINE WIN FOR TRUSTEES

Nearly 1000 Persons Cast Ballots Setting New Record for School Elections Held in Twin Falls.

VOTE ON SCHOOL TRUSTEES.

Lincoln Bickel Total	
S. D. Perrine	377 448 825
E. K. Crabtree	280 372 652
Mrs. I. E. Joslyn	117 123 240
Jos. Fitzgerald	120 112 232

S. D. Perrine and E. K. Crabtree were elected members of Twin Falls Independent school district board of trustees with wide margins over James Fitzgerald and Mrs. I. E. Joslyn. The election was held Tuesday afternoon at the Lincoln school building and was participated in by nearly 1000 voters casting one of the largest votes ever recorded at a school election here. The newly elected members will take their oaths at the next regular meeting of the board on week hence. Each was elected for term of three years.

Mr. Perrine, who received a total of 825 out of 991 votes cast, has served as a member of the board for about three months. He was appointed to fill a vacancy caused by resignation of E. K. Crabtree. Mr. Crabtree, retired miller and farmer, will succeed James Fitzgerald who has served for three years as a member of the board, two years as treasurer. Mrs. Joslyn is a former member of the Twin Falls high school faculty and was last year chairman of the high school Parent-Teacher association.

Strong Contest Develops.

Yelling in the hall Tuesday took place between the hours of 7 p. m. and 8 p. m. in the Lincoln and Bickel schools. Four hundred and fifty voters cast their ballots at the Lincoln school and 544 at the Bickel school.

With nominations of four candidates filed when the period for filing nominations for school trustees closed last Wednesday, there was no evidence of a concerted effort in behalf of any of the candidates until the day of election when workers appeared at polling places distributing cards soliciting votes for Perrine and Crabtree. Perrine also held the support of persons who desired the return of both retiring members of the board, as an endorsement of the board's record in curtailing expenses and reducing indebtedness of the district during the past three years.

ROUNDUP HERE DRAWS RIDERS

Town Filling With Cowboys and Bucking Horses as Opening Day of Rodeo Nears.

Twin Falls this week is the center of interest for riders and other rodeo performers throughout the northwest, as the opening of the opening week Thursday of Twin Falls' three-day roundup with \$2000 offered in cash prizes and purses, is bringing here some of the best known riders and some of the most vicious and adept bucking horses in the west. The town is becoming full of cowboys and livestock is coming in from everywhere.

Howard Tuttle of Oakley, veteran of the 16th field artillery regiment in the world war and one of the best known of western riders, arrived Tuesday with his string of 21 bucking horses that are famous wherever wild horse riding is indulged in. Mr. Tuttle, who will direct the Idaho Falls roundup this year, is associated with the management of Twin Falls roundup and he and Walt Brown, another well-known rider, will give exhibitions in riding each day during the roundup here.

Cattle from Rock Creek, Lloyd Brown of Rock Creek, Tuesday afternoon brought in a band of cattle to be used in bullhogging, roping and riding events.

Another string of horses is coming from the Haley country and word was received Tuesday that a band of horses that had broken out of the corral at Fairfield had been rounded up and was on its way to Twin Falls.

Coming mid-way between dates of the Salt Lake and Pendleton roundups, the Twin Falls event finds riders and rodeo performers from all over the northwest here and the management has re-

STORY OF THEFT TOLD BY YOUTHS

Young Men Held Here for Taking Car in Greeley, Colorado, Make Written Statement.

Jack O'Connor, 27, and James Victor Prichard, 22, held in the city jail here for Greeley, Colorado, authorities, on charge of automobile theft, were on the way from Spokane to Colorado to return the car, a Ford coupe, and make settlement with the owner when they were arrested here Monday evening by Twin Falls police, according to their signed statement executed by them Tuesday in the presence of Chief of Police P. O. Herriman. In this statement they waived extradition and stated that they would return voluntarily to Colorado with the deputy sheriff, who, according to advices received by Chief Herriman, left Greeley Tuesday afternoon coming to Twin Falls to take the young men back to Colorado.

The car was rented July 24 last, from a garage in Greeley, the statement said, and was used by the young men to make a trip to Cheyenne, Wyoming, to attend the "roundup." In Cheyenne, the statement said, the young men became intoxicated and believing that they were already guilty of theft because of the car, they decided to return to their possession. Thereafter, the statement said, they worked in harvest fields in Kansas and Nebraska, traveled through North Dakota in search of work, and crossed the state of Washington, where they were voluntarily traveling eastward when suspicion caused at a local garage when they attempted to sell a battery for a Buick car led to their arrest here.

Twin Falls' bid for industrial development will be blazoned in these words on a huge signboard to be erected at Minidoka, where it will be seen by all passengers on Oregon Short Line main line trains, if plans to this end discussed by Twin Falls Chamber of Commerce directors at a regular monthly meeting Tuesday evening are carried into execution. Secretary C. F. Dwight was instructed to confer with local sign painters relative to the cost of the proposed signboard.

Send Representatives to Milwaukee. Twin Falls' invitation to dairy men of Wisconsin and other leading dairy regions to come to south Idaho will be extended at the National Dairy Exhibition in Milwaukee, September 27 to October 4, by Secretary Dwight as the personal representative of the chamber of commerce and Twin Falls visitors, it was decided by the directors, who at this time authorized an amount of necessary expenses in connection with the secretary's trip.

Information was received by the directors that other Idaho towns, including Boise, Nampa, Caldwell, Pocatello and Idaho Falls, will be similarly represented at the national dairy show, and opinion was expressed that the opportunity for obtaining much favorable publicity for the resources and possibilities of the Twin Falls country as a dairy region ought not to be neglected.

Will Use Printers' Ink.

Mr. Dwight will take with him to Milwaukee for distribution among visitors at the dairy exposition some 4000 pamphlets recently issued by the chamber of commerce setting forth the advantages of this region from the standpoint of the dairy industry and the requests also that persons having in their possession copies of a booklet issued some time ago under the title of "Twin Falls Up-to-Date" bring them to the chamber of commerce office to be used in advertising at Milwaukee.

The meeting of the directors was presided over by D. D. Alford, president, and was attended by S. L. Hendlin, W. T. Leslie, J. E. White, C. E. Lind, R. M. Williams, E. F. Hollingsworth and Dr. D. L. Alexander, members of the board.
