IMPROVEMENT IN LABOR CONDITION BULLETIN STATES

Building and General Construction During Past Month Has Increased in Idaho, Department Reports.

WASHINGTON, Sept. 13.—There has been considerable improvement in industrial and employment conditions during the past month in Idaho with indications for immediate further improvement, more indicated in agriculture, building and general construction, says a bulletin issued by the department of labor. The large surplus of transient labor existing 30 days ago has largely diminished. The small surplus of common labor will soon be absorbed in the sugar beet harvest, which will begin the latter part of September.

Metal mining activity is increasing, particularly at Silver City, Wallace and the Coeur d'Alene region; approximately 500 miners are now employed at the latter place. Most industrial plants, with the exception of saw and lumber mills, continue running steadily and at capacity, particularly the flour and cement mills and the numerous cheese factories. Several thousand workers will be afforded employment commencing the latter part of September in the sugar factories for a period of about two and one-half months.

Local labor will be almost sufficient for this work. Building increasingly active in many parts of the state, most noted at Boise, Pocatello and Nampa. Construction will commence immediately on a \$450,000 car repairing plant at Nampa by a fruit express company. Other construction under way or to commence within 30 days includes an oil refinery at McCammon; a fire station at Wallace; a fish hatchery at Grangeville; three large mills by a canning company at Payette; a cheese factory at Challin; a sanatorium at Lapwai and installation of \$300,000 worth of machinery by a sugar factory in its plant at Burley. Lumbering operations in the northern part of the state, both logging camps and sawmills, have further reduced production. Released lumber labor has been mostly absorbed by harvest operations and road building. Considerable progress has been made in highway construction during the month and contracts for about 25 miles of new highway have recently been let, including several large bridge structures; most of the new highway work is in the eastern part of state. Road work has increased demands for highway labor. Railway activities somewhat increased, mostly on maintenance of way work and train service. Railway shops continue running on part time.

TOURIST PARK NOTES

A. E. Calhoun and party are trekking from Fort Collins, Colorado, to the coast.
S. E. Bryant and family are moving from Bandon, Oregon, to Albion, Idaho.
Mr. and Mrs. M. B. Brackley are returning to Caledonia, Ohio, from a visit to Arcden, Wash.
George Adkins and family are journeying from St. Paul to Portland.
M. G. Thompson and partner came from Petersburg, Indiana, and left for California.
Dna Fisk and party came all the way from Miami, Florida, to see the big Reysers.

W. B. Baumgartner and party are enroute to Portland from Detroit.
R. C. Gilbert and party are returning to Harvey, Ill., from a tour through the coast states.

T. S. Doherty and friend came from Tucson, Ill., via the Yellowstone park. Mr. and Mrs. M. Van Dyke are leaving the United States and will take up their abode in Australia. Mrs. Van Dyke is a native of that big island.
Mr. and Mrs. A. Coonan have been visiting in Kansas and Oklahoma, and are going back to Vancouver, Wash.
Edward Dunn and family from Minn.

MEMORIAL PLAN BEFORE BOARD

Architects Conception of Edifice to Idaho's Fallen in Hands of Officials.

MOSCOW, Idaho, Sept. 13.—The architect's conception of the Idaho Memorial building, that will be erected with funds secured in a state-wide drive this fall, has been submitted to the board of directors of the Idaho Memorial association. Rudolph Weaver, architect for the University of Idaho, is the designer of the edifice that will honor Idaho's long list of war dead.

Tudor-Gothic, the style of architecture most featured in the finer buildings of today, was adopted by Professor Weaver as most suitable for the memorial.

Infinite Skill.
The infinite care with which he has prepared the plans and the distinctive architectural features he has embodied make the board of directors feel Professor Weaver has accomplished a distinguished piece of work.

But the greatest of his designing skill, they also found in studying the preliminary plans, went into designing the portion of the building known as the "hall of memories." In this part of the building will be enshrined the names, cast in bronze, of Idaho's soldiers who died in the war. Originally this list numbered slightly over 600 but state-wide circulation and appeal for assistance in locating names not contained in war department records has resulted in the addition of approximately 100 others.

mi, Arizona, have been up to American Falls, and are now going to Contact, Nevada.

Mr. and Mrs. J. E. Root are returning to Abilene, Kansas, from Boise.
Mr. and Mrs. B. H. Hood are going to Des Moines, Iowa, from Portland.

C. R. Todd and family are enroute to the coast from Mount Vernon, Ill.

Cabmen's Patron Saint.
Saint Flure is the patron of Parisian cabbies. He was an Irishman of the seventh century when though Ireland was Christian most of Europe was barbarian. He was granted an estate at Brethet in France as much land as he might surround in one day with a furrow. Legend says that he used a crozier to cut the furrow. It was by a roundabout way that the saint gave his name to the French cab. A famous hotel in Paris adopted the monk as its patron saint, and it was at the sign of Saint Flure that the first of these vehicles began plying for hire.

Salvation of Mankind.
If the world's chemists and the world's engineers would hold annual meetings in a friendly spirit, for the salvation of mankind! If they could agree together that to exercise their ingenuity on the perfecting of destructive agents for the use of governments was a crime; to take money for it a betrayal of their species! If we could have such exchange of international thought as that, then, indeed, we might hear the rustle of salvation's wings. And—after all—why not—John Galsworthy.

Deer Shed Horns Yearly.
The horns or antlers of deer are shed and renewed yearly. The horns are usually shed soon after the breeding season. It requires about three or four months for the new horns to reach full size.

CHURCH GROUPS PLAN CAMPAIGN FOR ELECTIONS

Christian Endeavor Societies Organize to Get More People to Polls in November; Better Citizenship.

NAMPA, Sept. 13.—A nation-wide citizenship campaign has been launched by the United Society of Christian Endeavor under the direction of the Rev. Daniel A. Polling, D. D., associate president and citizenship superintendent for the purpose of getting every Christian citizen in the United States to the polls in November.

It is estimated that 500,000 members of Christian Endeavor societies will be eligible to cast their votes for the first time in a national election, and that there are 2,000,000 other Christian Endeavorers also of voting age. Through circularization, personal work, and an intensive canvass of each of the 60,000 Christian Endeavor societies in the United States, it is hoped to impress on all of these people their obligations as Christian citizens. In addition an effort will be made to enlist the services of the young people in bringing their parents and other members of the churches to the polls.

Non-Partisan.
No effort will be made to enlist voters for any particular political party, but each citizen will be urged to vote in accordance with the dictates of his own conscience.

Leaders of the movement in Idaho state that they will do all in their power to bring the ideal to a reality. They claim a membership of approximately 2000 in this state, consisting of 125 local societies thoroughly organized into six distinct unions, which in turn function under the state union.

It is planned to coin the slogan, "Every Election Every Enfranchised Endeavorer Votes."

Poets Draw the Line
"It's easy enough to catch one of these wandering poets," says the Red Horse Weekly, "but after you rope him in, the hardest job in the country is to put him to work and sweat the 'fire of genius' out of him, for it seems to be all he's got to brag about, and the 17rd knows that's just nothin' at all!"

Kimberly.
KIMBERLY—Mrs. Ben Potter and children have been on the sick list this week.

Postmaster Bills and wife and daughter attended the "covered wagon" at the Idaho theater Wednesday.
Mr. and Mrs. Ben Depew visited their daughter, Gertrude, at the county hospital Wednesday.
Melvin Shepard was absent from school on Tuesday on account of illness.

George Halley and his aunt, Miss Celia Gates of Twin Falls, left the latter part of the week for Baltimore, Md. Dr. Halley will take a six weeks' post graduate course in surgery during his absence from Kimberly.

An enjoyable afternoon was spent at the home of Mrs. William Downing Thursday when all members of the Kimberly Bridge club were present. Mrs. Glenn Whitney received high score, and delicious refreshments were served by the hostess.

Mrs. Johnny Jones is enjoying an extended visit from her father and mother, who reside in Los Angeles.
The committee in charge of the meeting of the Ladies' Pioneer club, to be held at the home of Mrs. R. H. Denton on Thursday, September 18, met and arranged for the annual reception for the teachers of the Kimberly school.

Eugene Davis is under the doctor's care suffering from throat infection.
Mr. and Mrs. Herbert Hardin and children of Los Angeles, arrived in Kimberly Wednesday to visit Mr. Hardin's parents, Mr. and Mrs. John W. Hardin.
W. A. L. Stone and Dr. Davis were business visitors in Twin Falls Wednesday.

Grover Rich of Burley was transacting business in Kimberly Friday afternoon.
Mrs. Jim Robison has been on the sick list the past week.
O. E. Munson of Twin Falls was a business caller in Kimberly Friday.
Mr. and Mrs. G. O. Dougherty of Caldwell, who have been visiting their daughter and husband, Mr. and Mrs. Mark Pomery, the past three months, returned to their home the latter part of the week.
Mrs. Gerald Douglas has been indisposed this week with a severe case of tonsillitis.

Not Exciting Enough
"I dunno that I wanna get married. Maxie. It wouldn't be excitin' like in 'n' movies. They ain't even one awful scandal in my past that I could worry about my husband findin' out."—New York Sun and Globe

The Justanere Inn announces the completion of their entertainment hall, which is now for rent for dances, card parties, dinners and banquets. Accommodations are ample for 150 guests, or arrangements can be made for smaller parties. Phone 456 for reservations.—adv.

SMOOTH PERFORMANCE.
A marked smoothness characterizes the performance of Dodge Brothers Motor Car.

In keeping with the policy of constant improvement, effective measures have been taken to minimize vibration. Applied to the body, engine, clutch, brakes, and other vital units, these refinements add immeasurably to the comfort of travel over boulevards and country roads.

The effect is so pronounced, in fact, that it is entirely fitting to classify smooth performance as one of the outstanding attributes of Dodge Brothers Motor Car.

15 New Studebakers

Including an entirely new type of car—the DUPLEX-PHAETON

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before

TODAY Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American body designers without following precedent or imitating or adapting what has been done before.

Today Studebaker proves that a practical and beautiful type of car can be made to combine the pleasure and performance of the open car and the comfort and protection of the closed car—and this without excessive price or compromised quality—a car "duplex" in open-car smartness and convenience and closed-car elegance and comfort—and at a price no higher than that of an open car!

Today Studebaker proves, in its new Standard Six Duplex model, that a six-cylinder car of fine quality, great power, plenty of room and impressive appearance can be made and marketed at a price of \$1145.

Today Studebaker proves in its new Special Six and its Big Six Duplex models that the ultimate in all the essential features of quality in five- and seven-passenger cars can be made and marketed at a price of \$1495 and \$1875 respectively.

And this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in this country, 70 per cent of which is new within the last six years.

Every modern method of manufacture and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the highest grade closed car bodies—framed in selected hard woods, cushioned with the best cushion work, upholstered in fine mohair fabrics and fitted with expensive appointments—can be made and marketed on superlatively good chassis at moderate prices.

This is made possible by the new \$10,000,000 Studebaker closed body plants. Studebaker designs and builds all of its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis

THE STUDEBAKER STANDARD SIX—113 in. wheelbase, 5-passenger. Engine 3½x5½, 50 h.p.—with 6 different bodies, including Duplex-Phaeton, Duplex-Roadster, Coupe-Roadster, Coupe, Sedan, and Berline.

THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, 5-passenger. Engine 3½x6½, 65 h.p.—with 5 different bodies, including Duplex-Phaeton, Duplex-Roadster, Victoria, Sedan, and Berline.

Three completely new chassis! 15 completely new bodies!
Completely new lines! Marvelous new performance
Completely new open-closed car!

Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines
Real balloon tires, not low-pressure cords. Sizes: 21"x5.25"x620"x7.30"

New Studebaker automatic hydraulic 4-wheel brakes—optional
New values, never before equaled—even by Studebaker!

THE STUDEBAKER BIG SIX—127 in. wheelbase, 7-passenger. Engine 3½x6½, 75 h.p.—with 4 different bodies, including Duplex-Phaeton, Coupe, Sedan, and Berline.

The Ten New Closed Bodies

COMPLETELY NEW BODIES—each car a masterly expression of modern style, yet distinctly original in beautiful lines—individual, conservative, impressively elegant, but crisp enough in its departure from imitation to be entirely distinctive.

The Five New Duplex Bodies

(A new type of car originated by Studebaker to take the place of the open car)

SO ENTIRELY NEW and so different from any other body ever made before that a new name had to be created—**THE DUPLEX**.

The upper structure is shaped in pressed steel and covered with the finest water-proof fabric. The steel construction permits the use of another radical Studebaker creation, the new roller enclosing curtains. There is the permanent beauty and durability of the steel top plus the instant convenience of the roller curtains.

Thus Studebaker engineers have solved the open-closed car problem.

The buyer who wants the airiness and practical convenience of the open car and who also wants the comfort, protection and beauty of the closed car can now get both in one car and at the price of an open car.

One moment the new Studebaker Duplex is a beautiful open car—a touch of the hand to the over-lapping-roller curtains—and it is a snug weather-tight closed car.

Balloon Tires

Genuine and full size balloon tires on all models. Every part that functions with the tires has been specially designed for balloon tire equipment—steering gear, steering knuckles, spindles—and springs, even the fenders.

New Lacquer Finish

The Standard Six closed bodies are beautifully finished in semi-gloss, satin lacquer. The hood and lower panels are in light gray, the upper panels in darker gray. Hairline parallel striping in oriental red. Burnished nickel radiators, jet black fenders, light golden finished, natural wood wheels and big balloon tires are contrasting touches.

The Standard Duplex Models are finished in glossy jet enamel—lasting, lustrous and wear-resistant.

The Special Six and the Big Six Duplex models are in soft satin lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the sparkle is added with burnished nickel radiators and light, natural wood wheels in contrast with jet black fenders and big, black balloon tires.

More Power

The universally famous Studebaker engine is more than ever a peer among power plants. The crankshaft is heavier. ALL surfaces are perfectly machined to exact dimensions and balance. The bearings are larger.

The engine is in unit with the clutch and transmission. There is a force feed lubrication system with clean, strained oil always in reserve. There are many changes and improvements which result in MORE POWER, MORE QUIETNESS and SMOOTHNESS and STILL BETTER PERFORMANCE in every way.

New Brakes

Larger, more powerful, simpler and much easier operated two-wheel brakes. An entirely new emergency brake is operated from the instrument board, instantly convenient to the driver's hand where it simplifies the control and frees the floor board from the old style lever. It acts on the propeller shaft. There is uniform pressure at each wheel—equalized through the rear axle.

The regular two-wheel Studebaker brakes with their simplicity, safety and great braking power are entirely adequate.

But Studebaker 4-Wheel Hydraulic Brakes (with disc wheels) can be furnished as optional equipment on all models at extra charge if desired.

Studebaker 4-Wheel Brakes have three exclusive features not found on any other system in this country.

1. Braking pressure is furnished by hydraulic power automatically developed. A light touch to the braking pedals controls its great force like a touch to the throttle controls the power of the engine. This feature will appeal instantly to women.

2. The front wheels cannot lock.

3. There are only two adjustments required—once at each rear wheel. The front brakes are permanently adjusted at the factory. The oil in the transmission is used to generate the hydraulic power; the action of the gears and the pump keep it in circulation; it cannot congeal or freeze. Braking power is always instantly ready—in winter as well as in summer!

New Ease of Operation

New Ease of Gear Shifting—New power in braking, a touch to the pedal exerts a giant's strength at the rear wheels—New clutch action, soft as velvet—A new steering gear and steering knuckles designed for balloon tires—A new grouping on the dash, including ALL the usual instruments plus a gasoline gauge that always works accurately.

Lighting Control Switches—all on the steering wheel—Instantly handy.

Automatic Spark Control—No manual attention required, so the lever is eliminated. Automatically governed to all speeds with the precision of machinery.

And the Details

The new cars are longer and lower to the ground. The line from the radiator to the rear is nearly straight. The wheelbase of all models is increased.

The fenders are much wider and deeper crowned to cover the width of the tires. They fit more closely over the wheels. The rear fenders are long and gracefully curved into the running boards.

The radiators are high and set low in the frames and convex curved just below the filler cap. The design is strikingly original and beautifully distinctive.

Entirely new head lamps, and cowl parking lamps designed by Studebaker—artistically appropriate and in perfect keeping with the originality of the body and fender design.

Deeper, stiffer frames, more cross members; shorter, flatter springs for balloon tires. All bodies lower, all roomier, better and more comfortably cushioned. Seats are lower, backs and sides are higher.

Look Forward Into Next Year

The new Studebaker is here today! And no matter how sweeping your ideas of what a new model should be this car will satisfy you. It will thrill you with the very newness and originality of its beautiful lines!

You may not be in the market now, or even this year. But to see the new Studebaker is to look forward into next year—and the year after! SEE IT TODAY!

BRUINS AFTER OPPONENTS FOR EARLY CONTEST

Representatives of 16 Schools in South Central District Meet Here to Draft Football Schedule.

Twin Falls high school will open its football season next Friday, September 19, if a team can be found for that date, according to Coach Felix Plustino Saturday at the meeting of the south central district athletic board, which was attended by 35 representatives of the 16 schools composing the district, of which 14 are putting football teams into the field this year.

Superintendent "Doane" of Gooding was elected president of the board, succeeded by M. M. Van Patten of Buhl and Superintendent Christensen of Burley was chosen secretary-treasurer with Superintendent M. M. Van Patten of Buhl in the vice president's position.

Three Games for Eligibility
A long argument over the arrangement of the schedule for the year preceded the decision of the meeting that the number of conference games to be played would be three before a team would be eligible for the district championship which will be decided November 7, when the champions of the North Side play the champions of the South Side. This year Rupert will play with the North Side division which will be composed of the following teams: Gooding, Wendell, Hagerman, Jerome, Shoshone and Rupert, and the South Side which comprises: Piler, Buhl, Burley, Oakley, Albion, Castleford, Hansen and Twin Falls, all of which are placing football teams in the field this year to compete for the state championship.

With the exception of Piler, practically every school in the division has a new coach and coaching system to be put into practice this year. Chief among these new men are Jim Neal of Buhl, Plustino at Twin Falls, Bakke at Burley, Westler at Rupert, Ikard at Jerome, Harrington at Shoshone, Kuhns at Gooding and See at Castleford.

Many Open Dates.
Much bickering over details featured the making of a schedule for the

Could Anything Change This Tigerish Woman?

She had risen from humble poverty to great wealth—yet she remained bitter and resentful at the world. She had acquired all that a woman's heart craves—gems, gowns, the adoration of men—yet her only thought was one of power, power over the ring of international crooks whom she had so terrifically seduced. Then came the man into her life who stirred up strange, new emotions within her. Love leaped into birth—and with it, hunger for affection, sympathy, understanding. Could love succeed in changing her where everything else had failed?

MANY LEND AID IN BABY CLINIC

Examinations of 430 Little
Ones Completed in Four Days
of Fair; Assistants Named.

Out of 554 registered, 430 babies and children of pre-school age were examined at the baby clinic during the four days of the Twin Falls county fair that closed Friday. The number of examinations made was more than double that of the clinic a year ago, according to Mrs. T. D. Connor of Filer, in charge locally of arrangements for the clinic.

Records in connection with each examination will be studied by specialists in the offices of the department at Boise and within the next few days, representatives of the department will be sent out to advise with parents of children in whom physical defects may have been revealed by the examination.

With a statement of appreciation of assistance given with the examination, the following list of physicians, nurses and hostesses who assisted this year:

Physicians: Dr. F. W. Almond, Boise, state medical advisor; Dr. Schmiedel, Jerome; Dr. A. A. Newberry, Filer; Dr. C. C. Bailey and Dr. J. S. Davis, Kimberly; Dr. W. F. Passer, Dr. J. E. Langerwiler, Dr. H. N. Leete, Dr. C. R. Scott, Dr. C. D. Weaver, Dr. J. H. Cronwell, Dr. D. L. Alexander, Dr. John W. Visher, Twin Falls; Dr. A. F. McCluskey, Buhl.

Nurses: Mrs. L. P. Runyon and Mrs. Charles Reynolds, Buhl; Mrs. Terry Hunter, Mrs. Robert Rogers, Mrs. H. K. Logan, Mrs. J. E. Langerwiler, Mrs. A. T. Maxwell, Miss Anastasia Sheehan, Miss Thomas, Twin Falls; Mrs. W. H. Detweiler, Hazelton; Miss Ethel Pihl, Filer.

Hostesses: Mrs. A. F. McCluskey and Mrs. Roy Daley, Buhl; Mrs. B. S. Ames, Mrs. George Leonard, Mrs. G. A. Davis, Mrs. Nora Patton, Mrs. Hammerquist, Filer; Mrs. P. W. McRoberts, Mrs. E. M. Wolfe, Mrs. Kirkman, Twin Falls; Mrs. Denton, Kimberly; Miss Black and Miss Wolkington.

ANNOUNCEMENTS

The Star social club will meet Monday afternoon at the home of Mrs. J. W. Dumke, 300 Seventh avenue east, with Mrs. L. Friedman and Mrs. E. E. Ashby assistant hostesses.

The Pan-Hellenic club will meet Tuesday evening, September 16, with Mrs. Clyde Bacon, 227 Fifth avenue east. All members are requested to be present.

The Business and Professional Women will have their regular weekly luncheon Tuesday noon in the club rooms.

The Mentor club will not meet September 17 with Mrs. C. E. Smith, as previously announced. The time and place of next meeting will be announced later.

CALLS MEETING OF REPUBLICANS

Call to republican candidates and members of the republican county central committee to assemble at 6:30 o'clock Wednesday evening next at the Regency hotel for a consideration of plans for the campaign has been issued by John W. Graham, chairman of the county committee.

NEW STUDEBAKERS ARE CENTER OF INTEREST AT BARRETT GARAGE

A closed car, which is at the same time an open car, just as open as any touring car when you want it to be, and closed weather tight in 30 seconds when that kind of a car is required, has been the dream of motorists and motor manufacturers for a long time past.

The new Studebakers came up to the specifications. The close up feature is the most ingenious thing of the kind ever seen anywhere. It works quickly and easily and it delivers the goods. There are many new features about these cars, and an interested group of spectators came and went all afternoon at the Barrett garage on Saturday, where two of the models may be seen.

The new style finish on the Special Six, which attracted much attention, as did the new, style accelerator and emergency brakes on both cars. Balloon tires are regular equipment on both.

Of course these are not the only new features, including gauges on the instrument board, new style cowl lights, higher and stronger fenders, automatic spark and natural wood finish, alloy wheels are among the novelties which mark the difference between the old and the new.

Beginning Monday it will be possible to get a ride in the new machines.

MEXICANS DRAW LIGHT FINES

Afonio Hernandez and Manuel Poman, accused by Michael Estrada, were found guilty in justice of the Peace W. S. Mallory's court Saturday of committing assault and battery and were sentenced to pay fines of \$5 each. They were liberated to obtain the money. Estrada charged that he had been attacked by the defendants who took from him approximately \$9 after learning that he had cashed a check for \$7.

Ruth Taylor, daughter of Mr. and Mrs. Stuart Taylor, invited a number of her little friends in on Saturday afternoon to help her celebrate her ninth birthday anniversary. The time was merrily spent with various games on the lawn, a special feature being a spider-web game, each guest finding a favor at the end of the string in the cobweb. Late in the afternoon dainty

refreshments were served, the center of attraction being a lovely birthday cake ornamented with nine pink candles. Mrs. Taylor was assisted by her daughters, Alice and Helen, and Katherine Larned. The guests were Ruth Read, Bettie Jane McClure, Rosemary and Philip McCallum, Virginia Engelen, Betty Lou Passer, Virginia Smith, Mary Priebe, Janet Pelt, Virginia Young, Harriet Duvall, Robert and Priscilla Peck.

Mrs. John Kimes was hostess to the T. S. S. club Saturday afternoon at the home of her sister, Mrs. C. C. Green on Locust avenue. Nine members were present and Mrs. Sawyers, mother of the hostess, and Mrs. Green, were guests. The usual social time was enjoyed, and delicious refreshments were served.

The new teachers of the Washington school were entertained Thursday evening by the former teachers with a charming dinner at the Chastelier. The guests were seated at one large table the centerpiece for which was a bowl of naturdums. Following dinner the evening was spent with bridge. The guests were Misses Frances Forney, Goldie Lilly, Laura Street, Dorothy Masters, Marian Wright, Pearl Master and Florence Shultz. The hostesses were Mrs. Emma Jones, and the Misses Clara Billar, Ruth Flynn, Elsie Murray and Edith Flora.

On Thursday evening Miss Margaret Finch entertained at bridge in honor of the Misses Arden Booth, Mary Newman and Clara Hall, who left Saturday morning to enter the University of Idaho. Miss Clara Hall won the honors for high score and the consolation was awarded to Miss Helen Fisher. These present in addition to the honored guests were Misses Hazel Noh, Margaret of Selley, Audrie Brannin, Jean Emery, Ann Craven, Virginia Victory, Dorothy

Elling, Bess Duke, Pauline Ware, Helen Fisher, Mattie McMaster, Mabel Evans, Flo Cook and Jewell McCollough of Salt Lake.

The Mountain View club met Wednesday at the home of Mrs. Baird, with seven members and two visitors present. Plans were made to sew for adopted orphans at next meeting. During the social hour the hostess served refreshments. Misses Bowen and Verle Both were guests. Mrs. Halden will entertain the club Wednesday, September 17.

The ladies of the Community Church Aid met in the church basement Wednesday, September 10, with Mrs. James Griffith as hostess. On account of the fair only a few members were present, but the afternoon was profitably spent with work on the quilt, and refreshments were served at the close of the meeting. The place of next meeting will be announced later.

Miss Catherine Gates was hostess at a delightful bridge party Friday evening at her home on Third avenue north, complimentary to Miss Olivia Chapman and Miss Harriet Warner. The guests

INDUSTRY IN WAR.

The Irish labor congress, celebrat-
ing "No More War Days," adopted
a resolution instructing its general
council to call a special congress of
workers to decide on industrial action
in solidarity in case of threatened war.
"Such a congress," reads the res-
olution, "is to be called if possible
before war is declared, so that the
Irish labor movement may do every-
thing that lies in its power to prevent
future wars."

The attitude is a commendable one,
which may conceivably accomplish
great good in some cases. It may
work well when the government of
the country to which the industrial
workers belong is threatening aggres-
sion against some other country,
or when it is entering a war in which
it has no business to participate.
If the German trade unions had adopted
this attitude in 1914, there would have
been no World War.

The situation will be different in
case of national defense against a war
declared from without. In such
case, it is hardly conceivable that any
congress of trade unions would do
otherwise than marshal their forces
for the common defense, by industrial
and military action both, as soon as
they were convinced of the righteous-
ness of their national cause and the
need of preparation.

"No More War" is a slogan which

presupposes that the other fellow will
never run amuck and start an un-
justified fight. For the present, it is
useful not as a declaration that no-
body will ever fight, but as an expression
of the hope.

THE PUBLIC HEALTH SERVICE.

If one asks a friend casually what
he thinks of the United States Public
Health Service he will be quite likely
to say that he doesn't know anything
about it and has never come in con-
tact with it. But the Public Health
Service exists and, like the Postoffice,
it is always on the job and serves
as well as impartiality.

Dr. M. J. White, acting surgeon-
general, has recently summarized the
activities of this service in order to
let more citizens know of its work.
He says:

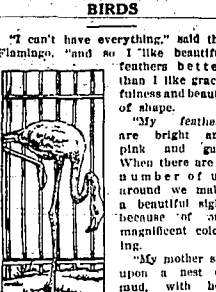

"The Public Health Service furnishes
information regarding the care of
newborn infants, conducts nutrition
classes and clinics for children, keeps
birth statistics, makes physical exam-
inations and recommends treatment of
physical defects, supervises sanitary
conditions on interstate trains and
steamboats, cooperates in the cam-
paign against unsanitary areas for the
health of sailors and other shore
militaries, maintains quarantine to prevent
the importations of communicable disease,
fights plagues, studies and gives aid
view regarding water and sewerage
publicans, enforces standards for vac-
cines, antitoxins and serums shipped
in interstate commerce, lends assis-
tance to states in rural hygiene work,
and makes studies looking toward the
improvement of hygienic conditions in
factories."

"It is a formidable array of good
works, the value of which can not be
adequately estimated in the present.
Checking up on national health prog-
ress over a period of years, however,
it shows sure to show steady gains
and there are, in generous degree, at-
tributable to the work of the U. S.
P. H. S."

Incidentally, knowledge of this
branch of government should bring a
little closer to the hearts of grumbling
lawyers, for some of their money is
invested in it.

Daddy's Evening
Fairy Tale
By Mary Graham
Bonner

BIRDS

The Flamingo Was Also Very Awkward.

"I can't have everything," said the
flamingo, "and so I like beautiful
feathers better than I like grace-
fulness and beauty of shape."
"My feathers are bright and gay,"
said the bird.
When there are a
number of us
around we make
a beautiful sight
because of our
magnificent color-
ing."

My mother sat
upon a nest of
mud, with her
legs drawn up be-
neath her while I
hatched out into
a handsome fla-
mingo. At least they all say I am
handsome now."

Billie Brownie agreed that the fla-
mingo was certainly very handsome.
But the flamingo was also very awk-
ward and got into the strangest of po-
sitions.

Billie Brownie went to call on the
Asian White Crane.

He was beautiful with the most per-
fect of feathers and as he walked
upon his thin legs and webbed feet
there was a great deal of grace about
him.

His neck was long and he reached
down into the mud of the pond to see
if he could find a nice frog or tad-
pole for supper.

Billie Brownie called upon a pigeon
who had hurt himself far away from
home, but who had traveled all the
way to his dear little home pigeon
Cote even though he had taken him
almost two weeks to make the trip.

Billie was devoted to this pigeon
who had suffered, but who had made
such valiant efforts to get to his home.
And Billie was delighted to see him
there.

He called on the vultures in the zoo,
but the vultures could not say a word
for vultures are the only birds who do
not care to make any sound at all.

"You're very unsociable," Billie
Brownie said.

But the vultures looked at Billie
Brownie and their eyes looked most
unattractive and hard, he thought.

He called on the eagles next and the
eagles told him they were very fond
of their food.

Their keeper had told them lately of
some of their relatives who lived along
the Pacific coast who ate as many
young salmon that they could hardly
fly.

The eagles thought that was a great
joke and they said:

"If boys and girls and ladies and
gentlemen sometimes eat so much they
can hardly walk, because they have
not been able to eat such good
foods, you can tell them that the Bald
Eagles, the national birds, sometimes
can't resist eating too much them-
selves."

Next Billie called on another pigeon.
This pigeon had arrived exhausted
near a harbor with a message tied
around his leg.

The message was a call for help
from some stranded seamen and it
was all because of the little brave
pigeon who had been with the seamen
he had felt many times as though he
could go no further, that these men
were saved.

Billie Brownie was amazed, too, at
the modesty of the pigeon. If he had
saved three lives
he thought he
would be pretty
proud.

But the pigeon
said:

"What else
would I have
done? Of course
I was there long
before I could
possibly help on.
I kept on. For I
knew what an im-
portant message
I was bringing."

"And I did not
lingering there,
than any pigeon
would have done.
It is nothing to
make a fuss over,
Billie Brownie, though I
am delighted to
have your kind
thoughts and your
good wishes and
your friendship."

So Billie Brownie went back to
Brooklyn and told them of the
birds he had seen, but especially he
told of the brave pigeon who was so
naturally brave that bravely meant
nothing unusual to him.

And the Brownies were filled
hearing about him.

Defined
Teacher—Willie, why were you so
late this morning?

Willie—My mother had to wash my

Breakfast Food

"Matrimonially Speaking"

By MRS. HUGH MCKAY

My husband never puts his shaving
things away.

That's my job. He never means to
wish it on to me, but he says, as he
rushes downstairs in the morning, "but
you mind drying my razor for
me? I haven't a minute."

Or, "I'm awfully late this morning
—won't you put my shaving things
away for me, just this one time!"

He seems to think that I'll feel bet-
ter about it if he pretends every time
that it's a special favor. But after
about 365 consecutive favors a year, I
begin to get sort of used to them.

To make matters worse, he's prob-
ably the most disorderly shaver in the
world. His safety razor and brush and
soap and shaving lotion and powder are
always left scattered all around the
bathroom.

The difficulty of locating these things
is further complicated by the presence
of generous dabs of lather all over the
accents of the recent operation.

Sometimes I think that I wouldn't
mind it a bit if Hugh grew a beard!

Tomorrow: My wife hires a dress-
maker to come in and help her wreck
our house every fall.

Washington Rose.

The Mary Washington rose is prob-
ably the most ambitious attempt at
duplicature made by George Washing-
ton. He made it at Mount Vernon in
the last years of his life when he had
told under the curses of state. He started
the rose from seeds brought from
one of the other gardens in Philadel-
phia, grafted the young growth on the
native sweetbrier and named the re-
sult after his mother, Mary Washing-
ton. It was probably the first attempt
in this country to hybridize the month-
ly with the yearly blooming rose. The
Mary Washington rose became fa-
mous; it still adorns an ancient trellis
in the family garden at Mount Ver-
non, but if all the requests for cuttings
were granted, there would soon be
nothing left of it.—Youth's Companion.

How Burns Wrote

Burns committed his poems to mem-
ory as he composed them, and when he
sat down to write he had before him
no subject of composition, but only the
task of writing down what he had al-
ready finished.

TIME NEAR FOR JURKO TO FACE MURDER CHARGE

District Court Clears Decks for Taking Up First Case on Criminal Docket When Jury Appears.

With the conclusion Monday of arguments on motions and denials in pre-trial civil suits that have occupied the entire first week of the present term and with the jury summoned to appear on Tuesday, the way will be cleared for beginning of the trial in district court here of John Jurko, charged with first degree murder of A. H. Vandermark, his former business associate, on June 25, last.

Lawyer's statements surrounding the killing trial is expected to attract much attention hereabouts. The murder-charged man will be represented by W. P. Guthrie, who has appeared as counsel for the defense in many criminal cases in recent years, while the case for the state will be conducted by Prosecuting Attorney J. W. Taylor.

In Jail Since Killing.

Jurko has been held in prison in the county jail since the shooting of Vandermark on the evening of the day that Vandermark took possession of a billiard room on Main avenue following settlement of legal action instituted by Vandermark against Jurko who had secured the place as manager for Vandermark. Vandermark was shot down when he came from his place at a card table in the establishment when Jurko fired the shot.

A motion for a new trial in the case of R. A. Bowman against L. D. Adams and Tom Brack and the U. S. Attorney General, George W. A. Harbeck, president of the board, who is in charge of the case, was refused.

Three petitioners for naturalization in district court Saturday forenoon passed satisfactory examinations and were admitted to United States citizenship. They were Joseph Blum, of Phila., native of Luxembourg; Frank Nork of Phila., native of Czechoslovakia, and Michael Hahn of Twin Falls, native of Austria. Each had arrived in the United States in early months of 1901.

Notice of application for admission to citizenship was posted in court Saturday forenoon.

At the case of Christ, Munson, against the state, native of Norway, who arrived in the United States in May, 1903. His witnesses are T. Rutledge, Murrough, and John E. Hansen. Judgment was withheld by Judge B. Beck in the case of John Bugd, who pleaded guilty last week to charge of illegal possession of liquor and appeared in court Saturday for sentence.

JUDGE RICE TO SPEAK HERE ON CONSTITUTION

Judge J. C. Rice of Idaho's supreme court will be the guest of Filor and Twin Falls Elks clubs at a joint meeting in observance of Constitution Day next Tuesday evening at Filor, and will deliver an address on the Constitution at a public meeting to be held in the Methodist church at Filor immediately following the club meeting, according to announcement Saturday by John W. Graham, president of the Twin Falls club. Invitation was extended to Judge Rice and arrangements made for his coming on behalf of the two clubs by M. J. Sweeney, past president of the Twin Falls organization.

HERE TO CONDUCT MEETINGS.

Mattie Crawford, non-denominational evangelist, who recently conducted series of meetings in Boise, has arrived here from Los Angeles to hold a series of meetings beginning this afternoon in a large tent that has been set up at the corner of Main avenue and Fifth street east.

GROWERS SHIP THREE CARS OF BEANS TO SOUTH AND EAST

The Southern Idaho Bean Growers association shipped three cars of beans Saturday. The bill of lading on each car called for a destination in the south and east.

READ THE DAILY NEWS

South Line Appears On New Railroad Map

Dotted red line on the map between Rogerson, Idaho, and Wells, Nevada, with explanation in the legend that railroad under construction is thus indicated, appears on a large new map of the United States just issued by the Union Pacific system, copies of which have been received at Oregon Short Line offices here.

HERE TO BEGIN WORK AS PASTOR

Rev. H. G. Humphrey Comes From Helena to Occupy Pulpit of Methodist Church.

The pulpit of the First Methodist Episcopal church of Twin Falls will be occupied by Reverend H. G. Humphrey, the new pastor, for the first time this Sunday morning.

Mr. Humphrey succeeds the Reverend Mr. Manning, who has been the pastor for the past two years. He comes to Twin Falls from Helena, Mont., where he was pastor of St. Paul's Methodist Episcopal church for two and a half years, prior to which Mr. Humphrey was district superintendent of the Yellowstone district with headquarters at Billings. Before assuming that position he was for five years pastor of the Methodist church at Dillon, Mont. Mr. Humphrey is a native of Pennsylvania, a graduate of Baker university at Baldwin, Ky., where he secured his B. A. degree. He became a bachelor of divinity at Drew theological seminary of Madison, N. J.

Mr. Humphrey is a Master Mason and has been active as chairman of Helena lodge, A. F. & M. No. 3. The family was given a hearty welcome in the form of an informal reception by members of the church upon their arrival here Saturday.

BREVITIES

Visitor From Murtaugh—Mrs. Virginia Smith and baby of Murtaugh was visiting friends in Twin Falls Saturday.

Goes to Illinois School—Miss Daisy Hendricks and Rogers left Saturday morning for Wheaton, Illinois, to enter school.

To Spend Day Here—Mrs. A. J. Fick of Dr. and Mrs. G. H. Scott will train Saturday to spend Sunday visiting friends.

Goes to Pocatello—Mrs. J. H. Kramer left for Pocatello Saturday evening to join her husband and visit over Sunday.

Leaves to Visit Mother—Mrs. Andrew Rogerson left Saturday morning for Cerro Gordo, Ill., to spend a month visiting her mother.

Returns to College—Dean Mickelwait left Saturday morning for Corvallis, Oregon, to enter the Oregon State Agricultural college.

Visits Mother Here—Mrs. H. H. Sadie returned after her husband's Saturday evening after a visit with her mother, Mrs. A. T. Green.

Leaving for Stanford—Mrs. J. H. Scott of Dr. and Mrs. G. H. Scott will leave this morning by way of Wells, Nev., for Stanford university.

Former Resident Visits—Henry Hagan of Bedford, Iowa, a resident 12 years ago of Twin Falls, is here visiting his aunt, Mrs. J. A. Flynn.

Return to Idaho Tech—Edward Sigman and Bonnie Brown leave Monday morning for Pocatello, where they will take up their work in the Idaho Technical Institute.

Leave for Oregon—Dr. and Mrs. C. E. Winning left Saturday afternoon, enroute for Baker, Ore., where he will occupy the pulpit of the First Methodist church.
