PRICE FIVE CENTS

COMMON SENSE
PLEA IS MADE
IN DAWES TALKVice Presidential Nominee of
Republicans Urges Citizens to
Throw Off Political Poison in
Reasoning.

SIOUX FALLS, S. D., Sept. 19 (AP)—An appeal for "common sense consideration" of the agricultural problem, "free from political poison," was combined with an attack on LaFollette's independent candidacy in an address made at a republican rally here tonight, by Charles G. Dawes, the republican candidate for vice-president.

Advised by republican leaders of the state at a series of conferences during the day that the LaFollette independent candidacy represented the principal barrier to republican success in South Dakota in November, Mr. Dawes at the beginning of his address temporarily cast aside his prepared speech on agriculture and launched an attack on Senator LaFollette.

He declared Senator LaFollette by his advocacy of congressional veto of judicial decisions had raised a great issue, "the greatest issue that can come to any country, the issue of the Constitution of the United States."

Would Destroy Rights.

The LaFollette movement, he added, "would by one blow destroy a government of balanced power and give us a government by congress and would place in the hands of congress the safety of the inalienable rights of every citizen."

W. H. McMaster, governor of South Dakota and the republican candidate for the United States senate, occupied the platform with Mr. Dawes and in a brief address preceding the vice-presidential nominee, declared his expectation to support the Coolidge-Dawes ticket. Governor McMaster's attitude toward the republican ticket as against the LaFollette candidacy had been without definite definition since the republican national convention, but he began his address tonight by saying: "I want to say to my friends in the state that I want to make my position clear on all questions. There is one on which I desire to state my position tonight and that is that I expect to support President Coolidge in the coming campaign. I also expect to support the republican congress and the entire state ticket."

Shanghai Capture
by Opposing Forces
Now A PossibilityAdmitted at Headquarters That
Chinese Port May Go Down to
Kiangsu Army, According
to Reports.

SHANGHAI, Sept. 20, 3:30 a. m. (AP)—Surrender of Shanghai to the Kiangsu army seeking to capture it was admitted this morning at headquarters of the defenders at Lungwha, to be a possibility. It was asserted, however, that contrary to common reports, the defending Chekiang soldiers were not in retreat.

CLAIM SUCCESSFUL.

TOKIO, Sept. 20 (AP)—In a communique issued in Mukden, Chang Tso-lin, the Manchurian leader, claims decisive success over the forces of the central government of Peking at Jehol, north of Peking, and on the Chihli border between Chinchow on the Peking-Mukden railway, in Manchuria, and Chaoayang in Chihli, according to press dispatches received here. Chang also claims that his second and fourth armies, which are crossing the Chihli border, captured large quantities of munitions at Fushian, a small border village.

CHINESE TOWN SHIELLED.
TIENTSIN, Sept. 20 (AP)—Shanghai, the border town on the Peking-Mukden railway, was shelled Friday morning, according to a correspondent, several civilians being killed or injured.

Reports have been made to the American and British consuls to protect against the shelling of civilians. One of Chang Tso-lin's airplanes dropped a bomb the same day at Chingwangtao, in Chihli, a few miles from Shanghai. The bomb fell between two British steamers anchored off the breakwater.

SHE CLAIMS TO BE 120
YEARS OLD

SENORA MARIA DE CHAVOYA

SAID TO BE THE OLDEST citizen of California, perhaps of the entire United States, Senora Maria Antonia Louisa Masimo Verdugo de Chavoya recently celebrated her 120th birthday at Los Angeles.

DALLAS GREETED
WORLD FLIERSEnormous Crowds Gather in
Texas City to Welcome In-
trepid Sextette.

DALLAS, Texas, Sept. 19 (AP)—Dallas paused today to welcome and greet the six intrepid aviators who are now on the last stages of the history-making round-the-world flight.

More than 7500 Dallas citizens were at Love field, six miles from the city, the official landing place of the fliers. The welcome given at the field was not as noisy as has been accorded the fliers in other cities and the crowd was not as large as was anticipated, because of the uncertainty of the departure from Muskogee.

However, as Lieutenant Lowell H. Smith, the flight commander, approached the ground, a hush went over the crowd, but when the plane had successfully alighted, a mighty cheer

DRAIN IS NAMED
HEAD OF LEGION
AT CONVENTIONWashington, D. C., Man Select-
ed to Lead Veterans' Organi-
zation; Prominent in Work
of Organization.

ST. PAUL, Sept. 19 (AP)—Prominent in the work of the American Legion since its inception, James A. Drain of Washington, D. C., was chosen national commander of that organization at the concluding session of its sixth annual convention here today.

Besides electing overwhelmingly the new commander, the convention chose five national vice commanders unopposedly and named Father Joseph Louwaghen of Duane, Ill., a Catholic priest, national chaplain. Omaha previously had been selected for the 1925 convention.

"One of the most successful conventions we have held," one of the legion officials said, "was the one held after a year of great work under National Commander John R. Quinn," who surrendered his post to the new commander just before his adjournment.

A man whose close study and practice of military problems brought him through special commission, a place in the American expeditionary forces despite a physical handicap will lead the legion for the next year.

Loss of his right hand in a hunting accident when he was 30 years old, has made "Jim" Drain at 54 unusually interested in the legion's work to aid disabled soldiers, his friends said, explaining that the had devoted more than half his time the past three years to this work.

In a statement to newspaper men tonight the new commander emphasized that it is the rehabilitation work that will receive much of his attention, and the child welfare program of the legion.

His interest in children is natural, he says, for he has six.

Drain was born in Warren county, Ill., lived for a time in Nebraska, later in Washington state, where he

Church Demolished—
Buildings Wrecked
As Tornado Strikes

HOT SPRINGS, Ark., Sept. 19 (AP)—A tornado dipped to earth here late today demolishing the St. Luke's Episcopal church and unroofing a portion of the Eastern hotel. No fatalities were reported early tonight.

The twister swept in from the Hot Springs national park, dipped into the city and then passed over Hot Springs mountain northeast of the city. In addition to wrecking the church and damaging the Eastern hotel, the wind destroyed the cottage home of Mrs. G. A. Bates, damaged the Glenwood hotel and scattered automobiles about the streets. Numerous buildings were slightly damaged.

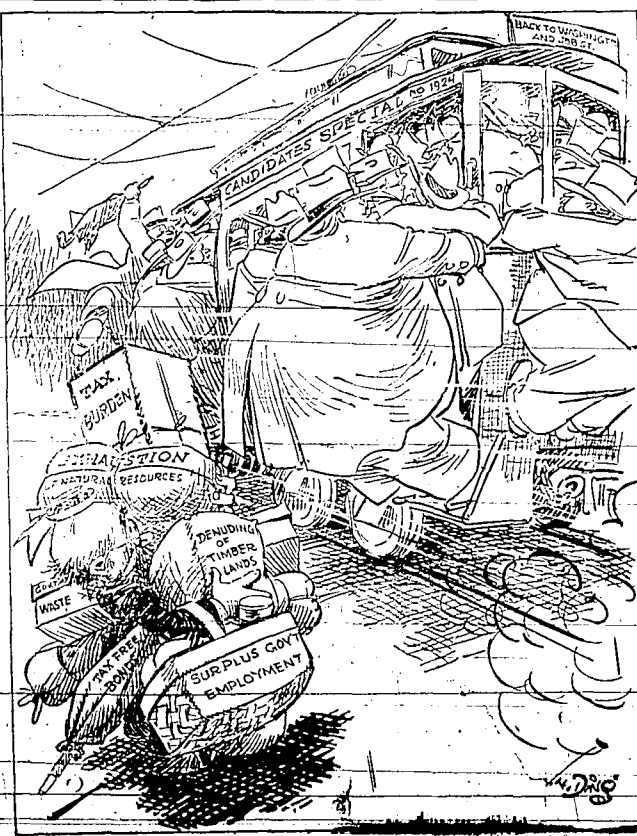

WHEELER CALLED
A 'COMMON LIAR'Former Attorney General At-
tacks Statements of Vice
Presidential Nominee.

COLUMBUS, Ohio, Sept. 19 (AP)—United States Senator Burton K. Wheeler of Montana, running mate of LaFollette on the independent ticket, was termed a "common liar," by Harry M. Daugherty, former attorney general, in a statement given out here last night by Wheeler.

Wheeler, in his address, inveighed against the "Ohio crowd," specifically mentioning persons and incidents.

The statement said: "Wheeler has come and gone and Columbus still stands. He heralded his entrance into the state by a canoflage statement about imaginary mile to be instituted against him. Either he was taking counsel with fears inspired by a guilty conscience or—dramatic—he was advertising himself to increase the door receipts."

No Doubt to Mr. Daugherty, who said: "So far as I know no one has any desire to mix with Wheeler even in a law suit. The stench he raised in his rotten investigation with false assertions and hired witnesses, is too malodorous to invite company. Like most of his prewar witnesses, Wheeler is just a common liar."

DOESN'T LOOK AS IF THEY WERE GOING TO STOP FOR THE LITTLE
MAN WITH THE BUNDLES THIS TRIPJURY FINDS JURKO GUILTY
FIXES PENALTY AT DEATHMan Who Shot A. B. W. Vandemark Convicted
of Murder in First Degree With Verdict Car-
rying Recommendation of Extreme Penalty;
Conclusion Reached Following Fourth Ballot.

John Jurko, accused of the murder of A. B. W. Vandemark, was last night found guilty of murder in the first degree with death as the penalty, by a jury in district court. The verdict was read at 10:30 p. m. and a few minutes later the convicted man was on his way back to his cell in the county jail.

The accused man sat quietly as the jury filed into the room and made no move as the verdict was read although the strain which he was under showed plainly in his restless mien and downcast eyes. There was a moment of silence following the reading of the verdict by the clerk which was broken by Attorney Guthrie with the request that an individual poll of the jury be taken. This was done by the clerk and each man as his name was called replied in the affirmative to the question as to whether the verdict just read was his own.

The proceedings were brief, only a few persons being present in court besides court attendants and attorneys. Sentence will be passed upon the convicted man Tuesday morning.

The first ballot, according to members of the jury, was unanimous for first degree murder which the state asked, and following three more ballots, the second of which was called, the three for death as recommended in the penalty, the jury agreed to recommend to the court that Jurko be hanged until dead as the penalty for the shooting.

Convicted Man Stunned.

The verdict apparently came as a surprise to the defendant, who, when the verdict was pronounced, sat as if stunned.

Immediately after the verdict had been announced, W. P. Guthrie, chief counsel for the defense, and veteran of many criminal cases in this county, announced to a news reporter that an appeal would be taken. First plans for the defense, he announced, would be to argue for an arrest of judgment, and in the event this was denied a motion for a certificate of probable cause, asking for a new trial would be made. In the event this was denied an appeal to the state supreme court will be taken.

The appeal was offered by the defense Thursday, the second day of the trial, was to the effect that Vandemark was also gunning for Jurko and had made statements to more than one Twin Falls

(Continued on Page 8, Col. 4)

New Air Defenses.
Air attacks on cities, General Williams declared, would mean the front of a new anti-aircraft gun that fires a 10-pound shell with deadly accuracy. This, he said, will prove a great step in preventing the bombing of cities as the aircraft now existing make it possible. To ward against American batteries being discovered by enemy observers, a "smokeless flashlight" type of powder is being developed, the speaker said. This powder, he added, is less noisy than that now used.

Defense guns for the Panama canal, moving under their own power on railway trucks, can sweep the sea for 23 miles with 10-inch shells, General Williams said. Modern aerial bombs, he stated, are six times more destructive than those used in the Zeppelin raids of the world war.

General Williams told the scientists that experiments were in progress with a 4000 pound bomb to determine whether one of this size was required.

"This bomb is probably larger than any produced by any country," said the speaker. "The fact that it will excavate a crater 57 feet in diameter by 19 feet deep in the average ground is an indication of its power. Such a bomb might be used against the latest capital ships, against a large manufacturing plant, or in bombing an extensive railroad terminal."

"That demolition bombs can be effectively used in the attack on naval vessels has been demonstrated in the experiments which have been conducted quite recently. An armored ship is more easily damaged by a near hit than by a direct hit. A near miss with a slight delay, the bomb can be made to penetrate 40 to 60 feet below the surface of the water before functioning. The water then acts to transmit the terrific shock of the detonation to the unprotected hull of the ship."

YELLOWSTONE PARK IS
CLOSED; SUCCESSFUL
SEASON SAYS OFFICIAL

IDAHO FALLS, Sept. 19 (AP)—Yellowstone park today closed one of the most successful seasons in recent years according to Horace M. Albright, superintendent of the park, who passed through Idaho Falls last night en route to the "Craters of the Moon," where he will be joined by former Senator Fred Dubois and Congressman Addison T. Smith. The party will study the "Craters of the Moon" for the purpose of reporting to the national park service on the possibilities of stimulating further travel to the new national monument.

Over 6000 more tourists visited the park this year than ever before, according to Mr. Albright. West Yellowstone passed the greatest number of tourists into the park, both by rail and automobile, he said.

IDAHO WEATHER.
Saturday: Cloudy and cool.President Assured
of Steady Gain of
Republican ForcesChief Executive Receives Call-
ers From Many Points; All
Northwest Declared To Be
Safe for G. O. P.

WASHINGTON, Sept. 19 (AP)—President Coolidge remained close to his desk today, meeting with his cabinet, working some on speeches and listening to reports on campaign developments from several callers.

Representative Johnston of Washington, reported that, although Senator LaFollette, independent candidate, was making a strong fight in the northwestern states, the republican ticket was ahead in the race today. Like other recent reports, his containing advice to watch that territory closely in the campaign.

As usual, the president indicated little to his callers of his feelings either in regard to the recent speeches of the other presidential candidates or of his own plans.

WILL SUPPORT COOLIDGE.
SIOUX FALLS, S. D., Sept. 19 (AP)—W. M. McMaster, governor of South Dakota, and republican candidate for United States senate, announced in an address at the Dawes meeting here tonight that he would support President Coolidge, the republican congressional and the republican state ticket in the present campaign, thereby defining his position for the first time in the presidential contest.SHELBOURNE QUARTET WINS.
WESTBURY, N. Y., Sept. 19 (AP)—The Shelbourne polo quartet overwhelmingly defeated Middle Neck farm 10 goals to 8 today in the opening contest of the tournament for the open championship of America. Webb and F. H. Prince Jr. each scored four goals.

Wage Earners Better Off With Reductions in Pay

Roger W. Babson, Noted Statistician, Tells Why Decrease Is Good Thing for Salaried Class; More Work.

BABSON PARK, Mass., Sept. 19.—When the American Woolen company recently announced that it must suspend its dividend, and the stock dropped 20 points, Roger W. Babson announced that it was largely due to the action of the company in the spring of last year in increasing wages 12 1/2 per cent when other woolen companies felt there should be wage reductions. He claimed that the American Woolen company then stood out alone against wage reductions when other New England mills felt that such reductions were in the interest of wage earners.

"The American Woolen company is now suffering for its action at that time," states Mr. Babson. In commenting further on this wage situation he says:

Increase Rapidly.
"During the war wages increased very rapidly. In early 1920 they stood at what was then the highest point in the history of industry in the United States. The panic of 1920 resulted in some wage cutting. In 1922, however, wages again began to increase, and at the present moment they stand at approximately 10 per cent above the peak of 1920, and at the highest point both in dollars and purchasing power, ever reached. Employees are determined to keep them where they are or to push them higher. Moreover, many employers have co-operated with the big wage workers in this attempt."

"In the years since 1914 great changes have come over the industrial situation. The producing power of the country has tremendously increased. In every manufacturing town great new factories stand as monuments of the zeal of war time, while other pre-war factories are idle and are placarded with 'For Sale' signs. It will take years for the consuming power of the country, through domestic and foreign trade, to catch up with this development. This feature is against the wage ambitions of the employees. On the other hand, during and since the war, we have entered upon a plan to limit and regulate immigration. Not only do we select who shall come, but the total admissible is but a fraction of what we admitted before the war. This change plays into the hands of the employees. So the battle goes on between those who want wages kept up on the one hand, and those who would reduce them on the other."

Wage Rates.
"Wage rates are what an employer agrees to pay his employees, and it is over wage rates that employers and employees fight. Earnings—what the employee gets in his pay envelope—are the result of multiplying wage rates by hours worked or by product turned out. In a very short time this constitutes the yearly income of the worker and determines whether he can afford to buy an automobile. Real wages are what the employee can buy with his earnings. Real wages are what he gets after he has paid for his necessities and for the things he does not much figure in wage contests. No industry can pay real wages unless it is making money enough so that it does not have to cut corners. Wage rates are what employees are interested in first of all, then they are interested in what is earned under the rates. It is of no great importance to have wage rates high if earnings are low."

"In the past two years a new tendency has appeared in industry. Our records show that in that time 150 firms have reduced wages from the peak of 1923. These wage rates have been reduced in 17 textile mills, in 24 shoe shops, in 14 iron and steel mills, in 12 metal trade shops, in 10 lumber plants, and so forth. These do not represent all of the cuts. These reported cuts are the result of a sampling system in wages in my office. The total number of wage cuts is much in excess of these figures. While other employees have been raising wages or allowing them to stay where they were, these textile mills, shoe shops and steel mills have been reducing wages!"

Supply and Demand.
"Now what makes earnings go up or down is work. What makes work is orders. What produces orders is ability to sell, and ability to sell depends upon price. This last was never truer than it is today. What is the position of the textile man who has raised or held up wages as a seller of goods compared with the 37 textile mills that have cut wages? What is the position of the shoemaker who has not reduced wages going to be as a seller of shoes in competition with the 24 shoe shops that have cut wages?"

"Put in another way, that question means: How many of the employees of these textile mills and shoe shops are going to earn during the next 12 months compared with the total earnings during the same period of the people who work in the mills and shops that have cut wages? And what is going to be the result when the salesmen of these big wage shops go to their customers and say: 'I have cut my prices because the low wage shops are selling for less money than they can afford to go for?'"

"Every low wage shop in any industry."

ALUMNI BEHIND MEMORIAL PLAN FOR UNIVERSITY

Former Students of Idaho School Solidly for Movement to Build Monument in Honor of Slain Soldiers.

BOISE, Sept. 19 (AP)—Alumni of the University of Idaho, individually and through their statewide organization, are solidly behind the movement to erect a memorial to Idaho's war dead. Paul Davis, managing director of the Idaho Memorial association, has been informed by Virgil W. Samma, president of the alumni association of the state university.

Inasmuch as the state-wide drive will be over before the alumni association meets again, it is planned to expand the annual home-coming to include a program designed to place the Idaho graduation society behind the work of the memorial body. The home-coming ceremonies this year are to be held in connection with the Washington State college University of Idaho football game at Moscow, October 18. As the association, Director Davis says, will have its drive well under way by that late the alumni support will come at the most desirable time.

Mr. Samma is mailing letters to all members of the alumni association, setting forth the salient features of the movement to honor the soldiers and sailors of Idaho and declaring that the university, with such a splendid war record of its own, must do its share.

"The alumni should be, he says, 'more thoroughly and vitally interested in this memorial than any undergraduate."

Weather of Prehistoric Past

British scientists are working into the weather of the prehistoric past. In living people they find the widest noses associated with hot moist climate and the narrowest with cold dry climate. The differences are also detectable in skulls. Applying these findings to some of the prehistoric European cave men skulls, it has been discovered that some of those which have been assigned to a period of cold climate must have lived in a warm period—if noses can be followed.

Sahara Once Fertile

Arabian tradition is that water was still abundant when the Arabs first entered the Sahara in the Seventh century, and that the drying-up process was not completed until the Thirteenth century.

Not an Infallible Guide

Physiognomy is not a guide that has been given us by which to judge of the character of men: it may only serve us for conjecture.—La Bruyere.

A Little Knowledge

A little knowledge is a dangerous thing—especially at examination time.—Boston Transcript.

try is an argument for lower wages in the other shoe industry. Industry, because prices are determining argument in getting orders. Orders determine to what extent the factory is to operate. Employees who have these wage rates are going to be at work, who others, with higher wage rates are going to be working part time or not at all. It is the factory that can sell at a low price that will get the business during the coming months, and it is the employees of such factories that will have the largest earnings during the year, even though their wage scales are lower.

Conclusion.

"It is considerations of this sort that have influenced my thinking about wages," concluded Mr. Babson. "I am sure as anyone to see wages go down. 'Know, however, it is not wages that is the basic factor in the wage market. It is the demand for the immense producing capacity of the economy, get into line to sell goods at lower prices, the better for the workers. Wages may not go down much in the next few months. In the long run, they are bound to. No matter what happens to wages, the advantage now all lie with the factories and communities which are enjoying lower costs. The success is inevitable. The farmers have had their medicine in the way of deflation. Most business men have theirs. It is simply impossible that the working man alone out of our own working people should benefit more than his peak wage rates and at the same time have work. The fact that he is trying to do this largely accounts for the present stagnation in industry, and largely explains why the Babson chart indicates to register 12 per cent below normal. The gold what has happened to American wages, other operations are now making wage reductions, which will ultimately be to benefit to both stockholders and employees."

Church Services

Hansen Community Church.
Tom Blodgett, Minister.
10 a. m., Church school; Vance-Naylor superintendent.
11 a. m., Morning worship; Tom Blodgett will preach on the subject, "Paying Interest on God's Loan."
7:30 p. m., Prayer and praise service in the church parlors, led by M. D. Taylor.
8 p. m., Evening worship and song service; Tom Blodgett will preach on the subject, "Following God's Footprints."
8 p. m., Tuesday, orchestra rehearsal.
8:30 p. m., Tuesday, Tom Blodgett at the Murtaugh M. E. church.
2 p. m., Thursday, September 25, the Women's Community Council will meet in the church parlors.
8 p. m., Thursday, the Community chorus will meet for rehearsal.
8 p. m., Friday, September 19, the Women's Community Council will give a reception and special program for the school teachers of Hansen, Russell Lane, Excelsior and Bickel.

First Presbyterian Church.
A. G. Pearson, Minister.
9:45 a. m., Sunday school.
11 a. m., Morning worship; the Lord's Supper will be celebrated.

The Salesman Who is Acquainted with All of the Buyers

The man who is acquainted with all of the purchasers—not the man simply with a large acquaintance, but the man who knows the buyers of his line, is a very, very valuable asset to his firm.

Just so with a Newspaper.

When a newspaper reaches the buyer, it becomes, in effect the salesman of its advertisers. It not only tells the story of the Business Man's offerings to the Buyers, but it tells it in the places where it will do the most good, namely in the homes of the great majority of those people who are in the market for the best the market affords and who have the money with which to pay for it.

The News is sold on its merits as a newspaper to people who buy and pay for it, primarily, because they consider it worth the money.

Over 98 per cent of the readers of the Twin Falls News live within a radius of 33 miles of Twin Falls.

SENATORS GAIN LEAD IN LEAGUE

GIANTS AGAIN INCREASE LEAD

Washington Defeats St. Louis and Moves Into First Place When Tigers Trim Yankees.

ST. LOUIS, Sept. 19 (AP)—By hitting six Brown pitchers freely and taking advantage of four lucky breaks, the Washington team took today's game here, 15 to 9, and thus regained the undepicted lead of the American league due to the Yankees' defeat by Detroit.

The Senators started the game in hard hitting fashion, hitting Dixie Davis and Van Gorder from the box before the side was retired in the opening inning. Fourteen men of the visiting team faced the three Brown pitchers of this inning, in which the Senators scored nine runs. Two singles by McNeely, one each by Goslin, Rice, Harris and Judge, a double by Peckinpaugh, two passes, a hit batsman and McManus' lead throw to the plate gave the Senators a commanding lead of nine runs in the opening inning.

Two more runs were added in the fifth inning of four consecutive singles by McNeely, Rice, Harris and Goslin, a walk and a hit batsman. One more score in the seventh on a pass, a double and a sacrifice and two more in the eighth on singles and a double ended the visitors' score.

The Browns counted four of their runs in the fourth inning when McGriff was driven from the box and was relieved by Marberry. Four straight singles by Robertson, Slater, Williams and McManus, and Gerber's double produced the four runs. One each in the fifth and eighth and three in the seventh finished the Browns' run of scoring.

In all the visiting team collected 18 hits off six Browns' pitchers. It was the first time of the season Rerrett Leach was called on by Manager Sizemore in order to help stop the enemy's onslaught of base hits, after Davis, Van Gorder, Leach, Kohn and Grant had failed to hold the Senators.

New York Nationals Defeat Chicago While Pittsburgh Wins From Brooklyn.

NEW YORK, Sept. 19 (AP)—The New York Nationals again increased their lead to one and a half games here today, defeating Chicago by a score of 10 to 4, while Pittsburgh was defeating Brooklyn. The Giants got off to an early first run lead in the second inning when they knocked Blake out of the box.

After Blake retired Gowdy and Nohf, with the bases full, hits by Gron and Priesch, a pass to Young and another hit by Kelly, New York continued to hit hard and knocked out five more runs at the expense of Wheeler, Blake's successor.

Gron injured his right knee in the eighth inning when he slid into second base. While Gron was carried off the field it is not believed the injury is serious.

The score: R. H. E.
Chicago 4 10 1
New York 10 4 0
Batteries—Blake, Wheeler and O'Farrell; Nohf and Gowdy.

BROOKLYN LOSSES. BROOKLYN, Sept. 19 (AP)—Pittsburgh conquered Brooklyn today in the first game of the duel between these pennant rivals and advanced to within a game of the second place Indians. A crowd of 15,000 saw the Pirates win, 3 to 2, in a closely played game.

Emil Yeo was hit hard at times but twirled effectively in the pinches, aided by fine support and registered his fourth victory out of five starts against the Robins. Babe Ehrhardt started on the mound for Brooklyn, but retired after being shelled for six hits and three runs in four innings and Ernie Osborne held the Pirates in check for the rest of the game.

Brooklyn, besides contributing to their own downfall by loose play in the second inning, missed several road opportunities to score. The Robins knocked Yeo for four hits in the first, but the Pirates' defense held him out. The Robins' only run came in the eighth on a sacrifice by Wright on Brown's throw.

The score: R. H. E.
Brooklyn 2 13 1
Pittsburgh 3 2 0
Pitchers—Osborne, Benton, Dibat and Hargrave; Gahner, Betts, Giesinger, Bishop and Weinert; Wilson, Wendell.

ST. LOUIS WINS GAME. BOSTON, Sept. 19 (AP)—Clyde Day pitched his first game for the St. Louis Cardinals today, held Boston to six hits and won his game, 4 to 1. Hafe's general work was a feature as was the fielding of Horsey.

The score: R. H. E.
St. Louis 4 1 0
Boston 6 13 0
Pitchers—Day, Hafe, Horsey and Hafe; Hafe, Horsey, Hafe and Hafe.

UP FOR FINALS. FRENCH, Ind., Sept. 19 (AP)—Walter Hagen of New York, holder of the British open championship, and Jim Barnes, former national champion, are the finalists in the national play day of Philadelphia. Barnes, 7 and 5, finished first. Hagen today defeated and Barnes won from Harry Nabholz of Lima, Ohio, one up.

WASHINGTON NOW ONE GAME AHEAD Wins From St. Louis While Yankees Lose to Detroit; Percentage in Detail.

WASHINGTON, Sept. 19 (AP)—The Washington team today took a one-game lead over New York in the American league today by winning from St. Louis as the Yankees lost to Detroit. The Giants, by beating Chicago, increased their lead to one and one-half games over Brooklyn which lost to Pittsburgh. The Pirates are now one game back of the Indians and two and one-half behind New York.

The Senators' smothered six Brown pitchers for a 15-to-9 victory. The Yankees, led by the Tigers, 5 to 3, until the ninth when Jones was hit by a line drive, Dugan's hit threw the lead to the winning 15 to 9.

RAILROAD WILL BE OFFERED TO HIGHEST BIDDER

Rio Grande Western To Be Sold at Public Auction to Satisfy First Mortgage Creditors of Property.

DENVER, Sept. 19 (AP)—The Denver & Rio Grande Western railroad will be sold at public auction within 70 days under a decree of foreclosure signed today by Judge J. Foster Symes, of the United States district court. The upset price was fixed at \$17,955,700.

When Cass E. Herrington of Denver, who was named master of the sale, completes his work, it will be the second time the railroad property has been sold on the block to the highest bidder. On November 20, 1920, the road—then known as the Denver & Rio Grande railroad—was sold to satisfy a judgment against it held by the Western Pacific and was reorganized by interests affiliated with the Denver & Rio Grande Western railroad. Under this reorganization, \$87,775,670 in preferred and common stock was wiped out.

Of the upset price, as decreed today by Judge Symes, six and one-half million dollars will have to be paid in cash to take up the outstanding receiver's certificate issued to pay for the operation of the road since it has been in the hands of a federal receiver. Under a reorganization plan recently approved by the interstate commerce commission, it is expected the road will become the joint property of the Missouri Pacific and the Western Pacific railroads.

The foreclosure which resulted in today's order that the road should be sold was brought by the New York Trust company and the Bankers Trust company of New York as trustees for holders of first mortgage and refunding bonds amounting to \$38,000,000.

The road, which is located in Colorado, New Mexico and Arizona, is one of the most important in the West. It carries a large volume of freight and passenger traffic.

The road is one of the most important in the West. It carries a large volume of freight and passenger traffic.

SEVEN RIDERS STILL IN CONTEST AT END OF FOUR-DAY GRIND

BOISE, Sept. 19 (AP)—Seven riders remained in the 300-mile endurance ride, being run in connection with the Idaho Pageant of Progress, at the close of the fourth day's ride when the riders had covered 240 miles of the required distance. Tomorrow's ride will mark the close of the race. The contest will be changed for tomorrow's ride so that the contestants will finish in front of the grandstand at the barracks polo field where the gymkhana will be under way.

All of the riders today finished within 15 minutes after the allotted time of nine hours, showing that the horses remaining in the race are holding up in good shape. No contestant finished on the "scratch" this afternoon.

WYOMOUTH RESIGNS POST. WASHINGTON, Sept. 19 (AP)—The resignation of F. E. Weymouth, who, as chief engineer of the bureau of reclamation, has been in charge of thousands of "reclamation" workers in the west for the last four years, was announced today by Commissioner Edward M. Nease. He is quitting to accept private employment.

IN DENVER EIGHT YEARS. DENVER, Sept. 19 (AP)—Frank E. Weymouth, chief engineer of the bureau of reclamation, with offices in Denver, who today resigned from the service, has been a resident of this city for the last eight years. He is 47 years old.

It is understood here that Mr. Weymouth, who is now in the east, tendered his resignation in order to enter the employ of an airplane mapping concern in Philadelphia.

Mr. Weymouth has been with the reclamation service since its organization, 22 years ago. He entered the service as chief of construction and was made chief engineer in 1921.

In the 22 years he has been identified with the reclamation service, Weymouth mapped countless reservoir sites, canal routes and tracts of irrigable land and supervised construction of many dams, including the Arrowrock dam in Idaho, the highest in the world.

VALUABLE INFORMATION. WISCONSIN, Sept. 19 (AP)—Information which will be of great value to navigators the world over was obtained by the MacMillan expedition into the far north, Captain Donald B. MacMillan, explorer, said on his arrival tonight at Monhegan island, 32 miles from his home port.

FORBES TO STAND TRIAL

Former Veterans' Bureau Head Expires Demurrer to Charges Which Is Overruled by the Court.

CHICAGO, Sept. 19 (AP)—United States Judge George A. Carpenter today overruled the demurrers of Colonel Charles H. Forbes, former director of the veterans' bureau, and John W. Thompson, Chicago and St. Louis contractor, to indictments charging them with conspiracy to defraud the government and to commit bribery. At the request of the defense he deferred until October 14 disposition of a motion of the government for consolidation of the conspiracy cases, but declared "the inclination of the court is, unless I am advised to the contrary, that if we carry this in one case it is better than to do it twice."

The date for trial will also be set October 14.

BAD WEATHER HELPS

BOOST WHEAT PRICE

Rains interfering with threshing and crop movement in Canada and Northwest; averages are higher.

CHICAGO, Sept. 19 (AP)—Rains and colder weather that interfered with threshing and the crop movement both in the Canadian Northwest and Montana tended to make wheat prices today average higher. Closing prices here for wheat were firm at the same as yesterday's finish to 3 1/2c up; No. 1 center \$1.33 3/4 to 1.37 7/8 and No. 2 \$1.29 5/8 to 1.33 3/4, with corn unchanged to 3 1/2c down; oats varying from 1 1/4c decline to 3 1/2c advance, and provisions unchanged to a rise of 1/2c.

In turn in the wheat market were associated with gossip that serious delay to the crop movement in Canada would be likely to increase the export buying of wheat in the United States. In this connection it was pointed out that only 2,129,000 bushels of wheat were delivered at Canadian country elevators yesterday as against 5,297,000 bushels a year ago and that just 320 carloads arrived at Winnipeg, a far cry off of about 100,000 bushels compared with the corresponding date last year. Talk was also current that the quality of Canadian wheat this season is below the usual standard, and that prolonged moisture would render the situation worse.

Export buying of wheat today although apparently rather slow, proved to be of sufficient volume to offset buying sales and it was said that DuPont No. 1 Northern wheat was much cheaper than any Canadian wheat at present available. Besides trans-Atlantic shipments from this country by way of the Gulf of Mexico continued heavy and reports emphasizing Indo-

quay of food supplies in France attracted considerable notice.

Corn and oats were relatively weak, influenced more or less by reports of a little improvement of crop conditions over the northern portions of the belt. The forecast, however, was for wet and cooler weather.

Packers' buying of hogs gave firmness to provisions.

Gems of Architecture

in India and Italy

Taj Mahal is the costliest private tomb in the world, and was built by the Indian ruler Shah Jahan as a final gift to the memory of his favorite wife, Mumtaz-Mahal, the "price of the palace." This mausoleum, which is accounted by some critics to be the most beautiful building ever constructed, is one mile east of Agra, and its erection covered a period of 21 years, starting in 1629 and ending in 1648. It is built entirely of white marble, and is believed to have cost over \$100,000.

</

NOTED ARCHITECT IS A VISITOR HERE

Owner of Shoshone Falls Site
and T. R. Kimball Will Look
Over Ground.

T. R. Kimball, past president of the American Institute of Architects and one of the foremost architects of America, arrived here Friday with R. J. Adams, owner of the Shoshone Falls site, for the purpose of looking over the ground with the possible purpose of building a hotel and amusement center there. Mr. Adams and Mr. Kimball are guests at the Perrine hotel and Friday evening said that they would spend the entire day Saturday at Shoshone falls with the object in view of possibly later building there.

Mr. Kimball is rated as one of the best architects in America and was brought to Twin Falls for the purpose of looking over the Shoshone falls site where Mr. Adams may later build. Just what the plans are for the falls was not disclosed, but it is known that a plan is on foot to interest Twin Falls citizens in an amusement center there. Mr. Kimball's position of being past president of the American Institute, is president of the Association of Professional Men's Clubs of America, and adviser to the building committee of the new state capitol at Lincoln, Nebraska, which position is reported by him as causing a great deal of discussion among architects due to its unique design.

CAPT. LONGLEY HONORED

Former Twin Falls Resident Elected President of Iowa Regiment Association, Its Department Commander.

CECIL RAPIDS, Iowa, Sept. 19 (AP)—Charles L. Longley of Boise, Idaho, department commander of the O. A. R., today was elected president of the Twenty-fourth Iowa Regimental Association, which met here.

Captain Charles L. Longley is well known in Idaho, having been a resident of Twin Falls for a number of years prior to his removal to Boise, some two years ago, to accept the position of federal assayer.

He is the father of Mrs. Emma L. Warren, county treasurer, and of the late C. O. Longley, a prominent attorney of Twin Falls county, who died here a few years ago.

BAKERS HURT IN ACCIDENT.

Mr. and Mrs. B. A. Baker, former residents of Twin Falls, and now living at Los Angeles, have been injured earlier in the month in two accidents at their home, according to reports reaching here. Mrs. Baker fell downstairs September 6 and broke her left arm in two places and dislocating the wrist. September 11 Mr. Baker was papering one of the apartments of the apartment house he is managing and fell from the staging breaking his left leg just below the knee. Small pieces of the bone was broken off and an operation was necessary later.

Both Mr. and Mrs. Baker are reported improving at the present time.

ANNOUNCEMENTS

The Joint Americanization committee will hold its first meeting for the year on Saturday afternoon at 3 o'clock in room 101 of the high school building. Business of importance will come before the committee regarding this year's work.

BRYAN TO BE GUEST AT BLUE LAKES; WILL SPEAK AT LAVERING

Famous Lecturer and Campaigner to Spend Time Before Address at Home of Mrs. I. B. Perrine.

William Jennings Bryan, who will speak at the Lavington theater on Sunday afternoon is expected to spend a few hours at the Blue Lakes ranch prior to the lecture, the guest of Mrs. I. B. Perrine.

Mr. Bryan will leave the early morning train at Shoshone, motor to Blue Lakes and remain there until just before the lecture. He will leave immediately afterwards for Pocatello where he has a speaking engagement the same evening.

Arrangements have been made for a choir of about 50 voices from the various churches of the city. The program will begin at 3:30.

FIELD TRIALS FOR DOGS WILL BE HELD SEPT. 21 AT JEROME

The fourth annual meeting of the Southern Idaho Field Trial club will be held at the Newman home ranch on the highway east of Jerome Sunday, September 21, it was announced Friday by M. Izetta McCoy, secretary and treasurer of the club. Many dogs will take part in the field trials, according to announcement from outside points, and the meeting is expected to develop some keen competition.

The meeting will include a membership derby and all-age and open derby and an all-age with special stakes derby for the best Irish setter, Gordon and Griffon breeds. Any one may enter a dog by paying the required fee, according to the secretary.

A meeting will be held Saturday evening at 8 o'clock at the Twin Falls Chamber of Commerce rooms at which time a drawing for placement will be held.

Fruit Inspection.—Edgar V. Gippson arrived from Caldwell to assume charge of fruit inspection for this district, under the department of agriculture of the state. He succeeds H. T. Blake, who has been inspector here for the past year, and resigns to take a position as manager of the Bean Growers' association.

G. O. P. Women Meet.—Addison T. Smith, congressman from Idaho, was the speaker at the Republican Women's club meeting held Thursday evening at the high school auditorium which was attended by approximately 40. Congressman Smith in his address told of the steps that are being taken by the government to relieve agricultural conditions. He also predicted a much

Freeze Indicated By Mercury Drop

The thermometer continued to drop steadily Friday evening and at a late hour indications pointed to a freeze unless conditions changed. At 8 o'clock the mercury had dropped to 37 degrees which was one degree lower than for the low mark of the previous 24-hour period which was 37. High mark for the day also went down and maximum for the day was 66, as compared with 66 for the preceding day. For the day before that the maximum reached was 79 degrees and not 9 as was printed.

worse condition if the republican administration was not kept in office. Miss Suzanne Taylor sang two solos at the meeting.

JURY FINDS JURKO GUILTY OF MURDER

(Continued from page one.)

citizen that he was out to show how yellow Jurko was. It was this evidence offered the second day of the trial which led many to believe that the jury would not return a verdict of first degree murder.

Vandenberg Had Gun.

In testimony offered by the defense Friday morning it was testified that Vandenberg had entered the office of Dr. W. H. Wilson and to him declared that he was packing a gun for Jurko. The state placed on the stand several witnesses testifying as to the whereabouts of Vandenberg on the day of the shooting, which the court was given to understand was the day before the defendant had appeared at the home of the defendant and attempted to get Mrs. Jurko to leave him. The defense sur-rebuttal maintained that testimony of Mrs. Jurko and her husband had shown that the visit of Vandenberg had been made on the day before the shooting.

Following the testimony of witnesses for the defense and the prosecution, J. W. Taylor, prosecuting attorney, presented his argument to the jury as to why the verdict of first degree murder should be returned. He was followed by Homer C. Mills, of counsel for the defense, who was in turn followed by W. P. Guthrie. Mr. Guthrie in his argument declared that attempts had been made by Vandenberg to break up Jurko's home and that he shot in self-defense.

The jury after hearing arguments for defense and state and receiving instructions from the court, retired shortly before 4 o'clock Friday afternoon to deliberate on their verdict.

"I believe I made perhaps the best effort of my life in the way of defense in a criminal case," said W. P. Guthrie following the reading of the verdict to a news reporter. "We gave our best efforts and, naturally, the verdict comes as something of a shock. This is the only comment I care to make."

ARTILLERY BOMBARDMENT.

STANGHAI, Sept. 20, 11 p. m. (AP)—There was a sharp resumption of artillery bombardment at 5 o'clock this morning in the battle area between the Shanghai-Nanking railway and Kiating, west of here, as the Kiangsu army is victoriously attacking the Chekiang line defending Shanghai.

WEATHER AT OTHER POINTS.

IDAHO FALLS, Sept. 19 (AP)—The thermometer was at 39 here today morning and snow fell in many parts of the city completely covering the ground in some sections.

POCAHELLO, Sept. 19 (AP)—The thermometer was down here today morning and snow fell in many parts of the region. Snow covered with snow for the first time this year.

LARAMIE, Wyoming, Sept. 19 (AP)—Four inches of snow fell at Snow Lake, near here, yesterday, according to advice from Laramie. It was so cold at Sand Lake that running water froze.

BUTTE, Mont., Sept. 19 (AP)—The first snow of the season fell in Butte late this afternoon.

MCGRAW REINSTATED.

NEW YORK, Sept. 19 (AP)—John J. McGraw, manager of the New York Giants, has been reinstated to honorary membership in the Lambs, one of the leading theatrical clubs from which he was expelled three years ago after a series of fist fights with fellow members, according to an announcement today by A. O. Brown, shepherd of the Lambs.
