STONE BEGINS  
INQUIRY INTO  
LEAGUE CHARGEAttorney General Orders As-  
sistants Probed of Philadelphia  
Body That Political Corrup-  
tion Exists.

WASHINGTON, Sept. 26 (AP)—Attorney General Stone has begun an inquiry into charges of "political corruption among federal office holders in Pennsylvania, and has invited William E. Nicholson, Jr., secretary of the law enforcement league of Philadelphia, who made them, to come here to present his evidence.

Mr. Nicholson made the charges, the details of which were not disclosed here, in a communication received yesterday by the president. The president turned over the correspondence to Attorney General Stone and the latter after having department officials examine the charges, sent a telegram to day to Mr. Nicholson asking him to bring "responsible" officers of the league to talk over the alleged corruption.

## Date Unannounced.

No date was announced by the attorney general for the conference. He said, however, he would meet the league officers at any time they might see fit, and expressed a wish that they present all evidence bearing on the charges when the conference is held. He announced in a formal statement that he was prepared to take such appropriate action as the facts warranted.

None of the correspondence on the subject was made public. It was said in some quarters that Mr. Nicholson's communication asked the president to take a hand in a controversy between Mayor Kendrick of Philadelphia, and his director of public safety, Brigadier General Smalley D. Butler. It has been freely reported that the mayor soon would request General Butler's resignation and the Law Enforcement league is opposing that action.

## A FOOLISH MOVE.

PHILADELPHIA, Sept. 26 (AP)—Joseph M. Steele, president of the Law Enforcement league of Philadelphia, tonight characterized as a "very foolish move" the telegram sent by William E. Nicholson, secretary of the league to President Coolidge in which it was stated the league had evidence of political corruption by federal office-holders in Philadelphia and which urged the president to use his influence in averting the reported threatened dismissal by Mayor Kendrick of Brigadier General Smalley D. Butler as director of public safety.

GENERAL SAWYER  
IS LAID TO RESTMrs. Harding Attends Services  
for Husband's Physician Held  
at Marion.

MARION, Ohio, Sept. 26 (AP)—With simple solemnity Brigadier General Charles E. Sawyer, friend and physician of Warren G. Harding, twenty-ninth president of the United States, was buried in Marion cemetery today while the widow of the man whose health he had guarded looked on with lips tight in grief.

It was the second great sorrow in a year for Florence Kling Harding. For two years ago and six Dr. Sawyer had been medical adviser to the Harding family. Mostly his mission had been to keep Mrs. Harding well, and she has made her home at White Oaks, the Sawyer sanitarium, since her husband's death.

Marion cemetery today, with the sunshine filtering through the branches of its stately trees to make a mosaic of brightness on the ground beneath, might have been witnessing a re-enactment of that sorrowful scene of a little more than a year ago.

Now, as then, the black-clad figure of Florence Kling Harding leaned heavily on a friendly arm while she watched the grave receive its dead. Now, too, there was that feeling in Marion that a true friend and neighbor of all had gone. All that was lacking was the vast crowd, instead of tens of thousands there was a silent hundred or more.

Gigantic Dirigible Is Ready to  
Cross Atlantic to America

FRIEDRICHSHAVEN, Germany, Sept. 26 (AP)—The Zepppelin ZR-3 is ready to start her trans-Atlantic voyage to Lakhurst, N. J., within three or four days. The date of departure probably will be decided after a conference between the American commission and the Zepppelin officials it was announced today after the dirigible had completed a successful flight of 2000 miles over Germany and the Baltic sea which lasted nearly 24 hours.

Dr. Hugo Eckener, director of the Zepppelin company, who commanded the dirigible said the motors had worked

perfectly and the ship's behavior met all expectations. Lieutenant Commander Garland Fulton, who has been observing the construction of the dirigible for the United States navy, and who was a passenger on the flight over Germany, said tonight:

"There are certain technical details and reports on such tests as how much gasoline per mile. The ZR-3 consumes which will not be submitted to us until tomorrow. It appears probable that after a conference with the Zepppelin officials tomorrow we may be able to set a definite date for the departure for America."

COURT REFUSES  
PARTY PETITIONFail to Grant Request That  
Progressive Electors Names  
Appear on Ballot.

SAN FRANCISCO, Sept. 26 (AP)—A petition for a rehearing of the court's decision denying the LaFollette electors in California a place on the November ballot was denied today by the state supreme court.

The order of denial was unaccompanied by any opinion or comment. It was signed by Chief Justice Myers. Three dissenting orders were handed down by Justices Lawlor, Sowell and Leron, but the order signed by Justice Myers represented the majority of the court.

The order acts to invalidate the petitions filed yesterday with six county clerks to place the LaFollette electors on the California ballot. The petitions had been filed in anticipation of a decision from the court favorable to the candidacy of the Wisconsin senator.

The LaFollette campaign managers here said that they would make a statement on the situation later.

The issue in regard to the LaFollette electors was first raised when the county clerk of Marin county refused to permit the filing of a petition to place such electors on the ballot on the ground that they had not been selected through a party organization and the law was ambiguous as to how they should be elected otherwise.

Veterans Hospital  
To Remain at Boise

BOISE, Sept. 26 (AP)—Assurance that there is no intention on the part of the United States veterans bureau to close or in any manner reduce the operations of the Boise barracks hospital, was brought from General Frank T. Hines, bureau director, by Lester F. Albert, Idaho American Legion adjutant, who interviewed the director personally at the national convention of the legion in St. Paul. The adjutant attended the convention as an Idaho delegate.

## ROBBED OREGON STORE

NAMPA, Sept. 26 (AP)—Police today awaited the arrival of a man from the office of the sheriff at Baker, Ore., who is to take back J. Raymond, alias Jackson, to answer to a charge of robbing a store at Haines, Ore.

Raymond is said to have taken a large amount of clothing, which he peddled to laborers here. The police recovered ten of the watches in his room at a hotel and on the persons of men who had purchased them from Raymond, five vests and much other loot.

## WILL BUILD SPUR TRACK

BOISE, Sept. 26 (AP)—Construction of a spur track at Black Lake, in Kootenai county, by the Oregon-Washington Railroad and Navigation company, was ordered today by the public utilities commission.

The case came before the commission on the petition of citizens of Black Lake, who said they had no facilities for loading cars. The petition was filed July 10, 1924. A hearing was held there Sept. 22, 1924, and the order was issued today.

CAPITAL CITY  
HAS MYSTERY IN  
TUNNELS FOUND

Washington All Astir Over Discovery of Network of Underground Passageways Just Reported.

WASHINGTON, Sept. 26 (AP)—The capital city hummed tonight with unrestrained excitement over a little mystery all of its own—the discovery of a network of underground tunnels or a labyrinth of catacombs, in the exclusive northwest section of the city.

Sophisticated to a point where it can toss off without batting an eye, the most choice scandals congress can offer, Washington nevertheless, frankly admits excitement over the underground passages. Speculation has evoked many stories. Some credit German spies with building the works, others connect it with civil war days, while still others describe it as the rendezvous of unscrupulous plotters. But Washington awaits the explanation.

## Wheel Breaks Through.

This much is known, the tunnels were discovered yesterday when a truck wheel broke a hole in what appeared to be just plain earth. Some one entering this hole found it dropped into a passageway about four feet wide and seven feet high. The passageway was lined with brick. This tunnel leads in one direction for several yards only to end in a concrete barricade, which apparently has replaced an old wooden door that once opened on a terrace. Another passageway several yards in length comes to an abrupt halt when it approaches the foundation of an apartment building. Apparently this passageway then descends but is blocked with rubbish and debris.

A third tunnel starts near the rear basement door of a private dwelling. It can be traversed about 10 yards when loose earth and bricks prevent further passage. A passageway led

(Continued on Page 5, Col. 3)

Senator Borah to  
Discuss Political  
Issues in Capital

Meeting Held Under Auspices of North Boise Grange; Candidate for Re-election.

BOISE, Sept. 26 (AP)—Political issues in the forthcoming campaign will be discussed by Senator William E. Borah, republican candidate for re-election, at a meeting in the high school auditorium Monday night at 8 o'clock. The meeting is being held under the auspices of the North Boise Grange.

GENEVA UNEASY  
OVER JAPANESE  
PLAN ON COURT

Situation Delicate With Regard to Proposed Amendment Offered; Bears on Immigration Problems.

GENEVA, Sept. 26 (AP)—A somewhat delicate situation has arisen in the peace discussions at Geneva, growing out of a proposed amendment to the protocol of arbitration offered by the Japanese. This in effect called upon the council of the league of nations to endeavor to conciliate and mediate in disputes between countries, even if the world court of justice previously had ruled that the disputes have arisen over matters which were solely within the domestic jurisdiction of the states involved.

The situation is delicate because all of the delegates interpret the Japanese amendment, which was subsequently withdrawn, as referring to the problem of immigration, and hence especially interesting to such countries as the United States, Canada, Australia and New Zealand.

## Reservations.

In withdrawing the amendment, M. Adachi, the Japanese minister to Belgium, said that in consequence of the attitude of the disarmament commission, he would have to make express reservations concerning the whole of the protocol of arbitration and security which is now being drafted. A private meeting of several of the delegates, including the Japanese, was called for late tonight in an endeavor to reach a compromise agreement satisfactory to the parties.

Article V of the proposed protocol, as newly drafted, declared that, if in the course of arbitration proceedings, one of the parties claims that a dispute arises over a matter which by international law is solely within the domestic jurisdiction of the party, the arbitrator shall, in this case, take the advice of the world court of justice through the intermediary of the council of the league of nations.

## Is Binding.

It adds that the court's opinion shall be binding on the parties and that the arbitrators shall confine themselves to so declaring in their award. This article has extreme importance, because a subsequent article of the protocol declares that any state shall be regarded as an aggressor and hence subject to punitive sanctions if it disregards an arbitral award recognizing that a dispute concerns a question which is solely domestic in character. M. Adachi's amendment was that the provisions of Article V should leave unaffected the council's duty of endeavoring to conciliate the parties in dispute, so as to avoid the maintenance of peace and of good understanding between nations.

## LOW GASOLINE COST.

OMAHA, Neb., Sept. 26 (AP)—A sign—"Gas 8 1/2 Cents Per Gallon"—will hang from the Peoples gas station here until after Christmas, the proprietor, H. O. Churchman, announced today. This is a reduction of 1 1/2 cents from the station's recent price which was the lowest in Omaha.

## ISSUES PROCLAMATION.

BOISE, Sept. 26 (AP)—Governor C. O. Moore's proclamation calling a general election in Idaho on the Tuesday following the first Monday in November, was issued today. In issuing the proclamation the governor is complying with the constitution and laws of the state requiring such action.

Notorious Bandit Who Escaped  
Gallows by Silence Is Dead

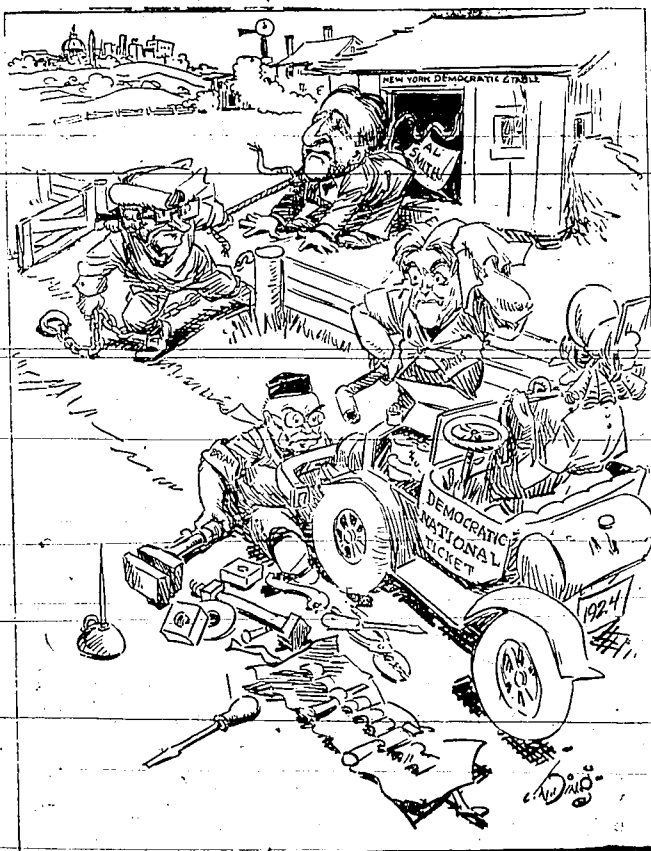

STOCKTON, Cal., Sept. 26 (AP)—"Silent" Carson, former notorious bandit, is dead. He died maintaining the silence he had preserved for 15 years and which had saved him from the gallows.

Charles Carson, whose real name was Corcoran, had a long prison record beginning in New York, when he was nine years old. Other terms he was followed—Writhe as he did in the Federal penitentiary in 1907, he was one of seven convicts who captured Captain J. R. Murphy and Guard Jolly and used them as shields in an attempted escape. Murphy and Jolly, as well as all of the convicts, were wounded, four of the prisoners fatally.

Carson was sentenced to be hanged for his part in this affair and in September, 1909, while occupying a cell in the condemned row, awaiting execution, he suddenly stopped talking. No intelligible word ever was heard to pass his lips again. He was subjected to many tests by alienists and finally in January, 1915, was declared insane and committed to the hospital for the insane here, where he died Wednesday. The insanity verdict provided that if he recovered his sanity the sentence of death would be carried out.

Even the announcement in February, 1917, that Governor Hiram W. Johnson had commuted his sentence, in case of recovery, to life imprisonment, failed to bring a single syllable from him. At the hospital he was considered a prisoner. He played cards, read papers, and even composed several poems said to possess unusual merit.

# Tax Exempt Bonds Will Break Farmer, Prophesy

Roger W. Babson, Famous Statistician, Sees Danger in Further Increase in Non-Taxable Paper.

BABSON PARK, Mass., Sept. 26.—"Whether or not state, county, city and town bonds will continue to be issued as tax exempt securities, only the future can tell; but unless their rate of issue is curtailed, taxes necessary to pay interest and retire them will bankrupt the farmers of the country," said Roger W. Babson in an exclusive interview today.

"The present increase in taxes which results from the demand for these non-taxable bonds is raising havoc with land values, the cost of farm products and rural conditions in general," says the statistician. "Thus for tax exempt municipal bonds have had the worst record of any class of securities, but wise investors are now purposely putting a portion of their funds into taxable corporation bonds. They believe that if this wild issuing of state, county and municipal securities continues, taxpayers will ultimately revolt and defaults will follow. It is an old proverb, 'Trees do not grow to the skies.' For the same reason taxes cannot continue to increase indefinitely without causing trouble."

**Real Cause.**

"The real cause of this recent increase in such taxes," continued Mr. Babson, "is the great increase in road building, due, of course, to automobiles. Automobiles are all right and the industry is here to stay; but we must not go too far. If we do we will kill the goose that is laying the golden eggs. Considering that all roads were rough and muddy only a few years ago, we should be satisfied with a reasonable improvement from year to year."

"We will have all concrete, asphalt, brick and other hard surfaced roads in due time; but let us have them with moderation. It might be well to remember our cloth before we form too many road districts and blindly sell bond issues which are to be a burden on our children and grandchildren. There is no sense in struggling and economizing to save money for our children with one hand, while we burden them with debt with the other."

**Consider Upkeep.**

"In deciding whether or not to issue bonds, a community should not be content to consider merely the amount of the bond issue. The first cost of a white linen suit may be less than that of a dark one; but after a few years the bills are paid, it will be found that the 'cheap linen suit' may have cost \$100. The same principle applies to the spending of money for public improvements. A county may well afford to spend \$10,000 to eliminate a dangerous railroad crossing which when built is done forever."

"The same county may, however, not be justified in spending money for surfacing a road if a continual annual expense will be required to maintain this road after built. The original cost of a highway is like the \$2 which the colored gentleman gave the minister for marrying him. It was only the 'tu' at cost. I believe in good roads the same as I believe in good churches, good schools and other good things."

**Too Many Institutions.**

"Not there can be too many churches and too many schools. The great need of life is for us to have all things in their proper proportion according to our income and requirements. Moreover, we should use special care when spending borrowed money. Debts can be multiplied by the use of credit."

"All of this means," concluded Mr. Babson, "that we should more carefully consider our state, county and municipal expenditures. There is only so much money in the country and this can be used either for paying taxes or for building houses and buying clothing for the children. It is well enough to go into debt to a limited amount for certain things; but let us not mortgage our future just to supply rich men with non-taxable bonds. Prosperity comes with a proper distribution of our labor and purchases. Let us begin at once to give less money to the tax collector and give more to the local merchants who are the backbone of American prosperity. Then the Babson chart should reflect an improvement in general business activity which is now running at 9 per cent below normal."

**Led in Use of Iron**

Either the ancient Assyrians or Egyptians were the first to use iron. The earliest pieces of iron now known came from Egypt, but it is probable that the Assyrians were the first to use the metal freely in the manufacture of tools, weapons and ornaments.

**Diplomat and Translator**

Jeremiah Curtin, whose excellent translation of Shakespeare's works has much to popularize the writings of the great English novelist, was secretary to the United States legation in St. Petersburg, Russia, from 1893 to 1897.

**Inseparable**

Toll and pleasure, for their nature is linked together in a kind of necessary connection.—Livy.

## Church Services

**Twin Falls Mission.**  
E. Paul Worcester, Pastor  
Res. 535 Main Ave. E.  
230 Third Ave. E.  
Sunday school 10 a. m.; preaching 11 a. m.; evening praise service 7 p. m.; Preaching services 7:45 o'clock p. m.; midweek meetings Tuesday and Thursday, 7:30 p. m.

**First Church of Christ, Scientist**  
160 Ninth Ave. E.  
Sunday service 11 a. m. Lesson: "The Reality."  
Sunday school 10 a. m.  
Testimonial meeting on Wednesday evening at 8 o'clock.

**Marion Community.**  
Sunday evening at 7:30 the Rev. D. H. Harte, superintendent of Presbyterian Home mission in several of Idaho, will speak. All are invited.

**The Church of the Ascension (Episcopal)**  
Rev. Louis P. Nielsen, rector.  
Fifteenth Sunday after Trinity.  
Holy communion, 8 a. m.  
Church school, 9:45 a. m.  
Morning prayer, 11 a. m. Prof. A. M. Locker of Chicago will speak.  
Confirmation instruction, 7:30 p. m.  
Bishop Fox of Montana will visit the parish and administer the rite of confirmation on Sunday morning, Oct. 20.  
Monday is the Feast of St. Michael and All Angels. There will be a celebration of the holy communion in the church at 10 a. m.  
The guild will meet Thursday afternoon with Mrs. James R. Bothwell.  
Confirmation instruction on Friday afternoon at 4 o'clock.

**First Presbyterian Church**  
A. G. Pearson, minister.  
Sunday school 9:45 a. m. John Felt, superintendent. This will be a rally day and classes are to be promoted.  
Morning worship, 11 o'clock. Mrs. Gilliland of Pocatello will sing "My Doubt and My Lord" by Dudley Buck. The pastor will speak on "The Lamb Without Blemish."  
Union meeting of the intermediate and senior Christian Endeavor societies at 6:15 p. m. Miss Ege, formerly of the Wesley Memorial hospital, Chicago, will speak.  
Evening worship at 7:30. Prof. A. M. Locker will deliver an address. Professor Locker is a Sunday school expert.

**Lutheran Church**  
Third Ave. West and Fifth St.  
John Gehring, pastor.  
Sunday school at 9:45 a. m.  
Morning worship 10:30 a. m. Text: Galatians 6:14.  
Evening services 8 o'clock. Text: Gospel lesson for St. Michael's day, Matthew 18:1-11. Topic: "Who is the Greatest in the Kingdom of Heaven?"

**Nazarene Church**  
Labor Union Hall.  
C. P. Ellis, pastor.  
Hungarian Apartments No. 10  
Preaching Sunday 12 a. m. and 7:30 p. m.; also Tuesday evening at 7:30. Praise and prayer Friday at 7:30 p. m. Sunday school 9:45 Sunday morning. We will soon begin revival meetings.

**Christian Church.**  
O. D. Harris, minister.  
Church of the Christian community, 10 to 12 a. m. Prominent exercises with appropriate program. Dr. A. M. Locker will be present to give a short address in the religious educational part. The sermon will be the last in this special series on the topic "The Mark of an Advancing Church." Anthem by the choir "O Saviour of the World" by St. John Deane; solo by W. S. Miller. "O Lord Be Merciful," by Bartlett. The junior congregation meets at 11 o'clock.

Christian Endeavor at 6:30 and worship at 7:30. Sermon by the pastor, "The Master's Touch," Duet Mrs. W. A. Patrick, L. L. Patrick, "Near Us; Ever Near Us," by Franz Abt.

**St. Edward's Catholic.**  
Reni S. Keyzer, pastor.  
Masses Sunday 8 and 10:30 a. m.  
Masses holidays 6:30 and 9 a. m.  
Sunday evening services 7:30.

**Methodist Episcopal Church**  
H. G. Humphrey, pastor.  
Sunday school at 10 o'clock.  
Preaching service at 11 o'clock. Sermon subject, "Home Religion."  
Epworth League at 6:30. Preaching at 7:30.  
Sermon subject, "The Test of a Christian."

**Baptist Church.**  
Laymen's Sunday.  
Throughout the Northern Baptist convention all churches will observe laymen's Sunday, September 28. The services of the local church will be conducted by the laymen. There will be special music and brief addresses on vital church topics. The newly elected officers will be installed. Action will also be taken concerning the calling of a pastor.

Bible school at 9:45 a. m. The laymen's program will begin at 11 a. m.  
B. V. P. C. at 6:15 p. m. Mr. Lee Shotwell, president.  
Preaching at 7:30 p. m. Subject: "The Power of Crime."  
The church business meeting of the church will be held on Wednesday evening at 7:30. Reports from all departments will be given.

**Future Possibility**

Waste power now tumbling over Victoria falls, Africa, may be run through machinery in New York and Chicago when the present plans for power transmission without wires are perfected.

## ADMIRERS BARRED THEM GIRLS ELOPE

Above: EMILY WINTHROP. Below: KATE WINTHROP.

GREENVILLE LINDALL WINTHROP, wealthy philanthropist, took to his bed and doctors were summoned when his daughters, Emily and Kate, eloped with a chauffeur and an electrician from their mansion near Lenox, Mass. Emily became Mrs. Corey Lucien Miller, wife of her father's chauffeur, and Kate married Darwin Spurr Morse, a young electrician. The young women had been virtually shut up in their home because of their father's desire that they refrain from wedding.

## Theatres

**AT THE IDAHO.**  
"The Alaskan," James Oliver Curwood's stirring novel of the far north, which Willis Goldbeck adapted to the screen, forms the basis of "The Double Scandal," which comes at the Orpheum theater tonight. The story by Frederick and Fanny Hatton, deals with a western wire repairman for a big mountain power company.

In the cast with the western star are Kathleen Key, Earl Fox, J. G. Davis, Howard Truesdale, Frank Currier, Mike Donlin, one time big league ball player; Doores Rouse, Charles McHugh and Al Freeman.

**First Libraries**

Children libraries are said to have been founded as early as 1700 B. C. Diodorus Siculus describes a library in the tomb of Gergamius, 1500 B. C. The first public library was founded in 540 B. C.

**Begin With the Boy**

If you are going to do anything permanent for the average man, you must begin before he is a man. The chance for doing good lies in working with the boy and not with the man.—Theodore Roosevelt.

## THE GUMPS—R. F. D. NO. 1

## GERMANS SOUND OUT ALLIES ON LEAGUE PLANS

Scouting Expedition With View of Joining Body Will Be Brought to Close; Want to Know What Standing Will Be

BERLIN, Sept. 26 (AP)—The German government's diplomatic scouting expedition, which is to establish the attitude of the present members of the council of the league of nations regarding the conditions under which Germany will be permitted to apply for admission will be brought to a speedy close by Foreign Minister Stresemann.

Pursuant to conclusions reached at Tuesday's ministerial council, the foreign minister is now hurriedly preparing a draft of a memorandum which is proposed to be communicated to the Berlin missions of the ten powers involved the points on which the German government desires enlightenment in respect to guarantees believed indispensable for final consideration of her entry into the league. It is expected that the memorandum will be in the hands of the powers' representatives this week.

The diplomatic action now in course of preparation was duly authorized by the cabinet and will be launched through the customary diplomatic channels. While no reference is being made in advance to the textual content of the memorandum, it is understood that the communication will be in the nature of a polite, frank questionnaire covering issues which have already been partially reflected in the government's communiques.

## TOURIST PARK NOTES

Within the past week, three families who have been guests in our park, have either bought or rented property, and have added a round dozen to our population. Another party from Chicago are headed for the coast, but are strongly inclined to return to Twin Falls as a final abiding place.

John McLean and a friend have been down in Nevada for some time and are now going home via Portland.

Mr. and Mrs. J. B. Cheney from Lima, Mont., are moving to Portland.

E. M. Elver and party are returning to Burr Oak, Kans., from a tour through Oregon and Washington.

Mr. and Mrs. C. P. Dean have grown tired of city life and are looking for a home in the west. After living 11 years in Chicago they wish to get closer to nature, and are going to the coast—before settling down. They were so well pleased with this valley that they will probably come back.

C. C. Clifford and party from East Bethel, Vt., are seeking a warmer climate, and will try California for the winter.

P. W. Richter and family from East Northport, N. Y., have done the west and are going back to Long Island.

RETURNING TO COLORADO TO ANSWER TO WIFE DESEDITION

Charles Wohler, employed recently in construction work on the Rogerson-Wells railway, who was arrested upon request of Colorado authorities, will return with Deputy Sheriff L. C. Kellogg of Denver, who arrived here Friday, to answer to charge of wife desertion.

## Japanese Fashion Freak

Fashionable theaters in Japan have their boxes so arranged that women can change their dresses, as it is not considered stylish for a woman to appear in an entire evening in one dress and with the same ornaments.

READ THE DAILY NEWS

## Prominently Mentioned in Day's News

Above: MRS. COADEN, JAMES LUCEY, MOUKHILL KEMAL BAY AND CLARENCE DARROW.

PRESIDENT COADEN'S cobbler, purveyor of much political knowledge, will have a try at it himself, since he has won the republican nomination for the legislature from his district in Northampton, Mass.

MRS. JOSHUA S. COADEN of Sands Point, on Long Island, N. Y., was entertaining the Prince of Wales when burglars ransacked her home and made away with several hundred thousands of dollars in jewels.

CLARENCE DARROW, defender of internationally known criminals, says he will retire, now that he has won his biggest fight—that for life imprisonment of Nathan P. Leopold Jr. and Richard Loeb at Chicago for the murder of Bobby Frank.

FOR THE FIRST TIME in 60 centuries there is to be in Turkey a statue glorifying the human figure. Moukhill Kemal Bay, representative of Kotal Pascha, is in the United States to negotiate with Gutzon Borglum, noted sculptor, for its erection.

## EDEN

EDEN—H. O. Freeman, farmer of the Hillsdale district, was taken to Twin Falls Tuesday to the hospital for medical treatment.

J. E. Roberts was a business visitor from Twin Falls Wednesday.

Deputy Sheriff Joe Price of Jerome was here on official business Wednesday evening.

Dr. Davis, Twin Falls optician, was a professional caller Tuesday.

Charles Featherstone of the Eden theater was in Twin Falls Wednesday for a load of merchandise for the Eden merchants.

Dr. Frank of Rupert was a business visitor here Tuesday.

J. E. and Mel. Hovornalo were at Twin Falls Monday, having some parts made for the best topping machine which they have invented.

George Phillips is acting as rural mail carrier this week while Curtis Metcalf is away at Boise.

The trial of Raymond Henry and Lee Peterson, who were arrested last May on complaint of a federal prohibition officer, charging them with violation of the Volstead act, is being held this week at Boise in the federal court.

The following Eden citizens were called to Boise as witnesses for the defendants: C. O. Rolee, Sr., C. J. Metcalf, R. O. Barnes, W. O. Brown, M. O. MacQuivey, Eph Peterson and A. J. Henry. Henry and Peterson were released on \$200 bond which they furnished at the time of their arrest.

Mabel Stephens, 10-year-old daughter of Mr. and Mrs. Otis Stephens, was bitten by a dog last Tuesday morning, while taking an errand for her teacher, Miss Bang.

P. W. Dahmer, living one mile west of Eden, holds the record so far this season on the largest yield of beans per acre on the north side tract, having received an average yield of 40 bushels per acre on a 16-acre field.

Earl Elson, living near the Hansen bridge, is entitled to second place by receiving an average yield of 37½ bushels.

## Artificial Respiration

In a case of drowning, asphyxiation or electric shock one of the best ways to establish artificial respiration is the prone-pressure method, in which the rescuer lays the victim face down, straddles his thighs and with fingers spread over his lowest ribs presses them in unison with his own breathing.—Youth's Companion.

## Noted Mountain Climber

John Tyndall, the celebrated English physicist, was besides being a great climber, a devotee of mountain climbing. With Huxley he explored the Swiss glaciers in 1856. Later he climbed the Weisshorn and the Matterhorn peaks.

## GROWS BIG SEED CROP ON FIELD WITH WHEAT

HOLLISTER District Farmers Thresh 11½ Bushels of Alfalfa and 16 Bushels of Grain Per Acre.

HOLLISTER, Sept. 26.—(Special to the News.)—Hines brothers, three miles east of Hollister, on 40 acres of wheat land threshed 15 bushels of wheat to the acre and 11½ bushels of alfalfa seed in the wheat per acre.

The News is run by the permanent earning class.

## Ladies First

The new justice of the peace was serving on his first day. "The next case" began the clerk, "is that of Frederick Smith, alias Jones, alias Robinson, charged with assault and battery." The new justice was not to be rushed, however, "One at a time, one at a time," he cautioned. "And first, the women. Bring in Miss Jones."

## A Thor Electric Washer Put in Your Home

Opportunities Not only Come. They Go as Well. Don't Miss This One

### Drive Drudgery Out of Your Home

DO AWAY with back-breaking wash days spent over a washboard or the little ensler labor of a hand power washer. Release yourself forever from the youth destroying drudgery of hard, tiresome washing methods.

Now you may have a Thor—the peer of electric washers—installed in your home for a first payment of only \$5! It's a capital letter OPPORTUNITY for you! So small a payment down! The balance in easy-to-pay monthly amounts.

Why delay? Every washday without a Thor costs you far more than it should—in time, money and energy. No housewife should be without one, now that such terms are available.

When you buy a Thor, you've bought thorough satisfaction. The great jury of American women have tried it—and returned a verdict of highest approval. Every fourth electric washing machine in the country is a Thor. Come in now and let us explain its many superlatives.

CONTEST STILL CLOSE BETWEEN LEADING TEAMS

Washington Drops Game and Yanks Step Up a Notch; Neither Can Decisively Win Before Monday.

NEW YORK, Sept. 26 (AP)—Washington's lead in the American league was reduced to one full game today when the Senators faltered on the threshold of their first major league pennant and lost to the Boston Red Sox 2 to 1, while the Yankees were winning from Connie Mack's Athletics 7 to 1.

With three games yet to be played, it is certain the pennant will be decisively won by either team now before Monday, neither team being scheduled for a Sunday game.

If Washington wins its full slate of three games yet to be played with the Red Sox it cannot be knocked from its supreme perch despite a similar performance by the Yankees over the Athletics, but if the Washington foot slips again in Boston the Yankees may yet slide under the wire ahead. The Senators can lose one game to the Sox and break even with the Yankees if the American league champions sweep the series against the Athletics.

The situation in the National league remained constant today, neither the Giants nor Brooklyn being scheduled to play. The Dodgers are hanging by a proverbial thread, one defeat sending them down into the ruck without a chance than doing better than getting a tie with the Giants if the National league champions lose all three of their scheduled games.

The standing today follows:

American League.				
	Won.	Lost.	Pct.	To
Washington	90	61	.596	3
New York	89	62	.590	3

National League.				
	Won.	Lost.	Pct.	To

**START INVESTIGATION.**  
CHICAGO, Sept. 26 (AP)—William M. Butler, chairman of the republican national committee, today issued a statement denying the republican leaders had anything to do with court action in California which resulted in barring La Follette presidential electoral from a place in the independent progressive column.

SENATORS LOSE BOSTON GAME

Washington's Lead Reduced to One Game When They Meet Defeat at Hands of Ferguson

BOSTON, Sept. 26 (AP)—Washington's pennant aspirations received a rude jolt today when Ferguson pitched Boston to a 2 to 1 victory over the Senators in the first game of four scheduled to be played here. New York's victory while Washington lost, reduced the Senators' lead in the pennant race to one full game. The league leaders made only seven hits.

Another blow to Washington hopes came when Walter Johnson, the club's pitching ace, was hit on the left elbow by a pitched ball in the fifth and apparently severely injured. Marberry pitched the eighth inning against Boston. After 13 consecutive victories, Johnson figured as the losing pitcher. In the fifth, Veach with one out, straddled a hit through Stanley Harris and went to third when Boone singled sharply to center. Joe Harris' Texas leaguer to short center brought the score. Exzell forced Harris, but Leo's long single to left center let Boone in with what proved to be the winning run.

Washington's single run came in the eighth. Ruel opened with a single before shortstop. Lohbold batted for Johnson and bounced rapidly to Ferguson whose throw forced Ruel. The throw prevented Leo from making a throw to first. Wade Lofler went in as a pinch hitter for McNeely and his double to left let Lohbold score from first. Stanley Harris and Ruel were laid out, however, and the Washington rally was over.

There were two other occasions when the Senators had chances to satisfy the crowd of 12,000 which called repeatedly for a Washington victory. In the second with one out, Judge doubled and Rhinegot a field single, but Ted Linpugh was called out on strikes and Ferguson threw out Ruel. Again in the ninth with two out Bluge singled and went to third on Pack's single to right. Peck was caught between second and third by a throw from Ferguson.

The score: R. H. E.  
Washington 1 7 0  
Boston 2 1 1  
Batteries—Johnson, Marberry and Ruel; Ferguson and O'Neill.

**NEW YORK WINS.**  
PHILADELPHIA, Sept. 26 (AP)—Their back to the wall and fighting desperately in the hope of overtaking the Washington Senators, New York pitched its way to victory today when Philadelphia's defense weakened in the fifth inning. The score was 7 to 1.

For four innings "Tex" Gray baffled the Yankees' attempts to break through his delivery and was retiring them in good order on each pop-up and puny grounder. But Penneck was sailing along just as smoothly and though the Athletics managed to get men on base in each of the three innings they were unable to come through with the hits in the pitcher's.

The first break in the hurling duel came in the fifth inning and the visitors, quick to take advantage of its effect on Gray's equilibrium, followed with some solid clouting that eluded the game.

Burns, Heimach, Harris and Hasty were paraded to the pitchers' box by Manager Mack after the fifth inning, the latter finishing the game.

Heimach was solved for two runs in the seventh inning, one of which may prove very costly to the Yankee cause.

Joe Dugan, who had opened the inning with a single, raced to third, when Simmons fumbled a single from Flips but when he slid into third he wrenched his left knee so severely that he was temporarily knocked out. After several minutes of delay McNally was substituted for the injured third sacker and later crossed the plate on Murrell's clout to center.

The score: R. H. E.  
New York 7 1 0  
Philadelphia 1 8 2  
Batteries—Penneck and Bengough; Heimach, Harris, Hasty and Perkins.

**DETROIT VICTORIOUS.**  
CHICAGO, Sept. 26 (AP)—Rip Collins held Chicago to four hits today while Detroit hit Faber and Lyons opportunely and easily won the first game of the series here, 8 to 2. Not a visiting outfielder had a chance to catch a fly ball and Pratt accepted 20 chances at first base. Heimach's and Woodall's hitting featured.

The score: R. H. E.  
Detroit 8 15 1  
Chicago 2 4 3  
Batteries—W. Collins and Woodall; Faber, Lyons and Crouse.

Phone orders for home cooked meals and salads to Gustavus Inn, No. 456—adv.

RHINELANDER WALDO, deputy New York police commissioner, has resigned to take part in the national presidential campaign.

PIRATES TAKE CHICAGO GAME

Pittsburgh Gets Revenge in Game at Home; Wallop Cubs in Double Header.

PITTSBURGH, Sept. 26 (AP)—Returning from their disastrous eastern trip during which they were eliminated as a pennant contender, the Pittsburgh Pirates took both games of a double header from Chicago today in the final series of the season. The scores were 9 to 3 and 10 to 6.

The pirates won the first game with ease, holding the Cubs scoreless until the seventh inning when they piled up a commanding lead behind Krenner, who struck out six Chicago batsmen.

First game: R. H. E.  
Chicago 3 10 3  
Pittsburgh 9 15 2  
Batteries—Korn, Bus, Wheeler and Hartnett; Krenner and Smith, Coach.  
Second game: R. H. E.  
Chicago 6 11 2  
Pittsburgh 10 15 0  
Batteries—Kaufmann, Blake and O'Farrell; Songer, Proffer and Schmidt.

FILER TAKES FIRST GAME FROM WENDELL OF FOOTBALL SEASON

WENDELL, Sept. 26 (Special to The News)—In a contest featured on both sides by spectacular kicking of mid-season form, Filer high school defeated Wendell high school's football team, 22 to 6, the game being the first of the season for both teams. A large crowd attended the game, many people being here today to attend Wendell's harvest festival celebration.

Outstanding players on the Wendell team included Colby, Wisom, Pitts and Suttle. Players who played particularly well on the Filer team included Murphy, Diel and Adkins.

Filer scored three touchdowns and two safeties.

Coaching college football coach was umpire and Barry of Duhl held linesman.

**FOREST FIRES SUBSIDING.**  
COLORADO SPRINGS, Sept. 26 (AP)—Following a strenuous day's work on the part of scores of fire fighters in the Ute pass region west of Colorado Springs, forestry officials reported all of the 23 fires, which burned yesterday over a 20-mile front had been extinguished or under control. The property damage was slight.

TWIN FALLS

School Team Shows Up Fairly Well In Practice Contest

Alumni Defeats Twin Falls Football Eleven 7 to 0; Prepare for Opening Game at Filer Next Friday.

The Twin Falls high school eleven which will meet Filer on the Filer field next Friday afternoon, were given their first experience against an opposing team Friday afternoon on Lincolnton field, when they met and were defeated by a Twin Falls high school alumni squad made up of former players who volunteered to aid Coach Felix Platinio in whipping his men into shape for the season.

Before a crowd of several hundred the school team was put through its paces, taking attack upon attack by the alumni with fairly good line work and much better backfield play. However they were no match for the alumni and predictions were made that unless they displayed more ability Platinio's men would lose their first game of the school season when they met Filer.

**Aerial Work.**  
All kinds of plays were put into practice by the school team in its game Friday afternoon. Several attempts at aerial work netted one completed forward pass. Line backs showed the back field to be much more adept than the line itself and several changes may be made in the line to improve this. Platinio made several changes during the game, which ended in a score of 7 to 0, despite numerous fumbles, most of them more than likely intentional, on the part of the alumni.

No individual on the school team displayed unusual ability or brilliance in the game Friday afternoon and so far as winning games is concerned it is probably just as well if the coach can get his men into a well oiled machine that will work smoothly and together, fans believe.

**Not Disappointed.**  
Fans, however, were not disappointed in the showing made by their pupils that even though the team is not in first class condition for its opening game, Filer will have a tough time in scoring. It is hoped that in addition to giving the boys much needed practice, the game today will take some of the nervousness from the team's shoulders in playing before a crowd of yelling, noise-making fans.

The lineup for the school team Friday at the start of the game, was: Robertson and Fry, ends; Tiltman and Humphrey, tackle; McCormick and Frann, guards; Fritzer, center; Timm, Alford, Fix and Bergh in the back field.

The alumni lineup was: Cook and Frazelle, ends; Christopherson and Victory, guards; Frazelle and Nicholson, tackle; Stearns, center; Austin, Yokum, King and Nowman, back field.

J. battles Gano. Pittsburgh, which has lost its famous coach, Pop Warner, who is now at Stanford, will meet Grove City.

**Bees Have Good Noses.**  
Bees have a more highly developed sense of smell than human beings.

**Popularity.**  
Last year football gained greater heights of popularity than ever before. Conservative estimates placed the country-wide attendance for college games at close of 5,000,000, with the Western conference eleven drawing 1,000,000 alone. With new stadium springing up on campuses all over the country to meet growing demand, these marks are likely to be eclipsed in 1924.

With few exceptions all of the major teams will test their new machines tomorrow. The east's big three, Yale, Harvard and Princeton, will not make their bows until next Saturday, while most of the western conference teams also have another week of preparation before going into combat.

In the east, however, several scarce games involving outstanding teams are listed. Cornell starting a campaign which the big red hopes to make its fourth straight without defeat, meets St. Lawrence, while Syracuse opens against Hobart and Columbia with Percy Haughton at the helm again, lines up against Haverford in the opening games of the most ambitious schedule the local institution has had for years.

Pennsylvania probably will be without the services of its veteran halfback, Thomas, in the opener with Ursinus. Pennsylvania State has drawn Lebanon Valley for its initial opponent, La Fayette meets Muhlenberg, while W. and

## SCENIC EFFECTS STRONG FEATURE

Innovation in Theatrical Offer-  
ings Here Promised in Elks'  
Minstrel Frolic.

Elaborate scenery and costuming such as has never been seen here before in an amateur production are promised as some of the distinctive features of the minstrel frolic to be staged Monday and Tuesday, October 6 and 7, by the Twin Falls Elks at the Olympic theater.

The production is modern artistic and has been praised by the drama league theater guilds as well as national officers of societies that have benefited by its production. The head of the concern staging this production, Harrington Adams, is president of the Associated Producers of Amateur Theatricals and all the directors connected with the company are of the highest standing. Lloyd M. Bullis, who is in Twin Falls directing the minstrel frolic, has impressed every one with his ability and knowledge of the show game. All of the cast are amateurs in this opinion, and it will be the best show ever staged by the Elks.

Modern draped scenery, highly decorated settings in changing tints through the use of new and novel lighting effects, will bring the latest ideas of the New York theaters and the advanced Little theaters to the local stage. So big is the equipment used on this production that a stage manager travels with the outfit and assists the director with the performance.

L. A. Chapin, chairman of the local ticket committee, is working out his detailed plans for disposing of the much-sought tickets for the two performances and states that he will have a detailed plan for the sale of tickets ready to announce in a few days. Enthusiasm is running high among the members of the lodge who have attended rehearsals and Director Bullis will have more talent than he can use.

### LAST RITES FOR PIONEER

Funeral services for Thomas M. Atkins, prominent pioneer citizen of southern Idaho, whose death occurred last Tuesday evening at Rock Creek, his home for 40 years, will be held at 2:30 o'clock this afternoon in the Grosvenor chapel here, and will be conducted under the auspices of the L. D. S. church, with which he was identified during his lifetime. Burial will be in the Twin Falls cemetery.

With his wife and two little children Mrs. Atkins came to Rock Creek nearly a half century ago. Mr. Atkins became one of the leaders in community affairs. Six years ago his pioneer wife died and he later married Mary J. Sanderson, who, with the following children, survive him: Clyde Atkins, Mont Atkins, Mrs. Nephi Larsen and Mrs. Curtis W. Bowser of this county, and Mrs. L. H. Hedlund of Weiser, Oregon. He is survived also by the following brothers and sisters: Bishop Edward M. Atkins, W. G. Atkins and Mrs. Mary A. Lougry of this county, and W. Frank Atkins and Mrs. John B. Garden of Tootie, Utah.

### PRUNE CROP TAKES 17 CARS TO SHIP

The F. C. Marquardson prune crop, near Buhl, has been put on the water. The crop required 17 cars for shipping and was picked and packed in the course of ten days. Fifty persons were employed for the work during that time.

The Harvey orchard, near Buhl, produced six cars of orchard fruit, which consists of 14 acres. Mr. Harvey as well as Mr. Marquardson, shipped through the Earl Fruit company. Recently the state fruit inspector pronounced the products from both these orchards the best in the northwest.

Charles Fisher, near Kimberly, threshed an average of ten bushels of alkali clover seed per acre, on a field containing 80 acres.

Ell Fisher of Kimberly, produced a yield of 55 bushels on 30 acres, on ground that has borne wheat three consecutive years.

Roby Church of Kimberly, reports a yield of 30 bushels of Montana whites on 100 acres of land.

**HARVEST IS SUSPENDED.**  
WINNIE, Sept. 26 (AP).—Heavy rains during the past 24 hours throughout the entire Canadian west have caused a general suspension of harvesting operations. The rain has been accompanied by decided drop in temperature, developing at several places into a sleet storm.

If your property is desirable and is advertised in the classified—you'll find your buyer.

## BLACKFOOT GROWERS HOLD HAY FOR \$10; OTHERS ASKING MORE

The hay situation is receiving much thought over the whole of southern Idaho. Around Blackfoot growers have adopted the \$10 basis for upper Snake river hay with 425 foot measurement constituting a ton.

This arrangement was agreeable to stockmen and farmers alike. At this place the average cost of putting hay in the stack was estimated at \$37.77 per ton with 3 7-10 tons average per acre, leaving a margin of \$2.25 profit to the grower. Minidoka farmers are holding out for \$12 for their hay, but stockmen shake their heads and say \$10 with the 425 foot measurement.

In the Bruneau section a large part of the hay will be shipped to fill the Union Pacific railroad order for hay for the Kansas City market, a price of \$12.50 not to the grower will be paid for this hay.

In the Buhl and Castelford district the question is as yet unsettled. Seventy-five growers from Deep Creek school district, Fairview section and Castelford, met in Castelford last week. They had 80,000 tons of hay. It was unanimously voted to sell no hay under \$15 and to sell no picture before selling the hay.

In the Boise section, hay is selling for \$14 to 18 per ton, while in the outlying districts some is selling for \$10.00.

### TELLS STORY OF NEGLECT

Buhl Woman Alleges Cruelty in Suit for Divorce; Reviews Husband's Alleged Misdeeds.

Alleging cruelty, Julia May Keller, through her attorneys, Stephan & North, Friday instituted suit in district court here for divorce from Fred L. Keller of Buhl. The plaintiff, who was married 10 1/2 years in Twin Falls on October 2, 1918, she asks for custody of their 5-year-old son and for alimony of \$50 per month. There is no community property except an automobile.

Specifying instances of alleged neglect on the part of her husband, Mrs. Keller in her complaint recites that while living in Fremo, Cal., two years ago, her husband and another man went for an all-night joy ride with two girls of high school age; that he induced her against her will to leave Buhl last April and go to California and that she returned the following September and that during her absence he made a trip through Yellowstone park in company with an unmarried Buhl woman.

### WAGNER GOES ON TRIAL

Hearing in Case of Young Man Accused of Committing Statutory Offense Moves Rapidly in Court.

John D. Wagner went on trial in district court here Friday afternoon, facing charge of having committed a statutory offense last March involving a 15-year-old girl. Selection of the jury was the matter of but a few moments. Mr. Keller in her complaint recites that she stands as the state's first witness. Her story was told under questioning by prosecuting Attorney J. W. Taylor, and cross-examination by Attorney T. K. Haeckman for the defendant was interrupted by the evening recess. It is expected today that the trial in the case will be concluded today.

The case had been continued from the prior day of court. Principal witnesses for the state in the meantime moved to Jerome from where they were brought Thursday evening to testify at the trial opening Friday.

### LAFOLLETTE WILL GO WEST FOR CAMPAIGN

WASHINGTON, Sept. 26 (AP).—Senator LaFollette has concluded that it will be best for him to strike westward when he leaves here, probably late next week, on a month's stumping tour in his independent campaign for the presidency and to postpone an invasion of New England and eastern industrial centers until just before election.

The senator's itinerary was the subject again today of conferences between him and his advisers here, some of whom have expressed the hope that he would make three or four speeches in the east before starting out on his swing to the Pacific coast. Mr. LaFollette, however, is understood to have declared that he desired to go first into the middle and far west, and although definite routing has not been determined, it was indicated that such a course would be pursued.

### CORN CROP THREATENED

LINCOLN, Sept. 26 (AP).—Frost, which agricultural experts at the state agricultural college here have said would greatly injure the Nebraska corn crop at this time, was predicted for Saturday night by the United States weather bureau here this afternoon.

## KIMBERLY BEET GROWERS BUSY

Work Under Way of Harvesting  
Crop; Buhl Goes Into Dairy  
Business Right.

Beet growers around Kimberly have started digging up the second light crop of beets, and the dumping station at that place is busy under the management of Len Wiseman formerly of Buhl.

Contracts to the number of 51 were let to growers for the 1924 season and estimates put the average amount per grower at 10 acres.

Almost all the third cutting of hay in the Kimberly and Twin Falls regions is in shock and shows evidence of a good tonnage, in spite of the water shortage.

Sometime ago the Boise Payette lumber company shipped to a number of ready cut stave mills, to the Buhl country and already some of them have been filled to capacity. Just recently five more farmers were bitten by the exchange bug and ordered silos.

This dairy movement is one of Buhl's latest moves forward and puts that country in its true light as one of southern Idaho's best dairy centers, say Buhl citizens.

Carl Lerman of Clover recently suffered a loss of 28 sacks of beans by theft. He had just finished up, his threshing and harvesting parties. The fact that a truck had boldly entered away the goods under cover of night.

Idaho Wonder beans in the Clover district are making in the neighborhood of 20 bushels per acre. Rudolf Jagels of that place reports a yield of 32 bushels.

John List's Red Mexicans, on land near Clover, produced an average of 35 bushels.

Mangel and Bennet Livestock association reports a yield of 30 bushels on 50 acres of Great Northern, while their contract beans are poor. This ranch is owned by Kimberly.

H. E. Halloway of Knoll sacked 47 bushels per acre on a 10-acre field of white beans.

F. T. Parish, rancher near Buhl, just finished threshing 110 acres of beans that yielded 30 bushels per acre.

The annual seed show will be held early as usual at Buhl, so as to give the winners time to enter their stuff at the Chicago seed show. For three consecutive years Buhl has taken first place in seeds at the Illinois show.

### LEGION AND AUXILIARY HOLD MEETS IN BURLEY

Sessions of Veterans and Women's Organization Marked by Deep Interest and Generous Hospitality.

Members of the American Legion and Auxiliary Legion Women's auxiliary of this district were guests of the legion post and auxiliary at Burley Friday afternoon and evening at district meetings of both organizations that were marked by manifestation of interest and generous hospitality of entertaining organizations. Sessions opened in the afternoon and were concluded in the evening with a dinner and dance. State Commander Crabtree was one of the speakers at the meeting. He came to Twin Falls Friday evening and will spend Saturday here.

### CAPITAL CITY HAS MYSTERY IN TUNNEL

(Continued from page one.)

ing from it also is filled with debris. The owner of the dwelling and the tunnels were there when he purchased the property about 18 months ago. He added he had never explored them extensively and had filled up one of the passages to prevent entrance to his yard.

Engineers inspecting the tunnels said the masonry was one of the finest construction and must have cost thousands of dollars. A date "1913," was found on one piece of concrete block.

Some old residents of the neighborhood say the tunnels were discovered more than 20 years ago and forgotten. It is also said that they have been unearthed several times in recent years by construction workers. But Washington meanwhile is absorbed in a mystery.

## WANTED

Local salesman to represent us in this community under our new selling plan. One with car preferred. This is an unusual opportunity for a good man to make big money, selling our complete line of high grade Fruit and Nut trees, Ornamental Trees, Plants, etc. Full particulars on request. Address

Oregon Nursery Company

OREGON, OREGON.

## FRUIT EXPORTERS TO SUFFER AS RESULT OF AGREEMENT REACHED

OTTAWA, Ont., Sept. 26 (AP).—Dried fruit exporters of the United States will be particularly hard hit by the reciprocal trade agreement between Canada and Australia that was concluded here last night. It was predicted today by Dominion tariff experts.

Exporters of Greek grown fruits also were seriously affected, said the experts. But to Australia, which would be permitted to import fruits in Canada duty free, the new pact will be a boon.

According to government figures, 32,600,000 pounds of dried raisins entered Canada in the fiscal year 1922-23. Of this tonnage 30,000,000 pounds came from the United States. Of 5,000,000 pounds of dried currants imported over the same period 1,700,000 pounds came from the United States, 3,300,000 from Greece.

### ROAD OPEN TO MURTAUGH

Gravel and Gravel Work on Old Oregon Trail Complete Over Stretch of Ten Miles.

The Old Oregon Trail state highway between Hansen and Murtaugh, recently improved by grading and application of heavy coat of gravel under contract awarded to C. A. Robinson of Twin Falls, is now open for travel and in good shape, according to word received here Friday by T. T. Rutledge of Murtaugh.

Work on the highway between Hansen and Murtaugh constitutes a major portion of the project for improving a gravel road west of Bury, which work is to be completed within the present year under the contracts awarded to Mr. Robinson.

### STUDENTS ENJOY AFFAIR

Bursts of laughter punctuating a continual hum of merriment in the parlors of the Methodist Episcopal church Friday evening evidenced pleasure of scores of high school students at the annual reception given by the Epworth League to which an invitation had been extended to all high school students.

A program of sports and games, figuring as events in a scheduled "Fall Term Meet," afforded much amusement.

Brief inspirational talks were made by the Rev. H. G. Humphrey, pastor of the Methodist Episcopal church, and Ernest D. Bloom, superintendent of Twin Falls schools.

## WOMEN'S SOCIETIES LEND AID TO GOODING COLLEGE

Organizations Throughout Region From Salt Lake to Pocatello Raise Funds to Meet New Needs.

GOODING, Sept. 26.—(Special to the News).—From Salt Lake to Pocatello, the women's societies which have already done so much toward the financing of Gooding college, are now providing funds for extra chairs, beds, rugs, rockers and dressers for the increased enrollment of this year. As a whole these helpers are known as the supplementaries, with Mrs. Charles Wesley Toney as president and Miss Bess McGraw, a member of last year's graduating class, as secretary.

Among the women's organizations already on record in the Gooding college office for their helpful deeds are the Eastern Star and Pioneer clubs, Filary, Wayside and Pioneer clubs, Kimberly: Every Woman's club, Castelford; Golden Rod club and Daughters of the American Revolution, Boise; County Women's club, Twin Falls; National Home Improvement club, Richfield; W. H. M. S. auxiliary, Idaho Falls; Daughters of the American Revolution, Gooding; Ladies' Aid societies at Gooding, Kimberly, Rupert, Emmett, Boise, Mountain Home, Twin Falls, Buhl, Montpelier, Burley, Mackay, Wendell, Fruitland, American Falls, Castelford, Cascade, Hiram, Kenne, Payette, Bliss, Eden, Elmer, Elgin, Apple Valley, Pocatello and Richfield in Idaho, and La Grande, Enterprise, Nyesa, Cave and Joseph in Oregon.

### WHEELER BITTER IN CAMPAIGN ADDRESSES

DES MOINES, Sept. 26 (AP).—Listeners in northern Iowa towns heard today Senator Wheeler, independent vice presidential candidate, in rear platform talks made while enroute to Des Moines and repeat denunciation of corruption he charged as existing in the republican national administration, and urge argument for reelection of Senator Brookhart, republican, Iowa, also a candidate in the November campaign. At Des Moines, before a night meeting, Senator Wheeler reverted to critical consideration of General Dawes, his republican opponent as vice presidential candidate on the score of the latter's proposal of a commission to consider agricultural problems and also on account of his relation as a banker with the failed Lorimer bank in Chicago.

### BRYAN TO CHICAGO

LINCOLN, Neb., Sept. 26 (AP).—Governor Bryan, democratic vice presidential nominee, left here yesterday for Chicago, where tomorrow he will confer with Lincoln Dixon, in charge of western democratic headquarters and other party organizers, on the arrangement of future itineraries for the national candidates and others speaking in the interest of the democratic party.

REGULAR HABITS.

John D. Rockefeller, well past  
eighty, enjoys uniformly good health  
and says he doesn't intend to think of  
dying until he is at least one hundred.  
A friend explains the remarkable pre-  
servation of his health by his "eternal  
vigilance" against illness, particularly  
his absolute regularity of habits.

He has his diet severely limited and  
prescribed carefully, in detail, by his  
physician, and never breaks over.  
Though he loves candy, he never  
touches a piece of it. Tomatoes, cu-  
cubers and all other articles of diet  
found unwholesome for him are abso-  
lutely banished from his meals.

He "tests his state of health every  
morning," as an engineer tests his  
engine. He is up every day at pre-  
cisely the same hour. He has his in-  
variable glass at eleven a. m. and his  
automobile drive at two-thirty p. m.  
His mealtimes never deviate from  
their schedule by as much as ten min-  
utes, from one year's end to another,  
nor does his time of retirement. All  
the restricted activities of his life  
are followed in clockwork order.

That is a good way, undoubtedly,  
to conserve one's physical forces and  
prolong life—if one can stand it.  
Unfortunately the system requires an  
infrigid docility to systematic proce-  
dure that is unusual. Something of  
Mr. Rockefeller's regularity and sci-  
entific attention to his physical en-  
gine would benefit everybody. But  
the extent to which he carries the  
thing might drive an average person  
insane, or drive him to occasional  
excesses to vary the eternal monot-  
ony, thereby inviting death at a nor-  
mal age.

Most men and women simply have  
to kick over the traces now and then.  
In diet, sleep and other matters. They  
must shake the program occasionally  
if for no other reason than to prove  
to themselves that they are its mas-  
ters and not its slaves. And possibly  
the sense of freedom so preserved is  
worth a few years' time.

PLEDGES FOR DRIVERS.

A Boston automobile club has pre-  
pared twelve "I will" and "I will  
not" cards to be pondered daily by its  
members for the purpose of promoting  
safety on the streets and highways.

They apply just as well in Twin  
Falls as in Boston. They are:

- I will not cut in.
- I will not cut corners.
- I will not pass another car on a  
curve where there is not a clear road  
ahead.
- I will not speed up to pass another  
car where there is not a clear road  
ahead for at least one hundred feet.
- I will show up at a signal and not  
thunderbolt where children are play-  
ing in the streets.
- I will stop eight feet in front of  
the right of a street or leaving the  
suspense and never attempt to pass on  
the left.
- I will not be a road hog and will  
drive on the right side of the street.
- I will not pass another car at high  
speed at intersecting streets nor race  
another car while attempting to pass  
legitimately.
- I will avoid jaywalking and will  
not cross streets after the stop sign  
is given by the traffic officer.
- I will observe traffic rules and will  
allow the parking privilege, nor  
park my car on highways except where  
there is a clear view ahead and behind  
for at least one hundred yards.
- I will keep my brakes in good con-  
dition, realizing that a driver is only  
as good as his brakes.
- I will not drive a car when under

Breakfast Food  
"Matrimonially Soaking"

By MRS. HUGH McRAY

My husband cuts things out of news-  
papers and magazines and sends them  
or part of an article that he likes,  
and out comes his pocket knife—and  
out comes the item.

This makes it fine for anyone who  
picks up the paper or the magazine  
after he has thought about it.  
I go reading along and get inter-  
ested in something and then it ends  
in space. So I turn to another page  
and start something else only to find  
that Hugh has pored that, too.

I didn't mind this habit of his so  
much before I discovered that he never  
made use of or even looked at his  
clippings after he made them. All  
he'd ever do was carry them around  
in his pocket until they started to  
crumble up and then throw them away.  
But Hugh appears to have the habit  
of making complex for keeps—and I never  
expect to find any kind of reading  
matter around our house that he hasn't  
lost daylight through!

the influence of liquor. One drink is  
too many for the driver.

Some of these pledges seem so simple  
as not to need repeating. Yet it is  
obvious from the country's huge list  
of motor deaths that they do need  
repeating day after day. Courtesy and  
common sense, combined with willing-  
ness to abide by traffic regulations,  
are really the whole story in achieving  
automobile safety.

BUFFALOES NOT PETS.

The American buffalo, with all his  
merits, has a certain congenital dis-  
ease. He resists domestication. This  
fact is brought out by the Department  
of the Interior in its distribution of  
surplus buffaloes from the thriving  
herd in the Yellowstone.

The department is willing to give  
away a buffalo to any citizen or in-  
stitution that can use such a beast and  
will pay the freight, but wants it dis-  
tinctly understood that the animal will  
not wag his tail nor put his ears  
forward when cheerfully spoken to by  
nor children clamber upon his back,  
nor pull a quiver. He will not even  
respect fences. Any ordinary enclo-  
sure to which a buffalo is entrusted  
will soon be wrecked. He is suitable  
only for a zoo or for a big estate  
where he can be properly cared for.

This is disappointing to children  
whose fathers have been asking the  
government to send them a "nice  
tame buffalo," but it is no more than  
should be expected of the former mas-  
tard of the plains. It adds to our  
respect for the brute.

"Order of Fools."

Founded for humane and charitable  
purposes, the "Order of Fools" and  
society whose name quite belied its  
mission. Adolphus, count of Cleeves,  
founded the order in 1831, and the  
membership was limited to noblemen  
of high rank. The insignia, the figure  
of a clown, was embroidered in bril-  
liant colors on the left side of the  
member's mantle. Annual grand re-  
unions of the "Order of Fools" lasted  
for a week. The order continued  
strong and helpful until well into the  
sixteenth century, when, gradually,  
its original members were lost sight  
of and it died out.

LEGAL ADVERTISEMENTS

STATE OF IDAHO,  
Department of State.

I, L. A. JONES, Secretary of State of  
the State of Idaho, do hereby certify  
that the undersigned is duly qualified  
by the acts of the Legislature of the  
State of Idaho, do hereby certify that  
the attached is a full, true and correct  
copy of the same.

SENATE JOINT RESOLUTION NO. 7

enacted by the Seventeenth Session of  
the Legislature of the State of Idaho,  
resolving an amendment to Section 15  
of Article 15 of the Constitution of  
Idaho.

In testimony whereof, I have here-  
unto set my hand and affixed the  
Great Seal of the State, at Boise, the  
City of Idaho, this Twenty-first  
day of August, A. D. 1924.

L. A. JONES, Secretary of State.

LEGISLATURE OF THE STATE  
OF IDAHO.

SEVENTEENTH Session.

IN THE SENATE.

JOINT RESOLUTION NO. 7

enacted by the Seventeenth Session of  
the Legislature of the State of Idaho,  
resolving an amendment to Section 15  
of Article 15 of the Constitution of  
Idaho, relating to the Appropriation  
of Water and Priorities, and Pro-  
viding for the Use of Water for Power  
Purposes, be it enacted by the Senate  
and House of Representatives of the  
State of Idaho in session assembled,

That the Legislature of the State of  
Idaho,

Section 15 of Article 15 of the Constitution of the State of  
Idaho, which reads as follows:

Section 3. The right to divert and  
use any natural stream or water for man-  
ufacturing purposes shall never be de-  
nied. Priority of ap-  
propriation shall give the better right  
when the waters of any natural stream  
are not sufficient for the service of all  
those desiring the use of the same,

those using the water for domestic  
purposes shall (subject to such limita-  
tions as may be proscribed by law)  
have the preference over those claiming  
for any other purpose, and those using  
the water for agricultural purposes  
shall have preference over those using  
the same for manufacturing purposes.  
And in any organized mining district  
those using the water for mining pur-  
poses or for agricultural purposes shall  
have preference over those using the  
same for manufacturing purposes. But the  
usage by such subsequent appropriators  
shall be subject to such provisions of  
law regulating the taking of private  
property for public use as are referred  
to in Section 14 of Article 1 of this con-  
stitution, be amended to read as follows:

Section 3. The right to divert and  
appropriate the waters of any natural  
stream shall be subject to such limita-  
tions as may be proscribed by law, and  
those using the water for mining pur-  
poses or for agricultural purposes shall  
have preference over those using the  
same for manufacturing purposes. And  
in any organized mining district those  
using the water for mining purposes or  
for agricultural purposes shall have pre-  
ference over those using the same for  
manufacturing purposes. But the usage  
by such subsequent appropriators shall  
be subject to such provisions of law regu-  
lating the taking of private property for  
public use as are referred to in Section  
14 of Article 1 of this constitution, be  
amended to read as follows:

Section 3. The right to divert and  
appropriate the waters of any natural  
stream shall be subject to such limita-  
tions as may be proscribed by law, and  
those using the water for mining pur-  
poses or for agricultural purposes shall  
have preference over those using the  
same for manufacturing purposes. And  
in any organized mining district those  
using the water for mining purposes or  
for agricultural purposes shall have pre-  
ference over those using the same for  
manufacturing purposes. But the usage  
by such subsequent appropriators shall  
be subject to such provisions of law regu-  
lating the taking of private property for  
public use as are referred to in Section  
14 of Article 1 of this constitution, be

Daddy's Evening  
Family Tale  
MARY GRAHAM BONNER

THREE LITTLE PENGUINS.

They were three little penguins.  
They were very, very small for pen-  
guins, and they were very cunning.

In the same zoo house with them  
was a penguin from Africa, bigger  
than they were but not so big as the  
Emperor penguin or the Johnny Pen-  
guin or the King Penguin.

The African penguin was better  
looking than they were, perhaps. He  
was a black and white suit and their  
suits were dark grayish-black and  
they were not dressy at all.

But they were cute and they were  
affectionate, which was more than  
could be said for the African penguin.  
He didn't bother much about anyone.

Then, too, in this same zoo house  
was a flightless bird. He had webbed  
feet and he said that he couldn't fly.  
This bird and these three little penguins  
came from islands off the coast of  
South America and these islands had  
seldom been visited by people.

The flightless bird family had, in  
all those quiet years, lost the desire  
to fly, and then they had forgotten  
how to fly.

He walked about on the rocks or  
swam in the salt-water pond which  
they had built in the zoo for these  
creatures. He wriggled his neck about  
in different positions and looked quite  
strange and he was as large as a  
duck, though he didn't look anything  
like a duck at all. He looked like  
himself.

He wore a grayish suit of feathers—  
very dark, and of course they were  
as he spent so much time in the  
water.

His wings were by his side, his neck  
was long, but his eyes were the most  
remarkable.

You seemed to notice them at once.

The Three Little Penguins.

As soon as you looked at him you  
noticed the brilliant, startlingly bril-  
liant, color of his eyes. They were of  
a blue-green color and looked as the  
sea might look in a warm, tropical  
country.

He had no fear of anyone. He was  
quite at home in the zoo.

But the three little penguins wanted  
to play. They came up on the rocks  
and they were delighted as some of  
their friends came inside their rocky  
yard and sat upon the rocks which  
paved their pond.

The three little penguins were  
as they walked, and they walked over  
to their friends and enjoyed being  
stroked and petted.

They were fond of people and they  
were very fond of all. They enjoyed  
their food, and they spent a great  
deal of the day playing.

They were fond and they enjoyed them-  
selves immensely. But mostly they  
enjoyed being petted, particularly one  
who had been named Pinky because of  
a little pink tinge to his feathers  
around his eyes and throat.

Up and down and over the rocks  
walked the three little penguins. They  
did not pay much attention to the  
flightless bird or the African penguin.

They had such a good time by them-  
selves they bumped into each other  
and walked up one another's feet and  
one into another's mouth.

They were up so friendly.

Their bodies wobbled and three little  
bodies wobbled and three little bodies  
wobbled and they played happily.

They had never known many people,  
but those that they knew they liked.

They had had no reason to think  
people were other than gentle and  
kindly and good to animals. And  
happy they were and their friends came  
to see them and they rubbed up  
against them and they were so friendly.

Three little penguins in a warm  
country, but most friends who had  
been to the zoo and who came to see  
them were once in a while.

Sometimes a visitor from the out-  
side came to see them and came right  
up to them and they were so friendly  
they always seemed to be so friendly.

Three little penguins and their cunning  
ways and their new home! The  
penguins liked it, and so did the peo-  
ple that they could see one another.

The music of North America is a  
fine connecting link between wild cat  
and sheep. It has horns like the  
wild Cape buffalo of Africa, gentle like  
the ewe, and its flesh looks and tastes  
like beef.

It has next its body a dense coat of  
soft, clean woolly hair, and through  
this grows a rich coat of very long,  
straight brown hair like that of the  
Thetan yak. It has a tall so short and  
small that the animal seems tailless.

The horns meet in a broad boss over  
the top of the skull, drop far down  
then sharply curve upward for several  
inches, terminating in sharp points.  
They are specially designed for punc-  
turing the vitals of wolves and polar  
bears.

The musk ox lives and thrives even  
up to the farthest north for hooved  
animals, and is a good beast. Its  
supply of "musk" and its "musk"  
odor are both wholly imaginary.

Famous Pleasure Spot  
of English Monarchs

Many kings have done their part to  
make Hampton Court what it is today,  
asserts a writer for John O'Leary's  
weekly, "Notes" began it all, and it  
is interesting to learn that when he  
walked in his park he liked to be left  
to his meditations. He would allow  
no servant to come near him; his ser-  
vant was that they should shoot an ar-  
row from his bow and might shoot an ar-  
row. When Henry came into pos-  
session he at once extended the gar-  
dens, planted quickest hedges, and  
bought apple and pear saplings.

Hampton described the gardens in  
Elizabeth's reign as "most pleasant,"  
adding that he "saw" scenery, so ad-  
mired and nailed to the walls as to  
cover them entirely, which is a meth-  
od exceedingly common in England."

Charles I formed lakes. Charles II  
planted more than two hundred elms  
and as many lime trees.

In his turn, William III, in the notes  
of Dutch nobility with yew, box, and  
holly sculptured into bird and animal  
shapes or arranged to represent his  
royal initials; he formed rectilinear  
canals and did strange things with  
terraces and balconies.
