

COOLIDGE TOLD PROSPECTS ARE BRIGHT IN WEST

President Spends Busy Day at Washington Between Politics and Business; Wadsworth Tells of Situation.

WASHINGTON, Sept. 27 (AP)—Business and politics combined today to give President Coolidge a busy program. He conferred with Senator Wadsworth, republican leader of New York, and Mrs. Alvin T. Hart, a vice chairman of the republican national committee and after attending to some official duties this morning slipped away for a half hour trip of inspection of the office where the new house law is being administered.

Senator Wadsworth was a guest of the president at luncheon at the White House. He said afterwards the political situation in New York was discussed and several times the president told the prospects of both the state and national tickets there.

Mrs. Hart who was a dinner guest tonight of Mr. and Mrs. Coolidge, told the president this morning that a large vote from the women was in sight. She also pictured a bright outlook for the party on the basis of a reception tour of the middle west and western states.

Plans Program.

Giving some attention to his future speaking program, Mr. Coolidge took under consideration today an invitation to speak before the Chamber of Commerce of the United States here next month. He definitely accepted an invitation to dedicate a monument here October 15 to Bishop Francis Asbury of the Methodist Episcopal church.

Other addresses will be made by Mr. Coolidge here early next month. A delegation of laundry owners of California, passing through here en route to a convention at Atlantic City were received by the president this morning as were delegates to the convention of the National Local Preachers' association of the Methodist Episcopal church.

Winding up the day's program Mr. Coolidge had an engagement to press a button in honor of the 100th anniversary of the signing of the Emancipation Proclamation at the Lincoln Memorial in Washington.

He also sent a telegram of congratulation on the occasion to Mayor Brown.

G. W. WILCOX BEAN CROP RETURNS RECORD YIELD

Ten acres of beans grown by George W. Wilcox on his farm east of Twin Falls, produced a yield of 43 1/2 bushels per acre, which, according to Ralph McMillin, who threshed the crop, is the heaviest yield in his experience.

Mr. Wilcox was formerly Twin Falls county assessor.

STONE TO HEAR LEAGUE STORY

Attorney General Will Be Told of Philadelphia Conditions in Politics.

PHILADELPHIA, Sept. 27 (AP)—Representatives of the Law Enforcement League of Philadelphia will go to Washington next week to respond to the request of Attorney General Stone and tell him all they know about alleged political corruption among federal office holders in Pennsylvania. It was made known today.

The attorney-general acted by the direction of President Coolidge, who received a telegram from William H. Nicholson, Jr., secretary of the league, stating that the league possessed such information. The telegram was sent to the president in an effort to have him intervene in the controversy between Mayor Kendrick and General Butler, director of public safety of Philadelphia.

It was stated that the telegram was based on a letter, written to the league by Mrs. Mabel W. Willebrandt, assistant United States attorney general, regarding prohibition enforcement. Mrs. Willebrandt, who was in Philadelphia today on her way to Doylestown, Pa., said there was nothing in her letter making any reference to anyone and nothing therein on which to base a telegram such as was sent to Washington.

WASHINGTON, Sept. 27 (AP)—The weather outlook for the week beginning Monday: Northern Rocky Mountain and plains regions: Showers first half and again at end; moderate temperatures at beginning of the week followed by cool weather about the middle.

WOMEN FIGHT TO SAVE BOY FROM GALLOWS

GOVERNOR LEN SMALL of Illinois has granted a reprieve to 19-year-old Bernard Grant of Chicago, sentenced to hang for participation in the murder of Policeman Saunders. The man who fired the shot has declared Grant was not present. In view of the sentence given Dickie Loebl and Nathan Leopold, Chicago child women have begun a fight to save the Grant boy's life.

MAN CRUSHED TO DEATH IN COGS

Railroad Worker at Nampa Becomes Entangled in Chutes Machinery; Injuries Fatal.

NAMPA, Idaho, Sept. 27 (AP)—Injuries received at 5:45 a. m. Saturday by Henry H. Rogers, employee of the Union Pacific, who was crushed between two large cog wheels in the machinery room of the coal chute in the Nampa yards, proved fatal less than three hours later.

Mr. Rogers died at 6:30 o'clock in the dispatcher's office, where he had been taken following the accident. The widow and three small children survive.

Accompanied by G. G. Pelek, roundhouse foreman here, and two other railroad employees, Mr. Rogers, who was a machinist, went to the coal chute machinery room, located at the top of a steep incline supporting track on which cars are elevated before dumping the coal, to make needed repairs. Cars are pulled up the incline by means of a steel cable, which is paid out over a drum.

In some manner, the machinery started and Mr. Rogers was drawn between two heavy gears, rimmed with teeth. Although the machinery was stopped immediately, it was too late to prevent injury.

COMING HERE TO TALK ON FARM LEGISLATION

Chester H. Gray of American Farm Bureau to Analyze and Seek Views Here on Pending and Proposed Bills.

On a visit to northwestern states discussing and seeking views of farmers with regard to agricultural legislation proposed or pending in congress, Chester H. Gray of Washington, D. C., member of the legislative department of the American Farm Bureau federation, will arrive in Twin Falls next Thursday, according to word received Saturday by L. S. Otto, chairman of the Twin Falls County Farm Bureau, from F. W. Neal, executive secretary of the Idaho State Farm Bureau.

Request for arrangement for a meeting of representative farmers of this region for conference with Mr. Gray was contained in the word received here, and County Agent R. E. Brossard Saturday evening announced that call had been issued for such a meeting to take place at 8 o'clock Thursday evening in the probate court rooms here.

On the program of contemplated legislation to be discussed by Mr. Gray, it is stated, there are at least four bills that are of more than ordinary interest to Idaho's farm population.

TRIBUTE IS PAID PIONEER

Many Join in Funeral Services for Thomas M. Atkins, Early Settler of Crook Creek, Buried Here.

Tribute to the memory of one of the pioneer citizens of southern Idaho was paid at funeral services Saturday afternoon for the late Thomas M. Atkins of Crook Creek, by a congregation that included many of the first settlers of this region, and filled the Grosvenor chapel to the limit of its capacity.

DAWES ASSAILS LAFOLLETTE IN HIS OWN STATE

Accuses Third Party Nominee of Wanting to Throw Away the Compass and Steer by Wind in Ship of State.

ABOARD DAWES SPECIAL, EN ROUTE TO CHICAGO, MADISON, Wis., Sept. 27 (AP)—The LaFollette independent candidacy was assailed in the home state of its presidential nominee today by Charles G. Dawes as a move to throw overboard from the ship of state "the compass and the map" and commence to steer by the wind.

Such a move, the republican vice president nominee declared, in a series of eight speeches in Wisconsin and three in Minnesota, would result "only in chaos." Crowds ranging from several hundred in the smaller towns to several thousand in the cities, braved a cold driving autumn rain to hear and applaud Mr. Dawes' "condemnation of the LaFollette movement and its platform declaration for congressional re-voicing of supreme court decisions."

Rain Greeted Speaker.

The rain greeted Mr. Dawes at the first stop of the day for his special train at Lake City, Minn., and continued with increasing intensity during the day and until this evening when the nominee made his last address of his three-day Minnesota and Wisconsin tour at Bardwell, Wis. The waiting crowds were drenched and Mr. Dawes, refusing protection, often times left the rear platform after a ten minute speech with water-soaked clothes and water streaming from his hair.

Speeches were made during the day at Lake City, Wabasha, Winona, Minn., and at LaCrosse, Elkhart, New Lisbon, Portage, Madison, Blount, Janesville and Bardwell, Wis.

NATIONAL D. A. R. LEADER TO BE GUEST OF HONOR

Mrs. Anthony Wayne Cook, president-general of the national society, daughters of the American Revolution, in Idaho with Mrs. James Walker of Washington, organizing secretary-general, to attend the annual state meeting of the organization to be held Monday and Tuesday at Nampa, will be the guest of honor at a dinner to be served at Boise.

Mrs. Kennedy Packard of Twin Falls, state regent of the organization, will leave this morning to be present at this dinner and to attend the sessions of the annual meeting.

Delegates from the Twin Falls chapter to the annual meeting are Mrs. M. P. Gamble, Mrs. W. R. Campbell, Mrs. D. P. Clark, Mrs. J. P. Stewart. Also present are Mrs. David Brown, Mrs. Oliver Harstad and Mrs. Henry J. Wall.

Other members expected to attend include Mrs. Y. Norton and Mrs. L. E. Brockbridge.

VERDICT HOLDS ARKINS GUILTY

Jury After Long Deliberations Convicts Basque's Slayer of Voluntary Manslaughter.

John W. Adkins was by a jury in district court here found guilty of voluntary manslaughter in connection with the death last June of Francisco Marguerite, Basque, alleged to have been killed by injuries inflicted by Adkins with a rude walking stick during a quarrel near Salmon dam west of Riggins over the handling of sheep in which both men were employed by James D. Pence. The jury, which deliberated since 1 o'clock Friday afternoon, returned its verdict when court sessions began Saturday morning. Judgment on the verdict will be pronounced next Tuesday, Judge W. A. Babcock announced.

Under Idaho law penalty on conviction of manslaughter is imprisonment in the state prison for not to exceed 10 years.

Defense counsel indicated that motion for new trial or notice of appeal would be filed in the immediate future.

Upon the return of the verdict Saturday morning, Adkins who had been at liberty under bail, was remanded to the custody of the sheriff and was visited during the afternoon in his quarters in the county jail by his wife and baby and other relatives.

Salt Lake May Get Air Mail Route If Traffic Warrants

Service Promised Conditionally If Planeful of Material Is Pledged Each Day.

LOS ANGELES, Sept. 27 (AP)—Direct air mail service between Los Angeles, Chicago and New York, via Salt Lake, instead of via San Francisco, was promised conditionally here today by Luther Bell, traffic manager of the United States air mail service. Bell said the use of the Salt Lake route was contingent on a pledge from Los Angeles of a planeful of mail each day. The chamber of commerce undertook to canvass the city to fill the pledge.

VETERANS GIVE BANQUET

The members of Forty and Eight of vintage number 336 of Twin Falls entertained for G. B. Crabtree, state commander of the American Legion, at a banquet at the Rogers hotel Saturday evening. A. Norman Johnson presided at the banquet and after a few comic stunts called on Dr. Crabtree to read a letter which he had written for the purpose and work of the Forty and Eight. He stressed the child welfare work undertaken by the national organization and commended the work being carried out by the under-nourished Dr. Crabtree, who was accompanied on his visit by his wife, last Saturday evening on the return trip to his home in Idaho Falls. The commander was profuse in his praise for Twin Falls and the Fifth district of the American Legion.

POISONS SPOUSE TO MARRY AGAIN

Illinois Woman Confesses She Killed Husband With Man's Concivance.

MARION, Ill., Sept. 27 (AP)—Confession that she poisoned her former husband, Joseph L. Herrington, 34, in a plot with Robert Tate, whom she married Tuesday, 20 days after Herrington's death, was made today by Mrs. Ruby Herrington Tate, 30, in the Williamson county jail here.

Poison placed in a cup of peas in Herrington's lunch box taken to the coal mine at Johnson City where both men worked, Mrs. Tate said, was the cause of his illness and a teaspoon and a half of poison placed in a glass of buttermilk was the cause of his death. Mrs. Tate asserted Tate put the poison in the peas and she administered the final dose.

Looking up like a beacon from the Herrington home, late today continued his denials of a poison conspiracy. The couple were arrested at West Plains, shortly after last midnight.

Sheriff George Galligan ordered the arrest of Harry Eversly and John Downey, brothers-in-law of Tate, on suspicion of having knowledge of the case.

SET DATE FOR ARMS PARLEY

Disarmament Commission of League Adopts Benes Report on Protocol.

GENEVA, Sept. 27 (AP)—The disarmament commission of the league of nations assembly tonight adopted the Benes report on the draft protocol of arbitration and security.

The commission decided that the world wide disarmament conference is to be held June 15, 1925, if by May 1 a majority of the states represented in the league council and ten others shall have ratified the protocol.

The Japanese objections to the arbitration clause go over until the Sunday morning session of the judicial committee. There is little hope that Japan's position will be changed, according to the impression conveyed by M. Adachi to the various delegates, notably M. Brinnd, tonight.

Looking up like a beacon from the almost innumerable points of interest marking the closing debate today in the proposed protocol of arbitration and security, the Japanese position is of particular importance for the United States and other countries which are not members of the league of nations. It was based on the interpretation of the protocol made by Dr. Sugawara, secretary-general.

Dr. Sugawara, secretary-general, reported to the assembly, that states which do not sign the protocol and do not belong to the league may be proclaimed belligerents if they refuse the arbitration proceedings laid down by the protocol and the league covenant and resort to war.

Dr. Sugawara's statement was met by Dr. Benes gave the interpretation.

AMERICAN ARMY FLIERS WEARING END OF FLIGHT

Grand Celebration Planned at Seattle With Landing There of World Circlers Today; Huge Crowds Expected.

SEATTLE, Sept. 27 (AP)—When the American army aviators arrive here tomorrow, officially completing the first flight around the world, they will find awaiting them a reception which will be in keeping with their heroic achievement.

In addition to the 40,000 or more spectators expected to be on hand to acclaim the triumphant return of the globe circling officers there will be representatives of the civil and military governments of the United States and Canada present to extend formal greetings and congratulations.

Represent Coolidge.

Major General Charles F. Mortimer, commanding the Ninth corps, will represent President Coolidge and Secretary of War Weeks, and Read Admiral J. A. Hoge will represent the navy department. General Hoge will also represent the Canadian destroyer fleet to welcome the fliers.

Upon arrival at the Sand Point aviation field the fliers will be greeted and then escorted to Volunteer park in the center of the city of Seattle, where the civic reception will be held. It is here that gifts raised by public subscription will be presented. After the reception the fliers will be taken to a hotel which will be their home while they are in Seattle.

Guests at Luncheon.

On Monday the aviators will be guests at a luncheon and it is planned to have them unveil a shaft commemorating the beginning and ending of the famous flight.

Arrangements have been made for patrolling the landing field and the roads leading to it to avoid congestion or disorder. United States soldiers and national guardsmen will maintain the patrol.

Among those who will welcome back the fliers is Major Frederick L. Martin, who started on the flight as commander, but who was forced to return when his plane was wrecked in Alaska.

MAKES CLAIM TO PAYMENT

M. F. Patrick, Holder of Mortgage on Cole Land, Asks That Short Line Pay Him for Right of Way.

Call for "whatever sum may be allowed as damages for condemnation of 25 acres of land sought by the Oregon Short Line Railway company as part of the right of way for the Rogers-Wellis line, is asserted by M. F. Patrick in an answer filed Saturday in district court here in the condemnation suit instituted last April by the Short Line against Ralph R. and Laura B. Cole, and M. F. Patrick. Patrick's claim is based on his holding of a \$100 mortgage against the property through which the right of way is sought. Summons has been served in the case on the Cotes in Long Beach, California.

TRANS-ATLANTIC FLIGHT PLANNED

Giant Dirigible Built in Germany to Start for U. S. on October 5 or 6.

FRIEDRICHSHAVEN, Germany, Sept. 27 (AP)—Preparations for the trans-Atlantic flight of the ZR-3, the Zeppelin built giant dirigible which is to be turned over to the American navy after its voyage across the sea to Lakehurst, N. J., are to begin immediately in anticipation of beginning the long air journey on October 5 or 6.

One of the first tasks in equipping the big airship for its history making run across the Atlantic will be the loading of 30 tons of gasoline and 800 pounds of food for the crew and the Americans who will be aboard. The work will be begun at once. One of the motors will be taken down and minutely inspected for flaws by the technicians.

Absorbs Water.

During yesterday's rain when the ZR-3 was returning to Friedrichshaven from a successful trial trip over Germany, the huge envelope absorbed several tons of water. Several days will be required for the envelope to dry out. By next Saturday, Dr. Hugo Eckener, director of the Zeppelin company, in charge, expects everything will be spick and span for the departure.

Word was received today that three American war vessels would be stationed at points on the Atlantic route for the purpose of keeping the dirigible in the currents advised of weather conditions.

Guard Thrown Around 6000-Acre Area in Stock Country to Prevent Spread of Hoof and Mouth Malady.

HOUSTON, Texas, Sept. 27 (AP)—A second attack of the hoof and mouth disease was discovered late today in the 6000 acre area near here which is under strict guard to prevent spread of the malady.

Announcement of the new outbreak was made by Dr. W. E. Cotton, government expert from Washington, who said he had definitely diagnosed the disease among cattle on the Perry McFadden ranch, near Webster, Texas. This ranch is slightly north of the ranch of the Rev. William S. Jacobson where the epidemic first was discovered in a herd of Brahman cattle.

EMBARGO IS ORDERED.

HELENA, Mont., Sept. 27 (AP)—A temporary embargo order on all livestock shipments from Texas to Montana was telegraphed to Governor Pat Neff of Texas, by Dr. W. J. Butler, head of the state livestock sanitary board, today.

Dr. Butler, as head also of the western state livestock sanitary association, is considering telegraphing livestock sanitary boards in 13 western states recommending embargoes by those states against Texas livestock.

WASHINGTON ACTS.

WASHINGTON, Sept. 27 (AP)—Prompt action by federal and state livestock officials has brought the combined forces of the bureau of animal industry and livestock sanitary commission to a concentrated drive to eradicate an outbreak of the foot and mouth disease among cattle on a ranch in Harris county, Texas, not far from Houston.

John B. Mahler, chief of the federal government's forces here, said conditions in general are favorable for the eradication of the disease.

The disease which had been under observation of the state authorities was not definitely diagnosed as the dread cattle scourge until today. Immediately after diagnosis was made, a quarantine was placed around the infected ranch and those nearby while a quarantine covering Harris and Galveston counties and parts of Harris and Galveston counties was promptly put into effect.

The Texas officials willingly signed a contract for co-operation with the federal authorities as is necessary before the federal government can begin operations within any state. Steam shovels worked all last night preparing a trench for the infected cattle when slaughtered. The usual methods of quarantine, inspection, appraisal, slaughter and deep burial, which have resulted in the suppression of other outbreaks.

The new outbreak is in no way connected with the infection which appeared in California last winter and which the federal government officials of the bureau of animal industry stated today. Strong indications that the infection entered surreptitiously from the south have been pressed, officials given in a preliminary survey of the Texas situation.

NOTED RESORT IS CONVERTED INTO CHURCH

Community Tabernacle and
Parsonage in Colorado Built
Out of Notorious Gambling
House and Brewery.

DURANGO, Colo., Sept. 27 (AP)—The old Greek saying, "out of bad wood good smoke sometimes comes," was applied here when a "community tabernacle" and its parsonage were built out of timbers and materials taken from a once notorious gambling resort and dance hall, and from an erstwhile brewery.

The tabernacle, built by the Free Methodist church, was recently dedicated. Its altar rail was made out of part of this bar against which the lumbric, miners, cowpunchers, Mexicans and gamblers of 40 years ago used to lean. The bar's footrail was converted into a handrail of the steps leading into the church. A Bible now rests on the polished walnut where the liquor of the early days was placed, for the top of the bar has become a pulpit. The altar was constructed from other parts of the bar.

Stone Foundation.

The church rests on a foundation of stone, heavy timbers and iron beams taken from both the dance hall and the brewery. The window sills and angles were made from the heavy beams of huge beer vats.

The building occupies the site of the former brewery. It is situated at the foot of a bluff and is overlooked by the parsonage of the presiding elder of the district. The parsonage once was the office of the brewery and has been made into a modern cottage. "It is planned to terrace the bluff and to build winding stairs from the elder's home to the house of worship, using as a handrail a coil formerly utilized in making beer."

Dance Hall Timber.

The two steps that lead to the entrance of the tabernacle were formed of timbers taken from the dance hall. One of the boards carries a bullet fired from a ".45," evidence of one of the many shooting scrapes that culminated in the old resort. The heavy timbers comprising the supporting columns and the roof beams were taken from the dance hall. The church seats 700.

"If this," said the Rev. F. F. Stewart, the presiding elder who conceived the idea, "that it was in the nature of an act of Providence that we were able to convert these places of dissipation into a house of worship."

Not Her Dead Husband.

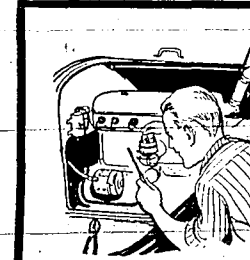

The lady had just lost her husband and had gone to a summer hotel to rest. She often dreamed of her husband and she would sometimes get up in the middle of the night to see if he wasn't walking about. Any little disturbance caused her to be frightened. One night mysterious raps were heard on the walls of the summer hotel. "Great goodness," cried the frightened woman in room 13, "I wonder if that could be my departed husband!" "No," growled the man in room 14, "it's the people on the other floors kicking mosquitoes with their slippers."

A Poser.

The difference between theoretical knowledge and practical is illustrated by the story of the farmer who wandered into a chemical laboratory. He found several chemists busy with reagents and test tubes. "What are you trying to do?" he asked. "We're endeavoring," replied one of the students, contentedly, "to discover or invent a universal solvent." "What's that?" asked the farmer. "A liquid that will dissolve anything." "That's a great idea," agreed the farmer. "When you find it, what are you going to keep it in?"

Secretary of state—James A. Hamilton, the Bronx.

Comptroller—James W. Fleming, Troy.

Treasurer—George Kent Schuler, Lyons.

Attorney General—Carl Sherman, Buffalo.

New Kind of Stamp.

The arrival of twins at a flat, one evening caused a great sensation and the sister of the young mother was so impressed by the unexpected honor of being aunt to a pair that she lost her wits for the time being.

She rushed to the nearest post office and asked for stamps—so that she might repeat the glad tidings.

The clerk said, affably, "How many, miss?"

"Two," she cried, joyously.

"What?"

"A boy and a girl," she said, then fled in dismay.

Waves and Currents

The difference between a wave and a current is that a current is a stream of water moving in the sea, while a wave is merely a movement on the surface. The water itself does not advance with the wave (until it breaks), but the water of the current actually travels.

DUPLEX—a new name

—for a new type car you have never seen before!

A closed and open car combined—the advantages of both at an open car price!

ONE minute the DUPLEX is a comfortable, weather-tight closed car—deeply cushioned and richly appointed. In less than thirty seconds it becomes a delightful open car, with all the unhindered freedom every motorist likes and enjoys. Its double utility satisfied a most urgent need—it is as revolutionary as the self-starter and electric lights.

And the price is the same as that of the open car—with advantages in finish, fittings, room and comfort no open car could ever give!

Framed and shaped in steel, the upper part of the Duplex Body is built integrally with the lower part—it functions perfectly with the lower part—it is permanently beautiful.

But even without the "double-value" of the Duplex Body the new Standard Six would still be the same great Studebaker success. For its introduction marks the beginning of an era in the automobile industry when fine cars of real quality, plenty of room and comfort, impressive appearance, splendid power and performance may be had at a price the average buyer can afford to pay.

Surpassing mechanical superiority is obvious in every mile you drive it. Power, smoothness, silence you expect in any good six-cylinder car; but in this great car your expectations will be exceeded. You cannot anticipate such performance-perfection in any car even within hundreds of dollars of the new Studebaker Standard Six price.

The proof is easy to establish—drive it yourself, try it out on your favorite hill, test its speed on the straight-away. Sense what "ease of operation" really means in terms of effortless steering, velvety clutch action, easy gear shifting and instant brake application.

Experience what real comfort means in plenty of room, soft deep cushions; genuine balloon tires; long, supple springs.

The new Standard Six will tell you a story as it has never been told before by any other car at the Standard Six price.

Whether you are in the market now or next year—you should see this new Studebaker. It is a car that will revolutionize values in the automobile industry!

AVIATORS LAND AT EUGENE, ORE.

Within Two Hours of End of Journey at Seattle; Five-Hour Flight Saturday.

EUGENE, Ore., Sept. 27 (AP)—A group of the world's aviators tonight were within a two-hour's flight of the official end of their long journey. They flew here from Crissy field, San Francisco, in a little more than five hours today and expect to complete the circumnavigation of the globe in Seattle at noon tomorrow. If weather conditions are favorable, they plan to take off from here at 10 a. m. tomorrow.

Lieutenant Lowell H. Smith, commander of the flight, who was the first to leave Crissy field, from which he took off at 9 a. m., also was the first to land here, his plane coming down at 2:17:25 p. m. The other two pilots, Lieutenant Leigh Wade and Erik Nelson, followed within three minutes.

They were welcomed by Governor Walter M. Pierce of Oregon, Mayor E. B. Parks of Eugene, army officers and a reception committee which included a number of persons prominent in the state.

The fliers were to attend a banquet in their honor at a local hotel this evening.

Leslie Foy left Thursday for Tacoma, Wash., where he will enter a government hospital for treatment.

Mrs. Florence E. Wright, Mrs. L. O. Doty and Mrs. A. J. Wilson returned Friday evening from Oakley, where they attended the First District convention of Federation of Women's clubs.

The flight going to the legation from the Pioneer club of Kimberly, with Mrs. Doty as her alternate. A splendid meeting is reported.

Miss Carol Hammons and sister, Orma, of Twin Falls, visited relatives in Kimberly the fore part of the week.

H. T. West arrived in Kimberly on Thursday afternoon from Seattle.

What proved a grand success in every way was the meeting of the fifth district convention of the American Legion held in Kimberly Friday night.

L. O. Doty of the Gem State Lumber company, announces the sale of lumber for a five room house to be erected on the John W. Harglin ranch, south of Twin Falls.

L. G. Stettler visited his family during the week from his ranch near Holter.

Members of the Kimberly Bridge club were pleasantly entertained at the home of Mrs. Glenn Whitney on Wednesday afternoon.

Mrs. T. Frank Henry received honor for high score.

Mrs. L. G. Stettler was a guest of the club, and refreshments were served by the hostess at the close of the afternoon.

A large crowd attended a joint meeting of the P. T. A. Friday night and an informal reception for Kimberly teachers was held. During the business session the following officers were elected in the P. T. A. for the coming year: Mrs. E. S. Wood, president; Mrs. B. E. Potter, vice president; Miss Mil-

dred Yelton, secretary, and Mrs. James Hargart, treasurer. A musical program followed in which Mrs. J. H.

Denham sang two solos and during the school hour punch and wafters were served. Mrs. Glenn Whitney and Mrs.

B. E. Potter assisting at the punch bowl. Mr. and Mrs. Ben Dawson and daughter were business visitors in Twin Falls Saturday. Mrs. Dawson visited the dental parlors.

We Want the Whole Family Bundle!

A LAUNDRY, to properly fill its place in any community, must be equipped to handle the entire job, not just a part of it.

Its service should be complete. No sorting into different piles by the Housewife; no separate packages for this, that or the other place.

Your Laundry should be so organized as to be able to accept the Family Washing, by the Week, Month or Year.

Such a service is yours; it is here for your benefit; all you have to do is to take advantage of the opportunity which we offer!

It's Simple, Isn't It?

Here are the three principal branches which this service covers—

Rough Dry

EVERYTHING WASHED—Articles like knit underwear, hosiery and bath towels are fluffed dry, ready for use. Flat work is neatly ironed, the pieces needing it are starched. Only the ironing of the lighter pieces is left to be done at home.

8 Cents Pound

Prim Prest

A FINE LAUNDRY SERVICE—The entire bundle carefully washed in many changes of rain-soft water and mild suds; everything beautifully ironed, ready to use or put away—a dainty service, complete in every detail.

15 Cents Pound

Economy Service

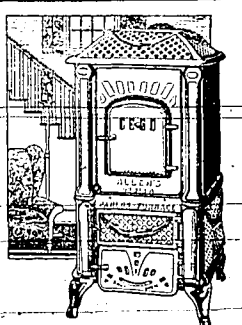

ECONOMY SERVICE—Everything carefully washed and thoroughly rinsed in eight to ten changes of water. All flat work is ironed—and carefully folded. Other work is returned dried—no starch.

6 Cents Pound

Furnace Heat

At Low Cost

We have the Allen's Parlor Furnace in a plain finish which we can sell you for a little more than an ordinary good heater would cost you. But think of it—a new type furnace which sets above the floor and will do the work of two or three ordinary stoves.

Allen's Parlor Furnace

Heats the healthful way by moist air circulation and is kept clean as easily as a piece of furniture. Vitreous porcelain enamel finish in several colors.

Don't fail to stop by and see a furnace made to look like a piece of furniture and to be installed above the floor.

A. H. Vincent Company

FURNITURE, RUGS, STOVES.
207-209 Gloucester South.

There is another Day of Rest for every housewife, once a week, in the service which we offer.

There is no risk, no single element of chance at any point when you entrust us with your Laundry work. Our performance must not only equal but exceed our every promise.

On this basis, and this basis only, we solicit the Family Washing—the Whole Family Bundle.

GIANTS AT TOP OF NATIONALS; SENATORS WIN; YANKEES LOSE BEAT PHILLIES

New York Takes Fourth Consecutive Pennant When They Beat Philadelphia; Brooklyn Out of Running.

NEW YORK, Sept. 27 (AP)—The New York Giants today broke a streak of 40 years and won the National league championship for the fourth time in succession by defeating Philadelphia here today, 5 to 1, while Brooklyn was losing to Boston.

The score: R. H. E. Philadelphia..... 1 4 1 New York..... 5 11 1 Batteries—Riggs, Carlson and Wilson; Heanley; Bentley and Snyder.

BRAVES BEAT DODGERS. BROOKLYN, Sept. 27 (AP)—The Braves put the Brooklyn Dodgers permanently out of the race for the National league pennant today by winning a close game, 3 to 2. Incidentally the Boston club broke Bill Dook's string of consecutive victories which had reached ten up to this point. The score: R. H. E. Boston..... 3 12 0 Brooklyn..... 2 4 4 Batteries—Conroy and O'Neill; Donk, Ehrhardt, Ruetheer and Taylor.

CINCINNATI WINS. CINCINNATI, Sept. 27 (AP)—Cincinnati, with a makeshift team in the field, slugged St. Louis pitchers and won the final game at Redland field 10 to 1. Daubert, Roush and Duncan were absent on account of disabilities. The Reds will close the season at St. Louis tomorrow with a double header. The score: R. H. E. St. Louis..... 1 9 3 Cincinnati..... 10 13 1 Batteries—P. Fowler, Vinz, Herley and Clemens; Dinut and Hargrave.

PIRATES TAKE A GAME. PITTSBURGH, Sept. 27 (AP)—Pittsburgh closed its home season today with a victory over Chicago, 3 to 2, in ten innings. Adams pitched for the Pirates and help with a hit in the tenth inning with two out which put Schmidt on second base. Schmidt scored the winning run on a single by Carey.

Washington Takes Game From Boston; New York Defeated by Philadelphia.

BOSTON, Sept. 27 (AP)—Pinch Hitter Wade Lefler's double to right field with the bases full in the fifth inning let Washington score three runs and eventually gave the Senators a 7 to 5 victory over the Red Sox this afternoon. The Philadelphia team was beating the Yankees at the same time. The lead, then, of the Senators is two full games with only two more to play. The Senators must win one or more game—or the Yankees lose one or more—to clinch the American league pennant.

A crowd of 22,000 saw the game today and it was the case yesterday, cheered steadily for a Washington victory, even though Howard Ehmke, the best of the Boston pitchers, started in the lead.

Mogridge started pitching for the Senators. After the Washington team made two runs on doubles by Rice and Gossin and Judge's triple in the first, the Sox scored four runs in their half of the opening inning on Wambagans' single, Boone's single, a pass to J. Harris, Ezzel's single off Peckinpugh's glove. Loss single and a successful double steal.

In the fifth Gossin singled, Judge bent out a bunt, Blagoe sacrificed, Peckinpugh fanned for the third straight time, but the bases were filled after Ehmke hit Ruel. Lefler came in as pinch hitter. His double off Ferguson yesterday scored the single Senator run of that game. He sent a liner to right which Boone did not hold and all three runners scored. The hit was scored on a two-bagger and Lefler was run down trying to make third base.

With Russell pitching in the fifth Boone tripled and scored on Ezzel's timely single over second, tying the score 5 to 5. In the sixth Washington scored twice. Leibold walked. Harris bunted towards Ehmke who took the ball, failed to throw to second and then made a bad peg to and booted first base which

Wambagans did not cover. The ball went to the pavilion fence in the right field foul territory, with Leibold scoring and the batter reaching third base from where he later scored on Gossin's clean single to right. Ehmke's error was fatal to Red Sox hopes. The score: R. H. E. Washington..... 7 10 1 Boston..... 5 8 3 Batteries—Mogridge, Marberry, Russell, Zachary and Ruel; Ehmke, Quinn and O'Neil, Pitcher.

NEW YORK GOES DOWN. PHILADELPHIA, Sept. 27 (AP)—A wild pitch by Leo Bush in the seventh inning of today's fray with the Athletics cost the New York Yankees the game, 4 to 3, and made their chances of overcoming the Senators lead practically nil. Had it not been for this wild pitch the Yankee's scoring of two runs in the ninth would have tied the score.

The bad pitch came with Jimmy Dykes on second and before the hole "Wally" Schang could retrieve the ball and throw scored with the fourth and what proved to be the winning tally. Rommel pitched a strong game from start to finish although he weakened in the ninth when he was solved for three hits.

Bush's shaky start in the first inning when he was blasted for two singles and three runs proved the most disastrous session. From then on he allowed but three more hits, one by Hauer in the sixth and two by Lamar and Miller in the eighth.

Rommel struck out but one batter but he singled out Ruth for this doubtful honor, and the "Babe" was resting but on his shoulder when he was called out.

When Ruth realized the significance of the umpire's decision he tossed his bat high in the air to demonstrate his disgust and then paused at the plate to make a few remarks to Umpire Holmes. Umpire Holmes stood his ground, and Yankee players persuaded the home run king to take his place in the outfield and the incident was closed.

The capacity crowd which cheerfully filled the stands and bleachers cheered lustily as the game finished and let out a still louder whoop as the Senators' 7 to 5 victory was hung up on the score board.

Second baseman Dykes was presented with an automobile after Philadelphia sporting writers had decided he was the most valuable player on the team.

The score: R. H. E. New York..... 3 7 1 Philadelphia..... 4 8 2 Batteries—Bush and Schang; Rommel and Bragg.

CLEVELAND WINS. CLEVELAND, Sept. 27 (AP)—Recruit Pitzer led Cleveland to seven scattered hits and Cleveland won the opening game of the final series, 12 to 1 today. The Browns' only run re-

WINS FIRST ROUND IN FIGHT OVER PROPERTY

Probate Court sustains Contention of W. R. Summers. Defendant in Suit Started by P. J. Pringle.

W. R. Summers of Kimberly, defendant in a suit instituted by P. J. Pringle of Twin Falls, involving title to the Summers home in Kimberly, has won his contention for removal of the action from the probate to the district court, records in the case being transferred Saturday by Probate Judge O. P. Duval to the district court.

Alleging that failure on Summers' part to pay the last half of the 1923 taxes on the property in question constituted breach of an agreement entered into last April, whereunder Pringle was to sell the property to Summers, Pringle in this suit asked for \$200 damages and that the damages be trebled.

In his demurrer, which was sustained by Judge Duval, Summers denied the jurisdiction of the probate court and alleged that Pringle's claim to the property was obtained through "corruption, fraud and misrepresentation," stating that Pringle held a mortgage on the property and obtained tax title to it; that Summers furnished the money with which the title was obtained and that the agreement to sell the property to Summers was entered into at that time.

Summers is represented in this action by Attorney Harry R. Kinsey, Pringle being represented by E. A. Walters and R. F. Parry.

LAFOLLETTE CONFERS ON SECOND ITINERARY OF SPEAKING PROGRAM

WASHINGTON, Sept. 27 (AP)—Uncertainly as to the points Senator Robert M. LaFollette will visit on his transcontinental speaking tour still existed today after the itinerary had been further discussed by him with his advisers. The independent presidential candidate not only consulted some of his friends but held several long distance telephone conversations on the subject with his managers in Chicago and New York.

Definite announcement as to the route the senator will follow on his trip toward the Pacific coast, was said today at his headquarters will be made by the first of the week. Indications are that he will leave Washington before the end of the week, facing at least one speaking engagement a day until election.

MISTER DARROW ON MURDER.

"I hope sincerely will not take the life of the Reverend Clarence Hight," says Clarence Hight, foremost criminal lawyer of the country and the man who for years past has contributed more than his share to the obstruction of the work of the courts of justice of America.

Why "the reverend"? There probably never was and certainly is not now any element of reverence attaching to this particular murderer. It is all very well to prate of the dual nature of man, of the conflict between the good and the bad and the constant struggle of mankind between the baser passions and the paths of rectitude and decency. These things are well understood, but the acceptance of such doctrine as an excuse for vicious and premeditated murder is to announce at the outset that there is no such crime as murder at all.

In Twin Falls County a distinct vivid light on certain important causes, change is noticeable in the attitude of the general public towards crime. All the rest should be indicated by a of the more serious sort and the whole flow line." That is typical of the population is to be congratulated upon newer attitude toward history.

A few years of strict law enforcement to have their own history present and there would be noticeably seated wholly in a favorable light than fewer homicides. A few more juries they are to have the truth about a

with the backbone to perform their sworn duties under the law and Twin Falls County would be a healthier place to live.

The situation with respect to the murderer Hight calls for no special comment from Clarence Darrow or anybody else. The law takes cognizance of the crime of murder and the only thing in the world for which Darrow should be given an opportunity to prepare the public mind is a fair and impartial trial.

We have paid too much attention to the Darrows, here and elsewhere.

HISTORICAL MINDEDNESS.

It has long been believed that good history can be written only long after the recorded events have occurred. Contemporary writers see the events of their own day in partisan and distorted view. Several generations later writers are able to get a true perspective on those same events and to present them to the world dispassionately.

However true this may have been in the past, according to James Harvey Robinson of Columbia University, it will not always be so in the future. Already the popular attitude toward current events is changing and the time will soon come when the best histories are written as the events occur. People are gradually gaining what this authority calls "historical mindedness." He adds, "When we come to live in a present which is the recognized outcome of the past and the vestibule of an inevitable future, we shall write our own history better than any one to come."

All of which is something of a compliment to recent historians who have broken away from the habit of emulating important dates and have striven mightily to show causes, tendencies and results. Van Ikon's opinion is that history, to give a true idea of the past, should be like Rembrandt's etchings. "It should cast a history and to find out what every thing was all about anyhow. Tolerance is far from a universal virtue yet, but it is making steadfast gains, and the tolerance of 'historical mindedness' is one of the finest phases of this advance.

People are slowly becoming less anxious to have their own history present and there would be noticeably seated wholly in a favorable light than fewer homicides. A few more juries they are to have the truth about a

"Matrimonially Speaking"

By Hugh McKay.

My wife asks me to go shopping with her "for just a few minutes." She calls me up after she gets downtown and wants to know if I can't tear myself away from the office for a few seconds to help her pick out a new hat or a new dress.

I always know what this means—she wants me there when she declares that the more expensive one will really be the most economical in the end.

But after making it clear to her that I can't possibly spare more than a very few minutes, I generally agree to meet her. And then the party is on!

She's feverishly trying on hats when I arrive at the store, but after fifteen minutes or so of this she decides that she doesn't feel quite satisfied with what they have there. She wonders if I'd mind just stepping over to the store across the street while she shows me the hats they have.

And from there we go to another store down the street—and then back to one of the two places we called on first where she tries on a half dozen hats all over again.

When she finally makes her selection it's exactly an hour and a half later than when we started—and I can just manage to get back to my office in time to close my desk!

Economic Philosophy

Wherever Dickens is read this advice by Mr. Micawber stands out as the acme of economic common sense:

"Annual income twenty pounds, annual expenditure nineteen, nineteen, six; result happiness. Annual income twenty pounds, annual expenditure twenty pounds, ought and six; result misery."

Likewise Josh Billings gives expression to not quite so nearly universal a truth when he tells us: "Debt is a trap, which a man sets and baits himself, and then deliberately gets into—and catches a kurald phool."

Artemus Ward made his reputation as an economist and a humorist on his statement:

"I'm bound to live within my means if I have to borrow money to do it." C. W. C., in McNaught's Monthly.

Do Ducks Swim With Wings?

Do ducks use their wings while swimming under water? The question is, discussed frequently among sportsmen and nature students, and opinions sometimes differ. Testimony of reliable authorities supports the belief that various species of ducks and grebes, loons and other diving birds do not use their wings when swimming beneath the surface for food or in trying to escape capture, says Popular Mechanics Magazine. A ruddy duck was observed on Lake Michigan not long ago feeding in 15 or 20 feet of clear water. As it got well started on its downward plunge, the wings, about two-thirds extended, were used in quick, short strokes, at the rate of about one a second, to assist in propelling it and in rising to the top as well.

Catherine Rush

Medical annals have seldom recorded so rare a case of longevity as that of Catherine Rush, who died in Philadelphia on May 1, 1817, at the age of one hundred and eleven years and eleven months. So far is it known Catherine Rush had lived on the outskirts of Philadelphia all her life, and no one was particularly interested in her until she reached the age of one hundred, having been a very frail girl. When she passed the one-hundred-year mark physicians began to watch her. They kept up their watching for nearly twelve years. It was Catherine Rush's greatest desire, when she felt the end coming, to round out one hundred and twelve years. She failed of it by one month.—Chicago Journal.

Increase Your Bean Yields

Every bushel that you add to your yield over what you are now producing means net profit. We have known of bean yields as high as 60 bushels per acre on highly fertilized land while other land on the same farm produced less than half that amount the same season. You can greatly increase your yield if you will. Winter Vetch is the best quick fertilizer known. It meets all requirements of the bean grower. Sow Winter Vetch on your bean fields this fall just as soon as the crop comes off, water freely and it will produce a heavy growth of humus to plow down before planting time in the spring. Vetch is a legume like clover and alfalfa, a stronger legume than either of them. You can fill your soil with both nitrogen and humus for next year's crop by sowing Vetch now.

RIGHT OF WAY ON STATE LAND TO COST \$120

Commissioners' Award In Condemnation Proceedings Fixes Value of Land Sought by Short Line.

The Oregon Short Line Railway company, in accordance with agreement reached by its attorneys and the Idaho attorney general's office and an award by commissioners and judgment on condemnation signed by Judge W. A. Rubenick and placed on record Saturday in Twin Falls county, will pay to the state the sum of \$120 for a strip of territory 100 feet wide comprising 11.94 acres and extending northeast from the intersection of the state highway as a part of the right of way for the Thompson-Wells line now under construction.

The various steps in the negotiations that were culminated with the signing of the order on condemnation are set forth in documents placed on record the condemnation and the judgment. Saturday. These documents include the appointment by counsel providing for the appointment of the commissioners to "assess and determine the damages if any that the state will sustain by reason of the condemnation and appropriation" of the property in question. There is included also a copy of their oath and their award and the judgment of condemnation, all of which were executed on Saturday.

In their award the commissioners found that no damages would accrue to the parties of the premises not sought to be condemned by reason of their severance from the condemned area or construction of the railway, and they awarded to the state the value of the land sought which was fixed at \$120.

Condemnation proceedings were reported to be the first instance because provisions of Idaho statutes do not permit the state to sell at private sale rights of way of the character required. The original complaint instituting this action was filed March 25, 1924.

In the proceedings involved the Short Line was represented by its attorneys, George H. Smith, H. E. Thompson, J. H. McEvers, of Pocatello, and M. J. Sweezy of Twin Falls. Negotiations on the part of the state were conducted through the office of A. H. Connor, attorney general.

USES ALIBI AS DEFENSE

That in district court here in the case of John D. Wagner, former restaurant proprietor charged with commission of a statutory offense involving a 15-year-old girl, probably will be concluded Monday, it was indicated at adjournment of court on Saturday. The defense attorney, counsel, having introduced testimony of several witnesses including that of the defendant, during the afternoon, stated that after evidence was presented he called to testify in support of an alibi for Wagner. The state rested its case early Saturday afternoon after offering testimony of the 15-year-old girl involved in the case, her mother and sister and Chief of Police P. O. Herriman. Wagner, in his own behalf, testified that at the time of the alleged offense he had been at home and not at the place where the alleged offense was committed. Other witnesses, including his father, were called by T. K. Hackman, defense attorney, to testify in support of Wagner's story.

The trial was opened Friday afternoon.

DEATHS

"SMITH"—Gertrude Louise Smith, one year and nine months old, daughter of Mr. and Mrs. Ralph B. Smith, 1150 Eleventh avenue east, died suddenly at the family residence at about 1 o'clock Saturday afternoon. The body was taken to the Grosman mortuary. Arrangement for funeral services awaited from relatives elsewhere.

Death of the little boy, who was the second of three little children in the grief-stricken home, is attributed to a digestive disorder. A few days before she had suffered from an apparently mild attack of indigestion. Saturday she was suddenly stricken and died within two hours, medical skill that was immediately summoned, proving an availing.

"QUINSHAM"—Fred G. Quinsham, 75 years old, died at about 11 o'clock Saturday forenoon at the county general hospital following long illness from cancer. Decedent is survived by no known relatives in this region. The body will be taken to the DeWitt mortuary and will be sent this morning to the former home at Carlisle, Pa.

American Legion District Convention at Kimberly Calls for Permanent Institution.

With all the posts within the district represented, the American Legion fifth district convention at Kimberly Friday afternoon at the call of the district commander, A. Walton Peck, the outstanding feature of the convention was the visit of the state commander, Dr. G. B. Crabtree of Idaho Falls. Dr. Crabtree was delayed en route and did not arrive until the concluding night of the convention, but a splendid talk to the auxiliary members and legionnaires at the banquet, outlining the work of the national convention at St. Paul, from which he has just returned. The state commander particularly stressed the fact that Idaho had lost a wonderful opportunity in not giving a larger delegation with some distinctive regalia in uniforms at the St. Paul convention and announced as a part of his program for the coming year to work in co-operation with Commercial clubs, Rotary clubs, Kiwanis clubs and various other civic organizations to the end that Idaho have a special train to the Omaha convention in 1925 and that the delegation go with the avowed purpose of advertising Idaho.

The afternoon session of the convention was wholly taken up by the reports of the activities of the various posts in the district. A good many interesting reports were made for the various posts and plans and suggestions were offered for programs for the coming year.

At 7 o'clock the convention adjourned to the Kimberly hotel to participate of the banquet prepared by the Kimberly auxiliary. While waiting for the arrival of Dr. Crabtree, Commander Peck called upon various post representatives for short speeches. Dr. F. E. Snook of Twin Falls gave an address on the needs of the national convention at St. Paul, and Mrs. Mary E. Snook, who was loaned to the auxiliary convention by the Idaho delegation, reported that immediate steps be taken to secure for Idaho a permanent veterans hospital. It was brought out in discussion that the hospital now located at Boise is only leased from the war department and the lease is such form that it may be terminated at any time by the war department. Funds are available from the veterans bureau to establish a permanent hospital and because of climate conditions and the natural hot water bath available, Idaho is considered the logical place for a permanent hospital. Assurance was given by Dr. Snook that had served upon the rehabilitation committee at St. Paul, that the hospital at Boise would be permanently retained, but it was also suggested that if a permanent hospital could be located at Idaho it would be better than that it was against the rules of their order, but all uncovered their faces when the police chief advised that the officers would remove the masks.

T. K. Frame, one of the eight men arrested, is reported to be an organizer and leader of the Klan in this region. T. Prater has served recently as special deputy sheriff. R. E. Hughes is the proprietor of the Kimberly country store. R. E. Hughes is a deliveryman.

secured it would be much better and would assure the disabled veterans of Idaho proper hospitalization.

A great deal of discussion was had on the proposed war memorial and gymnasium to be erected at Moscow for the University of Idaho. It was brought out in the discussion that through some misunderstanding the legion was being asked to solicit funds for the war memorial which is being built by the popular subscription. Commander Crabtree assured the convention that although the legion had endorsed the memorial proposition both at the Cour d'Alone convention and at Pocatello, yet it was not the idea of these conventions that the legion was to solicit the money. And, following a good deal of discussion by the members of the fifth district, a resolution was adopted favoring the war memorial plan but disavowing the solicitation of funds by the legion as an organization.

Twin Falls was the only bidder for the next session of the convention, which will be held sometime in December, and the convention unanimously voted to meet in Twin Falls at a date to be set by the executive committee.

After the session the Kimberly post had arranged a dance, and the legionnaires and their wives all enjoyed the dance until a late hour.
