CAMPAIGN FUND GROWING DAILY

Republicans Get Additional Half Million, Committee Is Informed.

WASHINGTON, Oct. 23 (AP)—Testimony indicating the manner in which the republican national committee has set up organizations within the various industries, businesses and professions to raise campaign funds from men within these fields of endeavor, was given today to the senate campaign fund investigating committee.

At the same time the committee received from republican national headquarters supplemental statements regarding contributions showing that the total received as of October 15 was only \$800,000 below the maximum of \$3,000,000 which Chairman Butler has stated he expects and hopes to raise for the conduct of the present campaign. These statements covered the period from October 10 to 15, and showed receipts of approximately \$500,000 within those five days.

There also came to the attention of the senate investigators rumors that \$100,000 is being sent into Montana, independent of the national committee, and the republican state chairman for use against Senator Thomas J. Walsh, democrat, prosecutor of the oil inquiry, who is a candidate for reelection. Senator Walsh said there would be a full investigation.

The prince will leave New England early tomorrow for New York, from which port he will embark for England, sailing on the Olympic just after midnight.

POCATELLO, Oct. 23 (AP)—Thirty deputy sheriffs tonight are searching in the vicinity of McCammon, Idaho, for the three robbers who last yesterday held up the State Bank of Affton, Wyoming, and escaped with \$1500 in cash. The three robbers escaped in an automobile and fled over the Idaho line. One of the robbers is declared to be a youth only about 19 years of age. The robbers are said to have loitered about Affton for several days prior to the hold-up. They committed the deed unmasked and were easily recognized.

PEKING UNDER DRASTIC RULE OF DESERTER

Famous Chinese City Falls Into Hands of Christian General Who Turns Traitor to His Commander.

TOKIO, Oct. 24 (AP)—Tao Kun, president of China, has fled from Peking, according to a dispatch to the Kokumun News Agency from Tientsin. His destination is not known.

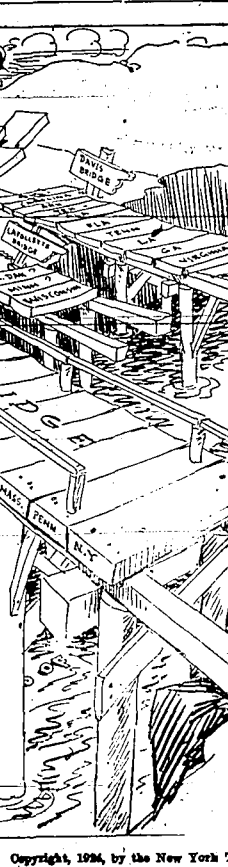

By Associated Press. Defection of General Feng Yu-Hsiang, trusted lieutenant of Wu Pei-Fu, changed of the entire Chinese situation Thursday. Authentic reports showed that General Feng with part of the army under his command had taken charge of Peking, cut all telephone and telegraph wires and stopped train service. Chinese reports asserted he had demanded abdication of president Tao Kun, who recently made Wu Pei-Fu commander in chief of all China's national armies and that he had insisted that the present warfare against Chang Tso-Lin, military dictator of Manchuria, should cease.

Reports failed to show whether Feng was acting in league with Manchuria or independently. Wu Pei-Fu last was reported directing the fighting from a point near Shan-hai-kuan, where a battle expected to prove decisive was being fought. Feng Yu-Hsiang is known as the Christian general. His recent departure from Peking when his army went forth to meet the Manchurians was signal light with wholesale baptism of all of his men and asking a blessing upon the new weapons which had just been distributed to them.

Seventeen men were in the workings at the time of the blast.

Labor Urges Half Holiday So That Workers May Vote

American Federation Seeks Equal Opportunity for Industrial Men.

WASHINGTON, Oct. 23 (AP)—A statement urging that a half holiday be granted by employers to industrial workers throughout the country on election day, November 4, in order that they may have "equal opportunity" with all citizens to go to the polls, was issued tonight by the executive council of the American Federation of Labor.

In those states where election day is a legal holiday it was urged that it be made a "holiday in fact as well as in law," because the "legal holiday" and the "resulting candidate is tantamount to special privilege for those not industrial workers."

CLASH COMES IN OIL LEASE SUIT

Doherty Refuses to Testify Before Court; Senate Testimony Is Used.

LOS ANGELES, Oct. 23 (AP)—Testimony given by E. L. Doherty, head of the Pan-American Petroleum interests, before the senate investigation committee last January relative to the \$100,000 personal loan given to Doherty by former Secretary of the Interior Albert B. Fall, was the cause today of the first heated clash between opposing counsel at the trial here of the government's suit for cancellation of leases held by the Pan-American in the Elk Hills natural oil reserve.

Legal arguments that followed lasted from the latter part of the morning session until nearly the close of court. Federal Judge Paul J. McCormick ruled in favor of the government.

The clash occurred when the prosecution, in the unavailability of Mr. Doherty as a witness, he having refused to testify earlier in the day, offered in evidence testimony given by the oil magnate before the senate investigating committee before about Fall's note and proposed changes in the lease.

PEACE, ECONOMY AND PROTECTIVE TARIFF COOLIDGE'S PROMISE

NEW EVIDENCE UNCOVERED IN M'QUOWN CASE

California Man Identifies Pistol Found Near Killing as One Owned by Mark Collins, Suspect Held.

CHICO, Cal., Oct. 23 (AP)—What was described as the link missing in the case against Mark Collins, Chico, youth, held in Salt Lake City for the murder of C. C. McQuown of Hull, Idaho, has been uncovered by Sheriff B. R. Harries of Salt Lake, in a visit to Butte county, where he obtained positive identification of the pistol thought to have been used in the slaying, as the one used by Collins in a holdup near Chico August 31, last.

McQuown was killed during a holdup near Salt Lake City, Oct. 13, and a pistol of 45 caliber was found by police in a field near by. Collins, an automobile tourist, was taken into custody for investigation and later charged with first degree murder.

Confessed Accomplice

Identification of the pistol was made by Leslie Meredith, confessed accomplice of Collins in a holdup near here. Meredith also identified a belt and holster shown him by Sheriff Harries as belonging to Collins and through pictures of the Salt Lake City suspect identified Collins as the man wanted in Chico for holdup.

Meredith is held in the county jail at Oroville.

SHEMANDOAH IS CROSSING TEXAS

Giant Airship on Her Way to New Jersey on 9000-Mile Test Flight.

ABOARD U. S. SHEMANDOAH (via radio to Station WBAF), FORT WORTH, Tex., Oct. 23 (AP)—All through today until the sun dropped suddenly below the horizon at dusk, the SheMANDOAH bumped her way across Texas. Few clouds were overhead and a few thunderclouds were below and cross currents of air were noted around every hill top.

After the mountains had been left behind and the Texas river crossed at ALLAMOGOSA, the SheMANDOAH was last for an elevation of 6000 feet, across the dreary, reddish brown waste, with scattered ranch houses, stagnant waterholes and wandering cattle.

As the temperature changed under the scattered clouds the ship would drop suddenly as the gas gave way in its bag. The heat would radiate from the blistered soil and the gas bags would shoot upward against the rising and falling was as much as 500 feet deep, and the tops of the clouds gave way a mile in length. Helmsmen in the navigating cabin were kept busy spring the spokes of the steering wheel to keep the big ship on its petty keel.

The SheMANDOAH jumped through waves of heavy air, but never going steadily forward. At 6 p. m. the motors in the five power cars were running at standard speed, 1200 revolutions per minute. The motors had been running at 1200 revolutions per minute for 24 hours and at fast speed of 1400 revolutions for two hours.

TRENTON EXPLOSION IS STILL A MYSTERY TO NAVY OFFICIALS

WASHINGTON, Oct. 23 (AP)—Examination of the inspection reports of the cruiser Trenton render untenable the theory that deteriorated powder may have caused the explosion on board which has resulted in 14 deaths, Secretary Wilbur announced today. He added that the departmental files failed to show a single accident from "bad" powder during the past 15 years, or since 1909, when the navy obtained a method of stabilizing all service explosives.

While the ordinance bureau has a definite theory of the cause of the catastrophe the secretary said it would not be divulged or commented upon while the court of inquiry is sitting in the case.

President in Most Comprehensive Speech Since That of Acceptance Tells of Administration Plans.

WASHINGTON, Oct. 23 (AP)—President Coolidge set forth tonight policies of administration under which he purposes that the government will "maintain peace, promote economy, provide a protective tariff, assist the farmer, leave the people in possession of their property and maintain the integrity of the courts."

In the last extended address he expects to make before election and the most comprehensive he has delivered since his speech of acceptance of the republican nomination, the president declared his stand on practically every phase of government affairs. He discussed campaign issues, in some instances for the first time.

Carried by Radio

Mr. Coolidge spoke before the eastern division of the Chamber of Commerce of the United States, meeting here in the chamber's new building, and the address was carried by radio to almost every section of the country.

Summarizing the administration's program, which he said had brought an era of more than average prosperity, the president called attention that despite the natural supposition that every well-wisher of the country would be anxious to maintain the present established order of things, "there are now proposed 'at least two of the most revolutionary changes' government ownership of transportation and limitation of the powers of the supreme court."

Public Ownership

Public ownership, he described, as a most perilous undertaking, both to the welfare of the nation and the independence of the people. "If powers of the supreme court were limited, as proposed," he said, "the historian would also the chapter would be written that the people had shown they were incapable of self government and the American republic had proved a failure."

Mr. Coolidge said further that reduction in federal taxes was possible on the basis of the estimated government budget for next year, and he outlined his "common sense" method of taxation:

"Getting all we can out of the rich by making the rates moderate and stimulating business to provide work and increase the earnings of the poor."

Foreign Affairs

In foreign affairs, the president promised co-operation in the interest of peace; declared for constitutional covenants outlawing aggressive warfare, and reaffirmed his proposal and adherence to the permanent court of international justice. He announced opposition, however, to participation by this government in international conferences discussing questions of purely "our own domestic affairs," to the cancellation of war debts owed this nation and to the entrance of the United States into the league of nations.

No other "sound and practical" policy in foreign affairs has been presented, Mr. Coolidge declared, adding

JAPANESE PLAN ABOUSES MEXICO

Investigation Started of Announced Colonization of 20,000 in Lower California.

MEXICALI, Lower California, Oct. 23 (AP)—Governor Abelardo Rodriguez of the northern district of Lower California, Mexico, announced today that he had ordered an immediate investigation of reports that Japanese financiers, co-operating with an American agent, had planned to place 20,000 Japanese on a tract of 100,000 acres of land at Pescadero Cut, south of this city.

Public sentiment in Mexico was reported to the governor as being strongly opposed to any further influx of Orientals.

AGENTS INVESTIGATE

CALIFORNIA, Cal., Oct. 23 (AP)—An investigation by agents of the United States department of justice was under way here today as a result of reports last night that four Japanese who crossed the international boundary from Mexico were representatives of the Japanese general staff and Japanese financial and industrial experts planning to finance and direct a large colonization project in Lower California.

C. H. HUDLESON IS APPOINTED DISTRICT HEAD

Boise Made Regional Headquarters for U. S. Veterans Bureau; Manager Is Well Known Here.

WASHINGTON, Oct. 23.—(Special to The News)—C. H. Hudleson, sub-district manager of the United States veterans' bureau with headquarters at Boise, has been appointed by General Frank P. Jones, director of the bureau as regional manager of the Idaho district, which will be established November 1. Mr. Hudleson will have charge of a staff of approximately 45 and his headquarters will be at Boise.

Under the reorganization of the veterans' bureau and the 1923 act, the Boise office will be one of the approximately 20 regional offices in the United States and claims for vocational training, hospitalization and like work will be handled through the Boise office of which Mr. Hudleson will be head.

The reorganization comes as the expected result of provisions contained in the recently enacted war veterans' act, 1924, which made possible the further decentralization of the bureau to the extent of permitting the establishment of regional offices and rating boards. These boards will consist of five members; a claims examiner, claim reviewer, vocational specialist and two general medical referees. In addition to the regular members of the board such specialists as are necessary to determine the medical facts in each case are authorized to be called upon.

The actions taken by the new regional claims and rating boards will in each case be final, although, of course, subject to review by the central office board of appeals in matters tending to show whether or not the law was followed. No attempt will be made by the central office board of appeals to alter awards made by the new regional boards in so far as they deal with the determination of the degree of disability.

Regional offices will be established in Seattle (for Washington and northern part of Idaho); Boise (for Idaho with exception of northern counties); Portland (for Oregon); Spokane will continue as a sub-district office. The counties in Idaho to be under the jurisdiction of the Seattle regional office are: Boundary, Bonner, Kootenai, Benewah, Latah, Clearwater, Nez Perce and Idaho.

Well Known Here.
Mr. Hudleson is well known in this city. During the world war he served as a captain in the Ninth infantry regular army, at Camp Lewis, and saw service overseas with the famous Ninety-first division.

His appointment makes him probably the youngest regional manager in the United States veterans' bureau. He has for some time been active as sub-district manager at Boise and all cases of rehabilitation of veterans in southern Idaho have been handled through his department. He is well known in this section for his basketball ability.

TRUE AMERICAN FAMILY FOUND ONLY ON FARMS

Ceased to Exist in Cities, Says Speaker at Conference; More Children Raised.

MILWAUKEE, Wis., Oct. 23. (AP)—The true American family can only be found in the rural districts, the city family has ceased to exist, C. J. Galpin, of the federal department of agriculture declared tonight in an address before the National Catholic Rural Life conference.

Census statistics, he said, show that in the 30,000,000 of farm population there are 4,000,000 more children under 21 years of age than in the 30,000,000 of city population.

"The city," he continued, "is the place of fewer families, more unmarried adults and fewer children in families having children. Space is too dear in the cities for children. Families who desire children must move to the country. The farm has sunlight, space, air and quiet. That's why the children are there."

Best of Nation.

Statements, Mr. Galpin declared, know that the farm family produces young men who are both morally and physically fit and so "consciously or unconsciously they conserve the farm as the breeding ground of the nation's men, as well as the source of food to feed the nation."

The farmers' close contact with the manifestations of nature has made him a religious man, the speaker said. "The farmer always finds a place for God's will to operate in wheat, corn, cotton and cattle. The farmer does his part; but after all, he must have faith in God's part. But the worker in textiles, iron, gold, acids, food that his materials are under his control and will. It is no wonder then that his own ego is exalted. His own will is set, and small space is left for God. Atheists do not grow up out of the soil. The farm is the home of religious life."

DOPE FAVORS LOCALS TODAY

Game Between Gooding and Twin Falls at Lincoln Field at 3 o'clock.

Twin Falls will meet her first north side high school when Gooding high school plays the locals at 3 this afternoon. Coach Kuhns not only brings a splendid football squad but also an impressive record. This game renews the ancient rivalry, as the north side high school was in former days one of Twin Falls' outstanding rivals.

The Twin Falls squad goes into the game with an edge on her opponent, as to records, as Twin Falls has suffered no defeats in the hands of a high school. Gooding was defeated once this season by the Boise high school team, while Twin's closest contest was a 7 to 7 tie with the Normal squad. The locals will be playing a regular, Captain Humphrey, Day, and Robertson out of the line and Tim will be out of the backfield. All of these men are out due to injuries.

The schedule for the remaining games is as follows:

October 23—Gooding at Twin Falls.
October 31—Buhl at Twin Falls.
November 11—Tupelo at Twin Falls.
November 14—Hurley at Twin Falls.
November 21—Idaho Falls at Twin Falls.

November 27—Caldwell at Caldwell.
D. Kuhns, coach of the Gooding football team, is a graduate of the Twin Falls high school. He played left tackle on the team under George Deussen, now a lawyer, and graduated with the class of '20.

PEACE, ECONOMY, AND TARIFF IS PROMISED

(Continued from Page One)

that "we have been willing to assume the responsibility for the nation and the world in this direction, without first seeking through a costly, futile and unconstitutional referendum what the people would say."

In agriculture, the president said, he was ready to open the investigation into farming conditions he had proposed as a means of turning a legislative program of aid. This had been withheld temporarily, he said, at the advice of farm leaders, lest the investigation become involved in partisan politics.

Recalling the benefits he said had accrued from the existing tariff law, Mr. Coolidge insisted that without a protective tariff, "American industry cannot exist, American wages cannot be paid, the American standard of living cannot be maintained."

Spanish Swamp Home of Wild Camel Herd

Wild camels exist in western Europe, within two days' journey from Piccadilly circus, writes a correspondent of the London Mail. There are a considerable number of them in this mysterious "swamp," but no one knows exactly how many. To survive they have actually become semi-domestic.

Up the Guadalquivir in Andalusia is the thickest material swamp in Spain, and perhaps in the world, an endless vista of waterlogged wilderness, broken only by occasional low islands covered with willow scrub. Here, among enormous flocks of gulls and crows, roam, unseen, wild camels and mules, half-wild the outcast camels. In another five years the swamp will have completed a century of life in western Europe. Their ancestors were brought over from Africa in 1823 by the Mor quils de Villafraña for farm work.

Villafraña's horses panicked how evenings' horses will unless carefully "broken in," and there were some nasty accidents. Rather than have the work of his estates upset by labor trouble, the marquis turned his camels loose. Some were killed. The descendants of those who took to the "swamp" survived.

Charity in Judgment

Those who themselves need the charitable judgment of other people should have all things be tolerant in their own judgments. For my part, I consider the best and most finished type of man to be the person who is always ready to make allowances for others, on the ground that never a day passes without his being in fault himself, yet who keeps as clear of faults as if he never pardoned them in others—Pity the Younger.

BRITISH WATCH BASEBALL GAME

Crowd Greets League Teams in Exhibition Games Played at Liverpool.

LIVERPOOL, Oct. 23 (AP)—A crowd of more than 2500 today witnessed the opening European exhibition game between the Chicago White Sox and the New York Giants. The Sox won, 10 to 1.

This is the way the British press agency described the game: "Many who had not previously witnessed a ball game were astounded by the prodigious hitting of the Americans, the ball frequently falling into the stands. The play was exceedingly fast, but the smart fielding of the Chicago side was the downfall of the New Yorkers. The latter held the lead until the sixth inning, but the Sox gathered four runs in the sixth to lead by seven to six."

"The seventh inning gave the Sox the most commanding lead of 10 runs to 7, but they failed to increase this in the following two innings where the Giants put on four additional runs to be beaten by five runs. Most of the Sox, playing at left field, made wonderful catches in the outfield. On one occasion he had to leap over the barrier in an attempt to hold the ball."

He often drove the ball among the spectators in the stands. Kamm, at right field, also played a fine game, while Robertson was the best of the pitchers."

REPUBLICAN RECORD ATTACKED BY DAVIS

PUBLIC AUDITORIUM, CLEVELAND, Ohio, Oct. 23 (AP)—John W. Davis, democratic candidate for president, stood tonight on the platform where President Coolidge was inaugurated by the republican national convention and interpreted what he said was the one issue of the presidential contest—the record of the republican party during its present lease of power."

The candidate began his analysis by referring to the control of the legislative power which he declared was assumed by the republican party in 1918.

DEYS HAVE MAJORITY.

TORONTO, Ont., Oct. 23 (AP)—At 11:30 o'clock tonight the "drys" had overcome an adverse majority which at one time was as high as 70,000 and had piled up a majority of their own of 2653 over the "wets." The vote at that time from 5460 sub-election districts out of a total of 73332, was 444,408 for the Ontario temperance act, and 441,355 for government control.

Famous Roman Roadway

About 312 B. C. Caesar Appian Claudius built the Appian way. This great 36-mile thoroughfare stretches out almost in a direct line from the walls of Rome in a southerly direction to Brundisium. Today, as in the days of ancient Rome, heavy oxen draw great loads of produce along this ancient road.

WALLACE WILL NOT RESIGN, STATEMENT IS MADE BY DEPARTMENT

WASHINGTON, Oct. 23 (AP)—The department of agriculture issued a statement tonight saying Secretary Wallace, who is in a hospital here recovering from a recent operation, had authorized the most positive denial of rumors that he intended to resign his cabinet post. Stating that Secretary Wallace had been unable to communicate directly with officials of the department since his operation, more than a week ago, the statement added:

"Unfortunately rumors of his resignation which recur with persistence, give the wrong impression to the department people and to the country at large. Dr. Joel T. Boone, under whose care Secretary Wallace has been for the past six weeks, told department officials that the secretary had not talked with anyone on the matter of his resignation and had directed him to indicate to the department officials that they might make the positive denial of rumors of his resignation."

Marcus Tengen is having a closing out sale. They are leaving the country. Aida Whitte, who is teaching west of Rogerson, spent the week-end with her parents. DAVIS PROMISES TO WORK AGAINST WARS

WASHINGTON, Oct. 23 (AP)—John W. Davis, democratic presidential candidate, in a letter made public today by the democratic national committee, asserted that if elected president he will "leave nothing undone to hasten the day when conference and contact and conciliation shall become the normal habit of nations and when a decent respect for the common judgment of mankind shall serve to keep order throughout the civilized world."

The candidate's letter, dated October 10, was in reply to one from Mrs. Alice M. French, founder of the American War Mothers, offering her services to the democratic cause, because, she said, it is "evident that the republican party intends to continue its propaganda of war."

TRAINMEN HURT IN WRECK

EASTLAND, Texas, Oct. 23 (P)—Two trainmen were injured this afternoon when two Texas and Pacific freight trains met in head-on collision in the railroad yards here. Engineer Moore of Fort Worth, of a westbound train, and Fireman Cunningham of an eastbound freight were seriously injured, the former probably fatally. A large number of cattle on the eastbound train were killed.

Telephone to Teach Better Enunciation

Men who are trying to improve telephone service believe that the telephone will teach its users to speak clearly. With this conversation, but in the course of time, And certainly, business would be expedited with perfect enunciation over the telephone. Even a simple name like Dix, any, when passed over the wires may become almost anything—and then it is spoiled for reception, thus "D for Dan, I to Ike, X for X-ray"—words as difficult as the one to be understood.

Progress in plain talking does seem to lag, in the opinion of The Nation's Business. Any optimism in that direction is lighted by the hush in our daily speech. Words seem to have transmission as much by telepathy as by telephony. "Wasn't you got to 'night'?" But a jumble of letters will make sound and so may give a message to sophisticated ears. The eye is more expert than the ear at registering words. Whoever was fooled by the blanks in the penny dreadfuls of the long ago? The d—s were promptly accepted at their full brimstone content, but a curse by telephone might easily be garbled into a compliment. It is a wire ear that knows its own tongue.

A Compliment to All Men

"The love of a good woman for a man is a compliment to all men." Women are always making themselves miserable about what they don't see in a man, as though what they did see wasn't quite enough.

"It is a commonplace about women that every woman must now and then make a 'grinace of distaste' into a looking-glass."—From "The Green Hat" by Michael Arlen.

Belief in Vampires

No legend like the vampire is more common in central Europe and the Balkans, especially in Transylvania. It has persisted in the folklore of these peoples, for ages, and in many Balkan villages there are persons today who are considered vampires and who not infrequently are found mysteriously and with their heads cut off and a stake driven through their hearts.

BETTER FOREIGN MARKET.

Business pessimists are finding it
hard to hold the faith, in the face of
foreign trade figures. Government re-
ports show that the United States sold
abroad last month goods amounting to
two hundred forty-seven million
dollars as against three hundred
thirty-one million dollars the month
before. Also, that the September ex-
ports were the highest in forty-two
months.

The foreign market is improving
reassuringly. So far, the American
farmer is chief beneficiary, because
the bulk of the increase represents
exported grains, needed to make good
crop failures in Europe. But there
have been other times when Europe
peeled food and America had a sur-
plus without a demand for it. The
most significant factor in the present
situation is that now Europe is able
to buy what it needs.

Today it is buying greatly increased
quantities of foodstuffs. Tomorrow it
will be sending large orders for mer-
chandise of many kinds. For Europe
is getting on its feet again. It has
credit, as the recent German loan am-
ply proved, and can have plenty more.
But that credit is based on an ex-
pectation of Europe passing the credit-
purchase stage before long, and be-
coming able to pay in cash or equiv-
alent goods needed here.

Bigger business with the rest of the
world is in prospect. That will surely
mean bigger business at home. The
foreign trade, though of secondary im-
portance, has a way of fertilizing do-
mestic trade. It may be that the
hard years of war and reconstruction
are nearly over for the world in gen-
eral. Certainly the outlook for Amer-
ica is bright.

FAITH AND THE GERMAN LOAN.

The German loan seems to be tre-
mendously popular. It is over-sub-
scribed in the United States in some-
thing like fifteen minutes. In Eng-
land, according to news reports, it
was fully subscribed in the first few
minutes, but the bank authorities kept
the lists open a little longer in order
to give every one intending to apply
a chance to do so. The over-subscrip-
tion therefore reached large propor-
tions. France readily absorbed its al-
lotment.

Sweden's quota was taken within
half an hour.

Faith in the present plan of German
reparation and European financial re-
habilitation appears to be widespread.
Not all of these big over-subscriptions
can be attributed to love of Ger-
many or greed for the seven per cent
interest offered. Good will is shown,
and also good sense and a deep-seated
desire to end squabbling and get down
to the business of peace and progress
in Europe.

Breakfast Food
"Matrimonially Speaking"

By Hugh McKay.

My wife is afraid I'll disturb things
after she has the house fixed up for
company.

At times like this I feel like a
complete stranger in my own home.

"Now don't litter up that sofa with
your newspaper!" she calls to me, the
minute I try to settle down and get a
little comfortable.

"And don't you scatter soap suds
and towels all over the clean bath-
room, either!" she shouts as I make
a move in that direction.

Every time I start to go anywhere
she suspects me of setting out to wreck
the house.

"What are you doing in the bedroom
there?" she demands. "Don't start
messing up the top of your chiffonier
and don't pile a lot of things on your
bed, and don't!"

And all the time I was just getting
a clean handkerchief out of a top
bureau drawer!

Tomorrow: My husbands is always
ready to help me with things—"in a
minute."

A Romance of the Spanish Main
CAPTAIN BLOOD
& RAFAEL SABATINI

Copyrighted, 1924, by Rafael Sabatini.

"CAPTAIN BLOOD," a Vitagraph picture with J. Warren Ke-
nigan in the title role, is an adaptation of this thrilling novel.

SYNOPSIS.

Captain Peter Blood, buccaner,
commands a fleet of pirates. The
Spanish ship *Milagrosa* sinks the
Royal Mary and *Arabella Bishop*,
with whom Blood is in love, and
Lord Wade, sent to the West In-
dies to make peace with piracy, are
prisoners. Captain Blood's flag-
ship, the *Arabella*, sails into the
Milagrosa and her sister ship, the
Hidalgo, and engages them in
battle.

CHAPTER XVI.—Continued

Instead of holding to her course
as Don Miguel had fully ex-
pected, the *Arabella* had come
about under cover of the smoke,
and sailing now in the same direc-
tion as the *Milagrosa*, was con-
verging sharply under her stern
the wind, so sharply that almost
before the frenzied Don Miguel had
realized the situation, his vessel
straggled under the reading im-
pact with which the other came
hurting alongside. There was a
rattle and clank of metal as a
dozen grapnels fell, and tore into
the timbers of the *Mila-
grosa*, and the Spaniard was firm-
ly gripped in the tentacles of the
English ship.

Beyond her and now well astern
a veil of smoke was rent at his
and the *Hidalgo* was revealed—
desperate case. She was blazing
fast. The attention of her hands
was being entirely given to a de-
perate endeavor to launch the
boats in time.

Of this Don Miguel's anguished
eyes had no more than a fleet
but comprehensive glimpse before
his own decks were invaded by a
wild, yelling swarm of boarders
from the grappling ship. For a
moment there was a valiant effort
by some of Don Miguel's officers to
rally the men for a stand against
these invaders. But the Spaniards
hastily formed ranks were smashed
before they could be steeled; driv-
en across the waist to the break of
the poop on the one side, and up to
the forecastle bulkheads on the
other, the fighting resolved itself
into a series of skirmishes be-
tween groups.
