PRICE FIVE CENTS

HUGE TOLL IS TAKEN BY FIRE IN NEW JERSEY

Million Dollars Damage Done in Conflagration Which Razes Block in Crowded Industrial Center; Many Hurt.

JERSEY CITY, N. J., Nov. 14 (AP)—Fire, attended by numerous explosions, raged for six hours today in the industrial section of the city before it could be brought under control, destroying more than 30 buildings, sending two score persons to hospitals for treatment for minor injuries and making several hundred families homeless.

Fire Chief Boyle estimated the damage at approximately \$1,000,000. The cause of the fire has not yet been determined.

Buildings Destroyed.

A full square block was razed and portions of six other blocks immediately adjoining it were destroyed. Two-thirds of Jersey's fire department fought the conflagration from 9 o'clock this morning to 6 o'clock this evening when relief crews were put to the task of subduing the fire which smoldered in the ruins throughout the night.

Two fire boats from New York helped keep the flames from the congested factory district on the North river front while the reserve fire forces of the city, joined by companies from the adjoining city of Hoboken, stood by for possible emergency.

Dynamite Used.

Dynamite had to be used to blast down a number of flimsy structures in the path of the flames. Police lines, manned by virtually the entire Jersey City police force, were thrown about a district of six square blocks surrounding the fire for the first hour of the fire something of a panic reigned as families in the stricken area, ordered to abandon their homes, ran about in wild confusion, seeking to save some of their belongings.

The fire started in a sub-cellar of the saltpetre factory of the Federal and Renwick company. As police were starting to set up fire lines and compel residents of neighboring tenements and flimsy wooden homes to leave the district an explosion blew the roof off the saltpetre company's factory building. The flames then immediately swept over the building in waves and flaming fragments of the shattered roof fell on adjoining buildings and set them ablaze.

Poland Arranges to Pay U. S. Debt Over Long Period

Federal Officials and Representatives of Foreign Country Agree on Method; Requires 62 Years.

WASHINGTON, Nov. 14 (AP)—The American government today entered into an agreement with Poland for funding that nation's debt to the United States. The agreement, the fifth among the powers to whom funds have been loaned is similar to the funding of settlements which have preceded it, and calls for full liquidation of the obligation of \$170,565,025 in 62 years.

With the signatures of Secretary Mellon and President Coolidge and that of Minister Wapilowski, for Poland, the agreement together with one with Lithuania signed some weeks ago, is ready for submission to congress.

The Polish indebtedness represents obligations received by the United States in connection with the sale of surplus war supplies, relief supplies furnished by the American relief administration, and sale of flour by the United States grain corporation and services rendered by the United States shipping board.

MEETING HELD IMPORTANT

GENEVA, Nov. 14 (AP)—A long official communication issued by the league of nations tonight calls attention to the importance of the program for the thirty-second session of the council of the league which will open December 8, in Rome, under the chairmanship of Afraio Mello Franco of Brazil.

The program contains a number of questions concerning the peace activities of the league—political, legal, administrative and humanitarian. First place is given in the programme to reduction in armaments.

\$100,000 Too Much For Operation Jury Infirms 2 Surgeons

Federal Court Returns Verdict for \$1800 Instead of Huge Amount Asked.

CHICKASAW, Okla., Nov. 14 (AP)—One hundred thousand dollars is too much for a physician to charge a patient for a major operation, a jury in federal court decided today in returning a verdict for \$1800.

The case was brought by Dr. W. H. Livermore and Dr. D. S. Downey against J. D. Suggs, millionaire cottonman and banker, on whom the operation was performed. The physicians sued for \$100,000, alleging the operation had been worth that sum and that Suggs "was able to pay it."

WANTS U. S. TO TRY DAWES PLAN

Observer Urges America to Apply Principle Laid Down for Reducing Allied Debt.

NEW YORK, Nov. 14 (AP)—A plan by Roland W. Boydon, unofficial American observer on the reparations commission that his country apply the principle of the Dawes plan in reducing the total of the allied debt to the United States, was made at the forty-fourth annual meeting of the American Academy of Political Science today.

He quoted Secretary Hughes' utterances, made prior to the appointment of the Dawes committee, to the effect that statesmen should agree upon the limit that Germany could pay, but that if public opinion made this difficult, "men of the highest authority in finance" should be invited to decide upon a financial plan.

"Why should not Secretary Hughes say to the American people just what he said to France and the allies?" asked Mr. Boydon. "Our political leaders have urged France to be sensible and to yield to the inevitable and adopt the Dawes plan; but they have been reluctant to advise the American voters to take the medicine they prescribe for France."

"A two per cent interest charge (on the French debt to the United States) with one per cent amortization, would amount to \$215,000,000. I believe the attempt to pay even \$215,000,000 would cripple France."

STOCK PRICES MOVE UPWARD ON EXCHANGE

Trading on New York Market Slows Down From High Peak Reached During Last Few Days; Shares Higher.

NEW YORK, Nov. 14 (AP)—Trading on the New York stock exchange slowed up perceptibly today when the day's sales, aggregating 1,916,700 shares, fell below the two million mark for the first full session since a week ago Thursday. The price movement, however, was unmistakably upward with more than 50 stocks rising to new maximum prices for the year and the general industrial average mounting to the highest level in Friday's market. The numbers of issues traded in—545—was within ten of the record high for all time.

The boom which had been based on the speculative theory that a marked revival of trade was in prospect has added more than three billion dollars to the quoted value of securities traded in here since the day after election. The volume of stock sales in that period has totaled nearly 18,000,000 shares. So great has been the volume of trading that several of the larger commission houses have been required to take on extra clerical help and to supply lunches to many of their employees who were literally "too busy to eat." Wall Street, ordinarily a deserted village, after dark, has kept its office lights burning until midnight or after while weary clerks endeavored to keep their books up to date.

Orders Pour In.

Buying orders have poured into the markets from all sections of the country.

Buying of stocks in today's market was of a more discriminatory nature. Motor, merchandising and public utility issues showed rather consistent strength, contributing many of the day's new highs.

Speculative interest, which has been shifting from one industrial group to another within the last few days, reverted just before the close to the railroad shares, the brisk accumulation of which started the present upswing.

STECK WILL CONTEST BROOKHART'S SEAT

DANIEL F. STECK

DANIEL F. STECK, democratic candidate for senator from Iowa, who was defeated by United States Senator Smith W. Brookhart by less than 1000 votes, will contest the election. It is reported from Des Moines.

DEMOCRAT MAY CONTEST SEAT

Fight for Iowa Senatorship Between Brookhart and Steck Appears Certain.

DES MOINES, Iowa, Nov. 14 (AP)—With the official canvass of the senatorial vote completed in all but two Iowa counties and Senator Smith W. Brookhart leading Daniel F. Steck, his democratic opponent, by only 755 votes out of a total of more than 804,000, a contest for the seat of the junior Iowa senator seemed a certainty tonight.

Definite announcement of his intention to contest the election was withheld by the democratic candidate but close political associates let it be known he was preparing a statement to be issued probably tomorrow, which would include an outline of the grounds upon which he would petition the senate for a recount.

Record Claimed for Woman in Marriage and Divorce Case

Mrs. Morris Has 4 Weddings, 3 Separations and 2 Remarriages to Credit.

ST. CLAIRSVILLE, Ohio, Nov. 14 (AP)—A record for marital complications is claimed here in a case involving four marriages and two remarriages.

Mrs. Sarah Theodosia Morris, 63, of Harpersville, Ohio, was first married to John W. Persons. They were divorced and she married Samuel Morris, 67, of Uhrichville, Ohio.

Later she and Morris were divorced and she married Paul Persons. Two months ago she divorced Persons and today she again married Morris.

World Prohibition Through Effort of Women Predicted

Unity of Action Will Bring About Efforts to Abolish Liquor, Declares Speaker at W. C. T. U. Parley.

CHICAGO, Nov. 14 (AP)—Women citizens will win world prohibition, Mrs. Ida B. Wells, national president, declared here tonight at the golden jubilee convention of the Women's Christian Temperance Union. She is director of the citizenship division of the organization.

"Unity of action can bring this to pass," she said. "Women who are the creators of public opinion must now take up this task. We can and will build a spiritual wall around our homes."

Quoting from the records of the second convention held by the W. C. T. U. in 1876, Mrs. Smith read:

"Resolved, that since women are amongst the greatest sufferers from the liquor traffic and realizing that it is to be ultimately suppressed by means of the ballot, we, the Christian women of this land, in convention assembled, do pray God and all true men, the prohibition of liquor traffic should be submitted to all adult citizens, irrespective of race, color or sex."

"In 1877 right here in Chicago," Mrs. Smith said, "the W. C. T. U. women expressed their conviction that the ballot was the only way to handle the prohibition situation and it was the saloon question that first started women to working for the voting privilege."

"They said, 'resolved, that as the responsibility of the training of our children and youth rests largely upon women, she ought to be allowed to open or close the room shop door over against her home.'"

Political opposition to the dry forces first appeared in 1893, according to Mrs. Smith, who quoted from the records of a resolution passed by the liquor men's organization, which she read as follows:

"Resolved, that we oppose woman suffrage everywhere and always, for when woman has the ballot she will vote solid for prohibition and the woman's vote is the last hope of the prohibitionists."

CHICAGO GANG LEADER BURIED

Funeral for Murdered Underworld King Is Attended by Friends and Foes.

CHICAGO, Nov. 14 (AP)—Amid kingly pomp and splendor, Dion O'Banion, ruthless leader of Chicago gangland, gunman, beer runner and highjacker, was carried to the grave today by his associates.

Gangland, hushed and decorous, with bitter enemies standing shoulder to shoulder, attended the funeral of this queer anomaly of pistols and posies, shot down last Monday by three gunmen as he stood among the beer and chrysanthemums of his flower shop, behind whose respectability his operations were cloaked.

Denied the offices of the Catholic church, the friends of the notorious gangster surrounded the services with all the pageantry and elaborate display that a lavish outpouring of money could buy to give grace to the funeral.

The funeral services were held in a little undertaker's chapel while thousands of people, curious to see gangland pay its last respects to a fallen leader, lined about outside. Bands of sharp eyed detectives watched over the services while outside mounted policemen drove back and forth among the milling crowds.

TRADE UNIONS URGE NAVY ON TREATY BASIS

Metal Department of Labor Organization Thinks the United States Should Have Better Fighting Force.

EL PASO, Texas, Nov. 14 (AP)—A demand for "a well balanced navy, based on the treaty ratio" established by the Washington conference on limitation of naval armaments was voiced today in the annual convention of the metal trades department of the American Federation of Labor.

Without a dissenting vote, the convention, representing fourteen metal trades unions, with a combined membership of some 300,000, approved a resolution petitioning congress and administration to "make adequate provision for building up and maintaining a well balanced navy, based on the treaty ratio."

Below That Needed.

The present strength of the navy of the United States, in other than capital ships and destroyers, the preamble of the resolution said "is seriously below that required to maintain a well balanced navy."

"The other major naval powers signatory to the treaty have vast superiority in cruisers, submarines and other vessels."

The resolution was introduced by Joseph H. McDonagh, representing the metal trades council of Brooklyn, N. Y. Copies of the text were ordered sent to President Coolidge, Secretary Wilbur of the navy department and other members of the cabinet, all senators and representatives in the federal legislative branches and to the senate committee on naval affairs.

Affiliation Fails.

An endeavor to affiliate the American metal trades workers with a worldwide union organization in the industry failed today when the department convention rejected a plan for affiliating the metal trades department as a unit with the International Metal Workers Federation, embracing the organized metal craftsmen of Europe, Canada, Australia and Mexico.

James O'Connell, president of the department, submitted the question in his annual report to the convention. The committee on resolutions, headed by J. W. Kline representing the International Brotherhood of Blacksmiths, Drop Forgers and Helpers,

Overnight Air Mail Route Between 2 Cities Now Planned

Powerful Lighting for Night Flying Completed for New York-Chicago Trips of Fliers; To Start Soon.

NEW YORK, Nov. 14 (AP)—The government has blazed the trail for an eight to nine hour overnight air mail service between New York and Chicago both ways it was disclosed today by Carl P. Egan, general superintendent of the postoffice department's air mail division.

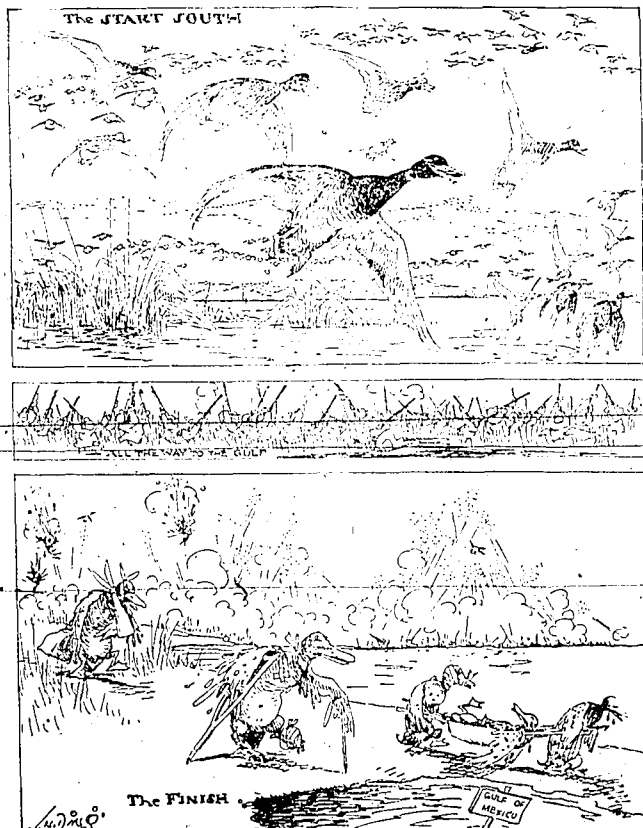

Routes have been mapped, terminals, way stations and emergency fields are being acquired, machines and personnel have been assigned and all the necessary lighting equipment for night flying is being set up.

Colonel Paul Henderson, second assistant postmaster general, has ordered the new service installed early next spring, probably in April. This said Mr. Egan, will give the government a "double track" air mail system between here and Chicago and, with a transcontinental service covering 2730 miles, will make a total of 1905 miles over which night flying will be continuous.

W. E. LaFollette, superintendent of the western division, announced that a field had been leased today at Coalinga, California, in preparation for early extension of the all-night service from Rock Springs, Wyoming to San Francisco.

Thus, night flying would be in progress over the entire transcontinental route and there would be two deliveries of air mail daily instead of the one at all points along the route. The air mail service would be "double track" throughout as soon as the demand of patrons westward from Chicago promised to make it feasible.

Africa Will Take Lead in Production of Copper

Roger W. Babson, Noted Statistician, Tells How Metal Market Will Affect the Investing Public.

BABSON PARK, Mass., Nov. 14.—Roger W. Babson's statement regarding the present trend and future development of the copper industry, issued today, is of unusual interest, not only to investors in copper stocks, but to all investors, since the factors he discusses may soon effect other industries.

It seems that John Hays Hammond, believed by many to be the world's greatest mining engineer, has a beautiful summer home at Gloucester. It also happens that Roger W. Babson, a native of that port, is in the habit of spending his holidays there. Apparently the engineer and the statistician some times get together for a neighborly chat.

Katanga.

"He told me about Katanga," says Mr. Babson, referred to a recent talk with the man who was partner of Cecil Rhodes in the development of the South African mines. "We always get into this same sort of situation. I cannot mention anything in the way of American resources but that Mr. Hammond is ready to match them or exceed them with statistics on Africa. We were talking about copper when he told me of the developments now under way in Congo. The operation is being carried on by the Belgians and the Union Miniere Katanga. This company in 1912 was producing about 5,000,000 pounds of copper a year.

"This production has steadily increased until, based on last month's output, it is producing at the rate of 225,000,000 pounds a year. This brings its volume to practically the same as that of the Chili Copper company, now generally known as the world's largest producer. It is understood, however, that these Katanga mines are now building for an output of over 2,000,000 pounds of copper a day or over 700,000,000 pounds annually. As this development is completed the center of the world's copper production will be shifted from the western to the eastern hemisphere.

Southeast Corner.

"These African mines are located in the southeastern corner of the province of Katanga, which in turn is located in the southeastern part of Belgian Congo. The headquarters of the company at a little town known as Elizabethville, are 1600 miles by rail from the nearest port, Beira. The two are connected by a narrow gauge railroad. The company has a concession on over 8000 square miles and in addition to producing copper is also mining tin and radium. In the copper operation the ore is worked with a steam shovel, it contains 7 to 9 per cent of copper, and is refined near the mines.

"Black copper is shipped for treatment, either to the company finishing refineries in Belgium or to the Nicholas Copper company, Laurel Hill, New York. The rail haul from the mine to port is somewhat of a handicap, but since it is mostly down grade this cost is not prohibitive. Labor, on the other hand, is unbelievably cheap and this African copper is now being delivered in Europe at a cost of 8 cents or less per pound.

Cost Is Low.

"The tremendous production at so low a cost must have its effect and it will not be surprising if the price of copper does not fall far below its present figure. The point in the copper situation is that low cost companies can make a very good profit in our present market. Even at 13 cents it will be seen that the low cost producers like Chili, Katanga and Kennecott are making a gross profit of 50 per cent. This, of course, is figured before depreciation is charged, and depreciation is a very important item in connection with mining operations. It is certain, however, that this great development in Africa is an exceedingly bullish factor as it must affect the high cost copper producers the world over.

"Many people are suggesting that a tariff be put on copper ore from other countries but I seriously doubt whether the American people would stand for such a tariff. They are willing to put a tariff on foreign manufactured goods and they also are willing to consider a tariff on farm products, but the protection of natural resources by a tariff is really not a protection at all. We are better off to hold our own copper and buy copper from other countries than to deplete our own supply now by placing a tariff on imported copper. This so-called protection would really tend to destruction of our own natural resources, while lack of protection really means that we buy some copper from the outside and conserve our own supply.

Prospects Good.

"Hand in hand with this prospect for plentiful and low cost copper during the next few years, we find a parallel development well under way. We are expanding the use of this important and valuable metal. Lower costs tempt larger markets as is invariably the case. As a result of Katanga we shall probably enjoy many uses of copper which have not been considered practical heretofore. Copper shingles, for instance, are a relatively new development and the electrical industry, pro-

FEDERAL JUDGE ORDERS UNION HEAD TO APPEAR BEFORE RAILROAD BODY

CHICAGO, Nov. 14 (AP)—Federal Judge Wilkerson who recently granted a petition of the United States railroad labor board to compel testimony before it, has entered an order directing D. B. Robertson, president of the Brotherhood of Locomotive Firemen and Engineers to appear before the board and testify. Counsel for Mr. Robertson immediately gave notice of an appeal to the United States supreme court.

The appeal of Robertson will delay final action in the controversy as to the board's power to compel testimony but Weymouth Kirkland, counsel for the labor board, plans efforts to expedite a hearing.

The dispute originally arose out of the dispute of western railroads and representatives of engine service local unions to agree on wages and working rules and when the labor board took jurisdiction representatives of employees refused to testify disputing the right of the board to compel testimony and declaring the board was a partial tribunal.

Judge Wilkerson on the board's petition held that its right to appeal to the federal courts included the right to compel testimony.

ARGUMENTS IN OIL SUIT

LOS ANGELES, Nov. 14 (AP)—Government attorneys presenting their case in more briefly than expected yesterday completed their opening arguments in the government's suit in federal court here for cancellation of oil leases and contracts valued at \$100,000,000 owned by Pan-American Petroleum and Transport company.

Arguments of the government's case was opened during the morning with the presentation of briefs of fact and law by Owen J. Roberts, and was concluded during the afternoon with arguments of law by former Senator Alton Pomeroy.

gressing by leaps and bounds, is providing a hundred new and useful appliances and mechanisms all of them more or less made of copper.

"Africa has entered the copper producing field," concluded Mr. Babson. "This is immediately important to the copper industry, but it is also significant to the general business world and to investors who may not now hold copper shares. As Mr. Hammond so clearly pointed out to me, Africa can match or exceed practically all of our American natural resources. That continent is only awaiting the developing influence of our Christian civilization, it is destined to become an increasingly important factor in our industrial world. It is vital that every banker, manufacturer and merchant should carefully consider the probable course of this development and how the entrance of Africa into the world market will affect his own industry. Instead of going to Europe and spending one's time in London and Paris, might it not be wise to go to Africa for the next trip and study the situation there?"

General business conditions in the United States as reflected on the Babson chart show a slightly increasing activity. Business is now running at 8 per cent below normal.

Dryness Makes Land Healthful.

Obtaining fresh water is a serious problem in Curacao, a Dutch island in Indian possession. Water from the few rains is caught in cisterns, but those who are able import their drinking water along with their meat from the South American mainland, and ice is brought from the United States. The dryness of its climate is a blessing to the island, though, little less valuable than its matchless harbor. Damp Puerto Cabello, a few miles away on the mainland, is one of the unhealthiest places, washed by the Caribbean; while Deerp, Curacao is one of the healthiest. Neither malaria nor the dreaded "yellow jack," the twin scourges of the tropics, has even been able to get a foothold there, says the National Geographic Magazine.

Effect of Drink at Meals.

Drs. R. J. Miller, O. Heron, M. E. Reifuss and P. R. Hawk of Philadelphia have been testing the effect of water, tea, coffee and cocoa on the digestion of meals of mixed foods. They report to the American Journal of Physiology (Baltimore) that one liter of cold water, tea either hot or cold, or hot coffee drunk with a meal does not delay the passage of the food from the stomach, but the addition of sugar to the coffee does slightly delay the process. Cocoa markedly delays it. Coffee, tea and water seem also to stimulate gastric secretion, but cocoa delays it, and coffee with sugar and cream has less effect.

The Humanities

The humanities are those branches of education or study which are included in what are called elegant learning, as languages, grammar, philosophy and poetry, including the ancient classics. The name implies that the study of these branches has a tendency to humanize man, to cultivate particularly those faculties which distinguish him as a man in all his relations, social and moral; that is, which make him a truly cultured man.

First and Second Ladies of the Land

MRS. CALVIN COOLIDGE & MRS. C. G. DAWES.

ABOVE ARE SHOWN the first and second ladies of the land, Mrs. Calvin Coolidge and Mrs. Charles Gates Dawes, posed together when Mrs. Dawes paid a recent visit to Washington.

BONES OF PREHISTORIC WHALE IN CALIFORNIA

LOS ANGELES, Nov. 14 (AP)—Another prehistoric inhabitant of southern California yielded the secret of his last resting place recently when R. E. Fisher, exploring the Santa Monica hills near here, stumbled across the remains of an animal's spinal column.

Fisher found several vertebrae, ranging in diameter from 10 to 18 inches,

and some smaller fragments of bones imbedded in limestone, that apparently had been fused by volcanic heat. Scientists partially identified the bones as those of a prehistoric whale, or possibly a dinosaur.

The next issue of the Telephone Directory goes to press November 20th; those contemplating installing telephones, or changes, should arrange for them before that date.—adv.

Church Services

Presbyterian Church.

11 a. m.—Sermon subject, "Food and Nourishment." Miss Flo Cook will sing.

7:30 p. m.—The sermon subject for the evening is "The Silver Lining." 4, 6:15 and 6:30—Christian Endeavor societies.

Methodist Episcopal Church.

H. G. Humphrey, Pastor. Sunday school at 10 o'clock a. m. E. L. Ashton, superintendent.

At 11 o'clock a. m. the church services as follows: Organ prelude; anthem by the chorus choir; offertory; sermon by the pastor, "The Portent and the Work of the Holy Spirit"; organ postlude.

At 7:30 p. m. the orchestra will play sacred selections for opening, offertory and closing; the choir will sing; the pastor will preach on "The Call of God Through Gideon."

The Church of the Ascension. (Episcopal).

Rev. Louis F. Nissen, Rector. Twenty-second Sunday after Trinity. 8 a. m.—Corporate Communion of the ladies of the parish.

9:45 a. m.—Church school. 11 a. m.—Morning prayer and sermon. The sermon subject is "The American Church in the American Nation."

The Guild meets on Thursday evening. The Guild will have its Christmas bazaar on December 6.

Christian Church.

O. D. Harris, Minister. All regular services as usual Sunday. Church meet Wednesday at 6:30.

First Church of Christ Scientist.

160 Ninth Avenue East. Sunday service 11 a. m.; lesson sermons, "Mortal and Immortal."

Sunday school, 10 a. m. Testimonial meeting on Wednesday evening at 8 o'clock.

Twin Falls Mission.

230 Third Avenue East. Paul Worcester, Pastor. Revival meetings commencing Sunday, November 16.

Sunday school 10 a. m. Preaching 11 a. m. and 7:30 p. m.

meeting every night at 7:30. We are expecting the Rev. O. C. Calhoun of Cheney, Wash., as evangelist; also A. G. Horst of Nampa, as singing evangelist.

Nazarene Church.

Union Hall, Second Street East. Preaching services Sunday 11 a. m. and 7:30 p. m.

Tuesday evening we begin a four-day Bible study on prayer. These services begin every evening at 7:30. Sunday school 10 a. m.

Methodist Church, Kimberly.

Charles D. Fletcher, Pastor. Sunday school 10 a. m. Morning worship at 11; subject, "Looking Through the Telescope of Faith."

Epworth League at 6:30; "Methodism's New Frontier"; a study of foreign groups in America. Next Sunday will be "Mexico."

Evening service at 7:30; subject, "Warlike Ministers."

Ladies' Aid dinner and bazaar will be on December 5. Epworth League young people will hold a carnival on November 21.

Pleasant View Presbyterian.

H. N. Wagner, Pastor. Sunday school, 10 a. m. Morning worship, 11 a. m. Christian Endeavor, 7 p. m. Evening service, 7:45.

School of missions, Wednesday evening at 6.

Mark Twain's "Strained Relations."

A very gentleness woman called on Mark Twain one day in his latter years, and promised she would stay but a moment and say no more than a few words if only she might sit close to face with the great man. When she rose to go she said in a voice of deepest reverence: "May I kiss your hand?" When she went out she said: "How God must love you!" "I hope so," he said softly; but after she had gone he could not help saying, in a quiet, half-pathetic voice: "I guess she hasn't heard of our strained relations."—From Mark Twain: A Biography.

The Whale's Acute Hearing.

The orifice on the whale's ear is scarcely perceptible, yet it is said that the whale's hearing is so acute that a ship crossing its track half a mile distant will cause it to dive instantly.

Perfidious Savages

In the Torres Straits Islands in the East Indies, there are no trees suitable for canoe building. So the natives, a cruel, treacherous race, import their canoes from the Fly River Delta in New Guinea—another place with an unenviable reputation. The distance between these two places is over four hundred miles, and no native in that region travels even one-quarter of that distance.

The word is simply passed on from tribe to tribe. On the strength of this vague order a canoe is built. Then it is relayed back. Each tribe of bloodthirsty cannibals tests and discusses it before passing it on. Finally the payment, shell necklaces, spear points, arm bands, makes its way to the canoe builders in the same leisurely fashion.

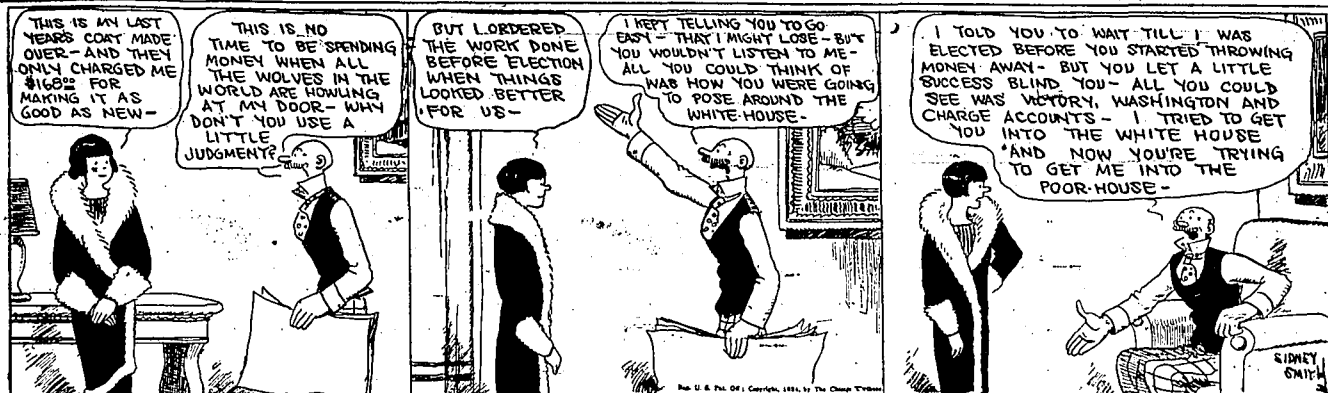

There is reason for this honesty in savages to whom perfidy is natural. If any of the parties in this complicated transaction were to risk being dishonest, their credit would be ruined. And though these natives may kill and eat each other, they hold barter inviolate.

Even savages understand that in commerce it pays to be honest, and to let the world realize your honesty. So in modern business. Advertising must be honest and it is a proof of honesty. A product's advertising is the best guarantee of its quality, usefulness and value.

The man who advertises is inviting your inspection. He is letting his goods stand on their own merit. He can't afford to deceive you. You can depend on him. That's why it pays to read advertising and to buy advertised goods.

Any one can spend money—the reader of advertisements spends wisely

THE GUMPS—BLAMELESS ANDY

NEW TYPE OF FLYING BOAT FOR U. S. NAVY

Steps to Round Out Naval Air Armament Which May Revolutionize Basis Strategy Are Now Under Way.

WASHINGTON, Nov. 14 (AP)—Steps to round out naval air armament to an extent which may revolutionize basic strategy have been announced by the navy department.

Contracts have been let with a commercial company for a new type of navy flying boat capable of a day's sustained flight at more than 100 miles an hour and with a useful load capacity up to two tons. Two other planes different in design, but with the same elements of tremendous cargo space, and cruising radius, are to be constructed at the Philadelphia yard.

Logical Development.
While naval officials contended themselves with the assertion that the new craft represented "a logical development in naval auxiliaries" they did not seem to minimize the importance of the proposed construction in connection with modern studies of sea warfare.

Regardless of their attitude in the omnipresent controversy over offensive value of aircraft, navy officers are agreed that possession of a few squadrons of flying boats of the type now contemplated, would enable the United States to embarrass seriously the success of any surprise attack coming from a long distance, if their more extensive would not serve to prevent any such attempt.

Fleet Maneuvers.
Recent fleet maneuvers all have involved a sudden enemy attack on the Panama canal, the outcome hinging largely upon the enemy's success in establishing a temporary base either in Central America or upon some coastal islands. In the last two annual tests the theoretical enemy gained the object through failure of the defending scouts to locate the advance—started prior to declaration of war—in time to permit the organization of a screen in its path. In each case the final conclusion of the authorities stressed the necessity for improving the "eyes and ears" of the American command.

The new planes, with ability to hop off unsupported from San Diego for Honolulu would be invaluable as far ranging scouts in any critical period preceding an expected international crisis. They would be able to maintain touch with the enemy and, if claims of air service enthusiasts are confirmed, could delay it materially by a constant threat upon the enemy train. The sinking of one or more fuel ships or provision carriers would be sufficient, some officers hold, to force abandonment of any expedition which was 1500 to 2000 miles from any available base.

Original "Falstaff"
It is said that John Oldcastle, a boon companion of Henry V. in his young days, was the original of Shakespeare's Falstaff. One of the first deaths, condemned as a traitor and heretic, during this monarch's reign.

Friday Day of Ill Luck
Among the superstitious Irish peasantry Friday is regarded as a very unlucky day. The door should never be opened to a stranger on that day, nor should a cat be taken from one house to another, the Irish believe.

Trimmers Held Power
The name "Trimmers" was applied in England to George Savile, the first marquis of Halifax, and his political followers, who, between 1690 and 1690 held the balance of power between the Whigs and the Tories.

If your property is combustible and is unclassified, you'll find you're better.

Men and Women in the News Spotlight

Below: MRS. ROBERT GAMBLE & CO. JAMES CHURCHWARD
Below: MRS. ANTOINETTE FEDEL & ARTHUR FEDEL.

WITH THE RETURN of her two children after an absence of a year, Mrs. Virginia Bice Leoney Gamble has dropped the suit she brought in New York against Robert Gamble, whom she divorced in Paris and whom she had sued for \$200,000 expended in supporting herself and her children and a part of which she said she had advanced to Gamble, who had kidnapped the children and taken them to Florida.

THE MOTHERLAND OF MANKIND was a tropical continent, larger than North America, known as Mu, which went to the bottom of the Pacific with 64,000,000 inhabitants and 13,000 temples cities, according to Colonel James Churchward, of Mt. Vernon, N. Y., former officer in the British army, who decodes the information comes from 125 tablets recently discovered in India, which he translated. Some of them go back as far as 50,000 years.

MRS. ANTOINETTE FEDEL is shown as she appeared in a Baltimore, Md., court, where she was charged with the murder of her husband, Alexander Fedel, when she found him with Miss Hermione Ullman in an auto parked in a road outside the city. Her son Arthur, 17, is charged with being an accessory.

at Batum, Sebastopol and Odessa.

Oil Industry Dead.
Even the oil industry, which the natives call the commercial pearl of the Caspian, is dead. The oil wells are there to be sure, but Russia has neither the capital nor the machinery to develop them properly. A single American oil company is operating at Baku, and its activities, which are on a small scale, are confined to drilling and prospecting.

Baku at one time was one of the richest and gayest cities in Russia, but now a dull, dirty, unwelcoming place that draws only those who have business or official relations with the Azerbaijan government.

Goods Are Cheap.
The stores exhibit a fair amount of stocks, but the goods are of a cheap, flimsy character and high in price. The people seem somewhat more cheerful and better dressed than those in Moscow, but they do not appear to be wholly satisfied with life under the Bolshevik regime. Here, as elsewhere in the Soviet union, there is much unemployment. The streets are overrun with half naked and famished beggars and children. One cannot enter a restaurant, hotel or public garden without being assailed by—starving—men, women and children, who beg for black bread.

Twin Falls, Idaho, Nov. 14 (AP)—Warrants of the 7th American Falls District numbers 596 to 620, both inclusive, will be paid if presented at the office of the District November 17th, 1924.

BRAZIL STATE REMAINS CALM DESPITE WARS

Farmers of Minas Gerais Prosperous and Revolutions in Bordering States Fail to Get Response With Them.

BELLO HORIZONTE, Minas Gerais, Brazil, Nov. 14 (AP)—Although Minas Gerais borders on the states of Rio de Janeiro and Sao Paulo, and spreads over the central Brazilian plateau with a square mileage nearly equal to that of Texas, the rumors of revolutions and the spattering of machine guns in the surrounding states have not excited the contented Minas farmers. They are selling plenty of coffee and cattle at good prices, and the state government has lots of money in its pocket, thereby making unnecessary a policy of heavy taxation.

More people live in Minas Gerais than in any other Brazilian state. The population totals between 6,000,000 and 7,000,000. About 5,000,000 live in the country or in towns of less than 2,000 inhabitants. There are only two cities having a population over 25,000, another proof that the state is rural in its makeup. These are Belo Horizonte, the capital, with 60,000, and Juiz de Fora, a manufacturing city of about the same size.

Shipped Direct.
With the exception of the southern part of the state, the Minas coffee is shipped directly to Rio de Janeiro. The cattlemen depend also to a great extent upon the city of Rio de Janeiro for their market. Rio eats 500 head of cattle every day, and this continuous demand for fresh meat is nearly all filled by the ranches in Minas Gerais.

Lard is cheap, selling from 10 cents to 110 a acre. Farm hands can be secured for three to six milreis a day, or about 20 to 30 cents at the present exchange rate.

The state had a balance in the banks of 17,000 contos, or about \$1,700,000, at the end of 1923.

Relics of Primitive Days.
Primitive men were a danger for ornamentation before he was much of anything else, so the stiff collar is not a modern part of man's attire. In the fourteenth century neck chains or "liver collars" were worn in England, symbolizing allegiance to one or other feudal baron. These collars are still used in European officialdom by orders of knighthood. The collar ruff became the vogue among the rich. Later, when starch was introduced from Flanders, more people could afford the ruff, and they assumed such proportions that a proclamation was issued against them. Even the church took steps to reduce their size. In the United States collars were in general use in 1850. They stood out like the ruffs and were conducive to anything but comfort.

Conviction Unchanged
"I have long argued that there isn't \$25 worth of chicken salad in the whole world," says J. Fuller Gloom, "and the fact that a church and society recently cleared \$80 on a chicken salad supper does not in any way alter my opinion."—Kansas City Star.

Advocating Burglary
"A man who is very poor of himself before he does any boasting," says an exchange. What iniquitous counsel! It is advising a man to be a safe blower.—Boston Transcript.

Worth Trying
"Ignoring people often makes them feel that you are ignoring your own troubles is likely to do the same thing to them," philosophizes the Munroe Times.—Boston Transcript.

GERMANY APPROVES THE ELECTION OF COOLIDGE

DOITSMUND, Germany, Nov. 14 (AP)—Approval of the election in the United States of President Coolidge was freely expressed by Foreign Minister Stresemann in the course of a significant campaign speech before the convention of the German people's party here today.

The foreign minister's utterances constituted a sturdy defense of the policies enacted and pursued by the present government, especially in connection with the nation's foreign affairs. The speaker left no doubt in the minds of his party colleagues that the principles which have heretofore guided the government in its conduct of internal and foreign affairs must rigidly be adhered to. The keynote of his speech was one of optimism born of faith in the good will and sincerity of the signatories of the London agreement.

REAL ESTATE TRANSFERS
Furnished by the Twin Falls Title and Abstract Company.

Deed, sheriff to A. B. Wilson, \$100.00, Aero Tract 26, Filer.
D. H. Smith to D. W. Barkley, \$10; lots 11, 12, block 1, Suburban addition.
Quit claim deed, W. A. Parish to F. R. Parish, \$1; lot 8, block 70, Buhl.
Gift, Charles Stimpale to Rosie Stimpale; N 1/4 NW 21, NE NE 30-10-15.

Gold Coinage
The government has never issued gold coins of less than \$1. The 25 and 50-cent gold pieces were private issues. Following are the denominations of gold coinage of the United States: Fifty dollars, coined in 1916 to the amount of \$105,000 at Panama-Pacific International exposition coins; double eagles, eagles, half eagles, quarter eagles and dollars.

Comforting Carrier
A lady secretary was carried out of a traffic jam by a man in a two-seater car, who stretched out his arm and lifted her up. She does not remember what the man was like; but there is no doubt she was quite carried away by him.—Jack Canuck.

Talk of the Wrong Place
"Some men," said Uncle Eben, "talk like they were sure of gold to heaven when day ain't actually safe fun keepin' out 'o' jail."

TRACE FISH BY ALUMINUM TAGS

Habits of Various Species of Finny Family Known Through Check on Wanderings.

PALO ALTO, Nov. 14 (AP)—Fish can be trailed in their wanderings around the oceans in a manner not unlike police methods of tracing automobiles by their license numbers, according to Charles H. Gilbert, professor of zoology at Stanford university.

Professor Gilbert explains that scales render a report on the bringing-up of the fish as well as furnish high certificates and automatic age recorders, and show the approximate weight and size at any time during its past growth.

A few scales are scraped from the back of a salmon and stuck in a book opposite a number. A small aluminum tag bearing this number is clamped on the fish's tail and it is thrown back into the water. Under Dr. Gilbert's direction more than 10,000 salmon were tagged in this way last year.

Descendants of Old Latin
The romance languages are those that are derived not so much from the classical Latin as from the Latin dialect spoken in various Roman provinces. The principal ones are the Italian, French, Provençal and Spanish.

A Common Fault
Jud Tunkins says there are two kinds of people liable to exaggerate the importance of money; those who haven't it and those who have.—Washington Star.

RUSSIAN AREA SUFFERS FROM SOVIET REIGN

Economical Situation in Great Caspian and Black Sea Regions Exceptionally Poor; Once the Busiest.

BAKU, Azerbaijan, Nov. 14 (AP)—Of all the areas in Russia which have suffered economically since the Bolshevik revolution, perhaps none has experienced such profound commercial depression as the great Caspian and Black sea regions. Baku, Novorossiysk, Batum, Sevastopol and Odessa, which once were among the busiest and most prosperous ports in Europe, are now mere graveyards of derelict and abandoned merchant ships. Soviet Russia is neither exporting nor importing goods in any considerable quantity, and the consequence is that her shipping trade, like most of her other industries, is paralyzed.

In the harbor of Baku at this moment is a great forest of cargo boats, rotting at their moorings for want of use. A tragic touch is imparted to the picture by a number of rusted torpedo boats, submarines and cruisers, which are relics of the old Russian imperial navy. The same situation exists

at Batum, Sebastopol and Odessa.

Oil Industry Dead.
Even the oil industry, which the natives call the commercial pearl of the Caspian, is dead. The oil wells are there to be sure, but Russia has neither the capital nor the machinery to develop them properly. A single American oil company is operating at Baku, and its activities, which are on a small scale, are confined to drilling and prospecting.

LOCAL ELEVEN VICTORIOUS IN BURLEY GAME

Twin Falls High School Wins District Championship by Defeating Visitors 20 to 0; Second Team Used.

Using second string players during the first half of the game who succeeded in scoring a touchdown and preventing the Burley high school football team from scoring. Coach Plaster's Twin Falls high school Braves on Lincoln field Friday afternoon, took Burley into camp, 20 to 0, and won district championship honors.

Never in serious difficulties, the local team had the game their own way from the start, and Plaster's confidence in his second team was vindicated in the first seven and a half minutes of play when a touchdown was made. However, one touchdown was all they did make and thereafter during the rest of the first half the Burley team fought stubbornly to prevent the home scoring and the game developed into a punting duel.

Timmy at Tackle.
Timmy, backfield veteran, was the only regular in the lineup during the first half and the fans enjoyed the novelty of having Timmy call the plays from his new position at tackle.

Too much cannot be said for the fighting spirit of the Burley squad, who, faced by an entirely fresh team during the second half, came back with lots of fight and kept the score from going beyond two touchdowns more. Many times, point out veteran football players, would have given up entirely during the second half when tired and more and less downhearted by the score already made, they have permitted the first team to walk away with a much larger score than was made.

From the standpoint of team work the Burley eleven displayed training rivaling that of Twin Falls. Almost every play saw the Burley players in position. They did appear, however, somewhat uncoordinated before several plays, as to just where their positions were. This was due, Burley fans pointed out, to the loss of several players from the game who were injured in an auto wreck near Burley several days ago and to others being absent for various causes.

Next Team Uncertain.
Just what Twin Falls would play next in their march, toward the state championship was uncertain Friday evening. The high school team of Firth recently defeated the Peacocks eleven thereby winning the championship of their district. Kellogg, reports have it, are champions of the north and Nampa by defeating Boise, won the right to be called champions of that district. Twin Falls, it was thought would probably play Firth first while Kellogg and Nampa fought it out.

Those familiar with the work of the four teams now on top, expect to see the final outcome with Twin Falls and Nampa fighting it out for the championship of the state with the outcome most uncertain. This game, more than likely, will be held away from home.

Spectators Uncomfortable.
Weather Friday afternoon was chilly and spectators were kept busy moving about to keep warm. A thin covering of snow along the sidelines furnished diversion for a bunch of young boys who made life generally uncomfortable and disagreeable for players and fans alike by throwing snowballs and generally doing their utmost to prevent spectators from enjoying the game.

The game, play by play follows:
First Quarter.
Twin Falls kicked off to Martinson, who returned the ball for a gain of 5 yards. Twin Falls line held on the first two tries that the Burley backs made. Gibbs made a yard. Burley punted to Owens, who returned the ball 15 yards. Schaefer gained a yard on a line buck. Burley line stopped the next try that the locals made. Owens made

5 yards around the end. Krivanek made 7 yards through the line. Burley line held the next two tries that the Twin Falls backs made. Owens gained 5 yards around the end. Berg failed on the next try at the line. Berg went through the line for a touchdown. This was made in a little over seven minutes of play. The try for goal by Schaefer was not counted because of a technicality. Burley kicked off to Flynn. Owens punted to Martinson. Schaefer made a yard through the line. Burley held on the next play, no gain. Krivanek failed at the line. Owens failed on an end run. Schaefer punted to Martinson who fumbled the ball. Burley's ball. Griffith gained 5 yards through the line. Burley punted to Owens, who returned the ball 15 yards. Burley line held for no gain on the next play. A Twin Falls pass failed as the quarter ended.

Second Quarter.
Berg gained 5 yards on a line plunge. Schaefer punted to Martinson. Gibbs gained a yard. Martinson went around the end for a 30-yard gain. Hurt went through the line for a 2-yard gain. Twin Falls' line held on the next play; no gain. Gibbs failed on an attempted end run. Burley punted to Owens who came back 5 yards.

Berg gained 2 yards on a line buck. Owens gained 5 yards around the end. Schaefer made 5 yards through the line. The Burley line held. Krivanek gained 4 yards on a line plunge. Burley's line again held. A reverse play failed to get the ball. Gibbs pointed to Martinson. Hurt made a gain of 10 yards through the line. Sullivan broke through and nailed the Burley runner. Burley lost another yard on an attempted end run. Burley made a short punt to Krivanek. Berg gained a yard through the line. Owens attempted end run and failed to gain ground. Krivanek failed to gain through the line. A Twin Falls pass failed. Burley's ball. Burley lost ground on an attempted end run. Martinson gained a yard on an end run. Twin Falls stopped the next attempt at the line. Burley punted to Schaefer who returned the ball 5 yards. A reverse play failed. Berg gained a yard at the line. Burley recovered a Twin Falls fumble as the half ended.

Second Half.
Burley kicked off to Schaefer who returned the ball 22 yards. Burley line stopped the next attempt at the line. Owens made a yard on an end run. Berg gained 5 yards through the line. A long pass was grounded. Schaefer punted to Martinson. Burley broke up the 5-yard long. Burley punted to Owens. Berg gained a yard on a line buck. Owens failed on an end run. A pass was grounded. Burley intercepted a Twin Falls pass. Burley was penalized 5 yards. Twin Falls recovered a Burley fumble. Burley line held on the next attempt at the line. Burley broke up a yard on a line plunge. Owens failed to gain through the line. Burley's ball. Hurt gained a yard through the line. At this point of the game Coach Plaster sent the second team into the game. Evans, Farrar and Robertson; Tackles: Franks and Holman; guards, Vance and McCormick; center, Putzier; quarterback, Alford; halfbacks, Fix and Day; fullback, Wikstrom, thus replacing the entire team that had been in. Burley punted to Alford who returned the ball 15 yards, making one of the best runs of the day. Fouts was injured on this play, but remained in the game. Day failed on an end run. A Twin Falls pass failed. Alford gained a yard on an end run. Burley's ball. Twin Falls punted to Burley fumble. Day gained 3 yards on an end run as the third quarter ended.

Fourth Quarter.
Fix gained a yard through the line. Alford gained 10 yards on a reverse play. Burley held on the next attempt at the line. Day failed on an end run. Alford gained the yard on the line. Day went through the line for a touchdown. Alford kicked the goal. Burley kicked off to Farrar. A long pass, Alford to Farrar, failed. A long pass, Alford to Robertson, was grounded. Alford slipped around the end for a 30-yard gain. Burley fumbled. Burley recovered for Twin Falls. Fix failed to gain at the line. Day made a 10-yard gain around the end. Wikstrom hit the line for a 4-yard gain. Burley line held for no gain on the next play. Day made his second touchdown through the line. Alford kicked the goal. Burley kicked off to Fix who came back 15 yards. Day made 3 yards through the line. A pass, Alford to Day, gained 10 yards.

OKLEY WINS FROM JEROME IN FOOTBALL GAME; SCORE 13 TO 9

OKLEY, Nov. 14—(Special to The News.) Okley won its closing football game of the season here today from Jerome by a score of 13 to 9 in a game featured by the desperate work of the Jerome team to prevent the score from mounting. The local high school team made its score in the first half of the game and Jerome made its score, a touchdown and a safety, in the last half of the game.

Several long runs by the Okley, backfield were the features of the game as was the aerial work of the visitors, who completed a number of forward passes.

Okley closes its football season with but one defeat, that at the hands of Twin Falls. It played the game with Buhl and won five other games. Jerome completes the season of seven games having a four-ward loss and three games. They will play Buhl next week.

GOODING WINS GAME FROM FILER; SCORE STANDS AT 19 TO 7

GOODING, Nov. 14—(Special to The News.) The local high school team here this afternoon defeated the Filer high school football team by a score of 19 to 7. Filer made their first and only score during the first five minutes of play in the game and were unable to get within striking distance of the Gooding goal thereafter. The game was a straight football throughout. Gooding made her score entirely by straight football. The game here today officially closed the football season for Gooding. Local officials said, however, they were open for a football game with Twin Falls this evening day if it could be arranged.

SCHLAIFER SUSPENDED.
NEW YORK, Nov. 14 (AP)—The state athletic commission today suspended indefinitely Morris Schlaifer of Omaha, Nebraska, for engaging a match with Jack Malone of St. Paul, at St. Paul on November 15. Malone is in the bad graces of the commission for having met Mickey Walker, world's welterweight champion, in Newark recently. Walker is under ban for having refused to accept a challenge to meet Dave Shade, a Pacific coast welterweight.

MRS. MORGAN DYING.
HIGHLAND FALLS, N. Y., Nov. 14 (AP)—Mrs. Frances F. Morgan, widow of J. Pierpont Morgan, III, at her country home here, was reported to be unconscious tonight with little hope held for her recovery. Her daughters, Mrs. Herbert L. Satterlee, Mrs. Juliet Pierpont Hamilton and Miss Anne Morgan, are at her bedside. Two physicians are in attendance.

Another pass, Alford in Fix, gained 5 yards. Alford gained 3 yards around the end. Day made 2 yards through the line. Fix went through the line for a gain of 5 yards. Alford went around the end for a gain of 5 yards. Alford made a yard on an end run. Day made a yard through the line. A long pass, Alford to Farrar, was grounded. The game ended.

The Lineup.	
TWIN FALLS	BURLEY
Flynn	Left End Right
Timmy	Left Tackle Right
Anderson	Left Guard Right
Hall	Center
Potter	Right Guard Left
Johnson	Right Tackle Left
Sullivan	Right End Left
Owens	Quarterback
Berg	Halfback
Krivanek	Halfback
Schaefer	Fullback
Referee—Ruff, Paul.	
Umpire—Barber, Burley.	
Head Linesman—Hodgin, Twin Falls.	

TWO MAY HAVE KILLED BROKER

Testimony at Inquest in Los Angeles Murder Inquest Advances New Theory.

LOS ANGELES, Nov. 14 (AP)—Two persons and not a single-handed killer, were implicated in the slaying here last Monday of Harry Katz, a diamond broker, antiquarian and musician, according to the testimony at the inquest here today of Mrs. R. B. Dexter, niece of Katz' apartment house manager. The inquest verdict was death from a gunshot wound inflicted by unidentified persons with murderous intent. Mrs. Dexter positively declared that she heard the footsteps of two men coming down the stairs after she heard the shot fired that ended Katz' life. She said that she went to the door of her apartment on the floor below that on which the Katz apartment was located and saw the street door closing behind the feet of the pair in flight.

Dies in Apartment.
Immediately afterward, Mrs. Dexter testified, Katz staggered down the stairs into her aunt's apartment where he died a few moments later without revealing the names of his assailants.

Before the shot was fired on the floor above, the witness said, she distinctly heard a scuffle. Dorothy Carroll, wife of a barber, Chas. Carroll, who is being held by the police in connection with the slaying, appeared at the inquest accompanied by her attorney after police had searched the city to question her a second time with regard to the affair. Carroll, who is separated from his wife, and his roommate, Earl H. Bridges, were taken into custody last night when a .33 caliber pistol, the same size as that which fired the bullet which killed Katz, was found in Carroll's room.

WYOMING ROADS CLOSED TO AUTOMOBILE TOURIST

Auto tourists leaving these parts intending to cross the state of Wyoming will not be permitted to pass beyond Montpelier until the snow has melted and the weather in those parts abates. This was the experience of D. R. Dement of Boise, who with his family started east a week or so ago. Yesterday Mr. Dement arrived in Twin Falls on his return trip. Just the other side of Montpelier he was stopped by Wyoming authorities and advised not to attempt to go farther. He was then bucking eight inches of snow, with the thermometer below freezing point.

According to Mr. Dement, Wyoming is now impassable. From Rock Springs to Rawlins, a distance of 160 miles, there is but one small filling station which operates only in summer. There is no telephone anywhere along the route, stretch and no water except a small quantity at the filling station which is hauled in. Snow lies deep on the ground at Cokeville and Kemmerer in the deep snow slipped from the road, piled over and lit in an irrigation ditch. Two children got out by crawling through a hole in the floor of the car, which was uppermost. The others were drowned. Mr. Dement strongly advises tourists to depend on the train service, at any rate until the present weather subsides.

EXPLOSION SUSPECT.

GRAND RAPIDS, Mich., Nov. 14 (AP)—Peter Gloria, 28, real estate dealer and amateur photographer, was arrested tonight for questioning in connection with the explosion which Wednesday afternoon wrecked a portion of the main postoffice here killing three and injuring 13 others.

For same period a year ago..... 2.63

MISTAKE IN MARRIAGE CORRECTED BY DIVORCE

Evidence Shows Wife Took Second Husband Erroneously Believing First One Dead; Good Faith Established.

Evidence that his wife's former husband is not dead as they had believed, when he married her in Twin Falls a year ago, was a forced in district court here Friday by George Bortolot of Buhl, in support of his petition for divorce from Lita Erwin Bortolot. The suit was not resisted by Mrs. Bortolot and the decree was granted by Judge W. A. Babcock. The divorce suit was instituted when it was learned some months before Friday that George Bortolot, husband of Mrs. Bortolot to whom she had been married in 1919 in Minneapolis, and who had deserted her three years later, was alive and a resident of Butte, Montana.

Decree of divorce also was granted by Judge Babcock to Grace Burgin from Arthur Burgin on grounds of desertion.

COOLIDGE URGES OBSERVATION OF EDUCATION WEEK

Issues Proclamation Calling on
People of United States to
Pay Attention to Period Set
Aside for Schools.

WASHINGTON, Nov. 14 (AP)—President Coolidge described education as "America's noblest contribution to civilization" in a proclamation issued today designating November 17 to 23 as American education week.

A broad and liberal culture is necessary to enable men to think and to know how to live, the president declared in his proclamation, adding:

"An educated fool is a sorry spectacle, but he is not nearly so dangerous to society as a rich fool. We want wisdom in this country, we want the educated to know the welfare of the country depends upon the character and the intelligence of those who cast the ballots."

Educate Children.
Calling attention to large numbers of children who failed to receive educational advantages, "either through negligence or because of unfortunate circumstances which might be contrary to the welfare of the nation," the president asserted this condition "demands the solicitude of all patriotic citizens."

"It involves," he said, "not only the persons immediately concerned and the communities in which they live, but the nation itself, for the welfare of the country depends upon the character and the intelligence of those who cast the ballots."

Governors Called On.
The proclamation recommends that the "governors of states issue proclamations emphasizing the service rendered by educational institutions and urging educators and all others connected with the teaching profession to take part in observance of the week. It suggests that patriotic, civic, religious, social and other organizations also contribute to its success by conducting meetings and demonstrations."

"Education has come to be nearer to the hearts of the American people than any other single public interest," the proclamation says in recommending continuance of vigorous campaigns in the interest of education. The campaigns have concentrated attention upon the needs of education, it is pointed out, and the cumulative impetus of mass action has been peculiarly beneficial.

F. C. GRAVES RESIGNS FROM THE UTILITIES COMMISSION OF IDAHO

BOISE, Nov. 14 (AP)—Governor C. C. Moore accepted the resignation of F. C. Graves, member of the public utilities commission, it was announced at his office today.

Mr. Graves' resignation is contained in a letter to the governor dated October 31, but it was not announced until today. Press of personal business is given by Mr. Graves as his reason for desiring to leave the state's service. His resignation is effective December 1. Mr. Graves has been on the commission since August 16, 1923, having been appointed to fill the vacancy caused by the resignation of E. M. Sweeney, whose term would have finished January 13, 1925.

Governor Moore says he will not make a new appointment at present.

BOBBED HAIR SINGERS OBJECT TO NAME USED

WASHINGTON, Nov. 14 (AP)—Bobbed hair members of the choir of Mount Vernon place Methodist Episcopal church, south, here have gone on strike against the term "bobbed hair singers" applied to them by the Rev. Burke Culpepper, a Memphis evangelist.

After reciting a Bible story, the Rev. Mr. Culpepper turned to the choir and telling of the futility of the present day made the remark which nettled several of the singers. An indignation meeting was held and according to one source at least half of the female portion of the choir have refused to continue their service. The Rev. William A. Lambeth, pastor of the church, termed the incident a "tempest in a teapot" and declared only two or three young women had refrained from attendance.

MEETING IN SAN FRANCISCO

SALT LAKE, Nov. 14 (AP)—The sixtieth annual convention of the National Wool Growers' association will be held in San Francisco January 21 to 23, 1925, according to announcement tonight by Secretary F. R. Marshall. Boise and Pocatello, Idaho, also made efforts to secure the wool growers' meet.

BODY OF GEORGE ACKLEY TO BE TAKEN TO CALDWELL

Funeral services will be held Sunday afternoon at Caldwell for George H. Ackley, manager here two years past for the Birdsell Manufacturing company, and candidate of the progressive party for state senator, whose death occurred here suddenly last Thursday. Interment will be in the cemetery at Caldwell, where Mrs. Ackley was buried several years ago. Arrangements for the removal of the body were made Friday by H. J. Ackley upon his arrival from New Meadows, Idaho, in response to message telling of his father's death.

Memorial services for Mr. Ackley will be held Sunday evening at the Methodist church here at the close of the sermon by the Rev. H. G. Humphrey, it was announced Friday. Mr. Ackley was a member of the Methodist church and had been ordained as a minister of that denomination. At the service appropriate music and tribute to his Christian character and influence in Twin Falls will be given. Invitation is extended to his friends and acquaintances.

JURKO TAKES NEW APPEAL

Notice of appeal to the state supreme court from an order denying a new trial for John Jurko, convicted and sentenced to be hanged for murder of W. A. B. Vandemark, was filed in district court here Friday by W. P. Gifford and Homer C. Hills, attorneys for Jurko.

Jurko's attorneys heretofore have appealed to the supreme court from the verdict and judgment in the district court, the first appeal serving as a stay of execution of sentence under which he was to have been hanged Friday at the state prison at Boise.

TOURISTS MAROONED IN COLORADO PASS FOR 3-DAY PERIOD

PAGOSA SPRINGS, Colo., Nov. 14 (AP)—A tale of near starvation and death from cold and exposure on a mountain pass near here was revealed today with the arrival of N. R. Stiles, his wife and several small children, after being marooned three days and nights in their automobile atop Wolf Creek pass.

The family, transcontinental tourists, en route from Oklahoma to the Pacific coast were caught in a blinding snow storm on the pass, one of the highest in the state, and crossing the Rocky mountain divide at an elevation of more than 11,000 feet.

A rescue party fought its way to the top of the pass and brought the sufferers here.

TRADE UNIONS URGE NAVY ON TREATY BASIS

(Continued from page one.)

represented the recommendation that "department refrain from affiliating at the present time for the reason that the cost of such action would be quite an item." The committee report approved by the convention expressly provided that the departments should not prohibit any affiliated union from joining the international federation at will.

Program Approved.
A program for a "joint organization" campaign in the electrical industry was approved by the final session of the metal trades group. A resolution, introduced by President William H. Johnston of the International Association of Machinists, directed the officers of the department and of all affiliated unions, fourteen in number, "to proceed with an organization campaign in the electrical industry at the earliest favorable date."

President Samuel Gompers of the American Federation of Labor here for the general convention of the federation beginning next Monday issued today his first comment on the results of the general elections.

REPORTS DECLARED FALSE

WASHINGTON, Nov. 14 (AP)—Reports of sweeping changes in the cabinet were characterized today at the White House as rumors and without foundation.

It was announced there earlier in the week that only Secretary Davis of the department of labor, had indicated to the president he wished to retire after next March 4.

MEXICAN OFFICIAL DIES

MEXICO CITY, Nov. 14 (AP)—Leopoldo Guerrero, aged member of the Mexican chamber of deputies from Zacatecas, wounded in the chamber shooting affray of Wednesday night, the climax of a stormy debate, died today. Deputy Louis Morones, prominent labor leader, also wounded, is recovering.

PRODUCTS SHOW INCREASE

WASHINGTON, Nov. 14 (AP)—Manufacture of brass, bronze and copper products showed a great increase for 1923 over previous years, according to statistics compiled here. The value of the products in 1923 is estimated in excess of \$500,000,000.

Island of Java Is Still Being Shaken By Trembler Series

Damage to Government Buildings Estimated at Million Florins; Many Killed.

AMSTERDAM, Nov. 14 (AP)—Advices received here from Java, bearing Thursday's date, say the earth was still quaking slightly, threatening to ruin many of the houses which had escaped damage in the serious shocks of Wednesday.

The damage to government buildings at Wonoboso, where Wednesday's earthquake was most severe, is estimated at million florins.

Upward of 300 persons are reported killed.

TRIAL OF INSPECTOR ON ROBBERY CHARGES UNDER WAY AT CHICAGO

CHICAGO, Nov. 14 (AP)—Reports that prohibition agents and United States attorneys are interested in any disclosures by James Murray, Chicago politician, that he was engaged in beer running expeditions instead of plotting train robberies, were all that enlivened a day of humdrum testimony today in the trial of Murray. William Fahey, former postal inspector, and Walter McComb, for participation in the \$2,000,000 mail robbery at Roadout, Ill., last June. Six others have confessed.

When the jurors were questioned, defense attorneys asked them if they would be prejudiced if they found one of the defendants had been engaged in beer running activities. Federal agents, believing that this questioning prefaced such admissions by Murray, were in attendance at the trial today. They said that while such evidence might not be used for prosecution of Murray, it could be used as the basis of investigation that might lead to prosecution. Murray apparently little disturbed by the rumors, dozed all day in his chair.

SOCIETY AND CLUBS

Edited by
MRS. E. B. WILLIAMS
Phone 396

Members of Twin Falls Rotary club and their wives were guests of the Buhl Rotary club at the dancing party given Friday evening at Buhl.

Mr. and Mrs. E. C. Hoffman were hosts at a venison dinner Thursday evening at the home of Mr. and Mrs. J. E. Winans. Covers were laid for Mr. and Mrs. H. A. Gless and family, Mr. and Mrs. J. E. Winans, Mr. and Mrs. W. R. Chaso and daughter, Mrs. Corda Bowen and Mrs. A. D. Smith and family, Mr. and Mrs. Robert Smith, Messrs. Frank Thorpe and R. E. Bowen. After partaking of the bountiful and delicious dinner the evening was spent playing pinocle and listening in on the radio.

Mrs. John Hansen was hostess to the Women's Progressive club Wednesday afternoon. Two new members, Mrs. Lulu Tarr and Mrs. Lydia Stevenson were voted into the club. The program was in charge of Mrs. Carl Jungst and the subject was music. Four quotations from eminent musicians were given. Mrs. Jungst read an interesting paper about the most wonderful musician for her age in the world. A duet was given by Mrs. Fred Wahl and Mrs. Carl Jungst. Florence Kirkham sang a solo and the remainder of the afternoon was spent making plans for the "Imperial Players" who will be here Wednesday and Thursday, November 19 and 20. A dance will also be given after the entertainment. These players are exceptionally fine and the club expects a large crowd. The hostess served dainty refreshments to the 18 members in attendance.

The Blue Lakes Boulevard club met with Mrs. Jere Long Friday afternoon. Sixteen members and two guests were present. Roll call was responded to with nursery rhymes and childhood memory gems. After a short business session a committee was appointed to purchase material for garments to be sent to the Children's Home Finding society at Boise. Donations of clothing and material were also pledged. Plans for the silver tea to be held at Mrs. Ratcliffe's November 28 were completed and the president urged a full attendance. The afternoon was taken up with sewing and a discussion led by Mrs. Horace Stevens on "Thanks for Children." Dainty refreshments served by the hostess completed the afternoon.

The Lead-a-Hand club met at the home of Mrs. Albert Smith Friday afternoon. The business meeting was presided over by the vice president, Mrs. Warren, in the absence of the president. It was decided to have the next meeting December 5 at the home of Mrs. Nina Cowham instead of November 28 as previously planned. After the transaction of business a clever guessing contest was enjoyed by all. The hostess assisted by Mrs. Nina Cowham and Mrs. J. C. Poe served dainty refreshments to the fourteen members present.

PROGRESS IN VOTING.

In spite of heroic efforts made by
party workers and "disgraced" pa-
triot to "get out the vote" on elec-
tion day, the result shows that scarcely
one-half of the qualified citizens in
the United States voted. The Na-
tional Civic Federation wants to know
why, and is making a national canvass
to that end, as a groundwork for more
effective efforts hereafter.

The situation is lamentable, but by
no means fatal, as matters stand. It
represents a big gain for democracy
and a better representation than ever
before.

There was when, we might say, only
one man in a country voted. That was
the king. An absolute monarch elected
himself, and his word settled every
national issue.

There was a gain when a few pow-
erful nobles made royalty divide up
his sovereign power with them. That
made perhaps a dozen votes, or a
hundred.

Later on, the perpetuated middle-
classes gained the franchise, and elect-
ed parliaments or congresses to rep-
resent them and curb the king still
more. Eventually all free men could
vote, in countries interested in free-
dom. Then all men could vote. And
now all women can vote.

During all this political progress,
there have always been voters—men
among kings—who failed to use their
franchise. But the big thing has been
the gain in spreading the privileges
and responsibilities of government.

Nearly thirty million men and women
shared in the last election. That
means more than one-fourth of the
population, and an average of about
one out of every four families.
Eventually the average family will be
still more fully represented. In the
meantime, we are doing pretty well.

GOLD FROM MERCURY.

A German scientist is credited with
having succeeded, not long ago, in
realizing the old alchemist's dream of
making gold from base metal. He is
said to have got gold from mercury
by means of a mercury lamp. But his
exploit has not set the world on fire,
because he obtained only a very minute
quantity.

More recently a Japanese scientist
of high reputation Professor Han-
taro Nagakura appears to have met
with greater success in the same field.
He explains that he obtained gold
from mercury by "driving out the
hydrogen from the metal." He will
not divulge the process. He does say,
however, that although he obtained a
much larger quantity of gold than the
German did, "this does not mean that
gold can be manufactured on a com-
mercial scale."

There the matter will probably rest.
And it is just as well. Imagine what
would happen to all our gold, and the
financial system and material values
based on gold, if the metal could be
manufactured like aluminum.

Famous English Society

The Royal Geographical Society of
England was founded in 1830. Its ob-
ject is to collect, register, discuss and
print in a cheap and convenient form
such useful and interesting facts and
discoveries as the society might from
time to time acquire. It has always
welcomed to its fellowship those anx-
ious to further their object by their in-
terest and support as well as those
able to take a more active part in their
work of discovery and exploration.

Cultivation of Melons.

Melons were first extensively culti-
vated in France early in the seven-
teenth century, but were known to the
natives from the commencement of
our era. The Egyptians grew them.
They are said to have been brought
to America by Columbus, and to the
Malay archipelago by the Portuguese.
No other fruit is so variable in foliage
and habit, or undergoes so many meta-
morphoses in coloring its varieties, all
of which are fertile.

FIGHT BETWEEN
FRIENDS CAUSE
OF CHINESE WAR

Two Generals Fall out and
Clash Sets Off "Fireworks"
Among Provinces; Trouble
Started in August.

SAN FRANCISCO, Nov. 14 (AP).
—What's it all about?
This question is asked by the aver-
age newspaper reader who glances
casually at an occasional front page
account of the civil war in China. For
the benefit of those who are not stu-
dents of Far Eastern affairs, the fol-
lowing explanatory digest, as gleaned
from the various news reports of the
Chinese situation, is given:

China, with its more than 400,000,000
population, has been in a more or
less chaotic state since the overthrow
of the Manchurian dynasty in 1911 and
the formation of the Chinese republic.
Chinese provinces have come and
gone, the country has been divided into
warring factions headed by "tan-
tuns," or military provincial govern-
ors, and a large percentage of the
population has been constantly under
arms.

Former Friends

General Chang Tiao-lin and General
Wu Pei-fu, former friends but now
bitter enemies, are the two outstand-
ing figures in the current controversy.
These two leaders joined forces in 1920
to overthrow the famous Anfu club, a
monarchist organization which threat-
ened the new government. With Tiao
Kun, the last Chinese president, then
inspector-general of Chihli, General
Chang became the controlling power of
Peking.

General Wu permitted things to con-
tinue until 1922, when, declaring Chang
was establishing a military dicta-
torship in the capital, he drove the latter
back to Manchuria. Chang began at
once to build up an army, manufacture
munitions and have his officers trained
in modern military tactics. For two
years China has expected a renewal of
hostilities between the two militarists.

Start Fireworks

Two somewhat inconspicuous trichins
"started the fireworks." In the lat-
ter part of August, General Chi Shih-
kuan, military governor of Kiangsu, ap-
parently with the approval of Tiao
Kun, attacked General Wu's forces in
Yang-Hsiang, the Chekiang military
governor in control of Shanghai, and
with the aid of General Wu Pei-fu's
forces, finally took that city.

In the meantime, General Wu decided
it was time to eliminate Chang So-lin
and thus bring about a reunification
of China. General Chang, the Man-
churian "warlord," decided at the
same time that General Wu should be
eliminated. So Chang declared war
against the Peking forces and started
his army toward Chihli. He met Wu's
troops outside the Great Wall and fight-
ing continued for several weeks over
a front of many miles. The most an-
guish battles took place not far from
Shanghai, near the eastern border
of Chihli.

California Rice.

In eight years the Sacramento val-
ley of California has so developed rice
growing that, according to the depart-
ment of agriculture, the crop of the
past season is estimated to be worth
approximately \$21,000,000. The value
of the 1919 rice crop in California was
probably be several millions greater
than that of wheat and peaches, both
of which are commonly considered to
be relatively large crops in that state.

Nation's "Battle Month"

April has been called our battle
month because in April many of our
military operations began. Noted
among them are: Battle of Lexington,
April 19, 1776; Black Hawk war,
April 20, 1832; war with Mexico,
April 15, 1846; Civil war, April 15,
1861; war with Spain, April 21, 1898;
World war, April 6, 1917.

Society's Outlook

The word "pariah" is used to mean
an outcast or one despised by society.
This is not what the word meant origi-
nally, since pariah was not an out-
cast nor the lowest in caste rank, but
a member of a low caste in southern
India and Burma, just below Sudra
rank.

For Picture Hanging

A stick with a notch in the end
will be found a great help in taking
pictures from the walls. The picture
will slip right into the notch and
making climbing up and down unneces-
sary.

NOTICE.

Numerous complaints have been made
to this department that ashes are be-
ing thrown into the alleys. Household-
ers will take notice that this practice
is in direct violation of an ordinance
of this city and that a penalty at-
taches.

"You're engaged."

JOURNAL SEES NEW
BUSINESS MOVEMENT

NEW YORK, Nov. 14.—Dun's to-
morrow will say:

The confidence imparted to business
continued to be reflected in the freer
movement that is noticeable in many of
the leading markets and this has found
expression in active buying, which has
lifted prices of many basic products,
among them wheat, cotton, hides and
leather, to a substantially high level.
Evidence on all sides indicates that the
markets have begun a readjustment to
a state of freedom and security that
had previously been jeopardized.

Stocks continue to rise and large funds
which have been withheld are again
seeking investment. The weather,
which was militated somewhat against
a normal movement of reasonable com-
modities, has enabled farmers, espe-
cially the cotton growers in the south,
to harvest their crops under almost
ideal conditions and at much lower cost
than customary, thus considerably im-
proving their financial position.

AT THE ORPHEUM.

The scenes of "The Mine With the
Iron Door" are laid for the most part in
the very heart of the Canadian Old Or-
(Canyon of Gold) in the Catalinas, near
Tucson, where Mr. Wright, the author,
lived for two years while he trailed
the nearby deserts and toiled up the
mountain sides, made a study of the
people of the district and studied the
history and legend of the last three
centuries.

An old Spanish legend of a mystery
lost mine—"The Mine With the Iron
Door"—said to have been buried by a
terrible landslide from a trailing mon-
tain cliff, furnishes the keynote of the
tale. This mine is said to have been
operated by Franciscan Priests, the
workers being Papago Indians.

Velvet Long Popular.

In the Middle Ages Venice and
Genoa learned the art of velvet mak-
ing from the Arabs. Toward the year
1510 Lyons inherited the business.
Europe, notably France, followed the
lead of the courtiers of Francis I,
Louis XIV, and Louis Pompadour. The
world of the courts wore silk, satin
and velvet with gold and silver
embroidery. Velvet was used by the
rich for hangings and for upholstery.
In Lyons, according to the latest fig-
ure, 20,000 looms were weaving velvet.

Birds' Rapid Flight

The swift, the fastest of birds, has a
"flying" speed of 70 miles an hour,
but its maximum speed is not known.
There is said to be a record of a
swallow flying 105 miles an hour from
Roubaix to Paris.

First Negro To Be Elected Judge

JUDGE ALBERT D. GEORGE & FAMILY.

OTHER NEGROES have been appointed to the bench, but Albert D. George of
Chicago, shown here with his wife and son, is the first of his race ever to
be elected. Running on the republican ticket, he was elected municipal
judge in Chicago. Judge George graduated in law at Northwestern univer-
sity, Evanston, Ill. He was born in Washington, D. C.

MAROA

MAROA.—Frank Gentry and family
are moving to their new home a mile
and one-quarter north of the school
house this week.

Lester Brown is cleaning and kal-
daming his house this week.

Mr. and Mrs. Roy Fisher are leaving
for Portland by motor this week.

Mrs. Fanny Alberty was out in the
Maroa district selling tickets for the
M. W. A. Frolic.

Wallace and Lloyd Morris were on
the sick list last week but are doing
fine now.

Jim Tucker has shown Dodge touring
car.

Ray Horling went hunting last week
near Chula and brought home a deer.
C. S. Conover is here selling his per-
sonal property preparatory to leaving
for Maroa. He says they will make
their future home.

Mr. and Mrs. Ed Bassford are leaving
Thursday for the coast by motor.

Ed Mort and family moved to the
north side Sunday and visited at
the home of the George Judson family.
While coming home they had a blow-
out while fixing it a Ford driven
by Pete Lapp of Fair crashed into the
back end of their car, and after tow-
ing the Ford to Filer the Morris car
was back home. No one was hurt,
being due to the snow storm. No one
was seriously injured.

Seven "Bibles" in All

Other scriptures regarded as Bibles,
in order of age, are as follows: The
Zendavesta of the Persians, which
contains sayings of Zoroaster; the
Three Vedas of the Hindus; the Fire
Kings of the Chinese; the Pitakes of
the Buddhists; the Koran of the
Mohammedans; the Eddas of the
Scandinavians. The Bible is the old-
est of these, while the Koran is the
most recent, including his third cen-
tury. The Eddas were published
until the fourteenth century.

Superfuous Sex.

Bobby is a very superior male of
five summers, who treats the entire
family as a superior being. He has three
little sisters, with a scornful tolerance.
They arrived at Bobby's house one
day (twins)—a little girl and a little
boy. Bobby was taken up to see
them. He looked them over and, in
answer to his father's question as to
how he liked them, replied, with a
bored expression: "Oh, I like the boy,
but I think we could have done with-
out the girl."

Warm and Cold-Blooded

Cold-blooded animals are those
(such as the vertebrates of classes
fish, reptiles, and amphibians) whose
body temperature varies with that of the water or air in
which they live. Warm-blooded
animals are those, such as birds and
mammals, which have a relatively high
and constant body temperature, usu-
ally considerably above that of the
surrounding medium.

Old European Festival

Midsummer eve falls on the night
before the festival of St. John the
Baptist, June 24. This used to be ob-
served in all parts of Europe. Fires
were kindled in the market places and
the "young people leaped" over the
flames or threw garlands into them.
Dancing and singing played a part in
the festival.

Simple Marriage Rite

Marriage is celebrated in a strange
fashion in some parts of India. The
woman puts a pot of water in her
prospective husband's house, and on
his lifting it up the marriage is rat-
ified.

Suspended Radiators

A device for suspending radiators
from the side walls of rooms, thus
eliminating supporting feet and also
diffusing the heat, has been patented.

Daddy's Evening
Fairy Tale

Bonner

THE WRETCHED WORRIES

The Wretched Worries were having
a very good time of it.

It may seem
strange to think
of such creatures
as Wretched Wor-
ries having a
good time, but
you see they
didn't worry
themselves.

They gave wor-
ries to other peo-
ple. They were as
happy as a pig in
mud without ever
being requested.

Of course they
never had what
most people
would consider a
good time.

They didn't en-
joy themselves in
a beautiful car-
free, gay, happy-go-lucky fashion.

They enjoyed themselves by causing
others to worry. They were as ac-
tive as a scorpion on the most enor-
mous bundles of worries you ever did
see.

Some were not so big but they were
sharp-edged parcels and they were
marked with labels.

"Annoying small worries" these
were called.

There were all sorts of parcels al-
ready wrapped up and some of these
were marked "Examination Worries,"
"Lesson Worries," "Punishment Wor-
ries," "Children-lost-what's-why-they-
haven't-come-home Worries." These
last were marked "For Parents."

They were sending off worries all
the time, too, and they kept on doing
up more parcels.

"It's absurd," said Grandfather Wor-
ry, "but we really do a thriving busi-
ness."

"Our payment is not money but it is
in the success that we have."

"We make people worry. Yes, we
are very successful."

"But it is really quite absurd to
think of what a big business we do
when there is not a reason or ex-
cuse for our being in business any-
way."

"And then we have so-called enemies
who're really our friends."

"There are those who say:
"It won't get you anywhere to
worry," and "worry never got anyone
anywhere."

"But they act so superior and un-
sympathetic when they make those
speeches that really they help us along
rather than hinder us in our work."

"If they understood and were sym-
pathetic they might be real enemies of
ours."

"Well, we've been in business a long
time and we doubtless will be for some
time to come."

"We always have a big demand for
our worries. Now there are a lot of
worries going out about examinations
and whether boys and girls will pass
examinations."

"They will be grabbed up at once, so
that will have to restock."

"Then there are a lot of worries going
out about the Christmas entertain-
ments. Some of these go to children
and they'll be afraid that they'll
"break down."

"There is no reason for their break-
ing down in their parts except that
they send the worries and they grab
them and think that after all they may
break down and how terrible it would
be if they got stage fright and they
get it just thinking over the worries
we send."

"Why should they get stage fright?
They send the worries and they grab
them and they're not afraid of them
at other times. It is all because we send
the worries."

"Then we always have a beautiful
supply to send to parents when their
children are out
later or than they
expected them to
be."

"We send
drowning worries
and run away
worries and then
when the children
get back home a
little later their
parents say:

"Oh, we didn't
know what would
have happened to
you. We thought
everything possi-
ble."

"All those wor-
ries are supplied
by us."

"And it is sur-
prising how busy
we are. There is a real need for a
business that handles clothes to be
worn or books to be studied and books
for companionship and pleasure, and a
business that handles toys and games
and boats and bicycles—and we are
just what the same!"

"Just the same," shouted the rest of
the Wretched Worries as they all
looked pleased in such a horrid way
about the work they were doing.

Riddles

Why did the sky fall? Because it
saw the sky lark (skylark).
What is the difference between a
hill and a pill. One is hard to get up,
and the other hard to get down.

GIRL RESERVES CAMPAIGN HERE NEARING GOAL

**Twin Falls Quota More Than
Two-Thirds Subscribed; To
Make Drives at Buhl and
Hazelton.**

With Twin Falls \$1000 quota more than two-thirds subscribed as a result of two days' effort on the part of a committee headed by Mrs. J. M. Maxwell and with similar undertakings under way at Buhl and Hazelton, prospects are bright for early completion of the campaign in this district for employment of a permanent Y. W. C. A. secretary to supervise and assist in the activities of Girl Reserve clubs in 10 southern Idaho towns, according to statement Friday evening of Miss Rhoda Foster of San Francisco, representative of the national organization of the Y. W. C. A., who, with Miss Helen Plack, Y. W. C. A. secretary for southern Idaho, is assisting in the campaign.

Out of Twin Falls quota of \$1000 there had been raised Friday evening a total of \$860, according to report to Mrs. Maxwell, and it is believed that the campaign to complete the subscription would be closed successfully this evening. Women's organizations and churches are co-operating in the undertaking here, and contributions have been received from four or five organizations.

Buhl Gives Endorsement.

Under leadership of Mrs. C. S. Peck, who was chosen as chairman of the finance committee at a meeting of representatives of churches and women's organizations at Buhl, a campaign is to be made to raise Buhl's quota of the fund required for the employment of the Y. W. C. A. secretary.

Enthusiastic endorsement was given the project Friday afternoon at Hazelton where a Girl Reserve club already has been formed with membership including all of the girls of the high school sophomore, junior and senior classes. Hazelton's quota has been fixed at \$100 and a drive to raise this sum is to be made with Mrs. E. E. Vance as chairman of the finance committee.

MODERN WOODMEN REPEAT SUCCESS WITH OFFERING

Another Enthusiastic Audience Witnesses Closing Performance of Fun and Frolic Show.

Another enthusiastic audience at the Lathrop theater Friday evening witnessed the second and closing performance of the first annual fun and frolic show given by Twin Falls camp, Modern Woodmen of America, and Royal Neighbors, under direction of Joseph E. Brooks. Each act of the varied program drew rounds of applause that left no room for criticism as to the pleasure the audience derived from the offering. Performers responded to insistent encores so that the time occupied by the performance was extended materially as compared with the first night.

Overture and musical accompaniment for vocal numbers and vaudeville turns was furnished by W. R. Worrell and members of his orchestra. During an intermission Paul Smith, district deputy for the Modern Woodmen of America, on behalf of the Twin Falls camp presented to Mrs. Ernest Kunkle and Mrs. Kelly, respectively, a watch and string of pearls as first and second prize offered in a competition for sale of tickets to the show.

CANAL COMPANY'S LIEN AT ISSUE IN APPEAL

Record on appeal by the plaintiff in the case of Orson Strong against the Twin Falls Canal company, has been completed by C. L. Bowen deputy clerk of the district court, for transmission to the state supreme court. Appeal is taken by Strong from judgment for the canal company on its cross-complaint, which judgment was to the effect that the canal company was entitled to foreclose water maintenance liens for 1918 and 1919 against farm property known as the Crystal Springs ranch that was purchased by Strong from Fannie L. Thomas in June, 1917. Strong contends that no water right was conveyed to him in the deed to the land. Judgment awarded to the canal company, approximately \$1000. Strong is represented by Attorneys E. A. Walcott, R. P. Barry and S. T. Hamilton, and the canal company by J. R. Bothwell, its legal representative.

Idaho's Citizens At Capital Form Club

**Nine Former Residents of Twin
Falls Among 75 Idahoans at
Dinner Meeting.**

Nine former residents of Twin Falls were among 75 Idahoans representing every section of the state who attended a dinner meeting on the evening of election day, November 3, at Washington, D. C., of the recently organized Idaho state society at the national capital, according to word just received here. Permanent officers of the society were elected at this meeting as follows: President, Walter S. Smith, Twin Falls; vice president, Charles B. Jennings, Nampa; secretary, Mrs. Val N. Brandon, Twin Falls; treasurer, W. N. Joannessen, Idaho Falls; newspaper correspondent, Miss Tonsaint Dobson, Blackfoot.

A wire from Congressman Addison T. Smith was read at this meeting. It said: "Was greatly pleased to learn that Idaho people in Washington have organized an Idaho club. Idaho people here and elsewhere must work together for the upbuilding of this great commonwealth loyal to the Gen of the Mountains. Please extend to each member my congratulations and good wishes."

Arrangements are being made for another reunion and meeting of the society in December, when a Christmas dance probably will be the chief entertainment. Present at the dinner meeting from Twin Falls were Mr. and Mrs. Walter S. Smith; Mr. and Mrs. A. A. Merrill; Mrs. Val N. Brandon, Miss Anne M. Worrell, Francis C. Shoenberger, Carl G. Anderson.

Claims Bounty for 49 Coyotes, 12 Cats Taken From Traps

Application for bounty in the sum of \$122.50 made here Friday by T. H. Devore, trapper operating in Shoshone basin for several years past, on pelts of 49 coyotes and 12 bobcats, which he

TERM IN PRISON FOR AUTO THEFT

**Men Who Confessed Stealing
R. E. Bobier's Car to Serve
1 to 14 Years at Penitentiary**

Everett Pixley and Frank Patterson, who recently pleaded guilty to charge of stealing R. E. Bobier's automobile which was found in their possession when they were arrested last August at Grand Junction, Colorado, in district court here Friday were sentenced by Judge W. A. Babcock to serve 1 to 14 years in the state prison.

Joseph O'Dally, 17, who pleaded guilty to theft of Isidor G. Friedman's car which he drove from here to Mountain Home where he was arrested last September, will be committed to the state industrial training school until he is 21 years old, in accordance with judgment pronounced by Judge Babcock.

Pixley and O'Dally, about three weeks ago, escaped from the county jail here after sawing through the locking lock with saws made out of case knives. They were recaptured within a few hours after they had wandered on foot for several miles. Each claimed to have arrived in Twin Falls only a short time before making away with the automobiles which they were charged with stealing. Edward Bedford withdrew his plea of guilty to charge of obtaining money under false pretenses, and the case was transferred to the probate court.

Judgment was imposed in five cases wherein defendants previously had pleaded guilty to charges of illegal possession of liquor. James LeNore was sentenced to pay \$200 fine; G. W. Kale, 30 days in jail and \$100 fine; Jacob Lane, 30 days in jail and \$50 fine; Jack Apalos, 60 days in jail and \$100 fine; Bert Pate, 60 days in jail and \$100 fine. It was stipulated in each instance that in default of payment of the fine imposed, defendant should serve time in jail at the rate of \$2 per day.

has recently taken. In addition to the bounty Devore expects to sell the pelts for from \$5 to 7.50 each.

Before, during a 12-days' period about seven years ago, trapped 130 coyotes and 19-vidents, which he disposed of at an average price of \$10 each, he stated at the sheriff's office where he made application for the bounty payment Friday.

Cold Wave Looses Its Grasp on Twin Falls

Forecast for today—Cloudy, light local showers.

Slight moderation of winter weather that has prevailed in the Twin Falls region during the past two or three days, was recorded Friday. Mercury attained a high mark for the day at 36 above, representing an advance of four degrees as compared with Thursday's maximum, and was low at 22 above, an advance of 12 points.

Ketchum, widely known dental surgeon and professor of orthodontics of the university of Denver, arrived Friday to visit an old pupil and friend, Dr. P. F. McAtee.

Visited in Ogden—Miss Viola Shipman and Miss Mary Owens have been spending the past few days in Ogden and Salt Lake visiting friends. Miss Shipman returned Friday evening. Miss Owens will spend the remainder of the week with friends in Salt Lake.

The warmth of pure virgin wool
"The Stormboy"

Virgin wool outweathers the storm!

HIGH-up in western mountains winds are piercing, biting. But long, lustrous fleece keeps warm the sheep that pasture there. And from this fleece are woven the fabrics for Jacobs Oregon City overcoats.

To this warmth of virgin wool the looms of Oregon City add fabric beauty. Then skilled tailors fashion these wonderful cloths into stylish overcoats you see here.

There are popular box back models, half belts, full belts. Light shades—plain or plaid. Or darker tones and patterns. Won't you come in and see the new models, feel the lustre of virgin wool—see how well Oregon City coats are styled and tailored.
