BRITISH TAKE
DRASTIC ACTION
TO STOP PLOTS

Four Alleged Leaders in Underground Egyptian Conspiracy Are Arrested; All Friends of Ex-Premier.

LONDON, Nov. 27 (AP)—The British authorities in Cairo have taken into their own hands drastic measures to suppress possible nationalist plotting by the arrest of four prominent members of the party organization headed by former Premier Zagloul Pasha.

Those arrested were Nekraschy Bay, a secretary in the ministry; the interior in Zagloul's cabinet; Abdul Rahman Fahmy, one of Zagloul's closest political assistants; William Makram Obied, a prominent copier member of the nationalist delegation, and Barakat Pasha, who was Zagloul's minister of the interior.

Held for Murder.

According to statements in official quarters in London tonight the men arrested were leaders in an underground conspiracy against British interests which probably was partly responsible for the murder of Sirdar Stuck and which might, if left unhampered in its activities, result in further unfortunate incidents.

There was fear that this prompt action on the part of the British might result in another Egyptian ministerial crisis; but according to the latest Cairo advice it was announced there, after a hastily called cabinet council, that there would be no ministerial resignations. The British authorities had accepted Premier Ziviar's proposal that the men taken into custody should be handed over to the Egyptians to be dealt with.

Preventative Measure.

Apparently the arrest of these nationalists is regarded as merely a preventative measure and they will be placed only under observation and control. No manifestations or disorders have followed the arrests and throughout Egypt calm still prevails. There is no hint of any active opposition to the withdrawal of the Egyptian units from the Sudan. The withdrawal is expected to be completed by the end of the week.

Nothing is known in London of an alleged plot against the life of Field Marshal Viscount Allenby, the British high commissioner. The Egyptians have taken no further active steps toward bringing the Egyptian affair to the official cognizance of the league of nations. Opinion in official quarters here remains optimistic that a solution of the situation will be reached by means of direct negotiations between Ziviar and Viscount Allenby before the Egyptian parliament meets again.

Gale Sweeps Coast
of England; Severe
Damage Is Result

Seventeen Drown as Freight Steamer Sinks; Another Is Smashed on Breakwater With Sixty Aboard.

LONDON, Nov. 27 (AP)—Much damage was done today by a furious gale which swept both the east and south coasts of England and inland ports. Seventeen persons were drowned when the freight steamer Hartley, a vessel of 2000 tons, sank off Portland. Only two men of the crew were rescued. There were many minor casualties to coastwise shipping.

The channel steamer Dieppe grounded at the mouth of New Haven harbor and a tug which attempted to rescue her was smashed against the breakwater. The Dieppe was refloated after six passengers from France had spent five hours of misery on board. The cruiser Calliope was sent from Portland to assist vessels in distress in the English channel.

At Southampton the Royal Mail liner Almazora of the Buenos Aires service, broke her moorings and swung about dangerously. She narrowly escaped smashing naval transport. The vessel was eventually warped into her berth again after three hours of hard work by tugboats.

The Southampton pilots who took the steamer Vednam out of port were unable to leave the vessel outside the harbor and were carried to Plymouth and landed there.

Finds Fortune in
Diamonds on Road
Lost by Salesman

San Bernardino Man Calls Up Sheriff and Tells of Discovering Jewels.

SAN BERNARDINO, Cal., Nov. 27 (AP)—"Say, sheriff, I have \$10,000 worth of diamonds which I picked up in the road; what shall I do with them?" tonight asked T. K. Belev of 200 Twelfth street, over the telephone.

It developed that M. Rudman, a diamond salesman of Los Angeles, lost the diamonds from his automobile on the football boulevard. Below hurried with the diamonds to the sheriff's office to get rid of them, he said.

STRANDED SHIP
IS IN TROUBLE

Schooner Which Told of Being Held Up by Pirates Taken in Custody by Sheriff.

HALIFAX, Nov. 27 (AP)—The four-masted schooner Veronica, which recently was towed into this port after her master had stopped the United States liner President Harding on the high seas and regarded him with a world tale of piracy, was in further trouble today.

She was taken into custody by Sheriff Hall, acting as marshal of the local admiralty court, on libel proceedings instituted by the owners of the steamship British Gorder, who want \$25,000 salvage. It was the British Gorder that picked up the Veronica off Cape Sable and towed her here.

The same day the Veronica was towed into Halifax harbor, Captain Gearing of the Harding arrived in New York to report that the British had hauled him with S. O. B. flags three nights previously and told a sensational tale of having been robbed of his cargo and navigation instruments by hijackers who had left his ship helplessly adrift off run row. Captain Gearing reported that to all outward appearances the Veronica was in no distress and had, as a matter of fact, attempted to flee from him after having halted his ship.

LEAGUE WILL
HEAR EGYPT'S
TALE OF WOE

Geneva Decides to Give Parliament Chance to Present Its Case Against Britain's Action.

GENEVA, Nov. 27 (AP)—Now that the league of nations has decided, after reflection, to bring the Egyptian parliament's protest against Great Britain to the attention of the council of the league, interest centered tonight in the probable attitude of the council when it meets in Rome early in December.

The prevailing opinion in the secretariat seemed to be that Egypt's protest would not be officially discussed in Rome, because the members of the council would find it difficult to give official importance to communications from a parliament. All depends, it was declared, on whether any member of the council inaugurates debates on the matter.

The mystery growing out of the various versions of the Egyptian appeal sent to the league of nations appeared to have been cleared up tonight when the Marseilles telegraph office notified the Geneva central office that some words apparently had been dropped from the dispatch when the Cairo telegram was received at Marseilles for Geneva. Cairo sent and Marseilles received 651 words in the telegraph text, but only 545 words actually came to Geneva. It is presumed the missing words referred to the request for league intervention, which appears in the text given out in Paris.

The Journal De Geneva discussed both Great Britain's demands on Egypt and the international opium conference developments in one editorial tonight. The newspaper calls Great Britain's ultimatum to Egypt brutal and against the spirit of the covenant of the league of nations.

Referring to the opium conference, the editorial insists that the American proposals strike a blow at British opium interests in India, Persia and elsewhere and declare American public opinion will hold the British mainly responsible if the opium conference fails.

Passion Players' Visit to U.S.
Causes Dispute in Oberammergau

NEW YORK, Nov. 27 (AP)—Seeds of discussion and suspicion have been sown in the soil of ancient Oberammergau, Bavaria, because of dissatisfaction with the financial results of the visit made to the United States last winter by 12 of the principal actors in the Passion Play, it became known today.

Benckit Stuckl, as chairman of the Heilmattkunt, the association in which 1700 inhabitants of the village have been organized, has visited Frank D. Waterman, fountain pen manufacturer, to complain against the treatment accorded the passion players by their American sponsors. He told Waterman who was one of the first to underwrite the proposal to bring the players here and who went to the village to invite the actors to America, that although \$275,000 had been collected by the American committee, only \$10,000 had been turned over to the villagers.

Demand Accounting.

The citizens of Oberammergau, Stuckl said, were dissatisfied with this amount and demanded a detailed financial statement from the players. This has been given them, he declared. As a result, William Leckner was deposed as chairman of the Heilmattkunt, and even the venerable Anton Lang, for 30 years the village's leading citizen, the portrayal of the role of Jesus Christ in the play, found himself under suspicion.

Herr Stuckl was finally sent to America to obtain a detailed financial statement as he said the statement obtained from the committee in charge of the tour and sent to the players by Michael Francis Doyle, a Philadelphia law-

yer, was not explicit enough. Waterman gets busy.

Waterman says he intends to "find out whether there is any justice to the complaints," and that he will call a meeting of the villagers so that Herr Stuckl may tell them his story. He added that "I am in any way responsible, I am willing to bear my part."

Waterman explained that the players were brought here by a committee of about 20 men, each of whom put up \$1000 or more as a guarantee and that George Gordon Battle, the lawyer, was chairman. Mr. Battle, he added, had appointed an executive committee of three eminent men headed by Ludwig Nissen, who died recently. Some of those on the American committee were John D. Rockefeller, Jr., W. A. Harriman, Arthur C. Williams and Harry Fiske, president of the Metropolitan Life Insurance company.

\$100,000 Derived.

Mr. Battle denied Herr Stuckl's assertions and pointed out that although a \$100,000 check was all the cash the passion players took back with them, there in reality was derived \$100,000 out of the American trip.

At the request of Mr. Battle, Elmore Loffingwell, who acted as secretary of the committee, made public the financial report of the venture. This indicated that the players had received \$260,000 before coming to America; \$21,000 while in America; \$16,000 in deposits for the players for the carriage they were displaying; \$300 for outstanding indebtedness; \$1000 just before they sailed for home and that, in addition they will receive \$14,000 on delivery of uncompleted orders and about \$10,000 from goods to be placed on sale here December 1.

FEAR TUG AND CREW
LOST IN STORM OFF
COAST OF NEW YORK

DUNKIRK, N. Y., Nov. 27 (AP)—Grave fears are entertained here for the safety of the fishing tug Harold G. Beck, her master Captain John Beck of Buffalo and three members of his crew. Two of the deck hands were picked up by the freighter Belgian and taken to Buffalo.

The tug was 25 miles out, returning to her fishing grounds when a shaft propeller broke during a storm. Her flares were sighted by the Belgian, which put about to attempt a rescue. Three hawseers were put on the tug but they all snapped like threads. In maneuvering with the line, two members of the deck crew of the tug succeeded in scrambling aboard the Belgian.

Men Need Not Wear
Wedding Ring Says
English Churchmen

Desire to Protect Pockets of British Bridesmaids From Too Many Irons Brings Out Decision.

LONDON, Nov. 27 (AP)—The desire to protect the British bridesmaids' pocket from too many financial ironies, which it was contended might prove a serious deterrent to marriage, already effected by unemployment and the housing shortage, led the church of England's house of clergy today to reject a proposal requiring men as well as women to wear wedding rings.

The question arose during discussion of the revision of the marriage service which earlier had been altered so as to eliminate the time honored word "obey" from the bride's response in one of the two passages in which it occurs in the ritual, although it was permitted to remain in the other. The revised ritual, which must be finally accepted by the house of bishops, and the house of laymen, now reads in the section where both respond "love, cherish and serve," substituting serve for obey.

The bride, however, cannot escape entirely from the world which the feminists so tirelessly oppose, for she must still "obey" when asked if she will "take this man to be her wedded husband; will thou obey and serve him?" The proposal for the doubling ring ceremony aroused a heated discussion in which many arguments, ecclesiastical and practical were presented but the opponents had the final say and the motion was rejected.

STRANGULATION CAUSE
OF DEATH, COURT TOLD

BENFORD, Iowa, Nov. 27 (AP)—The state brought out what was regarded as one of its strongest points today in the trial of Carl Hough, accused of the slaying last August of T. Lillian E. Kenney of Herrick, B. D., when half of the day was taken up with the evidence of four physicians who were present at the autopsy.

Coroner Bachmatt testified that when he first examined the body he believed the girl met death from strangulation and that a few days later when the autopsy was held Doctors J. T. Malloy and T. W. Rimell of Benford, and L. T. Reed of Gravitly, Iowa, agreed with him. The coroner and the three doctors who corroborated his testimony were unshaken in their evidence despite a strenuous attack by the defense.

DENIES CONFESSION OF
MURDERING TWO GIRLS

FREDERICK, N. B., Nov. 27 (AP)—Harry D. Williams, held here in connection with the murder of his two nieces, Cynthia and Olivia Foster, at Fosterville, N. B., near the Maine border, denied today that he had made any admission of guilt when first confronted by the authorities.

JUDGE OUTLINES
WAYS TO SPEED
COURT ACTIONS

Chief Justice Taft Sends Letters to Federal Jurists Telling Them How to Clear Up Their Dockets.

WASHINGTON, Nov. 27 (AP)—Important changes in rules for the transaction of business in the federal courts throughout the country, which are expected to speed up the conduct of trials, are outlined in letters just sent to all federal district judges by Chief Justice Taft.

The proposed changes were worked out at the recent judicial conference here of senior circuit judges who considered them vital as a means of expediting the orderly transaction of all federal litigation and preventing the clogging of the court dockets. Chief Justice Taft, as chairman of the conference, in transmitting the recommendations to the judges, expressed the opinion that they would contribute largely to "the practical dispatch of business in the conduct of your court."

To prevent prompt disposition of all cases, the district judges are urged to adopt a rule providing that when any case might have been brought to trial but has not within one year, the counsel and the parties to such proceedings shall be given notice of the first term of court following January 1, each year, 30 days in advance of its opening, and if no action is taken in such cases within that period of grace, the court shall, upon opening of the term, enter an order of dismissal.

The district courts are urged to adopt a rule which would prevent the continuance of cases to another term by agreement of counsel, other engagements of counsel should not be accepted as a ground for continuance, it is held, and no continuance shall be allowed except for good cause shown by affidavit, such as sickness of a party or unavoidable absence of an important witness.

It also is suggested that the courts at frequent intervals fix times for the hearing of motions and the settlement of issues. Postponement of matters on such calls should not be permitted, the conference agreed, except for causes that would justify continuance of a case set for trial.

Another suggestion, designed to prevent delay frequently incident to the selection of a jury, is the adoption of a rule by the district judges whereby the examination of prospective jurors would be made by them alone. Should counsel on either side desire additional inquiry to determine jurors' qualifications beyond that conducted by the judge, the new rule would require that he submit the questions to the judge for presentation at his discretion.

STORM KILLS MANY.

ASTERKAHN, Russia, Nov. 27 (AP)—At least 48 lives and 1500 fishing boats have been reported lost in a severe storm which swept the Caspian sea. More than 700 fishing boats still are struggling in the ice bound bays.

of Small Schooner

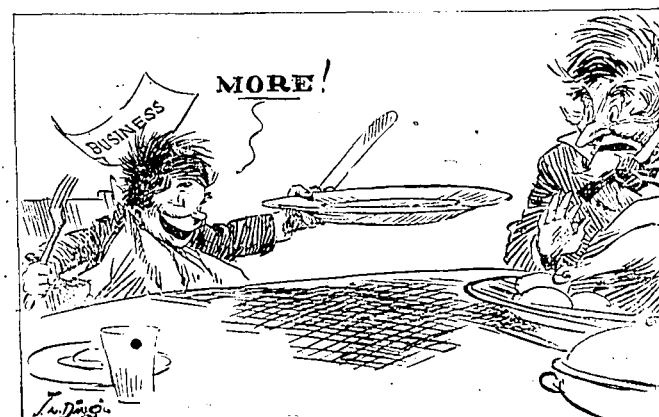

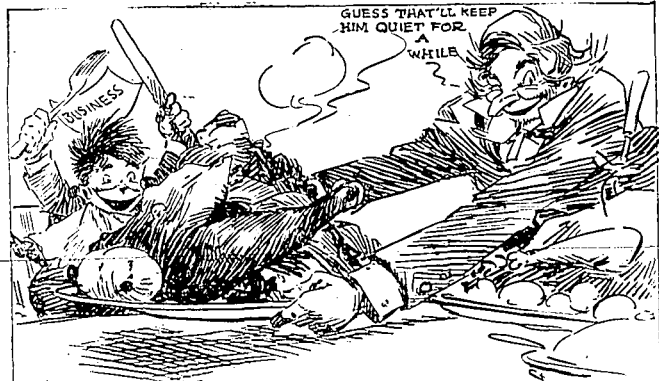

Rum Laden Ship Unloads Cargo to Another Boat Whose Men Then Wage Fight to Get Money Back.

HALIFAX, Nov. 27 (AP)—The story of a battle with pirates off New York, matching in thrills old tales of the Spanish Main was related by the super cargo of the French steamer Francisco, which arrived here today bearing marks of the stirring scenes which took place on her decks. Two days ago the super cargo said, the Francisco unloaded her cargo to a small schooner lying off rum row and the crew retired for the night. The schooner, after standing by for some time, suddenly attacked the Francisco. The strange's crew, apparently bent on recovering the money paid for the cargo, swarmed over the side of the Francisco and forced the super cargo into his cabin.

He managed to escape, he said, and rescued the members of his crew after a short gun battle, drove the attacking party, composed of Americans under a Canadian leader, back to its own boat.

The Francisco, a vessel of 1369 tons, sailed from Hamburg on August 20, destined for San Pierre, Miquelon, under the command of Captain Nicholas.

STATES SELECT LICENSE PLATE COLOR SCHEMES

Idaho Selects White and Black for Auto Tags; Others Select Various Shades for Cars and Trucks.

WASHINGTON, Nov. 27 (AP)—The automobile license plates for 1925 will have a new variety of color schemes. A number of the states will have different colored license plates for passenger cars, trucks and motorcycles within their borders. Louisiana will have seven different color arrangements in its 1925 "tags," the most elaborate plan in the Union.

Officials of the American Automobile association explain that the states endeavor to use in their plans of registration plates the colors that will show best at a distance, so that a number may be more easily "taken" in case of trouble.

In the following list, giving the plans of the various states and the District of Columbia, the first color is the background, the second being the hue of the lettering and numerals:

Arizona.
Alabama, red with white; Arizona, copper colored with black; Arkansas, black with silver; California, prominent tire tread commercial vehicle plates, yellow with black, solid tire commercial vehicles, red with white; Colorado, maroon with white; Connecticut, on passenger cars, dark blue with white; Delaware, orange with black; District of Columbia, dark blue with white; Florida, dark green with orange; Georgia, blue with white; Idaho, white with black; Illinois, brown with white; Indiana, ivory with maroon; Iowa, gray with black; Kansas, red with white; Kentucky, green with white; Louisiana, for minimum cars, 22 horses power and under, maroon with white, for maximum cars, 23 horsepower and over, gray with red; trucks, yellow with black, dealers, cream with green, school plates, black with yellow, motorcycles, gray with red, animal drawn plates, maroon with white.

AMERICA GIVES HER VIEWPOINT

Observer Tells Experts in the Dawes Plan Meeting of Stand Taken by United States.

PARIS, Nov. 27 (AP)—James A. Logan, Jr., American observer with the reparations commission, presented the viewpoint of the United States on the distribution of the proceeds of the Dawes plan at a meeting of the experts committee yesterday. The French and Belgian experts at once signified their approval of the American thesis that claims of the United States for reparations as well as army occupation expenses, should share on the same basis as the allies in reparations payments. The British and Italian delegates said they would further instructions from their governments although there was no indication that any resistance to the American viewpoint would be offered. It was agreed that the army costs ought to be paid as per the previous agreement and the principle that claims allowed by the military commission at Washington should share in reparations on the same footing as were other creditors of Germany was fully admitted by the French and Belgians.

Early Polo Games

It is a long vista back to the historic day when, in 1871, two cavalry teams played the first polo game on English soil with a billiard ball and hockey sticks; to Prospect park, Brooklyn, when the elder Bennett and Foxhall Keene staged the first game on American soil in 1876. Yet these two events have made polo truly international. The tactics of those early players of the eighties have been profoundly modified until the game has now become a science, in which the pony has gradually come to share the honors with his rider.

Fair Offer

A freshly dressed young was buzzing around the foreman of a construction gang in hopes of picking up a soft job as a checker. "I hate nothing like that left," said the busy foreman. "You say you need work. If you need work, why don't you try bookkeeping?" "I ain't strong enough to carry one of them books." "Now, look here, lad, I'll make you a fair offer. If you'll really go to work I'll call four bricks a load."—Louisville Courier-Journal.

MANY EXHIBITS FOR STOCK SHOW

International Livestock Exhibits at Chicago Coming From Several Countries.

CHICAGO, Nov. 27 (AP)—Under a special act of congress official medals to all winners of first prizes and championships in the livestock classes will be awarded by the United States department of agriculture at the twenty-fifth anniversary of the International Livestock Exposition, to be held here November 29-December 6. President Coolidge has accepted an invitation to attend the opening, according to an announcement by H. B. Helde, general manager.

Entries in virtually every department have established new records this year. A total of more than 11,000 animals probably will be entered in the nearly 900 separate contests, Mr. Helde said.

Thirty of the principal agricultural organizations of the country will hold their annual sessions in connection with the exposition, which annually attracts many of the leaders in this industry.

Three Scotch, one Argentine and three Canadian judges will assist the best talent in this country in making the awards. Among the first livestock entries to be received were four Shorthorn cattle from the Prince of Wales' ranch in Canada.

The dry weather of October so improved the quality of the corn and small grains that Superintendent G. I. Christie anticipates the finest display of seeds and hay ever assembled in the grain and hay show another feature of the exhibition. Fourteen agricultural colleges and experiment stations have reserved space for educational exhibits.

The third National Boys' and Girls' Club congress will be held during the international in its permanent headquarters on the show grounds. Eleven hundred champion junior athletes have been awarded free trips to the show as a reward for excellence in their various club projects.

The horse show will occupy the arena and evening at which the leading light horse of the country will be shown in addition to a varied program containing new entertainment features.

Politeness an Asset.
How are your manners? Maybe they are bad and you do not know it. A Frenchman who lately visited this country says that while Americans are polite and kind and very smart and love their wives and their children and their home and all that sort of thing, they have bad manners. Are you as polite as you should be? Politeness is a great accomplishment. You can make money by practicing it. Get over the old, clumsy, snappy way practiced by so many Americans.—Arkansas Thomas Cat.

Weather Influences Moods.

Most city workers who have thought about it agree that they do their work best in windy weather. The reason is simple. Calm weather fills the atmosphere with the poisonous carbonic acid gas that is produced by human breathing. A wind sweeps this away and replaces it with stimulating oxygen. Artificially produced oxygen is now used in some offices with the object of abolishing "that tired feeling" among the employees.

WASH POISON FROM KIDNEYS

Drink Water All Day Long and Take Salts if Your Back Hurts

Kidney and bladder irritations often result from acidities, such as a natural acidity. The kidneys help filter this acid from the blood and pass it on to the bladder, where it may remain to irritate and inflame, causing a burning, stinging sensation or setting up an irritation at the neck of the bladder obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the worst of which sometimes with a searing sensation and is very painful; again, there is difficulty in voiding it.

Bladder weakness, most folks call it because they can't control urination. While it is extremely annoying and sometimes very painful, this is often one of the most simple ailments to overcome. Begin by drinking lots of soft water, also get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast. Continue this for two or three days. This will help neutralize the acids in the system so they no longer are a source of irritation. Bladder and urinary organs, which then act normal again. Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by acid irritation. Jad salts causes no bad effects whatever.

Here you have a pleasant, effective, and healthy water drink which may quickly relieve your bladder irritation. By all means have your physician examine your kidneys at least twice a year.—adv.

GRANITE BRIDGE AS A MEMORIAL OF WAR SOUGHT

Congress Will Be Asked for Appropriation of \$14,750,000 to Build Structure Over Potomac River.

WASHINGTON, Nov. 27 (AP)—Congress will be asked at its coming session to again consider the Arlington Memorial bridge plans with a view to making them a reality.

The idea of spanning the Potomac river with "arches of ever enduring granite," to more firmly forge the links between the north and south, is credited to President Jackson. Various presidents have favored the project and President Coolidge now heads the Arlington bridge committee which is sponsoring the proposal, thus to join the Lincoln Memorial with Arlington National cemetery on the Virginia shore opposite the capital.

The bridge as now planned would cost \$14,750,000 and be completed in ten years. Nine spans enter into its construction. Eagles, symbol of the United States surmount the architecture at the entrances to the bridge which is to be 2738 feet long, with a 90-foot roadway and total width of 90 feet. The structure will be faced with granite harmonizing with the Colorado Yule marble of the Lincoln Memorial. The whole proposal, its sponsors declare, would make it "the greatest single memorial project undertaken by any nation in recent times."

It will provide a magnificent entrance to Washington from the Lee highway, coming across the continent from Los Angeles. Entering the capital in this way, the traveler would obtain a view of the city's parkway system, the Columbia Island columns, the Potomacs and the Lincoln Memorial with the white dome of the capitol in the distance.

Aside from its artistic features traffic students see in the Arlington Memorial bridge a solution of the flood of cars that flows over the recently completed Francis Scott Key bridge at Georgetown.

Jimson Weed Valuable

Both the leaves and seeds of the Jimson have medicinal properties. The leaves are collected at the time of flowering, and the entire plant is cut, or pulled up and the leaves stripped and dried in the shade. The leaves are poisonous, causing dilation of the pupil of the eye, and are used principally in asthma. For the collection of the seeds, the capsules should be taken from the plants when they are quite ripe, but still of a green color. The capsules should then be dried for a few days, when they will burst open and the seeds can be readily shaken out. These should then be carefully dried.

Intelligent Reading

If the books which you read are your own, mark with a pen or pencil the most considerable things in them which you most desire to remember. Then you may read that book the second time over with half the trouble, by your eye running over the paragraphs which your pencils has noted. It is but a very weak objection against this practice to say, "I shall spoil my book"; for I persuade myself that you did not buy it as a bookseller, to sell it again for gain, but as a scholar, to improve your mind by it; and if the mind be improved, your advantage is abundant, though your book yields less money to your executors.

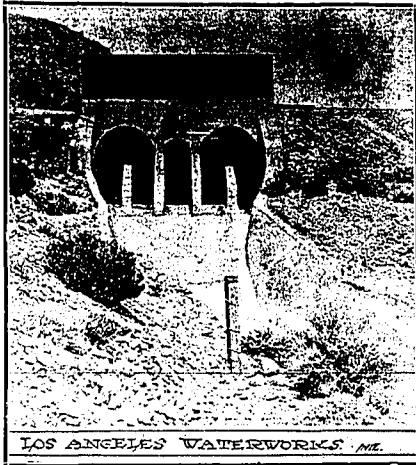

When Pillory Was Used

The use of the pillory for the punishment of evil doers was only abolished in England during comparatively recent times, and was in active operation in June, 1837. This peculiar form of punishment has a venerable history, and was known before the Conquest, in the form of an instrument of torture called the stretch-neck. The pillory was usually dedicated to fraudulent dealers, sellers of sham gold rings, or counterfeiters of papal bulls, until Star chamber tyrants made it a political weapon, whereby many a noble heart was tried and tempered.

Los Angeles Water Raid Is Ended

LOS ANGELES WATERWORKS, N.E.

TWO HUNDRED RANCHMEN from the Owens Valley in California have relinquished the headgates of the Los Angeles waterworks, located near Lone Pine, which are held for several days, opening the spill gates and leaving Los Angeles waterless. Last spring, these same ranchmen blew up a section of the aqueduct. The trouble began when the waterworks was built, in 1913, the ranchmen claiming all water had thereby been diverted from their irrigation system in Owens Valley and ruined their farms. The city officials have agreed to furnish them the water they need. The waterworks cost the city \$22,000,000.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 25 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, W. K. Johnson, 101 North Union Ave., Portland, Ore., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write today for full particulars. Also ask him to explain how you can get the agency and without experience or money make \$250 to \$500 per month.

SCIENCE HALL READY FOR USE

Classes to Start Studies in New Building Following the Thanksgiving Vacation.

MOSCOW, Idaho, Nov. 27 (AP)—First classes will be held in the new science hall of the University of Idaho immediately after Thanksgiving vacation, according to announcement from the president's office. While the building will not be completed, class room conditions are so completed that it has been deemed necessary to relieve in part the crowding in some of the present buildings.

Only class rooms on the first floor of the new building will be occupied and the auditorium of the new hall will be used by classes which are now compelled to use the large university auditorium for lecture room purposes.

The science laboratories cannot be moved into the new hall until another appropriation can be secured from the state legislature, as \$250,000 will be required to complete and install new equipment for the use of the science departments and make changes in other buildings necessitated by the moving.

Rooks Affected by Cholera

In the years 1831-1832 cholera visited the British island and killed over 20,000 people. On the estate of the marquess of Sligo was the largest rookery in Ireland, and as soon as the disease broke out in the neighborhood the rooks cleared out. They appear to have gone to the sea, for on the coast immense numbers were found lying dead. When the outbreak was over the survivors straggled back.

VANDAL AERIAL ATTACK SWAMPS NEVADA ELEVEN

Idaho University Takes Visitors Into Camp-at Boise by Score of 23 to 0; Last Quarter Exciting.

BOISE, Nov. 27 (AP)—Matty Mathew's Idaho Vandals passed their way to a 23 to 0 victory over the University of Nevada aggregation here this afternoon in Boise's annual football classic. Nevada launched a bewildering offensive late in the last period, using a tricky reverse buck play, that kept the ball within 25 yards of the goal line and carried the ball over the goal line once. The touchdown was not counted, however, as a Nevada player was off-side when the play was started. Nevada was once held for downs and once a pass was intercepted behind the line and once the fumbled or the Blue would have scored during the last period, which was the prettiest piece of tenuous aggressiveness ever seen on a Boise field.

Hard Line to Buck. Nevada's line made the Vandals resort to their old passing game and during the first quarter the southerners were unable to solve the Regret-Veser passing combination. In the last half, however, Huttoner, midget Nevada quarter, snatched many aerial attempts. Idaho's touchdowns were made by Kieffner, Veser and Kinnison. Regret scored three points with a drop kick from the 20-yard line in the second quarter.

Summary. The summary follows: Idaho (23) Position. Nevada (0) Veser Left end. Harrison Left tackle. Balaun Left guard. Farnsworth L. Hay Stephens Right guard. Roach Center. Tapper Right guard. Haneson Quinn Right tackle. Carlson Nelsona Right end. Lohlein Regret Quarterback. Gutteros Kieffner Left half. Crew Kinnison Right half. Clarke Husklin Fullback. Lowery

Scoring: Touchdowns—Kieffner, Veser and Kinnison. Points from try for point after touchdowns, Regret 2. Drop kick, Regret. Idaho substitutions—Terry for W. L. Stephens, Marker for Quinn, Davison for Kinnison, Owens for Bucklin, Hutchison for Hansen, W. L. Stephens for Terry, Kinnison for Davison; Bucklin for Owens, Quinn for Marker, Terry for W. L. Nevada substitutions—Lawson for Lohlein, Allen for Lowery, Walters for Lawson, Anderson for Carlson, Lowery for Allen, Howe for Crew, Dugan for Frost, Allen for Lohlein, Lohlein for Walters, Oehlertree for Gutteros. ALBION LOSES TO CALDWELL

Normal School Meets Defeat at Hands of Boise Valley Squad; Score 14 to 17.

Caldwell high school beat Albion state normal school here on Lincoln field today in one of the hardest fought battles of the season. The final score stood 14 to 17 in favor of Caldwell.

Caldwell won the kickoff and Albion took the ball. With a series of brilliant forward passes Albion marched down the field and Yearseley carried the ball across Caldwell's goal line in the first two minutes. The game appeared to be a walk-away for Albion but the shock brought Caldwell to its feet. Very little yardage was made by either team in the remainder of the quarter.

Sloppy Playing. At the beginning of the second quarter sloppy playing by Albion let Caldwell through for two touchdowns. One carried by Kimm, the little Hawaiian, and one carried by Caldwell's captain, Thayer. Both field goals were kicked. Later in the quarter Brown kicked from Albion's twenty-yard line and the quarter closed 17 to 7 in favor of Caldwell.

Good playing on the part of the third quarter but the quarter passed scoreless.

The most thrilling part of the game came in the last period. In the first few minutes Albion completed a perfect forward pass and L. Amann took the ball across Caldwell's goal line after a 40-yard run. Snyder kicked the goal and the score stood 14 to 17. After the kickoff Albion marched down to Caldwell's 10-yard line and excitement ran high. The school teachers were unable to put the ball over the fatal 10-yard line, however, and Caldwell passed as far out of danger as possible. These tactics were repeated until time was called. The final score was 14 to 17 in Caldwell's favor.

Kimm Stars. The playing of Kimm of Caldwell deserves special mention. He would worm his way through the Albion line and Albion found it necessary to devote the time of two or three men to him every time he carried the ball. L. Amann of Albion also showed credit for his excellent playing and especially his work on forward passes. The lineup was as follows:

| | |

LOCKHART WINS AUTO ROAD RACE

Youngster of Dirt Track Speedways Takes Event at Los Angeles.

LOS ANGELES, Nov. 27 (AP)—A youngster of the dirt track speedways, Frank Lockhart today drove his car to victory against a field of 43 starters in the Ascat Thanksgiving day road race of approximately 250 miles. His time for the estimated distance was three hours 21 minutes 40 seconds. A crowd estimated at 50,000 saw the race.

Lockhart made only one stop and that was within 25 miles of the finish post, when he flashed into the pits for a moment to drop his mechanic and then lightened the load on his car. E. "Cannon Ball" Baker, veteran transcontinental driver, who led the field for a great portion of the grind, was forced to the pits at the 150-mile mark with a flat tire and never again gained the head of the procession.

NEBRASKA BEATS OREGON AGGIES

Two Touchdowns Scored in Final Quarter Spells Defeat for Westerners.

LINCOLN, Neb. Nov. 27 (AP)—Scoring two touchdowns in the final quarter this afternoon the University of Nebraska Cornhuskers defeated the Oregon Aggies before a large crowd at the Memorial stadium here, 14 to 0.

The Aggies outplayed the Cornhuskers throughout the first half, the Nebraska team failing to make a first down and Tebb's lengthy punts keeping the ball constantly in Nebraska territory.

In the closing half Nebraska's backfield reeled off twelve first downs. Halfback Locke reared through broken fields for 43 and 34 yards and Bloodgood contributed some brilliant open field runs.

Captain Ed Weir of Nebraska proved the main demon in the Husker line. He shifted through on every play.

Statistics of the game showed Nebraska outplayed the Aggies, 12 to 2 and outgained the Oregon team, 297 yards to 76 yards. Husker linemen tossed the Aggies for thirty yards loss while the Huskers lost 19 yards from scrimmage.

The game wound up the season for Nebraska, the Cornhuskers having defeated Colgate, Oregon Aggies, Missouri, Kansas and Kansas Aggies, while losing to Notre Dame, Illinois and Oklahoma.

UNIVERSITY OF UTAH DEFEATS AGGIE SCHOOL

SALT LAKE, Nov. 27 (AP)—The University of Utah and the Utah Aggies wound up their 1924 conference schedule here today by playing a 7 to 7 tie.

Both touchdowns were made in the final period. Knowles, Aggie halfback, and leading scorer of the Rocky mountain conference, scored for his team by making a 45 yard run from scrimmage. He kicked his own goal. Livingston, Utah half, seven minutes later, received a punt on his 30-yard line and raced through a broken field for a touchdown. Tauber booted the ball for the seventh and tying point.

Utah university has won two conference games, lost two and tied one. The Aggies have lost two, won three and tied one.

RACES AT TIJUANA RUN

SAN DIEGO, Cal. Nov. 27 (AP)—The inaugural handicap at a mile and 70 yards, feature race on the opening card of the Tijuana Jockey club today, was won by Sunnyside, with Postillion second and Tanager third. Time 1:42 4-5, was within 4-5 of a second of the track record. Runster, winner of the Cofiroth handicap, was away poorly and pulled up lame after the third furlong. Nine horses were entered but the race was between Sunnyside and Postillion, the latter closing fast in the stretch to finish second by half a length.

PRINCE GIVEN THRILL IN HIS VISIT TO U. S.

Wales Tells American Society
at Thanksgiving Dinner of
Manner in Which He Enjoyed
American Trip.

LONDON, Nov. 27 (AP)—The Prince of Wales tonight declared that his recent visit to the United States was a "thrill that can come only once in a lifetime." The occasion for his declaration was the annual Thanksgiving dinner of the American society which was attended by Frank B. Kellogg, the American ambassador, and Mrs. Kellogg, and a large representation of American residents in London.

The prince gave his impressions of America while he was in the country. He admitted he had a warm regard for Will Rogers, the Woolworth building and New York's subways and that he even delighted in his memories of the Chicago stockyards.

Peace of Nations.

The heir apparent to the British throne dealt with things American in a speech in reply to a toast by Mr. Kellogg which followed a banquet, the main course of which was turkey, and then with the usual pumpkin pie. Mr. Kellogg in his speech recalled the peace and harmony which he said had existed between Great Britain and the United States for 110 years.

He referred also to a Thanksgiving dinner given 28 years ago by Queen Victoria to the American ambassador which custom at some time or other has been followed by her successors on the throne. In toasting the prince, Mr. Kellogg said he combined the friendships and good will of his predecessors toward the United States and that he was the most enthusiastic person in England in spreading about good words for the American people.

Ones Prince.

The ambassador led the guests in giving three cheers for Wales, after which the guests followed the English custom of singing "For He's a Jolly Good Fellow."

The prince rose to reply. He seemed much embarrassed by the hearty welcome he had received. He fidgeted about and shifted from one foot to the other, the meanwhile continually plucking at his tie. He told the diners that he thanked them and the American public through them, for "the jolly good time" he had had in America and for the present welcome which he said was a repetition of hundreds of similar ones he had received from Americans in their own country.

Here the prince threw aside the notes of his address he had been using and said he guessed he was going to try to get off his mind a few remarks about his visit to America in the present atmosphere which was so American that he felt he would "use the Woolworth building or the Wrigley Twins if he looked out the window."

Take Fling at Press.

Wales first took a fling at the American newspapers, declaring he hesitated to say anything about his trip because if any one had read the American papers he would "know more about my stay than I myself."

"But I remember quite enough," the prince said, "to provide a big store of very happy memories which will last throughout my lifetime." Wales modestly declared that his welcome in the United States was so genuine that he felt unable to rise to the occasion, but his trip to Washington "got me all set to enjoy my stay."

"As to the polo games," the prince continued, "my main recollections are not of the final scores, but of the splendid play of those sportsmen who fought the battles in the presence of generous and sympathetic crowds. When the games were over I was fortunate enough to see many interesting things in New York, among which was the natural history museum." Here there was loud and prolonged laughter.

Commuted Some.

"Perhaps I need not enumerate some of the others," the prince went on. "But I would like you to know that I did a little mild commuting by the subway and explored the Woolworth building, both of which fascinated me."

The prince smiled and cast a glance at Captain Lascelles, his secretary, who accompanied him to the United States as he said some of the guests might have heard of his subway adventure from Will Rogers.

When there was no apparent appreciation of this remark, the prince said:

"I feel that not too many people here know Will Rogers. It seems a great pity. He is a great man in New York and though he picked on me quite a little we became friends and he bought one of my polo ponies."

"New York thrilled me and I hope it was not my last glimpse of it. Later, on my way from Canada, I had a glimpse of Chicago and Detroit."

BRITISH TAKE DRASTIC ACTION IN EGYPT

(Continued from Page 1)

who was offered the portfolio of foreign affairs in the new cabinet of Zikwar Pasha, has declined the post. The premier will temporarily retain it himself. Ahmed M. Nofar Pasha, judge of the court of appeals, has been named minister of justice.

Commenting on the appointment of Neville Henderson, as British minister plenipotentiary in Cairo, the newspaper *Ahram*, a Zogoulit organ, says it understands Mr. Henderson's coming to Cairo with full authority to negotiate a treaty before the re-assembling of parliament.

Take Many Years.

The newspaper attacking Great Britain's insistence of the withdrawing of the Sudan projects, said it would require many years to cultivate the nearly 500,000 acres of land in the Sudan involved, even if the necessary labor were available and it concludes the provision was merely inserted in the British demands with the intention of dropping it later to impress the Egyptian people.

The *Ahram* says it understands that the cabinet members are consulting individual senators and deputies in an effort to learn the situation of the new ministry with regard to the parliament. The cabinet, it adds, will doubtless recommend dissolution of parliament if a majority for the ministry does not appear to be forthcoming. Considerable anxiety is being manifested in cabinet circles in this respect, it declares.

PLOTS ARE UNEARTHED

LONDON, Nov. 27 (AP)—The discovery of a network of plots throughout Egypt, declared to menace the lives of British officials in that country and in the Sudan from the governor general down to civil clerks, has caused the British authorities to issue orders for the arrest and imprisonment of all prominent anti-British plotters. Further arrests, possibly on a large scale, in Cairo and Alexandria, are expected to follow quickly the arrests announced today among others of Nekraschy Boy, Zaidou Pasha's minister of the interior, and Abdul Rahman Fahmy, declared to have been long actively engaged in plots against England.

Extremist Patriots.

Discovery of the numerous plots are stated to have been made by the British authorities in their investigations after the murder of Major General Sir Leo Stack, the sirdar. For the most part the alleged plotters are said to belong to the groups of extremist patriots who aim at achieving the complete independence of their country by the employment of any methods which they conceive will benefit their cause and place it before the rest of the world.

SUDAN IS QUIET.

KHARTOUM, Sudan, Nov. 27 (AP)—The general situation in the Sudan is quiet according to a communication issued here.

With reference to the requirements of the British note regarding the evacuation of the Egyptian army from the Sudan, King Fud, through the minister of war, has instructed the officers and men of the Egyptian army in the Sudan to obey the orders of the acting governor general to withdraw from the Sudan.

The remaining Egyptian troops probably will leave the Sudan Sunday.

ALEXANDRIA, Egypt, Nov. 27 (AP)

A deputation from Damamhur, south of Alexandria, visited Prince Toussein of the Egyptian royal family today and suggested the convening of official national conference representing all parties to discuss the situation. The prince, it was stated, promised he would call such a conference.

GERMAN ROADS GET U. S. MONEY

First Steps Under Dawes Plan
Taken With Financing of
Railways.

NEW YORK, Nov. 27 (AP)—First steps in financing Germany's railways, as re-constituted under the Dawes plan were taken today by American and British bankers in a meeting at the disposal of the German State Railway company.

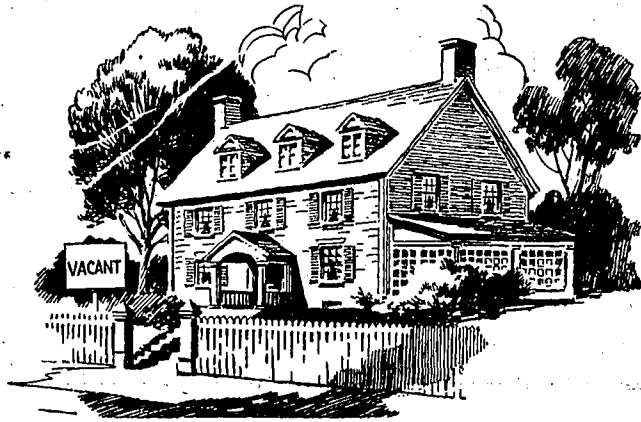

One-third of the loan will be in pounds sterling and will be underwritten by a London banking group headed by J. Henry Schroeder and company. New York banking syndicate headed by Speyer and company, includes the Equitable Trust company, the Chase Securities corporation, Blair and company, the Bank of Manhattan company and the J. Henry Schroeder Banking corporation.

Organized in accordance with the Dawes plan to take over the operation of German railroads under private management, the German State Railway company constitutes what is said to be the largest railway system in the world, having 33,000 miles of road. Two-thirds of the equipment, consisting of 31,000 locomotives, 70,000 passenger cars and 750,000 freight cars is less than 10 years old.

IT'S YOURS

What are you going to do about it?

You'd figure you were losing money every day this house stood empty, if it belonged to YOU. If you owned it you'd expect it to earn some money for you. But you can't collect rent from a

VACANT house—an idle house—a house that IS NOT WORKING. And the money that you DO NOT get because your house is NOT working is just that much money LOST.

This is a picture of YOUR savings!

Yes it is, too, if your money is not INVESTED. Because that's the way to put money to work—INVEST IT. And if your money is NOT invested—if your money is not working—then YOU ARE LOSING MONEY just as surely as the owner of a vacant house is losing money.

For instance: if you had \$1000 twelve months ago and invested it in the power-and-light company you would be \$70.00 richer today. On the other hand, if you did not invest it you have lost that \$70.00 which your \$1000 would have earned for you in twelve months.

THANKSGIVING IN TWIN FALLS MEMORABLE DAY

City Celebrates Holiday With
All Factors Necessary for Its
Traditional Observance.

With all of the elements essential to observance of the Thanksgiving occasion—church services for the expression of gratitude, material abundance that was reflected in feasts at which hundreds of families gathered, and a clean, hard-fought gridiron contest between evenly-matched teams in the afternoon—Twin Falls observance of Thanksgiving day was one that was wholly in keeping with the traditions of the occasion, and one of the most generally satisfactory characters of the event in the history of the community.

In addition to a union service in which congregations of several churches joined, there were held Thanksgiving day services at St. Edward's Catholic church, Ascension Episcopal church and the Lutheran church. All of these services were well attended.

Red Letter Day in Homes.
Essentially a home festival, Thanksgiving day in Twin Falls was the occasion for many family dinners and the marked pleasant gatherings of relatives and friends.

Homes in which there was need were not overlooked and individuals familiar with the circumstances in several cases saw to it that well-filled baskets were delivered to brighten homes that otherwise might have had a dreary day of it. It is believed that no family in Twin Falls went without its Thanksgiving dinner.

At the county jail, the holiday was not overlooked, chicken dinner was served to 23 prisoners now in custody there.

With Twin Falls high school football team and many of its friends and well wishers away from home to meet the Nampa team at Nampa today in a game to decide the state championship, Twin Falls and neighboring communities were not deprived of opportunity to attend a gridiron contest on the home field, and several hundred persons gathered in the afternoon at Lincoln field to witness the game between Albion state normal school and Caldwell high school teams that was regarded as one of the best exhibitions of football presented here this season.

Other Twin Falls citizens took advantage of the holiday to find diversion during the day in fishing or hunting excursions for which weather conditions were entirely favorable. Public offices and business places generally were closed throughout the day.

PARIS OBSERVES DAY OF BLESSING

Thanksgiving in French Capital Featured by Union Services at Church.

PARIS, Nov. 27 (AP)—The feature of the American colony's observance of Thanksgiving today was the union service held at the American church in the Rue du Boni at which Ambassador Herriek administered the American Boy Scout's oath of allegiance to the flag to the Boy Scouts of the colony in Paris. Dean Frederick W. Beckman of the Episcopal pro-cathedral delivered the sermon, and the Rev. J. W. Cochran, pastor of the church pronounced the benediction. Robert W. Skinner, the consul general, and President Collidge's Thanksgiving proclamation. A large congregation was present. The Thanksgiving mass in the Church of the Madeleine was equally well attended. Mgr. Chaplet, coadjutor bishop of Paris officiating. The evening was marked by dinners and dances of the American students and artist clubs and the American Legion.

MEXICAN HELD FOR THEFT

Jesus Orozco, Mexican, was Thursday evening arrested by the police and is held as a suspect in connection with larceny of a watch reported taken late Thursday afternoon from a second hand store at 310 main avenue south by T. E. Lucas, proprietor of the store. Orozco was identified by the store proprietor as one of two Mexicans who visited his place of business and looked at watches shortly before the loss of the missing watch was discovered.

TURKEYS BRING WOMAN WEALTH

Flock Raised This Year by Mrs.
J. Mills of Sand Springs
Ranch Brings \$10,000.

Turkeys raised this year by Mrs. James Mills at Sand Springs ranch, south of Wendell, will bring in a total gross revenue of between \$10,000 and \$12,000 according to word brought here by persons familiar with Mrs. Mills' flocks and with market conditions.

On the ranch of approximately 1500 acres on which her husband is feeding several thousand sheep, Mrs. Mills this year raised more than 5000 turkeys. She has contracted sale of 5100 of the birds, 2600 of which were shipped to New York for the Thanksgiving trade, the remaining 2500 to be shipped the first week in December for Christmas trade in New York. The birds were sold by Mrs. Mills at 10 cents per pound live weight, and the average weight of birds in the first lot was 13 pounds.

At the end of the year Mrs. Mills expects to have on hand between 500 and 600 turkeys for raising next season's flocks. Mrs. Mills' experience in turkey raising goes back only about two years. A year ago she raised some 500 birds, and her success prompted her to continue the venture this year on a larger scale.

Speakers at the conference are to include A. F. Colver of the First Baptist church of Buhi, and Penton O. Fish of the Rose Park Congregational church, Portland.

Three Special Trains Carrying 1800 Children to Martyrs' Tomb

ABOARD THE LINCOLN PILGRIMAGE SPECIAL EN ROUTE TO SPRINGFIELD, ILL., AT MOBERLY, Mo., Nov. 28 (AP)—Across northern Missouri a remarkable "caravan" was passing tonight. It was a "caravan" of 41 steel coaches comprising three special trains, and it was bearing more than 1800 Iowa and Missouri school children to Springfield, Ill., where tomorrow they will do homage at the tomb of Abraham Lincoln.

At the three sections of the special sped through, the Wabash line all along the way was being cleared to allow this remarkable carrier to pass by without interruption. Railroad officials previously had passed the word along for operators to hold up traffic during the night so that the youthful passengers might be transported in safety.

On the third section, where this story is being written, quiet is slowly replacing the hectic merriment that surged through the coaches in the earlier hours of the evening.

TELLS REASONS FOR GRATITUDE

Rev. O. D. Harris in Sermon at
Union Thanksgiving Service
Takes Optimistic View.

Rev. O. D. Harris, pastor of the Christian church, delivering the sermon at union Thanksgiving service in the Baptist church Thursday, gave with an emphatic affirmative the question of his topic, "Shall We Give Thanks?" The service was presided over by the Rev. A. G. Pearson of the Presbyterian church, who offered the invocation and benediction. Dr. H. G. Humphrey of the Methodist church offered the Thanksgiving prayer. Rev. J. E. Kanarr, pastor of the Baptist church at large, was present as the pastor-host. An anthem was sung by a mixed chorus and Mrs. I. H. Masters sang a solo.

Recalling that "a few years ago we found things to be thankful for even during a great world conflict," Mr. Harris declared that "Thanksgiving day is a time for thanksgiving for the nation; every day should be a thanksgiving day for the individual; and this regardless of conditions."

Fulfills Human Needs. The speaker asserted, "enlarges the soul of the thankful. Too many of us are cramped in the quarters of ingratitude and become resultingly dwarfed in soul. So often we are thoughtless of others, but a word of appreciation will lighten the face with a new brilliancy. It draws tighter the chords of fellowship and love and fosters closer relationship and tends to fulfill the need for closer fellowship and brotherhood in the family, neighborhood, community, nation and world. It spans the chasm between the heart of God and of man."

In retrospect, in the present and in dreams for the future the speaker found things to be thankful for. The record of the past, he declared, contains the story of man's advancement for which gratitude is due. The speaker referred to progress made politically, socially, industrially, internationally and religiously.

Sees End of Divorce Advancement socially the speaker indicated has been marked by outlawing of alcoholism, slavery and polygamy. "The divorce situation," he continued, "is merely a reversion to an old practice which has been outlawed by the same element of society. It, too, will be outlawed."

In the present situation, Mr. Harris found reasons for thanksgiving in growing material prosperity of our own community, nation and the world, in social activities and life and in spiritual blessings.

"Judging from the progress of the past do we not have a right to hope for better things in the future," the speaker inquired. "During the war," he declared, "we had great ideals. Something it seems that these have been shattered. But not so. Ideals

FURNACE CASE STILL MYSTERY

Officials Report No New Developments in Death of Ohio Pastor's Wife.

COLUMBUS, Ohio, Nov. 27 (AP)—Nothing tending to solve the veil of mystery which has hung over the paragon of Christ Evangelical Lutheran church in the fashionable Bexley district since the practically cremated body of Mrs. Adelle Sheatley was found in the furnace 11 days ago developed today.

The work of County Prosecutor John R. King and his aides making an investigation of the mystery was at a standstill. They rested after a period of almost constant work since the body was found by the husband, the Rev. O. V. Sheatley.

Tonight Mr. King said he had no plans for the remainder of the week. Further action, he said, will depend on the report of scientific experts who are investigating certain phases of the case.

Visit Parnassus. Hundreds of curious persons today thronged through the streets in front of the paragon to which Mr. Sheatley and his four children returned from Paris, Ohio, where funeral services were held for Mrs. Sheatley a week ago.

The paragon was guarded by members of the football squad of Capital university, where the minister is a lecturer on religious subjects.

The family today remained in seclusion. Their Thanksgiving dinner was prepared by the pastor's congregation.
