FUNERAL TRAIN
OF LABOR CHIEF
NEARS CAPITAL

Thousands Walk by Bier of Samuel Gompers at Various Stops Along Way East; Tribute Impressive.

ABOARD GOMPERS TRAIN ENROUTE TO WASHINGTON, Dec. 15 (AP)—Footfalls of America's army of labor continued today almost endlessly to beat a march of devotion past the bier of Samuel Gompers as the train, carrying his body pushed across Illinois, Indiana and Ohio on the way to Washington. The new carpet placed beside the coffin showed a badly worn path by nightfall.

Following the demonstration at St. Louis, where a continuous file went through the car for more than four hours during the morning, other thousands came to look upon the face of the dead at Flora, Ill., Vincennes, Washington, Mitchell and North Vernon, Ind., and many smaller places, where brief stops were made.

Railroad Men Mourn.
At Flora railroad men were lined up alongside the track for over a block. Their hands were bared as the train came in. They had left their engines and trains standing on the side tracks and in the shops while they came to the funeral car. Frequently sections men at work along the way stopped their work, doffed their hats and stood silent as the train passed.

Though some of the railroad unions are not affiliated with the Federation of Labor, which Mr. Gompers helped to create, all have paid their respects to labor's dead chieftain. The crowds have grown and with them gifts of flowers and the larger industrial centers of the country were reached.

Tribute Immense.
"The tribute to our chief has been more than any man could ask," said Matthew Wells, one of the vice presidents of the American Federation of Labor. "The people have shown that Mr. Gompers was a real leader. With flowers, with their presence and in many ways they have said it unmistakably."

Officials on the train were advised that the remaining members of the federation's executive council were to join the party at Cincinnati, and that the funeral coach and the sleeper which the official party occupies would be incorporated.

EBERT ACCEPTS
RESIGNATIONS

German Cabinet Formally Retires from Office; to Discuss Situation Today.

BERLIN, Dec. 15 (AP)—President Ebert today accepted the resignation of Chancellor Marx's cabinet, and it was announced at the same time that the new reichstag would hold its first session January 5.

Today's formal retirement of the Marx cabinet was merely in the nature of ratifying the ministry's resolution of last week to resign as soon after the election as possible. President Ebert will discuss the parliamentary situation with reichstag leaders tomorrow and will then decide which party is best qualified to undertake the task of forming a new coalition government. In the meantime, at the request of the executive, the present cabinet will continue its duties.

Not to Follow On.
Contrary to usage, President Ebert will not ask the strongest party in the reichstag to form a new ministry as the socialists who lead in number of deputies are declared to be without the slightest prospect of being able to construct a new government.

It is therefore assumed that the president will commission either the clericals or the German people's party with the burden of surveying the situation. Unless a four party coalition, extending from the socialists to Stresemann's people's party, can be evolved, it is believed by many that the Marx-Stresemann ministry will continue in office and trust its fortunes to the varying majorities until the presidential election next May.

EASTMAN GIVES AWAY
LAST \$15,000,000

GEORGE EASTMAN

DESIRING TO STOP making money for himself, George Eastman of Rochester, N. Y., president of the Eastman Kodak company, has given away his last \$15,000,000 of stock of the company, retaining only enough to have a voice in the management. This makes \$50,000,000 he has given away to schools.

Caustic Note Sent
Secretary of State
by Soviet Minister

Warns Hughes That "Lawless Act" of Coast Guard Vessel Will Result in Stern Measures.

MOSCOW, Dec. 15 (AP)—George Tchitcherine, the soviet minister of foreign affairs, on December 11 sent a caustic note to Secretary of State Hughes at Washington, complaining that the United States coast guard vessel Bear in 1920 had committed an act which constituted a gross violation of international law and of the sovereignty of the soviet republic. The note added that a similar "lawless act" would be sternly repressed by the soviet government.

Put Brass Plate Up.
The complaint of the soviet government was that the Bear had affixed a brass plate to a rock on the Chukotka peninsula in Emma bay, Cape Puzos, in Siberia, near Bering strait, bearing the inscription:

"United States geodetic magnetic station."
The plate was discovered by soviet authorities and bears the warning: "For disturbing this plate, \$250 fine or imprisonment."

M. Tchitcherine asserted that the discovery of the plate shows that magnetic observations had been carried out in 1920 and subsequent years by the Bear.

Violates Sovereignty.
"While pointing out that repeated entry of an American war vessel into the territorial waters of the soviet republic without permission is contrary to law," M. Tchitcherine said, "I must emphasize that the erection of the foregoing plate and the threat to soviet citizens inscribed on it constitute a gross violation of the sovereignty of the soviet republic."

THE DAY IN WASHINGTON

Memorial services for Woodrow Wilson were held at the capitol.

The national conference on street and highway safety began at a meeting at the call of Secretary Hoover.

Corporation incomes derived from export trade were held by the supreme court not exempt from the income tax. The department of justice reiterated its intention to leave the Wechsungen, New Jersey liquor cases to the local authorities.

Navy air experts, it was learned, have plans for a six million cubic feet airship which would be the largest ever proposed.

A favorable trade balance of \$108,000,000 for November was shown in American trade figures issued by the commerce department.

Looseness in execution of work in the internal revenue bureau was charged by Chairman Coughlin of the senate investigating committee.

The senate judiciary committee appointed a sub-committee to investigate the Washington Herald's editorial on the Underwood Muscle Shoals bill.

APPOINTMENT ANNOUNCED.
TOKIO, Dec. 16 (AP)—The appointment of Tsuruo Matsudaira, vice minister of foreign affairs, as ambassador to Washington, was formally announced today.

UNDERWOOD BILL

Senators Agree to Declare for Government or Private Operation of Nitrate Plant by 3 o'Clock Today.

WASHINGTON, Dec. 15 (AP)—The senate, under a unanimous consent agreement, must declare its position on government or private operation of Muscle Shoals by 3 p. m. tomorrow.

Senator Underwood, author of the Underwood Muscle Shoals bill, now before the senate, has demanded such an expression of the senate in its vote on the Smith-amendment, which would strike out of the bill the entire leasing clause and leave only the government operation provisions.

Strikes at Heart.
The Alabama senator holds that the amendment would strike out the heart of his bill and has said he would regard the vote on it as a forecast of the final vote. The opposition, meanwhile, is centering its effort to kill the bill through support of the amendment.

The senate judiciary committee today authorized a sub-committee to investigate the Washington Herald editorial last week attacking Senator Underwood and his bill. The editorial was referred to the committee after Senator Underwood had denounced it on the floor of the senate. By a unanimous consent agreement the committee was authorized to investigate the editorial and question its author and if the disclosures warranted to report a resolution to the senate for a general inquiry.

Limit Speeches.
The agreement to vote on the Smith amendment before 3 o'clock tomorrow and to limit each senator to only one speech of not more than ten minutes was obtained by senate leaders as a means of breaking what they regarded as a filibuster against the Underwood bill.

Sponsors of the bill believe that if the amendment is defeated the opposition.

May Offer Pershing
Movie 'Czar' Position

NEW YORK, Dec. 15 (AP)—General John J. Pershing may be offered the position of "movie czar" of the Independent Producers and Distributors' association, with powers similar to those of Will H. Hays, on his return from Lima, Peru, in February, it was reported here today. The general left for Peru last month, where he represented the United States at the Peruvian centennial celebration of the battle of Ayacucho.

NORMAL SCHOOL
HEAD IS DEAD

O. M. Elliott, Former Resident of Twin Falls Dies Following Operation in North Idaho.

LEWISTON, Dec. 15 (AP)—Oliver M. Elliott, president of the Lewiston state normal school, died here today after an operation which he underwent a week ago. He is survived by his widow, a son and a daughter. President Elliott had been head of the normal school since 1916, when he came here from Salem, Ore., where he was superintendent of schools. He was 57 years of age.

Oliver M. Elliott, president of the Lewiston state normal school, whose death occurred Monday, served for six years, from 1908 until 1915, as superintendent of Twin Falls schools. He played a major part in the establishment and development of Twin Falls' school system, and was prominent in civic, church and fraternal affairs here.

Mr. Elliott, who was a graduate of the University of Iowa with the degree of master of arts, came to Twin Falls from Sheldon, Iowa, where he had served as superintendent of schools. The Lincoln school, Twin Falls' second school building, was completed the year Mr. Elliott arrived, and during his term as superintendent the high school building was built.

On Library Board.
Mr. Elliott did much as a member of the library board, toward upbuilding of Twin Falls public library. He was an active member of the chamber of

MERCURY DROPS
84 DEGREES IN
TWELVE HOURS

Temperature Stands at 32 Below in Montana; Blizzard and Cold Wave Spread Over the Northwest.

GREAT FALLS, Mont., Dec. 15 (AP)—A drop of 84 degrees in 12 hours was registered yesterday from 12 noon at Fairfield on the United States reclamation service records, according to George Sanford, director of the Sun River project at Fairfield today. At noon Sunday the government thermometer stood at 65 above zero; at 12 o'clock Sunday night it was 21 below. This, said Director Sanford, was the greatest drop in 12 hours ever recorded by the service during its history in this part of the state.

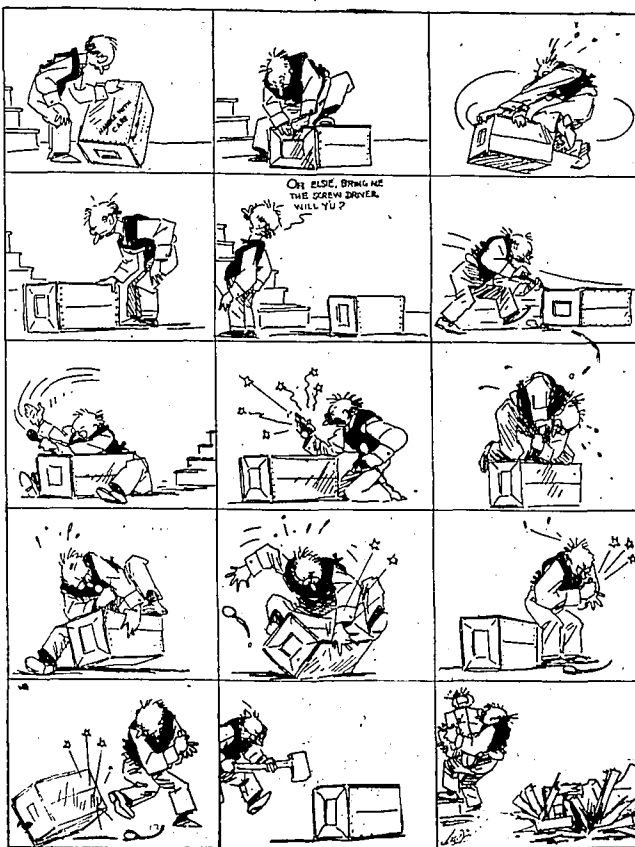

The Great Northern railroad records here show a drop of 36 degrees in one hour in the town of Shelly Sunday afternoon. Today a blizzard is reported there and also at Sunburst, where it is 30 below. The same records at noon showed 32 below at Havre, the coldest point recorded on the system in Montana, 20 below in Billings and 40 above in Butte.

Blizzard Near Great Falls.
A blizzard is reported north of Great Falls with about five inches of snow to the north of Conrad. The storm is headed this way. The sudden change caused a drop of temperature of 66 degrees here in 10 hours, the thermometer recording 16 below at 12 o'clock today.

There is but little suffering predicted for livestock as yet, as the range are all excellent and stockmen are all provided with ample feed.

Gas Line Freezes.
A serious condition is reported from Shelly in the freezing up of the gas line which supplies two-thirds of the places in town with heat. The gas was all right until 7 o'clock this morning, when it began to go down and at noon was down to such a small flow as to make the situation serious. The gas well lies six miles northeast of town. Five men in an automobile started at 9 o'clock to the well, hunking the blizzard and snow. Business houses in Shelly have shut down to one stove where perhaps six or seven have been used and are trying to get by until the trouble shall have been reached.

TRIBUTE PAID
WAR PRESIDENT

President Coolidge and Officials Hold Memorial Service for Woodrow Wilson.

WASHINGTON, Dec. 15 (AP)—Congress and those who had an intimate connection with the private and public life of Woodrow Wilson, paid tribute to his memory today in the chamber of the house of representatives.

Former cabinet officers who shared his burden of war and its aftermath, members of the supreme court and envoys of foreign governments, with Mrs. Wilson and members of his family and special guests, sat with the senators and representatives as Dr. Edwin A. Alderman, president of the University of Virginia, and a life long friend of the war president, delivered the formal oration.

President Participates.
President Coolidge and his entire cabinet participated in the exercises, occupying half of the first row of seats, the remainder being held by Chief Justice Taft and other members of the supreme court. Mrs. Coolidge, accompanied by the White House military aide, was in the executive gallery. Speaking from the same rostrum where Wilson delivered his message to congress, Mr. Alderman denied there

MACHINE CODED MESSAGES PLAN OF GOVERNMENT

Military Officials Experiment-
ing Upon Best Methods for
Communication in Secret
Writing.

WASHINGTON, Dec. 15 (AP)—Secret messages for military purposes in the future will largely be mechanically coded, transmitted and decoded in the opinion of William F. Friedman, army code expert. This will overcome the present drawback of slowness and tediousness and eliminate the high degree of error incident to the difficulty of the work.

The code and cipher section of the office of the chief signal officer is examining various types of secret message sending devices, and compiling codes and ciphers for possible use in war time.

Mr. Friedman is a captain in the signal officers' reserve corps. There are certain types of simple ciphers that can be solved mechanically, he says, but the complex sort of cipher requires a high degree of analytic skill, patience, experience and hard work, and takes a peculiarly constituted type of mind. By a trick use of a certain enciphering and deciphering machine in the code and cipher section, it can be made to translate and write various foreign languages.

Speaking of utilizing automatic means to perform the operations of coding, transmitting and decoding, Mr. Friedman said:

Few Errors.
"A well-constructed machine can be relied on not to make many errors, and will function very much quicker than man. What is required in a machine is that it should perform cryptograms difficult to read without the key and that it should be very rapid in its operation with the key. It should be simple mechanically, not bulky, easily repaired and transported and practical in its operation."

It is a curious fact of psychology that the average layman thinks he can develop an absolutely perfect system of communication. Mr. Friedman commented, but that is very far from reality, when all factors that have to be taken into account are considered.

Mr. Friedman is a Cornell graduate and became interested in this work when studying plant genetics at laboratories in Illinois. Literary ciphers first engaged his attention, and as America drifted toward the World War, military ciphers became his hobby. His wife also is a cipher expert. During the war Mr. Friedman directed a course of instruction in codes for army officers and later went to France to solve German codes and ciphers. After demobilization, opportunity was afforded by the War department to continue his studies of secret messages, their sending and solution.

WOULD TURN WAR PLANT INTO MANUFACTURING MANY OTHER ARTICLES

LONDON, Dec. 15 (AP)—Part of the great workshops at Woolrich arsenal will in the near future be used for private enterprise in the manufacture of goods instead of implements of war, it was revealed by J. Bradford, of the Woolrich chamber of commerce at a meeting of the association of British chambers of commerce.

"When you are not making guns for war," he said, "killing your enemy and having your kith and kin killed in return, these valuable workshops in Woolrich arsenal are idle, and the district is suffering."

He added that the chamber had persuaded the government to release certain of the workshops and parts of their river frontage for private enterprise, and that "we hope in that way that we shall be less dependent upon war and be able to develop peace industries."

Fresh Vegetables Best.
That raw food contains more of the protective elements than cooked food was shown by an experiment with pigeons fed a grain diet which had been heated to destroy the protective elements. They developed beriberi in from 40 to 80 days. Other pigeons receiving raw potato in addition to heated grain were in excellent condition during the 500 days of the experiment. The protective value of fresh raw potatoes was also tested with that of dried potato in an experiment, and the results showed that while dried vegetables are not without value as a protection against beriberi, yet fresh vegetables are very much better.

CIGARET AND COCKTAIL RUIN ENGLISH PALATE FOR THE FINER WINES

LONDON, Dec. 15 (AP)—The British palate for vintage wines is being strangled by the cigarette and cocktail craze, according to a London wine expert, who also finds that steady drinking of whiskey will ruin any palate for the mellow products of France, Spain, and Portugal.

In this connection one of the leading trade publications says that the consumption of claret of all grades "is not a fifth of what it was even 20 years ago."

"Claret is now almost a thing of the past," a wine merchant declared, "and I should imagine that it is drunk by only a small proportion of those who did so before the war. Its place has been surpassed by whiskey and soda. Young men nowadays do not know a really good wine when it is given to them. They prefer the inevitable small Scotch and aphair, even though it usually costs them more."

More people, including women, now drink whiskey and soda than ever before in my memory. More bottles of whiskey are sold at the present price of 12 shillings 6 pence than even in the days when it could be bought for 4 shillings 6 pence."

PRICE RECORDS MADE IN STOCKS

Level of Industrial and Railroad Issues Reaches New High for Several Years.

NEW YORK, Dec. 15 (AP)—The upward movement of stock prices today entered upon its seventh consecutive week, with the industrial average lifted to the highest level since 1919 and the railroad average at the highest figure in seven years. Fifty stocks smashed their previous 1924 high records with several issues scoring extreme gains of 6 to nearly 20 points.

The demand for stocks was based on a number of favorable trade and financial developments, including the publication of statistics showing a substantial increase in the favorable trade balance last month as compared with November, 1923; reports of expanding steel operations particularly in the Birmingham and Youngstown districts, and rising metal prices with copper and lead and zinc selling at their best prices of the year.

CHINA FARMER
BEARS BURDEN
OF WAR LORDS

New Atrocities "Practiced" on
Suffering Chinese Agricultur-
ists to Get Money for Fight-
ing Purposes.

PAOTINGFU, Chihli, China, Dec. 15 (AP)—That the Chinese farmer, already taxed to the limit of his ability to pay, is to be called upon to bear the burden of the present military expedition, is the conclusion forced upon anyone who analyzes the present situation in North China. Closed schools suggest that educational funds are being diverted; income from railroads is being seized, and even taxes for flood relief are being "borrowed" to swell the war coffers, but it is plain to be seen that the farmers, who constitute three-fourths of the population, will be made to provide the bulk of the necessary revenues.

No income tax, for example, has been devised by the warlords to compel private fortunes to contribute, and it is notable that the patriots of the private citizen does not prompt him to support the cause of the central government. The warlords are, therefore, driven to invention, and they invent one more atrocity.

Crops Ruined

As always, by the closing of markets, interruption of communications and pillaging by soldiers, the farmer is the sufferer. This year his crops have been ruined. He has been hoping for a little relief from the government, perhaps a job or a day's financial help from the flood relief authorities. But the taxes for the war, and the farmer, when he is least able to do so, is asked to support it as never before.

The warlord's first move was a gentle one. He proposed to buy crops, but for that he set his own figure which was about half the market price. As the crops came in slowly at this figure each county was asked through its officials to produce a certain amount. Military pressure on the official, official pressure on the farmer, and the trick was done.

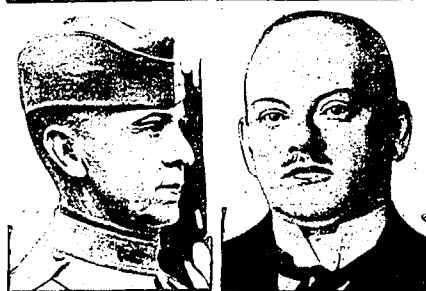

The warlord now calls thousands of them. There were multitudes to be hauled many miles over trainless country. He turned to the farmer. A telegram to the civil official and the official assessed the county according to its population, anywhere from 100 to 800 carts. The civil magistrate in turn assessed each village, according to size, one to six carts.

Man Power

But the carts were to have animals and the animals drivers. All this was in the military order, but no half price nor half wage was offered here. The carts, animals and carters were to be produced in any way that would not cause expense to the warlords. So each village held a meeting to decide how to meet the demands. A favorite method with the village elders was to offer a given sum for volunteers. The actual sum paid in some villages is known to have been \$200 to induce a "volunteer" to go to the front with a cart and two animals, and it was clearly understood that if cart, animals or driver failed to return the sum was summed no responsibility. The cost to each village of its cart outfits is usually shared proportionately by the villagers on the basis of acreage owned.

But the warlord still is in need. He wants servants at the front to carry his ammunition and other equipment, to hook his food and to load and unload trains, to bury the dead and to perform other menial labors. The number of coolies demanded was about equal to the number of carts. To the credit of the militarists it is said that counties badly hit by the floods have been partially exempted, but the total number of carts demanded from the

South American Newspapers Protest Unsportsmanlike Attitude of Citizens to Visitors.

BUENOS AIRES, Dec. 15 (AP)—Argentine and Uruguayan newspapers have been severely lecturing spectators at football games for their lack of sportsmanship in the treatment of visiting teams from other countries. Throwing bottles and stones at the opposing players, jeering them, calling them and their country names, were not the only offenses. In some cases, the spectators, they point out, and some editors in both countries favor the discontinuance of international contests on account of the ill-feeling they arouse.

The discussion was provoked by occurrences at recent games between the Uruguayan Olympic team and the Argentine eleven in Montevideo and Buenos Aires respectively. Stones are reported to have been thrown at the Argentine goal keeper in Montevideo, while in Buenos Aires the visiting Uruguayan fans walked off the field shortly before the end of the game, claiming the ill-treatment received by their players from the Argentine crowd was responsible for their failure to win. The Uruguayan representative was further aroused when the boat on which they returned was bombarded by bumps of coal when it left the pier.

RABBIT'S FUR

Government Bureau Protests
Misrepresentation of Pelts
Given New Names.

WASHINGTON, Dec. 12 (AP)—The fur-bearing animals the world over are steadily decreasing in number, but it will be possible to purchase some 30 varieties on the market, by name at least, as long as there are plenty of rabbits, hares and muskrats obtainable, according to officials of the federal biological survey here. The survey is undertaking a campaign against the misnaming of furs, the movement having started to protect the public against unscrupulous dealers.

Hares and rabbits, say the officials, are being sold under the names of American seal, Arctic seal, Cape seal, cut, chinilla, clipped seal, coney, ermine, fox, French sable, Geller seal, La Mouss seal, new seal, Baltic fox, Italian seal, muskrat, northern seal, Polar seal, Sannese seal and sable. Muskrat appears on the market, it is claimed, under such alluring titles as Alaskan seal, electric seal, Hudson bay seal, mole, real seal, Red river seal, river mink, river sable and Russian seal.

No fur is found with names that merely fail to call attention to the fact that a particular fur comes from the back of a cat, rabbit or hare, but objection is made, the officials explain, to fake names meant to deceive the buyer and to induce him to pay an unfairly high price.

SIoux FALLS, S. D., Dec. 15 (AP)—Redford Colantha Alewin, a Holstein dairy cow of the Yankton state hospital herd at Yankton, S. D., has established a South Dakota record for annual milk production and will far exceed the former mark in the nine days remaining in the present fiscal year, it was announced today.

The prize cow of the Yankton herd passed the 30,000 pound mark in milk production for the year, breaking the former milk production record in the state held by College Bell Wayne of the state college herd, who died recently. She is said to be producing approximately 70 pounds of milk a day.

EDEN INFANT BADLY
BURNED BY HOT WATER

EDEN, Dec. 5.—(Special to The News)—The infant child of Mr. and Mrs. Charles Featherstone received very severe burns to its left arm and side when it overturned a pan of hot water Saturday afternoon which the mother was preparing to use to give the little one a vapor bath. The child is just recovering from a light attack of pneumonia and a symptom of another cold developing the mother was arranging to give it the bath to hold the malady back. Mrs. Featherstone had secured the pan of hot water and had placed it on a small table near the child and turned to look after the fire in the kitchen range when the little one in some manner upset the pan of water upon itself, with the result that it received very serious burns about the left arm and entire left side. The mother immediately summoned help from some of the nearby neighbors. Dr. Berry was called from Hazelton and the child was placed under his care. Although the burns are very severe, the child has a good chance of recovering.

BANDIT SUSPECT UNDER ARREST

Los Angeles Authorities Take Chet Langer into Custody; Wanted for Eagle Robbery.

BOISE, Dec. 15 (AP)—Arrest of Chet Langer, one of the quartet accused of robbing the Bank of Eagle, August 11, who escaped from the Ada county jail October 16, with Oliver Jones, in Bakerfield, Cal., today was announced in a telegram received by the Allamogauha Ada county sheriff, this afternoon at 3:20 o'clock. Sheriff Allamogauha left at 5:30 o'clock this afternoon with a bench warrant issued by Duane E. Brink, judge of the third judicial district, to bring Langer back. The whereabouts of Langer was pointed out to the sheriff's office by a telegram received Saturday afternoon from Los Angeles, purporting to be signed by a brother of Langer. The telegram stated that Chet Langer would return to Boise and surrender himself if money for his fare back were sent to him. Sheriff Allamogauha, since receiving the telegram, visited all towns in the vicinity of Los Angeles to be on the lookout for Langer, sending his complete description.

BUREAU EMPLOYE GIVES TESTIMONY

Official of Veterans' Department Tells of Conditions Under Forbes.

CHICAGO, Dec. 15 (AP)—John B. Milliken, a subordinate official in the veterans' bureau under former Director Charles R. Forbes, testified today to "intolerable conditions" in the bureau at the time of his transfer to the Chicago board in September, 1922. Milliken was the government's witness for virtually all of today's session in the trial of Forbes and J. W. Thompson, building contractor jointly indicted for conspiracy to defraud the government through hospital contracts during Forbes' administration. He told in cross-examination, of personal difficulties in the bureau prior to his transfer to the shipping board which were "more serious than differences in opinion."

MOTHER DENIES SON KILLED HIS FATHER

(Continued from Page 1)

Mario Ayres, a young woman who gave her name as Hazel Brady of Bloomington, Ill., had returned from a cabaret party. They continued their merry making at home and the elder Shaws attempted to quiet them. Mrs. Shaw came upon the scene as her husband was drawing the blade of the knife, a relic of the world war which George had picked up on a French battlefield, from his chest. George and the young woman were taken into custody, the latter being released after being questioned.

TRIBUTE PAID WAR PRESIDENT WILSON

could be anything of "failure" in his great attempt as president.

"If there was failure, it was humanity's failure," he said. "I envisage him rather as a victor and a conqueror. To make him the one undaunted advocate of the world's hopes, the champion of a world collapse, is to visit upon him an injustice as cruel that it must perish of its own reason."

Traces Career.

With an apparent deliberate effort to refrain from forensic delivery, the speaker traced the career of Wilson from boyhood, through student days to his entrance into domestic and, finally, international politics.

The sustained interest of the audience was manifest throughout the 80 minutes of his discourse.

Mrs. Wilson, clad entirely in black, except for the relief of a white collar, occupied a front seat in the reserved gallery directly in front of the speaker's stand. She sat quietly, with hands folded and her eyes continually upon Mr. Alderman.

CONGREGATION PLEDGES ALLEGIANCE TO NATION

Impressive Ceremonial Marks Close of Mission Conducted by Rev. Father Joseph Boyle at St. Edward's.

St. Edward's church congregation, in connection with an impressive ceremonial that marked the close Sunday morning of a mission conducted during the week by Rev. Father Joseph Boyle, pledged allegiance and fidelity to the United States, the constitution and laws of the country. Patriotism as a duty and privilege was enjoined by Father Boyle in his closing address.

Father Boyle, who conducted a mission at Boise before coming here, left Monday morning for Ogden.

JEALOUS RAGE SHOOTING CAUSE

Prosecution in Kid McCoy Case Offers Evidence to Show Boxer Committed Mors Murder.

LOS ANGELES, Dec. 15 (AP)—With a recital of testimony surrounding the events in the Mors antique shop on the morning of August 13, the prosecution in the trial here today of Kid McCoy, ex-pugilist, charged with the murder of Mrs. Theresa Mors, sought to prove that the accused man killed Mrs. Mors in a jealous rage, plotted a death trap in the store for Albert A. Mors, the divorced husband, and intended to kill all those who had "interfered" in his love affair with the dead woman.

Testimony from Lewis S. Jones, the slain woman's attorney, declared that McCoy became enraged at her the evening previous to the day she was found with a bullet through her brain when she transacted in his presence, confidential business with the witness and V. C. Eaden, manager of the antique shop.

OREGON MAN MUST HANG

VALE, Ore., Dec. 15 (AP)—Archie Cady was sentenced in circuit court today to die on the gallows February 20, after conviction of murder in the first degree for the killing of Sheriff Angus Goodman of Harney county, at Folly farm, August 28. No notice of appeal had been filed today.

ported into a special train of four or five coaches to complete the journey to Washington. The executive council members expected at Cincinnati were: David J. Tobin, Indianapolis; Jacob Fisher, Indianapolis; James Wilson, Cincinnati; Thomas Rickert, Chicago; Frank Duffey and William Green, Indianapolis.

Word was received on the train that the governor of Ohio and city officials were to be at Cincinnati to meet the funeral train. The train arrived at Vincennes almost 40 minutes late but during the six minute stop more than 350 persons from all walks of life filed past the bier.

FUNERAL THURSDAY

NEW YORK, Dec. 15 (AP)—Hugh Frayne, in charge of arrangements here for the funeral of Samuel Gompers, said his previous announcement that the ceremony would be held Thursday at Sleepy Hollow cemetery, Tarrytown, New York, was "official and final."

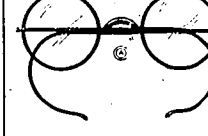

Mr. Frayne said the plan had been approved over the long distance telephone by Frank Morrison, secretary, American Federation of Labor, and that reports that the funeral would be held Wednesday were incorrect.

PRINTER LOSES CLAIM TO PAPER

Court Decides Against H. J. Kingsbury and in Favor of Independent Publishing Co.

Litigation involving claim to ownership of the Independent, a weekly newspaper published here, was Monday decided by Judge W. A. Babcock in district court here against H. J. Kingsbury, printer, and in favor of the Independent Publishing company. Judge Babcock directed that a temporary injunction previously issued by Judge T. Bailey Lee be made permanent to restrain Kingsbury from publication of a paper under the name of the Independent in this county. Subsequent to the institution of the suit the newspaper was sold by the company to Lindsay brothers of Mountain Home, who have continued its publication.

Kingsbury claimed that he had started publication of the paper in August of last year and that during the following October he entered into an agreement with O. J. Johnson, Albert Estling, E. P. Knappe and M. S. Hoover, as representatives of a Boosters' club, whereunder they were to advance funds for continuing the publication. This agreement, which was introduced in evidence, contained the provision to the effect that the name and subscription list should remain the property of the Boosters' club, whose representatives in this transaction subsequently assigned their interests to the Independent Publishing company. Kingsbury testified that he had not read or understood this provision in evidence and he introduced in evidence affidavits of E. H. Maher, C. E. Lind, Dr. R. A. Parrott and Roscoe Stevens to the effect that they had participated in the meeting at which the agreement was entered into and that the persons who offered assistance to Kingsbury under its provisions specifically disclaimed purpose to acquire ownership and attendant responsibility in the publication but sought only to dictate its policies.

Other Affidavits

Other affidavits were submitted on the part of the publishing company to show that the signers had contributed to the publication with the understanding that it was owned by the Boosters' club and not by Kingsbury. Signers of these affidavits were H. H. Hannan, Nola R. Starr, J. C. Sanger, E. A. Moon, D. F. Detweiler and J. E. DeWitt.

Articles of incorporation of the publishing company were filed here last January showing Kingsbury, C. H. Hempleman and Frank L. Cogswell as incorporation, each subscribing to one of 500 shares of stock of the par value of \$5 each with which the concern was incorporated. It was provided that there should be 15 directors. Interests of the Boosters' club were assigned to the company in May and the suit against Kingsbury was instituted last June, an undertaking for \$2000 furnished by J. E. Roberts, A. Estling and D. P. Detweiler being received by one bearing the names of Estling and E. A. Moon, when counsel for Kingsbury raised a question as to the sufficiency of the security for the original undertaking.

Trial in the action was begun last month before a jury in district court here. It was determined that only the legal question of interpretation of the agreement was involved.

LOS ANGELES SCHOOL ADDS EVANS TO STAFF

Former Twin Falls Athletic Mentor to Play Major Part in Putting Out Manual Arts Squad.

(Clinton W. Evans, Twin Falls high school coach and physical director for several years, has been added to the staff of Manual Arts high school, Los Angeles, according to word received here, and slated to do the "telling how" to next year's football team, replacing Sid Estling, grid coach, who has been relegated to the background following a football season that is described as having been "rather disastrous" for the school.

Evans has been added to the staff to work with Mottis Blair, in coaching the school's major athletic squads and will combine his strategy with that of Blair in coaching the track team, while assuming sole responsibility for the football squad.

Track practice at the school is to begin immediately after the Christmas holidays and prospects are said to be "bright for another state championship team."

KIWANIS CLUB TO PROVIDE GIFTS FOR SCHOOL INMATES

Kiwanis club members will provide Christmas gifts for boys and girls from this county at the state industrial training school at St. Anthony, in accordance with decision recorded at a regular meeting of the club Monday at the Rogerson hotel. Twin Falls county's delegation a the St. Anthony school was similarly remembered last Christmas by the local Kiwanis club.

CONFECTIONER ELEGTS TO SERVE OUT FINE IN JAIL

Peter Georgopolis, 55, confectioner, because of his refusal to pay a fine assessed when he was convicted last week on charges preferred by a deputy state sanitary inspector, is serving out the fine in jail at the rate of \$2 for each day he stays in custody. His place of business at 130 Shoshone street west, has been closed since his arrest.

GRAVEYARD RAUD SCHEME

LOS ANGELES, Dec. 15 (AP)—John R. Osborne and C. C. Fitzpatrick used the Osborne-Fitzpatrick finance corporation to dig between 25,000,000 and 35,000,000 fraudulent profits out of a graveyard promotion scheme, according to the federal indictment on which they were arrested here today, charged with using the mails to defraud.

SOCIETY AND CLUBS

Edited by MRS. E. B. WILLIAMS Phone 598

Mrs. Conrad Smith was hostess to the Mountain View club December 5, with nine members and one visitor present. Mrs. Mulvihill was a guest of the day. The usual business meeting was held, the club voting to buy and dress a doll for the club orphan for Christmas. Owing to sickness the club supper held December 10 was not well attended. Mrs. G. B. Ballard will entertain the club December 17 at her home, 803 East Main.

Mrs. P. W. McRoberts, Mrs. Florence R. Dow and Mrs. John Harvey entertained the Star Social club Monday afternoon at the McRoberts home on Blue Lakes boulevard. The usual business was transacted with Mrs. F. W. Dumke, the president, in the chair. The remainder of the afternoon was spent with Christmas needlework and conversation. Dainty refreshments were served to about 25 members.

Mr. and Mrs. Robert Lee Hunt entertained at their home Sunday evening for Mrs. J. E. H. Stevens, wife of Dr. Sieverson of Butte, Mont., and Miss Mary O'Neal of the same city.

Mr. and Mrs. Burton E. Morse entertained the Zen Zin club Sunday evening at their home 1014 South avenue north. Mr. Morse, who is a former student of the University of Illinois, gave an exceptionally fine talk on the history of the university and the new stadium which has recently been completed. An instructive as well as entertaining talk on parliamentary law and etiquette was given by Mrs. Morse. Refreshments were served late in the evening.

A very delightful dancing party was given at the Elks club last evening when the members of the organization featured a new year dance, the ladies doing the honors and showing the men just how they should conduct themselves. Punch and cakes were served throughout the evening and music was furnished by the Blue Bird orchestra.

NAMPA VOTES AGAINST GRANTING PERMISSION FOR FIVE POOL HALLS

NAMPA, Dec. 15 (AP)—This city will without pool halls after January 1, if the action taken this afternoon by the city council is not voided in the interim by court action.

By a vote of 4 to 3 the council denied five applications for permits to operate pool halls. Councilmen Davidson, Egbert, Hostetter and Burkholder voted against issuing permits, while Woodruff and Kuehn voted to allow the pool halls to continue.

Some weeks ago Brennan and Brown, newcomers to this city, sought a permit to operate their billiard and pocket billiard tables after they had spent about \$4000 in installing their equipment. This was denied by the council, which refused to reconsider the matter, holding that Nampa is adequately supplied with pool rooms at present.

STATE SENATOR RESIGNS

BOISE, Dec. 15 (AP)—A. V. Tallman, senator-elect from Ada county, wired his resignation to Governor C. G. Moore today, from Miami, Fla., where he went December 6. Ill health was given as his reason. His telegram said: "Regret exceedingly that my physical condition and the medical care that I will require in the next three months will necessitate my resignation as senator for Ada county in the coming session of the state legislature. I therefore tender my resignation to take effect at once. Regret this course is necessary, but have no alternative."

volume of profit taking toward the close. Net gains in the active issues ran from 1 to 1 1/2 points.

Rebuke of the volume rates, reflecting the easing of the strain which preparations for today's billion dollar turnover had exerted upon the money market; higher zinc, lead and copper prices, reports of further expansion in steel operations and the publication of statistics on November trade showing another strong balance in favor of the United States. Steel were all factors in the day's movement.

SUGAR.—NEW YORK, Dec. 15 (AP)—A decline of 1-16 to the levels of 4-100 for Cuban duty paid, occurred in the raw sugar market today, owing to increased offerings. Sales included 10,000 bags Cuban early January clearance at 4.90; 20,000 bags for December 24 clearance at 4.90, and 20,000 bags Porto Rican second half January clearance at 4.65.

Raw sugar futures were weak with active positions selling at new low records for the season. The decline was renewed liquidation and hedging selling prompted by favorable weather in Cuba and increasing new crop supplies. Closing prices were near the lowest and 7 to 25 points below last week's finale, near positions showing the maximum loss. December closed 3.59, March 2.85, May 2.95, July 3.06.

Refined sugar was easier and unchanged to 20 points lower, although futures still ranged from 7.15 to 7.50 for fine granulated.

STANDARDIZING FOR HOSPITAL GIVEN AIRING

Opposition Voiced by Osteopath
at Meeting of Physicians and
County Board Causes General
Discussion of Subject.

Opposition to proposed adoption of
standardization for the Twin Falls
county general hospital, expressed by
Dr. Emma C. Crossland, osteopath, at a
meeting Monday evening of members of
the South Side Medical association with
the board of county commissioners at
the commissioners' office in the court
house here, resulted in general discus-
sion of the merits of standardization
policy.

Carlson Raises Barrier.
Objection that legal notice of the
meeting had not been given was raised
by Commissioner J. D. Carlson, Twin
Falls, to prevent action at this time
with regard to the proposal. Mr. Carl-
son declared his opposition to the stan-
dardization policy and predicted that if
it were adopted the board would be re-
quired to defend it in the court. Com-
missioner J. D. Barthard, chairman of
the board, who with Commissioner T. D.
Connor of Filer, apparently favored the
standardization proposal, announced
that further consideration would be
given the proposition at a subse-
quent special meeting of the commis-
sioners.

Dr. D. L. Alexander, Dr. J. F. Coughlin
and other members of the associa-
tion, urged upon the commissioners the
adoption of a minimum standardization
policy. Dr. Crossland, osteopath, op-
posed the standardization proposal on
the grounds that it was discrimina-
tory and would prevent use of the hos-
pital by practitioners other than those
whose qualifications measured up to
standards that would be set by a staff
of physicians. Under standardization
would have charge of hospital ad-
ministration, subject to the direction
of the county commissioners.

Members of the medical association,
in reply, stated that records of the hos-
pital would show that fewer than one
hundred patients of osteopathic or chiropractic
practitioners had sought admittance to
the hospital since its establishment
some eight years ago.

Tell Benefits of Policy.
In support of the standardization
plan, members of the medical associa-
tion stated that it would work to the
advantage and protection of patients;
that no operations would be performed
until after numerous tests had been
made to establish the diagnosis in each
case; that complete records of each case
would be required, and that these re-
cords would be reviewed at monthly
meetings of the hospital staff and sur-
geons who had operated in cases where
records showed there was no occasion
for operation would be called upon to
explain.

Commissioner Carlson argued that
standardization would involve increased
expense of hospital operation. In reply,
members of the association asserted
that under standardization the hospital
would be qualified to conduct a train-
ing school for nurses and pointed to
relatively low salaries paid student
nurses who, they declared, were cap-
able of relieving graduate nurses of
some of the duties they are now called
upon to perform.

Denies Doctor's Rights.
Dr. Crossland denied the right of the
commissioners to adopt standardization
policy for the hospital on the grounds
that it is a public institution and sup-
ported by taxpayers generally. She
stated that the issue had been raised
in Los Angeles county and that the
courts had held that patients of any
practitioner licensed by the state must
be admitted to the county hospital.

In the course of the discussion Prose-
cuting Attorney J. W. Taylor was called
in to the meeting to advise as to legal
questions raised but he declined to give
an off-hand opinion.
Members of the medical association
who attended the meeting included Dr.

RE-ELECTED DIRECTORS TAKE OFFICIAL OATHS

J. H. Barker, Buhl, and H. K. Wylie,
Springfield, Return to American
Falls District Board.

Certificates of election were issued
Monday to J. H. Barker, Buhl, and H. K.
Wylie, Springfield, who, at an election
last Tuesday, were re-elected di-
rectors of the American Falls reservoir
district. The certificates were issued
after the district's directors at a meet-
ing here, canvassed the vote cast at
the election, and the oath of office was
administered by Judge O. P. Duvall in
probate court here.

The canvass showed that a total of
only 75 votes were cast in the elec-
tion, the successful candidates being
without opposition. Polling places
were provided in seven precincts, the
greatest number of votes, 20, being cast
at Buhl, and the smallest number, 9,
being polled at Bliss.

WOMAN'S NAME GIVEN TO PARK

Council Reconsiders Action
When Story of Mrs. Frances
Drury's Work Is Told.

The name of the late Mrs. Frances
Drury was given by Twin Falls munic-
ipal commissioners at a regular meet-
ing Monday evening to a park situated
on Washington street between Third
and Fourth avenues west, which sev-
eral years ago was accepted by the city
as a park site.

The name of Frances Drury was given
to the park at the request of a num-
ber of petitioners including wives of
the municipal commissioners and
Dr. W. H. Dwight, commissioner of
parks, who at this meeting presented a
petition asking for reconsideration of
the committee's action at a recent
meeting in giving to the park the name
of Dr. Dwight.

The story of Mrs. Drury's part in
the establishment of the park that now
bears her name came out in connection
with the presentation of the petition.
One of the first residents of the dis-
trict in which the park is situated and
owner of the first residence built in
that vicinity, Mrs. Drury suggested to
her daughter, Mrs. Charles Stevens,
that the space which then was a dump-
ing ground, should be cleared off and
improved as a park. Support of
the idea in which the children in the nei-
ghborhood was enlisted in the undertak-
ing and contributions were made to a
fund that was used for purchase of two
lots that were included in the park
site. Mrs. Drury herself took an ac-
tive part in the work and during her
last years assisted in caring for trees
that had been set out on the site.

Oregon Trail between pavement west of
Filer and gravel road east of Buhl.

Gravel on this road was laid on a
rock foundation for which many tons
of rock were used.
Completion of this work, with the
completion of grade and gravel work to
bridge a gap of about 24 miles on the
highway between pavement at Hansen
and gravel road west of Burley, pro-
vides a surfaced road on the Old
Oregon Trail between Granger, Wyo-
ming, and Portland, highway depart-
ment officials stated Monday.

IN LINE FOR OLD DEGREE

Odd Fellows Here Prepare to Confer
Unusual Honor Upon Applicants to
Swell Grand Lodge Funds.

The ancient degree of Odd Fellow-
ship is to be conferred in Twin Falls on
New Year's eve upon a large class of
candidates under plans with which
members of the order here are making
rapid headway, according to announce-
ment Monday by S. G. McAuley, a
member of the committee in charge of
arrangements for entertainment of Odd
Fellows grand lodge to convene here
next fall.

Any person upon whom the initiatory
degree of Odd Fellowship has been con-
ferred is eligible for the ancient de-
gree, it was stated. The ceremonial
to be followed by a dance and
luncheon in connection with the affair,
reception of which are to go to the fund
that is being raised for the entertain-
ment of the grand lodge.

YOUTHFUL CHECK WRITER FACES FELONY CHARGE

Edward Redford, in Jail for Issuing
Draft Without Funds, Accused of
Using Fictitious Name to Defraud.

Edward Redford, 19, who is serving
a 30-day term in jail here for issue-
ance of a check without funds, in a
felony complaint filed in probate court
Monday by the prosecuting attorney's
office, is accused of signing the name
of a fictitious person to a check for
\$7.40 that was passed at the Lind Auto
company October 29, last.

The check on which the charges are
based was signed with the name of S. L.
Connor and made payable to J. L.
Derece, with which name it was en-
dorsed, it is alleged, by Redford.
