NOAH ARNOLD  
HANGS TODAY  
FOR SLAYING

Negro Mounts Scaffold This Morning and Pays With His Life for the Murder of Hope, Idaho, Merchant.

BOISE, Dec. 18 (AP)—Noah Arnold, colored convict, sentenced to death by Judge W. F. McNaughton, for the killing of W. A. Crisp, grocer, at Hope, Idaho, in July, 1923, was hanged at the state penitentiary here at 12:20 o'clock Friday morning. He died nine minutes later.

Arnold was calm all during the day and five minutes before the execution took place smiled and produced a few chuckles. His last words were "I am not guilty of the murder of W. A. Crisp, but I am willing to pay the penalty." However, according to the guard of the death cell earlier in the day, Arnold said that he had committed five murders during his life.

## Second Experience.

When the rope was adjusted to Arnold's neck it was not the first time he had had such an experience. Shortly after his arrest a mob took him from the Bonner county sheriff and, after carrying him far out into the country, hanged him to a tree and wrung from him the details of the crime. Then they cut him down.

Arnold's case has been through all Idaho courts. While his case was not considered by the pardon board, he did file a petition with Governor C. C. Moore asking for a reprieve which would give him a stay of execution and time in which to apply for a pardon. The governor, however, has taken no action on the reprieve and the court's judgment, therefore, will be carried out.

## Two Robbed Store.

The murder for which Arnold will hang was committed by him in company with one Mike Donnelly, now serving a life sentence in the state prison for the same crime, when the two attempted to rob William Crisp. They entered Crisp's store at Hope, together, and Arnold, (alias Robert Ford), told Crisp, an aged man, to hold up his hands, pointing a gun at him. Crisp didn't put his hands up enough to suit Arnold and the murderer, cursed and said: "put up your hands or I will hurt you."

Arnold then took Crisp's watch, but the storekeeper grabbed for it, calling to one James Campbell to grab Arnold. Crisp struggled with Arnold who shot him in the abdomen.

After his capture the negro was charged by Allen F. Asher, present-

NEGRO LYNCHED  
BY MOB OF 200

Swift Punishment Dealt Out for Man Charged With Attack on White Girl in Missouri.

CHARLESTON, Missouri, Dec. 18 (AP)—A mob of more than 200 men overpowered Sheriff B. B. Jackson in his office here tonight and dragged Roosevelt Grigsby, 20 year old negro, who had been identified as the man who attempted to attack a white girl two hours previously, across the court yard and hanged him to a tree within 50 feet of the sheriff's office.

A bullet was fired through the body which then was cut loose from the tree, tied to an automobile and dragged through the streets of the negro section followed by the howling mob, some members of which were brandishing guns. The body eventually was hanged in front of a grocery store.

Before the mob departed, however, the body was set down, a huge bonfire was started and the body soon was charred embers.

No one attempted to interfere with the lynching and the mob dispersed within an hour without fresh outbreaks. At 10 o'clock the situation was quiet.

NEBRASKA MAN GETS  
PRAISE FOR STAND

OMAHA, Dec. 18 (AP)—Dr. A. S. Plato, Omaha health commissioner, has been showered with letters of both praise and condemnation since he announced his proposal that "the marriage licenses of couples having no children after two years should be revoked." Some letters, generally received from mothers, writers and doctors, characterized the suggestion as "absurd," while others are bitter in their denunciation of Dr. Plato.

## HAILEY WEATHER IS COLO

HAILEY, Dec. 18.—(Special to The News)—Wood River valley is suffering from the coldest weather in several years. Thursday morning the Hailey government thermometer stood at its lowest point at 21 below, at Gunnott the reading was 25 below, at Ketchum 36 below and at Obisidian 42 below.

## WANTS \$50,000 APPROPRIATION.

WASHINGTON, Dec. 18 (AP)—An appropriation of \$50,000 to pay the expenses of the newly appointed agricultural commission was requested of congress by President Coolidge today.

TESTIMONY OF

Veteran's Bureau Employee  
Contraverts Mortimer's Tale of Forbe's Action.

CHICAGO, Dec. 18 (AP)—Elias H. Mortimer's twice told tale of a \$50,000 cash payment to Charles R. Forbe, director of the veterans' bureau, in the Drake hotel, Chicago, on June 20, 1922, was controverted in every detail today by Miss Edna Broese, a stenographer in the veterans' bureau office at New York, called as a witness for the defense in the Forbe-Thompson conspiracy trial.

## Keystone of Prosecution.

The alleged payment was the key stone of the government's case against Forbe and J. W. Thompson, wealthy Chicago and St. Louis contractor, on trial for conspiracy to defraud the government through hospital contracts. Mortimer testified for the prosecution last week he gave the amount to Forbe in the Drake suite about 4:30 o'clock in the afternoon of June 20, half an hour after he had received \$10,000 from Thompson in the same room.

CAPITAL TAKES  
STEPS TO STOP  
JAP WAR SCARE

Secretary Hughes and Congress Combine to Show Japan America's Cordial Feeling Toward Nation.

WASHINGTON, Dec. 18 (AP)—Decisive measures to insure the country against the scare of an American-Japanese estrangement were taken today both by the administration and in congress.

In a formal statement which broke beyond the bounds of ordinary diplomatic courtesy, Secretary Hughes welcomed the appointment of a new Japanese ambassador to Washington and predicted an era of "the most cordial relations" between the two countries.

Almost at the same time the house was another in quick order a resolution designed to build up an anti-Japanese alignment among the white nations bordering the Pacific. The proposal was befriended only by its author, Representative Britton, republican, Illinois, and found among its most earnest opponents house leaders who live on the Pacific coast.

## No Threat of Trouble.

Underlying these developments there was revealed a studied conviction among highest officials here that there is no threat of trouble between Washington and Tokyo unless by popular agitation imagined dangers are magnified into real misunderstandings.

President Coolidge and those who share with him responsibility for foreign relations of the nation, look upon their contemporaries in places of power across the Pacific as candid exponents of international friendship. It is the belief of the administration that Japan is performing faithfully her obligations under the arms treaty and the Washington agreement relating to the far east; that her government is trying earnestly to keep pace with the new order of international relationship; and that her responsible leaders want nothing but amicable relations with the United States.

CRAZED NEGRO KILLED  
BY DETECTIVE SQUAD

OMAHA, Dec. 18 (AP)—Sought on a serious statutory charge as a result of his alleged assault on a negroess, Frank Myler, a negro, barricaded himself in his small frame shack, shot and seriously wounded Chief of Detectives Ben Danbaum and slightly wounded Detective Tom Ryan and then was killed after being riddled with shotgun and rifle bullets from guns of police who surrounded the house.

So effective was the work of the police and the fire department which set the shack on fire, that not one demonstration was noticed, despite the fact that the scene occurred in the thickly populated negro district.

Danbaum fell, shot several times about the head and face when he was leading a squad of reinforcements to capture the crazed negro. He was rushed to a local hospital where his condition was pronounced as serious. Detective Ryan was hit by a glancing shot when he ran to his fallen chief's side.

JURY FIXED IS  
STATE CHARGE

Sensation in Kid McCoy Trial  
Comes With Prosecution Assertion; Dropped Later.

LOS ANGELES, Dec. 18 (AP)—Charges made today that the jury hearing the evidence at the trial of Kid McCoy, ex-pugilist, charged with the murder of Mrs. Theresa W. Mora, had been tampered with were apparently quashed here tonight.

The charges, brought by the prosecution temporarily disrupted the trial, but at the time of adjournment attorneys for both sides declared "their backs were turned on the affair," and Judge C. S. Crail refused to make any statement.

## Court's Admission.

The admission given the jurors by the court before they retired, however, bore a marked difference to those of previous occasions. The jurors were told "to refrain from discussing the trial in any manner whatever with any one and to ignore the headlines of newspapers."

ENTIRE NORTHWEST HELD  
IN GRIP OF BITTER COLD  
WEATHER; MAILS DELAYED

Icy Blasts Sweep Eastward; Communication Cut Off From Various Cities; Midwest Suffering From Zero Temperatures; Little Relief in Sight for Rocky Mountain Region.

CHICAGO, Dec. 18 (AP)—Bitter cold still held sway tonight in the northwest and Rocky mountain region while the icy blasts swept eastward with indications that tomorrow would find the entire middle west in the grip of near-zero weather.

The storms early tonight began to seriously impair wire communications in the southwest and middle west, while the to-bogganning thermometer came on and other points in the northwest and south were completely cut off from the outside world by wire. The Associated Press in the emergency was forced to try to transmit its report to the newspapers in these and other cities in the storm area by radio.

Two Carey Children  
Lose Lives in Fire

Charred Remains of Small Boy and Girl Found in Ruins of Log House Thursday.

CAREY, Idaho, Dec. 18.—(Special to The News)—Wednesday evening the two small children of Wren Childster were burned to death when the Childster home burned to the ground. The mother and older child were at a parent-teachers' meeting and the little boy, aged four, and a girl aged two, were put to bed. It is supposed that an overheated stove set the house on fire. When about 9 o'clock the alarm was given, it was too late to save the children. The house, a log one, was one of the first built in the Carey settlement. It burned to the ground, and Thursday morning the charred remains of the children were recovered. The father, Wren Childster, has been away from home at work at the Bypass canal.

## Mails Held Up.

In the southwest, Missouri, Kansas and Oklahoma suffered the brunt of a storm of sleet and snow while heavy Christmas mailings everywhere were being delayed. At Columbia, Mo., heavy property damage was reported when the roofs of business buildings saved under a load of ice and snow.

## The Day in Washington

Leigh C. Palmer, president of the emergency fleet corporation, testified before the house shipping board investigating committee.

The department of agriculture estimated winter wheat was sown this fall on 42,317,000 acres, 6.5 per cent more than in the fall of 1923.

Representative Britton, republican, Illinois, proposed a conference of white nations bordering the Pacific over the protest of Pacific coast members.

Letters urging support of Representative Madden of Illinois for the house speakership were sent out and the New Jersey delegation put forward Representative Lehigh for republican leader.

The department of justice began an investigation into charges that an employee of a senate committee accepted money to use his influence for legislation.

ROME, Dec. 18 (AP)—The Italian government is sending two warships to Albanian waters immediately in view of possible complications arising out of the recent troubles there.

It is semi-officially announced that a report current alleging that agreements have been entered into between Italy and Yugoslavia affecting the independence of Albania is without foundation.

## DISCUSS FARM RELIEF.

WASHINGTON, Dec. 18 (AP)—The part that co-operative marketing can take in bringing about permanent agricultural relief was discussed today by President Coolidge with Robert W. Bingham, publisher of the Louisville Courier-Journal, and chairman of the National Council of Co-operative Marketing association.

## Rain and Snow.

Early tonight Illinois was swept by a cold rain, half snow, half sleet, and as a result Springfield, Bloomington and Jacksonville were completely cut off from the outside world by wire. The Associated Press in the emergency was forced to try to transmit its report to the newspapers in these and other cities in the storm area by radio.

Passengers arriving from St. Louis and other points in the southwest reported that poles and wires were down for miles and said it might be weeks before communication to this region was back to normal. Telegraph and trolley wires from Peoria to Bloomington and Jacksonville were down in some places and it is reported that trolley service between these cities was abandoned.

# DAIRY INDUSTRY SEEKS BILL FOR ITS PROTECTION

Legislation Wanted by Idaho  
Industry to Prevent Unfair  
Competition From Bogus  
Butter Sold.

BOISE, Dec. 18 (CP)—Legislation to protect the dairy industry of Idaho from unfair competition by the manufacturers of "bogus butter" made from coconut and peanut oils, churned in a weak solution of skimmed milk and sold as a substitute for butter will be introduced by the dairy interests of Idaho when the next legislature meets. A meeting to formulate legislation for this purpose was held in the basement of the state house Monday, December 15, with a fair attendance of committee members appointed by the Idaho State Dairyman's association; the Weiser Valley Dairyman's association, and the Ada County Pomona Grange.

Mark Means, commissioner of agriculture, was invited to meet with the committee and did so. The meeting was informed and the subject was discussed by nearly all present, after which a committee of six was appointed to secure legal advice, consult together on the best form of a bill to be introduced, consult with Governor Moore, who was out of town Monday, and report to the general committee at Payette on Monday, December 22. The committee appointed for this purpose is composed of R. T. Davis, of Weiser, president of the Idaho State Dairyman's association and the Weiser Valley Dairyman's association; W. H. Johnson of New Plymouth, president of the Idaho State Jersey Breeders' club; S. H. Grandall of Meridian, of the Co-operative Creamery company; Dr. W. A. Sullivan of Boise, federal director of animal industry for Idaho; T. A. Allen of Meridian, master of Ada County Pomona Grange; and W. H. Mitchell of Boise, manager of the Boise Co-operative creamery.

A committee on finance, composed of A. J. Flack of the Boise Co-operative creamery; J. R. Brown of the Caldwell Co-operative creamery, and W. H. Wagner of the Farmers' Co-operative creamery company of Payette, was appointed to raise money to carry on the campaign.

One Like Oregon's  
The trend of the discussion seemed to favor a bill similar to that passed by the Washington and Oregon legislatures, prohibiting the manufacture and sale within the state, of butter substitutes containing dairy products and vegetable oils. Some of those present believed that a license, with heavy tax would answer the same purpose but the law prohibiting the manufacture and sale would be more simple and as it has been passed upon and found to be constitutional in Washington and Oregon it was thought by many of those present to be preferable.

The committee appointed for this purpose will discuss the various bills suggested and after consulting with legal authorities and with Governor Moore will decide what kind of a bill to prepare and present to the legislature. It was agreed that the work should be done before the legislature meets and have the bill ready for presentation and passage early in the session.

All Behind Bill  
It was stated by R. T. Davis, chairman, who is president of the State and Weiser Valley dairy associations, that

## GOODING SCHOOL TO CLOSE TODAY FOR 2 WEEKS OF VACATION

GOODING, Dec. 18—Gooding College will close Friday, December 19, for two weeks' holiday and a program consisting of addresses by Dr. W. W. Van Dusen of Boise, a basketball game with the American Legion boys of Gooding, an informal reception, a literary and musical program, Christmas carols and refreshments.

Dr. Van Dusen will first give a lecture on student life at the regular chapel exercises Friday morning at 10. The basketball game will be played in the gymnasium and each Gooding College student will be armed with purple and white balloons, as their color decoration.

At the close of the game all will adjourn to the college chapel for the rest of the program, after which the students and teachers will depart for their respective homes.

practically every agricultural association in Idaho, including the dairy breeders' associations, local and state dairy associations; the state, local and Pomona granges, farm bureaus, farm unions; and others, have passed resolutions demanding such legislation to protect Idaho dairy interests from unfair competition that threatens to do irreparable injury to the dairy industry of the state and nation.

Facts brought out at the meeting showed that while only 8,000,000 pounds of butter was imported into the United States from foreign countries in 1923, there were 300,000,000 pounds of oleomargarine and other butter substitutes manufactured and sold in the United States last year and that this is enough to supply 12,777,160 persons, or one-fifth of 11 per cent of the population, and displaces the product of more than 1,250,000 cows. And it was there shown by government reports that the consumption of these substitutes for butter has increased at an alarming rate, and that during the first three months of 1924 the production of butter substitutes in the United States was 10,724,925 pounds greater than in the same three months of 1923.

Those who attended the meeting held in Boise Monday were R. T. Davis, Weiser; Olova Schuler, dairyman and Holstein breeder, New Plymouth; C. A. Olmanson, dairy man, Meridian, committeeman from the Ada County Pomona Grange; H. R. Boone, Holstein breeder, Payette; W. R. Wagner, manager Co-operative creamery, Payette; W. P. Johnson, dairyman and Jersey breeder, New Plymouth; H. A. Mathieson, Boise; D. L. Fourn, field dairyman, university extension service, Boise; Mark Means, commissioner of agriculture, Boise; H. R. Boone, Holstein breeder; A. J. Flack, Boise; T. A. Allen, Meridian; W. P. Mitchell, Boise and J. E. Neasly, field representative Idaho Farmer, Boise, who was appointed publicity agent for the association and requested to furnish reports of the meeting to the papers of Idaho, which will be asked to support the measure advocated by the association, as a protection to Idaho's dairy industry.

# NATIVES FOLLOW KORAN GUIDANCE

Little Home Life Among Moros  
Who Are Permitted Four  
Wives Each, Says Visitor.

LOS ANGELES, Dec. 18 (CP)—The absence of civilization in the southern provinces of the Philippine Islands is attributed to the lack of home life and the practice of polygamy among the native Moros, said Mrs. Carl M. Moore, wife of the governor of the southern islands of the Philippines and herself a Philippine. She is visiting in Los Angeles.

"There can be no home life where there is a harem," Mrs. Moore explained. "The lack of home life in the southern islands, about 1500 small islands, totaling not over 1100 square miles, is due to the influence of the

Mohammedan religion. Every man living there under Mohammedan rule not only avails himself of the Koran's granted right to four wives, but he also takes advantage of the modern privilege of divorce. Like a poker player he is continually throwing one wife into the discard and picking a fresh one from the deck, providing himself in this manner with a continual succession of young beauties for his harem.

"Some of the marriage customs of the land-dwelling natives are quaint. A bride seldom attends her own wedding. She is arrayed in her wedding garments, frequently of gaily-colored materials with a veil, many beads and garlands, and then locked in a tomb-like room, where she is guarded by some male relative. The imam, Mohammedan priest, recites a long ceremony over the head of the groom. The bride pair may then exchange long distance greetings through a barred window, but not until after repeated ceremonies, continuing through several days and nights, are they pronounced married sufficiently to set up an establishment of their own.

"When a woman marries, the bridegroom or his family gives her a dowry. If she runs away from her husband and it is proved that he treated her cruelly, she keeps the dowry, whether lands, cattle or money. But if she is unfaithful and runs away with another man, she must return not only the dowry, but twice the amount. These are very few unfaithful wives."

## BAN JOHNSON NOT TO RESIGN

**American League President to Stick to Post Despite Action of Club Owners.**

CHICAGO, Dec. 18 (AP)—Ban Johnson, president of the American league, is not likely to resign despite the startling manner in which the club owners of his own organization rebuked him at a meeting here yesterday for his attitude toward Commissioner Landis and deprived him of much of the power he has exercised in organized baseball for more than 20 years.

The American league executive remained in seclusion today, making it impossible to obtain a statement from him, but the remarks of Clark Griffith, president of the Washington club; Thomas S. Shibe, president of the Philadelphia club; Colonel Jacob Ruppert of the New York Americans, and Connie Mack, manager of the Athletics, were sufficient to convey the impression that they were still with their league chief and do not want him to resign.

ing attorney, with first degree murder by Arnold, had no money. W. P. McNaughton, judge for the eighth judicial district, appointed A. T. Aronson to defend him.

**Advised to Plead Guilty.**

In an affidavit Arnold says he was advised by Aronson to enter a plea of guilty because public sentiment was so strongly against him that if he entered a plea of not guilty and stood trial he would be more than likely to suffer the death penalty, but on the other hand if he should enter a plea of guilty the judge would be without authority to impose the death penalty.

He also said that when he entered his plea of guilty he did so because he believed the statements he made to the mob that attempted to hang him would be used against him if he entered a plea of not guilty and stood trial.

**BELOW ZERO AT BOISE**

SALT LAKE CITY, Dec. 18 (AP)—Subzero temperature prevailed today over the greater part of Utah and southern Idaho. There was little wind and most towns reported the weather clear.

At Idaho Falls the thermometer registered 24 degrees below zero; at Boise, 26 below; at Porterville, 6 below; at Ogden, 14 below, 3 below, and in Salt Lake six above and getting colder.

Oregon Short Line trains reported behind schedule into Ogden from Idaho points.

\*Cold weather of yesterday and today is in contrast with exceptionally mild temperatures of a few days ago.

**WYOMING IS HIT.**

CASPER, Dec. 18 (AP)—Wood from boxes and even waste paper furnished an auxiliary fuel supply in the Salt Creek oil field today following a gas shortage resulting from 30 below weather, which prevented the delivery of gas in shallow laid lines. School was dismissed at Midwest, the oil field town with a population of some 1500. Lavoie also suffered from the shortage.

# GERMANS FAIL IN EFFORT TO PICK CABINET

**Parliamentary Situation Is in State of Hopeless Chaos as Result of Attempts to Obtain Ministry.**

BERLIN, Dec. 18 (AP)—The parliamentary situation up to a late hour this evening, apparently still was in a state of hopeless chaos.

Following authorization of President Ebert early today to make a thorough and final survey of the situation in a last attempt to form a ministry which would command the necessary majority in the reichstag, Chancellor Marx held a number of conferences with the major parties and late in the afternoon reported to the president's office to apprise the executive of his futile search for a solution of the existing deadlock.

**Proposals Numerous.**

Among the proposals made to overcome the impasse was a suggestion that the present Marx-Stresemann cabinet be formally reinstated, as the functioning government but that it be given one member of the cabinet from each of the German nationalist and socialist parties to serve without portfolio. These would officiate in the nature of liaison officers between the cabinet and their respective parties but would not place their parties in a formal responsibility respecting governmental policies.

In this manner, it was explained, both the numerically strongest parties in the reichstag would be given quasi-representation in the resurrected cabinet without forcing the latter to abandon its present policies with respect to foreign issues or its program of internal legislation as dictated by Germany's acceptance of the London agreement.

# LABOR'S CHIEF LAID TO REST

**Body of Samuel Gompers Buried in Sleepy Hollow Cemetery Beside Noted People.**

Barrytown, N. Y., Dec. 18 (AP)—Samuel Gompers was buried today on a little knoll in Sleepy Hollow cemetery. His body was laid to rest in company with some of America's most noted personages in a spot famous in tradition and history.

To the right of his grave flowed the Hudson, in the left wound the picturesque wooded glens of Sleepy Hollow's roundabout, peeping from the grass or reaching toward the sky were the simple markers of massive mausoleum or Washington Irving, Andrew Garage, William Z. Rockefeller, Carl Schurz, and of the Dapays, the Van Dorns, the McCoombs, the Van Cortlandts, the Beekmans, the Delavans and the Books of earlier generations.

After a two-hour service at the Elks club in New York city, where the body of Mr. Gompers lay in state yesterday and last night, a funeral train of scores of automobiles brought him here. Preceded by an honorary escort of motorcycle police from the metropolis, the cortege made the journey in two hours, passing enroute through many suburban hamlets where streets were lined with those who stood with doffed hats.

Through the crooked streets of Barrytown, the cortege drove across the headless Horseshoe bridge where the headless Horseman made his traditional ride, and through the ranks of waiting automobiles, men and women to a canopy and heaped evergreens which marked the Gompers lot.

The burial place was just a short distance beyond the massive pillars which marked the entrance to the cemetery. A misty rain was falling as the silence among the hundreds who waited was broken by the chapel bell tolling "Nearer, My God, To Thee," and the van of the cortege entered the grounds. There followed limousines bearing Mr. Gompers' widow, his sons and daughters, his brothers and grandchildren, his associate officials of the American Federation of Labor, delegations of labor union chiefs of all trades, gathered from far and near, and Free Masons of St. Cecile lodge of New York, having charge of the rites.

# WINTER GRIPS TWIN FALLS IN TIGHTER CLASP

**Mercury Falls to 11 Below**  
Zero, Setting New Low Temperature Record for Year; Heating Systems Suffer.

Winter tightened its grip Thursday on Twin Falls, new low temperature mark for the year being recorded at a clock Thursday morning when reading at the government weather observer's station showed mercury at 11 degrees below zero. Two hours later, temperature had advanced only one degree.

Temperature at 5 o'clock Thursday evening was reported at 4 below, which record was six degrees under the mark recorded for the corresponding hour Wednesday evening and indications pointed to setting Thursday night a new low temperature mark for the year.

Weather conditions throughout the day were fair and there was an absence of bitter wind that had accentuated the cold on the preceding day.

**Water Pipes Suffer.**  
Cold weather casualties were confined to water and heating systems.

Workmen operating the municipal water works department's electric thawing machine were engaged most of the day in thawing out pipes that had frozen in many residences. Appeal for assistance in similar undertakings at Jerome came in during the afternoon, but the machine was engaged and could not be spared. Frost has not yet reached sufficient depth in the ground, to constitute a serious menace to water supply lines, Harley Rayburn, water works superintendent, stated Thursday evening, but, he said, continuation for a few days of low temperature of the past two days would likely cause trouble in this regard.

**Pupils Get Vaccination.**  
Front port the heating plant at the Lincoln school out of commission and pupils were released from class rooms during the forenoon while necessary repairs were being made.

Cold weather also was blamed for failure of the heating plant at the Masonic lodge to function Thursday evening and in consequence a joint installation of officers of the Masonic lodge and Eastern Star chapter was adjourned to the Rogerson hotel.

Automobile radiator and battery works throughout the day were scenes of busy industry as dozens of cars suffering from effects of the sudden drop of temperature were brought in for repairs. Methods of preventing freezing in radiators assumed a prominent place in conversation.

## FORMER KLAN LECTURER DENOUNCES MANAGEMENT

Rev. E. E. Davidson of Boise, in Address Here, Charges Leadership With Motive of Financial Gain.

The Rev. E. E. Davidson, minister of the First Christian church of Boise, and lecturer for eight months in Idaho, Utah and Nevada for the Knights of the Ku Klux Klan, addressing an audience of about 100 persons in the Lavender theater last Thursday evening, delivered a scathing arraignment of leaders of the Klan who he termed "rascals, crooks and grafters." He professed his own fidelity to the "principles of klansmanship," and declared that he was engaged in denouncing only the management of the Ku Klux Klan which he termed an oligarchy and an organization conducted on military lines.

"I know more now about the Klan than I did when I was lecturing in its behalf," Mr. Davidson declared. He announced his purpose to visit places where he had spoken in the interests of the Klan with view, he said, to dissuading persons who had been misled through confidence in his own mistaken statements.

Mr. Davidson charged that Imperial Wizard Evans and other leaders of the Klan are promoting it for purposes of financial gain. He told of his own ineffectual efforts to learn the number of members and the salary allowed by the Imperial wizard for himself and the members of his council and quoted from a letter from the Imperial officers to the effect that it was "contrary to the policy of the organization for these facts to be known."

Assuming a membership of 2,000,000, Mr. Davidson argued that the organization's income would include \$200,000,000 "donation fee," and \$2,000,000,000 "annual dues," besides profits from sale of robes and other supplies.

Mr. Davidson was to have delivered

## SCHOOL GIRLS DEBATE FIDELITY TO FRIENDS

Blue Triangle Club Becomes Interested in Discussion of Question and Arranged Formal Argument.

Blue Triangle club girls, at a meeting Thursday afternoon in the high school building, became so interested in a discussion of the question, "Can a girl always be loyal to her friends?" that arrangements were made for a formal debate on that question at the next meeting. Betty Wilson is to present arguments in the affirmative and Jeromica Krivnacek, the negative side of the question.

In addition to this, discussion the program for Thursday's meeting included an entertaining stunt presented by Harriett Clapp and several assistants, and readings by Mary Provost.

The club members perfected plans for their Christmas party to be given this evening. Report was received showing net receipts of \$10 from the silver tea recently given.

About 60 members attended the meeting.

Philosophies, at a meeting held during the noon hour Thursday at the high school building, enjoyed a program that included a dramatization of the "Ruggles Family," and special musical numbers by Leone and Mary Ward.

# BAKER FACING GRAVE CHARGES

**Joe F. Hutsler, Accused by Young Girl, Attempts to Beat Police Chief to Gun.**

Joe F. Hutsler, 45, proprietor of a "doughnut shop" at 246 Second avenue north, was this evening arrested after he attempted to catch a gun when Chief of Police P. O. Herriman arrived to take him in custody, and is held a prisoner in the county jail facing prosecution on serious charges involving a 14-year-old girl. Prosecuting Attorney J. W. "Lefty" after an investigation made this evening by himself, Probation Officer John E. Ault and the police chief, stated that a charge of assault probably would be preferred against Hutsler.

## Police Take Weapons.

The police chief took from the bed in a room at the rear of Hutsler's shop a .32-caliber automatic pistol, which, it is believed, he attempted to reach in threatened place in a desk drawer when the police chief arrived on the scene. A butcher knife with blade about 14-inches long also was taken from near the bed. The girl, whose name was withheld by the authorities, is said to have told them that Hutsler threatened her with the gun when he compelled her to go with him to the room at the rear from the shop where she had gone to make a purchase. Police stated that Hutsler was under the influence of liquor or an opiate when he was arrested.

The police were directed to Hutsler's place of business at about 5:30 o'clock this evening when two boys stopped at the police station and stated that there was "something wrong at the doughnut shop," and that they had heard "a kid crying there."

## Hutsler Runs for Gun.

The girl was leaving the place when the police chief arrived. She accompanied them to the police station and told her story. Chief of Police Herriman, accompanied by Harley Rayburn, returned to Hutsler's shop and Mr. Herriman, meeting Hutsler at the door of the shop, stated that he had come for Hutsler. Hutsler turned and dashed to the rear room with the police chief at his heels. Hutsler thrust his hand into a desk drawer and the police chief seized Hutsler's wrist at the same time drawing his own gun and directing Hutsler to make no further attempt at resistance.

Hutsler's gun and the large butcher knife were taken by the police on a later visit to the place.

## SATURDAY ZERO HOUR FOR IDAHO TAXPAYERS

Time Limit Nears for Payment to Avoid Penalty; Indications Point to Fewer Delinquencies.

Collection of 1924 taxes in Twin Falls county has progressed since the issuance of tax notices last month on a scale that indicates that the proportion of delinquent payments this year will be considerably below the mark of the past three or four years, it was stated Thursday at the office of the county treasurer and tax collector.

Saturday next is zero hour for Idaho taxpayers. Taxes assessed for 1923 were due and payable last month and might be paid prior to the fourth Monday of this month without penalty. If at least one-half of the total tax is not paid Saturday, under existing law, a two per cent penalty is to be added to the original tax bill and interest at the rate of 10 per cent per annum is to be charged. If the first half of the total tax is paid on or before Saturday, the balance may be paid at any time prior to the fourth Monday in June, next, without penalty.

Tax payments remitted by mail will be received if post marked December 20 or 21, Mrs. E. L. Warren, county treasurer, stated Thursday.
