THIRD SEVERE  
COLD WAVE ON  
WAY EASTWARD

Sub-Zero Temperatures Hit  
Middle Northwest and Frigid  
Weather Is General All Over  
the Country.

CHICAGO, Dec. 27 (AP)—The middle-west and northwest shivered tonight in the third severe cold wave of the season. While the sub-zero front moved rapidly eastward with indications that it would reach the Atlantic seaboard by tomorrow night.

Nearly the entire country tonight was experiencing the post-Christmas cold spell or was expecting the mercury to go into a nose dive shortly although the Pacific coast states reported some moderation of temperatures accompanied by rain and snow and it was reported that any threatened damage to crops was past.

## Thirty Mile Wind.

The cold in the middle western states and in the southwest was unaccompanied by snow for the most part but a thirty-mile wind added to the rigors of the zero temperatures. Kansas City and vicinity expected the coldest weather of the winter tonight with temperatures of five or ten below zero, Chicago saw the mercury fall to zero at sunset and continue its tobogganing. Wisconsin expected the coldest temperature of the winter with Milwaukee and vicinity anticipating 13 below while other parts of the state had already reported readings of more than 20 degrees below zero.

## Property Damage.

The cold wave coming on the heels of one that had just departed, added to the property damage, loss of life and interruption of wire and rail communications, caused by the previous cold and storms. Three deaths were attributed directly or indirectly to the cold in Chicago today. Great Northern trains in Montana were being dug out of snow drifts.

The extreme cold weather was expected to continue throughout most of the region to which it spread for at least another 24 hours and possibly longer. At ten o'clock tonight the weather bureau reading showed a below zero in Chicago with the mercury going down about one degree each two hours. Street readings showed ten and twelve degrees below zero.

KANSAS SCHOOL  
HEAD DISMISSED

State Board of Administration  
Acts on Charges Preferred  
by Governor.

TOPEKA, Kansas, Dec. 27 (AP)—Acting on charges of inebriation political activity and "aloofness" preferred by Governor J. M. Davis, the state board of administration today removed Dr. F. H. Lindley as chancellor of the University of Kansas at Lawrence.

When Dr. Lindley was called before the board and his resignation requested, he asked for time to consider the matter, but this was denied.

The chancellor then left the capital, declining to make a statement. Inquiry into the suspension of Dr. Lindley at the University of Kansas for drinking after they had confessed, was taken up at this hearing, but this was not touched on in a long statement arraigning the chancellor, made public today by the governor.

Not Right Spirit.

"This spirit of aloofness and aristocracy," said the statement, "does not comport with the Kansas spirit. I am impatient with his dismissal because by all the showing that has developed he had displayed a disposition to play a narrow, selfish, personal game—one of advantage to himself." "His loss of sympathy and his failure to come in contact with the individual students demonstrates that he lacks the broad and deep human sympathy that is necessary to give the best results in producing strong, forward looking Kansas citizens." At the conclusion of the statement, the governor mentioned that the University of Kansas is his alma mater.

SECRETARY SEES NO  
CHANCE FOR JAP WAR

WATERTOWN, N. Y., Dec. 27 (AP)—Japan will never make war upon the United States, in the opinion of Robert Lansing, former secretary of state, expressed here today. "Japan cannot afford to make war upon this country," he said. "She has no money and no one is going to lend her any. Furthermore she has no iron and other raw materials necessary for such a conflict." The former member of the Wilson cabinet declared Japan may take the Philippines from the United States some time, but that if she does she cannot hold them. He advocated a strong navy.

ALLIED TREATY  
PLAN FAILS TO  
MOVE GERMANY

Diplomatic Action on Decision  
Not to Evacuate Cologne  
Bridgehead January 10 Is  
Postponed.

BERLIN, Dec. 27 (AP)—Until it is in possession of formal notification from the allied council of ambassadors that the Cologne bridgehead would not be evacuated January 10, in accordance with the treaty of Versailles, the German government will not undertake diplomatic action in the nature of a protest or suggestion that the issue be made the subject of negotiations for the purpose of reaching a definite understanding with the occupational powers regarding their future attitude on the whole range of problems affecting the Cologne zone and the Ruhr.

Whether the Marx-Stroessmann cabinet (Continued on Page 5, Col. 1)

BAN ON POTATO  
IN ENGLAND IS  
PROTEST BASIS

Embargo Against American  
Spuds Causes Growers to Ap-  
peal to Government for Aid;  
Beetle Is Feared.

WASHINGTON, Dec. 27 (AP)—The British embargo on American potatoes brought appeals today to several government departments for co-operation in an effort to have the ban modified.

Senator Hale of Maine, acting on protests from Maine growers, called at the state and agricultural departments to discuss the situation, but in the absence of detailed information action was deferred. At the same time confirmation of dispatches telling of the embargo reached the British embassy and the department of agriculture. At the embassy it was announced that the embargo which applies only to England and Wales, became effective December 23, but that potatoes then en route would be allowed to enter.

## Maine Hit Hard.

Maine potato growers, Senator Hale said, would be particularly hard hit by the British action, because of a surplus of the product in that state this year. Virginia, North Carolina, New Jersey and New York also would be affected, he said.

At the agricultural department some officials, although hesitating to comment in the absence of detailed information, said they were puzzled at the development. The Colorado beetle, of the common potato bug, the pest which the embargo is aimed at, is held by these officials to be very easily controlled and it long ago ceased to cause American farmers great concern. The British Isles, however, have been free of the beetle.

## Beetle In Canada.

The department's advice also declared that Canadian potatoes were not included in the embargo and it was pointed out that the beetle perhaps is more firmly established in certain Canadian provinces than in the United States.

The only statement at the depart- (Continued on Page 5, Col. 3)

MANY DESCENDANTS OF  
TWO OGDEN CITIZENS

OGDEN, Dec. 27 (AP)—Two Ogden citizens are dead here, each at the age of 90 years and their combined descendants number 170. They are Mrs. Elizabeth Joyce Marshall of North Ogden, and James M. Brown. Mrs. Marshall leaves five children, 37 grand children and 62 great grandchildren and five great-great grandchildren. Mr. Brown, the eldest son of Captain James Brown, who formerly owned all the land on which Ogden now stands, leaves one child, 23 grand children, 35 great grandchildren, and two great-great grandchildren.

SENATOR THINKS  
U. S. WAS BESTED  
IN ARMS PARLEY

British Statesmen "Out-Traded" America in Negotiations  
for Limitation of Armaments  
Says McKellar.

MEMPHIS, Tenn., Dec. 27 (AP)—Asserting that British statesmen "out-traded" the United States in the negotiation of the limitation of arms agreement under the Harding administration, Senator Kenneth H. McKellar, declared in a statement here tonight that the American navy should be second to none in the world.

The Tennessee senator said the difference in the elevation of British and American naval guns precluded the possibility of equality in the sea forces of the two countries which he asserted was "the principal purpose of the agreement." Senator McKellar declared himself in favor of cloaking guns on American battleships immediately.

"Our capital ships are still comparatively valueless, not being able to shoot from two to five miles as far as British naval guns and perhaps not as far as those of Japan," the Senator said. (Continued on Page 5, Col. 2)

U. S. PLANES USELESS  
MOFFETT DECLARES

OF THE 840 planes of all types in possession of the United States navy only 244 can be used effectively in the event of war, Rear Admiral W. A. Moffett, chief of the bureau of aeronautics, told a naval aircraft investigating committee of the house.

Banking Emergency  
in Northwest is at  
End, Reports Show

Better Business Conditions Result in Start of Liquidation  
by Credit Bureau at Minneapolis.

MINNEAPOLIS, Dec. 27 (AP)—Holding that the emergency banking situation in the northwest is at an end, and that established agencies will be able to care for the credit requirements of these institutions next year, the Agricultural Credit corporation began its first liquidation when its board of directors voted here today to return to its subscribers ten per cent of their contributions to the \$600,000 fund established 11 months ago for financial relief in this district.

A continuation of its policy of aiding in diversification for the northwest farmer was agreed upon however, and a fund of \$500,000 was authorized for purchase next spring of livestock to be placed on farms in Minnesota, North and South Dakota, and Montana.

## \$500,000 Turned Back.

C. T. Jaffray, chairman of the board, reported to the directors that the amount of liquidation by banks to which money has been loaned enables a repayment of ten per cent, or \$600,000 to the subscribers who made up a number of industrial and banking concerns of the east and central states.

"We decided to discontinue distribution of dairy cattle this winter and resume in the spring," Chairman Jaffray declared. "The resumption in the spring may be of aid in continuing the movement in the northwest which might be unfavorably affected by the high prices for the grain crop."

POULTRY EMBARGO IS  
MODIFIED BY OHIO

COLUMBUS, Dec. 27 (AP)—The state's embargo on live poultry was modified today by the department of agriculture to permit the shipment in the state of fowls intended for slaughter, providing the fowls show no symptoms of the European fowl pest or other similar contagious poultry diseases and which have not been exposed to such diseases.

The embargo was modified, according to Dr. Fred A. Zimmer, state veterinarian, to give relief to poultry slaughter houses.

## IDAHO'S BUDGET IS READY

BOISE, Dec. 27 (AP)—Idaho's budget for the 1925-26 biennium, calling for an appropriation of \$4,944,742.10 is ready for presentation to the eighteenth state legislature when it convenes January 5. This is \$11,233.86 less than appropriated for the last biennium.

Requests made by state departments and institutions were \$800,000 in excess of the amount recommended to the legislature by the governor—in other words Governor C. C. Moore and George W. Lewis, budget officer, have cut the requests \$800,000.

## BOISE GETS RESPIRE.

BOISE, Dec. 27 (AP)—Respite from almost two weeks of sub-zero temperatures came to Boise today on the wings of a snow storm from the northwest. The mercury, which stood at 7 below at 1 p. m. today, climbed to 9 above, and hibernating Boiseites emerged and gave thanks. An inch of snow fell tonight.

HEAVY DAMAGE  
DONE BY GALE  
OVER ENGLAND

Storm Sweeps United Kingdom  
Causing Destruction of Prop-  
erty; Coast Shipping Is in  
Distress.

LONDON, Dec. 27 (AP)—Extraordinary gales and heavy rains, causing overflowing rivers, landslides and minor land and sea disasters, are prevailing over all parts of the United Kingdom. There has been only a slight loss of life, but coast navigation is extremely difficult and dangerous, and outdoor life of sport has been rendered impossible.

Displeased by a day's seldom expect Christmas to be accompanied by the Christmas weather of frost and snow as depicted by Dickens, but this year has broken all records for odd weather conditions. Up to now the winter has been exceedingly mild, and the severe weather, coming just at the close of the Christmas holiday season, is causing much inconvenience.

## Games Postponed.

Boxing day, as the day after Christmas is called, is always notable for its numerous important football and other sporting features, but most of these had to be postponed.

It was a sixty-mile an hour gale which blew out Christmas and compelled the suspension of all air services and much cross-channel shipping.

No part of the kingdom seems to have escaped the storm. Mountainous seas are buffeting along the coasts, hundreds of telegraph and telephone lines have been blown down, while there is a steady succession of S. O. S. calls from vessels in distress. Heavy damage to property is reported from all over the country.

PARIS, Dec. 27 (AP)—The coast of France is suffering from the effects of heavy gales and the Cherbourg wireless station has received numerous calls for assistance from vessels in distress. Tugs were dispatched today to aid three steamers crippled by the heavy seas.

Life boats which put out from Le Havre rescued the crews of the trawlers Lion and Monto Ladessus. A Norwegian steamer, the Saturnus, has been driven onto a treacherous shoal and will be a total loss.

EIGHT MISSING  
IN DAM DISASTER

Search Continues for Victims  
at Saltville; Twenty-Two  
Bodies Are Recovered.

SALTVILLE, Va., Dec. 27 (AP)—Funeral services for the dead and a never-ending but fruitless search for those still missing; treatment and care for the injured in the emergency hospital here, were the wearisome labors under which the heart sick people of Saltville labored today as the culmination of the disaster at Saltville on Christmas eve, when thousands of tons of slimy, burning white muck ran over a barrier, suffocating the lives of 22 and leaving the horror stricken survivors to search for eight which are still missing.

None of the bodies of the eight who are still missing was found today, but Mr. Wiley, assistant manager of the Mathieson Alkali works, declared tonight that the search for bodies would be continued until the last vestige of hope of finding them had been given up. A corps of 150 or more of the company's men were busy grappling in the muck all day yesterday and today.

COLDER WEATHER COMING  
DURING THE NEXT WEEK

WASHINGTON, Dec. 27 (AP)—The weather outlook for the week beginning Monday:

Northern Rocky mountain and plateau regions: Rising temperature Monday; colder again middle of the week; considerable cloudiness and probably occasional local snows.

# FOSTER FATHER TELLS OF RICH ORPHAN'S DEATH

Circumstances Attending Demise of Millionaire in Chicago Given Prosecuting Attorney's Office.

CHICAGO, Dec. 27 (AP)—Circumstances attending the death of William Nelson McClintock, "millionaire orphan," as he was known, were laid bare tonight by William Shepherd, into whose care the boy was entrusted by Mrs. Emma Nelson McClintock, William's mother, who died in 1908.

Shepherd, interrogated by George F. Gorman and Joseph P. Savage, assistant state's attorneys, denied that he was aware of any unusual circumstances surrounding the boy's death in the Shepherd's Kensington home. He declared emphatically that every possible effort had been made to save the boy.

At Boy's Suggestion. The will, which gave him and his wife legal guardianship of the boy, the bulk of the \$1,000,000 McClintock estate, was drawn up entirely on the initiative and suggestion of Billy, Shepherd asserted.

He and his wife had only the kindest feeling for Miss Isabelle Pope, William's fiancée, he declared, in denying the statement attributed to him in which Miss Pope was described as a "mercenary." Under the terms of the will, Miss Pope was to have an annuity of \$8000, although no provision was made for payment of this sum.

Rumor Is Denied. No further report by coroner's physicians concerning their autopsy which was started Christmas eve when the body was exhumed, was made public tonight, although Coroner Oscar Wolff through an assistant, denied a report which had gained wide circulation that a trace of solid had been found in the stomach. Reception of solid food by the typhoid patients usually proves fatal, the coroner's office had previously announced. The death certificate gave typhoid fever as the cause of young McClintock's death.

Shepherd went to the office of State's Attorney R. C. Gorman late today, accompanied by his attorneys, Robert E. Stoll and Edward Hedrick. Crown, Hedrick and Stoll withdrew after a few perfunctory questions and Shepherd remained to be questioned by Assistant Prosecutors Gorman and Savage, who permitted him to tell his story in his own way.

Met "Billy's" Mother. Shepherd and his wife first came to Chicago in 1907, at which time he first met Mrs. McClintock. Mrs. Shepherd and Mrs. McClintock had been schoolmates in Kansas. He said that after the McClintocks' death, and Shepherd went to Texas to dispose of some land holdings for Mrs. McClintock, at which time he received a salary.

Later he built a winter home for the McClintocks at Bayview, Texas, to which place Mrs. McClintock came in 1909, although she was ill. She returned to Chicago after a month and then telegraphed the Shepherds to come to her. Mrs. Shepherd arrived the day Billy's mother died, and Shepherd an hour after the funeral was held.

Mrs. McClintock left the entire estate to Billy, naming Mrs. Shepherd as executrix, and Mrs. Shepherd as A. P. Reichman, attorney, as guardian of the boy. The Shepherds then moved to Kenilworth where their present home was built by funds from the McClintock estate. The house was kept up by funds from the same source, a court having allotted \$1000 a month for this purpose.

Native Arts of the Aztecs. Since the great conquests of Peru and Mexico and the lesser expeditions into Central America and our Southwest, all objects made by the natives are more than likely to have a divined, artistic origin. In museums very careful distinction is made between pre-Columbian and post-Columbian art. This is in no sense proof of inferiority of native creative power, but rather indicates the high status of all aesthetic expression in these favored regions since artistry had arisen to a point where adaptation of exotic ideas was within the scope of both mental and physical powers. Only people dominated by iron superstitions in regard to the significance of design remain unaffected through contact. Only people lacking in technical skill refuse to copy.—M. D. C. Crawford in Art and Decorations.

Simple Enough. Learned Prof. "I" cannot understand how people forget children's age—I have no trouble. For instance, I was born 2,320 years after Socrates; my wife, 1,000 years after the death of the great Caesar; my son, 1,000 years after the beginning of the Fifth Wonder—quite simple you see!—The Posing Show.

## Featured in News of the Day

Mrs. Ralph Greenleaf, Ralph Greenleaf, Miss Louise Lewis.

RALPH GREENLEAF, pocket billiard champion of the world, has been granted a divorce in Philadelphia from his wife, Beatrice E. Greenleaf, 25, one year his senior, on grounds of cruelty, indignities and barbarous treatment. Previously she had filed a separation action in New York, in which she said Greenleaf's earnings were \$300 a week. Later they became reconciled. The divorce action came as a surprise.

MISS ETHELIND TERRY, American prima donna, has denied a report of her engagement to Martin E. Jones Jr. of New York, son of the president of the Hocker-Jones-Jewell Milling company. MISS LOUISE W. LEWIS, heiress to the \$60,000,000 fortune of the late Henry M. Flagler, has appealed to legal counsel and has engaged detectives to run to earth persons behind an alleged scheme to blackmail her and her young husband, Lawrence Lewis, from whom she has been estranged until their unnamed foes threatened both.

## JAPAN'S WEALTH IS 100 BILLION

Country Steadily Increasing in Richness, Says Authority; Comparison Made With U. S.

TOKIO, Dec. 27 (AP)—The total wealth of Japan is approximately 102,000,000,000 yen, (\$31,000,000,000), according to a statement published by Hideo Takahashi, one of the country's foremost statisticians. (The total wealth of the United States is given for 1921 at \$300,000,000,000.) Mr. Takahashi traces the growth of the national wealth from the time of the opening of the country to foreign trade by Commodore Matthew Perry of the United States navy, 71 years ago, down to the present. The increase in that period had been twenty-fold, since Japan's wealth in 1853 is placed at about 5,000,000,000 yen. The great increase came during the world war, when the national wealth jumped from 38,000,000,000 yen in 1912 to 93,000,000,000 yen in 1921, owing to huge war profits made by Japanese industry. In spite of the post-war depression and the great earthquake of 1923 the increase has continued, and Mr. Takahashi now places the national wealth

at 102,000,000,000. Osaka is the richest city of Japan, according to this authority, while Tokyo comes second. The per capita wealth of all Japan is put at 1,716 yen, or \$558. (In the United States it is \$2800 per capita.) For Tokyo it is 5,275 yen and Osaka 3,200 yen. The cities ranking next after Tokyo in wealth are Kobe, Kioto, Nagoya and Nagsaski.

## CHAPTER MASONS INSTALL

L. Oloa, High Priest, and Other Officers of Twin Falls Chapter, R. A. M. Enter on Duties for year

With E. J. Finch, past high priest, serving as installing officer, Twin Falls chapter, local Arch Masons, Friday evening installed its officers for the coming year. Elected officers who were installed were: High priest, L. Oloa; king, D. W. Jenkins; scribe, E. J. Oloa; treasurer, C. H. Brown. Appointed officers also were installed as follows: Captain of the host, J. A. Waters; master of the first veil, M. R. Rabbie; master of the second veil, D. D. Alvord; master of the third veil, J. Myers; sentinel, W. A. Minnick; chaplain, C. E. Munson.

## WINS TECHNICAL K. O.

ATLANTA, Ga., Dec. 27 (AP)—Mike McGuire, who holds the world's light heavyweight championship, tonight won a technical knockout over Jimmy King, New Orleans, in the fourth round of a 10-round bout here.

## Bluest of Animal Blue Bloods

MISS BERTHA HOFFMAN is shown here exhibiting Deacon, grand champion steer of the 1924 International Livestock Exposition held in Chicago and attended by President and Mrs. Coolidge. The steer was raised on the Ben Caryl ranch at Littleton, Colorado, owned by John Shaffer, Chicago publisher. Deacon is a pure-bred Tierford, one year old, and weighing 950 pounds.

# DEMOCRAT SEES ENCOURAGEMENT IN VOTE SURVEY

Analysis of Presidential Outcome Shows Davis and La Follette With More Strength Chairman Thinks.

WASHINGTON, Dec. 27 (AP)—Analysis of the presidential vote was declared today by Sarah Swanson, democrat, Virginia, chairman of the speakers' bureau of the democratic national committee, to show "most encouraging future prospects for the democratic party despite the large plurality for President Coolidge."

Senator Swanson pointed out that in 15 states which gave its electoral votes to the republican party, the combined popular vote for John W. Davis and Charles McNary, independent candidate, was greater than for President Coolidge. As a result, he said, "there are 235 electoral votes in the electoral college, where the people clearly indicate antagonism to the existing republican administration lacking only 31 votes of a majority of the Coolidge total."

## Small Change Needed.

The change of between two and six per cent in the popular vote in other states carried by President Coolidge would have increased the opposition vote to 25 per cent for a majority, Senator Swanson said.

Study of the vote revealed, however, Senator Swanson declared, "that a third party but tends to aid the republican party and its continuance in power."

"The returns clearly indicated," he concluded, "that the democratic party has a considerable amount of support which will give it support and restore it to power if it conducts itself wisely, broadly and patriotically, and shows itself worthy of responsibility and power. A majority of the people in the United States favor the democratic party and its principles if they are adhered to and followed."

## Sensitive Soul.

A minister must be careful in choosing his words if he is to give no offense to any of his flock. In a certain congregation there was a dear old lady who loved flowers and who had a beautiful garden. Each Sunday it was her custom to take the pulpit. She was especially fond of sweet peas, and she once brought them for several Sundays in succession. Suddenly other flowers appeared. The minister noticed the change and after the service asked the old lady why she brought in roses instead of sweet peas. She smiled sadly, and answered: "You don't like them. Last Sunday you pointed right at my sweet peas and said, 'God loves even the meanest flower that blows.'"

## Cuba's Fresh-Water Fish.

The fresh waters of Cuba are inhabited by fishes unlike those found in the fresh waters of the United States. Some of these are evidently indigenous, derived in the waters they now inhabit directly from marine forms. Two of these are cycloid species, inhabiting streams in caverns. They have no gill plates in the fresh waters of any other region, the blind fish in American caves being of a wholly different type. Some of the Cuban fishes are common to the fresh waters of the other West Indies. Of northern types, only one, the alligator gar, is found in Cuba, and this is evidently a diluvial immigrant from the coast of Florida.

## Rights of a Mother-in-Law.

The mother-in-law, in this country at all events, is a much-abused relation, but in China she has come into her own. There a new law has been passed under which divorce may be granted for the ill-treatment of a mother-in-law, or a father-in-law, for that matter, says the Detroit News. This code replaces the ancient law called "TUL," which required divorce from a totalitally wife for lack of respect for a mother-in-law, or for jealousy. One other unique reform has been made, namely, that the consent of a father and mother has to be obtained before a divorce may be granted.

## New Edible Plant.

A plant that belongs to the lettuce family and that is now cultivated in upper Egypt and can be grown with profit in certain parts of the Sudan is a new source of edible oil. The seed yields under pressure from 37 to 48 per cent of all seed. Certain specimens of fresh seed from the Sudan, which contained less than 4 per cent of water, yielded more than 44 per cent. The oil is colorless, of a light yellow color and without a disagreeable taste. The seed is so small that it cannot be cultivated on ordinary equipment, but the oil product is so valuable that new machinery will no doubt be built to do the work.

# COOLIDGE CONFIDENT ALLIES AND GERMANY WILL AGREE ON PLANS

WASHINGTON, Dec. 27 (AP)—President Coolidge is confident that a satisfactory arrangement will be reached by the allied nations and Germany with respect to evacuation of the Cologne bridgehead. This confidence on the part of the president is based on the ability shown by the European governments within recent months to reach agreements for their own welfare, beginning with the arrangement to submit the reparations problem to a committee of experts. The general adoption of the report of that committee and the willingness to begin payments under the Dawes plan.

# ENGLISH CHANGE LABOR CUSTOMS

Advent of Baldwinites to Government Causes Return to Old-Time Methods.

LONDON, Dec. 27 (AP)—The change from labor liens to those which characterize the conservative party has been no less speedily accomplished in the details of operation of the governmental departments than has been the change in the attitude toward international and domestic problems.

One of the most noteworthy changes is the return of the elaborate departmental intercommunication system used by Marguerite Curzon while he was chief at the foreign office and which the laborites immediately scrapped on assuming office. The system required that each official in each department should know all the others and all the details of what was going on between Great Britain and other countries. The labor government went back to the older system of communicating by note from chiefs to their assistants, but this has been scrapped and the old system has been carried on the job again.

Strictly in matters of petty etiquette such as smoking in corridors and rooms of ministerial buildings, allowing cats and dogs to be kept in offices, and use of elevators by employees, have been hastily corrected by the new ministers and the dignity of the government premises has been re-established. In one respect the conservatives are showing a new leniency in the matter of appointments, and where formerly it was necessary to make written application, nowadays only a smart appearance is needed to get into the sanctum of some civil employee.

## "Plug Hat" Totem Pole.

On top of one of the grotesquely carved totem poles of the Alaskan Indians there is a figure of a white man in stovepipe hat and frock coat. The art of totem pole carving consists almost always in the representation of animals and the part they played in the old myths. But this totem pole represents a certain Indian's claim to fame; either based on his own experience or founded on his ancestry, or both. It is a sort of combined distinguished conduct medal and conferral. In this case, an old woman belonging to the house in front of which the pole stands was the first person to see a white man. The figure representing what she saw was accordingly put on her pole.

# CAMERA'S POWER IS INCREASING

New Use to Be Made of Photography if Experiments of Departments Work Out.

WASHINGTON, Dec. 27 (AP)—It is generally known that a properly manipulated camera can bring out objects and aspects that defy detection by the naked eye. That power of the camera is being greatly extended by experimental work now undertaken jointly by the bureau of standards and the war department's section of aviation. Some of the results are considered military secrets, but it is more than possible that in the next war smoke screens are not likely to be complete protection for advancing troops, or moving vessels at sea. The camera's eye can be given some uncanny powers of piercing obscurity of that kind.

Already, the experimental cameras can give very good results in taking pictures of objects concealed by the water vapor which constitutes natural fog and cloud bank. It is likely that the powers, now largely undeveloped, can be carried a good deal further. Dr. G. K. Burgess, director of the bureau, believes the secret of the increased visibility of the camera—increased largely in the photographic emulsion which controls the character of the sensitive plate and its development. Some of the discoveries in connection with the research probably will be made public, though there are details which military archives will probably treasure for a long time.

## LITTLE GIRL ESCAPES

HOBART, Okla., Dec. 27 (AP)—A four-year-old girl, dodging in between shuffling feet and straining bodies, a tiny girl, Lella Biggers, 4½ years old, escaped without a scratch from the hubbub of the Christmas eve holocaust in which 34 persons lost their lives.

"I crawled into it got out into the cold," was the simple way in which Lella described her escape. The child was listed among the missing in earlier reports. Her two brothers, Walter and William, died in the fire and her mother was probably fatally burned.

It was believed a number of other small children escaped injury or death in the same manner.

## "Raining Cats and Dogs."

Old myths from Norway contain weird tales of the influence of cats and dogs on the weather. As the cat represented the rain, the dog was supposed to be the wind that accompanied the rain. Therefore, to "rain cats and dogs" means to rain and blow, says the Detroit News. The dog and wolf were attendants upon Odin, the storm god. In old German prints wind is represented by the head of a dog or a wolf from which issue great blasts. English sailors still say that a rain comes when the ship's cat is unusually frisky. Witches were believed to assume the form of cats and ride upon the storm.

## Material for Buttons

Vegetable ivory, a material from which buttons are made, is collected chiefly in South America and Africa. From the former comes the corozo nut, the commonest sort of vegetable ivory, while Africa grows a strange apple which in due course hardens to the hardness of ivory. Thousands of these vegetable apples are converted into buttons every year.

Have You Tried Snow Flakes in the Family Tin?

You know how good Snow Flakes are—how crisp and tasty? You can serve these dainty Snow Flakes on many occasions. Why not buy a family-size tin, which will insure a constant supply? Your grocer can supply you.

## THE GUMPS—EXCESS BAGGAGE

## RADIO BLAMED FOR DECREASE IN SHOW SALES

Concert Market Injured by Wireless Which Gives Germans Chance to Hear Music in Their Homes.

DRESDEN, Dec. 27 (AP)—Another concert season lies this present and German artists will be ruined, in the opinion of Dr. Rudolf Cahn-Spencer, chairman of the executive council of the Federation of Concert-Giving Musicians of Germany. Three factors are blamed for the unfavorable condition of the concert market: the radio, an indifferent public, and an unjust system of taxation.

From the moment the government lowered the fee for radio service to 50 cents a month, there was a sharp increase in the number of subscribers. From 7500 the number rose to 500,000 within half a year. "One can easily understand," Dr. Cahn-Spencer observes, "that with a large part of the public the difference both in quality and rendition between a concert in a hall and one heard over the radio is not sufficient to outweigh the comfort of hearing a concert within one's own home. The latter involves no necessity to dress up or leave the house, and enables one to smoke a cigar or sip a cup of coffee while listening."

The indifference of the public to good concerts, in Dr. Cahn-Spencer's opinion, is evidenced by the fact that concerts even of big stars are seldom sold out, and that complimentary tickets are no longer being used.

The state is unduly severe on the artist in matters of taxation, Dr. Cahn-Spencer holds. On all box office receipts he must pay both a turn-over and a luxury tax. These receipts are, as a matter of fact, never enough to pay for the costs involved in giving a concert, save in the case of stars of the first magnitude. Most artists pay a considerable sum of money out of their own pockets for the pleasure of giving a concert, since it is essential to their further artistic career that they have a number of musical criticisms from the metropolitan press to their credit. Even on free tickets a luxury tax is exacted. In any commercial business free tickets would be charged to advertising and would be exempt from taxation, but the poor artist is gouged for them by the tax officials.

**Trade Balances**  
Term "trade balance" applies to the difference between the values of exports and imports. The balance of trade is in favor of the United States when this country has exported more than it has imported. This difference was formerly measured roughly by the outflow or inflow of precious metals in settlement of accounts. Many factors enter into analyses of modern trade relations and only broad general tendencies can be indicated in discussion of trade balances.

**The Better Catch**  
An Idaho man was fishing in Lake Crescent recently. He caught a big northern pike, the biggest he ever landed in his long and busy life. He was elated. He was cradled with joy, and he telegraphed his wife: "I've got one; weighs seven pounds and it is a beauty." The following was the answer he got: "No, have I; weighs ten pounds. Not a beauty—looks like you. Come home."—Idaho Yarn.

**The Medieval Bellman**  
Before public clocks were used, bellmen proclaimed the hour at night about 1550. They were supposed to ring a bell and cry, "Take care of your fire and candle, be charitable to the poor and pray for the dead."

**Punishment**  
A New York magistrate is fixing the fine for speeding at a dollar a mile, a case where the speedometer was the punishment fit the crime.—Boston Transcript.

## Homeless Men March on Church

DRIVEN by the intense cold to seek shelter, 300 homeless derelicts in New York, led by Urban Ledoux, known also, paradoxically, as "Mr. Zero," because of his zeal in behalf of the unfortunate, marched upon and obtained permission to use the Camp Memorial church as sleeping quarters. "Mr. Zero" is solving the question of food also, in so far as the United States of his little hoboes' retreat, "The Tub," enable him to do so. He has appealed to the authorities for aid of the thinly-clad and hungry throng.

## PROSPERITY FOR UNITED STATES COMING IN 1925

Unusually Bright Prospects Face Country for Next Year; Prediction Based on List of Achievements.

NEW YORK, Dec. 27 (AP)—Business during 1924 is generally summarized as fairly by banking and industrial leaders. Prospects for 1925, however, are considered unusually bright, many business men echoing the sentiments expressed by President Coolidge in his message to congress that "under the assurance of a reasonable system of taxation, there is every prospect of an era of prosperity of unprecedented proportions."

The prediction of further business prosperity is based on several well known facts. Settlement of the German reparations problem through the adoption of the Dawes plan is widely believed to have removed the greatest obstacle to the economic recovery of Europe, upon whose prosperity we are more or less dependent, because of our position as a big creditor nation and an important participant in international trade.

**Money Market.**  
Foremost among the domestic factors is the easiness of the money market and the huge sums available for commercial credit. In addition there is a surplus of merchandise at relatively low, railroad traffic is at record levels, exports are increasing, the principal European exchanges are at par, or heading there, several important industrial and railroad mergers are pending, the high prices received for current crops has brought prosperity back to the agricultural regions, gasoline consumption is at record high levels and an ambitious program of hydro-electric power development is under way. Railroads enjoyed one of their best years in 1924 since their restoration to private control. Economies effected through the cutting down of operating expenses enabled many systems to increase their net income despite reductions in gross earnings. One of the most important developments of the year was the completion of plans for the gigantic Nickel Plate merger to include the Nickel Plate, Hocking Valley, Chesapeake & Ohio, Pere Marquette and Erie systems. The South-

**Many United States Flags.**  
The United States has had a different flag for every war. The flag of the Revolution had 13 stars in a circular blue field and seven red and six white stripes. During the War of 1812, the flag had 15 stars and 15 stripes. At the time of the Mexican war, the flag had 13 stripes and 22 stars. When the Civil war broke out, the flag was the same except that it had 34 stars. Before the Civil war ended two more stars were added. The Spanish-American war flag had 45 stars. The flag used in the World war had 48.

**Tracing Arabian Numerals**  
Arabian numerals were introduced into Spain about the close of the Tenth century by the Moors from Arabia, who got them at early as the Sixteenth century from the Hindus. Before that time, little is known about them. They did not come into general use in Europe until the Sixteenth century.

**BANK OF HEALTH**  
Do you realize that you must make deposits in the bank of health everyday? The safest way to keep your health-assets intact, is to keep your body well-nourished.

**Scott's Emulsion**  
is the food-tonic, rich in vitamins that helps thousands realize dividends on their deposits in the bank of health. A little of Scott's Emulsion helps you keep your deposit of strength intact.

Scott & Bowne, Bloomfield, N. J.

## FARM PRODUCT BUYING POWER POINT LOWER

Report of Government for November Shows Decrease in Value of Agricultural Market During Month.

WASHINGTON, Dec. 27 (AP)—The purchasing power of agricultural products declined slightly during November, says the department of agriculture's December summary of conditions. The purchasing power index figure, based on the combined value of thirty products exchangeable for non-agricultural goods fell from 90 in October to 89 for November. The 1913 figures used as a base, was 100.

Decline in value of some farm products and increases in the cost to the farmer of other necessities were held responsible for the index decline. A slight gain in favor of the farmer had been recorded in October.

Livestock and their products, except wool, stood at marked disadvantages in the general commodity market, the department said, but a higher purchas-

## REPORTS ON CONDITIONS AT JACKSON LAKE RESERVOIR

HURLEY, Dec. 27.—(Bureau of Reclamation)—Report from Moran, Wyoming, at the outlet of Jackson Lake reservoir shows the following conditions:

	Acre-Foot
Dec. 20, 1924	89,360
Same date a year ago	211,786
Week ending Dec. 20, 1924	5,340
Same week a year ago	5,630
Precipitation at Moran	Inches
Week ending Dec. 20, 1924	1.15
Same week a year ago	0.00
Sept. 1, to Dec. 20, 1924	9.35
Same period a year ago	4.24

## SAILESS SHIP RIGHTS IN ENGLAND CLAIMED

LULL, England, Dec. 27 (AP)—Walter C. Scott, a coal exporter of Hull, and his brother, C. R. Scott, of Newcastle-on-Tyne, have decided to claim all patent rights for Great Britain in the invention of the principle of the rotor or sailless ship, for which Germany has so far had the credit. They claim they applied for patents rights for the rotor principle in June, 1915, and that the patents were granted them in February, 1917. Walter Scott asserts he repeatedly offered the invention to the British government during the war but the officials were too busy to examine his scheme.

The rotor ship has no sails but two tall cylinders turned on their axes by a motor. The action of the wind against these rotating cylinders is said to give a speed several times greater than that attained with ordinary sails. Living power next fall was forecast if logs and beef cattle follow their previous value cycles.

## WINE NOT VIOLATION WHEN USED AT HOME, OHIO JUDGE THINKS

CLEVELAND, Ohio, Dec. 27 (AP)—A person with 200 gallons of home-made wine in his home is not subject to arrest, or if arrested and taken before municipal court Frank L. Stevens will not be fined, providing the wine is for home consumption and the owner is not selling or distributing the wine for profit, Judge Stevens declared today in outlining his policy of handling liquor cases in police court for the coming term.

"Federal interpretation of the law has held that one may possess 200-gallons of home manufactured wine in his home," Stevens said, "and hereafter when police bring in citizens for possessing such wine they will be discharged in my court."

**EUROPEAN TREATY INVOLVES NO INTERNATIONAL TROUBLE**  
WASHINGTON, Dec. 27 (AP)—European diplomacy has turned its hand to the art of peace in a new kind of international alliance, recently made operative by France and Czechoslovakia for the purpose of promoting educational, scientific and cultural relations between the two countries. The pact, signed in Prague and Paris, became effective by a recent exchange of French and Czech university professors, according to advices reaching the state department.

Under the treaty, professors will be exchanged, scholarships exchanged, degrees conferred and credits granted for studies pursued in universities or other educational institutions of either country.

If your property is desirable and is advertised in the classified—you'll find 70-2 buyer.

## Everything for QUALITY —nothing for show

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

E. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

OGDEN CHILDREN GET INSURANCE

Court of Appeals Upholds Utah Tribunal in Decision Against Companies.

OGDEN, Dec. 27 (AP)—The United States circuit court of appeals in St. Louis has affirmed the judgment of the Utah federal court whereby five small children of the late Robert G. Agee of Ogden obtain a judgment of more than \$50,000 against four accident insurance companies, according to information received here by A. W. Agee, administrator of the estate.

Robert A. Agee died in a bathing pool here in 1922. The insurance companies refused to make payment to the widow, Mrs. Elaine Agee, charging Agee committed suicide. Mrs. Agee brought suit but while the case was pending she committed suicide in a fit of despondency.

MAKE VOLUMINOUS RECORD

Appeal to Supreme Court in Case of C. A. Robinson Against Earl Fruit Company Involves Copying Task.

Record on appeal to the supreme court was Saturday completed by C. L. Bowen, deputy clerk of the district court, in the case of C. A. Robinson against the Earl Fruit company, which was tried here in May, 1923, with the result that Mr. Robinson was awarded judgment for approximately \$14,000. The record comprises 532 typewritten pages.

Records also were completed by Mr. Bowen in the case of H. O. and R. F. Brown against A. N. House and Fred P. Hertz, for transmission for a second time to the supreme court. The case, which involves claim for payment for certain sheep was once previously removed to the supreme court by which it was remanded to the district court. A second order for removal of the case to the federal court was issued by District Judge W. A. Babcock.

Worth Remembering  
Everything on earth, whether joy or trouble, is only temporary.

KIWANIANIS TO ENTERTAIN

Wives of Club Members to Be Honored Guests at Informal Good Time Arranged for "Ladies' Night."

Kiwanian club members, at a "Ladies' night" meeting Monday evening at the Rogerson hotel at which wives of members are to be honored guests, are to present a program that has been arranged with view to appealing to the interest of everyone, and the occasion is to be one for informal enjoyment, according to announcement Saturday evening by Dr. Hal G. Bieler of the committee in charge of arrangements for the affair. A musical program is to be given as a substitute for dancing.

ADVANCE PLAN ON RATE RAISE

Publishers Would Submit Scale For Second Class Mail Matter to Produce Increase.

WASHINGTON, Dec. 27 (AP)—Protesting against increases in second class mail rates provided in the administration measure designed to meet salary raises of postal employees, representatives of the American Newspaper Publishers' association proposed today that they be permitted to draft a rate scale to cover the cost of their use to the postal service.

The publishers entered vigorous objections to the haste with which they contended congress was treating a problem important alike to the newspapers and the public. They said insufficient time had been given for the study of cost ascertainment report of the postoffice department on which the proposed rate increases are based and that if given time they would draft a schedule which in their judgment would more nearly meet the equities.

While individual members expressed interest in the publishers' offer the committee took no formal action. Chairman Moses announced the hearings would be pressed early next week with a view to a presentation of a report to the senate committee in time for the reporting of the administration bill to the senate before President Coolidge's veto of the postal pay bill is taken up January 5, under a unanimous consent agreement.

NOTICE TO WATER USERS.  
To help in avoiding frozen water pipes, let out tap run a small stream. Be careful not to run too much as this will cause sewer overflow trouble. Inspect the stop and waste and be sure that it is in operation. Use it every night. If there is none in the house, have one installed.  
H. S. RAYBURN,  
Superintendent.

COURT ASKED TO INDICT PRESS

French Minister of Justice Starts Action Against Paper for Article Published.

PARIS, Dec. 27 (AP)—The minister of justice today instructed the courts to institute proceedings against the newspaper L'Eclair for "the publication of secret documents concerning the national defense and external safety of the state."

L'Eclair this morning published a copy of an alleged report from General Nollet to former Premier Poincare when the general was president of the inter-allied commission of military control in Germany. The newspaper commented on the attitudes of General Nollet as president of the commission and as minister of war. The complaint against the newspaper which was laid by General Nollet himself under the espionage act, entails severe penalties in the event of conviction. This is the second Paris newspaper to be brought into the courts by the government within a week.

ALBANIAN DICTATOR FRIENDLY TO ITALY

TIRANIA, Albania, Dec. 27 (AP)—Ahmed Zogu, who occupied Tirania a few days ago at the head of a column of insurgents today sent greetings to the Italian minister at Durazzo. Zogu expressed regret that the Italian press published "misleading reports to the effect that among his men were Bulgarian deserters and other non-Albanian elements."

In conclusion the message states that Zogu wishes to maintain the best relations with neighboring countries and that he considers all Albanians, even his adversaries, as brothers.

AGAINST CHANGES IN FOOTBALL RULES IS OFFICIAL DECISION

NEW YORK, Dec. 27 (AP)—Resolutions against the adoption of radical changes in football rules, especially regarding the forward pass, were passed today at the annual meeting here of the eastern association of intercollegiate football officials.

Return to former rules was recommended in three instances, the decision of most interest affecting the kickoff, which the officials voted should be returned to the 40-yard line. It also was voted that reversion to a rule of two years ago by which a touch back results from off-side play within the ten-yard line be recommended to the intercollegiate rules committee.

Chinese Civilization Ancient

When the people in almost all of Europe were still wearing skins for clothes the Chinese were a highly cultured people. While Europe was just getting acquainted with the cruelest of tools, Chinese artisans were using highly developed implements for skilled work, thus showing that the Chinese civilization is one of the very ancient.

ARIZONA ORDERS EMBARGO.

PHOENIX, Arizona, Dec. 27 (AP)—An embargo on poultry shipments into Arizona was ordered today by Governor G. W. P. Hunt.

The order prohibits the shipment of all classes of fowl into the state unless

accompanied by a permit from the state veterinarian, and calls attention to the contagious chicken "plague" which recent made its appearance.

If your property is desirable and is advertised in the classified—you'll find your buyer.

## FIREMEN SAVE BURIED NEGRO

Tons of Debris Cover Workman in Kansas City When Building Caves in; Dug Out.

KANSAS CITY, Dec. 27 (AP)—Buried for more than seven hours under tons of debris by an explosion that demolished a three-story building here today, Aune Wilkins, 25, negro, was rescued by firemen late today.

"It was powerful cold down there," the negro smilingly observed when hoisted from the wrecked basement. "I spent a whole lot of my time praying."

At the hospital it was said Wilkins was suffering from exposure and a slight cut on the head.

Thrown to Basement.

When the building collapsed Wilkins was thrown into the basement where he crouched against a wall. Firemen were guided to him by his cries.

Harold Dixon, who escaped uninjured, said the explosion followed soon after Wilkins had lighted a cigarette near a gasoline vat.

The structure was a total loss. Only portions of the east and south walls remained standing.

A plumbing supply house that occupied the building sustained a loss estimated at \$100,000.

## ALLIED TREATY PLAN FAILS TO MOVE GERMANY

(Continued from Page One)

inet will still be at the helm when the issue comes up for formal action still is a matter of conjecture, as the newly elected reichstag will convene on January 5 and President Ebert is said to be desirous of bringing the present cabinet crisis to a definite conclusion by that time.

Nationalists Busy.

The nationalist organs, which are clamoring for the entrance of the Weimar Republic into the next government, now support their demand on the alleged change in the attitude of Premier Herriot in connection with the existing foreign problem. The German reactionaries are insisting that the Anglo-French procedure in connection with the evacuation of the Cologne bridgehead proves conclusively that a liberal cabinet in Germany would be accorded no accommodation in London and Paris.

Several of the newspapers, which question the sincerity of the allied intentions respecting the various dates fixed for vacating the Rhineland and the Ruhr, suspect that if the January 10 date is arbitrarily violated there is no assurance that the last French soldier will be out of the Ruhr by August 15 which was the extreme limit accepted by Germany at the London conference.

Newspapers Protest.

The German newspapers, regardless of party affiliation, are unanimous in their protest against the continued occupation of Cologne, although private sentiment, so far as they are given untrammelled expression, admit that the presence of the English on the Rhineland might after all, be desirable so long as the French and Belgians are in the Ruhr.

The prospect of immediate complications in Germany's foreign relations has quickened the demand in various quarters that the nationalists be asked to participate in the new government in order to force them to assume active responsibility in the formation of Germany's foreign policy. Foreign Minister Stresemann, in the course of a lengthy defense of his exposure of the nationalists as members of the government, has stated that since this party acknowledged the London agreement was a binding pact, it was fairly entitled to participate in the government, especially as the nationalists, in his opinion, are not always dependable when questions of foreign policy await decision.

NOTIFY GERMANY.

PARIS, Dec. 27 (AP)—Germany's alleged violations of the treaty of Versailles in respect to armaments were registered today by the allied council of ambassadors.

The council instructed its secretary to draft a note notifying the German government that the Cologne bridgehead will not be evacuated as stipulated in the treaty January 10.

The allied ambassadors were unanimous in recognizing that Germany is re-arming and that progressive withdrawal from the Rhineland must await further investigation of the interested governments. There was a difference of opinion, however, as to the importance of the treaty violations and the consequent menace to the security of the allies.

Great Britain seemed inclined to minimize the specific cases of violation reported by the military control mission,

## HELD ON LIQUOR CHARGE

Mrs. D. Rogers, Hotel Proprietor, to Answer in District Court to Charge of Illegal Possession.

Mrs. D. Rogers, proprietor of the Grand hotel, Shoshone street west, was by Justice of the Peace Kennedy arraigned at the conclusion of a preliminary hearing in probate court rooms here Saturday afternoon, held under continuing bond to answer in district court to charge of illegal possession of a bottle of liquor that deputy sheriffs testified they had seized in officers of the hotel at an early hour on the morning of December 14, last. Mrs. Rogers was represented at the hearing by Frank L. Stephan of Stephan & North, but no evidence for the defense was offered. Defense counsel recalled several of the state's witnesses for questioning.

## SOCIALISTS AID FRENCH PREMIER

Herriot's Danger of Being Overthrown When Amnesty Bill Comes Up Is Averted.

PARIS, Dec. 27 (AP)—The socialists have rescued Premier Herriot from the possible danger of being overthrown when the amnesty bill comes up in the chamber of deputies. They have agreed to accept the senate's modified version of the measure, even though this fails to meet the socialist party's platform principles.

This decision, which was reached after a vote in a party caucus, is conditional upon Premier Herriot declaring in the chamber that he would make every endeavor to obtain the reinstatement of all the railroad men dismissed by the companies after the 1920 strike and use the pardoning power freely. The senate's amendment to the bill makes this reinstatement optional, contrary to the socialist party desire and the previous action of the chamber, which provided for compulsory reinstatement.

The socialists' decision was followed by a meeting of the officials of all the parties of the left bloc, comprising the government's report, who agreed to follow this program.

## SENATOR THINKS U. S. WAS BESTED AT PARLEY

(Continued from Page 1)

That President Harding and Secretary Hughes were outwitted by the English diplomats is of course certain.

"We should elevate our guns and make our navy the equal of Great Britain's according to the true intent of the agreement. That would make it almost absolutely certain that the two countries would never go to war and with Great Britain and America acting in concert, no other nation could afford to go to war without our approval."

although agreeing that further light must be had on this matter before a final decision is reached. The French and Belgians on the other hand, regarded the alleged discoveries of newly prepared parts for 40,000 machine guns, camouflaged in various ways, as alarming.

## SEEKS APPROVAL OF APPOINTMENT

Action of Bishop Boneo in Argentine Comes as Surprise in Catholic Controversy.

BUENOS AIRES, Dec. 27 (AP)—The action of Bishop Boneo in sending to Foreign Minister Gallardo, for the government's approval, the pontifical document accrediting him as an apostolic administrator of the archdiocese of Buenos Aires, came as a general surprise today. It had been expected by both newspaper and clerical circles that he would persist in his refusal to present the documents and bring to an issue the question of the Argentine government's authority in the present controversy.

A strained situation appeared imminent between the government and the Holy See because of the bishop's disinclination to comply with the formality of presenting his credentials. In a letter accompanying the documents, Bishop Boneo stated that he had consulted qualified advisors and was convinced he not failed in his duty as a bishop and as a citizen.

Moroni Olsen players are to return to Twin Falls under auspices of the Business and Professional Women's club, to present on Friday evening January 2, the Harvard prize play for 1922, "You and I," by Philip Barry. It was announced Saturday evening. The play has been described as being "thoroughly American, witty, bright and up to the times," and increasing numbers of admirers here are expected to greet the Moroni Olsen players on their return.

## BAN ON POTATO IN ENGLAND PROTESTED

(Continued on Page 5, Col. 2)

ment of agriculture was to the effect that the department is always concerned over any restriction of the market for American products. The British Isles normally are potato exporters. It was said, but is importing this year due to a short home crop. It was thought this situation might have caused the embargo to be placed as a protection against the beetle during the importing period.

Transportation of the insect to England from the United States would be largely accidental, it was said by some officials who described the bug as a leaf feeder and as more likely to be present in green stuffs than in potato sacks.

## MAN SOUGHT BY FEDERAL OFFICERS IS TAKEN HERE

William Kidd of Burley, wanted in connection with alleged violation of liquor laws, was arrested here Saturday by Deputy Sheriff E. P. Prater and was held for federal authorities.

Dead storage for cars at four dollars per month at the Idaho Automobile & Supply Co.—adv.

## SNARE MANY ANIMALS

Pelts of 53 coyotes and three lynx that had been trapped on Cedar creek within the past six weeks were displayed Saturday at the sheriff's office here by Guy Craft and J. B. Somers of Dufur, Idaho, who claimed state bounty on these pelts in the total sum of \$140. The pelts, which were returned by the trappers, have a market value of from \$10 to \$15 each, so that the trappers' compensation for the six weeks' work would amount to approximately \$800.

The same men early last month brought in pelts of 36 coyotes that also had been taken on Cedar creek, in support of their claims for the state bounty.

In addition to pelts of animals on which the state pays bounty, these trappers have collected during the present season several excellent badger and muskrat pelts. They are running about 50 traps.

## TEXAS QUARANTINE

PORT WORTH, Texas, Dec. 27 (AP)—A quarantine on poultry against all states was announced today by J. E. Hogg-Scott, chairman of the Texas livestock sanitary commission. The quarantine calls for disinfection of all poultry cars returned by railroads into Texas.

## THE PARENT'S DUTY.

It is the duty of all parents to ascertain if the eyesight of their children is perfect or defective.

When the eyes are defective it becomes a criminal neglect to refuse them proper protection from strain and nerve drama, which often entail mental and physical shortcomings. All these troubles may come from defective eyesight, available by the timely and proper appreciation of glasses. A very thorough and careful examination made at all times and if glasses are not positively required I will tell you so.

## SOCIETY AND CLUBS

Edited by  
MRS. E. B. WILLIAMS  
Phone 396

Miss Grace Bell presented her pupils numbering 40, in recitals Saturday morning and afternoon at her studio on Shoshone street. The program in both were very fine showing splendid application on the part of the pupils and a thorough knowledge of her subject by the teacher.

Miss Mary Wright, a former teacher in the Twin Falls schools, and now in Spokane, is spending the holidays with Miss Martha Lecky and Mrs. Mary Mc Shea.

Miss Edith Ramsey is home from Hollingsham, Wash., where she is employed in the city schools, to spend the holidays with her parents, Mr. and Mrs. Ramsey at their home near Hansen.

On Friday evening the Philanthropic class of the Christian Sunday school entertained the Loyd Sons class at the home of Rev. and Mrs. O. D. Harris on Eleventh avenue east. The rooms were beautifully decorated with the colors and emblems of the Christmas season. A tree bright with many candles and gay with tinsel and holding many amusing toys and trinkets which were distributed by Santa Claus, was a delightful feature of the evening. Christmas games were enjoyed and the singing of some Christmas carols added to the pleasure of the evening. About 50 were in attendance including a number of college students who are home for the holidays. At a late hour a dainty luncheon was served.

CHRISTMAS day was the occasion of a triple celebration when Mr. and Mrs. J. A. Waters entertained at dinner in honor of the wedding anniversary of her brother, Frank Dalmon, and wife and Mr. and Mrs. J. D. Smith of Twin Falls. A sumptuous feast was served to 19 guests seated

at two large beautifully decorated tables. Those present were Mr. and Mrs. J. D. Smith, Mr. and Mrs. Frank Dalmon, Mrs. Cora Krouse, daughter of Mr. Waters, E. B. Smith and daughter, Marjorie of Hanson, Mr. and Mrs. Gova Hoskins and children, Mr. and Mrs. Ben Elder and daughter, William Foster, Gus Hattenhauer and Mr. and Mrs. J. A. Waters.

## HIGH SCHOOL SENIORS TO BE GUESTS AT DANCING PARTY

The Twin Falls County club, composed of students attending the University of Idaho at Moscow, announces that a dance will be given Monday evening of next week at Elks hall in Twin Falls, at which members of the senior classes of Twin Falls county high schools will be guests.

Miss Zenna Rheunshberger and Jack Phillips, who are home from the university for the Christmas vacation, are members of the committee in charge of arrangements for the affair. All alumni of the university, as well as present students are invited and it is stressed that the presence of every high school senior is desired.

## BUILT MAN ACCUSED OF VIOLATING PROHIBITION LAW

R. J. Taylor of Buhl, who, according to John R. Ault, county probation officer, furnished a quart of liquor to a number of boys Friday forenoon, was Saturday arraigned before Judge O. P. Boyan in probate court here on a charge of illegal possession of liquor. Complaint against Taylor was signed by Mr. Ault.

## ANNOUNCEMENTS

The New Year's eve party of the drama and literature department of the Twentieth Century club has been postponed on account of illness.

Oats—No. 2 white feed, December \$4.50, January \$4.50.  
Corn—No. 3 E. Y. shipment, December \$5.50, January \$5.75.

## BUYING SENDS GRAIN LIST TO HIGH MARKS

CHICAGO, Dec. 26 (AP)—In a wave of general buying today the entire grain list went higher than at any time heretofore this year but heavy selling to release profits led to a sudden reaction at the last. Wheat closed at \$1.75, up from \$1.70 to \$1.80 5-8, and December \$1.73 5-8, with corn unchanged to 1-4 to 3-4 up, and provisions showing 25 to 75c advance.

Subzero weather as well as persistent talk about chances of future shortage of breadstuffs supplies appeared to constitute the chief basis for the new buying. Prospects were also enhanced by frigid temperatures until Monday and there were current reports about ice covering large areas of Illinois winter wheat being such a menace that farmers were using tractors to break the coating. At first, however, considerable uncertainty as to the course of prices here was shown on account of the fact that European markets seemed unresponsive to yesterday's advance on this side of the Atlantic. When the fresh upward swing of grain values got well started though,

buying enlarged and the rise continued until wheat had in some cases risen three cents a bushel since yesterday's close. Then selling broadened out in the final dealings and the action of the market was reversed. In this connection it was pointed out that at today's top level the May delivery of wheat was nearly 12c up as compared with last Tuesday.

Corn and oats awayed in sympathy with wheat. Smallness of the receipts of corn here for this season of the year attracted considerable attention. Talk of much higher prices expected in the hog market sent provisions to a new top record for 1924.

Wheat	Open	High	Low	Close
Dec.	177 1/2	179 1/2	177	177 1/2
May	180 1/4	183 1/4	179 1/2	180 1/4
